This Mapping E-resources is brought to you for free and open access by the Design, Build, Experience at Scholarship @ Claremont. It has been accepted for inclusion in Design, Build, Experience: Process Assignments by an authorized administrator of Scholarship @ Claremont. For more information, please contact scholarship@cuc.claremont.edu.

ART 176 Library Art Installation Project: Exploring and Mapping E-Resources
Due: Wednesday, March 1, 2017

Overview: This assignment is designed to get you thinking about the Library's e-resources, specifically what they are and how they relate to each other

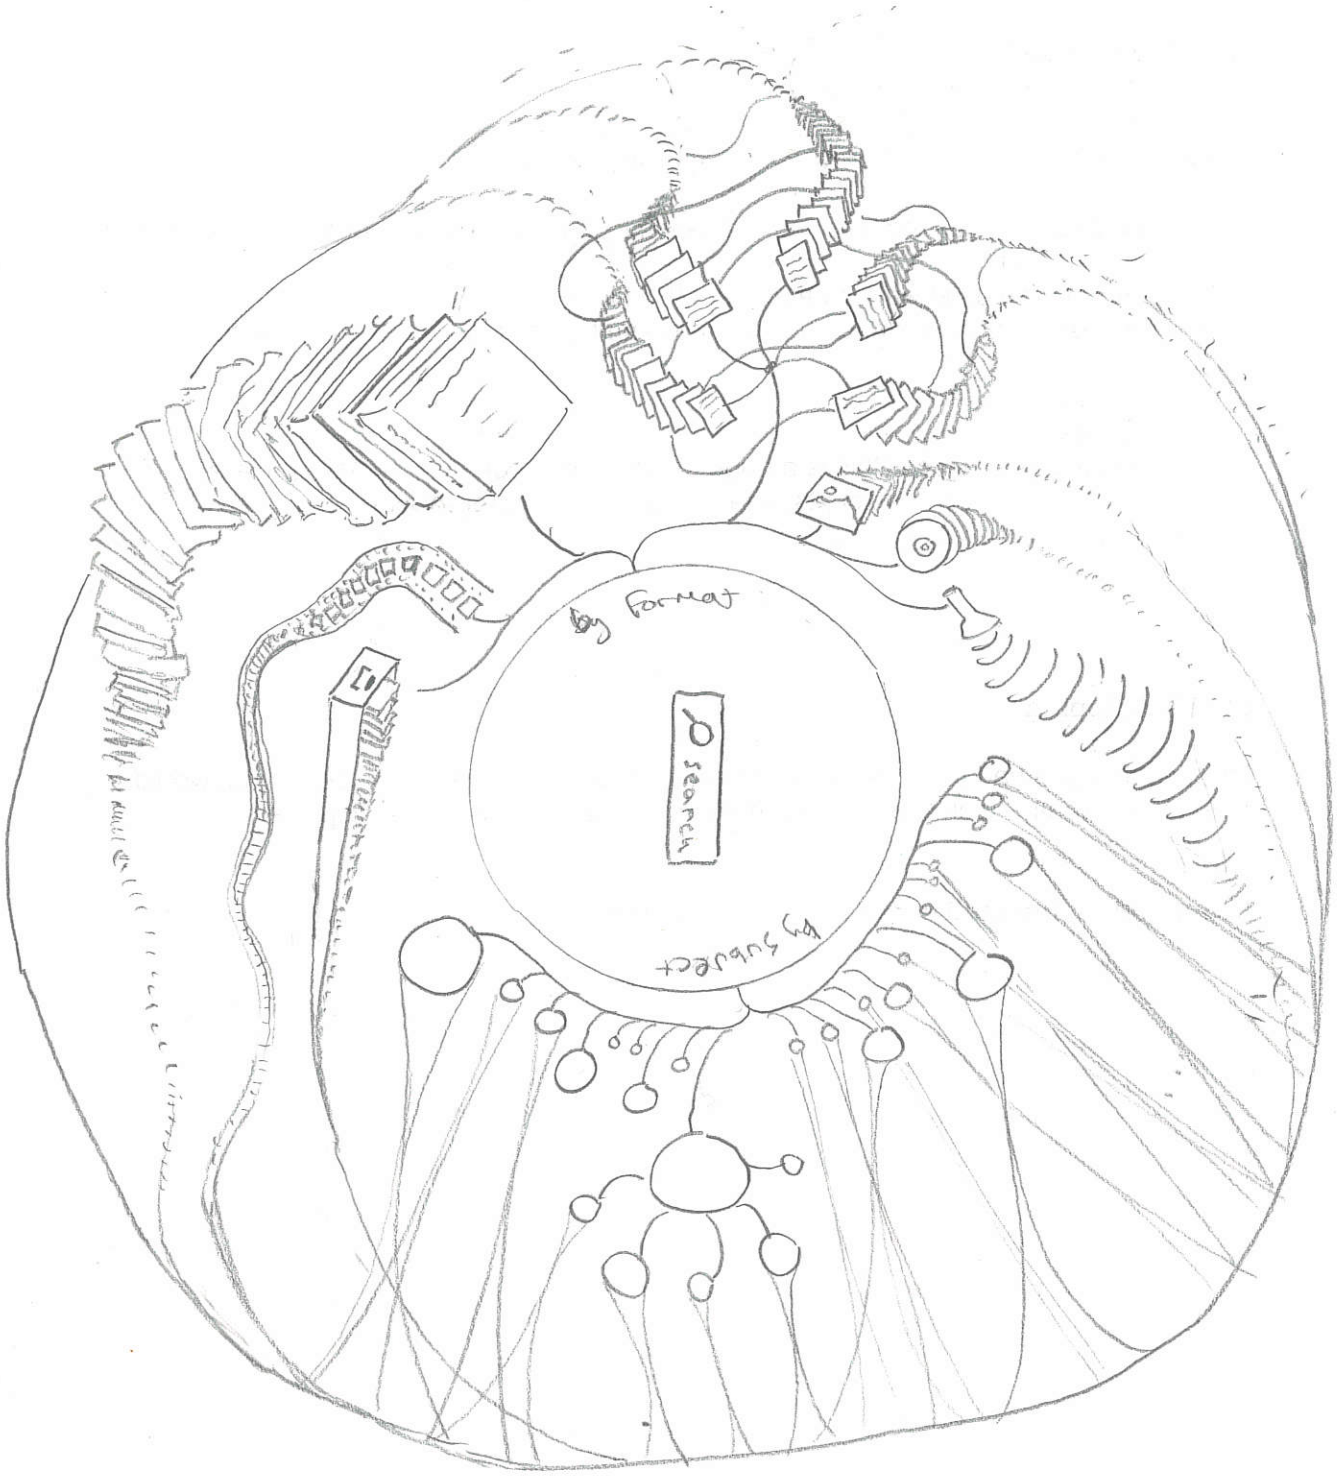
Step 1: Exploration
Explore the e-resources on this page:
http://libraries.claremont.edu/resources/databases/
Make sure you visit at least one of each type listed below:

- **articles** (such as those found in academic journals, and can often be searched in their full text)
- **audio** (such as streaming audio or MP3 files)
- **citations** (information about an article and how to locate it, but not the full text)
- **data**
- **e-books**
- **images**
- **primary resources** (this is a huge category that can include newspapers, scanned digital manuscripts, images, and many other formats)
- **video** (such as streaming films)

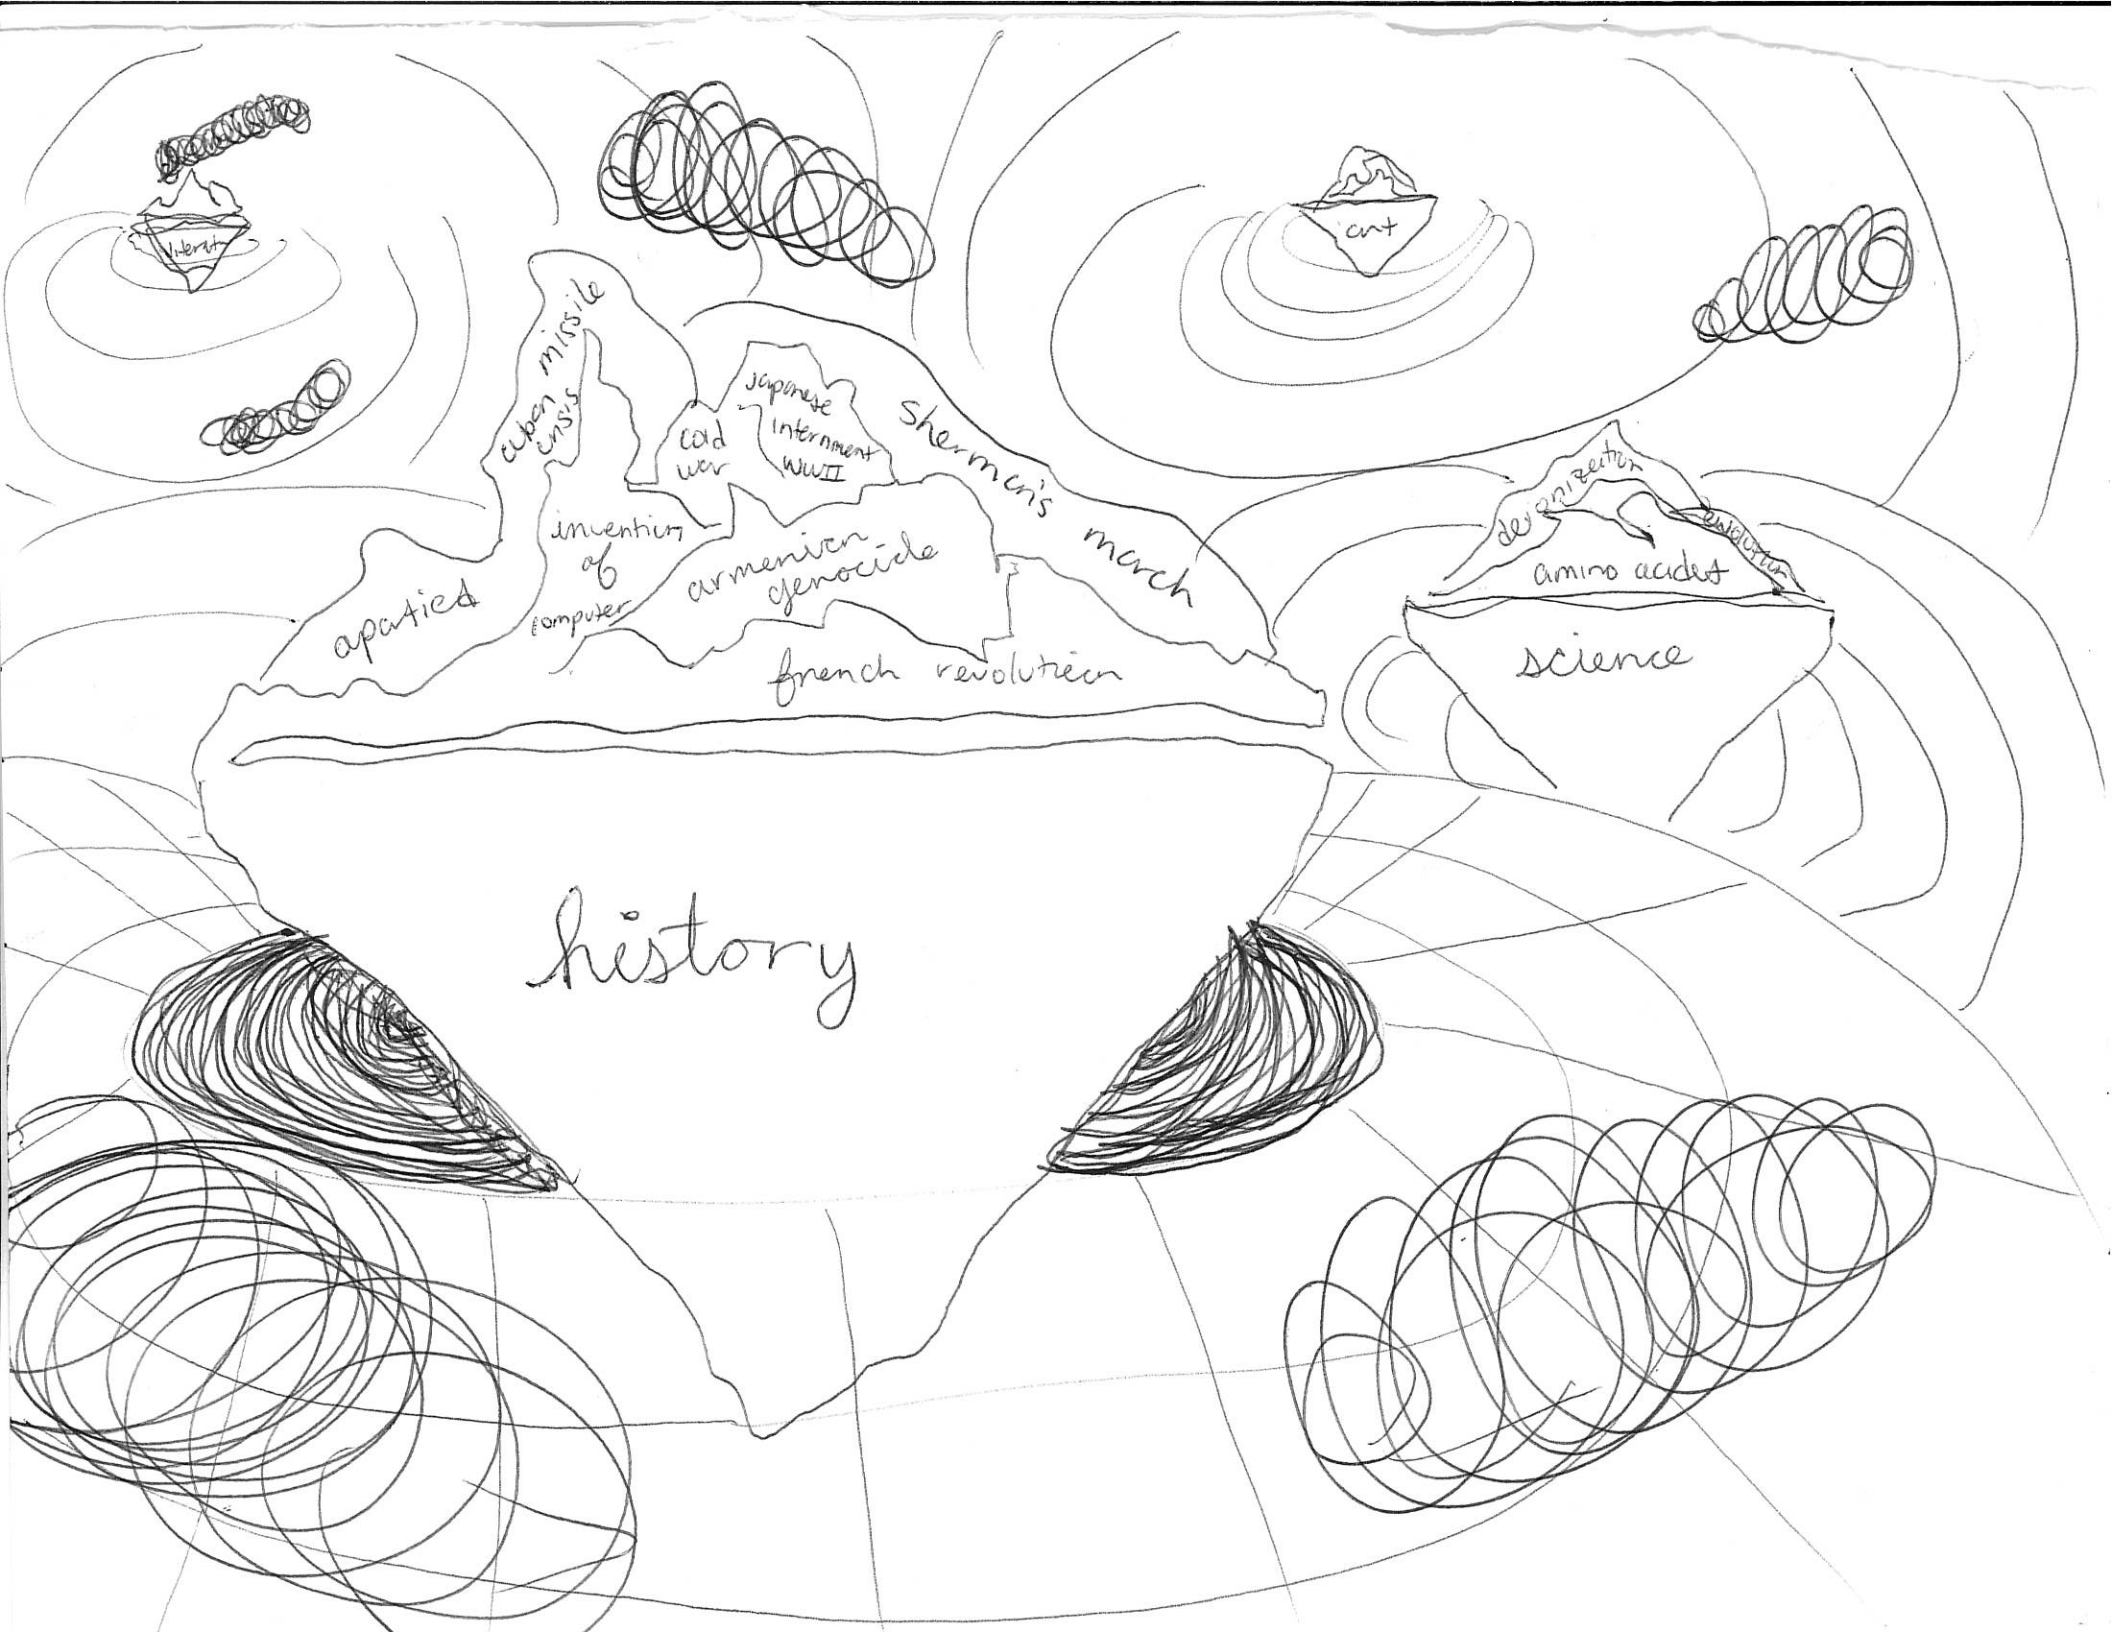
Step 2: Mapping

Imagine that you had to guide someone else through Library e-resources. What would a map to this "realm" look like? Draw a map as abstract or realistic as you like.

Bring your completed maps to class on March 1



by format
search
by subject



literature
cuban missile crisis
cold war
japanese internment WWII
sherman's march
apartied
invention of computer
armenian genocide
french revolution
history

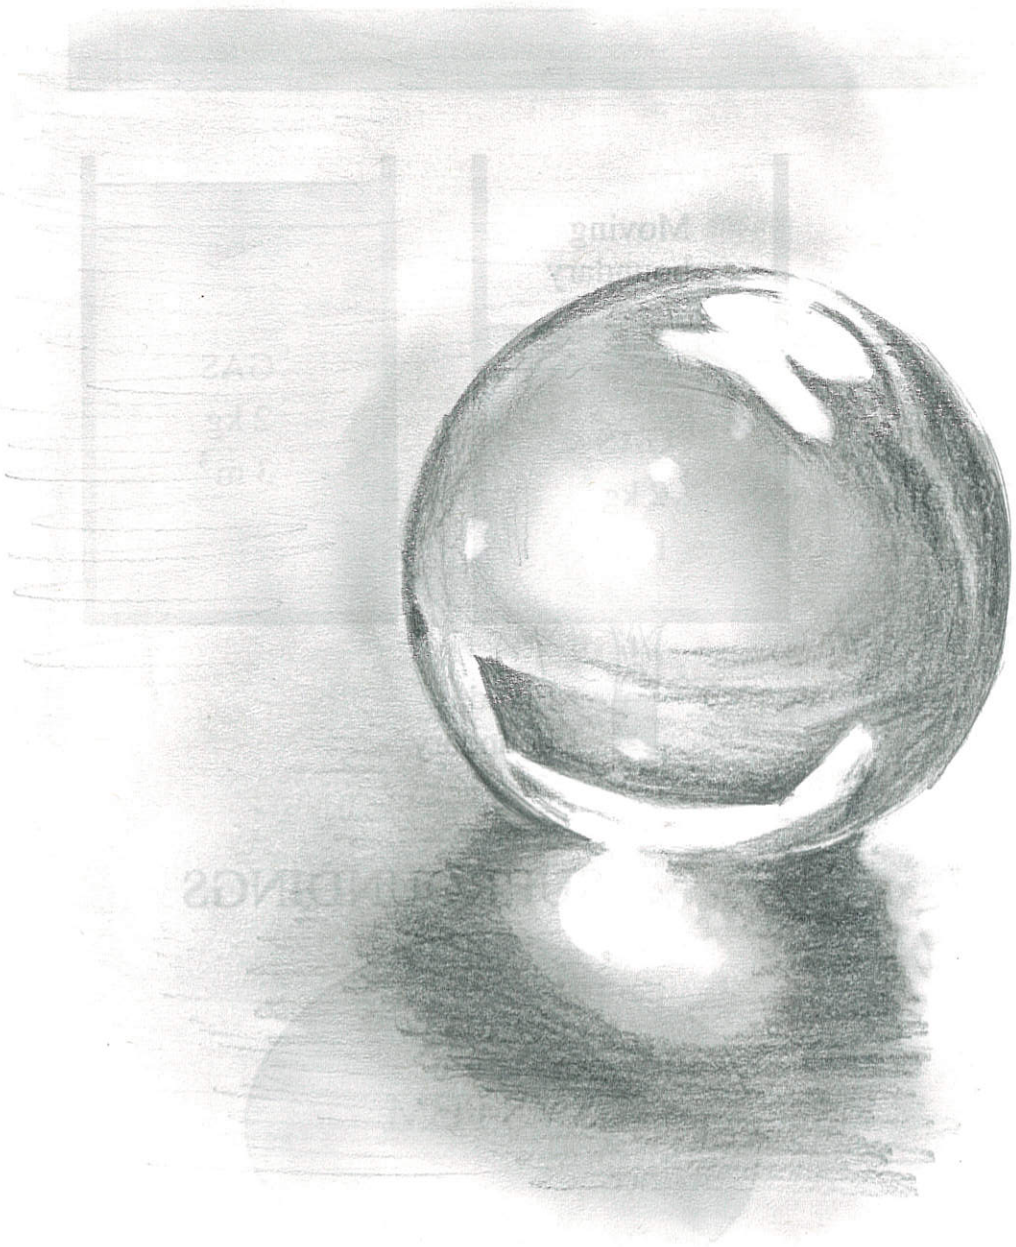
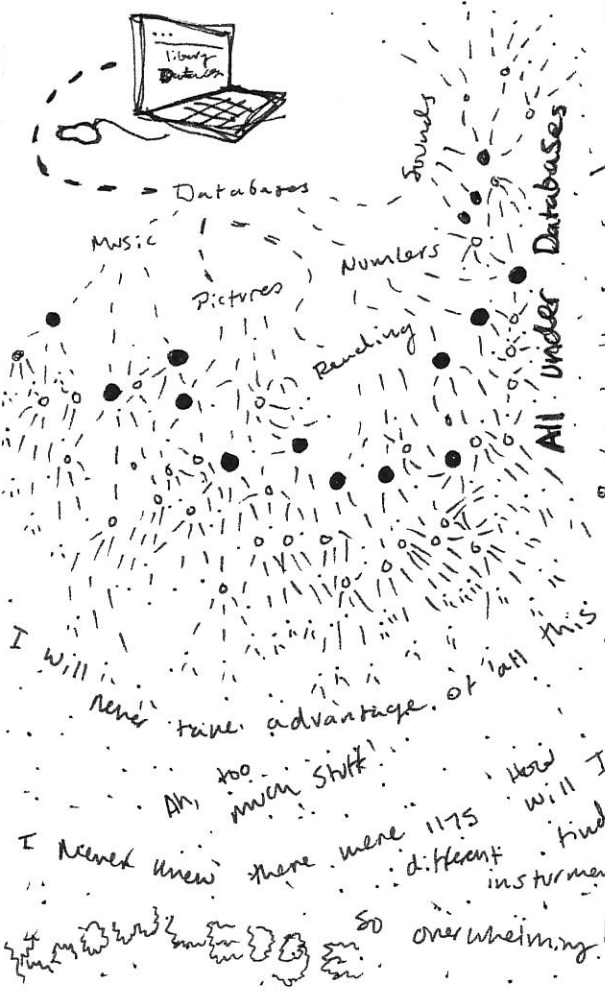
deoxyribose
amino acides
science





Library Database Map

PRACTICAL GUIDE
to different kind of Resources

- (Sounds) → music → Major Databases - Audio = Sounds! Search by instruments! ↳ or DRAM
  → or just go to the "Audio" Database
- ~~Reading~~ articles → most Databases have articles, but I like the ones on in Kinder Morgan
- Citations → Citation indexes (this one is Kinder Morgan)
- Data → Statistics! It's got all the numbers!
- E-books →
- images →
- video →

literally just click on the ~~formats~~ format you want under the "By Type & Format" ~~header~~

Most of these kinds of Resources are fairly easy to find b/c inherent navigation built ~~in to~~ into the site.

I will never take advantage of all this information!

Ah, too much stuff!

I never knew there were 1175 different instruments

How will I ever find anything!

so overwhelming!

WHAT THE DATABASE(S) FEEL LIKE TO ME

E - Resources available when you choose that option?

A. e-books, video, audio

B. articles, audio, statistics, data, images, primary sources, video

1. potential to lead to all e-resource types
   a. probably going to primarily return one resource type
   b. probably going to primarily return one resource type

2. potential to lead to all e-resource types, likely to lead to only a few types
   a. probably going to primarily return one resource type similar to b
   b. probably going to primarily return one resource type similar to a

C. Probably going to return only one type of e-resource

D. Will return resources based on content specification by user

E. Resources have been reached
