

ERRATUM

Open Access

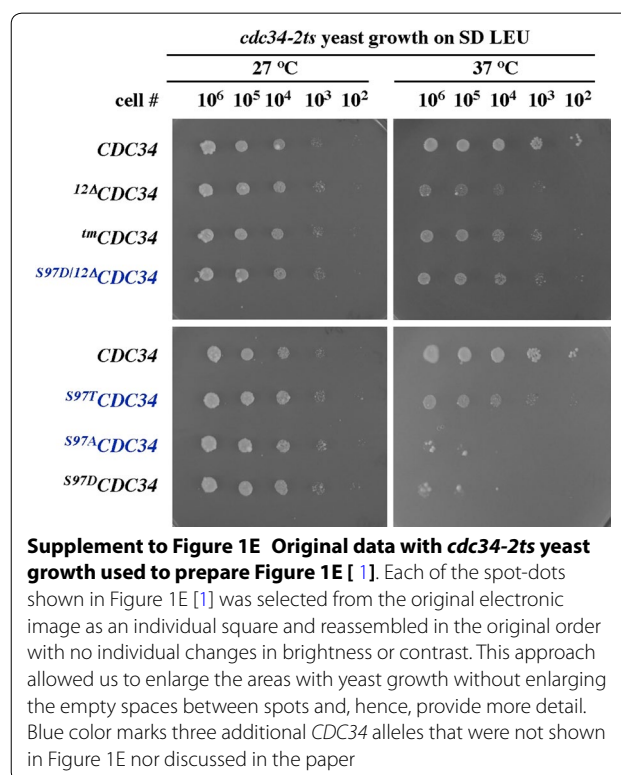

Erratum to: The loop-lesstmCdc34 E2 mutant defective polyubiquitination in vitro and in vivo supports yeast growth in a manner dependent on Ubp14 and Cka2

Agnieszka Lass^{1†}, Ross Cocklin^{2†}, Kenneth M. Scaglione^{1,3}, Michael Skowyr^{1,4}, Sergey Korolev¹, Mark Goebel^{2*} and Dorota Skowyr^{1*}

Erratum to: Cell Division 2011, 6:7**DOI 10.1186/1747-1028-6-7**

After publication of this study [1], we found that the preparation of several figures did not follow the guidance given in the Instructions for Authors and resulted in unacknowledged modifications. This erratum acknowledges these modifications and shows that they neither affected the interpretation of the data nor the conclusions drawn from the data. The information below is supplementary in nature, as it does not alter or replace any information included in the study [1].

Current authors' information is available at the end of the article

Declarations

There is no change in authors' contributions reported in [1]. All authors read and approved the previously published manuscript and this erratum.

Current authors' information

Since publication of the original article the authors' affiliations have changed. The current affiliations are as follows: Agnieszka Lass^{1†}, Ross Cocklin^{2,5†}, Kenneth M Scaglione^{1,3}, Michael Skowryra^{1,4}, Sergey Korolev¹, Mark Goebel^{2†} and Dorota Skowryra^{1*}
