

a crazy man could haul a trunkful of them.  
 it's so easy to use them,  
 it's a wonder they don't use themselves.

(joe and freddy jammed their weapon  
 and were jumping around like idiots;  
 philly missed the target completely,  
 so sam, his partner, slapped him in the head.  
 al and leeper (danny) slipped on loose  
 gravel and partially crushed their weapon;  
 jose and mr. soap didn't care -- they popped  
 a rocket into a dirt slope and hid in a  
 latrine, to smoke cigarettes. that day, only  
 cateye and ogden hit a tank. they said it  
 was a damn shame, a waste of money, and they  
 hated doing it.)

ogden said: sergeant -- this is a bunch of  
 bullshit.

sergeant gets angry:  
 i oughta take the damn things away from you  
 and give them to a platoon of damn children.

ogden said:  
 do that.
