RESUME OF MYUNG WHAN SUH

Myung W. Suh was born in Seoul, Korea on October 20, 1955. He received his LL.B. from Seoul National University, M.B.A. with concentration in Accounting from the University of Chicago, and Ph.D. in Business Administration (Computers and Information Systems/Operations Research) from the University of Rochester. He is a C.P.A. of the state of Colorado.

In 1983 and 1984, he worked as a staff accountant for audit and management consulting services at Coopers & Lybrand International in Seoul, Korea. While studying for his Ph.D., he taught graduate-level courses in statistics and operations research at the Simon Graduate School of Business Administration, University of Rochester. During the Summer of 1987, he worked as a technical member of staff at GTE Labs, Inc., Waltham, MA, developing algorithms for the optimal configuration of telecommunication networks.

He joined the Naval Postgraduate School on January 3, 1989 as an Adjunct Professor at the Department of Administrative Sciences and became an Assistant Professor of Information Systems on October 1, 1989. He has taught in the areas of distributed computing systems, computer networks, and telecommunications systems. His current research includes optimal configuration of distributed database systems, topological design of telecommunication networks, and distributed application services such as Electronic Message Handling and Electronic Data Interchange.

He is a member of IEEE Computer Society, IEEE Communications Society, and Operations Research Society of America.
