RE: Mentoring program

The three of you responded to our announcement of the Division on Women and Crime's Mentoring Program by volunteering to be "authors"; that is, you are looking for people who can help you with manuscripts and other work. Moreover, all three of you specialize in quantitative delinquency research. The problem is that at the moment, we don't have any free mentor volunteers with expertise in your area. Thus we are proceeding by suggesting that you three team up to be mentors to one another.

Phyllis is an associate professor, Mary Ann an assistant professor, and Vera a second-year graduate student. We are hoping that Mary Ann would be able to help Phyllis and Vera, Phyllis to help Vera and Mary Ann, and Vera to comment on work by Phyllis and Mary Ann.

We will enclose copies of the materials you sent in when you wrote to request mentors. Please read them over and get in touch with one another, sending us copies of your correspondence so we can be confident that contact was made.

If this arrangement does not prove helpful, get back to us. No doubt some quantitative mentors in the delinquency area will materialize down the line.

Good luck with your projects.
