

Royal Institution - London
June 2nd 1831

Sir

I have received your letter and the honor which accompanied it and hasten to express the very high gratification they afforded me and my sincere and hearty gratitude for them. These feelings I beg you will communicate to the Imperial Academy of Sciences of Petersburg with every respect on my part and I assure you I could not have had a stronger inducement to continue exertions however ineffectual which have already obtained for me such high distinctions.

Accept my sincere thanks also yourself Sir for the very kind and agreeable manner

in which you have conveyed the Express
 I have been searching for some other means
 of transmitting my acknowledgements but
 failing to find them and anxious not to
 cause delay I send myself of the Post
 Believe me

Srs

Your Most Obedt & Devout Servant
