

PROCEEDINGS OF

**THE 4TH INTERNATIONAL CONFERENCE ON
SUSTAINABLE ANIMAL AGRICULTURE FOR
DEVELOPING COUNTRIES (SAADC2013)**

27 – 31 JULY 2013

LANZHOU UNIVERSITY
LANZHOU, CHINA

PREFACE

SAADC2013 is the fourth in the biennial conference on *Sustainable Animal Agriculture for Developing Countries*; the first being held in Kunming, China in 2007 and the second and third in Kuala Lumpur, Malaysia and Nakhon Ratchasima, Thailand in 2009 and 2011 respectively. This series of conferences is designed to provide a platform for the exchange of experience and knowledge among academicians, researchers, graduate students and producers for development of sustainable animal industry in developing countries. A total of 181 Extended Abstracts have been accepted for presentation during the 4-day conference and are published in this proceedings.

The Extended Abstracts, submitted by participants from 26 different countries, consist of 2 Keynote addresses, 10 Plenary lectures, 13 Lead papers and 162 scientific presentations. They cover policies and management strategies, nutrition and feeding, physiology, breeding and genetics, production systems, and biotechnology pertaining to the development of a sustainable livestock industry.

The SAADC2013 had assembled together a proficient team for the Editorial Board. However, their duties were constrained by the late submissions of many abstracts, hence these will appear 'as is' with minimal editing. The accuracy of the contents, including methodologies and results of the Abstracts are the sole responsibility of the authors.

I would like to extend my sincere gratitude to the members of the SAADC2013 Editorial Board for their commitment and diligence in coming up with this Proceedings.

With best regards

Chairman SAADC2013 Editorial Board

Members of the Editorial Board

Liang Juan Boo (Malaysia) - Chairman	Jothi Malar Panandam (Malaysia)
Andre-Denis Wright (USA)	Junichi Takahashi (Japan)
Chan Ying Kwok (Malaysia)	Long Ruijun (China)
Chen Wei Li (Malaysia)	Mohd Ariff Omar (Malaysia)
Chris McSweeny (Australia)	Norhani Abdullah (Malaysia)
Ding Luming (China)	Mohd Zainal Jelani (Malaysia)
Elizabeth Wina (Indonesia)	Peter Daniels (Australia)
Ermias Kebeab (USA)	Peter Wynn (Australia)
Guo Xusheng (China)	Pietro Celi (Australia)
Huang Xiaodan (China)	Qi Xiaojing (China)
James Chin (Australia)	Shang Zhanhuan (China)
Joaquim Balcells (Spain)	Tan Hui Yin (Malaysia)

CONTENTS

KEYNOTE ADDRESS

Keynote 1	Sustainable Animal Production in the Developing Countries <i>Cao, Y. & D. Li</i>	1
Keynote 2	Enhancing Animal Agriculture in Developing Countries through International and Regional Collaborations <i>Otte, M.J.</i>	14

PLENARY PAPERS

Plenary 1	Economic Perspective of Food Safety in Food Security: Trade-off or Convergence in Emerging Economies <i>Shamsudin, M.N. & J. Selamat</i>	19
Plenary 2	Managing the Pandemic Public Health Threats from Animal Agriculture <i>Daniels, P.</i>	25
Plenary 3	Role of Biotechnological Research to Support SAADC-Mitigation of Methane and Nitrous Oxide and Utilization of Agricultural Biomass <i>Takahashi, J., M. Shoda & J. Lee</i>	31
Plenary 4	Contrast Between Developed and Developing Countries with Emphasis on Livestock and its Interaction with Soil, Plants and People. <i>Ørskov, E.R.</i>	36
Plenary 5	Efficient Use of Roughage Resource for Sustainable Development of China's Dairy Industry <i>Liu, J., H.L. Mao, & D. Wang</i>	43
Plenary 6	Converting Agro By-products for Sustainable Livestock Production <i>Paengkoum, P. & C. Yuangklang</i>	50
Plenary 7	Grazing Degradation in Central Asia – New Developments Relevant for the Tibetan Situation <i>Wesche, K., G. Miehe, E. Seeber, Y. Wang, R. Schultz, S. Träger, E. Görzen, G. Heberling, M. Holzapfel, B. Seifert, H. Ansorge, Y.P. Yang & R. Long</i>	56

Plenary 8	Establishing a Successful Dairy Community Development Program: The Challenges and Pitfalls <i>Wynn, P.C., H.M. Warriach, D.M. McGill & R.D. Bush</i>	59
Plenary 9	Opportunity and Challenges of Liquid Feeding in Swine Production <i>Kawashima, T.</i>	62
Plenary 10	Goat Farming and Livelihood of Small-Holder Farmers in Indonesia <i>Kustantinah, A., D.A. Astuti & E.R. Orskov</i>	68
<i>LEAD PAPER</i>		
Lead Paper 1	Methanogenesis as Affected by Supplementation of Rumensin in Wheat Straw Based Diets Fed to Lactating Crossbred Cows and Buffaloes <i>Sirohi, S.K., M. Madhu & B. Singh</i>	75
Lead Paper 2	Role of Animal Welfare in Sustainable Development of Livestock Industry <i>Na-Lampang, P.</i>	77
Lead Paper 3	Adaptation Strategies of Pastoral Societies in the HKH region to Changes <i>Wu, N., M. Ismail, S. Joshi & R.M.Shrestha</i>	81
Lead Paper 4	Genetic Diversity for Sustainable Development of Animal Industry <i>Panandam, J.</i>	82
Lead Paper 5	Gonadal and Extragonadal Sperm Reserves of Post Pubertal West African Dwarf and Sokoto Red Bucks in Their Native Tropical Environment <i>Bitto, I. & U.D. Osayande</i>	87
Lead Paper 6	The Role of Biochar in Farming Systems Producing Food and Energy from Biomass <i>Preston, T.R. & R.A. Leng</i>	89
Lead Paper 7	Effects of Different Protein and Energy Levels on Layer Performance under High Temperature <i>Hsia, L.C. & I.L. Hung</i>	93
Lead Paper 8	Oxidative Stress Management in Farm Animals: Opportunities and Challenges? <i>Celi, P. & S.S. Chauhan</i>	95

Lead Paper 9	Milk Fat and Protein Precursors Generated in the Rumen and their Associations with Different Forage Combinations <i>Yang, H.J., S.L. Li, X. Jin & R. Wang</i>	110
Lead Paper 10	Inflammation Mediator Changes in the Plasma of Normal and Superovulated Rats <i>Yaakub, H., G. Banulata, S. Ganabadi & T.I. Azmi</i>	115
Lead Paper 11	Ecogenomics of <i>Synergistetes</i> Bacteria to Facilitate Detoxification of Xenobiotics in Ruminant Livestock <i>McSweeney, C.S., J. Padmanabha, L. Leong, P. Hugenholtz, H.M. Shelton & S.E. Denman</i>	116
Lead Paper 12	Sustainable Beef Production in Tropical Savannas of Northern Australia <i>White, I.A., D.P. Poppi, & L.P. Hunt</i>	122
Lead Paper 13	Trade-offs Between Stocking Rate, Range Productivity and Livestock Performance in a Mediterranean Grassland <i>Henkin, Z., A. Perevolotsky, E.D. Ungar, S. Landau, M. Sternberg & N.G. Seligman</i>	126

ORAL PAPER

Policy and Environment

Oral 1	Degradation and Carbon Loss from Crop Encroachment in Himalaya's Alpine Meadows, Northern Pakistan: Impacts and Mitigation Potential <i>Rueff, H., I. Rahim, R. Khurshid & D. Maselli</i>	134
Oral 2	Intensity of Climate Variation in Karamoja Sub-Region, Uganda: Implications for Forage Availability <i>Egeru, A., B. Barasa, R. Osaliya, E.M. Yazan, L.A.M. Opiyo, J. Mburu, S. Mohammed, D. Aleper & G.J.M. Majaliwa</i>	137
Oral 3	Hillside Rehabilitation with Indigenous Fodder Trees Can Contribute to Food Security and Societal Harmony in Pakistan Northern Mountains <i>Rahim, I.U., H. Rueff & D. Maselli</i>	139
Oral 4	Effects of Total Mixed Fiber (TMF) as Roughage Source on Rumen Fermentation in Lactating Dairy Cow <i>Kriprom, T., S. Prasanpanich, P. Kongmun, S. Sivichai & S. Tumwasorn</i>	142

Oral 5	Total Carbon Storage in Himalaya Rangeland of Milke-Jaljale Area, Eastern Nepal <i>Limbu D., M. Koirala & Z. Shang</i>	144
Oral 6	Determination of Rangeland Grazing Suitability Model by GIS-Case Study: Sarab Sefid Basin <i>Ariapour, A., M. Hadidi, F. Amiri & K. Karami</i>	145
Oral 7	Modified Indigenous Fermented Fresh Water Fish (<i>Anabas Testudineus Bloch</i>) Processed as a Viable Protein Source for Developing Countries <i>Senas, P.S. & H. Purnomo</i>	146
Oral 8	Synergism Between Biochar and Digester Effluent as Soil Amenders For Biomass Production and Nutritive Value of Mustard Green (<i>Brassica juncea</i>) <i>Ty, C., M. Phalla, K. Borin & T.R. Preston</i>	148
Oral 9	Effect of Some Heavy Metals on the Biochemical Composition and their Recovery in Indegenous Major Carps <i>Gupta, R.K. & N. Bansal</i>	149
Oral 10	The Effect of Farm Size and Locality on Production Performance in Small and Medium Dairy Farmers <i>Raza, S.H., M. Riaz & H.M. Zakria</i>	150
Oral 11	An Analysis of Professionalism of Agricultural Officers to Cope with the Production and Livelihood in Khyber Pakhtunkhwa Pakistan <i>Khan, M.Z. & R.U. Khan</i>	152
Oral 12	Sustainable Commercial Maggotry for Animal and Aqua Feeds in River State, Nigeria <i>Aniebo, A.O., S.N. Wekhe, E.S. Erondu, O.J. Owen, N.O. Isirimah & E.N. Ngodigha</i>	153
Oral 13	Haemoparasites of Traditionally Reared West African Dwarf (WAD) Small Ruminants in the Tropical Humid Rainforest of Southeastern Nigeria <i>Opara, M.N., C.C. Nwokedi, M. Joy & I.C. Okoli</i>	156
Oral 14	Reproductive Management of Turkeys Among Small-Holder Farmers in Imo State, Nigeria <i>Okoli, I.C., C.H. Nwaodu, V.U. Odoemelam, M.C. Uchegbu, P.I. Ogbuewu, T.C. Iwuji & D.J.U. Kalla</i>	158
Oral 15	New Extension Model for Smallholder Dairy Farmers in Pakistan <i>Warraich, H.</i>	160

Oral 16	Effectiveness of Public-Private Partnership Model in Improving Dairying in Developing Countries: Case Study of Malawi <i>Gondwe, T.N., D. Chiumia, B. Kawonga, L.J. Banda & M.G.G. Chagunda</i>	162
Oral 17	The Socio-economic Potential of Indonesian Native Cattle: Study on Small-Holder Rambon Cattle Farming in East-Java <i>Nugrho, E.</i>	164
Oral 18	Fatty Acids Profile of Buffaloes and Cattle Meat Fed Ration Supplemented with Protected Fish Oil <i>Faisal, Y.</i>	167
Oral 19	Strategy of Empowering Farmers Capability at Integrated Farming Beef Cattle and Paddy Plant With Zero Waste <i>Abdullah, A.</i>	170
Oral 20	Prospect of Small-Holder Beef Cattle Farming at East Java, Indonesia <i>Utami, H.D. & A.P. Seruni</i>	171
Oral 21	Key Factors for Success in Orgaware for Village Unit Cooperatives (KUD) <i>Purnomo, S.S.</i>	173
Oral 22	The Grazing of Pampangan Buffaloes at Non Tidal Swamp in South Sumatra of Indonesia <i>Ali, A.I.M, S. Sandi, Muhakka, Riswandi & D. Budianta</i>	175
Oral 23	Evolution of the Cattle Industry in Brazil During the Last Decade <i>Meyer, P.M. & P.H.M. Rodrigues</i>	180

Breeding and Genetics

Oral 24	Assessment of Population Structure and Genetic Diversity of Tunisian Indigenous Rabbit Ascertained Using Molecular Information <i>Ben Larbi, M., M'Hamdi., M. San-Cristobal, C. Chantry-Darmon & G. Bolet</i>	183
Oral 25	Genetic Parameters for Birth Weight and Body Size in a Saanen Goat Population in Thailand <i>Bungsrissawat, P. & S. Tumwasorn</i>	184
Oral 26	Genetic Polymorphisms of Caprine Growth Hormone (GH) and their Effect on Pre-weaning Growth Traits <i>Supakorn, C. & W. Pralomkarn</i>	186

Oral 27	Study of Four Microsatellite Loci in Crossbred Goats <i>Thivalai , C. & S. Sophon</i>	188
Oral 28	Molecular Diversity in ATP6 and ATP8 Genes in Dromedaries Camel Breeds of Pakistan <i>Hussain, T., R. Ali, M.E. Babar, F. Masood, A. Wajid, A. Nadeem, A. Nawaz & M.Z. Shabbir</i>	190
Oral 29	A Random Regression Model for Estimating Different Heritability in Sheep <i>Lavvaf, A., B. Hemmati & T. Farahvash</i>	193
Oral 30	Alteration of Body Measurements of Some Native Sheep of Iran <i>Farahvash, T., A. Seidavi, &A. Lavvaf</i>	194
Oral 31	Organic Selenium from Selenium-Enriched Kale Sprout Increased Tissue Selenium Concentrations of Broilers <i>Chantiratikul, A., O. Chinrasri, P. Pakmaruek, S. Chookhampaeng, S. Maneetong & P. Chantiratikul</i>	195
Oral 32	Consumption of Fermented Cassava Tuber Wastes Lowers Glycaemic Indices and Loads in Pigs <i>Aro, S.O. & V.A. Aletor</i>	197

Biotechnology

Oral 33	Characterization of Conjugated Linoleic Acid-Producing Bacteria Isolated from Chicken and Cattle <i>Yong, S.T., S.W. Zuhainis, C.C. Sieo & Y.W. Ho</i>	199
Oral 34	Colonization and Proliferation of White Nile Tilapia Testicular Cells Transplanted into Black Nile Tilapia Triploid <i>Octavera, A.</i>	201
Oral 35	Isolation of a Vaccenic Acid Hydrogenating Bacterium From Rumen of Dairy Cows <i>Zhao, S.G., Y.F. Lu, J.Q. Wang, D.P. Bu, D. Jin, X.L. Hu, & J.W. Zhao</i>	202
Oral 36	Molecular Diversity of Rumen Protozoal Populations in the Presence of Condensed Tannins <i>Tan, H.Y., C.C. Sieo, N. Abdullah, J.B. Liang, X.D. Huang & Y.W. Ho</i>	205
Oral 37	Estimates of Variances Due to Direct and Maternal Effects for Body Weights in Barki Sheep <i>Metawi, H.R., M.F. EL-Gandy, M.K. Mohsen, A.Y. Salem & H.G. El-Awady</i>	207

Oral 38	Effect of Fig Fruit Extract and Storage Time on Native Chicken Semen Quality <i>Isnaini, N., & S. Wahjuningsih</i>	209
Oral 39	Micro-encapsulation of Fish Oil Extracted From Local Fish (<i>Selaroides spp</i>), Catchfish (<i>Clarias spp</i>) and Waste Canning Tuna Oil by Freeze and Spray Drying Technique on Omega 3, 6, 9 Content <i>Andajani, P.</i>	211
Oral 40	The Capacitation Status of Ettawah Crossbred Sperms by α -tocopherol Supplementation in Extender during Cooling <i>Rachmawati, A. & S. Wahjuningsih</i>	213
Oral 41	Genetic Polymorphism of Growth Hormone Genes in Indonesian Local Buffalo <i>Sumantri, C., A. Anggraeni, E.M. Sari & E. Andreas</i>	216
<u>Nutrition</u>		
Oral 42	Astraxanthin Extraction from Golden Apple Snail Eggs to Enhance Colors in Fancy Carps <i>Boonyapakdee, A.</i>	219
Oral 43	The Influence of Complete Feed Based on Fermented Local Ingredients on the Exterior and Interior Quality of Pegagan Duck Eggs <i>Sandi, S., Miksusant, E. Sahara & F.N.L. Lubis</i>	221
Oral 44	The Effect of Supplementation of Fulvic Acid on Body Weight, Internal Organs and Gastrointestinal Tract of Broiler Chicken <i>Permana, I.G., M. Wulandarim, Sumiati & H.A. Sukria</i>	222
Oral 45	Effects of Phytogenic Feed Additive With Reduced Dietary Metabolizable Energy and Digestible Essential Amino Acids on Production Performances of Pekin Ducks <i>Soisuwana, K. & C. Neungjamnong</i>	225
Oral 46	Fatty Acids Profile of Indigenous Chicken, Broiler and Spent Hen Meat in Manado, North Sulawesi <i>Suriani, N.W., H. Purnomo, T. Estiasih, & I.K. Suwetja</i>	226
Oral 47	Substitution Value of Beniseed Meal for Soyabean Meal in Broiler Diets <i>Anyanwu, G.A.</i>	228

Oral 48	Effect of Feeding Spice-treated Bovine Blood and Rumen Content Mixture on the Haematology, Blood Chemistry and Carcass Traits of Weaned Rabbits Onu, P.N. & A.O. Aniebo	229
Oral 49	Carcass and Internal Organ Characteristics of Finisher Broilers fed Neem (<i>Azadirachta Indica</i>) Leaf Meal Obikaonu, H.O., N.J. Okeudo & A.B. Udedibie	231
Oral 50	Fatty Acid Profile and Conjugated Linoleic Acid (CLA) Content in Thigh Meat of Native Chicken Tathong, T.	233
Oral 51	Reproductive Performance, Cholesterol and Progesterone Status of Garut Ewes Fed Ration Containing Different Levels of Sun Flower Seed Oil Khotijah, L., M.A. Setiadi, D.A. Astuti & K.G. Wiryawan	235
Oral 52	Feed Supplement Evaluation of Pineapple Rind and Micro Mineral as Antioxidant Source to Rumen Fermentation of Etawah Dairy Goats Mardalena, L. Warly, E. Nurdin, R.W.S. Ningrat & S. Novianti	238
Oral 53	Encapsulation of Caratenoid Extract by Several Polymers and its Degradation in The <i>in vitro</i> Rumen Fermentation Wina, E., I.W.R. Susana & B. Tangendjaja	241
Oral 54	Blood Hematology and Lipid Profile of Ongole Crossbreed Beef Cattle Fed Lerak Extract Based on High Forage Ration Surhati, S., E. Wina, T. Toharmat & D.A. Astuti	243
Oral 55	Profile and Antibacterial Activity of Whole Corn Silage Juice Against <i>Escherichia coli</i> and <i>Salmonela sp.</i> Isolated from Scouring Calves Gurning, F.N., D.A. Astuti & Nahrowi	246
Oral 56	Methane Production and Fermentation Rate of Local Sheep Rumen-fluid Fed <i>Indigofera sp.</i> and Mung Bean Sprout Waste Using RUSITEC Krishna, N.H., L. Abdullah, Suharyono, S. Rahayu	249
Oral 57	Influence of Concentrate Containing Probiotics on Fermentation Characteristics and <i>in vitro</i> Methane Production of The Grass <i>Pennisetum purpureophoides</i> Santosa, B., B.T. Hariadi & H. Abubakar	251

Oral 58	Growth Performance of Local Sheep Fed with Mung Bean Sprouts Waste <i>Rahayu, S., D.A. Astuti, M. Baihaqi, R. Priyanto, B. Satoto, L. Khotidjah & T. Suryati</i>	253
Oral 59	Nitrogen Utilization of Treated Cocoa Pod-Based Ration in Steers and Its Prediction from Metabolic Parameters <i>Laconi, E.B. & A. Jayanegara</i>	255
Oral 60	Effects of Enzyme Addition in Oil Palm Frond Silage Based Rations on Rumen Microbial Population of Adult Male Goat <i>Wahyuni, R.D., W. Ngampongsai, C. Wattanachant, W. Visessanguan & S. Boonpayung</i>	257
Oral 61	Yak Grazing Behaviour and Energy Expenditure Under Extensive Grazing Conditions <i>Ding, L.M., Y.P. Wang, R.J. Long, X.S. Guo & Z.H. Shang</i>	259
Oral 62	Effect of Feeding <i>Orpinomyces joyonii</i> on Rumen Fermentation, Digestibility and Microbial Populations in Indian Murrah Buffaloes <i>Nasib, S., S.K. Sirohi & N. Goel</i>	261
Oral 63	Effect of Different Sources of Biochar and Bentonite on Methane Production in a Rumen <i>in vitro</i> Incubation <i>Inthapanya, S., T.R. Preston & R.A. Leng</i>	263
Oral 64	Some Differences of Protein Nutrition in Swamp Buffaloes <i>Thanh, V.T.K. & V.B.C. Nguyen</i>	265
Oral 65	Effect of Agro-industrial By-product as Roughage Source on Growth Performance of Fattening Steers <i>Maneerat, W., S. Prasanpanich & S. Tumwasorn</i>	268

Physiology

Oral 66	Fertility and Hatchability Characterization of Three Strains of Egg Type Chickens <i>Allanah, T.O., J.C. Okonkwo & I. Omeje</i>	270
Oral 67	Effect of Introducing Different Breeds of Chicks to Scavenging System at Different Ages on Growth, Survival and Adaptation Traits in Malawi <i>Kanyama, C.J. & T.N. Gondwe</i>	271
Oral 68	Effect of Extender on Quality of Native Chicken “Luang Hang Kao” Spermatozoa <i>Boonmatan, T., S. Ponchunchoovong, T. Chomai, T. Vongpralub & A. Molee</i>	273

Oral 69	Effect of Temperature and pH on Activity of Purified Enzyme of <i>Aspergillus flavus</i> Okonkwo, I.F. & F.J.C. Odibo	275
Oral 70	Effect of Levels of Deep Stack-Broiler Litter on Chemical Composition and Rumen Degradability of Commercial Concentrate Diet Elemam M.B., A.M. Fadelelseed, A.O. Idris, I. Bushara, O.M.A. Abdelhadi & A.M. Salih	276
Oral 71	Effect of Linseed Oil Supplementation on Growth Performance and Blood Parameters of Beef Steers Noosen, P., P. Lounglawan, W. Suksombat & N. Phakachod	277
Oral 72	Fermentation and Methane Production of Indigofera-based Ration in Rumen Stimulation Technique (RUSITEC) Abdullah, L., D.A. Astuti, N. Suharlina & A. Jayanegara	279
<u>Health and Diseases</u>		
Oral 73	An Epidemiological and Economic Analysis of HP-PRRS Vaccination in Vietnam Zhang, H., H. Kono, K. Makita & S. Kubota	281
Oral 74	Prevalence, Bacterial Causes, and Antimicrobial Susceptibility Profile of Mastitis Isolates from Cows in Large-Scale Dairy Farms of Northern Ethiopia Haftu, R., H. Taddele, G. Gugsu & S. Kalayou	284
Oral 75	Antibacterial Activity of Alma, <i>Embllica officinalis</i> Against Bacteria Isolated from the Fish, <i>Poecilia sphenops</i> for Fish Health Management Gupta, R.K. & N. Bansal	285
<u>Production Systems & Animal Products</u>		
Oral 76	Factors Affecting Farm Revenue of Male Duck Fattening at East Java, Indonesia Seruni, A.P., Sulistiyoningtiyas & R. Lathifa	286
Oral 77	Housing, Feeding and Milking Management Practices of Dairy Buffaloes in Udaipur District of Rajasthan, India Chaudhary, J.L., K.S. Lamba & H.L. Bugalia	288
Oral 78	Production Systems and Strategies for Improvement of Village Chicken in East Nusa Tenggara, Indonesia Fuah. A.M.	293

Oral 79	Strategic Supplementation with Urea Molasses Blocks to Improve Production and Reproductive Efficiency in Straw-Based Diet Cows <i>Khan, M.A.S., MA.R. Chowdhury & M.E. Uddin</i>	296
Oral 80	Livestock Products Consumption in Java, Indonesia <i>Muzayyanah, M.A.U.</i>	298
Oral 81	Trigona laeviceps Foraging Activity and Colony Growth in Polyculture and Nutmeg (<i>Myristica fragrans</i>) Monoculture Plantations <i>Siregar, H.C.H., Y.P Guntoro & A.M. Fuah</i>	301
Oral 82	Mechanism of Arbuscular Mycorrhizal Fungi in Enhancing Productivity, Nutritional Quality and Drought Tolerance of <i>Paspalum notatum</i> Grasses <i>Karti, P.D.M.H., D.A. Astuti. & S. Nofyangtri</i>	303
Oral 83	Effect of Local Silage Additives on Fermentation Efficiency of <i>Leucaena</i> Silage <i>Chaikong, C., N. Saenthaweasuk, D. Sadtagid, A. Intapim & O. Khotakham</i>	306
Oral 84	Crude Extract Red Rice (<i>Oryza sativa</i> L.) Bran of Minahasa, North Sulawesi as a Potential for Natural Antioxidant Sources <i>Moko, E.M., H. Purnomo, J. Kusnadi & F.G. Ijong</i>	308
Oral 85	Identification of Phenolic Compounds and Its Antioxidant Activity from Lignin and Palm Oil Frond Fermented with <i>Phanerochaete chrysosporium</i> <i>ImSYa, E.B. Laconi., K.G. Wiryawan & Y. Widyastuty</i>	310
Oral 86	Study on Technology and Microbiology of Dahi: An Indigenous Dairy Product From Eastern Nepal <i>Bhattarai, R.R. & S.K.L. Das</i>	312
Oral 87	Native and Fermented Breadnut (<i>Artocarpus camansi</i>) Flour as a Natural Edible Fiber Source in Chicken Sausage Production <i>Purnomo, H., H.I.M. Shidik & A.S. Widati</i>	313
Oral 88	The Extraction of Fucoxanthin from Fresh Leaf, Thallus and Whole Part of <i>Sargassum filipendula</i> from Madura Islands <i>Zailanie, K. & H. Purnomo</i>	315
Oral 89	Natural Antioxidant Properties of Functional Drink Prepared by Combination of Local Honey and Red Ginger Extract <i>Jaya, F. & H. Purnomo</i>	318

Oral 90	Biochemical Characteristics of Lactic Acid Bacteria with Proteolytic Activity Isolated from Local Goat Milk. <i>Yelnetty, A., H. Purnomo, Purwadi & A. Mirah</i>	320
Oral 91	Total Phenolic Content and Its Antioxidant Activity in Marine Red Algae (<i>Kappaphycus alvarezii</i> Doty) Prepared with Different Drying Methods <i>Lalopua, V. & Purnomo, H</i>	322
Oral 92	A Comparative Study of Physico-chemical and Sensorial Properties of Indian Desiccated Dairy Product Ujani Basundi and Basundi <i>Gaikwad, S.M., A.S. Hembade & S.N. Landge</i>	327
Oral 93	The Potential of Local Trevally Fish (<i>Selaroides spp</i>) and Catchfish (<i>Clarias</i> sp) of Central Sulawesi as Natural Sources of Omega 3,6 and 9 <i>Gobel, M., H. Purnomo, Asriani & D. Rosyidi</i>	328
Oral 94	The Effectiveness of Some Manual Honey Test For Adulterated and Artificial Honey <i>Polii, B.N., H.C.H. Siregar, M. Rachmawaty & F. Akbar</i>	330
Oral 95	The Effect of Corn Oil Addition on Physical Quality and Organoleptic Properties of Mayonnaise <i>Evanuarini, H.</i>	331

POSTER PAPER

Policy and Environment

Poster 1	Bioethanol Production in Brazil: The Impact on Beef Production and Social Economics in the Last Two Decades <i>Meyer, P.M. & P.H.M. Rodrigues</i>	333
Poster 2	Bacterial Contamination on Beef Obtained from Fresh Market in Chumphon Province, Thailand <i>Kanloun, T., W. Konggrapan, S. Somset</i>	335
Poster 3	Environmental Factors Affecting Milk Production in Creolles and Anglo Nubian Goats in Ecuador <i>Pesántez, M., A. Hernández & L.M. Fraga</i>	337
Poster 4	Indigenous Livestock Management Among Siahjel Koochi Nomads of Iran <i>Ansari-Renani, H.R., B. Rischkowsky, J.P. Mueller, S.M. Seyed Momen & S. Moradi</i>	339

Poster 5 Small-scale Dairy Farming for Livelihood Improvement in Different Agro-climatic Zones in Sri Lanka: Constraints and Prospects 340

Gunarathne, A., H. Kono, S. Kubota & K. Karunagoda

Poster 6 Study on Relationship Between Different Heat Mode in Kit Survival 342

Zhong, W., J. Zhao, B. Liu, H. Liu, W. Sun, ZH. Chang & G. Li

Poster 7 A Study on the Learning and Cognition of Conference and Workshop Participation from Animal Producers in Taiwan 344

Lee, H.C. & L.C. Hsia

Breeding and Genetics

Poster 8 Estimation of Reproductive Traits of Silkworm Hybrids 346

Lavvaf, A., A. Seidavi & T. Farahvash

Poster 9 Analyzing the Genetic Structure of Indonesian Swamp Buffalo Populations Using Microsatellite Loci 347

Saputra, F., Jakaria & C. Sumantri

Poster 10 Estimation of Genetic Parameters and Breeding Values For Longevity Traits of Friesian Cattle in Egypt 349

Oudah, E.Z.M., N.A. Shalaby, A.S.A. El-Barbary, & M. Helmy

Biotechnology

Poster 11 Using Recombinant-DNA Technology to Change the Rumen Fermentation 351

Ali, K.B. & M.E. Basabi

Poster 12 Dominant Bacterial Population in the Rumen of Sika Deer, a Holstein Cow, and a Boer Goat 352

Li, Z.P., H.L. Liu, N. Jiang, K. Bao, X.Z. Cui, Y. Jing, & G.Y. Li

Poster 13 Effects of Yeast Culture on *in vitro* Fermentation and Microbial Communities of Low-Quality Forages and Mixed Diets 354

Mao, H.L., J.K. Wang, J.X. Liu, & I. Yoon

Poster 14 Synergistic Effect of Cellulase and Xylanase on *in vitro* Rumen Fermentation and Microbial Population With Rice Straw as Substrate 355

Mao, H.L., C.H. Wu, J.K. Wang & J.X. Liu

Nutrition

Poster 15	Haematology of Broilers Given Water from Four Different Sources in Eastern Nigeria <i>Etuk, I.F., I.P. Ogbuewu, T.C. Iwuji & I.C. Okoli</i>	356
Poster 16	Effect of Feed Additives on Methane Production as Determined by the Tracer Technique SF6 in Bovine <i>Perna, Jr. F., C.T. Marino, L.A. Pinedo, E.C.O. Cassiano, M.F. Martins, L.A.R. Solórzano, P.M. Meyer, R.T.S. Frighetto, A. Berndt & P.H.M. Rodrigues</i>	358
Poster 17	Evaluation of Ruminal pH Continuous Measurement Methodology Through Accuracy and Precision <i>Trindade, B.V., C.T. Marino, A.L. Castro, T.A. Barros, L.A.R. Solórzano, M.F. Martins, F. Perna Jr, E.C.O. Cassian2, L.A. Pinedo & P.H.M. Rodrigues</i>	360
Poster 18	Determination of Protein Ruminal Degradability of Common Feed Ingredients in Sika Deer <i>Kun, B., G. Li, C. Xu, H. Ning, K. Wang, J. Zhao & F. Yang</i>	362
Poster 19	Effects of Supplementing Concentrates Including Rapeseed Oils on Milk Fatty Acid Profile of Donkeys <i>Zhou, X.L., L. Cheng, G.Y. Chen, H. Jiang & L. Fang</i>	363
Poster 20	Effect of Feeding Optimal Ration on Nutrient Utilization and Physiological Endurance Limit of Dromedary Camels <i>Gupta, L.</i>	365

Sustainability Beef Cattle Development for Beef Supply in Central Java, Indonesia

Roessali, W., A. Setiadi, B.T. Eddy & W.Sumekar

Faculty of Animal Science and Agriculture, Diponegoro University, Tembalang Campus, Semarang, 50275 - Indonesia

Summary

The study aims were to identify farm potency to support the production sustainability and technology adoption and to support the beef self sufficiency program in Central Java. The regencies were Blora, Sragen and Wonogiri. Farmers was chosen by purposive sampling is based on scale of ownership minimal 2 animal unit (AU). 50 (fifty) farmers on every regency was chosen. So Total of 150 beef cattle farmer was chosen as respondents. Beef cattle were owned by farmers were 2.48-3.62 AU. Usually farmers raise their cattle by small scale. Farmers with high number cattle own have adoption technology tend to decrease. The result showed production pattern positively influence technology level.

Keywords: development, sustainable, beef supply, beef cattle,

Introduction

Livestock development especially to develop beef cattle in Indonesia should be done through sustainability, modern and professional efforts. Utilization of technology innovation to enhance the efficiency business is needed. Constraint to develop beef cattle especially local strain is low productivity. Reproduction disorder usually is occurred in local beef cattle due to estrus delay (Yusuf et al., 2012). Longer time of estrus cycle after birth limits reproduction efficiency in tropical area (Montiel and Ahuja, 2005). Service per conception is high (Ilham, 2006), low quality of mating management (Winugroho, 2002) and low ability of farmer to adopt the technology (Roesali et al., 2009). Effort to increase the beef cattle productivity is conducted through policies which apply to the beef cattle farmers. There were five factors which should be applied to obtain the self sufficiency program 1) depress the mortality, 2) prevent the female productive cow, 3) delay the slaughter time follow the genetic potency, 4) conduct the artificial insemination, and 5) increase the genetic quality and improve the business efficiency. The objective of the study were to identify farm potency to support the production sustainability and technology adoption and to support the beef self sufficiency program in Central Java.

Materials and Methods

Survey method was used in the study. Beef cattle farmers location were chosen as purposive in 3 (three) regency in Central Java is based on Location Quotient (LQ) > 1, the regencies were Blora, Sragen and Wonogiri. Farmers was chosen by purposive sampling is based on scale of ownership minimal 2 animal unit (AU). 50 (fifty) farmers on every regency was chosen. So Total of 150 beef cattle farmer was chosen as respondents. Descriptive analysis was used to identify the farm potency and logit analysis was used to determine the technology adoption.

Results and Discussion

Result of the study showed farm potency was based on land power supporting which was chosen on location quotient (L/Q) was good. All of regencies have (L/Q) >1. Land width was 0.52 ha on average and can support cattle feed. Number of cattle raised by farmers was 2.99 AU. Farmers profile is shown in Table 1. Implementing of Integration of plant-cattle program by government is one of policy which is socializing to the beef cattle farmers. Most of Beef cattle farmers have the knowledge on feed processing such as rice straw fermentation (61.33%). From the amount 32.61% farmers can produce for their own cattle and 16.67% of farmers can produce rice straw fermentation for cattle owned by group. Barrier and constraint to apply rice straw fermentation was time is allocated to prepare the material and labor.

Table 1. Farmers Profile in three regencies

Item	Wonogiri	Sragen	Blora
L/Q	1.8	1.9	1.7
Land width (Ha)	0.62	0.54	0.40
Number of cattle (AU)	3.62	2.86	2.48
Age (year)	41.02	44.10	45.22
Education (year)	6.74	7.34	6.55
Experience (year)	16.17	11.1	12
Number of Family (persons)	3.66	2.5	2.9
Beef cattle contribution (%)	41.24	37.85	36.58

Adoption technology of feed significantly was affected by education, experience, number of cattle. However land width and LQ not significantly influence the adoption technology. Model was fit because chi square on (0.000) significance level and level of prediction was 63.33%. Education level was relatively high ($\beta=-1.52$ sig. 0.096) and experience was relatively long ($\beta=-0.69$ sig. 0.091). Adoption technology of feed was decreased. Finding the result showed the increasing number of cattle owned by farmers ($\beta=-0.77$ sig. 0.0345) would decreased the adoption technology level even production pattern positively influence to the adoption technology level. Beef cattle were owned by farmers were 2.48-3.62 AU. Usually farmers raise their cattle by small scale. Farmers with high number cattle own have adoption technology tend to decrease. The result showed production pattern positively influence adoption technology level.
