

EMBEDDED LIBRARIANSHIP SEMINAR

31 October 2012, 8:00 – 15:00
Auditorium, Merensky Library
University of Pretoria

Librarianship is changing, and has to change.
Librarians need to master new technologies for managing and delivering information;
engage with knowledge and information and moving beyond one-shot instruction.
It is essential to establish new relationships with information users and the
community in which we practice.
The name given to this change is
'Embedded librarianship'

- Shumaker, 2012

Programme

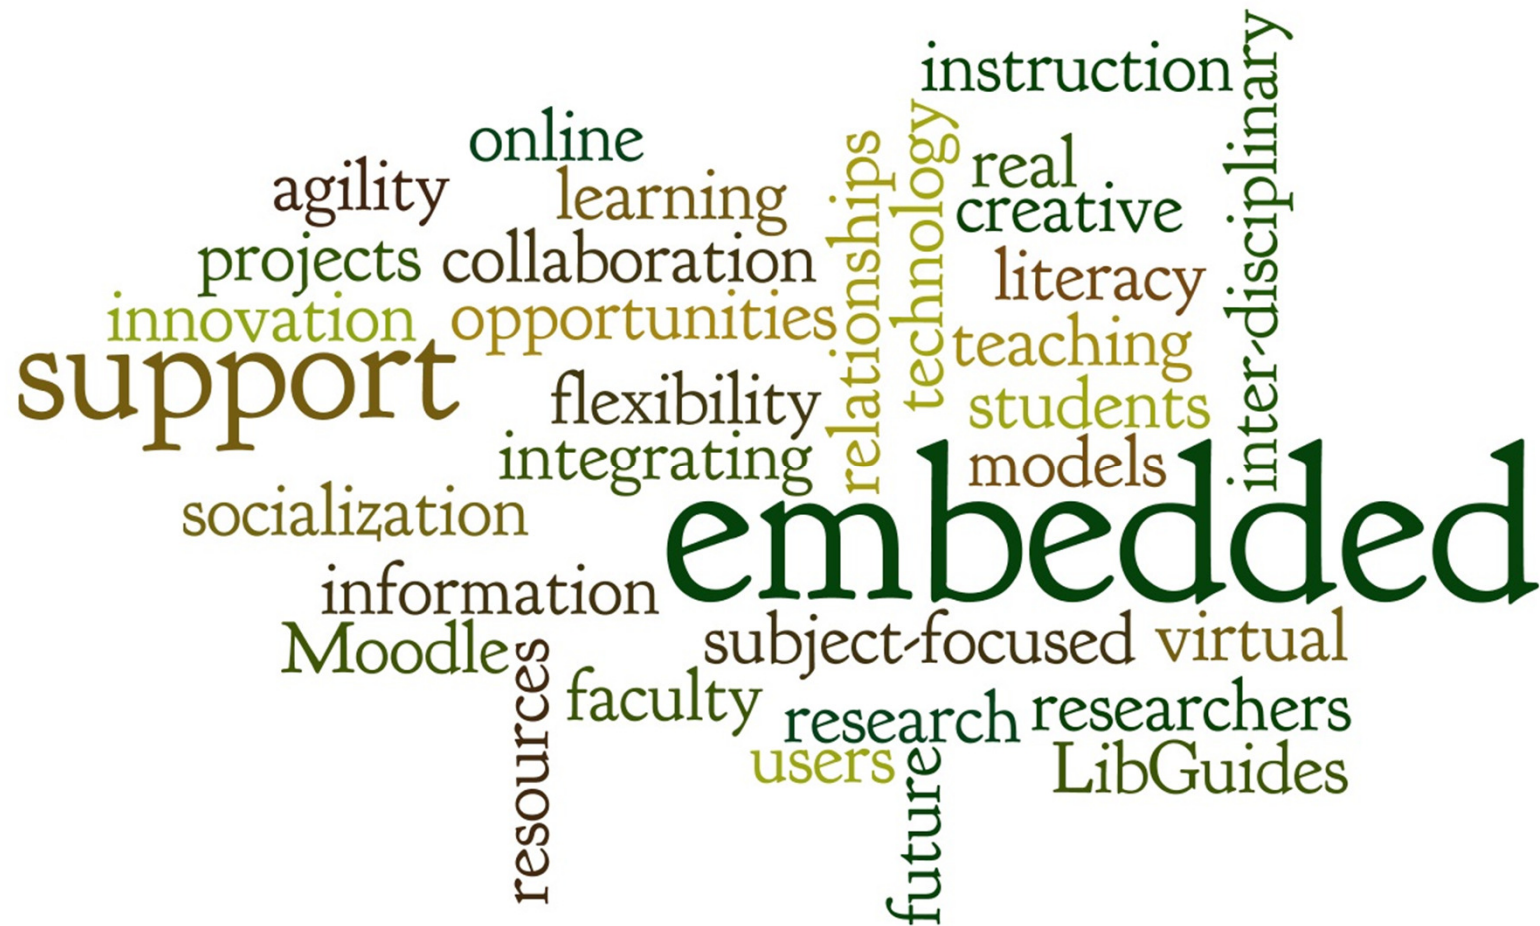

8:00	Welcoming		Robert Moropa

14:45	Wrap-up & Closure		Lindiwe Soyizwapi

Why this day?

Tertia Coetsee

What is embedded librarianship?

Towards a definition of *Embedded Librarianship*

Let's talk about the (good?) old days....

When thinking where we came from, how will you describe the traditional role and characteristics of the information specialist (subject librarian)?

.....

How will you describe the ideal information specialist?

.....

What are the 3 main differences between a traditional librarian and a modern information specialist?

.....

Give your own definition for *embedded librarianship*

.....

In what way(s) do you think can information specialists be embedded?

.....

Information Literacy

Chair: Susan Scheepers

- Library training for law students
 - Shirley Gilmore
- Information literacy training embedded in the Faculty of Veterinary Science's BVSc curriculum
 - Part 1: Susan Marsh
 - Part 2: Marguerite Nel
- Chemistry information literacy course
 - Sunette Steynberg

Embedded Projects

Chair: Sunette Steynberg

- “Em-bed” with the librarian
 - Estelle Grobler
- Phytomedicine community of practice : a project in embedded librarianship

- Amazon kindle finding its way in the University of Pretoria’s collection
 - Refilwe Matatiele

Research Support

Chair: Maggie Maropane

- Research Support in Economic and Management Faculty
 - Helmien van den Berg
- Embedded in online learning – Research Methodology
 - Antoinette Lourens
- Student Support in creating research questions and proposals
 - Danie Malan
- Embedded librarian and bibliometrics
 - Sunette Steynberg
- ClickUP
 - Liesl Stieger

Special thanks to...

- Robert and Lindiwe for the opening and closure of the day
- Our clients who contributed through the video recording
 - Prof. Kobus Eloff
 - Prof. Peet van Rooyer
 - Prof. Saurabh Sinha
 - Anton van Dyk and Steph Pond of Education Innovation
- Sunette and Tertia for coordinated the video recordings
- The session chairs:
 - Susan Scheepers
 - Sunette Steynberg
 - Maggie Maropane
- Presenters
- Antoinette Lourens for the flowers and help with the printing of hand-outs
- Everybody attended and contributed to the success of this day
