Accepted Contribution

NAME : Douglas Wilson, Luis F Ochoa
COUNTRY : UK
REGISTRATION NUMBER : N/A

GROUP REF. : C6
PREF. SUBJECT : 1
QUESTION N° : 1.1

Question 1.1:

To what degree is it currently, and will it be in the near future, necessary for TSOs and grid operators, to continuously monitor and predict the operation of distributed generators? What are the goals of active distribution management? How should the regulatory framework be changed in order to have RES participating in provision of ancillary services in the long run? What market frameworks could be applied?
