<p>The generator had to be turned off three tonight to replenish the oil. Had to take Amy & Barbara again last night. Spent the day on report & correspondence & scheds of course. I think John Wardman has arrived at Gona, bless him. Hugh & I dit-painted the G.C.S. & got it off. At 11:30 Genny asked us to have the Mell Grammar boys for the aftn. (12 of them & half for dinner. It would be Grand's 15th birthday. She was quite upset at the short notice. We all helped which put her off her stride too. I was cross because PWD sent for the grass-cutter, waited for Gordon for 3 hours while he was mending the phone wire instead of coming home. I really got down for a rest at 3 P.M. The boys & nicely-behaved lot & asked lot of intelligent questions about T-B. 4 stayed to dinner. Genny went to bed at 20 to 7, back at 9:15, still dinnerless. David Woods & Stephen Morgan on board & work on quest. No sleep all day. 2. Mail letter from Win & an apology from Lynn rather hard to cope with because she takes her bad tactics as a personal insult to me which of course it isn't.</p>	<p>up at 6. I'm terrible & feeling unable to cope but at the help of the Holy Spirit I carried on on an even keel. Inspection. Rodd came & I could ask him about an X-ray boy. Manned to have a lecture but Eric came to talk re pray pt. & brought X-Rays of the kids. People got some catering, but done. Sided difficult. Betty asked us to have the two masters for dinner - David Woods (Theodore's brother) & Jonathan Mellard. Pleasant but - Wang goes on whole evening. Talked of travel a great deal. Letter from +D but nothing on the Davis couple or Genny. Got some prunes done before dinner.</p>

The ambulance brought Gach from Ambasi; great TB. did some interesting, & a good bit of preppie on the school. No word of C²⁰ arrangement! M.K. in 1:30. Have founded on today: the order
 scheduled was unsatisfactory.
 Saw maddy after morning tea. In
 Mawana came out for a while
 to check up the job. Only Annie
 went from here to the party, at
 9:30. Junior helped me see
 Margaret who clearly had an
 early miscarriage, but wouldn't
 admit it. Later her father called
 Junior who promised to come to
 me. Alan C. is supposed to have
 visited her in Nov. & Hugh 3
 times in Jan. Have been too
 busy to take up to it - I deeply
 regret. Jeremy back tonight, his
 old helpful self over transpa.
 Kestey better & designing things
 for embroidery. Lillian had
 a long talk to Bewan tonight
 who just poured out his
 troubles & worries. Hope it
 will help him for good. No
 word from Ken. No mails.
 Have written to Val & Paul.

 had to get to top by 7 P.M. I drove
 me to the Bay. I told him of Hugh
 & Alan, the conflict between duty
 & need & their dismissal. The
 matter came to help me about it at 9.
 Operation tonight. I dread it, but
 not so much as assistant.
 Lesley gave anaesth. Many

Fr David looks as spry as ever but in a malar fever. He is 71 & resigning from Guardianship. Fr Michael who stooped & young old Fr Bernard remembered me from the Pleaslow visit. Fr Wm from ABIM SS Fr G. Lloyd from Tas. Fr Geoff well. I had a few words about Marie's acceptance of the trip.  have it. Arnold came to my
 glad surprise, & brought Madeline
 who had a pleasant, restful
 week-end. A did a good few
 x-rays & changed the developer,
 paper. He brought John L. who has
 been sick & looks dreadful
 still. I fiddled for an hour
 to another, got some long-
 standing job done. Gave
 lunch in & out, & Janet gave
 the MMS milk coffee at 11 &
 invited them to lunch. Also she
 asked by M. & Gudy for drinks.
 One would think she was too
 busy, but she always seems to
 pull an extra when routine is
 demanding. I had planned to
 sleep in the Hosp. to relieve her
 but that decided me not to - &
 I am tired. Gary had a day off
 & went to opt union. David
 put in a 40-ft. new aerial, &
 reception is much better. I had
 medical traffic: O.O. of UFM
 over a snake-bit case, & urgent
 evacuation. Rugh was arranging
 for a helicopter. Spent 3-4 P.M. on
 Bee - lots of posting letters to
 write & began tonight after
 reading x-rays still hot.

Linear Corbett has gone to SMH & it
 is marvelous to have the house to
 myself - though he is nice enough.
 He cleaned the bath before he left!
 Inspection quick. Linear heard AWM
 say they can't take Lealey till 10th on
 it, she was disappointed & grateful.
 Busy AM - letters, vehicles, etc. &
 balancing books & cash. Linear was
 in 9th vehicle at 2:15 + MMS took
 our mail at 2:30, some C² letters
 & to copied. Jan wanting me & Gladys
 I went after school, heard Janet's
 version. Went on to see Jan who was
 quite cross: Janet for getting in first
 they are storms ahead. I heard
 Jan's story - Gladys refusing to do
 a public disproof. I went to see G.
 casually. She would not talk about
 it. I put it to her as unfair to the
 others. Had a chat with Marie before
 dinner. She has a new sewing girl
 at long last. I handed out a story
 met. To Hosp. at 4:30. Elfreda out &
 though & late on duty. Linear B waits
 to go home on M.G. - a long talk of
 difficulties & SLH & needs. Talk to
 Linear the cook about teaching Beran
 who is willing to try. Luddy's visit
 made all the difference to him.
 Then a talk to Janet & apologizing
 to Gladys re the thing her -
 don't think she will. Did a
 bit of running to Bach.

Time WEDNESDAY ^{Feb} January 4th

In spite of amylbarbitone did not sleep till 11.30 or after I woke through the night. Many heavy but cooled all day. Curtis are offering as medical 3 boys M3 4 years ago: a M6 quilt tonight. Thanks want to go back to SCMTS. I can't do an Admin job & studying for 1970 - a great blow to me work & of doubtful value to L. G. Insp. writing interviewing Napoleon in the sulks, Joseph weeping over Tom Nelson's death, telling Myra Gyles to pack: she got off at 3 PM scheds bus & book changing plans. Have been peetering for Simon's rate & did not get it. Simon trying to get home & straight back on M.G. - displacing an MMS boy. No mail, Paul at Kokoda. No new medicals. Wrote some letters 3:30-4:20. Brother for camp: Dentle is clean of L.G.C. Maurice in phos & asked if Maurice all at once, & Moelene trying to talk. Then long talk in M. i Simon Curtis quit. Felt a bit less perky after dinner. Did 8.15 sched for boat, wrote 2 letters re. New girl Dorothy Lura still change & new Gren's birthday.

Time THURSDAY ^{Feb} January 5th

Great after 10 last night that was an unusually row from the Mary's. I went over - no sign of Janet - found Tangaja, Lura warning in the workshop & the boys helping to make the row. I shut them up, they started again so I went back & found Janet there she had actually made them move at that hour. I confined myself to "healy Janet" & I think she was ashamed. Got to sleep after 11. up for mass. Simon did g. & Gilbert & Napoleon served. Spent AM writing letters mostly to P170 scheds bus, rather funny. Am to get Thoma after all. Heard A.W.M say go to Dogura on the 20th. Book in an awful muddle & M.G. changed her original plan so Simon will be stranded at W'gela. Janet sick lightly to it, as it is "my decision" - which it was!! Macarthur came in bank at 2.30 - NO MAIL! It is infuriating sent Lura to SMH. Talked in Mance sent for Beatrice as a possible nurse. No people here for Land Dept. I was PM for had to push myself but have done odd job. New record on psychiatric instrument good.

I slept 5 a sedative, have felt more alert today; I was relaxed but it has been a better day. Talked to the Rhysold at 9 AM & heard the 2 new Eino nurses were on the way down! They arrived at 10 & seem nice kids. Also Thomas is to come. Kyle pinned up for an X-B & Rosa Mary, John Laban's daughter for a medical certificate for a permit to teach. The Army took Name up at 11 which suited her well. I miss her very for this short time. Have entered up things done claims etc. At 3 found Janet doing day off - the 2 nurses get a week-end day & the nurses get week days, which they don't like. I suggested the other way round. She cannot see that the services must work harder than the Nafurans & take their share of the hard conditions. I in spirit of me. Short staff made complaint for a solid hour AM, invited the Darrin to dinner (quite pleasant), tried to get F. M. & Judy as well. Merrill is stuck at the Bay. I have written a few letters & sent some. No mail of course.

F. M. brought Merrill & family in after 10 & stayed talking a while & headlights in. Kaurward started a dreadful singing in St. Mary's whether in protest or not I don't know. I went over in a temper but it stopped (on the road) after the jeep drove off. Late to sleep. Back in bed after sleeping till 7:20 wonder full. Little Thomas presented: a # Charles; Quaker hit him & spoke to big Quaker did shed & prepared to menders - little result for a lot of work. Janet took the day off "on call". I called her to indicate think. At lunch she asked if she should go to the Friday. I said "It is entirely up to you". Maybe wasn't gentle enough. She would not make the decision, I neither would I. Finally she stayed at home in Hears. I think blame in the hospital by staying at home! I am suspect that I feel I must be at fault somewhere, but I will not carry her decisions for her. Mary came; went at 1:20 - the Refrery lecture. Major Lewis' book came at last. It looks nice. We got off at 2:30 to the Party & it was a delightful event, even though it flavoured was spoiled by the Janet episode.

No relative last night, woke at 2 AM for a while. Was depressed & weary AM but the trip to Pop was relaxing & perked me up. I did 9:15 sched & found the gap cleared. AWM not flying. However on our 10th there in front of the jeep was Gordon & family. A had a person came for wires. I would not look so I kept him fast. x-rayed that in the joint & turned & even the 4th was too good. Sent her to SMH for GA. I think it is dislocated. John M. called in & smiled & offered help!!! Roddy did the same tonight!!! Thank God for that. Got away at 1 P.M. after a quick lunch. Thought PHD would be host. He over the lateness but they made no comment. Frank got quite cooperative & even friendly. I gave me map & fact called at Dist. Off. even got a big map out of Mr. Johnson. To Pop Messia Paul back & a new person. Also a shy young VSO for HMS. Name at 20th St. Law reads medical panel brought a welcome tea tray (what brand?) while I did sched. Hobart Regatta Day (Tas.)

I think it has been a day of some achievement. Inspection, in the several letters. Jeff came & went, & we sent mail out. Left 2:15 - 3:10. Wrote to Director & cc. all over the place. Benson brought mail ^{there} on in from Gene. Very shocked at the news. I can see that it is drummed by the interest of her new life - as it should be. No M.K. until yet! Have written to Helen. It should be taken up & AWM who finally said Lesley could take a max of 370 lb. including herself. David going to Pop in the jeep to see Roddy. I think he might be good for Roddy. Tonight looked at x-rs & wrote letters. Janet still organizing other people & not herself. Mentle slow at reading Watkins & she kept beside him. "helped" him - I think she charmed him. am not sure. Mar is organizing Lent, & won't have it is Mar's job to decide what he will do. I want a time of meditation 12:30 - 1 every day. I told her I would not be in it. It is robbing Marie of hours of work, but she will conform. I will not.

My ab. is sleepy even is sedative after a good night's sleep. A pretty morning. David went to the Bay, all plans went awry. Felix, Ellen, Mary did not turn up. Nehude has packed to go, not done all their errands. Arnold arrived in late AM kept him capt his well till 1.1 went to Churchhill. Morrison about it. Benson went to 1 of late. Ken bobbed in, out Janet decided to go to Gona-crazy idea. Ken took her to the Bay she probably had to walk from Ken in the pouring rain. I talked to Nathan. We got Mimi man. Worked at x's. Had cash. High P.M. & bike pieces. We got all amused at Rodolberg in Rodolish about his intake of students depending on dates. M.H. cannot give any. Benson would not take Noelens to SMH to show the teacher - too full of the people to put on. Mr. Mainland back. Tonight new nurse Dorothen turned up wet, cold, hungry, an peasant, - walked from the Bay. 1/2 hour later Noel returned her gift! The post sailed out is pecking up the forgotten mail. Now slow little tonight but see these people & write to them.

Marius came up on the phone & wanted me to ring Moresby to transfer a pt. Exeburg could barely hear me. Hospital not at all. He Noelens got it to Port for Paul to ring PHD then phone was O/S. Medical staff few Doping or inspection was that - but pleasant. Saw x-ray & interviewed Dorothen. Spent after on Mission affairs, wrote to + D. Talked of my resignation & the future of the work. Noelens went to the Bay. David & stayed to show the film. He is a quietly persistent lass & get there in the end. M. I had a lovely quiet dinner together. I back to letters & writing. High brought Maken's husband who had come to visit her, walked all the way. At 9-20 Janet turned up on the M's motor bike! She sailed past her at 6 PM & had dinner in there! Tried to have a day off, but the only thing I achieved was Win's letter. Up for 6:15 service in the MacArthur celebrating lovely fresh morning. Met little pathologist dress. Saw him a cuppa here. I skipped big Maas, went to Win's, had a talk. Leah. After breakfast Hoop, working parking hill 11, then talked to Joan. Bore new words. Very easy to wander from the point. 12'd lunch, had a sleep. Back to Hoop hill 3307, climb up a few more jobs. Before E had Joan. I looked at Bishop's hand. We would have to make the building a hollow square. E sang seems to have lost it heart - or maybe I have. Very tired. Slept out before the sermon & got on to local letter again tonight. Can get no peace here, every one comes up & some thing else to attend to, but I am nearly desperate. Maybe because I was singing for hours to myself, not getting it. MK came 2 PM + Alison. We had from Garmah.

Bye Alf, punched in up at 6:30 & I dropped specimen at the hospital, crashed there. Home tried to death, felt better after a cuppa & bath. To Geoff here, bless him. No personal talk in him. No the teachers here for dinner. Eileen & Wendy seem to get on well. Have not unpacked properly. E sang & glad to flop into bed. I hope to celebrate in AM. Kang + D tonight. Back by special car had a supper, real, rang up Laura who is v helpful. Wensang a before dinner I said about, expecting + D who hasn't come, & writing letter, Lured again.</p>		<p>The 3 Japanese girls expected for the week-end just didn't turn up from H.K. I went to 7 P.M. Mass sang the Bp's Eclair & glory. The latter's same unwillingness as I dreaded being invited there. But the poor soul has pain when she walks & is more or less staying in bed, so was glad Frank, she is nice, to Tom, caught a bus at one, did shopping & a factory, & to Susan for lunch. Meadant. I suppose Susan opened up more than usual, but it was about church duty, policy & her own awareness of inconsistent behaviour she got a history of me (for obituary purposes only) & of S.L.H. I drew me home at 2. I borrowed a few things Laura had promised to lend her. The Bible as M. Nelson. As she dropped me Mr. & Mrs. Nelson appeared, just arrived from Melbourne. I had met them at the A.M. 55. 3 yrs ago. Took them up here to wait for Bro. Alfred, & bang went the afternoon. Lured to quit at 4 gracefully. Laura sews, came to peddling for sandals. Then to David. Bro. Andrew to afternoon. In D talking of concelebrating. R's an Italy or family a rest. Eileen out for dinner. I sang Barbara there. Got some letters written & helped Wendy. & ghostly sandwiches for breakfast.</p>

 at X-Rs in between lines
 Got work till 4:30 to get hold
 of Maurice at Bldg. Sub. C
 Kousata to re. i. missed E.T.A. of
 Minnesota. Got mail at lunch-
 time - letters from the Bp. who
 thinks Phyllis Makin may
 come after all; i. commented
 on my resignation. Wankins
 for 1970 if possible. In hymns
 says we may well be there
 till October 1971. Got MK
 mail & other mail. Trying to
 get hold of Parmenas.
 Manner who did not come I
 sent a note saying no pay
 till you go on the boat.
 My drinker - him felt stupid
 as if I was trying to do too

Green to have last my drive
 left the last of the circular off
 today as F. M. went to Pop. Wals
 & Thomas on repairs, mine,
 Mankous & he did some tidying.
 He pegs away at jobs quietly
 and it is wonderful to see mess
 cleared away as jobs are done.
 P.M. hot & muggy again. Hugh & I
 balanced the cash. Thomas & I
 noticed the last bits of medical
 stock. I started the inventory
 F. M. & Judy coming to dinner
 arrived at 7.30! We ate at 7
 & were just finishing. A whole
 lot of teachers came in to fill in
 papers. But the evening came
 unshakably & apart from looking
 at Laguna & R.S. I have done
 nothing. My previous record
 player is not working again.
 Maddening thing.

Slept till 7 & was still drawing
 over prayers. Actually did house
 keeping! But Mance ran to the
 bread. I spent A.M. doing strong qu-
 ventary & putting the medical store
 in order. At morning tea dinner
 told me that Mance (without much
 prompting) told him she is preg-
 nant to Fulbert!! It all happened
 before his holiday. Am leaving it
 alone till Monday. Fulbert has
 straightened up & munched so much
 lately too. Had a rest disturbed
 by noisy housegirls, did odd jobs
 quite useful ones all the after-
 noon. I had a pleasant lunch alone.
 Janet talked of renter home at after-
 tea. She wants to fly over the Pole.
 After dinner Mance got talking of
 patterns for herself. Good to see her
 so animated - but missed 1/2 the
 broadcast concert. Mance, mother &
 Lesley & Susan & done a spot of
 jinning. Muggy again, but cool
 this A.M.

Time MEMORANDA

A real day off; have not been near the Hospital, also cooler, overcast a lot. tonight is clear & moonlit - a dry season suggestion. Fr. M. came for 6^{PM} service - a genuine misunderstanding between us, though I found myself trying to put the blame on him. Spent the morning writing letters & felt stale (as did Nancy). PM slept till 3:30, & have sorted all my mess of papers, both around the room & in my folder waiting for filing. Had a fair bit of music. The kids' horn is barely worth practicing to. Hubert came late to Church (from cooking) & communicated. Arranged for John Lohan to call for mail, & J. was in the car at 12:15 when J. L. came. Fr. said he wd. go up the road & walk back. Hugh came at 4 to say Fr. has run away "for a day or a week" & his things are packed. As the news must be out, Ann worried about the whole situation but tried not to think about it.

She had the grave to look discovered when I asked what her husband would pay. Had a lecture, got on with order, new ready to type. After 5 had a shower & got on to standing CE stuff & tonight have written West. Sec. letter. Went to hospital after dinner & ran across Fulbert who asked if I told him he must go but should stay till we get a replacement. He is a nice kid kindly & his business will come to an end somewhere.

Time TUESDAY—March 17th

a lovely bright day good for washing. Inspection, lecture & typed the order. Got it finished while hearing the 4.30 clock. Sent Fulbert off at about 10 to see F. Maurice. He very run-jilting to go in the heat. I told him he wouldn't think twice about playing football in the heat, threatened him & + George & Mueli George King & he went. David went to Pop & registered the motor bike. Day brought back the magnet took it straight on to Eric. Judy came to dinner & brought round the pictures past night. I did odd job. Heard Ches-syond Bunker on radio. The many bumps must be due to fine & the tail end of the epidemic.

Thomas's help, saw Mass who confirms that in Welford is his son, has taken a wife (but not in church) & has been to see F. Tim re doing the evangelist's course. Actually had time to go to meditation for a while in la Janet. Jan talking it had a bit rest & Maurice Don. Sunday Board arrived at about 3. Jan did not get here. We got somewhere thanks to David Kay who got down to essentials. He has a cold, I am wondering if I picked it up. They went at 5, had a talk to Muth who has 3 gardens & will quit Neville wife. The others are for Ma-in-law. Ken did not come for dinner. Am sorry Maud asked him, & now I think he will shy away that much longer. The Dargies there. & Albasant. Talked about AVA preparation for the job. Have written letters for Min. next to one to Sylvia Kirkman to welcome her.</p>		<p>Dark morning. I slept poorly. Time **FRIDAY—March 20th** 21st

I worked in Thomas a good bit got letters written (got all in packets). Dr. Maurice went to Pop's found his jeep unexpectedly overloaded - SMH mirrors to our Simon was overloaded. Don drove through after 2: didn't stop, as Simon is still here. Simon B. Janet at odds. I demanded extra time off. Janet "not prepared to change this time" I tried to put it in my lap. I promptly put it back in hers, talked to V. trying to keep it at a light level. Got washed. Each feels the other takes too much time off - each is carried - both absolutely minus a sense of humor. Anyway, Simon won. Marilyn drove before dinner, Don at 6:30 from Pop; he showered here. I think enjoyed his evening, but stayed hell! Bang went on evening. A big meal which I read in bed. Sean Ward sent me \$2 for Easter. I announced myself back on the air at 11:30 I was let in for medical traffic. Marilyn still away in spite of the fever. Noelene planning to return today (Sat) but no luck.

Time **SATURDAY—March 21st**

A busy but... price day. I got up to 6:30 but slept 7-5 could have slept more. Kept an eye on Thomas who "forgot" some job which may be unpleasant ones. Started 3/6 report & did it in 10:30. Janet switchy & rather avoiding me. Marilyn had to fast in bed. Maria came in time for morning tea. Judy from Barikari. The 2 American went home after afternoon tea. Marilyn is going to get the Anthropology Journal for me. Have done 14th mail. All 4 remembered that there was no activity round the chapel, so brought Hugh who took a mob off. They did a good job in quick time & palms & flowers. Luckily I told Janet who wasn't pleased: some of her staff was late. Hugh working till nearly 9: I suspect Fulbert is not going to be here tomorrow. I told him to let Gustus work alone & Hugh to sleep on. Hard to get a sewer or anyone who knows about church things. Simon absenting himself.

Still hot swamy weather, Janet more approachable & little Blanche apparently has accepted things. David helping out doing a job of work. Had 3 brothers up there doing really very heavy work. My fiancée quite good now. Sister's house to inspect. Entered card & have a few letters off my conscience. Noelene did 1.30 school, but I had to complete the business at 2.30. Thought I stayed for Myron practice for a while - wish Noelene did not choose verse & incomprehensible English. Saw X-rays called to Kawadua & sent reported to be 106.6 but was 39.4 not 41.5. Matthias the teacher coming here after all - arrives tomorrow.

Woke at 12.30 in a bit of a storm. Had to take Amy's car to get off again. Woke after 6 & was in a hurry to get to church. Not a very good prayer when I got there. Services late. Spoke to Debra & TBS re weekend arrangements. A lot of talk & Matthias. Arthur drove the rest & we got away before 9. Gladly went with Mr. Chandra half way coming to see me & he returned & met. Might talk & we got it worked out. I had to come here for checking, tried to ring Alan but the call was not through by 1.20. Collected Wini's Easter parcel & had a while in the library - found Judge's book & Judy at the pub. & pleasant. Saw Matthias & the Mission & all agreed he should have the work. And in P.O.P. Time	FRIDAY—March 27th Good Friday	Time	SATURDAY—March 28th Easter Saturday EVE
	<p>Left at 7: still drizzly. A dull day as usual on Good Friday: a gleam of sunshine at 4 P.M. People is good about the silence, I think the staff fasted but Hugh said the pt. did not. Fair road the services. We just had the young cuppa at 7:30 & 11:30 - M. I don't know what the others did. Mr. Cook Mathins & J. M. came out at 12. I stayed in the Chapel & about 2 days. Hugh read E's song. Jan suggested to David that he drink the punch in at 3 to pick up a card & told M. it might go, so she walked in contrary to her first plan. I did not go: she copped the 6 miles walk (alt. Noelens). Very lack of communication they didn't stay for a cuppa in there. I dragged home without. I am cross in myself. I then did some desk work & M. read & had a rest. After a 3 P.M. cuppa: Janet did cards, & at 5 read List, & sang. I did denims. Tonight wrote Gwendolyn Mugh's funeral (Mugh has written to the Bishop) & did up Theresa's washing card. Not much else. Am tired. Even began a sort of preparation for confession.</p>		<p>Woke at 13 for what seemed a long time. Dr. Henry later. Mollens again & breakfast in bed, bless her. I saw pt. & various people & saw the rest of List & X-RS, wrote to Stanley. Pop. & got X-RS ready to go. Then in to Dr. Hughes's shift. P.M. did cards of staff, have got them in order. Having trouble in the piano room? The earth. Head Duedu warm for my rest & again for 1/2 hr before dinner as I felt too flat to work. The staff & pt. have done a good job: the chapel. I did odd jobs in my office after E's song. Discussed: M. the possibility of a week end at the Library, work for 2 Geoff. Ben Tim & that, about the lot. So I left for hospital a rein but still I am in sorry. Gran wants to know the world upside down. Several other letters to answer soon. I sang & have done lot of reading, letters & writing. Very sleepy AM in spite of good sleep, could hardly say my prayers. Phyllis had a work under Hugh's tutelage. I did writing + got odd gold done. Name went to Sunday at MD but he said he is not going tomorrow. The pip went up + returned at 4. Big mail. Hugh said he is going to Pop tomorrow on a PMV, so I asked for a seat. F. Zeff said OK + slept long PMV read a light novel for 2 hr - a great refreshment. Thought many demands, mail, dark up at over John Wood's letter, Nathan's a bad ear, say Nyrin was killed in Worcester a car accident - William's brother so we won't get Wm! Saw one sparker doubtful + we spoke in front of my eyes made it hard. Very heavy rain + St. Michael verandah + awash. Now getting ready for packing, tried out a new Schubert, + read mail. Mary I sent someone in to quit her work at 4 to 10! Thanked her + turned it down. She never may be over the bridge very much.

A funny day. Woke at 6 + was under a fleecy lead by breakfast time, but no wheels came. The pip went through at 9, full of teachers, + took on mail. Spent 1/4 on odd jobs, we cleaned the traps + the little steel wool, long winding, + wrote a letter or two + to Wm. did not start on the Nyrin's stuff, thought I might have got it done. Tried + disappointed. Nyrin's funeral passed at 9:30. Fulbert wanted to go + finally went: Hugh did the tobacco for him. At 2 in came Marnada, relation of Topera Juffel, + took me up. Still raining, but he got over the bad Fran's road. N. here since 11. Looking in mind. F. J. welcomed me. Had a sleep + read 3-4. N. had a talk: F. Zeff after after tea. I tried to prepare a Can. session but made little headway + sang in rain + I forgot my rain coat! N. went to sleep + that was it. G. Read + folded till nearly 10.

Think the passage of 4th 9, fear I can't deal with, yet I know at bottom that I have dealt with much worse cases before, & these are simple unless something is worse than it appears. Maybe Laureis too. Anyway I got 3 x's done before doing the blood panel for Anthony. I rubbed up Geoffrey's very promising veins & only got 2-3 cc, but a good bag from Edrie. Anthony is thrilled: it all. Got in to Triacilla's vein alright, but at 2:30 they put her on a pan & the needle slipped out. Her arm was swollen & painful & I had no energy or courage to go in again. Now Janet wants to do it tomorrow! I said Mo. P. could have a reaction. P.M. wrote letter to L. Thomas got little done: he was showing the Mankos people. Last night saw X's, then to my house, did non-medical job washing, rinsing, washed my hair. The Sharps, Ben Tim both Janet & Wesley to 5:15 to dinner. Then (we leave) rain soaked up my shorts. The work piles up & piles up
 - in little piles & big ones.
 I have just received a whole lot
 from T+D about Medical
 budgeting to be done in 12.
 I have spent most of today
 on Dr. Byrnes 12-year plan &
 I suppose it is almost ready
 for typing. Thomas & I got the
 bits of x-raying finished just
 Simon called me to stop a
 quarrel between Lisa & Naomi
 Sheila - even more pointless
 than most. They just want
 to jump at each other. I also
 spoke about charring coconuts
 that didn't find favour. Janet
 took Simon to inspect dormitory
 & they forced a door of the mess
 & Hugh was angry. Janet has no
 sense of other people's belongings
 & that the single boys would react
 Simon banging in. Hans went to
 Pop on a P.M.V. I kept not ready.
 Heather Gillett (NZ) came on the
 Gairan at 4:10. Her girl
 immediately at home date
 dinner & she saw handcraft. I
 looked at x-rays & answers & read
 mail. My transceiver is on
 the way back.

A nurse called me at M.N. to say
 my intercom was buzzing so it must
 have been going some & plugged it in
 at 10 P.M. Couldn't sleep for 2 hours.
 Tired all day, getting to the desperate
 stage, crushed under all this work
 & getting no forwarder. God seems to
 be a long way down in priorities
 shaved the hair of the Hospital & saw the
 hill after 10. She is interested in
 everything but that's to work hard
 out the people for day-bangs. Fulbat
 not back from Pop & Hugh came on duty
 The truck came at 4:10, late & Heather not
 ready so they had to wait. Janet has
 the whole week-end off. wants to go to
 Woreby on Monday for her booking.
 Gha ready & left through the arrival
 of the truck & companions singing
 names & keeping & copped the ente-
 paring. I went to hear them sing (w
 nicely too) & Mr John Kneyle & Mr?
 Motoney came. I subscribed in
 pleasant & will give of treatment
 & asked us to go up on Sunday, stayed
 for a supper & Mr Hoff. & went at 4:30
 Maurice fixing the phone & we are on
 to the Bay, please him. Talked to Geoff
 after bath at work, happens the single
 left on. Tonight raining. I sing. he
 stayed yards. I wrote 1/2 report has &
 heard the Royal Concert in Sydney.

Gudy brought an aerial at 5 but I don't think it is a single one. Gudy has been to Mt. Meru today per motor bike re opening Mt. at Penguin. She got an email from her, thought some tonight. Miss letter from those who regret having left us, but we promised in Antarctica to come back again. Have stopped all day in Hosp. & no mission what done. Have AAPB in Myra Gyp's spectrum. All MMS asking to come for a holiday. Name wozzy, healed & had to lie down before dinner. Kati went to Erv at 5 for fishing & then a message came that Patrick is sick, she must go home.</p>		<p>Wooden Name copped it again she has a keeping. Valerie off. Elizabeth supposed to be helping. We tried the transceiver, got out 1:30 & 4:30 but can hear it little & have to use my own set. The miss felt down, but even then Peter heard me. I spin at Kowamibe. Jean says Peter's trophy report has not come yet - she gave me a wrong one. I made a new Hosp. plan for figures, Mary W., the OC, & then on to the wretched Budget. There are lots of (inevitable?) errors that were I can pick in what has been done. Name go, a circular of work ready for Phyllis Dear, it is going to be a muddle & I go of camp AM. had a quiet supper & talked of Mary Magdalen. Wretched Matthias - VD not yet in Hospital. David spent much of the day on the new radio aerial & alas it doesn't work. We could not transmit. Woke at 6:30 & a few jumped up when they heard the bell. Janet upset: no one told her - we all forgot & she is always out of earshot when things are discussed. Saw the finch while the 2 go handed over. Did x-rays. Tried to get to my house & on delay after another dropped up. Gota hit down. Luddy waiting for a punch & got off at about 3. I just got down at 2 & in came Eric - one new patient: got back at 2 to 3 & Frank & Ann came talked for an hour. I got back to the cleaning hands of Chopin at 10 to 4. Frank going to Samoa then Maunua will be away 4/2. The truck brought mail at 6:30. A packet from the Bp. who is at Pop a new set for 4/2 for Logona & a number of no religion offerings! Have seen X-Rs, read & written mail tonight. Sleepy & tired & have had a fair amt. of headaches.

Woke relaxed for once. At Mathin found 4 boys missing - had gone off because there was no food - the 3 Highlanders & Mathan. Good little AC stayed. The 4 came back at 6:45 tonight. I had them on the mat for 2 hr. They are quite unrepentant, & did a bit of the method of getting food & want to run it all themselves. They lose today's pay. Miller & I find them another day's pay. Told Jeffrey he was demoted from being secretary. We got off on the Minnesota affair - & it still hasn't sealed. The transceiver working since David fixed some wires - but reception is poor. No new pts in today. Actually spent P.M. tidying up a drawer of the filing cabinet. Judy came at 2, gave 3 patients some lessons & did some duplicating. Have written a few letters, & got the drug order ready to go. Uelen went to the Bay to invite everyone to Friday's party. Maureen B. says no because they will have John Woods there! A joggling sort of day, not much done but I did pray that I should put God before work. Did a bit of x-ray as yesterday's films were bad (? too old). Did a chain & wrote letters. The jeep is full (or full) & Mavis, Kathi, went out at 10.15. The truck came at 1 P.M. instead of 10. Mr. Wayland came for jeep, did some duplicating. P.M. had a cuppa & Dr. Salwai & talked of her problems. David wrote on the radio but reception is still bad, so he is going to write to Hugh. I talked to Hugh about her plans to go to L.P. also to SMH. The jeep brought mail at 4.30 P.M., a letter from Hugh. It is just too stale to write all the letters I should so tonight I cleaned down & scrubbed my bookshelves to Schubert. Have a job I want to read. I'm bed early. Phyllis has a great sense of fun & I think is good for us.

Time SATURDAY—May 30th

Wrote till 7, & again P.M. till 3.30 & wanted more. Did leaf job - Dr. Wright report on x-rays sent & sent more. Working in my house. Sister Valma played my records, was thrilled by it. She didn't let I asked her. I'm just help herself. The old, the new. The sharpes came at 12.30. M. M. Shulder is \$98 at the market. A nice dinner & sherry, sauce & steak & pudding for, must wash by Hugh. Young David rich. I got Thomas to make up Sheldrin's clean my linen. cupboard. Between us we painted it: Sheldrin & I must put things back tomorrow. Dr. V. put away the rest of my books as an act of kindness - but I will re-arrange them tomorrow. You coming to office since Janet's departure.

Now written a few letters & swatches of praying, reading, talking. In dim talking the evangelist was for it & handing out 2-3 boxes for much ride. W. asked the Govt. allowance to him, he challenged the men. They owned up that they had no lunch & were giving it away to the village people. An Helen popped in at 7:00 driving her, to get the reference I had written for him. Helen gave us \$21.00 to pay a taxi fare to buy out G. L. at his fare reckoning! I-D talking on Contact brought up the possible clearing of 1945. He said the old boys are rallying to it support. He has had offers of teachers from Anshaba.</p>		<p>News again. Woke earlier to take to church celebrating the war babies. M. & I agreed that it take getting used to. The jeep came soon after G, + D, + G, & no gets was called Kevin & John Ambrose. About the worst day of my career in it own line I worried & fussed over the Budget in spite of reading books, taking a tablet till after midnight & again woke at 5. In a nervous state I could not pray or sleep. Really tried & strung up all day - a relief to get to the hospital. I respect her new patient blew up Geoffrey who started to faint, came back to you who handled him well. He burst into tears & went back to work. Had a passage of arms with Simon. Budget sandwiched in. To the club at 11 P.M. for Nick Thompson who had not asked for me, had to stand by till 1.15, back to 1.30 & had to hang on to the Bay at long last. Maurice I was fed up & shined into a hat. Finished the Budget before dinner - as much as I can or will do - wrote to John R. & put it all in his lap. Mamee cooking dinner for Denise & Judy & all worked up. I dodged to surgery, moved to Beithaven, in bed by 9. I still can't pray but Beithaven helped. Met to have Noon Grace back.

Time THURSDAY—June 11th

A good sleep & today I have been a different woman, with a load off my mind. A busy day. X-rayed did 2 gland biopsies. Mima was difficult but got a top jeep brought mail, took out mail including the updated Budget. Received mail - Wm, Theresa, & Gene Major Lewis, & all letters that mean something over time. Theresa both facing up to some one in the house with a few notes from Eric, Christopher & Teddy offering for employment. P.M. odd job, & springed another ear which are in a piece. In element much better. Playing Scrabble. Phyllis. The petrol vehicle came but did not stay. Went to Noelens's room after a hint from Mamee. Found her in quite a storm of tears. She would not give a reason, said she was just silly. I tried to help but she seemed to want to be alone.

I think it helped her: it showed me just she is thinking. I tried to talk to Paul on 3 MC at 8:30: I could hear him but he could not hear me. Mail today - a letter from Alison!

Time FRIDAY—July 3rd

Time SATURDAY—July 4th

The fatigue keeps on, but Mame is shockingly tired - can scarcely think she has topped the housekeeping today. Ken & Judy were at Davos till 11:20 last night, laughing loudly. I could not sleep. Kept going AM. did school, got things ready for Stan helped Phyllis - A.C.S. Peter Webber is relieving Mr. Bassett, can today to see the Southern Cross.

Left 2:15 - 3:15, did some letters, school. The surgeon came at 5:15 with Margery & little Catherine. Too many people! Letter from Becky, a copy of Long Jones' protest to S.C. Ted Thurst support. My tape recorder unwound. Prof. Long's tape & I have learned to rewind mine but one unwound again & one reproduces a very distorted sound, doesn't turn properly. A polly poer purchase.

A muddled day. I had to take a pill last night, was dull, weary till I had an hour's sleep P.M. Mame organized to put in bed for 3 of us of Mabel's help. I was so cheap. She wasn't have it herself, she sneaks up on others who don't want her to have the way. It was Phyllis's day anyway I got my protest to Standing Cee unshuffled out before 9, did school & Mame's Mary hurried up & wrote to use the duplicator. Mary talked for an age over a cuppa, again over lunch. I got Mame away to discuss the placing of Grant & also David Gill's appeal for help. got some writing done. A radio for Mary's birthday came at 1:30 - first I knew of it. I did not tell the others as M. would have roared round giggling up a present. Washed my head at 4 & waked after a shower. Thought I sang, singing & wrote to Alan Bob. Christine is miserable & in great pain & chicken. For a afibula hel bought.

Time MEMORANDA

I seem more tired for my day off - if it can be called a day. Name has been a bit more relaxed, anyway, & she just comes close to Charlotte's babies. Mass a bit later congregation later. S.I. for S.C. Jan called me to churching at 19, & she was clearly dying. I tried to get Erro on the phone, but Fr. M. was terribly slow in bringing Charles out. C. had been dead 3 1/2 hours when he got here. Lots of one-puller & really sincere grief. A boy sent named Paulus a great help. A h-o for morning. Got the sterils & duplicating of the letter to SC done by 2, & Win's letter did not sleep. (I had to sleep last night). Mail was same. I had to be a bit early in rising. Myllis very good in the children.

member. Left at 2:30 for home. Talked to Frank for a while at P.H.O. He asked me to organize his seminar in Mar as he will be probably in Manila, but I said (in thankfulness) that I hope to be a least. Erro's driver brought me home in the mail, Miss letter from + D written at 1 AM or possible staff - accountant + nurse. Miss letter from Julie who escaped most of SC because she had fled. She is living in Ma Stewart's house where I stayed. Mollie & Myllis at Ken's for dinner, as M. I enjoyed ours in den. Now fiddled a bit, to bed tired & sleepy. David polested up my kitchen goddess, she looks a new thing.

Time MONDAY—July 6th

Dr. Wigley did not get here till 11, in Mr. Churchill. I had things ready, was hoping to do my sched. Caroline went on that vehicle, the Bedford came earlier, took our mail. Catherine & 2 Kokoda patients came in. Stan. Maurice passed through, took SC. stuff. Name bookkeeping & everything very nice. Stanley got to about 11:30, finished the P.M. in a rest till 2:30. Lots of discharges, he seems anxious to get as many to OP as possible. Mr. Marsh thinks SLH will be a school much sooner - a Vocational one. The other people were sure it would be a High or a Technical school. I think Squiggles want to dampen down the work. I got things sorted out, did the sched till 5:30. Broadcast for 2ly Med Report, heard John Wood has plans for S.C. Stan talked in a ring on the grass to our staff - a bit of ignorance on their part. David Jan to dinner, talk till 10 P.M. Myllie blossomed out into a snort & is funny over taking snuff.

Time TUESDAY—July 7th

Woke at 4:30, could not go off again. Up at 6, Stanley got away & left at 10 to 7 with some patients. Jan got angry. Senior who tries to go his own sweet way - I put her in the wrong if he can & but she got over it quickly. Senior did I expected to be - I told as everyone had to be told their verdict. Alan C put away the X R's & I got cards entered. Had a sleep P.M. - I have done some of the letters after, brought John to brought mail at 5 - one from Dot. Discussing mine, a nice one from + D discussing the possibility of true coming here or taking us from Mary. She would do that very well. He says I must have my leave - I am certainly dragging along these days. Now and perfected big for & began Micicillin brought. Nocturnal diarrhoea & Micicillin has not saved her, must remove the nail tomorrow.

Time WEDNESDAY—July 8th

Time THURSDAY—July 9th

Am dragging my feet - literally & figuratively today, though the wet seems better. The truck came at 11:30 AM. I took Wangray off + wait + inspected at Mary's - all the plans seem to be in proving thanks to. Took W's + Benoit off. It was easy, I discussed her future. I have left it to her to decide whether Oct-Dec, or Nov-Jan or Dec-Feb. I discussed fully the other expectations of staff. AP on the air again at last, with the new radio + Mr. W. + should. Had paddled along + recording preparing for tomorrow, letter writing etc. Slept 2.15-3.20. Maria, Marilyn, John E. David P. were all to come to dinner 6 P.M. The boys got here at 4, the girls not at all. Not up on the phone to explain. Have done some rinning. Nales thought she was bitten by a snake - 3 tiny surface wounds, no snake seen. Just another of these things.

At last have achieved a trip to Kokoda! Got to sleep near 4 N in full, up before 6, Massa lit late. Dinner later than 7. 5.1. for pleech tomorrow. Mass came out of Mass early as well as me, roughly quit. Got away at 5.6 8: a great load of patients. Very sad to say good-bye to Lague. They got off at Gornita. Checked up with. A very pleasant trip + lovely weather. The climb over Oiri ridge a bit like the sideling at home. We shared an pine between Hospital LGC on the plateau in a big open familiar-like place + concrete bricks, then to Wamba Plant taken by Mr. Watson. We saw most things - the slaughter house which was in action. I tried to buy some beef but could not. Must see? which one organized a most welcome supper. Mr. Walker talked of his employee + we worked out plans for treatment. I saw a 1/2 European tent + a small branch, + we drove over miles of rubber + cattle country. A real estate tent at the Hospital + worked out A.P.s etc. + Franklin + an intelligent NMA. Then Mr. C. + 9 talked to LGC. reply Wilson Suja there also + F. Simon Peter as a

Time A.D.A. FRIDAY—July 10th

Slept 11-6:30 today, but dreadfully sleepy & dull all day - could it be the Penicillin? Slept 2:15-3:40 P.M. dragged myself back to activity. I could not face letters so did some duplicating. Phyllis has been bubbling over life for a few days & today has been snaffing & being snuffed. She & Ann were yapping at each other & she at least as much at fault as he. I told them both to stop & get up Ann's need. 16 people were present at dinner (I suspect most boys) she asked them to cook their own & they didn't come. During our dinner I had to organize the medical staff to cook for them. Spent AM doing nails & pinning up bibs & pieces. Tonight went to + D. Frank Coal. draft elected Arch B of Brisbane & am pleased. Ann S will be disappointed, I expect.

Time SATURDAY—July 11th

Just could not sleep last night in spite of 2 Quinlogabactams. Got off 1:15 - 4:15. Feeling wretched. Stayed in bed too weary to do anything then, wointed. Then T went up to 38 & has stayed there. I think it must be malaria & must switch on to Mvaginil per-mercantly. Now sleep nothing but day & read a Wb-dun. I shouldn't be bothered reading my mail till tonight. B Philik writes to tell me Fr. Geoff is the new Father Minister General. I feared he would be - a wonderful choice but he probably will pass out of our life. Mame had a letter from Janet who had been in her for 2 days.

Bad at work but no energy, no appetite & vaguely upset digestive system. Muddled away at job AM. I suppose I got a fair bit done - admitted the new pt. started the inventory, did the D.D. booklets & some letters. At 3 PM. took me to SMH. He installed the new phone which I talked to Maurice but it was Maria's birthday & the inevitable birthday after tea - cakes & candles. M says he will be on a panel at CCMCR & that Reynolds packing someone. He told him I didn't see how we could organize a conference for Jan. Will discuss David Gell's misdemeanors. Talk back to Paul all redoubt going to the birthday party. He brought mail - a nice letter from Kathy & others & a lot of local ones needing urgent answers. The general can see Maurice - put off at 9 PM. Tonight wrote a couple of letters, did a spot of mending, am glad to be in bed. Arrangements going ahead for Freddy's party.

Time TUESDAY—July 14th

Felt hungry today but still lurching. Had to lie down for ice in this AM but after that got some energy. In afternoon, Alan & I did the inventory. It is almost finished. Slept till 3:20, got a letter from two depts in regard about a dozen Health Education people under the wing of a Mrs. who was a missionary in the Shire & Inland Mission before the war. Talk & showing them over took a solid hour. It poured with rain but was clearing when they left. Jan is going through her store & throwing out a lot of rubbish. In AM. went to Ag, brought mail at 6:30. Can't cope with all of us. She is a wonder. Wrote letters, & bed.

A wet & dull day. AM I got the order done. Moelen did the 1:30 sched for me, I slept till 3 past the same. Alan C. I duplicated the Minutes & stapled them. Have looked at envelopes & feel a bit more on top of things. Tonight have done boat mail. Moelen worried about Ananias who jokes about deserting his wife. He looks unhappy too. I forget most of yesterday. I saw people going on the Minnesota, got their tickets ready. David went to MMS at about 10: took out 6th stuff - fishing, local. Max have only the Minnesota file. Names were ready & the jet came on time! 5:25. Manson in the front seat, Mary, Marcia, Wayne, Judy, Name .9 in the back, then picked up Jan. Pleasant except I could not escape the exhaust fumes & felt vaguely nauseated. M. taking an interest in all the new things & talking pleasantly, while I tried to conquer my critical feelings. We used the new road bypassing MMS at 4 to 9, & a nice chap (VSO) showed us new classrooms etc. We changed & the party was on. 6 roads there, some butters-in and on drink. Nice meal but a slight drizzle. The house will be nice inside. M. gave her cushions in my name as well (though I did nothing) & I think her was quite moved. He kissed us both. We saw the new dormitory, Alan Bess during the honours. He stayed in bed. Max left at 10:30, & Liddy to Barisan to pick up Matilda & home by 12:40, tried out. Good old Moching tried to give M. to fast in bed but I didn't succeed.

Slept till 7: was glad of a hay. Liddy had one hour. Foggy & tried next, plodded through some work, saw Minn. letters & Committee letter. Mr. Wainland came to do duplicating & was here for lunch. Skipped the 1:30 sched, slept till 3: felt more alive. Washed my head, had a cuppa, was working & have got my staff cards up to date. Darius got back at 6:15, had had a lovely day. Very wet & bright. Senior & the Wigellars all springing to church duties in Liddy's honour. Have had some nice music.

There are two of me — one tired & longing for home & rest; the other holding in to the work of the day. We'll fast late today. Phyllis said there was a fight between Kevin & Kipa on the job band. Christopher & Thomas on the other patients joined in & walls & fingers damaged. I'll get out of Kevin for high percent ed. getting off steam. Long interviews & all shook hands. I told them they must pay \$1.00 each. I had a peckery again 9:45-10:15. Lucia has the chicken-pox. The radio would not transmit at 1:30. David says he has fixed it. That the battery was flat in spite of the charger. Wonderful food. Just had 2 burrs my couch when the ambulance brought 3 pts. — 1 more of the other day, a runaway one & a man with haemofhysis. I laughed at odd jobs mostly letters. Names in the last rep. Trying to get the bonnet vehicle to take her up. It's chilly even by day. Very pleasant.

Agreeing my decision as to going. I decided to go ahead in my Leprosy boat & corrected it tonight. Pretty poor. I told A.C. to help in the store, he went unwillingly. At 12:30 the ambulances brought a fresh femur & bolts for X-rays. Mercifully Eric did them. Took them back. Also the man giving his baby arrived - it's mother Dalore! I'm much doubt if it is TB meningitis. Will refer it to Stanley. Gail went to Pop & brought back mail at 6. One from Stanley saying Oct 72 remains the closing date for the Hosp. I spent 3-4:30 with Stewart. The only lad to come & say he is sorry. He is born between & desire to stay & the influence of the others & fear of Papuans. Nice lad. The other 3 in Pop. Nathan in the will age. Frank went yesterday on boat to Gona in a special jeep but the family stayed in Beama! Poor Frank! The Albar is maddening, good old Gail helps relay. Radio unreliable too.

A busy day: little to share for it. Inspection, then went over the boat & wash them admit they hadn't studied. Got them back tonight for 1/2 hr & will probably again tomorrow. Got report done on. Day off. Mathias at 8, David gave a little talk on 2nd lesson, to good. Wrote letter all day, but felt I could do no more at 12. Sat & meditated a little. Thought about making my Confession next week. Maxens went to the Bay for the day. Phyllis talked to me of her year in N.Z. Navy read & prayed a bit. Phyllis asked the Dames to see if they brought a good sponge cake. Would talk about the possible involvement of Oswald in politics? Have written to +D about Agam L.G.C.'s irregular dealings. Jan worried about staff of course I caught the infection of it.

Valerie has sulked all day in Loring's hands. A long talk to-night (a monologue) & she is still sulking. Mass of Transfiguration. I was thinking of sub. Tedor. F.W. brought the mail - Wimp & Mavis, whose flight was messed up, her luggage had it. Pinned up on a 2nd floor Darling. Got to 5:14 at 9 & did Fupfer's & paracetamols. all seemed well. Henry by 12 in jeep. Jan went to meet Lynn Mitchell. A sick woman admitted thick: T.B. & reill. Admitted her to bed, & res. listening for the pip which arrived at 3. Lynn large & self contained, quick in movement. Cynthia looked like dying but I helped. Mantyn came to let off steam. Many blew up at M. Marcia! Judy who invited the young ones to dinner & met Mantyn so M. has promptly invited herself here too Mantyn: I fed her coffee & tried to encourage her. F.W. came & gave the sacrament to Cynthia. Collected paper in job - to book. Wrote to Stanley Phyllis. Lynn doing steroids for Lesley who says she can't go to conference. Madeline C. nearly in a fit over travel arrangements (or lack of them).

Time **FRIDAY—August 7th** 8th Time **SATURDAY—August 8th**

Kept busy all day in little to show for it. All quiet at SMH. Got Stanley X-Rays ready, letter finished - not posted yet. Every-
 one late. Jan on edge, scrapped by lecture till 7:30, P.M. Lynn came with Phyllis & between them they duplicated the CMC n/c. Lynn stapled them at 3 & Lucy Borge came for X-ray, but she is not the Lucy I thought her. She has been here before. Sent AC to LGC: request for transport on Monday refused. "Not available." Christ said she would confirm my booking in SMH. I wrote a note to G. Geoff still struggling to get letters done. Mary invited herself to dinner. I tried herself the job to come! & then thanked me for inviting her. She talked + + + but I think it put her back on spirit again. When she went, Lynn announced that she wanted to stay on "permanently". As + D's letter had just told me to Vanderduff might not come till mid October. I gave thanks. John W. had to cancel the MMS arrangements. Manager for which will help us. Valerie ran away to this!

9:30 to bed tried to sleep, then can't sleep. Slept on till 7. Read prayers & fast in bed, saw pt. Cynthia eating fairly well, but needs potter. Have been to her several times, she has had 0. Got some letter done, but much more to do. Asked Graham for book names for Monday AM. Lynn will have to pretend my ticket & her permit. The Dances: Lynn went for a picnic to Pilot's house. I think enjoyed it. I just finished 1:30 school. Stewart came & asked for mail. I gave it to him & just lying down when Elpeda told me the others were there. I made them wait, all they wanted was mail. I told them I wanted an apology for running away. This clear they mean to go so I paid them off. I told them to ask Rennie & be prepared to pay. Tonight have pressed the new prob hem, varied, & little else after 8:30

Time 8:15 SUNDAY—August 9th

A struggle of a day. Left well Mass to good. Jacky Noel found up to scrub. Judy came. She. Marilyn went to Fr. in the jeep. Lynn on duty. Fr. M. said Lomas & John Saban had a collision last night. I checked in Joshua, Lomas & was told he cannot take passengers. Booked the Mission jeep. Now had a lot of time fixing details, going to & from Woods to Win to Minn. & local mail later than Theresa, called to Cynthia at 1, pulse poorer.

More painful. Just got on my couch at 2:30 & called to her, as she had died. Her tombstone is good. I got a PMW truck to take the body home. A minimum of food. Got a sleep at 3:30. Heard Sunday ask Kenzie for 5 boys transport O.B. (obviously ours). Kenzie said the Min due 8 AM. Fixed up Elpeda's holidays. Ted's hour interesting - almost unanimous condemnation of the new system - both time & abbreviation content. Tonight did my dress hem to Pastoral Symphony (interrupted) & hair, hand, & packed dead bird.

Time MONDAY—August 10th

Time TUESDAY—August 11th

The air is like wine - that has real meaning here. It is a joy to breathe deeply, not a labour. And a joy to be active.

I could not sleep till nearly dawn night even after a full aspirin. We all ready by 7:30. Elpeda was ready for Ken just before 8:30 to the Bay. I got off soon after. Just a relief to drop every thing. We ran round Town, she did what I hadn't time for. To the ship at 11, met to Neal & read an AMJ. The S.H. plane came at 12:15 from M. I the only passenger, a very pleasant flight - fair insubility, I had a good old headache. We went to Lab by 1:30. I rang the office, John W came down, I wanted me 2 drinks & we talked of many problems. He says Timothy is staying; also I need not alter the Budget. On to Mkarumpa 1/2 to 3-3:20. It is quite a Town. Pleasant and easy. I could not get a further flight except a special charter. I am glad to stay here. Lovely country, a happy & clean shores. After comfortable hours, wonderful food, real relaxation. I even have a bathroom to myself. Am glad of a H.W-B. In bed soon after 8. More headache. "LIQUID LACTOGEN" - scientifically balanced milk formula for infant feeding. Francis Marples (?) saw this P.M. but I missed him.

Could not sleep after 4:15, in comfortable bed. Good breakfast - saw more of the Heller family. The eldest & Cheryl is like Gladys's girl. A fog on the airstrip so took off at 8:15. Roger M. family then in south Moresby. Goroka 8:30. TIA gave me a lift to Hospital, bless them. I found Con, then to Conference. A crowd here, many familiar faces. Lectures & talks good. Meals fine. Frank Smith & Peter spoke on Stob Tim on immunization. Lunch at the Hall. I was on all 2, lot of questions. Then business, a first run through. A tedious Irish priest from N. was talking too much & the opposite view given by others. We have had left each him. Then in time for shower, dinner. Con: Alvin went off to a funeral rehearsal for W. aid of O. They seem well, happy, always in a mood, but Con does everything well. Alvin too fat. Tonight excellent. In M. Les on the Nohalis Society: says one sexual murder has occurred, they plan a crucifixion this year. That horrible novel seems to be coming but then a talk on how little we understand each other. Rember Tanna brought us home letters from W. in, Name. W. in says Elai is the wife of Wangan. Also I am then joining VSPG. The M.C. will look for a new Bishop, he apparently waited till the Bishop's election was clinched.

Time WEDNESDAY—August 12th

Time THURSDAY—August 13th

Still sleeping badly, in spite of leaving my worries behind me. Not off all in spite of a full wake at 5 in car's alarm. Waking. Mass. 9. 10ish alarm's voice was about 70 db decibel power. We got off at 7:30 to Mass. & had time to write a letter. A good day. A good talk. A speech at 10:30 from Jim C. A long one on obstructed labour from Wang and Smith. I stayed off in it & in the pressured tonight. Much talk in between & individual. We sat in the sun at lunch. Nam late, at 5:20. Thanks to SDA block again. I sang then shower. We started to walk tonight. We were picked up. The SDA block brought us home just now. Wonderfully kind. Each Mission gave out lines of work tonight. I did not finish till 10. They suffer. We did not see Harold Rogge - he could not leave the archbishop. He has "had" NA people - showing people freshening up. There is a bad spirit around here & many speak of it. As for Bongamirli.

Left about 5:30pm. Got to Mac Brian Hughes there. I want us to go to see him. There is a lot of uncertainty about AWIM, I can't bring up Rogge. A good day. A lot of business. At the Drug people were moving in this afternoon. We moved after lunch to a little Lutheran Church. Rather a trying muddled business session which got itself clear in the end. Then the elections. Peter nominated me for President. I nominated him with dedication to stand. So I am it! I won't be very good, I think. I am better at the budgeting of Secretary Myra's Sec. I will be a good. All women except K. Flynn! A Lutheran took a service & a good but rather long address on the appropriateness of Christ's message to medical technology. Ken Cleary spoke practically. Then Cleary spoke practically. amusingly on accident to be dealt in the bush. Home in time for dinner. Then M. I walked to Hall for Symposium. Prof. Lucas of Ibadan is good judge. Much talk. The next SDA meeting brought us home again. Shower & bed. Not so well.

I am to BLs for Noelens' cotton but they had none. Mr. W. drove me to the sawley over Noc Pent. I saw the Minnesota. Well down in the water & not so inspiring. Had to wait at Crawley's till 2 to 11 but they gave me a cuppa. The field was not none of his rank but we felt good, valley down to find Yaramia. I sat next to him - a Mifos after P. 12:20. A change gave me a lift in John Laband's car. Lunch at Pop Mission. Mrs Booth keeps out of responsibility & usually out of sight & we feel an emphasis. Got a hill home in the Army at 3. A New Zealand bloke driving much at home. Have caught up on bits of news, read mail, & unpacked. Done some washing. Valerie still away & the Highlanders at Gya. David has had 2 phis. Jan seems content. Lyra had to know what she thinks.

Have been tired, dull, depressed. I have a cold. The session long: tedious. 2 whole hours this P.M. arguing about representation at Lyhad, everyone getting more & more confused. Robt put forward a good scheme for making M.C.'s into an organizing & distributing centre. Went on till 5:30. Elong dinner, back to session with a lot of rain after evening: no hope of a bath. Clean Paul's farewell party, but we finished at 10 to 9 in heavy rain so I couldn't face going in for 2 hrs. Now taken a spell: am in bed, dirty. Helen off to Ag for tomorrow, the clean kid. Time A.D. FRIDAY—August 28th

Nice to have my house to myself again. A tough day, mostly in character & Phyllis who is a young "silent one" minute, giggling the next. The Toddson had staying in the Ds. I sent A.C. down to the Bay to look for Lurians who is a husband & will not come, see me. He says he is worried about his copra - rather like a great air of criticism, possibly generated by own attitude if staff are late for this. That frustrated my part of the stocktake thank heaven. Planned to come to the house at 11, but Jan talked for nearly an hour. I can't get on - A.C. came at 11.00, got in letter written then Phyllis came: she altered A.C.'s Miller under his nose he got angry, so did she. Then Jordan said that he did not get enough pay & just had not checked his work & "took it for granted" he lost 2 days' pay when he didn't go on the boat. So I had to be the go-between tonight she has a bad ear. Spent afternoon evening on Mission writing have done a good deal, but there's stacks more. Naomi off tonight & we washed up. We agree that his quits can help in the house. A note for John Mac to say Valerie will not come back.

A.C. did not work till 3:00 of the raw, but did some work after 5:

Time SATURDAY—August 29th

Woke early, said prayers, enjoyed breakfast in bed. Spent the AM pretty solidly on Mission writing, did little P.M. but have cleared off some odd jobs. Called to Kawadira & Nivirene just before lunch. I think I have peripheral neuritis, put her on 4 units. Little doing on the school, but John Wood has cancelled the Minnesota shuttle again! The train came at 3.40: T. Brian, inv. Bro. Bartholomew: bobbed hair. I met him as at Koko. After tea took on from Judy & Pearl someone from Manau came too, I brought mail - a letter from Daniel from Tel Aviv. I talked to T. Brian about Hugh's returning he thinks the illogicality of it is more important than I did. Phyllis ran off some Series 2 Was copies. T. B. went through it at 6:00, which took a hint. Kipa has gone to Pop so I asked Bevan to work again & he agreed: a smile. Got back to the house till 9 P.M. Meals is late.

Time MEMORANDA

A real day off. Did not go near the Hospital except for 4:30 abd. up soon after 6, we had the simple Series 2 Mass, a nice sermon on Thanksgiving. Benson came late - 7:45. I said MMS old boy did not want the jeep so we booked him for next even so, poor old Noelen gave up her seat for Naomi G. She is a good kid. Gordon came about Jimmy falling down the river bank. I told him to teach her to swim. I did N/C work to Win, Nance, Irene. Benson & Brian were here for lunch, then the jeep went off. I wrote B + D about the situation here. Miss is by-passing O.B. this time. Have gone out plans for leave. Think I must not spend as much money (9 time) to go to Adelaide for 2 days. Hope to meet the girls in Melbourne. Have packed & sorted things tonight.

Time MONDAY—August 31st

Went west 5 days. Have plodded away at odd jobs all day.
 Did John G's skin graft, but fear it will not take. He was in good. A.C. made new dew. 1 piece. The ambulance brought Wallace Noble down in reaction but no things so he did not want to stay. A silly situation. Got an mail out - Elizabeth, Miss Tom's cousin, 1 her cousin came, tripping round after 5/12 aboard, 1 less than 3 years since she went to the Hermitage!! Time MEMORANDA

22nd anniversary of my coming. Slept well till 6-ish. To bed to hear that Hanna had her babe in the night, a plump girl. Lys coped alone & was up till 3:30. I saw one wretched patient coming from pen on "Eun's feast". The flyers are having a lot of feasts this year. Myllis preached a little sermon at Mathias in good No. I have written letter all day. Name along Major Lewis, & dear Dot still has more work. I ought to write to dear Bob. Mother did sheds by her own yard & we got hold of Roger at 5 P.M. Bensen "sick" today, refused to take the jeep to S.M.H. (1) to take to S.P., and (2) to pick up a body. So Maurice has taken the jeep. I don't know if Bensen will take the car. I wish Jeremy were here. M. takes Martha up tomorrow & takes to S.P. too. Judy got it into her head that the Kothies were coming today for S.P. Obviously Maurice did not deliver my message last night.

argument & finally, then she unpacked Garwarial picked 3 nurses. He deped me but I could get John & Michael to stand by & she shunk off. Heard the nurses story. Finished dinner, went to Elang. all the nurses have run away. ? by the river. I advised them to notify the police, don't know if they would go tonight. I could examine the little matches. A.G. would not be facustan & won't leave. I is the new thingy. Mother. I got chapel ready. Have written some notes. I seem to get blind on blas each one hard to take. But it comes hard in Jan. Lys, who remains calm.

Time 10:30 AM MONDAY—September 7th

Left 3 a pull. up early & dressed in time to go over see Mr. Dowell & say good bye to Maguin. A glow over the vehicle. Jan & I went to renew his license, & Benson went for 2 reasons. Odd jobs kept me going. Had a talk to Alan C. about responsibility. After that he was very assiduous. Roger came up on school & thinks he can take some down & bring Napoleon up on Thursday dinner listening in. Maguin teacher saying to go on strike! Jan had an exam 11-12. Noelene had a badly behaved class after -? due to fatigue. Then upset over lunch partly my fault. The jeep came at 1:30 & brought John Cother & Michael. Possibility of boat taking Simon to Tarrak. Frank Asci came at 3 to talk about Nolna's letter. Other calls. I missed a good musical programme. The jeep brought mail. I have been answering it tonight. Now heard Robert the skeleton of Bordeyan library as guest of honour - on 17th C. France. He might be a pal of Major Lewis. Wallace Noble admitted.

Time 10:30 AM TUESDAY—September 8th

Wrote to Mamma's before to post, Michael took the letter down but no answer. Michael has done an excellent job, got all 3 phones in contact & bells working. SIMH is rather faint, both bell wires but he put in some insulating after the spoke. Did inspection: Lynn a car came at 4 to 11. Mrs. Thana of Tula Merbein, her son, his wife, & kiddie from Pop. Mrs. Jenner, Mamma's friend is at Mr. Rogan: sent some milk & fruit. They had to cut up, we shaved them round. I wrote a thank you note & finished the Leprosy contact register at last. P.M. did school, had a rest, got A.C. during the inventory but I think it will be too difficult. John (sleeping a lot) unwell at dinner tonight, I got him some & examined him, Michael got here at 6:15 is here. Judy W. came to dinner & said Marlene has taken over charge of the jeep & L.P. is asst. driver. A.W.M. taking dinner: Napoleon, & I fear we'll get little co-operation, so David is taking a request to Rodd for transport. Lined tonight & letter done, Phyllis in a mood as thick as a cloud & tonight - ? too much work assoc. & dinner: someone is paddling: my letters - ? Mamma. She denied it but looked flushed & alarmed.

Tried not to be in a stew over the jeep but had to take 2 fully read late Dick St. Mary inspection, saw John C. & investment NAD so made for Bill Morrison to ask him to send him to Maedy A.C. did inventory I had lecture at 11. Talked to Maurice at 10:30 re jeep but had to have 9th day delay so could not speak what I thought. anyway it will take Annis. G. Wallace not complaining & obviously wanting VIP treatment but would not come to the point. P.M. Michel found a firing wire shorting the phone & SMH is better now but still faint. David went to Pop & brought mail, all comprising & annoying. Felted do can't want holidays, Roger Young can't do the flight we want. Reorganized people and the cheque is a mistake. Wrote letter. John C. doing water-colours is good. At dinner ambulance paced in & staff ran to it. They were looking for an accident. I rang Maurice who said our injured man had died, so they went on. Then a great row. Nurses told patients they should not come to see the ambulance.

What a day. up at 10 to 6, & called the others, the Wars. A.C. sewed in spite of his refusal last night. Thank heaven for the strength that came. Phyllis arrived late: the new books for new library. Then to dormitory, nurses in kitchen but I got them on duty before 6:15. Reason came at 9:15 in a MYS bag in the back. I told him the kid had no right there, he got in a seat & told me to drive the jeep & off he went. Gashed Michael to drive. A great argument but in the end Reason took Annis off. John Murray came & I gave him talk then found Dad will want to take him away soon. I asked him to bring Dad up. The two of them look after the spackie Rankin. Eustis came for X-R, went off without. I went to lecture & found the nurse snivelling - a hangover from last night. Told them to be their age & got good attention for lecture. Day. I started the inventory & Betty came. Ken Murray & a mob of boys, some wanting to stay! & finally all 4 men stayed to lunch. John & Michael went. Started to bed. Gladys came, red eyes to say she had drunk detergent. Time A D FRIDAY—September 11th

A big storm in the hills last night & heavy rain. Thunder here. Eads ch. wooden bridge approach washed out but is mended now. I slept in 2 pills. Prayed hard for steady seas & balance. Had a session: Napoleon, saw Aunt Robert's son who brought Wallack's family down. Got to home at 4 to 11 & wrote to John W. cc + D about Committee. Told him I would "could not face the chaos next year we have had & am having now. Have written a fair no of letters, hope to get them out in A.M. Has not tackled the gift problem yet. Napoleon said he did not get a single message from Maurice. P.M. I slept heavily till 10 to 4. We had a nice entree for dinner gift of Ken Murray. Luddy brought sherry & bread. They are playing Scrabble & full of sparks.

Time B SATURDAY—September 12th

After yesterday's solid thinking & writing I have felt stable. Tired today, also job have made me waffle from Hospital to home etc. up to 8" fact & Mathias, but slept well. Wrote a few letters. Phyllis came at 11:30 say the good Hospital bracelet had disappeared. She forgot to lock it up last night. A.C. kept looking for it. It picked up - Noel had it. I think he may have seen it, take & put it in safe keeping. I did nothing about a cook boy for tomorrow, told me after dinner "her woman's one." "I might like to get one." I said I didn't like to at all, but it had to be done. It makes me more suspicious that Kipa is also mixed up in this Phyllis-Bewan business. Kipa refused when asked him, Bewan quite happy to forego his day off. I wish I could be replaced. We had early dinner & they went off to Kammundi party at 7. I sent them the soap & soap stand I bought overseas. Joan just came to say Mike's husband died in St. Hospital, they have taken the body to the village, Letha & Minutes from Myra Kennedy today.

Woke feeling less depressed. A.C. in a mood but has a cold & headache. I think there is more than that. Lined in at 9:20 to find them calling for a Dr. for A.P.O. near Kuritiba. I'm mid. I got Maurício to take it but can't ring Waresby. Got him later & he came up at 3:30. An amicable sympathetic talk is father of SMH. He mentioned the jeep. I said we must talk it out when Dr. W. returns. He is your fight. Healed them I about request or. Have done some of the order after dinner but tried to tackle job, so got out Elair's letter & to map. Tried to think of my future. No clear daylight of course. Went to Greeny, I was patched a pair of pants! Fabian has been quiet - told Napoleon thought he tried to commit suicide early next AM (fell from the rafters. Says he is over it now. A story of many deaths in his family.

The Clinician got came in at 11:30 in the shelter from Angelo but no Vernon or this children for chest. up. They went off at 12:30 to Pop, Marilyn, Mr. Marland who looks older & more tired Judy & Lynn. I saw Beethoven's 2nd Trios Concerto on today's programme so set up to record it, & Sunday came in. Fixed up a truck for Sunday in rain but left the recorder going & so far it is better than expected. Tackled my hard mail of yesterday. Max came at 5. to the Baumberg Pass, the Euro VSO. also a message from Martin that he is spending a radio for F. Wainie. Reputed to have a bad leg. Max writing tonight, work & hang. SMH answers the phone readily these days. Not a deal tonight. No letter from M in.

Time THURSDAY—September 17th

A busy day on detail. Saw the sickies. D. Aiaz came & said DDA are going all out to get in our patients - hope so. I have been doing next complete list & finished after 8 tonight. Talked to the 3 nurses about the non-arrival of the police, & then asked David to get & see them. Talked to Napoleon about his pay. He has chosen to do the same as Simon & typed that in Thuytis, who is very cheery & cooperative today. The jeep went to Pop & brought back mail. Win says Ula is in the Poplari Home, a new person. Mary at last! She had all the Regs on Saturday & Edith glad to be wanted in. Apparently having the family has its difficulties & fatigue. Nothing from +D. Report from Sakarina at 1:30. I am coming to the acceptance of a later leave & missing seeing Lot. Of all the ph cons in I should be here.

 hot morning. David brought the

 flitted too. I wrote letters, esp.
 the New Britain bunch. I did
 come to a strong feeling that I
 can't go on leaving in mid October
 the way it is - that whether Marnie
 did not think to bring it - so
 nothing from the British. We
 went at 10:30 P.M. Did some

 for Judy to come on the phone
 which she did from a party.

 got out Peter W. imagery, could
 not sleep. Lynn cooked a 5 min

Another day of alternately trying to put my confidence in God's help whatever comes, & of trying to carry it by myself. Macleni took Maclimb, & David gave a good little talk on the good shepherd. Went to see Fran who is much better. Radio misbehaving but we got the sched. Loading & sailing tomorrow. Got on to letters. Maronis & Mary went to Franny at 4 to 7. Marilyn rang at 12:30, a pt in c what sounded like a leaking spleen. I told her to give Meryth & take her to Dr. Morrison. As I thought warmer I returned while I was on the phone. I didn't write a letter - but it wasn't to be! The girls went off at 1:30, but part of room & Lynn stayed behind very cheerfully. Asked Sarah for a new benzquil on sched. Slept, read & wrote. At 4:30 did sched & some people came to buy. The Dances went to the Franny for the after & brought a lot of mail - but nothing significant from + D, & nothing from Gens. Wrote to her tonight. Christopher applying to R E O for a job!

Time A O FRIDAY—September 25th

The slackest day I have had for months or years. Did odd jobs AM - getting the instruction Book ready, went through my Melic al book-shelf. got AC to burn a lot of old V/S ones. From 2 P.M. have done no work. Looked up my party diaries. to help me talk tomorrow but found nothing especially funny - A must be a solemn cost! Pictures came tonight, I cleaned shoes & my candle skin cushion. That night Maurice Perry has not turned up & Fr W. preparing to do 2 trips in A.M. No mail & no pees.

Time TS SATURDAY—September 26th ²⁷

Awake in the middle of the night Ready to go more or less by 1/2 past. At 8 AM no one had seen the bird. Fr W. either. He finally arrived here at 9.15 & the first food, including Mary. Maurice had told all that he & Fr W. were going on the bike. The others would not trust bike. Mary said that I wanted to go last!! I don't know if I swapped, but she got angry. I shut her up & got on arrangements. Phyllis went in yet, & David took Moelen. The S.P.A. teacher Tara took Judy, Jimmy, Lynn, me, even going 3 miles back to Koro. Really wonderful gesture & would not take pay. Maurice Fr W. who came all the way back for us. A w. good meeting & plain speaking. & discussion some newies accused us of lack of love. Judy C was good, & pointed out that perine was one form of love cooking deniers. Lot of new staff all trying to get acquainted. We divided into groups, Volunteers, parents: & VSO, AIAs: wives: permanent staff, female: & priest, religion. Dr. W. we all supposed to discuss vocations & we all seem to have one, either to religion or this specific job. VSOs said any sense of vocation was ridiculed or squashed out of them or any do-ghosting.

Time MONDAY—September 28th

A leisurely part of day is not much achieved. Talked to Gosh of future plans (or lack of them) finished my book of instructions. The ambulance called at 3 & promised to call back later. so I let another vehicle go to our mail, then the blessed ambulance whizzed straight past. I am cross as we have a stack of mail waiting. Worked on the grant-in-aid list & think we are about \$900 down on what we are due for. More storm this afternoon but at 6 P.M. they said they had spotted the aircraft, & also another waiting one. They gave the names of the men last one is Gaster of Lambada who had TB 9 years ago. He had 3 children. Bland went off to the village - 2 "brothers" a meeting brought to death on St. Luke's day & the staff are willing for one to plan to do something! +D goes to Ketch after the 2 meetings, back on 12th or 13th.

Time TUESDAY—September 29th

4 inspection, lecture or 7a M. went to Post at about 12 & took our mail for posting - a great stack. Lindsey arrived from Doguwa at 10 - brought no mail! - but is friendly. Talked of Wigele, think the village people will build the Mission House!!! 3 loud laughs but poor old Helen won't laugh. Ken left a gift of \$10.00 on my desk. we think of putting it to transport, cab for St. Luke's day. I thanked Ken & invited him for the day & he accepted! He arrived at 4 to 7 brought for Moku lesson as we were sitting down to dinner. Late. He even had some. Says he has been off the grog for 2 1/2 years. certainly looks much better than when I saw him last at David's house. At 1.30 school we heard Fr. Modemus arrived at Gona on a canoe, dead. They think a heart attack + George went to Gona tonight & will bury him in the AM. 7a M brought a big mail at 5.30, lovely letters from Mary, Gene, Betty, Betty & M. Names having it all, had an afternoon with Mrs. Gunkson. then went to Reg. She won't love it! She visited the Elliot ancestral home in Scotland. Ranga Major Lewis but she was wrong!

Time WEDNESDAY—September 30th

I inspected Escam in that hot room, prepared for Council. X-rayed AC - who has a shadow in R12. Admitted Wallace M. again. PM got a sleep, would wake in heavy AM. Waked on 6th Greg came at 4:30. Dr. Angus Jordan, Sep & mail - not much. They had a supper & much talk. Terence of Natabu was drawned this aften. Appears to have been an epileptic. Related to Joshua, Ethel Mary's even also. A nice dinner just happened to get out of the AM that there will be no Mass per tomorrow - of double Requiem. One can accept that, but not the fact certainly that we would not have been told. Much talk to heres & talk in Dr. A. about MBD affair esp. to Peru and Awaraima. They want to move Sept. but it is awkward moving people in the C⁴ who clearly will not want to move. Talked well after flight out.

Time MONDAY—October 5th
Labour Day (N.S.W.)

Up at 5:25 after several wakening
Got away at 6:30, having to hunt
up Benson. We picked up Dr. A.
at the Friday Sep. at Donaldson's
+ Chris. J. + to the airstrip. Saw the SC
people of offera Lutheran plane +
the Madlan people on AWM, + then
from Maddy on Patan (showing
Ansett symbol). To P.H.D. + Frank
told me that the list of ph. went
to DDS. The week before last, the
the DC. said he hadn't received it.
So I left mine to be copied. We
got away at 11 P.M. got on to CCM
+ copied up Dr. Melberg's letter
for the C'est + have written to
some of them. Lynn got her
requisition at last.

Time TUESDAY—October 6th

Could not sleep again + woke
heavy at 2 to 6. A fairly good day,
nevertheless. Inspection. Had a
cessarian: A.C. - a funny bed, all
for ready to suck. Got my report
(general) done by 6 P.M. Ken called
in + talked to me about Myra, a
nice - nice girl he is wanting to
marry, + after a 2/12 requirment
ance. It may work. He asked for
comments. I suggested he consult
his boys before + not after the de-
cision. Myra has 3 children, has
been living in a mixed-race man.
All scheds today full of a Wipha
attack on Kenzie at 10 P.M. We took to
Myra. back to Ariara + picked up
Shelke Wolfe who took her to Sarah
(instead of in this direction) They flew
R. to Logana after 2. I think have
got him to Moresby: a penetrating
wound in the chest. A girl is mixed
up in it. The crew will not come on
to Las + Kenzie. Got a sleep 2 P.M. Dr
M. took me to 5 M.H. Dr. Boddieph al-
ready there. Interesting cases, but
Marilyn kept me seeing others. I
think kept them waiting. Dr. W. going
to Sabah for Wabek. Dr. Brand
Seraggi Es to have a chain at the
strip. Dr. Lynnes a pretty safe bet as
Director. He returns on 24th. On the
news tonight. Gave exam results
to kids. Found papers + revised

Time THURSDAY—October 8th
Launceston Show Day

I slept well & woke in a detached mood, feeling that nothing mattered except what was demanding my attention at the moment—quite except. I suspected St. M. & M. finished in to shed & at 1:30. Ronnie was still at Dagen waiting for a plane, but better. The ADCT Inf was at Wagon where all was under control. Derek Wolfe in charge of the boat & due here tomorrow. Hank Robert came & talked for a while—interesting but time consuming. Other interruptions in Marilyn came up in 2 x-2s (phens V/S) & became Lindsey was unwell. She would not take me back on her first & last took me at 2 & back at 4:10. Lindsey seemed O.K. W. found the line down & D. mended it while he waited. That SMH not up at 8 P.M. so then may be another break. Little business & we tried to push myself. Napoleon & Edith Mary her for dinner.

up at 6, or tried. F. M. late for Max. The birds wouldn't start. Phyllis giving out books at 2 to 7. 191 further anticipated: my prayer but I realized some of my own weakness. Saw Ph. did shed & got an SOS few SMH—the phens still out of order. Lindsey came for me on the water table, we had a supper & went down. A fight & some part me. I apprehensive & feeling small to cope—but "My grace is sufficient for thee" helped me along—and the 3 packages were all in excellent position, thank God, 6 people in a fight at a feast at Benden. Finished by 11:30, supper & watched Westminster both from Mr. M's window. He has a dressing on his forehead. He felt. Agreeing poor old dear. Ken W. brought me home left at 3:30. That done & tonight played out. A big local mail. She saw nothing to Kerthoven, I read some stuff sent out. W in send picture of Rachel Zengthen's wedding to Mr. Cooks.

Time **FRIDAY—October 9th**

10.

My day to read the office. Meant to get to my bank early but not able till 12:30. A DDS man (? German) came to see Elsie who is due for compensation as her husband was killed in an accident. She has something new in her chest, & her head is suddenly pulled over to R. M. L. present thorax. Gladys came & said the girls had pulled down the cooking list. I berated them at 8 PM & fined them 50¢ each as the guilty one would not own up. Maurice did not get back till after 2 P.M. O.K. & I sent me a letter saying O.K. for me to come here while I'm on leave, and sending Lynn to S.M.H. Too flat to appreciate the relief I felt, but I am thankful Lynn quite happy & the more, but Jean burst in in tears after 6 & said she wanted to pack her bags & go. She does react violently to things at first news she took it calmly. I feared an outburst from Thyllie re Gene but she was quite cheerful. Too tired to work after 8, & read a Journal.

Time **SATURDAY—October 10th**

Slept well but i dream. Woke at 6:15. Marnie had a day off so I could not have to fast in bed. I had to fast, shockingly late - Thyllie did not put out the net till 7 AM! Tiddled a bit & got on to committed letters all the morning. Washed my head & skipped school, did not sleep. Jean came at 3:30 to tell me she would not stay on if Lynn was transferred. Her outburst last night did not blow over. Her net wet & we missed - said she wanted stability (fair enough) & it wasn't fair for the apnurse staff to be unsettled. I told her they would be very much more unsettled if she went. She said something to Noelens about herself going to S.M.H.!!! David says he will stay, bless him. The generator V/S + I went to Pop for help. The men worked this after but it is still V/S so we are using a few lamps. I looked up school but kept the conversation to lighting problems. Was for upcast PM to think, so did the stencils of postings which demands little. I just cling to God & ask for strength.

Made up the Manborg fluid. He did a lot of M.S. Pop just brought the Booths. Roger Surtees who represents V.B.O. in Australia came from Tasmania, had met Ada Begg & talked non-stop & asked eternal questions. I hope we don't have more of him. Got a rest, did more Missin mail. Saw Blanche about staying in the village on Sat. night did x-ray re-ception awful. Checked drugs. Tonight dinner slow. Elongt singing practice till after 9. Too tired to do all the other milky things. Jan came from school & shy of me. I tried to be casual & friendly. She has not broached the subject. Seems wary of Rene.</p>	<p>Woke early, & up early. Woke early again but was alert for prayers. I specified new job but none came. A.C. I jogged along right job picked up. I got off when I can't remember mail too. Yang Kew had the day off. We are still in a muddle about week-end plans. The jeep came in late 7 P.M. - almost no mail, no peeps, no Fr. Jim whom we half expected, no bread, & no message from +G. But Jim Stan was on board, on his way to Boranai, spending tonight. Arthur. Poor little G.G. I wonder if she knows. Minnie not going to Wigela - ? of fight or ? she is planning to Kymara for an STC camp. The girls gardening tonight. I opened some parcels & have yet to distribute the contents. Mostly kib & pieces.

Time SATURDAY—October 17th

Have felt unusually tired. Slept off on bed 7:25. G' fast in bed. Heard Nicholas Manserat on radio, in interesting esp. on Africa. It is just a few months younger than G. Jim Stan signed up for x R. Minnie leaving at 12 instead of late P.M. Miraculously G.D. was on the shed, informed the Fr. Jim. Saw some little today - read many books, wrote to Stan by radio shed. Rested till 3, just made a cuppa; in came the Fr. air but not Bro. Jim. Fr. M. arrived & we fed the lot for afternoon tea. Then they both (vehicle) went to Pop. The traps ready. I had a job pumping up enough water to get them going again & I arrived at 6. John M. invited himself here. Fr. M. came at 6:30. Stayed an age, in the 2 VSO's. But I'm waiting & being quite impressed with +G reading W.I. Bro. Apr doing Preparation. Then +G had interview. Apr sang songs; us for an hour. Then read long prayer & the bed. A new English prayer offering, praise to our pen for C. more from Myra. Rene & Apr fit with the domestic picture & general activities well. MacLennan is a touch. A.C. in the rebellious mood. Time MONDAY—October 26th

I am dazed inevitable. News got a good bit done, but feel as if I am picking my way through a bog, one step at a time. Up early. Ken on duty early. I've had a cuff on to do room. No mail out today. Went through a fair bit: I sent, she has done my x ray light for Pop. Gonna bless her. Ken on duty after a week off. She looks pale & says she is tired, & will work only half a day. I think it may be psychological. I fancy David & Ken have had a difference, he let me send a message re Minnesota to Ken. P.M. I did committee stuff & have a bracket at long last ready for duplicating. Thought have carried on i. b. stuff. Dinner quite nicely. Alan C. has a lot of H.W. eggs in his stool, which explains his low Hb & anaemia. He says he is tired.

Time TUESDAY—October 27th

Still dragging on, but get through a fair amount of work. Inspection. My wedding brought I saw family. P.M. Lucia to a very angry Parmesa. Lucia brought no luggage. I've come brought mail, bless them. Got 1/2 hr rest. I've did my circular, bless her. Ken was easy today & she. David came to dinner, Ken too. Jimmy wanted to come, but the rain has been steady all the after. Mrs. Mables I haven't coped: yet — Alan C. Elpeda: & Wallace, Ubbel bringing down to other pt.

SLH - POP DAC

Time WEDNESDAY—October 28th

Some rain all night. I got off at 4:00 a.m. & the road was pretty bad. Alan C had his tetrad of ethylenes & was almost drunk for a while. Pop by 10 to 10, went to P.O. & STC before the meeting. Martin C there & chartered me which was a help. Met in the CWA room, so pleasant, but rainy & we got a supper P.M. Lunch at the pub: Martin & Mr. Kekels, & good ones Mr. Caroline Vold & the Sparrows girl there, later Mr. Mainland & Kay Cole. Home by 10 to 5, no letter from Wim, but one from Nane who arrives on Friday. Horribly tired, nearly didn't go to Wang. Haven't seen much tonight. An interesting talk at birds & pass by an O.SAF man, comely dressed: a rather thin beard but well shined up & so nice.

Time THURSDAY—October 29th

The sense of fear I felt coming home yesterday was a prelude to today's storm - as usual. A busy day, seeing pb, helping Alan to do X rays, the light diaphragm. It was apprehensive. Frank Gizi called in but did not stay. I finally got Alan who admitted irritating Elpeda, & got angry. He punched Gladys in the breast made it bleed. I found out just before I saw him again, gave him a blasting. He came through rebellion to uncertainty. I talked of Alan Bekan his "grandfather", that he went off the rails & made good. AC went off duty to calm down, wakes up 3:1 has gone off to the village. G. took it more calmly. Maurice came for after, we did some hand-war talk, then he told me his bad news. A hitchie of Gizi went to him today to say Gans Gani & Barbara Farth have offered to the Govt. Gans is on holiday. BF. work much more & blamed Mary. I showed Mr. the note & he immediately turned a thirder to the implication. Have written letters, seen X rays, & appear & moved to Brahms' Berlin Concerto. Transcription awful.

Time FRIDAY—October 30th

Slept well, but was very giddy on waking. Wondered if I could get up, but was at least not giddy when I got out of bed. A.C. at 11. Wathins! He slept in the village & came back A.M. Said he would spend a night to Gladys. A muddled morning. Barbara, Faith came on the jeep. I had a long talk. She is quite sure she wants to join Admin. after 3 weeks had a long meeting (which I was rather dreading) & sent out who did what. At 1:30 asked if head Kenzie was having an operation on his lung today. & John Cother has a TB spine. Took Judy flew over on the plane that brought Mame. Mame did arrive on time just looking so well. Dear kid. Lynn had the day in Pop. Much talk over some a big mail which I had not sorted out yet. Moelem & Myfflin both plan to go on Nov. 18th. Am dreadfully tired & wonder if I should go to Moreau's Roger on Tuesday A.M. just to rest & recover!

Time SATURDAY—October 31st

Looks a drag but got through fairly well except being cursed inevitably. Did sched at 9:15 & sent a radio to Judy (saying John will be where they, also my ETA Tuesday A.M. & let Maurice know. Tired to X-R. Fabian. passed the lead to the Buckley. Showed them what her job felt like. at 1:30 heard that Liddy had had a stroke. They wanted him to come here. Much 3 way talk between Pop & M.H. & her. Got an interrupted rest but not useful. Did Drug Order routine & sent. There, then Rex Mori & Ken M. came expecting to find Liddy here. He came at 4 in fairly vehicle. Dr. Not the kid who did a good job all day. Not a bad job. his speech blurred & power in hand & foot impaired. Condition good. Ran & Ken went to the Bay, back to late dinner. Much talk & they went at 8:30. Lynn being a good job. A. who is quite cheerful & had talkative. Evening well attended. We are to have Mares on Monday. Time THURSDAY—November 5th

B fast 7:15. Decided to go to Tom & confirmed my booking, sent a radio to Mahiro 11:00. Ran into Myra K. at the bus, we came out together. She is business like, sees possibilities in things. We hammered out plans, she stayed to lunch, we went on after a bit of a rest. Eileen is good about having her. John Key came at 2:30, we talked of Sunday. Arranged Joan for us both to have dinner at Mapang 're' "Man For All Season" at the Drive-in. However, +D got back in spite of the strike, & rang to say he would come tonight. He had dinner at Mapang. Then Joan brought me back here! Joan out of Hospital, looking a bit down. Went to Garrett then to but she does not know what damage the earthquake has done to Maqaurum. Radio U/S. +D came during E's song, we have talked over possibilities for staffing. Joan & raft want to go. Very tired. Was locked out; B. Alf. sent me his speaker-key. Bro. Andrew here today.

Woke 24 hours. We were wakened at 10 to 2. The Bishop was ill. Myra came, with Alfred drove us up to him while Chad rang for an ambulance (but couldn't find them). I thought it must be a coronary or stroke. The conversation had preceded that way last night. However, it looked like renal colic so I rang Ken Wiley, he very decently was at the Hospital when we arrived & D then was out of pain. Rained 3:20 & could not sleep. Up at 6:15. Was Joan came. A busy hot busy day. Myra went at 8. The hall was full of that woman all the day. I went to Hosp., missed Ken. Saw Annie who is on FE, not TB, hearing. Saw John & Ken had told him it was not TB. He is discharged, going home tomorrow. Shopped in Boroko, home at 11:15 on a PMN lunch, glad to get it. Got a cuppa, a bit of a rest, got ready for P.M. Got to the Karabin at 1:30. The Gene Dehussel 3 mums & one of the nice Brazil ones. She was on the one we had last night - on board. I talked to Joan most of the time, but saw M. Tajia who's well, joined. She speaks better English. She gave me a bead ring. The spect food took Myra, D.R. & me back at 3, respect is the word. We got soaked & spray up on a Ziggag cone. ←

Friday

I still can't believe it. The day has gone well, but it is an alien world, where there is little that must be done. Ref by 7, heard the news, no mention of Australian pilots taking action. I washed the things Myra had worn, bought some things at the Tailor shop - very hot walk - ironed & packed, went to Myra, Maurice. The Amarts came to see me as they want to take Gilda to Australia with them!!! Gilda lives! Thru, Lita Mayson. The T.A.A. bus came on time & we took off on time. I saw John C. weighing in at Patara before I left. I sat next to a Tasmanian girl who was in an accident at Rogien, lost the top of her ear. She wanted to get to Hobart tonight but couldn't & I left her in Melb TAA organizing accommodation. The whole Continent seemed under thick cloud, there was a lot of turbulence & both flights. Customs was a pain. I rang Madly & had a few minutes chat. There at 7 PM in glorious sunset, along the new highway to Town, out here. Bob is older & grayer, showing signs of strain. Mrs B. shows less change. Much talk & to bed: H W B

Saturday 7.11.70

Slept all 10 to 8! But: worrying dreams. A lovely day! Bob has seemed to be at leisure, I hope at no cost to himself of frustration, extra work, a lovely sunny morning. Chillie PM: leader skies coming up. I talked on the phone to the Balls all PM. Rang Mentie who was clearly glad to get the call: at day she is down to 5 stone - I wonder? Bob walked in in the sunshine down the avenue - his old hobby of noting houses & changes in them - but I am sure he liked being out of the house. Got to Glenahilty at 3.30. Alf looks well but emotionally a fossil. His mind was fairly clear but confined to small things of his hospital life. Only a shadow of a human being I fed him with his tea. back by 6. Dinner, talk. Bob got in on the phone for me. bless him. Had to reverse charges but could not. To bed soon after 8 PM!

TARBOON

Time MONDAY—November 9th

I and day at home could not sleep at first, yet too tired to think. Took a pill & woke feeling a bit shapier, but better later. Win gave me to 'fast' in bed: she does not get the papers now. I washed me, bed, clothes, dishes, & walked to the Bank in bright hot sunshine. I got a cheque to send to Gene & later wrote & sent it. Also \$20 for me. Had the rest of Win's business dinner: it was a snack, slept for an hour. A storm came on & I went out in the rain at 10 to 5. Bought odds & ends, met Win at Wethers & she bought some shoes for a colossal sum. We had tea in town - it was - & to the retirement lecture of Wagnerian sheet. All on pensions & benefit all is factual & helpful though the 2 speakers were rather slow in reaching the point about 20 there. Home by bus & glad to get to bed. It is not so exciting to see new things this time: maybe my functions will return later. I felt the same with Bob.

Time TUESDAY—November 10th

Slept better & again an hour after lunch. An easier day. Brief sun & heavy rain so I stayed at home. Tired to send out my printers, wrote to Eileen & did some ironing. Letters, circular letters from Myra - quick off the mark. Win got home at 5:10 just before a heavy shower. Reg. rang. Tea by the radiator & a taxi to the Symphony Concert. It was fascinating to watch music. The horn soloist did wonders with his instrument. I did not like the sun item a bit - clew was no doubt, but ugly. But Beethoven's 5th symphony was glorious & got great applause. I am getting a little more idea of the make-up of an orchestra, & must study my record again.

HOBART.

Time WEDNESDAY—November 11th

I don't accomplish much, but I suppose it doesn't matter. Win picked blue flowers for Mrs. Johnston to take to the Anniversary Day affair. I took them in at 10, just as they were leaving. They look older. Odd job, sat in the sun & went to Oppan Dallimore. That is a bit to Tom P.M. seem to be the lot. I looked at patterns & material & bought some purple poplin for pants. Went to DBS, saw Dorothy & priced the New English Bible. Tonight played Patience & listened to music & enjoyed both. I rang Vera, & ran with choir & leggy, & later Evelyn & her Mary. Harold rang A.M. from his bed, but sounds pretty cheerful.

Time THURSDAY—November 12th

B'fast on bed as usual. It was dull & rain forecast, so I went to the b'by in the A.M. to beat the rain, which didn't come anyway. Went to Uth. Hobart for more money. Mada, overtook me, & we talked in the hall sun for 2 hr. She is heading at Friends, obsessed just now with the affluent society. I bought the Bible, & Win has refunded me. I tell her family it is for Xmas as well as birthday. I priced socks & got her a purple to replace her brown one. Also got pattern & material for a dressing-gown. Back at 1/4 to 1, lunch & a bit of sleep. Then wrote letters. Tonight sorted out all my letters to be answered & must get busy. Had Beethoven's 5th Symphony again tonight. Played Patience & read. Win rang Ella, who is coming to dinner on Sunday: worried about what clothes to wear.

NOVEMBER, 1970

Time A D FRIDAY—November 13th

A quiet day, could not sleep till about 3 AM in spite of a full moon then drizzle when I woke. A cold blustery day, & I did the odd job & wrote letters & tried out my cassette. Later looked at the dressing-gown pattern. Win came in at 5:20 pm - hot up because the school leavers are pouring into young vandals. They pulled in the fire-alarm wires & called the Burglar out - poured a washy's room, punched a hole in a blackboard. 3 boys sent home smartly. I dreaded tonight & resented getting in to a nylon frock. We turned to Carolaid, a really very nice do, glorious flowers, excellent dinner, drinks & a few amusing speeches even to an outsider like me, & dancing. I talked to some very nice people, & the Hubbards brought us home - clean sky & full moon, moon but still.

Time SATURDAY—November 14th

Sunny most of the day, chilly tonight & rain coming. Win & I both had to feed in bed. She cooked & prepared macarons & all the morning. I cleaned out the house & quite enjoyed it. A late dinner & strawberries & cream, beanies. I washed up while she made gooseberry fool. Then I wrote some letters, including sending Joan D's \$10 to my No. 1 account at 10 dals. I cut out the dressing gown but think the sleeves will be much too deep. We changed before tea, then mostly caught a bus to the Royal Theatre for the Ballet. Marjorie Russell-Harris had organised the tickets. It cost \$3.50 in special seats, but was very good, especially the first one, Les Patineurs, which was full of fun & drollery. Hamlet was not Ballet material though the staging was excellent. The last one, Symphony in Gold was just that, different shades of gold against a pale blue background. The dancing is good but void of emotion, & well suited to the Italian Symphony. Home by bus. A Miss Spradell is going to take us out in 2/2 Sunday. There is a waiting day, whereas in N.G. I try to make it anything but!

NOVEMBER, 1970

Time MONDAY—November 16th

Win had a bad day at school for her birthday. A most cold, wet day, & fine but much colder tonight. The cold makes my neurologia jump. Vera rang to put off my visit: of the weather. Joan rang to tell me! Bp. Shearman of Rockhampton is the new ABM Chairman. I had heard it on the news. Mail came from AMA & Br. Murrain Council for a reference for Joan Sharpe's deal. It's worth to Joan Lynch by the radiator. To Tom, collected the bamboo pipe from customs, packed my cheques & stopped. Bought a cat for the quib at S.L.H. & a bottle of Tab for dinner tonight. We had a lovely dinner at a new Chinese restaurant in Liverpool St. Then to lecture Mr. Altman is good, sensible & entertaining but he paints a bleak future for those who merely save & are not clever & their investment. Win insisted on a taxi from town. Heard Sir Hudson Fysh on the history of Qantas. I think he must be P.O. Fysh's son.

Time TUESDAY—November 17th

Even colder today, bleak & wet, but we watched the sun come out over the river & by evening in shelter it was warm & pleasant. Kept on testing my tapes AM. Had a letter from the Panselmann people about my policy due Dec. 15. I got away at 25 to 12, just nicely caught buses to Vera. She looked much better than on past occasions, is quite active but I suspect she lives on her nerves. Very shocked over Ian's plans, says he is a different boy, planing in part building his house. Miss Annie & I went back 10 to 4. To Tom & got a few things. Dined off in the sun-dome when I got home then moved. Win came in late after a big day of interruptions. We had a luxurious tea of chicken & gooseberry fool, then she tried on her ideas for the wedding & I sorted my colour slide then both played Patience! No word from S.L.H.

A quiet day & much warmer. Saw lovely wind chilly. The usual chores, wrote to Glenda & Janet. Now checked all my tapes and decided to rub off most of them, but must check how my microphone reads. Had a sleep 2-3. Walked to New Town P.O. to post letters & some up Pine St. & dropped in on Ella who was entertaining Dot Johnson. Ella seems better. Pleasant tea. Win & I went off together to B.W. meeting. I to the cathedral. The Welcoming of the A.C. Church into the Tas. Council of Churches. The cathedral $\frac{3}{4}$ full, mus, Sab. Army, all sat. Very moving & well done. Alan Wakon preached, an ex-President of A.C.C. Mr. Saltmarsh, Mrs. Davies & Mrs. S. brought me home. I heard Kathleen Ferrier, saw Schubert, & found a Fresham in the phone book of Forest. I wonder if it is Guy Davidman's son. Was Pahence

Time THURSDAY—November 19th

A sunny day, but cold. Manual job. Win rang to say Margie is giving her the Women's Weekly. I did not have to go to Town. I did up the 5th parcel, experimented & recording from both sides, a record. Tit's radio is much better than Win's - a better tone & less vibration. I wrote to Betty & tried to do N/C but not the right moment. Walked to NT P.O. to send the parcel, it cost \$1.35, also got a matched Ruby Stamp of \$1.30 for my Insurance Policy. Walked up to St James's for the American tea but there was no sign of activity. Home, wrote to Bessie M. & Niv called for me, & took Ella, me to his home. Ella much as before. A pleasant evening & nothing to do, but the kidneys rather persistent. The taxi brought us home at 70.

Time SATURDAY—November 21st

Marjorie Ray came over for a minute while I was taking to fast. She looks fairly well but thinner & her voice has an odd quality. Did the job got on the N/L. Shopping in the am. Had a fairly early lunch & went to town. Got a book for Madew's birthday & odd odds, gave \$5 to Lakshana Relief, & home by 4:15. Finished the N/L & wrote to Bob, Mum & a nice dinner & finished the Ed Wains rang up to say Harold is in hospital on diuretics, due next Tuesday. I cut out some new pants, played piano & we had Ugar's Victim Concerto - Myhudi playing. Glorians. Win picked 2 1/2 lb. of gooseberries which I washed up & we popped & baked them. Weather warmer, but need radiators & electric blankets.

A lovely day, sunshine all day & a breeze. Win washed, & I cleared the house. Did not use the vacuum but cleaned toilet bathroom & kitchen. Had a lovely roast beef dinner. I finished the N/L & finished P.M. also slept for over an hour. Win changed into her green Thai dress & Grasha called for her at 5 to take her to Bob's wedding. I covered my Bible in plastic which is excellent for the purpose, had a pleasant tea & did the sewing. Then addressed half the envelopes for the N/L & heard Mozart & Beethoven. Win came in at 10, & had enjoyed it all. Talk & a cuppa.

Lovely weather, sunny, warm-ish & bracing. Masses & bit late, sermon too long, on pollution of all things. Miss Goss brought us home in her car, a charming woman. Win spent most of the day in the garden. I headed at mowing the lawn: to my surprise she was very relieved to let me do it. Wrote letters to go to N/C & on to Noelens: her birthday present. Felt tempted to go to Wang, but did not go. Did some scrubbing to my front: finished addressing the envelopes. Very pleasant day. Win will not take \$5/week board, so we settled for \$5/fortnight.

Time TUESDAY—November 24th

A lovely sunny day, short sleep weather & quite a useful one. Up a bit late. Joan & rang for us to go up on Thursday night, so I rang Win & then Reg to put us off till Friday. Mrs Goughen brought Win some leopard orchids from Karynham. I walked to Mr. Hobart's, collected my papers from safe deposit & bought a leather account book. Checked my NSW cash: have one entry in each I can't explain. Did a spot of sewing & wrote letters. Win brought home the N/L. A pleasant tea really too hot in the sunroom, & off to retirement. Dr. Luck is good, quite lengthy, & quite a lot of meat in it. He spoke of compromise & the need to adapt knowing that the power to adapt decreases. Also the need to have expectation. Missed a bus: walked to P.O. I rang Daw & got to her for lunch on Wednesday. She says she was never better - a good advertisement for retirement!

Quite a warm day → 81, cloudy over this evening but not really chilly. Broken sleep last night & slept for 3/4 hour after lunch. Quite a full day, washed my head & clothes, rang Elsie change of mind to Edith. She said she might not go. I tried to encourage her to go. Unwashed the N/L & have written a good no. of notes or cards to endos, & finished the pants except for slash. Win came home tired & we dawdled over tea, then she went to the garden while I washed up. She picked the first ripe strawberries today. A Jehovah's Witness woman called AM & we talked for some time about prophecy, she always coming back to the fulfilling of it in this generation & regarding it as a continuous thing. Headant, well dressed & I should think fairly intelligent if not very well informed.

I went to Darts & saw battery clocks & priced them. One in window is \$13 & quite a few. C. Davis's have look identical: C. Davis's for \$11.50 less. Got some tips which might do for winter feet. A light tea in the warm sunroom but chilly tonight. St. G's WA Sec. brought me a Xmas gift & \$10, & Bot with AM: CC's \$20.00, so I feel happy about buying a clock. Woke earlier, showered, ate to fact. Win got off to help. Insects at 9:30, full of hot much anticipation & desire to spend a glorious morning, good to be out. Insects are up a lot, & I did not like the materials as much as usual. The sheets were not what Win would want. I got a dress length for myself @ 80¢/yd. & these I am pleased with. Got a \$1 parcel it is all white jersey - 19 yds + 5 yds. It is a nice, but I don't know if I can use it. Back at 11:15, did my chores, tried to record on my cassette again & some better records. Got lunch, & brother Morris brought Win home after shopping. He was quite 50B. Slept a while & did some sewing. Left at 10 to 5 to walk to mt. Stuart bus & went up to Reg. Ella came after aft, & then Win. Mild peaceful evening. An enormous dinner. A nice couple from Estelle from next door came to talk about W.G. He has applied as a patrol officer & they both asked some very sensible questions. Ella probably by 9:30 so we all came home at 10 to 10 in the same taxi.

I slept badly. We were up late. I vacuumed the house, swept & dusted. Win pushed gooseberries & made foot, & worked in the garden. I tidied up some of the mess in my room. Had a pile of odd jobs to do. 5 letters, one from Glenda, who has to rest for the month if she will get over here. A late dinner, not washed up till 1:30 & I didn't get a hoop up. Bang Harold. Retire. He is off duty all Tuesday week. Charlie Brannan had a probate hearing yesterday. Mowed the lawn, then tried to get only job. Did some sewing. The felt dustbin to wash & have felt like that all the evening. Watched the glorious Pastoral Supper. I played cards & am in bed at 10. MEMORANDA

A real summer's day. I slept well. have been wanting more sleep all day but have had that played out feeling. To Waco & out lake so took a taxi home. I did a few chores, read some crumblers or that were awaiting attention, wrote some thank you letters, that's all. Joan & Frank arrived at 1 P.M., or thereabouts & a nice dinner & at 2 to 3 we went off to New Norfolk in her car. We drove round the Lady & back home & surprised me at the new mine going up. They are a nice mine indeed. I would like a home like that. On to N. N. I saw the Hospital there, an enormous place. Went beyond N.N. then back for a while. Joan by the river & home on the other bank. Joan would not stay to tea. We got in soon after 6 & went to the cathedral. Good service. Home to a late light tea. Too tired to write, so played cards. A very liberating afternoon free of all worries.

Time MONDAY—November 30th

St. Andrew. A good day but still
 needing more sleep. To the bathed
 for 10:30 Mass, & good. a good m.
 then for Mary's celebration. In Down
 then I read the prayer for N.G. &
 travelling wishes. A cuppa after in
 the Hall, then did a spot of shopping
 + home. A flea came soon after, we
 talked & lunched on beef & salad.
 She went at 3:30. I washed up, we
 or do for I had a bit of a sleep. Win
 came in from town at 6, I had tea
 ready (more salad). Maryjane Ray
 came over for a few minutes, walk
 over a bit late, we took a taxi from
 Town to AEB. A warm short-sleeved
 day but chillier tonight. I was glad
 to walk back to the P.O. The evening
 good, but heavily weighted on frame
 Dr. Cunningham I am almost too sweet
 & deferring to others. The feeling was
 that this group + previous one should
 get together to carry on & extend
 the good work. Home by 10:30,
 letters from Mary W. Goldman &
 Major Lewis. I must get back
 to letter.

Time TUESDAY—December 1st

Warm but windy. I took a pill at
 1 AM, then got off to sleep. Did my shoes
 by 11, got some letters done at last,
 including the one to Stanley about
 Professional Ethics. A nice salad lunch,
 & left at 3 to see Dr. Metzger. Miss
 Wan says my BP is well within normal
 limits. Sent me to Dr. Parsons for blood
 exam" — they took 10 cc. I am to ring
 on Thursday. Did some shopping & home
 at 5:30, just behind Win. She put in 6
 letters while I got 1 leg (more salad).
 Tonight have been working out my income
 for the past 2 years. I was just taxable
 this year, & think I should consult Mr.
 Alban. Played a bit of Patience
 while Win did a G. saw for me.
 Dr. W. did a P.V. & I was surprised
 that the discomfort bordered on pain.

Time THURSDAY—December 3rd

Another warm windy day. Woke at 4 AM & took a long time to get off. The sky was lightening at 4:30 (3:30 really). Had a sleep after lunch. I got some letters written, & a bit done to my dressing gown. Walked in a silk frock to N.T. P.O. to post letters & buy stamps. I rang Mr. Belcher who makes light of my lack of Income Tax return, tells me to see the Taxation Office about it. Win & I changed - me, I did - 5 Fr. Mervyn picked us up after 8. I wore the lovely silk Vera gown we saw. We saw the ABM film which is excellent. I have seen it before, I think at the R.F.C. at Conference, but it was well worth seeing again. Then we saw Mervyn's N.G. slides, also to good. Mr. Stanton is to give a Mike for us much, the kids & I. A nice supper. Miss Hurd & they too. Then at 11:30, talked about someone offering money for parish's travel, will write to Glenda offering help. He says Stephen Morgan, our medical student has passed his 7 trial.

The forecast was for fine weather but it clouded over & stayed that way, & a few small showers. I went to the City in a thin frock but took a cardigan. That is helpful interview - Mr. Leo Chamber is interesting, he recommends Dunlop. Then to Bank of NSW, & found that 80 units in the Income 5,000 in the Equity were new purchases & as my previous was below the taxable amount after all. I saw the Taxation people who were helpful, but I don't have to put in a return. NSW says I can have my money on demand but it is a good fund to buy, not to sell. Did some shopping for Win, & Marian. Gles was in the bus & me going home. Late lunch, wrote some letters & sorted out my penance a bit more. Win came home but went to B.P.W.C. for dinner & I ate alone, sorted out what present to give to whom. They set up Win's projector & looked at my slides.

Time AG FRIDAY—December 4th

The weather has turned to rain & low temp. forecast. I walked to the N.T. P.O. at 11 & posted Janet's & Denise's present. I talked in reply to the Gphonator. He is in keen of YMCA & works hard for it. A nice man in Eastern Region Conference Minutes from + Henry. A lot of medical news ground being broken, viz. a Board of Management for S.B.H. Must get the low down from J. Alf. Tax W.A. system \$25.00, bless them. Will bank it. Mr. Morris brought Winnie her shopping at 1:30. & at 1 Mr. G. brought a gift of fish. I slept till 3, then wrote letters & recorded the music from 72L & it seems to be good. The rain came at 7, but we went to the North Hobart & saw Aeras the top, a film is like Australian Safari we saw there last year. I think the chief man of the trip was there tonight! Excellent photography, it is revealing, cruder than the other. They worked in a Methodist Mission building an abattoir for aborigines & gained their confidence enough to photograph death dances, initiation ceremonies & a circumcision. Also more bloody job of wild life. Joan Spruell there, & Peter Davidson from the house opposite brought us home.

Time SATURDAY—December 5th

Windy showery & getting colder. Have the electric blanket on. Have done bit & pieces all day. Cleaned the house, wrote a few letters, washed kitchen etc. I tried to do the ironing but Winnie won that contest. I topped & tailed some gooseberries & took in to the Gphonator. Have banded & wrapped up some Xmas parcels, & brought did a bit more to my dressing gown, played Tabernie & Winnie taught me a new one. Read a while. We heard Beethoven's 9th Symphony but it was slow & heavy, not sparkling like my record. Winnie made a pheasant dish with chook, rich with oil. nice but only for a change. I am quite hungry as I didn't eat much. We also had gooseberry food

TRADON

Time 10:15 AM MONDAY—December 7th

Very misty & occasional showers. I kept warm my hood costume. Had a letter from Nancy written in bed. She avoided it going to the Bedminster, a 5-hour scenic & at long last. The nurses giving some trouble & the new hospital pretty dumb. Noa dears. I finished & pressed my dress in-gown. I had David to ask about the 15, who is taking a reflexology if he can be made fit for it. Finished all the cassette recording off out's rate & am quite pleased. Went to City at 2:10 to Dr. Townsend. Very pleasant. Examined my eyes but did not dilate them, will do soon 22nd. Then shopped, got some books for Xmas present, bought another pattern & have just a few minutes ahead of W. Went to the Avonlea by 3:10 to 5:10 as Airport. The preceding films was just sexy, pointless confusion, but Airport excellent & excellently acted. Very tense. Home in the cold. My legs still feel a bit odd.

Time 9:15 AM TUESDAY—December 8th

Still cold, but at. Less so. I slept fitfully & have been tired today - perhaps because the film was exciting. Did not get much done before 11:30. Then walked to Mt. Hobart, paid W. in's phone bill (only \$30!), banked my cash gift then to Madge's, & Daw's. Later Joan arrived. W. lit a fire & welcome. It is pleasant shabby lunch & everyone interested in everyone else's talk. Lunch is nice too. We left together at 3:30. Daw & I went to Town together on the bus. I suggested that we might go to S. Dale's together. Saw Mr. William at B.M.B., I decided to call in \$1600 & leave Boverman's \$1000 - c 19 interest increase. Mr. W. seemed to be on the borrower's side. Am to collect it next Tuesday. Ran into Mary outside the Cathedral coming from D.B.S. I bought some more presents & changed the wool. Home at 5:15 & a bean & headache. Cuppa & read mail. I see tea, I have been doing up parents' mess of the evening to Brahms. A slow business. In bed at 10:10.

HOBART.

Time WEDNESDAY—December 9th

A dull, cold day but no rain. I have done fib & pieces but got a few things done. Alone all day, not pleasant. I ached my head, recorded off records + the 3 P.M. broadcast. The Kathleen Ferrier record seems to be quite U/S. - at least the tape. Must check it tomorrow. I got 3 letters written, went to the P.O. + posted them + parcels + bought some things in the Greek shop. Went to see Ella but could not find her, + had trouble in finding the Home but at the material Leit gave me at last + tonight have got it ready to start stitching + also cast on a glove. The first knitting I started since I was, for her a 15 years. Have done a good bit of reading + am starting a list of Romanay vocabulary. Rang Madge + Pat.

Time THURSDAY—December 10th

bolder, much duller + raining P.M. Apart from taking my shot down for Heeling I was at home all day. Lined all the tape I recorded yesterday, + on one side the tape jinks round. Kathleen F is awful on the Beethoven Concerto 2 side, it is poor at first then quite good. A nice mail letter from Margaret who says Pauline is under some grass, it is at least not from headachy + nausea. Ray has recently gone round the wall in Eg. A letter from Dinkpen her Brisbane home!! \$10.00 + want to see me. A long letter + helpful from Fr. Alf about SBD Board of Management. P.M. had a rest, then some sewing on the new frock, also got ready for dinner as much as I could. Reg. Edith came at 5.15 in the rain. + W in straight after. Reg. thoroughly wound up + talked on on endlessly about film stars + he met in America in 1920s. I was glad to have sewing + knitting to do. However, I got a few scraps of helpful advice about shares, Leo Chambers +. They went at 10.30. W in providing paper for me to copy Fr. Alf's letter for photographing.

	<p>Raining almost non-stop, cold but not badly so. Floods near Mt Mary & in much of Eastern Australia a bit earlier than usual & left for Town at 10:30. Got my shoes from Mrs. Harris who is having a tough spin - he waiting for an eye operation & his wife chronically sick. He seemed glad of my little job. Tutted round town to a very nice woman, Mrs. Paton, helped me in fitting to find material to trim my dresses, & also was helpful about Mary's needs. Home at 12:30, lunch & got in Alf's letter copied, recorded Wednesday night's dream & verses, read a bit & got on in my dress. A nice & large meal & Win, was sewing & knitting & Patience to Barbara & Schubert. All is pleasant. We had a letter from dear Theresa, she must have a hard cramped life in Miss Lane's & her own infirmity.</p>		<p>Slowly clearing & rather milder. Even got some of the day. I vacuumed & cleaned the house & Win cooked. We were just ready after dinner & Queen's John arrived. Queen looks well, young. Has recently been visiting N. on the Gold Coast. Ella arrived: Miss Amy, who we found after is 81, but was looking after Ella! David came after 3:30. Quite a pleasant afternoon, & talking about our old 20-minute concert. Queen told us that Joyce Parsons has died. Laura Wardlaw suffled in Birmingham a same such. The Webster took David home. A late tea & have pressed, sewed, got on in my frock, & done quite a bit of knitting & we both played Patience to music, records & radio.</p>

Spent the AM & some PM writing letters.</p> <p>A nice dinner, & Win spent the whole morning in the kitchen - but she does not seem to mind. She worked in the garden all the afternoon & we had tea at 8.30. I went for a walk, called in on Ella & Win's magazines & met the Matron, Graft Dyer (now married) who was quite helpful about the tape-recorder & recommends Adkins. There is a beauty. She thinks Ella is much better in the Home than in N.A. Walked home via N.T. Did up some parcels & went to St. James' for T. Rang. Very good, taken by 2 laymen. I don't know anyone there since tea have written & filled, & am tired.</p>

Time MONDAY—December 14th

Quite a warm day. Went to Town in a cotton frock. Called at the bookmaker for Win. Mrs. Jarvis having his long delayed eye operation so I had to carry her shoes round Town. Met Madge Martin in the alley. He much improved - M. I had a cuppa in nice place in the old Imperial Hotel, which has brass rubbing for sale. M. I walked lot of cones. Left her at 12.30, stopped Mr. Daulton's it will cost more than \$4 to rethread my crystals. I left my tape-recorder. Mr. Atkins to look at. Home at 2 to 2, a light lunch + sewed my dress before the sun came on the sunroom. Dined + slept + read for an hour, had a cuppa + mowed the lawn. Win came in late from Town after her hairdo, + we had dinner out under the trees - pleasant if windy. She brought my copies of 7. Alf's letter + I have sent them off + written some Xmas letters.

Time TUESDAY—December 15th

The day started warm but got chilly + some rain this evening. I packed letters + went to Dr. Newbough, but had to wait about 3/4 hour so was glad I had my book. Dr. H. is nice + want to come to N.G. He scaled my teeth + advised me to get a special tooth-paste, which I did at Sedwell. Tomorrow, I think the quilt cheated me of about 40 cts. I mended at 12.30 + we had a pleasant lunch - salad - + she let me pay. Went to B.M.B + collected \$700 for the one mortgage, the other not clear. Went to Mr. Whambas, he is getting me 500 Dunlop shares @ 1.20. He + Mr. Williams of B.M.B both + nice. The other 900 should be available this week. Stopped + got home at 3.15, had cuppa + rest, then chipped some lawn edges for Win + did some sewing. Tonight we heard Beethoven's Fidelio - lovely music + lovely voices. Win wrapped up parcels + I sent out another pack. The AMA papers re Nov 21st meeting arrived the day, sent on from P.W.G., re changing the constitution. I haven't heard the decision yet.

Time THURSDAY—December 17th

The most contented day I have had for no reason unless I am getting back my appreciation of pleasant things. I enjoyed the music more so. Shawcross's dull. I went to N.T. for Win, then dress-made most of the day & music. Enjoyed my food more. It certainly is good. The postman did not come till 2:30, for mail, a letter from Fry Hugh & cheque from the Cathedral. I clipped a lot of lawn, & have only a little more to do. I picked strawberries for tea. Mr. Sly came in tonight to see Win's roasting steps, the smart & neat, but all that I was aware of my stabby clothes. Win thinks it will cost about 200 dollars. Have written to Linda. Did hand sewing tonight & Patience & even got the hand out. The Russians put a vehicle on Dennis. — whether it was destroyed before landing. I gave back information for 35 minutes.

Another pleasant day. Felt that I had a hoop of. Much warmer. I did my chores & then met W. & M. Hobart. I banked cheque & drew out my previous \$14.00 & finished the round of shopping & brought some home lunch, ribs & baked & finished the lawn edges. Fry Murray rang AM & told me Glenda want to come & she had some money given her, but Fry W. was going to ask his friend to come good & more so Glenda may come. My bill had arrived for blood count \$11.00. I wrote to Glenda & got it in the post before 7 as the P.O. people have a stopover meeting tomorrow P.M. A nice dinner tonight, have finished my book from material that gave me. The radiator tonight. Win & I both working out on capital & what investment to make. Pat left the Meyer brochure P.M.

It is interesting "Pleasant day. Rain forgotten, but it remained hot & breezy. Fine. I carried a cardigan, raincoat round for nothing. Got to town by 10:30. Took my \$14.00 cheque to MSW & the nice man advised me to take Equity rather than Income Unit, & I got 12.50 & collected \$7.50 in change. Then got my \$9.00 from B.M.B. & took it to Mr. Chambers. He is nice & gives me an impression of integrity. He said Myer's were closed & would recommend Kuper for W in clearing at 3 PM today. Frank W in put it decided not, but took 300 Shiloh & advised a bank of Adelaide show for me, & took 3 yrs @ 8 1/2%. He says he is a cousin of Anne Browniecki. Got a bit for Betty A, & went to Maes at 1:5 at the Catho & I'm glad I did. Majors Russell Harris there & took me to bed & sandwiches & we talked Komains collected my tape recorder & it cost \$7.65!! Not it is O.K. now. Name after 3, quite tired had a hot man to eat & sorted things out. Nice letter from Lene who is happy & is busy at Hagen. We had dinner at 6:30 & went to City Hall for the Prochatal concert. I liked the first part so much - but I hate the 2nd. Concert was so loud, esp. the piano, & I did not care for the Spanish dances. Still jolly good. Home by taxi, ticket up & will be glad to get to bed.

Time 109 SATURDAY—December 19th

I sleep peacefully in the morning but W in woke me at 9:15. We had a busy day. She washed, cooked, & prepared for this afternoon. I cleaned & tidied the house. The weather was less cold & more pleasant than expected. The clothes were dry at 2. I dumped the things down before the visitors came. I would not have known Sharpe again (Mrs Medhurst) whom we met in Lincoln. Mar Chescman, Mary came soon after. I & I pleasant talk & nice after tea. I worked while W in cleared rubbish from the garden for the Council to take away tonight, so we had a late & delicious veg salad. We listened to Beethoven's 9th symphony & I recorded it in my room. Must try to play back some of it in the A.M. Mary sorted out my investment for W in to do my Income Tax, & thanked & read a bit. A really contented day.

Win has made it a lovely birthday. To Mass, a dull family warm day. The Perkins makes talk, talk before the service begins - they of all people! Rene who was a Dunbargh drove us home. She had a pet of a small daughter with her. Fr. Gibson was in Church & am so glad I saw him. He is so forgetful. Miss named to fast & not did job preparing for the crowd. Win gave me the Florence book - cover I gave elf, which Alice returned: it just fit the Bible Win gave me. I made 3 letters only in tub & pieces. R. G. came at 12:15, then Ella. Dinner of pork & plumage & milk, & hamster. R. G. brought raspberries, which I also fast night. When the family went at 5 I felt deadly tired & rested a while, & Win did a bit in the garden. He bundled over, got chilly & we both felt too tired for church, so I posted letters. I kept peg, have done Xmas parcels & I even began a jigsaw puzzle. To bed & left early. Cold day getting colder. Sun, wind & a few shaves. I walked to Mt. Hobart, & saw Cracker Mason at Pindell Hill. He says the blizz will be here on Jan. 2nd. I banked my cheque from Chambers & put the documents back in safe deposit, & got apples, tomatoes. A.M. & P.M. have been cleaning tapes & recording & am pleased in doing hang up to which me a happy day. She says she goes out for jobs. I struggled in the N.G. Medical Report for Myra & posted it. The Cashman did not get her bill after 5:00 in a big mail. A card from Papa, dear little present for last from Theresa. A bird has gotten inside the wall near the cellar. I'm worried about getting it out. It is not alarmed. Have written some letters & done a bit more jig saw puzzle. Mrs. Sly came in & offered Win a door handle made for \$10. Win is pleased. She dropped a bombshell. Mr. Cab told her she should have a T.V. & she is inclined to do it. She rang Mrs. W. later who will bring love on loan or fruit on Wed.

Time TUESDAY—December 22nd

I clean. I am tired & don't know why. I was tired this after had my shave before I had to wash up & make my bed. Got to Dr. Townsend dead on 10:00 & got away at 11:00. Win says he lives opposite Mrs. Wood's. The 2 families are in friendly. I thought my eyes were O.K. again. I'd go to work & then found it a bit hard to see. Maybe that made me tired. Home by 12:30, lunch, job & a short rest, then heard music, recorded Elgar's Violin Concerto. The wretched tape won't rewind, did a bit of dressmaking & read a big mail. Win & I had a bit of bread & cheese at 5:30 & changed. She was kind enough to advise my new park. I think it was sincere. We hussed to Tom, walked to the water to fill in time. To Tarooma by bus. It is a glorious run. It was nice as far as go, but I do hate them & got deadly tired & bored towards the end. Met the MacFarlanes (cousins of ours) & a nice old Mrs. Woods who I think found it boring too. The Cheekmans perfect host, Mary is amazing. The Montquerny bought us home at long last - weather turned cold & rain forecast. Had a welcome supper to bed. Now Mary's name & phone information & long to do it.

Back at 1:15 had a pleasant lunch, & spent the afternoon checking the tape recorder & recording Schubert's 9th Symphony, & getting on my dress. Waved the lawn, & washed my head. I had left the door ajar expecting Win, & Mr. Morris arrived: Win's groceries & I had to shut the bathroom door hastily. Win did not come, I was getting anxious. Snow Wetcher, his daughter brought a heavy T.V. set at 6:30, & set it up. Still no Win so I rang Friends, Mr. Main, & finally Mr. Oak. He said he would go & look for her, but she came in 2 minutes after, at 10 to 7. Had trouble balancing her records. So I rang Mr. Oak again. A late & leisurely tea: bit of V. but even the sunroom got cold. Then Harold Mairs & Mary came at 9:15. H. looking well. Mairs gave me a dress length. They go to Oxford in January.

Win slept in & needed it. We got a late start: she cooked, I did some washing & cleaning. For the rest of the day have only finished my work. I met mgil & Major Ken. John Riggs Janet, & a cheque for B.M.B. Charlie brought us raspberries, had Mr. fly this AM as we have feasted on them. I went to N.T. & bought some more cream-pleasant out & warming up, but tonight is cold again. Did not use T.V. set 7 P.M. I can't say I would have done the programme we did - cards were good: Michael Flanders - but Suepriet & Dyll went on for long. Win did a puzzle & watched: I sewed & watched. Washed Win to decide about Maas: she had 8 AM tomorrow. Rather a relief, though she midnight is a lovely service.

Wim took me to the fair. The fair was a bit late but we got to the cathedral in time & in our usual pace. Quite a crowd there, the bp. celebrated & preached. The Dean administered in the Nixon chapel & the prayer for the Queen & it contracted - verses 2. I do was there but I did not see her. We missed the 9 AM bus & missed home. We went over to the ramp before the fair picked us up at 11.15 & to Nat. A perfect sun - a nice day, cloudless & warm. The kids excited! The Thomases came late. I like N is a father. Ann the step-mother works for TAA & I will look for in town by 2. A delicious turkey dinner & mince pie & Xmas pudding, cherry & saffron. Then the gift - even the Thom family gave me one. The kiddies got a wading pool and I shivered. The fair took up to 12.30 at 3.30. The show was late & with a bit put out. but they came later, I was present. I had a cold, peas, salad, & port all to mind. The fair was so late that Mr. Day took us to the cathedral. The service was glorious in all respects, the choir superb. The Carol lovely. Different sermon. The Last Words etc. read the lessons. Keywords there & MacFarlane brought us home by 9.15. Read radio TV. The Queen's speech most interesting showing no bit of the usual

Wim had all her boxes going most of the day. After seeing the news we sat out on the front lawn & read till almost sun set. She was a bit more animated & I think enjoyed it, but still full of ideas of persecution, stealing, spying & etc. We saw a TV thing on birds cap. bower-bird at Keady's Green Mt. in 2' land: a good Win. I walked home & pegged letters & bought a pen. I wrote to Kendall at Sidali to book a room & went out again to post it. Thompsons came up after. Now almost finished my glass & done a bit to my dress. TV brought quite thrilling - Remembrance in Darwin & Perth, giving rehearsal: performance of *Hydralic*, the 6th part of the 9th. Then Malcolm Muggridge talked to Mother Teresa in Calcutta & saw the work of the Sisters. Wonderfully presented. Win will keep the TV I think. Talks of changing the printing round!

TUESDAY—December 29th

Back to Arctic weather again. Temp. max. 53. We woke late. I got out of bed full 10.20. Washed clothes & wrote a couple of letters. The postman came at 11.2 - a N/C & note from + P's a letter from Maryjane - a cheque, Bless her, & confirming that I talked at CC on Feb. 2nd. We had midday dinner & tea by the radiator. Did a bit of sewing & have finished my gloves. Win made marmalade & bottled it. We talked of her nominating me as a member of World Record Club. Frank left at 1.30 & arranged for us to go there on the 9th. Tonight we have each other's slides, & made plans for the trip. Electric blanket brought!

Still Arctic - worse than yesterday. We were up earlier: Frank left & we arranged our coming & agreed that a picnic was impossible. We got to Town at 10.30 for Win's hairdo. Dorothy Jones was on the bus. I collected Dante & Dorothy gave me another book for Xmas. I also checked the paper that wasn't behaving & the young chap made it behave. I hope. I sent of Marie's parcel. Win & I got a paper from the Tourist Bureau then caught the Sandy Bay bus & Pat met us at the stop. A very pleasant time in her lovely house & a terrific dinner. Pat has settled in at S.B. & seems content. She works hard in her lovely garden: & she is considering a trip to England in 1972 or 3. We flung a few ideas about re travelling companions: it could be that we might team up, but neither Pat nor I would be quick to decide. She drove us to Town again & we shopped. I decided not to buy wool or a cardigan just now. Win bought some letters: we ran into Ted N. what (!!!) & Harold & Marie. Mervyn Stanton is to go to all to. (Poor & sea-sick.) & Harold is out of a job but may do part-time at Rethinbank & P.T. at Church House. Marie fiddled tonight, & Mr. Sly came in to talk repairs. A lovely mail. except one from Marie - birth of SLH worries.

Today still colder & still wet. Win left the bathroom radiator on for me. We walked together to North Hobart in driving rain & wind, cold but it was exhilarating. Win got household things & we both went to the Bank. I arranged a Bank Draft for Brad & Neil Anthropology, & it quite bamboozled the Bank Manager. Back at 4.10. a late lunch. I have done a bit of sewing, written some letters, read a good deal of Chas. Williams Kangaroo to discuss next week. Win started on the big circular jigsaw this afternoon & is still at it. We heard some lovely music & saw a T.V. thing Exit 70, quite good. I tried out the tape the boy fixed & it is working, praise be. A card from Mary, the Hugh & the small boy have all had long bouts of hospital, poor things.

Time THURSDAY—December 31st

Have not been out all day. The weather improving but still it has far to go. A few hours of patchy sun. Win was rather off beat - preoccupied & a bit irritable; maybe because the Thomas family were coming. But she did not spoil much over preparing dinner. She went to the City after an early dinner, & I hastened to record some things I do not think I am mistaken in thinking she does not like it going on when she is about. I got through Interlude for Phuong, some Kathleen F, rather scratchy. Have done bits of sewing & wrote to dear Kenby, finished Charles Williams & that's the lot. The family came at 4.30. Win asked Niv about Sky's espresso for repairs. The kiddies are pleased but they do fill the house, & Andy is so demanding they would not go to sleep tonight. Niv & Val got off at 7.30. I don't envy the people at parties esp. the Warden's at P.O. It is raining now. 11.25. We have had some amusing programmes mostly radio. Great about Provides Margaret getting a divorce. The Certificate for NSW Equity came today. Exit 1970 - no regrets.

An uneventful new year's day. Still wet & cold, South Esk & Shearwater in mild flood. The children woked 6 or 7 am round the house & kept Win & me awake. Win had a funny panic thing to fast. I think she was more relieved than I when Dix & Val came at about 11. I was relieved. Win wouldn't let me help. We had a late dinner. I did some sewing but my dress is slow. After dinner I went for a walk towards Bonmahon Bay: the help of a map & got some cobwebs out of my brain. Guffa, wrote to D.O. & Marjorie. Tonight some sewing: have thumbed out a list of the Pope of 15th & 16th centuries. We saw the Edinburgh Tattler, is good, is Canada & Bernard contributing a lot. Then heard some Dvorak. Win in going great guns at jig-saw.

Time SATURDAY—January 2nd 1971

Weather improving but still plenty of rain. Cricket Test in Melbourne abandoned. Win washed. I grabbed most of the morning things in & got them moved. Sheets & towels still out. I vacuumed the house. Win did some cleaning in bathroom & kitchen. A late dinner. I have done some sewing. Win wrote to W.R.C. proposing me as a member. We had some records too. Tonight we watched T.V. quite good & amusing, but little else done, except read the ABM Review. Lewis Robinson has died. He would only have been in her sixties. A letter from Glenda saying she would love to come but can not, as she is standing by to nurse a priest's wife after a surgery. I must make plans. Joan & Frank this after. to say she had the Australasian in N.Y. Volant & Bryan Roberts has an MBE. Ples him. Lemojin has something for & Betty Crouch. Yesterday's Mercury said Mr. Pat has an OBE. NOTES FOR 1971

Weather improving slowly. I woke rather early, got a shower before 7. Mass 1662. Among the billing papers he mentioned me, all smiles or furlough or in sickness. All fitted in i may S. I for my next term off work, for Glenda. We had to catch a 6.45 bus, I had time to see the yacht in Constitution dock - a pretty sight. Wrote letters A.M. - thought out plans for departure. We got the almost dry clothes in at lunch time but need not have. We walked to Cornelian Bay, found the real garden but searched in vain for Lil's plate. Saw Pat's parents' plates, also Prof. Orr's. We were too tired to go to the house, back to the garden to make enquiries, look again. Win may ring the undertaker. Walked back as it was easier than looking for a bus. Tonight T.V. a Violin Concert, challenge was a W.C.C. service: a dance suggesting the Tubriggs' great awareness of community guilt. Prof. Gurnsey in it. Then an A.P. Herbert comedy.

Monday 4th Yet another wet day. The farmers leaving their wheat, hay, tomatoes etc. I rang Fr. Mervyn, had a long chat about Glenda, marriage giving, his appointment to all etc. Went to Town before Win went to the dentist: collected cash draft from Mth. Hobart, & to the city. Booked TAA for 6th, changed the name Ella gave moral Myers, etc. Met Win at 12.35, we went to Ncha. A very pleasant meal. Got home at 4.10, while Win went to collect her teeth I recorded a bit of Brahms. Got one more dress, wrote to Anthropology people, Glenda, later Jean D. We both fiddled: packing. Snare Webster came quite late, stayed till after 11. He runs a farm as well as his T.V. work. He charged Win only \$120 for this T.V., Win accepted, is now quite thrilled. Snare has had it as a spare in his own home, has recently put in a new picture tube. They work at 16000 Volts.

A nice David deacon, & see Maud, who is a bit repetitive & less active but a lent still. We looked round the house again, then to Mrs. P. but could not raise her to Rees. Win as a mature & serene beauty. Will came in, a such man & mentally pleased. Glad to come back to supper & bed. Pauline Baxter died

Wednesday 6th Jan. LAUNCESTON. And quite warm! The nights we are having are enormous. We took our things up to Rees via Ellyon St. & saw new Council Chamber etc. the garden in beautiful order. Win arrived & we saw Mrs. P. from her shop. She arranged to pick us up at 8 past. We walked down to the church. Found 3 Leggs who showed us the Bays memorial (a new pedestal table) & told us that Hil's money is to be spent on new Bays Books 1662 + 1958 in one binding. Win told him of Pauline's death. Ken Baxter is his Churchwarden. Win & I picked us up & drove us round the new areas, & we talked of old inhabitants. T. B. put the weather dull but fairly mild. Clear kind of lunch on the Eastman's beach & on to W. H. H. B. part in spite of crowded camp is still lovely with undetectable beauty & peace. I even had a little paddle, renewed the old joy. At the 10 past Olive O'Brien, her grand-children! She gave us a great welcome, then Mrs. P. arrived Young & over (over 80) & is thrilled over her M.B.F. & is good to us. She showed us the fish farm, took us to her room for a quiet supper. To the bus & I gave her \$5 as a sort of memorial to Hil. Fine, but by then. Lovely trip for 2 boys. Fair view. We left an things at the Criterion went & ordered flowers for the funeral. I can Villa had a rest & a thing done round the Town. Good to get to bed. We all loved today.

Thursday Jan 7th LAUNCESTON. A lovely day. We all slept badly. I of course caught the bus at 8.45, a dull day but sunny, warm & M. Hil met us, & we have eaten hugely. Talked, wandered round the estate etc. all day. Hil looks well, contented & John also. A few

 the thermal power plant. Much talk & after tea & her nice

Friday Jan 8th HOBART - and into really hot weather
 Temp → 97° in Hobart. We slept well last night &
 the day was sunny & lovely. From the hotel (\$12) we called
 at a manchester shop. Win & I both bought steak & used
 Mrs P's money \$4.99 for nice quality, a pair. I was a
 bit tired for enjoying the scenery, but it was pleasant. We
 had morning tea at Oatlands & so skipped lunch. Win & I
 unpacked, went shopping in NT for groceries etc. Later I went to
 see Ella who seemed pleased to see me. Still worrying. Win
 picked black currant & Johnson's loganberries (Mrs G. bought pick

 may for jelly. Win has it straining. Fish for tea that were a bit
 stale, said David Niven on TV. Is good. Mr Sly came in Win

together. Have finished my dress! mended things & longed to go to bed. But Win loved it. She has fed us so well too.

Monday 11th. Disturbed dreams & woke a bit tired & confused. We left for the city at 11. Win brought a nice dress & I knew by then I could not get what I wanted & baked the crust, so got out. Met Win at the hospital & we had to be in Miss Heylwe's. Then we met Win & had lunch behind the bar over club in the sun. Stopped to Dr. Townsend then to Mr. Lane & the script. Both kept me waiting. Tuesday 12th. A fresh but warm day. I slept rather badly & have been tired & stupid most of the day. We were up late. I finished my library book (Paul Gallie) then got to work on plans, dates & letters. Win cooked brained ch. to finish & consumed. Wrote letters after lunch lay down & 2 aspirins for a few. Felt better, esp after a walk to the P.O. to post them. We are to go to Conyngnam on Friday. Reg. Edith arrived at 4 to 5, Reg smoked a foul pipe all the evening. Found it all hard to take, but did my nightie by hand which helped. They went at 10.30, & I to bed. Maybe I have had too much self-indulgence.

Wednesday 13th. The weather is lovely. up lateish. Win went to with Robert. I tried to record the rest of Brahms' symphony but the recorder was winding badly. Wrote some letters. After lunch went to town: library books left, tapacloth, bamboo pipe & a string bag at 0.35 for Oscar Sept. booked my plane travel, even bought 2 new patches for 7.90 & I went at 4 to 5. I ran into Ken & Lynn so after consulting Win I rang to ask them how. Win asked Cracker M. Pleasant evening & a nice bunch of kids. Win found on jigsaw, cherries, her spoon to admit a jar of jelly for My. C. or. Have got on: nightdresses, pressed my new book & more it. Letters for SLH - to lady & Tim then Rich. Len not pulling her weight, Alan suspended. Mavis told me Furcomb, Mervin has died. Must write to poor Beanie. Had to drop into the Cathedral to pray about it all.

I left my recorders, recorder, & others to be ready next Thursday then we caught a bus to the Bridge & on to the Botanical Gardens which are beautiful & in good condition. We saw it all, had lunch under a tree, & walked from across the Domain, quite a climb. Back to a cuppa, & I wrote some letters, one to Bob. The Marys came & Ella, but would not stay. Tea, music TV, sewing. Saw some of the Test, it comes over well.

Friday Jan 15th I could not sleep last night. Up at 7. Win. I just had a cuppa & got away at 7.35 & caught 8 AM bus. I went to that day. Lovely trip to Bondingham. Mr. Johnson met us at Long & they gave us to eat in their nice house. Stephen, Jennifer the grandchildren are nice kids. Talk & laughters & who? the kiddies & I went swimming. I was the father. Marion is in Indonesia & SCM. A pleasant time & they are nice. Back on 4.15 bus, stopped in town & found hot & tired & laden. Have done little though there is much to do. Win. feels the heat.

Saturday Jan 16th Back to cardigan, radiator, but the day was warm. We were up late, did a good day's work. Win. washed & produced meals, I cleaned the whole house. I read & sewed my nighties, & posted letters. Tonight good TV, an unusual modernization of the Crucifixion - Resurrection story & some amusing comedies. We are going to order some Blackwood things from the H. Am looking forward to being alone tomorrow. Even living in Win 24 hours a day needs limitation of self.

Monday Jan 18th. A day alone but I was too greedy to savour it all. Ref to music & did chores. Heard Chopin's 2nd Concerto, would like a record. Harold came looking tired, had a cuppa & talked till 12.15. Thinks he wants to take long leave in Napier, but I discouraged him & hope his health would never stand it. Wrote to Mavis, Greta, Mr. Whitt, late lunch & went to P.O. to get Money Order. Pat & Glad to his door & stayed over a book. Win got back at 5.30, not enjoying her work. Glad came at 6. Win had a very tasty Chinese meal & movie etc. A long evening planning the trip. I shaved some European slides. She went at nearly midnight. A cold night. She is searching on her desire to get acquainted but I am slow to respond, even though I see her fine qualities.

Tuesday 19th. Win overslept. I woke her. However she got off to work on time. I got off to Vera by 10, but did not wash up till P.M. Maggie Heyward & I arrived together, the 3 sisters Mrs. Kayman, Mrs. Bar Walker, Mrs. Sprad, were late: the car would not start. All is pleasant. Got away at 1, went to the Bank, bought slippers, a cotton cardigan. Glasses not ready. Home to an afternoon, tried some records, had a sleep, & wrote to Len, Win, & Joan P. for the Comm. the evening. Mr. Johnson gave us a lift. Pleasant evening but chatter has its limitations. Time to see people. Home 11.30. Dull day, clear night.

Wednesday 20th. A full day. Did chores, sorted out papers, walked with Hobart in sunshine & drew \$130 from Bank for savings & deposited my certificates then shopped. A late lunch, heard some of Win's records & sewed, deciding what to record. Wrote letters & posted them. Win came at 6 P.M. after a hairdo. Bob & Betty came at 8.30 & we had quite an evening till 11.15 hearing of Hobart affairs, talking of old staff etc. They saw the Wandman in North, John not well. Wolf Red died yesterday, rather sudden though he looked ill enough. I could not write to Win. Also Miss Madden's obituary in yesterday's paper. A pleasant day.

Thursday 21st Jan. Warm & pleasant all day. Washed up & got away at 10.35. Letter from Dink who leaves for NZ on 4th. Got my glasses, but the L ear is uncomfortable tonight. Went to the mail shop at NSW & bought 1.00 Queen's Mint. Collected the Tobacco & nothing to pay to my relief. met Pat at 11.45 & we had a light lunch & in pleasant talk. She was interested in Vera Jones. She dropped me here at 1 P.M. & I recorded madly & read & filled in between. The man bought the wine. Went to see Elly but she was out, & got to Reg's on 5 P.M. bus. Quite pleasant & we saw Reg's truly lovely slides of England, Switzerland & Paris. Home soon after 11.
