March 6, 2007

DURHAM, N.H. -- A number of scientists and fishermen involved in the UNH Open Ocean Aquaculture Project will be discussing that venture at the Urban Forestry Center Wednesday, March 14, from 6:30-8:30pm. Located just south of the Isles of Shoals, the project is raising finfish and blue mussels. The public is welcome and there is no charge.

Rich Langan, director of the UNH/NOAA Atlantic Marine Aquaculture Center, will speak at the event as will Andy Lang, a local open ocean mussel farmer. For more information, contact Ken La Valley (603-862-4343, ken.lavalley@unh.edu).
