Contents: Avian Biology Research Volume 4 Issue 3 2011

Posted on 6. October, 2011.

Avian Biology Research, formerly *Avian & Poultry Biology Reviews*, has adopted a new and exciting vision for publication of ornithological research in the 21st Century.

- 99 **Dimension of red blood cell in heat stressed broilers**
Nual-Anong Narkkong, Supaporn Pamok and Worapol Aengwanich
- 103 **A comparison of plasma and tissue ascorbic acid levels in turkeys, quail and chickens using a rapid, modified reductionbased colorimetric assay**
Christopher G. Hardy, Calvert T. Larsen, Steven D. Holladay, Mark S. Johnson and Robert M. Gogal Jr
- 110 **Enzyme supplementation of layer diets containing wheat middlings**
Alaeldein M Abudabos
- 118 **Intermediate Egret Ardea intermedia in the Neretva River Valley (Croatia): evaluation of historical and recent data on its movements**
Jasmina Muzinic
- 122 **Broiler breeder trace mineral nutrition and feeding practices on embryo progeny development**
Vera M.B. Moraes, Edgar O. Oviedo-Rondo n, Nadja S.M. Leandro, Michael J. Wineland, Ramon D. Malheiros and Pamela Eusebio-Balcazar
- 133 **Can we engineer the heart in broiler chickens during incubation**
Jordi Altimiras
- 134 **Sexing of day zero unincubated chicken eggs (Gallus gallus)**
M.A Aslam, M. Hulst, H. Woelders and M. Smits
- 134 **Artificial induction of hyperglycemia in chick embryos: method and postnatal effect**
S. Bogatyrev, I. Schiavo, K. Melchior, T. Ziska and B. Tzschentke
- 135 **Broiler Breeder Flock Infertility; What is the role of the hen**
R.K. Bramwell, D.E. Yoho, J.R. Moyle and S.M. Whipple
- 136 **Preliminary detection of seminal plasma proteins in the domestic fowl, Gallus gallus, using two-dimensional gel electrophoresis and mass spectrometry**
Annelisse Castillo, Margherita Marzoni, Simona Sagona, Lorenzo Citti, Silvia Rocchiccioli, Isabella Romboli and Antonio Felicioli
- 137 **Cryopreserved pheasant semen thawed by the hotplate method and tested in vivo**
A. Castillo, I. Romboli and M. Marzoni
- 138 **Hypoxia affects chicken embryonic development–reduced O2 concentration during the plateau period**
S. Druyan
- 139 **Effect of post-hatch holding temperature on chick behaviour, gut development and broiler performance**
N.A. French, D.A. Nicholson, V. Kretzschmar and D. Goynes
- 139 **The effects of turkey strain on amnion consumption and hatching behaviour of late-term embryos**
A.E. Ghane, I.J.H Duncan and J.L. Atkinson
- 140 **Effects of broiler egg storage on cell death**
J.A. Hamidu, G.M. Fassenko, D.R. Barreda and L.L. Guan
- 141 **Improving the fertility of cryopreserved poultry semen**
Julie A. Long
- 141 **Effect of body temperature and relative humidity in the hatcher on body weight loss and chick length of the broiler chick**
C.M. Maatjens, I.A.M. Reijrink and R. Molenaar
- 142 **Cryopreservation of broiler breeder semen: effect of thawing methods on sperm quality and fertility**
M. Marzoni, A. Castillo and I. Romboli

- 143 **Incubation temperature: a predisposing factor for ascites**
R. Molenaar, R. Hulet, R. Meijerhof, C.M. Maatjens, B. Kemp and H. van den Brand
- 144 **Changes of heart rate response to acute hypoxia during the second third of chick embryogenesis**
M.V. Nechaeva
- 145 **Hatch benefits of short periods of incubation during egg storage**
Dinah Nicholson, Nick French, Vanessa Kretzschmar, Danny Gojne and Andy Hogg
- 146 **Thermal manipulations of broiler embryos affect thermoregulation and development during embryogenesis**
Y. Piestun, O. Halevy and S. Yahav
- 146 **The effect of thermal manipulation, during early embryogenesis, on angiogenesis and thermotolerance in broilers**
S. Pinchuk, N. Meiri and S. Yahav
- 147 **Antimicrobial activity of egg white: identification of novel proteins and changes in anti-Salmonella activity during incubation**
S. Rehault-Godbert, N. Guyot, J. Gautron, F. Baron and Y. Nys
- 148 **Preincubation warming profile affects early embryonic mortality in long-stored broiler eggs**
I.A.M. Reijrink, L. Sijses and H. van den Brand
- 149 **Egg size variation in double yolked duck eggs**
A. Salamon and J.P. Kent
- 149 **Pre-storage incubation of eggs from layer-type breeds compared to other treatments to preserve hatchability during storage**
R. Schulte-Druggelte and S. Trinkies
- 150 **Embryonic development of endothermy in precocial birds**
B. Tzschentke and M. Rumpf
- 151 **Increased metabolism in post hatch broilers related to increased growth capacity and climate conditions; implications for transport design**
G. van der Linde
- 152 **Changing incubation temperature—perspectives and facts**
S. Yahav
- 152 **Sperm production and testicular development of broiler breeder males reared with various light stimulation cycles**
D.E. Yoho, R.K. Bramwell, J.R. Moyle and S.M. Whipple
- 154 **Avian Conference Diary**
- 155 **Avian Biology News**
- 160 **Book Review**

This issue of Avian Biology Research continues to provide a forum for people working in every field of ornithology, including avian health, genetic effects, and threats to avian species in their natural habitats.
