This statistical bulletin has been produced by the Department for Employment and Learning (DEL) and presents findings from the 2013/14 Destinations of Leavers from Higher Education survey. The survey is carried out 6 months after the students graduate and this bulletin provides information on NI domiciled students qualifying from UK Higher Education Institutions (HEIs) and all students qualifying from NI HEIs.

- 77.6% of NI domiciled full-time leavers from UK HEIs were in employment six months after leaving.
- The average salary of NI domiciled full-time leavers in full-time employment in NI was £19,345. NI domiciled full-time leavers in full-time employment in GB had an average salary of £23,020.
- Full-time leavers from NI HEIs were more likely to be in employment (77.0%) than leavers from English (76.3%), Scottish (73.3%) and Welsh (74.4%) HEIs.
- The unemployment rate of full-time leavers from NI HEIs varied depending on subject area. The rate was highest for those who studied Mass Communications and Documentation (10.3%) and lowest for Medicine & Dentistry leavers (0.4%).

READER INFORMATION

Purpose	Monitor and report on 1) Destinations of NI domiciled leavers from Higher Education Institutions in the United Kingdom, and 2) Destinations of all leavers from Northern Ireland Higher Education Institutions.
Authors	Andrew Bannon, Michael MacNeill, Laura Smyth.
Publication Date	Thursday 27 th August 2015
Reporting Period	Academic Year 2013/14
Publication Issue	18
Statistical Quality	Information detailed in this release has been quality assured by the Higher Education Statistics Authority (HESA) prior to release.
Target Audience	Department for Employment and Learning (DEL), Directors of HE Institutions in Northern Ireland, Board members of HE Institutions, education professionals, academics, media and members of the public interested in the HE sector.

Statistics and Research Branch is responsible for the collection, quality assurance, analysis and publication of timely and accurate information derived from a wide range of statistical information returns supplied by the Further Education Colleges (FECs) across Northern Ireland and the Higher Education Statistics Agency (HESA) focused on Northern Ireland Higher Education Institutions and Northern Ireland domiciled students in attendance at any UK Higher Education Institution. Statistical information is collected routinely from a variety of electronic individual level administrative system.

The Head of Branch is the Principal Statistician, Mrs. Laura Smyth. The Branch aims to present information in a meaningful way and provide advice on its uses to customers in the DEL Committee, Further Education Colleges, Universities, Professional Advisory Groups, policy branches within the DEL, other educational organizations, academia, private sector organizations, charity/voluntary organizations as well as the general public.

The statistical information collected is used to contribute to major exercises such as reporting on the performance of the Higher Education and Further Education sectors, other comparative performance exercises, target setting and monitoring, departmental research projects, development of service frameworks as well as policy formulation and evaluation. In addition, the information is used in response to a significantly high volume of Assembly questions and ad-hoc queries each year.

Information is disseminated through a number of key statistical publications, including: Higher Education enrolments, Higher Education qualifications, Destinations of leavers from Higher Education, Further Education activity, Essential Skills enrolments and outcomes, to name but a few.

A detailed list of these publications is available from:

Website: <http://www.delni.gov.uk/index/statsandresearch.htm>

Section 1 – Destinations of Northern Ireland domiciled leavers from UK Higher Education Institutions (HEIs) in 2013/14

- Six months after leaving, 60.7% of NI domiciled full-time leavers were in full-time work, 11.2% in part-time work, 3.0% primarily in work and also studying and 2.7% primarily studying and also in work – a total of 77.6% in some sort of employment (Table 1b).
- The employment rate of NI domiciled full-time leavers varied depending on subject area studied. The rate was highest for those who studied Veterinary Sciences (100.0%) and Medicine & Dentistry (96.8%) and lowest for those who studied Physical Sciences (60.9%) and Mathematical Sciences (57.7%). However, it is worth noting that 26.8% of leavers from Physical Sciences and 27.6% from Mathematical Sciences were engaged in full-time study (Table 3b).
- Most NI domiciled leavers in employment who studied in Great Britain (GB) did not return to NI to work. Only 35.6% of NI domiciled full-time leavers from GB HEIs in employment were employed in NI. The comparable figure for NI domiciled leavers from NI HEIs is 86.5% (Table 5d).
- The average salary of NI domiciled full-time leavers in full-time employment was £20,540 in 2013/14, with a median of £20,000 (Table 7).

Section 2 – Destinations of leavers from Northern Ireland Higher Education Institutions (HEIs) in 2013/14

- Six months after leaving, 58.9% of full-time leavers from NI HEIs were in full-time work, 11.5% were in part-time work, 3.5% primarily in work and also studying and 3.1% primarily studying and also in work – a total of 77.0% in some sort of employment (Table 13b).
- The unemployment rate of full-time leavers from NI HEIs varied depending on subject area. The rate was highest for those who studied Mass Communications and documentation (10.3%) and lowest for Medicine & Dentistry leavers (0.4%) (Table 16b).
- 86.5% of NI domiciled full-time leavers from NI HEIs in employment were employed in NI, whereas non NI domiciled leavers from NI HEIs are more likely to leave NI to work with only 30.3% of full-time leavers, employed in NI (Table 18d).
- The average salary of full-time leavers from NI HEIs in full-time employment was £20,505 in 2013/14, with a median of £20,000 (Table 20).

The United Kingdom Statistics Authority has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics. Designation can be broadly interpreted to mean that the statistics: meet identified user needs; are well explained and readily accessible; are produced according to sound methods, and are managed impartially and objectively in the public interest. Once statistics have been designated as National Statistics it is a statutory requirement that the [Code of Practice](#) shall continue to be observed.

Coverage

This statistical bulletin has been produced by the Department for Employment and Learning, Northern Ireland (NI) and presents findings from the 2013/14 Destinations of Leavers from Higher Education (DLHE). The DLHE survey is carried out six months after a student leaves Higher Education (HE).

The coverage of the survey has been expanded to include additional HE qualifications and now includes Non-EU domiciled leavers where it was previously restricted to UK and European Union domiciled leavers only. Surveying these leavers was undertaken as a pilot from 2011/12 with a clear distinction that the information collected should not be published until carefully reviewed. These leavers are therefore excluded from this bulletin.

Additionally, there were leavers who obtained postgraduate research qualifications from dormant status (for example those returning to submit a thesis or to retake exams during the reporting period). The destination outcomes of these leavers are considered to be materially different in nature to the outcomes of the other postgraduate research leavers included in the survey so these leavers have been excluded.

For more information on the DLHE survey see the [notes and definitions](#) section. The statistics presented in this bulletin cover a range of topics including, the proportion of students who go into work or unemployment, the proportion of students who leave NI for employment, the average salary level of graduates, the destinations of students from different subject areas and institutions.

Change in HESA Open University Allocation methodology

From 2013/14, HESA have changed the allocation of Open University (OU) students to England, Wales, Scotland and Northern Ireland. Previously all OU enrolments and qualifications were counted as being within England, where the OU has its administrative centre. HESA has decided from their 2013/14 releases onwards that enrolments and qualifications registered at one of the OU's national centres in Wales, Scotland and Northern Ireland will contribute to the totals of those countries where statistics are shown by country of provider.

A full public consultation of NI users of Higher Education Statistics has not been undertaken in terms of this change to the method of allocating OU students. As such, this publication of the Destinations of leavers from Higher Education will retain the old methodology this year but relevant tables using the new allocation method for OU are also included in the report (Annex 2) for comparison.

We plan to do a National Statistics public consultation on the issue later in the year.

Policy and Operational Context

The Minister for DEL has responsibility within the NI Executive and to the NI Assembly for the NI Higher Education Institutions (HEIs) and their students; and for student support for NI-domiciled students in NI and the rest of the UK. The Assembly's DEL Committee has a scrutiny role in regard to these issues.

The current landscape in HE continues to show strong demand, while changes in fee regimes throughout the UK and the effects of the economic recession continue to cause headlines for the HE Sector.

It is within this context that DEL has developed a Higher Education Strategy for Northern Ireland, which aims to promote and sustain the development of an internationally competitive sector, accessible to all who are able to benefit, given the funding available, and meeting the needs of the Northern Ireland economy and wider society. This bulletin forms part of the evidence base informing the implementation of the HE Strategy, and will help shape the Department's future policies.

The Higher Education Strategy for Northern Ireland can be found at the link below:
Graduating to Success - <http://www.delni.gov.uk/graduating-to-success-he-strategy-for-ni.pdf>

Data Collection

The information presented in this statistical bulletin are based on data supplied by the Higher Education Statistics Agency (HESA). HESA is the official agency for the collection of information on publicly funded Higher Education (HE) institutions in the UK. It was set up in 1993 following the White Paper 'Higher Education: a new framework', which called for more coherence in HE statistics. HE institutions include all publicly-funded universities. The HESA data presented in this bulletin relate to students at HE institutions in the UK and therefore do not include HE enrolments at FE colleges in NI or GB, or at institutions in the Republic of Ireland.

Rounding Strategy

To prevent the identification of individuals, figures throughout the report are rounded to the nearest 5, with 0, 1 and 2 rounded to 0. Due to rounding the sum of numbers in each row or column may not match the total shown. Percentages have been based on unrounded figures. Percentages have also been rounded to one decimal place.

Data Quality

All information presented in this bulletin has been validated and quality assured by HE institutions prior to publication. HE institutions are given a set period of time to submit the information to the Higher Education Statistics Agency (HESA). Following submission, both HESA and DEL perform a series of validation checks to ensure that information is consistent both within and across returns. Trend analyses are used to monitor annual variations and emerging trends. Queries arising from validation checks are presented to HE institutions for clarification and if required, returns may be amended and/or re-

submitted. Finally, prior to publication of this information the data is presented to HE institutions for a final sign-off. More detail on the Quality of the Higher Education statistics is available via the link [Quality of Higher Education Statistics](#).

Who will be interested?

The information presented in this statistical bulletin will be of interest to a wide variety of people. For example the statistics within and those derived from this bulletin are currently used by DEL policy officials in their role of assisting and advising the Minister for DEL to discharge his duties; by the NI Assembly and DEL committee to scrutinise the HE sector; by other government departments such as the Department of Education to monitor the destination of teaching graduates; by prospective students to inform their choices around higher education; by local businesses to quantify the supply of graduates in their business area and by researchers and academics to try and understand the underlying trends in HE. Further details about the uses made of HE statistics can be found in the [notes and definitions](#) section.

Structure of Bulletin

The bulletin is divided into two sections. Section 1 focuses on the destinations of NI domiciled students who gained a qualification at a HEI in NI, England, Scotland or Wales. Section 2 concentrates on the destinations of all NI, GB and other EU students who gained a qualification at a NI HEI. This division into two sections reflects the two distinct policy and operational responsibilities of the Minister and the Department. Furthermore, it is clear from customer feedback, the nature of questions on HE asked in the Northern Ireland Assembly, and coverage of HE issues in the local media, for example, that these two aspects are of interest to readers. Therefore it has been decided to present breakdowns of information on HE along these two dimensions in this bulletin.

HE Activity Elsewhere

Summary figures for the four UK administrations were published by HESA in their Statistical First Release on 24th June 2015. The figures in the HESA summary figures are not directly comparable to the figures in this bulletin as they are using the new methodology for Open University allocation (as outlined [above](#)).

This SFR can be found at the following link:

<https://www.hesa.ac.uk/content/view/2077/239/>

SECTION 1: Destinations of Northern Ireland domiciled leavers from UK Higher Education Institutions in 2013/14 (Tables 1a to 12b)

This section presents the findings for NI students who qualified from a HEI in NI, England, Scotland or Wales in 2013/14. Tables relating to this section can be found in [Annex 1](#).

1.1 Destinations six months after leaving

1.1.1 Destinations by mode, level, gender & location of institution – 2013/14 (Tables 1a-2b, Chart 1)

Full-time leavers

- Six months after leaving, 60.7% of NI domiciled full-time leavers were in full-time work, 11.2% in part-time work, 3.0% primarily in work and also studying and 2.7% primarily studying and also in work – a total of 77.6% in some sort of employment¹.
- A further 11.8% of leavers were in full-time study, 0.6% in part-time study, 5.0% unemployed, 1.0% due to start work and 3.9% of leavers were engaged in other activities.
- Gender – NI domiciled full-time male leavers (75.1%) were less likely to be in employment than their female counterparts (79.5%). Males (6.7%) were more likely to be unemployed than females (3.7%).
- Level of study – 76.8% of NI domiciled full-time first degree leavers were in employment compared to 58.1% of other undergraduate and 85.9% of postgraduate leavers. First degree (12.2%) and other undergraduate (30.3%) leavers were more likely to be in full-time study than postgraduate (5.8%) leavers (Chart 1).

¹ See definition point 17

- Location of Institution – The employment rate of NI domiciled full-time leavers differ relatively little depending on the location of their institution; 77.3% of those from NI HEIs were in employment, compared to 78.3% from English HEIs, 78.6% from Scottish HEIs and 73.2% from Welsh HEIs. Unemployment rates were lower for NI domiciled full-time leavers from Scottish HEIs (3.7%) compared to those from NI (5.1%), English (4.9%) and Welsh (8.9%) HEIs.

Part-time leavers

- Six months after leaving higher education, 63.7% of NI domiciled leavers who had studied part-time were in full-time work, 10.2% in part-time work, 9.1% primarily in work and also studying and 1.9% primarily studying and also in work – a total of 84.8% in employment.
- A further 4.4% of leavers were in full-time study, 2.4% in part-time study, 2.6% unemployed and 5.4% of leavers were engaged in other activities.
- Gender – 84.0% of NI domiciled female part-time leavers were in employment compared to 86.0% of males. Males (68.9%) were also more likely to be in full-time work than females (60.1%), with females more likely to be in part-time work (13.4%) than males (5.5%).
- Level of study – 79.5% of NI domiciled part-time first degree leavers were in employment compared to 81.2% of other undergraduate and 89.7% of postgraduate leavers. First degree (5.7%) and other undergraduate (2.1%) leavers were more likely to be unemployed than postgraduate (1.2%) leavers.
- Location of Institution² – The employment rate of NI domiciled part-time leavers were relatively high across all locations of institutions; 85.5% of those from NI HEIs were in employment, 82.6% from English HEIs and 80.6% from Scottish HEIs. Unemployment rates were similar for NI domiciled part-time leavers from each country of institution; Scottish (2.8%) HEIs, English (2.2%) and NI (2.8%) HEIs.

² The number of NI domiciled part-time leavers from Welsh HEIs was too small to allow reliable comparison of employment and unemployment rate.

1.1.2 Destinations by subject area studied (Tables 3a and 3b, Chart 2)

Full-time leavers

- Chart 2 below displays how the destinations of NI domiciled full-time leavers, six months after leaving Higher Education, vary depending on the subject area studied³. The proportion in employment was highest for those who studied Veterinary Sciences (100.0%), Medicine & Dentistry (96.8%), Education (88.9%) and Subjects Allied to Medicine (86.8%).

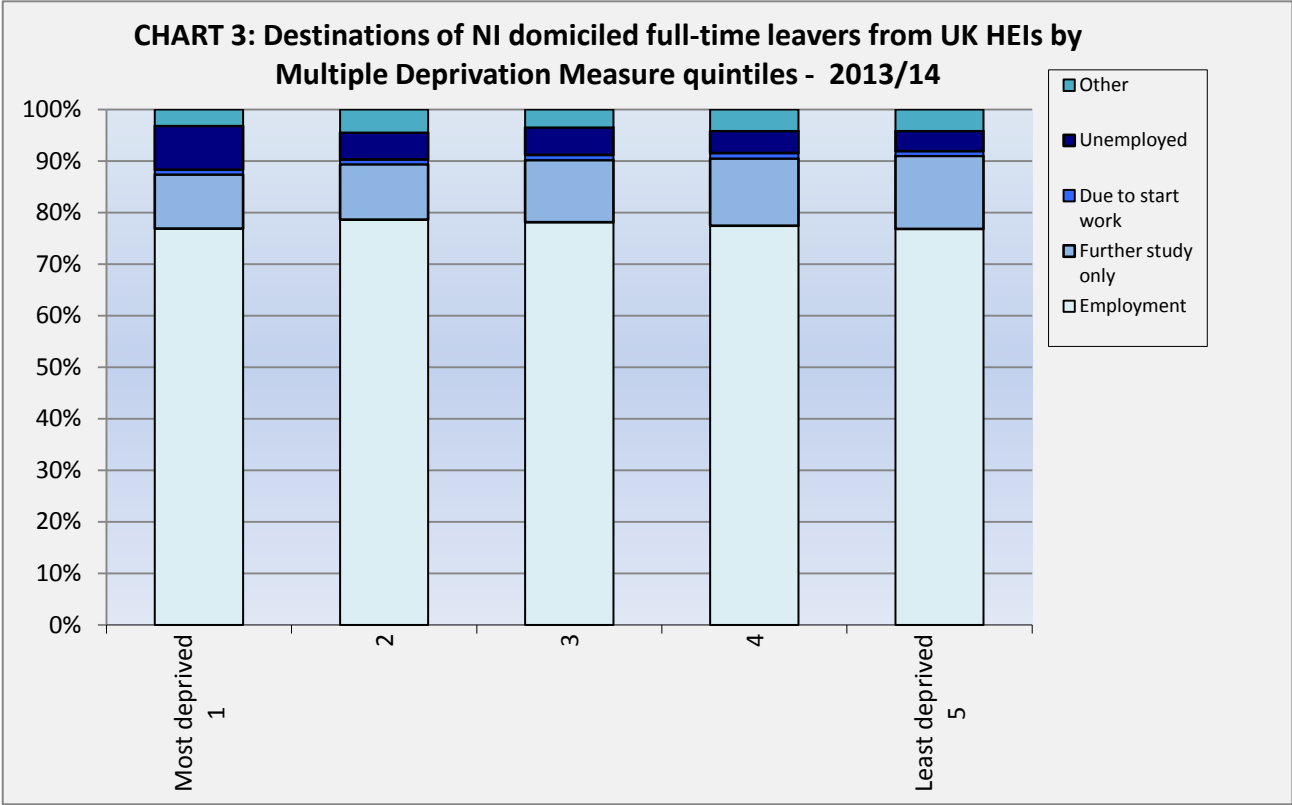

- The subject areas with the lowest proportion of NI domiciled full-time leavers in employment include Mathematical Sciences (57.7%), Physical Sciences (60.9%) and Languages (64.8%). However, it is worth noting that these subjects had some of the highest proportion of students going into further study only. For example, 28.2% of Mathematical Science leavers were in this category.
- The unemployment rate was highest for NI domiciled full-time leavers who studied Mass Communications & Documentation (9.3%), Computer Science (9.1%) and Historical and Philosophical Studies (7.2%). An unemployment rate of 0.0% was recorded for Veterinary Sciences leavers and 0.2% for Medicine & Dentistry leavers.
- The employment rate for NI domiciled full-time leavers who studied a Broad STEM related subject was 78.3%, whereas the employment rate for NI domiciled full-time leavers who studied a Narrow STEM related subject was 71.1%.

³ The number of NI domiciled full-time leavers from 'Combined Studies' was too small to allow reliable comparison of employment or unemployment.

1.1.3 Destinations by multiple deprivation measure (Tables 4a and 4b, Chart 3)

Full-time leavers

- The employment rate was relatively similar across multiple deprivation quintiles. Of all NI domiciled full-time leavers from the least deprived multiple deprivation area in NI (quintile 5) who studied at UK HEIs, 76.8% were in some form of employment; this compares to 76.9% of leavers from quintile 1 (most deprived) and 78.6% of leavers from quintile 2.
- The unemployment rate was highest (8.5%) for NI domiciled full-time students from the most deprived multiple deprivation area in NI (quintile 1) and lowest (3.9%) for those in the least deprived multiple deprivation area in NI (quintile 5).
- NI domiciled full-time leavers in the least deprived multiple deprivation area in NI (quintile 5) who studied at UK HEIs (14.2%) were most likely to be in further study only, compared to 10.5% for the most deprived multiple deprivation area in NI (quintile 1).

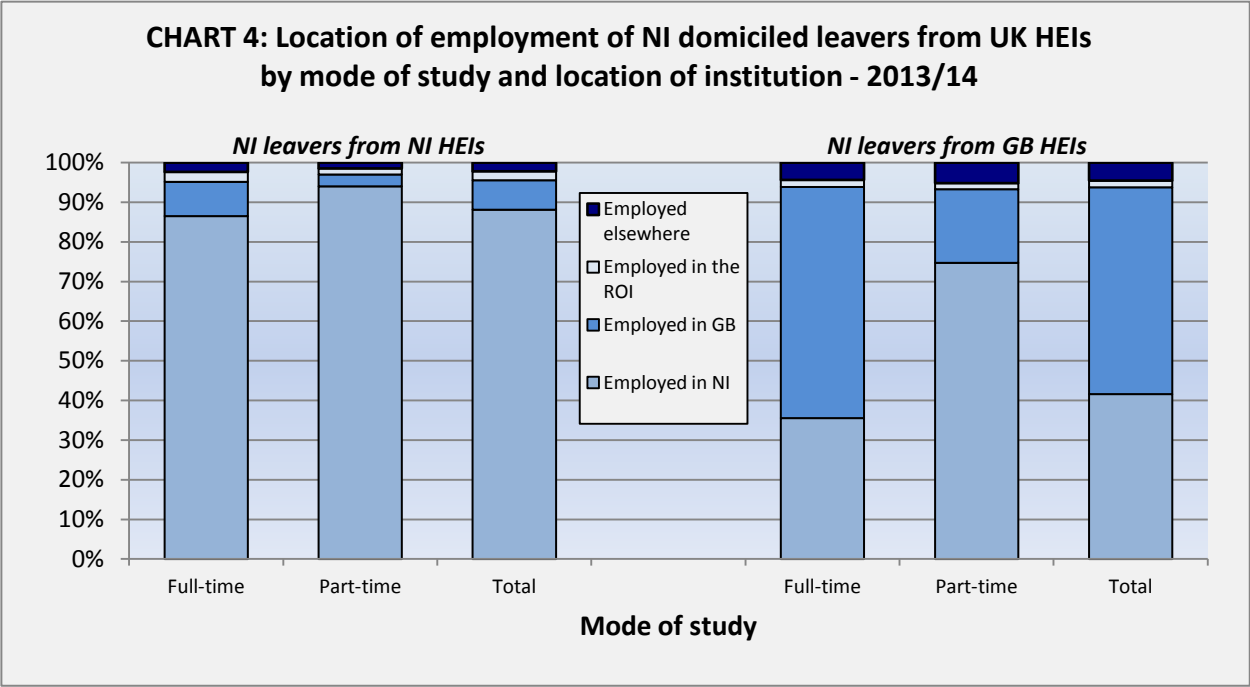

1.2 Employment

Employment includes all those leavers in full-time work, part-time work, primarily in work and also studying, primarily studying and also in work.

1.2.1 Location of Employment (Tables 5a-g, Chart 4)

Full-time leavers

- Of those NI domiciled full-time leavers from UK HEIs in employment six months after leaving, 69.3% were employed in NI, 25.5% in GB, 2.2% in ROI and 3.1% elsewhere. However, large differences were observed between those who studied in NI and those who studied in GB.
- Location of institution⁴ – Most NI domiciled leavers in employment who studied in Great Britain (GB) did not return to NI to work. Only 35.6% of NI domiciled full-time leavers from GB HEIs in employment were employed in NI (58.3% in GB; 1.7% in ROI; and 4.4% elsewhere). The comparable figures for NI domiciled full-time leavers from NI HEIs are 86.5% employed in NI, 8.7% in GB, 2.5% in ROI and 2.4% elsewhere.

- Gender – 70.2% of NI domiciled full-time female leavers in employment were employed in NI, compared to 68.0% of males.
- Level of study – 70.8% of NI domiciled full-time first degree leavers in employment were employed in NI, compared to 65.7% of other undergraduates and 62.8% of postgraduates.

⁴ Excludes Open University as they are all Part-time for NI Domiciled leavers.

Part-time leavers

- The majority (89.1%) of NI domiciled part-time leavers in employment after six months were employed in NI, 7.0% in GB, 1.6% in ROI and 2.4% elsewhere.
- Location of institution – 94.0% of NI domiciled part-time leavers from NI HEIs in employment were employed in NI, compared to 74.8% of NI domiciled part-time leavers from GB HEIs (including OU).
- Gender – 91.2% of NI domiciled part-time female leavers in employment were employed in NI compared to 86.2% of males.
- Level of study – 90.8% of NI domiciled part-time first degree leavers in employment were employed in NI, compared to 93.9% of other undergraduates and 85.8% of postgraduates.

1.2.2 Standard Occupational Classification (SOC) (Tables 6a and 6b)

Full-time leavers

- Of those entering employment 6 months after leaving, 71.6% of NI domiciled full-time leavers took up positions in the top three SOC groups (Managers & Senior Officials, Professional Occupations or in Associate Professional & Technical Occupations).
- Gender – NI domiciled full-time males (74.0%) in employment were slightly more likely to be employed in the top three SOC groups than their female (70.0%) counterparts.
- Level of study – 69.0% of NI domiciled full-time first degree leavers in employment were employed in the top three SOC groups, compared to 50.7% of other undergraduates and 86.4% of postgraduates.

Part-time leavers

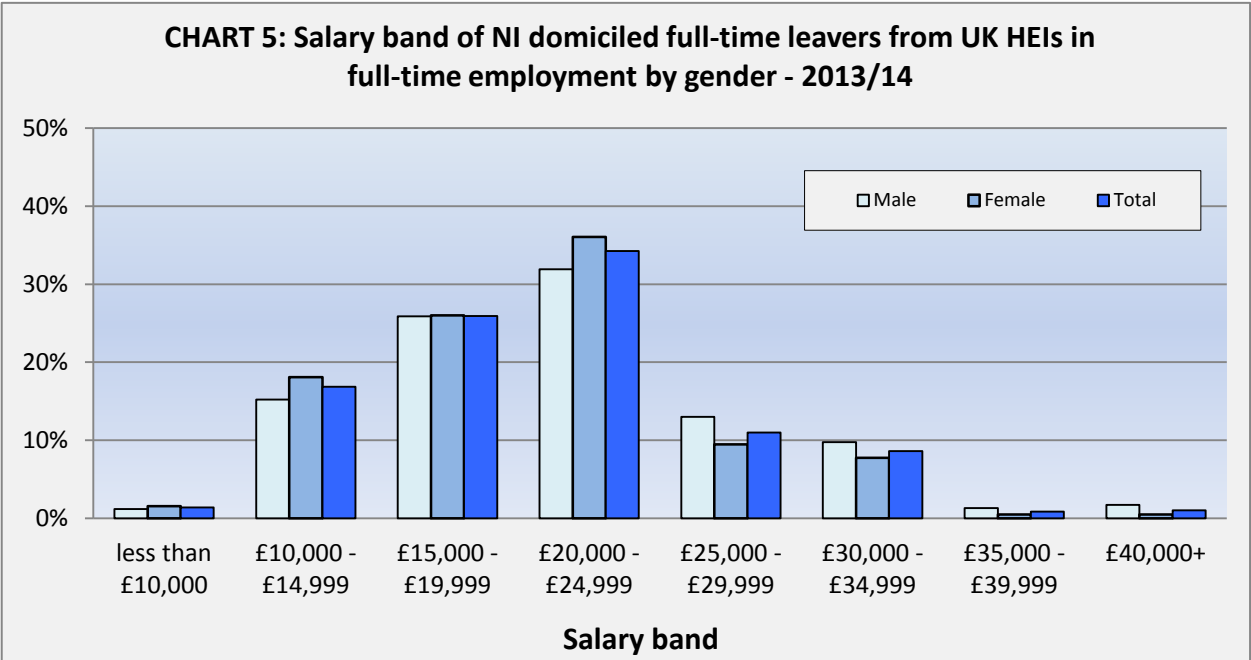

- Of those entering employment 6 months after leaving, 81.5% of NI domiciled part-time leavers took up positions in the top three SOC groups (Managers & Senior Officials, Professional Occupations or in Associate Professional & Technical Occupations).
- Gender – NI domiciled part-time males (85.8%) in employment were slightly more likely to be employed in the top three SOC groups than their female (78.4%) counterparts.
- Level of study – 65.2% of NI domiciled part-time first degree leavers in employment were employed in the top three SOC groups, compared to 73.7% of other undergraduates and 93.4% of postgraduates.

1.2.3 Salary of those in Full-time employment (Tables 7 - 10, Chart 5)

Salary is not a mandatory question in the DLHE survey resulting in a high non-response rate. Leavers in full-time employment whose salary was unknown have been excluded from the analysis; this represents 34.2% of those respondents in full-time employment. Caution should therefore be taken when using these figures.

Full-time leavers

- 6 months after leaving, the average salary of NI domiciled full-time leavers in full-time employment was £20,540 with a median⁵ of £20,000.
- Gender – NI domiciled full-time male leavers in full-time employment had an average salary of £21,200 (median £20,000). The equivalent figure for females was £20,035 (median £20,000).

- Level of study – The average salary of NI domiciled full-time first degree leavers in full-time employment was £20,080 (median £20,000), compared to other undergraduates - £19,315 (median £20,000) and postgraduates - £22,740 (median £22,000).
- Location of institution - NI domiciled full-time leavers from NI HEIs in full-time employment had an average salary of £20,265 (median £20,000). The equivalent figure for NI domiciled full-time leavers from GB HEIs was £21,075 (median £21,000).
- Location of employment – The average salary of NI domiciled full-time leavers in full-time employment in NI was £19,345 (median £19,000). NI domiciled full-time leavers in full-time employment in GB had an average salary of £23,020 (median £23,000).

⁵ The median is the value lying at the midpoint.

£22,000). This difference is consistent with findings from DETI's NI annual survey of hours and earnings. This survey reports that in April 2014 full-time employees in NI had the lowest median gross weekly earnings across the UK regions at approximately 88.2% of the UK figure.

- Standard Occupational Classification – The average salary of NI domiciled full-time first degree leavers in full-time employment was lowest for those in the Elementary Occupation Classification - £12,660 (median £12,500) and Caring, Leisure and Other Service - £13,400 (median £13,000) and highest for those in Professional Occupations - £22,550 (median £22,000).

Part-time leavers

- 6 months after leaving, the average salary of NI domiciled part-time leavers in full-time employment was £30,775 (median £28,000).
- Gender – NI domiciled part-time male leavers in full-time employment had an average salary of £33,925 (median £30,000). The equivalent figure for females was £28,250 (median £27,000).
- Level of study – The average salary of NI domiciled part-time first degree leavers in full-time employment was £25,270 (median £23,000), compared to other undergraduates - £25,705 (median £24,000) and postgraduates - £35,355 (median £32,000).

1.3 Further Study (Tables 11a – 12b)

Further study includes all those leavers primarily in work and also studying, primarily in study and also in work, full-time study and part-time study.

Full-time Leavers

- Just under a fifth (18.2%) of NI domiciled full-time leavers were in further study six months after leaving. Of those, 72.9% were studying for a postgraduate qualification, 9.6% for a first degree, 4.9% for other diplomas or certificates, 7.7% for a professional qualification, 4.1% for other qualifications and 0.7% not aiming for a qualification.
- Level of study – 18.9% of NI domiciled full-time first-degree leavers were in further study compared to 42.7% of other undergraduates and 9.5% of postgraduates. Of those in further study, first degree leavers were most likely to be studying for a postgraduate qualification (78.7%); other undergraduates were most likely to be studying for a first degree (78.7%) and postgraduates were most likely to be studying for another postgraduate qualification (72.9%).

SECTION 2: Destinations of leavers from Northern Ireland Higher Education Institutions in 2013/14 (Tables 13a to 25b)

This section presents the findings for students who qualified from a NI HEI in 2013/14. Tables relating to this section can be found in [Annex 1](#).

2.1 Destinations six months after leaving

2.1.1 Destinations by mode, level, gender, domicile and Institution (Tables 13a-15b, Chart 6)

Full-time leavers

- Six months after leaving, 58.9% of full-time leavers from NI HEIs were in full-time work, 11.5% were in part-time work, 3.5% primarily in work and also studying and 3.1% primarily studying and also in work – a total of 77.0% in some sort of employment.
- An additional 12.3% of leavers were in full-time study, 0.6% in part-time study, 5.3% unemployed, 1.0% due to start work and 3.8% of leavers were engaged in other activities.
- Gender – six months after leaving, 74.8% of full-time male leavers from NI HEIs were in employment compared to 78.6% of females. Males (7.0%) were more likely to be unemployed than females (4.1%).
- Level of study – six months after leaving, 76.5% of full-time first degree leavers from NI HEIs were in employment compared to 53.1% of other undergraduates and 82.7% of postgraduates. First degree leavers (12.7%) and other undergraduates (36.7%) were more likely to be in full-time study than postgraduates (6.8%).

- Country of domicile - NI domiciled full-time leavers from NI HEIs were more likely to be in employment six months after leaving (77.3%) than GB domiciled (69.6%) and ROI domiciled (74.2%) full-time leavers from NI HEIs.
- Institution - Full-time leavers from Ulster University (UU) (80.2%), Stranmillis (79.0%), and St Mary's (74.6%) were more likely to be in employment six months after leaving than those from Queen's University, Belfast (QUB) (73.5%).

QUB (16.2%) and St Mary's full-time leavers (19.9%) were more likely to undertake full-time study than those from Stranmillis (15.2%) and UU (8.1%).

The unemployment rate of full-time leavers was highest at UU (6.6%). St Mary's (2.5%) and Stranmillis (1.9%) experienced low rates while QUB was slightly higher at 4.3%.

Part-time leavers

- Of all part-time leavers from NI HEIs 6 months after leaving, 66.5% were in full-time work, 9.3% in part-time work, 9.1% primarily in work and also studying and 1.1% primarily studying and also in work – a total of 86.0% in employment.
- The rest of the part-time leavers were in full-time study (4.4%), part-time study (2.0%), or unemployed (3.0%), with 4.3% of leavers engaged in other activities.
- Gender – six months after leaving, 85.6% of part-time female leavers from NI HEIs were in employment compared to 86.6% of males. Males (70.3%) were more likely to be in full-time work than females (64.1%), with females more likely to be in part-time work (12.0%) than males (5.0%).
- Level of study – six months after leaving, 81.6% of part-time first degree leavers from NI HEIs were in employment compared to 81.8% of other undergraduates and 89.6% of postgraduates. First degree leavers (5.8%) and other undergraduates (3.8%) were more likely to be unemployed than postgraduates (1.5%).
- Country of domicile - GB domiciled (91.0%) part-time leavers from NI HEIs were more likely to be in employment six months after leaving than NI domiciled (85.5%) and ROI domiciled (85.4%) part-time leavers from NI HEIs.
- Institution⁶ - Part-time leavers from the University of Ulster (87.9%) and Queen's University, Belfast (83.7%) were more likely to be in employment six months after leaving than those from Stranmillis (33.3%).

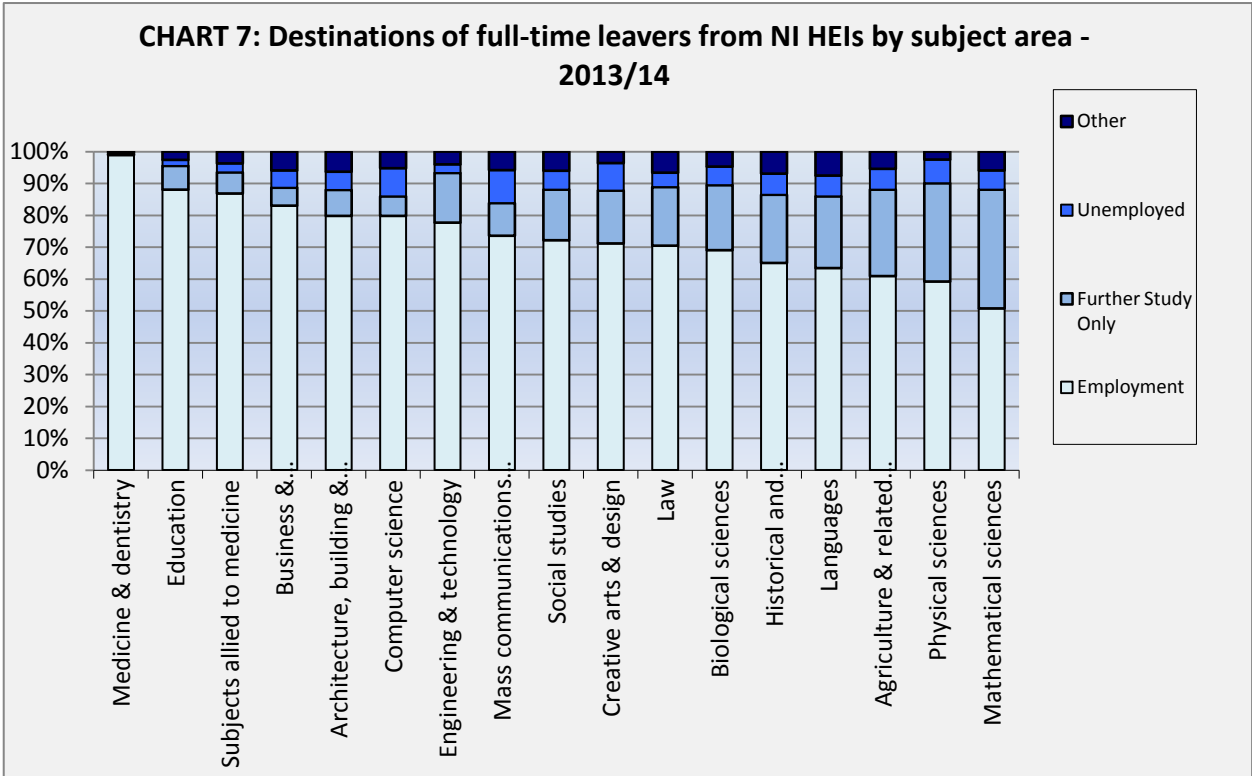

Stranmillis (57.6%) part-time leavers were more likely to undertake full-time study than those from QUB (7.6%) and UU (2.3%).

⁶ The number of part-time leavers from St Mary's was too small to allow reliable comparison of employment or full-time study.

2.1.2 Destinations by subject area studied (Tables 16a and 16b, Chart 7)

Full-time leavers

- 6 months after leaving, the subject areas with the highest proportion of full-time leavers from NI HEIs in employment were Medicine & Dentistry (98.9%), Education (88.0%) and Subjects Allied to Medicine (86.8%).
- The subject areas with the lowest proportion of full-time leavers from NI HEIs in employment were Mathematical Sciences (50.7%), Physical Sciences (59.2%), Agriculture and Related Subjects (60.9%) and Languages (63.4%). However, these subjects had some of the highest proportion of leavers going into further study only. For example 37.3% of Mathematical Sciences students were recorded in this category.
- The unemployment rate was highest for full-time leavers from NI HEIs who studied Mass Communication & Documentation (10.3%), Computer Science (8.9%) and Creative Arts & Design (8.6%). An unemployment rate of 0.4% was recorded for Medicine & Dentistry leavers.

- The employment rate for full-time leavers from NI HEIs who had studied a Broad STEM related subject was 78.5%, whereas the employment rate for full-time leavers from NI HEIs who studied a Narrow STEM related subject was 71.8%.

2.1.3 Destinations - UK comparison (Tables 17a and 17b)

Full-time leavers

- Full-time leavers from NI HEIs were more likely to be in employment 6 months after leaving (77.0%) than leavers from English (76.3%), Scottish (73.3%) and Welsh (74.4%) HEIs. However, full-time leavers from NI HEIs (5.3%) and English HEIs (5.3%) were also more likely to be unemployed than their counterparts from Welsh (4.8%) and Scottish (4.9%) HEIs.
- Full-time leavers from Scottish HEIs (15.9%) were more likely to be in full-time study, compared to 12.3% from NI HEIs, 12.4% from English HEIs and 14.7% from Welsh HEIs.

Part-time leavers

- 86.0% of part-time leavers from NI HEIs were in employment, compared to 85.6% from English HEIs, 84.4% from Scottish HEIs and 89.2% from Welsh HEIs.
- Part-time leavers from NI HEIs (3%), were more likely to be unemployed than those from English (2.5%), Scottish (1.9%) and Welsh (2.1%) HEIs.

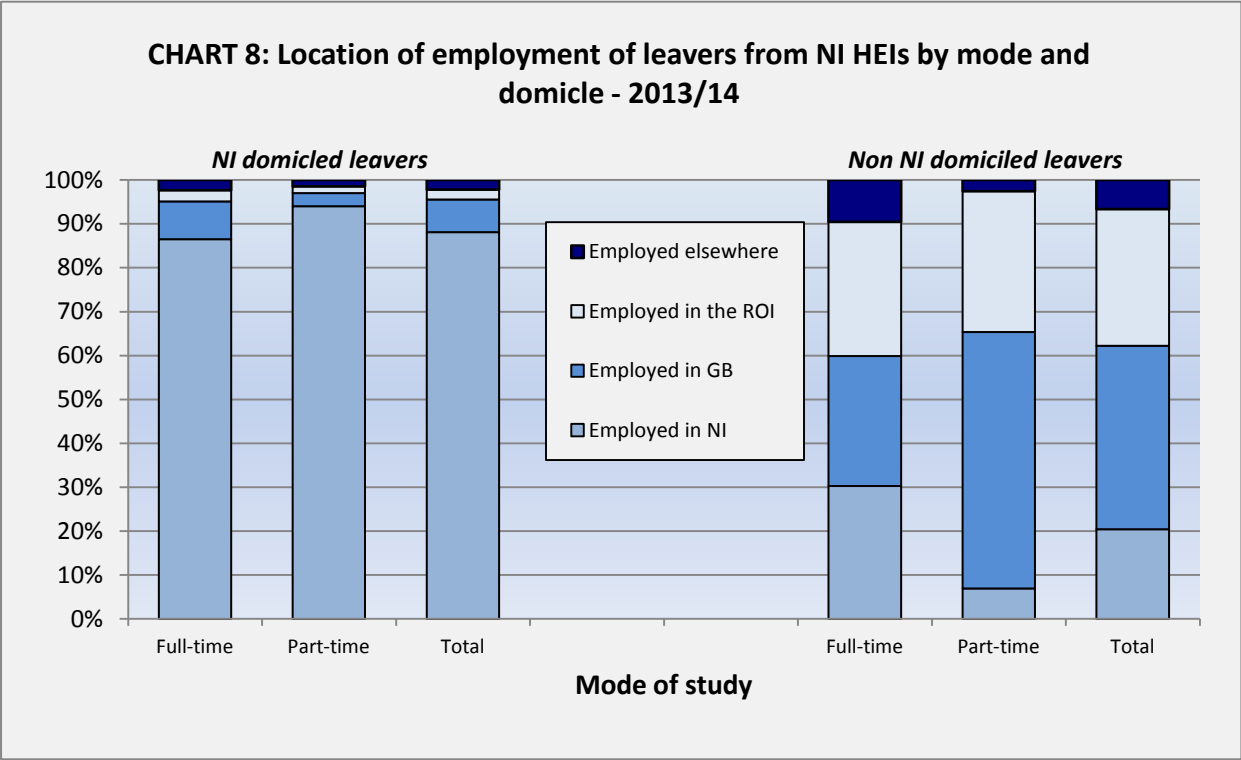

2.2 Employment

Employment includes all those leavers in full-time work, part-time work, primarily in work and also studying, primarily studying and also in work.

2.2.1 Employment - Location of Employment (Tables 18a-g, Chart 8)

Full-time leavers

- Of those full-time leavers from NI HEIs in employment six months after leaving, 82.4% were employed in NI, 10.2% in GB, 4.6% in ROI and 2.8% elsewhere.
- Country of domicile – Approximately 86.5% of NI domiciled full-time leavers from NI HEIs in employment were employed in NI, 8.7% in GB, 2.5% in ROI and 2.4% elsewhere. The comparable figures for non NI domiciled leavers from NI HEIs are 30.3% employed in NI, 29.6% in GB, 30.5% in ROI and 9.6% elsewhere.
- Gender – 83.4% of full-time female leavers from NI HEIs in employment were employed in NI, compared to 80.9% of males.
- Level of study – 84.4% of full-time first degree leavers from NI HEIs in employment were employed in NI, compared to 91.3% of other undergraduates and 73.3% of postgraduates.

Part-time leavers

- Over three quarters (78.8%) of part-time leavers from NI HEIs in employment after six months were employed in NI, 12.7% were employed in GB, 6.9% in ROI and 1.6% elsewhere.
- Country of domicile – 94.0% of NI domiciled part-time leavers from NI HEIs in employment were employed in NI, compared to 7.0% of non NI domiciled part-time leavers from NI HEIs.
- Gender – 81.1% of part-time male leavers from NI HEIs in employment were employed in NI, compared to 77.3% of females.
- Level of study – 88.6% of part-time first degree leavers from NI HEIs in employment were employed in NI, compared to 82.7% of other undergraduates and 73.5% of postgraduates.

2.2.2 Employment – Standard Occupational Classification (SOC) (Tables 19a and 19b)

Full-time leavers

- Of those entering employment 6 months after leaving, 71.0% of full-time leavers from NI HEIs took up positions in the top three SOC groups (Managers & Senior Officials, Professional Occupations or in Associate Professional & Technical Occupations).
- Gender – 74.1% of full-time male and 68.9% of full-time female leavers from NI HEIs in employment were employed in the top three SOC groups.
- Level of study – 68.9% of full-time first degree leavers from NI HEIs in employment were employed in the top three SOC groups, compared to 35.6% of other undergraduates and 83.4% of postgraduates.

Part-time leavers

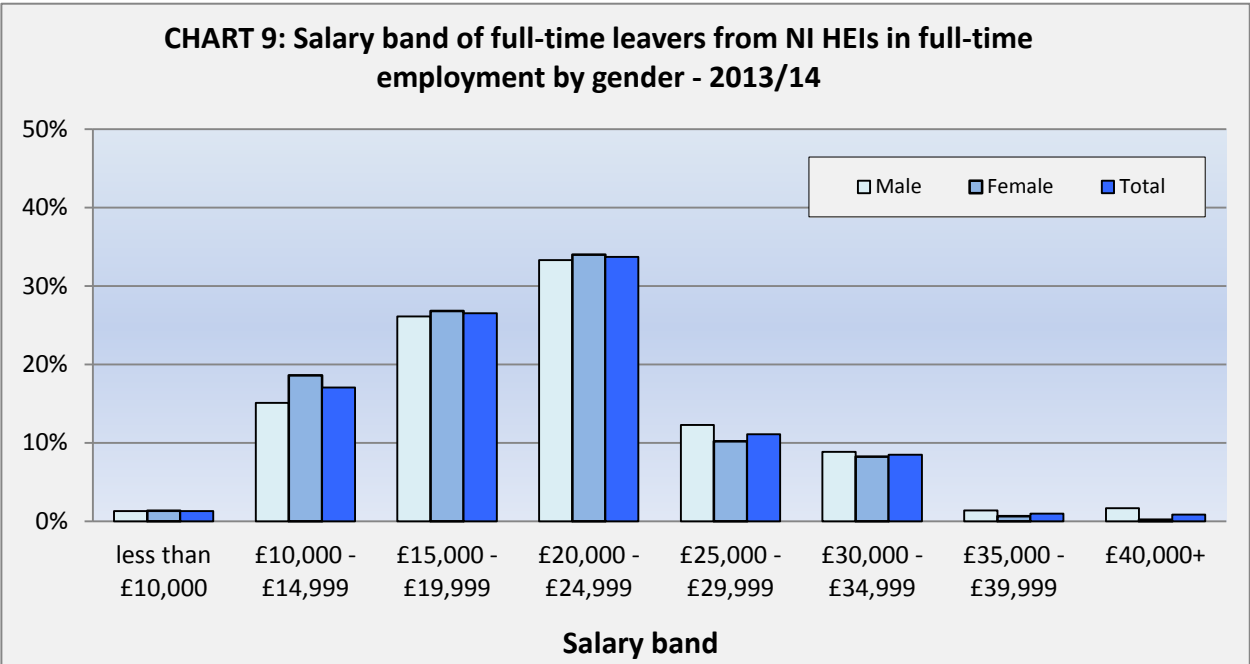

- Of those entering employment, 86.0% of part-time leavers from NI HEIs took up positions in the top three SOC groups (Managers & Senior Officials, Professional Occupations or in Associate Professional & Technical Occupations).
- Gender – 88.2% of part-time male and 84.5% of part-time female leavers from NI HEIs in employment were employed in the top three SOC groups.
- Level of study – 68.5% of part-time first degree leavers from NI HEIs in employment were employed in the top three SOC groups, compared to 82.7% of other undergraduates and 93.7% of postgraduates.

2.2.3 Employment – Salary of those in Full-time employment (Tables 20-23, Chart 9)

Salary is not a mandatory question in the DLHE survey resulting in a high non-response rate. Leavers in full-time employment whose salary was unknown have been excluded from the analysis; this represents 33.8% of those respondents in full-time employment. Caution should therefore be taken when using these figures.

Full-time leavers

- 6 months after leaving, the average salary of full-time leavers from NI HEIs in full-time employment was £20,505 with a median of £20,000.
- Gender – Full-time male leavers from NI HEIs in full-time employment had an average salary of £21,110 (median £20,000). The equivalent figure for females was £20,025 (median £20,000).

- Level of study – The average salary of full-time first degree leavers from NI HEIs in full-time employment was £20,020 (median £20,000), compared to postgraduates - £22,730 (median £22,000). The number of full-time other undergraduates was too small to allow reliable comparison of salary.
- Country of domicile - NI domiciled full-time leavers from NI HEIs in full-time employment had an average salary of £20,265 (median £20,000). The equivalent figure for GB domiciled full-time leavers from NI HEIs was £21,205 (median £20,500), although the GB domiciled figures are based on small numbers in comparison to the NI domiciled.
- Location of employment – The average salary of full-time leavers from NI HEIs in full-time employment in NI was £19,600 (median £19,000). Full-time leavers from NI HEIs in full-time employment in GB had an average salary of £24,855 (median £24,000). This difference is consistent with findings from DETI’s NI annual survey of hours and earnings. This survey reports that in April 2014 full-time employees

in NI had the lowest median gross weekly earnings across the UK regions at approximately 88.2% of the UK figure.

- Standard Occupational Classification – The average salary of full-time first degree leavers from NI HEIs in full-time employment was lowest for those in the Elementary Occupation Classification - £13,375 (median £12,750) and highest for those in Professional Occupations - £22,255 (median - £22,000).

Part-time leavers

- 6 months after leaving, the average salary of part-time leavers from NI HEIs in full-time employment was £31,220 (median £29,000).
- Gender – Part-time male leavers from NI HEIs in full-time employment had an average salary of £33,370 (median £30,000). The equivalent figure for females was £29,690 (median £28,000).
- Level of study – The average salary of part-time first degree leavers from NI HEIs in full-time employment was £25,310 (median £23,000), compared to other undergraduates - £25,075 (median £24,000) and postgraduates - £35,040 (median £32,000).

2.3 Further Study (Tables 24a – 25b)

Further study includes all those leavers primarily in work and also studying, primarily in study and also in work, full-time study and part-time study.

Full-time leavers

- Just under a fifth (19.5%) of full-time leavers from NI HEIs were in further study six months after leaving. Of those, 74.7% were studying for a postgraduate qualification, 8.7% for a first degree, 5.0% for other diplomas or certificates, 6.7% for a professional qualification, 4.3% for other qualifications and 0.7% not aiming for a qualification.
- Level of study – 20.3% of full-time first-degree leavers from NI HEIs were in further study compared to 54.1% of other undergraduates and 10.3% of postgraduates. Of those in further study, first degree leavers were most likely to be studying for a postgraduate qualification (79.5%), while other undergraduates (77.7%) were most likely to be studying for a first degree qualification and postgraduates were most likely to be studying for another postgraduate qualification (74.7%).

General

1. This statistical bulletin has been produced by the Department for Employment and Learning, Northern Ireland (NI), using data collected by the Higher Education Statistics Agency (HESA) through the annual Destination of Leavers from Higher Education (DLHE) survey. The DLHE survey is carried out six months after students leave HE.
2. The bulletin is divided into two sections. Section 1 focuses on destinations of NI domiciled students who gained qualifications at Higher Education Institutions (HEIs) in NI, England, Scotland and Wales (UK) and Section 2 concentrates on destinations of all students who gained qualifications at NI HEIs. NI domiciled students at NI HEIs are included in both sections, accounting for 66.9% of Section 1 and 88.3% of Section 2.
3. HESA - The Higher Education Statistics Agency (HESA) is the official agency for the collection of information on publicly funded Higher Education institutions (HEIs) in the UK. It was set up in 1993 following the white paper "Higher Education: a new framework", which called for more coherence in Higher Education statistics. HEIs include all publicly funded universities. HESA data do not include enrolments at Further Education colleges in Northern Ireland or Great Britain, or enrolments at institutions in the Republic of Ireland.
4. DLHE survey – This Statistical Bulletin is based on data returned to HESA in respect of the new version of the 'Destinations of Leavers from Higher Education (DLHE) survey. The DLHE survey carried out annually was re-designed to collect richer information from leavers particularly regarding their activities on the survey date. From 2011/12 onwards Leavers now report all the activities that they are undertaking on the census date and then indicate which one they consider to be most important to them. From these responses, destination categories are derived taking into account the most important activity and, in some instances, other activities the leaver is involved in. HESA released a publication on the 2013/14 DLHE on 25th June 2015, providing a high level UK analysis. The HESA report can be downloaded from the HESA website at: <https://www.hesa.ac.uk/sfr217>
5. Target population – The HESA DLHE report's target population includes all UK and European Union domiciled leavers at a UK HEI and who obtained relevant qualifications (see note 10) reported to HESA for the reporting period 1st August 2013 to 31st July 2014. The coverage of the survey was expanded to include additional HE qualifications and now includes Non-EU domiciled leavers as part of a pilot. Surveying these leavers was undertaken with a clear distinction that the information collected should not be published until carefully reviewed.
6. Exclusions - The population for this DLHE bulletin does not represent the full cohort of leavers during the reporting period; examples of those excluded from the target population are listed below:
 - Leavers qualifying with professional qualifications (e.g. associate membership or membership of a body such as the Institute of Bankers) or undergraduate diplomas and certificates (other than foundation degrees, HND, DipHE, HNC and CertHE).

- Non EU domiciled leavers.
 - Leavers whose mode of study was recorded as dormant during the reporting period. (This will include for example students submitting a thesis and students retaking exams during the reporting period).
7. Response rate - Of all NI domiciled leavers from UK HEIs for whom DLHE information was expected, 81.3% responded (83.5% of full-time and 72.9% of part-time leavers) and for all leavers from NI HEIs for whom DLHE information was expected, 80.3% responded (83.8% of full-time and 69.7% of part-time leavers).
 8. Not Known – Responses of not known have been included in the tables, but have been excluded for calculating percentages in the analysis.
 9. The survey dates for the 2013/14 DLHE return were 15 April 2014 (if the leaver obtained the qualification between 1 August 2013 and 31 December 2013) and 13 January 2015 (if the leaver obtained the qualification between 1 January 2014 and 31 July 2014).
 10. Leaver's Activities - In the DLHE survey leavers are able to report what they are doing in relation to both employment and study. If not ineligible, or have explicitly refused to provide information, respondents were able to report up to eight individual activities, of which one must be indicated to be the 'most important'.

These activities are as follows:

- Working full-time (including self-employed/freelance, voluntary or other unpaid work, developing a professional portfolio/creative practice or on an internship)
- Working part-time (including self-employed/freelance, voluntary or other unpaid work, developing a professional portfolio/creative practice or on an internship)
- Unemployed and looking for work
- Due to start a job in the next month
- Engaged in full-time further study, training or research
- Engaged in part-time further study, training or research
- Taking time out in order to travel
- Something else

These activities are used to derive a category for publication that reflects the range of activities undertaken. Leavers identified as ineligible, or who have explicitly refused to provide information, are grouped for publication as 'Ineligibility or explicit refusal'. All other respondents are categorised according to their range of activities as follows:

Derived Activity Categories for DLHE Publication 2013/14

Most important activity (Only one category indicated here by the student)	If any other activity includes (Student also indicates other activities they are involved in)	Derived activity Category (Student's most important activity is combined with other activities and used to derive these categories for publication purposes).
Working full-time	Engaged in full-time study, training or research OR Engaged in part-time further study, training or research	Primarily in work and also studying
	Otherwise	Full-time work
Working part-time	Engaged in full-time study, training or research OR Engaged in part-time further study, training or research	Primarily in work and also studying
	Otherwise	Part-time work
Unemployed and looking for work		Unemployed
Due to start a job in the next month	Working full-time	Full-time work
	Engaged in full-time further study, training or research, provided that Working full-time has not been selected.	Full-time study
	Working part-time, provided that Working full-time AND Engaged in full-time further study, training or research have not been selected.	Part-time work
	Otherwise	Due to start work
Engaged in full-time further study, training or research	Working full-time OR Working part-time	Primarily studying and also in work
	Otherwise	Full-time study
Engaged in part-time further study, training or research	Working full-time OR Working part-time	Primarily studying and also in work
	Otherwise	Part-time study
Taking time out in order to travel Something else		Other
		Other

11. UK comparison – Comparative data for England, Scotland, Wales and Northern Ireland can be downloaded from the HESA website at the following page:

<https://www.hesa.ac.uk/sfr217>

12. Further statistics on the NI higher education sector, including enrolments, qualifications gained and various higher education fact sheets can be downloaded from the Department's website - <http://www.delni.gov.uk/higher-education-stats>

13. Quality of HE statistics - Information on the collection, validation and quality assurance of HE data and statistics, and the quality guidance used in managing the production of HE statistics can be accessed from the following link - www.delni.gov.uk/he-statistical-methods.htm

14. Uses made of HE statistics

This bulletin is disseminated directly to approximately 50 users. In addition, it is also published on the Department's website and the UK National Statistics publication hub (www.statistics.gov.uk/hub/index.html). Users include policy colleagues in DEL, academics, researchers, members of the public, the NI Assembly, other government departments and other interested parties and individuals.

The bulletin and further analysis of the data provide an evidence base that is used in a number of DEL policies, strategies and reviews. Some examples are: -

- Graduating to Success - DEL's Higher Education Strategy
- Access to Success - DEL's Widening Participation Strategy
- Delivering Success through Excellence – an analysis of the Quality and Performance of DEL's Programmes and Provision.
- Review of Initial Teacher Education.
- Securing our services – NI Strategy on Apprenticeships.

Further details on these strategies are available from the DEL website:

<http://www.delni.gov.uk/index/further-and-higher-education/higher-education.htm>

In addition, HE data are used within other NI departments and their agencies. Some examples are: -

- DFP - as a key indicator in the Education Domain of the Northern Ireland Multiple Deprivation Measure.
- The Northern Ireland Economic Strategy
- Invest NI – to quantify the supply of graduates for potential inward investment to NI

Approximately 200 HE statistical enquiries per year are received by the Department from various sources. These include requests for further breakdowns of enrolments, qualifications and destinations data.

In addition, approximately 25 assembly questions (either written or oral), relating to HE data, are received by the Department each year.

15. Rounding Strategy - Figures in the attached tables are rounded to the nearest 5, with 0, 1, 2 rounded to 0. Due to rounding the sum of numbers in each row or column may not match the total shown. Percentages and averages are based on unrounded figures. Percentages are rounded to the nearest whole number; therefore the sum of percentages may not match totals.

Definitions

16. Higher education students for the purpose of HESA's data collection are those students on courses for which the level of instruction is above that of level 3 of the Qualifications and Curriculum Authority (QCA) National Qualifications Framework (NQF) (e.g. courses at the level of Certificate of HE and above).

17. Qualifiers in employment include those in full-time work, part-time work, voluntary work, those combining work and study and those in work whose mode of work is unknown.

18. Relevant qualifications for inclusion in the 2012/13 DLHE return are listed below:

Postgraduate

Doctorate degrees, Postgraduate Certificates in Education, Other Postgraduate qualifications include masters degrees; other postgraduate qualifications obtained primarily through advanced supervised research; Masters of Business Administration (MBA); pre-registration masters degrees and other taught qualifications at level M leading towards obtaining eligibility to register to practice with a health or social care or veterinary statutory regulatory body; postgraduate bachelors degrees at level M; other taught qualifications at level M including those leading towards registration with the Architects Registration Board (Part 2 qualification).

First degree

Integrated undergraduate/postgraduate taught masters degrees on the enhanced/extended pattern, and first degrees with honours on the enhanced/extended pattern at level H; first degrees with honours/ordinary first degrees (including those leading to qualified teacher status (QTS)/registration with a General Teaching Council (GTC), but excluding those from the intercalated pattern); first degrees with honours leading towards registration with the Architects Registration Board (Part 1 qualification); pre-registration first degrees with honours/ordinary first degrees leading towards obtaining eligibility to register to practice with a health or social care or veterinary statutory regulatory body; first degrees with honours and diploma; postgraduate bachelors degrees at level H.

Other undergraduate

Foundation degrees, graduate diplomas/certificates at level H; other qualifications at level H including those leading towards registration with the Architects Registration Board (Part 2 qualification); graduate diplomas/certificates at level I; Diplomas of Higher Education (DipHE) (including those leading towards obtaining eligibility to register to practice with a health or social care or veterinary statutory regulatory body); Higher National Diplomas (HND); Certificates of Higher Education (CertHE); Higher National Certificates (HNC).

19. Domicile refers to a student's permanent place of residence prior to enrolment on an HE course.
20. GB includes England, Scotland, Wales, Guernsey, Jersey and the Isle of Man.
21. The Open University is counted as a wholly English institution. The administrative centre is located in England, although The Open University teaches throughout the UK.

22. Occupation

In 2011 HESA adopted the SOC2010 Standard Occupational Classification (which replaced SOC2000), for comparability of sector data with other areas of the economy. A variant of the SOC2010 was created for the coding of occupational information collected in the DLHE survey. The classification is termed SOC2010 (DLHE) and details are available from the Downloadable files section of the HESA DLHE coding manual www.hesa.ac.uk/C11018 on the HESA website (Standard Occupational Classification (2010) for the Destinations of Leavers from Higher Education Institutions: SOC 2010 (DLHE)).

23. Mode of study distinguishes students studying full-time or part-time:

- I. *Full-time* includes full-time and sandwich modes plus those writing-up where the mode of study was previously full-time and students changing to dormant status previously full-time.
- II. *Part-time* includes those studying part-time, full-time for less than 24 weeks in the academic year, block release or studying during the evenings, plus those writing-up theses and previously part-time.

24. Broad STEM includes the following subject areas: Medicine & Dentistry, Subjects allied to Medicine, Biological Sciences, Veterinary Sciences, Agriculture & related subjects, Physical Sciences, Mathematical Sciences, Computer Science, Engineering & Technology and Architecture, Building & Planning.

Narrow STEM is a subset of Broad STEM and includes the following subject areas: Biological Sciences, Physical Sciences, Mathematical Sciences, Computer Science, and Engineering & Technology.

25. The analysis presented in section 1.1.3 utilises five groups (quintiles) of Super Output Areas (SOAs) across Northern Ireland. These five groups are determined based on level of deprivation using the Northern Ireland Multiple Deprivation Measure (NIMDM).

Super Output Areas ranked 1 to 178 are the most deprived quintile of SOAs relative to all other SOAs. Those ranked 713 to 890 are the most affluent relative to all other SOAs. Super Output Area (SOA) is determined using the postcode provided on the enrolment record.

The Northern Ireland Multiple Deprivation Measure (NIMDM) 2010 is a weighted combination of the seven domains of deprivation. The Income and Employment Deprivation domains account for nearly 50% of the multiple deprivation measure. The Health Deprivation and Disability Domain, and Education, Skills and Training Deprivation Domain account for a further 30% and the remainder is made up of the Proximity to Services, Living Environment and Crime & Disorder Domains.

For further details on deprivation measurement in Northern Ireland please follow this link:

http://www.nisra.gov.uk/deprivation/nimdm_2010.htm

Media enquiries should be made to the Department's Press Office in Adelaide House, 39-49 Adelaide Street, Belfast, BT2 8FD, telephone (028) 9025 7793

Figures in the attached table are rounded to the nearest 5, with 0, 1 and 2 rounded to 0.

Due to rounding, the sum of numbers in each row or column may not match the total shown.

Broad STEM subjects include Medicine & dentistry, Subjects allied to medicine, Biological sciences, Veterinary sciences, Agriculture & related subjects, Physical sciences, Mathematical sciences, Computer science, Engineering & technology and Architecture, building & planning.

Narrow STEM subjects include Biological sciences, Physical sciences, Mathematical sciences, Computer science and Engineering & technology.

Note: There were 10 cases where the Level of Further Study of full-time leavers from NI HEIs was not known.

Figures in the attached table are rounded to the nearest 5, with 0, 1 and 2 rounded to 0.
Due to rounding, the sum of numbers in each row or column may not match the total shown.

Table 25b: Full-time leavers from NI HEIs in further study by country of domicile and level of qualification - 2013/14 (Percentages)
