THE EXECUTIVE

36 years old, shaves his head bald
once in the marine corps he mastur-
bated in front of his platoon so he could
challenge the Article that made playing
with yourself a court-martial offense.
They let him be.

He writes with a pen that is at least
an inch in diameter, drives a '50
studebaker that he starts with a screw-
driver and signs his name with a capital
"D" that looks like the number "1"
inside a circle.

Once we fought over a woman.

He is Don Alexander, executive vice
president of Security Pacific Bank
high-school dropout, bullshit artist
who handles eight billion dollars
of the bank's money.

He is my friend.

but I'm sort of friendless at this point
in my life. Not sure why, but it's
obviously by design and within me.
Frankly, there are not any folk at the
bank I would feel comfortable in approaching.

IN THE GREEN HILLS OF AFRICA

imagine how disgusting the lion
must find the domestic
cat

I AM ADAM

can you imagine the power
the awesome power
of the man who stands
balls bare and busting cock
hard in front of his lady

and says
I want you.

you've been running hard back and forth
chasing that frisbee they keep float-

got the nerve to add, "fetch it, girl,
