Erratum

It has been brought to our attention that the last statement in the Results section of the Abstract of this article [1] is incorrect. This currently reads as: "Multivariate regression analysis, revealed that year of publication $(t_{32}=5.17,\ p=0.000,\ 95\ \%\ CI:\ 0.76,\ 1.76),$ and sample size $(t_{32}=3.01,\ p=0.005,\ 95\ \%\ CI:\ 1.36,\ 7.02),$ were the only two factors associated with reporting quality". The error is the test statistic for the year of publication. It should be: "Multivariate regression analysis, revealed that year of publication $(t_{32}=1.26,\ p=0.000,\ 95\ \%\ CI:\ 0.76,\ 1.76),$ and sample size $(t_{32}=3.01,\ p=0.005,\ 95\ \%\ CI:\ 1.36,\ 7.02),$ were the only two factors associated with reporting quality".
