ERRATUM Open Access

Erratum to: Measurement of HbA1c in multicentre diabetes trials – should blood samples be tested locally or sent to a central laboratory: an agreement analysis

Barbara N. Arch[1*], Joanne Blair[2], Andrew McKay[1], John W. Gregory[3], Paul Newland[4] and Carrol Gamble[1]

Erratum

The original publication [1] is missing one reference in the reference list. This reference should be also cited within the text. This error was caused during typesetting. The publisher apologizes to the readers for the inconvenience caused. The correct reference and citation can be found here:

13. Martin Bland J, Altman D. Statistical methods for assessing agreement between two methods of clinical measurement. The Lancet. 1986. 327(8476):307-10. doi:10.1016/S0140-6736(86)90837-8.

The Bland-Altman [13] analysis of agreement method was used to compare local and central measurements.
