世界未来基金会也许是中国第一个走向世界的基金会。两年前参加新加坡亚洲慈善峰会认识了这家由中国企业家冯仑发起的基金会，大开眼界。基金会立足新加坡，面向全世界，其资助项目注重城市发展、环境、资源、人与自然的关系，以创新的方式、以跨界合作的力量、探索可持续发展道路，为人类的今天、世界的未来承担责任。其志可嘉，其情感人，其行久远，其愿可期也。

World Future Foundation is probably the first overseas foundation set up by a Chinese national. I met Dr. Feng Lun who founded WFF two years back during the Asian Philanthropy Summit and I was amazed by projects initiated by WFF. WFF is rooted in Singapore but faces the world. WFF's projects focus on urban development, environment, resources and the relation between nature and humanity. They have adopted an innovative approach, utilized power from different arenas, explored a sustainable development roadmap and contributed back to the future of the world in general and human beings in particular.

ORGANISATIONAL PROFILE

当今 世界面临着许许多多的问题，如：气候变化加剧、自然灾害肆虐、新型传染病不断出现、生存资源日渐短缺、城市发展面临瓶颈，等等……如不采取及时、有效的行动，人类的未来将不堪设想。

然而，以上种种现象，绝非凭借一己之力可以改变，必须由热心公益事业的企业家、科学家和专业人士构建变革联合体，奉献智慧、财力、人脉、专业知识，为共同的公益目标开展合作。这既是全球公益事业发展的最新趋势，又是解决复杂的社会和环境问题的必由之路。

有鉴于此，一批热心公益事业的华人企业家及专业人士于2007年发出倡议，希望创建一个国际性的平台，聚合全球热心公益事业的精英人士的力量，用公益的理念、财富的力量和科技的手段去减缓和消除所有危及人类生存和发展的重大问题，为子孙后代创建一个和平、平等、繁荣、可持续发展的未来。

世界未来基金会有限公司于2008年8月26日在新加坡注册成立，并于2009年2月20日获得新加坡政府批准，成为一家公益慈善机构。

世界未来基金会属捐赠型基金，立足新加坡、面向全世界，同时资助多个公益组织及公益项目，以环境和社会的可持续发展研究为重点。这些资助项目将从不同方面实现变革，造福当代并惠及后人。

世界未来基金会是新加坡第一个中国大陆企业家出资成立的公益性基金会，由国际化的团队实行专业化的管理。这不仅是全球化在公益领域的具体表现，也彰显了新加坡在全球公益版图的中心地位。

世界未来基金会为非公募型基金，不向公众募集资金，定向邀请有公益心、有影响力的华人企业家及专业人士凝聚力量、共襄盛举。

世界未来基金会的箴言是：“胸怀世界，制胜未来。”从中可以解读出创立者的雄心和抱负。

TODAY the world is faced with many problems, such as climate change, natural disasters, new types of epidemics, shortages of resources for living, and urbanization bottlenecks. Humanity's future will be disastrous in the absence of timely and effective actions.

However, the current situation cannot be changed just by an individual. Instead, it must be the collective cause of public-spirited entrepreneurs, scientists and professionals to improve the community. This new group of individuals can pool their collective intelligence, wealth, professional networks and knowledge towards a common goal. It is the latest trend in the development of global philanthropy, and it is also the only way to settle complicated social and environmental issues.

In 2007, a group of public-spirited Chinese entrepreneurs and professionals came together to form a global focused platform. The foundation sought to harness the financial resources, professional skills and knowledge of global public-spirited elites and deploy them through philanthropic means to tackle issues threatening the future development of humanity. This would in turn create a peaceful, equitable, prosperous and sustainable environment for future generations.

World Future Foundation Ltd. (WFF) was incorporated in Singapore on August 26, 2008 and formally registered as a charity with the Government of Singapore on February 20, 2009.

WFF is a grant-making foundation, based in Singapore, but for the world. It provides financial support to a number of organizations and programs related to environmental and social sustainability research. Through these programs, WFF hopes to bring forth a wide range of new technologies for the benefit of the current generation and generations to come.

WFF is the first philanthropic foundation in Singapore funded by entrepreneurs from mainland China, and is professionally managed by an international team. This not only highlights globalization in the philanthropy sector, but also reflects the central status of Singapore in the global philanthropic domain.

WFF is a private foundation. It does not raise funds from public, rather it invites public-spirited and influential Chinese entrepreneurs and professionals to join and lend their strengths to accomplish these great undertakings.

WFF's motto, "For Our World, For Our Future", reflects its founders' ambitions and aspirations.

不断加快的城市化进程正改变着人类的居住环境。城市的高密度发展、资源的过度消耗和庞杂的交通系统向未来城市发展提出了严峻的挑战，城市的可持续发展已成为全球关注的焦点。如何有效地平衡环境、建筑、人居与生活的关系，探索未来城市新的发展模式是人类面临的共同课题。为此，我们推出亚洲垂直城市系列项目，包括：竞赛、展览、丛书等。

我非常赞赏新加坡国立大学设计与环境学院和世界未来基金会联手合作组织亚洲垂直城市国际设计竞赛的创举，此竞赛的举办旨在为人口居住高度密集的亚洲城市设计可供居住的社区。我非常期待我们的年轻人在此次设计竞赛中呈现出富有想象力的创意来。

I commend the initiative of our National University of Singapore School of Design and Environment, in collaboration with the World Future Foundation, in organizing a Vertical Cities Asia International Competition on designing highly dense yet liveable communities. I am eagerly looking forward to the creative ideas that our young people will come up with.

Accelerating urbanization has changed people's living environment. High-density urban development, over consumption of natural resources, and sprawling transportation systems are seriously endangering the future of urban life. The development of new models to balance relations among environment, infrastructure, and liveability is the focal point behind sustainable urban development. Therefore, WFF presents the Vertical Cities Asia (VCA) project series: competition, exhibition and book collection, etc.

亚洲垂直城市研究丛书

VERTICAL CITIES ASIA RESEARCH COLLECTION

亚洲垂直城市研究丛书第一册 The 1st edition of VCA books

不断加快的城市化进程正改变着人类的居住环境。城市的高密度发展、资源的过度消耗和庞杂的交通系统向未来城市发展提出了严峻的挑战，城市的可持续发展已成为全球关注的焦点。如何有效地平衡环境、建筑、人居与生活的关系，探索未来城市新的发展模式是人类面临的共同课题。然而，目前在全球针对这一领域的研究成果却少之又少，专门针对亚洲城市状况进行研究的专著更是几近荒芜，与实际需求形成强烈的反差。

为此，基金会计划资助出版一套垂直城市研究丛书。基金会邀请来自全球的十位国际知名专家，建筑设计大师和相关领域著名学者组成编审委员会，该委员会将在全球范围内遴选相关领域的前沿著作，其中包括世界知名建筑设计事务所和顶级设计大师的代表著作和中文译本，有关垂直城市发展的专项研究成果，以及历年亚洲垂直城市国际设计竞赛的获奖作品等。

Accelerating urbanization has changed people's living environment. High density urban development, overconsumption of natural resources and sprawling transportation system are seriously damaging the future of urban life. The development of new models to balance relations among the environment, infrastructure and liveability is the focal point behind sustainable urban development. Currently, research achievements from this specialized sector are few. The research on Asian cities is even more limited; thus creating a demand for such research to be made more accessible.

World Future Foundation (WFF) is dedicated to promote research on environmental protection and sustainability, especially on the development models for future cities. A selection committee comprised of ten internationally well-known experts, architects and scholars in relevant fields will select literatures reflecting the latest ideas and advancements in sustainable development worldwide. These include the translation of notable works by world leading architecture studios and research reports on vertical cities development. They will also showcase past year's winning designs from the "Vertical Cities Asia" International Design Competitions. The collection would first be released in mainland China and Singapore, and then later around the world.

第二册丛书新书发布仪式 The launching ceremony of 2nd VCA book

世界未来基金会资助出版这套丛书，以期通过国际前沿理论和实践的引入，以文字、模型、图片、影像等多种方式全面立体地展现高密度居住环境中的未来城市形态，使更多的人了解、关注、支持并参与到推进城市可持续发展的进程中，为不断探索城市发展的最优模式提供指导性和可行性的参考。

2012年2月15日，首册丛书面世。全书以英文编辑，由新加坡国立大学出版。丛书第二册《每个人都会变老》由Domus中国以中英文双语编辑，由广西师范大学出版社于2013年7月9日首发面世。

Through the research collection, WFF aims to promote the latest development and best practices to the general community. This would enhance the general community's understanding of these areas and add momentum to the sustainability movement. 3D models, pictures and video will also be produced to present images and depict the dense living environment of future urban cities.

The "Vertical Cities Asia" Research Collection seeks to contribute to the on-going discussion and provide feasible solutions to create most optimal urban development models of the future.

The 1st issue was published by NUS in English and released on 15 February, 2012. The 2nd issue *Everyone Ages* was edited by Domus China in both Chinese and English and published by the publisher of Guangxi Normal University on 9 July, 2013.

新加坡前政要自传中文版丛书

COLLECTION OF SINGAPORE'S FORMER STATESMEN'S AUTOBIOGRAPHY IN CHINESE

新加坡在半个世纪的发展历程中涌现出一批高瞻远瞩、能力超群的政治家。他们的自传详细记录了他们在从政生涯里的治国理念与心得。这对当今中国有着十分宝贵的借鉴意义。

世界未来基金会与国内知名出版社中南博集天卷文化传媒有限公司合作，通过严谨的译审流程，拟将新加坡部长以上的政界人物传记翻译成中文，在中国大陆发行。

目前已经确定的是新加坡前总统纳丹回忆录，中文译名为：《万想不到的征程——当上总统之路》，预计于2014年出版。

这本书记载了很不一样的世界里的一个非凡的故事。要将一本原为英文并含有大量马来、印度以及诸多方言词汇的书翻译成中文是一极具挑战的项目。由于世界未来基金会的远见和译者的努力，纳丹先生得以与无数中文读者分享他的精彩人生。

This book recorded an extraordinary story in a very different world. It is a challenging task to translate an English book filled with Malay, Indian and multiple dialect references into Chinese. Thanks to World Future Foundation's foresight and the efforts of the translator, Mr Nathan is able to share his extraordinary life with countless Chinese readers.

Against this backdrop, World Future Foundation plans to collaborate with renowned Chinese publisher, China South Booky Culture Media Co., Ltd, to translate those autobiographies into Chinese and publish them in mainland China.

The memoir of Singapore Former President S N Nathan, *An Unexpected Journey: Path to the Presidency* has been confirmed to be translated and planned to be published in 2014.

深圳大学新加坡研究中心主任吕元礼教授担纲丛书主编。该中心是一个综合研究机构，对新加坡政治、经济、文化、社会与生态进行多学科、全方位研究。

Purpose

Understand Singapore and learn from its experience on social management and bonding with people.
The collection of books will introduce the experience and successful models of Singapore from diverse perspectives, ranging from racial harmony, crisis management, media policies, party operation to philanthropy development, etc.
The collection of books will be published in batches in mainland China. The first 15 books are estimated to be published at the end of 2014.

Chinese Partner

Prof Lv Yuanli, the director of the Center for Singapore Studies at Shenzhen University, is the chief editor. The center is a comprehensive research center studying Singapore's politics, economy, culture, society, ecology, etc.

在1992年之后的“新加坡热”中，中国数万名官员赴新考察或接受培训，各地也发出了学习借鉴叫板新加坡的呼声与行动。要真正切实学习借鉴新加坡的社会管理经验，叫板新加坡，系统、深入、理性、动态地观照新加坡的社会管理及其创新是一个必需的前提。

Singapore becomes a hot spot for Chinese officials to learn from after 1992. Since then, over hundreds of thousands of Chinese officials visited Singapore for training and study. Many provinces and cities back in China are launching campaigns to learn Singapore experience. To achieve that goal, there is a necessary prerequisite that they have to learn the social innovation and management experience in Singapore in a systematic, in-depth and dynamic way.

NOTES FROM THE CHIEF EDITOR

又一次在万米高空打开电脑，陷入沉思，这一次要写的不是项目计划，也不是评估报告，而是要回首五年的历程……

在这本精心制作的画册里，你可以看到世界未来基金会前行1800多个日夜留下的足迹，或深或浅，扎扎实实；可以看到近300位资助对象所取得的成就，林林总总，蔚为壮观；可以看到来自全球各界20位专家名人发来的贺辞，热情洋溢，称颂有加。在编辑画册的过程中，我一次又一次地被感染、被鼓舞。

“用公益的理念、财富的力量、科技的手段解决复杂的环境和社会问题”——这是世界未来基金会创始人的宏伟愿景，也是工作团队五年来矢志不渝的追求。这本画册真实地记录了我们的梦想与荣耀、探索与艰辛。

我有一种强烈的预感——作为第一家由中国公民在国外创办并运营的公益性基金会，世界未来基金会或将载入中国乃至世界公益慈善的历史。如同这本画册的主题“拥抱世界，初见未来”，世界未来基金会在五年间走出的一小步，很有可能是中国公益慈善融入国际社会的一大步。

冯仑先生说：“所谓创造历史，就是在伟大的时刻、伟大的地点和一群伟大的人做一件庸俗的事”。我深以为然。从2008年3月受命组建世界未来基金会至今，我在北京和新加坡之间往返31次，行程28万公里，收发有效邮件4850组，越洋电话2496小时，主持召开理事会会议10次，聘用全职员工及实习生22人次，经审计的财务文件摞起来有1.6米高……

以冯仑先生为代表的新一代中国民营企业家，兼具商业智慧、社会责任和环球视野。他们在公益慈善方面思考之深、目光之远、投入之大，令我由衷敬佩。与这样的人物创业共事，是我的骄傲，也是我的幸运。相形之下，过往的艰辛、困惑、孤独、委屈都不足为道，曾经的不被理解、不被信任更是化作笑谈。

我要感谢世界未来基金会的所有捐赠人、理事、咨询委员、合作伙伴、秘书处员工以及志愿者、关注者！我要感谢这个伟大的时代，生逢其时，何其幸也！

我清楚地记得，2008年6月访美期间，王维嘉先生代表中国企业家慷慨激昂地讲了这样一番话：“中国企业家用了三十年的时间，创造出一个经济奇迹，震惊世界；相信不需要另一个三十年，我们就可以在公益慈善领域创造出另一个奇迹！”

今年是洛克菲勒基金会创办一百周年，其大力倡导的创新精神激励了无数后来者。如果说风雨百年的洛克菲勒基金会像一棵参天大树，根深而叶茂，需仰视才见；那么，成立五周年的世界未来基金会不过是一株纤细小苗，却身姿挺拔，绽放新绿，让人充满期待。

Once again, I opened my laptop in the air, deep in thought. This time, I am not writing a project plan or an assessment report but reflecting on my five-year journey with World Future Foundation (WFF).

In this meticulously crafted 5th anniversary book, you can see the solid footprints of WFF over the past 1800 days, deep or shallow. You can see the comprehensive achievements and progress made by about 300 award recipients. You can also read the wishes, regards and appreciations of 20 renowned experts and celebrities around the world. I was motivated and encouraged again and again in the process of editing this book.

“To resolve social and environmental problems by integrating the ideals of philanthropy, power of wealth, and technological innovations” is the grand vision of the WFF founders. This vision is pursued with great vigour by the dedicated WFF working team. This anniversary book truly recorded and reflected our dream and honor, exploration and hardships.

I have a strong intuition that WFF, as the first foundation registered and operated overseas by Chinese citizens, will be recorded in the Chinese or even world philanthropic history. The theme of this book is *Creating The Future For A Better World*. The achievements over the past 5 years could be one small step for WFF, but could lead to giant leaps for the world's future.

Dr. Feng Lun once said: “To create history is to do tedious jobs with great people at a great place at a great moment.” I fully agree with him. Since March 2008, when I accepted the mission to incorporate WFF till now, I've commuted 31 times between Beijing and Singapore, travelled over 280,000 km, communicated via 4,850 email dialogues and 2,496 hours of international calls, hosted 10 BOD meetings, recruited 22 full time staff or interns, and the height of the audited financial documents is around 1.6 meter……

Dr. Feng Lun is representative of a new generation of Chinese entrepreneurs, who are equipped with business wisdom, social responsibility and global vision. I am deeply impressed by their deep thoughts, grand vision, and generous investment on philanthropy. It is my honor and fortune to work with people like him. Compared to that, all the hardships, confusions, loneliness and grievance are worth it. The misunderstandings and mistrust received in the past have been dismissed in jokes.

I'd like to express my deep appreciation to all the donors, board members, advisors, partners, staff, interns and all the other people who have cared and showed concern for WFF along the journey. I am grateful to be involved in this great time.

I clearly remembered, during my trip to the US in June 2008, Dr. Wang Weijia declared with impassion: “Chinese entrepreneurs took 30 years to create an economic miracle which impressed the world. I firmly believe we could create another miracle on philanthropy in less than 30 years.”

This year is the 100th anniversary of the Rockefeller Foundation. The innovative spirit behind it motivates numerous latecomers. If we consider the 100-year-old Rockefeller Foundation as a towering leafy tree with deep roots, which could only be seen by looking up, the 5-year-old WFF is just like a slender seedling with an upright posture, blooming green and full of hope.
