

ADDITIONS TO THE OHIO FLORA FOR 1905-6.

FREDA DETMERS.

The following plants have been added to the State Flora since the last report, made in 1903-4. It has been customary to report only those of which there are specimens in the State Herbarium, however, this list contains exceptions to this rule. Two plants are included which are not in the Herbarium of the University; both are reported on good authority and one is in the Herbarium of the Ohio Agricultural Experiment Station at Wooster, also a state herbarium.

Coronilla varia L. In the Herbarium of the Ohio Agricultural Experiment Station, Wooster, O. Collected by M. M. Murphy, Ripley, O., June 1899. It was reported by Mr. A. D. Selby. I quote from Mr. Selby's letter: "Mr. Murphy wrote that the specimens had become well established and that he had observed the plant for several years."

Danthonia compressa Austin. Collected by Roscoe J. Webb, Garrettsville, Portage County, July 8, 1906.

Hartmannia speciosa (Nutt.) Small. (*Oenothera speciosa* Nutt.) Collected by Thomas S. Earl, along Railroad track, Columbus.

Polystichum acrostichoides (Mx.) Schott, var. *incisum* Gray. (*Dryopteris acrostichoides* var. *incisum*). Collected by L. S. Hopkins, Wayne County, July 25, 1905.

Trillium declinatum (A. Gray) Gleason, n. sp. Reported for Ohio by Gleason in Torr. Bull. Bot. Club VII:389. July, 1906.

Wolffiella floridana (J. D. Smith) C. A. Thompson. Determined by C. A. Thompson. Collected by W. A. Kellerman, Buckeye Lake, Licking County. Oct. 19, 1906.
