3 - Hour Session

WELCOME RECEPTION & MEALS

Monday March 25

12:00-7:00 PM

Equipment Expo

The First Annual Purdue Road School Equipment EXPO will take place from noon until 7:00 pm on Monday, March 25 in the new Cumberland Place Exhibition Center located adjacent to the University Inn in West Lafayette. All the latest equipment and products will be on display by suppliers of Cat, Case, John Deere, Galion, Komatsu, Mack, Freightliner, Chevrolet, Kenworth, and others too numerous to mention. All of the exhibitors below will be participating. Plan on making this opening day program part of your Road School itinerary!

3M Traffic Control Materials
Alamo International
American Consulting, Inc.
Brandies Machinery & Supply Co.
Brown Equipment Co.
Cem-Kote Products
Central Indiana Mack
Clark Truck Equipment Co.
Contech Construction Products
Deeds Equipment Co.
DustKill
Equipment Marketing Co.
Eriks Chevrolet
Gateway Pipe & Supply
Holt Equipment Company
Kaffenbarger Truck Equipment Co.
Kenworth of Indianapolis
Lafayette Instrument
Lindco Equipment Co.
MacAllister Machinery Co.
MacDonald Machinery Co.
Mid State Truck Equipment
Partner Industrial Products
Prince Manufacturing
Rudd Equipment Co.
Seiler Instrument
Sherwin Industries
Southeastern Equipment Co.
Stoops Freightliner

5:00-7:00 PM

Welcome Reception

Join us for the Monday Night Welcome Reception on March 25, 5:00-7:00 PM, in a new location...the new Cumberland Place Exhibition Center located adjacent to the University Inn in West Lafayette. Beverages and hors d'oeuvres will be served, and door prizes will be awarded, including special Purdue sports items. There will be music and special guest performances, and hospitality suites also will be open.

Not only will you be able to visit for a while with your road-building colleagues from around the state, but also you can pick up your Road School registration packet and avoid the Tuesday morning rush.

Sponsored by the Associate Members of the Indiana Association of County Commissioners and the Indiana Association of Cities and Towns, with the support of the 2002 Road School Steering Committee, Patricia Zimmaro of Earth Tech, Vendor Representative. If you are interested in purchasing a sponsorship at this event, please contact Patricia at 317-847-7033.

Tuesday March 26

11:30 - 2:00

Exhibitors Luncheon

Purdue Memorial Union North/South Ballrooms
All participants are invited to enjoy an extended lunch hour at the sandwich buffet provided free of charge by the participating exhibitors listed to the right. Your name badge will be required for admission.

5:45 - 8:00

ITE Dinner

The Trails Banquet Facility
325 Burnette Rd. West Lafayette
Social: 5:30 to 6:45
Dinner: 6:45 to 7:30
Program: 7:30 to 8:00
Speaker: Jenny Grote,
International President, ITE
Program: ITE Update and
Presentation of Scholarship Awards
Tickets: Jim Loew, Farrar, Garvey
and Associates jloew@farrar-
garvey.com, 317-844-8900.
Deadline: March 22, 2002.

www.indianaite.org

Wednesday March 27

12:00 - 1:30

Road School Luncheon

Guest Speaker: Leroy Keyes, Assistant Director of the John Purdue Club and Purdue All-American.

Tickets may be ordered in advance on the registration form at the reduced price of \$14.00; after March 15, 2002 the price will be \$16.00. Reserved tickets will be held until 10:00 am the day of the luncheon, at which time they will be sold to the public.

Tuesday March 26

7:30 AM

Road School Registration

Road School registration desk opens in the east foyer of Stewart Center and remains open until 5:00 p.m.

8:30-10:00

Opening Session

Bryan Nicol, Commissioner, INDOT
Bill Haan, Executive Director, IACC
Bob Skinner, Executive Director, Transportation Research Board, Washington DC
Indiana Quality Awards

10:15-11:45

Design Issues

Suggestions will be given by representatives of INDOT and FHWA to streamline the environmental paperwork in the construction process; and seismic design of bridges on primary earthquake routes will be discussed by JTRP researchers at Purdue University that are currently developing a primary earthquake route procedure for Indiana.

Equipment Issues

Don't get stuck with less than you want. Attend this session to hear about alternatives from an expert to just accepting the low bid. Indiana LTAP's bid evaluation procedure will also be discussed, and an IDEM representative will be on hand to discuss purchasing equipment with grants.

Permitting Processes

One of INDOT's practitioners in this area will discuss the various project permits required and explain the completion process, including the Corps of Engineers 404 nation-

wide and individual permits, regional general permits, IDEM's 401 water quality permit, FAA permits, county drainage permits, and the IDNR construction in a floodway permit.

Planning Utilities in the Right-of-Way

Increasingly more utilities, particularly telecommunications companies, are requesting location in the public right-of-way. Potential options will be discussed for structuring city or county-led projects to best address, manage, and control these requests to ensure protection of road surfaces, infrastructure, and other improvements already located or planned.

Safety Issues

Come to this session to hear about the "seven safety zones in a paving site," as well as a review of Cinergy's current underground and aboveground considerations for powerline safety. Rounding out the session will be an update on changes being made to the Indiana Traffic Records process that will not only streamline its use, but will enable counties to access their particular data.

Strategies for Reducing Pavement Noise

Highway noise is often a source of significant complaint from citizens. More strategies are emerging for dealing with this problem. This session will include discussion of both theory and application of these strategies by experts in the field and by those who have experienced such noise and how they are dealing with it.

No Time Like the Present

This program will focus on how to maximize our most precious commodity...TIME. Participants will assess their time management habits and tips for managing time will be discussed.

Transportation Information Resources

There is a wealth of information available electronically to you and this session will give you some valuable sources and tips to get the reports, statistics, etc. you need quickly.

11:30 - 2:00

Exhibitors Luncheon

North /South Ballrooms
All participants are invited to enjoy an extended lunch hour at the sandwich buffet provided free of charge by the participating exhibitors. Your name badge will be required for admission.

1:30-3:00

(This is the first half of four sessions that are 3 hours long. They continue after the break.)

Design Considerations and Alternatives for Retaining Walls - .3 ceu

This three-hour session will be an in-depth discussion of traditional and Mechanically Stabilized Earth (MSE) retaining walls, where to use them, and where not to use them. MSE walls, frequently a cost-saving alternative, are sometimes the only realistic choice. Attendees will learn design considerations and basic design procedure, inclusion of other structures, the secrets of successful construction, and the responsibilities of owners, designers and contractors. Conducting this presentation will be Tony Uremovich of INDOT and Bob Glad-

stone of the Association for Metalli- cally Stabilized Earth.

Highway Administration and Management

Speakers will address a variety of issues related to efficient management of county highway and city street departments. Issues will include a Department of Local Government Finance (formerly State Board of Accounts) report on the new financial reporting requirements under GASB 34, a primer on reading and understanding the Indiana Code; a discussion of the 2000 Census and the effect it may have on highway distributions to LPAs, and a discussion of the issue of Design Build for LPAs.

Maintenance Issues

A variety of topics for those responsible for road and street maintenance will be discussed: truck rodeo training; the new Work Zone Safety Training Manual and the new INDOT Total Storm Management Manual; using GPS to conduct road inventories; dealing with roadside memorials; and using flowable fills.

Traffic Issues - .3 ceu

The ITE Indiana Section traditionally conducts this session where a variety of topics relating to traffic management are addressed. ITE's International President, Jenny Grote of Phoenix, Arizona, will discuss that city's school crossing safety program. Other topics deal with the operational issues of two-lane roundabouts, capacity in construction work zones, male and female differences in type and injury severity, and Purdue University's new transportation and parking plan.

SESSIONS

**Tuesday
March 26**

1:30-3:00

MUTCD Update

This design manual has experienced numerous changes and on the state level these changes are still in progress. Speakers from FHWA and INDOT will discuss what changes were made to the federal manual and provide a progress report on the Indiana version.

Local Federal Aid Process Update

Rick Whitney, INDOT Chief Financial Officer, will lead this session with the objective of reviewing the current process for receiving federal aid for local projects. Details of the state/local sharing arrangement will be provided to attendees. Special requirements for Transportation Enhancement Projects will also be reviewed. Finally, Laurie Maudlin will provide a sneak preview of what might be included in the reauthorization of the federal highway bill.

Performance-Related Specifications Update

There is tremendous momentum nationally for performance-related specifications (PRS) in road construction and Indiana is a leader in exploring and implementing them. At this session you will get an update from the researchers and implementers for Indiana's PRS for bridge superstructures, concrete pavement, and ultra-thin whitetopping.

Protecting the Public Right-of-Way...Whose Job Is It Anyway?

There is a lot of misunderstanding as to who is responsible for the right-of-way. Cinergy and Ameritech representatives will examine what the law really says, what your

responsibilities as an official are, and how all those involved in the process can work together to monitor sensible use of the right-of-way.

Violence in the Workplace

Anger can erupt anywhere, and increasingly so it is happening in the offices, construction sites, and factories that we work. Learn how to read the warning signs of anger and possible ensuing violence in those around you, as well as within yourself, and discover mechanisms to defuse anger before it is too late.

3:15-4:30

(Second half of 3 hour sessions.)

Design Considerations and Alternatives for Retaining Walls

Highway Administration and Management

Maintenance Issues

Traffic Issues

Acquisition of Right-of-Way

Special right-of-way issues that deal with appraisals, Rails to Trails, and condemnation will be discussed, including the most current laws and regulations pertaining to them.

Conflict Resolution

Whether it's an unhappy customer or a frustrated citizen...everyone deals with conflict on a daily basis. You will learn what to say and what not to say in a hostile situation, and you will hear how to say it and still do your best to maintain the integrity of your organization.

Local Federal Aid Process Review

In this session you will hear the results and recommendations of a year-long study of the local federal aid process conducted by Crowe Chizek, under contract to INDOT. Don't miss this opportunity to share your opinion of proposed changes to this process that is so important to LPAs.

Sign Installation and Maintenance

There is more to installing a sign than meets the eye when it comes to safety and liability. Attend this session to hear about the appropriate considerations for underground utilities, proper safety installation techniques for square and channel posts, and what the liability issues are regarding sign negligence.

**Wednesday
March 27**

7:30 AM

Road School Registration

Road School registration desk opens in the east foyer of Stewart Center and remains open until 5:00 p.m.

8:30 - 10:00

Associations Meetings

- County Auditors
- County Commissioners
- County Highway Engineers and Supervisors
- City Engineers
- Indiana Street Commissioners
- County Surveyors (All Day)

INDOT Meeting (3 Hours)

- Smoothness Awards
- INDOT Long-Range Plan
- ITS Update
- I-74 & I-465 Interchange Project Panel Discussion

Traffic Management for Interstate Projects

Contractors and consultants are encouraged to attend this session to hear an update from INDOT and FHWA representatives.

10:15 - 11:45

Round Table Discussions

Please join in on one of these five open discussions on topics of interest to all levels of transportation professionals. Moderators will be prepared to lead an open discussion and answer questions on each of these issues. Handout materials will also be available for additional, more in depth, study.

- Preservation Issues
- Successful Public Information Meetings
- Wheel Tax and the Distressed Road Fund
- Public Construction and Competitive Bidding
- INDOT Long-Range Plan

SESSIONS

3:15 - 4:30

(Second half of 3 hour sessions)

Bus Trip to Ross-Ade Stadium Project - Sign-up Required

If you would like to see the ins and outs of the major renovation taking place at Ross-Ade Stadium, be sure to sign up for this 30-45 minute guided tour. Bus space will be limited so make sure you check the box on the registration form.

12:00 - 1:30

Road School Luncheon

North Ballroom (Tickets may be ordered in advance on the registration form at the reduced price of \$14.00; after March 15, 2002 the price will be \$16.00)

1:30 - 3:00

(This is the first half of two sessions that are 3 hours long. They continue after the break.)

Environmental Issues

Lori Gates and Martha Clark of IDEM's Office of Water Quality will update you on Indiana's proposed Stormwater (Phase II) Rule and its impact on municipal separate storm sewer systems (MS4) as well as Indiana's Ground Water Quality Standards Rule and its impact on local transportation agencies. Part II will examine the problems associated with salt truck wash water discharge, as well as the innovative reuse of these waters for beneficial brine production and reuse. Specific highlights covering this strategy will be reviewed for INDOT's current implementation sites along with parallel reviews of deteicing and anti-icing activities.

Erosion Control/ Back to Basics - 3 ceu

March 2003 marks the deadline for establishment of new EPA Effluent Limitation Guidelines (ELG) mandated by the National Pollutant Discharge Elimination Standards (NPDES), Phase II. This "Back to Basics" Erosion Control Seminar will address legislation, policy, design/construction techniques, and Best Management Practices to satisfy these mandates.

Our Transportation Heritage

Do you have an interest in Indiana's transportation history? Then take time to hear experts, some of whom have spent a lifetime documenting and defending Indiana's transportation legacy, discuss two aspects of it...the progress of a comprehensive written history of Indiana transportation, emphasizing the 20th century, and the ongoing efforts to preserve Indiana's transportation artifacts.

Our Next Step: Highway Funding Opportunities 2002

Attend this session to hear experts in the funding area, as well as a state legislative panel, discuss what you can do to get involved in the highway funding issue, with the goal of creating long term dedicated funding for roads and bridges.

Coping Strategies for the Humor-Challenged Workplace

Branna Smith of Purdue's Worklife Program will share her Stress Management FUN-damentals to help you assess your current stress level, analyze coping patterns, and formulate effective strategies for dealing with stress - both in and away from the workplace.

Environmental Issues

Erosion Control/ Back to Basics

Asset Management Issues

This session will inform attendees how the the IDEM stormwater permit will impact planning, design, construction, and maintenance of roadway systems and also will discuss the applications and benefits of laser imaging for developing terrain models.

Legal Issues for Managers

In addition to having technical expertise on transportation issues, local highway and street department officials are also charged with managing a significant staff. Very often, they attempt to do this with little or no management training. Having a basic working knowledge of the Fair Labor Standards, Americans with Disabilities, and the Freedom of Information Acts may keep you and your agency out of trouble.

Pavement Maintenance Issues

The small details do make a difference. This session will discuss the quality considerations in chip seal and asphalt resurface projects and how to obtain it.

Bicycle Design Issues, Benefits and Resources

Bicyclists and motorists share the same transportation system. Planning and designing for coexistence on the transportation system, increasing safety, and increasing transportation choice and opportunity are beneficial for all. Understanding the needs of bicyclists as users of the transportation system will create a better environment for all users. The panel will discuss issues and benefits, present examples and online resources available for planning for bicycles.

RPOs...What are They and How do They Relate to MPOs?

Regional Planning Organizations (RPOs) were created to help rural and small urban areas outside the auspices of MPOs conduct traffic studies that are often required by other agencies, such as collecting traffic count data. INDOT RPO program managers and a panel of RPO and MPO representatives from around the state will discuss how the program works and their experience with it.

SESSIONS

2002 Road School Steering Committee

Lloyd Bandy, Asphalt Pavement Association
 Christine Baynes, INDOT

GENERAL INFORMATION

Conference Administration

Chairman:

- *Kumares Sinha*
Director, Joint Transportation
Research Program
Purdue University

Co-Coordination:

- *Karen Hatke*
Program Coordinator
Joint Transportation
Research Program
Purdue University
- *Tom Martin*
Program Manager
Indiana LTAP
Purdue University

If you have any questions about the program content, please contact Tom Martin at 800/428-7639 (Indiana only) or 765/494-2164 or Karen Hatke at 765/494-9310.

Registration

Road School is a free conference open to the public but registration is required. We encourage you to preregister on-line at <http://www.purdue.edu/jtrp> if you wish to register only or plan to pay by credit card. You may also use the form provided in this brochure and fax or mail your registration to the Purdue University Conference Division as directed on the form. Confirmations will be mailed to those who register prior to March 15, 2002. No confirmations or parking permits will be mailed after that date but will be held with your conference packet at the Road School Registration Desk located in the east foyer of Stewart Center, 7:30 AM to 5:00 PM, both days of the conference.

Road School Luncheon tickets will not be mailed and will be given to you with your conference packet. Reserved tickets will be held until 10:00 AM the day of the luncheon, at which time they will be sold to the public.

Note that conference packets and on-site registration will also be available on Monday evening during the welcome reception at University Inn, 5:00-7:00 PM.

Parking

Attendees please note *changes below in italics* in the Purdue University parking regulations!

The Grant Street Garage, which serves the Purdue Memorial Union is connected to it by a subwalk, has 500 available spaces. A parking permit is required to enter and exit through automatic gates. Parking permits may be purchased ahead of time for the Grant Street Garage only on the Road School registration form. Permits purchased by March 15, 2002 will be sold at the conference rate of \$1.50 a day. Your permit will be programmed for the number of days you purchase and will be mailed to you with your conference registration. Parking permits purchased after March 15, 2002 will cost the standard rate of \$5.00 per day and will not be mailed. Parking permits may also be purchased on both days of the conference at the Stewart Center ticket window near the Road School registration desk, 8:00 a.m. to 3:00 p.m., at the standard rate of \$5.00 per day.

Municipal, county, and state attendees driving government-marked vehicles are allowed to park free in all parking garages on campus except the Grant Street Garage. If you park your government-marked vehicle in the Grant Street Garage, you will be expected to purchase a permit. We ask your cooperation in using the five other garages in the vicinity, in which you can park free, to help alleviate the congestion in the Grant Street Garage. All are within easy walking distance to the conference, with the Wood Street and Marsteller Street Garages only a block or so away. There is also free parking available to you in a surface lot south of the Young Graduate House off State Street that accommodates 50 parking spaces.

Cancellations/ Substitutions

If you register and find out later that you cannot attend, you may send a substitute. A refund on parking permits and luncheon tickets will be issued if you request one in writing to the Purdue Conference Division before March 25, 2002.

CEU's

Continuing Education Units (CEU's) are available for the sessions identified as such within the program. CEU's are a standardized, nationwide method of recognizing a rewarding participation in noncredit educational activities. Attendance at the entire session is required for CEU credit. You will be asked to fill out a participation form and a certificate will be mailed to you after the conference.

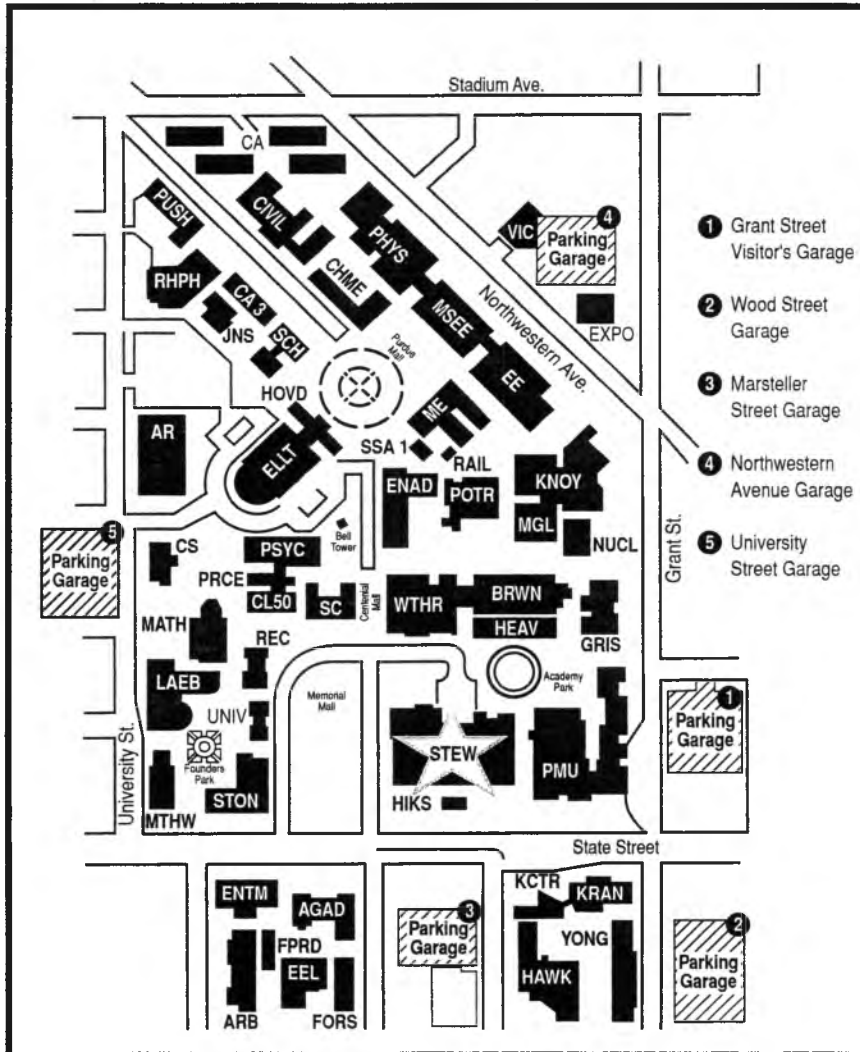

Messages

To contact an individual at Road School, leave a message at the Road School Registration Desk, 765/494-8807 or fax 765/494-0567 (please indicate that the message is for a Road School attendee). Messages will be placed on the message bulletin board near the registration desk in the east foyer of Stewart Center.

MAPS and LODGING

CONSTRUCTION ALERT!!!

Several major road construction projects are underway between Lafayette and West Lafayette. Purdue has a website devoted to helpful traffic suggestions to make your trip as hassle free as possible. Please check it out at: <http://www.purdue.edu/oop/travelalert/>

The Union Club of the Purdue Memorial Union offers direct access to Stewart Center, where Road School sessions are held. Meals are also available at the several restaurants on the ground floor of the Memorial Union. For reservations, write directly to the Union Club, Purdue Memorial Union, West Lafayette, Indiana 47907, or call the reservation desk, at (800) 320-6291 or (765) 494-8900.

In addition to the Union Club, there are a number of motels and hotels in the Greater Lafayette area. Many of them offer shuttle service to campus for conference participants. Lafayette and West Lafayette hotels and motels are listed below, along with addresses, phone numbers and an estimate (in miles) of the distance each is from Purdue. For more information on rates and services, call the specific hotel.

Prestige Inn (2 miles)
