## **Message from President Stan L. Albrecht**

Whether you are registering or still checking us out, Utah State is a wonderful choice for students. This is a university where academics come first. Here you will receive a complete learning experience—friendly, award-winning teaching and an opportunity to do cutting-edge research at an institution ranked by the Carnegie Foundation in the top four percent of research universities.

Our programs literally stretch from under the soil to soaring in space. We are both a land-grant university, begun more than a century ago as an agricultural college, and a space-grant university, whose students and faculty have sent more payloads through the atmosphere than any other university in the world. In between are courses in seven academic colleges leading to more than 200 undergraduate and graduate options.

Inside this catalog is an array of classes, mostly taught by full-time faculty, not by teaching assistants as at many other large universities. I encourage you to browse through the catalog and find classes that will help prepare you to make a living, as well as courses that will help you enjoy life. Both are important.

Your experience here should not end in the classroom and lab. There are more than 200 student clubs and organizations, for just about every interest. We have a large intramural sports program, and you can cheer on Aggie varsity teams, which play in the top division of the NCAA.

Some 80 percent of our students live on campus or in student houses and apartment complexes in this friendly, picturesque city. Our University family is a community within a community. It does not take long to feel at home here.

Again, welcome, and have a great school year.

A handwritten signature in cursive script that reads "Stan L. Albrecht".

**Stan L. Albrecht  
President  
Utah State University**

## Utah State University

The academic advantages of a large university, together with the friendliness of a small college, are offered at Utah State University. With a student body of more than 23,000, USU recognizes that the needs of the individual are of major importance, and many programs have been established to give the student the optimum of individual attention.

With 42 departments in seven academic colleges, more than 200 undergraduate options, a School of Graduate Studies, University Extension, and several research programs, Utah State University offers an excellent opportunity for students to study a wide range of subjects.

USU was founded in 1888 as part of the public educational system of Utah and operates under the constitution and laws of the state. It belongs to the family of institutions known as land-grant universities, which had their origin in 1862. The institution was originally called the Agricultural College of Utah, later becoming Utah State Agricultural College. The state legislature designated the name change to Utah State University in 1957.

An 18-member State Board of Regents governs the Utah System of Higher Education. This board has the responsibility for state-wide master planning for higher education, assignment of roles to the several institutions in the state system, and control of operating and capital budgets for the institutions. USU has a 10-member Board of Trustees whose responsibilities are derived from Utah statutes, as well as those delegated to the Trustees by the State Board of Regents.

USU is governed by the State Board of Regents and accredited by Northwest Commission on Colleges and Universities, Teacher Education Accreditation Council, American Psychological Association, American Association of Family and Consumer Sciences, American Music Therapy Association, AACSB International—The Association to Advance Collegiate Schools of Business, Utah State Board of Education—Teacher Education Program, Council on Rehabilitation Education, Accrediting Board of Engineering and Technology, American Society of Landscape Architects, Commission on Accreditation—Council on Social Work Education, American Chemical Society, Society of American Foresters, National League of Nursing Accrediting Commission, Council on Academic Accreditation of the American Speech-Language-Hearing Association (ASHA), American Dietetic Association, Foundation for Interior Design Education Research, National Association of Schools of Music, Utah State Board of Vocational Education, and the Society for Range Management. USU is a land-grant and space-grant university, as well as a Carnegie Foundation “Doctoral University—High Research” institution. Credit earned at USU is fully transferable to other universities and colleges in the United States of America.

## University Mission Statement

Utah State University is one of the nation's premier student-centered land-grant and space-grant universities. We foster the principle that academics come first; we cultivate diversity of thought and culture; and we serve the public through learning, discovery, and engagement.

## University Vision Statement

Utah State University, as a state-wide multi-campus system, will be internationally recognized for its exceptional learning opportunities and world-class research. We strive to achieve the highest level of excellence in learning, discovery, and engagement in an environment of trust and respect. We endeavor to expand educational access to a diverse community. We seek to enhance the quality of life for individuals and communities, by promoting arts and cultural programming, by working toward environmental sustainability, and by developing the technologies of tomorrow to drive economic development in Utah, as well as in the global marketplace.

## University Core Values

Utah State University is committed to providing environments of opportunity that value:

**Learning and Discovery.** Utah State University is a thriving intellectual community achieving excellence in the pursuit of knowledge, both through learning and inquiry. We believe that innovations in teaching and research provide students with opportunities for developing critical thinking skills and promote outstanding scholastic and creative achievement that will help ensure future success.

**Individual Development.** We accept each learner as unique and full of promise for intellectual and personal growth. We foster individual success and self-determination, and believe that educating the whole person builds character, promotes active involvement in the world, and produces better citizens.

**Leadership.** At all levels of the University, we value leadership built on trust, integrity, and civility.

**Diversity.** Appreciation of diversity of thought and expression is the foundation of a vibrant intellectual environment. We respect all persons, their differences, and the community they form.

**Outreach and Access.** As the State's land-grant University, we are committed to reaching across all communities and offering opportunities to all citizens. We value the connections that benefit and improve the quality of life for individuals, families, and communities, and that invigorate the University.

## Institutional Integrity Statement

Utah State University adheres to the highest ethical standards in its representation to its constituencies and the public; in its teaching, scholarship, and service; in its treatment of its students, faculty, and staff; and in its relationships with regulatory and accrediting agencies.

# 2009-2010 Calendar

USU maintains a semester system—three semesters or periods of classwork: fall, spring, and summer. Fall and spring semester are each of 15 weeks duration. Summer semester spans a total of 12 weeks and includes one four-week early session and one eight-week session, which contains two four-week sessions.

A list of University events can be found at:  
<http://www.usu.edu/calendar/>

## Summer Session 2009

### Main Campus

May 11-June 5 ..... First 4-week Session  
May 25..... Holiday (Memorial Day)  
June 8-July 31 ..... 8-week Session  
June 8-July 2 ..... Second 4-week Session  
July 3 ..... Holiday (Independence Day)  
July 6-31 ..... Third 4-week Session  
July 24 ..... Holiday (Pioneer Day)  
July 31 ..... Final Examinations

### Distance Education

May 11-July 31 ..... General Summer Session  
June 8-July 31 ..... 8-week Broadcast Session  
May 4-June 19..... First 7-week Session  
June 22-August 7 ..... Second 7-week Session  
July 3 ..... Holiday (Independence Day)  
July 24 ..... Holiday (Pioneer Day)

## Fall Semester 2009

August 24 ..... Classes Begin  
September 7 ..... Holiday (Labor Day)  
October 15 ..... Friday Class Schedule  
October 16 ..... Fall Break  
November 25-27 ..... Holiday (Thanksgiving)  
November 30-December 4 ..... No-test Days  
December 4 ..... Last Day of Classes  
December 7-11 ..... Final Examinations  
December 11-12 ..... Graduation

## Spring Semester 2010

January 11 ..... Classes Begin  
January 18 ..... Holiday (Martin Luther King, Jr. Day)  
February 15 ..... Holiday (Presidents' Day)  
February 16 ..... Monday Class Schedule  
March 15-19 ..... Spring Break  
April 26-30 ..... No-test Days  
April 30 ..... Last Day of Classes  
May 3-7 ..... Final Examinations  
May 7-8 ..... Graduation

## Spring Semester 2010

November 2-6, 2009 ..... **Priority Registration**  
 Nov. 2—Matriculated Graduate and Second Bachelor's Students  
 Nov. 3—Seniors (90+ earned credits)  
 Nov. 4—Juniors (60+ earned credits)  
 Nov. 5—Sophomores (30+ earned credits)  
 Nov. 6—Continuing Freshmen (1+ earned credits)  
**Note:** New freshmen may not register until they have completed SOAR (Student Orientation, Advising, and Registration).

November 2 ..... Tuition and Fee Payment Begins  
 November 7 ..... Open Registration Begins  
 December 11 ..... Tuition and Fee Payment—Postmark Deadline (Mail)  
 Dec. 18 ..... Tuition and Fee Payment Due (In Person by 5:00 p.m.)  
**Dec. 18 ..... Tuition and Fee Payment Due (Online by 11:59 p.m.)**  
 December 19-20 ..... No Registration Permitted  
 December 19-20 ..... **Registration Purge**  
 (Students with unpaid balances may be dropped from classes.)

December 21-22 ..... **Modified Priority Registration**  
 Dec. 21—Graduate Students, Second Bachelor's Students, Seniors, and Juniors  
 Dec. 22—Sophomores and Continuing Freshmen

December 23 ..... Open Registration Continues  
 December 28 ..... Student Activity Card Activated

**January 6 ..... Tuition and Fee Payment Due (Online by 11:59 p.m.)**  
 January 7 ..... **Registration Purge**  
 (Students with unpaid balances may be dropped from classes.)

January 7 ..... Open Registration Continues at 8:00 a.m.  
 January 11 ..... **First Day of Classes**  
 January 15 ..... Last Day to Add without Instructor's Signature  
**January 15 ..... Tuition and Fee Payment Due (Online by 11:59 p.m.)**  
 January 16 ..... **Registration Purge**  
 (Students with unpaid balances may be dropped from classes.)

January 16 ..... Open Registration Continues at 1:00 p.m.  
 January 18 ..... **Martin Luther King, Jr. Holiday (No Classes)**  
**January 22 ..... Tuition and Fee Payment Due (Online by 11:59 p.m.)**  
 January 23 ..... **Registration Purge**  
 (Students with unpaid balances may be dropped from classes.)

January 23 ..... Open Registration Continues at 1:00 p.m.  
 January 25 ..... Last Day to Receive 100% Refund  
 February 1 ..... Last Day to Receive 50% Refund  
 February 1 ..... Last Day to Receive Tuition Refund

# Final Examination Schedule

## Fall Semester 2009

Class Days and Time	Date and Time of Final Exam
<b>Monday, December 7</b>	
Common Finals not otherwise scheduled.....	7:30-9:20 a.m.
9:30 a.m. MWF or M or W or F only .....	9:30-11:20 a.m.
12:30 p.m. MWF or M or W or F only .....	11:30 a.m.-1:20 p.m.
2:30 p.m. MWF or M or W or F only .....	1:30-3:20 p.m.
4:30 p.m. MWF or M or W or F only .....	3:30- 5:20 p.m.
M courses taught at or after 6:00 p.m.....	Regular Meeting Time
<b>Tuesday, December 8</b>	
7:30 a.m. TR or T or R only .....	7:30-9:20 a.m.
MATH 1010, 1060 Common Finals .....	9:30-11:20 a.m.
10:30 a.m. TR or T or R only .....	11:30 a.m.-1:20 p.m.
1:30 p.m. TR or T or R only .....	1:30-3:20 p.m.
4:30 p.m. TR or T or R only .....	3:30-5:20 p.m.
T courses taught at or after 6:00 p.m. ....	Regular Meeting Time
<b>Wednesday, December 9</b>	
8:30 a.m. MWF or M or W or F only .....	7:30-9:20 a.m.
10:30 a.m. MWF or M or W or F only .....	9:30-11:20 a.m.
1:30 p.m. MWF or M or W or F only .....	11:30 a.m.-1:20 p.m.
3:30 p.m. MWF or M or W or F only .....	1:30-3:20 p.m.
5:30 p.m. MWF or M or W or F only .....	3:30-5:20 p.m.
W courses taught at or after 6:00 p.m. ....	Regular Meeting Time
<b>Thursday, December 10</b>	
9:00 a.m. TR or T or R only .....	7:30-9:20 a.m.
Common Finals not otherwise scheduled.....	9:30-11:20 a.m.
12:00 noon TR or T or R only .....	11:30 a.m.-1:20 p.m.
3:00 p.m. TR or T or R only .....	1:30-3:20 p.m.
5:00 or 5:30 p.m. TR or T or R only .....	3:30-5:20 p.m.
R courses taught at or after 6:00 p.m. ....	Regular Meeting Time
<b>Friday, December 11</b>	
7:30 a.m. MWF or M or W or F only .....	7:30-9:20 a.m.
11:30 a.m. MWF or M or W or F only .....	9:30-11:20 a.m.
F courses taught at or after 6:00 p.m. ....	Regular Meeting Time

## Spring Semester 2010

Class Days and Time	Date and Time of Final Exam
<b>Monday, May 3</b>	
Common Finals not otherwise scheduled.....	7:30-9:20 a.m.
11:30 a.m. MWF or M or W or F only .....	9:30-11:20 a.m.
1:30 p.m. MWF or M or W or F only .....	11:30 a.m.-1:20 p.m.
3:30 p.m. MWF or M or W or F only .....	1:30-3:20 p.m.
5:30 p.m. MWF or M or W or F only .....	3:30-5:20 p.m.
M courses taught at or after 6:00 p.m.....	Regular Meeting Time
<b>Tuesday, May 4</b>	
MATH 1010, 1060 Common Finals .....	7:30-9:20 a.m.
9:00 a.m. TR or T or R only .....	9:30-11:20 a.m.
12:00 noon TR or T or R only .....	11:30 a.m.-1:20 p.m.
3:00 p.m. TR or T or R only .....	1:30-3:20 p.m.
5:00 or 5:30 p.m. TR or T or R only .....	3:30-5:20 p.m.
T courses taught at or after 6:00 p.m. ....	Regular Meeting Time
<b>Wednesday, May 5</b>	
7:30 a.m. MWF or M or W or F only .....	7:30-9:20 a.m.
9:30 a.m. MWF or M or W or F only .....	9:30-11:20 a.m.
12:30 p.m. MWF or M or W or F only .....	11:30 a.m.-1:20 p.m.
2:30 p.m. MWF or M or W or F only .....	1:30-3:20 p.m.
4:30 p.m. MWF or M or W or F only .....	3:30-5:20 p.m.
W courses taught at or after 6:00 p.m. ....	Regular Meeting Time
<b>Thursday, May 6</b>	
7:30 a.m. TR or T or R only .....	7:30-9:20 a.m.
10:30 a.m. TR or T or R only .....	9:30-11:20 a.m.
Common Finals not otherwise scheduled.....	11:30 a.m.-1:20 p.m.
1:30 p.m. TR or T or R only .....	1:30-3:20 p.m.
4:30 p.m. TR or T or R only .....	3:30-5:20 p.m.
R courses taught at or after 6:00 p.m. ....	Regular Meeting Time
<b>Friday, May 7</b>	
8:30 a.m. MWF or M or W or F only .....	7:30-9:20 a.m.
10:30 a.m. MWF or M or W or F only .....	9:30-11:20 a.m.
F courses taught at or after 6:00 p.m. ....	Regular Meeting Time

Laboratory exams are to be given during the hour assigned on the test period schedule.

Finals for 4-credit and 5-credit classes will be given according to the MWF schedule.

### Excessive Finals on One Day

Students who have *three or more finals* scheduled *during one day* and who desire to have **one** of those tests moved to another day during the final exam period must: (1) obtain a copy of their official registration that is dated *no more than 7 days* prior to the beginning of the first test day, and (2) seek permission from one of the instructors to change the hour of their final examination. Adverse decisions from all instructors may be appealed through the deans of the colleges involved.

### Common Tests Not Otherwise Scheduled

These must be arranged by department heads and staff members who teach multiple sections of the same class. The college deans (who plan to use the open periods for multiple-section class tests) will assign a member or members of the applicable department to clear the time for their tests with the Scheduling Office (TSC 246, 797-1015). Rooms must be cleared by midterm for multiple-section tests.

### No-Test Days Policy

A five-day period designated as "no-test" days precedes final examinations. During this time, no major examinations will be given.

# Administration

## Utah State Board of Regents

*Terms expire in the years listed.*

Jed H. Pitcher (Chair)	Salt Lake City	2009
Bonnie Jean Beesley (Vice Chair)	Salt Lake City	2009

Psychology .....	Gretchen G. Peacock
Sociology, Social Work and Anthropology .....	Richard S. Krannich
Special Education and Rehabilitation .....	Benjamin Lignugaris/Kraft
Teacher Education and Leadership, School of .....	Martha T. Dever
Theatre Arts .....	Craig D. Jessop
Watershed Sciences .....	Chris Luecke
Wildland Resources .....	Johan du Toit

## Student Services Units

Academic Resource Center .....	Carol A. Rosenthal
Admissions .....	Jennifer A. Putnam
Advising, Office of University .....	Stephanie W. Hamblin
Campus Recreation .....	Kevin J. Kobe
Career Services .....	Donna E. Crow
Children's House .....	Linda Ebersole-Gilgen
Counseling Center .....	Mary E. Doty
Disability Resource Center .....	Diane C. Baum
Financial Aid .....	Steven J. Sharp
Multicultural Student Services .....	Moises Diaz
Registrar's Office .....	John D. Mortensen
Retention and First-year Experience .....	Noelle A. Call
Scheduling, Taggart Student Center .....	Suzann R. Miller
Statesman (student newspaper) .....	Jay C. Wamsley
Student Conduct .....	Dallin J. Phillips
Student Health and Wellness Center .....	James W. Davis
Student Involvement and Leadership Center .....	Tiffany M. Evans
Student Support Services .....	Nazih T. Al-Rashid
Taggart Student Center .....	Eric R. Olsen
Testing Services (Career Services) .....	Eric W. Jensen
Women's Center/Reentry Student Center .....	Patricia W. Stevens

## Other Areas of Service

Affirmative Action/Equal Opportunity Office .....	David L. Ottley
Alumni Relations .....	Wallace S. Odd II
Bookstore .....	David Parkinson
Budget and Planning Office .....	Whitney J. Pugh
Cashiers Office .....	Brent D. Sorenson
Computer Labs (Information Technology Student Technology Services) .....	Gary D. Egbert
Controllers Office .....	Rick G. Allen
Dining Services .....	Alan J. Andersen
Faculty Assistance Center for Teaching (FACT) .....	Kevin L. Reeve
Housing Services .....	Steven C. Jenson
Human Resources .....	BrandE Faupell
Information Technology Service Desk (Help Desk) .....	Stephen Funk
Innovation Campus .....	Ned M. Weinschenker
International Students and Scholars .....	Jeannie Pacheco
Parking and Transportation Services .....	Lisa C. Leishman
Police (University) .....	Steven J. Mecham
Publication Design and Production .....	Dale P. Smith
Purchasing Services .....	J. Bud Covington
Space Dynamics Laboratory .....	Douglas Lemon
Study Abroad Program .....	Kay W. Forsyth
Ticket Office .....	Stephanie Plueard
University Inn .....	Leila M. Neilson
University Press and Scholarly Publications .....	Michael Spooner
Writing Center .....	Star Coulbrooke

# Undergraduate Advising

---

## Office of University Advising

Taggart Student Center 304, (435) 797-3373,  
stephanie.hamblin@usu.edu

At Utah State University, the **Office of University Advising (UA)** oversees the advising program, under the direction of the Vice President for Student Services. The UA Office provides advising for the **Undeclared Program** (for students having earned less than 60 semester credits, who meet the University admission standards, but who have not declared a major or who do not qualify for enrollment into one of the academic colleges). Advisors in the UA Office also advise students in **Provisional Admission Warning** (who are admitted provisionally, because they do not qualify for enrollment into one of the academic colleges or the Undeclared Program). **Stephanie Hamblin** is the director of the UA Office.

## College Academic Advising

Students who qualify for and have been admitted into an undergraduate degree-granting major are assigned an advisor within their department and/or college.

Each of the seven academic colleges has its own unique advising structure. Some colleges rely heavily on faculty advisors, while others use full-time professional advisors. Some colleges use a combination of each. Advising information for each of the colleges is shown below.

### College of Agriculture

Agricultural Science 216, (435) 797-2215, lisa.allen@usu.edu

In the **College of Agriculture**, the Department of Agricultural Systems Technology and Education relies on faculty advisors, whereas the other departments in the College of Agriculture utilize professional advisors. **Lisa Allen**, Staff Assistant and Advisor, is the undergraduate advising contact for the College of Agriculture.

### Jon M. Huntsman School of Business

Business 309, (435) 797-2272, ruth.harrison@usu.edu

Within the **Jon M. Huntsman School of Business**, some students are admitted directly into the Huntsman School, while admission for other students who do not meet the school admission criteria is competitive based on available space in the school. Completion of a specific core of classes, along with ACT or SAT score and GPA requirements, qualify students for admission to the school. Admitted students will have the same advisor from admission into a major through graduation. **Ruth Harrison** serves as the Director of the Programs and Advising Center (PAC).

### Emma Eccles Jones

#### College of Education and Human Services

Education 103, (435) 797-1443, terri.gass@usu.edu

The **Emma Eccles Jones College of Education and Human Services** relies mostly on professional advisors. Most departments have one or more professional advisors. However, the Department of Communicative Disorders and Deaf Education; and the Secondary Education Program in the School of Teacher Education and Leadership (TEAL) have faculty members who advise. **Terri Gass**, Staff Assistant, is the undergraduate advising contact for the Emma Eccles Jones College of Education and Human Services.

## College of Engineering

Engineering 314A, (435) 797-2705, kathy@engineering.usu.edu

In the **College of Engineering**, students are first admitted into pre-majors. The college has three professional advisors who work with all majors. Students are assigned to a faculty mentor after obtaining advanced standing. The College of Engineering has several faculty members in each department who mentor students who have received advanced standing. **Kathy Bayn** serves as the undergraduate advising contact in the College of Engineering Advising and Student Service Center.

## College of Humanities, Arts, and Social Sciences

Taggart Student Center 302, (435) 797-3883, mary.leavitt@usu.edu

The **College of Humanities, Arts, and Social Sciences (HASS)** has several professional advisors in the College of HASS Advising Center (CHAC). This center advises College of HASS majors regarding General Education requirements, and has responsibility for the Liberal Arts major. Most departments have faculty advisors assigned to advise students on major requirements. **Mary Leavitt** serves as the Director of CHAC.

## College of Natural Resources

Natural Resources 120, (435) 797-2448, maureen.wagner@usu.edu

The **College of Natural Resources** relies heavily on one professional advisor under the direction of the Dean's Office. There are also faculty advisors assigned for each of the various majors. **Maureen Wagner** oversees advisement for the College of Natural Resources.

## College of Science

Eccles Science Learning Center 245, (435) 797-2481,  
janalee.johnson@usu.edu or rmueller@biology.usu.edu

The **College of Science** utilizes both professional and faculty advisors. The departments of Biology, Chemistry and Biochemistry, and Mathematics and Statistics have both, while the departments of Computer Science and Physics have only professional advisors. The Geology Department has a faculty advisor. **JanaLee Johnson** is the College of Science advisor and works with students on University Studies requirements, graduation, college scholarships, and academic standing issues. **Richard Mueller**, associate dean, or Ms. Johnson serves as the advising contact for the college.

## Online Undergraduate Advisor Directory

Contact information for individual professional and faculty advisors is available online at: <http://www.usu.edu/advising/advisors/>

# Quick Phone Directory (Area Code 435)

This directory includes *only* main numbers for colleges, departments, programs, and frequently-called offices. Phone numbers and additional information for specific persons and for other USU units can be found in the Online Phonebook at: <http://www.usu.edu/phonebook/>

# Undergraduate and Graduate Programs

Academic Programs and Degrees Offered	Department	College
Accounting - BS, BA, MAcc	School of Accountancy	Business
Aerospace Studies (Air Force ROTC Commission)	Aerospace Studies	HASS
Agribusiness - BS	Applied Economics	Agriculture
Agricultural Communication and Journalism - BS	ASTE/Journalism and Communication	Agriculture/HASS
Agricultural Economics - BS	Applied Economics	Agriculture
Agricultural Education - BS	Agricultural Systems Technology and Education	Agriculture
Agricultural Machinery Technology - 1-yr. Tech. Cert., AAS	Agricultural Systems Technology and Education	Agriculture
Agricultural Systems Technology - BS, MS	Agricultural Systems Technology and Education	Agriculture
Air Force ROTC (Aerospace Studies) - Commission	Aerospace Studies	HASS
American Studies - BS, BA, MS, MA	Interdisciplinary	HASS
Animal, Dairy and Veterinary Sciences - BS	Animal, Dairy and Veterinary Sciences	Agriculture
Animal Science - MS, PhD	Animal, Dairy and Veterinary Sciences	Agriculture
Anthropology - BS, BA, MS	Sociology, Social Work and Anthropology	HASS
Applied Economics - MS	Applied Economics	Agriculture
Applied Environmental Geoscience - BS, MS	Geology	Science
Applied Ornamental Horticulture - 1-yr. Certificate, AAS	Plants, Soils, and Climate	Agriculture
Army ROTC (Military Science) - Commission	Military Science	HASS
Art - BA, BS, BFA, MA, MFA	Art	HASS
Asian Studies - BA	Interdisciplinary	HASS
Audiology - AuD	Communicative Disorders and Deaf Education	Education & Human Services
Aviation Technology—Maintenance Management - BS	Engineering and Technology Education	Engineering
Aviation Technology—Professional Pilot - BS	Engineering and Technology Education	Engineering
Biochemistry - BS, MS, PhD	Chemistry and Biochemistry	Science
Biological Engineering - BS, MS, PhD	Biological and Irrigation Engineering	Engineering
Biological Science (Composite Teaching) - BS, BA	Biology	Science
Biology - BS, BA, MS, PhD	Biology	Science
Biometeorology - MS, PhD	Plants, Soils, and Climate	Agriculture
Bioregional Planning - MS	Landscape Arch. & Env. Planning/Env. & Society	HASS/Natural Resources
Bioveterinary Science - MS, PhD	Animal, Dairy and Veterinary Sciences	Agriculture
Business - BS, BA (Dual Major and 2nd BS only)	Interdisciplinary	Business
Business Administration - BS, BA	Management	Business
Business Administration - MBA	Interdisciplinary	Business
Chemistry - BS, BA, MS, PhD	Chemistry and Biochemistry	Science
Chemistry Teaching - BS	Chemistry and Biochemistry	Science
Civil and Environmental Engineering - CE, MS, PhD	Civil and Environmental Engineering	Engineering
Civil Engineering - BS	Civil and Environmental Engineering	Engineering
Communication - MS, MA	Journalism and Communication	HASS
Communicative Disorders and Deaf Education - BS, BA, MS, MA, MEd, EdS	Communicative Disorders and Deaf Education	Education & Human Services
Computer Engineering - BS, MS	Electrical and Computer Engineering	Engineering
Computer Science - BS, BA, MS, MCS, PhD	Computer Science	Science
Conservation and Restoration Ecology - BS	Wildland Resources	Natural Resources

# Undergraduate and Graduate Programs

Academic Programs and Degrees Offered	Department	College
Crop Science - BS, BA	Plants, Soils, and Climate	Agriculture
Dairy Herdsman, Vocational Technology - 1-yr. Certificate	Animal, Dairy and Veterinary Sciences	Agriculture
Dairy Science - MS	Animal, Dairy and Veterinary Sciences	Agriculture
Deaf Education/Early Childhood Education (Composite) - BS, BA	Communicative Disorders & Deaf Education/ School of Teacher Education & Leadership (TEAL)	Education & Human Services
Deaf Education/Elementary Education (Composite) - BS, BA	Communicative Disorders & Deaf Education/ School of Teacher Education & Leadership (TEAL)	Education & Human Services
Dietetics Administration - MDA	Nutrition and Food Sciences	Agriculture
Disability Disciplines - PhD	Special Education and Rehabilitation	Education & Human Services
Early Childhood Education - BS, BA	School of Teacher Education & Leadership (TEAL)	Education & Human Services
Early Childhood Education - BS, BA	Family, Consumer, and Human Development	Education & Human Services
Early Childhood Education/Deaf Education (Composite) - BS, BA	School of Teacher Education & Leadership (TEAL)/ Communicative Disorders & Deaf Education	Education & Human Services
Early Childhood Education/Elementary Education (Dual Major) - BS, BA	School of Teacher Education & Leadership (TEAL)	Education & Human Services
Early Childhood Education/Special Education (Composite) - BS, BA	School of Teacher Education & Leadership (TEAL)/ Special Education and Rehabilitation	Education & Human Services
Earth Science (Composite Teaching) - BS, BA	Geology	Science
Ecology - MS, PhD	Biology	Science
Ecology - MS, PhD	Plants, Soils, and Climate	Agriculture
Ecology - MS, PhD	Watershed Sciences	Natural Resources
Ecology - MS, PhD	Wildland Resources	Natural Resources
Economics - PhD	Applied Economics	Agriculture
Economics - BS, BA, MS, MA	Economics and Finance	Business
Education - EdD, PhD with specializations in:		
Curriculum and Instruction	School of Teacher Education & Leadership (TEAL)	Education & Human Services
Special Education (EdD only)	Special Education and Rehabilitation	Education & Human Services
Electrical Engineering - BS, ME, MS, PhD	Electrical and Computer Engineering	Engineering
Elementary Education - BS, BA, MS, MA, MEd, EdS	School of Teacher Education & Leadership (TEAL)	Education & Human Services
Elementary Education/Deaf Education (Composite) - BS, BA	School of Teacher Education & Leadership (TEAL)/ Communicative Disorders & Deaf Education	Education & Human Services
Elementary Education/Early Childhood Education/ (Dual Major) - BS, BA	School of Teacher Education & Leadership (TEAL)	Education & Human Services
Elementary Education/Special Education (Composite) - BS, BA	School of Teacher Education & Leadership (TEAL)/ Special Education and Rehabilitation	Education & Human Services
Engineering - ME	Interdisciplinary	Engineering
Engineering and Technology Education - BS, MS	Engineering and Technology Education	Engineering
Engineering Education - PhD	Engineering and Technology Education	Engineering
English - BS, BA, MS, MA	English	HASS
Entrepreneurship - BS, BA	Management	Business
Environmental Engineering - BS	Civil and Environmental Engineering	Engineering
Environmental Soil/Water Science - BS, BA	Plants, Soils, and Climate	Agriculture
Environmental Studies - BS	Environment and Society	Natural Resources

Wildlife Science - BS	Wildland Resources	Natural Resources
Women and Gender Studies (Certificate and Minor)	Interdisciplinary	HASS

\* Teaching Majors approved by the Utah State Board of Education

## Semester Calendar

USU maintains a semester system—three semesters or periods of classwork: fall, spring, and summer. Fall and spring semester are each of 15 weeks duration. Summer semester spans a total of 12 weeks and includes one four-week early session and one eight-week session, which contains two four-week sessions. For further details, see the *2009-2010 Calendar* on page 5, the *Registration Calendar* on pages 6-8, and the *Final Examination Schedule* on page 9.

## Credit Enrollment

The semester credit hour is the unit upon which credit is computed. Normally, the credit hour standard is based upon 150 minutes of lecture per week, for the duration of one semester, for a three-credit class. To obtain credit, a student must be properly registered and pay fees for the course. For further information, see *Credits Awarded for Courses* on pages 59-60.

## Course Numbering

Each course listed in the *Course Descriptions* section of the catalog has a number, given before the name of the course. For example:

**ENGL 1120**                      **Elements of Grammar**                      **3**

This means the course, Elements of Grammar, is English 1120. The numbers are useful for reference and records.

## Course Numbering Code

A standard code employed by all institutions in the State System of Higher Education was adopted by USU in 1970. Upon conversion to semesters, four-digit course numbers *replaced* the three-digit course numbers formerly used under the quarter system. The semester numbering system is as follows:

0010-0990	Remedial courses; will not satisfy baccalaureate requirements; nontransferable; not calculated in GPA.
1000-2790	Lower division (freshman and sophomore courses)
2800-2990	Lower division independent study designation (directed reading, individual projects, etc.)
3000-4790	Upper division (junior and senior courses)
4800-4990	Upper division independent study designations (directed reading, individual projects, festival, institutes, workshops, etc.)
5000-5990	Advanced upper division (may be used for a graduate degree with approval of the student's supervisory committee)
6000-7990	Graduate courses (students without baccalaureate degrees must obtain special permission to enroll)
5900-5990 6900-6990 7900-7990	Independent study designations (directed reading, individual projects, theses, dissertations, etc.)
6800-6890 7800-7890	Graduate seminars (includes methodology and research seminars)

Courses offered through Regional Campuses and Distance Education are designated by a <sup>DE</sup> following the course description.

*Freshmen or sophomores may take any lower-division course.* If there is a prerequisite for a particular course, it will be so stated in the course description.

*Juniors or seniors may take any lower- or upper-division course for which they have met the course requirements.* Course requirements will be identified in the course description. Seniors may take graduate courses only upon written consent from the instructor. The use of undergraduate coursework for a graduate degree at USU is regulated by the School of Graduate Studies. See *Split Form Policy* (page 113) and *Course-Level Numbering and Acceptability* (page 114).

*Graduate students may take any course for which they have met the course requirements,* but only graduate courses and individually approved undergraduate courses may be used for a graduate degree, although all courses completed will appear on student transcripts.

**Note:** In some cases, *additional* college or departmental requirements (which may not be included in the course description) *must be met* before a student may take a particular course. For more information, students should consult their advisor or the department offering the course.

Following the title of each course, the number of credits given for the course is indicated. The semester(s) it will likely be taught are indicated in abbreviated form in parentheses, following the course description. For example: (F) indicates that the course will likely be taught fall semester. The designation (F,Sp,Su) indicates that the course will likely be taught all three semesters: fall, spring, and summer. It does not mean that the student has to take the class all three semesters, but rather that he or she has a choice of any semester. In some cases, such as (F,Sp), even though more than one semester is indicated, the course will not be offered each semester, but only one of these semesters, the exact one yet to be decided.

Some course listings do not indicate semester(s) offered. In some cases, these courses may be taken any semester (e.g., continuing graduate advisement, thesis, dissertation, or internship courses). In other cases, the semester(s) to be offered has not yet been determined (e.g., special topics courses, which are offered infrequently). For current information about semesters to be offered, consult the department offering the course.

*For more definite up-to-date information, please refer to the course schedule, placed online prior to the beginning of each semester at: <http://www.usu.edu/registrar/catalogpdf/>*

Occasionally, two or more closely related courses (which usually have the same title) will be listed above one course description, such as **MATH 6110** and **MATH 6120, Differential Geometry**. Following each course title, the number of credits approved for each course will be shown. At the end of the course description will be two or more parenthetical entries, indicating the semester(s) the courses may be taught. The first entry refers to the semester(s) taught for the first course, the second entry refers to the second course, and so forth.

In some classes, the amount of credit for which students register can be individually arranged. One student may take 2 credits, another student 3 credits, etc. Students are responsible to ensure they are registered for the desired number of credits. Online registration will always default to the lowest offered number of credits. Academic credit is identified following the course title: (e.g., 1-3).

# Using This Catalog

Following some course titles in this catalog will be a single asterisk (\*), a double asterisk (\*\*), or a triple asterisk (\*\*\*). Such courses are taught during alternate years, as explained in the footnotes. For more information, consult the department offering the course or refer to the course schedules at: <http://www.usu.edu/registrar/catalogpdf/>

Catalog information and University requirements may change at any time. USU is not bound by requirements or regulations listed in this catalog. Information may change before a new catalog is issued, and students must adhere to changes. It is the student's obligation to ascertain current rules, regulations, fees, and requirements. As changes are approved for academic degree programs, policies, and procedures, updates will be made to the *Online General Catalog* at: <http://www.usu.edu/generalcatalog/>

## Course Prefixes

Each course listing is preceded by one of the following prefixes:

ACCT	Accounting
ADVS	Animal, Dairy and Veterinary Sciences
AG	Agriculture, College of
ANTH	Anthropology
APEC	Applied Economics
ART	Art
ARTH	Art History
AS	Aerospace Studies
ASTE	Agricultural Systems Technology and Education
AV	Aviation Technology
BIE	Biological and Irrigation Engineering
BIOL	Biology
BUS	Business, Jon M. Huntsman School of
CEE	Civil and Environmental Engineering
CHEM	Chemistry and Biochemistry
CHIN	Chinese
CLAS	Classics
CLIM	Climate
COMD	Communicative Disorders and Deaf Education
CS	Computer Science
DE	Dance Education
ECE	Electrical and Computer Engineering
ECN	Economics
EDUC	Education and Human Services, Emma Eccles Jones College of
ELED	Elementary Education
ENGL	English
ENGR	Engineering, General
ENVS	Environment and Society
ETE	Engineering and Technology Education

SCED	Secondary Education
SCI	Science, College of
SOC	Sociology
SOIL	Soil Science
SPAN	Spanish
SPCH	Speech Communication
SPED	Special Education
STAT	Statistics
SW	Social Work
TEAL	Teacher Education and Leadership, School of
THEA	Theatre Arts
USU	University Studies
WATS	Watershed Sciences
WGS	Women and Gender Studies
WILD	Wildland Resources

## General Education Designations

Courses approved for General Education have one of the following designations, listed following the course number:

### Competency Courses

Communications Literacy, **CL1** and **CL2**

Quantitative Literacy, **QL**

### Breadth Courses

American Institutions, **BAI**

Creative Arts, **BCA**

Humanities, **BHU**

Life Sciences, **BLS**

Physical Sciences, **BPS**

Social Sciences, **BSS**

## University Studies Depth Education Designations

Courses approved for University Studies Depth Education have one of the following designations, listed following the course number:

### Intensive Courses

Communications Intensive, **CI**

Quantitative Intensive, **QI**

### Depth Courses

Humanities and Creative Arts, **DHA**

Life and Physical Sciences, **DSC**

Social Sciences, **DSS**

# University Terminology and Definitions

---

## **“A” Pin**

Presented to undergraduate students who have received all A grades (4.0 GPA) for 15 or more graded credits each semester during two consecutive semesters in residency. Courses for which a P (Pass) grade is received do not qualify for graded credits.

## **A-Number (Banner ID Number)**

A nine-character code that uniquely identifies each student. This number (which is *not* social security number based) always consists of a capital A, followed by eight numbers. To find out their assigned A-Number, students should follow the link found at:

<http://www.usu.edu/myusu/>

## **Academic Advising**

Assistance to students in choosing courses by providing information about University Studies Requirements, majors, various academic programs, and academic policies and procedures. Advisors may also assist students in establishing their educational and career goals.

## **Academic Dismissal**

The status of a student who becomes subject to suspension for a third time. Students who have been dismissed may apply for readmission to the University after a layout of five or more calendar years. See page 63 for more information.

## **Academic Nepotism (Policy for Graduate Students)**

A faculty member is not to participate in graduate admission or graduate-assistant employment decisions, serve as major professor, or serve on the supervisory committee of a relative, including a person with whom he or she has or has had an amorous relationship. Graduate students may enroll in classes taught by a relative *only* under special conditions. For more information, students should contact the department head or the School of Graduate Studies.

## **Academic Probation**

The status assigned to a sophomore, junior, or senior with a cumulative GPA of less than 2.0. See page 62 for more information.

## **Academic Record Adjustment**

Students requesting an adjustment to their academic record for a prior term must submit a *Petition for Academic Record Adjustment* to the Registrar's Office. For more information, see page 61.

## **Academic Renewal**

Undergraduate students who have been admitted to Utah State University after an interruption in their collegiate education of five or more years may petition to have certain credits removed from the calculation of the GPA needed for credit. Further details about this procedure are found on page 61.

## **Academic Standing**

A student's academic standing is determined jointly by the number of credit hours attempted and the number of quality points earned. There are six categories of academic standing: good standing, provisional admission warning, academic warning, academic probation, academic suspension, and academic dismissal. See pages 61-63 for more information.

## **Academic Suspension**

The change in status that occurs when a student on academic probation has a semester GPA of less than 2.0. Students *who have been suspended once* may apply for readmission after a two-semester layout. Students *who have been suspended two times* may apply for readmission to the University following a layout of one full calendar year. See pages 62-63 for more information.

## **Academic Warning**

The status assigned to a freshman student with a cumulative GPA of less than 2.0. See page 62 for more information.

## **Access (Banner) System**

The web-based computer program which USU students can access for grades, transcripts, financial aid, and account information. The Access system (which is available 24 hours a day, 7 days a week, and can be accessed from any web-enabled system) allows students to register for, drop, and add classes. Students can login at:

<http://www.usu.edu/myusu/>

## **Add/Drop**

The process used if students need to change a schedule for which they have already registered. The procedure for adding courses is explained on page 56. Policies which apply to dropping courses are listed on page 58.

## **Aggiemail**

All students are encouraged to have an aggiemail e-mail account, and to update their "preferred e-mail" address in Banner. Students can keep this account after they leave USU. Information about how to create an aggiemail account can be found at:

<http://it.usu.edu/htm/email>

## **Adjunct Faculty**

Part-time certified instructors.

## **Advanced Placement (AP)**

Exams offered at the high school level only. University credits may be acquired through the AP examinations. These credits may be used to fill General Education requirements, and may also be accepted as equivalent to specific courses. See page 40 for more information.

## **Advisor**

A faculty or staff member who provides students with academic information about University, college, and departmental graduation requirements; assists students in the development of a course of study; helps students to understand the expected standards of achievement and likelihood of success in certain areas of study; and refers students to available campus resources to meet individual needs. Further information is shown on page 12. A current listing of advisors, along with their contact information, can be found online at:

<http://www.usu.edu/advising/advisors/>

## **Alumni**

Graduates or former students.

## **Articulation**

A term that is used to indicate that a course taken at another institution is equivalent to a course at USU. General Education articulation information for institutions with which USU has articulation agreements is available online within the *Advisor Handbook* at:

[http://www.usu.edu/advising/for\\_advisors/handbook/](http://www.usu.edu/advising/for_advisors/handbook/)

## **Articulation Agreements**

Documents that formally acknowledge how credits or associate degrees from other institutions equate to USU courses and requirements. These articulation agreements, as well as additional information about transferring to Utah State University, can be found at the Transfer website: <http://www.usu.edu/transfer/>

## **Attempted Hours (AHRs)**

The number of credit hours for which a student has enrolled. This includes current enrollments, as well as past enrollments.

# University Terminology and Definitions

## **Audit**

Registration for and participation in all functions of a course except tests and other graded exercises. No credit is given for an audit (a grade of AU is assigned), but courses that students have audited will appear on the transcript and may be repeated for credit.

## **Bachelor of Arts Degree vs. Bachelor of Science Degree**

The main difference between these two degrees is a foreign language requirement. Students who complete two years' training or equivalent in an approved foreign language, or one year or equivalent in each of two foreign languages, may qualify for a Bachelor of Arts degree. See pages 76-77 for further information. Most other baccalaureate degrees are awarded as a Bachelor of Science degree.

## **Bachelor's Degree**

A degree in an academic discipline which requires completion of a minimum of 120 semester credit hours, University Studies requirements, and a chosen major. Students must meet the minimum GPA requirements for their intended major.

## **Banner ID Number (A-Number)**

A nine-character code that uniquely identifies each student. This number (which is *not* social security number based) always consists of a capital A, followed by eight numbers. To find out their assigned A-Number, students should follow the link found at: <http://www.usu.edu/myusu/>

## **Breadth Requirements**

Courses that are part of the General Education requirements, and are intended to introduce students to different disciplines. At USU, all students must take a least one course or its equivalent in each of the following six categories: American Institutions, Creative Arts, Humanities, Life Sciences, Physical Sciences, and Social Sciences. A listing of approved Breadth courses is shown on pages 68-69.

## **Cashier**

The financial officer of the University who receives payment of tuition and miscellaneous fees.

## **Certificate**

A document certifying that one has fulfilled the requirements of and may practice in a certain vocation.

## **Class Rank**

Student's ranking of being a freshman (less than 30 credits), sophomore (30-59 credits), junior (60-89 credits), or senior (90 or more credits), based on the number of college-level credit hours earned.

## **Closed Class**

A class that has been filled by the maximum number of students allowed for that class.

## **College**

An academic division in a university. A college is composed of academic departments and is headed by a dean. USU has seven colleges: College of Agriculture; Jon M. Huntsman School of Business; Emma Eccles Jones College of Education and Human Services; College of Engineering; College of Humanities, Arts, and Social Sciences; College of Natural Resources; and College of Science.

## **College Level Examination Program (CLEP)**

A standardized examination in college-level subject matter. Subject examinations cover material offered in specific advanced-level courses. Credits may be acquired through the CLEP examinations. These credits may be used to fill General Education requirements, and may also be accepted as equivalent to specific courses. See page 41 for more information.

## **College Work-Study**

A form of financial aid based on need which provides students with paid employment while in school.

## **Competency Test**

A test which is used to determine if a student has the acquired knowledge of a college-level course.

## **Complete Withdrawal**

The process of withdrawing from all courses before a semester has ended. This must be done by meeting with the advisor in the Office of Retention and First-Year Experience (TSC 314).

## **Composite Major**

When elements of two major programs are combined into one major program. For example, the Elementary Education/Special Education major is an approved composite of two different majors.

## **Computer and Information Literacy (CIL)**

A computer examination that consists of six modules: information law and ethics, information resources, document processing, operating systems, spreadsheets, and electronic presentations. CIL is part of the General Education requirements.

## **Concurrent Enrollment**

When a high school student is enrolled in a university course for which the student simultaneously receives high school and university credit.

## **Connections (University Connections Course)**

An orientation and transition-to-college course. More information about this course is shown on page 55. Also see: <http://www.usu.edu/connections/>

## **Convocations**

A lecture series.

## **Co-op**

Two or more related internship work experiences.

## **Corequisites**

Two or more courses which must be taken during the same semester, because the work in one course supplements or reinforces what is taught in the other.

## **Course Fee**

A fee that is attached to a specific course, in addition to tuition. Course fees may be found in the online course schedules at: <http://www.usu.edu/registrar/catalogpdf/>

## **Course Load**

The number of credit hours carried by a student during a given semester. Students need to average a minimum of 15 credit hours per semester in order to graduate in four years.

## **Credit Hours**

Credits are related to the number of hours of instruction per week during the academic term.

## **Credit Limit**

Students registering for *more than 18 credits* must present their advisor's signed authorization to the Registrar's Office.

## **Course Reference Number (CRN Number)**

A five-digit code that identifies a specific course. CRN numbers may be found in the online course schedules at: <http://www.usu.edu/registrar/catalogpdf/>

# University Terminology and Definitions

---

## **Cum Laude**

A Latin Scholastic Distinction designated for students who graduate with a cumulative GPA between 3.500 and 3.799.

## **Curriculum**

A series of courses which meet a particular academic or vocational goal.

## **DANTES Standardized Subject Tests (DSST)**

DSSTs provide an opportunity for people to obtain college credit for what they have learned in nontraditional ways. Designed originally for the military, DSSTs are available to civilian students and adult learners as well. Credits may be acquired through the DSST examinations. These credits may be used to fill General Education Requirements, and may also be accepted as equivalent to specific courses. For more information, as well as a list of available exams, see page 42.

## **Dean**

College or university administrative official. An academic dean usually heads a college within the university.

## **Dean's List (Honor Roll)**

A recognition given to students who earn a minimum 3.500 GPA in 15 or more graded credits, except for summer semester for which 12 or more graded credits are required.

## **Declaration of Major**

A process whereby students formally notify the Registrar's Office of the major which they choose to include in their degree program.

## **Deferred Admission**

When a student is accepted for a specific term, but chooses to defer his or her admission until a future term. More information about admission deferment is shown on page 31.

## **Degree Planner (Degree Evaluation)**

A Web-based program providing students with a summary of their academic progress, showing courses completed and courses needed for the student's major. This program is a Banner (Access) sub-system which generates **unofficial** degree evaluations. After students have completed their application for graduation, the Registrar's Office performs an official degree evaluation.

## **Department Head**

The administrative head of an academic department.

## **Depth Education Requirements**

Courses that are part of the University Studies requirements and are intended to provide students with more in-depth background in different disciplines. Approved Depth Education courses are shown on pages 70-75.

## **Discipline**

A subject area. English, history, chemistry, and elementary education are examples of disciplines.

## **Dissertation**

A written thesis by a candidate for a doctoral degree. Information about preparation and approval of dissertations is shown on pages 118-119.

## **Distance Education Programs**

Outreach programs for students who do not attend traditional daytime classes on the main campus. Distance Education programs include Independent Study and Time Enhanced Learning, as well as courses offered at remote locations. For more information, see the *Regional Campuses and Distance Education (RCDE)* section of this catalog on pages 103-105.

## **Drop/Add**

The process used if students need to change a schedule for which they have already registered. Policies which apply to dropping courses are listed on page 58. The procedure for adding courses is explained on page 56.

## **Dual Major**

Any two majors that are completed at the same time. Students must complete *all* requirements for *both* majors. For example, a student may get a dual major in History and English.

## **Earned Hours (EHRS)**

The number of credit hours in which a student earns an A, B, C, D, or P grade. Earned hours count toward the 120 credits needed for graduation.

## **Elective**

A college-level course or subject taken by a student which counts as credit earned toward graduation requirements, but is not required for a major, minor, or University Studies.

## **Emeritus Faculty Member**

A faculty member who has honorably retired from his or her position with a university. Information about USU emeritus faculty members is included at the end of the online *Faculty and Professional Staff* listing at: <http://www.usu.edu/generalcatalog/FacStaff.pdf>

## **Emphasis**

An approved area of study, having a specific curriculum, within a particular undergraduate major. All emphases *must* be sanctioned by the Utah State Board of Regents.

## **Family Educational Rights and Privacy Act (FERPA)**

A law that (1) provides that students will have access to inspect or review their educational records and (2) protects the rights of a student to privacy by limiting access to the educational record without express written consent. Details of this law are explained on pages 81-83.

## **Financial Aid**

Scholarships, grants, loans, and work assignments which are awarded to a student to help defray, in part or in whole, college-related expenses. Information about the types and amounts of financial aid available is shown in the *Financial Aid and Scholarship Information* section of this catalog (pages 46-51).

## **Full-Time Student**

A student registered for 12 or more credit hours during a semester. In order to graduate after completing eight semesters of study, a student must register for an average of 15 credit hours per semester.

## **General Catalog**

The official Utah State University document pertaining to academic, business, and extracurricular matters. It functions as a contract for graduation requirements for students upon their entry into the University. For the most current information, see the *Online General Catalog* at: <http://www.usu.edu/generalcatalog/>

## **General Education Requirements**

A set of requirements that all candidates for a bachelor's degree, regardless of major, must satisfy. At USU, General Education is part of the University Studies Requirements. For more information, see pages 67-69.

# University Terminology and Definitions

## **GPA Hours**

Credit hours in which a student earns an A, B, C, D, or F grade. GPA hours are credit hours used in the calculation of the grade point average.

## **Grade Point Average (GPA)**

The ratio of the number of quality points earned divided by the number of GPA hours.

## **Graduate Student**

A student who has earned a bachelor's degree and is working toward a master's, doctorate, or other advanced degree. For information about graduate admission, see pages 36-37. Policies and procedures pertaining to graduate students are shown on pages 110-120.

## **Grant**

Student financial aid based on need. Grants do not have to be repaid. Information about available grants is shown on page 46.

## **Hold**

An official action taken by the University to prevent student registration or receipt of grades and transcripts until a student satisfies a requirement. For example, a registration hold is placed on a new student until he or she has met with an academic advisor.

## **Honor Roll (Dean's List)**

A recognition given to students who earn a minimum 3.500 GPA in 15 or more graded credits, except for summer semester for which 12 or more graded credits are required.

## **Honors Program**

A program for high-achieving students. Program members may work toward one of three different Honors degrees: Departmental Honors, Departmental Honors with Honors in University Studies, and University Honors. Requirements for these degrees are explained on page 310.

## **Incomplete Grade (I)**

A temporary grade that may be assigned when a student is unable to complete all of the work in a course due to extenuating circumstances, but not due to poor performance. An incomplete grade request is initiated by the student. The student is then required to complete the work by the time agreed upon, up to a maximum of 12 months. A written plan is required and is filed with the student, instructor, and department. Acceptable extenuating circumstances, as well as the procedure for resolution of an I grade, are explained on page 59.

## **Independent Study Courses**

Courses for which a student does not have regular class meetings. The student works independently and makes arrangements with the instructor to submit assignments and to take examinations. At USU, these courses are offered through Distance Education Time Enhanced Learning, usually by online correspondence and/or CD. More information about independent study courses can be found at: <http://distance.usu.edu/htm/online/istudy>

## **Intent to Transfer Program**

A program designed to assist transfer students in their transition to USU. Students sign up for the program while they are still attending another institution. The program is designed to ensure that students transfer with as many completed credits as possible that will count toward the USU University Studies and major requirements. Information about the Intent to Transfer Agreement is shown at: [http://www.usu.edu/transfer/intent\\_to\\_transfer/](http://www.usu.edu/transfer/intent_to_transfer/)

## **Internship**

An opportunity for students to combine a career-related work experience with academic coursework. At USU, internships may be arranged through the Cooperative Education Internship Program, University Inn 102, (435) 797-7777. Further information may be found online at: <http://www.usu.edu/career/internships/>

## **Land Grant**

A grant of land made by the government. USU belongs to a family of institutions known as land-grant universities.

## **Late Registration Fee**

Following the published add deadline, a fee of \$100 per course will be assessed for all undergraduate and graduate courses added. This fee does *not* apply to courses taught at Regional Campuses and Distance Education centers. See the *Registration Calendar* on page 8 for specific dates on which a late registration fee will be assessed.

## **Latin Scholastic Distinctions**

To qualify for Latin Scholastic Distinctions at graduation (including Summa Cum Laude, Magna Cum Laude, and Cum Laude), a student must have completed a *minimum* of 40 USU semester credits. For details of how to earn these distinctions, see page 78.

## **Leave of Absence**

A program for students who plan to leave USU before, during, or at the end of a semester, intend to return, and have an expected return date. This program is beneficial for students who intend to perform humanitarian service or serve in the military. Regulations concerning a leave of absence can be found on page 58 (undergraduate) and page 115 (graduate). Also see the Change of Enrollment information at: <http://www.usu.edu/rfyeloa/>

## **Letter of Completion**

A letter indicating that a student has completed the General Education requirements of a university. The letter is only used when a student transfers to another institution and needs verification that the General Education requirements have already been satisfied.

## **Loan**

Loaned money which must be repaid over a period of time. Typically, a student must repay the loan amount plus interest. Information about available loans is shown on pages 46-47.

## **Lower-Division Courses**

Courses numbered at the 1000- and 2000-level that are usually taken during a student's freshman and sophomore years.

## **Magna Cum Laude**

A Latin Scholastic Distinction designated for students who graduate with a cumulative GPA between 3.800 and 3.949.

## **Major**

An approved concentrated area of study, having a specific curriculum, in an academic discipline. A major usually requires 30 to 70 semester credit hours of coursework.

## **Mathematics Prerequisite Acceptability Time Limit (MPATL)**

ACT and SAT scores for mathematics competency and passing grades in MATH 0900, 1010, 1050, and 1060 are valid for use in placement and as prerequisites for one calendar year for nonmatriculated students and three successive semesters (including summer semester) for matriculated students. (See page 44 for specific dates by which prerequisites must be completed.) **Note:** This acceptability time limit applies *only* to prerequisites for MATH 1010, 1030, 1050, 1060, 1100, 1210, 2020, and STAT 1040. The time limit *does not apply* to mathematics prerequisites for courses offered by other departments.

# University Terminology and Definitions

---

## **Matriculated Student**

A student who enrolls or registers in a college or university as a degree candidate (necessary for financial aid).

## **Matriculation**

The process of applying and gaining acceptance into a degree program at a college or university. Being matriculated is important for academic advisement and financial aid purposes, and allows students to take advantage of all services within the University.

## **Minor**

An approved secondary or supplementary field of study. A minor does not require as much coursework as a major.

## **Nonmatriculated Student**

An individual who may be enrolled in courses at a college or university, but is not working toward a degree.

## **Part-Time Student**

A student who registers for fewer than 12 semester credit hours.

## **Pass (P), D+, D, F Option**

Students may register for a Pass (P), D+, D, F option. The grade of Pass (P) indicates academic achievement of not less than C-. Credits for which the Pass (P) grade is received are not quality hours, and are therefore not used in the calculation of a student's grade point average. At no future time may the student request a letter grade, once the P, D+, D, F option has been requested. (See pages 56-57 for more information.)

## **Philanthropy**

An active effort to promote human welfare. At USU, this term often refers to philanthropic gifts to the University to be used for purposes such as scholarships, research, or construction of buildings and other facilities. For information about giving to USU, see:

<http://www.usu.edu/advancement/giving/>

## **PIN Number**

When students are first admitted to USU, they are assigned an A-Number (Banner ID Number), as well as a PIN (Personal Identification Number) which corresponds to their date of birth (MMDDYY). Upon logging into Access (Banner) the first time, students will be required to change their PIN. Every 180 days, the system will prompt students to change their PIN. The PIN must be 6 characters long and may *only* contain numbers and letters (*no spaces or other characters* may be included). Students may login to Access (Banner) at: <http://www.usu.edu/myusu/>

## **Placement Test**

A test given to determine the appropriate level at which to "place" a student in certain courses. At USU, the most common placement tests are used for mathematics. Information about the various placement tests is shown on page 44.

## **Plateau Tuition**

A flat rate of tuition assessed to students who register for 13 to 18 credits. In general, the tuition amount increases for each credit a student takes up through 13 credits. There is no tuition increase between 13 and 18 credits. The tuition amount increases again for students who enroll for more than 18 credit hours. Tuition and fee tables may be accessed at: <http://www.usu.edu/registrar/payment/>

## **Portfolio**

An arrangement of documents and/or drawings that are used in some majors and degree programs for admission decisions, assessment, or career placement.

## **Practicum**

A course of study designed especially for the preparation of teachers and clinicians. A practicum involves the supervised practical application of previously studied theory.

## **Prerequisite**

A course students must take prior to (and in preparation for) another course (which is usually more advanced). A different kind of prerequisite may require a student to be enrolled in a certain major or certain academic classification in order to qualify for enrollment in the course. Approved prerequisites are shown within the description of each course. See the *Course Descriptions* section at the end of this catalog. Prerequisites may also be found by clicking on the **Look up Courses via ACCESS** link at: <http://www.usu.edu/registrar/catalogpdf/>

## **Priority Registration**

The order in which students may register for classes. A priority registration schedule indicates the earliest possible day a student may register for classes. Priority is given first to graduate students, followed by seniors, juniors, sophomores, and freshmen, based on earned credit hours. Priority registration dates are shown on page 8.

## **Professional Ranks**

Faculty rank, including lecturer, instructor, assistant professor, associate professor, and professor. Some faculty ranks are preceded by "research" or "adjunct."

## **Provisional Admission Warning**

Under special circumstances, students who do not qualify for enrollment into one of the academic colleges or the Undeclared Program may be considered for provisional admission warning. New students who graduated from high school with an admissions index score below 90 may be considered provisionally. Provisional admission warning offers students a chance to prove themselves academically at the University. Provisionally admitted students must sign an institutional agreement with the Office of University Advising, indicating that they are fully aware of the provisions associated with their admission. For more information, see pages 31-32.

## **Provost**

The chief academic officer of the University.

## **Purge of Registration**

If a student has not paid tuition and fees in full, the Registrar's Office may cancel (or "purge") the student's registration for the upcoming semester, meaning the student will no longer have a seat reserved in the classes he or she has chosen. However, the student is responsible to drop unwanted courses and *should not* rely on the purge. For policies governing the registration purge, see pages 57-58.

## **Quality Points (QPTS)**

The value assigned to each grade. For example, an A earns 4 quality points for each semester credit hour attempted. For a 3 semester credit hour course in which an A was earned, a student would receive 12 quality points.

## **Recitation**

A class period especially in association with and for review of a lecture.

## **Registrar**

The administrative officer who maintains enrollment records and certifies the academic standing, as well as the fulfillment of graduation requirements, for all enrolled students.

# University Terminology and Definitions

## Registration

The process of enrolling in classes for an upcoming semester. Registration may be accomplished by submitting certain forms to the Registrar's Office, or by using the Access (Banner) System. For login to Banner, go to: <http://www.usu.edu/myusu/>

## Remedial Course

A course numbered lower than 1000. Remedial courses will not satisfy baccalaureate requirements, are not transferable, and are not calculated in a student's grade point average or earned credits. USU offers remedial courses in English and mathematics. Students enrolling in a remedial course at USU must usually pay a remedial course fee, in addition to regular tuition.

## Residency

A classification for tuition purposes. Utah residents pay lower tuition than nonresidents. Tuition and fee tables showing resident and nonresident tuition amounts can be accessed at:

<http://www.usu.edu/registrar/payment/>. Information about the residency policy and appeal procedures is shown on page 35.

## Rhetoric Associates

Students with outstanding communication skills in reading, writing, and speaking who are selected to help other students. Rhetoric Associates are assigned to serve as initial readers for 10-15 students in a class, following up their written comments with individual conferences.

## Sabbatical Leave

A periodical leave of absence during which a person interrupts his or her normal work to wholly devote time to further intensive study. This term is usually applied to a sabbatical leave taken by a faculty member.

## Schedule of Classes

Effective Summer Semester 2009, the *Schedule of Classes* is no longer produced as a printed publication. However, the information regarding registration and final exam schedules, formerly found in the printed *Schedule of Classes*, can be found in this catalog (see pages 6-9). Information about times, locations, and fees for courses taught each semester can be found can be found through Banner (Access) at: <http://www.usu.edu/registrar/catalogpdf/>

## Scholarship

Student financial aid based on academic achievement, need, or a combination of factors. Scholarships do not have to be repaid, but philanthropy is encouraged. In addition, students who receive endowed scholarships are highly encouraged to express gratitude to donors. Information about available University scholarships is shown on pages 47-51. Private endowment scholarships, available through the seven USU colleges, are listed online at:

<http://www.usu.edu/generalcatalog/scholarships/college.cfm>

## Semester

An academic term of 15 weeks, followed by one week of final exams. At USU, there are two 15-week semesters, plus summer sessions, during each academic year. Semester calendars are shown on pages 5-8.

## Service-Learning

A credit-bearing educational experience where students: (1) gain a broader understanding of course content, (2) earn a deeper appreciation of the discipline, (3) help meet community needs, (4) reflect on service activities, and (5) develop an enhanced sense of civic responsibility. Service-Learning focuses on critical thinking, social development, and civic responsibility as part of a student's formal academic studies.

## Service-Learning Scholar

A student admitted to the Service-Learning Scholars program. Successful completion of program requirements results in the awarding of a Service-Learning Certificate upon graduation.

## Space Grant

Funds distributed by the National Aeronautics and Space Administration (NASA) to USU as part of the National Space Grant College and Fellowship Program.

## Specialization

An approved area of study, having a specific curriculum, within a particular graduate degree. All specializations *must* be sanctioned by the Utah State Board of Regents.

## Split Form

An undergraduate student doing well in his or her studies and planning a graduate degree at USU may file a Split Form to request that some coursework be reserved (split out) from the undergraduate degree. The student must have filed an *Application for Graduation* in the Graduation Office, must have a 3.0 or higher GPA, and must have applied for admission to the School of Graduate Studies. For further information about filing a Split Form, see pages 79 and 113. A Split Form may be accessed and completed online at:

<http://www.usu.edu/graduateschool/apply/pdf/SplitForm.pdf>

## Summa Cum Laude

A Latin Scholastic Distinction designated for students who graduate with a cumulative GPA between 3.950 and 4.000.

## Supplemental Instruction (SI)

A program in which a student who has successfully completed a University Studies class is hired to attend all class sessions and conduct review sessions. This student helps other students develop study strategies geared at enhancing academic achievement in that class.

## Syllabus

The document that a professor provides as a course outline. A syllabus will usually include assignments, due dates, test dates, grading procedures, and attendance policies.

## Tenure

A status granted to a faculty member after a trial period (usually six years). Tenure gives protection from summary dismissal. During the probationary period, faculty on a tenure track are reviewed on an annual basis. Tenured faculty are subject to post-tenure review as well.

## Thesis

A contribution to the field of knowledge based on a student's own research or a treatment and presentation of known subject matter from a new point of view. Information about preparation and approval of theses is shown on pages 118-119.

## Transcript

The official record of a student's academic work at a university, listing credit courses, grades, and credit hours earned or attempted by a student. Official transcripts may be obtained by submitting a signed request to the Registrar's Office, *in person* at TSC 246; *by mail* to Utah State University, 1600 Old Main Hill, Logan UT 84322-1600; or via the Internet. To request an official transcript online, students should login to Access at: <http://www.usu.edu/myusu/> (After logging in, click on **Student Records**, then on **Order Transcript**.)

# University Terminology and Definitions

## Transfer Credit

Credit which was earned at another college or university, and which is accepted by USU. Further information about transfer credit is shown on pages 32-34.

## Transfer Student

A student is considered to be a transfer student if he or she has completed at least 24 semester credits of post-high school work at another institution. This does not include concurrent enrollment or AP credits. Information regarding transfer student admission is shown on pages 32-34. Additional information about transferring to USU can be found at: <http://www.usu.edu/transfer/>

## Tuition

The amount charged per semester credit hour for instruction at a college or university. Tuition and fee tables showing resident and nonresident tuition amounts for USU students can be accessed at: <http://www.usu.edu/registrar/payment/>

## Tuition Installment Plan (TIP)

The Tuition Installment Plan (TIP) allows students to defer a portion of their tuition until later in the semester. For details about participation in the TIP, see page 65.

## Tuition Surcharge for Excessive Credits

Students who have attempted 170 credits or more will be charged out-of-state tuition according to Board of Regents Policy. In some circumstances (as detailed on page 64), the surcharge may be waived. The student may obtain a petition to waive the surcharge at: <http://www.usu.edu/registrar/forms/pdf/Surcharge.pdf>

## Tutor

An individual who provides private instruction or coaching. Tutoring assistance at USU is provided by the Academic Resource Center. Further information may be found at: <http://www.usu.edu/arc/tutoring/>

## Undeclared Major

The category for exploratory students who have not yet decided upon a major program. Undeclared majors are advised through the Office of University Advising, Taggart Student Center 304, (435) 797-3373.

## Undergraduate

A college or university student who has not yet earned a bachelor's degree.

## Undergraduate Teaching Fellows

A program offering outstanding students an opportunity to work in meaningful academic employment within their major field. Students chosen as Teaching Fellows are assigned to work with a faculty member in the classroom and are supervised by a faculty mentor. Further information can be found at: <http://www.usu.edu/provost/student/teachingfellows.cfm>

## University Studies Requirements

Requirements that all students, regardless of major, must satisfy in order to qualify for a bachelor's degree. For more information, see pages 67-75.

## Upper-Division Courses

Courses numbered at the 3000-level or higher that are usually taken during a student's junior and senior years.

## Common USU Acronyms

AHRS	Attempted Hours
AP	Advanced Placement (examinations offered at high school level)
APS	Associate of Applied Science
ARC	Academic Resource Center
AS	Associate of Science
ASUSU	Associated Students of Utah State University
BA	Bachelor of Arts
BAI	Breadth American Institutions
BCA	Breadth Creative Arts
BFA	Bachelor of Fine Arts
BHU	Breadth Humanities
BLS	Breadth Life Sciences
BPS	Breadth Physical Sciences
BS	Bachelor of Science
BSS	Breadth Social Sciences
CI	Communications Intensive
CIL	Computer and Information Literacy
CL1	Communications Literacy (freshman level)
CL2	Communications Literacy (sophomore level)
CLEP	College-Level Examination Program (examinations in college-level subject matter)
CRN	Course Reference Number
DHA	Depth Humanities and Creative Arts
DRC	Disability Resource Center
DSC	Depth Life and Physical Sciences
DSS	Depth Social Sciences
EdD	Doctor of Education
EdS	Educational Specialist
EHRS	Earned Hours
FERPA	Family Educational Rights and Privacy Act
GPAHS	Hours Used to Calculate GPA
HASS	College of Humanites, Arts, and Social Sciences
HPER	Health, Physical Education and Recreation
IBO	International Baccalaureate Organization
MA	Master of Arts
MBA	Master of Business Administration
ME	Master of Engineering
MEd	Master of Education
MFA	Master of Fine Arts
MNR	Master of Natural Resources
MPATL	Math Prerequisite Acceptability Time Limit
MS	Master of Science
MSS	Master of Social Sciences
PhD	Doctor of Philosophy

# Getting Started at Utah State University

## Student Checklist

To get started at USU, students need to complete a number of steps, beginning with application for admission, obtaining any needed financial aid, making arrangements for housing and meals, and proceeding on to orientation, advising, registration, and payment of tuition and fees. Sequentially completing the procedures outlined below will help ensure a successful beginning at Utah State University.

### **Apply for Admission to the University**

A nonrefundable \$40 application fee, a high school transcript or GED score, and an ACT or SAT score are generally required for new freshmen. Application deadlines for new freshmen are as follows: **Fall Semester**—April 1; **Spring Semester**—November 1; and **Summer Semester**—April 1. With an additional \$15 late fee, applications may be accepted after these deadlines. For further information about undergraduate admission, see pages 30-35. International students should see pages 38-39.

A bachelor's degree from an accredited college or university is required for admission to a graduate program. Application-for-admission forms are obtained online at:

<http://www.usu.edu/graduateschool/apply/>

For more information, see pages 36-37.

### **Apply for Financial Aid and Scholarships**

Application for financial aid begins in January for the following academic year. Scholarships are awarded to qualifying applicants who apply on or before February 1, prior to the academic year. See pages 46-51 for information about available financial aid and scholarships for undergraduate students.

Financial assistance available for graduate students is explained on pages 111-112.

### **Apply for University Housing and Dining**

Students who would like to live in University housing can find further information at: <http://www.housing.usu.edu>. Also see pages 52-53 in this catalog. For more information about dining services, see page 54 or visit: <http://www.usu.edu/dining/>

### **Attend SOAR (Orientation)**

Newly admitted first-year students are required to participate in a Student Orientation, Advising, and Registration (SOAR) session before they may register for classes. For transfer students, orientation is optional. See page 55 for more information.

### **Obtain Academic Advising**

For newly admitted first-year students, academic advising is required, and is obtained during SOAR. New transfer students are required to contact their academic advisor before registering for classes. Additional information is on pages 12 and 55.

### **Learn about USU Policies and Procedures**

All students should understand the policies and procedures in effect at USU. Many of these policies are explained on pages 56-63 and pages 80-83. Additional policies may be viewed online at: <http://www.usu.edu/policies/>

### **Learn how Previously Earned Credits Apply**

New freshmen who have earned college-level credits through AP and CLEP examinations or through concurrent enrollment, as well as transfer students who have earned credits at other colleges and universities, should consult with their academic advisor to learn how these credits may be applied at USU. More information about credit by examination is shown on pages 40-45. Information about transferring credit from other institutions is shown on pages 32-34.

### **Learn about General Education and Depth Education Requirements**

Undergraduate students working toward an associate or bachelor's degree are required to complete General Education requirements. Students earning a bachelor's degree must also earn Depth Education credits. More information about these requirements is shown on pages 67-75.

### **Register for Classes**

Newly admitted first-year students will register during SOAR for their first semester of classes. Transfer students may register after consulting with their academic advisor. See pages 56-58 for further information about registration procedures.

Matriculated graduate students may register on or after the priority registration date shown on the *Registration Calendar* (see page 8).

### **Pay Tuition and Student Fees**

Tuition and fee tables, as well as information about payment options and deadlines, may be accessed at: <http://www.usu.edu/registrar/payment/>

Fees pertaining to students' classes may be found in the online *Schedule of Classes* at: <http://www.usu.edu/registrar/catalogpdf/>

To find out the amount owed to USU, students should login to Access at: <http://www.usu.edu/myusu/> After logging in and clicking on the **student** tab, click on **registration**.

More information about tuition, fees, and refunds is shown on pages 64-66.

### **Learn about Academic Support Programs and Student Resources**

USU offers many academic support programs and student resources designed to help students progress toward completion of their degrees. These include workshops, supplemental instruction, tutoring programs, and financial planning, as well as services for qualified students having disabilities. These programs and resources are explained on pages 84-92.

# Undergraduate Admission

**Director, Admissions Office:** Jennifer A. Putnam

**Location:** Taggart Student Center 102

**Phone:** (435) 797-1079, (435) 797-1129, or (800) 488-8108

**FAX:** (435) 797-3708

**E-mail:** [admit@usu.edu](mailto:admit@usu.edu)

**WWW:** <http://www.usu.edu/admissions>

The Utah State University undergraduate admissions policy is designed to admit students who have the best chance to successfully complete a university program of study. USU grants admission, without regard to race, creed, sex, or national origin, to those students who satisfy the admissions requirements.

The *Application for Undergraduate Admission and Scholarships* is available online at <http://www.usu.edu/admissions>. For a paper application, please contact the Admissions Office.

Application materials may be sent to:

**Admissions Office**  
**Utah State University**  
**0160 Old Main Hill**  
**Logan UT 84322-0160**

## New Freshman Admission

New freshman applicants are expected to have graduated from an accredited high school with a minimum 2.5 GPA, a minimum ACT score of 18 (SAT score of at least 860), and a minimum 90 Admissions Index score. (See Admissions Index table on page 31.) In order to be admitted in good standing, all three requirements must be met. More information about the Admissions Index is available at: <http://www.usu.edu/admissions>

Applicants whose scores do not meet the standard will be considered on an individual basis. Applicants who have not graduated from high school may apply with a GED, instead of a high school transcript. A minimum GED score of 550 (equivalent to 55) is required. Applicants with a minimum Admissions Index score of 85 may be admitted into provisional admission warning at one of Utah State's Regional Campuses or Distance Education centers located throughout the state.

### New Freshman Application Materials

1. Application for Undergraduate Admission and Scholarships
2. Nonrefundable \$40 application fee (\$55 if late)
3. High school transcript or GED score
4. ACT or SAT score (waived for applicants 25 and older)
5. Official college transcript of concurrent enrollment

### New Freshman Application Deadlines

Admissions applications are accepted *after* posted deadlines with an *additional \$15 late fee*. Scholarship consideration is given *only* to fall semester applicants.

**Fall Semester**—April 1

(Final scholarship deadline is February 1.)

**Spring Semester**—November 1

**Summer Semester**—April 1

### High School Curriculum

Students who have graduated from high school and who desire to attend Utah State University must have completed a preparatory course of study, including the following:

#### English

Four years (units), emphasizing composition/literature.

#### Mathematics

Three years (units), selected from elementary algebra, geometry, intermediate algebra, trigonometry, college or advanced algebra, or calculus. It is strongly recommended that students take mathematics up to at least trigonometry.

#### Biological/Physical Science

Three years (units), which meet either state or local graduation requirements. At least one unit must provide a laboratory experience.

#### American History

One year (unit).

#### Additional Courses

Four years (units), chosen from at least two of the following: history, English, mathematics beyond intermediate algebra, laboratory science, technology and engineering education, foreign language, social science, and fine arts.

#### Foreign Language

Two years (units) recommended, which must be of the same foreign language.

Students who meet the minimum index requirements, but have less than the required number of units, will be admitted on the condition that the deficiency is satisfied at the University within the first 30 semester credits of study.

When the admission decision is made, an official letter of notification will be sent to the student. Admission status may also be checked online.

### Early Admission

A high school student who has completed his or her junior year and maintained a superior scholastic record may be granted special consideration for admission. An applicant must satisfy the following requirements:

1. Submit an official application, ACT/SAT scores, a high school transcript, and a \$40 application fee.
2. Submit letters of approval and recommendation from:
  - (a) Superintendent or principal
  - (b) Parent or guardian
3. Admission is not automatic, and will be determined by the admissions committee.
4. Applications for admission and credentials from the high school must be received by the University according to the deadline dates listed on this page under *New Freshman Application Deadlines*.

### Home-schooled Students

Home-schooled students applying for admission to Utah State University who submit a transcript from an accredited home-school organization will be evaluated the same as any traditional high school students. They must satisfy the University's admission requirements of a minimum 2.5 grade point average, a minimum ACT score of 18 (or an equivalent SAT score of at least 860), and a minimum Admissions Index score of 90. (See Admissions Index table on page 31.)

# Undergraduate Admission

To be admitted to Utah State University, home-schooled students *without* transcripts must provide a list of classes they have completed, and must submit a minimum ACT score of 21 (SAT score of at least 980); or a minimum ACT score of 18 (SAT score of at least 860) and a minimum score of 550 (equivalent to 55) on the GED.

In consultation with the department of the student's intended major, the Director of Admissions will review all materials and make a final decision.

## Utah Basic Skills Competency Test (UBSCT)

Students with the Basic High School Diploma who meet the University's admission standards of a 2.5 minimum GPA, ACT score of at least 18 (SAT score of at least 860), and an Admissions Index score of at least 90 will be admitted in *good standing*. If they satisfy the University's admission standards, students having an Alternative Completion Diploma may be offered admission on a case-by-case basis. Students with a Certificate of Completion will be required to take the GED and pass with a battery score of at least 550 (equivalent to 55), and achieve a minimum ACT score of 18 (SAT score of at least 860). Effective Fall 2006, **all** seniors graduating from Utah high schools are required to pass the UBSCT.

## Credit by Examination

New freshmen may receive credits for examination scores received prior to enrollment at USU. Credits may be earned with satisfactory scores on Advanced Placement (AP), College-Level Examination Program (CLEP), DANTES Subject Standardized Tests (DSST), and International Baccalaureate Organization (IBO) examinations. To ensure that credits earned by examination will be posted to their transcripts, students are responsible to submit all of their test scores to the Admissions Office. For further information about these examinations, as well as minimum satisfactory scores for individual tests, see pages 40-45.

## Admission Deferment

Newly accepted freshman, transfer, or readmitted students who wish to defer their start date to a later semester may do so (without reapplying)

by submitting an *Admission Deferment Application* to the Admissions Office. International students and graduate students *may not* use this form. The application is due *no later* than the first day of classes for the semester the student has been admitted to. Deferments are generally granted for up to one year. However, they may be granted for up to two years for those participating in official assignments such as military, church, or humanitarian service. If requesting a deferment for more than one year, the student must submit an official letter of assignment. All deferment applications must be approved by the admissions committee. The *Admissions Deferment Application* is available online at: <http://www.usu.edu/studemp/leaveofabsence/>. Questions should be directed to the Admissions Office at (435) 797-1079.

## Undeclared Program

Newly admitted students with less than 60 semester credits, who meet the University admission standards, but who have not declared a major or who do not qualify for enrollment into one of the academic colleges, are automatically placed in the Undeclared Program. No degrees are offered through the Undeclared Program. Undeclared students who have not declared a major by the time they complete 45 semester credits will be required to sign an institutional agreement with the Office of University Advising.

## Provisional Admission Warning

Under special circumstances, students who do not qualify for enrollment into one of the academic colleges may be considered for provisional admission. New students who graduated from high school with an admissions index score below 90 may be considered provisionally. Provisional admission warning offers students a chance to prove themselves academically at the University.

Students who are admitted provisionally will have an academic standing of *provisional admission warning*, which is equivalent to academic warning (see page 61). After grades are posted at the end of the first semester, a student whose USU cumulative GPA is 2.0 or higher will be considered to be in *good standing*. A student whose USU cumulative GPA is less than 2.0 will be placed on *academic probation*.

## Admissions Index

Updated February 2009

# Undergraduate Admission

Students admitted provisionally are advised through the Office of University Advising, located in Taggart Student Center Room 304. Provisionally admitted students must sign an institutional agreement with the Office of University Advising, indicating that they are fully aware of the provisions associated with their admission.

## Declaring a Major

When a student has demonstrated an ability to maintain a GPA appropriate for the intended major, the student may submit a *Change of Matriculation* form through the Registrar's Office. It is the *student's responsibility*, in consultation with an advisor, to complete all necessary paperwork.

## Nontraditional Admission

An applicant who is not a high school graduate may be considered for admission by presenting satisfactory evidence of ability to do university work. This evidence may be demonstrated by scores on the General Education Development Test (GED). Admission will *not* be offered *unless* a student has a high school diploma or a GED Test score of 550 (equivalent to 55) or higher *and* passes *all* subtests. (Students in this category include those whose high school class has graduated and those over the age of 18.) Students must also take the ACT/SAT if not previously taken. If the student has been out of high school for seven years or more, this requirement is waived.

## Transfer Student Admission

Transfer students with at least 24 semester credits earned at another regionally accredited institution must meet the minimum GPA requirement for their desired major. Minimum GPA requirements may be found in the major requirement sheets at:

<http://www.usu.edu/majorsheets/>

Applicants whose GPA does not meet the requirements of their desired major may be offered an "undeclared" major, if they have at least a 2.2 GPA and fewer than 60 transfer credits. Applicants with at least a 2.0 GPA may be admitted into provisional admission warning at one of Utah State's Regional Campuses or Distance Education centers located throughout the state. Transfer students with less than 24 semester transfer credits will be evaluated based on their high school GPA and ACT or SAT score.

## Transfer Student Application Materials

1. Application for Undergraduate Admission and Scholarships
2. Nonrefundable \$40 Application Fee (\$55 if late)
3. Official college transcript(s) from all institutions previously attended

(Note: If less than 24 transferable college credits have been earned, then high school transcript and ACT or SAT scores are also required.)

Transcripts submitted for admission become the property of the University and are not returned.

## Transfer Student Application Deadlines

Admissions applications are accepted *after* posted deadlines with an *additional \$15 late fee*. Scholarship consideration is given *only* to fall semester applicants.

**Fall Semester**—July 1

(Final scholarship deadline is April 1.)

**Spring Semester**—November 1

**Summer Semester**—April 1

## Transfer Student Admission Deferment

Transfer students who wish to defer their start date to a later semester may do so (without reapplying) by submitting an *Admission Deferment Application* to the Admissions Office. For further information, see *Admission Deferment* information on page 31.

## Credit Transfer Policy

At its discretion, the University may accept transfer credit from accredited and nonaccredited institutions and miscellaneous sources. These may include:

- (1) accredited institutions, (2) foreign universities, (3) U.S. military credit for approved job and educational experiences, (4) credit by examination, and (5) miscellaneous sources, such as internships and nontraditional learning experiences. Further details about these sources are shown below.

The following evaluation criteria for acceptance will be used:

- (1) accreditation status of the institution, (2) recognized national standards published by the American Association of Collegiate Registrars and by the American Council on Education, (3) guidelines given by the State Board of Regents (including guidelines for CLEP and AP credit), and (4) recommendations given by various University units having appropriate academic competence, including the Faculty Senate, as well as college and departmental curriculum committees.

### Acceptance of credit should *not* be confused with its application.

Transfer credit may or may not apply to the graduation requirements of Utah State University, regardless of the number of credits transferred.

Credit other than that intended wholly to meet the General Education requirements of the receiving institution will be applied on the basis of the appropriateness of credit to a particular institution's specific degree program requirements as determined by the receiving institution. At Utah State University, coursework acceptability will be determined by the student's major department.

Credit for quarter courses numbered 100 or above, or for semester courses numbered 1000 or above, earned in the Utah System of Higher Education (USHE) is transferable within the System and will be carried on the student's transcript by the receiving institution.

In order to transfer credit to Utah State University, official transcripts of credit must be submitted to the Admissions Office. Submitted transcripts become the property of Utah State University, and will not be returned. Transcripts from *all* institutions previously attended are required.

Students who transfer to USU and have an Associate of Arts or an Associate of Science degree (or have completed the General Education requirements) from one of the approved transfer institutions will be deemed as having satisfied the General Education portion of the University Studies requirements. However, the Depth Education requirements (shown on pages 70-75) must still be completed. A list of approved transfer institutions is shown on page 33.

When a student transfers *without* an Associate of Arts or Associate of Science degree *or* meets the General Education requirements of an institution not offering the Associate of Arts or Associate of Science degree by earning a 60 to 63 semester credit hour diploma, a registrar's certification that the transferring student has completed baccalaureate-level General Education requirements at the sending institution will be accepted by the receiving USHE institution in lieu of the AA/AS degree. The registrar at the sending institution will forward to the receiving institution an up-to-date description of the General Education requirements.

# Undergraduate Admission

Students who transfer to Utah State University with *less than an Associate Degree* (and have not completed General Education requirements) **or** with an Associate of Applied Science Degree will have their General Education courses evaluated on a course-by-course basis and may be required to take any additional courses necessary to satisfy the General Education requirements at Utah State University. However, if these students have taken equivalent General Education courses at the sending institution, these courses will be accepted toward satisfying General Education requirements at Utah State University.

Courses approved as fulfilling General Education requirements at a USHE institution will be acceptable to Utah State University as satisfying comparable General Education requirements. Acceptability of General Education coursework from other institutions will be determined by the student's major department at Utah State University.

## Approved Transfer Institutions

The General Education portion of the University Studies requirements may be satisfied by an Associate of Arts or Associate of Science degree from one of the following approved transfer institutions. A registrar's certification, stating that the student has completed the General Education requirements of one of these transfer institutions, may also be acceptable. However, Utah State University will require students to satisfy the Breadth American Institutions requirement, if an equivalent course has not been completed. Also, students must satisfy any deficiencies in General Education requirements, including Communications Literacy; Quantitative Literacy; and Breadth courses in the Creative Arts, Humanities, Life Sciences, Physical Sciences, and Social Sciences categories. USU advisors reserve the right to review the student's associate degree to determine which additional courses may be required for meeting these deficiencies.

### Utah

Brigham Young University  
College of Eastern Utah  
Dixie State College of Utah  
LDS Business College  
Salt Lake Community College  
Snow College  
Southern Utah University  
University of Utah  
Utah Valley University  
Weber State University  
Westminster College

### Hawaii

Brigham Young University (Hawaii)

### Idaho

Boise State University  
Brigham Young University (Idaho)  
College of Southern Idaho  
Idaho State University

### Wyoming

Northwest College  
Western Wyoming Community College

Students who transfer from an institution that is not listed above will have their General Education coursework evaluated by the appropriate academic department at Utah State University.

For an institution to be considered for inclusion in the above articulation agreements, the institution's General Education requirements must be reviewed and approved by both the USU General Education Subcommittee and the Educational Policies Committee. Institutional representatives should submit their requests, along with a copy of their institution's catalog, to: John Mortensen, Registrar's Office, Utah State University, 1600 Old Main Hill, Logan UT 84322-1600.

## Articulation Agreements

Utah State University maintains annual course-by-course articulation agreements with the following institutions:

Boise State University  
Brigham Young University  
Brigham Young University (Hawaii)  
Brigham Young University (Idaho)  
College of Eastern Utah  
College of Southern Idaho  
Dixie State College of Utah  
Idaho State University  
LDS Business College  
Northwest College  
Salt Lake Community College  
Snow College  
Southern Utah University  
University of Utah  
Utah Valley University  
Weber State University  
Western Wyoming Community College  
Westminster College

These course-by-course agreements show how courses taken at these institutions will be accepted and applied at Utah State University.

In addition to the course-by-course articulations, Utah State maintains general education articulation agreements with the same institutions as listed above. These agreements show how individual courses taken at these institutions will meet Utah State's University Studies requirements.

These articulation agreements, as well as additional information about transferring to Utah State University, can be found at the Transfer website: <http://www.usu.edu/transfer/>

## Guidelines for Transferable Credit

Transfer credit earned at institutions that are accredited by one of the six regional accrediting associations will be accepted if the work is parallel in nature to programs offered at Utah State University.

The six regional accrediting associations are: (1) Middle States Association of Colleges and Schools, Commission on Higher Education (MSA); (2) Northwest Commission on Colleges and Universities (NWCCU); (3) North Central Association of Colleges and Schools, Higher Learning Commission (NCA); (4) New England Association of Schools and Colleges, Inc., Commission on Institutions of Higher Education (NEASC-CIHE); (5) Southern Association of Colleges and Schools, Commission on Colleges (SACS); and (6) Western Association of Schools and Colleges, Accrediting Commission for Senior Colleges and Universities (WASC-ACSCU).

# Undergraduate Admission

Utah State University *may* award credit for academic work completed at institutions that are not regionally accredited if the courses:

1. articulate to University Studies or General Education requirements at USU,
2. correspond to recognized standards published by the American Association of Collegiate Registrars and Admissions Officers (AACRAO) and the American Council on Education (ACE), or
3. are approved by the department and college in which the subject matter is taught at Utah State University.

Utah State University does *not* accept transfer credit from nonregional-accredited institutions in those cases where USU lacks an academic unit to evaluate such transfer credit.

Subcollege-level courses which are developmental, remedial, or preparatory are *not transferable*.

Vocational-technical courses are generally *not transferable*. Exceptions may be made by individual departments if the coursework is pertinent to the student's major.

Religion courses are generally *not transferable*. These courses will be evaluated based on the particular orientation of the course. In order to be considered, courses in religion must be listed on an official transcript from a regionally accredited institution.

Credit may be transferred from recognized international universities. Transcripts or documented evidence (translated into English) must be presented, indicating successful completion of coursework. Courses must be consistent in level, duration, and content with courses offered at American universities. For further information about the transferability of international credit, contact the Office of International Students and Scholars, Taggart Student Center 313, (435) 797-1124.

Subject to evaluation by Utah State University, to ensure credit is granted in accordance with USU policies, credit may be earned through the College-Level Examination Program (CLEP), DANTES Subject Standardized Tests (DSST), and International Baccalaureate Organization (IBO) examinations *or* by taking Advanced Placement (AP) examinations while a student is in high school. For further information about these examinations, see the *Credit by Examination and Advanced Coursework* section of this catalog on pages 40-45.

For further information about transfer credit evaluation and articulation, visit the Transfer website at: <http://www.usu.edu/transfer/>

## Military Credit

The University may grant elective credit to students currently enrolled at the University who have served in the armed forces. The number of elective credits granted depends upon the length of military service.

Length of Active Duty	Elective Credits
Six months to one year .....	4
More than one year .....	10
Qualifying for a commission.....	12

Other military credit may be accepted for transfer, if such credit meets University requirements. The *Guide to the Evaluation of Educational Experiences in the Armed Services* is used by articulation personnel in the Registrar's Office for determining transfer of credit.

Qualified applicants must submit the form DD214, form DD295, or an AARTS/SMART transcript to the Admissions Office. Credits are then

evaluated for acceptance *only* when a Military Credit Evaluation form is submitted to articulation personnel in the Registrar's Office. The form and instructions can be found online at:

<http://www.usu.edu/registrar/forms>

## AARTS/SMART Transcripts

Students who are eligible for an AARTS or SMART transcript should provide the Admissions Office with one of these, *instead of* the DD214 or DD295 form. For more information and to order transcripts online, visit the following websites:

**Army (AARTS):** <http://aarts.army.mil/index.htm>

**Navy (SMART):** <https://smart.navy.mil/smart/welcome.do>

## Readmission

Students who were in attendance the previous spring semester are not required to reapply for fall semester unless the student withdrew from the University or if academic action (warning, probation, or suspension) or graduation occurred at the conclusion of the spring semester. Former students of the University returning after an absence of one year or longer are required to file an application for readmission, unless a *Leave of Absence* form was filed.

## Returning USU Student Admission Requirements

Applicants must meet the minimum GPA requirement for their desired major. Minimum GPA requirements may be found in the major requirement sheets at:

<http://www.usu.edu/majorsheets/>

Applicants whose GPA does not meet the requirements of their desired major may be offered an "undeclared" major, if they have at least a 2.2 GPA and fewer than 60 transfer credits. Applicants with at least a 2.0 GPA may be admitted into provisional admission warning at one of Utah State's Regional Campuses or Distance Education centers located throughout the state.

## Returning USU Student Application Materials

1. Application for Undergraduate Admission and Scholarships
2. Nonrefundable \$20 Application Fee (\$35 if late)
3. College transcript(s) (from colleges attended since USU)

## Returning USU Student Application Deadlines

**Fall Semester**—July 1

**Spring Semester**—November 1

**Summer Semester**—April 1

## Academic Action Readmission Deadlines

Students who desire to be readmitted following academic action (probation, suspension, or dismissal), must apply by April 1 in order to be considered for admission to summer semester, by July 1 in order to be considered for admission to fall semester, or by October 1 in order to be considered for admission to spring semester.

## Readmitted Student Admission Deferment

Readmitted students who wish to defer their start date to a later semester may do so (without reapplying) by submitting an *Admission Deferment Application* to the Admissions Office. For further information, see *Admission Deferment* information on page 31.

## Residency Policy and Appeal

Persons who have been classified as nonresident students and who feel they now satisfy the requirements for Utah Resident Status for Tuition Purposes must file an application with the Residency Office, Taggart Student Center 102. Applications are processed each semester. The deadline is *no later than the end of the third week of the semester*. Applications received after this deadline will be considered for the next semester. The application will not be processed until the student is admitted to the University. There is no application fee.

If an application is denied by the Residency Office, the student may appeal to the Residency Appeals Committee *no later than the 20th calendar day of the semester*. Appeals cannot be considered after this deadline.

To qualify for Utah resident status for tuition purposes, a person is required to:

1. Be a U.S. citizen or have permanent resident status.
2. Document living in Utah for 12 continuous months, as a student or working.
3. Not be claimed as a dependent on tax returns by anyone who is not a resident of Utah.
4. Obtain a Utah vehicle registration, voter registration, and driver's license *at least three months* prior to submitting an application for residency.

Each person who applies for Utah resident status for tuition purposes is considered on the totality of evidence. Based upon review of each application, additional documentation may be required, including Utah voter registration, evidence of employment in Utah, proof of payment of Utah income taxes for the previous year, Utah vehicle registration, etc.

Persons having questions about a specific situation (not covered by the information above) should contact the Admissions Office.

### Exceptions

Provisions in the law enable a person to be granted Utah residency for tuition purposes as an *exception* to the regulations listed above. A few exceptions are listed below, but students should contact the Admissions Office for more information regarding requirements and restrictions for each exception.

1. Dependent children and spouses of those who obtain full-time employment and move to Utah.

2. Certain individuals recruited or transferred to Utah with full-time employment.
3. Dependent persons having a parent who has been a legal resident of Utah for at least one year.
4. Persons who marry a Utah resident. (The spouse must have been a Utah resident *before* the marriage.)
5. Active-duty military personnel with current duty station in Utah can pay resident tuition while they are stationed in Utah. Also, there are some exceptions for certain military members who are deployed while attending school.
6. Native Americans who are registered on the tribal rolls of tribes whose lands are contiguous to Utah. (Documentation is required.)

Other requirements may apply. For further residency information, contact the USU Admissions Office, Taggart Student Center 102, (435) 797-1079, or visit:  
<http://www.usu.edu/admissions/information/residency.cfm>

The residency application is available for download at:  
<http://www.usu.edu/admissions/information/residency.pdf>

**Note:** Western Undergraduate Exchange (WUE) students *are not eligible* to establish residency for tuition purposes. Time in state and/or credits earned while on WUE *will not* count toward residency.

## Other Admissions Information

### Veterans Educational Benefits

Veterans or qualified dependents of disabled or deceased veterans who may be eligible for Veterans Educational Benefits should contact the Office of Veterans Services, or telephone (435) 797-1102 for information concerning their educational benefits. Veterans or eligible dependents must make application for admission and be matriculated in a degree program.

### Western Undergraduate Exchange

Utah State University participates in the Western Undergraduate Exchange (WUE), a program of the Western Interstate Commission for Higher Education (WICHE). Through WUE, certain students who are not residents of the State of Utah may enroll at Utah State University by paying resident tuition plus 50 percent of that amount (plus other fees that are paid by all students). For further information, see WUE text in the *Financial Aid and Scholarship Information* section, page 49.

### International Student Admission

For information about admission procedures for international students, see pages 38-39.

# Graduate Admission

---

Dean of School of Graduate Studies: Byron R. Burnham

Location: Main 164

Phone: (435) 797-1189

FAX: (435) 797-1192

WWW: <http://www.usu.edu/graduateschool/>

E-mail and Informational Links:

<http://www.usu.edu/graduateschool/contact/>

## Admission Requirements

The School of Graduate Studies requirements for admission to a graduate degree program are as follows:

1. A bachelor's degree (or, for most doctoral programs, a master's degree) that will be completed *before* the student matriculates in the degree program.
2. A 3.0 or higher grade point average on the student's last 60 semester or 90 quarter credits.
3. A score or scores at or above the 40th percentile on the appropriate admissions test.
4. Satisfactory letters of recommendation.

Requirements *in addition* to those listed above may apply, as determined by the department into which the student desires to matriculate.

## Application Procedures

Application-for-admission forms are obtained online at:

<http://www.usu.edu/graduateschool/apply/>

Before the student's application will be considered complete and ready for review by the School of Graduate Studies, the following items must be received by the Graduate School:

1. A completed online **application form** accompanied by the nonrefundable **\$55 application fee**, which is required for both international and domestic students.
2. An **official transcript from each previously attended college and/or university** (except USU), which must be sent directly from each institution to the USU School of Graduate Studies. Transcripts must be submitted for **all** coursework above the high-school level and **all** prior degrees. Transcripts accumulated on one record are not acceptable. Transcripts not in English must be accompanied by a notarized translation. Transcripts submitted as application credentials become the property of the School of Graduate Studies and will not be copied for or returned to the applicant. A bachelor's degree from an accredited college or university with a minimum 3.0 GPA for the last 90 quarter or 60 semester credits earned, is required.
3. **Score(s) on the appropriate admissions test(s)** sent directly to the School of Graduate Studies by the testing agency. Most departments require Graduate Record Examination (GRE) scores; however, the General Management Test (GMAT) or the Miller Analogy Test is acceptable for some master's degree programs. (For further details, see the *Admissions Tests* information shown on this page.)

4. **Three letters of recommendation**, each of which must address the applicant's potential for success in the proposed graduate degree program. If the applicant has been enrolled in school during the last five years, *at least two* of the letters must come from persons who are familiar with, and can make an authoritative assessment of, the applicant's recent academic progress and success. **Recommender names and e-mail addresses are required on the online application.** Once a prospective student has completed the online application with the fee paid, the School of Graduate Studies will notify the applicant's recommenders to send their letters electronically.

## Application Target Dates

Completed application forms, transcripts, letters of recommendation, test scores, and the application fee should be submitted on or before the following dates (some departments have earlier deadlines; see departmental descriptions). It may not be possible to process applications for the following semester when they are submitted after the target date.

March 15 for summer semester

June 15 for fall semester

October 15 for spring semester

As soon as an application is complete, a recommendation is made by the appropriate department to the graduate dean, who must approve all admissions. **No notification of acceptance or rejection other than that from the graduate dean is official.**

## Summer Semester Admission

The summer semester consists of two one-week presessions for workshops and short special programs, an eight-week semester of regular coursework, and a postsession of one week for workshops and seminars. Nonresident students pay *only* resident tuition for summer semester credits. All summer semester students are eligible to register the following fall semester. For information regarding deadlines, students should contact the department to which they plan to apply.

## Admissions Tests

An admission test is required of all applicants. Scores at or above the 40th percentile are required by the School of Graduate Studies. Departments may set higher criteria. Most applicants must take the Graduate Record Examination (GRE) general test (minimum of 40th percentile on the verbal and quantitative tests). At this time, the School of Graduate Studies *does not require* the Analytical Writing Score. However, since some departments may require the Analytical Writing Score, students should abide by the requirements of the department to which they are applying. Some departments will accept the Miller Analogies Test (MAT) for master's degree applications. Applicants to the Master of Business Administration, the MS in Management Information Systems, and Master of Accounting programs are required to take the Graduate Management Admission Test (GMAT). Registration forms for the GRE and the GMAT are available at the School of Graduate Studies. Applicants should request that their test report be sent directly to the School of Graduate Studies. The official test report must be received before an application is considered complete.

## Concurrent Degrees

If a student wishes to be considered for two degree programs, an application should be submitted for the first degree program. If admission is granted, the student may then apply for a second degree program after submitting a letter from the head of the department to which the student has been admitted. The letter should indicate that the department has no objection to the student applying for the second degree program. This application process applies to both separate and concurrent degree programs (see *Concurrent Degrees*, pages 119-120).

## Bachelor's Degree Requirement

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to a graduate program. Three-year bachelor's degrees from accredited or similarly recognized institutions are accepted with the endorsement of the academic department in which the student wishes to study.

## International Applicants

International applicants from non-English-speaking countries must demonstrate competency in the English language. A minimum score on the Test of English as a Foreign Language (TOEFL) of 550 (paper based), 213 (computer based), or 79 (Internet based), or the equivalent score of 6.0 on the International English Language Testing System (IELTS) satisfies this requirement. Both tests are valid for only two years. If an international applicant has a degree from a university in an English-speaking country, the TOEFL is not required.

An applicant who is admitted with a TOEFL (or IELTS) score below the required minimum, and who has not obtained a degree in an English-speaking country, must take the English Language Placement Test given by the Intensive English Language Institute (IELI) at USU. The test must be taken before a student is allowed to register. The results of the exam are used to place students into one of three categories: (1) full-time study of English in the Intensive English Language Institute; (2) a combination of English-language study and academic study, if approved by the IELI director, the student's advisor, and the graduate dean; or (3) full-time academic studies. Students placed in the Intensive English Program must remain in the program until the required English proficiency is attained. Those in category (1) are not allowed to register for non-IELI classes.

International students must also submit an I-20 application form and a financial guarantee. Because of immigration regulations, international students cannot be admitted to provisional matriculation.

## Program Continuity

A fee of \$20 is charged if a student begins a graduate program before or after the semester for which he or she was accepted. If a graduate student's attendance is postponed for more than one semester, the

department or the School of Graduate Studies may require the student to reapply for admission.

## Multiple Degree Programs

With the approval of the cooperating departments and the graduate dean, students may pursue more than one degree program.

An applicant should apply for admission to the first degree program. If admission is granted, the student may then apply for a second degree program, after submitting a letter from the head of the department to which the student has been admitted. The letter should indicate that the department has no objection to the student applying for the second degree program.

## Transfer and Nonmatriculated Credits

Provided USU residency requirements (see specific credit requirements under each degree) will be met, a student's supervisory committee may recommend transfer of graduate credits earned at another accredited institution, including credits with earned *P* grades. The credits must *not* have been used for another degree. Only 12 semester credits may be transferred into a graduate program at USU. Credits with *P* grades may be transferred *only* with committee approval. Transfer credits *cannot replace* required residency credits. Transfer credits are subject to approval of the supervisory committee and the dean of the School of Graduate Studies. Credits more than eight years old may not be acceptable (see *Time Limit* section, page 112). Transfer credits will be shown on official USU transcripts upon completion of the degree. These stipulations apply to nonmatriculated credits.

*No more than 12 credits* taken at USU or another institution *prior to matriculation at USU* may be used in a program of study.

## Residency Requirement

At least 24 semester credits for a master's degree must be from a supervisory committee- and SGS-approved Program of Study from Utah State University. Furthermore, any allowed transfer credits cannot replace required residency credit.

For the PhD, a minimum of 33 USU credits from an approved Program of Study is required. At least three semesters, two of which must be consecutive, of full-time registration in residency at USU are required.

For the EdD, a minimum of 39 USU semester credits from an approved program of study is required. At least three semesters must be full-time registration in residence at USU; none of the semesters need to be consecutive, but two full-time semesters must be taken on campus prior to dissertation credit. Some departments also have language requirements.

# International Student Admission and Programs

## Director of the Office of International Students and Scholars:

Jeannie Pacheco

**Location:** Taggart Student Center 313

**Phone:** (435) 797-1124

**FAX:** (435) 797-3522

**E-mail:** [iss@aggiemail.usu.edu](mailto:iss@aggiemail.usu.edu) (prospective students/  
admissions questions)

**E-mail:** [oiss@aggiemail.usu.edu](mailto:oiss@aggiemail.usu.edu) (current students)

**WWW:** <http://www.usu.edu/oiss/>

The Office of International Students and Scholars (OISS) is committed to providing quality services to international students, scholars, and their families, and helping them to succeed, both academically and personally, in a caring and nurturing environment. OISS provides leadership and support to enhance the academic, social, and personal interactions of students and scholars while at USU, in the Logan community, and beyond. These services include, but are not limited to, international admissions, academic and cultural orientation programs, general advising, transportation, conflict resolution and mediation, immigration matters including SEVIS, peer mentoring, and cultural events planning. OISS also provides referrals to other campus units, including Student Health and Wellness Center, Counseling Center, Academic Resource Center, the Office of University Advising, the Office of Retention and First-Year Experience, Housing Services, Dining Services, Intensive English Language Institute, Registrar's Office, Cashiers Office, Student Employment, and Career Services, to ensure academic success through graduation.

## Undergraduate Admission Requirements

### International Undergraduate Student Admission

The following fees, documents, and information should be submitted to OISS four months (January 15, summer semester; April 15, fall semester; September 15, spring semester) prior to the beginning of the semester for which an international student wishes to be considered for admission:

1. Utah State University international application for admission and a \$50 nonrefundable application fee. Applications submitted after the recommended filing date will be charged an additional \$15 nonrefundable late fee.
2. Official transcripts and certificates or certified true copies for each secondary school, college, and university attended with official English translation of all documents.
3. Evidence of financial capability must be provided with the application, as specified on the application form.
4. International students must be proficient in the use of English. Proficiency is determined for undergraduates by a minimum TOEFL score of 500 on the manual (paper/pencil) test, 173 on the computerized test, 61 on the iBT (Internet-based TOEFL), a minimum IELTS score of 5.0, a Michigan test score of 80, or by passing level 4 (advanced level) of the Intensive English program at Utah State University.

Qualified students in level 4 (advanced level) of Intensive English may take one or more academic courses if approved by the Intensive English faculty and their academic advisor. Audited courses are not recognized by the U.S. Citizenship and Immigration Services (USCIS) toward the requirement of carrying a full course of study.

Failure to carry a full course of study (at least 12 credits per semester for undergraduates), failure to make satisfactory progress toward the receipt of an undergraduate or advanced degree, or failure to comply with any other immigration requirements for students attending USU will be grounds for suspension or dismissal in accordance with existing University policy.

For further information about undergraduate admission, see pages 30-35. See pages 62-63 for explanations of University policies concerning academic suspension and dismissal.

### SEVIS

SEVIS is an Internet-based system that allows schools and the U.S. Citizenship and Immigration Services (USCIS) to exchange data on the visa status of international students. Accurate and current information is transmitted electronically throughout an F-1 or J-1 student's academic career and throughout a J-1 scholar's stay in the United States. U.S. embassies and consulates will also have access to SEVIS.

The University is committed to assisting students in the following ways, to prevent status violations from occurring:

1. OISS will require mandatory orientation programs for all newly enrolled international students. The new rules and regulations will be thoroughly discussed and explained.
2. OISS will offer orientation for all newly arrived international scholars.
3. Informational sessions will be offered throughout the semester for students and scholars who are already on campus.

### International Scholarships

Utah State University offers a limited amount of scholarships to international students. For more information, visit the OISS website: <http://www.usu.edu/oiss/>

### Transfer Student Admission

Applicants with at least 24 semester credits earned at another recognized institution will be admitted if they have a transfer GPA of 2.50 or higher. Those transfer students having a GPA between 2.20 and 2.49 will be considered on an individual basis. Many USU undergraduate majors require a higher GPA for admission. For specific GPA requirements, refer to this catalog or consult the departments. In cases where the student is admissible to the University but does not meet the minimum GPA requirement for admission to the desired major, admission will be offered as an "undeclared" major. Applicants having fewer than 24 semester transfer credits must submit an official high school transcript (including a translated version). Official transcripts of credit must accompany applications for admission when submitted by students who have attended other collegiate institutions. Transcripts submitted for admission become the property of the University and are not returned. *Transcripts from all institutions previously attended are required (including a translated version)*. At its discretion, the University may accept transfer credit from accredited and nonaccredited institutions and miscellaneous sources. **Acceptance of credit should not be confused with its application. Transfer credit may or may not apply to the graduation requirements of an institution, regardless of the number of credits transferred.** Students who would like their college or university work considered for transfer credit must include a course syllabus or description (translated into English) of this work.

See pages 32-34 for more information about transfer student admission.

# International Student Admission and Programs

## Readmission

Students who were in attendance the previous spring semester are not required to reapply for fall semester unless the student withdrew from the University or if academic action (probation or suspension) or graduation occurred at the conclusion of the spring semester. Former students of the University returning after an absence of one year or longer are required to file an application for readmission, unless a *Leave of Absence* form was filed.

Additional information about readmission of returning USU students is shown on page 34. The policy regarding leave of absence is explained on page 58 (undergraduate) and page 115 (graduate).

## International Baccalaureate

USU recognizes the International Baccalaureate diploma and awards credits for General Education requirements, excluding the Breadth American Institutions, Communications Literacy, and mathematics Quantitative Literacy requirements necessary for graduation.

Students who have *not* completed the International Baccalaureate diploma may receive 3 or more credits for scores of 4 to 7 on standard-level or higher-level exams, up to a maximum of 30 credits.

If, prior to (or after) taking an IBO examination, a student receives credit (including AP credit) **for any coursework equivalent to the subject matter** of an IBO examination, the credits earned for the course will be deducted from the credits awarded for the examination.

Further information about the International Baccalaureate Organization (IBO), as well as information about the number and type of USU credits awarded for standard-level and higher-level scores on individual IBO tests, is shown on pages 43-44.

## Graduate Admission

Any student who has graduated from USU or any other university must apply to the School of Graduate Studies for admission and present two copies of official transcripts. Refer to the *Graduate Admission* section of this catalog on pages 36-37 for further information.

## Required New International Student Orientation

Newly admitted or readmitted students must participate in New International Student Orientation. This orientation is designed to assist students in making a successful transition to USU. In addition to registering for classes, students have the opportunity to receive individual advice about degree requirements, as well as vital information about immigration, health insurance, housing, student services, campus life, and athletics. This orientation also gives students a chance to make new friends. New and returning international students should be aware that a *registration hold* will be placed on their file until some form of orientation is completed. After admission to USU, students will receive information about New International Student Orientation.

New students who are required to take the IELI Placement Examination will be able to schedule an appointment at the orientation.

For further information, contact OISS by phone at (435) 797-1124 or by e-mail at [iss@aggiemail.usu.edu](mailto:iss@aggiemail.usu.edu).

## Undergraduate Graduation Requirements

For further information, refer to pages 76-79 in this catalog.

## Intensive English Language Institute

The Intensive English Language Institute (IELI) is an academic program in the College of Humanities, Arts, and Social Sciences. IELI teaches international students, residents, and refugees the English skills and cultural knowledge they need to be successful university students. IELI also trains international teaching assistants (ITAs) for USU. Information about the ITA training is available through the School of Graduate Studies. The IELI program accepts students seeking a degree at Utah State University, as well as students who want to study English for personal or professional reasons. Students may enroll to study *only* English.

Undergraduate students who apply to USU without a TOEFL score of at least 500 paper/pencil or at least 61 iBT (Internet-based test), or a minimum IELTS score of 5.0; and graduate students applying without a minimum TOEFL score of 550 paper/pencil or 79 iBT (Internet-based test), or a minimum IELTS score of 6.0, must take the IELI Placement Examination, given the first day of each semester, including the first day of the IELI summer session. Based on the examination results, students will be required to study in the IELI or exempted from further study and permitted to take classes in their major fields. For additional information, contact the Intensive English Language Institute (IELI) office by phone at (435) 797-2081 or by e-mail at: [ieli@aggiemail.usu.edu](mailto:ieli@aggiemail.usu.edu). Also, see the *Intensive English Language Institute* section of this catalog (page 313). **Note:** The minimum TOEFL and IELTS scores acceptable for undergraduate students entering USU during the 2010-2011 academic year will be raised to 525 paper/pencil, iBT 71, and IELTS 6.0 (with a minimum of 5.0 on each sub-scale).

## Summer Full-time Status

To be considered as full-time students during the summer, international students may *not* take all of their courses during one short-term session. More specifically, international students must spread their credit load throughout the summer by taking a minimum of one course during the first four-week session and a minimum of one course during the eight-week session. Undergraduate students must complete a minimum of 12 credits, and graduate students must complete a minimum of 9 credits. A maximum of 3 credits of distance education (online or independent study classes) may count toward the 9- or 12-credit requirement per semester.

## Special Programs

### Community and University Friends of International Students and Scholars (CUFISS)

CUFISS is a collaboration between the University and community which helps facilitate with activities, as well as with cultural and educational opportunities. For additional information, contact OISS by phone at (435) 797-1124 or by e-mail at [iss@aggiemail.usu.edu](mailto:iss@aggiemail.usu.edu).

### Study Abroad Programs

The USU Study Abroad Office provides information on a range of programs offering opportunities for study all over the world. USU offers many study abroad exchanges for a semester, academic year, or summer term in conjunction with other universities. Students can complete major or minor requirements while on study abroad. For further information, refer to pages 85-86 in this catalog.

# Credit by Examination and Advanced Coursework

## Advanced Placement (AP)

Advanced Placement examinations are offered at the high school level only. A number of examination areas are available; not all high schools offer all available AP examinations. Generally, the major areas chosen include English, American history, mathematics, chemistry, and physics.

Examinations are scored on a one-to-five scale. Students may receive 3 to 10 credits for a composite score of 3, 4, or 5 on any Advanced Placement examination. Earned credits may be applied toward the University Studies requirements, and may also be accepted as equivalent to specific courses. This information is summarized below.

AP Score	USU Credits Granted
0, 1, or 2	0
3, 4, or 5	3 to 10

Other institutions have policies differing from those of USU regarding AP scores and credits granted for those scores. For transfer students with less than an associate degree, AP credit posted to another institution's transcript is reevaluated based on USU's standard.

If, prior to (or after) taking an AP examination, a student receives credit for any coursework equivalent to the subject matter of an AP examination, the number of credits earned for the course will be deducted from the credits awarded for the examination.

To ensure that AP credits will be posted to their transcripts, students are responsible to submit their AP scores to the Admissions Office, Taggart Student Center 102. Efficient posting of AP credits helps advisors counsel students about requirements.

For further information regarding credits granted for AP examinations, contact the Registrar's Office, (435) 797-1081.

### AP Tests Taken Prior to Fall 2007

For historical data on how credits were accepted prior to Fall 2007, contact the Registrar's Office at (435) 797-1081.

## Advanced Placement (AP) Credit Allocation

AP Test	Score	Credits	USU Credit Awarded
Art History	3-4	6	[ARTH 2710 (BHU) (3) or ARTH 2720 (BHU) (3)] + 3 elective credits
	5	6	ARTH 2710 (BHU) (3) + ARTH 2720 (BHU) (3)
Biology	3-5	6	3 (BLS) credits + 3 elective credits
Calculus AB	3	6	3 (QL) credits + 3 elective credits
	4-5	6	MATH 1210 (QL) (4) + 2 elective credits
Calculus BC	3-4	6	MATH 1210 (QL) (4) + 2 elective credits
	5	8	MATH 1210 (QL) (4) + MATH 1220 (QL) (4)
Chemistry	3-4	6	CHEM 1210 (4) + 2 (BPS) credits* (satisfies BPS requirement)
	3-4	6	CHEM 1110 (BPS) (4) + 2 elective credits or Placement*
	5	8	CHEM 1210 (4) + CHEM 1220 (BPS) (4)
Chinese Language & Culture	3-5	10	CHIN 1010 (5) + CHIN 1020 (5)
Computer Science A	3-5	3	3 elective credits

Computer Science AB	3-5	6	CS 3410 (DSC/QI) (3) + 3 elective credits
English Language	3-5	6	3 (CL1) credits + 3 elective credits
English Literature	3-5	6	3 (BHU) credits + 3 (CL1) credits
Environmental Science	3-5	3	3 (BLS) credits
European History	3-5	6	HIST 1110 (BHU) (3) + 3 elective credits
French Language	3-5	8	FREN 1010 (4) + FREN 1020 (4)
French Literature	3-5	6	6 elective credits
German Language	3-5	8	GERM 1010 (4) + GERM 1020 (4)
Government & Politics: Comparative	3-5	3	POLS 2200 (BSS) (3)
Government & Politics: United States	3-5	3	POLS 1100 (BAI) (3)
Human Geography	3-5	3	GEOG 1400 (BSS) (3)
Italian Language & Culture	3-5	8	ITAL 1010 (4) + ITAL 1020 (4)
Japanese Language & Culture	3-5	10	JAPN 1010 (5) + JAPN 1020 (5)
Latin Literature	3-4	6	LATN 1010 (5) + 1 elective credit
	5	10	LATN 1010 (5) + LATN 1020 (5)
Latin: Vergil	3-4	6	LATN 1010 (5) + 1 elective credit
	5	10	LATN 1010 (5) + LATN 1020 (5)
Macroeconomics	3-5	3	ECN 1500 (BAI) (3)
Microeconomics	3-5	3	APEC/ECN 2010 (BSS) (3)
Music Theory	3-5	6	MUSC 1010 (BCA) (3) + 3 elective credits
Physics B	3	6	3 (BPS) credits + 3 elective credits
	4-5	6	PHYS 2110 (4)** or PHYS 2210 (QI) (4)** + 2 (BPS) credits (satisfies BPS requirement)
Physics C: Electricity & Magnetism	3	3	3 (BPS) credits
	4-5	4	PHYS 2220 (BPS/QI) (4)
Physics C: Mechanics	3-5	4	PHYS 2210 (QI) (4)
Psychology	3-5	3	PSY 1010 (BSS) (3)
Spanish Language	3-5	8	SPAN 1010 (4) + SPAN 1020 (4)
Spanish Literature	3-5	6	6 elective credits
Statistics	3-5	3	STAT 2000 (QI) (3)
Studio Art: Drawing	3-5	6	3 (BCA) credits + 3 elective credits
Studio Art: 2-D Design	3-5	6	3 (BCA) credits + 3 elective credits
Studio Art: 3-D Design	3-5	6	3 (BCA) credits + 3 elective credits
United States History	3-5	6	HIST 1700 (BAI) (3) + 3 elective credits
World History	3-5	6	HIST 1510 (BHU) (3) + 3 elective credits

\*The student/advisor may choose the CHEM 1110 or CHEM 1210 track according to what best suits the student's major.

\*\*The student/advisor may choose the PHYS 2110 or PHYS 2210 track according to what best suits the student's major.

# Credit by Examination and Advanced Coursework

## College-Level Examination Program (CLEP)

The CLEP examinations were designed for students who wish to utilize previous knowledge and experience in lieu of required coursework. CLEP is a national program of credit-by-examination, allowing students to obtain recognition for college-level achievement. This privilege is intended to measure information and training gained from practical experience that may be considered the equivalent of the experience and training received by students in an organized course given at the University.

Credits may be acquired through the CLEP examinations. These credits may be used to fill General Education Requirements and may also be accepted as equivalent to specific courses. Students interested in taking a CLEP exam should contact the University Testing Center, University Inn 115.

Individual departments and/or colleges may specify the exact courses required to fill their requirements and may require more than the minimum General Education requirements. Some departments and colleges require specific coursework for General Education, which the CLEP exams may not satisfy.

If, prior to (or after) taking a CLEP examination, a student receives credit (including AP credit) **for any coursework equivalent to the subject matter** of a CLEP examination, the credits earned for the course will be deducted from the credits awarded for the examination.

A student is *not allowed* to take and receive academic credit for a CLEP examination *after* he or she has completed an equivalent or more advanced course within that subject matter. Any exceptions *must* be approved by a student's academic college.

USU will accept a maximum of 30 total credits from CLEP, DANTES Standardized Subject Tests (DSST), and cooperative education/ internship credit combined.

Other institutions have policies differing from those of USU regarding CLEP scores and credits granted for those scores. For transfer students with less than an associate degree, CLEP credit posted to another institution's transcript is reevaluated based on USU's standard.

## CLEP Tests Taken Prior to Fall 2001

In Fall 2001, CLEP began using computer-based testing. The results of the computer-based tests are somewhat different for most of the exams. For historical data on how credits were accepted prior to Fall 2001, contact the Office of University Advising at (435) 797-9304.

## College-Level Examination Program (CLEP) Credit Allocation

CLEP Test	Min. Score	Credits	USU Credit Awarded
American Government	60	3	3 (BAI) credits
American Literature	50	3	ENGL 2160 (3)
Analyzing and Interpreting Literature	52	3	ENGL 2200 (BHU) (3)
Biology	50	3	BIOL 1010 (BLS) (3)
Calculus	50	3	3 (QL) credits

Chemistry	–	–	No credit awarded
College Algebra	50	3	3 (QL) credits
College Mathematics	–	–	No credit awarded
English Composition	50	3	3 (CL1) credits
English Literature	50	3	ENGL 2140 (3)
Financial Accounting	–	–	No credit awarded
French Language	–	–	No credit awarded
Freshman College Composition	53	3	3 (CL1) credits
German Language	–	–	No credit awarded
History of the U.S. I: Early to 1877	50	3	HIST 2700 (BAI) (3)
History of the U.S. II: 1865 to Present	50	3	HIST 2710 (BAI) (3)
Human Growth and Development	53	3	PSY 1100 (3)
Humanities	50	3	3 elective credits
Information Sys. & Computer Appl.	–	–	No credit awarded
Introduction to Educational Psychology	53	2	PSY 3660 (2)*
Introductory Business Law	62	3	MGT 2050 (3)
Introductory Psychology	55	3	PSY 1010 (BSS) (3)
Introductory Sociology	55	3	SOC 1010 (BSS) (3)
Natural Sciences	50	3	3 elective credits
Precalculus	–	–	No credit awarded
Principles of Accounting	–	–	No credit awarded
Principles of Macroeconomics	53	3	ECN 1500 (BAI) (3)
Principles of Management	–	–	No credit awarded
Principles of Marketing	62	3	MGT 3500 (3)
Principles of Microeconomics	54	3	APEC/ECN 2010 (BSS) (3)
Social Sciences and History	50	3	3 elective credits
Spanish Language	–	–	No credit awarded
Trigonometry	–	–	No credit awarded
West. Civ. I: Ancient Near East to 1648	50	3	HIST 1100 (BHU) (3)
West. Civ. II: 1648 to the Present	50	3	HIST 1110 (BHU) (3)

\*Students who plan to use PSY 3660 for teacher licensure should contact the Teacher Education, Graduation, and Educator Licensing Office in Education 103, phone (435) 797-1443, prior to making arrangements for the examination.

# Credit by Examination and Advanced Coursework

## DANTES Subject Standardized Tests (DSST)

DSSTs provide an opportunity for people to obtain college credit for what they have learned in nontraditional ways.

Designed originally for the military, DSSTs are available to civilian students and adult learners as well. The DSST program is used by colleges and universities to award college credit to those who demonstrate that they have knowledge comparable to someone who completed a classroom course in the subject.

Credits may be acquired through the DSST examinations. These credits may be used to fill General Education Requirements, and may also be accepted as equivalent to specific courses.

Individual departments and/or colleges may specify the exact courses required to fill their requirements and may require more than the minimum General Education requirements. Some departments and colleges require specific coursework for General Education, which the DSST exams may not satisfy.

If, prior to (or after) taking a DSST examination, a student receives credit (including AP credit) **for any coursework equivalent to the subject matter** of a DSST examination, the number of credits earned for the course will be deducted from the credits awarded for the examination.

USU will accept a maximum of 30 total credits from CLEP, DSST, and cooperative education/internship credit combined.

Other institutions have policies differing from those of USU regarding DSST scores and credits granted for those scores. For transfer students with less than an associate degree, DSST credit posted to another institution's transcript is reevaluated based on USU's standard.

## DANTES Subject Standardized Tests (DSST) Credit Allocation

DSST Test	Min. Score	Credits	USU Credit Awarded
Art of the Western World	48	–	No credit awarded
Astronomy	48	3	PHYS 1040 (BPS) (3)
Business Law II	–	–	No credit awarded
Business Mathematics	48	3	3 lower-division general elective credits
Civil War and Reconstruction	47	3	HIST 3750 (3)
Criminal Justice	–	–	No credit awarded
Drug and Alcohol Abuse	49	3	HEP 3000 (3)
Environment and Humanity	46	3	NR 1010 (BSS) (3)
Ethics in America	–	–	No credit awarded
Foundations of Education	–	–	No credit awarded
Fundamentals of College Algebra	47	3	3 lower-division general elective credits
Fundamentals of Counseling	45	–	No credit awarded

General Anthropology	47	–	No credit awarded
Here's to Your Health	48	2	HEP 2500 (2)
History of the Vietnam War	44	3	3 lower-division general elective credits
Human Resource Management	–	–	No credit awarded
Human/Cultural Geography	48	3	GEOG 1400 (BSS) (3)
Introduction to Business	54	3	MGT 1350 (3)
Introduction to Computing	50	3	CS 1030 (BPS) (3)
Introduction to Law Enforcement	–	–	No credit awarded
Introduction to the Modern Middle East	47	3	HIST 3410 (3)
Introduction to World Religions	48	3	3 lower-division general elective credits
Lifespan Development Psychology	51	3	PSY 1100 (3)
Management Information Systems	46	3	BUS 3100 (DSS) (3)
Money and Banking	–	–	No credit awarded
Organizational Behavior	–	–	No credit awarded
Personal Finance	59	3	FCHD 3350 (DSS) (3)
Physical Geology	–	–	No credit awarded
Principles of Finance	–	–	No credit awarded
Principles of Financial Accounting	–	–	No credit awarded
Principles of Physical Science I	47 47	3 4	PHYS 1100 (BPS) (3) or PHYS 1200 (BPS) (4)
Principles of Public Speaking	47	3	SPCH 1020 (CI) (3)
Principles of Statistics	48	3	3 lower-division general elective credits
Principles of Supervision	–	–	No credit awarded
Rise and Fall of the Soviet Union	45	3	HIST 3330 (3)
Technical Writing	46	3	3 lower-division general elective credits
Western Europe Since 1945	45	3	3 lower-division general elective credits

# Credit by Examination and Advanced Coursework

## International Baccalaureate Organization (IBO)

The IBO is a nonprofit educational foundation based in Geneva, Switzerland.

It grew out of international schools' efforts to establish a common curriculum and university entry credential. The schools were also motivated by an idealistic vision. They hoped that critical thinking and exposure to a variety of points of view would encourage intercultural understanding by young people.

They concentrated on the last two years of school before university studies in order to build a curriculum that would lead to what they called a "baccalaureate," administered in any country and recognized by universities everywhere.

USU recognizes the International Baccalaureate program. Students who enter with International Baccalaureate credit are awarded admission to the Honors Program. Students who present an International Baccalaureate diploma will be awarded a maximum of 30 credits. These credits will waive the appropriate Breadth and Communications Literacy requirements, but students will still be required to complete the Quantitative Literacy and Computer and Information Literacy requirements, unless their individual scores on IB exams waive those requirements. Each student's transcript will be evaluated individually, based on the courses he or she has completed.

Students who have not completed the International Baccalaureate diploma may receive 3 or more credits for scores of 4 to 7 on standard- or higher-level exams (as shown below), up to a maximum of 30 credits.

Individual departments and/or colleges may specify the exact courses required to fill their requirements and may require more than the minimum General Education requirements. Some departments and colleges require specific coursework for General Education, which the IBO exams may not satisfy.

If, prior to (or after) taking an IBO examination, a student receives credit (including AP credit) **for any coursework equivalent to the subject matter** of an IBO examination, the credits earned for the course will be deducted from the credits awarded for the examination.

Other institutions have policies differing from those of USU regarding IBO scores and credits granted for those scores. For transfer students with less than an associate degree, IBO credit posted to another institution's transcript is reevaluated based on USU's standard.

## International Baccalaureate Organization (IBO) Credit Allocation

IBO Test	Score <sup>1</sup>	Credits	USU Credit Awarded
Biology	4-7 SL	3	3 (BLS) credits
Biology	4-7 HL	6	3 (BLS) credits + 3 elective credits
Business & Management	4-7 SL	3	3 elective credits
Business & Management	4-7 HL	6	6 elective credits

Chemistry	4-5 HL	6	CHEM 1110 (BPS) (4) + 2 elective credits <sup>2</sup> <b>or</b> CHEM 1210 (4) + 2 (BPS) credits <sup>2</sup>
Computer Science	4-7 SL	3	CS 3410 (DSC/QI) (3)
Computer Science	4-7 HL	3	CS 3410 (DSC/QI) (3)
Economics	4-7 SL	3	ECN 1500 (BAI) (3)
Economics	4-7 HL	6	ECN 1500 (BAI) (3) + APEC/ECN 2010 (BSS) (3)
English A1	4-7 SL	3	3 (CL1) credits
English A1	4-7 HL	6	3 (CL1) credits + 3 (CL2) credits
French B	4-7 SL	8	FREN 1010 (4) + FREN 1020 (4)
French B	5-7 HL	8	FREN 2010 (4) + FREN 2020 (4)
Geography	5-7 HL	6	GEOG 1000 (BPS) (3) + GEOG 1400 (BSS) (3)
German	4-7 SL	8	GERM 1010 (4) + GERM 1020 (4)
German	5-7 HL	8	GERM 2010 (4) + GERM 2020 (4)
History—European	5-7 HL	6	3 (BHU) credits + 3 elective credits
History—Islamic	5-7 HL	6	3 (BHU) credits + 3 elective credits
History of the Americas	5-7 HL	6	3 (BHU) credits + 3 elective credits
Mathematics	4-7 HL	6	MATH 1210 (QL) (4) + 2 elective credits
Music	4-7 SL	3	MUSC 1010 (BCA) (3)
Music	4-7 HL	3	MUSC 1010 (BCA) (3)
Philosophy	4-7 SL	3	PHIL 1000 (BHU) (3)
Philosophy	4-7 HL	3	PHIL 1000 (BHU) (3)
Physics	4-7 SL	3	3 (BPS) credits
Physics	4 HL	4	PHYS 2120 (BPS) (4) <b>or</b> PHYS 2210 (QI) (4)
Physics	5-7 HL	8	PHYS 2120 (BPS) (4) + PHYS 2210 (QI) (4)
Psychology	4-7 SL	3	PSY 1010 (BSS) (3)
Psychology	4-7 HL	6	PSY 1010 (BSS) (3) + 3 elective credits

# Credit by Examination and Advanced Coursework

Social & Cultural Anthropology	4-7 SL	3	ANTH 1010 (BSS) (3)
Social & Cultural Anthropology	5-7 HL	6	ANTH 1010 (BSS) (3) + 3 elective credits
Spanish	4-7 SL	8	SPAN 1010 (4) + SPAN 1020 (4)
Spanish	5-7 HL	8	SPAN 2010 (4) + SPAN 2020 (4)
Theatre Arts	5-7 HL	6	THEA 1013 (BCA) (3) + THEA 1713 (3)
Visual Arts	4-7 SL	3	3 (BCA) credits
Visual Arts	4-7 HL	3	3 (BCA) credits

<sup>1</sup>Standard-level scores are followed by **SL**. Higher-level scores are followed by **HL**. If no standard-level score is shown for a particular test, then *no* USU credits are granted for a standard-level score in that area.

<sup>2</sup>The student or advisor may choose the CHEM 1110 or CHEM 1210 track, according to what best suits the student's major.

## Placement Tests

Following is a list of areas offering placement tests.

### English

ACT test scores may be used as a placement tool for recommending the level of courses to be taken.

An ACT English score of 29 or higher, or an SAT Verbal score of 640 or higher, will waive English 1010 and qualify a student for placement in English 2010 after the student has earned 30 credits. Students with an English ACT score of 16 or lower will be required to take English 0010.

### Mathematics and Statistics

ACT or SAT mathematics section scores obtained within the prerequisite acceptability time limit (one calendar year or three successive semesters including summer semester), along with other pertinent information (high school coursework, etc.), are used as a basis for placing incoming freshmen in proper mathematics or statistics courses. Students wanting to obtain approval for registration in the mathematics and statistics courses listed below or with questions about related issues should go to the Drop-in Advisement Office (Lund 201) in the Department of Mathematics and Statistics. Information about hours for advisement is available by phone at (435) 797-0268 or on the Department of Mathematics and Statistics undergraduate Web pages (<http://www.math.usu.edu/>).

#### Placement in Mathematics and Statistics Courses

Course	Math ACT Score	Math SAT Score
MATH 1030	23 or higher	540 or higher
MATH 1050	23 or higher	540 or higher
MATH 1060	23 or higher	540 or higher
MATH 1100	25 or higher	580 or higher
MATH 2020	25 or higher	580 or higher
MATH 1210	27 or higher	620 or higher

To qualify for **fall semester** enrollment in the above courses, students must have met a prerequisite *after August 15 of the previous year*. To qualify for **spring semester** enrollment in the above courses, students must have met a prerequisite *after January 1 of the previous year*. To qualify for **summer semester** enrollment in the above courses, students must have met a prerequisite *after June 1 of the previous year*.

Regardless of any previous record, students with an ACT mathematics score of less than 23 are required to take the Math Placement Test administered by the Department of Mathematics and Statistics. In addition, students who do not meet the prerequisite acceptability time limit requirement must take the Math Placement Test. The scores for placement in MATH 1010 and STAT 1040 should be used as an indication of where a student should be placed. The fee for taking the Math Placement Test is \$10, and students may take the test as required. The exams will be given at specified times in Geology 405 or in Geology 310. Students with special circumstances will be able to take the Math Placement Test in Lund Hall.

The Math Placement Test is administered online using an Internet browser. Students will be advised based on the results obtained on the Math Placement Test. Students may choose to enroll in a one-week math refresher course offered by the Department of Mathematics and Statistics. The fee for this course is \$100 and includes the fee for taking the Math Placement Test at the beginning of the course and again at the end of the course. Refresher courses will be offered at the beginning of fall and spring semesters, *either* during the week before the semester begins *or* during the first week of classes (based on when the semester begins).

### TOEFL

The Test of English as a Foreign Language (TOEFL) is required for international students (from countries in which English is not the official language) for admission to the University. It is not used for granting credit nor for waiver of the communications literacy requirement. International undergraduate students are required to complete the Intensive English program unless they receive a score of at least 500 paper/pencil or at least 61 iBT (Internet-based test) on the TOEFL examination, a Michigan score of 80 or higher, or a 5.0 or higher on the IELTS examination. **Note:** The minimum TOEFL and IELTS scores acceptable for undergraduate students entering USU during the 2010-2011 academic year will be raised to 525 paper/pencil, iBT 71, and IELTS 6.0 (with a minimum of 5.0 on each sub-scale).

### Languages

Where basic skills in a language have been acquired by means other than college courses, up to 16 lower-division credits may be earned by special examination.

Students with skills in a language other than those offered by the department may earn up to 16 pass/fail credits by successfully performing on a special Languages, Philosophy, and Speech Communication Department examination. However, these examinations are no longer offered at USU. Interested students must make arrangements to take one of these exams at Brigham Young University.

Students with skills in a language that is offered by the Languages, Philosophy, and Speech Communication Department may earn credit by successfully performing on an examination or by successfully completing an upper-division (3000-level or above) language course with a grade of *B* or better. Students should contact the Languages, Philosophy, and Speech Communication Department in Main 204, (435) 797-1209.

# Credit by Examination and Advanced Coursework

---

## Credit by Departmental Examination

Matriculated students may challenge a course for credit by taking a departmental examination. Departments will determine if a course is appropriate for challenge; students should contact the instructor and/or department. If a challenge exam is available, the instructor should advise the student as to whether he or she has a reasonable chance of passing. The examination will survey knowledge of the course content and may include papers, projects, portfolios, etc.

Students challenging a course for which they are registered must do so within the first two weeks of the course. Students not registered will be required to pay a fee (standard recording fee and course-specific examination fee). Students who take a departmental examination will receive the exam grade posted to their transcript for that course. Credits earned through departmental examination can be used to meet the minimum USU course requirement.

## Credit by Advanced Coursework (Language Credits)

Students who are proficient in a foreign language offered by Utah State University may earn lower-division credit through successfully passing a more advanced course. Applications for these credits should be made in the Department of Languages, Philosophy, and Speech Communication. Students will be required to pay a posting fee.

Students who receive credit by advanced coursework will receive a grade posted to their transcript, with a designation that it was earned by advanced coursework. Credits earned through this option cannot be used to meet the minimum USU course requirement and are treated as transfer work.

# Financial Aid and Scholarship Information

**Director, Financial Aid Office:** Steven J. Sharp

**Location:** Taggart Student Center 106

**Phone:** (435) 797-0173

**FAX:** (435) 797-0654

## **Loan and Collection Officer:**

Justin Gereau, Taggart Student Center 248, (435) 797-1057,

[justin.gereau@usu.edu](mailto:justin.gereau@usu.edu)

Application for financial aid begins in January for the following academic year. In most instances, early application benefits the applicant. Those who apply early have a greater chance of receiving more aid and of having aid available in time to meet school needs. Pell Grant and Stafford Loans are available throughout the year. Contact the Financial Aid Office for assistance. The free online application can be found at: <http://www.fafsa.ed.gov>

Scholarships are awarded to qualifying applicants who apply on or before February 1, prior to the academic year. Students should contact the Admissions Office or the department of their major for the exact deadline.

Financial aid programs, policies, and procedures described herein reflect the latest information at publication. Changes may occur in response to state and federal requirements. Appropriate notice will be made whenever possible before any change takes effect.

For further information concerning financial assistance available for graduate students, see pages 111-112 of this catalog.

## **Grants, Work-Study, and Loans**

### **Federal Pell Grant**

Available to undergraduates. Grants do not need to be repaid.

### **Federal Supplemental Educational Opportunity (FSEOG) Grant**

Available to undergraduates. Grants do not need to be repaid. The maximum award varies yearly. Awarding is based on need and funding.

### **Leveraging Educational Assistance Partnership (LEAP) Grant**

Awarded to resident undergraduates who demonstrate exceptional need. Awards are based on availability of funds.

### **Utah Centennial Grant (UCOPE)**

Available to undergraduate residents of Utah. Awards are based on availability of funds.

### **Academic Competitiveness (AC) Grant and National Science and Mathematics Access to Retain Talent (SMART) Grant**

These grants were created by the Higher Education Reconciliation Act of 2005 and signed into law February 2006. Up to \$750 will be awarded to eligible first-year AC Grant students, and up to \$1,300 to second-year AC Grant students. Up to \$4,000 will be awarded each year to eligible National SMART Grant students. Students must be U.S. citizens, must be enrolled in a four-year degree program full-time, and must be receiving Pell grants. **Note:** Beginning July 1, 2009, AC and SMART grants will be provided for part-time attendance.

### **Other Grants and Special Benefits**

Contact the Financial Aid Office for details concerning BIA or Tribal Grants.

### **Federal College Work-Study**

Provides part-time on-campus employment to enable students to earn a portion of their educational expenses during the college year. Awarding is based on need and the availability of funds.

### **Federal Perkins Loan**

Undergraduate students generally may borrow up to \$3,000 per year, to a total school amount of not more than \$15,000. Graduate students may borrow \$4,000 per year, up to \$30,000. Monthly payments and interest begin after graduation, withdrawal, or otherwise leaving school, or after dropping below 6 credits. A 5 percent simple interest rate applies. Awarding is based on need and funding.

### **Federal Stafford Loan**

Loans with a 6.0 and 6.8 percent interest rate. Students may qualify for subsidized and unsubsidized loans, depending upon need. Interest accrued prior to the beginning of repayment is paid by the federal government for "subsidized" Federal Stafford Loans. Repayment is generally required within 10 years. Starting in 2008, freshmen may apply for up to \$5,500 per regular school year; sophomores may apply for up to \$6,500 per year; juniors, seniors, and second bachelor's degree students may apply for up to \$7,500 per year; and graduates may apply for up to \$8,500 per year. Aggregate borrowing limits are \$31,500 for undergraduates and second bachelor's degree students, and \$65,500 for graduates. Monthly repayment begins after completing or leaving school, or after dropping below 6 credits. Additional unsubsidized amounts are available to students in some circumstances.

### **Federal TEACH "Grant"**

The TEACH "Grant" program provides up to \$4,000 per year in "grant" aid to undergraduate and graduate students enrolled in a teacher credential program. Students must serve as full-time teachers at specified schools and teach in a specified field for four academic years within eight years after completing the college course. TEACH "Grant" recipients who do not fulfill their teaching obligations must repay the "grant" as if it were an unsubsidized loan.

### **PLUS Loans**

PLUS loans are for parents who want to borrow for their children's education. This loan provides additional funds for educational expenses. Repayment begins within 60 days after the last loan disbursement. This loan has an interest rate of 8.5 percent. This loan is available when other awarded federal aid to the student does not fully meet the school's estimated cost of education.

# Financial Aid and Scholarship Information

## Emergency Check Loan

Ten-week loans of up to \$400 are available to enrolled students with fees paid for at least 6 credits. These loans are *not* available for tuition. Interest is assessed at 12 percent from date of issue until the date of maturity.

## Method of Awarding Financial Aid

A student's **Estimated Family Contribution (EFC)** is calculated from information provided by the student on the federal financial aid application. A student's **Financial Need** is the difference between the estimated cost of education and the EFC. Financial aid is awarded to fill this need, as much as possible, using whatever funds are available.

## Estimated Cost of Undergraduate Education for Two Semesters for 2009-2010 Academic Year

	Resident	Nonresident
Tuition and Fees	See page 64	See page 64
Room and Board	\$6,450	\$6,450
Books and Supplies	1,210	1,210
Transportation	1,520	1,520
Personal Expenses	2,210	2,210
<b>Totals</b>	<b>\$11,390</b>	<b>\$11,390</b>
	plus	plus
	Resident Tuition	Nonres. Tuition

## Repayment of Federal Funds Policy

Students who are withdrawing from the University and who have Federal Financial Aid must meet with their financial aid counselor prior to withdrawing.

Students who completely withdraw from the University during the course of a semester are required to return a percentage of their Federal Student Financial Aid. All types of Federal Financial Aid are included in the repayment, including: Pell Grants, Supplemental Grants, Perkins Loans, and Stafford Loans. The amount of repayment is based on the percentage of the semester completed. For example, if a student withdraws after completing 40% of the semester (calculated using calendar days), the student must return 60% of his or her Federal Student Aid. Students who withdraw, or cease attending, after completing 60% of the semester are not required to return aid. (However, they will still face suspension from financial aid for failing to complete the required number of credits.) If the student is eligible for a refund of tuition and fees, according to the University refund policy, the refund will be applied to the Federal Financial Aid obligation. A refund may or may not completely repay the obligation. Either way, the student will not be allowed to register for future classes, nor be eligible for future financial aid, until the debt is repaid.

For example, suppose a student has Federal Aid in the following amounts:

Pell Grant	\$1,500
Perkins Loan	1,200
Stafford Loan	2,750
<b>Total</b>	<b>\$5,450</b>

If the semester has 115 calendar days and the student completely withdraws from the University on day 20, the repayment would be calculated as follows:  $115/20 = 17\%$  of the semester completed, and 83% not completed. Therefore, 83% of the Federal Aid must be repaid (i.e.,  $\$5,450 \times 83\% = \$4,523.50$ ).

Students who receive all Fs for the semester must document participation in an academic activity (including attending class, taking exams, turning in assignments, etc.) past 60 percent of the semester or will have to repay 50% of the federal funds received.

**Note:** If a tuition refund is given by the Registration Office, the refund will reduce the amount of Federal Aid that must be repaid.

## Responsibility of Financial Aid Recipients

Undergraduate financial aid recipients are expected to maintain a USU GPA of at least 2.0. Graduate students must maintain a USU GPA of 3.0. Students must also pass 70 percent of the credits they attempt.

Students not passing the required amount of credits *or* not maintaining the required grade point average will be placed on financial aid probation for a minimum of one semester. Students not meeting the required minimums during the period of probation will be suspended from further aid. In exceptional circumstances, students may appeal to have the suspension lifted.

For additional details, visit:

<http://www.usu.edu/finaid/overview/rap.cfm>

In addition to maintaining academic progress as defined above, recipients may not owe a repayment on grants previously received, or be in default of any student loan fund at USU or any other institution.

## Scholarship Policy

Scholarships for new undergraduate students and undergraduate transfer students are awarded by the Admissions Office. Scholarships for continuing students are awarded by the various colleges and academic departments.

## Scholarships for New Undergraduate Students

To be considered for scholarships, applicants must be admitted to Utah State University, attend classes at the main Logan campus, and intend to graduate from USU. (Students majoring in programs sponsored by other academic institutions, such as the Cooperative Nursing Program with Weber State University, are *not eligible* for Utah State University sponsored scholarships.) Utah State University offers a variety of scholarships based on academic merit using the cumulative GPA (a four-point scale is used to determine cumulative GPA) and ACT or SAT score. Some other criteria may be used in determining eligibility, such as achievements, leadership, talent, family size and income, ethnicity, and first-generation college student status. The scholarship application deadline (as listed on the dual admissions and scholarship application) *is different than the admissions deadline. To be considered for scholarships, the priority deadline is December 1, and the final deadline is February 1.* For 2009, all scholarships will be awarded on a *first-come, first-served basis*. Therefore, applicants are encouraged to apply early. See pages 48-49 for information about scholarships available to new freshmen. For more information, contact the Admissions Office by phone at 1-800-488-8108 or (435) 797-1079, or by e-mail at: [admit@usu.edu](mailto:admit@usu.edu).

# Financial Aid and Scholarship Information

## Scholarships for Home Schooled Students

To be considered for scholarships, home schooled students must have a minimum ACT score of 25.

## Scholarships for Transfer Students

To be considered for scholarships, a transfer student must submit the Undergraduate Admission and Scholarship application. Official transcript(s) must accompany the application. To be considered for transfer scholarships, the priority deadline is February 1, and the final deadline is April 1. Transfer students must have earned a minimum of 24 post high school graded semester credits. See pages 49-50 for information about scholarships available to transfer students.

## Freshman Resident Scholarships

The scholarships listed below are based on the 2009-2010 applicant pool and are subject to change without notice. For the latest information on freshman scholarships, visit:

<http://www.usu.edu/admissions/scholarships>

### Presidential Scholarship

Awarded for four years, this scholarship awards full tuition and student body fees each semester for eight semesters. To be considered, applicants must have an admissions index score of 131 or higher. This award applies *only* to undergraduate coursework. To remain eligible for this scholarship, a student must enroll for and complete at least 12 credits each semester, for a total of 24 credits per year, and maintain a 3.5 USU cumulative GPA.

### Dean's Scholarship

Awarded for two years, this scholarship awards full tuition each semester for four semesters. To be considered, applicants must have an admissions index score of 126 or higher. This award applies *only* to undergraduate coursework. To remain eligible for this scholarship, a student must enroll for and complete at least 12 credits each semester, for a total of 24 credits per year, and maintain a 3.5 USU cumulative GPA.

### University Ambassador Scholarship

During eight semesters (four years), full tuition and student body fees are awarded. To be considered, applicants must have a minimum 3.4 GPA and a minimum ACT score of 23 or SAT score of 1060. In addition to a separate application, applicants must submit an extensive recruitment portfolio and two letters of recommendation. This award applies *only* to undergraduate coursework. To remain eligible for this scholarship, a student must enroll for and complete at least 12 credits each semester, for a total of 24 credits per year. An application for this scholarship can be downloaded from:

<http://www.usu.edu/admissions/scholarships/Ambassador-app.pdf>

### Aggie Scholar Scholarship

During four semesters (two years), \$1,000 per semester is awarded toward tuition. To be considered, applicants must have an admissions index score of 120 or higher. This award applies *only* to undergraduate coursework. To remain eligible for this scholarship, a student must enroll for and complete at least 12 credits each semester, for a total of 24 credits per year, and maintain a 3.5 USU cumulative GPA.

### Merit Scholarship

During four semesters (two years), \$600 per semester is awarded toward tuition. To be considered, applicants must have an admissions index score of 116 or higher. This award applies *only* to undergraduate coursework. To remain eligible for this scholarship, a student must

enroll for and complete at least 12 credits each semester, for a total of 24 credits per year, and maintain a 3.5 USU cumulative GPA..

### Achievement Scholarship

During two semesters (one year), \$325 per semester is awarded toward tuition. To be considered, applicants must have an admissions index score of 112 or higher. This award applies *only* to undergraduate coursework. To remain eligible for this scholarship, a student must enroll for and complete at least 12 credits each semester, for a total of 24 credits per year.

### Alumni Chapter Scholarships

To be considered for a chapter scholarship, a student must be (1) living in an area with a chartered alumni chapter, (2) be an incoming freshman or transfer student (cannot have previously attended USU), and (3) be a child or grandchild of a USU alumnus. The amount of each scholarship is based on the funds raised in each chapter. Therefore, the scholarships may be different each year. For information about these scholarships, contact the Alumni Office at (435) 797-2055, or visit <http://www.usu.edu/alumni/scholarships/>

### ROTC Scholarships

For information about these scholarships, contact the Air Force ROTC Office at (435) 797-8723 or the Army ROTC Office at (435) 797-3637. Information is available on the Web at:

<http://www.afrotc.com/scholarships> and  
<http://www.garmy.com/rotc/scholarships.jsp>

## Freshman Nonresident Scholarships

The scholarships listed below are based on the 2009-2010 applicant pool and are subject to change without notice. For the latest information on freshman scholarships, visit:

<http://www.usu.edu/admissions/scholarships>

### Presidential Nonresident Scholarship

Awarded for four years, this scholarship awards full tuition and student body fees each semester for eight semesters. Nonresident students are able to apply for Utah residency after 12 continuous months in the state, after establishing domicile, and upon providing proof of financial independence (not claimed as a dependent for tax purposes by someone living outside of Utah). Students are encouraged to gain residency during their first year at USU, as multiple-year scholarships will only cover out-of-state tuition for the first year. To be considered, applicants must have an admissions index score of at least 131. This award applies *only* to undergraduate coursework. To remain eligible for this scholarship, a student must enroll for and complete at least 12 credits each semester, for a total of 24 credits per year, and maintain a 3.5 USU cumulative GPA.

### Dean's Nonresident Scholarship

Awarded for two years, this scholarship awards full tuition each semester for four semesters. Nonresident students are able to apply for Utah residency after 12 continuous months in the state, after establishing domicile, and upon providing proof of financial independence (not claimed as a dependent for tax purposes by someone living outside of Utah). Students are encouraged to gain residency during their first year at USU, as multiple-year scholarships will only cover out-of-state tuition for the first year. To be considered, applicants must have an admissions index score of 126 or higher. This award applies *only* to undergraduate coursework. To remain eligible for this scholarship, a student must enroll for and complete at least 12 credits each semester, for a total of 24 credits per year, and maintain a 3.5 USU cumulative GPA.

# Financial Aid and Scholarship Information

## USU/ISU Scholarship

This award waives the out-of-state nonresident differential for two semesters (one year). During these two semesters, recipients will only need to pay the in-state portion of tuition. To be considered, an applicant must be a resident of Idaho and must have an admissions index score of at least 113. This award applies *only* to undergraduate coursework. To remain eligible for this scholarship, a student must enroll for and complete at least 12 credits each semester, for a total of 24 credits per year.

## 100-Mile Radius Scholarship

This award is worth approximately \$8,000. During two semesters (one year), \$4,000 per semester is awarded toward the out-of-state portion of tuition. To be considered, an applicant must live within 100 miles of Utah State's Logan campus and must be admitted in good standing to the main campus in Logan.

## University Ambassador Scholarship

During the first four semesters (two years), full tuition and student body fees are awarded. To be considered, applicants must have a minimum 3.4 GPA and a minimum ACT score of 23 or SAT score of 1060. In addition to a separate application, applicants must submit an extensive recruitment portfolio and two letters of recommendation. This award applies *only* to undergraduate coursework. To remain eligible for this scholarship, a student must enroll for and complete at least 12 credits each semester, for a total of 24 credits per year. An application for this scholarship can be downloaded from:

<http://www.usu.edu/admissions/scholarships/Ambassador-app.pdf>

## Aggie Scholar Scholarship

Awarded for two years during the first two semesters (one year), \$4,000 per semester is awarded toward tuition. During the second year after the student gains residency, \$1,000 per semester is awarded toward tuition. To be considered, applicants must have an admissions index score of 120 or higher. This award applies *only* to undergraduate coursework. To remain eligible for this scholarship, a student must enroll for and complete at least 12 credits each semester, for a total of 24 credits per year, and maintain a 3.5 USU cumulative GPA.

## Western Undergraduate Exchange

Utah State University participates in the Western Undergraduate Exchange (WUE), a program of the Western Interstate Commission for Higher Education (WICHE). Through WUE, certain students who are not residents of the State of Utah may enroll at Utah State University by paying resident tuition plus 50 percent of that amount (plus other fees that are paid by all students).

Because Utah State University participates in the WUE program, residents of Utah may enroll under the same terms in designated institutions and programs in other participating states.

Information about and applications for WUE programs available at USU may be obtained from the USU Admissions Office, 0160 Old Main Hill, Logan UT 84322-0160, tel. (435) 797-1079 or (800) 488-8108. Utah residents may obtain information about WUE programs in other states from the Certifying Officer for Utah WICHE Student Exchange Program, #3 Triad Center, Suite 550, 355 West North Temple, Salt Lake City UT 84180-1205, tel. (801) 321-7124 or from WICHE Student Exchange Program, P.O. Box 9752, Boulder CO 80301-9752, tel. (303) 541-0214 or 0210, FAX (303) 541-0291.

## Transfer Resident Scholarships

### Transfer Presidential Scholarship

Awarded for two years, this scholarship awards full tuition and student body fees each semester for four semesters. To be considered, applicants must have completed a minimum of 24 graded post-high school transferable credits with a 4.00 cumulative GPA. To remain eligible for this scholarship, a student must enroll for and complete 12 credits per semester, for a total of 24 credits per year, and maintain a 3.5 USU cumulative GPA.

### Transfer Dean's Scholarship

Awarded for two years, this scholarship awards full tuition each semester for four semesters. To be considered, applicants must have completed a minimum of 24 graded post-high school transferable credits with a minimum 3.75 cumulative GPA. To remain eligible for this scholarship, a student must enroll for and complete 12 credits per semester, for a total of 24 credits per year, and maintain a 3.5 USU cumulative GPA.

### Transfer Ambassador Scholarship

During four semesters (two years), this scholarship awards full tuition and student body fees. This scholarship is awarded to a select group of students who demonstrate leadership and recruiting skills through experience, activities, and involvement in both school and community. In addition to a separate application, applicants must submit an essay and two letters of recommendation. To be considered, applicants must have an associate degree and a minimum 3.2 cumulative GPA. The application deadline is February 1.

### Transfer Aggie Scholar Scholarship

During four semesters (two years), \$1,000 per semester is awarded toward tuition. To be considered, applicants must have completed a minimum of 24 graded post-high school transferable credits with a 3.50 to 3.74 cumulative GPA.

## Transfer Nonresident Scholarships

### Presidential Nonresident Transfer Scholarship

Awarded for two years, this scholarship awards full tuition and student body fees each semester for four semesters. Nonresident students are able to apply for Utah residency after 12 continuous months in the state, after establishing domicile, and upon providing proof of financial independence (not claimed as a dependent for tax purposes by someone living outside of Utah). Students are encouraged to gain residency during their first year at USU, as multiple-year scholarships will only cover out-of-state tuition for the first year. To be considered, applicants must have completed a minimum of 24 graded post-high school transferable credits with a 4.00 cumulative GPA. To remain eligible for this scholarship, a student must enroll for and complete 12 credits per semester, for a total of 24 credits per year, and maintain a 3.5 USU cumulative GPA.

### Dean's Nonresident Transfer Scholarship

Awarded for two years, this scholarship awards full tuition each semester for four semesters. Nonresident students are able to apply for Utah residency after 12 continuous months in the state, after establishing domicile, and upon providing proof of financial independence (not claimed as a dependent for tax purposes by someone living outside of Utah). Students are encouraged to gain residency during their first year at USU, as multiple-year scholarships will only cover out-of-state tuition for the first year. To be considered, applicants must have completed a minimum of 24 graded post-high school transferable credits with a minimum 3.75 cumulative GPA.

# Financial Aid and Scholarship Information

To remain eligible for this scholarship, a student must enroll for and complete 12 credits per semester, for a total of 24 credits per year, and maintain a 3.5 USU cumulative GPA.

## USU/ISU Scholarship

This award waives the out-of-state nonresident differential for two semesters (one year for up to \$9,000 per year). During these four semesters, recipients will only need to pay the in-state portion of tuition. To be considered, an applicant must be a resident of Idaho and must have completed a minimum of 24 graded post-high school transferable credits with a minimum 3.30 cumulative GPA.

## 100-Mile Radius Scholarship

This award is worth approximately \$8,000. During two semesters (one year), \$4,000 per semester is awarded toward the out-of-state portion of tuition. To be considered, an applicant must live within 100 miles of Utah State's Logan campus, and must have completed a minimum of 24 graded post-high school transferable credits with a minimum 2.75 cumulative GPA.

## Aggie Scholar Nonresident Transfer Scholarship

This scholarship awards \$8,000 for one year (\$4,000 per semester for two semesters) and \$2,000 for the second year (\$1,000 per semester for two semesters). To be considered, applicants must have completed a minimum of 24 graded post-high school transferable credits with a 3.50 to 3.74 cumulative GPA. To remain eligible for this scholarship, a student must enroll for and complete 12 credits per semester, for a total of 24 credits per year, and maintain a 3.5 USU cumulative GPA.

## Transfer Ambassador Scholarship

During four semesters (two years), full tuition and student body fees are awarded. This scholarship is awarded to a select group of students who demonstrate leadership and recruiting skills through experience, activities, and involvement in both school and community. In addition to a separate application, applicants must submit an essay and two letters of recommendation. To be considered, applicants must have an associate degree and a minimum 3.2 cumulative GPA. The application deadline is February 1.

## Western Undergraduate Exchange

Utah State University participates in the Western Undergraduate Exchange (WUE), a program of the Western Interstate Commission for Higher Education (WICHE). Through WUE, certain students who are not residents of the State of Utah may enroll at Utah State University by paying resident tuition plus 50 percent of that amount (plus other fees that are paid by all students). For further information, see WUE text on page 49 of this catalog.

## New Century Scholarship

The New Century Scholarship is funded by the Utah legislature to assist with the costs of postsecondary education for students who complete the equivalent of an associate degree by September 1 of the year their class graduates from high school.

The scholarship covers 75 percent of tuition costs at a Utah state-operated institution of higher education.

### Terms of the Scholarship

The scholarship may be used for two years of full-time equivalent enrollment (60 credits) or until the requirements for a baccalaureate degree have been met, whichever is shorter.

The scholarship may be used at any higher education institution in the state accredited by the Northwest Association of Schools and Colleges that offers baccalaureate programs.

Recipients have four years after graduation from high school to use the award.

### Eligibility

The New Century Scholarship is open to Utah students who have graduated from a regionally accredited high school in the year 1999 or later. The applicant must have completed the equivalent of an associate degree from Utah State University by September 1 of the year that their class graduates from high school.

At Utah State University, the equivalent of an associate degree is defined as:

1. Completion of the General Education portion of the University Studies requirements, **and**
2. Completion of 60 semester credits.

## Centennial Scholarship

The Centennial Scholarship for Early Graduation program is a *partial* tuition program which allows for high school graduation to be flexible and appropriate to meet the needs of individual students.

### Eligibility

Any public school student who: (1) has a Student Education Occupation Plan (SEOP) on file, (2) has indicated to the secondary school principal the intent to complete early graduation, (3) has completed all required courses or demonstrated mastery of required skills and competencies, and (4) has graduated from a Utah public high school is eligible.

### Requirements

To receive scholarship funds, a student must: (1) graduate early from a Utah secondary institution, and (2) enroll within one calendar year in an eligible Utah post-secondary institution. Post-secondary institutions accredited by the Northwest Association of Schools and Colleges are eligible. A student must begin using funds as a full-time student and for *tuition only* within one calendar year of high school graduation.

### Scholarship Funds

Funds for the Centennial Scholarship will be disbursed as follows:

Junior year.....	\$1,000
First quarter of senior year .....	750
Second quarter of senior year .....	500
Third quarter of senior year .....	250
First trimester of senior year.....	666
Second trimester of senior year.....	333

# Financial Aid and Scholarship Information

## Procedures

1. In consultation with the student's parent or guardian and school advisor, the student develops a Student Education Occupation Plan (SEOP) and indicates to the secondary principal the intent to complete early graduation at the beginning of the ninth grade year or as soon thereafter as the intent is known.
2. Upon graduation, the student obtains the Centennial Scholarship for Early Graduation certificate from the high school counselor.
3. The high school principal verifies the student's early graduation and signs the certificate. The original certificate is kept by the student. Additional copies are made for school and district records.
4. The student enrolls full time in an eligible post-secondary institution and presents the certificate to the registrar.
5. The registrar verifies the student's enrollment, and completes, signs, and seals the certificate. The original copy is sent to the Utah State Office of Education (USOE).
6. USOE verifies the information, approves the funding, and issues funds. Funds are sent directly to the post-secondary institution in the student's name within 4-6 weeks.
7. Any funds remaining unused when the student leaves the post-secondary institution are returned to USOE.

## Regents' Scholarship

During 2008, the Utah State Legislature created the Regents' Scholarship. This scholarship encourages Utah high school students to prepare for college academically and financially by taking a rigorous course of study and saving for college. There are three elements to this scholarship: (1) a Base Award, (2) an Exemplary Academic Achievement Award, and (3) a Supplemental Award. All three awards can be applied toward tuition and fees at a post-secondary institution within the State of Utah.

### Eligibility and Requirements

Three different criteria apply for the three sections of the scholarship. These criteria are shown below.

**Base Award.** This award may be given to any public school student who (1) has a cumulative high school GPA of 3.0 or higher, with no individual grade lower than a C in required core courses; (2) has a reported ACT score; (3) has passed the Utah Basic Skills Competency Test (UBSCT); (4) is a U.S. citizen or an eligible noncitizen for receiving federal aid; (5) has no criminal record (with the *exception* of misdemeanor traffic citations); and (6) enrolls full time at an eligible Utah institution of higher education within 12 months of high school graduation (*unless* an approved leave of absence is obtained).

**Exemplary Academic Achievement Award.** This award may be given to any public school student who (1) qualifies for the Base Award Regents' Scholarship; (2) has a cumulative high school GPA of 3.5 or higher, with no individual grade lower than a B in required core courses; and (3) has an ACT score of 26 or higher.

**Supplemental Award.** This award may be given to any public school student who has contributed between the ages of 14-17 to their Utah Educational Savings Plan account.

## Scholarship Funds

**Base Award.** This award is worth up to \$1,000, and is awarded as a one-time payment.

**Exemplary Academic Achievement Award.** This award is equal in value to 75 percent of the cost of tuition for up to two years of full-time enrollment or until the associate or bachelor's degree requirements have been met (whichever time is shorter). To maintain the award, the student must average grades of B or better for two consecutive semesters and must make reasonable progress toward completion of an associate or bachelor's degree.

**Supplemental Award.** This award is worth \$100 per year for students who have contributed between the ages of 14-17 to their Utah Educational Savings Plan account. The maximum amount that may be awarded is \$400.

### Additional Information

The Regents' Scholarship may be used for any qualifying college-related expenses, including tuition, fees, housing, and books.

Students may use the Regents' Scholarship along with other scholarships and federal grant aid. However, a student *may not be awarded both* a Regents' Scholarship and a New Century Scholarship.

Further information about the Regents' Scholarship, as well as application information, may be found at:  
<http://www.utahsbr.edu/acad01i.html>

## University Research Fellowships

Utah State University is known nationally for its emphasis on hands-on learning in research, scholarship, and the creative arts. University Research Fellowships of \$1,000 per year (renewable) are awarded to students who successfully compete in the application and interview process. Fellows are paired with a faculty member and begin inquiry in their fields of study as freshmen, which prepares them to compete for prestigious scholarships and entry into graduate studies. Presidential and Dean's Scholars are eligible to compete for Research Fellowships.

## Continuing USU Student Scholarships

### Department Scholarships

Each department has its own scholarship application, which is available at the department's office and must be returned there by the given deadline. For most departments, the application deadline is February 1.

Tuition waivers and other forms of academic scholarships are awarded to students who are or who have been students at USU. Such applicants compete with other students within their department. Students should check with their department for application requirements and deadlines.

### Private Endowment Scholarships

Each of the seven colleges at USU awards scholarships to undergraduate and graduate students. Although most of these scholarships are awarded to students who have *already attended* USU for one or more semesters, a *few* of them are available to new freshmen who have already decided upon their major area of study. Application forms are available from the dean's office of each college. Information about private endowment scholarships, including the qualifications for receiving each of them, is provided online at:  
<http://www.usu.edu/generalcatalog/scholarships/college.cfm>

# Housing and Residence Life

---

## Live and Learn

Students living on campus are at the heart of campus life. Research shows that on-campus students tend to be more involved in academic and extracurricular activities, persist and graduate on time, and enjoy their overall collegiate experience. All students living within Housing communities have access to the following services to assist in their academic success: computer labs, high-speed Internet access, educational programming, peer tutors (math and writing), academic advising and career counseling, faculty mentoring, and leadership and service opportunities. A well-trained team of professional and peer staff also provides numerous opportunities for social and educational activities, which build the community and supplement and support formal classroom experiences. Also, live-in staff members are trained to assist students with a variety of issues, such as roommate conflicts, eating disorders and other mental health issues, and personal safety.

## Theme Housing

Theme Housing is a collaborative program at Utah State that is dedicated to learning outside of the classroom. The underlying mission of theme housing is to link residence halls with academic or general interest themes, and create communities of residents with shared interests and goals. Each theme community is supported by a peer mentor who provides on-site tutoring and advising, and who plans fun social programs. Theme housing options include the following:

### Academic Lifestyles

These floors are sponsored by academic departments and colleges. Academic Lifestyles are very popular and have strong returning communities. Residents must be enrolled in the major related to their floor. The following floors are offered in South Campus: American Sign Language, World of Business, The Vector Floor (Engineering), Computer Science, Prehealth Professionals, and Natural Resources Floor.

### Community Lifestyles

Community Lifestyles provide immediate campus involvement and are focused on scholarship, diversity, service, and leadership. These communities are sponsored by student clubs and organizations. Global Village is located in the Student Living Center, and Leadership House and Honors House are located in the Living/Learning Community. **Global Village** is open to all students who want to explore the study abroad program and learn about other cultures. **Honors House** is open to students enrolled in or planning to enroll in the Honors Program. **Leadership House** is open to all students interested in student government and community service and is a great opportunity for campus involvement.

### Freshman Interest Groups (FIGs)

For making the transition to university life with all the benefits of a small college atmosphere, this is the ultimate freshman experience. Each theme-oriented FIG includes 16-18 students who live near each other, meet regularly for meals, and attend group activities. Students are assigned a peer mentor who joins them for meals, provides academic assistance, and serves as their guide to campus life. The following FIGs are currently offered: Appreciating the Arts, Elementary Education, Healthy Living, Outdoor Adventures, and Science and Society.

## Housing Communities

### Central Campus

#### **Bullen Hall, Mountain View Tower, Richards Hall, Valley View Tower**

Central Campus is a close-knit community centered on lasting friendships, fun, and student achievement. This is the home of the FIGs (Freshman Interest Groups). A high percentage of first-year students live in this area and receive intentional staff support and community development to meet their needs.

### Student Living Center

#### **Davis Hall, Jones Hall, Morgan Hall, Rich Hall, Snow Hall, San Juan Hall, Wasatch Hall**

This community is an excellent location for students who want an academic setting surrounded by abundant green space. Shuttle buses take students to the center of campus in a matter of a few minutes. This is the home of Global Village.

### South Campus

#### **Greaves Hall, Merrill Hall, Moen Hall, Reeder Hall**

The South Campus is located just steps from the Merrill-Cazier Library and key campus buildings. This is the home of the Academic Lifestyles Program, as well as the Returning Resident Community, located in the west wing of Merrill Hall. These programs are designed to meet the needs of nonfreshmen.

### Living/Learning Community

Located in the very heart of campus on the north end of Old Main Hill, this community includes a community center complete with meeting and program space, as well as clustered lounge spaces designed to take full advantage of the beautiful scenery of the campus and the valley below. The living space has been intentionally designed to provide privacy, while at the same time promoting important social interactions between roommates, between others living in the individual buildings, and throughout the community as a whole. Leadership House and Honors House are located here.

### Graduate and Upper-Division Housing

Single students desiring to live in this area must have completed at least 60 credits or must be 25 years or older, in order to qualify to live in an upper-division apartment. Students enrolled in a master's or doctorate program at Utah State qualify to live in graduate apartments. Located adjacent to the main campus, Aggie Village and Summit Hall are ideal for students seeking privacy and quiet study time. Only two students per apartment are housed in Aggie Village, and only three students per apartment are housed in Summit Hall. (Each student has a private room.) Aggie Shuttle Buses are regularly scheduled to transport students to the main campus in a matter of minutes.

## Family Student Housing

### **Aggie Village, Mobile Home Park, Townhouses, West Stadium Villa**

Family Housing communities are an ideal choice for student families seeking a productive learning and living environment. Residents enjoy the extra space, both indoors and outdoors. In the classroom located in the Community Area Office, both Housing and Utah State Extension offer numerous classes and programs for family students. Living options include spacious one-, two-, and three-bedroom apartments, as well as a mobile home park.

Each community offers slightly different opportunities and is designed with the student in mind. Quality facilities with reasonable rates, service, and convenience are provided. All prices generally include: Internet access, local phone, cable TV, and free shuttle bus service. Single Housing prices include all utilities and furniture. Family Housing units have full kitchens and are rented unfurnished. Family Housing residents are responsible for payment of electric and gas utility bills.

For further information about the current price listings, style options, and availability, visit the housing website at:

<http://www.housing.usu.edu/>, or contact the Housing Office at (435) 797-3113, toll free at (800) 863-1085, or via e-mail at: [info@housing.usu.edu](mailto:info@housing.usu.edu).

# Dining Services

---

Utah State University Dining Services is committed to creating an excellent college dining experience. All of the operations are places that become a major part of the everyday experience at USU. From executive chefs, right down to almost 300 student employees, Dining Services wants to make sure that students, faculty, staff, and guests all enjoy their dining experiences on campus. For more information about dining options, call (435) 797-1701, or visit Dining Services in Taggart Student Center 232 or at <http://www.usu.edu/dining/>

## The Hub

Located on the first floor of the Taggart Student Center (the “hub” of campus), this food court offers many choices for students “on the go.” A great social spot, the Hub provides a place to meet and eat on campus. A variety of menu options from many well-known chains, such as Café Ibis, Hogi Yogi, Teriyaki Stix, and Taco Time, are offered. The Hub also proudly features many “Be Well” options to make healthy eating easy and even less expensive.

## Aggie Marketplace

Located on the second floor of the Taggart Student Center, the Aggie Marketplace is the newest residential dining facility. It offers a variety of different menu options, including Mongolian grill, pizza, pasta, salad bar, Mexican, rotisserie chicken, and much more. Daily specials at Mama Blues are prepared daily by the Executive Sous Chef. The Aggie Marketplace features all-you-care-to-eat, fresh food at one low price.

## The Skyroom

Located on the fourth floor of the Taggart Student Center, the Skyroom is USU’s only full-service restaurant. It offers a wide variety of entrees prepared daily by professional chefs. Each day features a different “all-you-care-to-eat” lunch buffet. A daily “all-you-care-to-eat” salad and soup bar is considered by many the best in Cache Valley.

## The QuickStop

This campus convenience store, located on the first floor of the Taggart Student Center, offers a wide variety of snacks, soda, and candy, as well as a variety of grab-and-go items, all in one convenient location.

## The QuadSide Café

The Quadside Café is a coffee shop and more. It features Cache Valley’s famous Café Ibis coffee, specialty drinks, pastries, sandwiches, salads, and soft drinks. The Quadside Café, conveniently located in the lobby of the Merrill-Cazier Library, is a great place to get something to eat before studying.

## The Junction

The Junction is a residential on-campus dining hall. It features a full salad and soup bar, grill, and fresh made-to-order sandwiches and entrees prepared daily by professional chefs. In order to meet individual lifestyles and budgets, the Junction provides several different meal plans.

## University Catering

University Catering offers an extensive menu and provides food for buffets, served meals, barbeques, receptions, and any other event needing catering. The professional service staff, along with an executive chef, can create the perfect event within any budget.

## Meal Plans

Block meal plans can be purchased in quantities of 25, 50, or 75 meals. By purchasing these block plans, customers enjoy a huge discount when compared to the regular cash price. Students, faculty, and staff members having block meal plans can also use their plans to purchase meals for friends and family when dining at either the Aggie Marketplace or the Junction.

Aggie Express is the most convenient way to eat at the dining operations on campus. By using this debit account, customers enjoy a 10 percent discount at all locations (excluding the QuickStop).

# New Student Orientation and University Connections

## New Student Orientation

### New Freshmen

Newly admitted first-year students must participate in a Student Orientation, Advising, and Registration (SOAR) session before being permitted to register for classes. SOAR is designed to assist students in making a successful transition to USU. In addition to registering for classes, students have the opportunity to receive individual advice about degree requirements, as well as vital information about student services, campus life, and athletics. New students should be aware that a *registration hold* is placed on their file until some form of orientation is completed. After admission to USU, students will receive information about SOAR programs.

### University Deposit

All new freshmen are required to reserve their spot at USU by paying a \$100 deposit. The \$100 will be applied toward a student's account. It will cover the cost of the SOAR option selected, and any remaining balance will go toward tuition and fees.

### Early Registration Request

Students who pay the \$100 deposit and register for SOAR prior to the posted deadline will be able to submit an Early Registration Request. The earlier students submit their deposit and register for SOAR, the more likely they are to get the classes of their choice and the orientation date of their choice. Students will *not* be allowed to modify their schedules until they participate in SOAR.

Students who miss the posted deadline must still pay the University deposit and register for SOAR. However, they will not be able to submit an Early Registration Request.

For further information or to receive more information about SOAR, call New Student Orientation at (435) 797-0283 or (800) 606-4878, or visit the SOAR website at: <http://www.usu.edu/soar>

### Mathematics Placement Test

Students who have a valid Math ACT score of less than 23, who *do not* have a valid Math ACT score, or who have *not* taken a Math course (e.g. MATH 1050 College Algebra) are required to take the Math Placement Test. The fee for this test is \$10, and students attending SOAR will be given the opportunity to take this test while attending SOAR on campus at USU. The results of this test will be used to advise new students into appropriate mathematics or statistics courses.

### Transfer Students

A student is considered to be a transfer student if he or she has completed at least 24 semester credits of post-high school work at another institution. This does not include concurrent enrollment or AP credits. This does include credits a student is currently taking at another institution.

Newly admitted transfer students are required to contact their academic advisor before registering for classes. Transfer students are not required to participate in orientation. During the summer, the SOAR office does provide a half-day nonmandatory informational session for transfer students.

### Academic Advising

Upon admission to USU, all new students are assigned to an academic advisor. During New Student Orientation, students meet with their advisors, plan their class schedules, and register for classes. Advising

is the process encompassing development and delivery of accurate and up-to-date information regarding career options, educational programs, courses of instruction, resources, policies, and procedures to aid students in pursuing their educational goals.

Each student should consult with his or her academic advisor on a regular basis, and as needed, until the student's program of study is completed. The advisor can help the student to select, plan, and complete a program of study which is consistent with the student's interests, abilities, and needs, and can assist the student in selecting appropriate courses in the proper sequence to complete all requirements for graduation.

Each student is responsible for learning and completing graduation requirements for academic programs selected. Major Requirement Sheets showing University, college, and departmental requirements for each academic program are available at:

<http://www.usu.edu/majorsheets/>

For information about the Office of University Advising, as well as details about the advising structure and contact information for each of the seven colleges, see page 12.

An *Advisor List by Major* is available on the web at: <http://www.usu.edu/advising/advisors/>.

## University Connections

University Connections is a course specifically designed to ease the transition to Utah State University and prepare students for an exciting collegiate experience. This unique course focuses on developing critical college study skills, time-management techniques, and test-taking strategies. Through this course, students are connected to the University environment, including academic expectations, policies and procedures, resources, services, and physical layout. Through a common literature experience, students are provided with an introduction to the challenging academic environment of the University. Students are also introduced to extracurricular activities designed to enrich their overall educational experience. Most importantly, Connections allows students to develop a support network of classmates, faculty, and staff to help ensure a successful beginning to their academic experience.

### Course Format

Connections classes have 25-30 participants per class. The **traditional model** (for which students earn **2 credits**) includes pre-semester sessions held the week before the semester begins, and three one-hour sessions held after the semester begins. The three semester sessions are designed to provide additional support during the student's transition to the University environment, including crucial information necessary to academic success. In the **extended model** (for which students earn **1 credit**), students meet for one hour, twice per week during the first eight weeks of the semester. This option caters to students who are unable to attend Connections during the week before school starts. This includes (but is not limited to) students participating in band and athletics, as well as international students.

### Registration

Students attending SOAR will be provided with an opportunity to register for Connections during their orientation session. Registration may also be accomplished online by logging into Banner at: <http://www.usu.edu/myusu/>

For more information about University Connections, visit: <http://www.usu.edu/connections/>

# Registration, Student Records, and Academic Standing

**Registrar:** John D. Mortensen  
**Location:** Taggart Student Center 246  
**Phone:** (435) 797-1116  
**FAX:** (435) 797-1110  
**E-mail:** john.mortensen@usu.edu  
**WWW:** <http://www.usu.edu/registrar/>

## Registration

### Registration Eligibility

Only eligible students may register for courses at the University. An eligible student is either continuing from the previous year or has been admitted or readmitted to the University.

### Classification of Students

At the beginning of each semester, undergraduate students are classified for that semester as follows:

Credit Hours Earned	Classification
0-29	Freshman
30-59	Sophomore
60-89	Junior
more than 89	Senior

### Registration Requirement

All students attending classes must be registered. Students are officially registered when all tuition and fees have been paid in full. Failure to pay tuition and fees by the published fee payment deadline may result in courses being voided (see *Registration Purge* on pages 57-58). Students are responsible for dropping courses for which they do not wish to receive a grade.

### Registration for Mathematics Courses

ACT and SAT scores for mathematics competency and passing grades in MATH 0900, 1010, 1050, and 1060 are valid for use in placement and as prerequisites for one calendar year for nonmatriculated students and three successive semesters (including summer semester) for matriculated students. (See page 44 for specific dates by which prerequisites must be completed.) **Note:** This acceptability time limit applies *only* to prerequisites for MATH 1010, 1030, 1050, 1060, 1100, 1210, 2020, and STAT 1040. The time limit *does not apply* to mathematics prerequisites for courses offered by other departments.

### Proof of Identification

Students who wish to receive University services in-person must present photo identification. Students doing business online must login using the appropriate credentials. Each admitted student who completes the registration process for a regular semester will be issued a student identification card. This photo identification card is valid for the duration of the student's enrollment at Utah State University. Photo IDs are issued throughout the semester by the Card Office, Taggart Student Center 212.

### Adding Courses

After the fifth day of classes, any additions to the original registration must: (1) be recorded on an official add form, and (2) include the instructor's signature. In addition to the Registrar's Office, add forms may be taken to an academic advisor, who may electronically authorize a student to register for a course. Deadlines as outlined on pages 6-8 must be observed.

Courses may be added for credit or audit. An instructor's signature is required beginning the second week of the semester (sixth day of classes) during fall and spring semesters, and other dates as noted on pages 6-8. Students may not add into a full class at any time without an instructor's signature. An instructor should not sign a blank Add Form, but should ensure that the proper course information (e.g., CRN, course prefix, course number, etc.) is present before signing and dating the form. The Registrar's Office will not process any Add Form that is not dated, or for which the signature date is older than three business days. Advisors who have access to authorize students into full classes will follow the same guidelines as the Registrar's Office. Specific deadlines for adding courses may be found on pages 6-8. All requests for audit registration must be approved by the instructor and must be submitted to the Office of the Registrar, Taggart Student Center 246.

### Late Registration

Following the published add deadline, a transaction fee of \$100 per course will be assessed for all undergraduate and graduate courses added. Dissertation, thesis, directed study, continuing graduate advisement, and independent study courses added for graduate work, as well as Military Science courses, are exempted from this late fee.

### Credit Limit

Students registering for **more than 18 credits** must present their advisor's signed authorization to the Registrar's Office.

### Pass (P), D+, D, F Option

Students may register for a Pass (*P*), *D+*, *D*, *F* option. The grade of Pass (*P*) indicates academic achievement of not less than *C-*. Credits for which the Pass (*P*) grade is received are not GPA hours, and are therefore not used in the calculation of a student's grade point average. At no future time may the student request a letter grade, once the *P*, *D+*, *D*, *F* option has been requested.

A student desiring a *Pass*, instead of a regular grade in a course, must request a pass/fail form from the Registrar's Office, Taggart Student Center 246. This form, which must be signed by the student's advisor and returned to the Registrar's Office by the 60 percent point of the course, may not be revised under any circumstances. (Check pages 6-8 for the exact dates.)

A grade of *P* indicates academic achievement of not less than *C-*. All students, including freshmen, may take courses on a *P/D+*, *D*, *F* basis. A minimum of 72 of the 120 credits required for the baccalaureate degree must carry the *A*, *A-*, *B+*, *B*, *B-*, *C+*, *C*, *C-*, *D+*, *D* designation, unless the major department or college changes this limitation. All CLEP, AP, and other special examination credits are considered *P* and are included in the total *P* grades permitted. The *P* shall also be used to record on the student's permanent academic record all special credit in which other grades are inappropriate. Many departments do not allow students to take required courses on a *P/D+*, *D*, *F* option, and many professional or graduate schools may not accept *P* grades. Therefore, an advisor's signature is required, *before* students may take courses under this option.

# Registration, Student Records, and Academic Standing

Some courses are *only* offered as Pass/Fail. When a course is offered only in this manner, this information must be clearly stated in the syllabus.

## Tuition, Fees, and Refunds

See *Tuition, Fees, and Refunds* section of this catalog, pages 64-66.

## Records Hold

A "Records Hold" will be placed on a student's record when an outstanding financial obligation or disciplinary action has been reported.

When a "hold" is placed on a record, the following results may occur: (1) An official and/or unofficial transcript may not be issued; (2) registration privileges may be suspended; (3) other student services may be revoked. The "hold" will remain effective until removed by the initiating office. It is the student's responsibility to clear the conditions causing the "hold."

## Full-time Status

The minimum registration load for a full-time undergraduate student is 12 credits. **Students who desire to graduate in four years (eight semesters) must average a semester load of at least 15 credits per semester.** To be eligible for student body offices, students are required to be registered for 12 or more credits. To be eligible to receive financial aid, a student is required to register for 6 or more credits. Students on scholarships must be registered for 12 or more credits, unless otherwise indicated. Veterans and students eligible for a veteran's educational allowance are required to be matriculated and registered for 12 or more credits (for undergraduate students) or 9 or more credits (for graduate students) to qualify for full educational benefits. Students registered for less than 12 credits should contact the Veterans Services Office to determine if they are eligible for partial benefits.

## Auditing Classes

Admitted students who wish to audit a class must register as auditors. Auditing is dependent on space, resource availability, and instructor approval. No credit or grade points will be granted. The regular tuition and course fees will be assessed. At no future time may students request or receive credit for the audited course by any other means than by officially registering for the course and doing the required work. Audit requests, approved by the instructor, must be submitted to the Registrar's Office and tuition and fees must be paid before class attendance is permitted. Students are not permitted to register as auditors during Early Registration.

House Bill 60 (1977) permits Utah residents 62 years of age or older to audit regular university classes offered during the day or offered through Regional Campuses and Distance Education. However, space in many university classes is limited. Classes which are full at the time of an audit request are unavailable. Credit seeking, full-tuition paying students shall have first priority in the registration process. A flat fee of \$10 per semester, **plus any course fees or special fees that may be attached to classes**, is charged for House Bill 60 (1977) registration.

## Tuition and Fee Payment Deadlines and Consequences

Fee payment deadlines for each semester are shown in the *Registration Calendar* section, pages 6-8. After the original fee payment deadline, tuition and fees are due daily. There is one fee payment deadline for summer semester, and fall and spring semesters each have five fee payment deadlines.

Students having an outstanding balance after a fee payment deadline may be dropped or "purged" from their classes. (See information shown below concerning the *Registration Purge*.)

For fall and spring semesters, the first four fee payment deadlines will be immediately followed by a registration purge. Students having an outstanding balance following the fifth fee payment deadline will not be purged, but may be assessed a \$100 late tuition payment fee, as well as ongoing charges for the unpaid balance.

## Payment Options

It is *strongly recommended* that students complete all of their tuition and fee payments online. An option is available for students to authorize other individuals, such as parents or grandparents, to create their own login credentials to view and make payments on the student's behalf. Several payment options are available.

**Web Check (no fees).** The preferred method of payment is through web check (electronic check). Through this option, no additional fees are assessed. However, standard fees may apply if there are insufficient funds in the account, or if the wrong account information is submitted.

**Payment Plan (setup fee).** When students pay their tuition and fees, they will have a choice to sign up for a payment plan. Different plans may be available. The standard Tuition Installment Plan (TIP) requires the student to make a down payment of 50 percent of the balance, plus pay a \$50 setup fee. The student will then pay 25 percent of the balance after the first month, and the remaining 25 percent of the balance after the second month.

**Credit Card (additional fees assessed).** Students may pay their tuition and fees with a credit card. USU currently accepts MasterCard and Discover, and may also accept American Express in the future. A 2.75 percent convenience fee will be assessed for payment by credit card. This equates to an additional fee of \$27.50 for every \$1,000 paid through credit card. In addition, credit card interest fees may apply for unpaid balances to the credit card company.

**Summary of Additional Fees.** Comparisons using each of the options listed above are shown below. An additional scenario is given for a student who still has an outstanding balance after the last fee payment deadline. These examples use the 2008-2009 tuition and fee amount for a full-time resident student, which was \$2,222.41.

Web Check.....	\$0
Payment Plan .....	\$50 setup fee
Credit Card .....	\$61.12 convenience fee
No Plan (Late Fee).....	\$100 late tuition payment fee

## Registration Purge

If a student has not paid tuition and fees in full, the Registrar's Office may cancel (or "purge") the student's registration for the upcoming semester, meaning the student will no longer have a seat reserved in the classes he or she has chosen. The determining factor as to whether or not a student's registration will be "purged" depends upon the balance owed. Class fees are included in the balance owed. In instances where a student has made full payment for some of his or her classes, every effort will be made to drop *only* those classes for which the tuition and fees have not been paid, in an effort to ensure that *only* the last added class or classes will be dropped.

# Registration, Student Records, and Academic Standing

The registration purge is governed by the following policies:

1. There is one purge for summer semester, and fall and spring semesters each have four purges. See pages 6-8 for dates.
2. Any student owing a balance of \$250 or greater will have his or her registration purged. Balance is defined as any amount owed, minus any financial aid authorized, paid, or memoed. Students participating in a payment plan will not have their registration purged, provided they have paid the amount due at the time of the payment deadline.
3. Beginning the first day of classes, any student who owes a balance of \$5 or more will have his or her student ID card deactivated.
4. After the sixth week of classes, a hold will be placed on the account of any student who owes more than \$50, preventing the student from registering for classes, including preregistration for the next semester, and preventing the student from receiving transcripts until he or she pays the balance owed.

Prior to each purge, students owing \$50 or more will be sent e-mails reminding them of the deadline. All students having their registration purged will receive an e-mail informing them of this action.

Faculty members and advisors having questions concerning these policies should contact Bill Jensen, Associate Registrar, (435) 797-1076, bill.jensen@usu.edu.

## Dropping Courses

If a student does not attend a class during the first week of the term or by the second class meeting, whichever comes first, the instructor may submit a request to have the student dropped from the course. (*This does not remove responsibility from the student to drop courses which he or she does not plan to attend.*) Students who are dropped from courses will be notified by the Registrar's Office through their USU e-mail account.

Students may drop courses without notation on the permanent record through the first 20 percent of the class. If a student drops a course following the first 20 percent of the class, a *W* will be permanently affixed to the student's record. After 60 percent of the class is completed, the student's academic advisor must sign any drop request, and a *W* with a grade assigned by the instructor will be entered on the student's permanent record. Under normal circumstances, a student may not drop a course after 75 percent of the class is completed. (Check pages 6-8 for exact dates.)

Students with extenuating circumstances should refer to the policy regarding *Complete Withdrawal from the University* on page 58 and the *Incomplete (I) Grade* policy on page 59.

In extenuating circumstances in which a complete withdrawal or an incomplete grade is not deemed the best action to take, a student may petition for a Late Drop up through the last day of classes. The term "extenuating" circumstances includes: (1) incapacitating illness which prevents a student from attending classes for a minimum period of two weeks, (2) a death in the immediate family, (3) financial responsibilities requiring a student to alter course schedule to secure employment, (4) change in work schedule as required by employer, (5) judicial obligations, or (6) other emergencies deemed appropriate by the instructor. Students requesting a late drop must submit a Petition for Late Drop to the Registrar's Office. The student must attach a typed

appeal stating an explanation and justification for the desired drop(s). Supporting documentation confirming the extenuating circumstances must accompany the petition. The cost of the petition is \$20, which is a nonrefundable processing fee and does not guarantee approval.

In the event that a student registers for a course which is later cancelled, it is the responsibility of the department to officially cancel the class with the Scheduling Office, and the student's responsibility to drop the course for a full refund. It is the department's responsibility to notify students of cancelled or rescheduled classes.

A student may not drop all of his or her classes without an official withdrawal (Complete Withdrawal) from the University.

## Complete Withdrawal from the University

For most undergraduate students, a complete withdrawal is initiated at the Retention and First-Year Experience Office website for change of enrollment: <http://www.usu.edu/studemp/leaveofabsence/>. At this site, students should choose the *Complete Withdrawal* option. Undergraduate international students must file a complete withdrawal offline, and should go to the International Students and Scholars Office, Taggart Student Center 313. Matriculated graduate students who wish to completely withdraw must present their case to the School of Graduate Studies Office, Main 164. No one will be permitted to withdraw from the University once final examinations have begun. The date of the official withdrawal is the date the withdrawal form or letter is received. A student who withdraws must be accepted for readmission before he or she may enroll again.

## Leave of Absence

Undergraduate students who wish to discontinue their studies for one or more semesters (other than summer term) must file a *Leave of Absence* form online. Students may file an admission deferral, a one-semester leave, a traditional leave of absence, or a complete withdrawal online at <http://www.usu.edu/rfye/loa>. Requests may be granted in the following circumstances:

1. Leaves of absence are generally granted and reviewed on a yearly basis for reasons relating to: illness or health, military service, employment, humanitarian or church service, family responsibilities, and financial obligations.
2. **The standard leave period is one year.** Allowances will be made for military activation, church or humanitarian service, and those with extenuating circumstances.

*Students must apply for leaves of absence for a current semester by the last day of classes for that semester.*

With very few exceptions, students who are attending another institution **may not** take a leave of absence. They must completely withdraw and apply for readmission. Students are encouraged to discuss possible exceptions with the Matriculation Advisor.

A student must apply for a leave of absence for a current semester *no later than* the last day of classes for that semester. USU's dropping courses policy explains how a leave of absence will affect a student's transcript.

A student who takes a leave of absence must officially notify the Matriculation Advisor of his or her intention to return to USU from leave. This *must* occur prior to registration. **In most cases, the student will not need to apply for readmission.**

# Registration, Student Records, and Academic Standing

## No-test Days

A five-day period designated as No-test Days precedes the five days of final examinations which are normally scheduled at the close of each academic semester. During No-test Days, no major examinations, including final examinations, will be given in order that students may concentrate on classwork, the completion of special assignments, writing projects, and other preparation for duly scheduled final examinations.

## Student Records

### Grading and Grading Options

For work in graded courses, *A* shall denote exceptional performance, *B* above average performance, *C* satisfactory performance, *D* poor performance, and *F* failing performance. Letter grades may be modified by plus (+) or minus (-) symbols (no *A+* or *D-*).

Ordinarily a standard grade is given upon completion of a course, unless a grading option of "Audit" or "Pass/D+, D, F" is indicated at the time of registration, on the syllabus, or within prescribed deadlines.

### Incomplete (I) Grade

Students are required to complete all courses for which they are registered by the end of the semester. In some cases, a student may be unable to complete all of the coursework because of extenuating circumstances. The term "extenuating" circumstances includes: (1) incapacitating illness which prevents a student from attending classes for a minimum period of two weeks, (2) a death in the immediate family, (3) financial responsibilities requiring a student to alter course schedule to secure employment, (4) change in work schedule as required by employer, (5) judicial obligations, or (6) other emergencies deemed appropriate by the instructor. The student may petition the instructor for time beyond the end of the semester to finish the work. If the instructor agrees, two grades will be given, an "I" and a letter grade for the course computed as if the missing work were zero. An *Incomplete Grade Documentation Form* must be filed by the instructor in the department or college office. Students may not be given an incomplete grade due to poor performance or in order to retain financial aid.

The student is required to complete the work by the time agreed upon (which may not be longer than 12 months). If no change of grade is submitted by the instructor within the prescribed period, the "I" will be removed and the letter grade originally submitted with the "I" will remain as the permanent grade for the course. Arrangements to complete the missing coursework are to be made directly with the instructor awarding the "I" grade, and in accordance with departmental and other USU policies. In the absence of the original instructor, special circumstances must be handled by the department head. Documentation of the reasons for granting an "I" grade and required work to be completed in order to remove the "I" grade must be recorded on the *Incomplete Grade Documentation Form*, which must be filed with the departmental office. Resolution of the "I" grade does not involve a complete repeat of the course, only the completion of missing coursework. **A student does not reregister for the course.** All "I" grades must be changed to letter grades prior to graduation, regardless of whether or not the course is required for the degree. Dissertation, thesis, directed study, and independent study courses taken for graduate work are exempted from this policy.

A student who is on academic probation and receives an incomplete grade in one or more classes may register for classes in the subsequent semester, provided the grades received from his or her other classes are high enough to prevent the student from being placed on academic suspension. A student in this situation, prior to making up the incomplete grade, may enroll in *only one* subsequent semester. A Registrar's Office hold will then be placed on the student's record, preventing him or her from registering for a second additional semester. Additional registration holds may be placed on a student's record by an academic advisor. The Registrar's Office hold will not be removed until the incomplete grade is changed to a letter grade. If the resulting grade does not cause the student to be placed on academic suspension, the Registrar's Office hold will be removed. Other registration holds, such as an advisor hold, will need to be removed by the office placing the hold.

Exceptions to the one subsequent semester limitation may be made (1) if receiving the grade that accompanies the incomplete grade (e.g., a student who receives an *IF* grade would receive an *F* if no additional work was completed) would not cause the student to be placed on academic suspension for the semester in which the incomplete grade was originally received, or (2) by memo of justification from the course instructor who submitted the incomplete grade. Any exceptions must be requested through the Registrar's Office.

### Final Grade Reports

Final grades are available through Access. Students may login to Access at: <http://www.usu.edu/myusu/> (After logging in, click on **Student Records**, then on **Final Grades**.) Instructors should submit their final grades within four working days after the final examination.

### Change of Grades

The instructor of record of a course has the responsibility for any grade reported. Once a grade has been reported to the Office of the Registrar, it may be changed upon the signed authorization of the instructor of record who issued the original grade. In case the instructor is not available, the department head has authority to change the grade, provided the grade was assigned less than one year ago. This applies also to the grade of Incomplete (*I*). A change of grade after more than one year also requires the signature of the academic dean of the college in which the course is offered. (See USU Student Policy Handbook—Student Appeal Procedures.)

### Transcripts

Official transcripts may be obtained by submitting a signed request to the Registrar's Office, *in person* at TSC 246; *by mail* to Utah State University, 1600 Old Main Hill, Logan UT 84322-1600; or via the Internet. To request an official transcript online, students should login to Access at: <http://www.usu.edu/myusu/> (After logging in, click on **Student Records**, then on **Order Transcript**.)

### Credits Awarded for Courses

#### Traditional Courses

The standard for academic course credit, as identified by the Northwest Association of Schools and Colleges and followed by USU, is that one credit be awarded for three hours of student work per week during a 15-week semester. For traditional courses, this is interpreted as one 50-minute class period plus two hours of study per week for each credit. Note that one 50-minute period per week throughout a

# Registration, Student Records, and Academic Standing

15-week semester equals 12.5 contact hours per credit. This standard should be used in determining credits for courses which do not meet for 50-minute periods.

## Nontraditional Courses

In addition to courses taught during regular academic terms, other educational experiences (such as workshops, institutes, short courses, and conferences) are offered at USU. Because of the short time period in which they are offered, these nontraditional courses may not require extensive out-of-class work by students. When little or no out-of-class work is required, the standard for such courses is 20 contact hours per credit.

## Remedial Courses

Courses numbered 0010-0990 will not satisfy baccalaureate requirements, are not transferable, are not calculated in a student's grade point average, and do not count toward earned hours.

## GPA Hours and Quality Points

A **GPA hour** is defined as a credit which is used in calculating a student's grade point average (GPA). All graded credits, *except* for those in which the Pass (*P*) or Incomplete (*I*) grade is received, qualify as GPA hours, unless otherwise noted. **Quality points** are assigned to each letter grade earned, as follows:

A	4.00	C+	2.33	F	0.00
A-	3.67	C	2.00		
B+	3.33	C-	1.67		
B	3.00	D+	1.33		
B-	2.67	D	1.00		

**Scholastic Marks**, which do not qualify for GPA hours, are as follows:

I	Incomplete	P	Pass
W	Withdrawal	AU	Audit
SP	Satisfactory Progress	NGR	No Grade Reported

A grade of *I*, plus a companion grade, has no GPA hours or earned hours, but indicates that the student has up to one calendar year to finish the work. A grade of *W*, plus a companion grade, carries no grade point value, but indicates that the student withdrew after 60 percent of the course had been completed.

## Grade Point Average

When a student is graded, the quality points for the grade are multiplied by the GPA hours to derive the total quality points. The total quality points are then divided by the total GPA hours to determine the GPA. GPAs are truncated to the nearest hundredth of a grade point.

## Repeating Courses

Students may repeat any course at USU for which they have previously registered. They may also retake a course originally taken at an institution where USU has an articulation agreement, if the agreement identifies a specific USU course as being equivalent to the one the student desires to replace. All other decisions dealing with retaking courses, including courses taken under the quarter system, will be determined by the department in which the course is offered.

The number of times a student can take the same class is limited to a total of three times (once, plus two repeats). Beyond three attempts, the student's dean must approve additional registration for the class.

The total number of repeats allowed is limited to ten. Students who exceed this limit will have an academic hold placed on their registration. Beyond ten repeats, the student's academic dean must approve additional registration.

**This policy does not apply to courses repeatable for credit.** When a course listed in the *General Catalog* is identified with the Repeat Symbol (®), the course may be taken more than once for credit.

When a course not designated as repeatable for credit is repeated, **the most recent grade and GPA hours are used to recalculate the student's grade point average.** The previous grade and GPA hours for the same course will remain on the student's academic record, but will *not* be calculated in the grade point average or total GPA hours completed, and will be designated on the student's transcript with an *E* (exclude). A course designated as repeatable (®) may be repeated to receive a higher grade, and the most recent grade and GPA hours will be used in recalculating the student's grade point average.

## Transfer Credit

The grades which may be transferred and recorded for transfer students shall include *A, A-, B+, B, B-, C+, C, C-, D+, D, and F*, as well as *P* (Pass). Only grades earned at USU will be used in calculating USU grade point averages. Decisions concerning academic standing, once the student is admitted to USU, will be based solely on USU grades.

## Registrar's Office Forms

### Change of Address Form

It is the responsibility of the student to keep the Office of the Registrar informed of address changes by completing a Change of Address form available at the Registrar's Office (TSC 246) or by using the Access (Banner) System on the Web:

<http://www.usu.edu/registrar/access/index.cfm>

### Other Forms

The following forms are available at the Registrar's Office (TSC 246) or online at: <http://www.usu.edu/registrar/forms/>

### Change of Information

Students who wish to have their name changed (e.g., new last name, add middle name, etc.) will need to fill out a change of information form. A copy of the student's picture ID and of the student's social security card, showing the desired name, must accompany the form submitted to the Registrar's Office.

### Change of Matriculation (Major)

When a student desires to change his or her major, emphasis, or minor, he or she must fill out a change of matriculation form. This form must be signed by representatives of the appropriate departments before being submitted to the Registrar's Office.

### Privacy Hold

A student wanting to have his or her records marked as "private" can fill out a privacy hold form. After a privacy hold has been placed on a student's record, no information concerning that student can be communicated over the phone. Information can be given out *only* when the student presents his or her picture ID at the Registrar's Office.

### Release of Student Information

A release of student information form permits an appointed person to access a student's records. In order to be valid, this form must be notarized.

# Registration, Student Records, and Academic Standing

## Request for Verification

A student desiring to verify attendance and graduation information should complete a request for verification form, which should be submitted to the Registrar's Office.

## Petitions and Appeals

### Academic Appeals

When a student feels that he/she has been treated unfairly by a specific professor or existing rules or regulations, there is a sequential process which should be followed in handling the situation. (Problems in this area include disagreements regarding a course grade, intervening circumstances which prevented the student from following an assigned procedure, etc.)

When a student experiences such difficulties, he/she should first go to the specific professor or administrator and discuss the situation. It may be possible to resolve the problem at this level. Should no agreement be reached, the student may then take the situation to the department head. If no resolution is reached at that level, the student may take the problem to the dean of the college. If there is still no resolution, the matter will be forwarded to an appeals committee. As a final recourse, the student may take the problem to the Provost's Office, where a final decision will be made.

### Academic Record Adjustment

Students requesting an academic record adjustment to a prior term must submit a *Petition for Academic Record Adjustment* to the Registrar's Office. Adjustments will only be considered if extenuating circumstances exist. The term "extenuating circumstances" includes: (1) incapacitating illness which prevented a student from attending classes for a minimum period of two weeks and prevented the student from completing the desired adjustment during the term, (2) a death in the immediate family, or (3) other emergencies deemed appropriate. **A maximum of two semesters may be adjusted per each degree. Petitions must be submitted within two years of the desired adjustment.** The student must attach a typed appeal stating an explanation and justification for the desired adjustment. Supporting documentation confirming the extenuating circumstances must accompany the petition. The cost for the petition is \$20, which is a nonrefundable processing fee and does not guarantee approval. Students who wish to appeal the decision of the Registrar's Office will be directed to the Vice President for Student Services.

### Academic Renewal

Undergraduate students who have been admitted to Utah State University after an interruption in their collegiate education of five or more years may petition to have certain credits removed from the calculation of the GPA needed for credit. The renewal procedure allows the student's academic records to be reviewed for the purpose of eliminating from grade point average computation all grades of *D+* or below that were entered on the academic transcript five or more calendar years prior to admission, including transfer credit. However, upon request, selected *D+* or *D* grades may remain on the student's record. Petition forms are available in the Office of the Registrar and online. A \$25 processing fee will be assessed.

### Guidelines:

1. Academic renewal *does not* apply to graduate students nor to students pursuing a second undergraduate degree.
2. Academic renewal may be applied *only once* and is *irreversible*.

3. An absence of *five or more years* must have elapsed between admission and the last enrollment at an institution of higher education. (**Note:** Students must be currently enrolled at USU to apply for academic renewal.)
4. After admission, but before application for renewal, the student must have completed at least one of the following at Utah State University: (a) 10 semester credits with at least a 3.00 GPA; (b) 20 semester credits with at least a 2.75 GPA; (c) 30 semester credits with at least a 2.50 GPA.
5. Academic renewal applies *only* to courses having grades of *D+*, *D*, or *F* and taken prior to readmission. All such courses will remain unaltered on the transcript with the appropriate notation added to the transcript to indicate academic renewal. Courses designated in the petition will not count for computation of GPA for earned credits, nor for satisfying any graduation requirements. Courses with a grade of *C-* (or *P*) or better will be carried forward.
6. Students may apply for this renewal after they have met the guidelines listed above. They are strongly encouraged to meet with their academic advisor prior to submitting their request.
7. Academic renewal will be effective as of the date of admission following the minimum five-year absence.

## Academic Standing

### Honor Roll (Dean's List)

To qualify for the semester honor roll (Dean's List), a student must earn a 3.5 GPA in 15 or more graded credits, except for summer semester for which 12 or more graded credits are required. **Note:** Courses for which a *P* (Pass) grade is received *do not* qualify for graded credits.

### "A" Pin

Scholarship "A" pins are presented to undergraduate students who have received all *A* grades (4.0 GPA) for 15 or more graded credits each semester during two consecutive semesters in residency. **Note:** Courses for which a *P* (Pass) grade is received do not qualify for graded credits.

### Good Standing

An undergraduate student is considered by the University to be in *good standing* when his or her USU cumulative GPA is 2.0 or higher. An undergraduate student whose USU cumulative GPA is *less than* a 2.0 is placed on *academic warning* or *academic probation*, based on the student's class rank, admission status, and the USU cumulative GPA. A **freshman** with a USU cumulative GPA of *less than 2.0* is placed on *academic warning*. A **sophomore, junior, senior, or any student with a standing of provisional admission warning**, with a USU cumulative GPA of *less than 2.0* is placed on *academic probation*.

### Provisional Admission Warning

An undergraduate student who is admitted provisionally will be noted as such on his or her academic record. Provisional admission warning will carry the same weight as academic warning. At the end of the first semester, a student whose USU cumulative GPA is 2.0 or higher will be in good standing. A student admitted provisionally shall be placed on *academic probation* at the end of the semester if his or her semester GPA is below 2.0.

# Registration, Student Records, and Academic Standing

## Academic Warning

A freshman student placed on academic warning shall be notified in writing of that action by his or her college dean, advisor, or other college or departmental representative. Since this notification will typically be sent by e-mail, it is the student's responsibility to check his or her USU e-mail account (see *E-mail Communication Policy*, page 80). The notation *Academic Warning* is placed on the student's transcript. The student remains on warning status as long as his or her semester GPA is 2.0 or higher and until his or her USU cumulative GPA rises to or exceeds 2.0; the student will then be in good standing. A student on academic warning shall be placed on *academic probation* at the end of any semester in which his or her semester GPA is *less than 2.0*. When a student's class standing changes to sophomore, and his or her USU cumulative GPA is less than 2.0, the student is placed on *academic probation*. Students on academic warning will have a hold placed on their registration and must meet with their academic advisor.

## Academic Probation

An undergraduate student placed on academic probation shall be notified in writing of that action by his or her college dean, advisor, or other college or departmental representative. Since this notification will typically be sent by e-mail, it is the student's responsibility to check his or her USU e-mail account (see *E-mail Communication Policy*, page 80). The notation *Academic Probation* is placed on the student's transcript. The student is required to meet with his or her academic advisor before the end of the fifth week and to sign a statement acknowledging the terms of the probation. Signed statements shall be maintained in the academic dean's office. The student remains on probation status as long as his or her semester GPA is 2.0 or higher and until his or her USU cumulative GPA rises to or exceeds 2.0; the student will then be in *good standing*. A student on academic probation is placed on *suspension* at the end of any semester in which his or her semester GPA is *less than 2.0*.

A student who is on academic probation and receives an incomplete grade in one or more classes may register for classes in the subsequent semester, provided the grades received from his or her other classes are high enough to prevent the student from being placed on academic suspension. A student in this situation, prior to making up the incomplete grade, may enroll in *only one* subsequent semester. A Registrar's Office hold will then be placed on the student's record, preventing him or her from registering for a second additional semester. Additional registration holds may be placed on a student's record by an academic advisor. The Registrar's Office hold will not be removed until the incomplete grade is changed to a letter grade. If the resulting grade does not cause the student to be placed on academic suspension, the Registrar's Office hold will be removed. Other registration holds, such as an advisor hold, will need to be removed by the office placing the hold.

Exceptions to the one subsequent semester limitation may be made (1) if receiving the grade that accompanies the incomplete grade (e.g., a student who receives an *IF* grade would receive an *F* if no additional work was completed) would not cause the student to be placed on academic suspension for the semester in which the incomplete grade was originally received, or (2) by memo of justification from the course instructor who submitted the incomplete grade. Any exceptions must be requested through the Registrar's Office.

## Academic Standing for Student Athletics Eligibility

Student athletes are considered, for purposes of athletics eligibility and NCAA intercollegiate competition, to be in good standing if they meet the applicable NCAA grade point average rule and are able to register for classes and attend during the next subsequent regular academic semester.

## Academic Suspension

An undergraduate student placed on academic suspension shall be notified in writing of that action by the Office of Retention and First-year Experience. Since this notification will typically be sent by e-mail, it is the student's responsibility to check his or her USU e-mail account (see *E-mail Communication Policy*, page 80). The notation *academic suspension* is placed on the student's transcript. A student who is registered for classes in the semester immediately following the suspension will be dropped from those classes. Questions about the suspension should be directed to the student's advisor.

## Suspension Appeal Process

Any suspended student wishing to appeal his or her academic suspension must meet with the matriculation advisor and express a desire to make an appeal. ***Students should understand that, while they are entitled to appeal their suspension, very few appeals will be approved.***

The student must write an appeal letter and complete an appeal form. The appeal letter must include: (1) a clear explanation as to why the student believes the suspension penalties should be lifted, (2) an account of reasons why the student feels he or she didn't perform well, and (3) a description of the student's plan for improvement.

The matriculation advisor, who serves as the chair of the Suspension Appeals Committee, will submit the appeal letter (attached to the student's transcript) to the committee. The matriculation advisor will contact the student's academic advisor to solicit additional information that might be relevant to the committee's decision. Additionally, the matriculation advisor will find out if the student's department supports a suspension reversal or not.

If the committee *upholds the suspension*, the decision will be final (if endorsed by the Vice President for Student Services). The committee chair will notify the student that the appeal was *denied*. After the suspension has been satisfied, the student may apply for readmission.

If the committee *waives the suspension penalties*, the matriculation advisor will meet with the student and have him or her sign a retention contract. The student's department will provide specific contractual obligations.

If the student was not properly notified of his or her probation (as outlined in the *Academic Probation* policy on page 62), the student's appeal is likely to be granted. Students should be aware that, even if their appeal is granted, a notation of suspension will remain on their transcripts.

# Registration, Student Records, and Academic Standing

---

## **Readmission Following Academic Suspension**

Students *who have been suspended once* may apply for readmission after a two-semester layout. Students *who have been suspended two times* may apply for readmission to the University following a layout of one full calendar year.

## **Academic Dismissal**

Students who become subject to suspension for a *third time* will receive notice of academic dismissal from the University and have the notation *academic dismissal* placed on their transcript. Students who have been dismissed may apply for readmission to the University following a layout of five or more calendar years.

## **Low-Scholarship Notification for Graduate Students**

The dean of the School of Graduate Studies will notify students whose GPA is below 3.0 any semester. If the GPA falls below 3.0 for two consecutive semesters, the student may be placed on probationary status and his or her graduate program may be terminated. For further information, see *Low-Scholarship Notification* (page 115).

## **Concurrent Enrollment Credit**

For purposes of academic standing, students who have taken classes through concurrent enrollment, and who otherwise qualify for good standing at USU, shall not be denied such standing based on their concurrent enrollment credit.

# Tuition, Fees, and Refunds

Tuition and fees provide an essential revenue source to Utah State University, although these comprise only 12 percent of the total budget. State appropriations provide 34 percent of the University's revenue sources. USU strives to keep the institution as cost-effective as possible, and is noted for having low-cost resident and nonresident tuition amounts.

Tuition and fee amounts can be found by clicking on one of the **Tuition & Fee tables** links at: <http://www.usu.edu/registrar/payment/>

**Registration for a semester is *not complete* until all fees have been paid in full. The University reserves the right to alter any tuition or fee charges without notice.**

**Visitor fee (audit) .....same as classes with credit** (except for persons 62 years of age or older who are permitted to audit free of charge after a recording fee of \$10 per semester has been paid)

**Late registration fee .....\$100 per course added** (Following the published add deadline, a fee of \$100 per course will be assessed for all undergraduate and graduate courses added. For more information, see page 56.)

## Continuing Graduate Advisement Courses (6990 and 7990)

There is no limit on the number of times a graduate student may register for 6990 or 7990 credit. Tuition will be charged according to the residency status of the student. Nonresident students may come to the Financial Aid Office to receive a waiver of the out-of-state portion of the Continuing Graduate Advisement tuition.

**Continuous Graduate Registration Fee.....\$100 per semester**

## Tuition Surcharge for Excessive Credits

Students who have attempted 170 credits or more will be charged out-of-state tuition according to Board of Regents Policy. In the following circumstances the surcharge may be waived: (1) the excessive credits are necessary for the student to complete the student's program of study; **and** (2) the excess credits are a result of circumstances where a substantial number of credits from a transferring institution could not be applied to the program of study; **or** (3) the excess credits are the result of a reasonable enhancement of the student's major by the addition of a minor or emphasis to the program of study; **or** (4) the excess credits are the result of a reentry into the educational system by a student who may have accumulated a large number of credits, or even completed degrees, but where employment requirements obligate his or her return to college. Credits earned through concurrent enrollment and credits received through Advanced Placement (AP) and other examinations *do not* count toward the 170 credit total.

The student may obtain a petition to waive the surcharge at: <http://www.usu.edu/registrar/forms/pdf/Surcharge.pdf>

## Seven-Year Tuition Policy

Students who initially enrolled at USU during Summer Semester 2004 or later are charged tuition using the most recent tuition scale. Students who initially enrolled at USU prior to Summer Semester 2004, who can complete their degree requirements within seven years of enrollment, and who have not had a break in their enrollment of greater than one year, are eligible to be coded under an alternate tuition scale.

Beginning Summer Semester 2009, the 2000-2002 alternate tuition table will be eliminated, and all students who enrolled prior to 2002 will be assessed tuition according to the most recent tuition table. Beginning Summer Semester 2011, the 2002-2004 alternate tuition table will be eliminated, and all students, regardless of the time of their initial enrollment, will be charged tuition according to the most current tuition scale.

Any student who is readmitted after an absence of a year or greater will be coded according to the most current tuition table.

## Tuition Refund Policy

When a student withdraws from classes before the fifteenth day of the semester, he or she is entitled to a refund of registration tuition and fees according to the following schedule:

Tuition Refund Period	Percentage of Credits for which Tuition and Fees will be Refunded
Before classes begin .....	100%
First ten days of semester .....	100%
Eleventh through fifteenth day of classes.....	50%
After fifteenth day of classes .....	0%

Refunds will be automatically processed when courses are dropped by the published refund deadlines (see page 8). **Note:** The refund policy above applies to full-semester classes *only*. For information about refund dates for classes offered during *less than a full semester*, contact the Registrar's Office, TSC 246, (435) 797-1101.

Refunds are computed as a percentage of the credits being dropped, and are *not* based solely upon the *dollar amount* paid. Published refunds will be automatically calculated.

Below are three examples of refund calculations for dropping credits during the 50 percent refund period. These examples use the 2009-2010 tuition tables for a resident undergraduate student.

Example 1:	Tuition and Fees
Registered for 9 credits .....	\$ 1,812.83
Dropping 3 credits at 50% (equals 1.5 tuition credits dropped)	
Tuition and Fees for 7.5 credits (9 minus 1.5 credits) .....	1,587.52
<b>Total Refund.....</b>	<b>\$ 225.31</b>

Example 2:	Tuition and Fees
Registered for 15 credits .....	\$ 2,413.67
Dropping 3 credits at 50% (equals 1.5 tuition credits dropped)	
Tuition and Fees for 13.5 credits (15 minus 1.5 credits) .....	2,413.67
<b>Total Refund.....</b>	<b>\$ 0</b>

**Note:** Utah State University's plateau tuition means that the tuition and fee amount for total credits between 13 and 18 credits is the same amount.

Example 3:	Tuition and Fees
Registered for 12 credits .....	\$2,263.42
Dropping 6 credits at 50% (equals 3 tuition credits dropped)	
Tuition and Fees for 9 credits (12 minus 3 credits) .....	1,812.83
<b>Total Refund.....</b>	<b>\$ 450.59</b>

For exact dollar amounts, click on one of the **Tuition & Fee tables** links at: <http://www.usu.edu/registrar/payment/>

## Fee Refunds

(1) A proportionate share of all fees paid may be refunded to any student who withdraws from school before the 15th day of classes. (2) All refunds will be mailed to the student. (3) The application and evaluation fee for an undergraduate or graduate applicant is not refundable. (4) Activity fees will be pro-rated. (5) Students with financial aid need approval from the Financial Aid Office in order to receive a refund. (6) Complete withdrawal must be approved by the Financial Aid Office (TSC 106) or by the Office of Retention and First-Year Experience (TSC 314).

## Delinquent Financial Accounts

Students with outstanding financial obligations may be refused all University services until such obligations are paid. Services which may be denied include the following: registration, transcripts, grades, transfer of credit, graduation, and activity card.

# Tuition, Fees, and Refunds

## ID Cards

An ID card is available for each registered USU student. Upon full payment of tuition and fees, students will automatically have their cards activated. A student who holds an activated card may purchase a spouse card for \$15 and pay the spouse fee of \$40 per semester at the Registrar's Office. The student activity card provides access to USU athletic events, USU computer labs, the Merrill-Cazier Library, Student Health Services, campus recreation facilities, music and theatre events, and various student activities. Once all fees are paid, student activity cards will be activated two weeks prior to the first day of the semester. Provided there is no outstanding balance in the student's account, the student's activity card will continue to be valid for two weeks following the last day of final exams for spring and summer semesters, and for three weeks following the last day of final exams for fall semester.

## Tuition Installment Plan (TIP)

The Tuition Installment Plan (TIP) allows students to defer a portion of their tuition until later in the semester. Students who are approved for participation in TIP must pay 50 percent of their tuition, plus a \$50 nonrefundable service charge, by the tuition and fee payment deadline. A second installment, for 25 percent of tuition (plus interest), is due on the 30th day of the semester; and the remaining 25 percent (plus interest) is due on the 60th day of the semester. Since deferred payments are loans, students will be considered to be in default if their deferred payments are not received by the due dates. Students who drop classes after the 100 percent refund period has passed will *still* be obligated to pay the TIP in full. Withdrawal or dropping classes *does not* cancel these loans. If the loan amount is *not paid in full by the due date*, students must pay interest in the amount of 12 percent per annum from the date issued on any portion that is unpaid.

To apply for the TIP, print the application accessed from the TIP link at: <http://www.usu.edu/registrar/payment/>, and complete the information as directed on the form. Because this is a promissory note, all signatures must be signed in front of a Registrar's Office representative in the Registrar's Office, Taggart Student Center 246.

## Miscellaneous Payments

If any payment made to the University is unauthorized, incomplete, or received after the due date, registration fees will be considered as **unpaid**, and the student will not be officially registered.

## Personal Checks

Personal checks returned by the bank to the University *for any reason* are automatically sent to a collection agency and will be subject to a service charge. At the discretion of the Controller's Office, this may result in the withholding of registration credit or immediate cancellation of the student's classes. USU reserves the right to refuse personal checks for any transaction. Check cashing privileges and use of other University services using personal checks may be suspended for any individual who has a check returned to the University.

## Delinquent Financial Accounts

All tuition and fees should be paid in full by the posted due dates. Any unpaid tuition and fees may be assessed a late fee of \$20 per month or 1 percent per month (12 percent per annum), whichever is greater. Students with an outstanding balance may be subject to removal from classes for nonpayment.

In the event collection efforts become necessary, USU may refer a past due account to an outside collection agency. All referred accounts are subject to a collection fee, not to exceed 50 percent of the amount owed, plus all court costs and reasonable attorney fees. The collection agency and/or USU may report delinquent accounts to a credit reporting agency.

Students with outstanding financial obligations may be refused all University services until such obligations are paid. Services which may be denied include the following: registration, transcripts, grades, transfer of credit, graduation, and activity card benefits.

## Sponsored Payments

Students whose tuition and fees are paid by a sponsor may contact the Cashiers Office (Taggart Student Center 246) for authorization to complete registration. International students with a sponsor should also contact the Cashiers Office.

## Computer and Information Literacy Examination

All students working toward a bachelor's degree must pass this examination as part of the University Studies requirements. A \$30 fee is associated with this exam. For additional information, see page 67. Further details are shown at: <http://www.cil.usu.edu/>

## Special Fees

Special fees, charged in addition to tuition and registration fees, are assessed on the Registration/Billing Statement. These fees may be found in the online course schedules at: <http://www.usu.edu/registrar/catalogpdf/>

## Parking Permits

Parking permits are *required* Monday through Friday during the hours posted in each parking area. Each motor vehicle parked in a designated parking area on University property must be registered or pay a daily fee. Possessing a permit for a designated area does not necessarily ensure the availability of a parking space. The permit extends the right to park in a specified area when space is available until the permit and/or time expires.

## Student Permits

Students living off campus who wish to park a vehicle on campus have three permit options:

1. Purchase a **Student Blue permit**, which allows parking in the central campus area.
2. Purchase a **Yellow permit**, which allows parking at the Stadium and below Old Main Hill.
3. Purchase an **Aggie Terrace permit**, which allows parking in the Aggie Terrace.

## Student Housing

Students living in campus residence halls are required to purchase a permit to park in the area adjacent to their respective residences. These permits are valid for the residence area specified, as well as all Economy parking areas.

Permit price information is available at <http://www.usu.edu/parking>. The parking staff is available to provide assistance at the Parking Office, Monday through Friday from 7:30 a.m. to 5:00 p.m. For general information, call (435) 797-3414 or visit the Parking Office at 840 East 1250 North (north of the softball diamond).

## Student Orientation, Advising, and Registration (SOAR) Fee

This fee, assessed to all incoming first-year students, covers the cost of student enrollment materials, including the *General Catalog*, voucher for the first Student ID Card (\$15 value), and the *Source* student handbook, and either the amenities and staff support received at an on-campus orientation session or the postage to mail the orientation materials to the student.

# Tuition, Fees, and Refunds

Two-day and four-day orientation sessions are also available. Fees for these orientation sessions cover all of the aforementioned orientation materials, plus lodging, food, and activities provided at the sessions.

A parent orientation fee is assessed for parents who choose to attend an on-campus orientation session. The fee covers the costs of the parent orientation, including lunch, refreshments, and a packet complete with materials specific to parents of Utah State University students.

Current orientation fees are posted at <http://www.usu.edu/soar>

## Math Placement Test Fee

Each time a student takes the Math Placement Test a fee of \$10 will be assessed.

## Math Refresher Course Fee

Students who enroll in a math skills refresher course will be assessed a \$100 fee for the course. This fee includes the fee for taking the Math Placement Test at the beginning of the course and again at the end of the course.

## Music

Fees are charged for piano practice and private instruction. For information on amounts, contact the Music Department.

## Health and Accident Insurance

Health and Accident Insurance is available to all students for nominal costs at the time of registration. Additional insurance may be purchased for spouse and children. Students are encouraged to provide themselves with adequate protection in case of illness or serious injury. Further information can be found at:

<http://www.usu.edu/health/insurance.htm>

## Insurance Information/International Students

Insurance coverage is *mandatory* for international students. All international students attending Utah State University are *required* to purchase one of the student health insurance plans offered at the University for themselves and accompanying dependents. Insurance coverage is *required* each semester.

International students are cautioned to purchase only temporary travel insurance to cover travel to the U.S.

## Admission Application and Evaluation Fee (nonrefundable):

U.S. Residents (undergraduate).....\$40  
International Students (undergraduate).....\$50

## Special Examination Fee

\$10 per course plus \$5 per credit hour up to a maximum of \$50 including the \$10 examination fee. Fees for some of the special examinations offered by the Languages, Philosophy, and Speech Communication Department are higher; call (435) 797-1209 for specific fees.

## Graduation Fees

One-year Certificate .....\$10\*  
Two-year Diploma.....\$10\*  
Associate of Applied Science Degree.....\$10\*  
Bachelor's Degree.....\$10\*  
Graduate, PhD Degree.....\$15

\*The \$10 application fee applies *only* if the application is submitted *prior* to the deadline. After the deadline, a \$50 fee will be assessed. (See page 78 for more information.)

## Cap and Gown Sales

Graduation regalia can be purchased at the Graduation Fair prior to commencement. Those unable to attend the Graduation Fair may have a friend or colleague pick up their regalia, or can place their order by calling (800) 662-3950. All phone orders will be mailed and assessed a shipping and handling charge. Please contact the USU Bookstore for current pricing or with any questions or concerns.

## Teacher Placement Registration .....\$10

## Transcript of Credits

For transcript requests processed by the USU Registrar's Office, the following information is needed: (1) student's full name (including any previous names), (2) student ID number, (3) date of birth, (4) last date of attendance, (5) where the transcript is to be sent, and (6) student's signature. The transcript fee is \$2 per transcript. The fee is to be paid in the Office of the Registrar, Taggart Student Center 246.

For a fee of \$5 per location, transcripts may be faxed. (**Note:** Faxed transcripts may be considered *unofficial copies* by some receiving parties.)

Official transcripts may be obtained by submitting a signed request to the Registrar's Office, *in person* at TSC 246; *by mail* to Utah State University, 1600 Old Main Hill, Logan UT 84322-1600; or via the Internet. To request an official transcript online, students should login to Access at: <http://www.usu.edu/myusu/> (After logging in, click on **Student Records**, then on **Order Transcript**.)

## Scholarships, Fellowships, and Assistantships

Information can be found in the *Financial Aid and Scholarship Information* section of this catalog (pages 46-51).

## Housing Fees

Write for a Housing Bulletin; send request to the Office of Housing and Dining Services, Utah State University, 8600 Old Main Hill, Logan UT 84322-8600.

## Estimated Cost of Undergraduate Education for Two Semesters for 2009-2010 Academic Year

	Resident	Nonresident
Tuition and Fees	See page 64	See page 64
Room and Board	\$6,450	\$6,450
Books and Supplies	1,210	1,210
Personal Expenses	2,210	2,210
<b>Totals</b>	<b>\$9,870</b>	<b>\$9,870</b>
	plus	plus
	Resident Tuition	Nonres. Tuition

**Note:** Costs for room and board may vary, depending upon the housing and meal plan selected. Also, costs for books, supplies, and personal expenses may vary, depending upon a student's chosen program of study and lifestyle. Students who choose to have a car will need to plan for transportation expenses. However, owning a car is *not necessarily essential*, since USU, Logan, and Cache Valley have free bus systems.

## Tuition and Cost Disclosure

Full-time undergraduate resident students at Utah State University paying a semester tuition and fee amount of \$1,836.01 contribute an estimated 35 percent to the full cost of instruction per full-time student of \$5,308.16. The remaining support for the full cost of instruction is provided by \$3,472.15 of state tax funds and no other institutional revenue sources.

# General Education Requirements

The General Education program, along with study in the major, is designed to assist students in achieving the Citizen Scholar Objectives (see page 70).

## Transfer Students

Students who have received an AA or AS degree at any institution within the Utah System of Higher Education, or at another institution with which USU has an articulation agreement, will be considered to have fulfilled the General Education Requirements, but must still complete the University Studies Depth Education Requirements.

Students who transfer to Utah State University with less than an Associate Degree (and have not completed General Education requirements) or with an Associate of Applied Science Degree will have their General Education courses evaluated on a course-by-course basis and may be required to take any additional courses necessary to satisfy the General Education requirements at Utah State University. However, if these students have taken equivalent General Education courses at the sending institution, these courses will be accepted toward satisfying General Education requirements at Utah State University.

Courses approved as fulfilling General Education requirements at a Utah System of Higher Education (USHE) institution will be acceptable to Utah State University as satisfying comparable General Education requirements. Coursework acceptability at other institutions will be determined by the student's major department at Utah State University.

## General Education Requirements (30-34 credits)

USU's General Education program consists of two sets of requirements: Competency and Breadth.

### Competency Requirements (9-10 credits)

The Citizen Scholar Objectives (see page 70) propose that students should be able to communicate effectively, utilize quantitative methods, make appropriate use of technology, and function effectively in groups. The competency requirements are structured to develop these skills.

#### Communications Literacy (CL1 and CL2) (6 credits)

**ENGL 1010 (CL1)** Introduction to Writing: Academic Prose ..... 3

##### Or one of the following exams:

ACT English Test: Score of 29 or higher  
SAT Verbal Test: Score of 640 or higher  
AP English Language Test: Score of 3 or higher  
CLEP English Composition Test: Score of 50 or higher  
CLEP Freshman College Composition Test: Score of 53 or higher  
IBO English A1 Test: Standard-level Score of 4-7

##### And

**ENGL 2010 (CL2)** Intermediate Writing: Research Writing in a Persuasive Mode..... 3

##### Or the following exam:

IBO English A1 Test: Higher-level Score of 4-7 (satisfies both CL1 and CL2)

### Quantitative Literacy (QL) (3-4 credits)

##### One of the following courses:

**MATH 1030 (QL)** Quantitative Reasoning..... 3  
**MATH 1050 (QL)** College Algebra..... 4  
**STAT 1040 (QL)** Introduction to Statistics ..... 3

##### Or

One Mathematics or Statistics course requiring MATH 1050 as a prerequisite, such as MATH 1100, 1210, 1220; or STAT 2300

##### Or one of the following exams:

ACT Math Test: Score of 25 or higher  
SAT Math Test: Score of 580 or higher  
AP Calculus AB Test: Score of 3 or higher  
AP Calculus BC Test: Score of 3 or higher  
CLEP Calculus Test: Score of 50 or higher  
CLEP College Algebra Test: Score of 50 or higher  
IBO Mathematics Test: Higher-level Score of 4-7

### Computer and Information Literacy (CIL) (0 credits)

Students must pass competency exams in computer and information literacy. Communications Literacy, Quantitative Literacy, and Breadth courses associated with General Education are intended to further develop these skills.

The Computer and Information Literacy requirement includes six exams:

1. Information Law and Ethics
2. Information Resources
3. Document Processing
4. Computer Systems
5. Spreadsheets
6. Electronic Presentations

Students must score 70 percent or higher on each exam to pass. A student has met the requirement only after he or she has passed all six examinations. There is no college credit associated with this requirement. While some college credit classes teach the required skills for the CIL exams, simply passing any class does not meet the requirement. Only by passing all of the six CIL tests is the CIL requirement met. Students should complete the CIL requirement during their freshman year, as many upper-division classes build on the skills covered in CIL. It is also a prerequisite for several majors.

There is a \$30 fee associated with this requirement. There is no limit to the number of times a student can take each test. Once a test is passed, a student may not retake that test. After all tests are passed and the fee is paid, the CIL requirement will be posted to the student's transcript.

To learn more about the CIL requirement, visit the following website: <http://cil.usu.edu>

### Breadth Requirements (18-20 credits)

General Education breadth requirements are intended to introduce students to the nature, history, and methods of different disciplines; and to help students understand the cultural, historical, and natural contexts shaping the human experience. Breadth courses also focus on the important cultural, socio-economic, scientific, and technological issues of today's global community.

# General Education Requirements

Students must take a minimum of 18 total credits, including at least one course from each of the six categories shown below.

**At least two of the six breadth courses must be University Studies courses (USU 1300, 1320, 1330, 1340, 1350, and 1360).** Students enrolled in the Honors Program may substitute HONR 1300, 1320, 1330, 1340, 1350, and 1360 for USU 1300, 1320, 1330, 1340, 1350, and 1360.

**Prerequisites are required for breadth courses having titles followed by (prereq.). For details, see course listings in the Course Descriptions section of this catalog.**

## Breadth American Institutions (BAI) (3 credits)

One of the following courses:

USU 1300 (BAI) U.S. Institutions .....	3
ECN 1500 (BAI) Introduction to Economic Institutions, History, and Principles .....	3
HIST 1700 (BAI) American Civilization .....	3
HIST 2700 (BAI) United States to 1877 .....	3
HIST 2710 (BAI) United States 1877-Present .....	3
HONR 1300H (BAI) U.S. Institutions .....	3
POLS 1100 (BAI) United States Government and Politics .....	3

Or one of the following exams:

AP Macroeconomics Test: Score of 3 or higher
AP U.S. Government and Politics Test: Score of 3 or higher
AP U.S. History Test: Score of 3 or higher
CLEP American Government Test: Score of 60 or higher
CLEP History of the U.S. I: Early to 1877 Test: Score of 50 or higher
CLEP History of the U.S. II: 1865 to Present Test: Score of 50 or higher
CLEP Principles of Macroeconomics Test: Score of 53 or higher
IBO Economics Test: Standard- or Higher-level Score of 4-7

## Breadth Creative Arts (BCA) (3 credits)

One of the following courses:

USU 1330 (BCA) Civilization: Creative Arts .....	3
ART 1010 (BCA) Exploring Art .....	3
HONR 1330H (BCA) Civilization: Creative Arts .....	3
ID 1750 (BCA) Design in Everyday Living .....	3
ID 1790 (BCA) Interior Design Theory .....	3
LAEP 1030 (BCA) Introduction to Landscape Architecture .....	3
MUSC 1010 (BCA) Introduction to Music .....	3
MUSC 1100 (BCA) Fundamentals of Music .....	3
THEA 1013 (BCA) Understanding Theatre .....	3
THEA 1023 (BCA) Introduction to Film .....	3

Or one of the following exams:

AP Music Theory Test: Score of 3 or higher
AP Studio Art: Drawing: Score of 3 or higher
AP Studio Art: 2-D Design: Score of 3 or higher
AP Studio Art: 3-D Design: Score of 3 or higher
IBO Music Test: Standard- or Higher-level Score of 4-7
IBO Theatre Arts Test: Higher-level Score of 5-7
IBO Visual Arts Test: Standard- or Higher-level Score of 4-7

## Breadth Humanities (BHU) (3 credits)

One of the following courses:

USU 1320 (BHU) Civilization: Humanities .....	3
ANTH 2210 (BHU) Introduction to Folklore .....	3
ARTH 2710 (BHU) Survey of Western Art: Prehistoric to Medieval .....	3
ARTH 2720 (BHU) Survey of Western Art: Renaissance to Post-Modern .....	3
ENGL 2200 (BHU) Understanding Literature .....	3
ENGL 2210 (BHU) Introduction to Folklore .....	3
ENGL 2300 (BHU) Introduction to Shakespeare .....	3
ENGL 2630 (BHU) Survey of American Culture .....	3
HIST 1060 (BHU) Introduction to Islamic Civilization .....	3
HIST 1100 (BHU) Foundations of Western Civilization: Ancient and Medieval .....	3
HIST 1110 (BHU) Foundations of Western Civilization: Modern .....	3
HIST 1500 (BHU) Cultural and Economic Exchange in the Pre-Nineteenth Century World .....	3
HIST 1510 (BHU) The Modern World .....	3
HIST 2210 (BHU) Introduction to Folklore .....	3
HONR 1320H (BHU) Civilization: Humanities .....	3
PHIL 1000 (BHU) Introduction to Philosophy .....	3
PHIL 1120 (BHU) Social Ethics .....	3
PHIL 1200 (BHU) Practical Logic .....	3
PHIL 2400 (BHU) Ethics .....	3
THEA 1030 (BHU) Exploring Performance Through Aesthetic Texts .....	3

Or one of the following exams:

AP Art History Test: Score of 3 or higher
AP English Literature Test: Score of 3 or higher
AP European History Test: Score of 3 or higher
AP World History Test: Score of 3 or higher
CLEP Analyzing and Interpreting Literature Test: Score of 52 or higher
CLEP Western Civilization I: Ancient to 1648 Test: Score of 50 or higher
CLEP Western Civilization II: 1648 to Present Test: Score of 50 or higher
IBO History—European Test: Higher-level Score of 5-7
IBO History of the Americas Test: Higher-level Score of 5-7
IBO History—Islamic Test: Higher-level Score of 5-7
IBO Philosophy Test: Standard- or Higher-level Score of 4-7

## Breadth Life Sciences (BLS) (3-4 credits)

One of the following courses:

USU 1350 (BLS) Integrated Life Science .....	3
ANTH 1020 (BLS) Biological Anthropology .....	3
BIOL 1010 (BLS) Biology and the Citizen .....	3
BIOL 1300 (BLS) Of Maggots, Mites, and Men .....	3
BIOL 1610 (BLS) Biology I (4 cr) and BIOL 3300 (BLS) General Microbiology (prereq.) (4 cr) .....	8
<i>(Both BIOL 1610 and 3300 must be taken. This option is available only to students majoring in Biological Engineering or Environmental Engineering.)</i>	
BIOL 1610 (BLS) Biology I (4 cr) and BIOL 3060 (BLS/QI) Principles of Genetics (prereq.) (4 cr) .....	8
<i>(Both BIOL 1610 and 3060 must be taken. This option is available only to students in the Bioinformatics Emphasis of the Computer Science Major.)</i>	
BIOL 1620 (BLS) Biology II (prereq.) .....	4
HONR 1350 (BLS) Integrated Life Science .....	3
NFS 1020 (BLS) Science and Application of Human Nutrition .....	3
PLSC 2100 (BLS) Introduction to Horticulture .....	3

# General Education Requirements

WATS 1200 (BLS) Biodiversity and Sustainability .....	3
WILD 2200 (BLS) Ecology of Our Changing World .....	3

**Or one of the following exams:**

- AP Biology Test: Score of 3 or higher
- AP Environmental Science Test: Score of 3 or higher
- CLEP Biology Test: Score of 50 or higher
- IBO Biology Test: Standard- or Higher-level Score of 4-7

**Breadth Physical Sciences (BPS)  
(3-4 credits)**

**One of the following courses:**

USU 1360 (BPS) Integrated Physical Science .....	3
CHEM 1010 (BPS) Introduction to Chemistry .....	3
CHEM 1110 (BPS) General Chemistry I.....	4
CHEM 1120 (BPS) General Chemistry II (prereq.).....	4
CHEM 1220 (BPS) Principles of Chemistry II (prereq.).....	4
CLIM 2000 (BPS) The Atmosphere and Weather .....	3
CS 1030 (BPS) Foundations of Computer Science .....	3
CS 1060 (BPS) Cyber Security: Threats, Analysis, and Defense .....	3
GEO 1010 (BPS) Introduction to Geology:	
Geology of National Parks.....	3
GEO 1060 (BPS) Introduction to Environmental Geoscience .....	3
GEO 1110 (BPS) The Dynamic Earth: Physical Geology.....	4
GEOG 1000 (BPS) Physical Geography.....	3
HONR 1360H (BPS) Integrated Physical Science .....	3
PHYS 1020 (BPS) Energy.....	3
PHYS 1040 (BPS) Introductory Astronomy .....	3
PHYS 1080 (BPS) Intelligent Life in the Universe.....	3
PHYS 1100 (BPS) Great Ideas in Physics .....	3
PHYS 1200 (BPS) Introduction to Physics by Hands-on Exploration ...	4
PHYS 1800 (BPS) Physics of Technology (prereq.).....	4
PHYS 2120 (BPS) The Physics of Living Systems II (prereq.) .....	4
PHYS 2220 (BPS/QI) General Physics—Science and Engineering II ...	4
SOIL 2000 (BPS) Soils, Waters, and the Environment .....	3

**Or one of the following exams:**

- AP Chemistry Test: Score of 3 or higher
- AP Physics B Test: Score of 3 or higher
- AP Physics C: Electricity and Magnetism Test: Score of 3 or higher
- DSST Astronomy Test: Score of 48 or higher
- DSST Introduction to Computing Test: Score of 50 or higher
- DSST Principles of Physical Science I Test: Score of 47 or higher
- IBO Chemistry Test: Higher-level Score of 4-7
- IBO Geography Test: Higher-level Score of 5-7
- IBO Physics Test: Standard- or Higher-level Score of 4-7

**Breadth Social Sciences (BSS)  
(3 credits)**

**One of the following courses:**

USU 1340 (BSS) Social Systems and Issues .....	3
ANTH 1010 (BSS) Cultural Anthropology .....	3
ANTH 1030 (BSS) World Archaeology .....	3
ANTH 2010 (BSS) Peoples of the Contemporary World.....	3
APEC 2010 (BSS) Introduction to Microeconomics (prereq.) .....	3
ASTE 2900 (BSS) Humanity in the Food Web.....	3
ECN 2010 (BSS) Introduction to Microeconomics (prereq.).....	3
ENVS 2340 (BSS) Natural Resources and Society .....	3
FCHD 1010 (BSS) Balancing Work and Family .....	3

FCHD 1500 (BSS) Human Development Across the Lifespan.....	3
FCHD 2400 (BSS) Marriage and Family Relationships .....	3
FCHD 2450 (BSS) The Consumer and the Market .....	3
GEOG 1300 (BSS) World Regional Geography.....	3
GEOG 1400 (BSS) Human Geography.....	3
HONR 1340H (BSS) Social Systems and Issues.....	3
JCOM 1500 (BSS) Introduction to Mass Communication .....	3
JCOM 2010 (BSS) Media Smarts: Making Sense of the Information Age .....	3
MSL 2110 (BSS) Foundations of Leadership.....	3
NR 1010 (BSS) Humans and the Changing Global Environment .....	3
POLS 2200 (BSS) Comparative Politics .....	3
PSY 1010 (BSS) General Psychology .....	3
REH 1010 (BSS) Society and Disability.....	3
SOC 1010 (BSS) Introductory Sociology .....	3
SPED 1010 (BSS) Society and Disability.....	3
WGS 1010 (BSS) Introduction to Women and Gender Studies.....	3

**Or one of the following exams:**

- AP Government and Politics: Comparative Test: Score of 3 or higher
- AP Human Geography Test: Score of 3 or higher
- AP Microeconomics Test: Score of 3 or higher
- AP Psychology Test: Score of 3 or higher
- CLEP Introductory Psychology Test: Score of 55 or higher
- CLEP Introductory Sociology Test: Score of 55 or higher
- DSST Environment and Humanity Test: Score of 46 or higher
- DSST Human/Cultural Geography Test: Score of 48 or higher
- IBO Economics Test: Higher-level Score of 4-7
- IBO Geography Test: Higher-level Score of 5-7
- IBO Psychology Test: Standard- or Higher-level Score of 4-7
- IBO Social and Cultural Anthropology Test:  
Standard- or Higher-level Score of 4-7

**Exploration Requirement  
(3-4 credits)**

Choose an additional class from one of the following General Education categories: QL, BAI, BCA, BHU, BLS, BPS, or BSS. (Note: This additional class is required *only* for students whose first semester enrolled at USU is Summer Semester 2008 or thereafter.)

**Designation of Courses that Satisfy  
General Education Requirements**

All courses approved for the General Education Requirements are clearly designated in this catalog. The designations used for General Education courses are as follows:

**Competency Courses**

- Communications Literacy, CL1 and CL2
- Quantitative Literacy, QL

**Breadth Courses**

- American Institutions, BAI
- Creative Arts, BCA
- Humanities, BHU
- Life Sciences, BLS
- Physical Sciences, BPS
- Social Sciences, BSS

# University Studies Depth Education Requirements

## University Studies Objectives: The Citizen Scholar

The mission of undergraduate education at Utah State University is to help students develop intellectually, personally, and culturally, so that they may serve the people of Utah, the nation, and the world. USU prepares citizen-scholars who participate and lead in local, regional, national, and global communities. University Studies is an integral part of every student's experience—in both lower-division and upper-division courses. A solid University Studies foundation, combined with concentrated study in a major discipline and interdisciplinary studies, provides the breadth and depth of knowledge qualifying USU graduates as educated citizens.

The University Studies program is intended to help students learn how to learn—not just for the present, but also for the future. No individual can master all, or even a small portion, of society's knowledge, but students can learn the basic patterns used to obtain and organize information, enabling them to discover or recover knowledge. University Studies involves a series of interrelated educational experiences which stimulate and assist students in becoming self-reliant scholars and individuals. The ultimate objective is for general and discipline-specific education to complement each other in helping students to:

1. understand processes of acquiring knowledge and information;
2. reason logically, critically, creatively, and independently, and be able to address problems in a broad context;
3. recognize different ways of thinking, creating, expressing, and communicating through a variety of media;
4. understand diversity in value systems and cultures in an interdependent world; and
5. develop a capacity for self-assessment and lifelong learning.

By introducing ideas and issues in human thought and experience, University Studies courses help students achieve the intellectual integration and awareness needed to meet the challenges they will face in their personal, social, and professional lives. University Studies courses emphasize how knowledge is achieved and applied in different domains. Collectively, they provide a foundation and perspective for:

1. understanding the nature, history, and methods of the arts and humanities, as well as the natural and physical sciences;
2. understanding the cultural, historical, and natural contexts shaping the human experience; and
3. interpreting the important cultural, socio-economic, scientific, and technological issues of the diverse global community in which we live.

A university education prepares students to work and live meaningfully in today's rapidly changing global society. Together, general and discipline-specific education help students master the essential competencies making this goal possible. These competencies include:

1. reading, listening, and viewing for comprehension;
2. communicating effectively for various purposes and audiences;
3. understanding and applying mathematics and other quantitative reasoning techniques;

4. using various technologies competently; and
5. working effectively, both collaboratively and individually.

## University Studies Components

The University Studies program, along with study in the major, is designed to assist students in achieving the Citizen Scholar Objectives. The program consists of two sets of requirements: General Education Requirements and Depth Education Requirements.

## University Studies Depth Education Requirements

Beyond the General Education requirements, all students who receive a bachelor's degree must complete two Communications Intensive, one Quantitative Intensive, and 2 credits minimum in *each* of two of the three depth categories.

### Communications Intensive (CI) (2 courses)

For most students, courses taken for the major will meet this requirement.

## Depth Course Requirements (4 credits minimum completed in two or more courses)

Students are required to take *at least two* upper-division courses outside of their major.

Approved 3000-level or above courses must be taken from two of the following three categories: **Depth Humanities and Creative Arts (DHA)**, **Depth Life and Physical Sciences (DSC)**, and **Depth Social Sciences (DSS)**. Each student must select *at least one* course from each of the two categories which *do not* include his or her major (e.g., Sociology majors would select one or more 3000-level or above course(s) from the Depth Humanities and Creative Arts and one or more 3000-level or above course(s) from the Depth Life and Physical Sciences). **Prerequisites are required for depth courses having titles followed by (prereq.). For details, see course listings in the Course Descriptions section of this catalog.**

### Depth Humanities and Creative Arts (DHA)

A minimum of 2 credits is required for all students whose major is **not** categorized as Humanities (HU) or Creative Arts (CA).

<b>USU 3330 (DHA)</b> Arts Symposium (prereq.).....	1-2

DSST Personal Finance Test: Score of 59 or higher

# University Studies Depth Education Requirements

## Categorization of Majors

The courses that must be taken to satisfy University Studies Depth requirements depend on the classification of the student's major. For example, Music is classified in the Creative Arts. Thus, a music major would not need to take a depth course in the Humanities and Creative Arts.

Following is the categorization of majors used for University Studies. These abbreviations are used: **CA—Creative Arts, HU—Humanities, LS—Life Sciences, PS—Physical Sciences, and SS—Social Sciences.**

### College of Agriculture

Agricultural Economics, **SS**  
Family and Consumer Sciences Education, **SS**  
Environmental Soil/Water Science, **PS**  
All other majors, **LS**

### Jon M. Huntsman School of Business

All majors, **SS**

### Emma Eccles Jones

#### College of Education and Human Services

Communicative Disorders and Deaf Education, **SS**  
Early Childhood Education, (category same as area of emphasis)  
Elementary Education, (category same as area of emphasis)  
Family and Consumer Sciences, **SS**  
Family, Consumer, and Human Development, **SS**  
Health Education Specialist, **LS**  
Instructional Technology and Learning Sciences,  
(no undergraduate degree)  
Parks and Recreation, **SS**  
Physical Education, **LS**  
Psychology, **SS**  
Secondary Education, (category same as teaching major category)  
Social Studies Composite Teaching, **SS**  
Special Education, (may use any category)

### College of Engineering

All majors, **PS**

### College of Humanities, Arts, and Social Sciences

Agricultural Communication and Journalism, **LS**  
American Studies, **HU**  
Anthropology, **SS**  
Art, **CA**  
Asian Studies, **HU**  
English, **HU**  
French, **HU**  
German, **HU**

History, **HU**  
Interior Design, **CA**  
International Studies, (category same as area of emphasis)  
Journalism, **SS**  
Landscape Architecture, **CA**  
Law and Constitutional Studies, **SS**  
Liberal Arts, **HU**  
Music, **CA**  
Music Therapy, **CA**  
Philosophy, **HU**  
Political Science, **SS**  
Religious Studies, **HU**  
Social Work, **SS**  
Sociology, **SS**  
Spanish, **HU**  
Speech, **HU**  
Theatre Arts, **CA**

### College of Natural Resources

Environmental Studies, **SS**  
Geography, **SS**  
Recreation Resource Management, **SS**  
Watershed and Earth Systems, **PS**  
All other majors, **LS**

### College of Science

Biology, **LS**  
All other majors, **PS**

## Designation of Courses that Satisfy University Studies Depth Education Requirements

All courses approved for the University Studies Depth Education Requirements are clearly designated in this catalog. The designations used for University Studies Depth Education courses are as follows:

### Intensive Courses

Communications Intensive, **CI**  
Quantitative Intensive, **QI**

### Depth Courses

Humanities and Creative Arts, **DHA**  
Life and Physical Sciences, **DSC**  
Social Sciences, **DSS**

## Course Descriptions

University Studies (USU), pages 674-675

# Undergraduate Graduation Requirements

At the undergraduate level, the University offers Associate of Science and Associate of Applied Science degrees, the degrees of Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Interior Design, Bachelor of Landscape Architecture, Bachelor of Music, and Bachelor of Science, and provides coursework which will satisfy requirements for all professional certificates issued by the State Board of Public Instruction. Certificates are offered for one-year programs in certain departments.

For information about graduate degrees and majors offered by USU, see pages 110-111 of this catalog.

## Certificates and Associate of Applied Science Degrees

Certificates and Associate of Applied Science degrees are awarded for completion of less-than-baccalaureate programs at Utah State University. An Associate of Science degree is offered through USU Regional Campuses and Distance Education. As defined by the Utah State Board of Regents, a certificate is awarded upon the successful completion of a program directly oriented toward job entry when the program is of a duration of 18 months or less (1-48 semester credit hours). The Regents define an Associate of Applied Science or Associate of Science program as one directly oriented toward job entry when the program is of a duration of 19-36 months (49-96 semester credit hours).

The College of Agriculture offers one- and two-year programs leading to certificates and Associate of Applied Science degrees. One-year certificate programs are available in agricultural machinery technology, dairy herdsman (vocational technology), and ornamental horticulture. Associate of Applied Science degrees include agricultural machinery technology and ornamental horticulture. An Associate of Applied Science degree in Office Systems Support is offered *only* through Regional Campuses and Distance Education.

In most cases, the courses in the Associate of Applied Science programs are arranged so that, at a later date, the four-year baccalaureate program can be completed with a minimum loss of time.

## Associate of Applied Science Degree

A minimum of 60 credit hours is required for an Associate of Applied Science (AAS) degree. Requirements include coursework in the following areas: primary area of study, related area, general education, and electives. Candidates for an AAS degree must complete at least 20 USU credits at USU's Logan campus or designated centers, or through classes offered by Regional Campuses and Distance Education through USU.

See department offerings for specific requirements. AAS degrees are offered in the following areas: agricultural machinery technology, ornamental horticulture, and office systems support. (**Note:** The office systems support AAS degree is offered *only* through Regional Campuses and Distance Education.)

## Associate of Science Degree

The Associate of Science (AS) degree in general studies is offered through Regional Campuses and Distance Education. A minimum of 60 credits is required for an AS degree. This degree is available at Distance Education campuses and centers, as well as online, and is also delivered to several international locations. Requirements include

coursework in general education, a primary or related area of study, and electives. Candidates for an AS degree must complete at least 20 USU credits at Utah State University.

## Bachelor's Degrees

The University confers the baccalaureate degree upon students who meet the specified requirements of any of the seven resident colleges.

Graduates of the Colleges of Engineering and Natural Resources are eligible to receive the Bachelor of Science degree. The Bachelor of Arts degree is not offered in these colleges, with the exception of the Department of Environment and Society where Bachelor of Science and Bachelor of Arts degrees are offered in Geography.

Graduates of the College of Agriculture, the Jon M. Huntsman School of Business, the Emma Eccles Jones College of Education and Human Services, and the College of Science may be awarded the Bachelor of Science degree or the Bachelor of Arts degree as recommended by the student's individual department and approved by the dean of the college.

Graduates of the College of Humanities, Arts, and Social Sciences may be awarded the Bachelor of Science Degree, the Bachelor of Arts degree, the Bachelor of Fine Arts degree, the Bachelor of Interior Design degree, the Bachelor of Landscape Architecture degree, or the Bachelor of Music degree as recommended by the student's individual department and approved by the dean of the college.

All graduates, regardless of the type of degree, must satisfy University Studies general education and depth education requirements.

Students who simultaneously complete all of the requirements for more than one bachelor's degree program shall be awarded a separate diploma for each degree.

## Bachelor of Arts Degree

A Bachelor of Arts (BA) degree signifies proficiency in one or more foreign languages. Specifically, the BA requirement may be completed in one of the following ways:

1. Demonstration of proficiency in *one* foreign language by successful completion of one course at the 2020-level or higher (or its equivalent).  
**Or**
2. Demonstration of proficiency in American Sign Language by successful completion of American Sign Language IV (COMD 4920) and Socio-Cultural Aspects of Deafness (COMD 4780), and by passing an exit interview.  
**Or**
3. Demonstration of proficiency in *two* foreign languages by successful completion of the 1020 course level in one language **and** the 2010 course level in the second language (or its equivalent).  
**Or**
4. Completion of an upper-division (3000-level or higher) foreign language grammar or literature course requiring the 2020 course level (or its equivalent) as a prerequisite. Conversation courses *cannot* be considered for satisfying this requirement.

# Undergraduate Graduation Requirements

For nonnative English-speaking students *only*, the following options are available:

1. Successful completion of the Intensive English Language Institute (IELI) program for international students.
- Or**
2. TOEFL, Michigan, or IELI placement scores high enough to meet the University admission criteria.

## Bachelor's Degree Requirements

### Academic Program Requirement

All graduates are required to complete an approved academic program in one of the seven resident colleges.

### American Institutions

All graduates are required to have an understanding of the fundamentals of the history, principles, form of government, and economic system of the United States. Students may meet this requirement in any one of the following ways: (a) receiving a passing grade on a special examination; (b) receiving a grade of three or better on the Advanced Placement Examination in American History; (c) satisfactory completion of: USU 1300 or HONR 1300; ECN 1500; HIST 1700, 2700, or 2710; or POLS 1100; or (d) satisfactory completion of a transfer course equivalent to one of the courses in (c).

### University Studies

Completion of the University Studies general education and depth education requirements. (See pages 67-75.)

### Upper-Division Credits

Completion of a minimum of 40 credits numbered 3000 or above.

### Total Credits

A minimum of 120 credits of acceptable collegiate work and a minimum of 100 credits with a grade of C- or better.

### GPA

In order to graduate, students must meet all GPA requirements for their major. These requirements can be found in the *Instructional Units and Programs* section of this catalog. USU credits *only* are used in computing the GPA. The University requires a minimum GPA of 2.0 to be considered for good standing and for graduation, although the majority of degree programs require a higher GPA.

### Major

Each student must complete all requirements for an approved program of study. This program is comprised of up to 80 credits, which include the major, licensure requirements, and all other required major coursework. The program of study for each major is described in the appropriate departmental section of this catalog and on the major requirement sheets, which can be obtained online at: <http://www.usu.edu/majorsheets/>

Students should select a major subject upon entering the University or early the first year, but not later than entrance into the upper division. As soon as the major subject has been selected, the student should contact the department in which he or she has decided to major. A *Change of Program* form must be filed with the University Registrar. The head of the department will assign an advisor. Registration in succeeding semesters should be carefully checked and approved

by the advisor to assure proper selection of courses for satisfying institutional and departmental requirements. If more than one major is being pursued concurrently, departmental and college authorization must be obtained.

Students who have completed at least 60 credits (not including AP, CLEP, and concurrent enrollment) and one USU semester must be accepted into a department or be admitted to Provisional Admission Warning before they are allowed to register for additional work. To enforce this policy, a hold will be placed on the student's registration.

The selection of a major(s), the fulfillment of requirements, and a choice of a career or vocation are the responsibility of the student. The University does not assume responsibility for these choices nor for successful employment upon completion of University programs. However, to aid in these choices, the University provides advising, counseling, and testing services for self-evaluation and information about careers and employment opportunities. Career Services assists students in all aspects of their career search.

Students are encouraged to meet regularly with their advisor to establish a plan of study and confirm a graduation date as early as possible.

### Changing a Program

When a change of degree, catalog year, major, minor, and/or emphasis is desired, a student must go to the department office in which he or she is presently enrolled to initiate the proper paperwork. If he or she is changing to a program within the same department, the department office may complete the required form, have it signed, and have it received by the Registrar's Office. When a student is changing departments, signatures of both department heads are required on the form. After the form is received by the Registrar's Office, the program is changed and the information becomes part of the student's file.

### Minor

USU does not require that all students complete a minor. However, some departments and/or programs do require completion of a minor, which is described in the catalog statement of the department or program.

### USU Courses

Candidates for a bachelor's degree must complete at least 30 credits at USU's Logan campus or designated centers, or through classes offered by Regional Campuses and Distance Education through USU. A minimum of 20 of these credits must be completed in upper-division courses, of which at least 10 credits must be completed in courses required by the student's major.

Candidates for an associate degree must complete at least 20 credits at USU's Logan campus or designated centers, or through classes offered by Regional Campuses and Distance Education through USU.

### Credit by Examination

Some noncollegiate experiences may permit credit through challenge and foreign language examinations. For further information, see pages 40-45.

### Remedial Courses

Remedial courses (numbered below 1000), cannot be used to satisfy baccalaureate requirements. These credits do not count toward GPA or Earned Hours.

# Undergraduate Graduation Requirements

## Latin Scholastic Distinctions

To qualify for Latin Scholastic Distinctions at graduation, a student must have completed a minimum of 40 USU semester credits. USU designated Latin Scholastic Distinctions at graduation are:

Summa Cum Laude	3.950 to 4.000 GPA
Magna Cum Laude	3.800 to 3.949 GPA
Cum Laude	3.500 to 3.799 GPA

These grade point averages are USU cumulative GPAs. Transfer credits are not considered in determining eligibility for these distinctions.

## Honors Degrees

In addition to Latin Scholastic Distinctions at graduation, USU offers honors degrees designed to fill a variety of student needs. Honors Program members may work toward one of three degree options: (1) Departmental Honors, (2) Departmental Honors with Honors in University Studies, or (3) University Honors. For further information, see page 310.

## General Information

### Regional Campuses and Distance Education

Applicants for degrees who have taken courses for credit through Regional Campuses and Distance Education (including Independent Study courses) are subject to regular University admission requirements and must file transcripts of all university credit with the Admissions Office.

### Financial Obligations

Students are reminded that nonpayment of fees owed to the University may result in withholding of diplomas or certificates.

### Independent Study

Grades for Independent Study courses must be completed and on file in the Registrar's Office by the last day of classes (excluding finals) of the semester of intended graduation.

### Incomplete Grades

Incomplete grades must be made up and on file in the Registrar's Office no later than the last day of classes during the semester for which the candidate has applied for graduation.

### Changes in Graduation Requirements

Students are expected to familiarize themselves with the rules and regulations of both the University and their specific major. Detailed information concerning graduation requirements is available in this catalog as part of the departmental descriptions. Responsibility for satisfying all graduation requirements rests upon the student. Utah State University reserves the right to change graduation requirements at any time.

### Seven-Year Graduation Requirements Policy

Students who can complete a baccalaureate degree within seven years of enrollment at USU can qualify for graduation by meeting (1) the General Education or University Studies requirements in effect when they initially enrolled and (2) the major requirements in effect when they officially declared their major, even though there may have been changes in General Education, University Studies, and major requirements since that time. Students who have not completed

the baccalaureate requirements within seven years of their initial enrollment at USU must have their General Education (or University Studies) and major requirements evaluated and approved by their department head and dean. Exceptions to this seven-year graduation requirements policy may be necessary for mandated changes in degree requirements.

### Intent to Transfer Graduation Requirements

Students who did not initially enroll at USU, but have completed the Intent to Transfer process, will be obligated by the Seven-Year Policy for both the General Education (or University Studies) and major requirements in effect when their Intent to Transfer Education Plan was signed by representatives at both USU and the sending institution. Signatures from both institutions must be obtained during the same semester.

### Applying for Graduation

Undergraduate candidates for graduation must have completed the application process by having an application on file and fees paid to the Registrar's Office, Taggart Student Center 246. The application deadlines are: December 5 for spring semester graduates, April 25 for summer semester graduates, and August 5 for fall semester graduates. Students who complete the application process prior to the deadlines will be assessed a \$10 application fee. However, a \$50 fee will be required for students who complete the process after the appropriate deadlines.

The application process is as follows: (1) Request an application from the Registrar's Office; (2) Return with picture ID to the Registrar's Office on the specified date and pick up the application for candidacy for graduation packet; (3) Carefully review the graduation application instructions; (4) Submit the application to departmental advisor and college dean for review and signatures (dual majors must have the appropriate signatures for each major); (5) Complete the graduating student survey; and (6) Submit the graduation packet to the Registrar's Office (Taggart Student Center 246) and pay the application fee. *Approximately six weeks is needed to complete the application process.*

Students should contact the Registrar's Office at the e-mail address listed below for the college in which they plan to graduate.

College of Agriculture, grad.ag@usu.edu  
Jon M. Huntsman School of Business, grad.bu@usu.edu  
Emma Eccles Jones College of Education and Human Services,  
grad.ed@usu.edu  
College of Engineering, grad.en@usu.edu  
College of Humanities, Arts, and Social Sciences, grad.hu@usu.edu  
College of Natural Resources, grad.nr@usu.edu  
College of Science, grad.sc@usu.edu  
Regional Campuses and Distance Education, grad.de@usu.edu

### Names of the candidates will appear on the graduation lists and diplomas as they appear on the student's transcript.

To change the name appearing on the transcript, the student must fill out the appropriate form in the Registrar's Office and provide a social security card with the new name, plus a photo ID card.

# Undergraduate Graduation Requirements

## Commencement

Candidates will attend commencement exercises at the end of the semester during which they complete their requirements (fall or spring). Those candidates completing requirements at the end of summer semester may choose to attend *either* the preceding spring or the following fall commencement exercises. Students must notify the Registrar's Office of the address to which the diploma is to be sent. All graduates will receive their diplomas through the mail. Participation in commencement exercises does not ensure that the candidate has satisfied graduation requirements.

## Second Bachelor's Degree

Applicants for a second bachelor's degree must file an application with the Admissions Office and obtain the recommendation of their academic dean prior to being admitted. A second bachelor's degree is available only to those on whom a first bachelor's degree has been conferred by a regionally-accredited institution. Students must complete a minimum of 30 USU credits beyond those applied toward the first bachelor's degree, 18 of which must be earned in department-approved upper-division courses related to the major. USU credits may be earned in courses completed at USU's Logan campus or at designated centers, or through classes offered by Regional Campuses and Distance Education through USU.

Candidates for a second bachelor's degree must have met the American Institutions requirement in the first bachelor's degree, or complete the requirement before receiving the second bachelor's degree.

**Note:** The first bachelor's degree must have been awarded by a regionally-accredited college or university.

## Split Form

Courses numbered 0010 through 4990 will be posted to an undergraduate transcript. Courses numbered 6000 through 7990 will be posted to a graduate transcript. Courses numbered 5000 through 5990 will be posted to *either* an undergraduate *or* graduate transcript, based on the primary program level of the student. In cases where an undergraduate has taken one or more graduate-level courses required for program completion, a form will need to be submitted to the Registrar's Office, requesting that the course(s) be posted to the undergraduate transcript. Students should contact their undergraduate advisor for help with filing the appropriate form. In cases where a

graduate student has taken one or more undergraduate-level courses as part of the approved program of study, a form will need to be submitted to the Registrar's Office, requesting that the course(s) be posted to the graduate transcript. Students should contact their graduate advisor for help with filing the appropriate form.

## Letter of Completion

Students who have completed the General Education portion of the University Studies Requirements at Utah State University, and who transfer to another institution, may receive a Letter of Completion from USU. If a student does not intend to return to USU for a bachelor's degree, the requirement of two USU breadth courses may be waived, since the USU course requirement is unique to USU. Students are still required to complete *at least one* breadth course in each of the six breadth areas, as well as the Communications Literacy (CL1 and CL2), Quantitative Literacy (QL), and Computer and Information Literacy (CIL) requirements.

It is the student's responsibility to initiate a request for this letter. The student's advisor will determine whether or not the student has indeed satisfied all of the requirements. If so, the advisor may go to <http://www.usu.edu/advising/forms/> and select the Letter of Completion Form. The advisor should complete the form, indicating how the student has met the requirements. The advisor should also indicate where the letter should be sent. Letters are typically sent to the Admissions Office at the transfer institution. After the advisor has completed the form, he or she should send the form to the Registrar's Office. The Registrar's Office will then generate an official letter and send the letter to the transfer institution.

On occasion, there may be circumstances in which a student has completed *most* of the General Education requirements at Utah State University, transferred to another institution where he or she has completed the last of the courses needed to complete the USU General Education requirements, and then requested a Letter of Completion from USU. Since the coursework was not completed at USU, USU *may not* submit a Letter of Completion, *unless* the coursework is posted to a USU transcript. To have this coursework posted to a USU transcript, a student should submit his or her transcript and a \$15 posting fee to the Registrar's Office, 1600 Old Main Hill, Logan UT 84322-1600. The Registrar's Office will then post and evaluate the credit. If all requirements have been satisfied, the Letter of Completion will be generated.

# USU Academic Policies

## Academic Honesty

The University expects that students and faculty alike maintain the highest standards of academic honesty. For the benefit of students who may not be aware of specific standards of the University concerning academic honesty, the following information is quoted from *The Code of Policies and Procedures for Students at Utah State University* (revised April 2002), Article V, Section 3:

### Section 3. University Standards

#### A. Academic Integrity—"The Honor System"

Each student has the right and duty to pursue his or her academic experience free of dishonesty. The Honor System is designed to establish the higher level of conduct expected and required of all Utah State University students.

**The Honor Pledge**—To enhance the learning environment at Utah State University and to develop student academic integrity, each student agrees to the following Honor Pledge:

"I pledge, on my honor, to conduct myself with the foremost level of academic integrity."

Acts of academic dishonesty include but are not limited to:

1. **Cheating:** (1) using or attempting to use or providing others with any unauthorized assistance in taking quizzes, tests, examinations, or in any other academic exercise or activity, including working in a group when the instructor has designated that the quiz, test, examination, or any other academic exercise or activity be done "individually"; (2) depending on the aid of sources beyond those authorized by the instructor in writing papers, preparing reports, solving problems, or carrying out other assignments; (3) substituting for another student, or permitting another student to substitute for oneself, in taking an examination or preparing academic work; (4) acquiring tests or other academic material belonging to a faculty member, staff member, or another student without express permission; (5) continuing to write after time has been called on a quiz, test, examination, or any other academic exercise or activity; (6) submitting substantially the same work for credit in more than one class, except with prior approval of the instructor; or (7) engaging in any form of research fraud.
2. **Falsification:** altering or fabricating any information or citation in an academic exercise or activity.
3. **Plagiarism:** representing, by paraphrase or direct quotation, the published or unpublished work of another person as one's own in any academic exercise or activity without full and clear acknowledgment. It also includes using materials prepared by another person or by an agency engaged in the sale of term papers or other academic materials.

Violations of the above policy will subject the offender to the University discipline procedures as outlined in Article VI, Section 1 (paragraphs A, E, F, G, and H) of the *Code*.

#### A. Academic Dishonesty—"The Honor System"

An instructor has full autonomy to evaluate a student's academic performance in a course. If a student violates the Honor System, the instructor may sanction the student as part of the course evaluation. Such sanctions may include: (1) verbally warning the student; (2) giving the student a written reprimand; (3) requiring the student to rewrite a paper/assignment or to retake a test/examination; (4) adjusting the student's grade—for either an assignment/test or the course; or (5) giving the student a failing grade for the course. A sanction by the instructor is not a disciplinary penalty. If the instructor believes that, in addition to any sanction, the student should be disciplined and a penalty imposed, the instructor shall refer the student for disciplinary proceedings.

The penalties which the University may impose on a student for an Honor System violation are:

1. **Probation:** continued participation in an academic program predicated upon the student satisfying certain requirements as specified in a written notice of probation. Probation is for a designated period of time and includes the probability of more severe disciplinary penalties if the student does not comply with the specified requirements or is found to be violating the Honor System during the probationary period. The student must request termination of the probation in writing.
2. **Suspension:** temporary dismissal from an academic program or from the University for a specified time, after which the student is eligible to continue the program or return to the University. Conditions for continuance or readmission may be specified.
3. **Expulsion:** permanent dismissal either from an academic program or from the University.
4. Assigning a designation with a course grade indicating an Honor System violation involving academic dishonesty. Conditions for removal may be specified, but the designation remains on the student's transcript for a minimum of one year; provided however, that once the student's degree is posted to the transcript, the designation may not be removed thereafter.
5. Denial or revocation of degrees.
6. Performance of community service.

- E. More than one of the penalties may be imposed for any single violation. Reference to "penalty" includes multiple penalties.
- F. Imposition of the penalty of suspension or expulsion from the University must be approved by the president of the University. The president's approval shall be given either at the conclusion of the 10-day appeal period if no appeal is filed, or as part of the president's final decision if an appeal is filed.
- G. When a student is suspended or expelled from the University, tuition and fees that have been paid for the semester during which the suspension or expulsion occurs are refundable in accordance with the standard refund policy as stated in the semester *Schedule of Classes*.
- H. A hold on a student's admission, registration, or financial aid is not an independent penalty, but may be utilized by the University for various purposes, including either to (1) direct a student's attention to, and subsequent participation in, a pending disciplinary grievance proceeding or (2) to obtain the student's compliance with a penalty which has been imposed or other action which has been taken under the *Student Code*.

The complete *Code of Policies and Procedures for Students at Utah State University* can be viewed at:

<http://www.usu.edu/student-services/studentcode/>

## Assumption of Risk

All classes, programs, and extracurricular activities within the University involve some risk, and certain ones involve travel. The University provides opportunities to participate in these programs on a voluntary basis. Therefore, students should not participate in them if they do not care to assume the risks. Students can ask the respective program leaders/sponsors about the possible risks a program may generate, and if students are not willing to assume the risks, they should not select that program. By voluntarily participating in classes, programs, and extracurricular activities, a student does so at his or her own risk. General information about University Risk Management policies, insurance coverage, vehicle use policies, and risk management forms can be found at: <http://www.usu.edu/riskmg/>

## E-mail Communication Policy

All students enrolled at USU are provided with a University e-mail account. University officials, including advisors, professors, administrators, and various office personnel, use a student's e-mail account as an *official* means of communication.

It is the responsibility of *all* students to check their e-mail accounts on a *regular basis*. Students will be held accountable as being *officially notified* when any correspondence is sent by University representatives to their e-mail accounts. For verification and security reasons, once a student is enrolled at USU, *only* the USU e-mail account will be used for official communications.

Prior to students' enrollment at USU, University officials may correspond with them electronically via other e-mail providers.

## Equal Opportunity/Affirmative Action

Utah State University is an affirmative action employer and is committed to providing equal educational and employment opportunity regardless of race, color, religion, sex (including sexual harassment and pregnancy), national origin, age, disability, or veteran status. In addition, discrimination based on sexual orientation is prohibited in the hiring of employees or in evaluating employee or student performance. Equal opportunity applies to all aspects of employment, such as recruitment, hiring, promotion, training, benefits, and salary. Equal educational opportunities include, but are not limited to, admissions, access to course offerings, financial assistance, housing, and extracurricular activities. The AA/EO Director serves as the Title IX and Section 504 Coordinator for the University. For additional AA/EO-related information and specific contact information, see: <http://www.usu.edu/aaeo>

## Notification of Rights Under Family Educational Rights and Privacy Act (FERPA)

Student records at Utah State University are governed by the Family Educational Rights and Privacy Act (FERPA). The following is a description of the rights of students under these regulations.

### Definitions

A **student** is defined as any individual who is attending or has attended Utah State University.

An **educational record** is any record maintained by Utah State University which is directly related to the student. An educational record does *not* include: (1) a personal record kept by a staff member, if it is kept in the sole possession of the maker of the record and is not accessible to or revealed to any other person, except a temporary substitute for the maker of the record; (2) records created and maintained by the Utah State University Police Department for law enforcement purposes; (3) an employment record of an individual whose employment is not contingent on the fact that he or she is a student, provided the record is used only in relation to the individual's employment; (4) records made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional, if the records are used *only* for treatment of a student and made available *only* to those persons providing the treatment; or (5) alumni records which contain information about a student after he or she is no longer in attendance at the University and which do not relate to the person as a student.

### Student Rights under FERPA

FERPA affords students certain rights with respect to their educational records. These rights include: (1) the right to inspect and review information contained in their educational records; (2) the right to request to amend their educational records; (3) the right to consent to disclosure, with certain exceptions specified in the Act, of personally identifiable information from educational records; and (4) the right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA.

#### 1. The right to inspect and review information contained in their educational records.

This right should be granted within 45 days of the day the University receives a request for access.

Students requesting access to their records must present proper identification and a signed, formal written request to the registrar, dean, head of the academic department, or other appropriate official. The request should identify the record(s) the student wishes to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

Students may request a copy of their educational records. The cost of each copy is \$2.00 for an official transcript and \$.50 per page for other records.

There may be occasions when a record may not be copied, especially if doing so may compromise another student's or faculty member's privacy. The University may deny access to the following records:

(a) parents' financial statements; (b) letters of recommendation, if the student has waived his or her right of access; (c) records filed before January 1, 1975; (d) records connected with denied applications to attend Utah State University; or (e) records not included in the FERPA definition of educational records.

Utah State University reserves the right to deny copies of records, including transcripts, in any of the following situations:

(a) the student has an unpaid financial obligation to the University; (b) there is an unresolved disciplinary action against the student; or (c) the educational record requested is an exam or set of standardized test questions.

#### 2. The right to request the amendment of their educational records.

Students may exercise this right when they believe their records are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

A student desiring to ask the University to amend a record should write to the University official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed. If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and of the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when he or she is notified of the right to a hearing.

#### 3. The right to consent to disclosure, with certain exceptions specified in the Act, of personally identifiable information from educational records.

##### Permission to Release Student Information

With the exception of directory information, Utah State University must receive written consent from students before disclosing any personally identifiable information from their educational records. Students may give the University their consent by completing a *Release of Student Information* form. This form can be found at:

<http://www.usu.edu/registrar/forms/pdf/info-release.pdf>

The written consent must: (a) specify the records to be released, (b) state the purpose of the disclosure, (c) identify the party or class of parties to whom disclosure may be made, and (d) be signed and dated by the student.

##### Exceptions

Utah State University may release personally identifiable information from a student's educational record without first obtaining the student's written permission when the disclosure is to:

1. University officials who have a legitimate educational interest in the records. A University official is:
  - a. a person employed by the University in an administrative, academic, research, or support staff position, whether full- or part-time.
  - b. a person appointed by the Utah State Board of Regents or the USU Board of Trustees.
  - c. a person employed by, under contract to, or assigned to the University to perform a special task for the benefit of the University, such as an attorney or auditor.

# USU Academic Policies

- d. a person who is employed by the Utah State University Police Department.
- e. a person serving on an official disciplinary, grievance, or appeals committee.

A University Official has a legitimate educational interest if the official is:

- a. performing a task that is specified in his or her position description or performing a task that is related to his or her contract agreement or appointment.
  - b. performing a task related to a student's education.
  - c. performing a task related to the discipline of or grievance by a student.
  - d. providing a service or benefit relating to the student or student's family, such as health care, counseling, job placement, or financial aid.
  - e. maintaining the safety and security of the campus and/or investigating violations of the law that affect the University.
2. certain officials of the U.S. Department of Education, the Comptroller General, the Attorney General, and state and local educational authorities, in connection with audit or evaluation of certain state or federally supported educational programs.
  3. state and local officials to whom disclosure is specifically required by state statute adopted prior to November 19, 1974.
  4. Veterans Administration Officials.
  5. officials of other institutions in which a student seeks or intends to enroll.
  6. persons (other than parents) or organizations providing financial aid to students, or determining financial aid decisions on the condition that the information is necessary to: (a) determine eligibility for the aid, (b) determine the amount of the aid, (c) determine the conditions for the aid, or (d) enforce the terms and conditions of the aid.
  7. organizations conducting studies for, or on behalf of, educational agencies or institutions to develop, validate, and administer predictive tests, to administer student aid programs, or to improve instruction.
  8. accrediting organizations carrying out their accrediting functions.
  9. parents of a student who is claimed as a dependent on a parent's most recent tax statement, as evidenced by a notarized *Parent Declaration of Student Dependency* form, stating that the student is dependent for income tax purposes. This form is available at: <http://www.usu.edu/registrar/forms/pdf/parent.pdf>
  10. persons in compliance with a judicial order or a lawfully issued subpoena, provided that the University makes a reasonable attempt to notify the student in advance of the compliance.  
**Note:** The University is not required to, and should not, notify the student if a federal grand jury subpoena, or any other subpoena issued for a law enforcement purpose, orders the University not to disclose the existence or contents of the subpoena.

11. defend USU in a legal action. Utah State University is not required to obtain a subpoena to produce educational records of a student if the University is sued by the student or takes legal action against a student. The records produced must be needed by the University to proceed with legal action as plaintiff or to defend itself.

12. the Attorney General of the United States or his designee in response to an ex parte order in connection with the investigation or prosecution of terrorism crimes.

13. persons in an emergency, if the knowledge of the information is, in fact, necessary to protect the health or safety of students or other persons.

14. a victim of an alleged perpetrator of a crime of violence or a nonforcible sex offense, subject to the *Definition of Terms*. The disclosure may *only* include the final results of the disciplinary proceeding conducted by the University with respect to that alleged crime or offense. The University may disclose the final results of the disciplinary proceeding, regardless of whether or not the University concluded a violation was committed.

15. interested individuals (the public), subject to the requirements in Section 99.39, in connection with the final results of a University disciplinary proceeding.

The University must not disclose the final results of the disciplinary proceeding *unless* it has determined that: (a) the student is an alleged perpetrator of a crime of violence or nonforcible sex offense, and (b) with respect to the allegation made against him or her, the student has committed a violation of the University's rules or policies.

The final results must include *only*: (a) the name of the student, (b) the violation committed, and (c) any sanction imposed by the University against the student.

The University may not disclose the name of any other student, including a victim or witness, without prior written consent of the other student.

16. parents regarding the student's violation of any federal, state, or local law, or of any institutional policy or rule, governing the use of alcohol or a controlled substance if: (a) the University has determined that the student has committed a disciplinary violation with respect to that use or possession, and (b) the student is under the age of 21 at the time of the disclosure to the parent. This item does not supercede any state law prohibiting the University from disclosing this information.

#### **4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA.**

The name and address of the office that administers FERPA is:

**Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue, SW  
Washington DC 20202-5901**

## Release of Directory (Public) Information

At its discretion, Utah State University may provide *Directory Information* in accordance with the provisions of FERPA. Types of information considered as *Directory Information* are listed below.

### Directory (Public) Information at Utah State University

Name  
User ID (A-Number)  
Local and permanent address  
Electronic mail address  
Telephone number  
Date of birth  
Residency status  
Degrees and awards received  
Most recent institution attended by the student  
Academic level  
Major field of study  
Department or college  
Enrollment status (undergraduate or graduate, full-time or part-time)  
Participation in officially recognized activities/sports  
Dates of attendance and graduation  
Weight/height of members of athletic teams  
Photographs

Directory information is considered public information. However, the University *does not* release lists of students or name-and-address labels to businesses or agencies outside the University. Likewise, the University *does not* release information regarding applicants to outside agencies.

## Privacy of Directory (Public) Information

### Blocking the Release of Directory (Public) Information

By default, Utah State University may release a student's directory information. Students may prohibit (or block) the public disclosure of directory information by completing a *Privacy of Directory (Public) Information* form. This form is available at:

<http://www.usu.edu/registrar/forms/pdf/privacy.pdf>

Students should consider *very carefully* the consequences of a decision to withhold directory information. A privacy block will call for Utah State University to not release this *directory information*. Therefore, any future requests for such information from noninstitutional persons or organizations will be refused.

Although Utah State University will honor a student's request to withhold directory information, USU *cannot assume responsibility* to contact the student for subsequent permission to release this information. Regardless of the effect upon the student, Utah State University assumes no liability as a result of honoring a student's instructions to withhold such information.

## Allowing the Release of Directory Information After it Has Been Previously Blocked

Although the initial request may be filed at any time, requests for a privacy block will be honored by the University until removed through another submission of the *Privacy of Directory (Public) Information* form by the student. The form provides two options for students: (1) block the release of information, and (2) allow the release after it has already been blocked.

### Exceptions: One-time Release of Directory (Public) Information

A student who has his or her directory information blocked may want to make a one-time exception, while still keeping his or her directory information blocked. For example, a college may want to list all of the students who made the Honor Roll (Dean's List). The names of students who have their directory information blocked will be omitted from this listing. A student who wishes to keep his or her directory information blocked may complete a *One-time Release of Directory (Public) Information* form. This form is available at:

<http://www.usu.edu/registrar/forms/pdf/privacyexception.pdf>

Utah State University cannot assume responsibility to contact students for subsequent permission to release this information. It is the sole responsibility of the student to initiate the release of blocked information.

## Student Right-to-Know and Campus Security Act

This act (Public Law 101-542), signed into law in November 1990 by the U.S. Department of Education, applies to institutions of higher education receiving federal financial assistance. Under this policy, current and prospective students must be informed of completion or graduation rates of students seeking certificates or degrees. The act also requires reporting of security policies and crime statistics to students, employees, and the U.S. Department of Education.

Current information, reports, and statistics are available at:

<http://www.usu.edu/righttoknow>

## Additional Policies

Policies relating to registration, student records, and academic standing may be found in the *Registration, Student Records, and Academic Standing* section of this catalog on pages 56-63.

The complete *USU Academic Policies and Procedures Manual*, which includes additional policies, as well as policies shown in this catalog, is available online at: <http://www.usu.edu/policies/>

# Academic Support Programs and Services

---

## Academic Resource Center

The Academic Resource Center (ARC) provides services and programs that enhance students' learning skills, study strategies, and academic behaviors. Classes such as PSY 1730 help students develop critical thinking and college-level study strategies. "Drop-in" mathematics and statistics tutoring, as well as the Supplemental Instruction (SI) program, provide additional academic support. Individual consultations assist students with gaining course-specific learning strategies.

## Courses

**PSY 1730, Strategies for Academic Success (1-3 credits)**, involves practice and application of important learning strategies and study skills. Topics include test preparation, note-taking, textbook reading, test-taking, etc.

**MGT 2160, Student Applied Leadership Training (2 credits)**, is designed to develop the skills of students working as tutors. This class meets the standards of the CRLA National Tutoring Certification Program.

## Individual Assistance

Staff members provide individual consultation for students needing help with specific learning strategies in one or more of their courses.

## Workshops

Workshops are offered on a variety of learning topics for classes or student, faculty, and staff groups. To arrange for a workshop, call (435) 797-1128.

## Supplemental Instruction

A program of Supplemental Instruction (SI) for selected University Studies Breadth classes is sponsored by the center. A qualified student who has completed the specific course is hired by the center to attend all class sessions, conduct review sessions, and demonstrate effective study strategies. SI classes are identified in the Class Schedule on Banner and on the Web:

[http://www.usu.edu/arc/supplemental\\_instruction/](http://www.usu.edu/arc/supplemental_instruction/)

## Tutoring Programs

### Drop-In Math and Statistics Tutoring

Free tutoring is provided by trained, certified tutors in the Tutoring Center, Taggart Student Center 225. Schedules can be picked up in Taggart Student Center 305 each semester or can be found on the Web-based Tutor Directory.

### Tutor Advertiser

Students can hire a qualified tutor or list themselves as private tutors through the Web-based *Tutor Advertiser*. These tutors must be paid by the student receiving the tutoring.

### Tutor Directory

The center publishes a directory of all on-campus free tutoring. The directory is available through the center's Web page:

<http://www.usu.edu/arc/>

## Idea Sheets

Free Idea Sheets on a variety of study strategies are available in the center and through the center's Web page: <http://www.usu.edu/arc/>

## Video Viewing Library

The center has a collection of study strategy videos, which students may view in the Merrill-Cazier Library.

## Referral Resources

The center provides students with referral information for a variety of on-campus and off-campus services and agencies.

For more information, contact the Academic Resource Center, Taggart Student Center 305, (435) 797-1128.

## Cooperative Education Internship Program

The Cooperative Education Internship Program offers both undergraduate and graduate students a unique opportunity to integrate career, social, and personal development into the educational process. The program is designed to allow students to alternate classroom study with a series of paid preprofessional work experiences related to their field of study. These experiences increase in complexity as the student's background in a given field increases.

The program offers several specific benefits to students. It provides those students who have decided on an academic major an opportunity to obtain pregraduation work experience in their chosen career. The program provides those students who are unsure of their academic major an opportunity to explore several career possibilities. It provides them a chance to earn money for their education and credit toward their degree. Finally, it substantially improves the students' opportunities for employment after graduation.

The Cooperative Education Internship Program option is available in all departments on the Utah State University campus. Generally speaking, students begin their work experiences in their sophomore or junior year, although seniors can take advantage of program benefits. Students can undertake either part- or full-time work experiences. Work experiences are available both during the academic year and during the summer. These work experiences may be with a single employer or with different employers; increasing complexity is the critical principle. Salaries vary with the field of work and the complexity of the job.

The amount of academic credit awarded for a given work experience varies, and depends upon the amount of work completed and upon the career-related nature of the experience. The decision regarding credit and the amount to be granted rests with the academic department, and specifically the faculty co-op coordinators. Students must make the credit arrangement with their faculty co-op coordinators prior to their work experience.

Students interested in entering or learning more about the program should contact their academic department; or visit Career Services, located in University Inn 102, ground level, tel. (435) 797-7777.

Additional information can also be found online at:

<http://www.usu.edu/career/internships/>

# Academic Support Programs and Services

## Cultural Exchange Program

Approximately 1,000 students and scholars from 79 countries are currently enrolled at Utah State University. Many of these students are in great demand by the community to visit various school, church, and civic functions. Students often bring from their countries videos, slides, photographs, artifacts, maps, music, and costumes which they share with the community. Other students are requested by various organizations to display their talents in song, dance, cooking, fashion shows, martial arts, and many other crafts and skills.

These outreach programs benefit the community, enhance the University, and also provide excellent opportunities for USU international students to learn how the community operates. It also gives internationals the occasion to develop friendships with Americans. The sometimes long-lasting and far-reaching friendships are valuable to developing peace and friendship across the globe. Also, these students further develop their talents and skills in communication and become familiar and comfortable with the American culture.

Those needing help in arranging programs with international students may call the Office of International Students and Scholars at (435) 797-1124.

## Disability Resource Center

The mission of the Disability Resource Center is to provide supportive services to qualified individuals with disabilities, so they may participate equally in academic, employment, social, and cultural opportunities available at Utah State University.

Services offered by the Disability Resource Center include:

1. Campus orientation, architectural access, and modification.
2. Registration assistance, including interpreters, advisors, and escorts.
3. Equipment loan and Assistive Technology Laboratory, including FM amplification systems, tape recorders, aids for students with vision impairments, and adapted computer hardware and software.
4. Referral information regarding campus and community services, including a referral registry for nonacademic interpreters, readers, personal care attendants, and escorts.
5. Alternate-format textbooks and class materials for qualifying students.
6. Counseling for academic and personal needs.
7. Support service coordination with the Division of Vocational Rehabilitation.

The Disability Resource Center is located in University Inn 101 and can be reached by telephone by calling (435) 797-2444 or (800) 259-2966 (voice) or (435) 797-0740 (TTY).

## Mathematics and Statistics Drop-in Advisement

The Department of Mathematics and Statistics maintains a Drop-in Advisement Office in Lund 201. Students in need of information about and advisement related to placement in courses are welcome to stop by the Drop-in Advisement Office during office hours. Hours for this office can be found on the Department of Mathematics and Statistics website (<http://www.math.usu.edu/>) or may be obtained by phone at (435) 797-0268.

## Study Abroad Program

### Overview

The USU Study Abroad Office provides information on a wide range of affordable programs providing USU students with opportunities for study throughout the world. Through exchange partner institutions or consortiums, students can study at more than 100 universities in more than 40 countries worldwide during a semester, academic year, or summer program. Exchange program costs are based on tuition and fees at USU. Students can earn credit toward their degree at USU while studying abroad. In many countries, even when the native language is not English, students can study in English, or have the opportunity to build language skills. Full immersion options are also available at selected sites, based on student language ability.

### Exchange Programs

Students can study in Spanish or the Spanish language at all levels at Monterrey Tec University in Mexico. Students may choose one of nine different campuses. Students may also study many subjects taught in Spanish at the University of Costa Rica, San Jose, Costa Rica; the University of Guadalajara Mexico; the University de La Rioja in beautiful Logroño in Northern Spain; and at the Pontificia Universidad Católica de Valparaíso, in Valparaíso, Chile, a UNESCO world heritage city. Pontificia Universidade Católica in Rio de Janeiro, Brazil offers students the opportunity to study regular coursework in Portuguese or study the language. London Metropolitan University offers a wide variety of subjects, with students housed near historic Hyde Park. In addition, students can study at Leicester University in Leicester, England, as well as at University of Northampton in Northampton, England, both located just over an hour north of London. Other study abroad programs in English include: study in landscape architecture at University of Ljubljana, Slovenia; American Studies at Innsbruck University in Austria; music at Corinthian State Conservatory of Music, Austria; and study in fine arts at Southern Cross University, Australia. New partners, University of Copenhagen, Denmark; University of Groningen, Netherlands; and University Viadrina, Germany; offer a variety of courses in English. Jonkoping University, Sweden; Western Sydney, Australia; West England; and Hanze University, Netherlands offer courses in English specifically for study in business. At Kansai Gaidai, Kobe, Gifu, and Yokohama National universities in Japan, all levels of Japanese are taught. Students may also earn credits in subjects taught in English at Kansai Gaidai or Yokohama. Keimyung University in Daegu, Korea, as well as USU's partners, Korea and Sungkyunkwan universities in Seoul, provide classes taught in English and the Korean language. Hongik University in Korea is a great choice for art and sculpture study. Students may study economics, business, and Thai studies courses taught in English, at Thammasat University in Bangkok, Thailand, including Thai language and culture. Jon M. Huntsman School of Business students may participate in business exchange programs in Australia, the Netherlands, Sweden, and the United Kingdom. For graduate-level study in economics, exchanges

# Academic Support Programs and Services

are available in the United Kingdom, Spain, Portugal, Greece, France, or Germany. Students can also study Russian language and culture at St. Petersburg State University and Kazan State University in Russia, at all levels. Students can study Chinese language with Feng Chia University, Taiwan.

The International Student Exchange Program (ISEP) is one of the most varied study abroad exchange consortium opportunities at USU. Most program fees are based on USU tuition, housing, and food costs. Through ISEP, students may study in Africa, Asia, Australia, Canada, Europe, and Latin America. ISEP offers traditional European study abroad opportunities at some of the leading institutions in Austria, France, Germany, Hungary, Italy, Finland, the Netherlands, Sweden, and the United Kingdom. Other opportunities for study include such countries as Argentina, Bulgaria, the Czech Republic, Latvia, Poland, Iceland, Ghana, and South Africa. There are more than 100 universities to choose from in all. As ISEP participants, students matriculate directly into a host institution abroad. Direct matriculation means students register as regular students at their host institution, take the same courses, have the same assignments, and participate in the same activities as all other students at that institution. At many locations, coursework taught in English is available for semester, academic year, and summer study.

## Affiliated Programs

Further expansion of short-term, summer, or semester-long study opportunities is possible with the addition of the following USU-affiliated program providers: AsiaLearn, AustraLearn, EuroLearn, Council on International Educational Exchange (CIEE), International Studies Abroad (ISA), Middlesex University (England), School for International Training (SIT), and Study Abroad Italy (SAI).

## Short-Term Programs

Students can participate in a variety of short-term programs. These programs vary in length from two to six weeks. With USU's partner, Pontificia Universidad Católica de Valparaíso, students with little or no Spanish language experience have the opportunity to study beginning Spanish in Chile during January, May, or June, live with a local family, and participate in an excellent program offering language instruction and local excursions of interest. The Jon M. Huntsman School of Business has summer programs in Latin America and Asia, as well as internship or short-term study abroad programs during the fall or spring semesters. Summer options are available with ISEP in such locations as France, Korea, the Netherlands, and Thailand, or with other partner institutions, such as University of Northampton, England; and Korea University, Seoul, Korea.

## USU Faculty-Led Study Abroad Summer/Short-Term Programs

Faculty at USU take students to varied destinations every year for coursework taught in English, while students earn USU credit for the experience. A sampling of current programs taught abroad by USU faculty include acting in England; anthropology in Peru; family, consumer, and human development in Germany; graphic design in Switzerland; humanities in England and Italy; interior design in England, France, and Italy; international business in Latin America (Brazil, Chile, and Peru) and Asia (China, Korea, and Vietnam—including a service learning option); photography in Scotland; and student teaching in New Zealand or the Philippines.

Summer faculty-led language programs include: intermediate and advanced study in Spanish in Logroño, Spain; French language at all levels with home-stay in Annecy, France; and intensive German at all levels at the Goethe Institute in Freiburg, Germany.

## Volunteer English Teaching Opportunities

USU offers students a volunteer option to teach English in Chile for a ten-week period of time during the summer. Room and board is provided with a family, and teacher volunteers assist in English classrooms. This option may soon be available for credit. For further details, contact the Study Abroad Office. Other English teaching opportunities include Japan, China, and Thailand.

For additional information about these and other programs, contact the Study Abroad Office, Taggart Student Center 311, by phone at (435) 797-0601 or (435) 797-1253; or by e-mail at: [studyabroad@usu.edu](mailto:studyabroad@usu.edu). Detailed information is available on the following website: <http://www.usu.edu/studyabroad/>

## Student Support Services

Student Support Services is a special program financed through a federal grant and Utah State University with the purpose of providing additional support to students who meet particular qualifications. The Student Support Services Program seeks to prepare and support students for the challenges of higher education by offering assistance in:

1. academic advising and guidance,
2. tutoring on an individual basis,
3. course selection,
4. faculty/peer mentoring,
5. reading and study skills enrichment (PSY 1750, 1730),
6. mathematics and statistics instruction (MATH 0900, 1010, 1050; and STAT 1040),
7. financial aid planning, and
8. early registration.

To qualify for these services, a student must be an American citizen or permanent resident of the United States, must be registered at Utah State University, must demonstrate academic need for services as defined by the institution, and must meet one of the following U.S. Department of Education criteria:

1. low income, as established by the U.S. Commission of Higher Education;
2. disabled, including physical disabilities and learning disabilities; or
3. first-generation college student, meaning that neither of the student's parents have graduated from a four-year institution of higher education.

For more information, contact Student Support Services, University Inn 103, (435) 797-3372.

## Academic Resource Center

Taggart Student Center 305, (435) 797-1128  
<http://www.usu.edu/arc>

For information about the programs available through the Academic Resource Center, see page 84.

## Advising, Office of University

Taggart Student Center 304, (435) 797-3373  
<http://www.usu.edu/advising/>

The Office of University Advising (UA) provides advising referrals and information regarding University requirements, academic policies and procedures, academic program planning, University Studies requirements, services, and resources of the University. UA also facilitates the Peer Advising program. Students who are designated as Undeclared, Undeclared Business, Undeclared Science, or Provisional Admission Warning are advised by UA advisors.

### Undeclared Program

The chief function of the Undeclared program is the advisement of students who have not yet decided upon a major or area of specialization. Students in the Undeclared program typically work on their University Studies requirements while exploring major options. This allows them to make progress toward overall degree requirements and provides them with extra time to make wise, informed decisions. Undeclared students are advised by UA until they choose a major.

Students who are enrolled in another department, but feel they have chosen their major unwisely, may transfer to the Undeclared program upon receiving permission from an advisor in UA.

No degree is offered through the Undeclared program. Most Undeclared students are freshmen or sophomores. Prior to the junior year, students should select a major and be taking major courses. Students should not remain in the Undeclared program beyond 60 credits or past the end of the sophomore year.

### Provisional Admission Warning Program

Provisional Admission Warning is the designation used to identify students who do not meet the admissions requirements of the seven academic colleges. By state policy, admission of students to this category is limited.

The primary function of the program is to assist and encourage students in the improvement of their academic status, so they may transfer to the major of their choice. To accomplish this purpose, participants are urged to limit their course loads each semester, satisfy remedial requirements when indicated, and meet frequently with an advisor. Students admitted provisionally are encouraged to take General Education and exploratory classes. Resources in the Academic Resource Center, the University Counseling Center, the Testing Center, and Career Services are available to assist such students with career, aptitude, life skills, and study skills counseling.

When a student has demonstrated an ability to maintain a GPA appropriate for the intended major, the student may submit a Change of Matriculation form through the Registrar's Office. **It is the student's responsibility, in consultation with an advisor, to complete all necessary paperwork.**

## Bookstore

Taggart Student Center 123, (435) 797-1666  
<http://www.bookstore.usu.edu>

The USU Bookstore has been serving USU students, faculty, staff, alumni, and the community since 1904.

As the official location for all USU coursework needs, the Bookstore stocks textbooks; school supplies; art materials; computer systems, software, and accessories; general reading books; and a huge selection of Aggie clothing.

A myriad of services are also provided by the Bookstore, including textbook buyback, educational discounts, book-it textbook reservations, scholarships, Aggie Reader's Club, special orders, gift wrapping, engraving, parking validations, gift cards, and more.

## Campus Recreation

Health, Physical Education and Recreation 126, (435) 797-7529  
<http://www.usu.edu/camprec>

Campus Recreation houses and advises six major recreation and conservation programs: Intramurals, Outdoor Recreation Center, Utah Conservation Corps, Informal Recreation, Club Sports, and Recreation Instruction Program. These programs are run by professionals, students and volunteers. Campus Recreation sponsors numerous events, activities, and volunteer service projects throughout the year, including the following:

### Intramurals

Intramural sports include basketball, racquetball, table tennis, badminton, soccer, volleyball, softball, and many more. The rejuvenation resulting from participating in intramurals is a crucial part of the college experience.

### Outdoor Recreation Center (ORC)

The ORC is one of the nation's premier university outdoor education and leadership programs serving students and the public through diverse educational programs and comprehensive rental services. The ORC provides rigorous experiential learning experiences fostering independent problem solving, leadership, and communication skills. It also promotes academic excellence, physical and personal development, and responsible involvement and service in the outdoors.

### Utah Conservation Corps (UCC)

The UCC is dedicated to improving the quality of public natural resources and the community through partnership projects, community service-learning volunteer efforts, disaster relief, and environmental and outreach education.

### Informal Recreation

The HPER and Fieldhouse facilities, including pools, weight rooms, track, and fitness center, are areas where participants can engage in self-directed exercise.

### Club Sports

Club sports are for students who wish to play in a competitive team environment at a high level. Some clubs are well-established and require tryouts. There are 16 club sports to choose from, including (but not limited to) ballroom dance, soccer, ultimate frisbee, rodeo, and lacrosse.

# Other Student Resources

## Recreation Instruction Program (RIP)

The RIP program offers various instructional programs fostering awareness of different cultures and their lifestyles. A few examples of Campus Recreation's classes are yoga, aikido, and karate.

## Card Office/Customer Service Center

USU ID Cards, Debit and Dining Accounts,  
Information, and Ticket Sales  
Taggart Student Center 212, (435) 797-3852  
<http://usucard.usu.edu/>

The Card Office/Customer Service Center is the location where students receive their USU ID Card. The USU ID Card allows students access to many campus resources and events. In addition, it provides access to an Aggie Express debit account, print account, and meal plans. For further information, see *ID Cards* text on page 65, within the *Tuition, Fees, and Refunds* section of this catalog.

The Card Office/Customer Service Center staff can answer general questions about the University and provide student information. The center offers assistance, information, maps, and problem-solving assistance for students, staff, and visitors. The center also handles Lost and Found items for the Taggart Student Center.

There is an outlet for the USU Ticket Office at the center. Tickets are available for performing arts, theatre productions, STAB events, and athletic events.

## Career Services

University Inn 102, ground level, (435) 797-7777  
<http://www.usu.edu/career>

Career Services is the link between students and successful career employment. A dedicated group of career coaches is ready to help by offering expertise in four broad areas related to career paths. These four areas are briefly outlined below.

### Career Exploration

A variety of exploratory activities and assessments are available to help students develop self-awareness in selecting a major and focusing on career choices suiting their needs, interests, and abilities. In addition, PSY 1220 (3 credits), a Career and Life Planning course, is taught to help students more fully explore career options.

### Co-op/Internships

Students who participate in this program can graduate with the experience employers are looking for. Students can receive pay *and* academic credit for one or more relevant work experiences in their field of study.

### Graduate School Preparation and Testing

Students planning to attend graduate school can receive help in the preparation of their graduate school applications and personal essays. Tests are also available for undergraduate and graduate schools, credit by examination (CLEP), and admissions tests. Tests available include: ACT, TOEFL, GRE, LSAT (Law), MCAT (medical), and the Miller Analogies Test. Test times can be scheduled directly by calling (435) 797-1004.

### Career Employment

From on-campus recruiting to fairs, expos, and forums, a wide variety of services are offered to assist students in obtaining employment upon graduation. Students can meet their career coach one-on-one

to discuss resume/cover letter preparation, networking contacts (both employer and alumni), and personal career search strategies.

Whether students are sure of what they want to do after leaving Utah State University or are just beginning to think about their career options, their career coach can help. By visiting Career Services *early* and often, students can take control of their future.

## Children's House

862 East 900 North, (435) 797-3657  
<http://www.childrenshouse.usu.edu>

Student parents attending the University may enroll their children at the Children's House, an accredited quality early care and education program. Preschool and kindergarten age children (3-6 years) may be enrolled during fall and spring semesters, and children preschool through second grade (3-8 years) may be enrolled during summer semester. Professional staff provide a healthy, safe, and nurturing learning environment for children by promoting their physical, social, emotional, and intellectual development. There are several flexible full-day and part-day enrollment options from which parents can choose, as space is available.

## Computer and Information Literacy (CIL)

Eccles Science Learning Center 131, (435) 797-2405  
<http://cil.usu.edu>

As part of the University Studies Requirements, all students receiving a bachelor's degree from USU must score 70 percent or higher on each of the following six computer and information literacy examinations: (1) Information Law and Ethics, (2) Information Resources, (3) Document Processing, (4) Operating Systems, (5) Spreadsheets, and (6) Electronic Presentations.

There is a \$30 fee associated with this exam. There is no limit to the number of times a student can take each test. Once a test is passed, a student may not retake that test. After all tests are passed and the fee is paid, the CIL requirement will be posted to the student's transcript.

Students should complete the CIL requirement *as early as possible* during their academic experience at USU. Some courses require as a prerequisite the completion of the CIL requirement.

## Counseling Center

Taggart Student Center 306, (435) 797-1012  
<http://www.usu.edu/counseling/>

The Counseling Center assists students with personal growth and adjustment, mental health concerns, relationship issues, problem-solving, and career/academic adjustment. Services include individual, couples/relationship, and group therapy; outreach programs; problem-solving consultations; and psycho-educational assessments.

Common problems for which students may seek help include: symptoms of depression and anxiety, adjustment challenges, stress, eating and body image concerns, problems managing emotional reactions, social/interpersonal conflicts, trauma/grief, behavioral addictions, identity issues, and loneliness. Services are confidential and free for students enrolled in 6 or more credits on campus. (There is a nominal fee for psycho-educational assessment.)

For an appointment, call (435) 797-1012 or come to Taggart Student Center 306.

## Disability Resource Center

University Inn 101, (435) 797-2444 or (800) 259-2966 Voice or (435) 797-0740 TTY  
<http://www.usu.edu/drc>

Information about the services offered by the Disability Resource Center is shown on page 85.

## Financial Aid

Taggart Student Center 106, (435) 797-0173  
<http://www.usu.edu/finaid>

For information about assistance available through the Financial Aid Office, see the *Financial Aid and Scholarship Information* section of this catalog on pages 46-51.

## GLBTA Services

Taggart Student Center 316A, (435) 797-4297  
[maure.smith@usu.edu](mailto:maure.smith@usu.edu)  
<http://www.usu.edu/glbta/>

The GLBTA Services Office provides support to Gay, Lesbian, Bisexual, Transgender, and Allied (GLBTA) students, faculty, and staff; promotes the understanding and acceptance of diversity through education and campus outreach; and operates a resource and lending library that is open to anyone interested in learning more about GLBTA related issues.

## Honors Program

Main 15, (435) 797-2715  
<http://honors.usu.edu/>

Information about application to and participation in the Honors Program, as well as details about honors degrees offered by USU, is shown in the *Honors Program* section of this catalog, page 310.

## Housing and Residence Life

1295 East 1000 North, (435) 797-3113 or (800) 863-1085  
<http://www.housing.usu.edu>

Housing options available at USU are explained on pages 52-53 of this catalog.

## Independent and Distance Education

Eccles Conference Center 102D, (435) 797-2137 or (800) 233-2137 (toll free)  
<http://distance.usu.edu/>

Information about independent and distance learning opportunities at USU is included in the *Regional Campuses and Distance Education (RCDE)* section of this catalog, pages 103-105.

## Information Technology

Janet Quinney Lawson Building (North End), (435) 797-HELP (4357)  
<http://it.usu.edu>

Information Technology (IT) provides computing and networking facilities and services for instructional, research, and administrative functions. A current description of these facilities, as well as the access procedures for students and staff, may be found on the IT website. Further information about the administration and services of the Information Technology Office is shown on pages 97-98 of this catalog.

## International Students and Scholars

Taggart Student Center 313, (435) 797-1124  
<http://www.usu.edu/oiss/>

The Office of International Students and Scholars (OISS) is committed to providing the necessary tools for students to succeed, both academically and personally. It provides the support to enhance the academic, social, and personal interactions of international students and scholars while at USU and in the Logan community. It serves as the primary link between the students and local and government agencies. The OISS staff is eager to assist with advising on immigration and other matters, such as personal and social adjustments. A main goal is to create a warm and inclusive environment in which all students can learn and interact in a cross-cultural environment. Throughout the year, OISS and the International Student Council (ISC) offer cultural and educational programs to enhance intercultural competencies and communication skills.

Information about international student admission and programs is shown on pages 38-39.

## Multicultural Student Services

Taggart Student Center 309, (435) 797-1733  
<http://www.usu.edu/multiculture/>

The Multicultural Student Services (MSS) Office provides support for student success, as well as direction for campus multicultural relations. MSS achieves its mission through collaborative work in the Division of Student Services and with academic departments. The MSS Office strives to offer quality services for all students, while providing targeted support to first-generation and historically underserved African-American, Asian-American, Native American, Pacific Island, and Latino students. Programs are designed to promote student recruitment, retention, leadership development, cultural understanding, inclusion, and a positive relational climate on campus.

Services offered through the MSS Office include:

1. Personal leadership development through clubs and organizations
2. Educational events and cultural celebrations involving the campus and community at-large
3. Peer mentoring, personal and social support
4. Active recruitment efforts and outreach programs serving core constituents
5. Community and campus service opportunities
6. Involvement within and support of ASUSU programs
7. Academic support
8. Life skills/multicultural leadership courses
9. Networking and referral to University departments

# Other Student Resources

## Parking and Transportation Services

840 East 1250 North, (435) 797-3414  
<http://parking.usu.edu/>

Students who are unfamiliar with the campus should contact this office for directions and parking instructions. Also available are faculty, staff, student, and visitor parking permits. This office also provides shuttle services from key perimeter parking areas to key central campus locations.

## Reentry/Nontraditional Student Center

Taggart Student Center 315, (435) 797-1728  
<http://www.usu.edu/reentrystudent/>

The Reentry/Nontraditional Student Center provides information, financial assistance, and referrals to the resources available on campus and in the community to women and men who are returning to school with a gap in their education after being in the workforce or in the home. Anyone who considers herself or himself to be a nontraditional student is welcome to utilize the resources of the center. The center serves as an informal gathering place for reentry students and facilitates their transition to university life through orientations, workshops, leadership opportunities, scholarships, and programs.

## Residency Office

(Admissions Office)  
Taggart Student Center 102, (435) 797-8144  
<http://www.usu.edu/admissions/information/residency.cfm>

Nonresident students who feel they have met the requirements for instate resident student status must file an official residency application with the Residency Office **no later than 10 calendar days from the first class day**. Those missing the application deadline will have residency considered for the next semester, provided that the next appropriate deadline is met with adequate updated documentation.

If an application is denied by the Residency Officer, the student may appeal to the Residency Appeals Committee no later than the 14th calendar day of the semester. Appeals cannot be considered after this deadline.

Information on residency requirements can be obtained from this office. Further information about USU's residency policy is shown on page 35.

## Retention and First-Year Experience Office

Taggart Student Center 314, (435) 797-1132  
<http://www.usu.edu/fyi/>

The Office of Retention and First-Year Experience is a dynamic office with a core mission of student success and retention. Through a variety of programs and services, the office is poised to have an impact on students at the time of entrance to the University, throughout the first year, and beyond. Services include information on research, development, design, and implementation of programs and initiatives that directly target the enhancement of retention efforts. Programs include:

**Connections.** Connections is an academic course designed to ease students transition to Utah State University and to prepare them for their college experience. A description of the Connections course is shown on page 55.

**First-Year Experience.** The First-Year Experience Program will improve student retention by assisting first-year students with the transition to the academic and social environment of the University. (First-year students are defined as any students attending classes on the Utah State University campus for the first time, which includes freshmen and transfer students.)

**Parent and Family Programs.** These programs are designed to keep parents and family members informed about happenings at USU; provide valuable information, events, and support for parents; and provide an opportunity for parents to communicate with USU. For further information, see: <http://www.usu.edu/parents/>

**SOAR.** Retention and First-Year Experience provides orientation services to new first-year and transfer students, information concerning USU programs, and information about available services at the University. More information is available on page 55.

**Matriculation Advising.** USU's Matriculation Advisor facilitates the retention effort through managing the Leave of Absence Process. As part of this process, students who need to leave USU are "recruited" back through targeted e-mails, letters, and personal phone calls. Additionally, the Matriculation Advisor oversees the readmission process for students who are not in academic good standing at USU, by guiding students to good standing through readmission contracts and work with each student's academic advisor. For further information about *Leave of Absence* and *Complete Withdrawal*, see page 58.

## Sexual Assault and Anti-Violence Information (SAAVI)

Student Health and Wellness Center 119D  
(435) 797-1510 (General Information)  
(435) 797-RAPE (7273) (Crisis Hotline)  
<http://www.usu.edu/saavi/>

The USU Sexual Assault and Anti-Violence Information (SAAVI) Office was created to promote an atmosphere of sexual and physical safety for all female and male students, faculty, and staff at Utah State University. SAAVI works to accomplish this task through an environment of education, as well as sensitive, competent response to those who have experienced violence or hurtful relationships.

SAAVI provides **crisis help** (i.e., support; assistance obtaining medical, counseling, academic, and legal aid in the aftermath of sexual assault or dating/domestic violence; etc); **education** (e.g., presentations to groups, clubs, classes, etc); and **awareness events** (e.g., Red Zone Day, Domestic Violence Awareness Month activities, Walk-a-Mile-in-Her-Shoes, etc). SAAVI services are available to USU **students, faculty, and staff**; both **women and men**; both **primary survivors** (those who experience violence) and **secondary survivors** (friends/loved ones of those who experience violence).

The SAAVI Office is located in the Student Health and Wellness Center (north of Romney Football Stadium). For help, general information, questions, or to request a presentation, call (435) 797-1510. The SAAVI Office also maintains a crisis hotline: (435) 797-RAPE (7273) (available 24 hours per day, 7 days per week, 365 days per year). During nights, weekends, and holidays, the crisis line is answered by CAPSA (Community Abuse Prevention Services Agency), which is a SAAVI community partner.

## Student Employment

(Financial Aid Office)

Taggart Student Center 106, (435) 797-0184

<http://www.usu.edu/studemp>

The Student Employment Office develops and posts on-campus part-time and off-campus full-time and part-time openings daily on the Job Board in the hallway outside the Financial Aid Office in the Taggart Student Center, as well as online at the address listed above. Summer openings representing camps, resorts, ranches, government, and private industry across the United States are featured from January through May on display boards at the entrance to the Financial Aid Office. Additional information and assistance may be obtained at the Student Employment counter in the Financial Aid Office.

## Student Health and Wellness Center

850 East 1200 North, (435) 797-1660

<http://www.usu.edu/health/>

The Student Health and Wellness Center provides students with healthcare for illness and minor injuries, as well as with health and wellness information on a variety of concerns. Just like any comprehensive medical clinic, the services of physicians, nurses, and pharmacists, as well as laboratory, physical therapy, prevention, and dietitian services, are available onsite. The center specializes in the medical needs of students, including sports injury evaluation and rehabilitation, minor emergencies, skin conditions, gynecology concerns, and mental health conditions. Special services include physical exams for pilots, teachers, or missionaries. Pharmacy, X-ray, and laboratory services are available inside the Health and Wellness Center.

Help and information on topics such as depression, nutrition, time and stress management, healthy relationships, and prevention of sexual assault and date rape, as well as assessment, education, and referral for substance abuse, are available from a variety of specialists serving on the staff. Peer educators, as well as office staff, are available to answer questions and provide support or information on health-related topics. Students gain leadership skills while involved in peer educator teams offering prevention activities and promoting healthy lifestyles. Prevention programs, research surveys, and educational classes are also available through this office. Educational presentations on health-related topics, which are excellent supplements to academic course material, can be scheduled by faculty members for inclusion in their classes.

Most of the costs for services of the Student Health and Wellness Center are covered by the Student Health Fee, paid at the time students register, but some supplies, procedures, or classes may require a nominal fee. Although the Student Health and Wellness Center provides administrative oversight of the Student Health Insurance Plan, health insurance is not required to use the Student Health and Wellness Center.

## Student Involvement and Leadership Center

Taggart Student Center 326, (435) 797-2912

<http://www.usu.edu/asusu/involvement/>

The Student Involvement and Leadership Center strives to provide opportunities for students to receive life, leadership, and interpersonal skills by sponsoring events and activities. These events and activities complement students' academic curriculum and enhance their overall educational experience through the development of a wide range of leadership development opportunities, programs, and activities. These events strive to promote diversity, cultural appreciation, social interaction, community service, and effective student government representation.

The Student Involvement and Leadership Center includes the following: student government (ASUSU), fraternities and sororities, Leadership House, Aggie B.L.U.E. Fall Leadership, Mortar Board, Spirit Squad, and the Val R. Christensen Service Center.

Students who are interested in getting involved should go to Taggart Student Center 326 or visit: <http://www.usu.edu/asusu/>.

## Student Support Services

University Inn 103, (435) 797-3372

<http://www.usu.edu/sss/>

Students meeting the low-income criteria established by the U.S. Commission of Higher Education and/or first-generation college students or disabled students may receive special assistance through the Student Support Services Office. Further information concerning qualification for this assistance, as well as details about the services offered, is shown on page 86.

## Testing Services

(Career Services)

University Inn 115, ground level, (435) 797-1004

<http://www.usu.edu/career/testing/>

Information and test times are available for academic admission tests, including the GED (a high school equivalency exam), the ACT for undergraduate admission, the GRE and MAT for graduate admission, the LSAT for law school, the MCAT for medical school, the TOEFL (Test of English as a Foreign Language, for international students entering at both graduate and undergraduate levels), and PRAXIS tests for teacher education certification and licensure. CLEP exams, which give students the chance to earn semester credits toward their University Studies requirements by exam, are offered. Test information and booklets are also available.

## The Utah Statesman

Taggart Student Center 105, (435) 797-6397

<http://www.utahstatesman.com/>

The *Utah Statesman* is a USU student-produced news source. The *Statesman* is published three times weekly and distributed across campus and at several downtown locations. Additionally, the *Statesman* is produced online, updated regularly with news and important links available at <http://www.utahstatesman.com/>. Advertising of campus events is welcomed and encouraged in the *Statesman*.

# Other Student Resources

---

A large number of students in all majors are involved in the production of the *Utah Statesman*. The *Statesman* and its staff have won many awards, including Best Nondaily Student Newspaper in a seven-state region, as determined by the Society of Professional Journalists in 2005.

The University provides a Student Media Board, comprised of staff and students, to advise and define policies toward established student media which receive student funding from University fees. This board provides for a defined relationship between student media and the University at large.

## Val R. Christensen Service Center

Taggart Student Center 332B, (435) 797-SERV (7378)  
<http://www.usu.edu/asusu/servicecenter/>

The Val R. Christensen Service Center is a place where students can find opportunities to serve and can develop leadership skills. With more than 20 volunteer programs, students are bound to find service opportunities matching their desires and abilities. Mentoring, tutoring, environmental, and leadership programs are available. Time commitments range from one hour per month to three hours per week. The mission of the Service Center is to prepare students to make lifelong contributions through service; provide students with opportunities to serve; and promote positive attitudes, personal growth, and change through service to the community and the environment.

The Service-Learning Scholars Certificate Program provides an opportunity for students to combine service with their academic experiences. To learn more about how to receive academic credit through service experiences and how to receive this certificate upon graduation, students should visit the Service Center.

## Veterans Services

(Office of the Registrar)  
Taggart Student Center 246, (435) 797-1102

The Office of Veterans Services assists eligible veterans, qualified dependents of disabled veterans, and National Guard and Reservists in pursuing their educational, professional, or vocational objectives and receiving their appropriate educational benefits.

## Women's Resource Center

Taggart Student Center 315, (435) 797-1728  
<http://www.usu.edu/womencenter/>

The purpose of the Women's Resource Center (WRC) is to support, educate, and empower women of all cultures, races, sexual orientations, and ages; providing a safe environment while respecting all facets of women's abilities, spirituality, and differences. The USU WRC celebrates women's achievements and advocates for a climate promoting social justice, free from all barriers and discrimination. The WRC provides scholarships, information, assistance, and referral for resources available on campus and in the community.

## Writing Center

Ray B. West 104, (435) 797-2712  
<http://writing.usu.edu/>

The Writing Center provides help at any stage of the writing process and is open to all students. Hours are by appointment, Monday through Friday 8:30 a.m. to 3:30 p.m., and Monday through Thursday 7:00 to 9:00 p.m. Students should sign up online at: <http://writing.usu.edu>. Consultants are available for one-on-one counseling in the center or online. Summer hours are Tuesday through Thursday, 9:30 a.m. to 2:30 p.m. during the eight-week session.

# National Honor Societies with Chapters at USU

## Beta Gamma Sigma

Beta Gamma Sigma international honor society was founded in 1913 to recognize superior scholarship in business. It is the highest international recognition a business student anywhere in the world can receive. The USU chapter was established in 1975.

Membership is by invitation only and is limited to the top 20 percent of business graduate students, the top 10 percent of seniors with business majors, and the top 7 percent of juniors with business majors. Candidates must have completed one year of study at Utah State University.

**Chapter Advisor:** Lindsey Thurgood, Academic Advisor, Business 309, (435) 797-3736

## Golden Key

Golden Key International Honour Society is an academic honor society which recognizes and encourages scholastic achievement and excellence among all sophomores, juniors, seniors, and graduate students from all academic disciplines with a 3.5 or higher cumulative GPA. With more than 25 years of rich tradition, Golden Key remains committed to scholarship, career development, leadership and altruistic service.

Members are connected to exclusive career opportunities through Golden Key's partnerships with major corporations and graduate programs. The society provides campus and community service opportunities enabling personal growth and leadership development, as well as collaborating with university faculty and administrators to develop and maintain high standards of education. A minimum of two scholarships are awarded annually to outstanding junior and senior members at Utah State University.

**Chapter Advisor:** Lisa Vaughn, Community Service Coordinator, Student Involvement and Leadership Center, Taggart Student Center 326, (435) 797-1740, lisa.vaughn@usu.edu

## Mortar Board

The Order of the Acorn chapter of Mortar Board has existed at USU since 1970. It was founded in 1918 as the first national organization honoring senior college women. Mortar Board opened its membership to men in 1975.

Mortar Board recognizes college seniors for distinguished abilities in scholarship, leadership, and service. Members continue to magnify these traits throughout membership by developing and carrying out activities, events, and service projects. New members are chosen during spring semester and must be in the top 35 percent of their class.

**Chapter Advisor:** Lisa Vaughn, Community Service Coordinator, Student Involvement and Leadership Center, Taggart Student Center 326, (435) 797-1740, lisa.vaughn@usu.edu

## National Society of Collegiate Scholars

The National Society of Collegiate Scholars is an honors organization founded on the principles of scholarship, leadership, and service. Each plays an important role in one's personal development. Society members are encouraged to pursue each of these ideals with a sense of passion and dedication. The society's mission is to:

1. Recognize and celebrate high achievement among first- and second-year college and university students across all academic disciplines.
2. Encourage and promote high standards throughout the collegiate experience.
3. Provide opportunities for personal growth and leadership development.
4. Organize and encourage community service.
5. Foster an overall appreciation for the value of higher education.

**Chapter Advisor:** William J. Popendorf, professor of Biology, Biology-Natural Resources 323, (435) 797-2566, popendorf@biology.usu.edu

## Phi Alpha Theta

Phi Alpha Theta is a professional society whose purpose is to promote the study of history through the encouragement of research, good teaching, publication, and the exchange of learning and ideas among historians. It seeks to bring students, teachers, and writers of history together, both intellectually and socially; and it encourages and assists historical research and publication by its members in a variety of ways. The History Honor Society, Inc., Phi Alpha Theta, was organized at the University of Arkansas on March 17, 1921. Since that time, it has grown to more than 820 chapters and has initiated more than 275,000 members. The USU chapter was established in 1952.

Membership is open to those students who have completed 12 credits of history courses, with a 3.1 GPA in history coursework. A 3.0 overall GPA is required. Students need not be history majors to become Phi Alpha Theta members.

**Chapter Advisor:** Timothy S. Wolters, Assistant Professor of History, Main 323F, (435) 797-1295, twolters@hass.usu.edu

## Phi Kappa Phi

Phi Kappa Phi is a national honor society, founded in 1897 to recognize and encourage superior scholarship in all academic disciplines. Membership is based upon academic achievement and is proffered to undergraduate and graduate students who obtain a grade point average in the highest 10 percent of those graduating from each college at USU. The national organization awards 50 graduate school fellowships each year to students from throughout the country and sponsors undergraduates for internships and study abroad programs. Each year, the USU chapter also awards two to three scholarships to outstanding juniors and recognizes faculty members for their achievements.

**Chapter Advisor:** Mary E. Leavitt, secretary/treasurer, (director, College of HASS Advising Center), Taggart Student Center 302, (435) 797-3883

## Phi Sigma Iota

Phi Sigma Iota is an international foreign language honor society for juniors, seniors, and graduate students who excel in a foreign language, have a cumulative GPA of 3.0 or higher, and have earned a grade of B or better in a 3000- or 4000-level language course. Copies of transcript must be verified by the chapter advisor.

# National Honor Societies with Chapters at USU

Phi Sigma Iota recognizes outstanding ability and high standards in the fields of foreign language, English as a second language, literature, and culture.

As the highest academic honor in the field of foreign languages, Phi Sigma Iota promotes international communication and understanding, as well as a sentiment of unity among nations. The society also helps students learn about themselves and their cultural heritage as they increase their understanding of other people.

Phi Sigma Iota stands for freedom of mind and democracy of learning. The society stimulates and supports scholarly programs nationwide, and also offers scholarships and graduation honors nationwide. To help members to further their training in foreign languages, the society promotes trips abroad. The USU chapter provides a job and internship list.

**Chapter Advisor:** Sarah Gordon, Assistant Professor of French, Main 002L, (435) 797-8213, sarah.gordon@usu.edu

## Pi Sigma Alpha

Founded in 1920, Pi Sigma Alpha is the national honor society for undergraduate and graduate students of political science. There are now more than 600 chapters established in colleges and universities in the United States, and Pi Sigma Alpha is one of the largest academic honorary societies in the U.S. The USU Alpha Iota Chapter was inaugurated in 1947. The purpose of Pi Sigma Alpha is to stimulate scholarship and interest in the subject of government by providing recognition and benefits to students who have excelled in the field.

**Benefits of Membership.** Membership in an honor society is a worthy distinction in itself, and as a measure of academic achievement can provide a tangible advantage in a competitive world. All members, regular and honorary, receive a certificate of membership and permanent enrollment on the society's membership rolls, maintained by the national office. Members may apply for scholarships for both graduate study in political science and Washington semester programs, as well as for Best Paper awards. Pi Sigma Alpha gives students opportunities for valuable administrative experience as chapter officers or organizers of chapter activities.

**Membership Eligibility.** Minimum standards for admission for juniors and seniors are completion of at least 12 semester credits of work in government, political science, international relations, or public administration, including at least one upper-division course, with a 3.2 GPA.

**Programs.** Pi Sigma Alpha activities are carried on mainly at the chapter level and include presentations by visiting scholars, talks by USU professors, socials, internship and graduate school preparation, service activities, career guidance, best paper competition, and much more.

The Alpha Iota Chapter has been recognized for excellence by the national office. The chapter has received several best chapter awards, as well as the best chapter advisor awards.

**Chapter Advisor:** William L. Furlong, Main 328B, (435) 797-1311, bill.furlong@usu.edu

## Pinnacle

Pinnacle was founded at Murray State University in Kentucky in 1989 for the purpose of recognizing the achievements of adult and nontraditional students. The USU chapter was established that same year, and the first members were inducted in 1990. Initiates must be 26 years of age or older, must have earned an overall USU GPA of 3.0

or higher, and must have been involved in campus and/or community activities. (Membership is open to no more than 15 percent of the junior and senior student population.) Applications are available in the Reentry Student Center.

**Chapter Advisor:** Patricia W. Stevens, director, Reentry Student Center, Taggart Student Center 315, (435) 797-1728

## Psi Chi

Psi Chi is a national honor society whose purpose is to encourage, stimulate, and maintain excellence in scholarship for the individual members in all fields, particularly in psychology, and to advance the science of psychology.

The intrinsic value of membership is rewarding to the achiever, in that recognition of excellence leads to self-fulfillment and thus to self-realization. By recognizing that what they do does make a difference, students are motivated to achieve higher productivity. When shared with others, accomplishments are enjoyed more. Furthermore, the contacts made through Psi Chi will be valuable throughout the student's educational and professional career.

Membership is open to undergraduate students who have completed a minimum of 3 semesters and have registered for major or minor standing in psychology or for a program which is psychological in nature. Undergraduates must rank in the upper 35 percent of their class (sophomore, junior, or senior) in general scholarship. For graduate students, an average grade of *B* or better is required in all graduate courses, including psychology.

**Faculty Advisors:** Melanie Domenech Rodríguez, Associate Professor of Psychology, Education 425, (435) 797-3059, melanie.domenech@usu.edu; Renée Galliher, Associate Professor of Psychology, Education 495, (435) 797-3391, renee.galliher@usu.edu

## Sigma Tau Delta

The central purpose of Sigma Tau Delta, National English Honor Society, is to confer distinction upon students of the English language and literature in undergraduate, graduate, and professional studies. Sigma Tau Delta also recognizes the accomplishments of professional writers who have contributed to the fields of language and literature.

Sigma Tau Delta has more than 600 active chapters, has more than 900 faculty sponsors, and inducts approximately 7,000 members annually. Members of the society have the opportunity to be recognized for their outstanding achievements, enrich their education, and advance their careers through scholarships and publication. Members are also assisted in making career choices.

The Rho Tau chapter was organized at Utah State University in 1996. Membership requires completion of at least three semesters of college coursework, completion of at least two English courses beyond the General Education requirements, and an average grade of *B* or better in English classes.

Further information about Sigma Tau Delta can be found at: <http://www.english.org/sigmatd/>

**Chapter Advisor:** Susan Nyikos, Lecturer, English Department, Ray B. West 103A, (435) 797-0599, susan.nyikos@usu.edu

# Affirmative Action/Equal Opportunity Office

**Director:** David L. Ottley  
**Location:** Military Science 118  
(Enter through the south door)  
**Phone:** (435) 797-1266  
**FAX:** (435) 797-0291  
**E-mail:** carolyn.whelan@usu.edu  
**WWW:** <http://www.usu.edu/aaeo>

The vision statement of the Affirmative Action/Equal Opportunity (AA/EO) Office reads as follows:

*"USU sees an environment in which every individual has an opportunity to learn, work, and contribute, and where full inclusion and respect for all people encourages creativity and productivity. The result will be students, faculty, and staff working together, serving and strengthening our local, national, and global communities."*

In support of this vision, it is the policy of Utah State University to ensure equal educational and employment opportunity regardless of race, color, religion, sex (including sexual harassment and pregnancy), national origin, age, disability, or veteran status. In addition, discrimination based on sexual orientation is prohibited in the hiring of employees or in evaluating employee or student performance.

The AA/EO Office implements federal, state, and University anti-discrimination laws, statutes, and policies, and strives to provide an atmosphere in which students, staff, faculty, and participants in USU-sponsored activities and programs can work, study, and live without fear of illegal discrimination or harassment. It also works to increase access to education and employment for groups that have traditionally faced barriers to opportunities in these areas.

The AA/EO Office focuses on a variety of areas, which include (but are not limited to):

1. Acting as the Title IX and Section 504 Coordinator for the University. This is the responsibility of the AA/EO Director.
2. Receiving, investigating, evaluating, processing, and assisting in the resolution of illegal discrimination and harassment (including sexual harassment) issues and complaints.
3. Providing training on affirmative action, illegal discrimination, harassment (including sexual harassment), valuing diversity and "differences," and other AA/EO-related topics to a variety of audiences, including students, staff, faculty, and community.
4. Developing affirmative action policies, plans, and programs at USU aimed at increasing employment opportunities for underrepresented groups of women, minorities, persons with disabilities, and veterans.
5. Monitoring the representation and status of women and minorities who are prospective or current faculty or staff.

Utah State University is dedicated to providing equal opportunity in education and employment to all students, faculty, staff, applicants, and participants in University programs. Members of the University community, who feel their rights have been violated, want information, or just need some guidance relating to their course of action relating to AA/EO issues, should contact the Affirmative Action/Equal Opportunity Office, located in Military Science 118 (use south entrance), or call (435) 797-1266. Copies of the complete Affirmative Action Program are available in the AA/EO Office. Copies of AA/EO-related policies, including the sexual harassment policy and discrimination complaint policy, are available in the office. Information pertaining to other AA/EO-related laws, policies, and issues at the local (USU), state, and federal levels are also available at the office. These items, along with other information, are also available on the AA/EO Office website at: <http://www.usu.edu/aaeo>

# Assessment

## Director, Office of Analysis, Assessment, and Accreditation:

H. Craig Petersen  
Location: Main 302, UMC 1437  
Phone: (435) 797-0001  
FAX: (435) 797-1680  
E-mail: craig.petersen@usu.edu  
WWW: <http://aaa.usu.edu>

Educational assessment involves gathering and analyzing information about learning activities with the goal of improving academic programs. In essence, assessment is what we do to assure that what we do is what we say we do.

Educational assessment is important for a number of reasons. First, Utah State University is accredited by the Northwest Commission on Colleges and Universities, as well as a number of discipline-specific accreditation bodies. USU must have a credible assessment program to satisfy the requirements of those organizations. Second, by documenting the effectiveness of its educational programs, USU demonstrates accountability of resource use to the USU Board of Trustees, the Utah State Board of Regents, and the Utah State Legislature. Finally and most important, faculty and administrators at USU have an innate curiosity about how well students are educationally prepared to meet the challenges of life. Faculty and administrators also have a strong desire to help USU students by making the institution better. To meet these objectives, the following policy on assessment has been formally approved by the USU Board of Trustees:

*The University is committed to timely internal and external assessment of its programs to assist in productive academic planning and the fulfillment of its mission and goals. To meet this commitment, the University and all of its units shall gather, analyze, and publish data annually that relate to the planning for and evaluation of the accomplishment of the missions, goals, and objectives of the University and its units. Such assessments are intended to determine the extent to which University programs meet their goals and objectives and further the mission of the University; to establish a culture of evidence for assessment; and to meet the standards of the Regents, the Trustees, the Northwest Commission of Colleges and Universities, and USU. The assessment process shall be a continuous process which shall involve faculty and other concerned stakeholders in central roles. Furthermore, assessment results will directly inform planning and other decision-making activities. (USU Policy Manual, 103.7.4)*

There are several aspects of good assessment. The first is that the focus should be on outcomes. The goal is to demonstrate that students actually develop needed competencies and significantly add to their knowledge as a result of attending USU. The second is that evidence derived from multiple sources is preferable to a single measure. The third is that academic units should have flexibility in formulating their assessment plans—"one size does not fit all." Finally, an effective

assessment plan should be structured as a process, rather than as an event. Assessment must be an ongoing activity that contributes to institutional improvement.

Consistent with these guidelines, USU has implemented a comprehensive plan for educational assessment. This plan focuses on the following areas:

- 1. Student Attitudes and Perceptions.** The Office of Analysis, Assessment, and Accreditation (AAA) conducts annual surveys of freshmen/sophomores, graduating seniors, and graduate students. Comparative surveys, such as the National Survey of Student Engagement, are also administered.
- 2. Early to Mid-Program Assessments.** AAA is involved in ongoing analyses to evaluate USU's freshman orientation program, measure improvements in writing and mathematics skills, and determine mastery of content in general education courses.
- 3. End of Program Assessment.** This is the key component of USU's assessment effort. Academic departments have been given the primary responsibility for evaluating the preparation of their graduates. Each department is expected to have an easily accessible and user-friendly assessment website that shows program learning objectives, the relationship between learning objectives and curriculum, outcomes data from several sources that demonstrate the extent to which students are mastering program objectives, a description of the process by which assessment data are used for decision-making, and examples of program changes made as a result of assessment efforts. AAA assists the departments in this endeavor by reviewing departmental progress, recommending changes, and providing "best practices."
- 4. Alumni Satisfaction.** AAA conducts periodic surveys of alumni. Departments also obtain information from alumni through advisory groups and departmental surveys.
- 5. Employment and/or Employer Satisfaction.** AAA conducts surveys of employment and participation in graduate education of recent graduates. At the academic department level, employers are contacted through surveys and/or employer advisory groups to determine the strengths and weaknesses of USU students they have hired.
- 6. Facts and Figures Website.** The USU Facts and Figures website is a virtual "Factbook" that provides a broad range of information about the University. Of particular importance is the USU Performance Dashboard, which shows trends in key areas of institutional performance and serves as a key management information tool for University administrators.

## Administration

### Vice President for Information Technology/

**Chief Information Officer:** M. Kay Jeppesen

**Location:** Main 161C

**Phone:** (435) 797-1134

**FAX:** (435) 797-2646

**E-mail:** [m.k.jeppesen@usu.edu](mailto:m.k.jeppesen@usu.edu)

**WWW:** <http://it.usu.edu/>

### Associate Vice President for Information Services:

Stacie Gomm, Main 161D, (435) 797-8585, [stacie.gomm@usu.edu](mailto:stacie.gomm@usu.edu)

### Associate Vice President for Technology Services:

Eric Hawley, Main 161B, (435) 797-8146, [eric.hawley@usu.edu](mailto:eric.hawley@usu.edu)

The Office of Vice President for Information Technology has the following responsibilities: (1) enhance interaction and feedback by working with students, faculty, and staff to meet their information technology needs, (2) develop information technology systems that support the University, (3) design and maintain a University-wide network backbone, and (4) contribute to the strategic plan and mission of USU.

All questions and requests are welcome and can be met 24 hours per day, seven days per week by calling the IT Service Desk at (435) 797-HELP (4357).

## Core Services

Information Technology (IT) core services include:

1. Database Design and Administration
2. Network Management (router and switch configuration, IP and DNS management, wireless networks)
3. Physical Infrastructure (data center, cable, wiring and telephone services)
4. Security (monitor systems, vulnerability tests, system backups, disaster recovery)
5. Server and System Administration
6. IT Customer Support
7. Project/Business Management (SLAs and MOUs)

## Faculty, Staff, and Student Services

### Aggiemail

Aggiemail is USU's e-mail system for students, alumni, and emeriti. Aggiemail is hosted by Google and provided with the USU brand. Users are allowed only one Aggiemail account at a time. Aggiemail account names are based on preferred name settings in Banner, and Aggiemail passwords are the same passwords that students use to login to Banner. Login to Aggiemail at: <https://aggiemail.usu.edu/>

### Aggies Exchange

Aggies Exchange is USU's enterprise e-mail system for faculty and staff. Aggies Exchange provides calendaring and scheduling capabilities, as well as Web and client access. Accounts can be activated at <http://it.usu.edu/email/>. Login to Aggies Exchange at: <https://owa.usu.edu/>

## Banner

Banner is USU's enterprise data management system and consists of the following components: (1) student information, (2) financial management, (3) human resources, and (4) grant management. The Banner administrative suite provides enterprise resource planning (ERP) and coordinated delivery of data, which allows USU to more efficiently manage institutional business processes and improve performance. In addition, Banner's standards-based authentication helps USU manage the growing number of users who need access. Login to Banner at: <http://banner.usu.edu/>

## Computer Purchasing

USU students, faculty, and staff can obtain quantity discounts on Apple and Dell computers. Apple computer purchases are placed through the USU Bookstore, and Dell computer purchases are placed through the USU Purchasing Office. For more information, visit: <http://it.usu.edu/qd/>

## Computer Labs

The 11 open-access computer labs on campus provide a wide array of software for USU's academic community. To learn more about the labs, lab software, and hours of operation visit: <http://www.usu.edu/computerlabs/>

## Course Development (Blackboard)

Blackboard Vista is a powerful e-learning platform designed to facilitate face-to-face classes and deliver online courses. Instructional designers are available to help faculty identify objectives, use appropriate technology, and develop effective online courses. For more information or help with Blackboard course development, call (435) 797-9506 or visit: <http://it.usu.edu/fact/>

## Desktop/Software Support

IT Service Desk full-time support analysts provide faculty and staff with quick and efficient methods for trouble-shooting and diagnosing technology-related issues. Service-level agreements allow the Service Desk to proactively and consistently manage and maintain departmental desktop computers and printers. The Service Desk also provides one-on-one consultation. For desktop support, call the Service Desk at (435) 797-HELP (4357).

## Hardware Repair/Data Recovery

To help students, faculty, and staff with their computing needs, IT provides a full-service hardware repair facility and data recovery services. The Service Desk is a Dell-certified repair and warranty service center and works with other computer vendors to provide the highest-level service. To learn more about hardware repair and data recovery services, call (435) 797-HELP (4357) or visit: <http://it.usu.edu/hardware/>

## Login and Password Assistance

Service Desk technicians are available to help customers login to e-mail (Aggiemail and Aggies Exchange), Adobe Connect, Banner, Blackboard, and the BlueZone network. For login assistance, call the Service Desk at (435) 797-HELP (4357).

## Multimedia (Video and DVD) Production

Information Technology's Multimedia Production Team provides video/audio editing, DVD authoring, video production, animation, Web conferencing, interactive CD and DVD production, studio production, and format-conversion services. For more information about multimedia production, call (435) 797-0525 or visit: <http://it.usu.edu/mediaproduction/>

# Information Technology

---

## **Networking (BlueZone Wired, Wireless, and Wireless Secure)**

BlueZone is the name of the USU Network. Both the wired and wireless networks are referred to as "the BlueZone." To register any computer or device on the BlueZone network, go to:  
<https://bluezone.usu.edu/>

## **Programming and Design**

Information Technology's Programming and Design Team provides custom website and print design services. IT also provides a content management system (ezPlug) and custom Web applications for everything from inventory systems and large-file transfers to custom forms, online photo tours, and FAQ systems. For more information about programming and design services, call (435) 797-9505 or visit:  
<http://it.usu.edu/pad/>

## **Security Cameras**

As the need for security increases, Information Technology is on hand to install CCTV security cameras. CCTV security cameras are equipped with the latest digital video surveillance technology and record video to the central server around-the-clock. Departments can observe the videos and monitor traffic from anywhere there is a network connection. For more information about CCTV security cameras, call (435) 797-4321.

## **Server Hosting (Physical and Virtual)**

IT offers physical and virtual hosting services. Physical hosting services include IT provided rack space, UPS, cooling, network port, and cable and remote KVM (keyboard, video, and mouse) control for departmental servers. With virtual hosting, departments can have servers up-and-running within 24 hours. Virtual hosting services include on-demand capacity and automated recovery. Both services (physical and virtual hosting) result in cost savings for departments. Call (435) 797-2414 for more information about physical hosting services, and (435) 797-3333 for more information about virtual hosting services.

## **Service Desk/Help Desk**

The IT Service Desk is available to assist with technology-related issues and is equipped to handle any IT support request. The Service Desk is an Apple, Dell, and Sony certified warranty repair and support center. Technicians are certified to work on almost any Apple, Dell, or Sony component and will provide service for most computer systems. The Service Desk is centrally located on campus in the Janet Quinney Lawson (JQL) Building, directly across from the Emma Eccles Jones Education Building. For more information or assistance, call (435) 797-HELP (4357) or visit: <http://it.usu.edu/servicedesk/>

## **Smart Classrooms**

Information Technology designs, installs, and maintains smart classrooms for instructional use. To schedule faculty training, call (435) 797-6666. For more information about smart classrooms, visit:  
<http://it.usu.edu/classrooms/status/>

## **Software Store**

Information Technology negotiates with vendors to offer software to University departments at costs below regular educational pricing. A variety of software products are available for purchase. View software titles and pricing, and order online at: <http://software.usu.edu/>

## **Technology Training (Workshops) and Tutorials**

Information Technology offers a variety of online tutorials and workshops tailored to the needs of USU faculty and staff. Hands-on workshops are offered every semester. For more information about technology training and tutorials, call (435) 797-9506 or visit:  
<http://it.usu.edu/fact/>

## **Telephone Services**

From the initial set-up to voice mail, long-distance authorization, calling cards, and equipment repair, Information Technology provides telephone services to USU departments and on-campus student housing. For more information or to report problems, call (435) 797-3335 or the IT Service Desk at (435) 797-HELP (4357).

## **Test Scanning and Grading**

Information Technology provides test scanning and grading services for multiple-choice tests given with ScanTron forms. Scanning is done at the IT Service Desk, which is located in the Janet Quinney Lawson (JQL) Building (north entrance). For more information about test scanning and grading services, call (435) 797-3080 or visit:  
<http://it.usu.edu/facstaff/scantron/>

## **Virtual Private Network**

By creating an encrypted stream between off-campus computers and campus, USU's VPN (Virtual Private Network) server provides a secure, remote connection to the University network. Authorized users can access the University network from anywhere (home, hotel, conference, etc.) with a secure Internet connection. For more information about USU's virtual private network, call (435) 797-HELP (4357) or visit: <http://it.usu.edu/htm/networking/vpn/>

## **Virus Protection/Antivirus Software**

IT has a McAfee site license for all computers (private or University-owned) that connect to the University's network. Find more information and download McAfee virus protection at: <http://it.usu.edu/mcafee/>

# Intercollegiate Athletics

**Athletics Director:** S. Scott Barnes

**Strength and Conditioning:** Jacob Scharnhorst  
**Equipment Supervisor:** Mike Bair  
**Compliance Director:** Jake Garlock  
**Faculty Representative:** Dr. Kenneth L. White

## **Head Coaches:**

**Basketball (Men's):** Stew Morrill  
**Basketball (Women's):** Raegan Pebley  
**Football:** Gary Andersen  
**Golf:** Dean Johansen  
**Gymnastics:** Jeff Richards  
**Soccer:** Heather Cairns  
**Softball:** Candi Letts  
**Tennis:** Chris Wright  
**Track/Cross Country:** Gregg Gensel  
**Volleyball:** Grayson DuBose

The Intercollegiate Athletics program at Utah State University encourages excellence in academic and athletic performance. The program is designed to develop qualities of leadership, sportsmanship, and individuality, helping each student-athlete realize his or her ultimate capabilities. Utah State's Intercollegiate Athletics operates under the direction of the National Collegiate Athletic Association (NCAA), the Western Athletic Conference (WAC), and Utah State University. The Aggies compete at the NCAA Division I Level in 16 sports, including football, women's soccer, women's volleyball, men's and women's cross country, men's and women's basketball, men's and women's indoor track and field, women's gymnastics, women's softball, men's golf, men's and women's tennis, and men's and women's outdoor track and field.

On July 1, 2005, a new era in Utah State Athletics began with the entrance into the WAC. With this move into one of the top 10 conferences in the country, Aggie fans are extremely excited about the future. During its first three-plus years in the WAC, Utah State has won 10 conference championships, while its student-athletes have earned 382 various all-conference honors. Additionally, USU has led the WAC in academic all-conference honorees in each of the last three years, including 130 during the 2007-08 academic year. USU's student-athletes also traditionally rank among the best in the WAC with an 82 percent graduation success rate and a cumulative 3.04 grade point average.

The basketball team has become a fixture in the NCAA Tournament and has won either a conference regular season title, conference tournament title, or both every year but two during the 2000s. The Aggies have also won 20-plus games and advanced to postseason play in each of the last nine years. USU also claimed its first-ever WAC regular season championship in 2008.

The football team has finished first or second in league play 12 times during its last 30 years of conference play. Three of the top five home attendance seasons have come in the last six years. With the entrance into the WAC, there are increased opportunities for post-season bowl games and added television exposure.

USU's cross country and track teams have been among the conference's best for a number of years, as the men's cross country team has won eight league titles and finished second seven times during the last 17 years. The track teams have claimed 10 league team championships during the last 16 years. Also, since USU joined the WAC, the men's cross country team has won four straight WAC Championships, while the track teams have won two WAC titles.

On the women's side, USU has had success in a number of its sports. The gymnastics program has competed in the NCAA regionals during 26 of the last 31 years and has won five conference championships during the last 17 years.

The Aggie soccer team has made great strides every year since it started the program in 1996 and produced its best season in 2008, as it won its first-ever regular season championship and set school records for overall wins and conference wins.

The track teams continue to have success, as the women's cross country team was the WAC Champion in 2006 and 2008, while the track team won seven consecutive league titles beginning in 1993 in the Big West.

Ten different student-athletes have earned All-American honors in volleyball 16 times, and Elaine Roque and Karolyn Kirby have gone on to successful careers on the pro beach volleyball tour. USU's volleyball team advanced to consecutive NCAA tournaments in 2000 and 2001, and participated again in 2005.

USU reinstated its women's basketball program ahead of the 2003-04 season. The program is quickly maturing into a competitive foe in the WAC.

Academically, Utah State is the leader of the WAC. USU's graduation success rate is above those of the other WAC schools, and "academics first" is stressed in all USU programs.

USU has a strong history of athletic success. Among these successful athletes is Merlin Olsen, who won the Outland Trophy awarded to the nation's top lineman in 1961. Olsen, who was selected into the NFL Hall of Fame, was also an academic All-American. Merlin's brother, Phil, was also an athletic All-American at Utah State and had great success in the NFL.

USU has produced five Olympians and 27 All-Americans in track and field, including former world record holders L. Jay Silvester and Mark Enyeart. Jay Don Blake became USU's first NCAA national champion in golf, winning the national title in 1980 and finishing second the following year.

# Intercollegiate Athletics

---

Aggie basketball boasts the legacy of Wayne Estes, an All-American in the early 1960s before his untimely death prior to the conclusion of his senior season, and Jaycee Carroll who was a two-time Associated Press honorable mention All-American and is the school's all-time scoring leader with 2,522 career points.

Three Aggie gymnasts have earned All-American honors and two others have represented their countries in the Olympics and World Championships.

The softball team has produced four All-Americans, including three-time All-American Kelly Smith.

## Facilities

Excellent training and competition facilities are provided in all sports.

E. L. "Dick" Romney Stadium, home of the Aggie football team for more than 30 years, seats 25,513. A state-of-the-art lighting system was installed prior to the 1993 season, and chair-back seating was added ahead of the 1997 season. The 1999 season saw expanded seating, two new scoreboards, and an improved sound system. A new synthetic turf was installed prior to the 2004 season.

The Jim and Carol Laub Athletics-Academics Complex was completed prior to the 2008-09 academic year to meet the academic and athletic needs of all 16 Utah State University intercollegiate sports. The state-of-the-art facility is home to the 11,000 square-foot Dale Mildnerberger Sports Medicine Complex and the Dr. John Worley Sports Medicine Research Center, along with a 7,000 square-foot equipment room. The first floor is also home to the Steve Mothersell Hall of Fame, along with locker rooms for football, women's track and field, softball, and women's soccer. Coaches' offices and conference rooms are located on the second floor, and the academic center is on the third floor with classrooms, computer labs, and tutoring rooms for all 325 Utah State student-athletes.

Basketball, gymnastics, and volleyball are played in the beautiful 10,270-seat Dee Glen Smith Spectrum. A \$1.2 million scoreboard was installed prior to the 2002-03 academic year, and a new playing floor was installed during 2005. Basketball and volleyball practices are held in the Spectrum, while the HPER Building is the practice home for the gymnastics team.

The recently renovated gymnastics practice gym has been labeled as one of the nation's finest, complete with vaulting pits and foam-spring exercise floor.

The \$4.4 million Stan Laub Indoor Training Facility is one of the finest facilities in the nation. The building features a 95-yard football field that is regulation width, as well as a vaulted ceiling that reaches 78 feet high. The building is perfect for off-season conditioning for all of Utah State's sports.

The Nelson Fieldhouse is the home of the Aggie indoor track and field teams. The teams practice on a 200-meter tartan track. For the outdoor season, a recently resurfaced and renovated Ralph Maughan Stadium is the home for the men's and women's track teams.

The women's softball team plays its home games at LaRee and LeGrand Johnson Field, an on-campus facility, for which a large scoreboard, new grass, and a new fence were added ahead of the 2004 season.

The women's soccer team also has a new facility, the Chuck and Gloria Bell Soccer Field, which was built in 2003 and features a two-story press box.

The tennis teams play at the Sports Academy and Racquet Club, one of the finest indoor facilities in the West. The men's golf team practices and plays at the Birch Creek Golf Course and at the Logan Golf and Country Club.

## Scholarships

Utah State offers partial and full scholarships in each of its 16 sponsored sports. A student or prospective student desiring consideration for one of these awards may contact one of the coaches for further information about scholarship applications.

## Registration and Eligibility

Registration for athletic participation in Aggie athletics may be accomplished by contacting any of the coaches or the athletics office. Eligibility for participation is governed by the rules and regulations established by the NCAA, by the Big West Conference, and by Utah State University.

## Scheduling Policy

Utah State's Athletics program works very closely with coaches and schedulers to avoid scheduling of intercollegiate practices and competitions for both men and women at times that conflict with the instructional calendar, particularly during end-of-term examinations.

## Supervision

Supervision and direction for men and women is vested in the Director of Athletics and the Athletic Council, consisting of the President of the University, and members of the faculty, the alumni, and student organizations.

Utah State University is engaged in a broad array of activities designed to facilitate international education and research. Many activities are embedded in departments and colleges. Key University-level offices and points of contact are highlighted below.

## International Education

Key offices associated with international education include the Office of the Interim Vice Provost for International Education, the Office of International Students and Scholars, the Study Abroad Office, the Office of International Cooperative Education and Initiatives, the Office of International Scholarship Programs, the Office of International Program Development, and the USU Intensive English Language Institute. The roles and responsibilities of each of these units are described below.

### Office of the Interim Vice Provost for International Education

The Office of the Interim Vice Provost for International Education, under the Office of the Provost, supports and encourages a wide range of international activities throughout the institution. It directly oversees the Office of International Students and Scholars (OISS), the Study Abroad Office, and the Office of International Scholarship Programs. It assists in University diplomacy with foreign universities and government entities. It coordinates international contracts and educational programs abroad. It is also responsible for assisting students and scholars in obtaining Fulbright grants.

**Interim Vice Provost for International Education:** Edward M. Reeve,  
Industrial Science 108, (435) 797-3642, FAX (435) 797-2567  
**WWW:** <http://www.usu.edu/ia/>

### Office of International Students and Scholars

The Office of International Students and Scholars serves as the primary link between students and local and government agencies around the world. It provides leadership and advisement support for immigration issues and enhances the academic, social, and personal interactions of international students and scholars. A more detailed description of the Office of International Students and Scholars can be found on pages 38-39.

**Director of the Office of International Students and Scholars:**  
Jeannie Pacheco, Taggart Student Center 313, (435) 797-1124,  
FAX (435) 797-3522  
**WWW:** <http://www.oiss.usu.edu/>

### Study Abroad Office

The Study Abroad Office provides USU students with opportunities for study throughout the world, through exchange partner institutions or consortiums, during a semester, academic year, or summer program. This office also provides USU faculty-led programs in international locations worldwide. A more detailed description of the Study Abroad Office can be found on pages 85-86.

**Director of Study Abroad:** Kay Forsyth, Taggart Student Center 311,  
(435) 797-1253, FAX (435) 797-3522  
**WWW:** <http://www.usu.edu/studyabroad/>

### Office of International Scholarship Programs

The International Scholarship Programs office is under the direction of the Interim Vice Provost for International Education. It is designed to provide unique services to international scholarship recipients and the sponsors who provide funds for their studies at Utah State University. The office provides individual support at all levels to scholarship recipients, ensuring that students will have a successful experience at Utah State University, while maintaining the objectives of the scholarship programs.

**International Scholarship Coordinator:** Shelly Hernandez,  
Junction 104, (435) 797-1647, FAX (435) 797-1376

## International Research

### International Program Development Office

The International Program Development Office connects the resources of Utah State University with the international community to address global challenges and opportunities. International program development is under the Office of the Vice President for Research, and provides technical support and assists faculty members interested in implementing collaborative international development projects around the globe. As a land-grant university, USU has long been involved in providing technical assistance and training to various countries around the world. USU has implemented more than 125 major international technical assistance programs and training projects since 1960 having a combined value of more than US \$400 million. Much of USU's experience and development has made the University an international leader in the areas associated with irrigation and water resources; dryland and arid agriculture; livestock production on rangelands; dairy production and processing; management of natural resources; persons with disabilities; institutional building in research, extension, and education; and planning and implementation of skills development programs.

**Associate Vice President for Research—International Program Development:** DeeVon Bailey, Gunshed 105, (435) 797-2300,  
FAX (435) 797-0136, [deevon.bailey@usu.edu](mailto:deevon.bailey@usu.edu)  
**WWW:** <http://internationalresearch.usu.edu/>

## Programs and Resources

### Office of International Cooperative Education and Initiatives

The Office of International Cooperative Education and Initiatives assists University colleges and departments in delivery of USU degree programs abroad, as well as in other collaborative initiatives.

**Director of International Cooperative Education and Initiatives:**  
Li Li, Eccles Conference Center 108, (435) 797-3019,  
FAX (435) 797-8112

### Intensive English Language Institute

As a program in the College of Humanities, Arts, and Social Sciences, the Intensive English Language Institute (IELI) provides international students, residents, and refugees with the English skills and cultural knowledge they need to be successful university students. IELI teaches students seeking degrees at USU, as well as students who want to study English for personal or professional reasons. A more detailed description of the Intensive English Language Institute can be found on page 313.

**Director of the Intensive English Language Institute:**  
Ann E. Roemer, Main 071, (435) 797-2051, FAX (435) 797-4050  
**WWW:** <http://www.usu.edu/ielii/>

# Library

## Merrill-Cazier Library

**Dean of Libraries:** Richard W. Clement

**Location:** Merrill-Cazier Library 250

**Phone:** (435) 797-2631

**FAX:** (435) 797-2880

**WWW:** <http://library.usu.edu>

**Associate Dean for Public Services:**

John A. Elswailer, Jr., (435) 797-2636

**Associate Dean for Technical Services:**

Betty Rozum, (435) 797-2632

**Associate Dean for Special Collections and Archives:**

Bradford R. Cole, (435) 797-8268

**Reference and Instruction Services:** Flora G. Shrode,  
(435) 797-8033

**Collection Development:** Betty Rozum, (435) 797-2632

**Patron Services:** Vicki Read, (435) 797-2914

**Government Documents:** John S. Walters, (435) 797-2683

**Cataloging:** Cheryl H. Adams, (435) 797-2667

**Materials Acquisitions:** Kevin K. Brewer, (435) 797-3961

**Library Systems:** R. Todd Hugie, (435) 797-2638

**Digital Initiatives:** Cheryl D. Walters, (435) 797-2623

**Staff Assistants:**

Trina Shelton, (435) 797-2631

Becky Olson, (435) 797-2639

The Merrill-Cazier Library is a full-service academic library with a mission to connect people with information. A new building, opened Fall Semester 2005, brings all library resources and services under one roof in a single, comprehensive facility. The state-of-the-art library features an inviting, spacious, and comfortable setting for learning. There is a wide variety of study spaces, including more than 35 group study rooms, two digital media suites, an Information Commons with 150 workstations, a café, and ample seating in study lounges and at study tables and carrels. Expansive windows afford patrons an abundance of natural light and great views of Logan Canyon and the surrounding mountains.

The Library is rich in technology and resources. There is wireless connectivity throughout, and laptops are available for check out. The Merrill-Cazier Library features an automated storage and retrieval system (known to users as The BARN), which uses robotics to house and access 600,000 volumes with a capacity for 900,000 more.

The Merrill-Cazier Library maintains an extensive collection of research materials, including more than 650,000 print books and 197,000 electronic books. The Library has more than 35,000 print and electronic journals, as well as 150 electronic databases. As a designated regional depository of government documents, the Library has one of the largest collections of federal/state documents and maps in the intermountain region.

The Library's Special Collections and Archives division provides a significant body of primary source materials, including manuscripts, photographic images, maps, and rare books focusing on art, literature, and the history of the Intermountain West. Collections of particular note include one of the foremost collections of materials pertaining to Jack London, a nationally recognized collection of literary and artistic works relating to the Beat movement in American art and literature, the Prestini Design Collection, and the acclaimed Fife Folklore Archives. Through an on-going project, the Library is making many of its unique and rare materials available as digital collections (see <http://digital.lib.usu.edu/>).

The Library's faculty and staff members are invaluable resources for students, faculty, and researchers. They provide expertise in locating, evaluating, and using information. Librarians routinely work with faculty, selecting the best materials, teaching classes, and consulting about information needed in research.

Among the services provided to connect users with information, the Library offers the following:

1. **Course Reserves/Electronic Reserves.** Faculty members often assign course materials that they have placed "on reserve." The Library makes many of these available online, while others are available on-site for a limited borrowing period.
2. **Information/Research Assistance.** The staff at the Information Commons Desk is ready to serve the information needs of patrons on demand. Patrons can also chat with a librarian online and submit questions by e-mail.
3. **Instruction Services.** Librarians team up with faculty in a wide range of disciplines to teach students about research processes and information sources. Many tutorials and research guides are available online.
4. **Interlibrary Services and Document Delivery.** If the Library does not have a book or journal that a patron needs, the staff can borrow the item from another library. Patrons make their request online; most copies of journal articles are delivered to them electronically.
5. **Library Media Collections.** An extensive collection of video tapes, CDs, DVDs, and other media are available for loan and for viewing on-site.
6. **Peer Mentor Program.** The Peer Mentor Program trains students to assist their fellow students in locating and using information.
7. **Research Consultation.** For personal help or for in-depth assistance with a research question, students and faculty can work individually with a librarian who has expertise in the discipline and in finding and using information.

The Merrill-Cazier Library, in both its physical facility and its services, enhances the experiences of students and faculty alike. As the intellectual center of the University, the Library provides an engaging environment for learning.

# Regional Campuses and Distance Education (RCDE)

## Vice Provost for Regional Campuses and Distance Education:

Ronda R. Menlove

**Location:** Main 114

**Phone:** (435) 797-7198

**FAX:** (435) 797-3880

**E-mail:** ronda.menlove@usu.edu

**WWW:** <http://distance.usu.edu/html/campuses/>

During the past two decades, University faculty and administration have strengthened service to residents through development and delivery of Distance Education academic programs in partnership with University departments. Distance Education provides opportunities for students to complete degrees and receive training via online courses, interactive broadcast, independent study, and face-to-face classes at Regional Campuses. Distance Education provides opportunities for professional and vocational learning in addition to providing lifelong enrichment through social and cultural programs. Persons in all situations and of all ages can access learning opportunities which will increase their knowledge and skills without disrupting their employment or lifestyles.

## Degree and Credit Programs

A large number of people live in communities or areas remote from the University campus and desire to benefit from higher education but cannot come to Logan to attend courses on campus. Courses and degree programs are made available to approximately 50 different communities around the state through on-site faculty, visiting faculty, and via an interactive broadcast system using a variety of technologies. In addition, many courses are available on the Internet.

Off-campus credit courses, which are equivalent in content hours of class instruction and preparation, meet the same requirements as comparable classes offered on the University campus. Programs and classes may meet the requirements for an undergraduate degree, as determined by the individual departments and colleges. They also may meet the requirements for a graduate degree with approval of the School of Graduate Studies. All instructors in credit courses are either members of the regular University teaching faculty officially assigned to the teaching project concerned or nonresident members approved by the head of the department and by the college administration.

The registration fees charged for classes conform to regulations of the Board of Regents. Fees may not be less than the on-campus tuition and may be more if warranted by the additional expense of conducting the class off campus.

## Degrees and Programs Offered

Complete degree and certificate programs can be earned entirely through Regional Campuses and Distance Education (RCDE). Courses offered online are asynchronous, allowing students to coordinate assignments around their schedules, and do not require meeting at a specific place or time. Interactive Broadcast courses are synchronous, meaning that although the instructor and students may be in different locations, they all meet together on a regular schedule, each at a USU Regional Campus, center, or site. Face-to-face courses are taught at regional campuses and selected centers by either faculty members or adjunct faculty members. **Note:** The degrees and programs listed below are *not offered at all sites and locations*. For more information, visit <http://distance.usu.edu/html/campuses/> or call the nearest center.

### Associate Degrees

General Studies—AS

Office Systems Support—AAS

Ornamental Horticulture—AAS

### Bachelor's Degrees

Accounting—BS

Agribusiness—BS

Biology—BS

Business—BS (Dual major and 2nd BS only)

Communicative Disorders and Deaf Education—  
(second bachelor's, online)—BS

Computer Science—BS

Elementary Education—BS

English—BS

Entrepreneurship—BS

Family, Consumer, and Human Development—BS

Family Life Studies—BS (offered online *only*)

History—BS

Interdisciplinary Studies—BS

Psychology—BS

Psychology—BS (online)

Special Education (Mild/Moderate)—BS

### Master's Degrees

Agricultural Systems Technology—MS

Business Administration—MBA

Computer Science—MS, MCS

Electrical Engineering—MS, ME

Elementary Education—MS, MA, MEd

English (Technical Writing)—MS, MA (online)

Family and Human Development—MFHD

Health, Physical Education and Recreation—MS, MEd

Instructional Technology—MS, MEd

Psychology (licensure in school counseling)—MS

Rehabilitation Counseling—MRC

Secondary Education—MS, MA, MEd

Social Work—MSW

Special Education—MS, MEd

### Doctorate Degrees

Education (specialization in Curriculum and Instruction)—EdD

Educational Specialist—EdS

### Minors

Anthropology

English

Family and Human Development

History

Multimedia Development

Psychology

Sociology

### Endorsements and Certificates

Administrative/Supervisory Endorsement

Dietetic Internship Certificate

Distance Learning Endorsement

Education Technology Endorsement

English as a Second Language Endorsement

Gifted and Talented Endorsement

Linguistics Certificate (online)

NEPA Certificate

Ornamental Horticulture Certificate

Reading Endorsement

School Library Media Endorsement

Special Education (Early Childhood) Endorsement

Special Education (Mild/Moderate) Endorsement

Special Education (Severe) Endorsement

Utah Mathematics Endorsement Project

# Regional Campuses and Distance Education (RCDE)

## Degree Requirements

All students majoring in RCDE-administered degrees and programs must satisfy the requirements, provided below. Academic advising regarding these requirements is available in the Office of University Advising, Taggart Student Center 304, and at local RCDE campuses.

## Admission Requirements

When students apply, they need to indicate which campus they would like to attend. When students indicate they would like to attend an RCDE campus or center, they will be identified as RCDE applicants and evaluated for admission. Students who are not seeking degrees, as well as those students who have not been admitted, may enroll in selected courses if they have met the prerequisites for those courses. Students who are admitted through the RCDE matriculation will be evaluated using the following criteria:

1. Students who apply directly through an RCDE site and meet the current USU/college-specific admission criteria will be admitted and matriculated into their specified college according to current policy and procedure.
2. First-time/freshman students who apply directly through an RCDE site/center and **do not** meet the University's criteria will be admitted into the RCDE matriculation if they (a) have an index score of 85 or above or an ACT score of 16 or above, **or** (b) have been out of school for 5 or more years.
3. Students applying to a USU RCDE campus who have previous college experience (readmits/transfer students) and **do not** meet the University's criteria for admission into their requested major will be evaluated through the RCDE matriculation criteria. The criteria for re-admits and transfer students are as follows: (a) have been out of school for at least three years, **or** (b) have a minimum college cumulative GPA of at least 2.0, **or** (c) have previous college experience, including concurrent enrollment credit GPA of 2.0 or above.

Students who have been admitted through RCDE and later determine they want to attend courses on the main campus will be required to **either** complete at least 24 credits with a minimum GPA of 2.5 **or** meet college-specific requirements. When a student meets the major/college-specific criteria, a change of major form must be submitted.

## Associate of Science in General Studies

### Objectives

Students may pursue an Associate of Science degree for any of the following reasons: (1) it may serve as a vehicle to complete the Utah State University General Education requirements, (2) it may enable a student to transfer to another institution, or (3) it may serve as a vehicle to transfer into a four-year degree program. While completing their associate degree, students are encouraged to complete the sophomore-level requirements for their major, so as to facilitate a smooth transition to upper-division courses within their major.

### Graduation Requirements

1. 60 total credits
2. GPA of 2.0 or higher
3. Completion of 30-34 credits in University Studies courses, including:
  - a. 6 credits of Communications Literacy (CL1) and (CL2)
  - b. 3-4 credits of Quantitative Literacy (QL)

- c. fulfillment of Computer and Information Literacy (CIL) requirement, by scoring 70 percent or higher on each of six exams.
  - d. 18-20 credits of Breadth Requirements, including 3 credits in Breadth American Institutions (BAI), 3 credits in Breadth Creative Arts (BCA), 3 credits in Breadth Humanities (BHU), 3-4 credits in Breadth Life Sciences (BLS), 3-4 credits in Breadth Physical Sciences (BPS), and 3 credits in Breadth Social Sciences (BSS). Students are required to take at least two approved courses with a USU prefix.
  - e. 3-4 credits in the Exploration Requirement, fulfilled by completing an additional class chosen from one of the following General Education categories: QL, BAI, BCA, BHU, BLS, BPS, or BSS. This additional class is required *only* for students whose first semester enrolled at USU is Summer Semester 2008 or thereafter.
4. 27-30 credits in an area that will lead to junior-level status
  5. Completion of at least 20 credits earned at USU

## Associate of Applied Science (AAS) in Office Systems Support

The AAS degree in Office Systems Support is available *only* through RCDE. For information about admission requirements, degree requirements, and career opportunities, see the *Office Systems Support AAS Degree* section of this catalog on pages 406-407.

## Independent and Distance Education

**Location:** Eccles Conference Center 102

**Phone:** (435) 797-9700 *or* (800) 233-2137 (toll free)

**WWW:** <http://distance.usu.edu/>

Independent and distance learning advances the University's land-grant mission by taking academics and discovery to a diverse and under-served student population through electronic program and course delivery.

Independent Study courses allow students to reduce scheduling problems and earn college credit without attending campus classes. Independent Study courses are offered on an open-enrollment and semester schedule. Students may register anytime for open-enrollment courses and may take up to one year to complete the courses. Semester schedule courses follow the published dates and deadlines for registration. To request a catalog, call (435) 797-9700 *or* (800) 233-2137. For more information and to request registration for independent and distance education courses, visit: <http://distance.usu.edu/>

### Online Education

Online education allows students to accelerate their academic progress through high-quality interactive courses that fit their busy schedules. Students earn the same college credits working from their home computers as they would if they attended classes on campus. Most online courses are offered on a semester schedule and must be completed during regular USU semesters. For more information and to register for online courses, visit: <http://distance.usu.edu/>

### Interactive Broadcast Classes

Interactive Broadcast classes are available at all campuses and sites across Utah and allow students the opportunity to have a classroom experience with faculty from various USU campuses. Students are able to interact with their instructors and classmates in real time. To accommodate the schedules of students who work full time, many of the courses are available during the evenings.

# Regional Campuses and Distance Education (RCDE)

## Concurrent Enrollment

**Location:** Eccles Conference Center 101

**Phone:** (435) 797-8223

**WWW:** <http://concurrent.usu.edu/>

Concurrent Enrollment is a cooperative program between public and higher education in the State of Utah. It is designed to help high school students who are planning to attend a postsecondary educational institution. Students in this program are eligible to earn high school credits, as well as credits which can be applied toward a college degree. Students completing courses offered as part of this program can receive credit at Utah State University or at another institution in the state, as well as at many out-of-state institutions.

These courses are the same courses as offered on the campus of Utah State University. Although courses are usually limited to 1000-level courses, 2000-level courses may occasionally be offered. Textbooks, testing, attendance, grading, and assignments are equivalent to that used in courses taught at USU, and are approved by each department. Some USU faculty members, as well as departmental-approved part-time faculty, teach in this program. At USU, concurrent enrollment is administered by RCDE.

USU delivers concurrent education in a variety of ways. Although USU often uses its own faculty members to teach concurrent enrollment classes, departmental-approved high school faculty members may be used to teach courses at local high schools. Classes are also offered to a wider audience through the Utah Education Network system, through interactive video conferencing, and through online or internet courses.

In order to become eligible for enrollment in concurrent education courses offered through USU, students should first meet with their high school counselors. Generally, students should be juniors or seniors in high school, and should be in good academic standing. Students should be aware that concurrent education generates a college transcript which will accompany them throughout their college career. Because these courses are academically rigorous, students should ensure they are ready to commit to meeting University standards.

## USU Regional Campuses and Education Centers

**Director of Marketing/Development:** Kimberly A. Larson, David B. Haight Alumni Center, (435) 797-8537, FAX (435) 797-2591, kim.larson@usu.edu

University Advancement is the public face of Utah State University, managing the University's relationships with its alumni, friends, and the public. The Advancement Office has three components: the Alumni Association, Public Relations and Marketing, and Development. Alumni Relations' charge is to build and maintain strong connections with its alumni around the globe. Public Relations and Marketing holds responsibility for the public image of the University, telling the University's stories. The Office of Development provides resources for the University by securing private sources of funding.

The Office of Development's responsibility for raising private funds includes every aspect of relationship building, from publishing magazines and newsletters that keep donors connected and informed to ensuring that gifts are stewarded properly and holding celebrations to thank donors for their contributions.

Private gifts to the University augment declining state support and enable the University to build up-to-date facilities, conduct cutting-edge research, create innovative academic programs, and showcase exciting performers and guest speakers. Moreover, private support provides scholarships for deserving students who otherwise would not be able to afford the cost of higher education.

University Advancement provides professional assistance to the Utah State University community in the area of charitable giving. For further information on how to transmit gifts of cash, securities, or in-kind property to the University through a number of tax-friendly strategies, contact University Advancement, Main 101, 1440 Old Main Hill, Logan UT 84322-1440, (435) 797-1158 or toll-free (888) OLD-MAIN (653-6246).

## University Alumni Association

**President:** Paul D. Parkinson

**Executive Director of Alumni Relations:**

Wallace S. Odd II, David B. Haight Alumni Center, (435) 797-2055 or  
(800) 291-2586, wally.odd@usu.edu

The Utah State University Alumni Association numbers more than 180,000 members. This membership includes all who have attended USU for one semester (or one quarter) or more, or who have served on the staff or faculty of the University.

The mission of the Alumni Association is to promote the interests and welfare of Utah State University, as well as that of USU alumni, students, faculty, staff, and friends.

The governance of the association is vested in the Executive Board. The board is comprised of the president and vice president of the association, the vice president of University Advancement, the president of the Associated Students of USU, the president of the Emeriti, the president of the Young Alumni, the president of the Student Alumni Association, a College Alumni/Development representative, a University faculty representative, the University Athletic Director, the director of Alumni Relations, the immediate past president of the association, and representatives of regional alumni chapters selected by the Council of Chapter Presidents with the approval of the Executive Board.

The Alumni Association is the medium through which former students maintain contact with the University and are served after leaving the campus. Efforts are made to maintain a complete record of every former student throughout life, and his or her accomplishments and progress are recorded. The association maintains alumni volunteers and chapter organizations throughout Utah and in major areas where former students are located. Through the association, former students are kept in contact with each other, and they meet and participate in business and social activities. They likewise assist the University with special projects in their areas.

The Alumni Association takes the leadership in sponsoring such campus events as Homecoming, Founders Day, Distinguished Service Awards, Aggie Family Day, and reunions. The association also provides opportunities for travel through the alumni travel program, and aids in athletic and other school activities.

# University Research

**Vice President for Research:** Brent C. Miller

**Location:** Main 159

**Phone:** (435) 797-1180

**FAX:** (435) 797-1367

**E-mail:** vp.research@usu.edu

**WWW:** <http://research.usu.edu/>

## **Associate Vice Presidents for Research:**

Jeffery R. Broadbent, Main 159, (435) 797-1199,  
[jeff.broadbent@usu.edu](mailto:jeff.broadbent@usu.edu)

Joyce A. Kinkead, Main 162, (435) 797-1706,  
[joyce.kinkead@usu.edu](mailto:joyce.kinkead@usu.edu)

DeeVon Bailey, GUNSHD 105, (435) 797-2300,  
[deevon.bailey@usu.edu](mailto:deevon.bailey@usu.edu)

It is the mission of the Research Office to provide an environment that facilitates and stimulates University-related research, scholarship, and creative activities by: (1) providing leadership to identify and pursue promising research opportunities; (2) providing resources to help recruit and retain outstanding faculty and student scholars; (3) improving research support services that are highly responsive and efficient; (4) fostering a culture of academic research integrity that discloses and manages conflicts-of-interest and conflicts-of-commitment, and that is consistent with federal regulations; and (5) identifying, protecting, and, where appropriate, commercializing intellectual properties for the benefit of authors/inventors, the University, and society.

**USU Analytical Laboratory (Soil Testing):** Janice Kotuby-Amache  
**USU Plant Pest Diagnostic Lab:** Diane G. Alston

## International Program Development Office

The International Program Development Office connects the resources of Utah State University with the international community to address global challenges and opportunities. International program development is a branch of the Vice President for Research Office. USU's mission states that it aspires to be a "socially and intellectually vibrant campus community, enhanced by the diversity of its faculty, staff, and students." The International Program Development Office is dedicated to fostering USU's goals by encouraging the efforts of faculty and students to be involved in international research program opportunities.

## Undergraduate Research Program

Undergraduate research, scholarship, and creative activity offer Utah State University students unparalleled educational opportunities for hands-on learning, a hallmark of the institution. Students may begin a research track as early as their freshman year, preparing them to compete for prestigious scholarships, such as the Goldwater, Udall, and Rhodes, and for graduate studies. Undergraduate Research and Creative Opportunity (URCO) Grant competitions are held twice annually, in February and October. The Research Office also supports the annual "Research on the Hill" event at the State Capitol, as well as "Student Showcase," the spring celebration of undergraduate research. In addition, students selected to present at the National Conference on Undergraduate Research (NCUR) or the Council on Undergraduate Research (CUR) "Posters on the Hill" competition are also supported. For support of other travel to professional conferences and meetings, the Associated Students of Utah State University (ASUSU) allocates money to eligible undergraduates through the Academic Opportunity Fund.

# School of Graduate Studies

## Graduate General Information

**Dean of School of Graduate Studies:** Byron R. Burnham

**Location:** Main 164

**Phone:** (435) 797-1189

**FAX:** (435) 797-1192

**WWW:** <http://www.usu.edu/graduateschool/>

**E-mail and Informational Links:**

<http://www.usu.edu/graduateschool/contact/>

Graduate programs at USU are supervised by the dean of the School of Graduate Studies, assisted by the Graduate Council. The council consists of the dean, a faculty representative from each of the seven colleges of the University, a representative from the Faculty Senate, the Vice President for Information Technology, and two graduate students. Policies and regulations for graduate work are established by the Graduate Council with the approval of the Faculty Senate.

USU has awarded Master of Science degrees since 1914 and doctoral degrees since 1950. The School of Graduate Studies was formally organized in 1945. Forty of the University's 42 departments participate in graduate degree programs, including several interdepartmental programs. Included are 95 master's programs, 38 doctoral programs, 6 educational specialist programs, 1 engineer degree, and 2 interdisciplinary certificates. Nationally and internationally known scholars and research units participate in and support graduate studies at USU.

The School of Graduate Studies holds memberships in the Council of Graduate Schools in the United States and the Western Association of Graduate Schools.

## Degrees, Majors, and Certificates

Utah State University offers the following graduate degrees:

Master of Accounting (MAcc)  
 Master of Arts (MA)  
 Master of Business Administration (MBA)  
 Master of Computer Science (MCS)  
 Master of Dietetics Administration (MDA)  
 Master of Education (MEd)  
 Master of Engineering (ME)  
 Master of Family and Human Development (MFHD)  
 Master of Fine Arts (MFA)  
 Master of Food Microbiology and Safety (MFMS)  
 Master of Landscape Architecture (MLA)  
 Master of Mathematics (MMath)  
 Master of Music (MM)  
 Master of Natural Resources (MNR)  
 Master of Professional Studies in Horticulture (MPSH)  
 Master of Rehabilitation Counseling (MRC)  
 Master of Science (MS)  
 Master of Second Language Teaching (MSLT)  
 Master of Social Sciences (MSS)  
 Master of Social Work (MSW)  
 Civil Engineer (CE)  
 Educational Specialist (EdS)  
 Doctor of Education (EdD)  
 Doctor of Philosophy (PhD)  
 Doctorate of Audiology (AuD)

Following is a list of the academic areas, or majors, within which degrees are offered and the degree(s) for each:

Accounting.....	MAcc
Agricultural Systems Technology.....	MS
American Studies.....	MA, MS
Animal Science.....	MS, PhD
Anthropology.....	MS
Applied Economics.....	MS
Applied Environmental Geoscience.....	MS
Art.....	MA, MFA
Audiology.....	AuD
Biochemistry.....	MS, PhD
Biological Engineering.....	MS, PhD
Biology.....	MS, PhD
Biometeorology.....	MS, PhD
Bioregional Planning.....	MS
Bioveterinary Science.....	MS, PhD
Business Administration.....	MBA <sup>1</sup>
Chemistry.....	MS, PhD
Civil and Environmental Engineering.....	ME, MS, CE, PhD
Communication.....	MA, MS
Communicative Disorders and Deaf Education.....	MEd, MA, MS, EdS
Computer Engineering.....	MS
Computer Science.....	MS, MCS, PhD
Dairy Science.....	MS
Dietetics Administration.....	MDA
Disability Disciplines.....	PhD
Ecology.....	MS <sup>3</sup> , PhD <sup>3</sup>
Economics.....	MA, MS, PhD
Education.....	EdD <sup>1</sup> , PhD <sup>1</sup>
Electrical Engineering.....	ME, MS, PhD
Elementary Education.....	MEd, MA, MS, EdS
Engineering Education.....	PhD
Engineering and Technology Education.....	MS
English.....	MA, MS
Family and Human Development.....	MFHD
Family, Consumer, and Human Development.....	MS, PhD
Fisheries Biology.....	MS, PhD
Food Microbiology and Safety.....	MFMS
Forestry.....	MS, PhD
Geography.....	MA, MS
Geology.....	MS, PhD
Health, Physical Education and Recreation.....	MEd, MS
History.....	MA, MS
Horticulture, Professional Studies in.....	MPSH
Human Dimensions of Ecosystem Science and Management.....	MS, PhD
Human Environments.....	MS
Human Resources.....	MS
Industrial Mathematics.....	MS
Instructional Technology.....	MEd, MS, EdS, PhD
Irrigation Engineering.....	MS, PhD
Landscape Architecture.....	MLA
Management Information Systems.....	MS
Mathematical Sciences.....	PhD
Mathematics.....	MS, MMath
Mechanical Engineering.....	ME, MS, PhD
Music.....	MM
Natural Resources.....	MNR <sup>1</sup>
Nutrition and Food Sciences.....	MS, PhD
Physics.....	MS, PhD
Plant Science.....	MS, PhD
Political Science.....	MA, MS
Psychology.....	MS, EdS, PhD
Range Science.....	MS, PhD
Recreation Resource Management.....	MS, PhD
Rehabilitation Counseling.....	MRC
Second Language Teaching.....	MSLT
Secondary Education.....	MEd, MA, MS, EdS
Social Sciences.....	MSS <sup>1</sup>
Social Work.....	MSW
Sociology.....	MA, MS, PhD
Soil Science.....	MS, PhD
Special Education.....	MEd, MS, EdS
Statistics.....	MS

Theatre Arts.....	MA, MFA
Theory and Practice of Professional Communication.....	PhD
Toxicology.....	MS <sup>1</sup> , PhD <sup>1</sup>
Watershed Science.....	MS, PhD
Wildlife Biology.....	MS, PhD

## Certificates

National Environmental Policy Act (NEPA)<sup>2</sup>

Natural Resources and Environmental Education (NREE)<sup>2</sup>

<sup>1</sup>Interdisciplinary degree program.

<sup>2</sup>Interdisciplinary certificate program.

<sup>3</sup>The MS and PhD in Ecology are offered within each of the following departments: Biology; Environment and Society; Plants, Soils, and Climate; Watershed Sciences; and Wildland Resources.

## Graduate Financial Assistance

Applications for assistantships, fellowships, and other financial aid should be made through departmental offices.

Along with most graduate schools in the United States, USU is a party to a resolution of the Council of Graduate Schools that establishes April 15 as the deadline for acceptance of offers of financial assistance. If a student accepts an offer before April 15 and then wishes to withdraw, a resignation of the appointment may be submitted in writing at any time through April 15. However, after April 15 a student is not to accept another offer without first obtaining a written release from the institution to which a commitment has been made.

## Graduate Assistantships

Teaching, research, and other graduate assistantships are available in most of the departments of the University. A full-time assistantship is 20 hours per week. In the interest of timely degree completion, graduate students are generally employed by the University for *no more than* 20 hours per week. Employment for more than 20 hours per week must be approved by the student's advisor, degree-program department head, and the graduate dean. Graduate assistants must be full-time, matriculated students. For students employed as graduate assistants, full-time status is based on the full-time equivalent or FTE. A 0.25 to 0.374 FTE requires a student to enroll for 9 graduate-level credits; a 0.375 to 0.50 FTE requires a student to enroll for 6 graduate-level credits (see also *Student Classifications* section, page 113). Graduate assistants must maintain a cumulative grade point average (GPA) of 3.0 or higher for those courses included on their Program of Study. However, if a Program of Study has not been submitted to the School of Graduate Studies, a cumulative GPA is computed using all of the student's coursework at USU since the prior degree. The GPA is checked by the School of Graduate Studies at the end of each semester. If the student has not yet started the graduate program, the cumulative GPA on the last 60 semester credits will be used to determine eligibility as a graduate assistant. Graduate assistants may register for a maximum of 12 credits per semester. However, a research assistant whose assistantship involves his or her thesis or dissertation research may register for additional credits, as explained below.

## Teaching Assistantships/Graduate Instructors

Graduate students may be teaching assistants or graduate instructors in departments. Teaching loads vary up to a maximum of 20 hours per week, and salaries vary depending on the department and the teaching load.

International students may be considered for teaching assistantships if they demonstrate adequate proficiency in English communication, as determined by Utah State University's Intensive English Language Institute, and have participated in the required workshop.

All teaching assistants and graduate instructors are required to participate in a training workshop sponsored by the School of Graduate Studies prior to beginning their assistantships. The workshops help students gain the techniques and skills to be effective instructors in the university environment. The workshop for international students also aids students in understanding the American university culture and in improving communication. When a teaching assistant workshop has been successfully completed, 1 credit will be added to the student's transcript. However, this credit cannot be applied toward a graduate degree program.

## Research Assistantships

Salaries and workloads for research assistants vary, with a maximum workload of 20 hours per week. Students conducting research that will be used for their thesis or dissertation may register for 4 research or thesis credits above the 12-credit limit.

## Federal College Work-Study Assistantships

Graduate students may apply for work-study support by completing an online application at <http://www.fafsa.ed.gov>

## Tuition Award for the Nonresident Portion of the Tuition Fee

A nonresident student who holds *at least* a 0.25 FTE (10 hours per week) graduate assistantship and is receiving at least \$350 per month may be awarded a waiver of the nonresident portion of tuition for courses in the student's degree program. The nonresident tuition award for out-of-state, noninternational students will expire after 12 months. At this point, it is the student's responsibility to obtain Utah residency or other funding, in order to evade the cost of nonresident tuition. For additional information regarding Utah residency requirements, see page 35 in this catalog, or visit:

<http://www.usu.edu/admissions/information/residency.cfm>

Tuition awards *cannot* be used to audit classes. Tuition awards *cannot* be used for coursework below the 5000 level, *unless* the course is on the student's Program of Study or required by the student's supervisory committee, as indicated by a letter from the committee chair.

## Resident Tuition Award for Doctoral Students

A student who is matriculated in a doctoral degree program and is a graduate assistant working *at least* 0.5 FTE (20 hours per week) or a graduate fellow receiving at least \$600 per month may be awarded a resident (instate) tuition award. Full-time registration is required (see page 113). If credits other than those required for the doctoral degree are needed to meet the full-time registration requirement, registration must be for Dept. 7990 (Continuing Graduate Advisement). A doctoral in-state tuition award *cannot* be used to audit classes or for coursework below the 5000 level. Tuition awards *cannot* be used for coursework below the 5000 level, *unless* the course is on the student's Program of Study or required by the student's supervisory committee, as indicated by a letter from the committee chair.

## Tuition Award Application Process

The designated departmental staff must submit an award request to the graduate dean for approval according to the deadlines outlined in the Tuition Awards Policy. The award must be used before the last day for registering or adding classes in the semester for which it was awarded (15th day of classes). The awards are available for a

# School of Graduate Studies

---

maximum of 12 credits per semester, with the number of eligible credits indicated on the Program of Study, which must be submitted by the end of the second semester for a master's student and the end of the third semester for a doctoral student. Audited courses do not qualify for the award. Students may receive the employee/spouse/dependent waiver as an employment benefit in conjunction with a tuition award. However, tuition awards will *not* combine with the employment benefit to surpass 100 percent of tuition charges for a given semester. For more information, refer to the Graduate Student Tuition Awards Policy on the School of Graduate Studies website:

<http://www.usu.edu/graduateschool/financial/tuitionwaiverpolicy.cfm>

## Western Regional Graduate Programs (WRGP)

Residents of participating states may enroll in graduate programs approved as Western Regional Graduate Programs (WRGP) by the Western Interstate Commission for Higher Education (WICHE) without paying nonresident tuition. USU's WRGP degrees are the MS and PhD in Biometeorology, Toxicology, and Watershed Science; and the MS in Physics, with a specialization in Upper Atmospheric Physics. Information is available in the School of Graduate Studies or at: <http://wrgp.wiche.edu>

## Fellowships and Scholarships

Fellowship and scholarship awardees must be full-time, matriculated students enrolled in approved graduate-level coursework. Application for these, as well as for departmental fellowships and awards, is made through the departments, except for the Martin Luther King Fellowship and the Dinesh and Kalpana Patel Fellowship (see below).

**Presidential Fellowships** include a \$12,000 stipend for the academic year, a waiver of the nonresident portion of tuition, subsidized health insurance, and for doctoral students, the resident tuition award. Criteria include a 3.50 GPA and quantitative and verbal GRE scores at the 70th percentile or above.

**Vice President for Research Fellowships** include a \$15,000 stipend for the academic year, a waiver of the nonresident portion of tuition, subsidized health insurance, and for doctoral students, the resident tuition award. Criteria are the same as for the Presidential Fellowships. In addition, the student must be in a research degree program that includes a master's thesis or doctoral dissertation.

**Martin Luther King Fellowships** are available to African-American students. The fellowship includes a waiver of the nonresident portion of tuition. The department usually awards an assistantship or other support, the amount of which varies. Application for this fellowship is made through the School of Graduate Studies.

**Dinesh and Kalpana Patel Fellowships** are available to doctoral students who are international students or students from an underrepresented group. The fellowship is typically for \$5,000 and includes a waiver of the nonresident portion of tuition and a doctoral tuition award. Recipients are required to maintain a cumulative GPA of 3.0. Students may not receive this award more than once. Preference will be given to students in the latter stages of their program. Application for this fellowship is made through the School of Graduate Studies.

**Resident Tuition Awards** covering the resident portion of tuition are available each semester on a competitive basis through the departments. Awardees must be full-time matriculated students and must maintain a 3.0 or higher GPA.

**Seely-Hinckley Scholarships** are awarded each year to qualified graduate students with superior academic records. College deans nominate, for the following school year, outstanding scholars who would not be able to attend or would be delayed in attending USU without financial assistance.

## Other Financial Assistance

Many students who do not receive assistantships or fellowships receive financial assistance by working for departments or other campus units. Graduate students are generally not employed by the University for more than 20 hours per week. Employment beyond 20 hours per week must be approved by the student's advisor, degree-program department head, and the graduate dean.

Graduate students may apply for Federal Stafford Loans, Federal Perkins Loans, Federal Supplemental Loans for Students (SLS), Emergency Loans, and Federal College Work-Study through the Financial Aid Office. More information can be found in the *Financial Aid and Scholarship Information* section of this catalog, page 46, or by contacting: Financial Aid Office, Taggart Student Center 106, Utah State University, 1800 Old Main Hill, Logan UT 84322-1800, tel. (435) 797-0173. Also visit the following website: <http://www.usu.edu/finaid/>

For information about **GI Bill Benefits**, contact: Office of Veterans Services, Taggart Student Center 246, Utah State University, 1600 Old Main Hill, Logan UT 84322-1600, tel. (435) 797-1102.

## Graduate Admission

For information concerning admission requirements and application procedures for students desiring to pursue a graduate degree at Utah State University, see the *Graduate Admission* section of this catalog on pages 36-37.

## Graduate General Regulations

Each graduate student is responsible to know the policies, regulations, and procedures of the School of Graduate Studies and of his or her department or program, and to see that they are followed and that the timelines are met. The policies and regulations stated in this catalog and in departmental handbooks may be changed between publication dates, and students are responsible to obtain up-to-date information.

## Time Limit

A master's degree must be completed within six years of matriculation. A doctorate must be completed within eight years of matriculation.

Coursework that is more than eight years old may not be used for a graduate degree. If permitted by the departmental or interdepartmental degree program policy, a supervisory committee may allow revalidation through testing, following a plan developed by the supervisory committee and approved by the dean of the School of Graduate Studies. The results must be verified in writing to the graduate dean by the student's major professor or other person(s) responsible for the testing. Work experience cannot be substituted for out-of-date coursework or used for revalidation.

Graduate credits from another institution that exceed the eight-year limit at the time of degree completion may be transferred to a USU graduate degree only if the student's supervisory committee provides a justification acceptable to the graduate dean. Then, the revalidation procedures described above apply.

## Student Classifications

A **matriculated graduate student** has been accepted by a department, with the concurrence of the dean of the School of Graduate Studies, to an approved graduate degree program and has enrolled at the University. A student may be accepted on a **provisional** matriculation basis when (1) information, such as GRE scores, is yet to be received by the School of Graduate Studies, or (2) when a missing prerequisite or academic deficiency must be remedied. The conditions and time limit for remedying these deficiencies must be specified to the student in writing at the time of admission. If the conditions are not met as specified, the student's participation in the degree program will be terminated. International students cannot be admitted on provisional status.

A **full-time matriculated graduate student** must be one of the following:

1. Registered for 9 or more graduate credits; or
2. Registered for 6 or more graduate credits if employed as a graduate assistant for 15 hours per week or more; or
3. Registered for 3 graduate credits with all required coursework completed and only the research component of the degree remaining (the student's Program of Study must have been submitted to the School of Graduate Studies); or
4. Registered for at least 3 graduate credits during the semester of the final thesis/dissertation defense or, in a nonthesis degree program, the last semester of coursework required on the student's Program of Study.

**Note: To defer a loan or to receive student loans, graduate students must be registered for at least 6 credits.**

A **matriculated-probationary graduate student** has been placed on warned status because of inadequate progress in his or her degree program. The conditions to be met and the time limit for meeting them must be specified to the student in writing at the time he or she is placed on probation. If the conditions are not met as specified, the student's participation in the degree program will be terminated.

Graduate assistants and fellowship recipients must be full-time matriculated students with a GPA of 3.0 or above, and must be registered each semester of the assistantship or fellowship, including summer.

A **nonmatriculated postbaccalaureate student** holds a bachelor's degree, is enrolled for USU coursework, but has not been accepted to a graduate degree program. If an application for graduate studies has been submitted to the School of Graduate Studies, a student may apply through the School of Graduate Studies to enroll as a nonmatriculated student. A letter must be submitted from the graduate department head or graduate program coordinator giving permission for the student to be entered on the computer as a nonmatriculated student. If the student does not intend to pursue a graduate degree, the student should apply to the undergraduate Admissions Office to enroll as a nonmatriculated student. A **maximum of 12 semester credits** earned as a nonmatriculated, postbaccalaureate student may be used in a graduate degree program, but only if approved by the student's supervisory committee.

An international student must be admitted to a degree program and hold a valid F-1 or J-1 visa before enrolling in classes at Utah State University. A student on an F-1 or J-1 visa must maintain full-time student status throughout the degree program. For other information about the University, he or she can contact the International Students and Scholars Office, Utah State University, 0140 Old Main Hill, Logan UT 84322-0140, tel. (435) 797-1124.

## Split Form Policy

An undergraduate student doing well in his or her studies and planning a graduate degree at USU may file a Split Form to request that some coursework be reserved (split out) from the undergraduate degree. The instructor's permission is required for an undergraduate student to register for graduate courses. For a Split Form to be approved, the student must be within 30 semester credits of completing bachelor's degree requirements, have filed an Application for Graduation in the Graduation Office (a copy of which must be attached to the split request), **be currently taking at least one required undergraduate class**, have a cumulative undergraduate GPA of 3.0 or higher at the beginning of the semester listed on the Split Form, and have applied for admission to the School of Graduate Studies. In accordance with School of Graduate Studies admission policy (see pages 36-37), a transitional student will not be matriculated in the School of Graduate Studies until his or her bachelor's degree has been completed. A maximum of 9 semester credits may be split out during a bachelor's program.

A Split Form, which must include one or more required undergraduate courses from the student's Application for Graduation, should be filed in the School of Graduate Studies, along with a copy of the Application for Graduation, before grades are posted for the semester requested to be split. **A Split Form cannot be processed after the bachelor's degree has been closed out and posted on the transcript.** The form must be signed by the undergraduate advisor and the graduate department head or departmental graduate program chair/coordinator before it is submitted to the School of Graduate Studies. If approved by the dean of the School of Graduate Studies, the form will be processed and forwarded to the Graduation Office. Approval of a Split Form does not guarantee acceptance to the School of Graduate Studies.

By default, courses numbered 0010 through 4990 will be posted to an undergraduate transcript; and courses numbered 6000 through 7990 will be posted to a graduate transcript. Courses numbered 5000 through 5990 are generally posted to *either* an undergraduate *or* graduate transcript, based on the primary program level of the student. Therefore, undergraduate students who qualify (under the regulations shown above) to have some of their undergraduate coursework "split out" for a graduate degree will need to submit a form to the Registrar's Office stating which undergraduate courses they desire to have "split out." Students should contact their undergraduate advisor for help with filing the appropriate form. In cases where a graduate student has taken one or more undergraduate-level courses as part of the approved program of study, a form will need to be submitted to the Registrar's Office, requesting that the course(s) be posted to the graduate transcript. Students should contact their graduate advisor for help with filing the appropriate form.

# School of Graduate Studies

---

## Course-Level Numbering and Acceptability

**7000-7990** are doctorate-level courses. With supervisory committee and instructor approval, they may be used in a master's program.

**6000-6990** are master's-level courses. With supervisory committee approval, they may be used in a doctoral program.

**5000-5990** are advanced, upper-division courses and may be used in a graduate program if approved by the supervisory committee (see below).

**3000-4990** are junior/senior, upper-division undergraduate courses. Up to 3 semester credits of coursework at this level **may be used** (see below).

No more than 15 semester credits of 3000-5990 level coursework may be used for a graduate degree, except for a doctorate without a master's degree, for which a total of 21 semester credits of 3000-5990 level coursework may be used. Up to 3 semester credits of coursework at the 3000-4990 level may be included within the 15 or 21 semester credit limit, upon recommendation by the student's supervisory committee and approval by the graduate dean. To be approved, such courses must be outside the student's graduate-degree field. Courses that students entering the graduate program are expected to have taken as undergraduates and prerequisites for graduate courses are not acceptable.

**2990 and below** are lower-division courses and are not acceptable for graduate degree programs of study.

**6990 and 7990** (continuing graduate advisement) credits, **INST 7920**, and **IELI 7920** cannot be used in a degree program.

Audited courses may not be used for a degree program or toward status as a full-time student. Credits in the following areas are not acceptable in a degree program: foreign languages, continuing graduate advisement, individual home study, military science, and courses numbered below 3000. No more than 12 workshop credits may be applied to a master's degree.

## Minimum Grades and Credit Acceptability

Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree. Some departments do not accept C grades.

### P-Grade Policy

P (Pass) will be accepted only for seminars, special problems, interdisciplinary workshops, thesis or dissertation research, and continuing graduate advisement.

### Correspondence Course Credits

Distance Education correspondence (independent home study) courses are not accepted for graduate degrees.

### Credit by Special Examination

Credit earned by special examination cannot be used to satisfy the course requirements for a graduate degree or to meet the residency requirement.

## Transfer and Nonmatriculated Credits

Provided USU residency requirements (see specific credit requirements under each degree) will be met, a student's supervisory committee may recommend transfer of graduate credits earned at another accredited institution, including credits with earned P grades. The credits must *not* have been used for another degree. Only 12 semester credits may be transferred into a graduate program at USU. Credits with P grades may be transferred *only* with committee approval. Transfer credits *cannot replace* required residency credits. Transfer credits are subject to approval of the supervisory committee and the dean of the School of Graduate Studies. Credits more than eight years old may not be acceptable (see *Time Limit* section, page 112). Transfer credits will be shown on official USU transcripts upon completion of the degree. These stipulations apply to nonmatriculated credits.

*No more than 12 credits* taken at USU or another institution *prior to matriculation at USU* may be used in a program of study.

## Rights in Inventions

It is the student's responsibility to be aware of University policy in regard to rights in inventions. (Information is available in the Office of the Vice President for Research.)

## Research Approval

All University research involving human subjects, animal subjects, radiation materials, recombinant DNA, or biohazardous materials must be reviewed and approved by the appropriate University committee(s) **before the research is started**. Graduate students are, with the assistance of their advisors, responsible for obtaining the necessary approval for their research. Verification of approval must be submitted to the School of Graduate Studies before the student's master's Program of Study or doctoral Application for Candidacy can be approved. For further information, contact the School of Graduate Studies or the Office of the Vice President for Research.

## Continuous Graduate Registration

Graduate students using University facilities or faculty time must be registered for a minimum of 3 graduate credits every semester until completion of all degree requirements, except, in some cases, the semester of final thesis or dissertation approval (see below). Students employed as graduate assistants or graduate instructors during all semesters, *except for summer semester*, must be registered as full-time matriculated students (see page 113). More than 3 credits of continuous registration may be required by a department. An off-campus student in a planned Regional Campuses and Distance Education program who is enrolled in a 1- or 2-credit course that is the only course offered locally that semester may be approved by the graduate dean for continuous registration upon written recommendation of the department head. Continuous registration may be met with courses, seminars, independent study, research credit, or 6990 or 7990 (Continuing Graduate Advisement). The continuous registration requirement goes into effect the semester a student matriculates in the School of Graduate Studies.

A graduate student who is not using University facilities or faculty time may meet the continuous registration requirement by paying the **Continuous Registration Fee** of \$100 per semester (not necessary for summer semester). This alternative requires a written request from the department head, including verification that the student is not using University facilities and/or faculty time. International students usually do not qualify to pay the Continuous Registration Fee because of immigration regulations.

The semester a student defends (or redefends) a thesis, Plan B paper, or dissertation or takes final oral examinations, he or she must be registered for at least 3 credits. Doctoral and master's Plan A, Plan B, and Plan C students will be given until the last day of the next semester (known as a "grace" semester) following the defense to finish degree requirements, and Plan C students will be given until the last day of the next semester after coursework completion to finish degree requirements. If a student has not completed all degree requirements by the end of the grace semester, the student must pay a \$100 Late Completion Fee for each semester following the grace semester. If working with faculty involves more than routine submission of the thesis or dissertation to the assistant dean, registration for 3 or more credits is required. After one year, redefense may be required.

Because of SEVIS regulations, a student holding an F-1 or J-1 visa is not eligible to pay the \$100 fee to complete the degree, but must be registered as a full-time student through the semester of completion.

## Leave of Absence

A leave of absence, during which neither continuous registration nor a \$100 payment is required, may be granted under the following conditions:

1. Illness, required military service, and other extenuating circumstances acceptable to the department head and the graduate dean.
2. Lack of availability of courses in a planned Regional Campuses and Distance Education program.
3. Participation in a planned program based primarily on summer semester courses.

For either 2 or 3, the student must have an approved Program of Study on file in the School of Graduate Studies before a leave will be granted.

A leave of absence must be approved by the graduate dean, upon written recommendation of the department head. A leave of absence may be the basis for extending the time limit to complete a degree, but not to extend the time limit for course validity.

## Low-Scholarship Notification

Students whose semester grade point average (GPA) is below 3.0 for any semester will be notified by letter that their academic performance is unsatisfactory. Students whose cumulative GPA falls below 3.0 will be placed on probationary status. If a student remains on probationary status for two consecutive semesters, the School of Graduate Studies will ask the student's department to explain why the student's graduate program should not be terminated. If the department cannot provide compelling reasons explaining why the student should continue graduate study, the student's graduate program will be terminated. In the case of termination, reapplication is required to regain matriculation.

If a student holding a University appointment as a teaching or research assistant or fellow is changed to probationary status, the student will have a grace semester to move from probation. If the student does not move from probation, the assistantship or fellowship will be terminated. If additional time is required to move from probation, the department may formally request an extension.

GPA will be computed using all coursework completed at USU since the prior degree. Upon formal request from the student and department, and once a Program of Study is approved by the student's supervisory committee, department head, and approved by and filed in the School of Graduate Studies, the courses listed on the Program of Study will be used to compute the student's GPA.

## Monitoring of Progress

The student's department and the School of Graduate Studies monitor the progress of graduate students. For continued participation in a graduate program, a student must complete requirements in a timely manner. In reviewing a student's progress, several factors will be considered, including demonstrated ability to develop a thesis proposal, independence in the conduct of research, performance on comprehensive examinations, GPA, and special program requirements. Satisfactory progress also involves maintaining the standards of professional ethics and integrity expected in the student's discipline.

## Academic Nepotism

A faculty member is not to participate in admission or graduate-assistant employment decisions, serve as major professor, or serve on the supervisory committee of a relative, including a person with whom he or she has or has had an amorous relationship. Graduate students may enroll in classes taught by a relative only under special conditions. For information, contact the department head or the School of Graduate Studies.

## Matriculation of Faculty

It is the policy of USU not to grant advanced degrees to its own faculty, except under unusual circumstances (see Faculty Policy 404.1.4).

## Academic Honesty and Research Misconduct

Maintaining the highest standards of academic honesty and research ethics is especially important at the graduate level, where students are expected to do original, scholarly work in preparation for future professional and academic roles. Academic dishonesty is defined in *The Code of Policies and Procedures for Students at Utah State University* (April 2002) Article V, Section 3 (see page 80 of this catalog) to include cheating, falsification of information, and plagiarism.

Violations of the above policy will subject the offender to the University disciplinary procedures as outlined in Article VI, Section 1 of the student *Code*, with the penalties or disciplinary measures to include one or more of the following:

1. **Probation.** Continued participation in an academic program is predicated upon the student satisfying certain requirements as specified by the University. Probation is for a designated period of time and includes the probability of more severe disciplinary penalties if the student does not comply with the specified requirements or is found to be violating the Honor System during the probationary period.

# School of Graduate Studies

---

2. **Suspension.** Temporary dismissal from the University for a specified time, after which the student is eligible to return. Conditions for readmission may be specified.
3. **Expulsion.** Permanent dismissal from the University.
4. **Honor System violation.** Assigning a designation with a course grade indicating an Honor System violation involving academic dishonesty.
5. **Denial or revocation of a degree.**
6. **Performance of community service.**

Research is a vital part of the education of most graduate students, and appropriate scientific and research conduct is expected. An allegation of scientific misconduct involving funded research is handled through the Office of the Vice President for Research. If the research is nonfunded, the allegation is handled following *The Code of Policies and Procedures for Students at Utah State University*.

Research misconduct may be determined during a student's program or after the program is completed. If a student is found guilty of research fraud, the penalty may include, in addition to any listed above, correction and reanalysis of data and/or rewriting of the thesis or dissertation, with resubmission and redefinition of the thesis or dissertation, and/or loss of financial assistance.

## Appeals Procedure

Graduate students with grievances relating to academic matters may appeal to the dean of the School of Graduate Studies following the steps and procedures in *The Code of Policies and Procedures for Students at Utah State University*.

## Graduate Degree Requirements

Each graduate student must be aware of degree requirements and must work with his or her major professor, supervisory committee, and department head to meet the requirements and specific deadlines.

## Master's Degrees

When a student is accepted to a master's degree program, the department head appoints a temporary advisor. In most master's degree programs, a supervisory committee will be established for each student. During the first semester following matriculation, the student should meet with the department head to discuss the appointment of a supervisory committee. A completed **Supervisory Committee** form should be submitted by the department head to the dean of the School of Graduate Studies for final approval **by the end of the student's first semester**. Committee changes are not to be made during the six weeks prior to the final defense.

A master's degree supervisory committee must include at least three faculty members who are approved by the department head and the dean of the School of Graduate Studies. At least one member must represent the student's area of specialization, and at least one must be from outside the specialization area. Adjunct faculty can be members with the approval of the dean of the School of Graduate Studies. Upon recommendation of the department head, emeritus faculty may serve on supervisory committees, but may not chair new committees.

Within School of Graduate Studies and departmental requirements, the supervisory committee determines the courses for the student's Program of Study; conducts departmental qualifying examinations (if required); supervises the student's thesis research, Plan B paper, or project; and conducts the defense or final examination. The defense or final examination must be scheduled through the School of Graduate Studies. The major professor, who serves as the chairperson of the committee, usually directs the thesis, paper, or other degree project.

The original **Program of Study** form with signature in ink should be submitted to the School of Graduate Studies by the student **before the end of the second semester following matriculation**. Amendments to the Program of Study form can be made with an e-mail from the major professor to Laura Holley (laura.holley@usu.edu) with copies (in the cc: field) to all committee members. Submission of a new Program of Study is **not** necessary.

### Plan A

The Plan A option for a master's degree requires preparation of a thesis. From 6-15 semester credits of thesis research are required. The semesters during which a student registers for thesis credit should correspond as closely as possible to the semesters in which the thesis work is done and faculty supervision is provided.

The thesis for a Plan A master's degree is to be a contribution to the field of knowledge, based on the student's own research or a treatment and presentation of known subject matter from a new point of view. The student and major professor should decide upon a problem or subject for the thesis study by the end of the student's first semester of graduate study.

A **Thesis Proposal cover page**, signed by the entire committee, should be submitted by the student to the School of Graduate Studies **prior to the final defense**.

The student and all committee members are required to sign a **Data and Copyright** form and a **Plans for Publication** form. The forms are given to the student at his or her final defense and must be submitted to the School of Graduate Studies **prior to degree completion**.

### Plan B

The Plan B option requires the production of a paper or a creative work of art. At least 2 credits of thesis research are required, but no more than 3 credits of thesis credit can be included on the Program of Study.

The Plan B paper is usually a review of literature, with conclusions drawn after conceptualizing an area of inquiry, planning a systematic search, and analyzing and critiquing the acquired information. The summary and conclusions developed should enhance knowledge in the discipline.

Plan B papers and reports should follow the same format specifications as theses and dissertations and are expected to reflect equivalent scholarship standards, even though they may be less intensive and not demand the originality of a Plan A thesis. Plan B papers are defended, but are not reviewed by the School of Graduate Studies assistant dean or signed by the graduate dean. Plan B papers must be submitted to the Merrill-Cazier Library, and the binding receipt must be returned to the School of Graduate Studies.

## Plan C

A master's degree option with no thesis or Plan B paper is available in some programs. A departmentally approved program that includes a culminating creative or integrative experience must be filed in the School of Graduate Studies. Generally, a course or seminar on research methods is required, but thesis credits are not accepted. Plan C students should contact their department early in their final semester to be certain that all degree requirements, including completion of graduation forms, will be met, and that all appropriate paperwork has been sent to the School of Graduate Studies.

## Master of Arts

Requirements for the Master of Arts (MA) degree (except in the Art Department) include two years (equivalent to 16-20 semester credits) of an acceptable second language, which may include American Sign Language, with grades of C or above (unless a higher minimum grade is required by the department), or the equivalent level of learning as determined by testing approved by the supervisory committee and the graduate dean. One year each of two languages, or the equivalent as determined by approved testing, is acceptable if approved by the student's supervisory committee. Coursework to meet this requirement cannot have been used for another degree and cannot be more than eight years old.

Computer languages are not acceptable for the MA degree.

Approved testing procedures include the following:

1. Take and pass (C or above, unless the department requires a higher minimum grade) a language course at the appropriate level (i.e., the final course in a two-year sequence).
2. Take a test given by USU's Languages, Philosophy, and Speech Communication Department or at the BYU Testing Center and be certified for language equivalency for 16 or more semester credits. To obtain information on languages for which tests are available at USU and BYU, as well as to make arrangements for testing, contact the USU Department of Languages, Philosophy, and Speech Communication.
3. Arrange testing at another university center or testing agency approved by the department and the graduate dean.
4. For an international student who is using English as his or her second language, certification of English competency may be demonstrated through any of the following three conditions:
  - (a) either a TOEFL score of 79 (Internet-based) or the equivalent score of 6.0 on the International English Language Testing System (IELTS);
  - (b) successful completion of Intensive English courses; or
  - (c) a degree from a university in an English-speaking country.

The department of the MA degree candidate may also require proficiency in the candidate's primary language.

## Credit Requirement

The minimum requirement for a master's degree is 30 semester credits, except for a Plan C degree for which the minimum is 33 semester credits. For the MEd degree, the minimum number of semester credits is 36. The Master of Fine Arts is regarded as a terminal degree and requires a minimum of 60 semester credits.

## Residency Requirement

At least 24 semester credits for a master's degree must be from a committee-approved and an SGS-approved Program of Study from Utah State University. Furthermore, any allowed transfer credits cannot replace required residency credit.

## Post-Master's Professional Degrees

Three degrees—the Civil Engineer (CE), the Master of Computer Science (MCS), and the Educational Specialist (EdS)—are designed for students who seek to improve their professional skills and knowledge beyond the master's degree. The minimum requirement for each of these degrees is 30 semester credits beyond the master's degree (60 credits beyond a bachelor's degree). Each degree requires a project report that is prepared to the same format specifications as a thesis, but is not reviewed by the School of Graduate Studies assistant dean or signed by the graduate dean.

## Doctoral Degrees

When a doctoral student is admitted, the department head appoints a temporary advisor to work with the student until a supervisory committee is established. A **Supervisory Committee** form must be submitted to the dean of the School of Graduate Studies for approval **by the end of the student's second semester following matriculation**. Committee changes are not to be made during the six weeks prior to the final defense.

A doctoral supervisory committee must include at least five faculty members with doctoral degrees who are approved by the department head and the dean of the School of Graduate Studies. Three members must be from within and at least one must be from outside the department or interdepartmental degree-granting program in which the student is matriculated. Adjunct faculty can serve on doctoral committees with the approval of the dean of the School of Graduate Studies. Upon recommendation of the department head, emeritus faculty may serve on supervisory committees, but may not chair new committees.

The supervisory committee specifies the student's Program of Study; supervises the student's qualifying examination (if there is one) and comprehensive examination, unless some other departmental or program procedure is in place; approves the dissertation proposal and supervises the student's research and preparation of the dissertation; and conducts the final oral examination. The major professor is the chairperson of the committee and usually directs the student's research. Continuation in a doctoral program is contingent upon the availability of a major professor.

By the **end of the third semester**, the student should have submitted a **Program of Study** to the School of Graduate Studies. Amendments to the Program of Study form can be made with an e-mail from the major professor to Laura Holley (laura.holley@usu.edu) with copies (in the cc: field) to all committee members. Submission of a new Program of Study is **not** necessary.

The student and all committee members are required to sign a **Data and Copyright** form and a **Plans for Publication** form. The forms are given to the student at his or her final defense and must be submitted by the student to the School of Graduate Studies **prior to degree completion**.

Some departments or interdepartmental programs administer qualifying examinations. Each department or program has the responsibility of administering comprehensive examinations.

# School of Graduate Studies

---

Following completion of all or most courses, successful completion of comprehensive examinations, and approval of a proposal for dissertation research, and **at least three months** before the final defense, the student must submit an **Application for Candidacy** form to the School of Graduate Studies, along with a copy of the dissertation proposal cover page, signed by all members of the supervisory committee. Submission of the candidacy form is a major step in the student's program, because the committee and department head thereby attest that the student is ready to conduct independent dissertation research, although successful completion of that requirement is not guaranteed.

## Credit Requirement

The minimum requirement for a doctoral degree is 60 approved semester credits in addition to a master's degree, or 90 approved graduate semester credits with no master's degree. Coursework cannot be used for more than one degree.

A minimum of 12 dissertation credits is required for a post-master's doctorate and a minimum of 18 for a no-master's doctorate. The semesters during which a student registers for dissertation credit should correspond as closely as possible to the semesters in which the dissertation work is done and faculty supervision is provided.

## Residency Requirement

For the PhD, a minimum of 33 USU semester credits from an approved Program of Study is required. At least three semesters, two of which must be consecutive, of full-time registration in residency at USU are required.

At least 24 semester credits for a master's degree must be from a supervisory committee- and SGS-approved Program of Study from Utah State University. Furthermore, any allowed transfer credits cannot replace required residency credit.

For the EdD, a minimum of 39 USU semester credits from an approved Program of Study is required. At least three semesters must be full-time registration in residence at USU; none of the semesters need to be consecutive, but two full-time semesters must be taken on campus prior to dissertation credit. Some departments also have language requirements.

## Preparation and Approval of Theses, Plan B Papers, and Dissertations

Before beginning work on a thesis, Plan B paper, or dissertation, a student should obtain the *Publication Guide for Graduate Students*, available online or from the USU Bookstore, and the style manual or journal approved by the supervisory committee and/or department. These documents will guide the student in the proper preparation of his or her manuscript. Theses and dissertations may be prepared in either traditional or multiple-paper format. One article or article-manuscript may **not** be submitted as a thesis or dissertation.

Preparation of a thesis, Plan B paper, or dissertation is the culminating learning experience for a graduate student. The quality of the product, which should represent the student's own best work, is the responsibility of the student. Monitoring the quality of the thesis, Plan B paper, or dissertation and mentoring the student in writing are responsibilities of the major professor, with the assistance of the supervisory committee. Editing by anyone other than the major professor and the supervisory committee should be limited to mechanics, such as spelling and grammar.

Drafts of sections should be submitted periodically to the major professor for critique. Committee members should be consulted, especially on sections that involve their special expertise. Upon request, the School of Graduate Studies assistant dean (in Main 164) will review an early draft for format and style. Students may also attend a thesis workshop. For more information about these workshops, see: [http://www.usu.edu/graduateschool/student\\_resources/workshops.cfm](http://www.usu.edu/graduateschool/student_resources/workshops.cfm)

## Oral Examination and Defense

The final defense should be scheduled by the student after all courses and the thesis, Plan B paper, or dissertation are completed. Changes in the membership of a supervisory committee cannot be made during the six weeks prior to the defense without a written request from the department head and approval of the graduate dean.

At least four weeks prior to the defense, the student shall give a copy of the thesis, Plan B paper, or dissertation to each member of the supervisory committee for approval or corrections. An **Appointment for Examination** form must be completed by the student and committee, indicating approval of the proposed time and place for the examination and defense, and submitted by the student to the School of Graduate Studies a **minimum of ten working days** prior to the exam.

The deadline for completing degree requirements is the last day of the semester. When the defense is scheduled during a semester break, the student must enroll for at least 3 credits the following semester.

No committee member should agree to proceed with a defense until he or she has carefully read and approved the thesis, Plan B paper, or dissertation. If any member of a committee believes that the document is not ready to be defended, he or she should notify the student and major professor and not sign the Appointment for Examination form. The defense should then be rescheduled.

The oral examination of the thesis, Plan B paper, or dissertation is a defense of a final document. Only minor changes, usually editorial, should be required following the defense. If major changes are required, a defense of the revised document should be held.

The chairperson of the examination is appointed by the graduate dean. At the examination, the student defends his or her thesis, Plan B paper, or dissertation and answers questions about the area of specialization. The results of the defense and any additional requirements are recorded on the **Record of Examination Completion** form, which is submitted to the School of Graduate Studies.

All members of the supervisory committee must approve and sign the thesis, Plan B paper, or dissertation. In the event of lack of unanimity, the matter is taken to the dean of the School of Graduate Studies.

Any final examination held without following the proper procedures is invalid. Graduate students failing to complete all degree requirements within one year of a successful defense will be required to redefend. Students must register for at least 3 credits the semester of redefense.

The student is responsible for proofreading the thesis/dissertation and having it read and approved by the department before submitting a final committee-approved and signed copy to the assistant dean in the School of Graduate Studies. The assistant dean will review the paper for proper format and conformity to departmental and School of Graduate Studies standards. The assistant dean will attach a checklist of format, stylistic, and mechanical problems and will mark examples of needed changes on the paper.

Format corrections and required rewriting must be completed before the assistant dean will submit the thesis or dissertation to the graduate dean for approval. The graduate dean examines each thesis and dissertation before approving and signing it. Any thesis or dissertation may be selected for further review by members of the faculty not on the student's supervisory committee or by expert reviewers at other institutions before being accepted by the dean.

The student may reserve a processing date for the thesis/dissertation by completing the appropriate form after the thesis/dissertation defense. The final committee-approved and signed thesis/dissertation should be submitted to the assistant dean by at least the day before the reserved processing date. If a processing date has not been reserved but the student would like to finish by the end of a semester, he or she must submit the final committee-approved and signed thesis/dissertation to the assistant dean at least seven weeks before the last day of the semester. At other times, the signed thesis/dissertation must be submitted at least four weeks prior to anticipated program completion.

## Final Steps

The following forms must be completed and submitted to the School of Graduate Studies before degree requirements are considered completed.

1. **Graduation Fee Payment Form** requires \$15 diploma payment at the Registrar's Office.
2. **Commencement Data Card**
3. **Alumni Card**
4. **Survey of Earned Doctorates**, if a doctoral student

In addition, two copies of the thesis or dissertation must be submitted to Current Periodicals in the Merrill-Cazier Library. The following fees must be paid at this time:

Binding fee for required copy.....	\$15
Binding and processing fee for personal copies* .....	\$15 per copy
Processing and handling fee .....	\$15

\*The student is responsible for verifying that the personal copies are complete and have been copied and/or printed without errors.

An electronic filing fee (paid online to ProQuest) is paid by the student.

The Current Periodicals personnel will provide a paper receipt, which must be submitted to the School of Graduate Studies before the degree is considered completed.

The final committee-approved Plan B paper must be taken to Special Collections in the Merrill-Cazier Library to be microfiched. Special Collections personnel will provide a paper receipt that must be submitted to the School of Graduate Studies before the degree is considered completed. (A processing and handling fee of \$7.50 is required.)

Also, incomplete grades must be removed from the student's record by the major professor using forms provided by the Registrar's Office. For Plan B and C programs, the School of Graduate Studies must receive a letter of completion from the department head or interdepartmental program director. **It is the student's responsibility to ensure that these final steps are taken.**

## Delay of Publication Policy

A thesis or dissertation must not contain material that cannot be disclosed publicly. However, occasionally it is in the University's best interest to delay disclosure of the contents of a thesis or dissertation while patenting and/or commercial development possibilities are investigated or for a period of report review by a funding agency. In such cases, publication of a thesis or dissertation through submission to the Merrill-Cazier Library and to ProQuest (UMI) may be delayed without delaying award of the student's degree. A copy of the publication delay policy, including the procedures for requesting a delay in library submission, may be obtained from the School of Graduate Studies.

## Diplomas and Commencement

Diplomas are prepared by the Registrar's Office at the end of each semester. Degrees are posted to transcripts throughout the year as students complete degree requirements. The actual date of completion is usually the date the thesis/dissertation is taken to the library for binding. The Plan C completion date is the last day of the semester.

During fall and spring semesters, only students completing degrees by the published Commencement deadline dates for a given semester will be included in the official Commencement program, although other students who complete requirements by a later date during the semester, established by the graduate dean, may participate in the graduate Commencement/Hooding ceremony. Their names will be printed in the next Commencement program.

## Graduate Interdepartmental Curricula

### Concurrent Degrees

Students may pursue concurrent master's degrees or concurrent master's and doctoral degrees with the approval of the cooperating departments and the graduate dean.

An application should be submitted for the first degree program. If admission is granted, the student may then apply for a second degree program after submitting a letter from the head of the department to which the student has been admitted. The letter should indicate that the department has no objection to the student applying for the second degree program. To be considered as concurrent degrees, admission to the second degree program must be finalized before the end of the first semester in the first degree.

### Guidelines for Concurrent Master's Degree Programs

In special cases, a student may complete concurrently the requirements for two master's degrees in different departments but with fewer than the total credits required by both programs, provided that the following conditions are met:

1. The student must formally apply and be accepted into both programs by the end of the first semester of the student's graduate program.
2. The chairperson of the student's supervisory committee in each department must also be a member of the other committee.

# School of Graduate Studies

---

3. The supervisory committee, the two department heads, and the graduate dean must approve the Program of Study for each degree.
4. There can be a maximum of 9 credits of overlap in courses between the two degree programs, and **the overlap must be in the elective or broadening courses**. With the allowance of overlapping, a student could thus complete the requirements for both degrees with up to 9 fewer semester credits than the usual minimum total for two degrees.

## Guidelines for Concurrent Doctoral-Master's Degree Programs

In special cases, a student may complete concurrently all requirements for a doctorate and a master's degree in different departments with fewer than the total credits required by both programs, provided that the following conditions are met:

1. The student must formally apply and be accepted into both programs by the end of the first semester of the student's graduate program.
2. The student's doctoral supervisory committee must consist of four members from the doctoral department and two members from the master's department if the student is on a thesis plan. The master's committee must consist of two master's departmental members and the chair of the doctoral committee.

3. The student's supervisory committee, the two department heads, and the graduate dean must approve each Program of Study.
4. There can be a maximum of 15 semester credits of overlap in courses between the two degree programs, and **the overlap must be in the elective or broadening courses**. With the allowance of overlapping, a student could thus complete the requirements for both degrees with a minimum of 75 semester credits, rather than the usual 90-credit minimum.

## Interdepartmental Degrees and Certificates

Several interdepartmental graduate degrees are offered at Utah State University. These include: the Interdepartmental Program in Ecology (MS, PhD), the Master of Business Administration (MBA), the Master of Science in Bioregional Planning, the Interdepartmental Program in Social Sciences (MSS), the Interdepartmental Program in Toxicology (MS, PhD), and the Master of Natural Resources (MNR). Also offered are the following two interdisciplinary certificates: (1) National Environmental Policy Act (NEPA) and (2) Natural Resources and Environmental Education (NREE).

Descriptions of the interdepartmental graduate programs are included alphabetically within the *Instructional Units and Programs* section of this catalog.

**Dean:** Noelle E. Cockett  
**Location:** Agricultural Science 221  
**Phone:** (435) 797-2201  
**FAX:** (435) 797-3268  
**E-mail:** noelle.cockett@usu.edu  
**WWW:** http://www.ag.usu.edu

**Associate Dean for Academic Programs:**

Gary S. Straquadine, Agricultural Science 223A, (435) 797-3521,  
gary.straquadine@usu.edu

**Associate Dean for Research and**

**Director, Agricultural Experiment Station:**

H. Paul Rasmussen, Agricultural Science 225, (435) 797-2207,  
paul.rasmussen@usu.edu

The College of Agriculture includes the following departments:

**Agricultural Systems Technology and Education (ASTE)**

**Animal, Dairy and Veterinary Sciences (ADVS)**

**Applied Economics (APEC)**

**Nutrition and Food Sciences (NFS)**

**Plants, Soils, and Climate (PSC)**

Degrees and curriculum options are listed in the *Instructional Units and Programs* section of this catalog. In addition to programs in the departments, the interdepartmental MS and PhD degrees in Toxicology involve more than one department.

Agricultural science and management is a dynamic, rapidly changing industry. It includes more than farming or producing food and fiber. It embodies all the occupations connected with the research, production, processing, marketing, and distribution of food and fiber products.

With a diversity of occupations, agriculture is the nation's largest industry. Of the 131 million people employed in the United States, about 21 million (16 percent) work in agriculture or an agriculture-related industry. This includes about one-half million scientists who serve agriculture directly or indirectly. The agricultural industry is the biggest buyer, seller, and borrower in the United States; it has the largest investment of any industry.

Today, agricultural science and management offers graduates challenging opportunities in a highly technological and competitive society. Students must be prepared to interact in such a society when they complete their formal education.

The success of various curricula in the College of Agriculture is manifest by the achievements of the graduates. They are setting new standards for agricultural production, processing, and distribution. Locally, nationally, and internationally, graduates are in positions as professional specialists, teachers, researchers, and leaders.

Education in the College of Agriculture includes fundamental science, as well as applied business and technology. Many graduates continue their education for advanced degrees and other specialized education and training.

## Admission Requirements

Undergraduate students accepted in good standing by the University are eligible for admission to the College of Agriculture.

## Facilities and Equipment

The E. G. Peterson Agricultural Science Building houses the administrative offices of the College of Agriculture; the Agricultural Experiment Station; University Extension; the Animal, Dairy and Veterinary Sciences Department; and the Plants, Soils, and Climate Department. The Animal, Dairy and Veterinary Sciences Department personnel are housed in the Agricultural Science Building, the Animal Sciences Building, the Biotechnology Center, the Skaggs Laboratory, the Veterinary Science Building, the South Farm, the Animal Teaching and Research Center, and the Caine Dairy. The Agricultural Systems Technology and Education Department is located in the Agricultural Systems Technology and Education Building. The Family and Consumer Sciences Education faculty and classes are located in the Family Life Building. The Applied Economics Department is housed in the George S. Eccles Business Building. The Department of Nutrition and Food Sciences is housed in the C. A. Ernstrom Nutrition and Food Sciences Building. Some classes and laboratories are located on Agricultural Experiment Station facilities near the campus, where research and teaching interact. Research units located throughout the state provide research opportunities for graduate students and faculty members.

## Curricula in Agriculture

Students may work toward the Bachelor of Science degree in any of the departments of the College of Agriculture.

Preveterinary training is offered in the Department of Animal, Dairy and Veterinary Sciences. Teacher certification can be completed through the Agricultural Systems Technology and Education Department in either Agricultural Education or Family and Consumer Sciences Education.

There are four basic curricula offered by most departments: (1) science, (2) production and sustainability, (3) business and management, and (4) community resource development and technology transfer.

Departmental listings detail the requirements for earning a degree in these curricula.

### Science

Students who choose the science curriculum learn the fundamentals of physical and biological sciences that are significant to agriculture and food science, including biotechnology and genomics. In the basic science courses, students prepare for graduate work and eventually research and teaching careers in the biological and natural sciences. Graduates in science curricula are also prepared to do research or technical work in agriculturally oriented businesses such as farm chemicals, livestock health, feed processing and marketing, crop breeding, water use, and food processing. Science curricula are offered in the Departments of Animal, Dairy and Veterinary Sciences; Nutrition and Food Sciences; and Plants, Soils, and Climate.

### Production and Sustainability

The production and sustainability curriculum is designed to educate students to meet the special demands of today's agriculture. Successful modern agricultural production requires an understanding of the latest scientific knowledge and an ability to apply the information to facilitate change. The production curriculum will satisfy the needs of a student who plans to be involved in sustainable production practices, to be a farm manager, or to work directly with farm operators as a businessman or as a government or farm organization employee. This curriculum is offered in the Departments of Agricultural Systems

# College of Agriculture

---

Technology and Education; Plants, Soils, and Climate; and in the animal and dairy science emphasis of the Animal, Dairy and Veterinary Sciences major in the ADVS Department.

## **Business and Management**

The businesses and industries that buy from, sell to, and provide service for people involved in production agriculture are expanding the need for employees educated in agriculture. These enterprises include feed, fertilizer, machinery, and chemical firms that supply the producer's needs, as well as marketing firms that assemble, process, ship, and merchandise agricultural products. Managers of large-scale and small-scale farm enterprises also profit from the kind of education provided by the business curriculum. Students who want to capitalize on their agricultural background while pursuing a business, management, or industrial career should consider the business option. This curriculum is offered in the Departments of Applied Economics; Agricultural Systems Technology and Education; Nutrition and Food Sciences; Plants, Soils, and Climate; and in the animal and dairy science emphasis of the Animal, Dairy and Veterinary Sciences major in the ADVS Department.

## **Community Resource Development and Technology Transfer**

The community resource development and technology transfer curriculum allows for skill advancement in serving communities through teaching, research, entrepreneurship, leadership, and resource management. Family and consumer development is at the core of the community. The Family and Consumer Sciences Education program prepares individuals to lead in this area. Agribusiness management and regional community development will enhance communities, especially rural, agrarian locations. A degree in Agribusiness, Resource and Regional Economics, or Agricultural Systems Technology will position a graduate to lead.

Interdepartmental and intercollege cooperation has and will continue to facilitate the development of various other curricula. Students should not hesitate to inquire about the possibilities of following a curriculum that would allow for special interests. The College of Agriculture

participates in the Interdisciplinary Studies Major (see pages 314-315), which offers flexibility for qualifying students who cannot find an existing degree that meets their needs. Advisors in each department are available and should be consulted for guidance in scheduling classes and in planning careers.

## **Financial Support**

The College of Agriculture and the agricultural industry in the Intermountain West annually sponsor more than 150 scholarships, internships, and assistantships. The college, state and federal agencies, and the local agribusinesses also support many students through internship programs. For further information, contact the College of Agriculture Dean's Office (Agricultural Science 221) and/or individual department offices.

## **Safety and Liability in Classes, Laboratories, and Field Experiences**

Certain classes and laboratories involve a risk of bodily injury or of damage to clothing. Students will take appropriate precautions and wear suitable protective clothing. Some of the risks include handling or being near animals, slick floors or corrals, use of toxic or corrosive substances, and the use of sharp or breakable instruments and power equipment. Students must take safety precautions during demonstrations or work with chemical substances, animal tissues, or operative procedures. Students must assume their own liability protection for travel to and from classes, laboratories, and field trips. The University and its employees assume no liability in the performance of classroom or laboratory instruction or on scheduled field trips, or for other dangerous activities. The student, by voluntarily participating in these classes and activities, agrees to assume the risk and not hold USU or its staff liable.

## Academic Departments

The Huntsman School of Business includes the following academic departments. Information about degrees and curriculum options are listed in the departmental sections of this catalog.

**Accountancy, School of  
Economics and Finance  
Management  
Management Information Systems**

## Interdisciplinary/Huntsman School Programs

The Huntsman School of Business offers the following programs in addition to those offered by academic departments. Detailed descriptions of these programs are provided in this section of this catalog and in the separate *Office Systems Support AAS Degree* (see pages 406-407) and *Master of Business Administration (MBA)* (see pages 194-195) sections.

**Major in Business** (bachelor's degree)  
**Dual Major and Second Bachelor's in Business**  
**Minor in Business**  
**Master of Business Administration (MBA)**  
**Office Systems Support** (Associate of Applied Science Degree)

## Nondegree and Other Programs

A wide variety of seminars and development programs are sponsored by units and academic departments within the Huntsman School of Business. For example, Business Relations operates the Partners in Business program and the Shingo Prize for Operational Excellence. *Partners in Business* provides a forum for the exchange of ideas, strategies, and innovative business practices through low-cost, high-quality management education seminars for working professionals. The program is managed by a staff of dedicated business students under the supervision of the program director. Annual seminars include: Financial Services and Banking, Operational Excellence, Accounting, Customer Service and Marketing, Women in Business, Information Technology, and Human Resources. The *Shingo Prize for Operational*

*Excellence* is an award given to organizations in recognition of world-class business performance achieved through focused improvements in lean business processes. The Shingo Prize is also awarded for research and writing that expands the knowledge and understanding of lean business processes. The Huntsman School sponsors the *Management Institute* as a link between the talents of the faculty and the training needs of leaders in business, industry, and government. The Management Institute focuses on delivering high-quality, custom-designed training and development programs in outdoor experiential learning, indoor experiential learning, and data-based consulting. The *Center for E-Commerce* is a part of the Management Information Systems Department in the Huntsman School of Business. The purpose of the center is to provide educational services within the University and community. The center includes e-commerce education, certification training, project coordination, and interdepartmental research.

## Accreditation

Huntsman School of Business programs in business and accounting are accredited by AACSB International—The Association to Advance Collegiate Schools of Business. AACSB is the premier accrediting association for business and accounting programs.

## Mission

The mission of the Jon M. Huntsman School of Business is to receive top-tier recognition within a global market.

## Vision

As strategic decisions are made within the Jon M. Huntsman School of Business, the faculty and staff aspire to see their investments pay off in the lives of students. Upon graduation, students should be prepared to add immediate value to the organizations where they will work, as well as to assume increasing leadership roles in the organizations and communities where they choose to serve. Graduates of the Huntsman School of Business should have a strong commitment to ethical leadership, a sense of purpose and place engendered by their global vision, an ability to create and leverage value through their understanding of entrepreneurial processes, and a mastery of applied and conceptual analytical frameworks.

## Learning Goals

Regardless of their major, undergraduate Huntsman School of Business students are required to take a common coursework core that includes learning experiences in both general knowledge and skills, as well as management-specific knowledge and skills. Nine specific learning goals drive the curriculum. These goals are:

### Goal 1

Each student can effectively communicate coherent and persuasive written reports and oral presentations.

### Goal 2

Each student can recognize and analyze legal and ethical issues and choose appropriate actions for practical business situations.

### Goal 3

Each student can correctly apply mathematical and statistical techniques appropriate for business analysis.

### Goal 4

Each student can use contemporary information systems and technology in business decision-making.

# Jon M. Huntsman School of Business

## Goal 5

Each student understands the domestic and international economic environment in which business organizations operate.

## Goal 6

Each student can evaluate the financial position of an organization and make appropriate financial decisions from an analysis of the organization's financial information.

## Goal 7

Each student can make appropriate decisions in the creation of value through the production and marketing of goods and services.

## Goal 8

Each student can demonstrate an understanding of individual and group dynamics in organizations, including the use of team building and collaborative behaviors in accomplishment of tasks.

## Goal 9

Each student can conceptualize complex business issues, apply analysis to identify plausible solutions, and communicate findings.

## Assessment

Each of the nine learning goals is monitored and assessed for achievement. Information obtained through the assessment process is used to adjust and modify instructional methods and curriculum design as part of the Huntsman School's continuous improvement effort. Achievement of goals is assessed using both direct and indirect measures. Direct measures include selection of students, course-embedded measurements, and a national achievement test. Indirect measures include student, alumni, and employer surveys, as well as employment and career success of graduates. Specific assessments for the Huntsman School of Business can be found at:

<http://www.huntsman.usu.edu/assessment/index.cfm>

## Honors in Business

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Qualified students in all majors within the Huntsman School of Business may pursue an Honors degree. Upon graduation, the student's transcript will read: *Graduated with Honors in [name of the major]*. Honors students have the privilege of priority registration (registering a week before other students), as well as the privilege of enrolling in special course sections for honors students only. As part of a senior project, they have the opportunity to conduct business research of interest to them. Participating in the business honors program enriches the student's educational experience, gains membership in the USU Honors Program, and enhances opportunities for admission to graduate and professional schools.

## Eligibility for Acceptance

New freshmen with an Admission Index score of 126 or higher will be invited to participate in USU's Honors Program and will be permitted to pursue Honors in Business. Admitted students must maintain a 3.50 minimum GPA in order to remain in the Honors Program. Sophomore, junior, and transfer students may apply or receive more information at the Honors Program Office, Main 15. Additional information can also be found online at: <http://www.usu.edu/honors/>

## Program of Study

Honors in Business requires 15 credits, which may be completed in the following way. If specific honors courses are not taken, then other courses may be substituted upon approval of the Huntsman School of Business honors advisor.

**ECN 1500 (BAI)** Introduction to Economic Institutions, History, and Principles ..... 3  
(taken during the first fall semester)

**ACCT 2010** Survey of Accounting I ..... 3  
(taken during the fall of the second year)

**MGT 3110 (DSS)** Managing People and Organizations ..... 3  
(taken during the spring of the second year)

At least one upper-division course in the major ..... 3 minimum  
(taken under contract)

Supervised Senior Thesis/Project taken under one of the following (depending on major): ACCT 4950, ECN 4950, FIN 4950, MGT 4950, or MIS 4950, (3 credits).

A student may elect to complete an Honors Advanced Internship (BUS 4250) by contract, in lieu of the Senior Honors Thesis/Project. For information about this option, contact Paige F. Geslin, Huntsman School of Business Internship Director, Business 309, (435) 797-2272, [paige.geslin@usu.edu](mailto:paige.geslin@usu.edu).

## Huntsman School of Business Honors Advisor

Christopher Fawson, Senior Associate Dean, Huntsman School of Business, Business 309, (435) 797-2320, [chris.fawson@usu.edu](mailto:chris.fawson@usu.edu).

## Undergraduate Programs

### Admission and Graduation Requirements

#### Freshman Admission

Students may be admitted directly into the Huntsman School of Business as incoming freshmen if they have less than 24 earned post-high school college credits and if all of the following conditions are met: (1) admitted to Utah State University; (2) designated a Huntsman School of Business major on USU application; (3) ACT Composite of 24 or higher; and (4) high school GPA of 3.5 or higher.

#### Non-Freshman and Transfer Admission

USU students and transfer students from other accredited colleges and universities may be admitted directly to any Huntsman School of Business major if they have met the following conditions: (1) admitted to Utah State University; (2) earned 24 or more post-high school college credits with 3.5 GPA or higher; and (3) designated a Huntsman School of Business major on USU application (transfer students) or submitted a Huntsman School of Business application to the Huntsman School of Business Programs and Advising Center (PAC) (USU continuing students).

Students not meeting the above conditions are encouraged to apply. Admission is competitive based on available space in the Huntsman School of Business. Application forms and information are available at the Huntsman School of Business PAC and at: <http://www.huntsman.usu.edu/advising/htm/admission/>

Applications are accepted after (1) passing the University's Computer Information Literacy (CIL) Exam or equivalent; (2) passing the Huntsman School of Business English Usage Exam, or receiving a satisfactory AP, ACT, or SAT score, or receiving a C or better in MIS 2200 or equivalent (information and sample test at: <http://huntsman.usu.edu/htm/students/mis-2200-prerequisite/>); and (3) completion of at least 24 post-high school college credits of coursework, including the pre-business course requirements or equivalent with a grade of C or better. An essay will also be required.

## Pre-Business Course Requirements (13 credits)

Applicants will be ranked according to an Application GPA that is calculated as follows: one-third weight on 13 credits earned in four required courses (ECN 1500, MATH 1100, STAT 2300, and PSY or SOC 1010); one-third weight on last 24 credits earned; and one-third weight on overall GPA. Essays will be evaluated by the admissions screening committee.

Students may not repeat a course *more than twice*, and *may have no more than 10 repeats in total* to earn a degree. (Huntsman School of Business courses are limited to one repeat.)

## Matriculation Requirement and Transfer Limitation

No more than 15 USU Huntsman School of Business credits (ACCT, BUS, FIN, MGT, MIS), numbered 2000 and above, earned as a nonbusiness major (before acceptance into the Huntsman School of Business) can be applied to a Huntsman School of Business degree. More than 15 business credits can be transferred from other accredited institutions. However, additional USU Huntsman School of Business credits added to previously earned transfer business credits may not exceed a combined total of 15. Furthermore, to earn a bachelor's degree in a Huntsman School of Business major, at least 50 percent of the required Huntsman School of Business credits must be earned from coursework taken from the Utah State University Huntsman School of Business.

## Enrollment Restrictions

Admission to the Huntsman School of Business does not ensure access to the courses required for graduation. The following course admission requirements must be met by all USU students:

1. There are no restrictions on 1000-level courses.
2. ACCT 2010, 2020, MGT 2050, and MIS 2200, require as prerequisites at least 15 credits of completed college-level work, an overall GPA (transfer credits included) of at least 2.50, and STAT 1040, or MATH 1030 or 1050. (MATH 1050 or equivalent is required for Huntsman School Majors.) In addition, MIS 2200 requires a passing score on the Huntsman School English Usage Exam or a satisfactory AP, ACT, or SAT score.
3. Most 3000-, 4000-, and 5000-level departmental courses in the Huntsman School are restricted to students admitted to the Huntsman School or another USU major with an overall GPA of at least 2.67.
4. MGT 4880 and 4890 require completion of at least 90 credits for admission, as well as completion of FIN 3400, MGT 3110, 3500, and 3700.
5. Huntsman School courses may be repeated only once.
6. Many Huntsman School courses have prerequisites and other restrictions requiring adherence. Before registering for courses within the Huntsman School, students should refer to course listings in this catalog or consult with their advisor to ensure they have completed the necessary prerequisites.

## University Studies Requirements

All freshmen-level students who enter USU Fall of 1998 and thereafter will be required to meet the University Studies requirements. Students who have received an Associate of Arts/Science degree from a college or university in the Utah System of Higher Education or from a school with which USU or the Huntsman School of Business has an articulation agreement will be considered to have fulfilled the General

Education portion of the University Studies requirements, *but must still complete the Depth Education portion*. It is recommended that all business students visit with an advisor in the Programs and Advising Center, Business 309, to clarify their specific requirements in this area. Additional information about these requirements is available on pages 70-75 of this catalog.

## USU Credits and Business Credits

At least 30 of the last 60 semester credits must be taken from Utah State University, at least 20 of which must be completed in upper-division courses, of which at least 10 credits must be completed in courses required by the student's major. At least 50 percent of the Huntsman School of Business credits required for a Huntsman School of Business degree must be taken from the Utah State University Huntsman School of Business or its departments, which include: School of Accountancy, Economics and Finance, Management, and Management Information Systems.

## Optional P/D+, D, F Grade Restriction

This option (see pages 56-57) is not available for any required courses for majors and minors in the Huntsman School of Business.

## Huntsman School of Business Stop-out Policy

Students having a break in attendance of Huntsman School of Business programs in excess of one year will be subject to the Huntsman School and departmental requirements in effect at the time of their return.

## Graduation

Students must satisfy all University, Huntsman School, and departmental major requirements to be eligible for graduation. Refer to appropriate sections of this catalog for details.

## Major in Business

The Huntsman School of Business administers Bachelor of Science (BS) and Bachelor of Arts (BA) degree programs in business. Because these degree programs require a broad course distribution among the departments of the Huntsman School, they are administered by the Huntsman School, rather than by a specific department. These programs are primarily designed to be offered through the University's Regional Campuses and Distance Education locations. However, students may also satisfy degree requirements by taking equivalent coursework on the Logan campus. Further information is available in the Huntsman School of Business Programs and Advising Center, Business 309, (435) 797-2272.

Students who have been admitted to Utah State University and who have earned *at least* 24 post-high school credits qualify for admission to this major. However, a minimum 2.5 GPA is required for business courses taught at the Regional Campuses and Distance Education locations. An overall 2.50 GPA is required for graduation. On-campus departmental courses at the 3000-, 4000-, and 5000-level are restricted to students who have been admitted to the Huntsman School of Business or another USU major, and who have earned *at least* 40 credits; a minimum 2.67 GPA is typically required for these courses. In order to progress in the program, students must maintain the required GPA level. They must also satisfy all specific prerequisites required for each course.

All students enrolled at USU are required to satisfy the General Education requirements and the University Studies Depth Education requirements of the University, as described on pages 67-75 of this catalog.

# Jon M. Huntsman School of Business

## Business Major Requirements (71 credits)

Coursework in the following three categories must be completed in order to earn a BS or BA degree in Business: **Pre-business, Business Core, and Option Areas.**

### Pre-Business (17 credits)

ECN 1500 (BAI) Introduction to Economic Institutions, History, and Principles .....	3
MATH 1050 (QL) College Algebra .....	4
MATH 1100 (QL) Calculus Techniques .....	3
STAT 2300 (QL) Business Statistics .....	4
PSY 1010 (BSS) General Psychology (3 cr) or	
SOC 1010 (BSS) Introductory Sociology (3 cr) .....	3

### Business Core (36 credits)

ACCT 2010 Survey of Accounting I .....	3
ACCT 2020 Survey of Accounting II .....	3
BUS 3110 (DSS) Management Fundamentals .....	3
BUS 3400 (QI) Finance Fundamentals .....	3
BUS 3500 Marketing Principles .....	3
BUS 3700 Operations Management Fundamentals .....	3
BUS 4880 (CI) Business Strategy .....	3
ECN 2010 (BSS) Introduction to Microeconomics .....	3
ECN 3400 (DSS) International Economics for Business .....	3
MGT 2050 Legal and Ethical Environment of Business .....	3
MIS 2100 Principles of Management Information Systems .....	3
MIS 2200 (CI) Business Communication .....	3

### Option Areas (18 credits)

One of the following three option areas must be selected.

#### Accounting Option

BUS 3010 Intermediate Accounting I .....	3
BUS 3020 Intermediate Accounting II .....	3
BUS 3310 Managerial Cost Accounting .....	3
BUS 3410 Federal Income Tax I .....	3
BUS 4250 Advanced Internship (6 cr) or	
Approved upper-division coursework (6 cr) .....	6

#### Business Information Systems Option

BUS 3330 Essentials of Database Systems .....	3
BUS 3510 Business Programming .....	3
BUS 4050 Selected Topics in Information Systems .....	3
BUS 5100 Systems Analysis and Design and Project Management .....	3
BUS 4250 Advanced Internship (6 cr) or	
Approved upper-division coursework (6 cr) .....	6

#### Management Option

The management option can be satisfied in one of three ways:

1. **18 credits**—12 credits of approved business-subject coursework, plus 6 credits of BUS 4250 (Advanced Internship) or other approved upper-division coursework.
2. **Dual Major**—Must complete *all* requirements for another major outside of the Huntsman School of Business.
3. **Second Bachelor's Degree**—Must have a previously earned bachelor's degree in a nonbusiness subject.

## Dual Major and Second Bachelor's Degree

The Huntsman School offers both a dual major and a second bachelor's degree in business. The course requirements consist of the Pre-Business and Business Core courses listed above in the *Major in Business* section. The first major for a dual major or previous

bachelor's degree for a second bachelor's must be in a subject outside the Huntsman School. For information concerning other dual majors or second bachelor's degrees in specializations (other majors) in the Huntsman School, see departmental sections of this catalog.

## Minor in Business

The Huntsman School offers a minor for non-Huntsman School majors requiring six of the courses listed below. This minor is designed to develop a general background and perspective in business. Completion of this minor will acquaint students with each business discipline. Advisement for the minor in business is through the Huntsman School Programs and Advising Center in Business 309. An overall minimum GPA of 2.50 is required for the six courses. Students are responsible to complete prerequisite courses where applicable. Required courses for the minor in business include ACCT 2010; BUS 3400 or FIN 3400 or PFP 3460; BUS 3500 or MGT 3500; BUS 3110 or MGT 3110; and two of the following courses: ACCT 2020, BUS 3700 or MGT 3700, BUS 3100 or MIS 2100, ECN 3400, and MGT 2050.

## Minors in Other Business Subjects

Minors are available in other business subjects, as indicated in departmental sections of this catalog.

## Huntsman School of Business Sponsored Student Organizations

### Business Ambassadors

Student representatives of the Huntsman School. Each year, 12 to 13 ambassadors are selected. These ambassadors assist the dean of the Huntsman School with hosting convocations, breakfasts, tailgate parties, and other events attended by alumni and other prominent business people.

The ambassadors also assist with Huntsman School transfer student recruitment, by traveling with the USU Ambassadors to community colleges and other two-year institutions. In addition, they work with campus advisors to recruit undeclared students.

The main duty of the ambassadors is to ensure that all people who visit the Huntsman School feel welcome. Ambassadors give campus tours and engage visitors in fun and interesting conversation. For additional information, contact Mary Price at [mary.price@usu.edu](mailto:mary.price@usu.edu) or at (435) 797-8328.

### Business Council

Consists of 12 Huntsman School students from various business majors. The main objectives of the council are to listen to students and to take action to implement their ideas within the Huntsman School.

During weekly meetings, the council discusses feedback received from students via the student idea box in the George S. Eccles Business Building. In addition, a representative from the council meets with Huntsman School administrators once per month to ensure faculty members are aware of student opinions and concerns. For more information, contact Jan Lyons at [jan.lyons@business.usu.edu](mailto:jan.lyons@business.usu.edu) or at (435) 797-3722.

### Phi Beta Lambda (PBL)

A national student organization, specifically designed for students seeking a competitive edge in the business world. Benefits of membership in PBL include leadership development, networking contacts, social activities, travel opportunities, and professional conferences. For more information, visit <http://www.usu.edu/pbl/> or contact Paige F. Geslin at [paige.geslin@usu.edu](mailto:paige.geslin@usu.edu) or at (435) 797-2272.

## Other Professional Student Organizations

The following student organizations are sponsored by Huntsman School of Business departments and are available for membership, depending upon student objectives and qualifications.

### American Marketing Association (AMA)

The USU Chapter of the American Marketing Association (AMA) provides interested students with exposure to marketing issues, speakers, networking opportunities, and career advice. The club meets every other week and welcomes all who are excited about the field of marketing. For more information, contact Jan Lyons at [jan.lyons@usu.edu](mailto:jan.lyons@usu.edu) or at (435) 797-3722. An additional contact is Stacey Hills at [stacey.hills@business.usu.edu](mailto:stacey.hills@business.usu.edu) or at (435) 797-8201.

### Association for Computing Machinery and Special Interest Group on E-commerce, Student Chapter (BIS ACM and SIGE-com)

The USU Huntsman School of Business student chapter of the Association for Computing Machinery has joined forces with the Special Interest Group in E-commerce. This alliance enables Management Information Systems majors to begin professional networking and career-enhancing activities. SIGE-com encourages research and acquiring of first-hand experience with advanced applications relating to electronic commerce and the sharing of new ideas and experiences. The group is also dedicated to the advancement of electronic commerce principles and practice. As the leading computing-centric professional organization in the field, SIGE-com seeks to promote the informed development of commerce automation technology, employing the best available engineering methods and economic understanding. For more information, visit <http://www.ususigecom.com/> or contact Jeffrey Johnson at [jeffrey.johnson@usu.edu](mailto:jeffrey.johnson@usu.edu) or at (435) 797-2350. An additional contact is Bernie Lantz at [bernie.lantz@usu.edu](mailto:bernie.lantz@usu.edu) or at (435) 797-2899.

### Beta Alpha Psi

The objective of Beta Alpha Psi is to encourage and recognize scholastic and professional excellence in the accounting profession. Membership includes opportunities for self-development, service, and association among members, faculty, and practicing professionals. Beta Alpha Psi recognizes academic excellence, complements members' formal education, and encourages lifelong growth, service, and ethical conduct. The organization has strict entry requirements, but its members are the most eagerly sought-out by recruiters for the best jobs in accounting. It is appropriate to include the Beta Alpha Psi honor as a resume item for the entire span of one's professional career. For further information, see: <http://www.usu.edu/bap/>

### Beta Gamma Sigma

Founded in 1913 to recognize superior scholarship in business. Provides the highest international recognition a business student anywhere in the world can receive. The USU chapter was established in 1975. Membership is by invitation only and is limited to the top 20 percent of business graduate students, the top 10 percent of seniors with business majors, and the top 7 percent of juniors with business majors. Candidate must have completed one year of study at USU. For more information, contact the Huntsman School of Business Programs and Advising Center (Business 309) at (435) 797-2274.

### CEO Club

The student chapter of the CEO organization develops interaction and networking opportunities for students. The chapter sponsors the campus-wide Entrepreneurship Day, with the renowned Elevator Speech competition each spring. For more information, contact David Herrmann at [david.herrmann@usu.edu](mailto:david.herrmann@usu.edu) or at (435) 797-2287.

### Economics Club

Provides a forum whereby meaningful interaction between professionals, faculty, and students can be fostered. The meetings

provide social contact as well. For more information, contact Tyler Bowles at [tbowles@econ.usu.edu](mailto:tbowles@econ.usu.edu) or at (435) 797-2378.

### Finance Club

Provides opportunities for USU students to learn how to apply their skills and knowledge, while enhancing their resume through participation and leadership activities. Members network with successful business professionals who speak at club meetings. Finance Club members find this knowledge is a necessary and valuable part of their education at Utah State University. For more information, visit <http://www.usu.edu/finance> or contact Jan Lyons at [jan.lyons@usu.edu](mailto:jan.lyons@usu.edu) or at (435) 797-3722.

### Financial Planning Association (FPA)

The Financial Planning Association (FPA) is a national association of financial planning professionals. The FPA student chapter allows students to enjoy all of the benefits of FPA membership at a significantly reduced cost. In addition, student members have opportunities to develop leadership skills, attend informative educational sessions, network with professionals, participate in service activities, and serve as volunteer staff members at state and national meetings of financial planning professionals. For further information, see: <http://www.usu.edu/fpsa/>

### Institute of Management Accountants (IMA)

The Institute of Management Accountants (IMA) is a worldwide organization comprised of management accounting and finance professionals. USU's student chapter of the IMA provides networking and leadership opportunities for students pursuing accounting careers in business entrepreneurship and industry. The local chapter organizes professional meetings, social events, and service events to assist students in developing and advancing their careers through certification, education, networking, and the advocacy of the highest ethical and professional practices. For further information see: <http://www.usu.edu/ima/>

### MBA Association (MBAA)

The MBA Association (MBAA) provides USU students with an opportunity to enhance their professional and academic skills while building their resumes. Club members focus on career attainment and benefit from a forum for networking with faculty, alumni, and employers. The MBAA also works to increase awareness of the USU MBA program and assists the USU Huntsman School of Business in developing an effective curriculum for the MBA program.

### Society for Human Resource Management (SHRM)

Worldwide association of human resource professionals having more than 42,000 members nationally. SHRM covers a wide variety of topics, including compensation, interviews and candidate selection, and occupational safety and training. For more information, visit <http://www.usu.edu/shrm> or contact Al Warnick at [alan.warnick@usu.edu](mailto:alan.warnick@usu.edu) or at (435) 797-2301.

## Scholarships, Fellowships, and Assistantships

A number of scholarships and assistantships are available to Huntsman School of Business students at both the undergraduate and graduate levels. There are also opportunities for employment in research projects and other activities. Assistantships for graduate students are available for both teaching and research. Applications for undergraduate scholarships may be made directly to the Programs and Advising Center, Business 309.

## Academic Departments and Degrees

The Emma Eccles Jones College of Education and Human Services has the following departments, which offer the degrees shown:

**Communicative Disorders and Deaf Education**—BS, BA, MS, MA, MEd, EdS, AuD

**Family, Consumer, and Human Development**—BS, BA, MS, MFHD, PhD

**Health, Physical Education and Recreation**—BS, MS, MEd

**Instructional Technology and Learning Sciences**—MS, MEd, EdS, PhD

**Psychology**—BS, BA, MS, PhD

**Special Education and Rehabilitation**—BS, BA, MEd, MS, MRC, EdS, PhD

**Teacher Education and Leadership, School of**—BS, BA, MS, MA, MEd, EdS

In addition, the college offers the following degrees:

**Interdisciplinary Studies Major**—BS, BA

**Doctoral Degree (administered by the School of Teacher Education and Leadership)**—EdD, PhD

The Emma Eccles Jones College of Education and Human Services provides preparation programs for prospective teachers, for counselors and other professional personnel in education, and for professionals in the human services area and in corporate settings. Students are urged to refer to the more detailed descriptions of programs, majors, and areas of specialization contained in this catalog.

The Emma Eccles Jones College of Education and Human Services participates in the Interdisciplinary Studies Major (see pages 314-315), which offers flexibility for qualifying students who cannot find an existing degree that meets their needs.

## Accreditation

Utah State University is a member of the American Association of Colleges of Teacher Education and is a candidate member in good standing with the Teacher Education Accreditation Council and accredited by the Utah State Board of Education. Students who are licensed to teach in the State of Utah may qualify for licensure in other states and the District of Columbia. Additional program accreditations include: American Association of Family and Consumer Science,

American Psychological Association, American Speech-Language-Hearing Association, Commission on Accreditation for Marriage and Family Therapy Education, Council on the Education of the Deaf, National Association of School Psychologists, and Council on Accreditation of the National Recreation Park Association.

## University Studies Requirements

All students graduating from the Emma Eccles Jones College of Education and Human Services must complete the USU University Studies requirements (see pages 67-75).

## Admission Requirements to Teacher Education

Students wishing to enter the Teacher Education Program at Utah State University must formally apply for admission and be approved by the Office of the Associate Dean for Graduation, Educator Licensing, and Accreditation as well as by the department where the teaching major is being offered. All applicants are required to submit a record of their ACT scores, pass the Teacher Education Writing Exam, take a speech and hearing test, and have and maintain a 2.75 cumulative GPA. Individual departments may also have additional admission requirements. Students are not permitted to enroll in the teacher education professional core classes prior to being admitted to the Teacher Education Program.

Detailed information about admission to the Teacher Education Program should be obtained from a departmental advisor or from the Office of the Associate Dean for Graduation, Educator Licensing, and Accreditation.

## Teacher Licensing

The Dean of the Emma Eccles Jones College of Education and Human Services is assigned responsibility for the development, approval, and administration of Teacher Licensing requirements for students.

The Emma Eccles Jones College of Education and Human Services currently offers preservice teacher preparation leading to licensure in 34 different areas. In addition, advanced programs leading to professional licensure are available for administrators, supervisors, school counselors, school psychologists, school library media specialists, speech-language pathologists, audiologists, educators of the deaf, and specialists in special education. Training is also available in English as a Second Language (ESL), reading, distance education, gifted and talented education, and middle-level education.

Specific requirements for each license may be obtained from the Office of the Associate Dean for Graduation, Educator Licensing, and Accreditation or from the department in which the major work is offered. All students who desire licensure must complete a criminal background check and must take the Utah State Office of Education approved content test (Praxis II) in their content area.

For the early childhood, elementary, secondary, or special education license, a closely supervised program of student teaching is conducted in selected schools throughout the state. Student teachers are required to pass the Utah State Office of Education approved content test (Praxis II) in their major content area prior to student teaching. Students should be financially prepared to live off campus during the semester selected as their professional semester of student teaching.

# Emma Eccles Jones College of Education and Human Services

---

## Dual Licensing

Dual licensing programs are offered in the following areas: early childhood education and deaf education; early childhood education and special education; elementary education and deaf education; elementary education and secondary education; elementary education and special education; and secondary education and special education. A student desiring dual licensure should consult with an advisor in one of the departments within the Emma Eccles Jones College of Education and Human Services early in his or her program. Ordinarily dual licensure will require at least one additional semester of work.

## Facilities

The Emma Eccles Jones College of Education and Human Services Edith Bowen Laboratory School is a functioning elementary school on the University campus, serving as a research, demonstration, and teacher preparation site.

The Center for Early Childhood Education provides educational experiences and resources for teachers and parents that reflect the most current understanding of the social, emotional, physical, and cognitive needs of children in pre-kindergarten, kindergarten, and the primary grades.

The Center for the School of the Future is dedicated to improving the quality and effectiveness of education through identifying, researching, and developing proven educational practices, as well as supporting their dissemination and adoption in local circumstances.

The Center for Persons with Disabilities is Utah's university center for excellence in developmental disabilities. Its programs offer students opportunities to participate in multidisciplinary education, research, and service. Students complete clinical and field experiences, and may receive financial support through assistantships, internships, stipends, or employment.

The College of Engineering includes the following academic departments:

**Biological and Irrigation Engineering**  
**Civil and Environmental Engineering**  
**Electrical and Computer Engineering**  
**Engineering and Technology Education**  
**Mechanical and Aerospace Engineering**

The College of Engineering includes the following research centers, institutes, and laboratories:

## Research Centers, Institutes, and Laboratories

**Anderson Center for Wireless Teaching and Research:**

Jacob H. Gunther, Director

**Buried Structures Laboratory:** Alma P. Moser, Director

**Center for Profitable Uses of Agricultural Byproducts (CPUAB):**

Conly L. Hansen, Director

**Center for Self-Organizing and Intelligent Systems (CSOIS):**

Yangquan Chen, Director

**Center for Space Engineering:** Charles M. Swenson, Director

**Huntsman Environmental Research Center (HERC):**

Ronald C. Sims, Director

**Inland Northwest Research Alliance at USU:**

Ronald C. Sims, Coordinator

**Institute for Natural Systems Engineering:**

Thomas B. Hardy, Director

**International Irrigation Center (IIC):**

L. Humberto Yap-Salinas, Director

**Manufacturing Extension Partnership:** Stephen S. Reed, Director  
**Rocky Mountain NASA Space Grant Consortium:**

Doran J. Baker, Director

**Utah Local Technical Assistance Program (LTAP):**

Doyt T. Bolling, Director

**Utah On-Site Wastewater Training Center:** Judith L. Sims, Director

## State Centers of Excellence

**Center for Advanced Imagery LADAR:** Robert T. Pack, Director

**Center for Control of Flows in Manufacturing:**

Barton L. Smith, Director

**Center for Solar Biofuels Technology:** Byard D. Wood, Director

## National and State Centers

**National Center for Engineering and Technology Education**

(NCETE): Christine E. Hailey, Director

**Utah Transportation Center:** Kevin C. Womack, Director

**Utah Water Research Laboratory (UWRL):** Mac McKee, Director

## Utah State University Research Foundation

**Space Dynamics Laboratory (SDL):** Michael D. Pavich, Director

## Mission

The primary objective of the College of Engineering is to foster a creative learning environment that will:

1. prepare engineering students to support the needs of industry and
2. develop new technologies and services that will improve tomorrow's economy and environment.

## Goal

The goal of the academic programs of the College of Engineering is to provide engineering and technical education enabling engineering students to:

1. develop as ethical professionals who understand engineering and technology in its societal context;
2. learn modern engineering/science and technology principles and their application in conducting experiments and analyzing data;
3. gain experience in working on engineering problems and designing solutions to meet desired needs;
4. acquire skills in communicating effectively and working on teams; and
5. understand the importance of life-long professional development and learning.

The college strives to create a brighter future by working with students, employers, industry, and government research partners to achieve this objective.

## Programs

The undergraduate engineering BS degree programs offered by USU, which are accredited by the Engineering Accreditation Commission of ABET (EAC/ABET), include: Biological Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Environmental Engineering, and Mechanical Engineering.

At the graduate level, Master of Engineering (ME), Master of Science (MS), and Doctor of Philosophy (PhD) degrees are offered in these specific majors, along with the Civil Engineer (CE) degree.

The Engineering and Technology Education Department offers BS degrees in Engineering and Technology Education, Aviation Technology—Maintenance Management, and Aviation Technology—Professional Pilot, as well as an MS degree in Engineering and Technology Education. Admission and academic requirements for the ETE Department are considerably different than those for the other engineering departments. For details, see the Engineering and Technology Education section of this catalog (pages 253-258).

For details about the various majors and specialties offered by departments and programs within the College of Engineering, see the respective departmental sections in this catalog.

## Assessment

The College of Engineering is committed to assessing the quality of its academic departments and programs, in order to assure that the desired educational outcomes will be achieved. Faculty members within the college strive to assure that their students obtain the knowledge and skills needed for success in their chosen fields.

The college uses a variety of tools and methods to gather information and data to evaluate progress in meeting the college's program goals and objectives, and to take actions to continually improve the quality of students' educational experience.

## Undergraduate Programs

### Objectives

The objectives of the engineering curriculum are: (1) to provide students with professional competence enabling them to enter and progress rapidly in their professional careers, (2) to provide an understanding of the physical and social world in which they live and work, and (3) to provide a basis for continued intellectual growth, professionally and socially.

In the engineering programs, the curricula begin with studies in mathematics, basic science, introductory engineering, and introductory engineering design. These basic science and engineering skills are coupled with communication skills, as well as courses in humanities and social sciences. The professional engineering programs continue with engineering science, engineering design, and modern engineering tools. Engineering design activities start during the freshman and sophomore years, progressing in-depth during the junior and senior years as the student's proficiency increases. The design experience culminates with a capstone design sequence, which builds upon the fundamentals of engineering, communication skills, science, mathematics, humanities and social sciences, economics, ethics, safety, reliability, aesthetics, and social impact.

The expected outcomes of the professional engineering programs are: (1) to unite engineering sciences and modern engineering tools with engineering design to enhance the practical problem-solving abilities, decision-making proficiency, and creativity of the engineering student; (2) to provide for an understanding and appreciation of professional responsibility and ethics; (3) to expand a sensitivity to the economic, legal, and social dimensions of engineering decisions; and (4) to provide the foundation and help instill a desire for life-long learning.

Studies in the humanities and social sciences serve not only to meet the objectives of a broad education, but also to meet the objectives of the engineering profession. In the interest of making engineers aware of the impact of engineering solutions in a global, economic, environmental, and societal context, the College of Engineering requires coursework in the humanities and social sciences as an integral part of the engineering program. To satisfy this requirement, courses selected must provide both breadth and depth and be planned to fulfill an objective appropriate to the engineering profession.

## Admission Requirements

### Engineering Requirements

In addition to the policies of the University concerning admission of students, the following regulations apply to the engineering programs:

1. In order to complete an engineering curriculum in four years, high school students must complete at least two years of algebra, one year of geometry, one-half year of trigonometry, four years of English, and courses in computers, chemistry, and physics. If these courses are not taken in high school, they must be taken in college prior to starting the regular engineering programs. Students with deficiencies in several areas will probably require five years to fulfill graduation requirements.

Students can earn university credits in English, humanities, and social sciences by receiving appropriate scores on the College Level Examination Program (CLEP) tests. Advanced placement (AP) credit may be obtained in calculus, chemistry, English, history, and physics.

2. Transfer students from other colleges or universities will be referred to the Engineering Admission Committee for evaluation. Criteria considered in admission decisions for transfer students include resources available in the requested department and the transfer GPA, along with an evaluation of the program of the former college or university. Decisions concerning academic standing once the student is admitted to USU will be based solely on USU grades.
3. Students registered on campus (including General Studies) must be approved by the Engineering Admission Committee before transferring to the College of Engineering. Students in this category must have demonstrated, by courses taken at USU, a potential to succeed in the major of their choice.

## Professional Engineering Program

### Introduction

The purpose of the Professional Engineering Program (PEP) is to provide a quality education for engineering students by (1) requiring that students be fully prepared for upper-division engineering coursework by having satisfactorily completed all required preprofessional courses and (2) limiting enrollment in upper-division courses consistent with resources available within the departments and the college.

# College of Engineering

---

## Policy

Enrollment in upper-division engineering courses (3000-level and above) is available *only* to students who have been accepted into the PEP or an appropriate graduate program or have a nonengineering major which requires a specific engineering class for which the student has passed the prerequisite courses.

## Application Requirements

Current PEP applications listing the required PEP courses and admission standards are available from the various departments and the office of the Dean of Engineering. The minimum requirements a student must satisfy in order to be eligible to apply for admission to a professional program are:

1. The student must be in good academic standing in the University and the college.
2. The student must achieve a grade of C- or better in every required preprofessional course. Required preprofessional courses are defined by each major. They include math, science, and engineering courses, as well as ENGL 2010. The 2.3 (2.8 for Electrical Engineering and Computer Engineering) minimum GPA requirement (see item 3 below) does not include ENGL 2010. The *P/D+*, *D*, *F* grading option may not be used except in freshman English Composition.
3. The student must achieve an overall grade point average of 2.3 (2.8 for Electrical Engineering and Computer Engineering) or better for all required preprofessional coursework completed at USU.

## Repeated Coursework

A student can repeat no more than three of the required preprofessional courses in order to satisfy the PEP application and eligibility requirements. Multiple repeats of the same course are included in the total of three repeats. Audits count as a time taking a class unless prior written approval is obtained from the college academic advisor.

## Transfer Credit

Transfer credit accepted by the department and the college may be applied toward meeting the requirements for admission into the PEP; however, the grades received will not be used in the USU GPA calculation. For students with transfer credits, a final decision on admission into the PEP will not be made until after the applicant has completed at least 12 semester credits of acceptable engineering, math, and science coursework at USU. Some of this coursework may include upper-division classes taken by permission.

## Applications

Students should apply to the Professional Program midway through the semester in which they will complete all preprofessional courses. Students may request permission to take a limited number (not to exceed 15 credits) of upper-division courses if they are within 10 credit hours of completing the necessary requirements, have submitted a PEP application, and are registered for all remaining preprofessional courses. The final decision on granting permission to take upper-division classes before admission to the PEP rests with the college academic advisor and the Associate Dean of Engineering for Academics.

## Admission Procedures

Satisfying minimum eligibility requirements does not ensure that a student will be admitted to a PEP program in a specific department.

The number of students accepted in the Professional Engineering Program of a department will be based upon the number of students that can be accommodated in upper-division classes. Applicants will be ranked and selected in order of their academic standing in the required preprofessional courses. Admission into a PEP program is for a period of three years. Students unable to complete graduation requirements during this time will be interviewed by the department head to determine whether special circumstances justify their continuance in the program.

## Academic Requirements

The Dean's Office of the College of Engineering maintains a handout sheet giving current details of all academic regulations of the college. **It is the responsibility of the student to know the current regulations and to follow these regulations.**

## Preprofessional Program

Students must maintain a USU GPA of 2.0 to remain in good standing both in the college and the University. Students in a preprofessional program who are not making satisfactory progress toward acceptance into a professional program or who become ineligible to enter a professional program will be suspended from the college. Students in good standing in a preprofessional program must still meet the entrance requirements for admission into a professional program.

## Professional Program

For all engineering majors in the professional program the following academic regulations apply, in addition to University regulations:

1. A GPA of 2.0 or higher must be maintained in all upper-division engineering/math/science courses required for, or used as technical electives in, the chosen major. Courses which were part of the preprofessional program requirements and University Studies courses are not included in this GPA calculation.
2. No more than 10 hours of *D* or *D+* credit may be applied toward meeting graduation requirements in engineering/math/science classes.
3. College of Engineering courses may be repeated only once. Audits count as a time taking a class unless prior written approval is obtained from the department head. A maximum of three required or elective courses completed as part of a professional program can be repeated in order to meet graduation requirements. (Courses completed as part of a preprofessional program are not included in this total of three repeats.)
4. The *P/D+*, *D*, *F* grading option may not be used in required or elective courses completed as part of a professional program. (The *P/D+*, *D*, *F* grading option is approved for University Studies Courses.)
5. The academic regulations listed above (1-4) apply to required coursework and any elective engineering/math/science course which could be used to satisfy graduation requirements for the chosen degree. That is, once a student completes a particular technical elective, it becomes a required course for that student.
6. Students in violation of departmental or college academic regulations, no longer eligible for graduation, or not making satisfactory progress toward a degree, will be placed on probation.

- a. Students will be placed on probation if they (i) earn an *F* in an engineering/math/science course which could be used to satisfy graduation requirements for the chosen degree (see No. 5 above); (ii) have more than 10 hours of *D* credit (see No. 2 above); or (iii) have a GPA of less than 2.0 (see No. 1 above).
- b. Students remain on probation until they improve their standing by repeating and passing all failed classes, repeating classes to reduce the number of *D* credits to 10 or less, and/or by raising their GPA above 2.0.
- c. While on probation, a student must earn a semester GPA of 2.0 or higher in engineering/math/science classes and must not earn any grades of *D* or *F*.

While on probation, a student may not preregister. The student's major code will be changed to a preprofessional code. The student must meet at least once each semester with the college academic advisor to work out a schedule having the primary goal of correcting the existing academic problems.

## General Engineering

Engineering students are encouraged to select a major as soon as possible. Many of the courses taken during the freshman year are common to all engineering majors; however, there are significant differences in the courses taken during the sophomore year. Students who have not selected a specific major should meet with the college academic advisor for assistance in planning a personalized program. Students who choose to remain in general engineering must be prepared to meet the specific requirements of a professional program in the department of their choice.

## Additional Engineering Information

### Professional Societies

Faculty members of the departments hold memberships in various professional societies and organizations.

Student chapters or societies include the American Society of Agricultural and Biological Engineers; the Institute of Biological Engineering; the Biological and Irrigation Engineering Club; American Institute of Aeronautics and Astronautics; American Society of Civil Engineers; Chi Epsilon; Institute of Electrical and Electronic Engineers; American Society of Mechanical Engineers; American Water Resources Association; Tau Beta Pi; International Technology Education Association; National Intercollegiate Flying Association; Professional Flight Society; Society of Environmental Engineering Students; and Society of Women Engineers. Students are encouraged to affiliate with appropriate student societies.

The Engineering Council is comprised of a student from each department, a representative from each student society, and a staff member from the Dean's Office. The college senator is chairperson, or a chairperson is appointed by the Dean's Office. The council meets regularly to provide effective student-staff-administration liaison.

### ROTC

Many engineering students find satisfaction in serving their country in the Reserve Officer Training Program (ROTC) and as reserve officers after graduation. Junior and senior ROTC students receive compensation equivalent to a substantial scholarship. See the Department of Aerospace Studies section (pages 147-148) or the Department of Military Science section (pages 376-377) of this catalog.

## Scholarships, Fellowships, and Assistantships

A number of scholarships and assistantships are available to College of Engineering students. Interested high school seniors are encouraged to submit the *Application for Undergraduate Admission and Scholarships* to the Admissions Office before February 1 of the year they wish to receive assistance. Continuing students, transfer students, and returning students should contact the Dean's Office, College of Engineering for a scholarship application. Completed applications are always due February 1. There are also opportunities for employment on research projects and other activities.

## Concurrent BS/Master's Program

### Qualifications

The concurrent BS/Master's program allows engineering students to begin taking graduate-level classes during their senior year. This permits them to complete requirements for *both* the BS degree *and* the master's degree concurrently during two years. Students in this program have a greater selection of graduate courses, since many graduate courses are taught during alternate years. In addition, the student's senior design project could be a start for a graduate design project or thesis. After completing their BS degree, students in the program can earn a master's degree in only one additional year. Both the BS and the master's degree can generally be earned with 150 total credits, although students should note that a Plan C MS requires 3 extra credits.

### Procedures

Students in Biological Engineering must complete their junior year in engineering with a 3.0 GPA, both overall and during the last 60 semester credits. Students in Civil Engineering and Environmental Engineering must have a 3.2 GPA, both overall and during the last 60 semester credits. Students in Electrical Engineering and Computer Engineering must have a 3.3 GPA, both overall and during the last 60 semester credits. Students in Mechanical Engineering must earn a 3.4 GPA for the 60 semester credits completed at the end of their junior year. No later than the beginning of the first semester of the senior year, they must apply to the department offering their major and be accepted into the concurrent program. For application forms, students should contact their department office or the College of Engineering Advising Center (Engineering 314A).

To prepare a two-year completion plan of study, students must meet with their approved faculty advisor. (Department head gives approval for advisor.) Students must take the GRE exam and submit scores to the School of Graduate Studies. (See major department for minimum GRE qualifying scores.)

Students must first contact the department to determine eligibility for the concurrent program. If eligible, they should apply to the School of Graduate Studies. A Split Registration Form must be filled out and submitted for each semester the student is enrolled in the concurrent program. All paperwork involved should have a notation of "Concurrent Enrollment" at the top of each page (e.g., undergraduate application for graduation, Program of Study, split forms, etc.).

Formal acceptance into the School of Graduate Studies is required. The student must select a graduate committee, which must be approved by the School of Graduate Studies. The proposed master's program must be approved by the committee, as well as by the School of Graduate Studies.

# College of Engineering

---

During the second year of the concurrent program, the student must pay graduate tuition. When the student is within 21 credits of completing both degrees, he or she will be coded as a graduate student. Thereafter, the student will pay graduate fees and will be eligible for loans, but *not* grants.

An application for graduation with a BS degree must be completed. The student must maintain a 3.0 or higher GPA in courses approved for his or her concurrent program.

## Graduate Programs

For information about graduate programs, admissions, assistantships, and fellowships, see departmental sections of this catalog.

## Research

The College of Engineering pursues an extensive program of research through the various research centers, institutes, laboratories, and departments. There are opportunities for graduate students to participate, and many undergraduates can find employment in research programs. An extensive list of research centers and points of contact can be found on page 130.

## Graduate Study

The college offers graduate study programs leading to the ME, MS, CE, and PhD degrees. For further information and details, see individual departmental sections of this catalog.

[mary.leavitt@usu.edu](mailto:mary.leavitt@usu.edu)

**Liberal Arts Program:**  
Contact College of HASS Advising Center,  
Taggart Student Center 302, (435) 797-3883

The College of Humanities, Arts, and Social Sciences has the following departments and programs:

**Aerospace Studies**  
**American Studies**  
**Art**  
**Asian Studies**  
**British and Commonwealth Studies**  
**Classics Minor**  
**English**  
**History**  
**Intensive English Language Institute**  
**Interdisciplinary Studies** (participates in, along with colleges of  
Agriculture, Emma Eccles Jones Education and Human Services,  
Natural Resources, and Science)  
**Interior Design**  
**International Studies**  
**Journalism and Communication**  
**Landscape Architecture and Environmental Planning**  
**Languages, Philosophy, and Speech Communication**  
**Liberal Arts**  
**Military Science**  
**Music**  
**Political Science**  
**Religious Studies**  
**Sociology, Social Work and Anthropology**  
**Theatre Arts**  
**Women and Gender Studies**

**Other HASS Units:**

**Center for International Studies**  
**College of HASS Advising Center**  
**Mountain West Center for Regional Studies**  
**Nora Eccles Harrison Museum of Art**

A listing of majors and degrees can be found under each department or program.

Within the College of Humanities, Arts, and Social Sciences are found those departments that provide career preparation in some of the most interesting and vital academic fields. The study of society, the governing of society and its history, communication in a number of languages, the various aspects of culture—all these appeal to an increasing number of undergraduate and graduate students. Many train for careers in these fields; more—scientists, engineers, etc.—take courses to broaden their horizons and add interest to their lives.

Today's social trend is toward an awareness that while material things are important they are not enough for a full life. For this, the individual may turn to literature, art, music, and theatre. Concern with environmental problems may lead the student to an investigation of landscape architecture. The complexities of modern life necessitate an understanding of the social sciences and history. It is within the College of Humanities, Arts, and Social Sciences that these needs may be met.

## Admission and Graduation Requirements

Students accepted in good standing by the University are eligible for admission to the College of Humanities, Arts, and Social Sciences (HASS). Because of limitations of faculty or space, a few departments within the college, such as Art, Journalism and Communication, LAEP, and Sociology, Social Work and Anthropology, limit enrollment in their professional programs. See the departmental sections in this catalog and the department head for information regarding these limitations and/or requirements in addition to the University graduation requirements.

The College of HASS participates in the Interdisciplinary Studies Major (see pages 314-315), which offers flexibility for qualifying students who cannot find an existing degree that meets their needs.

## Caine School of the Arts

The Caine School of the Arts is a dynamic community of artist-scholars in the College of Humanities, Arts, and Social Sciences at Utah State University. Its mission is to provide scholarly and multidisciplinary arts opportunities to the students and communities of Northern Utah and the Intermountain West.

The Caine School's ten supporting departments and programs include: Art, English, Interior Design, Landscape Architecture and Environmental Planning, Music, Mountain West Center for Regional Studies, Nora Eccles Harrison Museum of Art, Production Services, Theatre Arts, and Utah Public Radio.

The Caine School provides arts education grounded in a strong liberal arts tradition. A studio approach and expert faculty provide a supportive environment for training professional artists in creative writing, interior design, landscape architecture and environmental planning, music, theatre, and the visual arts. These programs are instrumental in preparing teachers, historians, critics, and scholars. The Caine School also serves students throughout the University with breadth and depth courses in the arts.

The Caine School offers a unified public presence for the arts that enhances the reputation of the University: informing the community about events, showcasing excellence in artistic programming and discovery, recruiting students, and promoting the campus as a culture that values the knowledge and enjoyment the arts engender.

# College of Humanities, Arts, and Social Sciences

## Nora Eccles Harrison Museum of Art

**Executive Director and Chief Curator:** Victoria Rowe Berry,  
(435) 797-0163, victoria.berry@usu.edu

**Business Officer:** Rachel Hamm, (435) 797-1414,  
rachel.hamm@usu.edu

**Curator of Programs and Exhibitions:** Deborah Banerjee,  
(435) 797-8207, deborah.banerjee@usu.edu

**Education Curator:** Nadra Haffar, (435) 797-0165,  
nadra.haffar@usu.edu

**Registrar/Education Assistant:** Casey Allen, (435) 797-0166,  
casey.allen@usu.edu

**ArtsBridge Program Director:** Laurie Baefsky, (435) 797-8207 or  
(435) 760-4889, laurie.baefsky@usu.edu

The Nora Eccles Harrison Museum of Art is the major center for the exhibition of the visual arts in northern Utah. Emphasizing the breadth of artistic expression and the history of art in the western United States, the Museum's permanent collections include Twentieth Century American sculpture, ceramics, paintings, graphic arts, photographs, and American Indian arts. Selections from the collection are always on view and are rotated periodically to reflect the continuing growth and refinement of the collection. In addition to installations of its permanent holdings, the Museum organizes temporary and traveling exhibitions and serves as a venue for exhibitions of national and international stature. Artist talks, films, docent tours, and educational activities are additional dimensions of the Museum's programs which are designed to interpret, present, and foster the development of the visual arts.

As a component of Utah State University, the Museum provides educational opportunities for undergraduate and graduate students pursuing professional careers in the museum field. Through on-the-job training, independent study, and internships, students participate in collections care and management, exhibition development, installation design, and educational programming. Research and publication are also integral parts of the Museum's educational offerings, and students, along with faculty and other scholars, pursue projects which are relevant to the permanent collections and exhibitions.

Named for its benefactor, the Nora Eccles Harrison Museum of Art was made possible through an insightful and generous gift from the Nora Eccles Treadwell Foundation. Designed by internationally acclaimed architect, Edward Larabee Barnes, the 20,000-square-foot structure includes offices, a workshop, library, storage facilities, and five exhibition galleries.

For more information, write or call: Nora Eccles Harrison Museum of Art, Utah State University, 4020 Old Main Hill, Logan UT 84322-4020, (435) 797-0163, FAX (435) 797-3423.

## Mountain West Center for Regional Studies

**Program Coordinator:** Elaine Thatcher, Main 303, (435) 797-0299

The Mountain West Center for Regional Studies is a multidisciplinary outreach center in the College of Humanities, Arts, and Social Sciences. Its purpose is to enhance the work of the University through public programs, research and program funding, visiting scholars, student scholarships, and other projects, with a particular emphasis on activities that increase understanding of the Interior West, its land, and cultural groups.

Programs of the center include the David and Beatrice Evans Biography Awards, the Bennion Teachers' Workshop, the L. T. and J. T. Dee Visiting Scholars Program, the Utah History Fair, the Mountain West Center Faculty Fellowship, and several scholarships.

The center also sponsors various special projects relating to arts, humanities, and social sciences issues, and conducts ongoing oral history and folklore field research.

## Center for International Studies

**Director:**  
R. Edward Glatfelter (HASS Dean's Office), Main 333,  
(435) 797-1196, ed.glatfelter@usu.edu

The Center for International Studies promotes and coordinates international academic exchanges between the University and institutions of higher education abroad. Major objectives of the center are: (1) to develop bilateral university linkage programs, (2) to facilitate faculty and student exchange programs, and (3) to promote collaborative research programs, joint seminars, workshops, and conferences.

## Area Studies

**Program Coordination:** College of Humanities, Arts,  
and Social Sciences  
**Contact:** College of HASS Advising Center, Taggart Student  
Center 302, (435) 797-3883

The Area Studies Certificate program is an interdisciplinary approach to the study of a geographical or thematic subject. The program is available to undergraduate and graduate students. It is not a major and does not lead toward a degree. Rather, it is designed to strengthen an academic degree and provides an opportunity for a student to enlarge the scope of the educational experience through an in-depth study of a sector of the world or thematic problem. Where appropriate, courses applying to the major, minor, or other graduation requirements may also apply to the Area Studies Certificate.

Students may earn the following Area Studies Certificates:

**Law and Society**  
**Medieval and Early-Modern Studies**  
**Museum Studies**  
**Women and Gender Studies**

For specific requirements for each of these programs, see program brochures.

# College of Humanities, Arts, and Social Sciences

In addition, a **self-designed Area Studies Certificate**, tailored to the student's individual interests, is available. Examples of these are: **African-American Studies, Natural Ecosystems, and Russian Studies**. A student takes a minimum of 24 credits related to the area of study from at least three disciplines, such as economics, natural resources, political science, sociology, literature, history, geography, and philosophy. No more than 12 of the 24 credits may be taken in any one discipline. A GPA of at least 3.0 must be maintained in courses applied to the certificate.

A student who completes the Area Studies program is awarded a certificate at the time of graduation. The information is also noted on the graduation program and on the student's transcript. Graduate students are awarded the certificate at the end of the semester in which they complete the requirements.

For a more detailed description of requirements for this program, contact the program coordinator in Taggart Student Center 302.

## College of HASS Advising Center

**Director:** Mary E. Leavitt

**Associate Director:** Irene B. McInerney

**Advisor:** Susan B. Parkinson

**Advisor:** Daniel Mathews

**Advisor:** Marcia R. Roberts

**Program Coordinator:** Scott C. Robinette

Office in Taggart Student Center 302, (435) 797-3883  
(Please call ahead for an appointment.)

The College of HASS Advising Center (CHAC) provides academic advising for students in the College of Humanities, Arts, and Social Sciences. Academic advisors counsel these students in the University Studies requirements and in certain HASS majors.

Academic advising is provided through the center to all Liberal Arts majors.

## Advising

College of HASS students receive advising concerning University and College of HASS policies and procedures, as well as in University Studies, the Liberal Arts Program, graduation requirements and processes, the Interdisciplinary Studies Major, and the USU Area Studies Certificate programs. In addition, students are advised concerning academic choices, low grade point averages, and other problems.

## Academic Services

CHAC represents the Dean of HASS in providing academic services to undergraduate students in the College of HASS. This includes requests for academic record changes and other documentation requiring the Dean's signature. Coordination of academic problems, support, or referrals to other University services are also provided. Transcript evaluations, including international and transfer records, are made and approved in CHAC.

## Graduation

All HASS graduation matters are processed through CHAC. Students should begin the graduation process at least one month prior to the graduation application deadline, and the application should be turned into CHAC at least two weeks prior to the deadline in order to avoid a late fee. A final review of University Studies (or other General Education programs) and other University graduation requirements will be made and the final approval signature added before the application is returned to the student for payment of the graduation fee. If the student wishes to amend the application to substitute or drop courses that are listed on it, a Supplement Form must be submitted through CHAC.

The Area Studies Certificates are awarded at the time of graduation. Application for the certificate should be made through CHAC.

# College of Natural Resources

---

Dean: Nat B. Frazer

Associate Dean and Extension Program Leader: Nancy O. Mesner

Director of Distance Education: Richard C. Etchberger

Director of Development: Jon Paulding

Location: Natural Resources 108

Phone: (435) 797-2452

FAX: (435) 797-2443

E-mail: [nradvise@usu.edu](mailto:nradvise@usu.edu)

WWW: <http://www.cnr.usu.edu>

## Undergraduate Advisor:

Maureen A. Wagner, Natural Resources 120, (435) 797-2448,  
[maureen.wagner@usu.edu](mailto:maureen.wagner@usu.edu)

The College of Natural Resources has the following academic degree programs:

### College of Natural Resources

Master of Natural Resources (MNR)

Participates in Interdisciplinary Studies (BS, BA)

### Environment and Society Department

Bioregional Planning (MS)

Environmental Studies (BS)

Geography (BS, BA, MS, and MA)

Human Dimensions of Ecosystem Science  
and Management (MS and PhD)

Recreation Resource Management (BS, MS, and PhD)

### Watershed Sciences Department

Ecology (MS and PhD)

Fisheries and Aquatic Sciences (BS)

Fisheries Biology (MS and PhD)

Watershed and Earth Systems (BS)

Watershed Science (MS and PhD)

### Wildland Resources Department

Conservation and Restoration Ecology (BS)

Ecology (MS and PhD)

Forestry (BS, MS, and PhD)

Rangeland Resources (BS)

Range Science (MS and PhD)

Wildlife Biology (MS and PhD)

Wildlife Science (BS)

A list of degree requirements, emphases, and specializations can be found in the catalog section for each department. For a description of the Master of Natural Resources (MNR) professional degree, see page 391.

### Interdisciplinary Programs

Many of the degree programs listed above are interdisciplinary to some extent. However, the Conservation and Restoration Ecology, Environmental Studies, Geography, and Watershed and Earth Systems programs offer students the opportunity to develop broad interdisciplinary programs to meet their interests. Conservation and Restoration Ecology and Watershed and Earth Systems build on a strong science base; Environmental Studies has a greater emphasis on management and policy; and Geography brings together ideas about culture, human behavior, and the physical environment.

The College of Natural Resources also participates in the Interdisciplinary Studies major, which offers flexibility for qualifying students who cannot find an existing degree that meets their needs. In addition to the requirements found on pages 314-315, the college also requires completion of 23 credits in College of Natural Resources courses, and a 2.5 GPA in all College of Natural Resources courses.

## Minors in Natural Resources

The college offers minors in the following areas:

**Environmental Studies**

**Fisheries Science**

**Geographic Information Science**

**Geography/Geography Teaching**

**Recreation Resources**

**Watershed Science**

Requirements for the minors are found in the appropriate departmental sections of this catalog. Students should also consult a faculty advisor for the minor.

## Objectives

The College of Natural Resources provides programs of study and professional training in the use and management of natural resources and the environment. These programs deal with renewable land and water resources and the management of these resources and their ecosystems. Forests, rangelands, wildlife, fisheries, watersheds, and recreation resources comprise the natural resources and environmental areas in which the college has developed professional competence. The college's expertise in geography provides a link between the management of these resources and their value to our society and other cultures.

The College of Natural Resources programs and facilities provide exceptional opportunities for field experience. Forests and rangelands comprise more than 90 percent of the total Utah land area. The Wasatch-Cache National Forest and other areas of natural lands close to the USU campus provide unlimited study projects and opportunities for demonstration. Yellowstone and other national parks are within one day's driving distance.

## Career Opportunities

The curricula of the college prepare men and women for positions with federal or state agencies, private-sector work in natural resources management and administration, and positions in education.

## Summer Employment/Work Experience

Students are strongly encouraged to seek summer employment with faculty research projects or natural resource agencies to gain practical work experience and help refine career goals. Students should check with the College of Natural Resources Academic Service Center in early January regarding summer employment opportunities.

## Undergraduate Programs

### Academic Policies

#### Admission

Freshmen accepted in good standing by the University are eligible for admission to the College of Natural Resources. Transfer students need a cumulative 2.5 GPA for admission to College of Natural Resources majors. Departments may impose additional requirements; refer to departmental sections for information.

Students will make more satisfactory progress in natural resources majors if they have had two years of high school algebra; have taken coursework in chemistry, physics, and biology; and have obtained basic computer skills. Four years of English are also desirable. Prospective students should realize that natural resources fields are

# College of Natural Resources

highly technical professions, requiring not just field ability, but also high aptitude for scholarship. Success is also correlated with an ability to work well with people.

## Natural Resources—Undecided

Students who have not yet decided on a specific natural resources major may be admitted to the college as “undecided.” Many of the courses taken during the freshman year are common to all natural resources majors; however, students are encouraged to select a major as soon as possible. Students in the undecided category should meet with the college academic advisor for assistance in planning their educational program and selecting a major.

## Changes in Graduation Requirements

Students who complete a baccalaureate degree within seven years of enrollment at USU can qualify for graduation by meeting (1) the General Education/University Studies requirements in effect when they initially enrolled at USU (or any revision of the University Studies requirements that has been in effect within seven years of their graduation) **and** (2) the major requirements in effect when they officially declared their major (or any revision of the major requirements that has been in effect within seven years of their graduation).

Students who have not completed the baccalaureate requirements within seven years of their initial enrollment at USU must have their General Education/University Studies and major requirements evaluated and approved by their department head and dean.

## Academic Responsibility

The departments publish current major requirements in the catalog each year. It is the student’s responsibility to know the current requirements and to consult with a faculty advisor in planning and completing his or her degree program.

## Graduation Requirements

Students must satisfy all University, College of Natural Resources, and departmental major requirements for graduation. Students must complete a series of basic lower-division courses, providing the disciplinary foundation for the natural resource and environmental professions, before advancing to professional coursework; foundation course requirements vary among the departments of the college. Equivalents of the foundation courses can be taken at many two- and four-year colleges. Students intending to transfer to a College of Natural Resources major should consult with a faculty advisor before registering for foundation courses at another school. Some foundation and core courses can be used to satisfy University Studies requirements. College requirements also include a grade point average of 2.5 or higher for all courses taught by the College of Natural Resources. Refer to the appropriate sections of this catalog for further details on graduation requirements.

## Student Leadership

In addition to coursework and research involvement, undergraduate education in the College of Natural Resources also includes leadership education through professional internships and extracurricular involvement.

The Natural Resources Student Council and various student clubs offer opportunities for enrichment, professional development, and fun. Most of the student leaders have participated in leadership training activities offered by the College of Natural Resources. Students are strongly encouraged to participate in organizations affiliated with their majors or future career paths. Among these are student chapters affiliated with the following professional societies:

**American Fisheries Society**  
**International Association for Society and Natural Resources**  
**Society of American Foresters**  
**Society for Range Management**  
**The Wildlife Society**

## Financial Aid

The College of Natural Resources awards more than 65 individual scholarships annually to undergraduates having majors within the college. During recent years, more than \$160,000 in financial aid has been awarded annually, with emphasis on assistance to upper-division undergraduate students. The S.J. and Jessie E. Quinney Scholars program awards up to 10 new scholarships annually of \$3,000 per year to entering freshmen and transfer students in the College of Natural Resources. Interested high school students and prospective transfer students are encouraged to write to the College of Natural Resources Dean’s Office regarding these scholarships.

## Undergraduates in Research

The College of Natural Resources maintains an extensive program of research in all aspects of natural resources and the environment. Undergraduate students are an integral part of this program. Their participation in research is encouraged, especially for those students planning to go on to graduate study.

Students are often able to find part-time employment in professors’ laboratories, working side-by-side with graduate students and faculty members on studies involving a wide range of topics from endangered fish biology to wildland soil science, backcountry hiking behavior to sagebrush ecology, and water conservation policy to the genetics of rare plants and animals. Highly motivated students can also design their own research projects with the assistance of College of Natural Resources faculty members. University and college programs can offer undergraduate researchers financial assistance to help cover the costs of research and of presenting research results to audiences of natural resource scientists and managers, as well as to other students.

## Graduate Programs

The College of Natural Resources offers graduate programs leading to the Master of Natural Resources (MNR), Master of Science (MS), and Doctor of Philosophy (PhD) degrees. These degree programs are described in the catalog sections for the respective departments. There are also separate descriptions for the programs leading to the MNR degree (page 391), the National Environmental Policy Act (pages 386-387), and the Natural Resources and Environmental Education Graduate Certificate (pages 388-390).

# College of Natural Resources

---

## Financial Assistance

### Assistantships

Financial assistance for graduate programs includes both research and teaching assistantships that are awarded through the departments offering each degree. For further information, students should contact their department and major professor.

### Fellowships

Fellowships and tuition waivers are offered to incoming graduate students on a competitive basis. Application is made through the student's major professor.

The College of Science has the following departments and programs:

**Biology**  
**Chemistry and Biochemistry**  
**Computer Science**  
**Geology**  
**Mathematics and Statistics**  
**Physics**  
**Cooperative Nursing Program**

Degrees, emphases, specializations, and program descriptions are listed with the departments and the Nursing Program. In addition, there is a Center for Atmospheric and Space Sciences (CASS) and two interdisciplinary programs which involve the college. The Department of Biology participates in the Interdepartmental Graduate Program in Toxicology. This program offers research opportunities leading to MS and PhD degrees within several specialties of toxicology. The college also participates in an interdisciplinary, interdepartmental program in ecology which operates under the Ecology Center. The Ecology Center brings distinguished scientists to campus, fosters faculty research, and enhances graduate education in all areas of ecology.

## Objectives

USU has always emphasized the sciences. Modern civilization is based on science, most facets of which are fundamental in a land-grant university.

Opportunities for rewarding careers are excellent in the fields of science. These opportunities exist in education, research, conservation, service, and industry.

The curricula of the science departments are designed to achieve five purposes:

First, they serve all students. No college graduate can be considered educated without an appreciation of scientific principles.

Second, the college trains teachers of science at all levels of education. Highly competent teachers are absolutely essential to the continued well-being and development of society.

Third, students are prepared to take positions in industry and business in a highly technological world.

Fourth, education is provided in the health fields both at the preprofessional and entry level. The college has excellent programs in predoctoral and premedical education with an exceptional record of placing students in dental and medical schools. Undergraduate degrees in the various departments of the college can be tailored to include predoctoral and premedical training. Other programs prepare

graduates to enter the health profession directly upon graduation.

Fifth, the College of Science educates research scholars in many fields of science. This is accomplished by completing a sound undergraduate degree in the field, followed by graduate specialization.

Students planning to enter the sciences are urged to discuss their plans and goals early with advisors, who are available in each academic department. Basic coursework in mathematics, chemistry, physics, and computer science is essential to most areas of science.

## Admission Requirements

Students accepted in good standing by the University are eligible for admission to all departments in the College of Science. Students majoring in Computer Science must qualify for advanced standing status on the basis of their academic performance. Specific details are given in the Computer Science section of this catalog (see pages 222-223).

## College of Science Core Requirements

### Mathematics Requirement

All bachelor degree candidates in the College of Science must complete one year of calculus, consisting of MATH 1210 and 1220. In some degrees or options within degrees, the second semester of calculus may be replaced by STAT 3000. The substitution will be for specific degree programs, and not by student choice.

### Science Requirement

Every bachelor degree candidate in the College of Science must complete a year-long sequence outside of his or her major department. The approved sequences are: (1) BIOL 1610, 1620; (2) CHEM 1210, 1220; (3) GEO 1150, 3200; (4) PHYS 2110, 2120; and (5) PHYS 2210, 2220.

### Science Major (Undecided)

A beginning freshman student who wishes to major in science, but who has not selected a specific major, may register in the college as an Undecided Science Major. A course of study will be developed that will attempt to maximize transfer into the various departmental majors in the college. Students in the Undecided Science Major will be required to transfer to a departmental major after one year of study.

## Scholarships

Scholarships are available through the college and some of the departments. Students should contact the college or their major department for further information about these scholarships. Information is also available at: <http://www.usu.edu/science/>

## Graduate Assistantships and Fellowships

Excellent graduate assistantships and fellowships are available in all departments. Assistantships are available both for teaching and research. Applications should be made directly to the department concerned. For more information, see the Graduate Financial Assistance section of this catalog (pages 111-112).

# College of Science

---

## Graduate Programs

Graduate programs leading to the MS or PhD degree are available in each department in the college. In addition, the Department of Mathematics and Statistics offers an MMath (Master of Mathematics) degree, and the Computer Science Department offers an MCS (Master of Computer Science) degree. See the departmental sections in this catalog for more information on these programs.

## Interdisciplinary Studies Major

The College of Science participates in the Interdisciplinary Studies Major (see pages 314-315), which offers flexibility for qualifying students who cannot find an existing degree that meets their needs.

## Honors Program

Several departments in the college participate in the University Honors Program by offering special honors courses and by sponsoring an option for graduation with departmental honors.

## Undergraduate Research

The sciences provide an ideal setting for research. All departments within the College of Science provide opportunities for undergraduate students to participate in research activities. Interested students should discuss this option with their academic advisor or with an associate dean in the college office.

**Degrees offered:** Bachelor of Science (BS), Bachelor of Arts (BA) in Accounting; Master of Accounting (MAcc); participates in Master of Business Administration (MBA)

**Undergraduate options:** A dual major in Accounting and Economics is available.

**Graduate specializations:** MAcc—Professional Accountancy, Taxation, Personal Financial Planning, Information Systems, and Finance. MBAs with specializations in Accounting and Personal Financial Planning are offered in the Huntsman School of Business (see MBA—Accounting and MBA—Personal Financial Planning programs).

**Undergraduate minors offered:** Accounting and Personal Financial Planning

## Undergraduate Programs

### Mission

The mission of the USU School of Accountancy is to: (1) develop effective accounting and business leaders who are committed to professional excellence and ethical conduct, (2) advance accounting knowledge through theory development and accounting practice improvement, and (3) provide leadership and service to the University and professional community.

### Objectives

The objective of the School of Accountancy is to provide high-quality preparation for professional accounting careers in industry, public accounting, and other organizations. The undergraduate programs are devoted to providing basic conceptual accounting, information systems, and business knowledge, along with general education, as a well-rounded foundation for career development. The fostering of active student organizations is fundamental to the career-development process for on-campus programs.

The accounting curriculum is designed to help students prepare to meet changes in social, economic, and technological development. Academic course requirements for the bachelor's degrees include University Studies coursework, as well as supporting courses in mathematics, economics, management information systems, business communications, business administration, accounting, and information technology. The programs provide an opportunity to choose from a number of elective courses to broaden educational backgrounds and enhance employment opportunities.

## Career Opportunities

Practice in the profession of accounting has become more complex, with computerized information and accounting systems becoming an integral part of the various accounting and business functions. University training is essential to prepare for high-level accounting careers in business, government, and public accounting.

Graduates of the accounting program find employment in a variety of industrial companies, nonbusiness and government agencies, and both large and small public accounting and business advisor firms. Graduates hold all levels of positions within organizations, including supervisors, managers, partners, controllers, financial vice presidents, and chief executive officers. Nonbusiness units and government agencies, such as the Utah State Auditors Office, the Federal Bureau of Investigation, and the Internal Revenue Service, provide jobs in many varied accounting functions.

## Departmental Honors

See *Honors* in Business description in the Huntsman School of Business section of this catalog (page 124).

## Learning Objectives and Assessment

Assessment information for the School of Accountancy can be found online at:  
<http://www.huntsman.usu.edu/acct/assessment/index.cfm>

## Requirements

### Huntsman School of Business Admission Requirements

All students majoring in accounting must satisfy the Huntsman School admission requirements, provided on pages 124-125. Academic advising about these requirements is available in the Huntsman School of Business Programs and Advising Center, Business 309. All students enrolled at USU are required to satisfy the General Education requirements and the University Studies Depth Education requirements of the University, as described on pages 67-75 of this catalog.

### Matriculation Requirement and Transfer Limitation

No more than 15 USU Huntsman School of Business credits (ACCT, BUS, FIN, MGT, MIS), numbered 2000 and above, earned as a nonbusiness major (before acceptance into the Huntsman School) can be applied to a Huntsman School degree. More than 15 business credits can be transferred from other accredited institutions. However, additional USU Huntsman School credits added to previously earned transfer business credits may not exceed a combined total of 15. Furthermore, to earn a bachelor's degree in a Huntsman School major, at least 50 percent of the required Huntsman School credits must be earned from coursework taken from the Utah State University Huntsman School of Business.

### USU Credits and Business Credits

At least 30 of the last 60 semester credits must be taken from Utah State University, at least 20 of which must be completed in upper-division courses, of which at least 10 credits must be completed in courses required by the student's major. At least 50 percent of the Huntsman School credits required for a Huntsman School degree must be taken from the Utah State University Huntsman School or its departments, which include: School of Accountancy, Economics and

# School of Accountancy

Finance, Management, and Management Information Systems. At least 12 credits of 3000-level or above accounting courses must be completed through the USU School of Accountancy.

## Accounting Admission Requirements

In addition to meeting the Huntsman School of Business requirements, students must have achieved a cumulative overall GPA of 3.0 or higher and have earned a grade of *B* or better in ACCT 2010 before they will be allowed to enroll in ACCT 3110 or 3310.

## General Instructions for all Accounting Majors

Since some accounting courses are not offered every semester and many have prerequisites, students should plan their program at least a year ahead.

## Accounting Major Requirements

For a bachelor's degree in accounting, students must complete at least 120 credits, including at least 30 credits in accounting and at least 90 credits in nonaccounting courses. At least 12 credits of upper-division accounting courses must be completed through the USU School of Accountancy. To qualify for graduation as an accounting major, a student must have an accounting and an overall GPA of at least 2.5. All accounting majors are required to complete the General Education requirements and the University Studies Depth Education requirements (see pages 67-75), the Pre-Business course requirements, the Huntsman School of Business Core, and the Required Accounting Courses.

### Pre-Business Course Requirements (13 credits)

<b>ECN 1500 (BAI)</b> Introduction to Economic Institutions, History, and Principles (F,Sp,Su).....	3
<b>MATH 1100 (QL)</b> Calculus Techniques (F,Sp,Su).....	3
<b>STAT 2300 (QL)</b> Business Statistics (F,Sp,Su).....	4
<b>PSY 1010 (BSS)</b> General Psychology (F,Sp,Su) (3 cr) <b>or</b>	
<b>SOC 1010 (BSS)</b> Introductory Sociology (F,Sp) (3 cr).....	3

### Huntsman School of Business Core (37 credits)

<b>ACCT 2010</b> Survey of Accounting I (F,Sp,Su).....	3
<b>ACCT 2020</b> Survey of Accounting II (F,Sp,Su).....	3
<b>BUS 3250</b> Discussions With Business Leaders (F,Sp).....	1
<b>ECN 2010 (BSS)</b> Introduction to Microeconomics (F,Sp,Su).....	3
<b>ECN 3400</b> International Economics for Business (F,Sp,Su).....	3
<b>FIN 3400 (QI)</b> Corporate Finance (F,Sp,Su).....	3
<b>MGT 2050</b> Legal and Ethical Environment of Business (F,Sp,Su).....	3
<b>MGT 3110</b> Managing Organizations and People (F,Sp,Su).....	3
<b>MGT 3500</b> Fundamentals of Marketing (F,Sp,Su).....	3
<b>MGT 3700</b> Operations Management (F,Sp,Su).....	3
<b>MGT 4880 (CI)</b> Business Strategy in an Entrepreneurial Context (F,Sp,Su) (3 cr) <b>or</b>	
<b>MGT 4890 (CI)</b> Business Strategy in a Global Context (F,Sp,Su) (3 cr).....	3
<b>MIS 2100</b> Principles of Management Information Systems (F,Sp,Su).....	3
<b>MIS 2200 (CI)</b> Business Communication (F,Sp,Su).....	3

### Required Accounting Courses (24 credits)

<b>ACCT 3110</b> Intermediate Financial Accounting and Reporting I (F,Sp,Su).....	3
<b>ACCT 3120</b> Intermediate Financial Accounting and Reporting II (F,Sp,Su).....	3
<b>ACCT 3310</b> Strategic Cost Management (F,Sp,Su).....	3
<b>ACCT 3410</b> Income Taxation I (F,Sp,Su).....	3
<b>ACCT 4200</b> Advanced Accounting (F,Sp).....	3
<b>ACCT 4410</b> Income Taxation II (F,Sp).....	3
<b>ACCT 4500</b> Accounting Information Systems (F,Sp).....	3
<b>ACCT 4510</b> Auditing Principles and Techniques (F,Sp).....	3

## Four-Year Degree Plan (8 Semesters)

A four-year degree plan for the Accounting major can be found at: <http://www.usu.edu/degreeplans/>

## Accounting Minor (18 credits)

Students seeking a minor must be approved by the School of Accountancy and must achieve a 2.5 grade point average for accounting courses taken. Courses required for this minor may *not* be taken *Pass/Fail*.

Students with a major in an area other than accounting may qualify for an accounting minor by completing 18 semester credits as follows:

<b>ACCT 2010</b> Survey of Accounting I (F,Sp,Su).....	3
<b>ACCT 2020</b> Survey of Accounting II (F,Sp,Su).....	3
<b>ACCT 3110</b> Intermediate Financial Accounting and Reporting I (F,Sp,Su).....	3
<b>ACCT 3120</b> Intermediate Financial Accounting and Reporting II (F,Sp,Su).....	3
<b>ACCT 3310</b> Strategic Cost Management (F,Sp,Su).....	3
<b>ACCT 3410</b> Income Taxation I (F,Sp,Su) (3 cr) <b>or</b>	
<b>ACCT 4500</b> Accounting Information Systems (F,Sp) (3 cr).....	3

## Personal Financial Planning Minor (15 credits)

Students seeking a minor in personal financial planning must be approved by the School of Accountancy and must achieve at least a 2.5 grade point average in the required courses. Courses required for this minor may not be taken pass/fail. The required courses consist of 15 semester credits as follows:

<b>ACCT 3410</b> Income Taxation I (F,Sp,Su).....	3
<b>PFP 3460</b> Fundamentals of Personal Investing (3 cr) <b>or</b>	
<b>FIN 4460</b> Investments (F,Sp) (3 cr).....	3
<b>PFP 5060</b> Personal Financial Planning and Advising (F).....	3
<b>PFP 5070</b> Retirement Planning (Sp).....	3
<b>PFP 5080</b> Estate Planning (Sp).....	3

The courses above are registered with the Certified Financial Planner (CFP)® Board of Standards. Students completing these courses will qualify to sit for the comprehensive CFP® Examination.

## Dual Major

### Accounting and Economics Dual Major

Select 12 credits in economics in addition to the courses required for an accounting major from the following:

<b>ECN 3010</b> Managerial Economics (F,Sp) (3 cr) <b>or</b>	
<b>ECN 4010</b> Intermediate Microeconomics (Sp) (3 cr).....	3
<b>ECN 4020</b> Intermediate Macroeconomics (F,Sp) (3 cr) <b>or</b>	
<b>ECN 5000</b> Advanced Macroeconomic Topics (F) (3 cr).....	3
Upper-division Economics electives.....	6

## Second Bachelor's Degree in Accounting

Students seeking a second bachelor's degree in accounting must be approved by the School of Accountancy, must achieve an accounting and overall grade point average of 2.5, and must complete the course of study listed above for an accounting major. For further information, refer to the *Second Bachelor's Degree* text on page 79.

## Beta Alpha Psi

The objective of Beta Alpha Psi is to encourage and recognize scholastic and professional excellence in the accounting profession. Membership includes opportunities for self-development, service, and association among members, faculty, and practicing professionals. Beta Alpha Psi recognizes academic excellence, complements members' formal education, and encourages lifelong growth, service, and ethical conduct. The organization has strict entry requirements, but its members are the most eagerly sought-out by recruiters for the best jobs in accounting. It is appropriate to include the Beta Alpha Psi honor as a resume item for the entire span of one's professional career. For further information, see: <http://www.usu.edu/bap/>

## Institute of Management Accountants

The Institute of Management Accountants (IMA) is a worldwide organization comprised of management accounting and finance professionals. USU's student chapter of the IMA provides networking and leadership opportunities for students pursuing accounting careers in business entrepreneurship and industry. The local chapter organizes professional meetings, social events, and service events to assist students in developing and advancing their careers through certification, education, networking, and the advocacy of the highest ethical and professional practices. For further information see: <http://www.usu.edu/ima/>

## Financial Planning Association

The Financial Planning Association (FPA) is a national association of financial planning professionals. The FPA student chapter allows students to enjoy all of the benefits of FPA membership at a significantly reduced cost. In addition, student members have opportunities to develop leadership skills, attend informative educational sessions, network with professionals, participate in service activities, and serve as volunteer staff members at state and national meetings of financial planning professionals. For further information, see: <http://www.usu.edu/fpsa/>

## Additional Information

For additional information about undergraduate programs and requirements in the School of Accountancy, see the major requirement sheet, which can be obtained from the School of Accountancy, or accessed at: <http://www.usu.edu/majorsheets/>

## Graduate Programs

The graduate programs provide greater breadth and depth in accounting, taxation, information systems, and management to develop a high level of understanding, skill, and leadership capability to enter professional accountancy and related business careers. The Master of Accounting (MAcc) and the Master of Business Administration-Accounting Specialization (MBA-Accounting), offered by the Huntsman School of Business, enable students to fulfill the 150-hour education requirement for CPA certification in Utah and most U.S. jurisdictions.

## Admission Requirements

See general admission requirements, pages 36-37. In addition, candidates are selected based on the combined consideration of their

score on the Graduate Management Admissions Test (GMAT) and their grade point average from the previous 60 semester credits (90 quarter credits) completed. Generally, 200 times the GPA plus the GMAT score must total 1,150 or more. Additionally, for MAcc Programs, the minimum acceptable GMAT score is at the 40th percentile and the minimum GPA is 3.0. In addition, scores for each section of the GMAT must be at least at the 40th percentile. For information about admission to the MBA—Accounting Specialization Program, see Admission Requirements for the MBA Program, page 194. Letters of recommendation, professional experience, professional certification, and leadership are also considered in admission decisions for all accounting graduate programs. Students may apply for admission to the graduate programs during their senior year of baccalaureate study. USU accounting students may take graduate courses during their last semester of undergraduate study, provided prerequisite courses have been completed, they have been admitted into a graduate program, and a split registration form is approved by the dean of the School of Graduate Studies. (See *Split Form Policy*, page 113.)

Students with the equivalent of a USU undergraduate degree in Accounting have completed all of the preparatory work for graduate study. Students with less than the equivalent of the undergraduate program are expected to make up the deficiencies. The director of Graduate Accounting Programs will assist in necessary program scheduling.

Graduate students are expected to maintain an overall GPA of 3.0 to remain in the program.

Complete information relative to the details of the program and course scheduling is available from the School of Accountancy.

## Graduate Degree Programs

**MAcc requirements for students who have completed all of the preparatory work for graduate study**

### Program of Study

Students matriculated in the Master of Accounting degree must complete an approved program of study consisting of at least 30 credits. This program must include completion of the MAcc Core Requirements and one of the Areas of Specialization Requirements. Details for each requirement type are provided in the following paragraphs.

### MAcc Core Requirements

The core courses required for this degree include: ACCT 6200, 6410, 6510, 6610; PFP 6560; and one additional approved elective course (3 credits).

### Master of Accounting Specializations

In addition to meeting the MAcc Core Requirements, students must complete requirements for one of the following specializations:

#### Professional Accountancy Specialization

Required courses for this specialization are: ACCT 6250, 6310, 6540, and 6600.

#### Taxation Specialization

Required courses for this specialization are: ACCT 6420, 6440, 6460, and one course chosen from PFP 6060, 6070, or 6080.

#### Personal Financial Planning Specialization

Students must complete PFP 6060, 6070, 6080, and one course chosen from ACCT 6420, 6440, or 6460. In addition, students must

# School of Accountancy

complete, or have previously completed, the equivalent of PFP 3460 or FIN 4460 (neither of these courses count as part of the 30-credit MAcc degree requirement). This specialization satisfies the requirements to sit for the national Certified Financial Planner (CFP) examination.

## Information Systems Specialization

Students must complete ACCT 6500, 6600, and an additional 6 credits of approved systems-related courses.

## Finance Specialization

Complete ACCT 6310, plus 9 credits selected from approved finance-related courses.

## Accelerated Program for Nonaccounting Undergraduate Majors

### MAcc for nonaccounting undergraduate majors (54 to 68 credits)

Candidates for this program must score at or above the 50th percentile on all sections of the GMAT and have a 3.3 minimum GPA for the last 60 semester credits. This program requires the successful completion of the Business Core, plus an additional 54 credits. The Business Core may be satisfied by taking the Accelerated Business Core (13.5 credits), which is offered during summer semester *only*. (See *Accelerated Business Core* text in the *Master of Business Administration (MBA)* section, pages 194-195.) Students with undergraduate degrees in business subjects (other than accounting) need not take the Accelerated Business Core and therefore may earn the MAcc in 54 credits. The 54 credits include: ACCT 3110, 3120, 3310, 3410, 4200, 4410, 4500, 4510, the MAcc Core Requirements, and one of the MAcc areas of specialization.

### MBA—Accounting Specialization

Students admitted to the USU MBA Program may earn an Accounting Specialization by completing at least 12 approved 6000-level accounting credits as part of their MBA program of study. To qualify for this specialization, students must complete, or have previously completed, the equivalent of ACCT 3110, 3120, 3310, 3410, 4200, 4410, 4500, 4510, 6200, 6510, and 6610.

### MBA—Personal Financial Planning Specialization

Students admitted to the MBA Program may earn a Personal Financial Planning Specialization by completing the MBA Advanced Required Courses (see MBA program description, pages 194-195), and the following: PFP 6060, 6070, 6080; ACCT 3410; and PFP 3460 or FIN 4460. This specialization satisfies requirements to sit for the national Certified Financial Planner (CFP) examination.

## Financial Assistance

Financial assistance is available in the form of President's Fellowships, Graduate School Fellowships, graduate assistantships, and special School of Accountancy scholarships. Applications for assistance should be made after the application for admission to the School of Graduate Studies is filed, but before March 1 of each year. Application forms are available from the School of Accountancy, and the awards are normally announced by April 15.

## Professional Organizations and Activities

Graduate students are encouraged to participate in professional organizations, such as the USU chapters of Beta Alpha Psi (National Honors Fraternity for Financial Information Professionals), the Institute of Management Accountants, and the Financial Planning Student Association. The Federation of Schools of Accountancy, the American Institute of Certified Public Accountants, the Utah Association of Certified Public Accountants, and other professional organizations sponsor professional activities for accounting graduate students.

## Accountancy Faculty

### Professors

*Larry M. Walther*, department head, School of Accountancy; financial  
*Richard L. Jenson*, ATK Thiokol Professor, information systems, systems audit  
*I. Richard Johnson*, Larzette G. Hale Professor, financial  
*Jay H. Price, Jr.*, Arthur Andersen Executive Professor, financial, governmental, public utilities  
*Clifford R. Skousen*, Ernst & Young Professor, international, managerial, financial

### Associate Professors

*Jeffrey T. Doyle*, George S. Eccles Chair in Capital Markets Research, financial, capital markets  
*Rosemary R. Fullerton*, managerial, cost  
*E. Vance Grange*, tax, financial planning

### Assistant Professors

*Garth F. Novack*, financial, tax  
*Christopher J. Skousen*, financial, managerial, cost  
*Nate M. Stephens*, auditing, corporate governance and internal controls

### Principal Lecturer

*Franklin D. Shuman*, financial, managerial

### Lecturers

*Ryan E. Larkin*, tax, financial  
*Jack W. Peterson*, auditing, financial  
*Dale G. Siler*, business law, tax

### Adjunct Professor

*M. Kay Jeppesen*, government contract accounting and administration

### Professors Emeritus

*James W. Brackner*  
*Frank A. Condie*  
*Larzette G. Hale*  
*David H. Luthy*  
*Richard L. Ratliff*

## Undergraduate Programs

### Objectives

Air Force ROTC provides educational experiences that develop skills and attitudes vital to the career of an Air Force officer. The purpose of the course is to give an understanding of the mission and the global responsibilities of the United States Air Force. The academic phase develops background in national and international affairs to help understand and evaluate world events.

In addition, the curriculum includes experiences designed to stimulate and develop an interest in the Air Force (e.g., orientation flights and visits to Air Force bases); opportunities to apply the principles of leadership, human relations, management, and staff work in practical situations; and other related experiences.

### Requirements

#### Physical Fitness and Medical

All students must meet the physical fitness and medical standards for general military service.

#### Age Limitations

Pilot and navigator category applicants must enter undergraduate flying training prior to age 30. **AFROTC pilot and navigator candidates must be scheduled for commissioning before reaching 29 years of age.** Other applicants must receive an enrollment allocation before reaching age 30. The maximum age restriction may be waived for individuals scheduled for commissioning after age 34, but prior to age 35. Public Law 88-647 prohibits commissioning or active duty entrance after age 35. By law, scholarship recipients must be under age 31, as of December 31 of the calendar year during which commissioning is scheduled. **Title 10, United States Code, Section 2107 does not provide for waivers.**

#### Academic Requirements

Successful completion of the four-, three-, or two-year Air Force ROTC program is required to be commissioned as a Second Lieutenant in the U.S. Air Force. Aerospace Studies classes are taken in addition to the classes required for a bachelor's degree. In some cases, ROTC classes may be taken in conjunction with a master's degree program. The program taken is based on the number of years remaining until graduation (e.g., a transfer student with two years remaining until graduation would enroll in the two-year program). The courses, along with the normal schedule for taking them for each of the programs, are listed below:

#### Four-Year Program

##### First year:

AS 1010 Introduction to the Air Force Today.....	1
AS 1110 Leadership Laboratory I.....	1
AS 1020 Introduction to the Air Force Today.....	1
AS 1120 Leadership Laboratory I.....	1

##### Second year:

AS 2010 The Evolution of U.S. Aerospace Power .....	1
AS 2110 Leadership Laboratory II.....	1
AS 2020 The Evolution of U.S. Aerospace Power .....	1
AS 2120 Leadership Laboratory II.....	1

##### Third year:

AS 3400 Field Training (4 weeks) .....	1-4
AS 3010 Air Force Leadership and Management .....	3
AS 3110 Leadership Laboratory III.....	1
AS 3020 Air Force Leadership and Management .....	3
AS 3120 Leadership Laboratory III.....	1

##### Fourth year:

AS 4010 National Security Affairs/Preparation for Active Duty.....	3
AS 4110 Leadership Laboratory IV .....	1
AS 4020 National Security Affairs/Preparation for Active Duty.....	3
AS 4120 Leadership Laboratory IV .....	1

#### Three-Year Program

##### First year:

AS 1010 Introduction to the Air Force Today.....	1
AS 2010 The Evolution of U.S. Aerospace Power .....	1
AS 2110 Leadership Laboratory II.....	1
AS 1020 Introduction to the Air Force Today.....	1
AS 2020 The Evolution of U.S. Aerospace Power .....	1
AS 2120 Leadership Laboratory II.....	1

##### Second year:

AS 3400 Field Training (4 weeks) .....	1-4
AS 3010 Air Force Leadership and Management .....	3
AS 3110 Leadership Laboratory III.....	1
AS 3020 Air Force Leadership and Management .....	3
AS 3120 Leadership Laboratory III.....	1

##### Third year:

AS 4010 National Security Affairs/Preparation for Active Duty.....	3
AS 4110 Leadership Laboratory IV .....	1
AS 4020 National Security Affairs/Preparation for Active Duty.....	3
AS 4120 Leadership Laboratory IV .....	1

#### Two-Year Program

##### First year:

AS 3500 Field Training (6 weeks) .....	1-6
AS 3010 Air Force Leadership and Management .....	3
AS 3110 Leadership Laboratory III.....	1
AS 3020 Air Force Leadership and Management .....	3
AS 3120 Leadership Laboratory III.....	1

##### Second year:

AS 4010 National Security Affairs/Preparation for Active Duty.....	3
AS 4110 Leadership Laboratory IV .....	1
AS 4020 National Security Affairs/Preparation for Active Duty.....	3
AS 4120 Leadership Laboratory IV .....	1

#### Summer Training

AS 3500 is a prerequisite for cadets entering the Air Force ROTC two-year program. Training will be given at an Air Force base and will last six weeks. Up to 6 credits may be granted for this training.

All cadets in the three- and four-year programs will attend a four-week summer training camp. Attendance at this camp is usually between the sophomore and junior year at a selected Air Force base. Up to 4 credits may be granted for this training.

# Department of Aerospace Studies

---

## Leadership Laboratory

A Leadership Laboratory period is required each week during the fall and spring semesters for each year of aerospace studies. Interested students should check the current *Schedule of Classes* for the Leadership Laboratory schedule.

## Minor

A minor in Aerospace Studies may be awarded upon completion of commissioning requirements.

## Veterans

A veteran may apply for the Air Force ROTC program if he or she can complete the program prior to reaching age 30, with a year for year waiver up to age 35 for each year of active duty service. (The waiver does not apply to the maximum age at graduation to enter flight training of 29.) The general military course (first two years) may be waived for prior military service. However, veterans must successfully complete AS 3400 prior to entering the two-year program.

## Commitment

Most officers have a four-year commitment. However, pilots have a commitment of ten years after pilot training, and navigators have a commitment of six years after their training. Air battle managers have a six-year commitment.

## Future Educational Benefits

During the senior year, a cadet may request a delay to active duty to continue studies toward a graduate degree. The length of the delay depends upon the student's request and the Air Force needs.

Through a variety of Air Force programs, officers may continue their education after going on active duty. Most bases have extensive on-base graduate college programs. The Tuition Assistance Program will pay 100 percent of tuition costs. ROTC graduates may also be eligible for the Montgomery GI Bill.

The Air Force Institute of Technology provides full-time graduate study for selected officers. Some classes are taught in residence at the institute's campus at Wright-Patterson Air Force Base in Ohio, and others are taught at civilian universities.

Many officers make the Armed Forces their career, but some use the skills and training obtained in military service for civilian jobs. Most private businesses and government agencies require the same basic skills that are needed for jobs in military service. Air Force training and experience provide excellent leadership skills and can be a valuable asset in obtaining civilian employment.

## Additional Information

For additional details about requirements for the Aerospace Studies program, see the major requirement sheet, which can be obtained from the department, or accessed at:  
<http://www.usu.edu/majorsheets/>

## Scholarships and Financial Aid

### Scholarships

Air Force ROTC scholarships are available on a competitive basis in four-, three-, or two-year awards. These scholarships provide up to full tuition, laboratory and incidental fees, plus an allowance for textbooks. Eligible USU students should apply to the Department of Aerospace Studies at USU.

The High School Scholarship Program (HSSP) for high school students is announced annually through the Air Force ROTC website at: <http://www.afrotc.com>. This website contains information regarding eligibility requirements and application procedures, as well as an online application. **Generally, students must use the online application.** However, in the rare case that this is not possible, HQ AFROTC/DOR will work out an alternative application plan on a case-by-case basis. Students must apply by December 1 of their senior year in high school.

In addition, all students on contract (either on an Air Force ROTC scholarship or contracted in the POC) receive a tax-free stipend of \$300-500 for each month during the school year.

### Uniforms and Texts

All Air Force ROTC texts and uniforms are furnished at no expense to the student.

## Miscellaneous Information

### Career Opportunities

To meet the challenges, keep up with technological advancements, and explore the opportunities of the ever-broadening horizons in the aerospace age, officers possessing a variety of skills are required by the Air Force. Interested students should contact the Aerospace Studies Department for information on the Air Force career opportunities related to their academic major.

## Aerospace Studies Faculty

### Professor

*Lt. Colonel Robert E. Herndon, Jr.*

### Assistant Professors

*Major Kirstin L. Plagge, Commandant of Cadets*  
*Captain Gregg A. Smith, Unit Admissions Officer*

### Information Manager

*Technical Sergeant Holly A. Unger*

### Personnel Specialist

*Technical Sergeant Allan L. Arcia*

## Course Descriptions

Aerospace Studies (AS), pages 505-506

# Department of Agricultural Systems Technology and Education

**Department Head:** Bruce E. Miller  
**Location:** Agricultural Systems Technology and Education 101C  
**Phone:** (435) 797-2230  
**FAX:** (435) 797-4002  
**E-mail:** bruce.miller@usu.edu  
**WWW:** <http://www.usu.edu/aste/>

**Agricultural Systems Technology, Agricultural Education, and Agricultural Machinery Technology Advisor:**  
Eric B. Worthen, ASTE 113, (435) 797-7091, eric.worthen@usu.edu

**Family and Consumer Sciences Education Advisor:**  
Luella Oaks, Family Life 303A, (435) 797-1565,  
luella.oaks@usu.edu  
fcseadvising@aggiemail.usu.edu

**Degrees offered:** Bachelor of Science (BS) in Agricultural Education; BS in Agricultural Communication and Journalism (offered jointly with Journalism and Communication Department); BS, Master of Science (MS) in Agricultural Systems Technology; BS in Family and Consumer Sciences Education; Associate of Applied Science (AAS) in Agricultural Machinery Technology; One-year Certificate in Agricultural Machinery Technology

**Undergraduate emphases:** BS—*Agricultural Systems Technology*: Agribusiness and Agricultural Mechanization

**Graduate specializations:** MS—*Agricultural Extension Education*, Agricultural Mechanization, Family and Consumer Sciences Education and Extension, International Agricultural Extension, and Secondary and Postsecondary Agricultural Education

## Undergraduate Programs

### Objectives

The programs offered in the Agricultural Systems Technology and Education Department are for students who are preparing for positions as family and consumer sciences or agricultural education teachers, as well as for positions in family and consumer sciences education or agricultural extension, agricultural mechanization, agribusiness and communication, and agricultural production and management.

The facilities for these programs include laboratories with specially designed equipment for practical instruction in agricultural systems and mechanization, including computer applications, agribusiness, agricultural buildings, engines, electricity, hydraulics, machinery, and repair welding. Family and Consumer Sciences Education students use laboratories equipped for instruction in secondary education, clothing production, textile science, early childhood education, nutrition, and interior design.

### Requirements

#### Departmental Admission Requirements

Admission requirements for the Department of Agricultural Systems Technology and Education are the same as those described for the University on pages 30-35. Students in good standing may apply for admission to the department.

#### Bachelor of Science in Agricultural Education

Preparation in Agricultural Education includes technical agriculture, economics, and business. Students selecting the teaching option will also enroll in principles and techniques of teaching courses.

Students interested in teaching agricultural production and processing, agricultural mechanics, horticulture, or natural resources will be guided into areas of their major interest. Agricultural backgrounds or summer agricultural experiences are necessary for teacher certification.

An application for admission to teacher education should ordinarily be completed before the junior year (see Emma Eccles Jones College of Education and Human Services requirements, page 128). Approval for admission to teacher education is a prerequisite to enrollment in education and psychology courses. A 2.75 GPA is required for admission to the teacher education program.

Requirements for the **Bachelor of Science in Agricultural Education** are listed briefly. For more detailed information on courses and the recommended sequence for taking them, see the major requirement sheet available from the Agricultural Systems Technology and Education Department.

The Agricultural Education major involves four teaching areas, which correspond with the Utah agricultural education program model design. Students must complete the University Studies requirements (see pages 67-75). In addition, students must complete the following courses in preparation for teacher licensure:

#### Professional Education (14 credits)

<b>SCED 3100</b> Motivation and Classroom Management (F,Sp) .....	3
<b>SCED 3210 (CI/DSS)</b> Educational and Multicultural Foundations (F,Sp).....	3
<b>SCED 4200 (CI)</b> Reading, Writing, and Technology (F,Sp) .....	3
<b>SCED 4210</b> Cognition and Evaluation of Student Learning (F,Sp) .....	3
<b>SPED 4000</b> Education of Exceptional Individuals (F,Sp,Su) .....	2

#### Agricultural Education (26 credits)

<b>ASTE 2710</b> Orientation to Agricultural Education (F).....	2
<b>ASTE 3100</b> Leadership Applications in Agricultural Science, Management, and Development (Sp) .....	2
<b>ASTE 3240 (CI)</b> Teaching in Laboratory Settings (Sp).....	3
<b>ASTE 3300</b> Clinical Experience I in Agricultural Education (Sp).....	1
<b>ASTE 3620</b> Managing the FFA and SAE Programs (Sp).....	2
<b>ASTE 4150 (CI)</b> Methods of Teaching Agriculture (F) .....	3
<b>ASTE 4300</b> Clinical Experience II in Agricultural Education (F).....	1
<b>ASTE 5500</b> Agricultural Education Secondary Curriculum Seminar (Sp).....	2
<b>ASTE 5630</b> Agricultural Education Student Teaching in Secondary Schools (Sp).....	10

All students in the Agricultural Education major will complete a core of technical agricultural courses to include:

<b>ASTE 3050 (CI)</b> Technical and Professional Communication Principles in Agriculture (F,Sp) .....	3
<b>ASTE 3080</b> Compact Power Units for Agricultural and Turfgrass Applications (Sp) .....	3
<b>ADVS 1110</b> Introduction to Animal Science (F,Sp).....	4
<b>BIOL 1610</b> Biology I (F).....	4
<b>CHEM 1110 (BPS)</b> General Chemistry I (F,Sp).....	4
<b>SOIL 3000</b> Fundamentals of Soil Science (F,Sp).....	4

Students are required to designate a program emphasis for the following areas: Production and Processing; Agricultural Systems; Horticulture; and Natural Resources. Approximately 50 credits in a technical agriculture specialization are required in each of the four program area choices.

# Department of Agricultural Systems Technology and Education

## Emphasis Areas (52-57 credits)

These emphasis areas will *not* appear on a student's transcript. They are emphasis areas approved by the Utah State Office of Education.

### Production and Processing (52-53 credits)

ADVS 1110 Introduction to Animal Science (F,Sp)	4
ADVS 4560 (QI) Principles of Animal Breeding (F)	3
ADVS course	2-3
APEC 3010 Introduction to Agricultural Economics and Agribusiness (Sp) (3 cr) <b>or</b>	
APEC 3020 Firm Finance and Records Analysis (Sp) (3 cr)	3
ASTE 2200 Electricity in Agricultural Systems (Sp)	3
ASTE 2830 Agribusiness Sales and Marketing (F)	3
ASTE 3030 Metal Welding Processes and Technology in Agriculture (F)	3
ASTE 3040 (QI) Fabrication Practices in Agricultural Buildings (Sp)	2
ASTE 3050 (CI) Technical and Professional Communication Principles in Agriculture (F,Sp)	3
ASTE 3080 Compact Power Units for Agricultural and Turfgrass Applications (Sp)	3
BIOL 1610 Biology I (F)	4
CHEM 1110 (BPS) General Chemistry I (F,Sp)	4
PLSC 3050 Greenhouse Management and Crop Production (Sp)	4
PLSC 3700 Plant Propagation (F)	4
PLSC course	3
SOIL 3000 Fundamentals of Soil Science (F,Sp)	4

### Horticulture (55 credits)

ADVS 1110 Introduction to Animal Science (F,Sp)	4
ASTE 2830 Agribusiness Sales and Marketing (F)	3
ASTE 3040 (QI) Fabrication Practices in Agricultural Buildings (Sp)	2
ASTE 3050 (CI) Technical and Professional Communication Principles in Agriculture (F,Sp)	3
ASTE 3080 Compact Power Units for Agricultural and Turfgrass Applications (Sp)	3
BIOL 1610 Biology I (F)	4
CHEM 1110 (BPS) General Chemistry I (F,Sp)	4
PLSC 2200 Pest Management Principles and Practices (Sp)	3
PLSC 2600 Annual and Perennial Plant Materials (F)	3
PLSC 2620 Woody Plant Materials: Trees and Shrubs for the Landscape (F)	3
PLSC 3010 Basic Flower Arranging (F) (offered through Distance Education <i>only</i> )	2
PLSC 3050 Greenhouse Management and Crop Production (Sp)	4
PLSC 3300 Residential Landscapes (Sp)	3
PLSC 3700 Plant Propagation (F)	4
PLSC 3800 Turfgrass Management (F)	3
PLSC 4500 Fruit Production (Sp)	3
SOIL 3000 Fundamentals of Soil Science (F,Sp)	4

### Agricultural Systems (54 credits)

ADVS 1110 Introduction to Animal Science (F,Sp)	4
APEC 3010 Introduction to Agricultural Economics and Agribusiness (Sp) (3 cr) <b>or</b>	
APEC 3020 Firm Finance and Records Analysis (Sp) (3 cr)	3
ASTE 1010 Introduction to Agricultural Systems Technology (F)	3
ASTE 1640 Agricultural Equipment and Parts Marketing and Communications (F)	3
ASTE 2200 Electricity in Agricultural Systems (Sp)	3
ASTE 3030 Metal Welding Processes and Technology in Agriculture (F)	3
ASTE 3040 (QI) Fabrication Practices in Agricultural Buildings (Sp)	2
ASTE 3050 (CI) Technical and Professional Communication Principles in Agriculture (F,Sp)	3

ASTE 3080 Compact Power Units for Agricultural and Turfgrass Applications (Sp)	3
ASTE 3200 Irrigation Principles and Practices (Sp)	3
ASTE 3600 (QI) Management of Agricultural Machinery Systems (Sp)	3
ASTE 4100 Agricultural Structures and Environment (Sp)	3
ASTE 5260 (CI) Environmental Impacts of Agricultural Systems (F)	3
CHEM 1110 (BPS) General Chemistry I (F,Sp)	4
PHYS 1200 (BPS) Introduction to Physics by Hands-on Exploration	4
PLSC 4280 Field Crops (F)	3
SOIL 3000 Fundamentals of Soil Science (F,Sp)	4

### Natural Resources (54 credits)

ADVS 1110 Introduction to Animal Science (F,Sp)	4
ASTE 3040 (QI) Fabrication Practices in Agricultural Buildings (Sp)	2
ASTE 3050 (CI) Technical and Professional Communication Principles in Agriculture (F,Sp)	3
ASTE 3080 Compact Power Units for Agricultural and Turfgrass Applications (Sp)	3
ASTE 5260 (CI) Environmental Impacts of Agricultural Systems (F)	3
BIOL 1610 Biology I (F)	4
BIOL 1620 (BLS) Biology II (Sp)	4
BIOL 2220 General Ecology (F,Sp)	3
CHEM 1110 (BPS) General Chemistry I (F,Sp)	4
ENVS 2340 (BSS) Natural Resources and Society (F,Sp)	3
ENVS 3600 Living with Wildlife (Sp)	3
SOIL 3000 Fundamentals of Soil Science (F,Sp) (4 cr) <b>or</b>	
SOIL 4000 Soil and Water Conservation (F) (4 cr)	4
WILD 3600 Wildland Plant Ecology and Identification (F)	4
WILD 3610 Wildland Animal Ecology and Identification (F)	4
WILD 4000 Principles of Rangeland Management (Sp)	3
WILD 4900 Managing Dynamic Ecological Systems (Sp)	3

## Bachelor of Science in Agricultural Systems Technology (AST)

This major has two emphases: *Agribusiness and Agricultural Mechanization*. Preparation in either emphasis includes technical agriculture, economics, and business. The agricultural mechanization emphasis requires additional courses in technical electives and communication skills development.

The Bachelor of Science in Agricultural Systems Technology includes the following courses:

### Technical Requirements (20 credits)

ACCT 2010 Survey of Accounting I (F,Sp,Su)	3
APEC 3010 Introduction to Agricultural Economics and Agribusiness (Sp)	3
APEC 3020 Firm Finance and Records Analysis (Sp)	3
CHEM 1110 (BPS) General Chemistry I (F,Sp)	4
ECN 1500 (BAI) Introduction to Economic Institutions, History, and Principles (F,Sp,Su)	3
SOIL 3000 Fundamentals of Soil Science (F,Sp)	4

### Communications Intensive Courses (6 credits)

ASTE 3050 (CI) Technical and Professional Communication Principles in Agriculture (F,Sp)	3
ASTE 5260 (CI) Environmental Impacts of Agricultural Systems (F)	3

# Department of Agricultural Systems Technology and Education

## Agricultural Systems Courses (minimum of 24 credits)

ASTE 1010 Introduction to Agricultural Systems Technology (F).....	3
ASTE 2200 Electricity in Agricultural Systems (Sp) .....	3
ASTE 2830 Agribusiness Sales and Marketing (F) .....	3
ASTE 3030 Metal Welding Processes and Technology in Agriculture (F).....	3
ASTE 3080 Compact Power Units for Agricultural and Turfgrass Applications (Sp) .....	3
ASTE 3090 Computer Applications in Agriculture (F).....	3
ASTE 4100 Agricultural Structures and Environment (Sp).....	3
ASTE 4900 Senior Project Research and Creative Opportunity (Sp).....	1-6

## Designated Electives (minimum of 24 credits)

Select 24 credits from the following courses. Twelve of these credits must be selected from upper-division (3000-level and above) courses.

ASTE 1610 Agricultural Machinery Engines (F).....	3
ASTE 1615 Agricultural Machinery Engine Laboratory (F).....	3
ASTE 1620 Agricultural Machinery Power Trains (Sp).....	3
ASTE 1625 Agricultural Machinery Power Trains Laboratory (Sp).....	3
ASTE 3040 (QI) Fabrication Practices in Agricultural Buildings (Sp)....	2
ASTE 3100 Leadership Applications in Agricultural Science, Management, and Development (Sp) .....	2
ASTE 3200 Irrigation Principles and Practices (Sp).....	3
ASTE 3600 (QI) Management of Agricultural Machinery Systems (Sp).....	3
ASTE 3670 Agricultural Equipment Business Management, Marketing, and Communications (Sp) .....	3
ASTE 3900 Special Problems in Agricultural Systems Technology and Education (F,Sp,Su) .....	1-6
ASTE 4250 Occupational Experiences in Agriculture (F,Sp,Su) .....	1-6
ASTE 5100 Electrical Controls and Motors for Agri-Industrial Applications (Sp) .....	3
ADVS courses .....	6-12
ACCT courses .....	6-12
APEC courses .....	6-12
FIN and MGT courses .....	12-24
MIS courses.....	6-12
PLSC courses.....	6-12
SOIL courses .....	6-12

Students will complete a minor in Business or Agribusiness. Additional requirements in Animal Science; Plant and Soil Sciences; and Wildland Resources must also be met. In addition, students must complete the University Studies Requirements (see pages 67-75). Students must complete elective credits to meet the University's requirement of at least 120 credits.

## Agricultural Systems Technology and Agribusiness Composite Major

### Applied Economics and Economics Courses (21 credits)

APEC/ECN 2010 (BSS) Introduction to Microeconomics (F,Sp,Su) .....	3
APEC 3010 Introduction to Agricultural Economics and Agribusiness (Sp) .....	3
APEC 3020 Firm Finance and Records Analysis (Sp) .....	3
APEC 5010 (QI) Firm Marketing and Price Analysis (F) .....	3
APEC 5015 Firm Management, Planning, and Optimization (F).....	3
ECN 1500 (BAI) Introduction to Economic Institutions, History, and Principles (F,Sp,Su).....	3
ECN 3010 (DSS) Managerial Economics (F,Sp) .....	3

## Agricultural Systems Courses (24 credits)

ASTE 1010 Introduction to Agricultural Systems Technology (F).....	3
ASTE 2200 Electricity in Agricultural Systems (Sp) .....	3
ASTE 3030 Metal Welding Processes and Technology in Agriculture (F) (3 cr) or	
ASTE 4100 Agricultural Structures and Environment (Sp) (3 cr) .....	3
ASTE 3050 (CI) Technical and Professional Communication Principles in Agriculture (F,Sp) .....	3
ASTE 3090 Computer Applications in Agriculture (F).....	3
ASTE 3200 Irrigation Principles and Practices (Sp) (3 cr) or	
ASTE 3080 Compact Power Units for Agricultural and Turfgrass Applications (Sp) (3 cr) .....	3
ASTE 3600 (QI) Management of Agricultural Machinery Systems (Sp).....	3
ASTE 5260 (CI) Environmental Impacts of Agricultural Systems (F) ....	3

## Technical Requirements (27 credits)

ACCT 2010 Survey of Accounting I (F,Sp,Su).....	3
ACCT 2020 Survey of Accounting II (F,Sp,Su).....	3
CHEM 1010 (BPS) Introduction to Chemistry (F,Sp).....	3
MATH 1050 (QL) College Algebra (F,Sp,Su).....	4
MATH 1100 (QL) Calculus Techniques (F,Sp,Su) .....	3
MGT 2050 Legal and Ethical Environment of Business (F,Sp,Su) .....	3
SOIL 4000 Soil and Water Conservation (F).....	4
STAT 2300 (QL) Business Statistics (F,Sp,Su) .....	4

## University Studies Requirements

### (not met as part of above requirements) (18 credits)

Communications Literacy (CL1 and CL2) courses .....	6
Breadth Creative Arts (BCA) course.....	3
Breadth Humanities (BHU) course .....	3
Breadth Life Sciences (BLS) course.....	3
Depth Humanities and Creative Arts (DHA) course.....	3
Computer and Information Literacy (CIL) Exam.....	0

## General Electives (24 credits)

Total Credits for Graduation.....	120
-----------------------------------	-----

## Bachelor of Science in Agricultural Communication and Journalism

To develop a well-rounded agricultural communication professional, the BS degree in Agricultural Communication and Journalism combines courses in journalism with courses in agriculture. Students take coursework in a variety of technical agricultural disciplines, including animal science, plant science, agricultural economics, textiles, and biotechnology. This training provides students with the basic knowledge to draw from as they communicate the importance of the food and fiber industry. This program is designed so that students may complete a dual major in Journalism.

## University Studies—Competency

ENGL 1010 (CL1) Introduction to Writing: Academic Prose (F,Sp,Su) .....	3
ENGL 2010 (CL2) Intermediate Writing: Research Writing in a Persuasive Mode (F,Sp,Su).....	3
(Note: Alternatively, the CL1 and CL2 requirements may be fulfilled through testing. See page 67 for further information.)	
MATH 1050 (QL) College Algebra (F,Sp,Su).....	4

# Department of Agricultural Systems Technology and Education

## University Studies—Breadth

Students must complete a minimum of 18 credits in breadth courses, including one course from each of the six categories (BAI, BCA, BHU, BLS, BPS, and BSS). At least two of these six courses must have a USU prefix. The following courses are suggested for students in the Agricultural Communication and Journalism major.

<b>CHEM 1010 (BPS)</b> Introduction to Chemistry (F,Sp).....	3
<b>ECN 1500 (BAI)</b> Introduction to Economic Institutions, History, and Principles (F,Sp,Su).....	3
<b>JCOM 1500 (BSS)</b> Introduction to Mass Communication (F,Sp) .....	3
<b>USU 1350 (BLS)</b> Integrated Life Science (F,Sp,Su).....	3
Breadth Creative Arts (BCA) course.....	3
Breadth Humanities (BHU) course.....	3

## University Studies—Depth

Two Communications Intensive (CI) courses and one Quantitative Intensive (QI) course are required. Students in the Agricultural Communication and Journalism major must also take one Depth Humanities and Creative Arts (DHA) course and one Depth Social Sciences (DSS) course. The CI requirement may be fulfilled with two of ASTE 3050, 5260, and JCOM 2610 (required for the major). JCOM 4030 (taken as part of the major) will fulfill the DSS requirement.

## Technical Agriculture Courses (18 credits)

<b>ADVS 1110</b> Introduction to Animal Science (F,Sp).....	4
<b>APEC 3010</b> Introduction to Agricultural Economics and Agribusiness (Sp) .....	3
<b>FCSE 3030 (QI)</b> Textile Science.....	4
<b>NFS 2040</b> Introduction to Biotechnology (Sp).....	1
<b>PLSC 4300</b> World Food Crops and Cropping Systems: The Plants That Feed Us (F).....	3
Upper-division College of Agriculture elective course .....	3

## Agricultural Communication Courses (23 credits)

<b>ASTE 1710</b> Introduction to Agricultural Communication (F).....	3
<b>ASTE 2830</b> Agribusiness Sales and Marketing (F) .....	3
<b>ASTE 2900 (BSS)</b> Humanity in the Food Web (F,Sp).....	3
<b>ASTE 3050 (CI)</b> Technical and Professional Communication Principles in Agriculture (F,Sp) .....	3
<b>ASTE 3090</b> Computer Applications in Agriculture (F).....	3
<b>ASTE 3100</b> Leadership Applications in Agricultural Science, Management, and Development (Sp) .....	2
<b>ASTE 4900</b> Senior Project: Agricultural Publications (Sp) .....	3
<b>ASTE 5260 (CI)</b> Environmental Impacts of Agricultural Systems (F)....	3

## Journalism and Communication (15 credits)

<b>JCOM 1130</b> Beginning Newswriting for the Mass Media (F,Sp,Su) .....	3
<b>JCOM 1500 (BSS)</b> Introduction to Mass Communication (F,Sp) .....	3
<b>JCOM 2010 (BSS)</b> Media Smarts: Making Sense of the Information Age (F,Sp).....	3
<b>JCOM 2160 (CI)</b> Introduction to Online Journalism (F,Sp).....	3
<b>JCOM 4030 (DSS)</b> Mass Media Law (F,Sp).....	3

## Public Relations/Corporate Communication Concentration (example)

**Note:** Agricultural Communication and Journalism students may elect to concentrate their coursework within one of the three Journalism major emphases (broadcast/electronic media, print journalism, or public relations/corporate communication), or they may construct an individually designed concentration with the approval of the Journalism and Communication Department faculty.

<b>JCOM 2300</b> Introduction to Public Relations (F,Sp).....	3
<b>JCOM 2310 (CI)</b> Writing for Public Relations (F,Sp) .....	3
<b>JCOM 3300 (DSS)</b> Strategic Research Methods in Public Relations (F,Sp) .....	3
<b>JCOM 5300 (CI)</b> Case Studies in Public Relations (F,Sp).....	3
Elective skills course .....	3

## Non-Agriculture/Communication Electives

Additional elective courses in fields *other than* agriculture and communication must be taken to complete the remainder of the minimum 120 credits required for graduation.

## Associate of Applied Science Degree in Agricultural Machinery Technology

The Associate of Applied Science Degree in Agricultural Machinery Technology consists of a minimum of 6 credits of University Studies courses, 45 credits in the major (Agricultural Systems Technology and Education), 9 credits in business or related elective coursework, for a total of not less than 60 credits. The suggested breakdown of coursework is listed below.

### University Studies (6 credits)

Classes will be selected from a minimum of two areas for a total of 6 credits. ENGL 1010, Introduction to Writing: Academic Prose (or an equivalent writing or communications class) must be completed as one of these classes.

### Core Classes (45 credits)

The following 45 credits are required:

<b>ASTE 1010</b> Introduction to Agricultural Systems Technology (F).....	3
<b>ASTE 1120</b> Forage and Harvest Equipment (F).....	3
<b>ASTE 1130</b> Planting and Tillage Equipment (Sp).....	3
<b>ASTE 1610</b> Agricultural Machinery Engines (F).....	3
<b>ASTE 1615</b> Agricultural Machinery Engine Laboratory (F).....	3
<b>ASTE 1620</b> Agricultural Machinery Power Trains (Sp).....	3
<b>ASTE 1625</b> Agricultural Machinery Power Trains Laboratory (Sp).....	3
<b>ASTE 2200</b> Electricity in Agricultural Systems (AC) (Sp).....	3
<b>ASTE 3030</b> Metal Welding Processes and Technology in Agriculture (F).....	3
<b>ASTE 3080</b> Compact Power Units for Agricultural and Turfgrass Applications (Sp) .....	3
<b>ASTE 3090</b> Computer Applications in Agriculture (F).....	3
<b>ASTE 3600</b> Management of Agricultural Machinery Systems (Sp).....	3
<b>ASTE 3670</b> Agricultural Equipment Business Management, Marketing, and Communications (Sp) .....	3
<b>ASTE 3710</b> Agricultural Machinery Hydraulic Systems and Diagnosis (F) .....	3
<b>ASTE 3720</b> Agricultural DC Electrical Systems and Diagnosis (F).....	3

### Business or Related Elective Classes (select 9 credits)

<b>ADVS 1110</b> Introduction to Animal Science (F,Sp).....	4
<b>ASTE 2250</b> Occupational Experience in Agriculture (F,Sp).....	5
<b>ASTE 2830</b> Agribusiness Sales and Marketing (F) .....	3
<b>ASTE 2900 (BSS)</b> Humanity in the Food Web (F,Sp).....	3
<b>ASTE 2930</b> Individualized Projects in Agricultural Mechanics (F,Sp).1-3	
<b>ASTE 3040</b> Fabrication Practices in Agricultural Buildings (Sp) .....	2
<b>ASTE 3050</b> Technical and Professional Communication Principles in Agriculture (F,Sp).....	3
<b>ASTE 3090</b> Computer Applications in Agriculture (F).....	3
<b>ASTE 3100</b> Leadership Applications in Agricultural Science, Management, and Development (Sp) .....	2
<b>ASTE 3200</b> Irrigation Principles and Practices (Sp).....	3
<b>ASTE 3900</b> Special Problems in Agricultural Systems Technology and Education (F,Sp,Su) .....	1-6
<b>ASTE 4100</b> Agricultural Structures and Environment (Sp).....	3

# Department of Agricultural Systems Technology and Education

<b>ASTE 5100</b> Electrical Controls and Motors for Agri-Industrial Applications (Sp) .....	3
<b>ASTE 5260</b> Environmental Impacts of Agricultural Systems (F) .....	3
<b>BIOL 1610</b> Biology I (F).....	4
<b>CHEM 1110 (BPS)</b> General Chemistry I (F,Sp).....	4
<b>MATH 1050 (QL)</b> College Algebra (F,Sp,Su).....	4
<b>NR 1010 (BSS)</b> Humans and the Changing Global Environment.....	3
<b>PHYS 1200 (BPS)</b> Introduction to Physics by Hands-on Exploration ...	4
<b>PLSC 2200</b> Pest Management Principles and Practices (Sp).....	3
<b>PLSC 2620</b> Woody Plant Materials: Trees and Shrubs for the Landscape (F) .....	3
<b>PLSC 3050</b> Greenhouse Management and Crop Production (Sp) .....	4
<b>PLSC 3300</b> Residential Landscapes (Sp).....	3
<b>PLSC 3400</b> Landscape Management Principles and Practices (F) .....	3
<b>PLSC 3800</b> Turfgrass Management (F) .....	3
<b>PLSC 5550</b> Weed Biology and Control (F).....	4
<b>WATS 1200 (BLS)</b> Biodiversity and Sustainability (F,Sp).....	3
<b>WILD 4000</b> Principles of Rangeland Management (Sp).....	3

## Elective Courses

Students should select credits approved by the Agricultural Systems Technology and Education Department for flexibility in strengthening areas of insufficient background.

A total of 60 credits are required.

## Agricultural Machinery Technology Certificate

This one-year agricultural program meets the needs of persons interested in employment opportunities with agricultural dealerships and companies in the areas of parts and service, as well as with farm suppliers, feed and fertilizer agencies, corporate farms and ranches, and other related industries. The vocationally oriented agricultural technology program includes a cooperative occupational experience placement at the end of the first year of instruction.

Requirements for the one-year program include a minimum of 31 credits, with the following breakdown of suggested coursework:

### Fall Semester

<b>ASTE 1010</b> Introduction to Agricultural Systems Technology .....	3
<b>ASTE 1120</b> Forage and Harvest Equipment .....	3
<b>ASTE 1610</b> Agricultural Machinery Engines.....	3
<b>ASTE 1615</b> Agricultural Machinery Engine Laboratory .....	3
<b>ASTE 3090</b> Computer Applications in Agriculture .....	3
<b>ASTE 3710</b> Agricultural Machinery Hydraulic Systems and Diagnosis.....	3

### Spring Semester

<b>ASTE 1130</b> Planting and Tillage Equipment.....	3
<b>ASTE 1620</b> Agricultural Machinery Power Trains.....	3
<b>ASTE 1625</b> Agricultural Machinery Power Trains Laboratory .....	3
<b>ASTE 2250</b> Occupational Experience in Agriculture .....	1-6
<b>ASTE 3080</b> Compact Power Units for Agricultural and Turfgrass Applications .....	3

See major requirement sheet, available from the department, for more information.

## Minor in Agricultural Systems Technology

A minimum of 18 credits approved by a faculty advisor are required.

## Bachelor of Science in Family and Consumer Sciences Education (FCSE)

This major provides professional preparation for teaching Family and Consumer Sciences Education and Occupational Family and Consumer Sciences Education in public schools, or for employment as a family and consumer scientist in business or government agencies, and extension. Many states, including Utah, require a master's degree to work for extension.

This composite major includes study in nutrition and food sciences, family and human development, interior design, apparel and textiles, and consumer sciences, plus professional education courses.

Student teaching in secondary public schools is required. Internships in extension or business are available.

The following courses are required for the Family and Consumer Sciences Education Major.

### Required Support Courses and Prerequisites

<b>MATH 1050 (QL)</b> College Algebra (F,Sp,Su).....	4
<b>CHEM 1110 (BPS)</b> General Chemistry I (F,Sp).....	4
<b>CHEM 1120 (BPS)</b> General Chemistry II (Sp).....	4

### Major Required Courses (90 credits)

A grade of C or better must be earned in these courses

<b>FCHD 1500 (BSS)</b> Human Development Across the Lifespan (F,Sp)...	3
<b>FCHD 2400 (BSS)</b> Marriage and Family Relationships (F,Sp).....	3
<b>FCHD 2100</b> Family Resource Management (F,Sp) .....	3
<b>FCHD 2610</b> Child Guidance (F,Sp) .....	3
<b>FCHD 3350 (DSS)</b> Family Finance (F,Sp,Su) .....	3
<b>FCHD 4550</b> Preschool Methods and Curriculum (F,Sp).....	3
<b>FCSE 2040</b> Clothing Production Principles (F,Sp) .....	3
<b>FCSE 2510</b> Orientation to Family and Consumer Sciences Education (Sp).....	3
<b>FCSE 3030 (DSC/QL)</b> Textile Science (Sp) .....	4
<b>FCSE 3040</b> Advanced Clothing Production Principles (F).....	3
<b>FCSE 3080 (DHA)</b> Dress and Humanity (F,Sp).....	3
<b>FCSE 3300</b> Family and Consumer Sciences Education Clinical Experience I (40 hrs. minimum) (Sp).....	1
<b>FCSE 3400</b> Family and Consumer Sciences Education Methods I (Sp).....	3
<b>FCSE 3790</b> Housing and Interior Design Teaching Methods (F,Sp,Su) .....	3
<b>FCSE 4250</b> Internship in Family and Consumer Sciences Education (F,Sp,Su).....	2
<b>FCSE 4300</b> Family and Consumer Sciences Education Clinical Experience II (40 hrs. minimum) (F).....	1
<b>FCSE 4400</b> Family and Consumer Sciences Education Methods II (F) .....	3
<b>FCSE 5500</b> Student Teaching Seminar (2 weeks) (Sp) .....	2
<b>FCSE 5630</b> Student Teaching in Secondary Schools (13 weeks, full-time) (Sp) .....	10
<b>ID 1750 (BCA)</b> Design in Everyday Living (Su).....	3
<b>INST 3500</b> Technology Tools for Secondary Teachers (F,Sp,Su).....	1
<b>NFS 1020 (BLS)</b> Science and Application of Human Nutrition (F,Sp,Su) .....	3
<b>NFS 1240</b> Culinary Basics (F,Su).....	3
<b>NFS 2020</b> Nutrition Throughout the Life Cycle (Sp) .....	3
<b>NFS 3070</b> Science of Food Preparation (Sp).....	4
<b>SCED 3100</b> Motivation and Classroom Management (F,Sp) .....	3
<b>SCED 3210 (DSS/CI)</b> Educational and Multicultural Foundations (F,Sp).....	3
<b>SCED 4200 (CI)</b> Reading, Writing, and Technology (F,Sp) .....	3
<b>SCED 4210</b> Cognition and Evaluation of Student Learning (F,Sp) .....	3
<b>SPED 4000</b> Education of Exceptional Individuals (F,Sp,Su) (May be taken anytime).....	2

# Department of Agricultural Systems Technology and Education

## Suggested Four-year Plans

Suggested semester-by-semester four-year plans for students working toward a Bachelor of Science degree in majors within the Department of Agricultural Systems Technology and Education can be found at: <http://www.usu.edu/degreeplans/>

Students should consult with their advisor to develop a plan of study tailored to their individual needs and interests.

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school. Minimum GPA requirements for participation in departmental honors vary by department, but usually fall within the range of 3.30-3.50. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level. The campus-wide Honors Program, which is open to all qualified students regardless of major, offers a rich array of cultural and social activities, special classes, and the benefit of Honors early registration. Interested students should contact the Honors Program, Main 15, (435) 797-2715, [honors@usu.edu](mailto:honors@usu.edu). Additional information can be found online at: <http://www.usu.edu/honors/>

## Additional Information

For further information about undergraduate programs and requirements in the Department of Agricultural Systems Technology and Education, see the major requirement sheets, which can be obtained from the department, or accessed online at: <http://www.usu.edu/majorsheets/>

## Graduate Programs

### Admission Requirements

See general admission requirements, pages 36-37. Applications will be considered throughout the year. However, students who wish to be considered for financial aid must apply by February 1 for the coming academic year. No application will be considered until all required information arrives at the office of the School of Graduate Studies.

### Course Requirements

#### Master of Science

The MS program requires the completion of a minimum of 33 credits beyond the bachelor's degree. These credits must be approved by a supervisory committee. However, to optimize a student's academic experiences, 36 credits are recommended. A 15-credit core curriculum is required and includes courses in research/statistics and completion of a Plan A thesis for 6 credits or a Plan C program with a minimum of 37 credits. Students are also expected to select and complete an area of specialization.

In the Family and Consumer Sciences Education and Extension specialization, a Plan B option is available. This plan involves 33 credits of instruction (includes 3 thesis credits) and the development and presentation of a creative project.

The following four specializations are available for the MS in Agricultural Education:

The **Agricultural Extension Education** specialization provides a program for individuals interested in cooperative extension work. The curriculum for the program includes coursework related to managing people; planning, implementing, and evaluating programs to promote technology transfer (adult education); understanding research techniques relevant to agricultural education; and the managing of fiscal affairs.

Electives are selected from each of the following departments: Agricultural Systems Technology and Education; Applied Economics; Animal, Dairy and Veterinary Sciences; Economics and Finance; Biology; Plants, Soils, and Climate; Wildland Resources; and Instructional Technology and Learning Sciences.

The **Secondary and Postsecondary Agricultural Education** specialization is designed for persons desiring to improve their competencies as educators. This specialization provides teachers with opportunities to acquire additional knowledge in professional education and in their teaching specialties. The master's degree *does not* result in a teaching license for public schools.

The purpose of the **Family and Consumer Sciences Education and Extension** specialization is to expand academic preparation in an area of study such as family studies, housing, textiles and clothing, nutrition and food sciences, and management of personal resources. This specialization places emphasis on teaching and curriculum/program development and/or Extension. Students are prepared for community professions, including secondary teaching (since students earn a teaching license), urban and rural extension, social science, and business. Study may lead to supervisory and administrative positions in business, technical schools, and applied technology colleges, or to consulting positions in mass media and industry. The master's degree *does not* result in a teaching license for public schools.

The **International Agricultural Extension** specialization was developed to prepare agriculturally educated people to perform administrative and supervisory roles in less-developed countries. The curriculum for this program includes coursework related to managing people; planning, implementing, and evaluating programs to promote technology transfer; and managing fiscal affairs. Electives are selected from each of the following departments: Agricultural Systems Technology and Education; Animal, Dairy and Veterinary Sciences; Applied Economics; Economics and Finance; Biology; Plants, Soils, and Climate; and Instructional Technology and Learning Sciences.

### Research

The Utah Agricultural Experiment Station, a component of the College of Agriculture, supports graduate work in several areas of Agricultural Systems Technology and Education. Other state and federal agencies also support research in agricultural systems.

# Department of Agricultural Systems Technology and Education

---

## Financial Assistance

Both departmental and formal grant support are available to graduate students and are awarded on a competitive basis. Students requesting financial support should apply to the department.

Research assistantships are available through faculty members who have ongoing projects with the Utah Agricultural Experiment Station or who hold special research grants from the University, private companies, or state-federal agencies. Acceptance to pursue graduate study does not guarantee the student financial assistance.

## Requirement Changes

Graduation requirements described in this catalog are subject to change. Students should check with their departments concerning possible changes.

## Agricultural Systems Technology and Education Faculty

### Professors

*Bruce E. Miller*, agricultural systems and mechanization  
*Gary S. Straquadine*, agricultural education/extension

### Adjunct Professor

*Kevin C. Kesler*, 4-H and youth development programs

### Professors Emeritus

*Gilbert A. Long*, agricultural education  
*Weldon S. Sleight*, extension education

### Associate Professors

*F. Richard Beard*, research and extension, agricultural engineering  
*Rhonda L. Miller*, sustainable agriculture/agricultural systems  
*Rudy S. Tarpley*, agricultural education, teacher preparation

### Assistant Professors

*Brian K. Warnick*, agricultural education, teacher preparation  
*Lindsey Shirley*, family and consumer sciences education,  
teacher preparation

### Lecturers

*Royce Hatch*, agricultural machinery technology  
*Luella Oaks*, apparel and textiles  
*Afifa Sabir*, education and outreach, Biotechnology Center  
*Eric B. Worthen*, agricultural systems  
*Julie P. Wheeler*, family and consumer sciences education

### Academic Advisors

*Luella Oaks*, Family and Consumer Sciences Education  
*Eric B. Worthen*, Agricultural Systems Technology and Education

## Course Descriptions

Agricultural Systems Technology and Education (ASTE),  
pages 506-508

Family and Consumer Sciences Education (FCSE), pages 564-565

# Department of Animal, Dairy and Veterinary Sciences

**Department Head:** Kenneth L. White

**Location:** Agricultural Science 230

**Phone:** (435) 797-2162

**FAX:** (435) 797-2118

**E-mail:** advsdept@adv.susu.edu

**WWW:** <http://www.advs.susu.edu>

**Associate Department Head of Academic Programs:**

Thomas D. Bunch, Agricultural Science 228, (435) 797-2148,  
[tom.bunch@susu.edu](mailto:tom.bunch@susu.edu)

**Associate Department Head of Extension and Outreach:**

Dale R. ZoBell, Agricultural Science 246, (435) 797-2144,  
[dale.zobell@susu.edu](mailto:dale.zobell@susu.edu)

**Undergraduate Advisor:**

Tami Spackman, Agricultural Science 242, (435) 797-2150,  
[tami.spackman@susu.edu](mailto:tami.spackman@susu.edu)

**Degrees offered:** Bachelor of Science (BS) in Animal, Dairy and Veterinary Sciences; Master of Science (MS) in Animal Science, Bioveterinary Science, Dairy Science; Doctor of Philosophy (PhD) in Animal Science and Bioveterinary Science; MS and PhD degrees in Toxicology are available through the Interdepartmental Toxicology program

**Undergraduate Emphases:** Animal and Dairy Science, Biotechnology, Bioveterinary Science, and Equine Science and Management

**Graduate Specializations:** *Animal/Dairy Science*—Animal Nutrition, Breeding and Genetics, Molecular Biology, Reproductive Biology, Animal or Dairy Management (MS only)

**Certificate Program:** Dairy Herdsman

## Undergraduate Programs

### Objectives

Bachelor's degree students majoring in Animal, Dairy and Veterinary Sciences may choose a program from four career emphasis areas: **Animal and Dairy Science, Biotechnology, Bioveterinary Science, and Equine Science and Management.**

The curricula in the **Animal and Dairy Science Emphasis** is designed to prepare students for a variety of rewarding careers in the dynamic disciplines of animal and dairy agriculture. Teaching and research facilities, as well as the USU livestock herds and flocks, are available for hands-on practical laboratory experiences, along with faculty-mentored research projects. Graduates from this emphasis may seek careers in animal or dairy production and management; in state or federal government agricultural agencies; and in fields that support or interact with animal agriculture, such as corporate agribusiness, wholesale and retail marketing and sales, commodity trading, animal product processing, agricultural cooperatives, and producer/commodity associations. This emphasis may also prepare students for advanced degrees in areas such as animal research in genetics, reproductive biology, nutrition, and management. An especially close student-advisor relationship is required to help students develop, schedule, and accelerate their personal undergraduate degree program and is essential for professional success in these areas.

The **Biotechnology Emphasis** is designed to prepare students who earn a bachelor's degree for careers in the expanding biotechnology

industry or for graduate study in related fields. Nationwide there are more than 1,200 biotechnology/biopharmaceutical companies with additional start-ups developing every year. Increases in federal funding for research in animal biotechnology, along with heightened private sector activity, have led to unprecedented career prospects in molecular biology, genomics, bioinformatics, developmental biology, and associated areas. USU has made a major commitment to biotechnology since 1986. The ADVS Department is heavily involved in biotechnology research and teaching, and the resources of the Center for Integrated BioSystems are also available to support this emphasis.

The ADVS Department offers a strong program in preveterinary study leading to the BS degree in the **Bioveterinary Science Emphasis**. This is not a college of veterinary medicine, but a preveterinary program. The degree is a nonterminal program designed primarily for those students who intend to apply to veterinary school. This program consists of three to four years of study, after which the student is eligible to apply to several veterinary schools. The preveterinary program can be individually tailored to maximize a student's chances of gaining acceptance into a school of veterinary medicine. If a student is uncertain of his or her interests and aptitudes for veterinary medicine, the program is an excellent opportunity to gain experience and make career choices. The student who wants to test his or her potential in a veterinary career should first enroll in the preveterinary program and then later can simultaneously develop a major in another field. Students should consult with the ADVS academic advisor and the preveterinary program coordinator to develop a program of study which best meets their needs and requirements.

There are many exciting career paths in the equine industry, and the ADVS Department has the resources and courses to prepare students to determine their path. The **Equine Science and Management Emphasis** provides an education that will place students among the most sought-after graduates in the equine industry. The program offers courses, internships, volunteer activities, and clubs that prepare students specifically for careers in various aspects of the equine industry. Students will be able to obtain hands-on experiences in the classroom, arena, and stabling facilities. Opportunities will be available in horsemanship, training, managing horses of all ages, stallion handling and breeding, and mare and foal care.

Instruction in the ADVS Department also encompasses a diversified co-curricular program including allied clubs, intercollegiate livestock judging and rodeo teams, and involvement with their respective professional societies.

### Preveterinary Program

Preveterinary students take courses required by veterinary schools. Classes should be planned to assure meeting the current requirements for the veterinary schools to which the student plans to apply for admission. In most cases, preveterinary preparation requires a major portion of three academic years. Students accepted into veterinary school prior to completion of their BS degree may transfer credits back to USU for completion of their BS degree in Bioveterinary Science.

Utah participates in WICHE (Western Interstate Commission for Higher Education) which provides state subsidization of Utah resident (5 years or longer at the time of application) students entering any veterinary school that is a WICHE-participating school. At present this includes Colorado State University, Washington State University, and Oregon State University. The State of Utah also provides some support for a limited number of resident students who enroll at non-WICHE veterinary schools in the continental United States. Students may also apply to other veterinary schools as out-of-state applicants.

# Department of Animal, Dairy and Veterinary Sciences

## Vocational Subbaccalaureate Program

### Dairy Herdsman Certificate

Students completing the required courses and experience in the Dairy Herdsman's curriculum usually find employment with a commercial or family dairy. Some enter dairy-related businesses. Students desiring to continue their dairy education may complete a BS degree in three additional years with proper planning and suitable academic performance.

## Requirements

### Departmental Admission Requirements

Undergraduate admission requirements for the Animal and Dairy Science, Biotechnology, and Equine Science and Management emphases are the same as those described for the University. Students in good standing may apply for admission to the department. New freshmen admitted to USU in good standing qualify for admission to the Bioveterinary Science emphasis. Students with less than 60 semester credits transferring from other institutions need a 2.2 transfer GPA, and students with less than 60 semester credits transferring from other USU majors need a 2.0 GPA for admission to the Bioveterinary Science emphasis. All students with 60 or more semester credits need a 2.75 total GPA to be admitted to advanced standing in Bioveterinary Science.

### Departmental Standards

The following minimum requirements apply to all students working toward a bachelor's degree in Animal, Dairy and Veterinary Sciences. Bachelor's degree candidates must comply with these requirements in order to graduate: (1) courses required for the major may be repeated only once to improve a grade, and (2) courses required for the major may not be taken for pass-fail credit. In addition to these requirements, candidates must attain a grade point average of at least 2.50 in the ADVS courses specified as requirements in their emphasis curricula to graduate. Animal and Dairy Science, Biotechnology, and Equine Science and Management emphases candidates must attain an overall GPA of at least 2.25 to graduate. Bioveterinary Science emphasis candidates must attain an overall GPA of at least 3.0 to graduate.

## Academic Advising

Successful completion of a bachelor's degree program in the ADVS Department requires that a very close student-academic advisor relationship be established and continued through each student's bachelor's degree program. Each student must take the responsibility of establishing this close working relationship with his or her advisor. Doing this soon after a student's acceptance into the department can keep academic problems to a minimum.

## Graduation Requirements

Courses required and recommended for meeting BS degree graduation requirements in the various emphases available in the department are as follows.

## Animal and Dairy Science Emphasis

### Freshman Year

#### Fall Semester

ADVS 1110 Introduction to Animal Science.....	4
ADVS 1910 Orientation to Animal and Dairy Science.....	0.5
ADVS 2120 <sup>1</sup> Swine Production Practices (2 cr) <b>or</b>	
ADVS 2130 <sup>1</sup> Dairy Production Practices (3 cr) <b>or</b>	
ADVS 2190 <sup>1</sup> Horse Production Practices (2 cr) .....	2 or 3
MATH 1050 (QL) College Algebra.....	4
University Studies Breadth Course.....	3

#### Spring Semester

ADVS 2200 Anatomy and Physiology of Animals.....	4
ENGL 1010 (CL1) Introduction to Writing: Academic Prose .....	3
ADVS 2080 <sup>1</sup> Beef Production Practices (2 cr) <b>or</b>	
ADVS 2090 <sup>1</sup> Sheep Production Practices (2 cr).....	2
STAT 1040 (QL) Introduction to Statistics (3 cr) <b>or</b>	
STAT 2000 (QI) Statistical Methods (3 cr).....	3
University Studies Breadth Course.....	3

### Sophomore Year

#### Fall Semester

CHEM 1210 Principles of Chemistry I.....	4
CHEM 1215 Chemical Principles Laboratory I .....	1
Two University Studies Breadth Courses .....	6
Directed Elective Course .....	3

#### Spring Semester

CHEM 1220 (BPS) Principles of Chemistry II .....	4
CHEM 1225 Chemical Principles Laboratory II .....	1
ADVS 3000 Animal Health and Hygiene .....	3
ENGL 2010 (CL2) Intermediate Writing: Research Writing in a Persuasive Mode .....	3
Directed Elective Course .....	3

### Junior Year

#### Fall Semester

BIOL 1610 Biology I .....	4
ADVS 3500 Principles of Animal Nutrition .....	3
ADVS 4910 Preprofessional Orientation .....	0.5
Two Directed Elective Courses.....	6
University Studies Depth Course.....	3

#### Spring Semester

BIOL 1620 (BLS) Biology II.....	4
ADVS 3510 (QI) Applied Animal Nutrition .....	3
ADVS 4200 (CI) Physiology of Reproduction and Lactation .....	4
Directed Elective Course .....	3

### Senior Year

#### Fall Semester

ADVS 4560 (QI) Principles of Animal Breeding.....	3
ADVS 4920 (CI) Undergraduate Seminar .....	2
ADVS 5120 <sup>2</sup> Swine Management.....	3
ADVS 4250 Internship in Animal Industry (3 cr) <b>or</b>	
ADVS 4800 Undergraduate Research or Creative Opportunity (3 cr) .....	3
Directed Elective Course .....	3

# Department of Animal, Dairy and Veterinary Sciences

## Spring Semester

<b>ADVS 5080<sup>2</sup></b> Beef Management (3 cr) <b>or</b>	
<b>ADVS 5090<sup>2</sup></b> Sheep Management and Wool Technology (4 cr) <b>or</b>	
<b>ADVS 5130<sup>2</sup></b> Dairy Cattle Management (3 cr) <b>or</b>	
<b>ADVS 5190<sup>2</sup></b> Horse Management (3 cr) .....	3-4
Two Directed Elective Courses.....	6
University Studies Depth Course.....	3

## Directed Electives

Students must choose eight courses from the following:

<b>ACCT 2010<sup>3</sup></b> Survey of Accounting I (F,Sp,Su) .....	3
<b>ADVS 3650</b> Live Animal and Carcass Evaluation (F).....	3
<b>ADVS 5030</b> Sustainable Agricultural Production Systems with Animals (F).....	3
<b>ADVS 5530</b> Nutritional Management of Farm Animals (Sp).....	3
<b>ADVS 5860</b> Poisonous Range Plants Affecting Livestock (Sp).....	3
One additional management course (ADVS 5080, 5090, 5120, 5130, or 5190) .....	3-4
<b>APEC/ECN 2010 (BSS)</b> Introduction to Microeconomics (F,Sp,Su) .....	3
<b>APEC 3010<sup>3</sup></b> Introduction to Agricultural Economics and Agribusiness (Sp) .....	3
<b>APEC 3020<sup>3</sup></b> Firm Finance and Records Analysis (Sp).....	3
<b>APEC 5010 (QI)</b> Firm Marketing and Price Analysis (F) .....	3
<b>BIOL 3060 (QI)</b> Principles of Genetics (F,Sp,Su) .....	4
<b>BIOL 3300</b> General Microbiology (F,Sp) .....	4
<b>BUS 3400 (QI)</b> Finance Fundamentals .....	3
<b>BUS 3500</b> Marketing Principles.....	3
<b>BUS 3700</b> Operations Management Fundamentals.....	3
<b>CHEM 2310<sup>4</sup></b> Organic Chemistry I (F) .....	4
<b>CHEM 2315<sup>4</sup></b> Organic Chemistry Laboratory I (F) .....	1
<b>CHEM 2320<sup>4</sup></b> Organic Chemistry II (Sp) .....	4
<b>CHEM 3700<sup>4</sup></b> Introductory Biochemistry (Sp) .....	3
<b>ECN 3010 (DSS)</b> Managerial Economics (F,Sp) .....	3
<b>MATH 1100 (QL)</b> Calculus Techniques (F,Sp,Su) (3 cr) <b>or</b>	
<b>MATH 1210 (QL)</b> Calculus I (F,Sp,Su) (4 cr) .....	3-4
<b>MGT 2050</b> Legal and Ethical Environment of Business (F,Sp,Su) .....	3
<b>MGT 3110 (DSS)</b> Managing Organizations and People (F,Sp,Su).....	3
<b>NFS 4900</b> Special Problems: Dairy Processing .....	4
<b>NFS 5020</b> Meat Technology and Processing (F).....	4
<b>PLSC 4320</b> Forage Production and Pasture Ecology (F).....	3
<b>SOIL 2000 (BPS)</b> Soils, Waters, and the Environment (Sp) (3 cr) <b>or</b>	
<b>SOIL 3000</b> Fundamentals of Soil Science (F,Sp) (4 cr) .....	3-4
<b>WILD 2200 (BLS)</b> Ecology of our Changing World (F,Sp) .....	3
<b>WILD 3600</b> Wildland Plant Ecology and Identification (F).....	4
<b>WILD 4000</b> Principles of Rangeland Management (Sp).....	3
<b>WILD 4850</b> Vegetation and Habitat Management (F) .....	3

<sup>1</sup>Students must take two courses selected from: ADVS 2080, 2090, 2120, 2130, and 2190.

<sup>2</sup>Students must take one course selected from: ADVS 5080, 5090, 5120, 5130, and 5190.

<sup>3</sup>Students may obtain an Agribusiness Management Minor by taking APEC 3010, 3020; ECN 1500 (BAI); and ACCT 2010.

<sup>4</sup>Students may obtain a Chemistry Minor by taking CHEM 2310, 2315, 2320, and 3700.

## Biotechnology Emphasis

### Freshman Year

#### Fall Semester

<b>ADVS 1110</b> Introduction to Animal Science.....	4
<b>CHEM 1210</b> Principles of Chemistry I .....	4

# Department of Animal, Dairy and Veterinary Sciences

## Bioveterinary Science Emphasis Curriculum (3.0 minimum total GPA required)

This is a four-year program, preparing students for application and admittance to veterinary school or graduate school. In recent years, **nearly all students who have been accepted to veterinary school have had at least a 3.4 GPA.**

### Advanced Standing Requirements

To attain Advanced Standing in Bioveterinary Science, students must have completed or must be currently registered for a minimum of 60 semester credits, and must have earned an overall GPA of at least 2.75 for all credits, including transfer credits, taken up to the time the petition for Advanced Standing is made.

Students' records will be checked when they reach a total of 60 semester credits. Those who do not meet advanced standing requirements will be notified to meet with their advisor.

### Freshman Year

#### Fall Semester

ADVS 1110 Introduction to Animal Science.....	4
ADVS 1920 Orientation to Bioveterinary Science .....	1
CHEM 1210 Principles of Chemistry I .....	4
CHEM 1215 Chemical Principles Laboratory I .....	1
MATH 1100 (QL) Calculus Techniques .....	3
University Studies Breadth Course.....	3

#### Spring Semester

ADVS 2200 Anatomy and Physiology of Animals.....	4
CHEM 1220 (BPS) Principles of Chemistry II .....	4
CHEM 1225 Chemical Principles Laboratory II .....	1
ENGL 1010 (CL1) Introduction to Writing: Academic Prose .....	3
STAT 2000 (QI) Statistical Methods .....	3

#### Summer Semester

ADVS 3920, Internship in Veterinary Medicine, is a recommended option. Students may count up to 2 credits of ADVS 3920 as elective upper-division credits toward graduation.

### Sophomore Year

#### Fall Semester

BIOL 1610 Biology I .....	4
CHEM 2310 Organic Chemistry I .....	4
CHEM 2315 Organic Chemistry Laboratory I .....	1
Two University Studies Breadth Courses .....	6

#### Spring Semester

BIOL 1620 (BLS) Biology II.....	4
CHEM 2320 Organic Chemistry II .....	4
BIOL 3060 (QI) Principles of Genetics .....	4
University Studies Breadth Course.....	3

### Junior Year

#### Fall Semester

ADVS 3500 Principles of Animal Nutrition.....	3
ADVS 4930 Undergraduate Seminar in Veterinary Medicine.....	2
BIOL 3300 General Microbiology .....	4
PHYS 2110 The Physics of Living Systems I .....	4
ENGL 2010 (CL2) Intermediate Writing: Research Writing in a Persuasive Mode.....	3

#### Spring Semester

ADVS 3000 Animal Health and Hygiene .....	3
PHYS 2120 (BPS) The Physics of Living Systems II .....	4
CHEM 3700 Introductory Biochemistry .....	3
Two Upper-division University Studies Depth and Communications Intensive (CI) Courses.....	6

### Senior Year

Students must complete at least 120 semester credits for the BS degree, of which at least 40 credits must be in upper-division courses. The student must complete two courses which are designated Communications Intensive (CI), and one course which is designated Quantitative Intensive (QI). Students must include at least 15 credits from the following list. An additional 10 elective credits are needed to complete the 120 credits required for graduation. Other upper-division life sciences courses may be applied to this requirement, if approved by the ADVS academic advisor.

ADVS 3510 (QI) Applied Animal Nutrition (Sp).....	3
ADVS 4200 (CI) Physiology of Reproduction and Lactation (Sp) .....	4
ADVS 4560 (QI) Principles of Animal Breeding (F).....	3
ADVS 5690 Animal Histology (F) .....	3
ADVS 5700 (CI) General Animal Pathobiology (Sp) .....	3
BIOL 5150 Immunology (Sp).....	3
BIOL 5210 Cell Biology (F) .....	3
BIOL 5230 Developmental Biology (Sp) .....	3
BIOL 5330 Virology (Sp) .....	3

## Equine Science and Management Emphasis

### Freshman Year

#### Fall Semester

ADVS 1110 Introduction to Animal Science.....	4
ADVS 1910 Orientation to Animal and Dairy Science .....	0.5
ADVS 2190 Horse Production Practices .....	2
ENGL 1010 (CL1) Introduction to Writing: Academic Prose .....	3
MATH 1050 (QL) College Algebra.....	4
University Studies Breadth Course.....	3

#### Spring Semester

ADVS 1600 Riding Fundamentals I.....	2
ADVS 2200 Anatomy and Physiology of Animals.....	4
STAT 1040 (QL) Introduction to Statistics .....	3
Two University Studies Breadth Courses .....	6

### Sophomore Year

#### Fall Semester

ADVS 2300 Stable Management I .....	3
ADVS 2650 <sup>5</sup> Riding Fundamentals II—Hunter .....	2
BIOL 1010 (BLS) <sup>6</sup> Biology and the Citizen .....	3
CHEM 1110 (BPS) <sup>7</sup> General Chemistry I .....	4
University Studies Breadth Course.....	3

#### Spring Semester

ADVS 2310 Stable Management II .....	3
ADVS 2600 <sup>6</sup> Riding Fundamentals II—Western .....	2
CHEM 1120 (BPS) <sup>7</sup> General Chemistry II .....	4
ADVS 3000 Animal Health and Hygiene .....	3
Directed Elective Course .....	3

### Junior Year

#### Fall Semester

ADVS 3100 Equine Evaluation I.....	2
ADVS 3500 Principles of Animal Nutrition .....	3
ADVS 3600 Equine Behavior and Training I .....	2
ADVS 4910 Preprofessional Orientation .....	0.5
Three Directed Elective Courses.....	9

#### Spring Semester

ADVS 3520 Equine Nutrition .....	1
ENGL 2010 (CL2) Intermediate Writing: Research Writing in a Persuasive Mode.....	3
Two Directed Elective Courses.....	6
Depth Course .....	3

# Department of Animal, Dairy and Veterinary Sciences

## Senior Year

### Fall Semester

ADVS 4270 Internship in Equine Industry.....	3
ADVS 4300 Stable Management III.....	3
ADVS 4560 (QI) Principles of Animal Breeding.....	3
ADVS 4920 (CI) Undergraduate Seminar.....	2
Directed Elective Course.....	3
Depth Course.....	3

### Spring Semester

ADVS 4200 (CI) Physiology of Reproduction and Lactation.....	4
ADVS 4310 Stable Management IV.....	3
ADVS 5190 Horse Management.....	3
Two Directed Elective Courses.....	6

### Directed Electives

Students must choose five courses from the following list:

ADVS 3150 Equine Evaluation II (Sp).....	2
ADVS 3690 Equine Behavior and Training II (Sp).....	2
ADVS 3910 ST: Horseshoeing.....	3
ADVS 5030 Sustainable Agricultural Production Systems with Animals (F).....	3
ADVS 5530 Nutritional Management of Farm Animals (Sp).....	3
ADVS 5860 Poisonous Range Plants Affecting Livestock (Sp).....	3
PLSC 4320 Forage Production and Pasture Ecology (F).....	3
SOIL 2000 (BPS) Soils, Waters, and the Environment (Sp).....	3
WILD 4000 Principles of Rangeland Management (Sp).....	3

Students must choose four courses from the following list:

ACCT 2010 <sup>8</sup> Survey of Accounting I (F,Sp,Su).....	3
APEC/ECN 2010 (BSS) Introduction to Microeconomics (F,Sp,Su).....	3
APEC 3010 <sup>8</sup> Introduction to Agricultural Economics and Agribusiness (Sp).....	3
APEC 3020 <sup>8</sup> Firm Finance and Records Analysis (Sp).....	3
APEC 5010 (QI) Firm Marketing and Price Analysis (F).....	3
BUS 3400 (QI) Finance Fundamentals.....	3
BUS 3500 Marketing Principles.....	3
BUS 3700 Operations Management Fundamentals.....	3
ECN 3010 (DSS) Managerial Economics (F,Sp).....	3
MGT 2050 Legal and Ethical Environment of Business (F,Sp,Su).....	3
MGT 3110 (DSS) Managing Organizations and People (F,Sp,Su).....	3

<sup>8</sup>Students must choose one course from the following: ADVS 2600 or 2650.

<sup>9</sup>Students may take BIOL 1610 and 1620 if they desire to pursue a postbaccalaureate degree.

<sup>7</sup>Students may take CHEM 1210, 1215, 1220, and 1225 if they desire to pursue a postbaccalaureate degree.

<sup>8</sup>Students may obtain an Agribusiness Management Minor by taking APEC 3010, 3020; ECN 1500 (BAI); and ACCT 2010.

## Dairy Herdsman Program

### The Program

The Dairy Herdsman Program is a one-year course of study in practical dairy knowledge and skills. Through lectures, laboratory exercises, and actual on-the-farm experiences, students are taught to be dairy herdsman, with highly employable skills. A high school education is highly recommended, but is not a requirement to be admitted to the program.

The classroom and laboratory experiences are directed by Utah State University staff members, extension personnel, and specially qualified guest speakers. Coursework covers such areas as nutrition and feeding, management, physiology, milk production, breeding and selection, and buildings and equipment. Students also gain practical experience and know-how by working with a commercial dairyman in Cache Valley. Many students are now selecting the new degree option, which allows students to take the dairy herdsman classwork and then continue on for a degree in dairy science.

All students may participate in judging at regional and national levels, showing at state and area shows, working with area sales, and field trips to the Western International Dairy Expo, the Dairy Herd Improvement Laboratory, and progressive dairy enterprises. These activities provide a well-rounded background and improve employment opportunities.

Students in this program have access to all privileges available to Utah State University students: athletic and entertainment events, campus housing and food services, the University library, the bookstore, and recreational facilities.

### Career Opportunities

Students who complete this program will have a good working knowledge of how to care for and make decisions about various dairy animals and will understand and be able to use various types of equipment. These skills, as well as an understanding of the management process involved, can greatly improve the chances of being employed by a dairy or dairy-related industry.

### Required Coursework for Dairy Herdsman Program

#### Fall Semester (16 credits)

ADVS 1010 Artificial Insemination and Reproduction.....	2
ADVS 1020 Dairy Cattle Nutrition and Feeding.....	3
ADVS 1050 Dairy Genetics.....	3
ADVS 1250 Applied Agricultural Computations.....	2
ADVS 2130 Dairy Production Practices.....	3
ADVS 2250 Cooperative Work Experience.....	3

#### Spring Semester (16 credits)

ADVS 1030 Lactation and Milking Systems.....	3
ADVS 1040 Records and Financial Aspects of Dairy Herd Operations.....	3
ADVS 1060 Applied Feeding and Management of Dairy Calves and Basic Construction of Facilities.....	3
ADVS 1720 Dairy Cattle Evaluation and Judging.....	1
ADVS 2250 Cooperative Work Experience.....	6

### Honors

There is also an Honors Plan for students desiring a BS degree "with Honors" in Animal, Dairy and Veterinary Sciences. For details, students should contact their academic advisor.

### ADVS Minors

A minor can be valuable when associated with a major in agricultural education, agricultural economics, plant science, nutrition and food science, business, economics, computer science, rangeland resources, and in other disciplines where the animal industry has direct or indirect involvement.

Requirements for specialty or emphasis area minors are listed below. The same departmental standards applying to the Animal, Dairy and Veterinary Sciences major also apply to all minors (see page 157).

### Requirements for Minors

The following is a listing of courses for the various minor emphasis areas. A specific course may not be used to fulfill the requirements of more than one ADVS minor.

#### Animal and Dairy Science

ADVS 1110; choose one or more courses from ADVS 2080, 2090, 2120, 2130, and 2190; 10 elective ADVS credits with approval of the ADVS academic advisor.

# Department of Animal, Dairy and Veterinary Sciences

## **Bioveterinary Science**

ADVS 2200, 3000; 7 elective ADVS credits with approval of the ADVS academic advisor. A minimum grade of C is required in all courses applied toward this minor.

## **Equine**

ADVS 1110, 1600, 2190, 2300, 3100, 3600; ADVS 2600 or 2650; one other ADVS course with approval of the ADVS academic advisor.

## **Dairy Herdsman**

ADVS 1020, 1030, 1040, 1050, 1060.

Transfer students must have a minimum of one 3-credit upper-division course in residency with the approval of the ADVS academic advisor.

## **Undergraduate Program Assessment**

The ADVS Department assessment plan defines learning objectives for each of its undergraduate emphases. These learning objectives are mapped to each of the required courses in each emphasis, so that they may be evaluated for their contribution to emphasis goals. Outcome measures have also been defined for each emphasis, and a process has been implemented to conduct exit interviews with all graduating students in Animal, Dairy and Veterinary Sciences. Rate of admission to a professional veterinary medical program has been identified as the critical outcome measure for the Bioveterinary Science emphasis. The ADVS Department Curriculum Committee oversees the assessment process, with input from the ADVS Department Internship and Placement Committee. The ADVS Curriculum Committee reports its assessment findings to the ADVS department head, as well as to faculty members, and incorporates these findings in its regular ongoing and periodic comprehensive reviews and revisions of the ADVS Department undergraduate emphases.

## **Learning Objectives**

### **Animal and Dairy Science Emphasis**

The following *Disciplinary Knowledge* objectives apply:

1. Attain knowledge in mathematics and basic sciences required for disciplinary competency.
2. Know the nature, intent, and scope of animal and dairy science.
3. Attain depth in two subfields of animal and dairy science.
4. Achieve understanding in the disciplines of animal genetics, health, nutrition, and reproduction.
5. Integrate knowledge from the various disciplines to effectively conduct livestock operations.

*Skills and Career Competencies* objectives are as follows:

1. Comprehend reading materials appropriate to course levels.
2. Communicate effectively in oral and written forms.
3. Conduct library research using modern methods.
4. Use a computer for written work, presentations, and research.
5. Attain proficiency in basic techniques of animal management.

### **Biotechnology Emphasis**

The following *Disciplinary Knowledge* objectives apply:

1. Attain a working knowledge of biological mechanisms, including genetics, reproduction, and microbiology.
2. Acquire a working knowledge of mathematics, including calculus and statistics.
3. Achieve a working knowledge of chemistry, including inorganic, organic, and biochemistry.
4. Attain a basic knowledge of animal biotechnology and ethics.

*Skills and Career Competencies* objectives are as follows:

1. Understand and perform molecular cloning.
2. Understand and perform cell culture procedures.
3. Understand and perform protein purification.
4. Communicate effectively in oral and written forms.
5. Achieve quantitative competency.
6. Conduct scientific-literature searches using modern methods.

### **Bioveterinary Science Emphasis**

The following *Disciplinary Knowledge* objectives apply:

1. Attain a working knowledge of biological mechanisms, including molecular genetics.
2. Acquire a working knowledge of mathematics, including calculus and statistics.
3. Achieve a working knowledge of chemistry, including inorganic, organic, and biochemistry.
4. Acquire a basic knowledge of general physics.
5. Attain a basic knowledge of animal production, including breeding, nutrition, and reproduction.
6. Achieve a basic understanding of health and disease mechanisms.
7. Understand the ethics and profession of veterinary medicine.

*Skills and Career Competencies* objectives are as follows:

1. Communicate effectively in oral and written forms.
2. Achieve quantitative competency.
3. Conduct scientific literature searches using modern methods.

### **Equine Science and Management Emphasis**

The following *Disciplinary Knowledge* objectives apply:

1. Attain knowledge in mathematics and basic sciences required for disciplinary competency.
2. Know the nature, intent, and scope of equine science and management.

# Department of Animal, Dairy and Veterinary Sciences

3. Attain depth in two subfields of equine science and management.
4. Achieve understanding in the disciplines of equine behavior, health, nutrition, and reproduction of horses.
5. Integrate knowledge from the various disciplines to effectively conduct equine operations.

*Skills and Career Competencies* objectives are as follows:

1. Comprehend reading materials appropriate to course levels.
2. Communicate effectively in oral and written forms.
3. Conduct library research using modern methods.
4. Use a computer for written work, presentations, and research.
5. Attain proficiency in basic techniques of equine science and management.

## Undergraduate Research Opportunities

Students interested in pursuing undergraduate research opportunities in the ADVS Department should contact Tami Spackman, Agricultural Science 242, tami.spackman@usu.edu, (435) 797-2150, for information and referrals.

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school.

ADVS students qualify for acceptance into the departmental honors program by having a cumulative GPA of 3.3 or better at the time of application. The program of study requires the completion of 15 credits of upper-division (3000-level or above) classwork as follows: One credit of HONR 4800, Thesis/Project Seminar; 3 to 6 credits of HONR 4900, Senior Thesis/Project; and 8 to 11 credits of upper-division Honors coursework by contract (3 credits may be taken outside the ADVS Department). Completion of the degree requires a cumulative GPA of 3.3 and a 3.5 GPA in upper-division Honors classes. Examples of departmental classes which may be suitable as Honors courses by contract are ADVS 3000, 3200, 3500, 3510, 4200, 4560, 5160, 5240, 5260, 5350, 5400, 5520, 5530, 5690, 5700, and 5820. Students should plan their Honors Program early, so that their thesis project can be completed during the first semester of their senior year, and their last semester can be used to write and present their thesis.

Interested students should contact the Honors Program, Main 15, (435) 797-2715, honors@usu.edu. Additional information can be found online at: <http://www.usu.edu/honors/>

## Additional Information and Updates

For more information about Bachelor of Science requirements and the sequence in which courses should be taken, see major requirement sheets. For more information on ADVS Department minors, see minor requirement sheet. These are available from the ADVS Department advisor's office (AG S 242). Major requirement sheets can also be found online at: <http://www.usu.edu/majorsheets/>

For updated information on ADVS programs and course offerings, check the departmental home page at: <http://www.advs.usu.edu>

## Safety and Liability in Classes and Laboratories

Certain classes and laboratories involve a risk of bodily injury or of damage to clothing. Students should take appropriate precautions and wear suitable protective clothing. Some of the risks include handling or being near animals, slick floors or corrals, use of toxic or corrosive substances, and the use of sharp or breakable instruments and equipment. Students should take precautions to avoid fainting during demonstrations or work with animal tissues or operative procedures. Students must assume their own liability protection for travel to and from classes, laboratories, and field trips. The University and its employees assume no liability in the performance of classroom or laboratory instruction or on scheduled field trips, or for other dangerous activities. The student, by voluntarily participating in these classes and activities, agrees to assume the risk and not hold USU or its staff liable.

## Financial Support

In addition to the scholarships and other financial aid available through the University, the department awards designated scholarships to qualified students. The department employs students on a part-time basis to assist with its research and operate its animal facilities. The department also coordinates cooperative education and internship employment opportunities for students. For more information, contact the department.

## Graduate Programs

**Graduate Programs Coordinator:** Thomas D. Bunch  
**Location:** Agricultural Science 228  
**Phone:** (435) 797-2148  
**FAX:** (435) 797-2118  
**E-mail:** tom.bunch@usu.edu

## Admission Requirements

In addition to the general admission requirements (see pages 36-37), applicants should have satisfactory (3.0 GPA or better) grades in completion of previous degree programs. The GRE exam, as well as verbal and quantitative test scores at or above the 40th percentile, is required.

Applicants to the bioveterinary science graduate program should have a degree in bioveterinary science, biology, microbiology, chemistry, or one of the animal sciences. Preveterinary students oriented towards graduate research studies are strongly encouraged to apply.

# Department of Animal, Dairy and Veterinary Sciences

## Degree Programs

### Master of Science

The MS is available to qualified students with bachelor's degrees. MS degrees are offered by the department in animal science and dairy science, with five specializations in each, and in bioveterinary science.

### Doctor of Philosophy

The PhD degree in animal science is offered with four specializations. It is available to qualified students with degrees in related disciplines. Exceptionally well-qualified applicants may be considered for admission to a postbaccalaureate PhD program. The PhD degree in bioveterinary science is available to qualified students holding a DVM or a master's degree in a related discipline, or exceptionally well-qualified postbaccalaureate applicants. The PhD is a terminal research degree that is awarded upon successful completion of a comprehensive program of coursework and original research in an approved area of specialization.

### Course Requirements

Course requirements are determined by the student in consultation with and upon agreement by his or her supervisory committee. Depending on the research emphasis selected and the student's background, these requirements may be different for each student. Students working toward an MS or PhD degree must complete appropriate graduate-level statistics courses, as well as participate in the Animal, Dairy and Veterinary Sciences departmental seminar.

## Specializations in Animal/Dairy Science

### Animal Nutrition

This specialization involves studies in biochemistry, principles of nutrition, animal management, nutritional physiology, and animal feedstuffs. Cooperation with producers, feed industry groups, other departments of the University, and USDA collaborators, along with research funding from private industry, strengthens the graduate program in this area.

### Breeding and Genetics

This specialization involves studies in quantitative genetics, applied animal genetics, statistics, and animal management. Cooperation with other departments, particularly the Department of Biology and the Department of Mathematics and Statistics, and collaboration with other research institutions, livestock producers, and commercial animal breeding companies broadens the resources of this graduate program.

### Molecular Biology

This specialization involves studies in molecular genetics, biochemistry of nucleic acids, cell biology, reproductive physiology, and bioveterinary science. Cooperation with other departments, particularly the Department of Biology and the Department of Chemistry and Biochemistry, the Biotechnology Center, and collaborators at other research institutions allows for a strong graduate program in this area.

### Reproductive Biology

This specialization involves studies in physiology and endocrinology of reproduction; embryo technology, including collection, culture, manipulation, storage, and transfer of embryos; disease transmission, cytogenetics and molecular genetics; and environmental and

toxicological influences on reproductive processes and fetal development. Cooperation with other departments and research centers of the University and with USDA collaborators allows for a strong graduate program in this area.

### Animal or Dairy Management (MS only)

This specialization involves studies in the applications of the principles of genetics, reproductive biology, and nutrition to animal or dairy management at an advanced level. Appropriate emphasis is also placed on statistics, economics and business administration, and range management. The management specialization offers the option of degree programs with or without thesis (Plan A or Plan B). Graduates in management from a program including thesis (Plan A) may pursue advanced studies in more specialized fields. The MS in management without a thesis (Plan B) is considered a terminal degree.

## Bioveterinary Science

This degree program involves studies in biochemistry, statistics, pathology, toxicology, virology, parasitology, pharmacology, and microbiology. Advanced techniques in laboratory procedures and animal health research are emphasized. Cooperation with other departments and research centers of the University and with federal collaborators and agencies allows for a strong graduate program in bioveterinary science.

## Research

The ADVS department conducts a broad range of basic and applied research in the areas of animal reproduction, animal nutrition, livestock and dairy management, animal health, virology, parasitology, toxicology, animal behavior, cytogenetics, and molecular genetics. Department facilities include over 30 research laboratories on campus and at local and regional animal research facilities. There are research herds and flocks of beef and dairy cattle, sheep, and swine housed close to the University. There are additional research units housing beef cattle, sheep, and turkeys located throughout the state. Research in the department is funded by a multimillion dollar budget derived from support by the Utah Agricultural Experiment Station and by substantial outside contracts and grants. Cooperation with other departments and research centers of the University and with federal collaborators enhances the ADVS research and graduate programs. Significant in this regard are the University Center for Integrated BioSystems, the Utah State Animal Disease Diagnostic Laboratories, the Laboratory Animal Research Center, the Center for Environmental Toxicology, the Center for the Genetic Improvement of Livestock, and the on-campus USDA Poisonous Plant Laboratory.

## Financial Assistance

Both departmental and research grant support are available to matriculated graduate students on a competitive basis. The department funds graduate assistantships, which are available on a competitive basis to matriculated graduate students who are U.S. citizens, nationals, or residents. Students interested in departmental assistantships may request an application form from the department or download the form at: <http://www.advs.usu.edu/academics/grad/> Applications for assistantships for the following academic year must be submitted by March 15.

Acceptance to graduate study in the ADVS Department does not constitute a guarantee of financial assistance.

# Department of Animal, Dairy and Veterinary Sciences

## Career Opportunities

Career opportunities are available for students who have earned graduate degrees in the MS and PhD programs offered by the ADVS Department as described below.

### Animal and Dairy Science Graduate Degree Programs

#### Animal Nutrition

Career opportunities exist in extension, university and private research, the commercial animal feedstuffs industry, private consulting firms, and international programs.

#### Breeding and Genetics

Career opportunities exist in extension university and private research, commercial animal breeding and genetic engineering enterprises, and international programs.

#### Molecular Biology

Career opportunities exist in university, federal, and private research organizations, and in commercial applications in the rapidly growing area of biotechnology.

#### Reproductive Biology

Career opportunities exist in extension; university and private research; the pharmaceutical, embryo transfer, and artificial insemination industries; private consultation; and international programs.

#### Animal or Dairy Management

Career opportunities include extension, private consultation firms, farm and ranch management, sales and service to agricultural producers, agricultural finance, and international programs.

### Bioveterinary Science Graduate Degree Programs

Career opportunities in this area exist in research, management, and submanagement positions in public and private health research and testing organizations, and in commercial industries in the health field. Graduates from the MS program may seek admission to advanced degree programs in the biological sciences or veterinary medicine.

## Animal, Dairy and Veterinary Sciences Faculty

#### Professors

*Thomas D. Bunch*, cytogenetics, embryo biology  
*Noelle E. Cockett*, molecular genetics, identification of genetic markers  
*Roger A. Coulombe, Jr.*, veterinary toxicology, molecular biology  
*Howard M. Deer*, pesticides, environmental toxicology  
*Jeffery O. Hall*, veterinary pathology, toxicology  
*Lyle G. McNeal*, sheep production, wool science  
*Kenneth L. White*, reproductive physiology, developmental biology  
*Dale R. ZoBell*, beef cattle production, management

#### Research Professors

*John D. Morrey*, virology, transgenic animals  
*Kamal A. Rashid*, in vitro mutagenesis and DNA repair  
*Donald F. Smee*, viral chemotherapy

#### Adjunct Professors

*J. Talmage Huber*, dairy nutrition  
*Amrit K. Judd*, medicinal chemistry as applied to treatment of viral diseases  
*Kip E. Panter*, animal science/toxicology  
*R. Dean Plowman*, dairy genetics, management  
*Rex S. Spendlove*, microbiology

#### Professors Emeritus

*Stanley D. Allen*, veterinary medicine, laboratory animal management  
*Clive W. Arave*, behavior, dairy genetics  
*Clell V. Bagley*, veterinary medicine  
*John E. Butcher*, ruminant nutrition  
*Jay W. Call*, veterinary medicine  
*Warren C. Foote*, reproductive physiology  
*Robert C. Lamb*, dairy genetics  
*James LeGrande Shupe*, veterinary science, comparative clinical medicine  
*Robert W. Sidwell*, virology  
*Ross A. Smart*, veterinary diagnostic pathology  
*Norris J. Stenquist*, livestock production, nutrition  
*Wallace R. Taylor*, dairy breeding, dairy herd improvement  
*Don W. Thomas*, veterinary medicine

#### Associate Professors

*Thomas J. Baldwin*, veterinary diagnostic pathology  
*David D. Frame*, poultry extension  
*Lee S. Rickords*, molecular genetics, developmental biology  
*Kerry A. Rood*, extension veterinarian  
*Allen J. Young*, dairy management, reproduction

#### Adjunct Associate Professors

*Dale R. Gardner*, chemistry/toxicology  
*Stephen T. Lee*, analytical chemistry  
*Bryan L. Stegelmeier*, pathology  
*Shiquan Wang*, cytogenetics, reproductive physiology  
*J. Christopher Wilson*, veterinary medicine, fisheries

#### Associate Professors Emeritus

*Larry M. Slade*, equine nutrition, management  
*Randall D. Wiedmeier*, beef cattle nutrition, management

#### Research Associate Professors

*Dale L. Barnard*, virology  
*Christopher J. Davies*, immunogenetics

#### Assistant Professors

*Jong-Su Eun*, ruminant nutrition  
*Patricia A. Evans*, equine management  
*Jessie D. Trujillo*, infectious disease, diagnoses and vaccine  
*David J. Wilson*, dairy cattle, mastitis

#### Adjunct Assistant Professors

*Benedict Green*, animal physiology  
*Breck D. Hunsaker*, veterinary immunology  
*Kevin Welch*, toxicology

#### Research Assistant Professors

*Brian B. Gowen*, immunology, virology  
*Justin G. Julander*, virology, microbiology  
*Bart E. Tarbet*, virology, microbiology

# Department of Animal, Dairy and Veterinary Sciences

---

## Clinical Assistant Professors

*E. Jane Kelly*, veterinary diagnostics

*Ramona T. Skirpstunas*, bacterial diseases of fish, veterinary pathology, veterinary laboratory diagnostic medicine

*Rusty D. Stott*, clinical veterinarian, animal health

## Research Assistant Professor Emeritus

*Robert E. Warnick*, turkey nutrition

## Extension Associate Professor

*Scott S. McKendrick*, animal science production

## Lecturers

*Brett R. Bowman*, animal science/nutrition

*Colette F. Floyd*, equine science and management

*Parl Galloway*, animal science, manager of Animal Science Farm

*Justin A. Jenson*, dairy herdsman coordinator, dairy youth specialist

*Rebecca A. Lewis*, equine science and management

## Course Descriptions

Animal, Dairy and Veterinary Sciences (ADVS), pages 491-496

# Department of Applied Economics

**Department Head:** Paul M. Jakus

**Location:** Business 615

**Phone:** (435) 797-2310

**FAX:** (435) 797-2701

**WWW:** <http://apec.usu.edu/>

## Graduate Program Director:

Arthur J. Caplan, Business 620, (435) 797-0775,

[arthur.caplan@usu.edu](mailto:arthur.caplan@usu.edu)

**Degrees offered:** Bachelor of Science (BS) in Agribusiness; Bachelor of Arts (BA) in International Agribusiness; BS in Agricultural Economics; Master of Science (MS) in Applied Economics; Doctor of Philosophy (PhD) in Economics; the department also participates in the International MBA in Food and Agribusiness (offered through the Royal Agricultural College in Cirencester, England). The Agribusiness major is structured to facilitate a dual major with companion majors with the Huntsman School of Business.

**Graduate specializations:** *MS in Applied Economics*—Agricultural Economics, Natural Resource Economics, and Regional Economic Development

## Undergraduate Programs

### Objectives

Economics is the study of allocating our scarce resources among humankind's seemingly endless variety of needs and wants. This places economists and economic analysis at the center of virtually every important discussion and debate about how nations, firms, and people should organize resources to address these needs and wants. As a result, economics offers an exciting and dynamic field of study and research for students, preparing them well to become tomorrow's decision makers.

Undergraduate economics provides students with the basic intellectual framework to understand and analyze economic problems and to make informed decisions. A basic understanding of economics is essential to becoming a well-informed citizen, as well as a successful business or public leader.

### Admission Requirements

Freshmen who meet the admission requirements and are accepted in good standing by the University are eligible for admission to the Department of Applied Economics. All transfer students, whether transferring from within Utah State University or from other colleges and universities, must have an overall minimum GPA of 2.5 to be accepted as majors in the department. Additional requirements may apply for students who seek to be admitted to a dual major.

New students wishing to major in the Department of Applied Economics may do so by listing one of the departmental majors on their application when they apply for admission to USU. Students enrolled at USU may change to a departmental major by applying directly to the Department of Applied Economics.

## Graduation Requirements

To receive a bachelor's degree in Agribusiness, Agricultural Economics, or International Agribusiness, students must complete all University requirements and the college and departmental requirements for their specific major as noted below.

### Agribusiness Major

The Agribusiness major provides a foundation for employment in the agricultural sector and in businesses and institutions serving agriculture and rural regions, such as banks and financial institutions, production, marketing and buying cooperatives, value-added food producers, real estate and land management, agricultural chemical production and sales, and farms and ranches. Graduates of this program are employed in a variety of agribusiness operations throughout the United States. Agribusiness graduates have achieved prominence in positions in wholesale and retail sales and service, stock and commodity brokerage, real estate appraisal, banking and farm credit, insurance, and in farm and ranch operations. Classwork provides training in basic business and economics, as well as the specific management tools required for agricultural enterprises.

To graduate with a bachelor's degree in Agribusiness, a student must have a major GPA of 2.5 or higher, as well as a grade of C or better in each course required for the major. A C grade or better in ECN 1500, MATH 1100, and STAT 2300 and an overall GPA of 2.67 or higher is required for admission into some required FIN and MGT courses. Agribusiness majors with a dual major must satisfy the admission and graduation requirements of both majors. All required courses must be taken for a letter grade.

### Agribusiness Major Requirements

All courses required for the Agribusiness Major should be taken for a letter grade. Students must earn a grade of C or better in each course.

#### Required Courses:

## Agribusiness Major, Agricultural Systems Option

All courses required for the Agribusiness Major, Agricultural Systems Option should be taken for a letter grade. Students must earn a grade of C or better in each course. Students who complete this option are eligible to earn a dual major in Agricultural Systems Technology. Note: Student transcripts and diplomas will list only the Agribusiness Major, not the Agricultural Systems Option.

### Required Courses:

<b>ACCT 2010</b> Survey of Accounting I (F,Sp,Su).....	3
<b>ACCT 2020</b> Survey of Accounting II (F,Sp,Su).....	3
<b>APEC/ECN 2010 (BSS)</b> Introduction to Microeconomics (F,Sp,Su).....	3

## Agricultural Economics Major

The Agricultural Economics major emphasizes the development of quantitative skills in and a deeper understanding of economic theory. While this program provides a solid base for individuals desirous of careers in agricultural businesses, it is also an excellent preparation for graduate studies in economics, agricultural economics, natural resources, business, or law. The Agricultural Economics degree provides an excellent background for work in federal, state, and local government, as well as in the private sector. Graduates of this program are now working in positions involving the analysis of prices and markets, preparation of economic feasibility studies, and preparing economic forecasts.

To graduate with a bachelor's degree in Agricultural Economics, a student must have a major GPA of 2.5 or higher, as well as a grade of C or better in each course required for the major. All required courses must be taken for a letter grade.

### Agricultural Economics Major Requirements

All courses required for the Agricultural Economics Major should be taken for a letter grade. Students must earn a grade of C or better in each course.

## International Agribusiness Major

The International Agribusiness major combines training in business, language skills, and economics courses that emphasize the role of the trade and development issues that are critical to operating in the increasingly internationalized agribusiness sector. The program provides a foundation for employment in agricultural and agribusiness sectors and in banks and financial institutions, production, marketing and buying cooperatives, value-added food producers, agricultural chemical production and sales, and farms and ranches in domestic and international settings. Classwork provides training in basic business and economics, as well as the specific management tools required for agricultural enterprises.

To graduate with a bachelor's degree in International Agribusiness, a student must have a major GPA of 2.5 or higher, as well as a grade of C or better in each course required for the major. All required courses must be taken for a letter grade.

### International Agribusiness Major Requirements

For this major, students must score three or better on the Federal FSI Test or complete a language minor. All the following courses should be taken for a letter grade. Students must earn a grade of C or better in each course.

#### Required Courses:

<b>ACCT 2010</b> Survey of Accounting I (F,Sp,Su)	3
<b>APEC/ECN 2010 (BSS)</b> Introduction to Microeconomics (F,Sp,Su)	3
<b>APEC 3010</b> Introduction to Agricultural Economics and Agribusiness (Sp)	3
<b>APEC 3012</b> Introduction to Natural Resource and Regional Economics (F)	3
<b>APEC 3310</b> Mathematics in Agricultural and Resource Economics (F)	3
<b>APEC 4020</b> Macroeconomics and Trade (Sp)	3
<b>ECN 1500 (BAI)</b> Introduction to Economic Institutions, History, and Principles (F,Sp,Su)	3
<b>APEC/ECN 4010</b> Intermediate Microeconomics (Sp) (3 cr) <b>or</b>	
<b>ECN 3010 (DSS)</b> Managerial Economics (F,Sp) (3 cr)	3
<b>ECN 3400 (DSS)</b> International Economics for Business (F,Sp,Su)	3
<b>ECN 4020</b> Intermediate Macroeconomics (F,Sp)	3
<b>ECN 5400</b> International Trade Theory (F)	3
<b>ECN 5950 (CI)</b> Senior Project (Sp)	3
<b>MATH 1050 (QL)</b> College Algebra (F,Sp,Su)	4
<b>MATH 1100 (QL)</b> Calculus Techniques (F,Sp,Su)	3
<b>MIS 2100</b> Principles of Management Information Systems (F,Sp,Su)	3
<b>NFS 5510</b> Food Laws and Regulations (Sp)	2
<b>POLS 5120</b> Economics of Russia and Eastern Europe, 9th Century to 21st Century (F)	3
<b>STAT 2300 (QL)</b> Business Statistics (F,Sp,Su)	4

## Minor Requirements

### Agribusiness Management Minor:

<b>ACCT 2010</b> Survey of Accounting I (F,Sp,Su)	3
<b>APEC 3010</b> Introduction to Agricultural Economics and Agribusiness (Sp)	3
<b>APEC 3020</b> Firm Finance and Records Analysis (Sp)	3
<b>APEC 3310</b> Mathematics in Agricultural and Resource Economics (F)	3
<b>ECN 1500 (BAI)</b> Introduction to Economic Institutions, History, and Principles (F,Sp,Su)	3

### Agricultural Economics Minor:

<b>APEC/ECN 2010 (BSS)</b> Introduction to Microeconomics (F,Sp,Su)	3
<b>APEC 3310</b> Mathematics in Agricultural and Resource Economics (F)	3
<b>APEC 4020</b> Macroeconomics and Trade (Sp)	3
<b>APEC 5010 (QI)</b> Firm Marketing and Price Analysis (F)	3
<b>ECN 1500 (BAI)</b> Introduction to Economic Institutions, History, and Principles (F,Sp,Su)	3
<b>APEC/ECN 4010</b> Intermediate Microeconomics (Sp)	3

<sup>1</sup>These 12 credits must be selected from courses offered by departments within the College of Agriculture, excluding courses offered by the Department of Applied Economics. Six of the 12 credits must be chosen from upper-division courses (i.e., courses numbered 3000 or above).

<sup>2</sup>The regular calculus series (MATH 1210 and 1220) is recommended for students contemplating graduate studies in economics. MATH 1210 will fulfill the MATH 1100 requirement.

## Four-year Degree Plans (8 semesters)

Four-year degree plans for majors offered by the Department of Applied Economics can be found at:

<http://www.usu.edu/degreeplans/>

Students will need to meet with their advisor periodically to ensure all requirements are being met.

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school. Minimum GPA requirements for participation in departmental honors vary by department, but usually fall within the range of 3.30-3.50. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level. The campus-wide Honors Program, which is open to all qualified students regardless of major, offers a rich array of cultural and social activities, special classes, and the benefit of Honors early registration. Interested students should contact the Honors Program, Main 15, (435) 797-2715, [honors@usu.edu](mailto:honors@usu.edu). Additional information can be found online at: <http://honors.usu.edu/>

## Financial Support

The Department of Applied Economics and the College of Agriculture award scholarships in addition to those available through the University Financial Aid Office. Information and application forms may be obtained from the college or departmental offices.

## Additional Information

For more information about undergraduate programs in the Department of Applied Economics, see the major requirement sheet, available from the department, or accessed online at: <http://www.usu.edu/majorsheets/>

## Graduate Programs

The MS in Applied Economics and the PhD in Economics are offered by the Department of Applied Economics. The International MBA in Food and Agribusiness is offered through the Royal Agricultural College (RAC), Cirencester, England.

## Objectives

Graduate training in the Department of Applied Economics emphasizes economic theory, critical thinking, and quantitative analysis. This foundation is a means to an end, not an end in itself: theory and quantitative methods are tools used in applied courses, in theses and dissertations, and in other research and extension activities carried out in the department.

The **MS in Applied Economics** is a terminal degree that prepares students for positions in industry; private consulting firms; local, regional, and national policy-making agencies; private not-for-profit organizations; and community/regional economic planning and development agencies. The **Doctor of Philosophy in Economics** is intended to prepare students for faculty and research positions with dual fields in Trade and Development and Natural Resource and Environmental Economics. All PhD students are required to complete these "field" sequences. Students interested in other specialties are discouraged from applying.

## Admission Requirements

Applicants must have earned a bachelor's degree from an accredited college or university, maintained a grade point average of at least 3.0 for the last 60 semester credits earned, and score in at least the 40th percentile on the Graduate Record Exam (GRE). The Graduate Management Admission Test (GMAT) is required for the International MBA in Food and Agribusiness. In addition, international applicants from non-English-speaking countries must score at least 550 on the Test of English as a Foreign Language (TOEFL). Satisfaction of these minimum admission requirements does not guarantee admission. Applications for graduate study from students trained in disciplines other than economics are welcomed. However, all applicants are expected to have: (1) an understanding of intermediate microeconomic and macroeconomic theory, (2) preparation in mathematical economics, and (3) preparation in probability and statistics. In addition, applicants are expected to have strong written and oral communications skills.

## Degree Requirements

### Master of Science in Applied Economics

To complete an MS degree in Applied Economics, students are required to: (1) complete the applied core (APEC 6000, 6100, 6300, 6330); (2) complete a specialization in: (a) agricultural economics (ACCT 6350; APEC 6030, 6040, 6250; ECN 5300; MGT 5640, 6520), (b) natural resource economics (APEC 6500 and 6510), or (c) regional economic development (APEC 6700 and 6710); (3) submit and orally defend a thesis (Plan A) or research report (Plan B); and (4) complete

elective class or thesis research credits to meet Plan A, B, or C graduation requirements. Plan A requires at least 30 credits and must include at least 6 thesis research credits. Plan B requires at least 30 credits and must include 2 to 3 thesis research credits. Plan C has no research component and requires at least 33 credits. (No more than 6 undergraduate credits may be used in meeting degree requirements.)

### Doctor of Philosophy in Economics

PhD students are required to: (1) complete the first-year core (APEC 7130, 7140, 7230, 7240, 7310, 7320, 7350, 7360); (2) perform successfully on a written qualifying examination based on the first-year core; (3) complete the advanced core (APEC 7150, 7330); (4) complete the International Trade and Development and Natural Resource and Environmental Economics field sequences (APEC 7400, 7500, 7510); (5) complete a research dissertation and give an oral defense of the dissertation; and (6) meet University requirements for dissertation research and total credit hours.

### International MBA in Food and Agribusiness

The Department of Applied Economics participates with the Royal Agricultural College (RAC) in Cirencester, England to offer this degree. The degree is awarded by the RAC. Students study at USU during fall semester, and then study spring semester at the RAC. Students complete a team project and a thesis. The degree is designed to prepare students to be agribusiness managers in an international environment. Applicants for admission to the International MBA are expected to have completed a common body of knowledge core at an AACSB accredited program. The common body of knowledge includes: ACCT 2010, 2020; ECN 1500, 2010; FIN 3400; MGT 2050, 3110, 3500; MGT 3080 or 3700; MATH 1100; MIS 2100; and STAT 2300. Required courses to be completed at USU include: ACCT 6350; APEC 6030, 6040, 6330; and MGT 4590. During spring semester, courses in finance, marketing and advertising, human resource management, macroeconomics, business strategy, agricultural food policy, and food chain industry are taught at the RAC. Participating students pay USU tuition and are expected to complete the program in 12-18 months.

## Research

The Department of Applied Economics maintains an active and productive research program. The results of this research are published in professional journals, books, and technical reports. Financial support for the departmental research program is provided by the Utah Agricultural Experiment Station, the College of Agriculture, the Office of the Vice President for Research, and by a combination of public and private extramural sources. The Economics Research Institute provides support and coordination for some of the department's research activities. Graduate students are an integral part of departmental research programs.

## Financial Assistance and Assistantships

The Department of Applied Economics offers teaching and research assistantships to qualified graduate students. These are awarded on a competitive basis, and all accepted students are considered eligible. However, while the department makes every effort to assist students in obtaining financial assistance, acceptance into department programs does not guarantee financial assistance.

Financial assistance is not provided to PhD students who fail to pass the written qualifying exam nor to graduate students who fail to make satisfactory progress toward completion of their degrees.

## Applied Economics Faculty

### Professors

*DeeVon Bailey*, agricultural economics

*Dillon M. Feuz*, production and finance, marketing and price analysis

*Paul M. Jakus*, Department Head; natural resource and environmental economics, nonmarket valuation

*Kenneth S. Lyon*, economic theory

*Donald L. Snyder*, agricultural and resource economics

### Associate Professors

*Arthur J. Caplan*, environmental economics and applied microeconomic theory

*Gholamreza Oladi*, international economics, econometrics

*Ruby A. Ward*, agribusiness management and operations research

### Adjunct Associate Professor

*John P. Gilbert*, international trade theory and policy, applied general equilibrium modeling, development economics

### Human Resources Specialist

*Marion T. Bentley*, manpower economics

### Professors Emeritus

*Roice H. Anderson*

*Larry K. Bond*

*Rondo A. Christensen*

*Lynn H. Davis*

*Reed R. Durtschi*

*Herbert H. Fullerton*

*E. Bruce Godfrey*

*Gary B. Hansen*

*John E. Keith*

*Allen D. LeBaron*

*Darwin B. Nielsen*

*Morris D. Whitaker*

### Associate Professor Emeritus

*Glenn F. Marston*

Marcia Roberts, University Reserve 107, (435) 797-3883,  
marcia.roberts@usu.edu

**Art Education Undergraduate Advisor:**

Dennise Gackstetter, University Reserve 110, (435) 797-1542,  
denniseg@gmail.com.

**Degrees offered:** Bachelor of Arts (BA), Bachelor of Science (BS), Bachelor of Fine Arts (BFA), Master of Arts (MA), and Master of Fine Arts (MFA) in Art

**Undergraduate emphases:** Art Education, Art History, Ceramics, Drawing and Painting, Graphic Design, Photography, Printmaking, Sculpture

**Graduate specializations:** Ceramics, Drawing, Graphic Design, Illustration, Painting, Photography, Printmaking, Sculpture

## Undergraduate Programs

### Objectives

The Department of Art's primary goal is to prepare undergraduate students for careers in art history, art education, and studio art, as well as the applied and fine arts. Requirements in eight different emphasis areas address the specific needs of each career. The Department of Art also serves the University community by offering courses in the University Studies program and by offering training for students in related degree programs.

### Departmental Admission Requirements

Admission to the Art major is competitive. New freshmen admitted to USU in good standing may apply for admission to the Art major by submitting a portfolio of digital images on CD-ROM of their best work. Details are available from the Art Department. Entrance to the BFA program in the emphasis areas in studio art is accomplished by formal application after completion of the department's foundation courses. Students applying for this degree program should have a GPA of at least 2.75. Application to the emphasis area is done by portfolio review and should be made during the spring semester in which the prerequisites will be completed. Transfer students should make application during the spring semester prior to their entrance to USU to arrange for the portfolio review of their work prior to acceptance in the department. Participation in the BA program in Art History is limited to students with at least a 2.5 GPA.

## Degrees Offered

### Bachelor of Science Degree

The BS degree is a general art degree for the student who is not interested in specializing in one area of art. This degree requires 50 semester credits in Art courses, 27-28 credits in University Studies courses, and allows for 40 elective credits. A GPA of 2.5 is required for the BS degree. No grade less than C is acceptable in any art class. Art classes may be retaken for a higher grade. This degree does not fulfill the requirements for entrance into graduate schools of art.

### Bachelor of Arts Degree

This degree is available primarily to students selecting an emphasis in Art History at USU. BA degree candidates should complete the majority of University Studies lower-division requirements, the modern language requirement, and the foundation curriculum by the end of the sophomore year. This will allow concentration in an area of specialization during the junior and senior years.

In addition, BA candidates must either complete requirements for the Art History Emphasis, as listed below, or the general art requirements as listed under the BS degree. The major professor may also prescribe other courses to serve the particular needs of different students. A minimum of 36 semester credits in art is required for a BA degree in Art with an Art History Emphasis. Students who desire to receive a BA degree in Art *without an emphasis*, must earn a minimum of 50 semester credits in art.

### Bachelor of Fine Arts Degree

The BFA is a professional art degree requiring above-average accomplishment in art. Only students demonstrating considerable promise will be accepted for this more demanding professional degree program. Admission to the Art Department BS program *does not* guarantee admission to the BFA program. Entrance to the BFA program is by application only. Each emphasis area specifies classes that must be completed, along with the common foundation courses, prior to application to the BFA program. For most students, this will occur at the end of their sophomore year. Transfer students may make application during the spring semester prior to their planned entrance into the department.

To graduate with a BFA degree, students must meet the following minimum requirements:

1. A **career total** GPA of at least 2.75 must be attained.
2. Students must maintain a minimum GPA of at least 2.75 in the Art Foundation and Art Basic Core classes.
3. No grade lower than a C will be accepted in any art class.
4. In any emphasis area class, no grade lower than a B- is acceptable. Emphasis classes may be retaken for a higher grade.

A minimum of 70 semester credits in art must be completed for the BFA degree. This includes 6 credits of upper-division art history. During the spring semester of their senior year, students must take ART 4910 (Senior BFA Exhibition). Students must also fulfill the standard University Studies requirement of 27-28 credits, as well as complete 20 credits of electives. Any student unable to complete the necessary requirements for the BFA may still qualify for the BS degree.

# Department of Art

## Department of Art Curriculum

### Foundation Courses

Students in the BS, BA, and BFA degree programs (except for students in the Art History emphasis) need to complete the following foundation curriculum. (Art History students should *instead* complete the BA foundation courses, which are listed in the *Art History* section.)

#### Suggested Sequence:

*Freshman year—first semester:*

<b>ART 1020</b> Drawing I (3 cr) <b>or</b>	
<b>ART 1110</b> Drawing I (Art Majors Only) (3 cr) .....	3
<b>ART 1120</b> Two-dimensional Design (3 cr) <b>or</b>	
<b>ART 1150</b> Two-dimensional Design (Art Majors Only) (3 cr) .....	3
<b>ARTH 2710 (BHU)</b> Survey of Western Art: Prehistoric to Medieval.....	3

*Freshman year—second semester:*

<b>ART 1130</b> Three-dimensional Design (3 cr) <b>or</b>	
<b>ART 1160</b> Three-dimensional Design (Art Majors Only) (3 cr) .....	3
<b>ART 2110</b> Drawing II.....	3
<b>ARTH 2720 (BHU)</b> Survey of Western Art: Renaissance to Post-Modern.....	3

Subsequent curriculum requirements are specific to these individual emphasis areas:

### Art Education

**Minimum GPA for Admission:** 2.75, USU; 2.75 Career  
**Additional Admission Requirement:** admission granted by art education instructor

**Minimum GPA for Graduation:** 2.75, core/foundation courses; 2.75, major; 2.75, USU; 2.75 Career

**Minimum Grade Accepted:** B- in emphasis courses; C in remaining ART courses

The art education curriculum prepares students to teach art in the public schools. Students graduate with a Bachelor of Fine Arts (BFA) degree in art and obtain a secondary education teaching license. The BFA degree requires 70 credits in Art courses. A minimum of 45 credits must be completed in the core and broadening area:

<b>ART 1020</b> Drawing I (3 cr) <b>or</b>	
<b>ART 1110</b> Drawing I (Art Majors Only) (3 cr) .....	3
<b>ART 1120</b> Two-dimensional Design (3 cr) <b>or</b>	
<b>ART 1150</b> Two-dimensional Design (Art Majors Only) (3 cr) .....	3
<b>ART 1130</b> Three-dimensional Design (3 cr) <b>or</b>	
<b>ART 1160</b> Three-dimensional Design (Art Majors Only) (3 cr) .....	3
<b>ART 2110</b> Drawing II.....	3
<b>ART 2200</b> Painting I.....	3
<b>ART 2230</b> Basic Printmaking.....	3
<b>ART 2400</b> Computers and Art (Art Majors Only) .....	3
<b>ART 2600</b> Basic Sculpture.....	3
<b>ART 2650</b> Introduction to Ceramics.....	3
<b>ARTH 2710 (BHU)</b> Survey of Western Art: Prehistoric to Medieval.....	3
<b>ARTH 2720 (BHU)</b> Survey of Western Art: Renaissance to Post-Modern .....	3
<b>ART 1050</b> Introduction to Photography (3 cr) <b>or</b>	
<b>ART 2810</b> Photography I (3 cr).....	3

In addition, 6 credits are required in upper-division art history courses. A minimum of 25 art credits must be taken in a specialization area. The secondary education teaching license requires the following courses:

<b>ART 3000</b> Secondary Art Methods I (Alt F) .....	3
<b>ART 3300</b> Clinical Experience I (Alt F) .....	1
(ART 3000 and 3300 must be taken concurrently.)	

<b>ART 4000</b> Secondary Art Methods II (Alt F).....	3
<b>ART 4300</b> Clinical Experience II (Alt F).....	1
(ART 4000 and 4300 must be taken concurrently.)	
<b>ART 5500</b> Student Teaching Seminar .....	2
<b>ART 5630</b> Student Teaching in Secondary Schools.....	10
<b>INST 3500</b> Technology Tools for Secondary Teachers .....	1
<b>SCED 3100</b> Motivation and Classroom Management.....	3
<b>SCED 3210 (DSS/CI)</b> Educational and Multicultural Foundations .....	3
<b>SCED 4200 (CI)</b> Reading, Writing, and Technology .....	3
<b>SCED 4210</b> Cognition and Evaluation of Student Learning .....	3
<b>SPED 4000</b> Education of Exceptional Individuals .....	2

### Art History (52 total credits)

**Minimum GPA for Admission:** 2.5, USU; 2.5 Career

**Minimum GPA for Graduation:** 2.5, major requirements; 2.5, USU; 2.5 Career

**Minimum Grade Accepted:** C in all major requirements

For the BA degree in Art with an emphasis in Art History, all students must take the following required foundation courses (15 credits):

<b>ARTH 2710 (BHU)</b> Survey of Western Art: Prehistoric to Medieval (F) 3	
<b>ARTH 2720 (BHU)</b> Survey of Western Art: Renaissance to Post-Modern (Sp) .....	3
<b>HIST 1100 (BHU)</b> Foundations of Western Civilization: Ancient and Medieval (F,Sp,Su) .....	3
<b>HIST 1110 (BHU)</b> Foundations of Western Civilization: Modern (F,Sp,Su) .....	3

One studio art course of student's choice (note prerequisites where necessary)

All majors must choose between the following two tracks, and must meet with their advisor to determine a concentration and special area by the beginning of their sophomore year. In addition, the student should have produced two research papers of 10-15 pages each by the senior year.

**Track I (18 credits):** Students must complete six upper-division courses in art history, consisting of three interrelated courses (e.g., by period) and three distributed widely (i.e., a concentrator in a modern period of art history would select courses from the ancient or medieval, renaissance, and Baroque periods to achieve the wide distribution).

**Track II (Interdisciplinary Track) (18 credits):** Students must complete three upper-division courses in Art History and two upper-division courses outside the department that make up a special field (these may be combined from area studies, such as the British Commonwealth, French Studies, American Studies, Folklore, or Anthropology; or may consist of a selection of courses that deal with post-colonialism, Women and Gender Studies, and the intersections between art and the history of science, for example; or may include courses that deal with a certain period). The student must formally apply, in consultation with his or her advisor, to determine the concentration and special area. One additional course in Art History (outside the special field) must also be completed.

All majors are required to take ARTH 4790, Art History Seminar and Special Problems (3 credits, offered every year). Students will be advised to take this seminar after they have written a research paper. Students are required to produce a self-assessment portfolio. During the second semester, senior majors must provide a portfolio of their work in art history. No credit is granted for the portfolio (which is not a class). The portfolio consists of a two-page self-assessment of the student's work and progress in the major; a list of classes taken in art

history, studio art, and any related fields that have contributed to the student's understanding of art history; and examples of the student's work in art history at all levels, including study-abroad work and internship experiences.

**Foreign Language (16 credits):** Four semesters of one foreign language are required. (French and German are especially recommended for students who plan to go on to graduate school, but a student may petition to have another foreign language count toward this goal.)

Including foundation, foreign language, and major classes, the Art History emphasis requires a total of 52 credits.

## Ceramics

**Minimum GPA for Admission:** 2.75, USU; 2.75 Career  
**Additional Admission Requirement:** portfolio and application review  
**Minimum GPA for Graduation:** 2.75, major; 2.75, USU; 2.75 Career  
**Minimum Grade Accepted:** B- in emphasis courses;  
 C in remaining ART courses

Contemporary ceramics represents the extension and synthesis of clay sculpture and vessel traditions. Students are acquainted with the technology of ceramic materials and firing processes, while developing sound craftsmanship as a means to personal expression. Enrichment is provided through the ceramics collection of the Nora Eccles Harrison Museum, numerous ceramics exhibitions, and visiting guest artists. Juniors and seniors in the program may compete for one of the Ellen Stoddard Eccles Scholarships, an endowed scholarship fund set aside especially for undergraduate ceramics majors. Students must complete the following courses for a Ceramics emphasis:

ART 2600 Basic Sculpture (F,Sp).....	3
ART 2650 Introduction to Ceramics (F,Sp,Su) .....	3
ART 3610 Intermediate Sculpture (F) .....	3
ART 3650 Intermediate Ceramics: Handbuilding (F) .....	3
ART 3660 Intermediate Ceramics: Throwing on the Potter's Wheel (Sp).....	3
ART 4640 <sup>1</sup> Technology of Ceramic Art (F,Sp,Su) .....	6
ART 4650 <sup>2</sup> Advanced Ceramic Studio (F,Sp,Su) .....	12
ART 4910 Senior BFA Exhibition (Sp).....	2
Two upper-division Art History courses .....	6
<b>CHEM 1010 (BPS)</b> Introduction to Chemistry (F,Sp) (3 cr) <b>or</b>	
<b>CHEM 1110 (BPS)</b> General Chemistry I (4 cr) (F,Sp).....	3 or 4
<b>GEO 1010 (BPS)</b> Introduction to Geology: Geology of National Parks (F,Su) (3 cr) <b>or</b>	
<b>GEO 1110 (BPS)</b> The Dynamic Earth: Physical Geology (F,Sp) (4 cr) .....	3 or 4

<sup>1</sup>ART 4640 is repeatable for credit, and must be taken during at least two semesters.  
<sup>2</sup>ART 4650 is repeatable for credit, and must be taken during at least four semesters.

## Drawing and Painting

**Minimum GPA for Admission:** 2.75, USU; 2.75 Career  
**Additional Admission Requirement:** portfolio and application review  
**Minimum GPA for Graduation:** 2.75, major; 2.75, USU; 2.75 Career  
**Minimum Grade Accepted:** B- in emphasis courses;  
 C in remaining ART courses

The drawing and painting emphasis includes the two-dimensional study of form and space, as well as the exploration of drawing and painting media, graphic elements, and visual dynamics. It is an essential discipline for all artists, as it provides the fundamental visual skills needed in their search for a personal idiom. At the same time,

drawing and painting are also vehicles of creative expression, visual adventure, and self-discovery. The curriculum emphasizes an analysis of historical approaches to drawing and painting, and the exploration of new ideas, techniques, and materials. Basic courses are designed to foster a respect for the craft of drawing and painting, and subsequent courses encourage application of the craft to expressive goals. Central to the focus of drawing and painting study at USU is the development of a personal portfolio reflecting the specific interests of the individual. Students must complete the following courses for a drawing and painting emphasis:

ART 1050 Introduction to Photography (F) (3 cr) <b>or</b>	
ART 2810 Photography I (F,Sp) (3 cr).....	3
ART 2200 Painting I (F).....	3
ART 2230 Basic Printmaking (F).....	3
ART 2400 Computers and Art (Art Majors Only) (F) .....	3
ART 2600 Basic Sculpture (F,Sp) (3 cr) <b>or</b>	
ART 2650 Introduction to Ceramics (F,Sp,Su) (3 cr).....	3
ART 3200 Painting II (Sp) .....	3
ART 4200 Advanced Drawing and Painting Studio (F,Sp,Su).....	6
ART 4210 Figure Painting (Sp) .....	3
ART 4260 <sup>3</sup> Life Drawing (F) .....	3
ART 4910 Senior BFA Exhibition (Sp).....	2
ARTH 4750 Twentieth Century Art .....	3
One additional upper-division Art History course (required).....	3

One course must be chosen from:

ART 3230 Lithography (F).....	3
ART 3240 Intaglio (Sp).....	3
ART 3250 Relief Prints (F) .....	3

The remainder of the 70 semester credits can be taken as electives.

<sup>3</sup>ART 4260 is repeatable for credit, and must be taken during at least two semesters.

## Graphic Design

**Minimum GPA for Admission:** 2.75, USU; 2.75 Career  
**Additional Admission Requirement:** portfolio and application review  
**Minimum GPA for Graduation:** 2.75, major; 2.75, USU; 2.75 Career  
**Minimum Grade Accepted:** B- in emphasis courses;  
 C in remaining ART courses

Graphic design is the study of visual communications and the art of presenting information. Visual elements, such as animation, photography, illustration, symbols, and type, are designed or arranged using various techniques and materials. Materials range from traditional ink, paper, and printing presses to video and the Internet, using the latest computer software and hardware. Students in graphic design complete a variety of courses that involve working with symbols, trademarks, typography, layout, and all formats of print and publication design. Illustration, digital imaging, motion graphics, animation, and interactive media are also part of the graphic design curriculum. Seniors may specialize in one or more of these areas of study and create a professional portfolio specific to their interests. Graphic Design emphasis students should complete the following courses:

ART 2400 Computers and Art (F) (Art Majors Only) .....	3
ART 3400 Typography (Sp).....	3
ART 3420 <sup>4</sup> Communication Arts Seminar (F,Sp).....	1
ART 4410 Graphic Interface Design I (F).....	3
ART 4420 Brand Identity Design (F) .....	3
ART 4440 Type, Image, and Visual Continuity (Sp).....	3
ART 4450 Portfolio Preparation (F).....	3

# Department of Art

Additional Art courses.....9  
 Two upper-division Art History courses (3000- or 4000-level).....6

<sup>4</sup>ART 3420 is repeatable for credit, and must be taken during a minimum of three semesters.

## Photography

**Minimum GPA for Admission:** 2.75, USU; 2.75 Career  
**Additional Admission Requirement:** portfolio and application review  
**Minimum GPA for Graduation:** 2.75, major; 2.75, USU; 2.75 Career  
**Minimum Grade Accepted:** B- in emphasis courses;  
 C in remaining ART courses

Found throughout all of contemporary life, photographic images shape the way we document, interpret, and direct our lives. As an art form, photography constantly reinvents our concept of beauty, reality, and culture. Within the program in photography, students learn the aesthetic and technical skills of the medium. The fundamentals of craft and the “hands on” application of knowledge at each level enables the student to pursue a variety of photographic professions. Requirements for the Photography emphasis include:

**ART 2810** Photography I (F,Sp) .....3  
**ART 3810** Photography II (Sp) .....3  
**ART 4810** Digital Photography (F) .....3  
**ART 4820** Nineteenth Century Photography Printing Processes (F) ....3  
**ART 4830** Independent Projects in Photography (F,Sp,Su) .....6  
**ART 4840** Color Photography I (F).....3  
**ART 4850** Color Photography II (Sp) .....3  
**ART 4860** Photographic Studio (F) .....3  
**ART 4870** Photographic Portfolio (Sp).....3  
**ART 4910** Senior BFA Exhibition (Sp).....2  
**ARTH 3820** History of Early Photography (Sp).....3  
**ARTH 3830** History of Contemporary Photography (Sp) .....3

## Printmaking

**Minimum GPA for Admission:** 2.75, USU; 2.75 Career  
**Additional Admission Requirement:** portfolio and application review  
**Minimum GPA for Graduation:** 2.75, major; 2.75, USU; 2.75 Career  
**Minimum Grade Accepted:** B- in emphasis courses;  
 C in remaining ART courses

Students in the printmaking emphasis have the opportunity to explore all aspects of traditional and contemporary printmaking. After an introduction to the basics of intaglio, lithographic, silkscreen, and relief processes, students are encouraged to continue their development in a specific area of interest. Independent studio projects will investigate the wide field of printmaking, providing a framework for the student to become engaged in a creative pursuit involving both technical and aesthetic considerations. Requirements for the Printmaking emphasis include:

**ART 1050** Introduction to Photography (F) (3 cr) or  
**ART 2810** Photography I (F,Sp) (3 cr).....3  
**ART 2230** Basic Printmaking (F).....3  
**ART 3230<sup>5</sup>** Lithography (F) .....3  
**ART 3240<sup>5</sup>** Intaglio (Sp) .....3  
**ART 3250<sup>5,6</sup>** Relief Prints (F).....3  
**ART 4250** Advanced Printmaking Studio (F,Sp).....9  
**ART 4910** Senior BFA Exhibition (Sp).....2  
 Two additional upper-division Art History courses, 3000-level and above (required) .....6

<sup>5</sup>A total of 12 credits must be taken in a combination of ART 3230, 3240, and 3250.  
<sup>6</sup>ART 3250 may be repeated for credit.

## Sculpture

**Minimum GPA for Admission:** 2.75, USU; 2.75 Career  
**Additional Admission Requirement:** portfolio and application review  
**Minimum GPA for Graduation:** 2.75, major; 2.75, USU; 2.75 Career  
**Minimum Grade Accepted:** B- in emphasis courses;  
 C in remaining ART courses

Sculpture is the three-dimensional expression of ideas. Its range extends from discrete, permanent objects to ephemeral, multi-media environments. Students in the sculpture emphasis develop a base of knowledge in traditional approaches to the creation of form. After gaining competency in figure modeling, as well as in stone or wood carving, they explore both site-specific sculpture and sculptural installations. Intermediate and advanced students investigate specific problems involving technical, aesthetic, and conceptual considerations, while developing their own direction, based on both experience with form, materials, and techniques, and an understanding of traditional concerns and contemporary issues in the vast field encompassed today by sculpture.

The following courses are required for students in the sculpture emphasis:

**ART 1050** Introduction to Photography (F) (3 cr) or  
**ART 2810** Photography I (F,Sp) (3 cr).....3  
**ART 2600** Basic Sculpture (F,Sp).....3  
**ART 2650** Introduction to Ceramics (F,Sp,Su) .....3  
**ART 3610** Intermediate Sculpture (F) .....3  
**ART 4660** Advanced Sculpture Studio (Sp) .....9  
**ART 4910** Senior BFA Exhibition (Sp).....2  
 Two additional upper-division Art History courses (required) .....6

## Sample Four-year Plans

Sample semester-by-semester four-year plans for students working toward a bachelor’s degree within the Art Department can be found at: <http://www.usu.edu/degreeplans/>

Students should consult with their advisor to develop a plan of study tailored to their individual needs and interests.

## Minor Requirements

### Art Minor

To plan a minor in Art, students should meet with an advisor. Generally, the minimum requirements include:

**ART 1020** Drawing I (F,Sp) .....3  
**ART 1120** Two-dimensional Design (F,Sp).....3  
**ART 1130** Three-dimensional Design (F,Sp).....3  
**ARTH 2710 (BHU)** Survey of Western Art: Prehistoric to Medieval (F) (3 cr) or  
**ARTH 2720 (BHU)** Survey of Western Art: Renaissance to Post-Modern (Sp) (3 cr).....3  
 Credits in any ART classes.....12

### Art History Minor

A minor in art history requires ARTH 2710 and 2720, plus 12 credits from the art history group (ARTH 3820, 3830, 4720, 4740, 4750, 4790).

USU does not offer an art teaching minor for secondary teachers. Students choosing to train for teaching art in secondary schools must complete the art education major listed under art specialties and must comply with all requirements listed by the Secondary Education Program of the School of Teacher Education and Leadership (TEAL).

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Students wishing to pursue departmental honors in art must have a cumulative GPA of 3.30 or higher, and must first be admitted to the BFA program. Once that process is completed, they should meet with the departmental honors advisor to complete an honors program of study contract form. Contact the Art Department at: Fine Arts Visual 122, (435) 797-3460.

The 15-credit requirement for Departmental Honors in Art is met in the following manner:

1. At least 6 credits in upper-division Art or Art History courses must be taken with an honors contract.
2. At least 3 credits must be completed in an Honors Depth Life and Physical Sciences (DSC) course or in an Honors Depth Social Sciences (DSS) course.
3. At least 3 credits of upper-division coursework must be completed in the emphasis area or from outside the department, and must be taken with an honors contract.
4. Students must complete ART 4910 (Senior BFA Exhibition, 2 credits), along with at least 1 credit in HONR 4900 (Senior Thesis/Project, 1-3 credits).

To qualify for departmental honors in art, students must graduate with a cumulative GPA of at least 3.30 in their upper-division coursework taken as part of their departmental honors contract, and must present their work in a public forum (such as the Senior BFA show and/or Student Showcase).

## Additional Information

For additional information about undergraduate requirements in the Department of Art, see the major requirement sheet, which can be obtained from the department, or accessed online at: <http://www.usu.edu/majorsheets/>

Additional information may also be found on the Art Department website at: <http://www.art.usu.edu/>

## Graduate Programs

The Department of Art offers two graduate degrees and cooperates with the Emma Eccles Jones College of Education and Human Services on another degree. The Master of Arts (MA) and the Master of Fine Arts (MFA) are offered by the Art Department. A Master of Education (MEd) with a specialization in art is offered through the Emma Eccles Jones College of Education and Human Services.

## Master of Arts

Students are selected for the MA program on the basis of a portfolio demonstrating artistic individuality and a level of development beyond the need of classroom instruction.

## Admission Requirements

All applicants are required to have earned a bachelor's degree in the visual arts or its equivalent. During the last two years of undergraduate work, the GPA in art courses must have been at least 3.0 on a 4 point scale. MAT scores should be at or above the 40th percentile. Applicants taking the GRE should have verbal and quantitative scores at or above the 40th percentile.

## Degree Requirements

Candidates for the MA must complete a minimum of 30 credits, to include: (1) 21 graduate studio credits, which may be divided into two or three areas of study at the graduate level; (2) 3 credits which may be earned in classes outside the department; (3) 3 credits of art history; and (4) 3 credits of Research and Thesis.

A total of 12 credits of art history, including undergraduate credits, is required for graduation, but only 3 credits earned as a matriculated graduate student at USU may be applied toward the 30-credit MA requirement. The additional 9 credits of art history may include credits earned at the undergraduate level.

A candidate must complete a minimum of two semesters in residency. Nine credits per semester is considered full-time graduate enrollment, while 12 credits are considered the maximum enrollment. A minimum of three semesters is thus required to complete the 30-credit program.

## Master of Fine Arts

The Master of Fine Arts degree is the terminal degree in the visual arts field. The MFA program is designed to allow students to mature to a level of professional competence in the making of art. Related studies augment a rigorous studio program. The prospective student must exhibit both academic excellence and a well-developed personal artistic vision.

## Admission Requirements

All applicants are required to have earned a BFA degree in the visual arts or its equivalent, including a minimum of 12 credits of art history. *Students must submit either MAT or GRE scores.* GPA in art courses must have been at least 3.0 on a 4-point scale. MAT scores should be at or above the 40th percentile. Applicants taking the GRE should have verbal and quantitative scores at or above the 40th percentile.

## Degree Requirements

Students must earn 60 credits, to include: (1) 43 credits of graduate-level studio art as determined by the student in consultation with his or her major professor, including a minimum of 6 credits outside of the emphasis area; (2) 6 credits of Graduate Seminar; (3) 2 credits of Graduate Interdisciplinary Critique; (4) 6 credits outside the Art Department as specified by the supervisory committee; and (5) 3 credits of Research and Thesis, which concludes with an MFA thesis exhibition and an oral defense. The MFA thesis is a visual presentation, the equivalent of a written dissertation in other disciplines. The thesis exhibition is the single most important feature of the MFA program; the culmination of at least two years, and often three or more years, of intensive study in a single discipline. The student must also submit a selection of digital images documenting the exhibition.

*The MFA program is a resident program; it is not possible to complete the requirements for graduation by correspondence. The program is predicated upon the assumption that students will live in the Logan area.* Students must complete a minimum of four semesters in residency. Nine credits per semester is considered full-time graduate enrollment, while 12 credits are considered the maximum enrollment. A minimum of five semesters is thus required to complete the 60-credit program; most students require three years.

# Department of Art

---

## Application Procedures

Completed applications must include: (1) completed application forms; (2) a letter of intent; (3) transcripts of all previous graduate and undergraduate work; (4) three letters of recommendation from qualified professionals; (5) GRE or MAT scores; and (6) the \$50 application fee.

These materials must be sent directly to the School of Graduate Studies. When complete, applications will be forwarded by the School of Graduate Studies to the Art Department for review.

A portfolio of twenty digital images on CD-ROM of recent work must be mailed directly to: Graduate Coordinator, Department of Art, Utah State University, 4000 Old Main Hill, Logan UT 84322-4000.

Completed applications and slide portfolios must be received by **February 1**. Students should note that applications will be considered *only* at this time, and *only* completed applications will be reviewed. Admission will *only* be considered for fall semester. The deadlines for financial aid may be earlier than the admissions deadline. For further information about financial aid, visit the Financial Aid Office in Taggart Student Center 106; write to: Financial Aid Office, Utah State University, 1800 Old Main Hill, Logan UT 84322-1800; or phone (435) 797-0173.

Applications are reviewed by the Art Department faculty. Candidates are selected primarily on the basis of their **portfolio**, which should demonstrate a level of development beyond the need of classroom instruction and encouragement. The faculty will also look in the portfolio for evidence of significant personal exploration.

Secondary to the portfolio, but important nonetheless, the applicant's **letter of intent** and **letters of recommendation** will also be given careful consideration. In reviewing these letters, the faculty will look for, among other things, indications that the applicant will be capable of prolonged and concentrated effort, guided by realistic personal goals. Letters should address both academic and artistic accomplishments, as well as potential for further growth in both of these areas.

Applicants are strongly encouraged to visit the USU campus and meet with the faculty in their proposed field of study *well in advance* of the February 1 application deadline.

**Important Note.** Please note that the graduate programs in the Art Department have limited enrollment; admission is *very* competitive. Because only a small fraction of applicants can be accommodated,

there can be no guarantee that applicants who meet minimum admission requirements will be accepted into master's programs.

## Financial Assistance

Departmental support is available to graduate students on a competitive basis. Students requesting financial support should apply to the department by February 15. Other assistance is available through the University Financial Aid Office. Students should note that applications for Federal work-study should be mailed during the first week of February.

## Art Faculty

### Professors

*Carolyn Cárdenas*, drawing, painting  
*Craig J. Law*, photography  
*John Neely*, ceramics  
*Christopher T. Terry*, drawing, painting

### Professors Emeritus

*Jon I. Anderson*, graphic design  
*Glen L. Edwards*, illustration  
*Adrian Van Suchtelen*, drawing

### Associate Professors

*Jane S. Catlin*, art education, painting  
*Alan Hashimoto*, graphic design  
*Robert Winward*, graphic design

### Associate Professor Emeritus

*Marion R. Hyde*, printmaking, art education

### Assistant Professors

*Eileen Doktorski*, sculpture  
*JinMan Jo*, sculpture  
*J. Daniel Murphy*, ceramics  
*Alexa Sand*, art history  
*Woody Shepherd*, drawing, painting  
*Dave Smellie*, graphic design

# Asian Studies Major and Minor

Program Director: R. Edward Glatfelter, Main 333, (435) 797-1196,  
ed.glatfelter@usu.edu

## Major

### Requirements for Asian Studies Major (27 credits)

Minimum GPA for Admission: 2.5, USU; 2.2, Career

Minimum GPA for Graduation: 2.5, major requirements  
including foreign language; 2.0, USU

Minimum Grade Accepted: C- in all major requirements  
including foreign language

To graduate with a BA degree in Asian Studies, students must complete a minimum of 27 credits approved by the Asian Studies program director. The program must include a minimum of 18 credits selected from the Core Courses, and 9 credits from the General Electives, selected after consultation with the Asian Studies program advisor. In addition to the core and elective courses, proficiency at the 2020-level or higher in an Asian language is required for graduation.

### Core Courses

ECN 5400 International Trade Theory (F)	3
ENGL 3320 Period Studies in World Literature (when syllabus includes Asian literature) (F,Sp)	3
ENGL 4360 Studies in Drama/Film (when course subtitle is Asia) (Sp)	3
GEOG 4200 (CI) Regional Geography (when region covered is Asian) (F,Sp,Su)	3
HIST 1060 (BHU) Introduction to Islamic Civilization	3
HIST/ARTH 3110 (DHA/CI) Ancient Near East	3
HIST 3410 The Modern Middle East	3
HIST 3460 Comparative Asian History	3
HIST 3480 History of China	3
HIST 3490 Survey of Japanese History (F)	3
HIST 4821 (DHA) World War II in Asia (Sp)	3
HIST 4890 (DHA) Cold War in Asia (F,Sp)	3
LANG/ANTH/HIST 3550 (DHA) Culture of East Asia	3
MIS 4550 (CI) Principles of International Business Communications (Sp)	3
PHIL 3710 Philosophies of East Asia (F)	3
PHIL 4900 Special Topics (when syllabus includes Asian philosophies) (F,Sp)	3
POLS 3230 Middle Eastern Government and Politics (F)	3
POLS 3250 (DSS) Chinese Government and Politics (F)	3
POLS 4220 (CI) Ethnic Conflict and Cooperation (when syllabus includes Asian Conflicts) (Sp)	3
POLS 4260 Southeast Asian Government and Politics (Sp)	3
POLS 4470 Foreign Policy in the Pacific (Sp)	3
RELS/HIST 3010 Introduction to Buddhism	3
RELS/HIST 3020 Introduction to Hinduism	3
RELS/HIST 4010 Buddhism in the West	3
SOC 4710 Asian Societies (Sp)	3
SOC 4730 Women in International Development (Sp)	3

### General Electives

(required minimum of 9 credits):

ANTH 1010 (BSS) Cultural Anthropology (F,Sp)	3
ANTH 2010 (BSS) Peoples of the Contemporary World (Sp)	3
ANTH 3160 (DSS) Anthropology of Religion (F)	3
ANTH/LING 4100 The Study of Language (F,Sp)	3

ANTH 5100 (DSS) Anthropology of Sex and Gender (F,Sp)	3
ANTH/GEOG/SOC 5650 (DSS) Developing Societies (F)	3
APEC 5850 Regional and Community Economic Development (F)	3
ECN 3400 (DSS) International Economics for Business (F,Sp,Su)	3
ECN 5150 (DSS) Comparative Economic Systems (F)	3
FIN 4300 International Finance (F,Sp)	3
GEOG 1300 (BSS) World Regional Geography (F)	3
GEOG 1400 (BSS) Human Geography (Sp)	3
GEOG 2130 Population Geography (Sp)	3
GEOG 3430 Political Geography (Sp)	3
MGT 4590 Global Marketing Strategy (F,Sp)	3
NR 1010 (BSS) Humans and the Changing Global Environment	3
PLSC 4300 World Food Crops and Cropping Systems: The Plants That Feed Us (F even)	3
POLS 2100 Introduction to International Politics (F,Sp)	3
POLS 2200 (BSS) Comparative Politics (F,Sp)	3
POLS 5120 Economics of Russia and Eastern Europe, 9th Century to 21st Century (F)	3
POLS 5440 (DSS) Gender and World Politics (Sp)	3
SOC 3200 (DSS) Population and Society (F,Sp)	3
SOC 3600 Sociology of Urban Places (F)	3
SOC 6310 Sociology of Work and Occupations (Sp)	3
SPCH 3330 (DSS) Intercultural Communication (F)	3

### Languages

Demonstrated proficiency at the 2020-level or higher in one of the following Asian languages is required for the Asian Studies major. For students completing an Asian Studies minor, an Asian language is recommended.

CHIN 1010 Chinese First Year I (F)	5
CHIN 1020 Chinese First Year II (Sp)	5
CHIN 2010 Chinese Second Year I (F)	5
CHIN 2020 Chinese Second Year II (Sp)	5
CHIN 3010 Chinese Third Year I (F)	4
CHIN 3020 Chinese Third Year II (Sp)	4
CHIN 3100 Readings in Contemporary Chinese Culture (Sp)	3
CHIN 3510 Chinese Business Language (F)	3
JAPN 1010 Japanese First Year I (F)	5
JAPN 1020 Japanese First Year II (Sp)	5
JAPN 2010 Japanese Second Year I (F)	5
JAPN 2020 Japanese Second Year II (Sp)	5
JAPN 3010 Japanese Third Year I (F)	4
JAPN 3020 Japanese Third Year II (Sp)	4
JAPN/ART 3050 Japanese Calligraphy (Sp)	1
JAPN 3100 Readings in Contemporary Japanese Culture (F)	3
JAPN 3510 Japanese for the Business Environment (Sp)	3
JAPN 4250 Internship/Coop (Su)	3-9
KOR 1010 Korean First Year I (F)	5
KOR 1020 Korean First Year II (Sp)	5
KOR 2010 Korean Second Year I (F)	5
KOR 2020 Korean Second Year II (Sp)	5
KOR 3010 Korean Third Year I (F)	4
KOR 3020 Korean Third Year II (Sp)	4
KOR 3510 Business Korean (F)	3

# Asian Studies Major and Minor

---

## Minor

### Requirements for Asian Studies Minor (20 credits)

Minors must complete a minimum of 12 credits selected from the Core Courses. The remaining 8 credits must be chosen from the General Electives or from the following language classes:

<b>CHIN 3010</b> Chinese Third Year I (F).....	4
<b>CHIN 3020</b> Chinese Third Year II (Sp) .....	4
<b>CHIN 3100</b> Readings in Contemporary Chinese Culture (Sp) .....	3
<b>CHIN 3510</b> Chinese Business Language (F) .....	3
<b>JAPN 3010</b> Japanese Third Year I (F) .....	4
<b>JAPN 3020</b> Japanese Third Year II (Sp) .....	4
<b>JAPN/ART 3050</b> Japanese Calligraphy (Sp) .....	1
<b>JAPN 3100</b> Readings in Contemporary Japanese Culture (F) .....	3
<b>JAPN 3510</b> Japanese for the Business Environment (Sp).....	3
<b>KOR 3010</b> Korean Third Year I (F).....	4
<b>KOR 3020</b> Korean Third Year II (Sp).....	4
<b>KOR 3510</b> Business Korean (F).....	3

### Sample Four-year Plan for Asian Studies Major

A sample semester-by-semester four-year plan for students working toward a Bachelor of Arts degree in Asian Studies can be found at: <http://www.usu.edu/degreeplans/>

Students should consult with their advisor to develop a plan of study tailored to their individual needs and interests.

Japanese (JAPN), pages 589-590

Korean (KOR), page 593

# Department of Biological and Irrigation Engineering

**Department Head:** Ronald C. Sims

**Location:** Engineering 402G

**Phone:** (435) 797-2785

**FAX:** (435) 797-1248

**E-mail:** bie@usu.edu

**WWW:** <http://www.bie.usu.edu>

## **Undergraduate Advising:**

Engineering Advising Center, Engineering 314A, (435) 797-2705,  
isobel.roskelley@usu.edu

## **Degrees offered:**

Bachelor of Science (BS), Master of Science (MS), and Doctor of Philosophy (PhD) in Biological Engineering; MS and PhD in Irrigation Engineering

**Undergraduate options:** BS—Biomedical; Bioprocess; Bioenvironmental; and Soil and Water Resource Systems Engineering

**Graduate areas of interest:** Biomedical Engineering; Biosensors; Biofuels; Sustainable Energy; Bioprocess Engineering; Biophotonics; Bioenvironmental Engineering; Irrigation Conveyance and Control Structures; Surface, Sprinkle, and Trickle Irrigation Methods; Irrigation Project Planning, Design, and Operation and Management; Agricultural Hydrology; Crop Water-Yield Analysis; Evapotranspiration; On-Farm Water Management; Remote Sensing and Geographical Information Systems; Groundwater Management and Simulation

## **Mission**

The mission of the Department of Biological and Irrigation Engineering (BIE) is to teach students preparing to become biological engineers how to apply engineering principles and the knowledge of biological sciences to the design, control, and analysis of biological-engineered systems and to solutions of biotechnology problems. The department also prepares students for entry into other professions, including biomedical engineering, environmental engineering, medicine, and law.

## **Scope and Objectives**

The scope of the Biological Engineering Program involves engaging students to learn to manipulate biological materials for useful purposes, to understand the biological literature, and to be able to communicate with biological scientists. Students first learn to integrate biological sciences with conventional studies in mathematics and chemistry. These skills are broadened with a liberal exposure to humanities and social sciences, and then sharpened with the study of engineering topics that develop practical problem-solving abilities; expand sensitivity to the economic, social, and legal dimensions of technical problems; provide an understanding of ethics and professional responsibility; and stimulate a desire for lifelong learning. The scope involves applications in engineered biological systems, from nanoscale to watershed scale, as well as engineered life-support systems in above-earth and planetary space environments.

The objectives of the Biological Engineering program are as follows:

1. **Promote the effective application of knowledge.** Develop practical problem-solving and communication abilities to apply what is known and to convey the information to others that will contribute to biological engineering practice, advance knowledge, and contribute to society.
2. **Advance the desire and ability to grow professionally.** Expand the work ethic and drive to provide continuous self-improvement, and expand a professional sensitivity to the economic, social, and legal dimensions of technical problems, in order to ensure that engineering solutions will be more holistic and applicable.

3. **Teach students to adjust to a rapidly changing environment.**

Stimulate a desire for lifelong learning and for adaptation to a change in direction with a rapid response, as two means of extending engineering knowledge.

## **Outcomes**

Biological Engineering Program outcomes are aligned with the program outcomes of all academic engineering programs in the U.S. that are provided by the Accreditation Board for Engineering and Technology/Engineering Accreditation Commission (ABET/EAC). Six specific outcomes are identified below.

1. Students have proven themselves to be proficient in mathematics, the sciences, and engineering.
2. Students have shown a capacity for investigation and experimentation, including the analysis and interpretation of data, as well as the ability to design an effective biological or irrigation system, component, or device.
3. Students have exercised their engineering skills as part of a multi-disciplinary group, and have demonstrated the capability to communicate verbally, in writing, graphically, and through engineering media.
4. Students have demonstrated the ability to solve engineering analysis and design problems, utilizing both fundamental engineering principles and modern engineering technology and tools.
5. Students have demonstrated an understanding of the standards of professional conduct and ethical responsibility, in addition to understanding the role that an engineer plays in modern global society.
6. Students have manifested recognition of and commitment to the need for life-long learning as a professional, and have broadened the scope of their interests beyond engineering to include an awareness of the world around them.

## **Assessment and Evaluation**

The BIE Department is committed to an assessment process aimed at evaluating the effectiveness of BIE programs in preparing graduates as productive professionals. The foundation of departmental assessment is the undergraduate accreditation by the Engineering Accreditation Commission (EAC) of ABET.

The continuous improvement processes that are documented and implemented annually as part of the accreditation activities in support of the EAC/ABET requirements provide for formal and external review of the Biological Engineering Bachelor of Science program. Internal assessment and evaluation is formally conducted annually through BIE Department committees including: (1) the Curriculum Committee, and (2) the ABET Committee. This assessment and evaluation ensures that the USU program meets an overall objective and structure consistent with similar programs in the U.S. and Canada. The BIE Department Industry Advisory Board performs the role of external review of the academic program, graduating seniors, and selected program educational objectives and program outcomes.

The biological engineering program is continuously improved through integrating the results of this formal assessment with the day-to-day assessments obtained from both students and faculty. To ensure the overall quality of the program, the department conducts several specific assessments. These are:

# Department of Biological and Irrigation Engineering

1. Employer feedback soon after graduation and approximately three years after graduation.
2. BIE Department Industry Advisory Board activities, including interviews of graduating students.
3. Fundamentals of Engineering Examination performance.
4. Behavioral observations with regard to professional conferences and professional organizations membership.
5. Student coursework performance and Course Instructor Self-Evaluation.
6. Capstone Design performance.

## Undergraduate Programs

General biological engineering concepts include the properties of biological materials, electronics and bio-instrumentation, computer use and programming, engineering mechanics, thermodynamics, computer-aided drafting, bio-environmental transport phenomena, and fluid mechanics.

Students gain a strong foundation in biological, chemical, and physical sciences. Each student then selects an option within the field, based on personal interest. These areas of study are tailored for each student with 21 semester credits of technical electives and one-on-one academic advisement with a member of the faculty. Design is a major theme of both the student's general coursework and specialization, with most courses including open-ended design problems. The entire design experience is brought together in a capstone design course.

The Biological Engineering Program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (EAC/ABET).

**Passing the Fundamentals of Engineering examination**, the first step in becoming a licensed professional engineer, is desired for graduation. After students have made two credible attempts to pass the national exam, a departmental exam will be administered. When passed, this departmental exam will satisfy the graduation requirement.

## Requirements

### Admission and Graduation Requirements

The student who is majoring in or planning to major in Biological Engineering needs to be aware of the College of Engineering requirements concerning admission to the college, pre-engineering, admission to the professional engineering program, general education, and other academic requirements. Additional information concerning these items is given in the College of Engineering requirements on pages 131-134. It is the responsibility of the student to be aware of these rules and regulations.

### Biological Engineering Curriculum

Biological Engineering is divided into a preprofessional and a professional program involving either a four-year or a five-year schedule that will satisfy the requirements for a BS degree in Biological Engineering. Students receiving credit from the College Level Examination Program (CLEP) or from Advanced Placement (AP) may complete a BS degree program in less than four years. The academic work, particularly in the junior and senior years, is supplemented by hands-on laboratories which are required as part of the coursework. Modification in the program to meet special needs and priorities of a student may be obtained with the approval of the department head and advisor.

### Preprofessional Program:

<b>BIE 1880</b> Engineering Quantification of Biological Processes (Sp) .....	3
<b>BIE 2330</b> Engineering Properties of Biological Materials (Sp) .....	3
<b>CHEM 1210</b> Principles of Chemistry I (F,Sp).....	4
<b>CHEM 1215</b> Chemical Principles Laboratory I (F,Sp).....	1
<b>CHEM 2300</b> Principles of Organic Chemistry (F) .....	3
<b>CHEM 2315</b> Organic Chemistry Laboratory I (F) .....	1
<b>ENGR 1000</b> Introduction to Engineering Design (F) .....	2
<b>ENGR 2010</b> Engineering Mechanics Statics (F,Sp) .....	2
<b>ENGR 2030</b> Engineering Mechanics Dynamics (F,Sp) .....	3
<b>ENGR 2450</b> Engineering Numerical Methods (Sp) .....	2
<b>BIOL 1610 (BLS)<sup>1</sup></b> Biology I (F).....	4
<b>ENGL 2010 (CL2)</b> Intermediate Writing: Research Writing in a Persuasive Mode (F,Sp,Su).....	3
<b>ETE 2270</b> Computer Engineering Drafting (F,Sp,Su).....	2
<b>BIE 2400</b> Biological and Environmental Thermodynamics (Sp).....	3
<b>MATH 1210 (QL)</b> Calculus I (F,Sp,Su) .....	4
<b>MATH 1220 (QL)</b> Calculus II (F,Sp,Su) .....	4
<b>MATH 2250 (QI)</b> Linear Algebra and Differential Equations (F,Sp,Su) ..	4
<b>PHYS 2200</b> Elements of Mechanics.....	2
Communications Literacy .....	3

### Professional Program:

<b>BIE 3000</b> Instrumentation for Biological Systems (Sp).....	3
<b>BIE 3200</b> Introduction to Unit Operations in Biological Engineering (F).....	3
<b>BIE 3670</b> Transport Phenomena in Bio-Environmental Systems (Sp) ..	3
<b>BIE 3870</b> Biological Engineering Design I (F,Sp,Su).....	1
<b>BIE 4880 (CI)</b> Biological Engineering Design II (F,Sp,Su).....	3
<b>BIE 4890 (CI)</b> Biological Engineering Design III (F,Sp,Su).....	3
<b>BIE 5020</b> Biological Systems Modeling and Controls (F).....	3
<b>BIOL 3300 (BLS)<sup>1</sup></b> General Microbiology (F,Sp).....	4
<b>CEE 3500</b> Civil and Environmental Engineering Fluid Mechanics (F,Sp).....	3
<b>CHEM 3700</b> Introductory Biochemistry (Sp).....	3
<b>CHEM 3710</b> Introductory Biochemistry Laboratory (Sp) .....	1
<b>STAT 3000 (QI)</b> Statistics for Scientists (F,Sp,Su) .....	3
<b>ETE 2300 (QI)</b> Electronic Fundamentals (F,Su) .....	4
Biological Engineering Electives.....	6-21
Engineering Electives (0-15 cr) (9-21 cr total for Biological Engineering Electives <i>and</i> Engineering Electives combined) .....	9-21
Technical Electives (0-12 cr) (21 cr total for Biological Engineering Electives, Engineering Electives, <i>and</i> Technical Electives combined).....	0-12
University Studies (18 credits).....	18

## Biological Engineering Required Coursework

### Suggested Semester Schedule (126 credits)

#### Preengineering: Freshman and Sophomore

##### Freshman Year (32 credits)

##### Fall Semester (15 credits)

<b>BIOL 1610 (BLS)<sup>1,3</sup></b> Biology I .....	4
<b>CHEM 1210<sup>3</sup></b> Principles of Chemistry I.....	4
<b>CHEM 1215<sup>3</sup></b> Chemical Principles Laboratory I.....	1
<b>ENGR 1000<sup>3</sup></b> Introduction to Engineering Design.....	2
<b>MATH 1210 (QL)<sup>3</sup></b> Calculus I .....	4

##### Spring Semester (17 credits)

<b>BIE 1880<sup>3</sup></b> Engineering Quantification of Biological Processes.....	3
<b>ETE 2270<sup>3</sup></b> Computer Engineering Drafting.....	2
<b>MATH 1220 (QL)<sup>3</sup></b> Calculus II .....	4
<b>PHYS 2200<sup>3</sup></b> Elements of Mechanics .....	2
University Studies Breadth courses.....	6

# Department of Biological and Irrigation Engineering

## Sophomore Year (32 credits)

### Fall Semester (16 credits)

BIE 2330 <sup>3</sup> Engineering Properties of Biological Materials.....	3
CHEM 2300 <sup>3</sup> Principles of Organic Chemistry .....	3
CHEM 2315 <sup>3</sup> Organic Chemistry Laboratory I.....	1
ENGR 2010 <sup>3</sup> Engineering Mechanics Statics.....	2
ENGL 2010 (CL2) <sup>3</sup> Intermediate Writing: Research Writing in a Persuasive Mode.....	3
MATH 2250 (QI) <sup>3</sup> Linear Algebra and Differential Equations.....	4

### Spring Semester (16 credits)

BIE 2400 <sup>3</sup> Biological and Environmental Thermodynamics .....	3
BIOL 3300 (BLS) <sup>1</sup> General Microbiology .....	4
ENGR 2030 <sup>3</sup> Engineering Mechanics Dynamics.....	3
ENGR 2450 <sup>3</sup> Engineering Numerical Methods.....	2
ETE 2210 Electrical Engineering for Nonmajors .....	4

## Professional Engineering: Junior and Senior

### Junior Year (32 credits)

#### Fall Semester (15 credits)

BIE 3200 Introduction to Unit Operations in Biological Engineering .....	3
CEE 3500 Civil and Environmental Engineering Fluid Mechanics .....	3
STAT 3000 (QI) Statistics for Scientists .....	3
Technical Elective course <sup>2</sup> .....	3
University Studies Breadth course .....	3

#### Spring Semester (17 credits)

BIE 3000 Instrumentation for Biological Systems .....	3
BIE 3670 Transport Phenomena in Bio-Environmental Systems .....	3
BIE 3870 Biological Engineering Design I.....	1
CHEM 3700 Introductory Biochemistry .....	3
CHEM 3710 Introductory Biochemistry Laboratory .....	1
Technical Elective course <sup>2,4</sup> .....	3
University Studies Breadth course .....	3

### Senior Year (32-34 credits)

#### Fall Semester (14-15 credits)

BIE 4880 (CI) Biological Engineering Design II.....	3
BIE 5020 Biological Systems Modeling and Controls .....	3
University Studies Depth Humanities and Creative Arts (DHA) course .....	2-3
Technical Elective courses <sup>2</sup> .....	6

#### Spring Semester (18-19 credits)

BIE 4890 (CI) Biological Engineering Design III.....	3
Technical Elective courses <sup>2</sup> .....	9
University Studies Breadth Physical Sciences (BPS) course.....	3-4
University Studies Depth Social Sciences (DSS) course .....	3

## Technical Elective Courses (select 21 or more credits)

Students must select 9-21 credits from the **Biological Engineering Electives** and **Engineering Electives** categories.

### Biological Engineering Electives (select 6-21 credits)

BIE 5010 Principles of Irrigation Engineering (F,Su).....	3
BIE 5110 Sprinkle and Trickle Irrigation (F).....	4
BIE 5150 Surface Irrigation Design (F,Su) .....	3
BIE 5250 Remote Sensing of Land Surfaces (Sp).....	4
BIE 5300 Irrigation Conveyance and Control Systems (F).....	3
BIE 5350 Drainage and Water Quality Engineering (Sp) .....	3
BIE 5520 Irrigation Project Operation and Maintenance (Sp).....	3
BIE 5550 Groundwater Systems Engineering I (F) .....	3
BIE 5600 Downstream Processes in Biological Engineering (Sp) .....	3
BIE 5610 Food and Bioprocess Engineering (F).....	3
BIE 5680 Soil-based Waste Management (Sp).....	2
BIE 5810 Biochemical Engineering (F) .....	3

BIE 5830 Management and Utilization of Biological Solids and Wastewater (F).....	3
BIE 5840 Introduction to Biophotonics (F).....	3
BIE 5850 Biomaterials Engineering (F).....	3
BIE 5890 Tissue Engineering (Sp).....	3
BIE 5910 Introduction to Biosensors (F) .....	3
BIE 5930 Special Studies: Metabolic Engineering I .....	4
BIE 5930 Special Studies: Synthetic Biological Engineering .....	3

### Engineering Electives (select 0-15 credits)

CEE 3430 Engineering Hydrology (Sp).....	3
CEE 3510 Civil and Environmental Engineering Hydraulics (F,Sp).....	3
CEE 3640 Water and Wastewater Engineering (Sp).....	4
CEE 4200 Engineering Economics (F).....	2
CEE 5430 Groundwater Engineering (F).....	3
CEE 5680 Soil-based Waste Management (Sp) .....	2
MAE 5620 Manufacturing Automation (F) .....	3

### Technical Electives (select 0-12 credits)

AV 4200 Composite Manufacturing Processes and Repair (Sp).....	3
BIE 4250 Cooperative Practice (F,Sp,Su) .....	3
BIOL 1620 (BLS) Biology II (Sp).....	4
BIOL 2320 Human Anatomy (Sp,Su) .....	4
BIOL 2420 Human Physiology (F,Sp,Su).....	4
BIOL 3060 (QI) Principles of Genetics (F,Sp,Su).....	4
BIOL 3100 (CI) Bioethics (Sp).....	3
BIOL 5160 Methods in Biotechnology: Cell Culture (Sp) .....	3
BIOL 5210 Cell Biology (F) .....	3
BIOL 5230 Developmental Biology (Sp) .....	3
BIOL 5240 Methods in Biotechnology: Protein Purification Techniques (Sp) .....	3
BIOL 5260 Methods in Biotechnology: Molecular Cloning (F) .....	3
BIOL 5620 Medical Physiology (F).....	3
CEE 2240 Engineering Surveying (F,Su) .....	3
CEE/PUBH 3610 Environmental Management (F) .....	3
CEE/PUBH 3870 (CI) Professional/Technical Writing in Civil and Environmental Engineering (F).....	2
CHEM 1220 (BPS) Principles of Chemistry II (F,Sp,Su) .....	4
CHEM 2320 Organic Chemistry II (Sp) .....	4
CHEM 2325 Organic Chemistry Laboratory II (Sp) .....	1
CHEM 3070 (QI) Physical Chemistry (Sp) .....	3
ECE 2250 Electrical Circuits (F,Sp).....	4
ECE 2700 Digital Circuits (F,Sp).....	4
ENGR 2140 Strength of Materials (F,Sp,Su).....	2
ETE 2020 Computer-Integrated Manufacturing Systems (Sp).....	3
MAE 2160 Material Science (F,Sp) .....	3
MAE 2650 Manufacturing Processes (Sp) .....	3
NFS 3100 (QI) Sensory Evaluation of Food (Sp) .....	3
NFS 4020 Advanced Nutrition (F).....	3
NFS 5110 (CI) Food Microbiology (Sp) .....	4
PEP 4200 (QI) Biomechanics (F,Sp,Su).....	4
PHYS 2110 The Physics of Living Systems I .....	4
PHYS 2120 (BPS) The Physics of Living Systems II .....	4
PHYS 2210 (QI) General Physics—Science and Engineering I.....	4
PHYS 2220 (BPS/QI) General Physics—Science and Engineering II ..	4
SOIL 3000 Fundamentals of Soil Science (F) .....	4
SOIL 5650 Environmental Soil Physics (F) .....	4
WATS 4490 Small Watershed Hydrology (F) .....	4
WATS 4500 Limnology: Ecology of Inland Waters (Sp) .....	3
WATS 5660 Watershed and Stream Restoration (Su) .....	2

Other technical courses (especially science and engineering) may be accepted with prior written approval from the Department of Biological and Irrigation Engineering.

# Department of Biological and Irrigation Engineering

## Suggested Semester Schedule for Premedical Program

It is possible for students to combine premedical requirements with requirements for the Biological Engineering major. Some of the premedical requirements add to the total amount of credits required. This combination may be completed within five years, if the student is very diligent. Medical schools *do not* accept AP, CLEP, or ACT scores toward fulfillment of English Composition, Chemistry, or Biology requirements. The following schedule is designed to satisfy the requirements without time conflicts. Students who must deviate from this schedule should be sure to meet often with a College of Engineering advisor.

### Preengineering: First Three Years

#### First Year (31 credits)

##### Fall Semester (15 credits)

BIOL 1610 <sup>1,3</sup> Biology I.....	4
CHEM 1210 <sup>3</sup> Principles of Chemistry I.....	4
CHEM 1215 <sup>3</sup> Chemical Principles Laboratory I.....	1
ENGR 1000 <sup>3</sup> Introduction to Engineering Design.....	2
MATH 1210 (QL) <sup>3</sup> Calculus I.....	4

##### Spring Semester (16 credits)

BIE 1880 <sup>3</sup> Engineering Quantification of Biological Processes.....	3
BIOL 1620 (BLS) Biology II.....	4
CHEM 1220 (BPS) Principles of Chemistry II.....	4

BIE 4890 (CI) Biological Engineering Design III.....	3
Engineering Elective.....	3
University Studies Depth Humanities and Creative Arts (DHA) course <sup>6</sup> .....	3
University Studies Depth Social Sciences (DSS) course.....	3

<sup>1</sup>The Breadth Life Sciences (BLS) area in the University Studies Program is satisfied by the combination of BIOL 1610 and 3300.

<sup>2</sup>To emphasize irrigation, bioprocesses, premedical, etc., contact department for suggested technical electives.

<sup>3</sup>This course is required for admission to the Professional Engineering Program (PEP).

<sup>4</sup>Irrigation engineers must take CEE 3430 this semester. It is a prerequisite to all senior irrigation classes

<sup>5</sup>These courses are highly recommended, but not required, for the premedical program. They fit in the schedule during the semesters shown. It is important for students to find out the requirements of the schools they desire to attend. Students should consult with the premedical advisor early in their program.

<sup>6</sup>AP English does not satisfy the two semesters of English Composition requirement. However, students may use AP English for ENGL 1010, and then take ENGL 2010 and ENGL 3040 (DHA) for the two semesters.

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school. Minimum GPA requirements for participation in departmental honors vary by department, but usually fall within the range of 3.30-3.50. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level. The campus-wide Honors Program, which is open to all qualified students regardless of major, offers a rich array of cultural and social activities, special classes, and the benefit of Honors early registration. Interested students should contact the Honors Program, Main 15, (435) 797-2715, [honors@usu.edu](mailto:honors@usu.edu). Additional information can be found online at: <http://www.usu.edu/honors/>

## Additional Information

For more information about the Bachelor of Science requirements and the sequence in which courses should be taken, see major requirement sheet, available from the Biological and Irrigation Engineering Department, or online at:

<http://www.usu.edu/majorsheets/>

# Department of Biological and Irrigation Engineering

## Financial Support

Scholarships, assistantships, grants-in-aid, and work-study programs are available through the University. In addition, the department employs students to assist in engineering research and development. Cooperative education and industrial employment opportunities for students are coordinated by the University Placement Office and by the BIE Department.

## Concurrent BS/Master's Program

The concurrent BS/Master's program allows engineering students to begin taking graduate-level classes during their senior year. This permits them to complete requirements for *both* the BS degree *and* the master's degree concurrently during two years. Students in this program have a greater selection of graduate courses, since many graduate courses are taught during alternate years. In addition, the student's senior design project could be applicable to a graduate design project or thesis. After completing the BS degree coursework, students in the program can earn a master's degree in only one additional year. Both the BS and the master's degree can generally be earned with 150 total credits, although students should note that a Plan C MS requires 3 extra credits. Finally, students with a master's degree can expect a much higher starting salary following graduation. (For more information, see *College of Engineering* section of this catalog, pages 133-134.)

## Graduate Programs

### Admission Requirements

See general admission requirements identified in this catalog. Admission committees also consider experience, undergraduate record and curriculum, and formal recommendations. A student without an undergraduate engineering background will be required to complete selected undergraduate courses prior to or concurrently with enrollment in graduate courses.

### Prerequisites for Matriculation

Students who are admitted provisionally or who have been changed from matriculated to probationary matriculated status will have their records reviewed by a faculty committee when they have completed 12 credits of coursework (among which must be formal engineering courses) or at the end of their second semester at USU. Those students who have earned a 3.0 GPA at that time and desire to be matriculated may apply to the department to have their status changed. If they meet all other academic requirements of the School of Graduate Studies and the department, they will be matriculated and admitted to the degree program. When a student is admitted as a degree candidate, the committee may allow up to 12 credits taken while on nonmatriculated status to be transferred. Nonmatriculated students may continue to study at USU but without degree candidate status. At the end of their studies, nondegree students are granted a Certificate of Completion.

### Prerequisite Requirements

All students must have had **formal** courses in engineering and computer programming, as well as at least one year of calculus. Students without this background can satisfy these requirements by taking the appropriate undergraduate courses at USU. An additional year of calculus (MATH 1210, 1220, and 2250, or equivalent) is required for the MS degree in Irrigation Engineering and for all PhD programs. These background courses will not be counted toward the degree credit requirements.

## MS in Biological Engineering and in Irrigation Engineering

Students must have a BS from an ABET-accredited engineering program in the U.S. or its equivalent in their home countries or must take the make-up coursework required for a BS in engineering at USU. It is assumed that the bachelor's degree mathematical training includes courses in calculus, linear analysis, and differential equations.

Three MS options are available: research (Plan A), technical practice (Plan B), and training/extension (Plan C).

### Research Option

Students wishing to gain experience in research may select the research option, particularly if they have a long-term goal of PhD study. The minimum requirements for this option are 30 credits, of which 8 may be awarded for the thesis.

### Technical Practice Option

Some students may not be interested in pursuing a PhD degree or in doing the research necessary for a thesis. For such students, the technical practice (Plan B) option is offered. The requirements for the degree are similar to those for the research option, with the exception of the thesis. The 8 thesis credits are replaced by 4 credits for a significant engineering report or design project and 4 additional credits of coursework. The minimum course requirement for the technical practice option is 30 approved graduate credits.

### Training/Extension Option

Students expecting to terminate their graduate studies at the MS level and wishing to develop an emphasis in the training and/or extension fields of biological engineering or irrigation engineering, may choose the training/extension option (Plan C). The same engineering BS or equivalent requirements noted under the Plan A option apply. The minimum requirements for this degree are 30 approved graduate credits. No report or thesis is required. The degree requirements under this option can be met by taking courses.

## Doctor of Philosophy

Two PhD programs are offered in the department: (1) **Biological Engineering** and (2) **Irrigation Engineering**. Students who have completed an MS with a thesis (Plan A or equivalent) in an engineering discipline are eligible to apply for admission to a PhD program. Admission will be based on the students' prior academic records and, if they are graduates of USU, the recommendations of their graduate committees. It is assumed that students are adequately prepared in mathematics and engineering design courses to compete at the PhD level. If such is not the case, a program of courses to make up the deficiency will be required.

In addition to any prescribed review courses and seminars, the minimum requirements for a PhD program include 60 credits of approved graduate courses beyond a master's degree, satisfactory completion of comprehensive examinations or submission of an approved manuscript to a refereed archival journal, and the writing of a dissertation based on an original research project. The degree requirements beyond a master's degree can be met by taking courses in engineering design, synthesis, and systems; mathematics; and related sciences.

## Research

Graduate research projects in the BIE Department encompass two broad options: biological engineering and irrigation engineering. Specific research projects in the biological engineering option include tissue and biomedical engineering related to heart stents, biosensor design and development for biomedical and bioenvironmental

# Department of Biological and Irrigation Engineering

applications (genetic probes), microbial fermentations, biorefining (production of biofuels and bioplastics from biological feedstocks), nanobiotechnology (quantum dots), biophotonics (interactions of light with biological materials), and land-based bioenvironmental sustainable systems (land application of industrial and municipal residuals for recycling, vegetative growth, soil improvement, and groundwater protection).

Food engineering represents an area of emphasis under the biological engineering option. Land application of food processing wastes, extrusion of dairy-based food, multi-stage anaerobic digestion of biological materials, functional properties of foods, and biological detoxification of metals are some of the research topics supported in food engineering.

In the irrigation engineering area, USU has attained worldwide prestige through the successful professional contributions of its graduates during a period of 80 years. The BIE Department is substantially involved in overseas research and training activities, for example in the Dominican Republic, Armenia, and Tatarstan, concerned with managing irrigation systems, on-farm water management, water resource development, and soil assimilation and recycling of industrial residues. Specific research projects in the irrigation and drainage engineering option include hydraulics of surface irrigation, consumptive use, return flow quantity and quality of irrigation waters, transient flow in tile drainage systems, drain envelopes, sprinkler irrigation, trickle irrigation, crop production and water requirements, salt movement, regional groundwater modeling for optimizing sustainable yield, conveyance system modeling and control, and remote sensing.

## Financial Assistance

The large and diverse departmental research programs make it possible to offer graduate financial support in the form of research assistantships, traineeships, and teaching assistantships for qualified students. Research assistantships are provided by the BIE Department and by individual research projects. Teaching assistantships are provided by the School of Graduate Studies and by the College of Engineering. Traineeships and research assistantships carry tuition waivers. It is the goal of the BIE Department to provide research and/or teaching support for all qualified students.

## Additional Information

Two guides are available from the department to assist students: (1) *Report, Thesis, and Dissertation Format Guidelines and Policies*, and (2) *Policies and Procedures for Graduate Study*.

## Biological and Irrigation Engineering Faculty

### Professors

*Conly L. Hansen*, food engineering  
*Robert W. Hill*, irrigation and water resource extension  
*Gary P. Merkle*, conveyance systems  
*Christopher M. U. Neale*, remote sensing  
*Richard C. Peralta*, groundwater  
*Ronald C. Sims*, biological process engineering  
*Wynn R. Walker*, surface irrigation

### Research Professor

*Darwin L. Sorensen*, soil microbiology

### Adjunct Professors

*Richard Allen*, irrigation  
*Anne J. Anderson*, plant root-microbe interactions  
*Daryll B. DeWald*, cell biology  
*H. Scott Hinton*, biophotonics  
*Lawrence E. Hipps*, biometeorology  
*Kamal Rashid*, biotechnology  
*A. Ronald Torres*, genetics of autism

### Professors Emeritus

*George H. Hargreaves*, crop water requirements  
*Jack Keller*, sprinkle and drip irrigation  
*Glen E. Stringham*, surface irrigation

### Research Professor Emeritus

*L. Humberto Yap-Salinas*, drainage

### Associate Professor

*David W. Britt*, biomedical engineering

### Research Associate Professors

*Joan E. McLean*, soil chemistry  
*Judith L. Sims*, soil biology

### Adjunct Associate Professors

*Scott B. Jones*, soil physics  
*Michael J. McFarland*, biosolids

### Associate Professor Emeritus

*Edwin C. Olsen III*, international irrigation, water management

### Assistant Professors

*Soonjo Kwon*, tissue engineering  
*Charles D. Miller*, synthetic biological engineering  
*Sridhar Viamajala*, biofuels, downstream processing  
*Jixun Zhan*, metabolic engineering  
*Anhong Zhou*, nanobiotechnology

### Adjunct Assistant Professors

*David G. Chandler*, soil processes  
*Andrew A. Keller*, irrigation  
*Paul D. Schreuders*, biomedical engineering

### Adjunct Research Assistant Professors

*Hui Fang Dou*, electrical engineering  
*Arnulfo González-Meza*, irrigation system transfer

### Research Assistant Professor Emeritus

*R. Kern Stutler*, irrigation structures

### Principal Lecturer

*Timothy A. Taylor*, bioprocess engineering

## Course Descriptions

Biological and Irrigation Engineering (BIE), pages 511-514

**Department Head:** Daryll B. DeWald  
**Location:** Biology-Natural Resources 121  
**Phone:** (435) 797-2485  
**FAX:** (435) 797-1575  
**E-mail:** [undergrad\\_info@biology.usu.edu](mailto:undergrad_info@biology.usu.edu)  
or [graduate\\_info@biology.usu.edu](mailto:graduate_info@biology.usu.edu)  
**WWW:** <http://www.biology.usu.edu/>

**Associate Head:**

Timothy A. Gilbertson, Biology-Natural Resources 327,  
(435) 797-7314, [tag@biology.usu.edu](mailto:tag@biology.usu.edu)

**Director of Undergraduate Studies:**

Dennis L. Welker, Biology-Natural Resources 101, (435) 797-3552,  
[dennis.welker@usu.edu](mailto:dennis.welker@usu.edu)

**Director of Graduate Studies:**

Edmund D. Brodie, Jr., Biology-Natural Resources 149,  
(435) 797-2489, [brodie@biology.usu.edu](mailto:brodie@biology.usu.edu)

**Biology Advisor:**

Yvonne Kobe, Biology-Natural Resources 101,  
(435) 797-2577, [yvonne@biology.usu.edu](mailto:yvonne@biology.usu.edu)

**Advisor for Prehealth Professions Programs:**

D. M. Andy Anderson, Veterinary Science and Bacteriology 231,  
(435) 797-1913, [andy@biology.usu.edu](mailto:andy@biology.usu.edu)

**Advisor for Public Health Major:**

David Wallace, Biology-Natural Resources 333, (435) 797-7155,  
[dwallace@biology.usu.edu](mailto:dwallace@biology.usu.edu)

**Degrees offered:** Bachelor of Science (BS), Bachelor of Arts (BA), Master of Science (MS), and Doctor of Philosophy (PhD) in Biology; BS and BA in Composite Teaching—Biological Science; BS in Public Health; MS and PhD in Ecology; MS and PhD in Toxicology is available through the Interdepartmental Program in Toxicology.

**Undergraduate emphases:** *Biology BS, BA*—Biology, Cellular/Molecular, Ecology/Biodiversity, Environmental; *Public Health BS*—Industrial Hygiene, Environmental Health, Public Health Education

## Undergraduate Programs

### Learning Objectives

#### Biology

The Department of Biology offers programs leading to a Bachelor of Science or Bachelor of Arts degree. Majors will complete a core of courses which provide an understanding of biological principles. Upper-division courses provide integration, in-depth study, and an opportunity for specialization within the different degree emphases. Additional coursework in chemistry, physics, statistics, and mathematics provides knowledge and analytical skills in these important related fields. Biology degrees provide a foundation for graduate work or employment in research, industry, or governmental agencies. Biology majors can add a minor area of study, such as business or chemistry, to enhance their employment opportunities.

#### Prehealth Professions Programs

The Department of Biology supervises premedical, pre dental, and other prehealth professions programs. These programs satisfy entrance requirements for most medical and dental schools in the United States and Canada and are recognized for the high-quality preprofessional preparation they provide. After four years, the student receives a BS or BA degree in Biology or another major. **Advisor:** D. M. Andy Anderson, Veterinary Science and Bacteriology 231.

#### Composite Teaching—Biological Science

This major combines content training in biology and related fields (including chemistry, physics, geology, mathematics, and statistics) with education courses. Graduates are qualified to apply for a teaching license through the Utah State Office of Education. **Advisor:** Richard J. Mueller, Eccles Science Learning Center 245.

#### Public Health

The Department of Biology offers preprofessional training in public health. Individuals completing the BS degree have employment opportunities in such areas as environmental health, industrial hygiene, public health education, administration, nursing, nutrition, mental health, and social work. **Advisor:** David O. Wallace, Biology-Natural Resources 333.

The Department Head, the Director of Undergraduate Studies, and advisors in the Department of Biology are available to provide undergraduate majors with additional information regarding specific programs and career opportunities. The Biology Advising Center and the Director of Undergraduate Studies are located in Biology-Natural Resources 101. Program requirements, advising information, and an “Ask an Advisor” e-mail service are on the Department of Biology web page at: <http://www.biology.usu.edu>

Students with majors in the Department of Biology should consult with their advisors regularly as they plan their course of study. Students have the responsibility to keep themselves aware of major requirements and course prerequisites. For additional information, obtain an official Major Requirement Sheet from the Biology Advising Center or online at: <http://www.usu.edu/majorsheets/>. General requirements, specific course offerings, and the semesters that courses are taught may change.

Mathematics is an important and required skill to enhance one's success in the sciences. Proper course level placement in mathematics at the beginning of the degree program is essential. Students should consult with an advisor and, if necessary, take the Math Placement Exam to determine the appropriate level to begin their mathematics studies for meeting requirements and completion of their major.

### Assessment

The primary mission of the Department of Biology is to discover and advance knowledge in the biological sciences, and to make that knowledge available to students through a diverse set of educational experiences. To achieve this, three specific areas are being targeted: (1) A core program in the life sciences is aimed at providing the skills and knowledge base needed for a wide variety of employment and educational opportunities in biological and biotechnology fields; (2) a premedical, pre dental, and prehealth program has the specific goal of guiding students with respect to opportunities in the health professions; and (3) a public health program provides pre-professional training in such subjects as environmental health, industrial hygiene, and public health education. For full details about Program Learning Objectives, Undergraduate Program Assessment, Data-based Decisions, and more, go to <http://www.biology.usu.edu>

### Undergraduate Research in Biology

The Department of Biology offers a broad array of undergraduate research opportunities. Undergraduate research allows students to have a real-life experience in a faculty research lab. Many students publish their research in scientific journals and present their research at national scientific meetings. Students may do undergraduate research work under the supervision of selected faculty members.

# Department of Biology

To receive academic credit, a student must enroll in BIOL 5800, Undergraduate Research. Students doing Honors in Biology do undergraduate research and write a bachelor's thesis.

For complete information about undergraduate research, contact Yvonne Kobe, Biology Advisor, at yvonne@biology.usu.edu or (435) 797-2577.

## Requirements

### University Requirements

Students are responsible for meeting all University requirements for total credits, upper-division credits, credits of C- or better, and the University Studies Program. (See pages 67-79 in this catalog.)

### College of Science Requirements

All college requirements are met by completing the departmental degree requirements; no additional coursework is required.

### Admission Requirements for the Biology and Public Health Majors

New freshmen admitted to USU in good standing qualify for admission to the Biology and Public Health majors. Transfer students from other institutions need a 2.25 transfer GPA, and students transferring from other USU majors need a 2.25 cumulative GPA for admission to the Biology and Public Health majors in good standing. Admission requirements differ for the Composite Teaching—Biological Science Major, as explained below.

### Admission Requirements for the Composite Teaching—Biological Science Major

New freshmen admitted to USU in good standing qualify for admission to this major. To qualify for admission to the Secondary Teacher Education Program (STEP), students must acquire a cumulative 2.75 GPA and 60 credits of coursework. Transfer students from other institutions or other USU majors need a cumulative 2.75 GPA and 60 credits of coursework to be admitted to the major and the STEP. For information on additional admission criteria, students should contact the School of Teacher Education and Leadership (TEAL).

### GPA Requirement

To graduate, a candidate for any bachelor's degree offered by the Department of Biology must maintain a grade point average of 2.25 in all Department of Biology (BIOL or PUBH prefix) courses required for the major and a grade of C- or better in BIOL 1610 and 1620. The *Pass-Fail* option is not acceptable for any course required for the degree, but *D* grades are permitted within the restrictions of the 2.25 GPA. The Composite Teaching—Biological Science Major requires a cumulative overall GPA of 2.75 for admission and graduation. The 2.25 GPA requirement and the C- or better grade in BIOL 1610 and 1620 requirement apply to the Biology, Public Health, and BioMath minors.

### BS Degree in Biology

Four different emphases are available within the Biology degree. The **Biology Emphasis** is the most flexible option. Electives may be selected in any subdiscipline the student wishes to emphasize (e.g., botany, ecology, zoology, entomology, microbiology, etc.). The **Cellular/Molecular** and **Ecology/Biodiversity** emphases provide more directed training that is appropriate for research or other technical employment in academic institutions, government agencies, and the private sector. They also provide excellent preparation for graduate work. The **Environmental Emphasis** prepares students in the biological and physical sciences as they relate to environmental

problems and concerns. This degree serves as a foundation for graduate work and provides practical training for employment at the bachelor's degree level. Emphases will be listed on transcripts to indicate the student's specialization. The course requirements are as follows:

### Biology Emphasis

#### Required Biology Courses (21-22 credits)

BIOL 1610 Biology I (F)	4
BIOL 1620 (BLS) Biology II (Sp)	4
BIOL 2220 General Ecology (F,Sp)	3
BIOL 3060 (QI) Principles of Genetics (F,Sp,Su)	4
BIOL 3300 General Microbiology (F,Sp) (4 cr) or	
BIOL 5210 Cell Biology (F) (3 cr)	3 or 4
BIOL 5250 (CI) Evolutionary Biology (F,Sp)	3

#### Field Course Requirement (2-3 credits)

Students must take one course from the following list:

BIOL 2410 Plants and Fungi in the Field (Su)	2
BIOL 3220 (QI) Field Ecology (F)	2
BIOL 4420 Plant Taxonomy (Sp,Su)	3
BIOL 4500 Applied Entomology (Sp)	3
BIOL 5530 Insect Systematics and Evolution (F)	3
BIOL 5550 Freshwater Invertebrates (Sp)	3
BIOL 5560 Ornithology (Sp)	3
BIOL 5570 Herpetology (Sp)	3

#### Physiology Course with Lab Requirement (4-5 credits)

Students must take from the following list one upper-division physiology course with an integrated or separate laboratory:

##### Courses with integrated laboratories:

BIOL 4400 (QI) Plant Physiology (F)	4
BIOL 5300 (QI) Microbial Physiology (Sp)	4

##### Courses with separate lecture and lab; one of the following three lecture courses and BIOL 5610 must be taken to meet the requirement:

BIOL 5100 Neurobiology (F) (3 cr) or	
BIOL 5600 Comparative Animal Physiology (Sp) (3 cr) or	
BIOL 5620 Medical Physiology (F) (3 cr)	3
And	
BIOL 5610 (QI) Animal Physiology Laboratory (F,Sp)	2

#### Biology Electives (10 credits)

Students must select an additional 10 credits of 4000-level and above BIOL or PUBH prefix courses as electives. BIOL 3065 (Genetics Laboratory) may also be included toward these elective credits, even though it is a 3000-level course. A maximum of 4 credits from the following courses may be included among the 10 elective credits.

BIOL 4250 Internship/Co-op (F,Sp,Su)	1-2
BIOL 4710 Teaching Internship (F,Sp,Su)	1
BIOL 5800 Undergraduate Research (F,Sp,Su)	1-3
Seminar courses	1-2

#### Required Physical Science Courses (26 credits)

CHEM 1210 Principles of Chemistry I (F,Sp)	4
CHEM 1215 Chemical Principles Laboratory I (F,Sp)	1
CHEM 1220 (BPS) Principles of Chemistry II (F,Sp,Su)	4
CHEM 1225 Chemical Principles Laboratory II (F,Sp)	1
CHEM 2300 Principles of Organic Chemistry (F)	3
CHEM 2315 Organic Chemistry Laboratory I (F)	1
CHEM 3700 Introductory Biochemistry (Sp)	3
CHEM 3710 Introductory Biochemistry Laboratory (Sp)	1

<b>MATH 1210 (QL)</b> Calculus I (F,Sp,Su).....	4
<b>STAT 3000 (QI)</b> Statistics for Scientists (F,Sp,Su).....	3

## Ecology/Biodiversity Emphasis

### Required Biology Courses (24 credits)

<b>BIOL 1610</b> Biology I (F).....	4
<b>BIOL 1620 (BLS)</b> Biology II (Sp).....	4
<b>BIOL 2220</b> General Ecology (F,Sp).....	3
<b>BIOL 3060 (QI)</b> Principles of Genetics (F,Sp,Su).....	4
<b>BIOL 3220 (QI)</b> Field Ecology (F).....	2
<b>BIOL 3300</b> General Microbiology (F,Sp).....	4
<b>BIOL 5250 (CI)</b> Evolutionary Biology (F,Sp).....	3

### Physiology Course with Lab Requirement (4-5 credits)

Students must take one upper-division physiology course with an integrated or separate laboratory from the following list:

#### Courses with integrated laboratories:

<b>BIOL 4400 (QI)</b> Plant Physiology (F).....	4
<b>BIOL 5300 (QI)</b> Microbial Physiology (Sp).....	4

Courses with separate lecture and lab; one of the following three lecture courses **and** **BIOL 5610** must be taken to meet the requirement:

<b>BIOL 5100</b> Neurobiology (F) (3 cr) <b>or</b>	
<b>BIOL 5600</b> Comparative Animal Physiology (Sp) (3 cr) <b>or</b>	
<b>BIOL 5620</b> Medical Physiology (F) (3 cr).....	3
<b>And</b>	
<b>BIOL 5610 (QI)</b> Animal Physiology Laboratory (F,Sp).....	2

### Clusters (8-10 credits)

Students must take one course from each of the following three clusters.

#### Plant Biology:

<b>BIOL 2410</b> Plants and Fungi in the Field (Su).....	2
<b>BIOL 4420</b> Plant Taxonomy (Sp,Su).....	3

#### Animal Biology:

<b>BIOL 4500</b> Applied Entomology (Sp).....	3
<b>BIOL 5530</b> Insect Systematics and Evolution (F).....	3
<b>BIOL 5550</b> Freshwater Invertebrates (Sp).....	3
<b>BIOL 5560</b> Ornithology (Sp).....	3
<b>BIOL 5570</b> Herpetology (Sp).....	3
<b>BIOL 5580</b> Mammalogy (F).....	3

# Department of Biology

## Ecology/Evolution:

BIOL 4060 (CI) Exploring Animal Behavior (Sp)	3
BIOL 5010 Biogeography (Sp)	3
BIOL 5020 (QI) Modeling Biological Systems (F)	3
BIOL 5380 Evolutionary Genetics (F)	4
BIOL 5590 Animal Community Ecology (Sp) (Alt. Years)	4
WILD 4600 Conservation Biology (Sp)	3

## Electives (2-3 credits)

Students must take one additional course from this list or the clusters above or other upper-division courses approved by advisor.

BIOL 3065 Genetics Laboratory (F)	2
BIOL 4410 Plant Structure (Sp)	3
BIOL 5310 Soil Microbiology (F) (Alt. Years)	3
BIOL 5800 Undergraduate Research (F,Sp,Su)	2-3

## Required Physical Science Courses (34 credits)

CHEM 1210 Principles of Chemistry I (F,Sp)	4
CHEM 1215 Chemical Principles Laboratory I (F,Sp)	1
CHEM 1220 (BPS) Principles of Chemistry II (F,Sp,Su)	4
CHEM 1225 Chemical Principles Laboratory II (F,Sp)	1
CHEM 2300 Principles of Organic Chemistry (F)	3
CHEM 2315 Organic Chemistry Laboratory I (F)	1
CHEM 3700 Introductory Biochemistry (Sp)	3
CHEM 3710 Introductory Biochemistry Laboratory (Sp)	1
GEO 1110 (BPS) The Dynamic Earth: Physical Geology (F,Sp)	4
SOIL 3000 Fundamentals of Soil Science (F,Sp)	4

PHYS 2110 The Physics of Living Systems I (4 cr) and PHYS 2120 (BPS) The Physics of Living Systems II (4 cr)	8
Or PHYS 2210 (QI) General Physics—Science and Engineering I (4 cr) and PHYS 2220 (BPS/QI) General Physics—Science and Engineering II (4 cr)	8

## Mathematics and Statistics Requirement (7 credits)

MATH 1210 (QL) Calculus I (F,Sp,Su)	4
STAT 3000 (QI) Statistics for Scientists (F,Sp,Su)	3

## Environmental Emphasis

### Required Biology Courses (24 credits)

BIOL 1610 Biology I (F)	4
BIOL 1620 (BLS) Biology II (Sp)	4
BIOL 2220 General Ecology (F,Sp)	3
BIOL 3060 (QI) Principles of Genetics (F,Sp,Su)	4
BIOL 3220 (QI) Field Ecology (F)	2
BIOL 3300 General Microbiology (F,Sp)	4
BIOL 5250 (CI) Evolutionary Biology (F,Sp)	3

### Plant Identification (2-3 credits)

Choose one of the following courses:

BIOL 2410 Plants and Fungi in the Field (Su)	2
BIOL 4420 Plant Taxonomy (Sp)	3

### Physiology Course with Lab Requirement (4-5 credits)

Students must take from the following list one upper-division physiology course with an integrated or separate laboratory:

#### Courses with integrated laboratories:

BIOL 4400 (QI) Plant Physiology (F)	4
BIOL 5300 (QI) Microbial Physiology (Sp)	4

Courses with separate lecture and lab; one of the following three lecture courses **and** BIOL 5610 must be taken to meet the requirement:

BIOL 5100 Neurobiology (F) (3 cr) or BIOL 5600 Comparative Animal Physiology (Sp) (3 cr) or BIOL 5620 Medical Physiology (F) (3 cr)	3
And BIOL 5610 (QI) Animal Physiology Laboratory (F,Sp)	2

### Biology Elective Courses (12 credits)

Students must take 12 credits from the following list or others approved by advisor. Up to 3 credits of BIOL 5800 may be included.

BIOL 4430 Introduction to Plant Pathology (Sp)	4
BIOL 4500 Applied Entomology (Sp)	3
BIOL 5020 (QI) Modeling Biological Systems (F)	3
BIOL 5310 Soil Microbiology (F) (Alt. Years)	3
BIOL 5320 Soil Microbiology Laboratory (F) (Alt. Years)	2
BIOL 5400 Environmental Toxicology (Sp)	3
BIOL 5800 Undergraduate Research (F,Sp,Su)	1-3
CEE/SOIL 5620 Aquatic Chemistry (F)	3
GEO 1110 (BPS) The Dynamic Earth: Physical Geology (F,Sp)	4
PUBH 3610 Environmental Management (F)	3
SOIL 3000 Fundamentals of Soil Science (F,Sp)	4

### Required Physical Science Courses (36 credits)

CHEM 1210 Principles of Chemistry I (F,Sp)	4
CHEM 1215 Chemical Principles Laboratory I (F,Sp)	1
CHEM 1220 (BPS) Principles of Chemistry II (F,Sp,Su)	4
CHEM 1225 Chemical Principles Laboratory II (F,Sp)	1
CHEM 2310 Organic Chemistry I (F)	4
CHEM 2315 Organic Chemistry Laboratory I (F)	1
CHEM 2320 Organic Chemistry II (Sp)	4
CHEM 2325 Organic Chemistry Laboratory II (Sp)	1
CHEM 3000 (QI) Quantitative Analysis (F)	3
CHEM 3005 Quantitative Analysis Laboratory (F)	1
CHEM 3700 Introductory Biochemistry (Sp)	3
CHEM 3710 Introductory Biochemistry Laboratory (Sp)	1

PHYS 2110 The Physics of Living Systems I (4 cr) and PHYS 2120 (BPS) The Physics of Living Systems II (4 cr)	8
Or PHYS 2210 (QI) General Physics—Science and Engineering I (4 cr) and PHYS 2220 (BPS/QI) General Physics—Science and Engineering II (4 cr)	8

## Mathematics and Statistics Requirement (7 credits)

MATH 1210 (QL) Calculus I (F,Sp,Su)	4
STAT 3000 (QI) Statistics for Scientists (F,Sp,Su)	3

## BS Degree in Composite Teaching—Biological Science

The Composite Teaching—Biological Science Major leads to licensure to teach in secondary schools. Students who may wish to teach Integrated Science at the middle or junior high school level should talk to their advisor about completing the courses necessary for an Integrated Science endorsement. **Note:** All USU teacher education candidates will be required to take and pass the content exam approved by the Utah State Office of Education in their major content area prior to student teaching. The Composite Teaching—Biological Science course requirements are as follows:

### Required Courses (32 credits)

BIOL 1610 Biology I (F)	4
BIOL 1620 (BLS) Biology II (Sp)	4
BIOL 2220 General Ecology (F,Sp)	3

BIOL 2420 Human Physiology (F,Sp,Su) .....	4
BIOL 3060 (QI) Principles of Genetics (F,Sp,Su) .....	4
BIOL 3065 Genetics Laboratory (F) (Alt. Years) .....	2
BIOL 3220 (QI) Field Ecology (F) .....	2
BIOL 3300 General Microbiology (F,Sp) .....	4
BIOL 5250 (CI) Evolutionary Biology (F,Sp) .....	3
SCI 4300 Science in Society (F,Sp) .....	2

**Physiology Course with Lab Requirement (4-5 credits)**

Students must take from the following list one upper-division physiology course with an integrated or separate laboratory:

**Courses with integrated laboratories:**

BIOL 4400 (QI) Plant Physiology (F) .....	4
BIOL 5300 (QI) Microbial Physiology (Sp) .....	4

**Courses with separate lecture and lab; one of the following three lecture courses and BIOL 5610 must be taken to meet the requirement:**

BIOL 5100 Neurobiology (F) (3 cr) or	
BIOL 5600 Comparative Animal Physiology (Sp) (3 cr) or	
BIOL 5620 Medical Physiology (F) (3 cr) .....	3
And	
BIOL 5610 (QI) Animal Physiology Laboratory (F,Sp) .....	2

**Required Physical Science Courses (21 credits)**

GEO 1110 (BPS) The Dynamic Earth: Physical Geology (F,Sp) .....	4
CHEM 1110 (BPS) General Chemistry I (F,Sp) .....	4
CHEM 1115 General Chemistry Laboratory (F,Sp) .....	1
CHEM 1120 (BPS) General Chemistry II (Sp) .....	4

PHYS 2110 The Physics of Living Systems I (4 cr) and  
PHYS 2120 (BPS) The Physics of Living Systems II (4 cr) .....

Or	
PHYS 2210 (QI) General Physics—Science and Engineering I (4 cr) and	
PHYS 2220 (BPS/QI) General Physics—Science and Engineering II (4 cr) .....	8

**Mathematics and Statistics Requirement (7 credits)**

MATH 1210 (QL) Calculus I (F,Sp,Su) .....	4
STAT 3000 (QI) Statistics for Scientists (F,Sp,Su) .....	3

**Required Courses for the Secondary Teacher Education Program (STEP) (35 credits)**

**Level 1:**

INST 3500 Technology Tools for Secondary Teachers (F,Sp,Su) .....	1
SCED 3100 Motivation and Classroom Management (F,Sp) .....	3
SCED 3210 (CI/DSS) Educational and Multicultural Foundations (F,Sp) .....	3
SCED 3300 Clinical Experience I (F,Sp) .....	1
SCED 3400 Teaching Science I (Sp) .....	3

**Level 2:**

SPED 4000 Education of Exceptional Individuals (may be taken anytime) (F,Sp,Su) .....	2
SCED 4200 (CI) Reading, Writing, and Technology (F,Sp) .....	3
SCED 4210 Cognition and Evaluation of Student Learning (F,Sp) .....	3
SCED 4300 Clinical Experience II (F,Sp) .....	1
SCED 4400 Teaching Science II (F) .....	3

**Level 3:**

SCED 5500 Student Teaching Seminar (F,Sp) .....	2
SCED 5630 Student Teaching in Secondary Schools (F,Sp) .....	10

**Note:** The Teaching Science I and II courses (SCED 3400 and 4400) are *only* taught once per year. Therefore, it is important for students to consult with their advisor to fit these courses in the correct sequence into their plan of study.

**BA Degrees in Biology and Composite Teaching—Biological Science**

The student must complete the requirements for the BS (above) plus two years of a foreign language. (See pages 76-77 of this catalog.)

**BS Degree in Public Health**

A four-year program leading to the Bachelor of Science in Public Health is offered by the Department of Biology with options in environmental health, industrial hygiene, or public health education. The industrial hygiene program is accredited by the Applied Science Commission of the Accreditation Board for Engineering and Technology; 111 Market Place, Suite 1050; Baltimore MD 21202-4012; telephone (410) 347-7700. Individuals completing the environmental health option are qualified to take the Registered Environmental Health Specialist/Sanitarian Examination (REHS/RS). Those completing the industrial hygiene option are granted benefits toward both the Certified Industrial Hygienist (CIH) and the Certified Safety Professional (CSP) examinations. Public Health Education graduates are qualified to take the Certified Health Education Specialist (CHES) examination. The Public Health degree requires a core of biology courses similar to that required for the biology degrees; additional biology and public health courses; and chemistry, physics, mathematics, statistics, and allied science and engineering courses appropriate to each emphasis. The course requirements are as follows:

**Industrial Hygiene Emphasis**

**Required Biology Courses (16 credits)**

BIOL 1610 Biology I (F) .....	4
BIOL 1620 (BLS) Biology II (Sp) .....	4
BIOL 2420 Human Physiology (F,Sp,Su) .....	4
BIOL 3300 General Microbiology (F,Sp) .....	4

**Required Physical Science Courses (30 credits)**

CHEM 1210 Principles of Chemistry I (F,Sp) .....	4
CHEM 1215 Chemical Principles Laboratory I (F,Sp) .....	1
CHEM 1220 (BPS) Principles of Chemistry II (F,Sp,Su) .....	4
CHEM 1225 Chemical Principles Laboratory II (F,Sp) .....	1
CHEM 2300 Principles of Organic Chemistry (F) .....	3
CHEM 2315 Organic Chemistry Laboratory I (F) .....	1
CHEM 3000 (QI) Quantitative Analysis (F) .....	3
CHEM 3005 Quantitative Analysis Laboratory (F) .....	1
CHEM 3700 Introductory Biochemistry (Sp) .....	3
CHEM 3710 Introductory Biochemistry Laboratory (Sp) .....	1

PHYS 2110 The Physics of Living Systems I (4 cr) and  
PHYS 2120 (BPS) The Physics of Living Systems II (4 cr) .....

Or	
PHYS 2210 (QI) General Physics—Science and Engineering I (4 cr) and	
PHYS 2220 (BPS/QI) General Physics—Science and Engineering II (4 cr) .....	8

**Mathematics and Statistics Requirement (7 credits)**

MATH 1210 (QL) Calculus I (F,Sp,Su) .....	4
STAT 3000 (QI) Statistics for Scientists (F,Sp,Su) .....	3

**Required Program Courses (32 credits)**

PUBH 3310 Occupational Health and Safety (F) .....	3
PUBH 3610 Environmental Management (F) .....	3
PUBH 3870 (CI) Professional/Technical Writing in Civil and Environmental Engineering (F) .....	2
PUBH 4040 Fundamentals of Epidemiology (Sp) .....	3
PUBH 4310 Industrial Hygiene Recognition of Hazards (F) .....	4
PUBH 4320 Industrial Hygiene Chemical Hazard Evaluation (Sp) .....	3
PUBH 4330 Industrial Hygiene Physical Hazards (Sp) .....	3

# Department of Biology

PUBH 4380 Industrial Hygiene Internship (F,Sp,Su)	3
PUBH 5330 (QI) Industrial Hygiene Chemical Hazard Control (F)	3
PUBH 5400 Environmental Toxicology (Sp)	3
PUBH 5500 (CI) Public Health Management (F,Sp)	2

## Elective Options (select 5 credits)

BIOL 3060 (QI) Principles of Genetics (F,Sp,Su)	4
CEE 5610 Environmental Quality Analysis (F)	3
MGT 3110 (DSS) Managing Organizations and People (F,Sp,Su)	3
MGT 4630 Human Resource Management (F,Sp)	3
PUBH 4300 Industrial Hygiene Seminar (F)	1-2
PUBH 4410 Industrial Safety (Sp)	3
PUBH 5340 Industrial Hygiene and Safety Programs (Sp)	2
PUBH 5670 Hazardous Chemicals Handling and Safety (Sp)	2
PUBH 5730 Analysis and Fate of Environmental Contaminants (F)	3
PUBH 5790 Accident and Emergency Management (Sp)	3

## Environmental Health Emphasis

### Required Biology Courses (19 credits)

BIOL 1610 Biology I (F)	4
BIOL 1620 (BLS) Biology II (Sp)	4
BIOL 2220 General Ecology (F,Sp)	3
BIOL 2420 Human Physiology (F,Sp,Su)	4
BIOL 3300 General Microbiology (F,Sp)	4

### Required Physical Science Courses (22 credits)

CHEM 1210 Principles of Chemistry I (F,Sp)	4
CHEM 1215 Chemical Principles Laboratory I (F,Sp)	1
CHEM 1220 (BPS) Principles of Chemistry II (F,Sp,Su)	4
CHEM 1225 Chemical Principles Laboratory II (F,Sp)	1
CHEM 2300 Principles of Organic Chemistry (F)	3
CHEM 2315 Organic Chemistry Laboratory I (F)	1

PHYS 2110 The Physics of Living Systems I (4 cr) and Or PHYS 2120 (BPS) The Physics of Living Systems II (4 cr)	8
PHYS 2210 (QI) General Physics—Science and Engineering I (4 cr) and PHYS 2220 (BPS/QI) General Physics—Science and Engineering II (4 cr)	8

### Mathematics and Statistics Requirement (7 credits)

MATH 1210 (QL) Calculus I (F,Sp,Su)	4
STAT 3000 (QI) Statistics for Scientists (F,Sp,Su)	3

### Required Program Courses (31 credits)

PUBH 3310 Occupational Health and Safety (F)	3
PUBH 3610 Environmental Management (F)	3
PUBH 3870 (CI) Professional/Technical Writing in Civil and Environmental Engineering (F)	2
PUBH 4000 Public Health Field Experience (F,Sp,Su)	3
PUBH 4030 Communicable Disease Control (F)	3
PUBH 4040 Fundamentals of Epidemiology (Sp)	3
PUBH 4310 Industrial Hygiene Recognition of Hazards (F)	4
PUBH 5000 Public Health Seminar (Sp)	1
PUBH 5500 (CI) Public Health Management (F,Sp)	2
PUBH 5730 Analysis and Fate of Environmental Contaminants (F)	3
NFS 5110 (CI) Food Microbiology (Sp)	4

### Required Electives (select 10 credits)

BIOL 3220 (QI) Field Ecology (F)	2
BIOL 3500 (DSC) Plagues, Pests, and People (Sp)	3
BIOL 4420 Plant Taxonomy (Sp,Su)	3
BIOL 5550 Freshwater Invertebrates (Sp)	3
CHEM 3700 Introductory Biochemistry (Sp)	3
CHEM 3710 Introductory Biochemistry Laboratory (Sp)	1

PUBH 5400 Environmental Toxicology (Sp)	3
SOIL 3000 Fundamentals of Soil Science (F,Sp)	4
SPCH 1020 (CI) Public Speaking (F,Sp)	3

## Public Health Education Emphasis

### Required Biology Courses (16 credits)

BIOL 1610 Biology I (F)	4
BIOL 1620 (BLS) Biology II (Sp)	4
BIOL 2420 Human Physiology (F,Sp,Su)	4
BIOL 3300 General Microbiology (F,Sp)	4

### Required Physical Science Courses (13 credits)

CHEM 1110 (BPS) General Chemistry I (F,Sp)	4
CHEM 1115 General Chemistry Laboratory (Sp)	1
CHEM 1120 (BPS) General Chemistry II (Sp)	4
PHYS 1200 (BPS) Introduction to Physics by Hands-on Exploration (4 cr) or PHYS 1800 (BPS) Physics of Technology (4 cr)	4

### Mathematics and Statistics Requirement (7 credits)

MATH 1210 (QL) Calculus I (F,Sp,Su)	4
STAT 3000 (QI) Statistics for Scientists (F,Sp,Su)	3

### Required Program Courses (15 credits)

PUBH 3120 Family and Community Health (Sp)	3
PUBH 4000 Public Health Field Experience (F,Sp,Su)	3
PUBH 4030 Communicable Disease Control (F)	3
PUBH 4040 Fundamentals of Epidemiology (Sp)	3
PUBH 5000 Public Health Seminar (Sp)	1
PUBH 5500 (CI) Public Health Management (F,Sp)	2

### Required Supporting Courses (30 credits)

HEP 2000 First Aid and Emergency Care (F,Sp,Su)	2
HEP 2500 Health and Wellness (F,Sp,Su)	2
HEP 3000 Drugs and Human Behavior (F,Su)	3
HEP 3900 Social Marketing in Health Education (Sp)	3
HEP 4200 (QI) Planning and Evaluation for Health Education (F)	3
HEP 5300 Grant Proposal Writing (Sp)	3
NFS 1020 (BLS) Science and Application of Human Nutrition (F,Sp,Su)	3
NFS 5210 Advanced Public Health Nutrition (Sp)	2
SOC 3330 Medical Sociology (F)	3
SOC 3500 Social Psychology (F,Sp)	3
SPCH 1020 (CI) Public Speaking (F,Sp)	3

## Biology Minor

The Biology minor requires completion of the following courses. A minimum cumulative GPA of 2.25 is required for these courses, with a C- or better grade in BIOL 1610 and 1620.

BIOL 1610 Biology I (F)	4
BIOL 1620 (BLS) Biology II (Sp)	4
Upper-division (3000-level and above) BIOL prefix courses	12

**Note:** Although BIOL/NR 2220 is a lower-division course, it may be counted toward the 12 elective credits.

## BioMath Minor

This minor requires mathematics and quantitative biology courses beyond those required for the basic biology degrees. It is an excellent option for students considering graduate work. Biology majors may take this minor through the Mathematics and Statistics Department. Requirements for the BioMath minor include:

BIOL 1610 Biology I (F)	4
BIOL 1620 (BLS) Biology II (Sp)	4
MATH 1210 (QL) Calculus I (F,Sp,Su)	4
MATH 1220 (QL) Calculus II (F,Sp,Su)	4

<b>MATH 2270 (QI)</b> Linear Algebra (F) .....	3
<b>MATH 2280 (QI)</b> Ordinary Differential Equations (Sp) .....	3
<b>STAT 3000 (QI)</b> Statistics for Scientists (F,Sp,Su) .....	3
<b>MATH/BIOL 4230 (QI)</b> Applied Mathematics in Biology (Sp) .....	3

(Note: MATH 2250 may substitute for MATH 2270 and 2280.)

Biology majors must take one course from the biology electives (listed below), and two courses from the mathematics and statistics electives (listed below). Mathematics and Statistics majors must take two courses from the biology electives, and one course from the mathematics and statistics electives. All other majors must take two courses from each set of electives.

## Biology Electives:

<b>BIOL 3060 (QI)</b> Principles of Genetics (F,Sp,Su) .....	4
<b>BIOL 3220 (QI)</b> Field Ecology (F).....	2
<b>BIOL 4400 (QI)</b> Plant Physiology (F).....	4
<b>BIOL 5020 (QI)</b> Modeling Biological Systems (F) .....	3
<b>BIOL 5300 (QI)</b> Microbial Physiology (Sp) .....	4
<b>BIOL 5380</b> Evolutionary Genetics (F) .....	4
<b>BIOL 5610 (QI)</b> Animal Physiology Laboratory (F,Sp).....	2
<b>BIOL 5800</b> Undergraduate Research (F,Sp,Su) (3 credits min.).....	3
<b>CLIM 5500</b> Land-Atmosphere Interactions (Sp).....	3
<b>PUBH 5330 (QI)</b> Industrial Hygiene Chemical Hazard Control (F).....	3

## Mathematics and Statistics Electives

<b>MATH 4630</b> Computer Aided Math for Scientists and Engineers (Sp) ..	3
<b>MATH 5410</b> Methods of Applied Mathematics (F).....	3
<b>MATH 5420</b> Partial Differential Equations (Sp) .....	3
<b>MATH 5460</b> Introduction to the Theory and Application of Nonlinear Dynamical Systems (Sp).....	3
<b>MATH 5610</b> Computational Linear Algebra and Solution of Systems of Equations (F).....	3
<b>MATH 5620</b> Numerical Solution of Differential Equations (Sp) .....	3
<b>MATH 5710</b> Introduction to Probability (F,Sp) .....	3
<b>MATH 5910</b> Directed Reading and Conference (F,Sp,Su) (3 credits min.).....	3
<b>STAT 5100 (CI/QI)</b> Linear Regression and Time Series (F) .....	3
<b>STAT 5110</b> Theory of Linear Models (F).....	3
<b>STAT 5120</b> Categorical Data Analysis (F) .....	3
<b>STAT 5200</b> Design of Experiments (Sp).....	3
<b>STAT 5300 (QI)</b> Statistical Process Control (Sp).....	3
<b>STAT 5600 (CI)</b> Applied Multivariate Statistics (Sp) .....	3
<b>STAT 5940</b> Directed Reading and Conference (F,Sp,Su) (3 credits min.).....	3

BIOL 5800, MATH 5910, and STAT 5940 must involve mathematical or statistical analysis of a biological problem.

## Public Health Minor

The Public Health minor requires completion of the following courses. A minimum cumulative GPA of 2.25 is required for these courses, with a C- or better grade in BIOL 1610 and 1620.

<b>BIOL 1610</b> Biology I (F).....	4
<b>BIOL 1620 (BLS)</b> Biology II (Sp).....	4
Upper-division (3000-level and above) Public Health elective courses .....	12

## Field Trips and Laboratory Fees

Many biology courses require field trips. Those enrolled are expected to dress appropriately for the conditions and observe any safety precautions issued by instructors. Many courses require modest laboratory fees to purchase and maintain equipment and supplies for use in the laboratories.

## Financial Support

Scholarships, assistantships, grants-in-aid, and work-study programs are available from the University. Both the College of Science and the Department of Biology offer scholarships. Applications for departmental and college scholarships should be submitted during early spring semester. Contact the College of Science Office (Eccles Science Learning Center 245) and the Biology Advising Center (Biology-Natural Resources 101) for details.

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school.

An Honors Plan is available for students desiring a BS or BA degree "with Honors" in Biology. Departmental Honors requires the completion of 9 credits of Honors coursework in upper-division BIOL courses, BIOL 5800, and a research-based Bachelor's Thesis. For details, students should contact: Kimberly A. Sullivan, (435) 797-3713, [yejunco@biology.usu.edu](mailto:yejunco@biology.usu.edu).

## Suggested Four-year Plans

Suggested semester-by-semester four-year plans for students working toward a Bachelor of Science or Bachelor of Arts degree in majors within the Department of Biology can be found at:  
<http://www.usu.edu/degreeplans/>

Students should consult with their advisor to develop a plan of study tailored to their individual needs and interests.

## Additional Information

For more information about requirements for the majors and minors within the Biology Department, see major requirement sheets, available from the Biology Department, or online at:  
<http://www.usu.edu/majorsheets/>

## Graduate Programs

### Admission Requirements

See general admission requirements on pages 36-37. Complete details about graduate programs, admission requirements, preapplication, and application procedures are available online at:  
<http://www.biology.usu.edu/graduate/graduate.htm>

To be recommended for matriculated status, an applicant must have earned a bachelor's degree (or equivalent) from an accredited institution, and a Biology faculty member must agree to serve as major professor for that applicant. The Department of Biology also considers these guidelines for admission: (1) the transcript should show a minimum GPA of 3.0 (B); and (2) the scores on the verbal and quantitative GRE should be above the 50th percentile and the analytical writing score should be 3.5 or above. Advanced GREs (especially biology) are also recommended. Applicants for whom

# Department of Biology

English is not the primary language must have scored at least 575 (paper-based exam) or 233 (computer-based exam) on the TOEFL. The applicant's undergraduate program should be similar to that offered by the Department of Biology at Utah State University, which includes the following and their prerequisites: general biology, genetics, ecology, physiology, and evolution; general and organic chemistry; biochemistry; calculus; statistics; and physics. Other preparatory courses may be specified by the student's supervisory committee.

## Degree Programs

For those who have demonstrated strong academic capability as well as research interest, the Department of Biology offers the **Master of Science Degree** and the **Doctor of Philosophy Degree** in either Biology or Ecology. Graduate degrees in **Toxicology** are available through the Interdepartmental Program in Toxicology.

Undergraduate majors in Biology at USU with especially strong backgrounds and interest in research may apply for study of the Master of Science degree as **transitional students**. Acceptance as a transitional student allows undergraduates with advanced standing to integrate up to 9 credits of graduate work into the final semesters of their Bachelor of Science study. Acceptance into this program, as into all graduate programs in Biology, is closely regulated. Formal application through the School of Graduate Studies is required.

## Course Requirements

### Biology MS and PhD Degrees

Course requirements are determined by the student's supervisory committee. They will vary depending on the research emphasis selected and the background of the student.

### Ecology MS and PhD Degrees

For specific requirements, see the description of the Ecology Interdepartmental Program (pages 228-229).

## Research

The Department of Biology provides a dynamic and broad base for research and graduate study through a balanced program of basic and applied studies at ecosystem, population, organismal, cellular, and molecular levels. An outstanding variety of field sites; animal, plant, and microbe growth facilities; and modern well-equipped laboratories are available. Also, the Intermountain Herbarium, an excellent insect collection, the USDA/ARS U.S. National Pollinating Insects Collection, the Stable Isotope Laboratory, and the Center for Integrated BioSystems exist as research and support facilities.

Faculty members participate in and are supported by several interdepartmental programs, including the Ecology Center and the Center for Environmental Toxicology. In addition, many less formal contacts and interactions exist with colleagues in the colleges of Agriculture, Education and Human Services, Natural Resources, and Science.

Students are encouraged to carefully consider how their career goals match the faculty's research interests. Prospective students are strongly encouraged to contact faculty members with whom they are interested in working. Because of the combination of a diverse interdisciplinary base and excellent focused research programs, students have an opportunity to learn the philosophies and methods of many branches of biology. For further details about the faculty's research interests, students are encouraged to visit the Biology website: <http://www.biology.usu.edu/>

## Financial Assistance

Research assistantships are available from the grants of major professors and from Utah Agricultural Experiment Station funds. Teaching assistantships are awarded annually. All awards are made on a competitive basis and specific teaching needs are considered in awarding teaching assistantships. Given satisfactory performance, MS students are supported for at least two years and PhD candidates for at least four years on teaching assistantships. The department may also recommend particularly qualified students for College of Science or University fellowships. Admission to the graduate program of the Department of Biology does not guarantee financial support; however, applicants will not normally be admitted without financial support.

## Career Opportunities

Completion of graduate degrees in Biology prepares students for careers in teaching and research in universities and colleges. Many graduates also find employment with private industry and state and national governmental agencies. Specific employment possibilities will depend on the nature of the graduate program pursued. The extensive background provided by a graduate degree also prepares students for eventual administrative responsibilities.

## Research Emphases

Research areas of departmental faculty are diverse. Areas of research currently include: **Cellular and Molecular Biology:** plant-microbial interactions; neurobiology and biophysics; gene regulation and signal transduction; membrane transport; molecular virology; **Ecology and Behavior:** community and ecosystem ecology; insect ecology and behavior; pollination biology; plant-insect interactions; vertebrate behavioral ecology; mathematical and computer modeling; soil microbiology; fungal ecology; biological control; integrated pest management (IPM); **Physiology and Comparative Biology:** animal physiology; toxicology and industrial hygiene; insect pathology; plant physiology and pathology; and **Systematics and Evolution:** systematics and evolution of plants, fungi, insects, mammals, reptiles, and amphibians; evolutionary quantitative genetics; biogeography; evolution of chemical defenses and resistance in microorganisms, insects, reptiles, and amphibians.

## Research and Teaching Facilities

### Herbarium

Graduate study in plant taxonomy offered in the Department of Biology utilizes the extensive facilities of the Intermountain Herbarium. The collection includes over 250,000 research specimens. About 50 percent are from the Intermountain Region, while most of the remainder are from other regions of North America.

### Insect Collection

Comprising more than two million specimens, the insect collection is available to scientists and graduate students involved in taxonomic research and to those requiring identification of insects in various research projects. The collection primarily covers the Intermountain Region, but it also contains species from nearly all areas of the world. The Biology-Natural Resources Building also houses the USDA/ARS U.S. National Pollinating Insect Collection.

### Laser Scanning Confocal Microscope

The Department of Biology has a BioRad 1024 Laser Scanning Confocal Microscope. This state-of-the-art technology utilizes highly tuned lasers to give detailed sectional views of the interior of intact structures such as cells and tissues, and greatly extends the

advantages of fluorescence microscopy. This microscope is utilized by researchers campuswide, and is an indispensable tool for molecular and cellular studies.

## Center for Integrated BioSystems (CIB)

The CIB operates three service laboratories and a variety of research projects. The service laboratories provide essential biological resources for biotechnology research and development including: DNA sequencing, peptide synthesis, protein sequencing, antibodies, and fermentation.

## Biology Faculty

### Trustee Professor

*James A. MacMahon*, community ecology, mammalogy, herpetology

### Professors

*Diane G. Alston*, integrated pest management  
*Anne J. Anderson*, microbiology and plant pathology  
*Edmund D. Brodie, Jr.*, behavior and evolution  
*Daryll B. DeWald*, cell biology  
*E. W. "Ted" Evans*, insect ecology  
*Timothy A. Gilbertson*, neurobiology  
*James W. Haefner*, systems analysis  
*Joseph K.-K. Li*, virology  
*Frank J. Messina*, insect biology  
*Keith A. Mott*, plant physiology  
*William J. Pependorf*, industrial hygiene  
*John M. Stark*, microbial ecology and biogeochemistry  
*Jon Y. Takemoto*, microbiology  
*Paul G. Wolf*, systematics and molecular biology  
*David A. York*, human nutrition and obesity

### Associate Professors

*Brett A. Adams*, cell signaling  
*Michelle A. Baker*, aquatic ecology  
*Mary E. Barkworth*, plant systematics  
*Bradley R. Kropp*, mycology  
*Richard J. Mueller*, plant morphology  
*Michael E. Pfrender*, evolutionary quantitative genetics  
*Gregory J. Podgorski*, developmental biology  
*Kimberly A. Sullivan*, behavioral ecology  
*Carol D. von Dohlen*, insect biology  
*Dennis L. Welker*, microbial functional genomics

### Assistant Professors

*Paul F. Cliften*, microbial functional genomics  
*S. K. Morgan Ernest*, spatial ecology  
*C. Kent Evans*, extension plant pathology  
*Susannah S. French*, physiological ecology  
*Erin W. Hodgson*, insect biology  
*James P. Pitts*, insect biology  
*Katarina Stroffekova*, physiology

### Professors Emeritus

*William A. Brindley*, entomology and toxicology  
*Donald W. Davis*, entomology and pest management  
*Keith L. Dixon*, ornithology and mammalogy  
*LeGrande C. Ellis*, endocrinology and reproductive physiology  
*James A. Gessaman*, vertebrate physiological ecology  
*Ting H. Hsiao*, insect physiology and biochemistry

*Gene W. Miller*, plant biochemistry and physiology  
*Ivan G. Palmblad*, evolutionary ecology  
*John R. Simmons*, biochemical genetics  
*Sherman V. Thomson*, plant pathology  
*Nabil N. Youssef*, cell biology and parasitology

### Associate Professors Emeritus

*David B. Drown*, environmental health  
*Wilford J. Hansen*, systematic entomology  
*Jay B. Karren*, entomology  
*Raymond I. Lynn*, algology and microbial ecology  
*George W. Welkie*, plant physiology and virology

### Research Professor

*Donald W. Roberts*, insect pathology

### Research Assistant Professors

*Michelle A. Grilley*, molecular biology  
*Dane R. Hansen*, molecular biology, physiology, cell signaling  
*Joanne E. Hughes*, molecular genetics  
*MieJung Park*, neurobiology  
*Ethan White*, ecology

### Adjunct Professors

*James H. Cane*, bee biology  
*Noelle E. Cockett*, biotechnology  
*Robert Fogel*, mycology  
*James A. Powell*, mathematical biology  
*Donal G. Sinex*, psychology  
*Rex S. Spendlove*, virology  
*Bart C. Weimer*, food microbiology

### Adjunct Associate Professors

*Dale L. Barnard*, chemotherapy of viruses  
*Jeanette M. Norton*, soil microbiology  
*Vincent J. Tepedino*, entomology

### Adjunct Assistant Professors

*Karen H. Beard*, community ecology, ecosystem ecology, conservation biology  
*Shaun Bushman*, genetics, molecular biology  
*Terry Griswold*, bee biology  
*Rosalind R. James*, entomology  
*Theresa L. Pitts-Singer*, entomology

### Principal Lecturer

*David M. "Andy" Anderson*, medical technology

### Senior Lecturer

*David O. Wallace*, public health, industrial hygiene

### Lecturers

*John A. Flores II*, public health, industrial hygiene  
*Alice M. Lindahl*, invertebrate biology

Public Health (PUBH), pages 647-648

# Master of Business Administration (MBA)

**Executive Director:** Frank N. Caliendo, PhD

**Location:** Business 602

**Phone:** (435) 797-2963

**E-mail:** frank.caliendo@usu.edu

**Associate Director:** Kenneth C. Snyder

**Location:** Business 309O

**Phone:** (435) 797-1387

**E-mail:** ken.snyder@usu.edu

**Assistant Director:** Katherine A. McConkie

**Location:** Business 309N

**Phone:** (435) 797-1773

**E-mail:** katherine.mcconkie@usu.edu

**Staff Assistant:** Lindi Brown

**Location:** Business 309

**Phone:** (435) 797-2360

**E-mail:** lindi.brown@usu.edu

**FAX:** (435) 797-2399

**WWW:** <http://www.huntsman.usu.edu/mba/>

**Degree Offered:** Master of Business Administration (MBA)

**Graduate Specializations:** Accounting, Entrepreneurship, Human Resource Management, Manufacturing Management, Personal Financial Planning

## Graduate Program

### Objectives

The MBA program is an interdepartmental program, administered by the Huntsman School of Business, which is designed to provide students with an understanding of analytical tools necessary for effective and efficient management in today's complex business world. The MBA program is accredited by AACSB International—The Association to Advance Collegiate Schools of Business.

The central focus of the MBA program in the Huntsman School is framed by strategic anchors in ethical leadership, global vision, entrepreneurship, and analytical rigor. Within this framework, the Huntsman School is committed to creating a branded academic experience within the broad context of the school's commitment to the philosophy of operational excellence. A unique academic partnership with the Shingo Prize creates a dynamic opportunity for high-context public/private partnerships. See: <http://www.shingoprize.org/>

The central theme of the operational excellence philosophy is based upon a commitment to deeply imbed the principles and tools of continuous process improvement throughout all learning experiences. A focus on operational excellence, as it is reflected in business processes cultivating patterns of ethical leadership, strategic planning, and deployment, as well as through development of people, partners, and culture, is central to the mission of the MBA program. Participants in the MBA experience will be empowered to reach a higher level of confidence in their application of analytical tools and skill sets, increasing their level of sophistication in managing complex organizational dynamics. The result is the cultivation of managers with a principle-based philosophy of operational excellence, enabling them to add value to the organizations they lead from their first day on the job.

## Admission Requirements

For consideration for admission to the MBA program, applicants must submit an application form and fee, all undergraduate transcripts, Graduate Management Admissions Test (GMAT) or Graduate Record Examination (GRE) scores, and three letters of recommendation from qualified professionals. TOEFL scores are required for international students whose native language is not English, with a minimum of 213 (computerized) or 79 (Internet) deemed acceptable. International students with a prior degree from a university in an English-speaking country are exempt from the TOEFL exam.

Students are expected to be admitted to the program as matriculated students before taking coursework leading to the degree.

### Application Deadline for Fall Semester

No application will be considered until all required information arrives in the School of Graduate Studies at Utah State University. In addition, the student desiring to pursue an MBA degree must have been accepted as a matriculated student before he or she will be permitted to register for 6000-level courses that will be part of the student's advanced program. Full-time business experience is also preferred, but not required. Students with or without an undergraduate degree in business may enter the MBA program. However, before the student may take advanced courses, basic competencies in business that have not been acquired through prior courses or experience must be met. Before entering the program, each student must meet with an advisor to plan his or her course of study.

The full-time MBA program on USU's main campus is a cohort program which starts every fall semester. Rolling admission to the on-campus program will begin on **December 1** of each year for early applicants who have outstanding credentials in the areas of undergraduate GPA, GMAT/GRE scores, and letters of recommendation. Applications will be accepted until all seats in the cohort are filled, with preference given to early, qualified applicants. Additional reviews for admissions will be conducted on **January 15** and **February 15**, with reviews in subsequent months (March, April, May, etc.) conducted as needed. Deadlines for admission to one of the part-time MBA programs offered by USU can be found on the MBA website at: <http://www.huntsman.usu.edu/mba/>

## Degree Requirements

Students are held responsible for meeting requirements as outlined below. It is the student's responsibility to be aware of all requirements and initiate the resolution of apparent inconsistencies.

### Business Core

The MBA Business Core curriculum provides skills and knowledge in statistics, written communication, computer literacy, mathematics, information systems, economics, accounting, finance, marketing, operations, management, and organizational behavior. Students who have completed a bachelor's degree must have coursework which includes learning experiences in management-specific areas recommended by AACSB International for direct entry into the advanced program.

### Accelerated Business Core

Students may acquire the necessary basic competencies by completing courses satisfying the following management-specific knowledge and skills requirement: ACCT 2010 (financial accounting), ACCT 2020 (managerial accounting), FIN 3400 (finance), MGT 3500 (marketing), MGT 3700 (operations), ECN 1500 (macroeconomics),

# Master of Business Administration (MBA)

ECN 2010 (microeconomics), MGT 2050 (business law), MGT 3110 (organizational behavior), MATH 1100 (calculus techniques), and STAT 2300 (business statistics). Students may not be required to take courses which duplicate prior academic or industrial training. Students must meet with the advisor of the MBA program to plan their course of study.

## Advanced Program Courses (33 credits)

The advanced program courses, along with electives, consist of 33 credits. Students must complete the advanced program course requirements listed below. In addition, students may choose to select among several specializations, which are also described below. A specialization requires the student to complete additional courses beyond the 33 credits.

Students must complete the following seven courses: ACCT 6350; FIN 6420; and MGT 6300, 6500, 6520, 6720, 6890. Additionally, students must complete one course each in information systems (e.g., MIS 6510); research methods (e.g., BUS 6860); and quantitative analysis (e.g., MGT 6740, ECN 6310, 6330). Students will also take a 3-credit field studies course that will provide consultation to companies.

## Specializations (12 credits)

Students may select a specialization in one of several areas listed below. Classes taken as part of the MBA advanced program courses cannot be used as part of a specialization. One course in each specialization will be designated as research intensive to meet the research methods requirement.

### Accounting

To qualify for this specialization, students must complete at least 12 approved 6000-level accounting credits as part of their MBA program of study. Students must complete, or have previously completed, the equivalent of ACCT 3110, 3120, 3310, 3410, 4200, 4410, 4500, 4510, 6350, 6410, 6510, and 6610.

### Entrepreneurship

This specialization consists of MGT 6410, 6430, 6470, and an approved elective.

### Human Resource Management

This specialization requires students to complete MGT 6690 and to select any three of the following courses: MGT 6550, 6620, 6630, 6640, 6670, and 6760.

### Manufacturing Management

This specialization is currently undergoing revision.

### Personal Financial Planning

This specialization consists of PFP 6060, 6070, and 6080. Students must also complete, or have previously completed, the following courses: PFP 3460 or FIN 4460, and ACCT 3410. This specialization satisfies requirements to sit for the national Certified Financial Planner (CFP) examination.

### Financial Assistance

Graduate assistantships, scholarships, and fellowships are available to outstanding on-campus students and are awarded on a competitive basis. Students who apply by **February 15** will be considered for financial awards, which generally range between \$1,600 and \$4,500 for nine months. A recipient of a graduate assistantship is usually eligible for a waiver of the out-of-state portion of his or her tuition.

## MBA Association (MBAA)

The MBA Association (MBAA) provides USU students with an opportunity to enhance their professional and academic skills while building their resumes. Club members focus on career attainment and benefit from a forum for networking with faculty, alumni, and employers. The MBAA also works to increase awareness of the USU MBA program and assists the USU Huntsman School of Business in developing an effective curriculum for the MBA program.

## Master of Business Administration Faculty

### Professors

*Kenneth R. Bartkus*, Accelerated Business Core, marketing techniques  
*Drew Dahl*, Accelerated Business Core, corporate finance essentials  
*Christopher Fawson*, applied econometrics  
*L. Dwight Israelsen*, applied econometrics  
*Richard L. Jenson*, advanced accounting information systems  
*I. Richard Johnson*, accounting theory and research  
*Vijay R. Kannan*, operations management, Accelerated Business Core, essentials of operation management  
*J. Robert Malko*, financial problems, managerial economics  
*Glenn M. McEvoy*, managing individuals and groups  
*David H. Olsen*, information systems for business, applied business research  
*C. R. Michael Parent*, marketing strategy  
*Clifford R. Skousen*, accounting strategies for achieving profit goals  
*David B. Stephens*, global business strategy

### Associate Professors

*J. Brian Atwater*, operations management, decision making in operations management  
*Katherine M. Chudoba*, applied business research  
*Austin Kwag*, financial decision making  
*Alan A. Stephens*, financial problems, financial decision making

### Assistant Professors

*Alison Cook*, managing individuals and groups  
*Daniel Holland*, management principles  
*Christopher J. Skousen*, Accelerated Business Core, financial and managerial accounting

### Executive-in-Residence/Principal Lecturers

*Chester Brough*, Accelerated Business Core, fundamentals of business law  
*Randy Cook*, leadership and operational excellence  
*Jack W. Peterson*, financial auditing  
*Dale G. Siler*, tax research and procedures  
*Alan P. Warnick*, managing individuals and groups

## MBA Courses

Descriptions of MBA courses can be found in the *Course Descriptions* section of this catalog.

### Chemistry:

Robert S. Brown, Widtsoe 026, (435) 797-0545,  
[bob.brown@usu.edu](mailto:bob.brown@usu.edu)

Steve Scheiner, Maeser Lab 140, (435) 797-7419,  
[steve.scheiner@usu.edu](mailto:steve.scheiner@usu.edu)

Vernon D. Parker, Widtsoe 345, (435) 797-1697,  
[vernon.parker@usu.edu](mailto:vernon.parker@usu.edu)

For faculty advisor assignment, contact:

Geri Child, (435) 797-0544, [geri.child@usu.edu](mailto:geri.child@usu.edu).

## Undergraduate Research Coordinator:

Joan Hevel, Widtsoe 235, (435) 797-1622, [joanie.hevel@usu.edu](mailto:joanie.hevel@usu.edu)

**Degrees Offered:** Bachelor of Science (BS), Bachelor of Arts (BA), Master of Science (MS), Doctor of Philosophy (PhD) in Chemistry; BS, MS, and PhD in Biochemistry; BS in Chemistry Teaching; BS in Composite Teaching—Physical Science (Chem)

**Undergraduate emphases:** *BS in Chemistry*—Professional Chemistry, Biochemistry, Environmental Chemistry, Chemical Education, Life Science

**Graduate specializations:** *Chemistry*—Analytical Chemistry, Inorganic Chemistry, Organic Chemistry, Physical Chemistry

## Undergraduate Programs

### Objectives

Chemistry is a subject that addresses the properties of materials and the transformations that they undergo. Especially important are aspects of energy and structure related to chemical reactivity. Consequently, students of many disciplines take courses in chemistry to learn about the behavior of the substances they will use or reference. The Department of Chemistry and Biochemistry offers a wide variety of courses for those whose majors and/or anticipated careers require a knowledge of chemistry. These areas of study include nutrition, engineering, biology, agriculture, natural resources, medicine, law, and education, to name a few. Many students also choose chemistry as an elective course to better prepare themselves as citizens in a technological world.

The **Bachelor of Science Degree in Chemistry** entails considerable specialization in chemistry and related areas. The BS emphases require a common core of courses, but allow for a different

concentration of advanced work according to the interests and career objectives of the student. The **BS with Professional Chemistry Emphasis**, **BS with Environmental Chemistry Emphasis**, and **BS with Biochemistry Emphasis** degrees meet the requirements for certification by the American Chemical Society (ACS). The certified degree emphases provide excellent preparation for immediate entry into the job market or for graduate school in chemistry, biochemistry, chemical engineering, molecular biology, nutrition, food science, materials science, and a wide variety of other fields. ACS certification in **Chemical Education** is available to students who complete an ACS-certified program, together with the Professional Education program in secondary education. The **BS with Life Science Emphasis** degree is popular for students wishing to go on to medical or dental graduate programs. The life science emphasis is particularly appropriate for **premedical** and **predental** students who want a strong base for understanding the nature of chemical reactions in the body and the behavior of the drugs they will prescribe, or who want an attractive alternative should they decide ultimately not to pursue medical or dental school. The **Chemistry Teaching Major** or the **Composite Teaching Major in Physical Science** are available to those who want a career in secondary education. The BA degree is an excellent choice for students with an interest in studying **law** or **business** and who have an interest in science.

The core of the program utilizes year-long sequences of classes. The first-year sequence introduces the basic principles of chemistry, as well as most of the major concepts of the science. The second year explores in greater depth the characteristics of carbon-based compounds that serve as the backbone for the chemistry of life; for most drugs and medicines; for petroleum; for most fibers, paints, and plastics; and for many other commercial products. The third year examines in greater depth the models, theories, and mathematical interpretation of the structures, rates of change, energetics, and other properties of chemicals. In addition, one-semester courses examining the chemistry of life processes, the behavior of inorganic substances, and the analysis of the composition of substances are required. Many of the sequences have associated laboratory courses where students get hands-on practice. Here they synthesize compounds, measure physical properties, analyze samples, and determine structural features of compounds, using modern techniques and instrumentation.

The **Bachelor of Science Degree in Biochemistry** encompasses the study of the properties and functions of biological macromolecules, the mechanisms of action of enzymes, gene and protein regulation and expression, bioenergetics, and the metabolic pathways and processes that use and generate chemical and light energy. At its core, biochemistry recognizes and explains the unifying chemical principles that lie at the heart of the diverse expressions of life.

The core courses for the major are built around two-semester course sequences in the areas of general, organic, and biological chemistry; general biology; calculus; and general physics, along with associated laboratory courses. Students may choose from two physics tracks: (1) the life sciences track (typically preferred by students with a more biological inclination) and (2) the science-engineering track (typically preferred by students with a more mathematical/physical inclination). One-semester courses in analytical and biophysical chemistry and statistics round out the core of the program. To complete the additional 18 credits of coursework required for the major, students may choose elective courses from within the disciplines of chemistry, biochemistry, and biology. A wide range of advanced courses are available to meet the advanced electives requirement; students are encouraged to meet with their academic advisor to select courses that provide the best preparation for their intended career path. Representative courses (not all encompassing) include those in biology (e.g., human physiology, genetics, ecology, microbiology, plant physiology, cell biology); biochemistry (e.g., enzymology, structured biology, bioenergetics

# Department of Chemistry and Biochemistry

and metabolism, protein structure/function); and chemistry (e.g., intermediate and advanced inorganic, advanced organic).

The biochemistry major differs from the “chemistry major with biochemistry emphasis,” which is an American Chemical Society (ACS) certified degree that emphasizes specialization in biochemistry, but has a more chemical and mathematical emphasis than the biochemistry major. The biochemistry major is more biologically inclined (as well as somewhat less physically and mathematically inclined) than the chemistry major and is designed to meet the standards for the curriculum proposed by the American Society for Biochemistry and Molecular Biology (ASBMB).

The requirements of the BS and BA degrees in chemistry and the BS degree in biochemistry, along with University and University Studies requirements, are summarized here. The specific requirements for the teaching major and for the composite teaching major in physical science are also included.

Students are urged to study these requirements and to visit with their advisor on a regular basis about progress toward the completion of their degrees or for any questions regarding complementary courses and career goals.

## Assessment

The Department of Chemistry and Biochemistry has implemented a multilayered assessment strategy that defines learning objectives at the following levels: individual courses, divisional levels, and at the overall program level for the chemistry major. Details of this strategy can be found at: <http://www.chem.usu.edu/assessment/>

Learning objectives for the Chemistry Major are specifically outlined in an organized matrix at:  
<http://www.chem.usu.edu/assessment/matrix.pdf>

## General Requirements

### Admission Requirements

First-year students admitted to USU in good standing qualify for admission to this major. Transfer students from other institutions need a 2.2 transfer GPA, and students transferring from other USU programs need a 2.0 total GPA for admission to the chemistry or biochemistry major in good standing.

Students interested in studying chemistry or biochemistry should take high school mathematics courses that will enable them to start calculus during their first semester at USU. High school coursework in chemistry, biology, and physics is also desirable. AP credit in chemistry may be counted toward the chemistry or biochemistry degree. For details, contact the departmental advising faculty.

No CHEM prefix course may be applied toward graduation with any major or minor in chemistry or biochemistry with an earned grade of less than C-. No CHEM prefix course may be taken on a *Pass/Fail* basis. No CHEM prefix course may be repeated more than one time to improve the grade to a C- or better. A student dropped from the chemistry or biochemistry program for failure to meet this standard may appeal to the departmental Curriculum Committee for readmission.

## Chemistry Core Curriculum

In addition to the University Studies requirements for graduation, chemistry majors take a series of core courses spread across a traditional four-year period. The completion of the chemistry core also covers the College of Science requirements for graduation.

## Chemistry Major Core Requirements

### Suggested Schedule

#### First Year (30-32 credits)

##### Fall Semester (15-16 credits)

CHEM 1210 Principles of Chemistry I .....	4
CHEM 1215 Chemical Principles Laboratory I .....	1
MATH 1210 (QL) Calculus I .....	4
University Studies courses .....	6-7

##### Spring Semester (15-16 credits)

CHEM 1220 (BPS) Principles of Chemistry II .....	4
CHEM 1225 Chemical Principles Laboratory II .....	1
MATH 1220 (QL) Calculus II .....	4
University Studies courses .....	6-7

#### Second Year (32-33 credits)

##### Fall Semester (16 credits)

CHEM 2310 <sup>2</sup> Organic Chemistry I .....	4
CHEM 2315 <sup>2</sup> Organic Chemistry Laboratory I .....	1
CHEM 3000 (QI) <sup>2</sup> Quantitative Analysis .....	3
CHEM 3005 <sup>2</sup> Quantitative Analysis Laboratory .....	1
PHYS 2210 (QI) General Physics—Science and Engineering I .....	4
MATH 2210 (QI) Multivariable Calculus .....	3

##### Spring Semester (16-17 credits)

CHEM 2320 <sup>3</sup> Organic Chemistry II .....	4
CHEM 2325 <sup>3</sup> Organic Chemistry Laboratory II .....	1
CHEM 3510 <sup>3</sup> Intermediate Inorganic Chemistry .....	2
CHEM 3520 <sup>3</sup> Inorganic Chemistry Laboratory .....	1
PHYS 2220 (QI/BPS) General Physics—Science and Engineering II ..	4
University Studies courses .....	4-5

#### Third Year (29-31 credits)

##### Fall Semester (14-16 credits)

CHEM 3060 (QI) <sup>2</sup> Physical Chemistry .....	3
CHEM 3080 (CI) <sup>2</sup> Physical Chemistry Laboratory I .....	1
CHEM 5700 <sup>2</sup> General Biochemistry I .....	3
MATH 2250 (QI) <sup>1</sup> Linear Algebra and Differential Equations (4 cr) or	
STAT 3000 (QI) <sup>1</sup> Statistics for Scientists (3 cr) .....	3 or 4
University Studies or elective courses .....	4-5

##### Spring Semester (15 credits)

CHEM 3070 (QI) <sup>3</sup> Physical Chemistry .....	3
CHEM 3090 (CI) <sup>3</sup> Physical Chemistry Laboratory II .....	1
CHEM 5640 <sup>3</sup> Instrumental Analysis .....	3
CHEM 5650 <sup>3</sup> Instrumental Analysis Laboratory .....	2
University Studies or elective courses for specific degree emphasis ...	6

#### Fourth Year (31-32 credits)

CHEM 4990 (CI) Undergraduate Seminar .....	2
Upper-division and advanced elective courses for specific degree emphasis .....	29-30

<sup>1</sup> The completion of MATH 2250 or STAT 3000 is optional for the Teaching Major.

## Chemistry Degree Emphases

### Professional Chemistry Emphasis (ACS Certified)

In addition to the chemistry core, students must complete the following:

CHEM 5520 <sup>2</sup> Advanced Inorganic Chemistry (F) .....	2
CHEM 5530 <sup>3</sup> Advanced Synthesis Laboratory (Sp) .....	2
Advanced electives, as approved by department .....	6

# Department of Chemistry and Biochemistry

## Biochemistry Emphasis (ACS Certified)

In addition to the chemistry core, students must complete the following:

<b>CHEM 5710<sup>3</sup></b> General Biochemistry II (Sp) .....	3
<b>CHEM 5720<sup>3</sup></b> General Biochemistry Laboratory (Sp) .....	3
<b>BIOL 1610<sup>2</sup></b> Biology I (F) .....	4
Advanced Biology electives, as approved by department .....	4

## Environmental Chemistry Emphasis (ACS Certified)

In addition to the chemistry core, students must complete the following:

<b>CHEM 5670<sup>3</sup></b> Intermediate Environmental Chemistry (Sp).....	3
<b>CHEM 5680<sup>3</sup></b> Environmental Chemistry Laboratory (Sp) .....	2
Introductory environmental electives as approved by department .....	6-7
Advanced environmental electives as approved by department .....	3

## Chemical Education Emphasis (ACS Certified)

In addition to the chemistry core, students must complete the following:

Required courses for the Secondary Teacher Education Program (STEP) (see details on page 199) .....	35
Teaching minor from outside the Department of Chemistry and Biochemistry .....	12-16

<sup>2</sup> Offered fall semester only  
<sup>3</sup> Offered spring semester only

## BS Degree in Chemistry with Honors

This option can be met by completing any ACS certified program and by meeting the following requirements:

1. Minimum GPA of 3.50 in chemistry courses
2. Overall GPA of 3.30
3. Completion of 15 credits of honors work by successfully completing honors contracts in the following courses:

<b>CHEM 4800 (CI)</b> Research Problems (F, Sp, Su) .....	3-6
<b>CHEM 4990 (CI)</b> Undergraduate Seminar (F, Sp) .....	2

Credits selected from Honors courses numbered 3000 or above in chemistry or related subjects, as appropriate. Three credits may be selected from chemistry courses numbered 6000 or above.....3-6

In addition, select two courses from the following:

<b>CHEM 2320</b> Organic Chemistry II (Sp) .....	4
<b>CHEM 3070 (QI)</b> Physical Chemistry (Sp) .....	3
<b>CHEM 5640</b> Instrumental Analysis (Sp) .....	3
<b>CHEM 5700</b> General Biochemistry I (F) .....	3

## BS in Chemistry, Life Science Emphasis

In addition to the Chemistry Core Requirements (with the exception of CHEM 5640, 5650), students must complete the following:

<b>BIOL 1610</b> Biology I (F).....	4
<b>BIOL 1620 (BLS)</b> Biology II (Sp) (4 cr) <b>or</b>	
<b>BIOL 2420</b> Human Physiology (F,Sp,Su) (4 cr).....	4
<b>BIOL 3060 (QI)</b> Principles of Genetics (F,Sp,Su) (4 cr) <b>or</b>	
<b>BIOL 3300 (BLS)</b> General Microbiology (F,Sp) (4 cr) .....	4
<b>CHEM 5710</b> General Biochemistry II (Sp).....	3
<b>CHEM 5720</b> General Biochemistry Laboratory (Sp).....	3

## BA in Chemistry

In addition to the chemistry core (with the exception of CHEM 5640, 5650), students must complete the following:

<b>CHEM 5520</b> Advanced Inorganic Chemistry (F) (2 cr) <b>or</b>	
<b>CHEM 5640</b> Instrumental Analysis (Sp) (3 cr).....	2 or 3
Completion of one foreign language (16 cr) <b>or</b>	
Completion of two foreign languages (20 cr).....	16 or 20

## Chemistry Teaching Major

In addition to the Chemistry Core Requirements (with the exception of MATH 2250 or STAT 3000, and CHEM 5640 and 5650), students must complete the following:

<b>SCI 4300</b> Science in Society (F,Sp).....	2
Required courses for the Secondary Teacher Education Program (STEP) (see details on page 199) .....	35
Teaching minor from outside the Department of Chemistry and Biochemistry .....	12-16

## Composite Teaching Major in the Physical Sciences

This degree is available through the Chemistry and Biochemistry or Physics departments. Students with a Composite Teaching Major in Physical Sciences should plan their programs carefully in order to meet the upper-division requirement for graduation.

Specific for admission to this program, a student must have at least a 2.75 GPA in the following chemistry and physics courses:

<b>CHEM 1210</b> Principles of Chemistry I (F,Sp).....	4
<b>CHEM 1215</b> Chemical Principles Laboratory I (F,Sp).....	1
<b>CHEM 1220 (BPS)</b> Principles of Chemistry II (F,Sp,Su) .....	4
<b>CHEM 1225</b> Chemical Principles Laboratory II (F,Sp).....	1

<b>PHYS 2110</b> The Physics of Living Systems I (4 cr) <b>and</b>	
<b>PHYS 2120 (BPS)</b> The Physics of Living Systems II (4 cr).....	8

**OR**  
**PHYS 2210 (QI)** General Physics—Science and Engineering I (4 cr) **and**

<b>PHYS 2220 (QI/BPS)</b> General Physics—Science and Engineering II (4 cr) .....	8
---	---

(PHYS 2210 and 2220 are preferred.)

*This program does not include many aspects of the Chemistry Core.*

### Required Courses:

<b>CHEM 1210</b> Principles of Chemistry I (F,Sp).....	4
<b>CHEM 1215</b> Chemical Principles Laboratory I (F,Sp).....	1
<b>CHEM 1220 (BPS)</b> Principles of Chemistry II (F,Sp,Su) .....	4
<b>CHEM 1225</b> Chemical Principles Laboratory II (F,Sp).....	1
<b>CHEM 2300</b> Principles of Organic Chemistry (F) (3 cr) <b>or</b>	
<b>CHEM 2310</b> Organic Chemistry I (F) (4 cr) .....	3 or 4
<b>CHEM 2315</b> Organic Chemistry Laboratory I (F) .....	1
<b>PHYS 1040 (BPS)</b> Introductory Astronomy .....	3
<b>PHYS 1080 (BPS)<sup>4</sup></b> Intelligent Life in the Universe (3 cr) <b>or</b>	
<b>PHYS 3030 (DSC/QI)</b> The Universe (3 cr) .....	3

<b>PHYS 2110</b> The Physics of Living Systems I (4 cr) <b>and</b>	
<b>PHYS 2120 (BPS)</b> The Physics of Living Systems II (4 cr).....	8

**OR**  
**PHYS 2210 (QI)** General Physics—Science and Engineering I (4 cr) **and**

<b>PHYS 2220 (QI/BPS)</b> General Physics—Science and Engineering II (4 cr) .....	8
---	---

<b>MATH 1210 (QL)</b> Calculus I (F,Sp,Su) .....	4
<b>MATH 1220 (QL)</b> Calculus II (F,Sp,Su) .....	4
<b>STAT 3000 (QI)</b> Statistics for Scientists (F,Sp,Su) .....	3
<b>SCI 4300</b> Science in Society (F,Sp).....	2
<b>BIOL 1010 (BLS)</b> Biology and the Citizen (F,Sp,Su).....	3
<b>GEO 1110 (BPS)</b> The Dynamic Earth: Physical Geology (F,Sp).....	4
<b>CLIM 2000 (BPS)</b> The Atmosphere and Weather (F,Sp) .....	3

Teacher licensure courses from Secondary Education (35 cr)  
(see details on page 199)..... 35

A teaching minor is optional for the Composite Teaching Major in the Physical Sciences.

<sup>4</sup>PHYS 1080 is sometimes listed as USU 1360, ST: Intelligent Life in the Universe.

# Department of Chemistry and Biochemistry

## Secondary Teacher Education Program (STEP) (35 credits)

Prior to enrolling in these courses, students must be approved for admission to the STEP by the Emma Eccles Jones College of Education and Human Services. The teaching major advisor can assist with this process.

An overall 2.75 GPA in a minimum of 60 semester credits of approved University coursework is required for admission into the STEP. A minimum overall GPA of 2.75 is required for graduation. Specific for admission to any Chemistry Teaching program, a student must have at least a 2.75 GPA in CHEM 1210, 1215, 1220, and 1225.

All USU teacher education candidates will be required to take and pass the content exam approved by the Utah State Office of Education in their major content area prior to student teaching.

Students who may wish to teach Integrated Science at the middle or junior high school level should talk to their advisor about completing the courses necessary for an Integrated Science endorsement.

### Level 1 (11 credits)

INST 3500 Technology Tools for Secondary Teachers (F,Sp,Su)	1
SCED 3100 Motivation and Classroom Management (F,Sp)	3
SCED 3210 (CI/DSS) Educational and Multicultural Foundations (F,Sp)	3
SCED 3300 Clinical Experience I (40 hours minimum) (F,Sp)	1
SCED 3400 Teaching Science I (Sp)	3

### Level 2 (12 credits)

SPED 4000 Education of Exceptional Individuals (may be taken anytime) (F,Sp,Su)	2
SCED 4200 (CI) Reading, Writing, and Technology (F,Sp)	3
SCED 4210 Cognition and Evaluation of Student Learning (F,Sp)	3
SCED 4300 Clinical Experience II (40 hours minimum) (F,Sp)	1
SCED 4400 Teaching Science II (F)	3

### Level 3 (12 credits)

SCED 5500 Student Teaching Seminar (2 weeks) (F,Sp)	2
SCED 5630 Student Teaching in Secondary Schools (13 weeks, full-time) (F,Sp)	10

**Note:** The Teaching Science I and II courses (SCED 3400 and 4400) are *only* taught once per year. Therefore, it is important for students to consult with their advisor to fit these courses in the correct sequence into their plan of study.

**Note:** The courses in nonscience majors may differ from those listed here.

## Biochemistry Major

The following curriculum is required for the BS degree in biochemistry. To complete the degree in eight semesters (four academic years), students must register for an average of 15-16 credits per semester.

**Note:** Students may satisfy the CHEM 1210 requirement with an AP score of 3 or 4. *Both* CHEM 1210 *and* 1220 may be satisfied with an AP score of 5.

### Suggested Schedule

#### First Year (30-32 credits)

##### Fall Semester (15-16 credits)

CHEM 1210 Principles of Chemistry I	4
CHEM 1215 Chemical Principles Laboratory I	1
MATH 1210 (QL) Calculus I	4
University Studies courses	6-7

#### Spring Semester (15-16 credits)

CHEM 1220 (BPS) Principles of Chemistry II	4
CHEM 1225 Chemical Principles Laboratory II	1
MATH 1220 (QL) Calculus II	4
University Studies courses	6-7

#### Second Year (32 credits)

##### Fall Semester (16 credits)

CHEM 2310 <sup>5</sup> Organic Chemistry I	4
CHEM 2315 <sup>5</sup> Organic Chemistry Laboratory I	1
BIOL 1610 <sup>5</sup> Biology I	4
PHYS 2110 The Physics of Living Systems I (4 cr) or PHYS 2210 (QI) General Physics—Science and Engineering I (4 cr)	4
University Studies course(s)	3

##### Spring Semester (16 credits)

CHEM 2320 <sup>6</sup> Organic Chemistry II	4
CHEM 2325 <sup>6</sup> Organic Chemistry Laboratory II	1
BIOL 1620 (BLS) <sup>6</sup> Biology II	4
PHYS 2120 (BPS) The Physics of Living Systems II (4 cr) or PHYS 2220 (BPS/QI) General Physics—Science and Engineering II (4 cr)	4
University Studies course(s)	3

#### Third Year (31-37 credits)

##### Fall Semester (15-18 credits)

CHEM 3000 <sup>5</sup> (QI) Quantitative Analysis	3
CHEM 3005 <sup>5</sup> Quantitative Analysis Laboratory	1
CHEM 5700 <sup>5</sup> General Biochemistry I	3
Advanced Biology Electives (2000 level or higher)	3-4
University Studies courses	5-7

##### Spring Semester (16-19 credits)

CHEM 5710 <sup>6</sup> General Biochemistry II	3
CHEM 5720 <sup>6</sup> General Biochemistry Laboratory	3
STAT 3000 (QI) Statistics for Scientists	3
Advanced Biology Electives (2000 level or higher)	3-4
University Studies courses	4-7

#### Fourth Year (29-34 credits)

##### Fall Semester (14-17 credits)

CHEM 4890 (CI) Undergraduate Biochemistry Seminar	2
CHEM 5070 <sup>5</sup> Biophysical Chemistry	3
Advanced elective coursework	6-12
University Studies course(s)	0-3

##### Spring Semester (12-15 credits)

Advanced elective coursework	6-12
University Studies course(s)	0-3

#### Preapproved Course Options for Biochemistry Major Electives (18 credits required for major)

Of the 18 credits required, 14 must be at the 3000 level or higher. Other upper-division courses may be substituted if approved by the department. Prerequisites will *not* be waived. Only courses with a C-grade or better can be applied toward the electives requirement.

ADVS 3020 Biotechnology in Agriculture (F) (Prereq: BIOL 1620, CHEM 2310)	3
ADVS 5350 Introductory Pharmacology and Pharmacokinetics (Sp) (Prereq: BIOL 5600, CHEM 3700, permission of instructor)	3
BIOL 2320 Human Anatomy (Sp,Su)	4
BIOL 2420 Human Physiology (F,Sp,Su)	4
BIOL 3060 (QI) Principles of Genetics (F,Sp,Su) (Prereq: BIOL 1610, CHEM 1210)	4

# Department of Chemistry and Biochemistry

<b>BIOL 3065</b> Genetics Laboratory (F) (Prereq: BIOL 3060, which may be taken concurrently).....	2
<b>BIOL 3300</b> General Microbiology (F,Sp) (Prereq: BIOL 1610; CHEM 2310, which may be taken concurrently).....	4
<b>BIOL 4000</b> Human Dissection (F) (Prereq: BIOL 2320).....	1
<b>BIOL 5100</b> Neurobiology (F) (Prereq: BIOL 1620; BIOL 2420, 5600, or 5620; CHEM 1220; and PHYS 2120 or 2220).....	3
<b>BIOL 5150</b> Immunology (Sp) (Prereq: CHEM 1220; BIOL 3060; and BIOL 3300 or 5210).....	3
<b>BIOL 5210</b> Cell Biology (F) (Prereq: BIOL 1620, 3060; CHEM 2300 or 2320; CHEM 5700).....	3
<b>BIOL 5230</b> Developmental Biology (Sp) (Prereq: BIOL 3060 and 5210; CHEM 5700 strongly recommended).....	3
<b>BIOL 5250 (CI)</b> Evolutionary Biology (F,Sp) (Prereq: BIOL 3060 or WILD 4880 or permission of instructor).....	3
<b>BIOL 5330</b> Virology (Sp) (Prereq: BIOL 3060 and 3300).....	3
<b>BIOL 5600</b> Comparative Animal Physiology (Sp) (Prereq: BIOL 1620 and CHEM 1220).....	3
<b>BIOL 5620</b> Medical Physiology (F) (Prereq: BIOL 1620; BIOL 2420 or 5600; CHEM 5710).....	3
<b>CHEM 4800 (CI)</b> Research Problems: Undergraduate Research (F,Sp,Su) (Prereq: Permission of instructor).....	3
<b>CHEM 6730</b> Principles of Enzymology (Sp) (Prereq: CHEM 5700).....	3
<b>CHEM 6740</b> Cellular Communication by Small Molecules and Proteins (Sp) (Prereq: CHEM 5700).....	3
<b>CHEM 6750</b> Principles of Structural Biology (F) (Prereq: CHEM 5700).....	3
<b>CHEM 6760</b> Principles of Bioenergetics (F) (Prereq: CHEM 5700).....	3

<sup>5</sup> Offered fall semester only

<sup>6</sup> Offered spring semester only

## BS Degree in Biochemistry with Honors

A BS degree in Biochemistry with honors can be earned by meeting the following requirements:

1. Minimum GPA of 3.50 in chemistry courses
2. Overall GPA of 3.30
3. Completion of 15 credits of honors work by successfully completing honors contracts in the following courses:

<b>CHEM 4800 (CI)</b> Research Problems (F,Sp,Su).....	3-6
<b>CHEM 4890 (CI)</b> Undergraduate Biochemistry Seminar.....	2
3-6 credits selected from Honors courses numbered 3000 or higher in chemistry or related subjects, as appropriate. Three credits may be selected from chemistry courses numbered 6000 or higher.....	3-6

In addition, select two courses from the following:

<b>CHEM 2320</b> Organic Chemistry II (Sp).....	4
<b>CHEM 5070</b> Biophysical Chemistry (F).....	3
<b>CHEM 5700</b> General Biochemistry I (F).....	3
<b>CHEM 5710</b> General Biochemistry II (Sp).....	3

## Chemistry Minor

In addition to CHEM 1210, 1215, 1220, and 1225, 10 additional credits in Chemistry prefix courses at the 2000 level or higher, as approved by department, are required (either CHEM 2300 or 2310 may be included).

## Chemistry Teaching Minor

In addition to CHEM 1210, 1215, 1220, 1225, CHEM 2300 or 2310, and CHEM 2315, 3-4 additional credits selected from the following are required:

<b>CHEM 2320</b> Organic Chemistry II (Sp) (if CHEM 2310 has been previously selected).....	4
<b>CHEM 3000 (QI)</b> Quantitative Analysis (F).....	3
<b>CHEM 3060 (QI)</b> Physical Chemistry (F).....	3
<b>CHEM 3510</b> Intermediate Inorganic Chemistry (Sp) (2 cr) <b>and</b>	
<b>CHEM 3520</b> Inorganic Chemistry Laboratory (Sp) (1 cr).....	3
<b>CHEM 3650 (DSC)</b> Environmental Chemistry (Sp) (3 cr) <b>or</b>	
<b>CHEM 3700</b> Introductory Biochemistry (Sp) (3 cr).....	3
Enrollment in the Secondary Teacher Education Program (STEP) (see details on page 199).....	35

## Undergraduate Research Opportunities

The Chemistry and Biochemistry Department encourages students in all departmental majors to engage in undergraduate research. For information about how they can become involved in undergraduate research, students should contact Joan Hevel, the departmental undergraduate research coordinator, (435) 797-1622, joanie.hevel@usu.edu.

## Career Opportunities

Chemistry degree holders work in a wide variety of professions, from physicians, lawyers, and professors to research/development, sales, or production in the chemical, oil, pharmaceutical, metals, electronic, and biochemical industries. Government at all levels employs chemists, including the federal Departments of Defense, Health and Human Services, Agriculture, and Interior. A graduate with a bachelor's degree often begins work in chemical analysis or sales or may assist senior chemists in research and development. A graduate with a teaching major or chemistry education emphasis may teach in public schools. A graduate degree is usually needed to direct research or teach at the university level. Degree holders from the Department of Chemistry and Biochemistry have had excellent success in obtaining support for graduate studies, often at very prestigious institutions, and in obtaining employment directly following graduation.

The major in Biochemistry is appropriate both for students who wish to terminate their studies at the bachelor's degree and for those planning to continue their education at the graduate or professional level. For those who terminate at the bachelor's degree, career opportunities are available in research and development, sales, quality control, and analysis within a range of biochemical, pharmaceutical, and biotechnological industries. For those planning to pursue a career in the health professions, the biochemistry major provides an excellent and well-rounded background for medical, dental, and veterinary school admission. The biochemistry major also provides excellent preparation for students planning to pursue graduate work in a range of biological, environmental, and chemical sciences, including biochemistry, molecular biology, genetics, genomics, oncology, and bioinformatics. For those students interested in pursuing a legal career in areas such as patent law, bioethics, and environmental protection and regulation, the major is also excellent preparation for law school.

For further information about career opportunities for chemistry majors and biochemistry majors, students should contact their advisor.

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty

# Department of Chemistry and Biochemistry

in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school. Minimum GPA requirements for participation in departmental honors vary by department, but usually fall within the range of 3.30-3.50. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level. The campus-wide Honors Program, which is open to all qualified students regardless of major, offers a rich array of cultural and social activities, special classes, and the benefit of Honors early registration. Interested students should contact the Honors Program, Main 15, (435) 797-2715, [honors@usu.edu](mailto:honors@usu.edu). Additional information can be found online at: <http://www.usu.edu/honors/>

## Additional Information

For more information about requirements for the majors and minors within the Chemistry and Biochemistry Department, see the major requirement sheets, available from the department, or online at: <http://www.usu.edu/majorsheets/>

## Graduate Programs

### Admissions Requirements

See the general admission requirements for the School of Graduate Studies (pages 36-37). All applicants should have a bachelor's degree or master's degree in chemistry or biochemistry from an accredited institution. Appropriate undergraduate preparation is expected; applicants not fully prepared may be admitted with the condition that appropriate undergraduate courses are taken as necessary.

Applications are especially encouraged during the spring semester for expected admission in the following fall semester. However, the Graduate Recruiting and Admissions Committee screens applications throughout the year. Detailed information about the graduate programs and faculty research activities can be found on the Internet at: <http://www.chem.usu.edu>

## Degree Programs

### Master of Science

To earn an MS in chemistry or biochemistry, a student must meet the general requirements of the School of Graduate Studies (see pages 116-119), conduct research under the direction of a major professor and write a thesis acceptable to a supervisory committee (Plan A) or write a review-of-literature paper (Plan B), and pass an oral examination that is principally a defense of the thesis or the Plan B paper.

Qualified undergraduate chemistry majors at USU may apply in the third year for admission to the MS program. Students may be admitted to this MS program if they have a *B* average in chemistry, physics, and mathematics courses, and have completed the one-year sequences in general, organic, and physical chemistry (including labs), two courses in analytical or inorganic chemistry, two semesters of physics, math through MATH 2210, and at least 15 credits of their University Studies requirements.

Students should consult with the chairperson of the Graduate Recruiting and Admissions Committee to be certain of their eligibility for this program. The chairperson will then submit an application to the department head and to the School of Graduate Studies for approval. Students must earn a satisfactory score on the GRE exam before the completion of the MS degree. All requirements for the BS degree must be completed within two semesters of admission. The MS coursework cannot include coursework counted toward the BS degree.

### Doctor of Philosophy

To earn the PhD in chemistry or biochemistry, a student must successfully complete a core curriculum of courses and other courses as approved by a supervisory committee. In addition, preliminary examinations (both oral and written) must be passed and research in a field of specialization must be conducted. The final requirement is the writing and defense of a dissertation before the student's supervisory committee.

### Biochemistry Course Requirements

Every MS and PhD student in the biochemistry program must complete at least four of the graduate biochemistry core courses (CHEM 6730, 6740, 6750, and 6760). Both MS and PhD students must complete a total of at least 15 credits in coursework, exclusive of seminar and research credit. The Program of Study is approved by the student's supervisory committee. A total of 30 credits is required for the MS degree, and a total of 90 credits is required for the PhD. Beginning students who already hold an MS degree need 60 credits to complete the PhD program.

### Chemistry Course Requirements

Every MS and PhD student in the chemistry program must complete the courses required for their specialization: *Analytical*—CHEM 7600, 7610; *Inorganic*—CHEM 6500, 6510; *Organic*—CHEM 6300, 7300, 7310; or *Physical Chemistry*—CHEM 6010, 6020, 7020. Both MS and PhD students must complete a total of at least 15 credits in coursework, exclusive of seminar and research credit. The Program of Study is approved by the student's supervisory committee. A total of 30 credits is required for the MS degree and a total of 90 credits is required for the PhD. Beginning students who already hold an MS degree need 60 credits to complete the PhD program.

## Financial Assistance

The department offers financial support to students in the form of teaching assistantships, research assistantships, and fellowships. All applications for admission to the School of Graduate Studies constitute an application for financial assistance; it is not necessary to file a separate request. Teaching assistantships are the principal means of support for first-year students. Inquiries about current support levels should be directed to the department main office. The department is responsible for the first nine months of stipend and tuition, with the remaining summer stipend and tuition usually being paid from faculty research funds. Teaching assistants devote no more than 12 contact hours per week directing undergraduate laboratories, leading recitation sections, and assisting students with questions during the regular fall and spring semesters. Research assistantships, funded from individual faculty research grants, support students conducting research related to the grant projects. Although first-year students are not normally supported as research assistants, well-prepared students may be eligible for research support at the discretion of their major professor.

# Department of Chemistry and Biochemistry

---

Fellowships are awarded by the University to outstanding students solely on the basis of merit. The department encourages students with strong academic records to apply for the University fellowships and national awards, and will provide assistance in obtaining and submitting the appropriate forms. Additionally, several graduate awards are given each year to honor exemplary performance in research and teaching.

The College of Science recently established the Willard L. Eccles Foundation Science Fellowship. The \$22,000 per year, three-year stipend is competitively awarded to highly qualified science applicants. Students applying to the graduate program will be considered for this fellowship, and will be sent the necessary information. Application deadline for this fellowship is March 1.

## Chemistry and Biochemistry Faculty

### Professors

*Stephen E. Bialkowski*, analytical chemistry  
*Alexander I. Boldyrev*, physical chemistry  
*Scott A. Ensign*, biochemistry  
*David Farrelly*, physical chemistry  
*Alvan C. Hengge*, organic chemistry  
*Vernon D. Parker*, physical organic chemistry  
*Steve Scheiner*, computational chemistry  
*Lance C. Seefeldt*, biochemistry

### Trustee Professor Emeritus

*Ann E. Aust*, biochemistry

### Professors Emeritus

*Steven D. Aust*, biochemistry  
*William M. Moore*, physical chemistry  
*Richard K. Olsen*, organic chemistry  
*Grant G. Smith*, organic chemistry  
*Jack T. Spence*, inorganic chemistry

### Associate Professors

*Lisa M. Berreau*, inorganic chemistry  
*Robert S. Brown*, analytical chemistry  
*Cheng-Wei Tom Chang*, organic chemistry  
*Bradley S. Davidson*, organic chemistry  
*John L. Hubbard*, inorganic chemistry

### Assistant Professors

*Joan M. Hevel*, biochemistry  
*Sean J. Johnson*, biochemistry

### Research Assistant Professors

*Brett Barney*, biochemistry  
*Tapas Kar*, physical chemistry

### Lecturer

*Douglas G. Harris*

## Course Descriptions

Chemistry and Biochemistry (CHEM), pages 527-529

# Department of Civil and Environmental Engineering

**Department Head:** William J. Rahmeyer  
**Location:** Engineering Laboratory 211  
**Phone:** (435) 797-2938  
**FAX:** (435) 797-1185  
**E-mail:** beckyjh@engineering.usu.edu  
**WWW:** <http://www.engineering.usu.edu/cee>

## **Undergraduate Advisor:**

### **Civil Engineering:**

Engineering Advising Center, Engineering 314A, (435) 797-2705  
kathy@engineering.usu.edu

### **Environmental Engineering:**

Engineering Advising Center, Engineering 314A, (435) 797-2705  
kathy@engineering.usu.edu

## **Undergraduate Division Heads:**

### **Civil Engineering:**

Kevin C. Womack, Engineering Laboratory 276, (435) 797-1144,  
kevin.womack@usu.edu

### **Environmental Engineering:**

David K. Stevens, Engineering 216, (435) 797-3229,  
david.stevens@usu.edu

## **Graduate Program Division Heads:**

### **Environmental Engineering:**

David K. Stevens, Engineering 216, (435) 797-3229,  
david.stevens@usu.edu

### **Geotechnical Engineering:**

James A. Bay, Engineering Laboratory 266, (435) 797-2947  
jim.bay@usu.edu

### **Structural Engineering:**

Marvin W. Halling, Engineering Laboratory 264, (435) 797-3179,  
marv.halling@usu.edu

### **Water Engineering:**

Gilberto E. Urroz, Engineering 223, (435) 797-3379,  
gurro@engineering.usu.edu

### **Transportation Systems Engineering:**

Anthony Chen, Engineering 231, (435) 797-7109,  
achen@engineering.usu.edu

**Degrees offered:** Bachelor of Science (BS) in Civil Engineering; BS in Environmental Engineering; Master of Engineering (ME), Master of Science (MS), Civil Engineer (CE) and Doctor of Philosophy (PhD) in Civil and Environmental Engineering

**Graduate specializations:** Environmental Engineering, Fluid Mechanics and Hydraulic Engineering, Geotechnical Engineering, Hazardous Waste Management, Structural Engineering and Mechanics, Transportation Engineering, Water Engineering, Water Resources Engineering and Hydrology

## **Undergraduate Programs**

### **Objectives**

Civil and Environmental Engineering is concerned with planning, designing, constructing, and operating various physical works; developing and utilizing natural resources in an environmentally

sound manner; providing the infrastructure which supports the highest quality of life in the history of the world; and protecting public health and renovating impacted terrestrial and aquatic systems from the mismanagement of toxic and hazardous wastes. The Department of Civil and Environmental Engineering offers Bachelor of Science degrees in Civil Engineering and in Environmental Engineering. Both degrees are accredited by the Engineering Accreditation Commission of ABET.

The objectives of the undergraduate programs in Civil Engineering and Environmental Engineering are to graduate engineers who have a solid educational foundation with broad experiences in engineering, the sciences, and the humanities; and who are prepared to enter graduate school, other professional training, or the workplace as effective professionals. These graduates will understand the significance of life-long learning and the importance of ethical conduct and will be qualified to assume roles of leadership in business, community, government, and the engineering profession and contribute significantly to global society as a whole.

### **Outcomes**

The **Program Outcomes** of the Civil Engineering undergraduate program are the following:

- (a) an ability to apply knowledge of mathematics, science, and engineering principles to civil engineering problems.
- (b) an ability to design and conduct experiments, as well as to analyze and interpret data.
- (c) an ability to design a system, component, or process to meet desired goals in civil engineering applications.
- (d) an ability to function on multi-disciplinary teams.
- (e) an ability to identify, formulate, and solve engineering problems.
- (f) an understanding of professional and ethical responsibility.
- (g) an ability to communicate effectively.
- (h) a broad education necessary to understand the impact of engineering solutions in a global and societal context.
- (i) a recognition of the need for, and an ability to engage in, lifelong learning.
- (j) knowledge of contemporary issues in civil engineering.
- (k) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.
- (l) the understanding and application of engineering knowledge of specialized areas in Civil Engineering.\*
- (m) the understanding of basic project management techniques and leadership.\*\*
- (n) the understanding of basic professional practices, including work procurement and legal issues.

\*Students in the Civil Engineering program should gain proficiency in a minimum of four of the following six recognized major civil engineering areas. These engineering areas include : (1) environmental, (2) geotechnical, (3) hydraulics, (4) structural, (5) transportation, and (6) water resources and hydrology.

\*\*Basic project management techniques can include multiple principles, such as the interaction between design professionals and the construction professions to construct a project, as well as the principles of cost and scheduling, drawing and plans, and project inspection.

# Department of Civil and Environmental Engineering

The **Program Outcomes** of the Environmental Engineering undergraduate program are the following:

- (a) an ability to apply knowledge of mathematics, science, and engineering principles to civil engineering problems.
- (b) an ability to design and conduct experiments, as well as to analyze and interpret data.
- (c) an ability to design a system, component, or process to meet desired goals in civil engineering applications.
- (d) an ability to function on multi-disciplinary teams.
- (e) an ability to identify, formulate, and solve engineering problems.
- (f) an understanding of professional and ethical responsibility.
- (g) an ability to communicate effectively.
- (h) a broad education necessary to understand the impact of engineering solutions in a global and societal context.
- (i) a recognition of the need for, and an ability to engage in, lifelong learning.
- (j) knowledge of contemporary issues in civil engineering.
- (k) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

## Assessment

The Civil and Environmental Engineering Department employs several methods to assess the quality of the two BS programs offered by the department. Assessments are made prior to graduation by measuring the performance of students in each class. In addition, the results of the FE exam, senior exit interviews, and faculty reviews of student portfolios are used. Postgraduate assessment of Civil and Environmental Engineering graduates is also conducted up to six years after graduation. Assistance from outside reviewers is also obtained in making the assessment. For more details, see the CEE assessment website at: <http://www.engineering.usu.edu/cee/assessment/>

## Requirements

### Admission Requirements

Admission requirements for the Department of Civil and Environmental Engineering are the same as those described for the University on pages 30-35. Students in good standing may apply for admission to the department. In addition, students must maintain the academic requirements outlined for the College of Engineering on pages 132-133.

### Bachelor of Science Degrees

The Department of Civil and Environmental Engineering offers two Bachelor of Science degrees: one in Civil Engineering and one in Environmental Engineering. The four-year programs leading to these two degrees are listed below. During the first two years, students are in a pre-engineering program. Students must successfully complete the pre-engineering program or, in the case of transfer students, substantially equivalent coursework at another institution before they are accepted into the professional program. Transfer students may apply for permission to take upper-division courses in cases where postponement of these courses will prolong the student's time to graduate.

Design is a cornerstone of engineering that requires creative thinking, technical knowledge, the ability to organize and solve complex problems, and teamwork. Engineering design activities begin during the first two years and progress in-depth as each student's proficiency increases. These design activities culminate in a major senior design course, which integrates past engineering coursework into a focused, realistic design project. An important feature of the senior design experience is that students work in teams to complete the project.

The student who is majoring in or planning to major in Civil Engineering or Environmental Engineering needs to be aware of the College of Engineering requirements concerning admission to the college, pre-engineering program, admission to professional engineering programs, University Studies, and other academic requirements. Additional information concerning these items is given in the College of Engineering write-up on pages 131-133. It is the responsibility of the student to be aware of these rules and regulations. **Passing the Fundamentals of Engineering Exam is required for graduation.**

The Civil and Environmental Engineering Department strongly recommends that students have a high-end calculator, such as an HP calculator, that has the capabilities to do units, matrices, and programs in BASIC. Although not a requirement at this time, CEE students are strongly encouraged to have a modern desktop or laptop personal computer. Since computer technology is changing rapidly, students should seek advice from a knowledgeable professional on hardware and software requirements before purchasing a computer.

Students in the Civil Engineering program must establish proficiency in at least four areas of Civil Engineering. Proficiency is established through a combination of material covered in required courses, as well as by establishing depth through the selection of technical electives. Proficiency must be established in four of the following areas: Environmental Engineering, Fluid Mechanics/ Hydraulics, Geotechnical, Structures, Transportation, or Water Resources. The courses must be selected from the approved Technical Elective courses.

## Undergraduate Course Requirements for Civil Engineering (128 credits)<sup>1</sup>

**Pre-engineering Program: Freshman and Sophomore**

### Freshman Year (31-34 credits)

#### Fall Semester (16 credits)

MATH 1210 (QL) <sup>2</sup> Calculus I .....	4
CHEM 1210 <sup>2</sup> Principles of Chemistry I .....	4
CHEM 1215 <sup>2</sup> Chemical Principles Laboratory I .....	1
CEE 1880 <sup>2</sup> Civil and Environmental Engineering Orientation and Computer Applications .....	1
CEE 2240 <sup>2</sup> Engineering Surveying .....	3
University Studies Breadth course .....	3

#### Spring Semester (15-18 credits)

MATH 1220 (QL) <sup>2</sup> Calculus II .....	4
GEO 1110 (BPS) <sup>2</sup> The Dynamic Earth: Physical Geology (4 cr) <b>or</b> GEOG 1000 (BPS) Physical Geography (3 cr) .....	3 or 4
ETE 2270 <sup>2</sup> Computer Engineering Drafting .....	2
BIOL 1010 (BLS) Biology and the Citizen .....	3
PHYS 2200 Elements of Mechanics (prereq. to PHYS 2220) .....	(2)
University Studies Breadth course .....	3

# Department of Civil and Environmental Engineering

## Sophomore Year (30 credits)

### Fall Semester (15 credits)

<b>PHYS 2220 (BPS/QI)</b> <sup>2</sup> General Physics—Science and Engineering II (prereq. AP Physics or PHYS 2200).....	4
<b>MATH 2210 (QI)</b> Multivariable Calculus .....	3
<b>ENGR 2010</b> <sup>2</sup> Engineering Mechanics Statics.....	2
<b>ENGL 2010 (CL2)</b> <sup>2</sup> Intermediate Writing: Research Writing in a Persuasive Mode.....	3
University Studies Breadth course .....	3

### Spring Semester (15 credits)

<b>ENGR 2030</b> <sup>2</sup> Engineering Mechanics Dynamics.....	3
<b>ENGR 2140</b> <sup>2</sup> Strength of Materials.....	2
<b>ENGR 2450</b> <sup>2</sup> Engineering Numerical Methods.....	2
<b>CEE 2870</b> <sup>2</sup> Sophomore Seminar.....	1
<b>MATH 2250 (QI)</b> <sup>2</sup> Linear Algebra and Differential Equations.....	4
University Studies Breadth course .....	3

<sup>1</sup>Passing the Fundamentals of Engineering Exam is required for graduation. The exam is offered in October and April. Application must be made 120 days in advance. The exam is usually taken during fall semester of the junior or senior year.

<sup>2</sup>These courses are required for admission to the Professional Engineering Program (PEP).

## Professional Engineering Program: Junior and Senior

### Junior Year (33 credits)

#### Fall Semester (17 credits)

<b>CEE 3010</b> Mechanics of Materials .....	2
<b>CEE 3030</b> Uncertainty in Engineering Analysis.....	2
<b>CEE 3500</b> Civil and Environmental Engineering Fluid Mechanics .....	3
<b>CEE 3610</b> <sup>3</sup> Environmental Management.....	3
<b>CEE 3870 (CI)</b> <sup>3</sup> Professional/Technical Writing in Civil and Environmental Engineering .....	2
<b>CEE 4200</b> Engineering Economics .....	2
Engineering Science Elective.....	3

#### Spring Semester (16 credits)

<b>CEE 3020</b> Structural Analysis.....	2
<b>CEE 3510</b> Civil and Environmental Engineering Hydraulics .....	3
<b>CEE 3880</b> Civil Engineering Design I.....	1
CEE Group A course <sup>4</sup> .....	3
CEE Group A course <sup>4</sup> .....	4
Engineering Science Elective.....	3

<sup>3</sup>CEE 3610 and 3870 must be taken concurrently.

### Senior Year (33-35 credits)

#### Fall Semester (17 credits)

<b>CEE 4870 (CI)</b> Civil Engineering Design II.....	2
CEE Senior Design elective course <sup>5</sup> .....	3
CEE Technical Elective course <sup>5</sup> .....	3
CEE Technical Elective course <sup>5</sup> .....	3
CEE Technical Elective Group B course <sup>5</sup> .....	3
University Studies Depth Social Sciences (DSS) course .....	3

#### Spring Semester (16-18 credits)

<b>CEE 4880 (CI)</b> Civil Engineering Design III.....	2
CEE Group A course <sup>4</sup> .....	3
CEE Group A course <sup>4</sup> .....	3-4
CEE Group A course <sup>4</sup> .....	3
CEE Technical Elective course <sup>5</sup> .....	3
University Studies Depth Humanities and Creative Arts (DHA) course.....	2-3

<sup>4</sup>Students must complete *all five* of the following Group A Courses. The order in which they are taken will dictate the choice of technical elective courses (as they are prerequisites for various technical elective courses).

## Engineering Science Electives (6 credits minimum)

Students in the Civil Engineering program must complete two engineering science electives chosen from the three courses below. The addition of two engineering science courses in place of one technical elective is required of all students entering the Civil Engineering Professional Program August 2007 and beyond.

<b>ETE 2210</b> Electrical Engineering for Nonmajors (F,Sp,Su).....	4
<b>MAE 2160</b> Material Science (F,Sp) .....	3
<b>MAE 2300</b> Thermodynamics I (Sp,Su).....	3

## Group A Courses

<b>CEE 3080</b> Design of Reinforced Concrete Structures (Sp).....	3
<b>CEE 3210</b> Introduction to Transportation Engineering (Sp) .....	3
<b>CEE 3430</b> Engineering Hydrology (Sp).....	3
<b>CEE 3640</b> Water and Wastewater Engineering (Sp) (4 cr) <b>or</b>	
<b>CEE 3780</b> Solid and Hazardous Waste Management (F) (3 cr) <b>or</b>	
<b>CEE 5860</b> Air Quality Management (F) (3 cr).....	3 or 4
<b>CEE 4300</b> Engineering Soil Mechanics (Sp).....	4

<sup>5</sup>Civil Engineering students are required to complete a Senior Design elective course concurrent with CEE 4870. In addition, they must complete four Technical Elective Courses (one of which must be selected from Group B), for a total of 12 credits. Following is a list of Technical Elective Courses and Senior Design Elective Courses.

## Technical Elective Courses (15 credits minimum required)

Students in the Civil Engineering program must complete a senior design elective (see list below). They must also establish proficiency in *at least four* areas of Civil Engineering by taking a *minimum of two courses* in each area. Proficiency in **Environmental Engineering** is established by taking BIOL 1010; CEE 3610; and CEE 3640, 3780, or 5860. Proficiency in **Structures** is established by taking ENGR 2010, 2140; and CEE 3010, 3020, 3080. Proficiency in **Fluid Mechanics and Hydraulics** is established by taking ENGR 2030; and CEE 3430, 3500, 3510. Students will also demonstrate proficiency in *one* of Geotechnical Engineering, Transportation Engineering, or Water Resources Engineering by taking a Group B course (see list below).

Proficiency in **Geotechnical Engineering** is established by taking ENGR 2030; GEO 1110 (recommended) or GEOG 1000; CEE 4300; and *either* CEE 5350 or 5380. Proficiency in **Transportation Engineering** is established by taking CEE 3210; and *one* of CEE 5190, 5220, 5230, or 5240. Proficiency in **Water Resources Engineering** is established by taking CEE 3430; and *one* of CEE 5450, 5460, or 5470.

The sum of the Group B class, the Senior Design Elective, and other technical electives from the approved list must be at least 15 credits.

<b>CEE 3670</b> Transport Phenomena in Bio-Environmental Systems (Sp).....	3
<b>CEE 3780</b> Solid and Hazardous Waste Management (F) .....	3
<b>CEE 5010</b> Matrix Analysis/Finite Element (F).....	3
<b>CEE 5050</b> Design of Wood and Masonry Structures (Sp).....	3
<b>CEE 5070</b> Structural Steel Design (F).....	3
<b>CEE 5080</b> Numerical Methods in Elasticity (F).....	3
<b>CEE 5100</b> Infrastructure Evaluation and Renewal (Sp) .....	3
<b>CEE 5190</b> Geographic Information Systems for Civil Engineers (Sp).....	3
<b>CEE 5220</b> Traffic Engineering (Sp) .....	3

## Undergraduate Course Requirements for Environmental Engineering<sup>6</sup>

### Pre-engineering Program: Freshman and Sophomore

#### Freshman Year (30-31 credits)

Fall Semester (16 credits)	
MATH 1210 (QL) <sup>8</sup> Calculus I.....	4
CHEM 1210 <sup>8</sup> Principles of Chemistry I.....	4
CHEM 1215 <sup>8</sup> Chemical Principles Laboratory I.....	1
CEE 1880 <sup>8</sup> Civil and Environmental Engineering Orientation and Computer Applications.....	1
CEE 2240 <sup>8</sup> Engineering Surveying.....	3
University Studies Breadth course.....	3

#### Spring Semester (14-15 credits)

BIOL 1010 (BLS) <sup>8</sup> Biology and the Citizen.....	3
MATH 1220 (QL) <sup>8</sup> Calculus II.....	4
ETE 2270 <sup>8</sup> Computer Engineering Drafting.....	2
PHYS 2200 <sup>8</sup> Elements of Mechanics.....	2
GEO 1110 (BPS) <sup>8</sup> The Dynamic Earth: Physical Geology (4 cr) or GEOG 1000 (BPS) Physical Geography (3 cr).....	3 or 4

#### Sophomore Year (32 credits)

Fall Semester (16 credits)	
MATH 2250 (QI) <sup>8</sup> Linear Algebra and Differential Equations.....	4
ENGR 2010 <sup>8</sup> Engineering Mechanics Statics.....	2
ENGL 2010 (CL2) <sup>8</sup> Intermediate Writing: Research Writing in a Persuasive Mode.....	3
PHYS 2220 (BPS/QI) <sup>8</sup> General Physics—Science and Engineering II (prereq: AP Physics or PHYS 2200).....	4
University Studies Breadth course.....	3

#### Spring Semester (16 credits)

ENGR 2030 <sup>8</sup> Engineering Mechanics Dynamics.....	3
ENGR 2140 Strength of Materials.....	2
ENGR 2450 <sup>8</sup> Engineering Numerical Methods.....	2
MAE 2300 <sup>8</sup> Thermodynamics I.....	3
CEE 2890 <sup>8</sup> Environmental Engineering Sophomore Seminar.....	1
CEE 3030 Uncertainty in Engineering Analysis.....	2
University Studies Breadth course.....	3

<sup>6</sup>Passing the Fundamentals of Engineering Exam is required for graduation. The exam is offered in October and April. Application must be made 120 days in advance. The exam is usually taken during fall semester of the senior year.

<sup>7</sup>The Breadth Life Sciences (BLS) area in the University Studies Program is satisfied by the combination of BIOL 1610 and 3300.

<sup>8</sup>These courses are required for admission to the Professional Engineering Program (PEP).

#### Professional Engineering Program: Junior and Senior Junior Year (32 credits)

##### Fall Semester (15 credits)

CEE 3500 Civil and Environmental Engineering Fluid Mechanics.....	3
CEE 3610 <sup>9</sup> Environmental Management.....	3
CEE 3780 Solid and Hazardous Waste Management.....	3
CEE 3870 (CI) <sup>9</sup> Professional/Technical Writing in Civil and Environmental Engineering.....	2
SOIL 3000 Fundamentals of Soil Science.....	4

##### Spring Semester (17 credits)

CEE 3430 Engineering Hydrology.....	3
CEE 3510 Civil and Environmental Engineering Hydraulics.....	3
CEE 3640 Water and Wastewater Engineering.....	4
CEE 3670 Transport Phenomena in Bio-Environmental Systems.....	3
CEE 3890 Environmental Engineering Design I.....	1
New course in Environmental Chemistry.....	3

#### Senior Year (31-32 credits)

##### Fall Semester (16 credits)

PUBH 3310 Occupational Health and Safety.....	3
CEE 4200 Engineering Economics.....	2
CEE 4790 (CI) <sup>10</sup> Environmental Engineering Design II.....	2
CEE 5610 Environmental Quality Analysis.....	3
CEE 5860 Air Quality Management.....	3
CEE Senior Design Elective course <sup>10</sup> .....	3

##### Spring Semester (15-16 credits)

CEE 4890 (CI) Environmental Engineering Design III.....	2
Technical Elective course (Area 1, 2, or 3) <sup>11</sup> .....	2
Technical Elective course (Area 4 or 5) <sup>11</sup> .....	3
University Studies Breadth course.....	3
University Studies Depth Humanities and Creative Arts (DHA) and Depth Social Sciences (DSS) courses.....	5-6

<sup>9</sup>CEE 3610 and 3870 must be taken concurrently.

<sup>10</sup>Environmental Engineering students are required to complete a Senior Design elective course concurrent with CEE 4790. Available Senior Design elective courses are listed below.

<sup>11</sup>Environmental Engineering students must select at least two Technical Elective courses (totaling 4 credits) chosen from the specialty areas (options) listed below.

#### Senior Design Elective Courses

CEE 5690 Natural Systems Engineering (F).....	3
CEE 5810 Biochemical Engineering (F).....	3
CEE 5830 Management and Utilization of Biological Solids and Wastewater (F).....	3
CEE 5880 Remediation Engineering (F).....	3

# Department of Civil and Environmental Engineering

## Technical Elective Courses

### Solids—Area 1

CEE/PUBH 5670 Hazardous Chemicals Handling and Safety (Sp).....	2
CEE/BIE 5680 Soil-based Waste Management (Sp) .....	2
CEE/PUBH 5730 Analysis and Fate of Environmental Contaminants (F).....	3
CEE/BIE 5830 Management and Utilization of Biological Solids and Wastewater (F) .....	3
CEE 5870 Hazardous Waste Incineration (Sp) .....	2
CEE 5880 Remediation Engineering (F) .....	3

### Water—Area 2

CEE 5430 Groundwater Engineering (F).....	3
CEE/SOIL 5620 Aquatic Chemistry (F) .....	3
CEE 5720 Natural Systems Modeling (Sp) .....	3
CEE/PUBH 5730 Analysis and Fate of Environmental Contaminants (F).....	3
CEE/BIE 5810 Biochemical Engineering (F).....	3

CEE 5690 Natural Systems Engineering (F).....	3
WATS 4500 Limnology: Ecology of Inland Waters (Sp) .....	3
WATS 4530 Water Quality and Pollution (F) .....	3

### Occupational Safety and Health—Area 5

PUBH 4310 Industrial Hygiene Recognition of Hazards (F).....	4
PUBH 4320 Industrial Hygiene Chemical Hazard Evaluation (Sp) .....	3
PUBH 4330 Industrial Hygiene Physical Hazards (Sp).....	3
PUBH 5330 (QI) Industrial Hygiene Chemical Hazard Control (F).....	3
CEE/PUBH 5670 Hazardous Chemicals Handling and Safety (Sp).....	2
CEE 5710 Pollution Prevention and Industrial Ecology (Sp).....	2
CEE/PUBH 5790 Accident and Emergency Management (Sp) .....	3

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school.

In the Department of Civil and Environmental Engineering, departmental honors can be earned by completing 20 credits of upper-division honors engineering courses. Students should work with the department in selecting appropriate courses.

Interested students should contact the Honors Program, Main 15, (435) 797-2715, [honors@usu.edu](mailto:honors@usu.edu). Additional information can be found online at: <http://www.usu.edu/honors/>

## Additional Information

For more information about Bachelor of Science requirements and the sequence in which courses should be taken, see major requirement sheet, available from the Civil and Environmental Engineering Department, or online at: <http://www.usu.edu/majorsheets/>

## Concurrent BS/Master's Program

The concurrent BS/Master's program allows engineering students to begin taking graduate-level classes during their senior year. This permits them to complete requirements for *both* the BS degree *and* the master's degree concurrently during two years. Students in this program have a greater selection of graduate courses, since many graduate courses are taught during alternate years. In addition, the student's senior design project could be a start for a graduate design project or thesis. After completing their BS degree, students in the program can earn a master's degree in only one additional year. Both the BS and the master's degree can generally be earned with 150-152 total credits, although students should note that a Plan C MS requires 3 extra credits. Finally, students with a master's degree can expect a much higher starting salary following graduation. (For more information, see *College of Engineering* section of this catalog, pages 133-134.)

## Graduate Programs

The ME degree emphasizes professional practice and coursework. A minimum of 30 credits of technical and scientific coursework is required. The MS degree emphasizes research and the preparation of a significant publication. A minimum of 30 credits, 6 to 9 of which shall be thesis research, is required for an MS. In special cases, as decided by the student's supervisory committee, a second MS is available with a Plan B option, which requires 30 credits, including 3 credits of CEE 6970, Thesis Research. The CE degree, which prepares students for professional engineering careers, requires 60 credits beyond the bachelor's degree, or 30 credits beyond the master's degree, including a technical engineering report. The PhD degree represents high scholarly achievement demonstrated by independent research and competence in an area of specialization approved by the student's supervisory committee.

## Admission Requirements

See general admission requirements, pages 36-37. Admission committees consider GRE scores and experience, undergraduate record and curriculum, and formal recommendations. A student without an undergraduate civil and environmental engineering background may be required to complete selected undergraduate courses prior to admission as a fully matriculated graduate student.

## Graduate Program Divisions

The graduate program in the Department of Civil and Environmental Engineering is administered through five academic divisions, as described below.

### Structural Engineering

The structural engineer is involved in the design, construction, repair, and retrofit of all types of structures: buildings, bridges, dams, and many others. The safety of the structures we occupy and utilize every day is the responsibility of structural engineers. They must be able to evaluate the loads placed on a structure, determine their effects on the

# Department of Civil and Environmental Engineering

structure, and select the appropriate materials and structural elements, or repair strategy, to withstand these loads. Today's structural engineer is using new space materials in the design of new structures or the retrofit of older structures.

Mathematics, physics, and materials science constitute a foundation for structural engineering. Structural analysis and design are added to this foundation and become the focus of the structural engineering program. Graduate students in the structures program also engage in structural mechanics, numerical methods, structural dynamics, geotechnical engineering, and the study of new structural materials. Current research in the structures area is focusing on the dynamic characteristics of structures, their potential response to earthquakes, and new seismic retrofit measures, using advanced composite materials, for older structures. Materials research is focusing on cementitious materials and constitutive modeling.

## Geotechnical Engineering

Engineering studies of soils are concerned with the physical and engineering properties of soils and how these are related to engineering projects.

Traditional geotechnical engineering includes the application of engineering principles to the analysis and/or design of building foundations, earth embankments, retaining walls, drainage systems, earthquake motion, buried structures, and other systems involving soil and rock. Engineers and architects cannot ignore the problems of investigating properties of soils in connection with engineering construction. Undergraduate and graduate courses offered by the department provide the basic knowledge necessary for the design of foundations and various types of earth structures. Fundamental concepts and their application are emphasized so that the student will be properly trained for his or her initial job, as well as being prepared to understand future development in this field.

The Geotechnical Engineering Division, in cooperation with the Environmental Engineering Division, is offering a new program in Geoenvironmental Engineering. This new program uses the strengths of both divisions to provide a program involving the geotechnical aspects of hazardous waste management, the investigation of hazardous waste sites, and the design of hazardous waste containment systems.

The geotechnical division has a strong research program. Current research projects in this division include studies on liquefaction, seismic slope stability, pile foundations, landslides, mechanically stabilized embankments, risk analysis of dams, finite element analysis of soil-structure systems, and the long-term properties of clay soils used in hazardous waste containment systems.

## Water Engineering

The water engineering program is a multidisciplinary graduate program in the College of Engineering and is intended to enable engineers and scientists interested in water to obtain graduate degrees in the areas of fluid mechanics and hydraulics, hydrology, groundwater, and water resources engineering. Core courses and departmental offerings cover these fundamental areas, as well as essential numerical and statistical methods. The water engineering faculty are committed to a strong academic program. The curriculum offered is one of the most comprehensive offered in the U.S. Elements of ongoing research projects are routinely and effectively incorporated into the classes. The program combines training, research, and experience to understand the water issues and water resources management challenges in the United States and internationally. Graduate students can supplement departmental offerings by selecting courses in Mathematics and

Statistics; Watershed Sciences; Applied Economics; Economics; Geology; Biological and Irrigation Engineering; Mechanical and Aerospace Engineering; and Plants, Soils, and Climate. This ensures that graduates are well-grounded in the fundamentals, but have a breadth of training and are prepared to contribute professionally to the solution of multidisciplinary local, national, and international water problems. Graduate students in the water program have the opportunity for research support through the Utah Water Research Laboratory (UWRL) while working on theses or dissertations. Excellent laboratory and computing facilities are available. Strong, continuous state and federal research funding keeps the research topics and facilities current. Specialty areas within the program comprise fluid mechanics and hydraulics, hydrology, groundwater, and water resources engineering.

*Fluid mechanics and hydraulic engineering* covers both fundamental principles and theory and their applications in a variety of engineering fields. Elementary fluid mechanics, based on fundamental principles of conservation of mass, energy, and momentum, is the logical core for all water-related engineering programs. Consequently, other specialties in water engineering study fluid mechanics. Students specializing in fluid mechanics and hydraulics emphasize theoretical fluid mechanics, hydraulic design, numerical methods, and laboratory hydraulic techniques. A good variety and balance of courses supporting research in theoretical fluid mechanics, open channel hydraulics, hydraulic design, transients, sedimentation, municipal water system design, and cavitation are available at the graduate level. Graduates in fluid mechanics and hydraulics find employment in a broad range of professional engineering fields, including consulting, university teaching and research, and state and federal government agencies.

*Hydrology* is a branch of geoscience concerned with the origin, distribution, movement, and properties of waters of the earth. The hydrologic cycle encompasses the atmosphere, the land surface, lakes and oceans, and the subsurface. Complex, interacting processes at varied time and space scales describe the hydrologic cycle. The concepts and practice of hydrology derive from an integration of field observations, laboratory investigations, and conceptual, mathematical, chemical, statistical, and probabilistic models.

The hydrology program at USU has strength in both theoretical and applied aspects of modern hydrology. Past and present research focuses on a broad spectrum of hydrologic problems. These range from climate modeling, rainfall processes, floods, droughts, terminal lake analyses, soil erosion, and stream water quality models to groundwater contamination characterization and remediation and watershed analyses. A particular emphasis of the program is on an understanding of the global water and energy cycles at nested scales from the hemisphere to the continent to the watershed from a holistic perspective that recognizes the two-way linkages between water reservoirs and fluxes through oceans, atmosphere, land surface and subsurface, and biota.

*Groundwater engineering* is concerned with fluid flow and transport of contaminants in the subsurface environment. It encompasses the theory of flow in porous media; groundwater hydrology; fate and transport of contaminants in subsurface; and analytical, numerical, and stochastic modeling of such processes. Emphasis is placed on the quantitative analysis of physical and chemical principles governing these processes and on the application of these principles to practical field problems, with all their difficulties related to the complex structure of subsurface formations. Examples of such problems include groundwater supply and management, capture zone analysis, well hydraulics, subsurface cleanup technologies, health risk assessment, and analysis and remediation of groundwater contamination. These problems are of a multidisciplinary nature, and their solutions require

# Department of Civil and Environmental Engineering

a multidisciplinary approach, involving, among others, soil and water chemistry, chemical engineering, and economics. The groundwater professional is an important team player in solving such problems.

*Water Resources Engineering* prepares engineers to be lead members in water resources planning teams, often charged with coordinating the information and concepts supplied from other disciplines. This need for breadth requires considerable flexibility in the training and arrangement of degree programs.

Water resources engineers draw principles from hydrology, fluid mechanics, hydraulics, environmental engineering, economics, ecology, political science, and other disciplines in the design and operation of projects and nonstructural methods for water resources planning and management. They need a sound understanding of how water storage, delivery, and other management systems function; of criteria used in evaluating and selecting among alternatives; of the techniques of operations research that can be used in systems design; and of the institutional aspects of decision-making in the public sector. A focus area of the program is to develop decision support systems for sustainable water quantity and quality management in the United States and in developing regions of the world. Evolving information sources and tools, such as spatial data sets encoded in geographical information systems, climate forecasts, and cognitive models of the human decision process and societal group dynamics, are being integrated in representative institutional contexts.

An internationally-recognized specialized program has been developed in dam safety risk assessment. Students take classes in dam engineering; hydrology and hydraulics; geotechnical engineering; geology; decision analysis; risk assessment; probability and statistics; and natural resources economics, planning, and management. Students work on practical applications, as well as research projects, for improving the state-of-the-art.

## Environmental Engineering

The Division of Environmental Engineering is a multidisciplinary graduate program in the College of Engineering and provides coursework and research experience to enable engineers and scientists interested in the environment to obtain graduate degrees relating to potable water and waste treatment, toxic and hazardous wastes management, air quality management, natural systems engineering, and environmental impact assessment. The program provides an interdisciplinary educational approach to fundamental principles that can be applied to environmental phenomena. Research and training projects are a part of the program and provide the student with appropriate research experience leading to a thesis or dissertation.

*Hazardous Waste Management.* This specialization has been developed within the broader scope of the environmental engineering program to provide an integrated approach for students with a BS in engineering or natural sciences to deal with the complex issues of toxic and hazardous waste. Aspects of toxic/hazardous waste management, including characterization, treatment, disposal, control, monitoring, and environmental impacts, are dealt with in this program.

*Natural Systems Engineering* is the study of the interaction of engineered systems with nature, emphasizing impacts to aquatic ecosystems. Techniques include assessment of aquatic habitat through computer simulation and model verification, quantification of aquatic habitat using remote sensing systems, and data analysis and display through integrated statistical and GIS approaches. These tools are used to evaluate impacts on threatened and endangered species, habitat enhancement, instream flow assessments, fish habitat, stream sediment, and hydraulic features.

*A bioprocess engineering program* has been developed as a cooperative effort between the Division of Environmental Engineering and the Biological and Irrigation Engineering Department. This program provides students with specialized coursework and research experience in areas of bioreactor processing of environmental materials and engineering scale-up of biologically-based environmental reactions. Areas of specialization include waste to energy, fermentation, composting, and industrial waste (agricultural and chemical) reuse, recycling, and technologies based on biological processes, as well as engineering optimization of aquatic habitats.

## Transportation Engineering

The graduate program in Transportation Engineering offers education and research opportunities in transportation systems planning, design, and management. It is designed to enable aspiring planners, engineers, and managers to obtain advanced degrees while specializing in infrastructure management, traffic network analysis, facility design, traffic operations, transportation economics and finance, and project appraisal. Up-to-date computer and laboratory facilities, as well as the Transportation Division's close links with local and state transportation agencies, enable students to gain hands-on experience and practical perspectives.

Past and present research undertaken by the Transportation Division faculty and researchers ranges from microscopic traffic flow simulation, dynamic route assignment, and network reliability to traffic accident modeling, pavement management, video image processing, and intelligent transportation systems. The focus remains on efficient and effective solutions to transportation problems.

Transportation Division course offerings expose students to the theoretical and practical aspects of goods and passenger transportation. State-of-the-art analytical tools and new research findings are introduced into the courses through periodic revision of notes, examples, problem sets, and computer software. Students are encouraged to design their own programs of study according to their personal and professional goals. Due to the multi-disciplinary nature of transportation, students are encouraged to include in their program of study course offerings from other programs in CEE, as well as from Mathematics and Statistics, Environment and Society, Applied Economics, Economics and Finance, Management, and Sociology.

## Financial Assistance

Both departmental and formal grant support are available to graduate students and are awarded on a competitive basis. Students requesting financial support should apply to the department by March 15 for the coming academic year.

A number of fellowships are available through the University and the department. Teaching assistantships are available through the department and research assistantships are available through the Utah Water Research Laboratory and departmental faculty members who have ongoing projects or who hold special research grants from the University, private companies, or state and federal agencies.

Acceptance to pursue graduate studies in the Civil and Environmental Engineering Department does not guarantee the student financial assistance. Inasmuch as funds are limited, the assistantships are awarded by the department to cover specific teaching assignments and by the faculty members to provide for research as funds are available.

# Department of Civil and Environmental Engineering

## Civil and Environmental Engineering Faculty

### Professors

*A. Bruce Bishop*, engineering systems and planning  
*David S. Bowles*, risk assessment, hydrology, water resources engineering  
*William J. Doucette*, environmental analytical chemistry  
*R. Ryan Dupont*, hazardous waste management, bioremediation  
*Thomas B. Hardy*, ecological system modeling, statistical analysis  
*Jagath J. Kaluarachchi*, subsurface hydrology, water resources  
*Mac McKee*, water resources planning and analysis  
*William J. Rahmeyer*, hydraulics, hydraulic structures, scour and erosion  
*David K. Stevens*, treatment process analysis  
*David G. Tarboton*, hydrology and water resources  
*Kevin C. Womack*, structural mechanics

### Research Professor

*Darwin L. Sorensen*, aquatic microbiology

### Professors Emeritus

*Loren R. Anderson*, geotechnical engineering  
*Jay M. Bagley*, hydrology, water resources  
*W. O. Carter*, structures  
*Calvin G. Clyde*, fluid mechanics and groundwater  
*Irving S. Dunn*, geotechnical engineering  
*Gordon H. Flammer*, hydraulics  
*William J. Grenney*, water resources  
*Trevor C. Hughes*, water resources systems analysis  
*C. Earl Israelsen*, hydrology, hydraulics, water resources, erosion control  
*Roland W. Jeppson*, numerical modeling  
*Fred W. Kiefer, Jr.*, geotechnical engineering  
*Elliot Rich*, structural engineering  
*J. Paul Riley*, water resources systems, hydrology  
*J. Paul Tullis*, hydraulics, hydraulic structures, and hydromachinery  
*Reynold K. Watkins*, geotechnical engineering

### Adjunct Professors

*Lloyd H. Austin*, water resources  
*Steve C. Chapra*, water-quality modeling  
*George G. Goble*, deep foundations and structural dynamics  
*Roger D. Hansen*, water resources  
*Jeffrey R. Keaton*, geotechnical engineering, engineering geology  
*Upmanu Lall*, climate modeling, statistical hydrology, water resource systems  
*Christopher M. U. Neale*, remote sensing, biological and irrigation engineering  
*Neil Parrett*, performance and safety of dams  
*Norman E. Stauffer, Jr.*, engineering hydrology and computer modeling  
*Alan Steinberg*, road maps for intelligence  
*Daniel A. Stone*, environmental chemistry

### Associate Professors

*Paul J. Barr*, reinforced concrete, bridge design  
*James A. Bay*, geotechnical engineering  
*Joseph A. Caliendo*, geotechnical engineering  
*Anthony Chen*, network analysis and logistics, transportation planning  
*Marvin W. Halling*, structural dynamics, earthquake engineering  
*Sonia S. Manuel-Dupont*, technical communication  
*Randal S. Martin*, environmental engineering (air pollution)  
*Michael J. McFarland*, environmental engineering (biosolids)  
*Laurie S. McNeill*, environmental engineering (drinking water)  
*Robert T. Pack*, geomatics and engineering geology  
*Blake P. Tullis*, hydraulics, hydraulic structures, and hydromachinery  
*Gilberto E. Urroz*, hydraulics, hydraulic structures

### Research Associate Professor

*Joan E. McLean*, fate and behavior of metals in the subsurfaces

### Adjunct Associate Professors

*Danny Marks*, snow hydrology  
*Eva C. Nieminski*, water quality  
*Anthony Turhollow*, transportation  
*Ross A. Woods*, water

### Associate Professor Emeritus

*J. Derle Thorpe*, engineering materials, measurements

### Assistant Professors

*Kevin Heaslip*, transportation  
*Bethany T. Neilson*, environmental engineering  
*John D. Rice*, geotechnical engineering  
*David Rosenberg*, water resources  
*Keri L. Ryan*, structural dynamics, structural control

### Research Assistant Professors

*Luis Bastidas*, hydrology  
*Sanjay Chauhan*, dam safety, risk assessment, hydrologic modeling  
*Michael C. Johnson*, hydraulics

### Adjunct Assistant Professors

*Steven L. Barfuss*, hydraulics  
*Charles H. Luce*, forest hydrology

### Affiliate Faculty

*Robert W. Hill*, professor, Biological and Irrigation Engineering; irrigation and water resource extension  
*Jack Keller*, professor emeritus, Biological and Irrigation Engineering; sprinkle and drip irrigation  
*Gary P. Merkley*, professor, Biological and Irrigation Engineering; conveyance systems  
*Judith L. Sims*, research associate professor, Biological and Irrigation Engineering; soil biology  
*Ronald C. Sims*, Department Head and professor, Biological and Irrigation Engineering; biological process engineering  
*Wynn R. Walker*, professor, Biological and Irrigation Engineering; Associate Dean, College of Engineering; surface irrigation

## Course Descriptions

Civil and Environmental Engineering (CEE), pages 520-527

**Coordination:** Mark L. Damen, Susan O. Shapiro, and Frances B. Titchener, Department of History

**Location:** Main 323

**Phone:** (435) 797-1290

**FAX:** (435) 797-3899

**E-mail:** mark.damen@usu.edu, susan.o.shapiro@usu.edu, frances.titchener@usu.edu

**WWW:** <http://www.usu.edu/history/classics/>

An academic minor is available in the field of **Classical Studies** with four areas of emphasis: **Classical Civilization**, **Latin Language**, **Greek Language**, and **Latin Teaching**. From the ancient civilizations of the Mediterranean area are derived our government, literature, sciences, and laws. The classical world is the backdrop of the modern world. In association with various majors, the Classics Minor is designed to enhance intellectual abilities and practical skills.

## Requirements

Requirements for the four emphasis areas are as follows:

### Classics Minor with Emphasis in Civilization

Twenty-one credits of coursework are required. All students must take:

**HIST 3130 (CI/DHA)** Greek History.....3  
**HIST 3150 (CI)** Roman History (Sp).....3

One of the following two courses in ancient archaeology is required:

**HIST/ARTH 3110 (CI/DHA)** Ancient Near East (Sp) .....3  
**ANTH 1030 (BSS)** World Archeology (F [Sp online]).....3

One of the following three ancient literature courses is required:

**CLAS 1100** The Latin and Greek Element in English (F,Sp).....3  
**CLAS/ARTH 3210** Classical Mythology (F,Sp) .....3  
**THEA 5290** Special Topics in Theatre History and Literature (F,Sp).....3

One of the following two ancient art courses is required:

**HIST/ARTH 4210** Celtic Europe (F) .....3  
**ARTH 4610 (CI)** Greek and Roman Art.....3

One of the following three ancient thought courses is required:

**HIST 4350** Greek Intellectual History (Sp) .....3  
**POLS 4310 (CI)** History of Political Thought I (Sp) .....3  
**PHIL 3100 (CI)** Ancient Philosophy .....3

The remaining 3 credits are elective and may include any of the courses listed above.

### Classics Minor with Emphasis in Latin Language

Thirteen credits are required. All students must complete HIST 3150 (Roman History) and 7 credits of upper-division (3000- and 4000-level) courses in Latin language. They must also complete *one* of the following courses:

**ARTH 4610 (CI)** Greek and Roman Art.....3  
**CLAS 1100** The Latin and Greek Element in English (F,Sp).....3  
**CLAS/ARTH 3210** Classical Mythology (F,Sp) .....3  
**HIST/ARTH 4210** Celtic Europe (F) .....3  
**THEA 5290** Special Topics in Theatre History and Literature (F,Sp).....3

### Classics Minor with Emphasis in Greek Language

Thirteen credits are required. All students must complete HIST 3130 (Greek History) and 7 credits of upper-division (3000- and 4000-level) courses in classical Greek language. They must also complete *one* of the following courses:

**ARTH 4610 (CI)** Greek and Roman Art.....3  
**CLAS 1100** The Latin and Greek Element in English (F,Sp).....3  
**CLAS/ARTH 3210** Classical Mythology (F,Sp) .....3  
**HIST 4350** Greek Intellectual History (Sp) .....3  
**PHIL 3100 (CI)** Ancient Philosophy .....3  
**THEA 5290** Special Topics in Theatre History and Literature (F,Sp).....3

### Classics Minor with Emphasis in Latin Teaching

Twenty-one credits are required. All students must take the following courses:

**CLAS 1100** The Latin and Greek Element in English (F,Sp).....3  
**HIST 3150 (CI)** Roman History (Sp).....3  
**LATN 3100** Intermediate Latin Prose (F) .....3  
**LATN 3130** Intermediate Latin Poetry (F) .....3  
**LATN 4100** Advanced Latin Readings (F).....3  
**LATN 4860** Latin Pedagogy (Sp) .....3

The remaining 3 credits must be taken in upper-division Latin. Students may fulfill this requirement *either* by taking LATN 4100 a second time (provided a different author is studied) *or* by taking 3 credits of LATN 4930 (Directed Readings in Latin Poetry and Prose Authors).

In order to receive teaching certification in Latin, students must also pass the PRAXIS exam, as well as successfully complete the STEP (Secondary Teacher Education Program) as part of their major.

Approved courses for the various minors are listed in the brochure titled *Classical Studies*. Brochures are available from the Department of History, Main 323.

Latin (LATN), page 596

# Department of Communicative Disorders and Deaf Education

**Department Head:** Beth E. Foley  
**Location:** Lillywhite 103  
**Phone:** (435) 797-3924  
**FAX:** (435) 797-0221  
**E-mail:** beth.foley@usu.edu  
**WWW:** <http://www.cehs.usu.edu/comd/>

**Assistant Department Head and Advisor for  
Speech-Language Pathology and Audiology:**  
Dee R. Child, Lillywhite 112, (435) 797-2318, [dee.child@usu.edu](mailto:dee.child@usu.edu)

**Advisor for Deaf Education:**  
Jan Kelley-King, Lillywhite 40, (435) 797-5718,  
[jan.kellyking@usu.edu](mailto:jan.kellyking@usu.edu)

**Degrees offered:** Bachelor of Science (BS), Bachelor of Arts (BA),  
Master of Science (MS), Master of Arts (MA), Master of Education  
(MEd), and Educational Specialist (EdS) in Communicative Disorders  
and Deaf Education; Doctorate of Audiology (AuD)

**Undergraduate areas of focus:** BS, BA—Communicative Disorders,  
Education of the Deaf and Hard of Hearing

**Graduate specializations:** MS, MA, MEd—Speech-Language  
Pathology; MEd—Education of the Deaf and Hard of Hearing;  
EdS—Audiology

## Objectives

Three main objectives of the Department of Communicative Disorders and Deaf Education are (1) to train competent speech-language pathologists, educators of the deaf and hard of hearing, and clinical-educational audiologists capable of receiving state and national licensure; (2) to provide clinical services to individuals with speech-language deficits or hearing loss in the University population or in the community; and (3) to provide research opportunities for students relating to communicative problems of individuals. The graduate programs in both Speech-Language Pathology and Clinical-Educational Audiology are accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the American Speech-Language Hearing Association. The program in Education of the Deaf and Hard of Hearing is accredited by the Council on Education of the Deaf. All department programs hold Utah State Office of Education approval and NCATE accreditation.

## Undergraduate Programs

### Bachelor's Degree in Communicative Disorders and Deaf Education

There are two areas of focus available within the department: (1) **communicative disorders**, which includes options in *audiology* and *speech-language pathology*, and (2) **education of the deaf and hard of hearing**. Though the BS or BA is available in both tracks, the student should be aware that there is no professional employment licensure in either communicative disorders or education of the deaf and hard of hearing at the bachelor's level.

### Option 1: Audiology and Speech-Language Pathology

Any accepted student at Utah State University may major in Communicative Disorders and Deaf Education (COMD-DE) during the freshman and/or sophomore years. However, during the first semester of the junior year, the student must formally apply for admission into the COMD-DE undergraduate professional preparation program. Application forms for admission into COMD-DE will be disseminated in class during the first semester of the junior year. As part of the application process, each student will complete the Emma Eccles Jones College of Education and Human Services Writing Examination. The student will be accepted if cumulative grade point average is 3.0 or higher, University Studies credits are within 15 credits of completion, the Emma Eccles Jones College of Education and Human Services Writing Examination has been taken and passed, and all COM-DE courses taken to this point have grades higher than C+. Students who are accepted into the undergraduate program must maintain the acceptance standards each semester in order to continue in the major.

Transfer Students or students applying for admission into the program subsequent to the fall semester of their junior year must receive approval from the department head before beginning their matriculation in major classes.

Admission into the Emma Eccles Jones College of Education and Human Services teacher education program is necessary before the student may take licensure courses taught in the School of Teacher Education and Leadership and the Department of Special Education and Rehabilitation, which are supportive of the major. Admission into the teacher education program is also required prior to taking the Communicative Disorders clinical practicum coursework. Application to the teacher education program typically takes place at the beginning of the graduate program.

### Course Requirements

Each student in audiology and speech-language pathology must complete a component of professional training, which includes departmental and extra-departmental coursework. This professional training component includes the following courses:

#### A. Lower-division Core Courses (13 credits)

<b>MATH 1010</b> Intermediate Algebra (F,Sp,Su) (4 cr) <b>or</b>	
<b>MATH 1050 (QL)</b> College Algebra (F,Sp,Su) (4 cr) .....	4
<b>STAT 1040 (QL)</b> Introduction to Statistics (F,Sp,Su) .....	3
<b>CS 1030 (BPS)</b> Foundations of Computer Science (F) (3 cr) <b>or</b>	
<b>OSS 1400</b> Microcomputer Applications (3 cr) .....	3
<b>PSY 1010 (BSS)</b> General Psychology (F,Sp,Su) (3 cr) <b>or</b>	
<b>FCHD 1500 (BSS)</b> Human Development	
Across the Lifespan (F,Sp) (3 cr) .....	3

#### B. Extra-departmental Core Courses (13 credits)

<b>BIOL 1010 (BLS)</b> Biology and the Citizen (F,Sp,Su) .....	3
<b>BIOL 2320</b> Human Anatomy (Sp,Su) (4 cr) <b>or</b>	
<b>BIOL 2420</b> Human Physiology (F,Sp,Su) (4 cr) .....	4
<b>PSY 1100</b> Developmental Psychology: Infancy	
and Childhood (F,Sp) .....	3
<b>SPCH 2110 (CI)</b> Interpersonal Communication (F,Sp) .....	3

#### C. Course Required for State Licensure (2 credits)

<b>SPED 4000</b> Education of Exceptional Individuals (F,Sp,Su) .....	2
---	---

# Department of Communicative Disorders and Deaf Education

## D. Communicative Disorders Major Core Requirements (40-41 credits)

COMD 2400 Orientation and Observation (F,Sp)	1
COMD 2500 Language, Speech, and Hearing Development (F,Sp)	3
COMD 2600 Introduction to Communication Disorders (F)	2
COMD 2910 (CI) Sign Language I (Majors) (F,Sp,Su)	4
COMD 3100 Fundamentals of Anatomy for Speech and Language (F)	3
COMD 3120 Disorders of Articulation and Phonology (Sp)	3
COMD 3400 Acoustics and Anatomy of the Ear (Sp)	3
COMD 3500 Phonetics/Developmental Phonology (F)	3
COMD 3650 (CI) Clinical Processes and Behavior (Sp)	2
COMD 3700 Basic Audiology (F)	3
COMD 4400 Clinical Practicum in Audiology (F,Sp,Su)	1-2
COMD 4450 Assessment and Treatment of Communicative Disorders in the Pediatric Population (Sp)	3
COMD 5070 Speech Science (F)	3
COMD 5100 Language Science (Sp)	3
COMD 5200 Language Assessment and Intervention for Children Birth to Age Five (Sp)	3
COMD 5210 Cultural and Linguistic Diversity in Communicative Disorders (F)	3
COMD 5250 Diagnosis and Treatment of Adults in Speech-Language Pathology (Sp)	3
COMD 5330 Pediatric Aural Rehabilitation (Sp)	3

## E. Upper-division Electives, Preapproved by Department (12 credits)

### Suggested Semester Schedule for Communicative Disorders and Deaf Education Majors (Audiology and Speech-Language Pathology)

**Note:** A minimum 3.0 overall GPA is required for admission to the professional program during the junior year. Prior to beginning the program, each student should meet with a departmental advisor to work out a specific academic plan, tailored to meet the individual student's needs.

### Junior Year (33 credits)

#### Fall Semester (17 credits)

COMD 2400 Orientation and Observation	1
COMD 2500 Language, Speech, and Hearing Development	3
COMD 2600 Introduction to Communication Disorders	2
COMD 3100 Fundamentals of Anatomy for Speech and Language	3
COMD 3500 Phonetics/Developmental Phonology	3
SPED 4000 Education of Exceptional Individuals	2
Electives	3

#### Spring Semester (16 credits)

COMD 3400 Acoustics and Anatomy of the Ear	3
COMD 4450 Assessment and Treatment of Communicative Disorders in the Pediatric Population	3
COMD 5100 Language Science	3
PSY 1100 Developmental Psychology: Infancy and Childhood	3
Electives	4

### Senior Year (33 credits)

#### Fall Semester (19 credits)

COMD 2910 (CI) Sign Language I (Majors)	4
COMD 3700 Basic Audiology	3
COMD 5070 Speech Science	3
COMD 5210 Cultural and Linguistic Diversity in Communicative Disorders	3
STAT 1040 (QL) Introduction to Statistics	3
Depth Humanities and Creative Arts (DHA) course	3

### Spring Semester (14 credits)

COMD 5200 Language Assessment and Intervention for Children Birth to Age Five	3
COMD 5250 Diagnosis and Treatment of Adults in Speech-Language Pathology	3
COMD 5330 Pediatric Aural Rehabilitation	3
Electives	5

## Online Post-bachelor's Degree in Communicative Disorders

Nationally there is a critical need for master's-level or doctoral-level professionals in the field of communicative disorders. Many individuals already holding bachelor's degrees who would like to pursue these professions are lacking the required undergraduate prerequisites needed to be considered for admission into graduate programs. The Department of Communicative Disorders and Deaf Education at Utah State University has developed an online second bachelor's degree program to help fulfill this need. In order to be accepted into this program, students must have received a bachelor's degree from an accredited U.S. or Canadian university in another discipline. This second bachelor's degree program consists of 12 COMD online courses. The entire program may be completed during three semesters, but can be "stretched out" over a longer period if desired. All courses will be taught on the Internet by Regional Campuses and Distance Education (RCDE).

A 3.0 cumulative GPA within the first bachelor's degree is **strongly recommended**. However, students having a GPA below 3.0 will still be considered for admission. All students should make note of the following policy:

Admission into graduate school programs is very competitive. A competitive grade point average from this second bachelor's degree program will greatly increase the likelihood of being admitted into graduate school. For this reason, students in USU's second bachelor's degree program must maintain at least a 3.0 GPA in order to continue in the program. Students who fall below the 3.0 GPA at the end of any semester will not be allowed to continue until they raise their GPA back to 3.0 or higher by retaking courses.

Applicants may transfer to USU up to 6 credits of undergraduate communicative disorders courses. These credits must have been completed as part of an ASHA accredited program. In order to use these courses to replace equivalent courses within USU's program, permission must be granted by USU's COMD advisor (Dee Child).

## Required Courses

It is **strongly recommended** (but not required) that the following courses be taken in the order shown below.

### Semester 1

COMD 2500 Language, Speech, and Hearing Development	3
COMD 3100 Fundamentals of Anatomy for Speech and Language	3
COMD 3500 Phonetics/Developmental Phonology	3
COMD 5100 Language Science	3

### Semester 2

COMD 3120 Disorders of Articulation and Phonology	3
COMD 3400 Acoustics and Anatomy of the Ear	3
COMD 3650 (CI) Clinical Processes and Behavior	2
COMD 5330 Pediatric Aural Rehabilitation	3

# Department of Communicative Disorders and Deaf Education

## Semester 3

COMD 3700 Basic Audiology .....	3
COMD 5070 Speech Science.....	3
COMD 5200 Language Assessment and Intervention for Children Birth to Age Five .....	3
COMD 5900 Independent Study: Observation/Graduate Preparation.....	2

## Option 2: Education of the Deaf and Hard of Hearing

Students admitted to the University in good standing may major in the composite degree in Deaf Education/Elementary Education (DEEE). Upon completion of 30 semester credits, students may apply for admission to the teacher education program. Admission criteria include a cumulative GPA of 2.75, a passing score on the Emma Eccles Jones College of Education and Human Services Writing Examination, a speech and hearing test, successful performance on the ACT exam, computer skills competency, and high potential as a teacher, as judged by performance in a small-group interview. Students must also complete the following courses prior to application: ELED 1010, ENGL 1010, FCHD 1500, MATH 1050, one Breadth American Institutions (BAI) course, one Breadth Physical Sciences (BPS) course, and one Breadth Humanities (BHU) or Breadth Creative Arts (BCA) course. Students who are accepted into the teacher education program may continue with the Deaf Education coursework, if they continue to improve in their use of American Sign Language, and if they continue to receive grades of no less than a B- in all of their COMD courses.

Students wishing to obtain licensure to teach the deaf and hard of hearing will need to complete the majority of the requirements for a teaching license in early childhood education, elementary education, secondary education, or special education.

## Suggested Schedule for Deaf Education/Elementary Education Composite Majors

Students wishing to obtain teacher certification in Elementary Education and Deaf Education must complete the undergraduate requirements for the composite major and complete a two-semester graduate program during which student teaching requirements are fulfilled. There is no certification available at the bachelors' degree level.

## Freshman Year (34 credits)

### Fall Semester (15 credits)

ENGL 1010 (CL1) Introduction to Writing: Academic Prose .....	3
Breadth American Institutions (BAI) course (major approved) .....	3
Breadth Humanities (BHU) course (major approved).....	3
Breadth Life Sciences (BLS) course (major approved) .....	3
Breadth Physical Sciences (BPS) course (major approved) .....	3

### Spring Semester (19 credits)

COMD 2910 (CI) Sign Language I .....	4
ELED 1010 Orientation to Elementary Education .....	3
FCHD 1500 (BSS) Human Development Across the Lifespan.....	3
MATH 1050 (QL) College Algebra.....	4
HEP 3500 Elementary School Health Education (2 cr) or HEP 2000 First Aid and Emergency Care (2 cr).....	2
Breadth Creative Arts (BCA) course (major approved) .....	3

## Sophomore Year (36 credits)

### Fall Semester (18 credits)

#### Level II Courses (Students must be admitted to the program.)

ELED 3000 (CI) Foundation Studies and Practicum in Teaching and Classroom Management Level II.....	6
ELED 3005 Beginning Classroom Management.....	1
ELED 4005 Intermediate Classroom Management.....	1
SPED 4000 Education of Exceptional Individuals .....	2
PSY 3660 Educational Psychology for Teachers .....	2
INST 4010 Principles and Practices of Technology for Elementary Teachers.....	3
ELED 3100 Classroom Reading Instruction.....	3

### Spring Semester (18 credits)

ENGL 2010 (CL2) Intermediate Writing: Research Writing in a Persuasive Mode.....	3
Breadth Physical Sciences (BPS) course (major approved) .....	3
Breadth Social Sciences (BSS) course (major approved).....	3

COMD 5620 Teaching School Subjects to Students who are Deaf and Hard of Hearing.....	3

# Department of Communicative Disorders and Deaf Education

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school. Minimum GPA requirements for participation in departmental honors vary by department, but usually fall within the range of 3.30-3.50. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level. The campus-wide Honors Program, which is open to all qualified students regardless of major, offers a rich array of cultural and social activities, special classes, and the benefit of Honors early registration. Interested students should contact the Honors Program, Main 15, (435) 797-2715, [honors@usu.edu](mailto:honors@usu.edu). Additional information can be found online at: <http://www.usu.edu/honors/>

## Additional Information

For more information concerning graduation requirements and course sequencing, see the major requirement sheet, available from the Department of Communicative Disorders and Deaf Education, or online at: <http://www.usu.edu/majorsheets/>. Additional information may also be found at the departmental website: <http://www.cehs.usu.edu/comd/>

Because many of the undergraduate COMD-DE courses are taught in sequence, students should meet with a departmental advisor prior to beginning classes in the COMD-DE major to assure that the most efficient and effective schedule is followed. Students should also confer with a departmental advisor for information about changes in requirements or scheduling.

## Graduate Programs

### Admission Requirements

A bachelor's degree in Communicative Disorders or equivalent requirements must be completed before the student enters the graduate program. (Students already having a bachelor's degree in another area must *either* complete a second bachelor's degree in Communicative Disorders *or* take the undergraduate Communicative Disorders courses as postbachelor's courses.) The time required to complete the master of science degree is determined during the first semester of study by a temporary department committee consisting of professors from the student's direct field of study.

Students seeking the MEd with a specialization in education of the deaf and hard of hearing must have an undergraduate degree in early childhood, elementary, secondary, or special education. Students coming into the master's degree with a degree other than deaf education will need to plan on a two-year MEd program, while those coming directly through the USU curriculum will need to plan on a one-year master's degree program.

In addition to School of Graduate Studies admission requirements, students must demonstrate competency in American Sign Language, in order to be admitted to the education of the deaf and hard of hearing program.

Applications will be considered once a year between March 1 and March 15. However, students must have completed the application process to the School of Graduate Studies by February 15. No application will be considered until all the required information is submitted to the School of Graduate Studies.

## Doctorate of Audiology

The Department of Communicative Disorders and Deaf Education at Utah State University offers a clinical Doctorate of Audiology (AuD). The program provides students with a broad yet in-depth academic and practicum-based curriculum to prepare them for applied audiology in a variety of settings. Graduates have the skills to function at a high level of expertise in such environments as clinics, hospitals, private practice, research laboratories, hearing conservation programs, schools, the military, etc.

The program is a four-year post-baccalaureate residency program, the first of its kind in the Intermountain West and Pacific states. Utah State University is the birthplace of educational audiology. In addition, USU is in the forefront of research in telehealth applications in audiology. The AuD will enable graduates to enter the field at a professional level and begin a rewarding career of service in this evolving allied healthcare discipline.

The program meets the mandate of the American Speech-Language-Hearing Association (ASHA) to have audiology students move from master's-level to doctoral-level training as the entry-level requirement within the profession of audiology. Specifically, the AuD requires three years of coursework, one year of intensive clinical practicum, and a doctoral-level clinically-related project to meet the requirements currently recommended for the AuD by ASHA and the American Academy of Audiology (AAA). Students at USU will participate in didactic and experiential learning in clinical, educational, telehealth, and rehabilitative audiology.

## Course Requirements

### A. Required Courses

All requirements for the undergraduate major in Communicative Disorders and Deaf Education must be taken in addition to the following graduate courses:

COMD 6370 Educational Audiology (F).....	3
COMD 6780 Socio-Cultural Aspects of Deafness (F).....	3
COMD 7200 <sup>1</sup> Introduction to Clinical Practice (F,Sp,Su).....	4
COMD 7300 <sup>1</sup> Intermediate Clinical Practicum (F,Sp,Su).....	4
COMD 7310 Psychoacoustics and Instrumentation (F).....	3
COMD 7320 Amplification I (Sp).....	3
COMD 7340 Pediatric Audiology (F).....	3
COMD 7380 Advanced Audiology (F).....	2
COMD 7400 Advanced Clinical Practicum (F,Sp,Su).....	2
COMD 7410 Noise and Hearing Conservation (F).....	2
COMD 7420 Amplification II (F).....	3
COMD 7430 Electrophysiology (F).....	3
COMD 7460 Adult Aural Rehabilitation (Sp).....	3
COMD 7470 Educational Audiological Management and Audiologic Counseling (Sp).....	3
COMD 7490 Medical Aspects of Audiology (Sp).....	3
COMD 7530 Balance Evaluation and Management (Sp).....	3
COMD 7800 <sup>1</sup> Clinical Externship in Audiology (F,Sp,Su).....	12
COMD 7820 Clinical Research in Audiology (F).....	3
COMD 7850 <sup>1</sup> Externship Seminar (F,Sp,Su).....	6
COMD 7860 Practice Management in Audiology (Sp).....	3
COMD 7870 <sup>1</sup> Audiology Capstone Project (F,Sp,Su).....	12

# Department of Communicative Disorders and Deaf Education

EDUC 6570 Introduction to Educational and Psychological Research (F,Sp,Su).....	3
EDUC 6600 Research Design and Analysis I (F,Sp,Su).....	3

## B. Elective Courses

COMD 6680 SKI*HI Training (F,Sp,Su).....	1-3
SPED 6500 Interdisciplinary Workshop (F,Sp,Su).....	1-3

<sup>1</sup>In order to earn the required number of credits, students must take this course, which is repeatable for credit, during more than one semester.

## Graduate Courses in Audiology

### Year One:

#### Fall Semester

COMD 7200 Introduction to Clinical Practice.....	2
COMD 7310 Psychoacoustics and Instrumentation.....	3
COMD 7380 Advanced Audiology.....	2
COMD 7820 Clinical Research in Audiology.....	3

#### Spring Semester

COMD 5330 Pediatric Aural Rehabilitation (3 cr) or EDUC 6570 Introduction to Educational and Psychological Research (3 cr).....	3
COMD 7200 Introduction to Clinical Practice.....	2
COMD 7320 Amplification I.....	3
COMD 7340 Pediatric Audiology.....	3
COMD 7490 Medical Aspects of Audiology.....	3

#### Summer Semester

EDUC 6570 Introduction to Educational and Psychological Research.....	3
---	---

### Year Two:

#### Fall Semester

COMD 7300 Intermediate Clinical Practicum.....	2
COMD 7420 Amplification II.....	3
COMD 7430 Electrophysiology.....	3
EDUC 6600 Measurement, Design, and Analysis I.....	3

#### Spring Semester

COMD 6370 Educational Audiology.....	3
COMD 7300 Intermediate Clinical Practicum.....	2
COMD 7460 Adult Aural Rehabilitation.....	3
COMD 7530 Balance Evaluation and Management.....	3
COMD 7820 Clinical Research in Audiology.....	3

#### Summer Semester (Optional)

COMD 7300 Intermediate Clinical Practicum.....	2
--	---

## Master's Degrees

Generally, all students will complete the requirements as specified below. In some instances students will have had some of the coursework required in the graduate curriculum as part of the undergraduate training at another institution. In those cases, the program will be individualized to meet national licensure through the American Speech-Language-Hearing Association (ASHA) and state educational licensure from the State of Utah. In no instance will students amass fewer than 36 graduate credits.

At the end of their programs, all graduate students, except for those in education of the deaf and hard of hearing, must take the NTE examination in their area of specialty. This must be done before a letter of completion will be sent to the School of Graduate Studies. Students are required to list USU as a recipient of NTE test scores.

## Speech-Language Pathology

The program in speech-language pathology is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association (ASHA). The Utah State Office of Education has also approved the program. Students completing the master's curriculum are eligible for certification from ASHA and licensure from the State of Utah Board of Education. Additionally, these students will have met the academic and practicum requirements for professional licensure from the State of Utah. Upon graduation, students are prepared for employment in both educational and health care settings, where qualified providers of diagnostic and treatment services for individuals with communicative disorders are needed.

## Course Requirements

### Graduate Courses in Speech-Language Pathology

#### Year One:

##### Fall Semester (15 credits)

COMD 6020 Language Assessment and Intervention for School-age Children and Adolescents.....	3
COMD 6100 Advanced Clinical Practicum in Speech-Language Pathology.....	3
COMD 6130 Neuropathologies of Speech and Language.....	4
COMD 6230 Introduction to Research in Communicative Disorders.....	3
COMD 6850 Seminar in Communicative Disorders and Deaf Education.....	2

##### Spring Semester (15 credits)

COMD 6100 Advanced Clinical Practicum in Speech-Language Pathology.....	3
COMD 6120 Adult Disorders of Motor Speech and Swallowing.....	4
COMD 6140 Pediatric Neurogenic Disorders.....	3
COMD 6150 Phonological Assessments and Intervention.....	3
COMD 6850 Seminar in Communicative Disorders and Deaf Education: School/Professional Program.....	2

##### Summer Semester (9-12 credits)

COMD 6220 Severe Communication Impairments.....	3
COMD 6300 Externship in Speech-Language Pathology.....	6-9

#### Year Two:

##### Fall Semester (14-15 credits)

COMD 6030 Disorders of Fluency—Stuttering.....	3
COMD 6040 Communication Disorders Related to Orofacial Anomalies.....	3
COMD 6200 Internship in Public Schools—Speech-Language Pathology.....	4-5
COMD 6810 Disorders of Phonation.....	3
COMD 6850 Seminar in Communicative Disorders and Deaf Education.....	1

##### Spring Semester (15 credits)

COMD 6300 Externship in Speech-Language Pathology.....	9-12
COMD 6900 Independent Study.....	1-9
COMD 6970 Thesis.....	1-7

# Department of Communicative Disorders and Deaf Education

## Education of the Deaf and Hard of Hearing

### Deaf Education—Teacher Preparation Track

The program in Education of the Deaf and Hard of Hearing is accredited by the Council on Education of the Deaf (CED) and is also approved by the Utah State Office of Education. Students completing this program may be licensed by the Utah State Board of Education as teachers of the deaf and hard of hearing and they also meet the requirements for licensure by CED. Students who complete the curriculum are prepared to provide services as teachers of the deaf and hard of hearing in any setting in which such services are provided.

The following courses or their equivalent are required for all students seeking the MEd in education of the deaf and hard of hearing:

<b>COMD 2500</b> Language, Speech, and Hearing Development (F,Sp).....	3
<b>COMD 2910 (CI)</b> Sign Language I (Majors) (F,Sp,Su).....	4
<b>COMD 3050</b> Practicum and Methods in Teaching Children who are Deaf and Hard of Hearing (F,Sp).....	1-3
<b>COMD 3080</b> American Sign Language Practicum (F,Sp).....	1
<b>COMD 3910</b> Sign Language II (F,Sp,Su).....	4
<b>COMD 4630</b> Teaching Speech to Deaf and Hard of Hearing Children (Sp).....	3
<b>COMD 4750</b> Teaching the English Language to Individuals who are Deaf and Hard of Hearing (F).....	3
<b>COMD 4760</b> Early Intervention for Children who are Deaf and Hard of Hearing (F).....	3
<b>COMD 4770</b> Audiology and Teachers of Children who are Deaf and Hard of Hearing (F).....	3
<b>COMD 4780</b> Socio-Cultural Aspects of Deafness (F).....	3
<b>COMD 4790</b> Psychological Principles and Individuals who are Deaf and Hard of Hearing (Sp).....	3
<b>COMD 4910 (CI)</b> Sign Language III (F,Sp).....	4
<b>COMD 4920</b> Sign Language IV (Sp).....	4
<b>COMD 5610</b> Introduction to Education of the Deaf and Hard of Hearing (F).....	3
<b>COMD 5620</b> Teaching School Subjects to Students who are Deaf and Hard of Hearing (Sp).....	3
<b>COMD 6430</b> Speech Communication and Hearing Loss (F).....	3
<b>COMD 6640</b> Strategies for Teaching Children who are Deaf and Hard of Hearing (F).....	3
<b>COMD 6650</b> Strategies for Teaching English Language to Children who are Deaf and Hard of Hearing (F).....	3
<b>COMD 6700</b> Practicum in Education of Children who are Deaf and Hard of Hearing (F,Sp,Su).....	1-3
<b>COMD 6800</b> Student Teaching—Day-School Program (F).....	6-12
<b>COMD 6820</b> Principles of Intervention for Children who are Deaf and Hard of Hearing (Sp).....	3
<b>COMD 6830</b> Student Teaching—Residential (Sp).....	6-12
<b>COMD 6850</b> Seminar in Communicative Disorders and Deaf Education (F,Sp,Su).....	1-3

### Deaf Education—Early Intervention Track

This early intervention program is for students wishing to work with families having deaf children who are between birth and 3 years of age. Students must have completed the necessary background in Early Childhood and Family, Consumer, and Human Development.

<b>COMD 3910</b> Sign Language II (F,Sp,Su).....	4
<b>COMD 4910 (CI)</b> Sign Language III (F,Sp).....	4
<b>COMD 5610</b> Introduction to Education of the Deaf and Hard of Hearing (F).....	3
<b>COMD 6630</b> Teaching Speech to Deaf and Hard of Hearing Children (Sp).....	3

<b>COMD 6700</b> Practicum in Education of Children who are Deaf and Hard of Hearing (F,Sp,Su).....	3
<b>COMD 6760</b> Early Intervention for Children who are Deaf and Hard of Hearing (F).....	3
<b>COMD 6770</b> Audiology and Teachers of Children who are Deaf and Hard of Hearing (F) (3 cr) <b>or</b>	
<b>COMD 7340</b> Pediatric Audiology (instructor's permission required) (F) (2-3 cr).....	2 or 3
<b>COMD 6780</b> Socio-Cultural Aspects of Deafness (F).....	3
<b>COMD 6960</b> Master's Project (F,Sp,Su).....	4
<b>SPED 5060</b> Consulting with Parents and Teachers (instructor's permission required) (Sp).....	3
<b>SPED 5710</b> Young Children with Disabilities: Characteristics and Services (taught online; register through Regional Campuses and Distance Education).....	3
<b>SPED 5730</b> Intervention Strategies for Young Children with Disabilities (instructor's permission required) (F).....	3

In order to earn the MEd from the Education of the Deaf and Hard of Hearing program, the student must (1) pass a sign language competency examination, (2) complete a creative project, or (3) pass a comprehensive written and oral examination. The candidate must also demonstrate the ability to teach children who are deaf and/or hard of hearing in a variety of settings.

## Educational Specialist Degree

The department offers an Educational Specialist (EdS) program that can be individualized to suit a candidate's need within a basic structure of educational audiology or speech-language pathology and with foci on research, supervision, and evaluation. The program is designed for those individuals who have completed the master's degree and who are practicing in educational settings. The degree requires a minimum of 30 credits beyond the master's degree and may be completed in part through coursework in the summer and extension study and research in conjunction with the individual's workplace.

## Auditory Learning and Spoken Language for Children with Hearing Loss

### Program Rationale

Today, with universal newborn hearing screening, early diagnosis, fitting of advanced hearing technology (such as digital hearing aids and cochlear implants), and enrollment in early intervention and preschool programs, children with hearing loss have more opportunities than ever before to use audition to develop spoken language. Rapid progress in these areas has created a critical shortage of appropriately trained professionals who can meet the unique communicative and learning needs of children with permanent hearing loss and their families.

The Department of Communicative Disorders and Deaf Education at Utah State University, recognizing the opportunity to provide in-depth training to graduate students in Audiology, Speech-Language Pathology, and Deaf Education, has developed an innovative training program for these graduate programs. In addition to the standard coursework and requirements for a master's degree (MS) in Speech-Language Pathology or a Doctor of Audiology (AuD) degree, students can take additional courses and complete specialized practica and field-study experiences to develop specific knowledge and skills in the practice of pediatric audiology, auditory-verbal therapy, and auditory-oral education for children with hearing loss, aged birth through six, and their families.

# Department of Communicative Disorders and Deaf Education

Students who have completed a composite bachelor's degree in Special Education/Early Childhood Education can receive a master's degree in Special Education with an emphasis in auditory learning and spoken language. This specialized training program for educators is a joint effort between the Department of Communicative Disorders and Deaf Education and the Department of Special Education and Rehabilitation.

**Sound Beginnings of Cache Valley**, a newly established early intervention program and preschool, serves as the primary training site for graduate students and provides a range of practicum placements and experiences, such as audiology diagnostics, auditory-verbal therapy sessions, speech-language therapy, parent-infant intervention, toddler group intervention, and auditory-oral education within the preschool. Further information, can be found at:  
<http://www.soundbeginnings.usu.edu/>

The program is built on a strong foundation of interdisciplinary service provision to young children with hearing loss and their families. Therefore, regardless of their major, students enrolled take courses together and are often assigned as teams in practica settings and field study projects. Best practices and guiding principles in family-centered intervention, early childhood education, deaf education, speech-language pathology, and audiology are incorporated throughout the program.

## Practicum and Externship Experiences

All students completing the program will be placed at local and in-state facilities, such as Sound Beginnings of Cache Valley and Primary Children's Cochlear Implant Center, as well as at innovative, nationally recognized programs or schools serving children with hearing loss who are acquiring spoken language, such as:

1. Auditory Oral School of New York (Brooklyn, New York)
2. CASTLE Program (University of North Carolina at Chapel Hill)
3. CREC Soundbridge (Wethersfield, Connecticut)
4. Jean Weingarten Oral Peninsula School for the Deaf (San Francisco, California)
5. Listen and Talk (Seattle, Washington)
6. Tucker-Maxon Oral School for the Deaf (Portland, Oregon)
7. Saticoy Elementary School (Los Angeles, California)
8. Hearts for Hearing Foundation (Oklahoma City, Oklahoma)
9. The Moog Center for Deaf Children (St. Louis, Missouri)

## Creating Additional Professional Opportunities

Due to the ongoing changes within the field of deafness and the fact that approximately 95 percent of parents having children with hearing loss are hearing themselves, parents are increasingly seeking spoken language communication options and intervention programs that will allow their young children with hearing loss to learn to listen and talk. By completing an emphasis in Auditory Learning and Spoken Language, students receiving graduate degrees in Speech-Language Pathology or Audiology will be qualified to work in a variety of settings serving young children with hearing loss and their families, including but not limited to:

1. Cochlear Implant Programs and Teams
2. Community Speech-Language-Hearing Centers
3. Family-Centered Intervention Programs
4. Educational Programs for Children with Hearing Loss

5. Home Health Organizations
6. Hospitals
7. Private Practice
8. Public and/or Private Schools
9. State and Federal Agencies

## Funding for Students

Through generous funding from private foundations, federal and state grants, and University resources, graduate students accepted into the program are eligible for scholarships that include tuition and a monthly stipend. Students will be asked to sign a "payback agreement" stipulating that after graduation they will work in settings serving children with hearing loss and their families. They will be required to work in the field one year for each year of funding (e.g., two years of funding requires two years of work), and the graduate must begin this commitment within five years of graduation.

## Required Courses

<b>COMD 6320</b> Language Learning and Literacy Acquisition in Children with Hearing Loss (Su) .....	3
<b>COMD 6340</b> Auditory Learning and Spoken Language for Young Children with Hearing Loss (F,Sp,Su) .....	3
<b>COMD 6630</b> Teaching Speech to Deaf and Hard of Hearing Children (Sp).....	3
<b>COMD 6700</b> Practicum in Education of Children who are Deaf and Hard of Hearing (F,Sp,Su) .....	3
<b>COMD 6850</b> Seminar: Auditory Learning and Spoken Language (F,Sp,Su) .....	1
<b>COMD 6900</b> Independent Study: Family-Centered Practices for Children with Hearing Loss (F,Sp,Su) .....	3
<b>COMD 6900</b> Independent Study: Multiple Disabilities and Hearing Loss in Children (F,Sp,Su) .....	3
<b>COMD 6900</b> Independent Study: Cochlear Implantation (F,Sp,Su).....	2
<b>COMD 6950</b> Practicum in Early Intervention: Externship in Auditory Learning and Spoken Language (F,Sp) .....	1-6
<b>COMD 7340</b> Pediatric Audiology (F,Sp,Su).....	2

## Clinical Assignments/Practicum

Students are expected to complete approximately 10 hours of practicum-related experience per week. This estimate will fluctuate slightly based on the number of children enrolled in Sound Beginnings. During Fall Semester 2008, students averaged 6.5 hours of direct contact time, and another two hours each week were used for planning the sessions.

For more information about the Graduate Studies Program in Auditory Learning and Spoken Language, contact Dr. Todd Houston, Director, at [todd.houston@usu.edu](mailto:todd.houston@usu.edu) or at (435) 797-0434.

## Communicative Disorders and Deaf Education Research Requirements

Several options are available for graduate students to complete the research or special project required for the MS or MEd. These options are specified in the list of requirements available in the department office, and include for the MS the traditional Plan A experimental thesis option, as well as the Plan B integrative review option or creative project option. Declaration of an option must be made at the time the student files an Application for Candidacy form with the School of Graduate Studies. Changes in the option will necessitate a complete revision and review of the Application for Candidacy by the student's supervisory committee.

# Department of Communicative Disorders and Deaf Education

## Licensure

Each undergraduate and graduate student is advised on which classes will meet Utah State Office of Education and American Speech-Language-Hearing Association licensure requirements, as well as Utah State Professional Licensure requirements. State Office of Education licensure credentials within Utah include approval for audiology, speech-language pathology, and education of the deaf and hard of hearing. Graduation from any of these graduate programs ensures the student may be licensed in Utah. Such licensure facilitates meeting other requirements for other states, because of reciprocal agreements that exist among some state educational agencies throughout the country.

## Practicum Opportunities

Practicum experience at the graduate level is available in a variety of settings. The department maintains a Speech-Language-Hearing Center offering a full range of diagnostic and remedial services to individuals with speech-language or hearing disabilities. Additionally, students are assigned to off-campus practicum sites such as hospitals, schools for the deaf, long-term and rehabilitation care centers, clinics, physician's offices, and public schools. Placement in out-of-state practicum sites is available for those students who request it. Students may also be placed at the Center for Persons with Disabilities for experience in birth to age three services. **Students must be enrolled in clinical practicum each semester of their graduate program.**

## Financial Assistance

Limited departmental and federal grant support is available to graduate students and is awarded on a competitive basis. The application form for financial support must be submitted to the department no later than March 1 for consideration for the coming year.

## Career Opportunities

Audiology graduates are prepared to work as clinical, educational, and rehabilitative audiologists. Speech-Language-Pathology graduates are prepared to work in a variety of medical, rehabilitation, and educational settings. Graduates in the area of Education of the Deaf are trained to work in total communication, bilingual/bicultural, and auditory-aural settings.

## Additional Information

Specific details about each of the foregoing degree programs are outlined in policy and procedure documents available through the department. All requirements are subject to change; check with the department for current requirements. Additional information may be obtained by contacting the Department of Communicative Disorders and Deaf Education.

## Communicative Disorders and Deaf Education Faculty

### Trustee Professor

*Carol J. Strong*, Dean, Emma Eccles Jones College of Education and Human Services; language development, language assessment and intervention, language disorders in school-age students, research methodology in communicative disorders, narrative assessment and literature-based language intervention

### Lillywhite Endowed Chair and Professor

*Ron Gillam*, language development, language assessment and intervention, narrative development, memory, phonological representation

### Professors

*James C. Blair*, educational audiology, education of the deaf and hard of hearing

*J. Freeman King*, American Sign Language, linguistics, teacher preparation

### Adjunct Clinical Professors

*Jeffrey Bennion*, MD, otolaryngologist

*James Blotter*, MD, otolaryngologist

*Jeffrey Keyser*, MD, otolaryngologist

*Bryan R. Larsen*, MD, gastroenterologist

*Gordon S. Wood*, MD, otolaryngologist

### Associate Professors

*Kim Corbin-Lewis*, diagnosis and management of voice disorders, laryngeal imaging, speech science, disorders of motor speech, dysphagia, anatomy and physiology of speech and swallow

*Beth E. Foley*, neuropathologies of speech and language, augmentative/alternative communication, language and literacy

*Sandi Gillam*, language assessment and intervention, evidence-based practice, text comprehension, memory, language difference, phonology

*Sonia S. Manuel-Dupont*, nondiscriminatory educational assessment of non-English-language background children, Native American language assessment, emergent literacy, ethnic literacy, developmental phonology, syntax, professional and scientific discourse analysis

*John E. Ribera*, medical audiology, amplification, hearing science, telemedicine, hearing conservation, balance studies

### Adjunct Associate Professor

*Douglas W. Laws*, clinical audiology

### Assistant Professors

*Debbie Golos*, bilingual-bicultural deaf education, emergent literacy, ASL development, educational television, children's media

*K. Todd Houston*, spoken language acquisition in children with hearing loss, habilitation after cochlear implantation, early intervention, speech and hearing sciences, family-centered practices, adult aural rehabilitation

*Jeffery Larsen*, classroom acoustics, speech perception

*Jaclyn Littledike*, orofacial anomalies, professional practice issues, and clinical supervision

*Karen Muñoz*, pediatric audiology, amplification, clinical audiology

*Lauri Nelson*, early childhood spoken language, academic achievement in young children with cochlear implants and hearing aids

*Susan Watkins*, early intervention programs, sensory impaired infants and toddlers

*Julie Wolter*, school-age language, literacy

### Clinical Assistant Professors

*Cache Pitt*, cochlear implants, pediatric audiology, clinical supervision

*Vicki Simonsmeier*, pediatric neurogenic disorders, oral-motor dysphagia, early intervention programs, audiology, auditory processing, clinical supervision

### Clinical Instructors

*Jill R. Andrus*, assistive technology, augmentative communication, child articulation and language disorders, clinical supervision

*Natalie Austin*, early intervention in deaf education

# Department of Communicative Disorders and Deaf Education

---

*Chad Bingham*, pediatric brain injury, limited English proficiency, augmentative/assistive technology, clinical supervision  
*Dee R. Child*, distance education, disorders of phonation  
*Anne Elsweller*, fluency, preschool language and articulation, clinical supervision  
*Kathryn S. Gantz*, speech-language pathology  
*Heather Jo Jensen*, clinical supervision, amplification, medical audiology  
*Jan Kelley-King*, American Sign Language, deaf education  
*Amy Porter*, clinical supervision, pediatric/adult diagnostics and amplification, balance assessment

## Lecturer

*Curt Radford*, American sign language, bilingual/bicultural education, teacher preparation

Myra Cook, Main 424, (435) 797-8019, [myra.cook@usu.edu](mailto:myra.cook@usu.edu)

**Degrees offered:** Bachelor of Science (BS), Bachelor of Arts (BA), Master of Science (MS), and Doctor of Philosophy (PhD) in Computer Science; Master of Computer Science (MCS)

**Undergraduate emphases:** BS, BA—Science, Digital Systems, Software Development, Bioinformatics, Information Technology

**Graduate specializations:** MS—Artificial Intelligence, Information Systems, Parallel Systems, Software Engineering

**Accreditation:** The Computer Science undergraduate program (Science, Digital Systems, Bioinformatics, and Software Development emphases) is accredited by the Computing Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012; telephone (410) 347-7700.

## **Undergraduate Programs**

### **Objectives**

The core objective of the department is to fulfill its mission, as defined in its mission statement. A detailed description of all department objectives is given under the department's website:

<http://www.cs.usu.edu/>. The outcome objectives for undergraduates are as follows.

### **Learning Objectives: Undergraduate Outcomes**

All students graduating with a bachelor's degree in Computer Science from Utah State University will be expected to show mastery in the following.

1. Graduates will be proficient in programming in at least two programming languages that have significance in industry.
2. Graduates will master the core curriculum in:
  - a. Data Structures and Algorithms
  - b. Computer Architecture and Organization
  - c. Programming Languages
  - d. Operating Systems
  - e. Software Engineering
3. Graduates will understand the practices and dynamics required to develop software, whether it be a single program or a major software product developed in a team environment.
4. Graduates will gain proficiency in the use of mathematical tools, including calculus, elementary statistics, and probability.
5. Graduates will have sufficient mastery of fundamental knowledge to be lifelong learners in computer science.

6. Graduates will understand the social and ethical issues that face computer scientists, and thus be able to contribute in a positive and productive manner to society.
7. Graduates will be able to communicate information effectively, both in writing and orally.

The course of study offered by the Department of Computer Science is directed primarily toward developing the problem-solving skills of its students. This, in conjunction with the understanding of computers and computer systems provided by coursework, will enable a graduate of the program to apply his or her knowledge to finding solutions to problems that arise in the science, business, industry, government, and education sectors.

Students who have the ability to think analytically and creatively will find a challenging and exciting future in computer science.

Opportunities for practical applications of computer science skills are available with members of the computer science faculty who are engaged in research and consultation work both on and off campus.

### **Assessment**

The Computer Science Department has an ongoing assessment process that it highly values. Faculty members devote much of their time and resources to frequent assessment of the level or degree to which stated objectives are being met, the objectives themselves, and the departmental mission statement. The department then uses these results to establish priorities and guide the program. For further information, go to <http://www.cs.usu.edu/>, and click on **assessment**.

### **Computer Science**

Computer Science deals with information structures and processes as they are represented and implemented in modern high-speed digital computers, and with information processing systems designed to implement useful applications of computing.

The program in computer science attempts to provide a solid foundation of knowledge about computers and to teach a mode of thinking that will permit continuing growth on the part of graduates. Prospective students should have an aptitude for mathematics and logic and an interest in analysis and deduction.

Computer science is one of the fastest growing fields of study in our society. Excellent employment opportunities are available to computer science graduates. All of the major corporations hire computer science graduates. Graduates in Computer Science work for numerous Utah-based corporations, as well as Microsoft, IBM, Hewlett-Packard, etc.

The Computer Science bachelor's degree is a four-year degree with areas of emphasis in Science, Digital Systems, Software Development, Bioinformatics, and Information Technology. In addition, by working with a departmental advisor, students may develop a plan of study tailored to their own unique career objectives.

### **Science Emphasis**

The Science Emphasis (SC) is designed for those who plan to pursue scientific or technical careers, research, or graduate education in computer science. Students choosing the science emphasis will take courses in programming languages, advanced algorithms, and math courses in calculus, linear analysis, and multi-variable calculus. Additional courses include a variety of upper-division computer science courses, chosen in consultation with an advisor. This emphasis might be termed the "typical" computer science degree.

# Department of Computer Science

## Digital Systems Emphasis

The Digital Systems Emphasis is available for those interested in both the hardware and software aspects of computer systems. In addition to computer science and mathematics courses, students in this emphasis will take electrical engineering courses in electronics, circuits, digital fundamentals, microcomputer systems, and digital system design. The curriculum for students in this emphasis is similar to that for students in the computer engineering major in the Electrical and Computer Engineering Department.

## Bioinformatics Emphasis

The Bioinformatics Emphasis is designed for students who wish to pursue careers in the computer science aspects of bioinformatics. Students in this emphasis gain a strong background in core computer science areas, such as programming, theory of computing, and software development. In addition, they follow a course of study in biology, chemistry, and statistics. Through this background and course of study, students are provided with the computational skills and the scientific understanding necessary for work in bioinformatics.

## Software Development Emphasis

The Software Development Emphasis (SD) is designed to give students expertise in all major areas of software engineering, including project management, development processes, group work, requirement capture and analysis, software design, programming, testing, standards, and documentation. Students completing this option are prepared to create sophisticated, reliable, and secure software for a broad range of applications. Students in this option take courses in computer science emphasizing software development processes, conceptual modeling, database design, testing, and security, along with broadening courses in operations research, statistics, and management.

## Information Technology Emphasis

The Information Technology Emphasis trains students in all phases of analysis, design, and implementation of information technology. It also gives students expertise in the theory and application of information technology. At the same time, this emphasis provides students with a strong background in business principles, including accounting, finance, marketing, and human resource management. Students in the Information Technology emphasis are prepared for careers that straddle information technology and business, in both the private and public sectors. Students are trained in all phases of the analysis, design, and implementation of information systems. They also gain an understanding of business fundamentals. Thus, students are prepared to apply their computing expertise in a business environment.

## Undergraduate Research

The Computer Science Department provides opportunities for undergraduates to participate in research projects. Additionally, a student may register for CS 4950 (Undergraduate Research, 1-4 credits) to receive credit for their research. To learn about research opportunities, students should contact Computer Science faculty members. Students may work on a project of their own under faculty supervision, or they may do research as part of a faculty member's research team. For further information, contact Dan Watson, the department's coordinator of undergraduate research, at (435) 797-2440 or dan.watson@usu.edu.

## Department and General College of Science Requirements

To fulfill the University Studies requirements, majors in computer science must complete a total of at least 30 semester credits in writing, languages, humanities, arts, and/or social sciences. Courses taken to meet the University Studies requirements, if applicable, may also be counted to meet this departmental requirement. Students must work closely with their advisor to meet both these requirements.

## Bachelor of Science Core Requirements

Students working toward the Bachelor of Science degree in Computer Science must complete the following:

1. One year of calculus, including MATH 1210 and 1220. *Students in the Information Technology Emphasis may substitute MATH 1100.*
2. MATH 3310 (Discrete Mathematics). *Not required for students in the Information Technology Emphasis.*
3. One of the following year-long science sequences: (1) BIOL 1610, 1620 (required for Bioinformatics Emphasis); (2) CHEM 1210, 1215, 1220, 1225; (3) PHYS 2210, 2220 (required for Digital Systems Emphasis); (4) PHYS 2110, 2120 (available for Information Technology Emphasis only); or (5) GEO 1110, 3200. The sequence chosen must be outside the student's department.

Except for students enrolled in the Information Technology Emphasis, all Computer Science majors must complete at least 11 advisor-approved science credits. The year-long science sequence is included in these 11 credits.

## Requirements

### Summary of Departmental Admission and Retention Requirements

Admission requirements of the Department of Computer Science for freshmen are the same as those described for the University on pages 30-35. Transfer students with a 2.0 GPA may apply for admission to the department.

Before a student can register for a Computer Science course, he or she must earn a grade of C- or better in all prerequisite courses. All required classes for the major must be completed with a grade of C- or better. Required courses, regardless of department, may not be taken pass-fail, and a Computer Science major must have advanced standing or written permission to register for Computer Science courses or Electrical and Computer Engineering courses at the 3000-level or above.

In addition to completing the required courses listed below, students must comply with the following regulations, in order to graduate with a bachelor's degree in Computer Science.

1. Students must maintain a minimum cumulative GPA of 2.0. The cumulative GPA will be computed using all USU credits, as well as transfer credits (if those transfer credits are applied to any USU requirements, including major requirements).
2. Students must attain a minimum grade of C- in all courses fulfilling Computer Science major requirements.

# Department of Computer Science

3. Students may have *no more than one* 5000-level Computer Science course with a grade less than C- on their transcript.

## Courses Required for Advanced Standing

Students must achieve a minimum cumulative GPA of 2.0 and a minimum GPA of 2.0 (or grade of C- or better) among courses in one of the following core emphasis course sequences, or their equivalent, as determined by the Computer Science Department:

### Science Emphasis

<b>CS 1400</b> Introduction to Computer Science—CS 1 (F,Sp,Su).....	3
<b>CS 1405</b> Introduction to Computer Science—CS 1 Lab (F,Sp,Su).....	1
<b>CS 1410 (QI)</b> Introduction to Computer Science—CS 2 (F,Sp,Su).....	3
<b>CS 2420 (QI)</b> Algorithms and Data Structures—CS 3 (F,Sp,Su).....	3
<b>CS 2450 (CI)</b> Introduction to Software Engineering I (Sp).....	3
<b>CS 2810</b> Computer Systems Organization and Architecture I (F,Sp)....	3
<b>CS 3000</b> Undergraduate Seminar (F,Sp).....	1
<b>MATH 1210 (QL)</b> Calculus I (F,Sp,Su).....	4
<b>MATH 1220 (QL)</b> Calculus II (F,Sp,Su).....	4
<b>MATH 3310</b> Discrete Mathematics (F,Sp,Su).....	3

### Digital Systems Emphasis

<b>CS 1400</b> Introduction to Computer Science—CS 1 (F,Sp,Su).....	3
<b>CS 1405</b> Introduction to Computer Science—CS 1 Lab (F,Sp,Su).....	1
<b>CS 1410 (QI)</b> Introduction to Computer Science—CS 2 (F,Sp,Su).....	3
<b>CS 2420 (QI)</b> Algorithms and Data Structures—CS 3 (F,Sp,Su).....	3
<b>CS 2450 (CI)</b> Introduction to Software Engineering I (Sp).....	3
<b>CS 3000</b> Undergraduate Seminar (F,Sp).....	1
<b>ECE 2700</b> Digital Circuits (F,Sp).....	4
<b>MATH 1210 (QL)</b> Calculus I (F,Sp,Su).....	4
<b>MATH 1220 (QL)</b> Calculus II (F,Sp,Su).....	4
<b>MATH 3310</b> Discrete Mathematics (F,Sp,Su).....	3

### Software Development Emphasis

<b>CS 1400</b> Introduction to Computer Science—CS 1 (F,Sp,Su).....	3
<b>CS 1405</b> Introduction to Computer Science—CS 1 Lab (F,Sp,Su).....	1
<b>CS 1410 (QI)</b> Introduction to Computer Science—CS 2 (F,Sp,Su).....	3
<b>CS 2420 (QI)</b> Algorithms and Data Structures—CS 3 (F,Sp,Su).....	3
<b>CS 2450 (CI)</b> Introduction to Software Engineering I (Sp).....	3
<b>CS 2810</b> Computer Systems Organization and Architecture I (F,Sp)....	3
<b>CS 3000</b> Undergraduate Seminar (F,Sp).....	1
<b>MATH 1210 (QL)</b> Calculus I (F,Sp,Su).....	4
<b>MATH 1220 (QL)</b> Calculus II (F,Sp,Su).....	4
<b>MATH 3310</b> Discrete Mathematics (F,Sp,Su).....	3

### Bioinformatics Emphasis

<b>CS 1400</b> Introduction to Computer Science—CS 1 (F,Sp,Su).....	3
<b>CS 1405</b> Introduction to Computer Science—CS 1 Lab (F,Sp,Su).....	1
<b>CS 1410 (QI)</b> Introduction to Computer Science—CS 2 (F,Sp,Su).....	3
<b>CS 2420 (QI)</b> Algorithms and Data Structures—CS 3 (F,Sp,Su).....	3
<b>CS 2450 (CI)</b> Introduction to Software Engineering I (Sp).....	3
<b>CS 2810</b> Computer Systems Organization and Architecture I (F,Sp)....	3
<b>CS 3000</b> Undergraduate Seminar (F,Sp).....	1
<b>MATH 1210 (QL)</b> Calculus I (F,Sp,Su).....	4
<b>MATH 1220 (QL)</b> Calculus II (F,Sp,Su).....	4
<b>MATH 3310</b> Discrete Mathematics (F,Sp,Su).....	3

### Information Technology Emphasis

<b>CS 1030 (BPS)</b> Foundations of Computer Science (F,Sp,Su).....	3
<b>CS 1400</b> Introduction to Computer Science—CS 1 (F,Sp,Su).....	3
<b>CS 1405</b> Introduction to Computer Science—CS 1 Lab (F,Sp,Su).....	1
<b>CS 1410 (QI)</b> Introduction to Computer Science—CS 2 (F,Sp,Su).....	3
<b>CS 2420 (QI)</b> Algorithms and Data Structures—CS 3 (F,Sp,Su).....	3
<b>CS 2450 (CI)</b> Introduction to Software Engineering I (Sp).....	3
<b>CS 2810</b> Computer Systems Organization and Architecture I (F,Sp)....	3
<b>CS 3000</b> Undergraduate Seminar (F,Sp).....	1
<b>MATH 1100 (QL)</b> Calculus Techniques (F,Sp,Su).....	3

For a more complete statement of requirements, please contact the department directly. Requirements may change from time to time.

## Bachelor of Science Degree

The department offers a degree program with emphases in Science, Digital Systems, Software Development, Bioinformatics, and Information Technology. The objectives are to train computer scientists who can relate to science, computer design, or information-based business disciplines. Other areas of emphasis will be considered on an individual basis.

### First Semester Schedule (15 credits)

Depending upon emphasis, a new student's first semester schedule is configured from the following:

<b>CS 1400</b> Introduction to Computer Science—CS 1.....	3
<b>CS 1405</b> Introduction to Computer Science—CS 1 Lab.....	1
<b>MATH 1210 (QL)</b> Calculus I ( <i>for Science, IS, DS, or BI Emphasis</i> ) (4 cr) or	
<b>MATH 1100 (QL)</b> Calculus Techniques ( <i>for IT Emphasis</i> ) (3 cr) ....	3 or 4
University Studies courses .....	7-8

## COMPUTER SCIENCE REQUIRED COURSES

### Science Emphasis

In addition to the Department and General College of Science Requirements stated above, students in the science emphasis must complete the following courses:

<b>CS 1400</b> Introduction to Computer Science—CS 1 (F,Sp,Su).....	3
<b>CS 1405</b> Introduction to Computer Science—CS 1 Lab (F,Sp,Su).....	1
<b>CS 1410 (QI)</b> Introduction to Computer Science—CS 2 (F,Sp,Su).....	3
<b>CS 2420 (QI)</b> Algorithms and Data Structures—CS 3 (F,Sp,Su).....	3
<b>CS 2450 (CI)</b> Introduction to Software Engineering I (Sp).....	3
<b>CS 2810</b> Computer Systems Organization and Architecture I (F,Sp)....	3
<b>CS 3000</b> Undergraduate Seminar (F,Sp).....	1
<b>CS 3100</b> Operating Systems and Concurrency (F,Sp).....	3
<b>CS 3410 (QI)</b> Computational Science: JAVA/Internet (F,Sp,Su) (3 cr) or	
<b>CS 3420 (QI)</b> Computational Science: C# and .NET (F,Sp,Su) (3 cr) or	
<b>CS 3430 (QI)</b> Computational Science: Python and Perl Programming (Sp,Su) (3 cr) .....	3
<b>CS 3450</b> Introduction to Software Engineering II (F).....	3
<b>CS 3810</b> Computer Systems Organization and Architecture II (F,Sp)....	3
<b>CS 4700</b> Programming Languages (F,Sp).....	3
<b>CS 5050</b> Advanced Algorithms (F,Sp).....	3
<b>CS 5070</b> Computer Science Capstone (F,Sp,Su).....	1
<b>MATH 1210 (QL)</b> Calculus I (F,Sp,Su).....	4
<b>MATH 1220 (QL)</b> Calculus II (F,Sp,Su).....	4
<b>MATH 2210 (QI)</b> Multivariable Calculus (F,Sp,Su).....	3
<b>MATH 2250 (QI)</b> Linear Algebra and Differential Equations (F,Sp,Su) .....	4
Or (MATH 2250; or MATH 2270 and 2280)	
<b>MATH 2270 (QI)</b> Linear Algebra (3 cr) and	
<b>MATH 2280 (QI)</b> Ordinary Differential Equations (3 cr).....	6
<b>MATH 3310</b> Discrete Mathematics (F,Sp,Su).....	3
<b>MATH 5610</b> Computational Linear Algebra and Solution of Systems of Equations (F) (3 cr) or	
Advisor-approved elective course (3 cr).....	3
<b>PHIL 1120 (BHU)</b> Social Ethics (F) (3 cr) or	
<b>PHIL 2400 (BHU)</b> Ethics (Sp) (3 cr) or	
<b>PHIL 3520 (DHA)</b> Business Ethics (Sp) (3 cr) or	
<b>PHIL 4530 (DSC)</b> Ethics and Biotechnology (Sp) (3 cr) or	
<b>PHIL 4540 (DHA)</b> Human Values and Information Technology (Sp) (3 cr) .....	3
<b>SPCH 1020 (CI)</b> Public Speaking (F,Sp) (3 cr) or	
<b>ENGL 3080 (CI)</b> Introduction to Technical Communication (F, Sp) (3 cr) .....	3

# Department of Computer Science

**STAT 3000 (QI)** Statistics for Scientists (F,Sp,Su) (3 cr) **or**  
**MATH 5710** Introduction to Probability (F,Sp) (3 cr) ..... 3  
 Advisor-approved computer science classes numbered 5000  
 or above ..... 10  
 In addition, students must complete 3 credits at the 3000 level or  
 higher, appropriate to the degree.

## Digital Systems Emphasis

In addition to the Department and General College of Science  
 Requirements stated above, students in the digital systems emphasis  
 must complete the following courses:

<b>CS 1400</b> Introduction to Computer Science—CS 1 (F,Sp,Su).....	3
<b>CS 1405</b> Introduction to Computer Science—CS 1 Lab (F,Sp,Su).....	3
<b>CS 1410 (QI)</b> Introduction to Computer Science—CS 2 (F,Sp,Su).....	3
<b>CS 2420 (QI)</b> Algorithms and Data Structures—CS 3 (F,Sp,Su).....	3
<b>CS 2450 (CI)</b> Introduction to Software Engineering I (Sp).....	3
<b>CS 3000</b> Undergraduate Seminar (F,Sp).....	1
<b>CS 3100</b> Operating Systems and Concurrency (F,Sp).....	3
<b>CS 3410 (QI)</b> Computational Science: JAVA/Internet (F,Sp,Su) (3 cr) <b>or</b>	3
<b>CS 3420 (QI)</b> Computational Science: C# and .NET (F,Sp,Su) (3 cr) <b>or</b>	3
<b>CS 3430 (QI)</b> Computational Science: Python and Perl	
Programming (Sp,Su) (3 cr) .....	3
<b>CS 3450</b> Introduction to Software Engineering II (F).....	3
<b>CS 4700</b> Programming Languages (F,Sp).....	3
<b>CS 5050</b> Advanced Algorithms (F,Sp).....	3
<b>CS 5070</b> Computer Science Capstone (F,Sp,Su).....	1
<b>ECE 2250</b> Electrical Circuits (F,Sp).....	4
<b>ECE 2700</b> Digital Circuits (F,Sp).....	4
<b>ECE 3710</b> Microcomputer Hardware and Software (F,Sp).....	4
<b>ECE 3720</b> Microcomputer Systems Programming (Sp).....	3
<b>MATH 1210 (QL)</b> Calculus I (F,Sp,Su).....	4
<b>MATH 1220 (QL)</b> Calculus II (F,Sp,Su).....	4
<b>MATH 2250 (QI)</b> Linear Algebra and Differential Equations (F,Sp,Su).....	4
Or (MATH 2250; or MATH 2270 and 2280)	
<b>MATH 2270 (QI)</b> Linear Algebra (3 cr) <b>and</b>	
<b>MATH 2280 (QI)</b> Ordinary Differential Equations (3 cr).....	6
<b>MATH 3310</b> Discrete Mathematics (F,Sp,Su).....	3
<b>PHIL 1120 (BHU)</b> Social Ethics (F) (3 cr) <b>or</b>	
<b>PHIL 2400 (BHU)</b> Ethics (Sp) (3 cr) <b>or</b>	
<b>PHIL 3520 (DHA)</b> Business Ethics (Sp) (3 cr) <b>or</b>	
<b>PHIL 4530 (DSC)</b> Ethics and Biotechnology (Sp) (3 cr) <b>or</b>	
<b>PHIL 4540 (DHA)</b> Human Values and Information Technology	
(Sp) (3 cr) .....	3
<b>SPCH 1020 (CI)</b> Public Speaking (F,Sp) (3 cr) <b>or</b>	
<b>ENGL 3080 (CI)</b> Introduction to Technical	
Communication (F, Sp) (3 cr) .....	3
<b>STAT 3000 (QI)</b> Statistics for Scientists (F,Sp,Su) .....	3
Advisor-approved computer science classes numbered 5000 or above .....	10

## Software Development Emphasis

In addition to the Department and General College of Science  
 Requirements stated above, students in the software development  
 emphasis must complete the following courses:

<b>CS 1400</b> Introduction to Computer Science—CS 1 (F,Sp,Su).....	3
<b>CS 1405</b> Introduction to Computer Science—CS 1 Lab (F,Sp,Su).....	1
<b>CS 1410 (QI)</b> Introduction to Computer Science—CS 2 (F,Sp,Su).....	3
<b>CS 2420 (QI)</b> Algorithms and Data Structures—CS 3 (F,Sp,Su).....	3
<b>CS 2450 (CI)</b> Introduction to Software Engineering I (Sp).....	3
<b>CS 2810</b> Computer Systems Organization and Architecture I (F,Sp).....	3
<b>CS 3000</b> Undergraduate Seminar (F,Sp).....	1
<b>CS 3100</b> Operating Systems and Concurrency (F,Sp).....	3
<b>CS 3450</b> Introduction to Software Engineering II (F).....	3
<b>CS 3810</b> Computer Systems Organization and Architecture II (F,Sp).....	3
<b>CS 4700</b> Programming Languages (F,Sp).....	3
<b>CS 5050</b> Advanced Algorithms (F,Sp).....	3

<b>CS 5070</b> Computer Science Capstone (F,Sp,Su).....	1
<b>ECN 1500 (BAI)<sup>1</sup></b> Introduction to Economic Institutions, History, and	
Principles (F,Sp,Su).....	3
<b>MATH 1210 (QL)</b> Calculus I (F,Sp,Su).....	4
<b>MATH 1220 (QL)</b> Calculus II (F,Sp,Su).....	4
<b>MATH 3310</b> Discrete Mathematics (F,Sp,Su).....	3
<b>MGT 3080 (QI)</b> Operations Research (F,Sp).....	3
<b>MGT 3110 (DSS)<sup>2</sup></b> Managing Organizations and People (F,Sp,Su).....	3
<b>PHIL 1120 (BHU)</b> Social Ethics (F) (3 cr) <b>or</b>	
<b>PHIL 2400 (BHU)</b> Ethics (Sp) (3 cr) <b>or</b>	
<b>PHIL 3520 (DHA)</b> Business Ethics (Sp) (3 cr) <b>or</b>	
<b>PHIL 4530 (DSC)</b> Ethics and Biotechnology (Sp) (3 cr) <b>or</b>	
<b>PHIL 4540 (DHA)</b> Human Values and Information Technology	
(Sp) (3 cr) .....	3
<b>SPCH 1020 (CI)</b> Public Speaking (F,Sp) (3 cr) <b>or</b>	
<b>ENGL 3080 (CI)</b> Introduction to Technical	
Communication (F, Sp) (3 cr) .....	3
<b>STAT 2300 (QL)</b> Business Statistics (F,Sp,Su).....	4
Advisor-approved computer science class numbered 3000 or above .....	3
Advisor-approved computer science classes numbered 5000 or above .....	10

**The Software Development Emphasis also requires completion of  
 two of the following three courses (6 credits)**

<b>CS 3410 (QI)</b> Computational Science: JAVA/Internet (F,Sp,Su).....	3
<b>CS 3420 (QI)</b> Computational Science: C# and .NET (F,Sp,Su).....	3
<b>CS 3430 (QI)</b> Computational Science: Python and Perl	
Programming (Sp,Su).....	3

**The Software Development Emphasis requires the following two  
 courses. These two courses are included in the 10 credits for this  
 category.**

<b>CS 5700</b> Object-Oriented Software Development (F).....	3
<b>CS 5800</b> Introduction to Database Systems (F).....	3

<sup>1</sup> ECN 1500 fulfills the University Studies Breadth American Institutions (BAI) requirement.

<sup>2</sup> MGT 3110 fulfills the University Studies Depth Social Science (DSS) requirement.

## Bioinformatics Emphasis

In addition to the Department and General College of Science  
 Requirements stated above, students in the bioinformatics emphasis  
 must complete the following courses:

<b>BIOL 3060 (QI)</b> Principles of Genetics (F,Sp,Su).....	4
<b>CHEM 1110 (BPS)</b> General Chemistry I (F,Sp).....	4
<b>Or</b> (CHEM 1110; or CHEM 1210 and 1215)	
<b>CHEM 1210</b> Principles of Chemistry I (F,Sp) (4 cr) <b>and</b>	
<b>CHEM 1215</b> Chemical Principles Laboratory I (F,Sp) (1 cr).....	5
<b>CS 1400</b> Introduction to Computer Science—CS 1 (F,Sp,Su).....	3
<b>CS 1405</b> Introduction to Computer Science—CS 1 Lab (F,Sp,Su).....	1
<b>CS 1410 (QI)</b> Introduction to Computer Science—CS 2 (F,Sp,Su).....	3
<b>CS 2420 (QI)</b> Algorithms and Data Structures—CS 3 (F,Sp,Su).....	3
<b>CS 2450 (CI)</b> Introduction to Software Engineering I (Sp).....	3
<b>CS 2810</b> Computer Systems Organization and Architecture I (F,Sp).....	3
<b>CS 3000</b> Undergraduate Seminar (F,Sp).....	1
<b>CS 3100</b> Operating Systems and Concurrency (F,Sp).....	3
<b>CS 3410 (QI)</b> Computational Science: JAVA/Internet (F,Sp,Su) (3 cr) <b>or</b>	3
<b>CS 3420 (QI)</b> Computational Science: C# and .NET (F,Sp,Su) (3 cr) <b>or</b>	3
<b>CS 3430 (QI)</b> Computational Science: Python and Perl	
Programming (Sp,Su) (3 cr) .....	3
<b>CS 3450</b> Introduction to Software Engineering II (F).....	3
<b>CS 3810</b> Computer Systems Organization and Architecture II (F,Sp).....	3
<b>CS 4700</b> Programming Languages (F,Sp).....	3
<b>CS 5050</b> Advanced Algorithms (F,Sp).....	3
<b>CS 5070</b> Computer Science Capstone (F,Sp,Su).....	1
<b>CS 5660</b> Bioinformatics I (F).....	3

# Department of Computer Science

<b>CS 5670</b> Bioinformatics II (Sp).....	3
<b>CS 5800</b> Introduction to Database Systems (F).....	3
<b>STAT 3000 (QI)</b> Statistics for Scientists (F,Sp,Su).....	3
<b>MATH 1210 (QL)</b> Calculus I (F,Sp,Su).....	4
<b>MATH 1220 (QL)</b> Calculus II (F,Sp,Su).....	4
<b>MATH 2250 (QI)</b> Linear Algebra and Differential Equations (F,Sp,Su) (4 cr) or	
<b>MATH 2270 (QI)</b> Linear Algebra (F) (3 cr).....	3 or 4
<b>MATH 3310</b> Discrete Mathematics (F,Sp,Su).....	3
<b>BIOL 3060 (QI)</b> Principles of Genetics (F,Sp,Su).....	4
<b>BIOL 3100 (CI)</b> Bioethics (Sp).....	3
<b>CHEM 1110 (BPS)</b> General Chemistry I (F,Sp) (4 cr) or	
<b>CHEM 1210</b> Principles of Chemistry (F,Sp) (4 cr).....	4
<b>SPCH 1020 (CI)</b> Public Speaking (F,Sp) (3 cr) or	
<b>ENGL 3080 (CI)</b> Introduction to Technical Communication (F, Sp) (3 cr).....	3
Advisor-approved elective courses.....	12-13
Prior written advisor approval is required for electives. As part of their electives in this emphasis, students are strongly encouraged to include the following Chemistry sequence: CHEM 1210 (or 1220), 2300 (or 2310), and 3700.	
<b>Information Technology Emphasis</b>	
In addition to the Department and General College of Science Requirements stated above, students in the information technology emphasis must complete the following courses:	
<b>ACCT 2010</b> Survey of Accounting I (F,Sp,Su).....	3
<b>ACCT 2020</b> Survey of Accounting II (F,Sp,Su).....	3
<b>CS 1030 (BPS)</b> Foundations of Computer Science (F).....	3
<b>CS 1400</b> Introduction to Computer Science—CS 1 (F,Sp,Su).....	3
<b>CS 1405</b> Introduction to Computer Science—CS 1 Lab (F,Sp,Su).....	1
<b>CS 1410 (QI)</b> Introduction to Computer Science—CS 2 (F,Sp,Su).....	3
<b>CS 2420 (QI)</b> Algorithms and Data Structures—CS 3 (F,Sp,Su).....	3
<b>CS 2450 (CI)</b> Introduction to Software Engineering I (Sp).....	3
<b>CS 2810</b> Computer Systems Organization and Architecture I (F,Sp).....	3

## Minor

Requirements for a minor in computer science are listed below. Before beginning any minor, a student must meet with a departmental advisor and file an approved minor application form with the Computer Science Department.

### Computer Science Minor (16-18 credits)

#### A. Required Courses (10 credits)

<b>CS 1400</b> Introduction to Computer Science—CS 1 (F,Sp,Su).....	3
<b>CS 1405</b> Introduction to Computer Science—CS 1 Lab (F,Sp,Su).....	1
<b>CS 1410 (QI)</b> Introduction to Computer Science—CS 2 (F,Sp,Su).....	3
<b>CS 2420 (QI)</b> Algorithms and Data Structures—CS 3 (F,Sp,Su).....	3

#### B. Computer Science Electives (6-8 credits)

Two additional CS classes must be selected from the following:

<b>CS 2450 (CI)</b> Introduction to Software Engineering I (Sp).....	3
<b>CS 2810</b> Computer Systems Organization and Architecture I (F,Sp).....	3
<b>CS 3100</b> Operating Systems and Concurrency (F,Sp).....	3
<b>CS 3450</b> Introduction to Software Engineering II (F).....	3
<b>CS 3810</b> Computer Systems Organization and Architecture II (F,Sp).....	3
<b>CS 4700</b> Programming Languages (F,Sp).....	3
Any CS class numbered 5000 or above.....	3 or 4
At least one of these two electives must be numbered at the 3000 level or above.	

## Suggested Four-year Plans

Suggested semester-by-semester four-year plans for students working toward a Bachelor of Science or Bachelor of Arts degree in emphases within the Computer Science major can be found at:

<http://www.usu.edu/degreeplans/>

Students should consult with their advisor to develop a plan of study tailored to their individual needs and interests.

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school. Minimum GPA requirements for participation in departmental honors vary by department, but usually fall within the range of 3.30-3.50. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level. The campus-wide Honors Program, which is open to all qualified students regardless of major, offers a rich array of cultural and social activities, special classes, and the benefit of Honors early registration. Interested students should contact the Honors Program, Main 15, (435) 797-2715, [honors@usu.edu](mailto:honors@usu.edu). Additional information can be found online at: <http://www.usu.edu/honors/>

## Additional Information

For more information about requirements for the Computer Science major and minor, see the major requirement sheet, available from the Computer Science Department, or online at:

<http://www.usu.edu/majorsheets/>

# Department of Computer Science

## Graduate Programs

Computer science deals with the programming, use, management, and organization of computers. Graduate students specialize in many different areas, several of which have strong ties to other disciplines such as mathematics, computer engineering, statistics, accounting, and business administration.

## Admission Requirements

Applicants for admission to the graduate program should have a bachelor's degree in computer science **or** extensive experience in computing. Normally, a score of at least 640 on the quantitative test of the general GRE is required for admission to the MS, and a score of at least 700 is required for admission to the PhD or MCS. For scores less than these, applicants must show other strengths in their backgrounds to be considered for admission. The GRE computer science subject exam is not required for admission. Those who do take the GRE computer science subject exam will have preference in consideration for the award of financial aid. Decisions on financial aid are made on or near March 15 for the following fall semester.

## Course Requirements

In addition to the specific departmental admission and degree requirements described in this section, students are advised that they must also meet all Graduate School requirements as described in the Graduate School section of this catalog. Please note that departmental requirements change from time to time, so students should work closely with their advisor in designing their graduate program. Graduate-level courses outside the department *may* be acceptable for the graduate degree. In all cases, approval of the candidate's graduate committee should be obtained *before* registering for such courses.

Graduate students in the master's degree programs who have not taken or passed at the 50th percentile the computer science GRE subject exam are required to meet departmental placement requirements before completion of their first year. Students who have not met this requirement after the first year, as a minimum, will not be eligible for department-funded financial aid and cannot submit their program of study. In some circumstances, students will be terminated in the program. The department placement requirement is met in one or a combination of the following three ways:

1. Pass the placement exam in Algorithms and Data Structures, as well as two of the following five placement exams: Computer Architecture and Organization, Operating Systems, Automata, Programming Languages/Compilers, and Software Engineering.
2. Complete CS 2420 (algorithms and data structures) and CS 5050 (advanced algorithms) with a grade of at least *B-*. Also complete with a grade of at least *B-* two of the following courses: CS 2810 or ECE 5750 (architecture); CS 3100 (operating systems); CS 4700 or 5300 (programming languages); and CS 2450, 5370, or 6370 (software engineering).
3. Show on an official transcript from an accredited college or university the completion of three courses deemed by the department to be equivalent to its placement courses. These must be semester-based courses of at least 3 credits, and the corresponding grade must be at least a *B-*.

## Master of Science (MS)

Whether Plan A, Plan B, or Plan C (see School of Graduate Studies general requirements), all MS/CS students must meet the following general requirements:

1. Complete four Computer Science courses numbered 6000 and above. CS 6250 and 6900 are *not accepted* for these four courses. CS 6950 can count as *only one* of these four courses, and in that case must be taken for at least 3 credits in a single semester.
2. Complete 1 credit of CS 6900.

No more than 3 total credits in CS 5950, 6950, and 7950 and 1 credit of CS 6900 may be used to satisfy the MS degree requirements. CS 6250 cannot be used to meet MS coursework requirements. A maximum of 15 credits of committee-approved coursework below the 6000-level may be used for the MS degree.

Students completing a **Plan A MS degree** must fulfill the following requirements:

1. Complete at least 24 credits of graduate coursework. The total GPA must be at least 3.0, and no more than two class grades below *B-* and none below *C* may be included.
2. Successfully meet the departmental placement requirement.
3. Successfully complete and submit a graduate thesis proposal.
4. Successfully complete and defend a graduate thesis, based on original work (CS 6970, 6 credits).

Students completing a **Plan B MS degree** must fulfill the following requirements:

1. Complete at least 32 credits of graduate coursework. The total GPA must be at least 3.0, and no more than two class grades below *B-* and none below *C* may be included.
2. Successfully meet the departmental placement requirement.
3. Successfully complete and submit a graduate report proposal.
4. Successfully complete and defend a graduate report (CS 6970, 2 credits).

Students completing a **Plan C MS degree** must fulfill the following requirements:

1. Complete at least 37 credits of graduate coursework. The total GPA must be at least 3.0, and no more than two class grades below *B-* and none below *C* may be included. CS 6970 *cannot* be included.
2. Successfully meet the departmental placement requirement.
3. Successfully complete *one pair of courses* representing a sequence offered by the department. The sequences include: CS 5050 and 6050; CS 5200 and 6200; CS 5300 and 6300; CS 5600 and 6600; CS 5650 and 6650; CS 5700 and 6700; CS 5800 and 7670; CS 6100 and 7100; CS 6450 and 7450; *two* of CS 5370 or 6370, CS 7350, and 7380; *two* of CS 5500, 6500, 6550, and 7550; *two* of CS 5650, 6630, 6650, 7650, and 7680; and *two* of CS 5660, 5670, and 6670.

## Master of Computer Science (MCS)

The Master of Computer Science (MCS) is a terminal degree with coursework requirements similar to the PhD, but lacking the PhD's requirement for original research. Students completing an MCS degree must fulfill the following requirements:

1. Complete at least 60 credits of graduate coursework beyond the BS/CS or 30 credits of graduate coursework beyond the MS/CS with a minimum class grade of *B-* and a minimum cumulative GPA of 3.2.
2. No more than 15 credits of coursework numbered below 6000 may be used for the MCS.

# Department of Computer Science

3. Complete at least 12 credits of 7000-level computer science coursework.
4. Successfully meet the departmental placement requirement.
5. Successfully complete and submit a research report proposal.
6. Successfully complete and defend a research report, based on original work (CS 7970, 6 credits).
7. Complete 1 credit of CS 6900.

## Doctor of Philosophy (PhD)

The Doctor of Philosophy in Computer Science is, above all else, a degree of quality. Simply completing a number of graduate courses or years of study is not sufficient to receive the degree. The successful candidate must demonstrate a breadth of understanding in computer science, as well as a depth of understanding in his or her chosen area(s) of emphasis. Also, students must show an ability to do creative research. This research should be carried out over a significant period of time (i.e., at least one year or three semesters). Thus, each successful PhD candidate will produce a significant piece of original research, presented in a written dissertation and defended in an oral examination. This work should be of such quality that one or more journal or conference articles can be derived from it.

Students completing a PhD/CS must fulfill the following requirements:

1. Complete at least 90 credits of graduate coursework (including at least 27 credits of dissertation/research) beyond a BS/CS or at least 60 credits (including at least 27 credits of dissertation research) beyond an MS/CS with a minimum class grade of *B* and a minimum cumulative GPA of 3.5.
2. If an MS/CS is completed first, then no more than 15 credits of the 60 credits required for the PhD may be taken in coursework numbered below the 6000 level. If an MS/CS is not completed first, then no more than 21 credits of the 90 credits required for the PhD may be taken in coursework numbered below the 6000 level.
3. Complete at least 12 credits of 7000-level computer science coursework.
4. Complete 2 credits of PhD Seminar (CS 7900).
5. Complete 9 credits of department-approved courses outside the department.
6. Pass a set of comprehensive written examinations and an oral examination showing depth and breadth of knowledge in computer science and the student's area(s) of emphasis.
7. Successfully complete and defend a research proposal.
8. Successfully complete and defend a dissertation (CS 7970, for at least 27 credits).

## Financial Assistance

Applicants for admission will automatically be considered for financial aid, with no need for additional application procedures. Continuing students will be requested to apply for aid during the spring semester. Acceptance into the program does not guarantee financial assistance.

## Computer Science Faculty

### Professors

*Scott R. Cannon*, parallel processing, real-time systems, space flight software systems applications

*Heng-Da Cheng*, image processing, artificial intelligence, parallel processing, computer vision, fuzzy logic, VLSI algorithms and architectures, neural networks

*Donald H. Cooley*, evolutionary algorithms, neural networks, multimedia systems

### Professor Emeritus

*Wendell L. Pope*, data structures, automatic software generation, programming languages

### Associate Professors

*Stephen J. Allan*, parallel processing, parallel programming, recognition of parallelism, program optimization

*Vicki H. Allan*, multi-agent systems, artificial intelligence, computer science education, pipelining program optimization

*Stephen W. Clyde*, software engineering, object orientation, distributed systems, database theory, multimedia systems

*Nicholas S. Flann*, computational biology, medical modeling, machine intelligence applications

*Vladimir Kulyukin*, assistive technology, robotics

*Xiaojun Qi*, image processing, pattern recognition, computer vision, image retrieval, data mining

*Daniel W. Watson*, parallel and cluster computing, interconnection networks

### Associate Professors Emeritus

*Nelson T. Dinerstein*, analysis and construction of information systems, database management systems, applications of small computers

*Larre N. Egbert*, scientific computing, computer graphics

*Gregory W. Jones*, theory of computing, software engineering

### Assistant Professors

*Daniel Bryce*, artificial intelligence, systems biology

*Renee Bryce*, software testing

*Curtis Dyreson*, databases, data warehousing

*Robert F. Erbacher*, digital forensics, situational awareness, computer security, intrusion detection, visualization, cyber-terrorism, cyber command and control

*Minghui Jiang*, design and analysis of algorithms, discrete and computational geometry, bioinformatics, computer biology

*Seungjin Lim*, data mining, databases

*Chad D. Mano*, computer security

*Supratik Mukhopadhyay*, distributed systems, software engineering, programming languages, service oriented computing

*Changhui Yan*, bioinformatics, data mining, machine learning, computational biology

### Lecturers

*Linda Duhadway*, computer science education, programming languages, web application design and deployment, computer problem solving across disciplines, user interface, software engineering

*Dean Mathias*, computer graphics, game development, massive virtual environments

## Course Descriptions

Computer Science (CS), pages 536-540

# Interdepartmental Program in Ecology

**Director:** James A. MacMahon  
**Location:** Natural Resources 314A  
**Phone:** (435) 797-2555  
**FAX:** (435) 797-3872  
**E-mail:** jim.macmahon@usu.edu  
**WWW:** <http://www.usu.edu/ecology/>

## **Associate Director for Administrative Affairs:**

Marvin C. Bennett, Natural Resources 314B, (435) 797-2090,  
marv.bennett@usu.edu

**Degrees offered:** Master of Science (MS) and Doctor of Philosophy (PhD) in the following departments: Biology; Environment and Society; Plants, Soils, and Climate; Watershed Sciences; and Wildland Resources

## **Graduate Program**

The ecology program at Utah State University is administered by the interdepartmental Ecology Center. Its goals are to promote research and graduate education in the science of ecology and to provide expert, professional information and advice for decision makers considering actions that affect the environment. The research carried out by the center's associates covers the full spectrum of ecology on several continents, but most of it is centered in the montane and desert regions of the western United States.

Students earn their degrees in ecology while maintaining residence in one of the participating departments; the center itself does not grant degrees. The candidate selects and is assigned a major professor from the department appropriate to his or her interests.

## **Degree Requirements**

Requirements for graduate degrees in ecology include the University and departmental degree requirements, as well as the Ecology Center requirements outlined below, which are formulated by the Ecology Center Faculty Advisory Committee. This committee is comprised of faculty representatives, designated by the respective department heads, from the departments of Biology; Environment and Society; Geology; Plants, Soils, and Climate; Watershed Sciences; and Wildland Resources. The Ecology Center director chairs the committee.

The ecology MS and PhD are research degrees requiring a research thesis or dissertation. The following course requirements for each of these degrees fall into two categories. The first is a general science category. Students receiving graduate degrees in ecology are expected to have some breadth and sophistication in modern science. The second category includes ecology course requirements. These are, for the most part, general requirements, with the specific courses taken by each student selected by his or her graduate committee and tailored to his or her needs and professional goals.

## **Ecology MS and PhD Degrees General Science Requirements**

For further details, see the USU Ecology Center website:  
<http://www.usu.edu/ecology/>

## **Mathematics and Statistics, Physics, and Chemistry**

By its very nature, ecology must draw upon knowledge from most branches of science. As a result, at least a reasonable facility with fundamental mathematics and physical sciences must be attained by students, since these concepts have expression throughout the sciences. In order to assure a minimal comprehension in these areas, students receiving graduate degrees in ecology are required to have had the following at some point in their university careers:

1. Equivalent of mathematics through one semester of calculus.
2. Equivalent of at least a one-semester overview course in physics.
3. Chemistry through organic.
4. One year of introductory statistics and one graduate-level statistics course.

These courses are the minimum requirements for the MS and PhD degrees. The committee strongly recommends developing greater facility by taking at least a full year of calculus; one or more courses from the set of three including linear algebra, differential equations, and multi-variable calculus; and a full year of professional-level physics.

## **Biology**

The following are required of all ecology graduate students, and must be taken at some point during their university career:

1. Genetics or evolution, one course.
2. One course in animal physiology for students emphasizing animal ecology.
3. One course each in plant physiology and soils for students emphasizing plant ecology.

## **Ecology Course Requirements**

### **Master of Science**

1. Attendance in Ecology Seminar (BIOL/ENVS/WATS/WILD/6870) is required each semester in residence, but students should only register once per academic year.
2. A one-semester course in Graduate General Ecology (BIOL/ENVS/WATS/WILD 6960) is also required.
3. One course must be taken in each of two functional (core) blocks. The three available blocks are shown on the following page.

### **Doctor of Philosophy**

1. Attendance in Ecology Seminar (BIOL/ENVS/WATS/WILD 6870) is required each semester in residence, but students should only register once per academic year.
2. A one-semester course in Graduate General Ecology (BIOL/ENVS/WATS/WILD 6960) is also required.
3. One course must be taken from each functional (core) block. Students continuing from the MS to the PhD degree can apply block courses taken for the MS degree to the PhD requirement. The three available blocks are shown on the following page.

# Interdepartmental Program in Ecology

---

## Functional (Core) Blocks

1. Biophysical Ecology  
(CEE 6930 or WATS 6900, CLIM 6500, CLIM/GEO/WATS 6680, CLIM 6800, GEO/WATS 6150, SOIL 6130, SOIL/WILD 6350)
2. Organismic, Population, and Evolutionary Ecology  
(BIOL 6260, 6380, 6600, WATS 6230/7230, WILD 6400, 6720/7720, 7200, 7400)
3. Community, Ecosystem, and Landscape Ecology  
(BIOL 6010, BIOL/SOIL/WILD 6200, BIOL 6590, ENVS 6400, WATS 6310, 6820/7820, WILD 6710/7710, 6770, 6900)

# Department of Economics and Finance

**Department Head:** Tyler J. Bowles

**Location:** Business 615

**Phone:** (435) 797-2310

**FAX:** (435) 797-2701

**E-mail:** info@econ.usu.edu

**WWW:** <http://www.huntsman.usu.edu/economicsandfinance/>

## **Undergraduate Advisor:**

Ruth Harrison, Business 309, (435) 797-2275,  
ruth.harrison@usu.edu

## **Graduate Program Director:**

Tyler J. Bowles, Business 616, (435) 797-2310,  
tyler.bowles@usu.edu

**Degrees offered:** Bachelor of Science (BS) and Bachelor of Arts (BA) in Finance; BS, BA, Master of Science (MS), and Master of Arts (MA) in Economics; the department also participates in the Master of Business Administration (MBA). The Economics major is structured to facilitate a dual major with companion majors within or outside the Huntsman School of Business.

**Undergraduate emphases:** *BS, BA in Economics*—Economic Theory, Managerial Economics, Prelaw Economics

## **Undergraduate Programs**

### **Objectives**

The undergraduate economics and finance curricula provide students with the basic intellectual framework to understand and analyze economic and financial problems and to make informed decisions. A basic understanding of economics and finance is essential to becoming a well-informed citizen, as well as a successful business or public leader.

Students majoring in finance receive training leading to careers in banking, brokerage activities and investments, and positions as financial analysts in industry.

### **Admission Requirements**

Freshmen who meet the admission requirements and are accepted in good standing by the University are eligible for admission to the Department of Economics and Finance. All transfer students, whether transferring from within Utah State University or from other colleges and universities, must have an overall minimum GPA of 2.5 to be accepted as majors in the department. Additional requirements may apply for students who seek to be admitted to a dual major.

New students wishing to major in Economics or Finance may do so by listing the Economics or Finance major on their application when they apply for admission to USU. Students enrolled at USU may change to the Economics or Finance major by applying directly to the Department of Economics and Finance.

### **Graduation Requirements**

To receive a bachelor's degree in Economics or Finance, students must complete all University requirements and the college and departmental requirements as noted in this catalog section.

### **Matriculation Requirement and Transfer Limitation**

No more than 15 USU Huntsman School of Business credits (ACCT, BUS, FIN, MGT, MIS), numbered 2000 and above, earned as a nonbusiness major (before acceptance into the Huntsman School) can be applied to a Huntsman School degree. More than 15 business credits can be transferred from other accredited institutions. However, additional USU Huntsman School credits added to previously earned transfer business credits may not exceed a combined total of 15. Furthermore, to earn a bachelor's degree in a Huntsman School major, at least 50 percent of the required Huntsman School credits must be earned from coursework taken from the Utah State University Huntsman School of Business.

### **USU Credits and Business Credits**

At least 30 of the last 60 semester credits must be taken from Utah State University, at least 20 of which must be completed in upper-division courses, of which at least 10 credits must be completed in courses required by the student's major. At least 50 percent of the Huntsman School of Business credits required for a Huntsman School degree must be taken from the Utah State University Huntsman School or its departments, which include: School of Accountancy, Economics and Finance, Management, and Management Information Systems.

### **Business Core**

Finance majors in the Department of Economics and Finance must complete the following prerequisite courses and business core courses in addition to the specific courses listed for the major. (Check with the undergraduate advisor concerning the need for students in the economics major to complete the business core.)

#### **Prerequisite Courses (13 credits)**

<b>ECN 1500 (BAI)</b> Introduction to Economic Institutions, History, and Principles (F,Sp,Su).....	3
<b>MATH 1100 (QL)</b> Calculus Techniques (F,Sp,Su) .....	3
<b>STAT 2300 (QL)</b> Business Statistics (F,Sp,Su) .....	4
<b>PSY 1010 (BSS)</b> General Psychology (F,Sp,Su) (3 cr) <b>or</b>	
<b>SOC 1010 (BSS)</b> Introductory Sociology (F,Sp) (3 cr) .....	3

Business majors must take the above courses as prerequisite to 3000-, 4000-, and 5000-level courses in the Huntsman School of Business.

#### **Huntsman School of Business Core (37 credits)**

<b>ACCT 2010</b> Survey of Accounting I (F,Sp,Su).....	3
<b>ACCT 2020</b> Survey of Accounting II (F,Sp,Su).....	3
<b>FIN 3400 (QI)</b> Corporate Finance (F,Sp,Su).....	3
<b>MGT 3500</b> Fundamentals of Marketing (F,Sp,Su).....	3
<b>MGT 3700</b> Operations Management (F,Sp,Su).....	3
<b>BUS 3250</b> Discussions With Business Leaders (F,Sp) .....	1
<b>ECN 2010 (BSS)</b> Introduction to Microeconomics (F,Sp,Su) .....	3
<b>ECN 3400</b> International Economics for Business (F,Sp,Su).....	3
<b>MGT 2050</b> Legal and Ethical Environment of Business (F,Sp,Su) .....	3
<b>MGT 3110</b> Managing Organizations and People (F,Sp,Su).....	3
<b>MGT 4880 (CI)</b> Business Strategy in an Entrepreneurial Context (F,Sp,Su) (3 cr) <b>or</b>	
<b>MGT 4890 (CI)</b> Business Strategy in a Global Context (F,Sp,Su) (3 cr) .....	3
<b>MIS 2100</b> Principles of Management Information Systems (F,Sp,Su)....	3
<b>MIS 2200 (CI)</b> Business Communication (F,Sp,Su).....	3

All 3000-, 4000-, and 5000-level courses in the Huntsman School of Business are restricted to students admitted to the Huntsman School or another USU major with an overall GPA of at least 2.67 and completion of at least 40 credits.

# Department of Economics and Finance

## Economics Major

As the Economics major provides a strong grounding in economic theory, it helps open career opportunities that involve policy analysis. The Economics major has been a very popular dual major for Finance and Accounting majors because of the added theoretical and analytical dimension that advanced studies in economics can contribute to Finance and Accounting majors. This combination is excellent preparation for students interested in advanced studies in Accounting or Finance.

The Economics major also provides students in the humanities, and social and natural sciences with an opportunity to learn policy analysis tools. Whether the students are directly interested in policy or simply interested in the impact of policy within their chosen primary major, economics introduces a robust and empirically verified paradigm for explaining the behavior of social systems and their interaction with cultural, biological, and physical resources.

To graduate with a bachelor's degree in Economics, a student must have a minimum GPA of 2.5 in courses required for the major and a grade of C or better in each course required for the major. A C grade or better in ECN 1500, MATH 1100, and STAT 2300 and an overall GPA of 2.67 or higher is required for admission into some MGT courses required for the managerial emphasis. Economics majors with a dual major must satisfy the admission and graduation requirements of both majors. All required courses must be taken for a letter grade, and students must earn a C or better in each of these courses. For information regarding elective requirements, students should contact their academic advisor.

### Economics Major:

<b>ECN 1500 (BAI)</b> Introduction to Economic Institutions, History, and Principles (F,Sp,Su).....	3
<b>ECN 2010 (BSS)</b> Introduction to Microeconomics (F,Sp,Su).....	3
<b>ECN 3400 (DSS)</b> International Economics for Business (F,Sp,Su).....	3
<b>ECN 3010 (DSS)</b> Managerial Economics (F,Sp) (3 cr) <b>or</b>	
<b>ECN 4010</b> Intermediate Microeconomics (Sp) (3 cr).....	3
<b>ECN 4020</b> Intermediate Macroeconomics (F,Sp) (3 cr) <b>or</b>	
<b>ECN 5000</b> Advanced Macroeconomic Topics (F) (3 cr).....	3
<b>MATH 1050 (QL)</b> College Algebra (F,Sp,Su).....	4
<b>MATH 1100 (QL)<sup>1</sup></b> Calculus Techniques (F,Sp,Su).....	3
<b>STAT 2300 (QL)</b> Business Statistics (F,Sp,Su).....	4
Upper-division ECN electives <sup>2</sup> .....	6

The **Economic Theory Emphasis** is designed for students who are interested in preparing for graduate studies in economics or agricultural economics and for students who are preparing for a career that requires training in quantitative economic analysis. Graduates have employment opportunities in business and government, as well as opportunities for continuing their education in graduate economics programs or in professional schools. Economists are often involved in policy analysis for government agencies and nongovernmental organizations.

### Economics Major (Economic Theory Emphasis):

<b>ACCT 2010</b> Survey of Accounting I (F,Sp,Su).....	3
<b>ACCT 2020</b> Survey of Accounting II (F,Sp,Su).....	3
<b>ECN 1500 (BAI)</b> Introduction to Economic Institutions, History, and Principles (F,Sp,Su).....	3
<b>ECN 2010 (BSS)</b> Introduction to Microeconomics (F,Sp,Su).....	3
<b>ECN 3400 (DSS)</b> International Economics for Business (F,Sp,Su).....	3

The Managerial Economics Emphasis is for students who are planning for careers in business. The program can serve as a terminal program for those planning to enter the job market on graduation or as excellent preparation for students who intend to pursue an MBA or MPA.

### Economics Major (Managerial Economics Emphasis):

<b>ACCT 2010</b> Survey of Accounting I (F,Sp,Su).....	3
<b>ACCT 2020</b> Survey of Accounting II (F,Sp,Su).....	3

ECN electives (3000-level and above) <sup>2</sup> .....	6

The Prelaw Economics Emphasis is for students who plan to attend law school or pursue a career related to political science, and who want to obtain a strong foundation in economics. The large number of elective credits included in this emphasis area provides enough flexibility for students to custom design their program of study to meet individual interests and educational goals. Several students have taken advantage of this flexibility to design a dual major with Economics and Political Science.

### Economics Major (Prelaw Economics Emphasis):

<b>ECN 1500 (BAI)</b> Introduction to Economic Institutions, History, and Principles (F,Sp,Su).....	3
<b>ECN 2010 (BSS)</b> Introduction to Microeconomics (F,Sp,Su).....	3

# Department of Economics and Finance

## Finance Major

Finance is concerned with how individuals and firms allocate resources over time. Solutions to allocation problems rely upon the existence of capital markets that allow the exchange of resources over time, and firms that allow individuals to transform current resources into resources available in the future. In particular, finance deals with the financial management of firms, investment management, and the management of financial institutions. Before continuing with the following courses, students must receive a grade of *B-* or better in FIN 3400.

### Required Courses (12 credits)

<b>ECN 3010</b> Managerial Economics (F,Sp).....	3
<b>ECN 4020</b> Intermediate Macroeconomics (F,Sp).....	3
<b>FIN 4450</b> Financial Policy (F,Sp).....	3
<b>FIN 4460</b> Investments (F,Sp).....	3

### Electives (9 credits)

Three electives are required, two of which must be selected from the following list:

<b>FIN 4300</b> International Finance (F,Sp).....	3
<b>FIN 4410</b> Financial Institutions (F,Sp).....	3
<b>FIN 4420</b> Insurance (F).....	3
<b>FIN 4430</b> Real Estate Finance (Sp).....	3

The remaining elective may be chosen from the following, or from the list above:

<b>ACCT 3310</b> Strategic Cost Management (F,Sp,Su).....	3
<b>ACCT 3410</b> Income Taxation I (F,Sp,Su).....	3
<b>ECN 5330 (QI)</b> Applied Econometrics (Sp).....	3
<b>ECN 5600</b> Financial Economics (Sp).....	3
<b>MGT 3080 (QI)</b> Operations Research (F,Sp).....	3
<b>PFP 5060</b> Personal Financial Planning and Advising (F).....	3
<b>PFP 5070</b> Retirement Planning (Sp).....	3
<b>PFP 5080</b> Estate Planning (Sp).....	3

## Minor Requirements

### Economics Minor

<b>ECN 1500 (BAI)</b> Introduction to Economic Institutions, History, and Principles (F,Sp,Su).....	3
<b>ECN 2010 (BSS)</b> Introduction to Microeconomics (F,Sp,Su).....	3
<b>ECN 3010 (DSS)</b> Managerial Economics (F,Sp) (3 cr) <b>or</b>	
<b>ECN 4010</b> Intermediate Microeconomics (Sp) (3 cr).....	3
ECN electives (3000-level or above) <sup>2</sup> .....	6

<sup>1</sup>The regular calculus series (MATH 1210 and 1220) is recommended for students contemplating graduate studies in economics. MATH 1210 will fulfill the MATH 1100 requirement.

<sup>2</sup>For a list of acceptable electives, students should contact their advisor.

### Finance Minor

#### Required Courses (12 credits)

<b>FIN 3400 (QI)</b> Corporate Finance (F,Sp,Su).....	3
<b>FIN 4450</b> Financial Policy (F,Sp).....	3
<b>FIN 4460</b> Investments (F,Sp).....	3
<b>MGT 3500</b> Fundamentals of Marketing (F,Sp,Su).....	3

#### Elective Course (3 credits)

Select one of the following courses:

<b>FIN 4300</b> International Finance (F,Sp).....	3
<b>FIN 4410</b> Financial Institutions (F,Sp).....	3
<b>FIN 4420</b> Insurance (F).....	3
<b>FIN 4430</b> Real Estate Finance (Sp).....	3

## Business Minor

A Business Minor is administered by the Huntsman School of Business. For further information, students should contact the Huntsman School of Business Programs and Advising Center, Business 309, (435) 797-2272.

## Four-year Degree Plans (8 semesters)

Four-year degree plans for majors offered by the Department of Economics and Finance can be found at:

<http://www.usu.edu/degreeplans/>

Students will need to meet with their advisor periodically to ensure all requirements are being met.

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school. Minimum GPA requirements for participation in departmental honors vary by department, but usually fall within the range of 3.30-3.50. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level. The campus-wide Honors Program, which is open to all qualified students regardless of major, offers a rich array of cultural and social activities, special classes, and the benefit of Honors early registration. Interested students should contact the Honors Program, Main 15, (435) 797-2715, [honors@usu.edu](mailto:honors@usu.edu). Additional information can be found online at: <http://honors.usu.edu/>

## Financial Support

The Department of Economics and Finance and the Huntsman School of Business award scholarships in addition to those available through the University Financial Aid Office. Information and application forms may be obtained from the college or departmental offices.

## Additional Information

For more information about undergraduate programs in the Department of Economics and Finance, see the major requirement sheet, available from the department, or accessed online at: <http://www.usu.edu/majorsheets/>

## Graduate Programs

The MA and MS in Economics are offered by the Department of Economics and Finance. The MBA is offered through the Huntsman School of Business.

# Department of Economics and Finance

## Objectives

Economics graduate training emphasizes economic theory, critical thinking, and quantitative analysis.

The **Master of Science** and **Master of Arts in Economics** are intended to prepare students for doctoral studies in economics. Consequently, students are required to take the same first-year core theory and econometrics courses as the PhD students, with specialization courses in the second year.

## Admission Requirements

Applicants must have earned a bachelor's degree from an accredited college or university, maintained a grade point average of at least 3.0 for the last 60 semester credits earned, and score in at least the 40th percentile on the Graduate Record Exam (GRE). In addition, international applicants from non-English-speaking countries must score at least 550 on the Test of English as a Foreign Language (TOEFL). Satisfaction of these minimum admission requirements does not guarantee admission. Applications for graduate study from students trained in disciplines other than economics are welcomed. However, all applicants are expected to have: (1) an understanding of intermediate microeconomic and macroeconomic theory, (2) preparation in mathematical economics, and (3) preparation in probability and statistics. In addition, applicants are expected to have strong written and oral communications skills.

## Degree Requirements

### Master of Science and Master of Arts in Economics

Students are required to complete the first-year core (ECN 7130, 7140, 7230, 7240, 7310, 7350, 7360) and to submit and orally defend a thesis (Plan A) or research report (Plan B). The department also accepts Plan C, which has no research component. MA students must satisfy the foreign language requirement. Plan A requires at least 30 credits and must include at least 6 thesis research credits. Plan B requires at least 30 credits and must include 2 to 3 thesis research credits. Plan C requires at least 33 credits. (No more than 6 undergraduate credits may be used in meeting degree requirements.)

### Master of Business Administration

A student may receive a Huntsman School of Business Master of Business Administration degree with a specialization in an economic field by completing the MBA advanced core (see the MBA program description on pages 194-195) and 9 specialization credits. These specialization credits should be coordinated with the MBA Program director.

## Research

The Department of Economics and Finance maintains an active and productive research program. The results of this research are published in professional journals, books, and technical reports. Financial support for the departmental research program is provided by the Huntsman School of Business, the Office of the Vice President for Research, and by a combination of public and private extramural sources. The Economics Research Institute provides support and coordination for some of the department's research activities. Graduate students are an integral part of departmental research programs.

## Financial Assistance and Assistantships

The Department of Economics and Finance offers teaching and research assistantships to qualified graduate students. These are awarded on a competitive basis, and all accepted students are considered eligible. However, while the department makes every effort to assist students in obtaining financial assistance, acceptance into department programs does not guarantee financial assistance.

## Economics and Finance Faculty

### Professors

*Basudeb Biswas*, international trade and economic development

*Tyler J. Bowles*, Department Head; econometrics and forensic economics

*Drew Dahl*, financial institutions and international finance

*Christopher Fawson*, public finance and econometrics

*Terrence F. Glover*, production economics and policy

*L. Dwight Israelsen*, comparative systems and economic history

*W. Cris Lewis*, regional-urban and managerial economics

*J. Robert Malko*, corporate and energy utility finance

*H. Craig Petersen*, regulation and antitrust and managerial economics

*Randy T. Simmons*, public choice, political economy

### Associate Professors

*John P. Gilbert*, international trade theory and policy, applied general equilibrium modeling, development economics

*Austin Kwag*, financial policy, investments, corporate finance

*Alan A. Stephens*, corporate finance and investments

### Assistant Professor

*Frank N. Caliendo*, macroeconomics and public economics

### Clinical Assistant Professor

*Shannon Peterson*, international policy and relations

### Adjunct Lecturers

*Steven R. Broadbent*

*Paul Fjelsted*

*Kent Hauetter*

### Instructor

*Doug Romrell*

### Professors Emeritus

*Roice H. Anderson*

*Larry K. Bond*

*Rondo A. Christensen*

*Lynn H. Davis*

*Reed R. Durtschi*

*Herbert H. Fullerton*

*Gary B. Hansen*

*Allen D. LeBaron*

*Darwin B. Nielsen*

*Philip R. Swensen*

*Morris D. Whitaker*

### Associate Professor Emeritus

*Glenn F. Marston*

## Course Descriptions

Economics (ECN), pages 545-546

Finance (FIN), pages 565-566

# Education, Interdepartmental Doctoral Program in Curriculum and Instruction

## Director, Curriculum and Instruction Doctoral Program:

Deborah A. Byrnes, Associate Department Head,  
School of Teacher Education and Leadership

**Location:** Emma Eccles Jones Education 399

**Phone:** (435) 797-0396

**FAX:** (435) 797-0372

**E-mail:** deborah.byrnes@usu.edu

**WWW:** <http://teal.usu.edu/hm/graduate-programs/>

**Faculty:** Faculty are listed with participating programs and departments (e.g., Elementary Education Program, Secondary Education Program, Engineering and Technology Education Department, and Agricultural Systems Technology and Education Department)

**Degrees offered:** Doctorate of Education (EdD) and Doctorate of Philosophy (PhD)

**Graduate specialization:** PhD or EdD—Curriculum and Instruction

## Admission Requirements

For admission information, contact: Dean, School of Graduate Studies, Utah State University, 0900 Old Main Hill, Logan UT 84322-0900; telephone (435) 797-1189; FAX (435) 797-1192; or visit: <http://www.usu.edu/graduateschool/>

To be evaluated against established criteria, students must submit to the School of Graduate Studies at Utah State University an **Application for Admission** along with the following:

1. A copy of transcripts of both undergraduate and graduate credits from all colleges or universities attended. An average grade of *B* (3.0) or better is required during the last two years of undergraduate work and for all graduate work.
2. Three letters of recommendation (required). At least two of these letters should come from individuals who can evaluate the student's academic abilities. All letters should address the student's potential for successful graduate study.
3. Documentation of a master's degree or equivalent coursework related to an area of specialization, or a statement of why admission is sought without a master's degree.
4. An official report of the Graduate Record Examination (GRE), including both the Verbal and the Quantitative subtests.
5. Evidence of writing competency.
6. A statement of specific reasons for wanting to enroll in the Curriculum and Instruction doctoral program. This essay is completed as part of the School of Graduate Studies online application.

Applicants to the Curriculum and Instruction PhD and EdD degrees must have the equivalent of two years of appropriate teaching experience.

## General Information About Doctorate in Curriculum and Instruction (C & I)

Both the **Doctorate of Education (EdD)** and the **Doctorate of Philosophy (PhD)** degrees are offered through the School of Teacher Education and Leadership (TEAL) in the Emma Eccles Jones College of Education and Human Services (CEHS). The C & I specialization prepares graduates for leadership, teaching, and research positions in curriculum and instruction.

The EdD degree program is intended for students who wish to be better prepared to (1) understand and deal effectively with curricular and instructional problems as administrators, supervisors, and curriculum specialists in public or private educational institutions and settings; and (2) teach in community colleges, four-year colleges, and universities. Areas of emphasis within the EdD include early childhood; engineering and technology education; instructional leadership; literacy; and schooling, culture, and society. The PhD degree program is intended for students who wish to be better prepared to (1) fulfill roles in teaching and research in colleges, universities, and education-related fields; and (2) conduct and direct research and development activities in public and private educational settings or in the corporate sector. Areas of emphasis are more flexible within the Curriculum and Instruction PhD program and are developed by each student with his or her doctoral committee.

## Planned Program

To complete a doctorate degree (PhD or EdD), a minimum of 60 total credits are required for students with a master's degree, and a minimum of 90 total credits are required for students without a master's degree. A student must:

1. Complete a Unifying Curriculum and Instruction Program of Studies Core (12-15 semester credits) and a Research and Statistics Core (12 semester credits).
2. Complete a planned program of supporting electives, as approved by the student's supervisory committee.
3. Pass a written comprehensive examination. This exam must be satisfactorily completed before the student advances to candidacy. Advancement to candidacy also requires an approved dissertation proposal.
4. Present at a professional conference.
5. Submit for publication an approved manuscript.
6. Complete and satisfactorily defend a doctoral research study directed and judged by a supervisory committee of faculty.
7. Complete all final requirements, as specified by the Curriculum and Instruction specialization, the Emma Eccles Jones College of Education and Human Services, and the School of Graduate Studies.

## Resident Coursework

The **Doctorate of Philosophy degree (PhD)** requires three semesters of full-time registration in residency with a minimum of two semesters of consecutive residency. Completion of 33 credits in residence on the Logan campus is required.

The **Doctorate of Education degree (EdD)** requires at least three semesters in full-time residency, but they need not be consecutive. At least two semesters must be spent on campus prior to registering for dissertation credit. Completion of 39 credits must be completed in residence.

It is strongly recommended that the applicant enroll on campus the first semester after admission, so that appropriate program planning can be completed.

## Doctoral Residency (PhD)

The PhD requires three full-time academic semesters of residency, two of which must be consecutive. It is the responsibility of the student's doctoral committee to provide guidance, supervision, and review of the doctoral residency requirement. The purpose of residency is to provide the doctoral student with significant time for sustained contact with faculty members and intense attention to coursework, projects, research, and participation in academic life. Residency is a time for socialization into the shared community of professional life. It should include opportunities for the student to engage in activities outside of coursework that serve to transition the student to the new role of future colleague.

It is difficult to accomplish these outcomes while physically distant from the campus. Thus, doctoral programs nationwide include "residency" requirements to assure that doctoral students, upon graduation, will be prepared for full professional participation in academic life.

## Research

Each student must complete a significant research study; present at a professional conference; and prepare an article for publication in an appropriate journal, based on the completed research and/or program of study.

## Financial Assistance

Students should contact department heads for all inquiries regarding assistantships and tuition waivers. Applications for University assistantships, fellowships, and all financial aid are processed through department offices. For a listing of fellowships and scholarships, see the *Graduate Financial Assistance* section of this catalog (pages 111-112).

## Career Opportunities

The doctoral specialization prepares educational leaders for positions as college and university researchers and teachers in education and education-related fields. Recipients of the doctorate degree are also prepared to conduct and direct research and development activities in public or private educational agencies or in the corporate sector; teach in community colleges, four-year colleges, and universities; serve as supervisors and curriculum specialists in public or private educational institutions and settings; and serve in a variety of other careers.

## Administrative/Supervisory Certificate Program

A doctorate in education is separate from the Administrative/Supervisory Certificate (A/SC) Program; however, a student may obtain the A/SC while pursuing the doctorate degree. Completion of the A/SC program qualifies a person for the certificate required of administrators and/or supervisors at any level in the public school systems of Utah. Students desiring an Administrative/Supervisory Certificate will need to take courses in addition to those required for the PhD and EdD degree.

## Emma Eccles Jones College of Education and Human Services Courses

Education courses are listed under the EDUC prefix, pages 546-547

# Department of Electrical and Computer Engineering

**Department Head:** Todd K. Moon  
**Location:** Engineering Laboratory 149  
**Phone:** (435) 797-2840  
**FAX:** (435) 797-3054  
**E-mail:** info@ece.usu.edu

isobel.roskelley@usu.edu

## Graduate Program Coordinator:

YangQuan Chen, Engineering Laboratory 216, (435) 797-0148,  
yqchen@ece.usu.edu

**Degrees offered:** Bachelor of Science (BS), Master of Science (MS), and Doctor of Philosophy (PhD) in Electrical Engineering; BS and MS in Computer Engineering; Master of Engineering (ME)

**Graduate specializations:** ME—Electrical Engineering, Computer Engineering

## Undergraduate Programs

### Department Mission Statement

The mission of the Department of Electrical and Computer Engineering is to serve society through excellence in learning, discovery, and outreach. Undergraduate and graduate students are provided with an education in electrical and computer engineering, while developing attitudes, values, and vision preparing them for lifetimes of continued learning and leadership in their chosen careers. Through research the department strives to generate and disseminate new knowledge and technology for the benefit of the State of Utah, the nation, and beyond.

### Program Description

The ECE Department offers a balanced curriculum of classwork, laboratory work, and design experiences to prepare students for careers as practicing engineers. The Bachelor of Science programs in Electrical Engineering and Computer Engineering are accredited by the Engineering Accreditation Commission of ABET. The research program of the department, which includes undergraduates as well as graduate students, is internationally acclaimed in the fields of aerospace instrumentation and measurements, image compression, communications, electromagnetics, controls, and robotics.

### Program Objectives

The educational objectives of the Electrical Engineering and Computer Engineering programs at Utah State University are as follows:

To provide students with:

1. Education in the fundamental sciences and mathematics that underlie engineering, with a general breadth and depth in engineering analysis and design.
2. Awareness of current technology and the fundamental background to enable them to stay informed and become adept at new technologies.

3. The ability to put ideas into practice through effective analysis, problem solving, requirements development, design, and implementation.
4. A broad awareness of the world around them through general education, preparing them to achieve their potential and contribute through their professional and personal lives.
5. The foundation of communications and teamwork skills, as well as professional attitudes and ethics.

## Electrical Engineering

Each Electrical Engineering student is given a solid foundation in electricity, electronics, signals, and systems, with individual practical experience. Upon this basic foundation, the students then build expertise in advanced areas, stressing actual design practice, to prepare them for productive engineering careers. The focus areas can be categorized into the following: analog and digital electronics, controls, signal processing, communications, electromagnetics, microwaves, and space systems.

## Computer Engineering

Building on a solid curriculum in computing hardware and software, the Computer Engineering program begins with a strong foundation in electricity, digital logic design, and computer science, then leads into advanced software engineering and microcomputer systems. Advanced courses provide experience in formal design methods, high-performance architectures, data communications, concurrent programming, and real-time and embedded systems. Students are also required to complete advanced course sequences in computer science.

Students in the BS programs in both electrical engineering and computer engineering are permitted and encouraged to take courses in the other program. Many courses, such as controls, digital signal processing, and robotics, draw heavily on skills in both areas.

## Assessment

In addition to the regular national accreditation, the ECE Department employs a number of means to assess the quality of departmental programs. The primary indicator is the success of ECE graduates in obtaining professional employment. At intervals following graduation, the department keeps track of student placement. Other major tools include annual quantitative assessment of program objectives, semi-annual reviews of the curriculum and facilities by the ECE Industrial Advisory Board, interviews of undergraduate and graduate students upon completion of their programs, regular monitoring of faculty members by peers, and surveys of ECE graduates working in industry.

## Requirements

Prior to entry into the upper-division classes, the student must meet the standards for entry into the Professional Engineering Program. Additional information concerning these items is given in the College of Engineering write-up (pages 132-133). It is the responsibility of students to be aware of these rules and procedures; however, advisor assistance is available.

# Department of Electrical and Computer Engineering

## Admission to Pre-Professional Program

Admission requirements for students desiring to major in Electrical Engineering or Computer Engineering are the same as those governing admission to the College of Engineering (see page 131), *except* that students must also be “calculus ready.” That is, they must: (1) achieve a score of 27 or higher on the math ACT test; (2) complete MATH 1050 and 1060 *or* MATH 1210; or (3) achieve an AP score of at least 3 on the AB Calculus or BC Calculus test.

## Bachelor of Science in Electrical Engineering

The program leading to a Bachelor of Science degree in electrical engineering is nominally a four-year program. The required program consists of a basic foundation of mathematics, science, computer science, engineering fundamentals, and laboratory and design experiences. Elective courses providing for one or more areas of technical focus, communication skills, and University Studies complete the program and prepare students for productive and rewarding careers in the electrical engineering profession.

## Bachelor of Science in Computer Engineering

The program leading to a Bachelor of Science in computer engineering is nominally a four-year program. The required program consists of a basic foundation of mathematics, science, computer science, engineering fundamentals, and laboratory and design experiences. Elective courses providing for one or more areas of technical focus, communication skills, and University Studies complete the program and prepare students for productive and rewarding careers in the computer engineering profession.

## Required Courses

Required courses are shown in the accompanying paragraphs; however, because of differences in high school or transfer student preparation, it is strongly recommended that students meet with the college academic advisor to plan a detailed semester-by-semester schedule for completing the preprofessional requirements. Particular attention must be paid to course prerequisites, requiring some students to take longer than four semesters to complete the preprofessional program. Students transferring into the department should consult with the college academic advisor for transfer credit evaluation and proper placement in the curriculum.

AP and CLEP credit may be used to meet some of the required technical and University Studies courses. Details concerning courses acceptable as electives are available from the Electrical and Computer Engineering Department.

## Electrical Engineering

### Pre-professional Program

#### Suggested Semester Schedule (126 credits)

##### Freshman Year (30 credits)

##### Fall Semester (15 credits)

MATH 1210 (QL)* Calculus I.....	4
CS 1400* Introduction to Computer Science—CS 1.....	3
ECE 1000* Introduction to Electrical and Computer Engineering.....	2
University Studies Breadth courses.....	6

##### Spring Semester (15 credits)

MATH 1220 (QL)* Calculus II.....	4
CS 1410 (QI)* Introduction to Computer Science—CS 2.....	3
PHYS 2210 (QI)* General Physics—Science and Engineering I.....	4
ECE 2700* Digital Circuits.....	4

### Sophomore Year (32-33 credits)

#### Fall Semester (16 credits)

MATH 2210 (QI)* Multivariable Calculus.....	3
MATH 2270 (QI)* Linear Algebra.....	3
PHYS 2220 (BPS/QI)* General Physics— Science and Engineering II.....	4
University Studies Breadth courses.....	6

#### Spring Semester (16-17 credits)

MATH 2280 (QI)* Ordinary Differential Equations.....	3
ECE 2250* Electrical Circuits.....	4
ENGL 2010 (CL2)* Intermediate Writing: Research Writing in a Persuasive Mode.....	3
Technical Elective course.....	3-4
University Studies Breadth course.....	3

\*These classes are required for admission to the Professional Engineering Program (PEP). Courses are listed under the semesters in which they best fit.

## Professional Program

Because of the variations in schedules, it is recommended that students meet with an advisor to work out a schedule for their junior and senior years. The following courses are required for students selecting the **Professional Program in Electrical Engineering**.

### Suggested Semester Schedule

#### Junior Year (33-34 credits)<sup>1</sup>

##### Fall Semester (17 credits)

ECE 3620 Circuits and Signals.....	3
ECE 3710 Microcomputer Hardware and Software.....	4
ECE 3810** Engineering Professionalism.....	1
ECE 5530 Digital System Design.....	3
ENGL 3080 (CI)** Introduction to Technical Communication.....	3
MATH 5710 Introduction to Probability.....	3

##### Spring Semester (16-17 credits)

ECE 3410 Microelectronics I.....	4
ECE 3640 Signals and Systems.....	3
ECE 3870 Electromagnetics I.....	4
Math/Science elective course.....	3
University Studies Depth Humanities and Creative Arts (DHA) course.....	2-3

#### Senior Year (29-30 credits)

##### Fall Semester (15 credits)

ECE elective courses.....	15
---------------------------	----

##### Spring Semester (14-15 credits)

ECE 4850 (CI)** Engineering Communications.....	2
ECE elective courses.....	6
University Studies Depth Social Sciences (DSS) course.....	3
ECE Capstone course***.....	3-4

<sup>1</sup>Some of the junior classes can be delayed until the senior year, but this may limit a student's choice of electives during his or her senior year.

\*\*ENGL 3080 and ECE 3810 must be taken concurrently.

\*\*\*ECE 4850 and a capstone course must be taken during the same semester.

### Capstone Courses (select 3-4 credits)

ECE 4840 (CI) Engineering Design (F,Sp).....	3
ECE 5240 Space System Design (Sp).....	3
ECE 5340 Mobile Robots (F).....	4
ECE 5770 Microcomputer Interfacing (Sp).....	4
ECE 5930 ST: Optical Systems (F).....	3
ECE 5930 ST: Digital Radio (ECE 5660 or 5810 should be taken concurrently) (Sp).....	3

# Department of Electrical and Computer Engineering

## Technical Elective Courses (select 28 or more credits)

### Electrical Engineering Electives (select 21-25 credits)

ECE 3720	Microcomputer Systems Programming (Sp)	3
ECE 4650 <sup>4</sup>	Optics I (F)	3
ECE 4680 <sup>4</sup>	Optics II (Sp)	3
ECE 4740	Computer and Data Communications (F)	3

Also, any ECE 5000-level course (including ECE 5930 when topic relates to electrical engineering) may be counted as an Electrical Engineering Elective.

### Math and Science Electives (select 3-7 credits)

MATH 3310	Discrete Mathematics (F,Sp,Su)	3
MATH 4200 (CI)	Foundations of Analysis (F,Sp)	3
MATH 4310 (CI)	Introduction to Algebraic Structures (F,Sp)	3
MATH 5210	Introduction to Analysis I (F)	3
MATH 5220	Introduction to Analysis II (Sp)	3
MATH 5270	Complex Variables (Sp)	3
MATH 5310	Introduction to Modern Algebra (Sp)	3
MATH 5340	Theory of Linear Algebra (F)	3
MATH 5410	Methods of Applied Mathematics (F)	3
MATH 5420	Partial Differential Equations (Sp)	3
MATH 5460	Introduction to the Theory and Application of Nonlinear Dynamical Systems (Sp)	3
MATH 5510	Introduction to Topology (Alt F)	3
MATH 5610	Computational Linear Algebra and Solution of Systems of Equations (F)	3
MATH 5620	Numerical Solution of Differential Equations (Sp)	3
MATH 5720	Introduction to Mathematical Statistics (Sp)	3
MATH 5760	Stochastic Processes (F)	3
AP Biology		4
BIOL 1610	Biology I (F)	4
BIOL 2420	Human Physiology (F,Sp,Su)	4
BIOL 3300	General Microbiology (F,Sp)	4
AP Chemistry		8
CHEM 1210	Principles of Chemistry I (F,Sp)	4
CHEM 1215	Chemical Principles Laboratory I (F,Sp)	1
CHEM 1220 (BPS)	Principles of Chemistry II (F,Sp,Su)	4
CHEM 2310	Organic Chemistry I (F)	4
CHEM 3700	Introductory Biochemistry (Sp)	3
CHEM 3710	Introductory Biochemistry Laboratory (Sp)	1
PHYS 2710	Introductory Modern Physics	3
PHYS 3550 <sup>2</sup>	Intermediate Classical Mechanics	3
PHYS 3600	Intermediate Electromagnetism	3
PHYS 3700 <sup>3</sup>	Thermal Physics	3
PHYS 3710	Intermediate Modern Physics	3
PHYS 3750	Foundations of Wave Phenomena	3
PHYS 4550	Advanced Classical Mechanics	3
PHYS 4600	Advanced Electromagnetism	3
PHYS 4650 <sup>4</sup>	Optics I	3
PHYS 4680 <sup>4</sup>	Optics II	3
PHYS 4700	Quantum Mechanics I	3
PHYS 4710	Quantum Mechanics II	3
WILD 2200 (BLS)	Ecology of Our Changing World (F,Sp)	3

### Technical Electives (select 0-4 credits)

CS 2420 (QI)	Algorithms and Data Structures—CS 3 (F,Sp,Su)	3
CS 2450 (CI)	Introduction to Software Engineering I (Sp)	3
CS 2810	Computer Systems Organization and Architecture I (F,Sp)	3
CS 3100	Operating Systems and Concurrency (F,Sp)	3
CS 3450	Introduction to Software Engineering II (F)	3
CS 4700	Programming Languages (F,Sp)	3
CS 5000	Theory of Computability (Sp)	3
CS 5050	Advanced Algorithms (F,Sp)	3
CS 5100	Graphical User Interfaces and Windows Programming (Sp)	4

CS 5200	Distributed and Network Programming (F)	4
CS 5300	Compiler Construction (F)	4
CS 5370	Advanced Software Engineering (Sp)	3
CS 5400	Computer Graphics I (Sp)	4
CS 5450	Multimedia Systems (Sp)	4
CS 5500	Parallel Programming (Sp)	3
CS 5600	AI: Problem Solving and Expert Systems (F)	3
CS 5650	CVPRIP I: Computer Vision, Pattern Recognition, and Image Processing (F)	3
CS 5700	Object-Oriented Software Development (F)	3
CS 5800	Introduction to Database Systems (F)	3
CS 5850	Systems Analysis (Sp)	3
CEE 4200	Engineering Economics (F)	2
ECE 4250	Internship/Co-op (F,Sp,Su)	3
ENGR 2010 <sup>2</sup>	Engineering Mechanics Statics (F,Sp)	2
ENGR 2030	Engineering Mechanics Dynamics (F,Sp,Su)	3
ENGR 2140	Strength of Materials (F,Sp,Su)	2
ENGR 5500	High Performance Computing for Engineers (F)	3
MAE 2160	Material Science (F,Sp)	3
MAE 2300 <sup>3</sup>	Thermodynamics I (Sp,Su)	3

<sup>2</sup>Students cannot receive credit for both Engineering Mechanics and Analytical Mechanics.  
<sup>3</sup>Students cannot receive credit for both Engineering Thermodynamics and Thermal Physics.  
<sup>4</sup>Students cannot receive credit for both ECE Optics and PHYS Optics.

## Computer Engineering

### Pre-professional Program

#### Suggested Semester Schedule

#### Freshman Year (30-31 credits)

##### Fall Semester (15-16 credits)

MATH 1210 (QL)*	Calculus I	4
CS 1400*	Introduction to Computer Science—CS 1	3
CS 1405*	Introduction to Computer Science—CS 1 Lab	(1)
ECE 1000*	Introduction to Electrical and Computer Engineering	2
University Studies	Breadth courses	6

##### Spring Semester (15 credits)

MATH 1220 (QL)*	Calculus II	4
CS 1410 (QI)*	Introduction to Computer Science—CS 2	3
PHYS 2210 (QI)*	General Physics—Science and Engineering I	4
ECE 2700*	Digital Circuits	4

#### Sophomore Year (31-32 credits)

##### Fall Semester (16 credits)

ENGL 2010 (CL2)*	Intermediate Writing: Research Writing in a Persuasive Mode	3
CS 2420 (QI)*	Algorithms and Data Structures—CS 3	3
MATH 2270 (QI)*	Linear Algebra	3
PHYS 2220 (BPS/QI)*	General Physics—Science and Engineering II	4
University Studies	Breadth course	3

##### Spring Semester (15-16 credits)

MATH 2280 (QI)*	Ordinary Differential Equations	3
MATH 3310	Discrete Mathematics	3
ECE 2250*	Electrical Circuits	4
Technical Elective course		2-3
University Studies	Breadth course	3

<sup>5</sup>Students desiring a Computer Science minor must take CS 1405 as a freshman. The rest of the minor is built into the curriculum. This lab is *not required* for the Computer Engineering major.

\*These classes are required for admission to the Professional Engineering Program (PEP). Courses are listed under the semesters in which they best fit.

# Department of Electrical and Computer Engineering

## Professional Program

### Suggested Semester Schedule

Because of the variation in schedules, it is recommended that students meet with an advisor to work out a schedule for their junior and senior years. The following courses are required for students selecting the Professional Program in Computer Engineering.

### Suggested Semester Schedule

#### Junior Year (33 credits)<sup>6</sup>

##### Fall Semester (17 credits)

CS 3100 Operating Systems and Concurrency.....	3
ECE 3620 Circuits and Signals .....	3
ECE 3710 Microcomputer Hardware and Software.....	4
ECE 3810** Engineering Professionalism.....	1
ECE 5530 Digital System Design .....	3
ENGL 3080 (CI)** Introduction to Technical Communication .....	3

##### Spring Semester (16 credits)

ECE 3410 Microelectronics I .....	4
ECE 3640 Signals and Systems.....	3
ECE 3720 Microcomputer Systems Programming.....	3
MATH 5710 Introduction to Probability.....	3
University Studies Breadth course .....	3

#### Senior Year (30-33 credits)

##### Fall Semester (16-17 credits)

ECE 4740 Computer and Data Communications .....	3
High-Level Technical Elective course .....	4
Computer Science elective course.....	4
Computer Engineering elective course.....	3
University Studies Depth Humanities and Creative Arts (DHA) course.....	2-3

##### Spring Semester (14-16 credits)

ECE 4850 (CI)** Engineering Communications .....	2
High-Level Technical Elective course .....	3-4
Math/Science elective course.....	3
University Studies Depth Social Sciences (DSS) course .....	3
ECE Capstone course*** .....	3-4

<sup>6</sup>Some of the junior classes can be delayed until the senior year, but this may limit a student's choice of electives during his or her senior year.

\*\*ENGL 3080 and ECE 3810 must be taken concurrently.

\*\*\*ECE 4850 and a capstone course must be taken during the same semester.

### Capstone Courses (select 3-4 credits)

ECE 4840 (CI) Engineering Design (F,Sp).....	3
ECE 5240 Space System Design (Sp).....	3
ECE 5340 Mobile Robots (F).....	4
ECE 5770 Microcomputer Interfacing (Sp).....	4
ECE 5930 ST: Optical Systems (F) .....	3
ECE 5930 ST: Digital Radio (ECE 5660 or 5810 should be taken concurrently) (Sp).....	3

### High-Level Technical Elective Courses

#### (select 14-17 credits)

Students must complete a total of *at least* 14 credits within high-level technical electives. Courses listed in this departmental section as Computer Engineering Electives or Computer Science Electives may be used to fulfill this requirement. Also, courses having an ECE or CS prefix, which are numbered at the 5000 level, may be used as high-level technical electives.

### Technical Elective Courses (select 20 or more credits)

#### Computer Engineering Electives (select 3-13 credits)

ECE 5320 Mechatronics (Sp).....	4
ECE 5640 Real-Time Processors (Sp).....	4
ECE 5740 Concurrent Programming (F).....	3
ECE 5750 High-Performance Microprocessor Architecture (Sp).....	3
ECE 5770 Microcomputer Interfacing (Sp).....	4
ECE 5780 Real-Time Systems (F).....	4

#### Computer Science Electives (select 4-14 credits)

CS 5100 Graphical User Interfaces and Windows Programming (Sp).....	4
CS 5200 Distributed and Network Programming (F).....	4
CS 5400 Computer Graphics I (Sp).....	4

#### Math and Science Electives (select 3-6 credits)

MATH 2210 (QI) Multivariable Calculus (F,Sp,Su).....	3
MATH 4200 (CI) Foundations of Analysis (F,Sp).....	3
MATH 4310 (CI) Introduction to Algebraic Structures (F,Sp).....	3
MATH 5210 Introduction to Analysis I (F).....	3
MATH 5220 Introduction to Analysis II (Sp).....	3
MATH 5270 Complex Variables (Sp).....	3
MATH 5310 Introduction to Modern Algebra (Sp) .....	3
MATH 5340 Theory of Linear Algebra (F) .....	3
MATH 5410 Methods of Applied Mathematics (F).....	3
MATH 5420 Partial Differential Equations (Sp) .....	3
MATH 5460 Introduction to the Theory and Application of Nonlinear Dynamical Systems (Sp).....	3
MATH 5510 Introduction to Topology (Alt F) .....	3
MATH 5610 Computational Linear Algebra and Solution of Systems of Equations (F).....	3
MATH 5620 Numerical Solution of Differential Equations (Sp) .....	3
MATH 5720 Introduction to Mathematical Statistics (Sp).....	3
MATH 5760 Stochastic Processes (F) .....	3
AP Biology .....	4
BIOL 1610 Biology I (F).....	4
BIOL 2420 Human Physiology (F,Sp,Su) .....	4
BIOL 3300 General Microbiology (F,Sp) .....	4
AP Chemistry.....	8
CHEM 1210 Principles of Chemistry I (F,Sp).....	4
CHEM 1215 Chemical Principles Laboratory I (F,Sp).....	1
CHEM 1220 (BPS) Principles of Chemistry II (F,Sp,Su) .....	4
CHEM 2310 Organic Chemistry I (F).....	4
CHEM 3700 Introductory Biochemistry (Sp).....	3
CHEM 3710 Introductory Biochemistry Laboratory (Sp) .....	1
PHYS 2710 Introductory Modern Physics .....	3
PHYS 3550 <sup>7</sup> Intermediate Classical Mechanics .....	3
PHYS 3600 Intermediate Electromagnetism.....	3
PHYS 3700 <sup>8</sup> Thermal Physics.....	3
PHYS 3710 Intermediate Modern Physics .....	3
PHYS 3750 Foundations of Wave Phenomena .....	3
PHYS 4550 Advanced Classical Mechanics .....	3
PHYS 4600 Advanced Electromagnetism .....	3
PHYS 4650 <sup>9</sup> Optics I .....	3
PHYS 4680 <sup>9</sup> Optics II .....	3
PHYS 4700 Quantum Mechanics I.....	3
PHYS 4710 Quantum Mechanics II.....	3
WILD 2200 (BLS) Ecology of Our Changing World (F,Sp).....	3

#### Technical Electives (select 0-3 credits)

CS 2450 (CI) Introduction to Software Engineering I (Sp).....	3
CS 3450 Introduction to Software Engineering II (F).....	3
CS 2810 Computer Systems Organization and Architecture I (F,Sp)....	3
CS 4700 Programming Languages (F,Sp).....	3
CEE 4200 Engineering Economics (F).....	2
ECE 4250 Internship/Co-op (F,Sp,Su).....	3

# Department of Electrical and Computer Engineering

<b>ENGR 2010</b> Engineering Mechanics Statics (F,Sp) .....	2
<b>ENGR 2030</b> Engineering Mechanics Dynamics (F,Sp,Su).....	3
<b>ENGR 2140</b> Strength of Materials (F,Sp,Su).....	2
<b>MAE 2160</b> Material Science (F,Sp) .....	3
<b>MAE 2300</b> Thermodynamics I (Sp,Su).....	3
<b>ENGR 5500</b> High Performance Computing for Engineers (F).....	3

Any upper-division (3000, 4000, or 5000 level) ECE class not required by the major may also be used as a Technical Elective course. However, specific courses must be approved in writing before the student registers for the course.

<sup>7</sup>Students cannot receive credit for both Engineering Mechanics *and* Physics Mechanics.

<sup>8</sup>Students cannot receive credit for both Engineering Thermodynamics *and* Physics Thermodynamics.

<sup>9</sup>Students cannot receive credit for both ECE Optics *and* PHYS Optics.

## Minors

Students should have all minors approved by the minor department. Minors may be filled by using the Technical Electives credits for courses in the chosen minor area. All courses required for the minors must be completed with grades of C- or better.

### Mathematics Minor

Required courses include:

<b>MATH 1210 (QL)</b> Calculus I (F,Sp,Su) .....	4
<b>MATH 1220 (QL)</b> Calculus II (F,Sp,Su) .....	4
<b>MATH 2210 (QI)</b> Multivariable Calculus (F,Sp,Su) .....	3
<b>MATH 2270 (QI)</b> Linear Algebra (F) .....	3
<b>MATH 2280 (QI)</b> Ordinary Differential Equations (Sp) .....	3

Two additional courses (6 credits) numbered above 4000, excluding MATH 4300, 4400, 4500, 5570, and 5580, are also required.

### Physics Minor

<b>PHYS 2210 (QI)</b> General Physics—Science and Engineering I .....	4
<b>PHYS 2220 (BPS/QI)</b> General Physics—Science and Engineering II .....	4

Students must also select 10 credits from PHYS 2500, 2710, and/or PHYS courses at the 3000 level and above (*not* to include PHYS courses designated as USU Depth courses).

### Computer Science Minor

A minimum of 16 credits (with a cumulative GPA of 2.5 or higher and a C- or better in each class) is required. Students must complete the following courses:

<b>CS 1400</b> Introduction to Computer Science—CS 1 (F,Sp,Su).....	3
<b>CS 1405</b> Introduction to Computer Science—CS 1 Lab (F,Sp,Su).....	1
<b>CS 1410 (QI)</b> Introduction to Computer Science—CS 2 (F,Sp,Su) .....	3
<b>CS 2420 (QI)</b> Algorithms and Data Structures—CS 3 (F,Sp,Su).....	3

Students must also complete two additional computer science classes. At least one of these two classes must be numbered at the 3000 level or above. Students should contact the Computer Science Department for information about classes that may not be used toward the Computer Science Minor.

**Other minors** should be approved by the minor department.

## Student Research Opportunities

Undergraduate students are extensively involved with research activities in the department. Electrical engineering majors and computer engineering majors have presented papers at research conferences and have won prizes. They have also designed satellites for deployment from the space shuttle. Electrical and Computer Engineering faculty members are dedicated to helping students and

providing a challenging and interesting learning atmosphere. For additional information, see the *Research* section under *Graduate Programs* (page 242).

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances of obtaining fellowships and admission to graduate school. Minimum GPA requirements for participation in departmental honors vary by department, but usually fall within the range of 3.30-3.50. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level. The campus-wide Honors Program, which is open to all qualified students regardless of major, offers a rich array of cultural and social activities, special classes, and the benefit of Honors early registration. Interested students should contact the Honors Program, Main 15, (435) 797-2715, honors@usu.edu. Additional information can be found online at: <http://www.usu.edu/honors/>

## Financial Support

Scholarships, assistantships, grants-in-aid, and work-study programs are available through the University. In addition, the department employs undergraduate and graduate students to assist in engineering research and development.

## Concurrent BS/Master's Program

The concurrent BS/Master's program allows engineering students to begin taking graduate-level classes during their senior year. This permits them to complete requirements for both the BS degree and the master's degree concurrently in five years. Students in this program have a greater selection of graduate courses, since many graduate courses are taught during alternate years. In addition, the student's senior design project could be a start for a graduate design project or thesis. Both the BS and the master's degree can generally be earned with 150 total credits. The department requires that students have a minimum GPA of 3.3, both overall and during the last 60 semester credits, in order to qualify for acceptance into the concurrent BS/Master's program. (For more information, see the *College of Engineering* section of this catalog, pages 133-134.)

## Additional Information

For more information about Bachelor of Science requirements and the sequence in which courses should be taken, see the major requirement sheet, available from the Electrical and Computer Engineering Department, or online at: <http://www.usu.edu/majorsheets/>

# Department of Electrical and Computer Engineering

## Graduate Programs

### Admission Requirements

See general admission requirements on pages 36-37. Applicants with a bachelor's degree in Electrical or Computer Engineering from an ABET accredited program and having a 3.1 GPA or better can generally be admitted without restriction. Additional coursework in electrical and computer engineering fundamentals may be required in individual cases. Students must take the general GRE exam; however, the subject GRE is not required. All graduate students are expected to have a working knowledge of a high-level computer language (preferably C or C++).

Applications may be considered throughout the year. However, students desiring financial aid should submit application materials by January 1 to be considered for the following fall semester and July 1 to be considered for the following spring semester.

**No applications will be considered until all required information arrives in the office of the School of Graduate Studies.**

### Degree Requirements

Specific requirements for the ME, MS, and PhD degrees are outlined below; these are in addition to the general requirements of the School of Graduate Studies.

#### Master of Engineering (ME) and Master of Science (MS)

The ME degree is based on coursework and is designed to give graduates a strong practical foundation. The MS degree requires substantial thesis or project work in a specific area and prepares students for advanced study or advanced work in that area. The MS degree has two options. Under Plan A, the student completes a thesis. Under Plan B, the student prepares an engineering project report.

If a student initially chooses an MS degree, changing to the ME degree is only possible by approval of the major professor, ECE graduate committee, and the department head.

The MS and ME degrees require successful completion of 30 credits of 5000-level or above coursework in a program approved by the student's supervisory committee, with the following stipulations:

#### Master of Science (Electrical Engineering)

1. At least 3 credits of ECE coursework must be completed at the 7000 level.
2. At least 12 credits of ECE coursework (excluding thesis and ECE 6800 seminar) must be completed at or above the 6000 level.
3. MS Plan A students must complete 6 credits of Thesis Research (ECE 6970).
4. MS Plan B students must complete 3 credits of Thesis Research (ECE 6970) and 3 credits of Design Project (ECE 6950).
5. No more than 15 credits of ECE 5000-level courses, Independent Study courses, or non-ECE courses may be applied toward the MS in Electrical Engineering degree.
6. MS students must have a one- to two-page, double-spaced thesis or project proposal approved by their committee when a project has been identified.

#### Master of Science (Computer Engineering)

1. At least 12 credits (excluding thesis and ECE 6800 seminar) must be completed in Electrical or Computer Engineering.
2. At least two sequences in Electrical or Computer Engineering or Computer Science, with at least one of the sequences in core Computer Engineering courses, must be completed.
3. MS Plan A students must complete 6 credits of Thesis Research (ECE 6970).
4. MS Plan B students must complete 3 credits of Thesis Research (ECE 6970) and 3 credits of Design Project (ECE 6950).
5. No more than 15 credits of ECE 5000-level courses or CS 5000-level courses, or non-ECE/CS courses, or Independent Study courses may be applied toward the MS in Computer Engineering degree.

#### Master of Engineering (Electrical Engineering or Computer Engineering Specialization)

To obtain the specialization in Electrical Engineering or Computer Engineering, at least 9 credits of ECE coursework must be taken in the desired specialization area.

1. At least 18 credits of ECE coursework must be completed at or above the 5000 level.
2. At least one ECE depth course (having a graduate-level prerequisite) is required.
3. At least 15 credits of 6000-level or above coursework (excluding ECE 6800) are required.
4. No more than 15 credits of ECE 5000-level or Independent Study courses may be applied toward the ME degree.
5. At least 3 credits of Professional Experience (ECE 6250 Internship or a lab-intensive course) are required. Only 3 credits of ECE 6250 Internship are allowed and must have prior approval.
6. A maximum of 12 credits outside of the Electrical and Computer Engineering Department may be allowed, based upon a comprehensive academic plan. Courses must be approved by the Master of Engineering advisor.

#### All Master's Students

1. One credit of ECE 6800 (Electrical Engineering Colloquium) must be completed as soon as possible.
2. Each master's student must form a committee and have a program of study approved by the end of his or her first semester.
3. Any exceptions to the master's requirements must be approved by the student's committee and the ECE Graduate Committee.

A course in technical and professional writing, or equivalent writing experience, is required for MS students prior to beginning the thesis. This may be fulfilled as a requirement for a bachelor's degree. MS students may, at the discretion of their supervisors, be required to hire an editor to bring the thesis or paper into acceptable form.

#### Doctor of Philosophy

To qualify for a PhD degree, a student is expected *either* to complete at least 51 credits of coursework beyond the requirements for a BS degree; *or* to complete at least 21 credits of coursework beyond the requirements for an MS degree, *plus* complete enough credits of dissertation research to have a total of 90 credits beyond the BS degree or 60 credits beyond the MS degree. Completion of this coursework generally requires three semesters of study beyond the

# Department of Electrical and Computer Engineering

MS degree, and allowing up to 18 credits beyond the BS degree being taken in courses outside the Electrical and Computer Engineering Department.

After a student has completed at least 18 credits of coursework beyond the MS degree, he or she must pass a comprehensive examination based on graduate-level courses, as well as pass a dissertation research proposal defense. The comprehensive examination will be given *only* after a student has applied and received permission to take the exam. Near the end of the program, the results of the original (publishable) research work will be presented and publicly defended as a dissertation.

For further information, visit the departmental website at: <http://www.engineering.usu.edu/ece/>

## Research

The department conducts extensive research through the following centers:

1. Center for Self-Organizing Intelligent Systems (CSOIS)
2. Information Dynamics Laboratory (IDL)
3. Space Dynamics Laboratory (SDL)
4. Anderson Center for Wireless Teaching and Research
5. Rocky Mountain NASA Space Grant
6. Center for Advanced Imagery LADAR (CAIL)
7. Micron Research Center
8. CHAMP

Research activities include: robotics, control systems, digital system design, computer networks, concurrent systems, antennas, space systems, image processing, digital signal processing, wireless communications, acoustics, electromagnetic compatibility, and LADAR systems.

## Financial Assistance

All applicants who are accepted academically are automatically considered for financial aid. Many successful graduate students in the department do receive some level of financial aid during their degree program.

## Electrical and Computer Engineering Faculty

### Professors

*Doran J. Baker*, electromagnetics, infrared measurements, engineering systems in space  
*H. Scott Hinton*, photonic switching  
*Todd K. Moon*, communications and signal processing  
*Charles M. Swenson*, space science and space engineering

### Adjunct Professor

*Heng-Da Cheng*, pattern recognition, image processing

### Trustee Professor Emeritus

*Kay D. Baker*, electronics, space science

### Professors Emeritus

*Robert W. Gunderson*, control systems, pattern recognition, robotics  
*Ronney D. Harris*, microwaves, transmission line circuits, atmospheric modeling  
*William L. Jones*, integrated circuits  
*Alan W. Shaw*, electromagnetics, controls, microcomputers  
*Allan J. Steed*, electro-optics, aerospace measurement systems  
*Gardiner S. "Dyke" Stiles*, concurrent systems  
*Ronald L. Thurgood*, computers, database systems

### Associate Professors

*Scott E. Budge*, signal processing, image processing  
*YangQuan Chen*, control systems  
*Jacob H. Gunther*, communications and signal processing  
*Paul A. Wheeler*, microprocessors, acoustics

### Research Associate Professors

*Paul D. Israelsen*, integrative services, digital systems design  
*Robert T. Pack*, geological and geomatics engineering

### Adjunct Associate Professors

*R. Rees Fullmer*, control systems, space engineering  
*Ronald J. Huppi*, space research  
*John C. Kemp*, robotics, electro-optics  
*Tsung-Cheng Shen*, physics  
*Gene A. Ware*, computer systems

### Associate Professor Emeritus

*Duane G. Chadwick*, remote sensors, instrumentation

### Assistant Professors

*Reyhan Baktur*, electromagnetics  
*Bedri Cetiner*, microwaves, electromagnetics  
*Koushik Chakraborty*, computer engineering  
*Aravind Dasu*, computer engineering  
*Brandon K. Eames*, computer engineering  
*Wei Ren*, controls  
*Sanghamitra Roy*, computer engineering  
*Edmund Spencer*, space science and engineering  
*Chris Winstead*, analog VLSI

### Principal Lecturers

*Fon R. Brown*, networking  
*Donald L. Cripps*, control systems, robotics

### Research Assistant Professor

*Hui Fang Dou*, precision instruments, mechatronics

### Adjunct Assistant Professor

*Patric L. Patterson*, space research

### Adjunct Research Assistant Professor

*Randy J. Jost*, electromagnetic fields, solid state, microwaves

chad.downs@usu.edu

Janey Stoddard, RCDE Advising Coordinator, Education 376,  
(435) 797-2224, janey.stoddard@usu.edu

Shelly Wiegand, Education 375, (435) 797-0383,  
shelly.wiegand@usu.edu

**Degrees offered:** Bachelor of Science (BS), Bachelor of Arts (BA), Master of Science (MS), Master of Arts (MA), Master of Education (MEd), and Educational Specialist (EdS) in Elementary Education; BS and BA in Early Childhood Education; Kindergarten through Grade 6 (K-6) Licensure Program. The School of TEAL administers the Doctor of Education (EdD) and Doctor of Philosophy (PhD) programs, with a Curriculum and Instruction specialization.

**Graduate specializations:** MA, MS, MEd—Early Childhood Education; Educational Leadership; ESL Education; Gifted and Talented Education; Math and Science Education; Middle Education; Reading, Writing, and Language Arts; and Social Studies Education

## Undergraduate Programs

### Objectives

The purposes of the Elementary Education Program are:

1. To develop professional educators;
2. To advance knowledge in the field of education.

These purposes are realized through teaching, scholarly activities, and service. The program provides leadership in the preparation of teachers, supervisors, curriculum specialists, and other professional personnel for careers in elementary education, early childhood education, and middle education.

The Elementary Education Program at Utah State University offers nine programs leading to licensure as a teacher. In the following list, each program name is followed by the licensure obtained (shown in parentheses). (1) Elementary Education (grades 1 through 6); (2) Early Childhood Education (preschool through grade 3); (3) Elementary Education K-6 (kindergarten through grade 6); (4) Elementary and Early Childhood Education (preschool through grade 6); (5) Composite Elementary Education/Special Education—Mild/Moderate (grades 1 through 6, K through 6, and Special Education grades kindergarten through 12); (6) Composite Elementary Education/Special Education—Severe (grades 1 through 6, K through 6, and Special Education grades kindergarten through 12); (7) Composite Early Childhood Education/Special Education—Early Childhood (preschool through grade 3, and Special Education birth through age 5); (8) Composite Elementary Education/Deaf Education (grades 1-6, K through 6, and Master's in Deaf Education); (9) Composite Early Childhood Education/Deaf Education (preschool through grade 3, and Master's in Deaf Education).

### Undergraduate Research

Undergraduate research opportunities are available with many departmental faculty members. Interested students should contact Francine Johnson, Associate Dean in the Emma Eccles Jones College of Education and Human Services, (435) 797-2714, francine.johnson@usu.edu.

### Assessment

To review Elementary Education Program assessment information, visit: <http://www.teal.usu.edu/htm/eled/assessment/>

### University Studies Requirements

Elementary Education Majors and Early Childhood Education Majors are required to take certain classes to fulfill the University Studies requirements. The following sections list the specific courses to choose from:

#### Computer and Information Literacy (0-3 credits)

Passing grade on six computer and information literacy related examinations. Although no specific course is required, USU 1000 and OSS 1400 teach the required skills.

#### Quantitative Literacy (QL) (3 credits)

(A grade lower than a C- will not be accepted in these courses.)

**STAT 1040 (QL)** Introduction to Statistics (F,Sp,Su) ..... 3  
(MATH 1050 or Math ACT score of 25 or higher is required to apply to the Teacher Education Program.)

#### Breadth Requirements (18-19 credits)

Choose one course from the following to meet the BAI requirement:  
ECN 1500, HIST 2700, POLS 1100, USU 1300 ..... 3

Choose one course from the following to meet the BCA requirement:  
MUSC 1010, USU 1330 ..... 3

Choose one course from the following to meet the BHU requirement:  
ANTH 2210, HIST 1110, HIST 1510, PHIL 1000, PHIL 1120,  
PHIL 1200, PHIL 2400, USU 1320 ..... 3

Choose one course from the following to meet the BSS requirement:  
ANTH 1010, ANTH 2010, ASTE 2900, ENVS 2340, GEOG 1300,  
GEOG 1400, JCOM 1500, NR 1010, POLS 2200, SOC 1010,  
USU 1340 ..... 3

# Elementary Education Program, School of Teacher Education and Leadership

Choose one course from the following to meet the BLS requirement:  
 BIOL 1010, NFS 1020, PLSC 2100, USU 1350, WATS 1200,  
 WILD 2200 ..... 3

Choose one course from the following to meet the BPS requirement:  
 CHEM 1010, CLIM 2000, GEO 1010, GEO 1110, GEOG 1000,  
 PHYS 1040, SOIL 2000, USU 1360 ..... 3

### Exploration Requirement (3-4 credits)

Students in the Elementary and Early Childhood Education majors should fulfill this requirement by completing PHYS 1200 (BPS).

### Depth Education Requirements

#### Communications Intensive (CI) (2 courses) (included in major)

**ELED 3000 (CI)** Foundation Studies and Practicum in Teaching and Classroom Management Level II (F,Sp) ..... 4-6  
**ELED 4030 (CI)** Teaching Language Arts and Practicum Level III (F,Sp,Su) ..... 3

#### Quantitative Intensive (QI) (1 course)

(A grade lower than a C- will not be accepted in this course.)  
**MATH 2020 (QI)**<sup>1</sup> Introduction to Logic and Geometry (F,Sp,Su) ..... 3

#### Depth Course Requirements (4 credits minimum)

Complete at least 4 credits in approved University Studies depth courses designated DSC, DHA, or DSS (outside of area of emphasis).

<sup>1</sup>Prerequisite: MATH 1050, Math ACT score of 25 or higher, or Math SAT score of 580 or higher (also required to apply to the Teacher Education Program).

## Requirements

### Provisional Admission Process and Requirements

More students major in Elementary Education at USU than in any other major. Therefore, competition for admission into the program is very keen. Due to increased demands for admission, coupled with limited resources, a ceiling of 180 students has been placed on admissions each year. Thus, admission to USU does not necessarily guarantee admission into the Elementary Education Program.

Provisional admission to the Elementary and Early Childhood Teacher Education Program is determined by (1) the student's GPA in a set of core courses, (2) ACT scores or PPST test results, (3) the number of credits a student has taken, and (4) successful completion of a group assessment interview. (Additional factors to be weighted may be gender and/or minority status consistent with applicable law.) Additional requirements for application to the program are the CIL (Computer and Information Literacy) exams, a speech and hearing test, a Teacher Education Writing Exam, and a background check through the Utah State Office of Education. Applications are accepted each semester. Because there are typically more applicants than there is space available, the number accepted is limited. **Students who are not accepted may reapply.** Provisional admission requires formal action by the Office of the Dean of the Emma Eccles Jones College of Education and Human Services, as well as by the student's department.

Admission to the Teacher Education Program is a prerequisite for enrollment in the major, starting with Level II. A student desiring admission to the Teacher Education Program should file an application in the Elementary Education Office, located in room 373 of the Emma Eccles Jones Education Building.

### Elementary Education SODIA Program

The acronym SODIA represents the Elementary Education Teacher Education Program. The name is derived from the initial letter of descriptive words (Self, Others, Discipline, Implementation, and Application) which represent emphasis placed at each level of the program.

The elementary education SODIA program is performance-based and field-centered. It utilizes public schools as partners in each phase of the Teacher Education Program. SODIA is an interdisciplinary and interdepartmental program utilizing staff members from the Departments of Psychology; Special Education and Rehabilitation; Family, Consumer, and Human Development; Health, Physical Education and Recreation; Music; Art; Theatre Arts; and Instructional Technology and Learning Sciences who work in conjunction with the Elementary Education Program. These University faculty members work with teachers and principals of cooperating public schools and the Edith Bowen Laboratory School on the USU campus in an integrated program.

**Level I, Self**, is represented by the "S" in the acronym SODIA. This includes the first-level course (ELED 1010) introducing the teacher training program at USU, exploring teaching as a career field (with emphasis on the INTASC standards), and emphasizing the student's self-assessment in relation to his or her ability and desire to teach. A minimum of 15 hours is spent observing in an elementary or middle school classroom, completing volunteer service in other community settings, and participating in personal development activities. In addition, a human growth and development course (FCHD 1500) is required. The two courses in Level I are prerequisites to applying to the Teacher Education Program.

**Level II, Others**, is represented by the "O" in the acronym SODIA. This stands for the many "others" who make up the education community or who have a vested interest in the education community. During the Level II semester, students take interdisciplinary coursework in the social foundations of education, educational psychology, special education, instructional technology, and their first course in teaching reading. Additionally, they are assigned as teacher assistants in elementary school classrooms. Entrance to Level II requires prior admission to the Teacher Education Program.

**Level III, Disciplines**, is represented by the "D" in the acronym SODIA. This stands for the disciplines that comprise the elementary curriculum. During the Level III semester, students take 16 credits of methods coursework, including reading, social studies, language arts, mathematics, science, and classroom management. Students apply what they have learned in this coursework during a five-week practicum.

**Level IV, Implementation**, is represented by the "I" in the acronym SODIA. This is the student teaching phase of the program. Student teaching constitutes full days of actual teaching experience for the entire semester.

**Level V, Application**, is represented by the "A" in the acronym SODIA. At this level, graduates of the program make a transition into the profession of teaching.

National INTASC Principles also receive major emphasis through SODIA's levels of progression. These principles are: Content Pedagogy, Student Development, Diverse Learners, Critical Thinking, Motivation and Management, Communication, Planning, Assessment, Professional Development, and School/Community Development. A student performance portfolio process (based around the INTASC Principles) is also included.

# Elementary Education Program, School of Teacher Education and Leadership

## Continuing Status Requirements

A minimum GPA of 2.75 is required to remain in good standing and to graduate from the program.

All students majoring in Elementary Education must be registered in the Emma Eccles Jones College of Education and Human Services. An advisor will be assigned from the Elementary Education Program. Programs of professional education courses, as well as teaching support courses and an area of emphasis, have been developed by the Elementary Education Program and approved by the Council on Teacher Education and the Utah State Office of Education. For a complete description of the program and requirements for graduation and licensure, students should visit the Elementary Education Program website: <http://www.teal.usu.edu/htm/eled/>

Prior to applying for student teaching, students are *required* to take and pass the Praxis II content test (10014) with a score of 150 or higher.

Each student completes a professional semester of student teaching. An application for student teaching must be made at least one semester in advance, and credentials are reevaluated at that time. Since not all student teachers can be accommodated by the schools located within Cache Valley, placements are made on a first-come, first-served basis. Students should be financially prepared to spend that time off campus in the event such an arrangement is necessary. Students must be responsible for their own transportation.

Students who carefully select their elective courses may also qualify for a special endorsement to the basic professional teaching license. Additional Praxis exams may be necessary for teaching minors and endorsements. All students complete an area of emphasis in a subject matter field, in addition to the teaching support courses. Information concerning special endorsements and additional areas of specialization may be obtained from the Elementary Education Program.

Students who have teaching licenses in areas other than elementary education may obtain the elementary license by meeting the same or equivalent requirements for licensure expected of an elementary education major. Those desiring to acquire a dual license should work with an advisor from the Elementary Education Program.

All courses listed as major subject courses must be taken on an *A-B-C-D-F* basis and the grade point average for these courses must be 2.75 or better. Major subject courses passed with less than a *C* grade must be repeated.

## Course Requirements

### Elementary Education Major (78-80 credits) (includes Teaching Support Courses and Emphasis)

Students majoring in Elementary Education should complete all the following courses as indicated.

**Note:** Teaching License requires 2.75 cumulative Grade Point Average (GPA). (Grades lower than a *C* will not be accepted in the major.)

#### Level I (6 credits) (2.75 GPA required in Level I courses)

ELED 1010 Orientation to Elementary Education (F,Sp,Su) ..... 3  
FCHD 1500 (BSS) Human Development Across the Lifespan (F,Sp) ... 3

#### Level II (17 credits) (courses taken concurrently)

Students must be admitted to the Teacher Education Program prior to taking these classes.

ELED 3000 (CI) Foundation Studies and Practicum in Teaching and Classroom Management Level II (F,Sp)..... 6  
ELED 3005 Beginning Classroom Management (F,Sp) ..... 1  
SPED 4000 Education of Exceptional Individuals (F,Sp,Su) ..... 2  
PSY 3660 Educational Psychology for Teachers (F,Sp)..... 2  
INST 4010 Principles and Practices of Technology for Elementary Teachers (F,Sp) ..... 3  
ELED 3100<sup>2</sup> Classroom Reading Instruction (F,Sp,Su) ..... 3

<sup>2</sup>ELED 3100 may be taken after Level II, but is required before Level III.

#### Level III (16 credits; must follow Level II) (courses taken concurrently)

ELED 4000 Teaching Science and Practicum Level III (F,Sp,Su) ..... 3  
ELED 4005 Intermediate Classroom Management (F,Sp,Su)..... 1  
ELED 4030 (CI) Teaching Language Arts and Practicum Level III (F,Sp,Su) ..... 3  
ELED 4040 (CI) Assessment and Instruction for Struggling Readers (F,Sp,Su) ..... 3  
ELED 4050 Teaching Social Studies and Practicum Level III (F,Sp,Su) ..... 3  
ELED 4060 Teaching Mathematics and Practicum Level III (F,Sp,Su)..... 3

#### Level IV (15 credits; must follow Level III)

ELED 5100 Student Teaching—Primary Grades (1-3) (F,Sp) ..... 6  
ELED 5150 Student Teaching—Elementary (Grades 4-6) (F,Sp) ..... 6  
ELED 5250 Student Teaching—Seminar: Classroom Management (F,Sp)..... 3

#### Teaching Support Courses (Elementary Education Major, 13-15 credits; Early Childhood and Elementary Education Dual Major, 10-11 credits) (Grade of C- or better is required.) Required Courses (5 credits)

MUSC 3260 Elementary School Music (F,Sp,Su) ..... 2  
PEP 3050 Physical Education in the Elementary School (F,Sp,Su) ..... 3

#### Teaching Support Electives (two or three courses, depending on major)

Choose *one* course from the following:  
HEP 2000 First Aid and Emergency Care (F,Sp,Su) ..... 2  
HEP 2500 Health and Wellness (F,Sp,Su) ..... 2  
HEP 3000 Drugs and Human Behavior (F,Su) ..... 3  
HEP 3500 Elementary School Health Education (F,Sp)..... 2

From the following, Elementary Education Majors choose *two* courses; Early Childhood and Elementary Education Dual Majors choose *one* course:

ART 3700 Elementary Art Methods (F,Sp) ..... 3  
ELED 4410 Gifted Education in the Regular Classroom (F,Sp) ..... 3  
ELED 4480 Early Childhood Education Kindergarten through Grade 3 (F,Sp)..... 3  
ELED 4710 Diversity in Education (F,Sp)..... 3  
ENGL 3530 Children's Literature (Sp)..... 3  
ENVS 5110 Environmental Education (Sp) ..... 3  
FCHD 2610 Child Guidance (F,Sp) ..... 3  
TEAL 4730 Educational Linguistics (F) ..... 3  
TEAL 4745 Second Language Acquisition in the Classroom (Sp)..... 3  
THEA 4030 (DHA) Storytelling (F,Sp,Su)..... 3  
THEA 4330 Drama and Theatre for Youth: Grades K-6 (F,Sp,Su) ..... 3

# Elementary Education Program, School of Teacher Education and Leadership

## Emphasis (12 credits) (C- or better required)

Available Emphasis areas are shown below. For a listing of required and recommended courses, students should contact their advisor.

## Early Childhood Education Major (80 credits) or Elementary Education K-6 Licensure Program (79 credits)

(includes Teaching Support Courses and Emphasis)

Note: Grades lower than a C will not be accepted toward major requirements.

### Level I (6 credits) (2.75 GPA required in Level I courses)

ELED 1010 Orientation to Elementary Education (F,Sp,Su)	3
FCHD 1500 (BSS) Human Development Across the Lifespan (F,Sp)	3

### Level II (14 credits) (courses taken concurrently)

Students must be admitted to the Teacher Education Program prior to taking these classes.

ELED 3000 (CI) Foundation Studies and Practicum in Teaching and Classroom Management Level II (F,Sp)	4
ELED 3005 Beginning Classroom Management (F,Sp)	1
FCHD 2600 Seminar in Early Childhood Education (F,Sp)	2
FCHD 2630 Practicum in Early Childhood Education (F,Sp)	2
PSY 3660 Educational Psychology for Teachers (F,Sp)	2
ELED 3100 Classroom Reading Instruction (F,Sp,Su)	3

(ELED 3100 may be taken during transition semester, if desired.)

### Transition (11 credits)

SPED 4000 Education of Exceptional Individuals (F,Sp,Su)	2
INST 4010 Principles and Practices of Technology for Elementary Teachers (F,Sp,Su)	3
FCHD 4550 <sup>3</sup> Preschool Methods and Curriculum (F,Sp)	3
ELED 4480 <sup>3</sup> Early Childhood Education Kindergarten through Grade 3 (F,Sp)	3

### Level III (16 credits; must follow Level II) (courses taken concurrently during fall, spring, or summer semester)

ELED 4000 Teaching Science and Practicum Level III	3
ELED 4005 Intermediate Classroom Management	1
ELED 4030 (CI) Teaching Language Arts and Practicum Level III	3
ELED 4040 (CI) Assessment and Instruction for Struggling Readers	3
ELED 4050 Teaching Social Studies and Practicum Level III	3
ELED 4060 Teaching Mathematics and Practicum Level III	3

### Level IV (21 credits for Early Child. Educ. or 23 credits for K-6) (taken during two semesters)

ELED 5050 <sup>4</sup> Student Teaching—Kindergarten (F,Sp)	6
ELED 5100 <sup>4</sup> Student Teaching—Primary Grades (1-3) (F,Sp) (for Early Childhood Education majors) (6 cr) or	
ELED 5150 <sup>4</sup> Student Teaching—Elementary (Grades 4-6) (F,Sp) (for Dual majors) (6 cr)	6
ELED 5250 <sup>4</sup> Student Teaching—Seminar: Classroom Management (F,Sp)	3
FCHD 4960 <sup>5</sup> Practice Teaching in Child Development Laboratories (F,Sp)	3 (for K-6) or 6 (for Early Child. Educ.)
MUSC 3260 Elementary School Music (F,Sp,Su) (required for K-6 program <i>only</i> )	(2)
PEP 3050 Physical Education in the Elementary School (F,Sp,Su) (required for K-6 program <i>only</i> )	(3)

<sup>3</sup>Level II must be completed prior to taking this course.

<sup>4</sup>Level III and ELED 4480 must be completed prior to taking this course.

<sup>5</sup>FCHD 4550 must be completed prior to taking this course.

## Emphasis (9 credits for Elementary Education K-6 Licensure Program, 12 credits for Early Childhood Education Major) (C- or better required)

A listing of available Emphasis areas is shown below. For a listing of required and recommended courses, students should contact their advisor.

### Electives (to complete 120 credits)

The following courses are recommended to be taken as electives.

ART 3700 Elementary Art Methods (F,Sp)	3
MUSC 3260 Elementary School Music (F,Sp,Su)	2
PEP 3050 Physical Education in the Elementary School (F,Sp,Su)	3
HEP 3500 Elementary School Health Education (F,Sp)	2
FCHD 2610 Child Guidance (F,Sp)	3

## Elementary/Early Childhood Areas of Emphasis

Students majoring in Elementary Education or Early Childhood Education are required to complete an area of Emphasis. All students majoring in Elementary Education or Early Childhood Education must complete an area of Emphasis consisting of 9-12 credits. (For the K-6 Licensure Program 9 credits are required, while 12 credits are required for all other programs.) The area of Emphasis must be chosen from the following fields: Language Arts, Social Studies, Mathematics, Mathematics/General Science, General Science, Fine Arts, Art, Music, Physical Education, Health/Wellness/ Nutrition, School Library Media, a Foreign Language, or an English as a Second Language (ESL) Endorsement.

## Composite Elementary Education and Special Education Major

### Elementary Education Major (65 credits) (includes Teaching Support Courses)

Students should complete all of the following courses as indicated.

Note: Teaching licensure requires a 2.75 cumulative grade point average (GPA). (Grades lower than a C will not be accepted toward the major.)

### Level I (6 credits) (2.75 GPA required in Level I courses)

ELED 1010 Orientation to Elementary Education (F,Sp,Su)	3
FCHD 1500 (BSS) Human Development Across the Lifespan (F,Sp)	3

### Level II (courses taken concurrently during spring semester) (17 credits)

Students must be admitted to the Teacher Education Program prior to taking these classes.

ELED 3000 (CI) Foundation Studies and Practicum in Teaching and Classroom Management Level II	6
ELED 3005 Beginning Classroom Management	1
SPED 4000 Education of Exceptional Individuals	2
PSY 3660 Educational Psychology for Teachers	2
SPED 5530 Technology for Teaching Exceptional Learners	3
ELED 3100 Classroom Reading Instruction	3

### Level III (courses taken concurrently during fall, spring, or summer semester) (16 credits)

ELED 4000 Teaching Science and Practicum Level III	3
ELED 4005 Intermediate Classroom Management	1
ELED 4030 (CI) Teaching Language Arts and Practicum Level III	3
ELED 4040 (CI) Assessment and Instruction for Struggling Readers	3
ELED 4050 Teaching Social Studies and Practicum Level III	3
ELED 4060 Teaching Mathematics and Practicum Level III	3

# Elementary Education Program, School of Teacher Education and Leadership

## Level IV (15 credits) (taken during fall or spring semester)

ELED 5100 Student Teaching—Primary Grades (1-3) (6 cr) or	
ELED 5150 Student Teaching—Elementary (Grades 4-6) (6 cr).....	6
SPED 5210 (CI) <sup>6</sup> Student Teaching in Special Education:	
Dual Majors .....	6
ELED 5250 Student Teaching—Seminar: Classroom Management.....	3

<sup>6</sup>Students must complete Special Education major coursework prior to student teaching.

## Teaching Support Courses

MUSC 3260 Elementary School Music (F,Sp,Su) .....	2
PEP 3050 Physical Education in the Elementary School (F,Sp,Su).....	3
COMD 2910 (CI) <sup>7</sup> Sign Language I (F,Sp,Su) .....	4
HEP 2000 <sup>7</sup> First Aid and Emergency Care (F,Sp,Su).....	2

<sup>7</sup>Required for Special Education—Severe specialization only.

## Special Education Major (33 or 29 credits)

Students should choose *either* the **Mild/Moderate** specialization or the **Severe** specialization.

Students must be admitted to the Special Education program prior to taking these courses.

### Mild/Moderate Specialization (33 credits)

#### Fall:

SPED 5010 (QI) Applied Behavioral Analysis 1: Principles, Assessment, and Analysis.....	3
SPED 5040 Foundations of Effective Assessment and Instructional Practices .....	3
SPED 5070 Policies and Procedures in Special Education .....	3
SPED 5310 Teaching Reading and Language Arts to Students with Mild/Moderate Disabilities .....	4
SPED 5330 Eligibility Assessment for Students with Mild/Moderate Disabilities .....	1
SPED 5410 Practicum: Direct Instruction Reading and Language Arts for Students with Mild/Moderate Disabilities .....	3

#### Spring:

SPED 5050 Applied Behavioral Analysis 2: Applications .....	3
SPED 5060 Consulting with Parents and Teachers .....	3
SPED 5320 Teaching Content Areas and Transition to Students with Mild/Moderate Disabilities .....	3
SPED 5340 Teaching Math to Students with Mild/Moderate Disabilities .....	3
SPED 5420 Practicum: Teaching Mathematics to Students with Mild/Moderate Disabilities .....	4

### Severe Specialization (29 credits)

#### Fall:

SPED 5010 (QI) Applied Behavioral Analysis 1: Principles, Assessment, and Analysis.....	3
SPED 5040 Foundations of Effective Assessment and Instructional Practices .....	3
SPED 5070 Policies and Procedures in Special Education .....	3
SPED 5510 Curriculum for Students with Severe Disabilities.....	4
SPED 5600 Practicum: Introduction to Instruction of Students with Severe Disabilities.....	3

#### Spring:

SPED 5050 Applied Behavioral Analysis 2: Applications.....	3
SPED 5060 Consulting with Parents and Teachers .....	3
SPED 5520 Curriculum for Secondary-Level Students with Severe Disabilities .....	3
SPED 5610 Practicum: Advanced Systematic Instruction of Students with Severe Disabilities .....	4

## Composite Early Childhood Education and Special Education—Early Childhood Major

### Early Childhood Education Major (68 credits)

Students should complete all of the following courses as indicated.

**Note:** Teaching licensure requires a 2.75 cumulative grade point average (GPA). (Grades lower than a C will not be accepted toward the major.)

#### Level I (6 credits) (2.75 GPA required in Level I courses)

ELED 1010 Orientation to Elementary Education (F,Sp,Su) .....	3
FCHD 1500 (BSS) Human Development Across the Lifespan (F,Sp)...	3

#### Level II (courses taken concurrently during fall or spring semester) (14 credits)

Students must be admitted to the Teacher Education Program prior to taking these classes.

ELED 3000 (CI) Foundation Studies and Practicum in Teaching and Classroom Management Level II (F,Sp) .....	4
ELED 3005 Beginning Classroom Management (F,Sp) .....	1
FCHD 2600 Seminar in Early Childhood Education (F,Sp) .....	2
FCHD 2630 Practicum in Early Childhood Education (F,Sp).....	2
PSY 3660 Educational Psychology for Teachers (F,Sp).....	2
ELED 3100 Classroom Reading Instruction (F,Sp,Su).....	3

#### Transition (11 credits)

SPED 4000 Education of Exceptional Individuals (F,Sp,Su) .....	2
SPED 5530 Technology for Teaching Exceptional Learners (Sp <i>only</i> )..	3
FCHD 4550 <sup>8</sup> Preschool Methods and Curriculum (F,Sp) .....	3
ELED 4480 <sup>8</sup> Early Childhood Education Kindergarten through Grade 3 (F,Sp).....	3

#### Level III (courses taken concurrently during fall, spring, or summer semester) (16 credits)

ELED 4000 Teaching Science and Practicum Level III .....	3
ELED 4005 Intermediate Classroom Management.....	1
ELED 4030 (CI) Teaching Language Arts and Practicum Level III.....	3
ELED 4040 (CI) Assessment and Instruction for Struggling Readers...	3
ELED 4050 Teaching Social Studies and Practicum Level III .....	3
ELED 4060 Teaching Mathematics and Practicum Level III.....	3

#### Level IV (courses taken during two semesters, fall and spring) (21 credits)

ELED 5250 <sup>9</sup> Student Teaching—Seminar: Classroom Management....	3
ELED 5050 <sup>9</sup> Student Teaching—Kindergarten.....	3
ELED 5100 <sup>9</sup> Student Teaching Primary Grades (1-3) .....	6
SPED 5210 (CI) <sup>9</sup> Student Teaching in Special Education:	
Dual Majors .....	6
FCHD 4960 <sup>10</sup> Practice Teaching in Child Development Laboratories ...	3

<sup>8</sup>Level II must be completed prior to taking this course.

<sup>9</sup>Level III, Special Education major, and ELED 4480 must be completed prior to taking this course.

<sup>10</sup>FCHD 4550 must be completed prior to taking this course.

## Special Education—Early Childhood Major (31 credits)

Students must be admitted to the Special Education program prior to taking these courses.

#### Fall:

SPED 5010 (QI) Applied Behavioral Analysis 1: Principles, Assessment, and Analysis.....	3
SPED 5040 Foundations of Effective Assessment and Instructional Practices.....	3

# Elementary Education Program, School of Teacher Education and Leadership

SPED 5070 Policies and Procedures in Special Education .....	3
SPED 5730 Intervention Strategies for Young Children with Disabilities .....	3
SPED 5820 Preschool Practicum with Young Children with Disabilities in Community Environments .....	4
SPED 5840 Seminar: Preschool Practicum with Young Children with Disabilities .....	2
<b>Spring:</b>	
SPED 5050 Applied Behavioral Analysis 2: Applications .....	3
SPED 5060 Consulting with Parents and Teachers .....	3

SPED 5810 Seminar and Field Experiences with Infants and Families .....	4

## Composite Elementary Education and Deaf Education Major

### Elementary Education Major (61 credits) (includes Teaching Support Courses)

Students should complete all of the following courses as indicated.

**Note:** Teaching licensure requires a 2.75 cumulative grade point average (GPA). (Grades lower than a C will not be accepted toward the major.)

#### Level I (6 credits) (2.75 GPA required in Level I courses)

ELED 1010 Orientation to Elementary Education (F,Sp,Su) .....	3
FCHD 1500 (BSS) Human Development Across the Lifespan (F,Sp) ...	3

#### Level II (courses taken concurrently during fall or spring semester) (17 credits)

Students must be admitted to the Teacher Education Program prior to taking these classes.

ELED 3000 (CI) Foundation Studies and Practicum in Teaching and Classroom Management Level II .....	6
ELED 3005 Beginning Classroom Management .....	1
SPED 4000 Education of Exceptional Individuals .....	2
PSY 3660 Educational Psychology for Teachers .....	2
INST 4010 Principles and Practices of Technology for Elementary Teachers .....	3
ELED 3100 Classroom Reading Instruction .....	3

#### Level III (courses taken concurrently during fall, spring, or summer semester) (16 credits)

ELED 4000 Teaching Science and Practicum Level III .....	3
ELED 4005 Intermediate Classroom Management (F,Sp,Su) .....	1
ELED 4030 (CI) Teaching Language Arts and Practicum Level III .....	3
ELED 4040 (CI) Assessment and Instruction for Struggling Readers ...	3
ELED 4050 Teaching Social Studies and Practicum Level III .....	3
ELED 4060 Teaching Mathematics and Practicum Level III .....	3

#### Level IV (Student Teaching—taken during Master’s Program)

#### Teaching Support Courses

MUSC 3260 Elementary School Music (F,Sp,Su) .....	2
PEP 3050 Physical Education in the Elementary School (F,Sp,Su) .....	3
HEP 3500 Elementary School Health Education (F,Sp) .....	2

## Deaf Education Requirements (47-49 credits)

COMD 2500 Language, Speech, and Hearing Development (F,Sp) .....	3
COMD 2910 (CI) Sign Language I (F,Sp,Su) .....	4
COMD 3080 American Sign Language Practicum (F,Sp) .....	1-3
COMD 3910 Sign Language II (F,Sp,Su) .....	4
COMD 5610 Introduction to Education of the Deaf and Hard of Hearing (F) .....	3

**Note:** COMD 2500, 2910, 3910, and 5610 should be completed prior to the Deaf Education blocks.

#### Fall:

COMD 4750 Teaching the English Language to Individuals who are Deaf and Hard of Hearing .....	3
COMD 4770 Audiology and Teachers of Children who are Deaf and Hard of Hearing .....	3
COMD 4780 Socio-Cultural Aspects of Deafness .....	3
COMD 4910 (CI) Sign Language III .....	4
COMD 5740 Teaching Reading to Deaf and Hard of Hearing Children .....	3

#### Spring:

COMD 4630 Teaching Speech to Deaf and Hard of Hearing Children .....	3
COMD 4790 Psychological Principles and Individuals who are Deaf and Hard of Hearing .....	3
COMD 4920 Sign Language IV .....	4
COMD 5600 Classroom Teaching Using American Sign Language .....	3
COMD 5620 Teaching School Subjects to Students who are Deaf and Hard of Hearing .....	3

## Composite Early Childhood Education and Deaf Education Major

### Early Childhood Education Major (50 credits)

Students should complete all of the following courses as indicated.

**Note:** Teaching licensure requires a 2.75 cumulative grade point average (GPA). (Grades lower than a C will not be accepted toward the major.)

#### Level I (6 credits) (2.75 GPA required in Level I courses)

ELED 1010 Orientation to Elementary Education (F,Sp,Su) .....	3
FCHD 1500 (BSS) Human Development Across the Lifespan (F,Sp) ...	3

#### Level II (courses taken concurrently during fall or spring semester) (14 credits)

Students must be admitted to the Teacher Education Program prior to taking these classes.

ELED 3000 (CI) Foundation Studies and Practicum in Teaching and Classroom Management Level II .....	4
ELED 3005 Beginning Classroom Management .....	1
ELED 3100 Classroom Reading Instruction .....	3
FCHD 2600 Seminar in Early Childhood Education .....	2
FCHD 2630 Practicum in Early Childhood Education .....	2
PSY 3660 Educational Psychology for Teachers .....	2

#### Transition (11 credits)

SPED 4000 Education of Exceptional Individuals .....	2
INST 4010 Principles and Practices of Technology for Elementary Teachers .....	3
FCHD 4550 <sup>11</sup> Preschool Methods and Curriculum .....	3
ELED 4480 <sup>11</sup> Early Childhood Education Kindergarten through Grade 3 .....	3

# Elementary Education Program, School of Teacher Education and Leadership

## Level III (courses taken concurrently during fall, spring, or summer semester) (19 credits)

ELED 4000 Teaching Science and Practicum Level III .....	3
ELED 4005 Intermediate Classroom Management (F,Sp,Su) .....	1
ELED 4030 (CI) Teaching Language Arts and Practicum Level III .....	3
ELED 4040 (CI) Assessment and Instruction for Struggling Readers ...	3
ELED 4050 Teaching Social Studies and Practicum Level III .....	3
ELED 4060 Teaching Mathematics and Practicum Level III .....	3
FCHD 4960 Practice Teaching in Child Development Laboratories .....	3

<sup>11</sup>Level II must be completed prior to taking this course.

## Deaf Education Requirements (47-49 credits)

COMD 2500 Language, Speech, and Hearing Development (F,Sp) .....	3
COMD 2910 (CI) Sign Language I (F,Sp,Su) .....	4
COMD 3080 American Sign Language Practicum (F,Sp) .....	1-3
COMD 3910 Sign Language II (F,Sp,Su) .....	4
COMD 5610 Introduction to Education of the Deaf and Hard of Hearing (F) .....	3

**Note:** COMD 2500, 2910, 3910, and 5610 should be completed prior to the Deaf Education blocks.

### Fall:

COMD 4750 Teaching the English Language to Individuals who are Deaf and Hard of Hearing .....	3
COMD 4770 Audiology and Teachers of Children who are Deaf and Hard of Hearing .....	3
COMD 4780 Socio-Cultural Aspects of Deafness .....	3
COMD 4910 (CI) Sign Language III .....	4
COMD 5740 Teaching Reading to Deaf and Hard of Hearing Children .....	3

### Spring:

COMD 4630 Teaching Speech to Deaf and Hard of Hearing Children .....	3
COMD 4790 Psychological Principles and Individuals who are Deaf and Hard of Hearing .....	3
COMD 4920 Sign Language IV .....	4
COMD 5600 Classroom Teaching Using American Sign Language .....	3
COMD 5620 Teaching School Subjects to Students who are Deaf and Hard of Hearing .....	3

## Endorsements

The USU Elementary Education Program and Secondary Education Program jointly offer a K-12 English as a Second Language (ESL) Endorsement, as well as a Middle-Level Math Endorsement. Graduate endorsements are also available in Early Childhood Education, ESL, Reading, Gifted and Talented, and Middle-Level Education.

## Suggested Four-year Plans

Suggested semester-by-semester four-year plans for students working toward bachelor's degrees within the Elementary Education Program of the School of TEAL can be found at:

<http://www.usu.edu/degreeplans/>

These plans are models of the requirements and possible sequences of courses. However, students may progress through their program or have more flexibility if they have high ACT scores, CLEP credit, concurrent enrollment credit, AP credit, and/or transfer credit; or if they attend during summer semesters.

Students should consult with their advisor to develop a plan of study tailored to their individual circumstances.

## Departmental Honors

Students having majors within the Elementary Education Program may choose to add breadth and depth to their regular course offerings by enrolling in the departmental honors program. A cumulative GPA above 3.5 is required for enrollment.

Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level.

For additional information about departmental honors within the Elementary Education Program, contact Deborah Byrnes, (435) 797-0396, [deborah.byrnes@usu.edu](mailto:deborah.byrnes@usu.edu).

## Additional Information

For more information concerning requirements for University graduation and for basic professional teaching licensure in elementary education, early childhood education, and middle education, see major requirement sheets available from the Elementary Education Program Advisement Center, Emma Eccles Jones Education Building, Room 373. Major requirement sheets can also be found online at: <http://www.usu.edu/majorsheets/>

## Financial Support

The following scholarships are available to junior and senior students: Ballam, Blair, Bowen, DeHart, Frye, Hales, Jackson, Kurzhals, McEvoy, Stewart, Taylor, Vest, Watterson, and Young. To be eligible, students must have completed Level II of the Elementary Education Program and have a cumulative GPA of 3.5 or higher. Applications are available from the Elementary Education Program and are due by February 1.

## Graduate Programs

### Admission Requirements

Students applying for admission to master's programs must have GRE scores at or above the 40th percentile. This same percentile is the minimum required on the MAT. For the Educational Specialist (EdS) degree and the doctorate degree, GRE scores at or above the 40th percentile are also required on the verbal and quantitative tests. Admission committees also consider experience, undergraduate record, curricula completed, and formal recommendations. One year of successful elementary school teaching experience is required for the master's program. Two years of teaching experience or the equivalent is required for admission to the EdS or doctorate program. Students with deficient oral or written English skills will be required to complete additional coursework to improve their skills.

## Elementary Education Program, School of Teacher Education and Leadership

Admission to graduate programs is contingent upon (1) completion of an application to graduate school and (2) recommendation by the School of TEAL screening committee for the master's program or the management admissions committee for the EdS or doctoral program. In addition to the requirements of the School of Graduate Studies (see pages 36-37), letters of recommendation must be received from three professionals in education.

### Degree Programs—On Campus

Three avenues exist for on-campus students wishing to pursue a master's degree in the School of TEAL at Utah State University. They are as follows:

#### Master of Arts/Master of Science—Plan A

Students planning to pursue a future doctoral degree or wishing to follow a traditional master's degree should complete a Master of Arts or Master of Science (Plan A) degree. This is a 36-credit program, including 6 credits for the thesis. EDUC 6570 is required as a research course (rather than EDUC 6550). A copy of the Program of Study form listing other required core and professional option courses is available from the School of TEAL office. A committee chair and two committee members will work with students pursuing the Plan A master's degree. Plan A students should submit an Appointment for Examination form to their major professor, committee, and the Graduate School at least five working days before the final examination is to be held.

Requirements for the Master of Arts degree include two years of an acceptable foreign language or the equivalent, as determined by testing arranged by the supervisory committee and approved by the School of TEAL and the graduate dean. One year each, or the equivalent, of two languages is acceptable if approved by the student's committee.

#### Master of Education—Plan B

Students wishing to include a creative project as part of their master's degree program should enroll in the Master of Education (Plan B) program. Three credits will be given for TEAL 6960, Master's Creative Project. All MEd students will complete EDUC 6550 (Research for Classroom Teachers, 3 credits) and other courses listed on the current Program of Study form. A committee chair and two committee members will work with students completing the creative project; however, the chairperson will have major responsibility in approving the proposal and primarily work as the program advisor, with the committee members being involved more directly in the presentation of the creative project.

#### Master of Education—Plan C

In order to provide another option for prospective elementary education master's degree students, the School of TEAL conducts a Plan C option within its Master of Education Degree. The basic elements of a Plan C option include completion of 40 credits of prior approved graduate courses, completion of an exit paper, and an oral review.

The exit paper should be a pre-planned scholarly activity. It could be a paper discussing coursework applicability to the student's teaching assignment, or a written plan for changing curriculum and/or instruction drawing on coursework and the student's role, etc. The intent is that the exit paper be an integral part of the planned course of study.

A notice of intent to complete the degree must be filed with the School of Graduate Studies *at the beginning of the last semester of coursework*. A letter of completion should be filed by the School of TEAL chairperson upon successful completion of all requirements.

### Degree Programs—Off Campus

Two avenues exist for students wishing to pursue a master's degree in the School of TEAL at Utah State University primarily through offerings at USU Distance Education centers. They are as follows.

#### Master of Education—Plan B

Off-campus students wishing to include a creative project as part of their master's degree program should enroll in the Master of Education Program. Three credits will be given for TEAL 6960 (Master's Creative Project). All MEd students will complete the required core and other courses listed on the current Program of Study form. A committee chair and two committee members will work with students completing the creative project; however, the chairperson will have major responsibility in approving the proposal and primarily work as the program advisor, with the committee members being involved more directly in the presentation of the creative project (oral exam).

#### Master of Education—Plan C

In order to provide another option for prospective off-campus elementary education master's degree students, the Elementary Education Program conducts a Plan C option within its Master of Education Degree. The basic elements of a Plan C option include completion of 40 credits or prior approved graduate courses, completion of an exit paper, and an oral review.

The exit paper should be a pre-planned scholarly activity. It could be a paper discussing coursework applicability to the student's teaching assignment, or a written plan for changing curriculum and/or instruction drawing on coursework and the student's role, etc. The intent is that the exit paper be an integral part of the planned course of study.

A notice of intent to complete the program should be filed by the student with the School of TEAL and the School of Graduate Studies *at the beginning of the semester the candidate is to finish the degree*. A letter of completion should be filed by the committee chairperson upon successful completion of all requirements.

### Educational Specialist Degree (EdS)

The EdS is a 36-42 credit post-master's degree designed to enable experienced educators to specialize and improve their professional competence in specific areas or fields. The EdS degree meets the advanced study needs of persons seeking leadership roles in public education, junior colleges, and small private and state colleges. The coursework requirements extend competencies for individuals serving in such positions as program developers, trainers, curriculum specialists, supervisors, instructional leaders, and college instructors. The EdS is also related to certification needs of some educational leaders. Areas of emphasis in the Elementary Education Program are: Early Childhood; Instructional Leadership; Supervision and Leadership; Schooling, Culture, and Society; and Reading and Writing. The EdS is especially appropriate for those individuals who wish preparation beyond the master's degree level, but who are not interested in doctoral work with its greater emphasis on developing proficiencies in conducting independent research.

### Doctoral Programs (PhD and EdD)

The School of TEAL administers the Doctoral Program in Education, which includes the Doctor of Philosophy (PhD) and the Doctor of Education (EdD). For information about admission requirements, procedures to follow, and research sponsored, as well as other information, see pages 234-235 of this catalog.

## Additional Information

All students completing master's degrees in Elementary Education must enroll for a minimum of 9 credits *on the USU campus*, except for students completing their degrees at the following USU distance education centers: Uintah Basin Campus (Vernal and Roosevelt), Moab Center, Price Center, and Blanding Center.

The Program of Study form for the appropriate degree and plan described above should be approved by the committee and submitted to the School of Graduate Studies *at least two months prior to the oral exam, oral review, or presentation appropriate to that degree.*

After matriculation into the program, a master's degree must be completed within a six-year time period. Pass/fail grades will be accepted only for seminars, special problems, interdisciplinary workshops, thesis or dissertation research, and continuing graduate advisement. A maximum of 8 workshop credits may be included. Transfer credit accepted toward a degree is normally limited to 6 credits; however, with prior approval, 12 transfer credits may be accepted. A maximum of 15 credits taken during one summer may be counted toward the degree. A maximum of 12 credits taken before admission to the program may be counted toward the degree. All coursework in a student's area of specialization must be taken at the 6000 level or above, in order to be applied toward a graduate degree in the School of TEAL. Coursework goes out-of-date after eight years.

Admission deadlines for students applying to graduate programs are: June 15 for fall semester, October 15 for spring semester, and March 15 for summer semester.

## Research

Cooperation with other departments and research centers at the University, as well as with public school and State Office of Education collaborators, permits strong graduate programs in all phases of elementary education. Research opportunities are available with the Edith Bowen Laboratory School, cooperating school districts in Utah and surrounding states, the Utah State Office of Education, and the United States Department of Education.

## Financial Assistance

Both departmental and School of Graduate Studies support are available for the regular academic program and are awarded on a competitive basis. Students requesting financial support should apply to the School of TEAL by March 15. To be eligible for financial assistance, a student must attend USU full-time. No financial assistance is available for summer semester.

## Assistantships

Teaching assistantships are available through the School of TEAL. Some research assistantships are available through faculty members who have ongoing projects with off-campus funding agencies.

Students are not eligible for assistantships or any form of financial assistance from the University until all application procedures are completed and the student is formally admitted to a program of studies.

Acceptance to pursue graduate study does not guarantee student financial assistance. Inasmuch as funds are limited, the assistantships are awarded by the School of TEAL to cover specific teaching assignments and by the faculty to provide for research.

Doctoral students desiring information about financial assistance should write to: Deborah A. Byrnes, Associate TEAL Department Head for Doctoral Program, Emma Eccles Jones College of Education and Human Services, 2800 Old Main Hill, Utah State University, Logan UT 84322-2800.

## Career Opportunities

### Positions in Higher Education— Master Teachers

Many school districts support and encourage teachers to further their education and expertise by obtaining a master's degree. Added financial remuneration generally accompanies the completion of such a degree. Supervisors, curriculum specialists, and other professional careers are enhanced by completion of a master's degree.

Completion of a doctorate degree qualifies the graduate for a wide variety of careers, including positions in higher education, curriculum specialist positions in school districts and state offices of education, positions in educational agencies of the United States government, and educational specialist positions in business and industry.

## Elementary Education Program Faculty

**Emma Eccles Jones Distinguished Professor**  
*D. Ray Reutzell*, reading

### Professors

*Deborah A. Byrnes*, Associate Department Head for Doctoral Program; social studies education, early childhood education  
*Martha T. Dever*, Department Head; foundations, early childhood education  
*James T. Dorward*, Associate Dean for Research; mathematics, program evaluation  
*Patricia Moyer-Packenham*, mathematics education

### Associate Professors

*Parker C. Fawson*, Associate Department Head for Elementary Education Program; reading  
*Michael K. Freeman*, Associate Dean for Education Outreach; educational leadership  
*Scott L. Hunsaker*, gifted/talented education, foundations  
*Francine Fukui Johnson*, Associate Dean for Teacher Education, Graduation, and Licensure; foundations, gifted/talented education, supervision  
*Rebecca M. Monhardt*, science education  
*Martha L. Whitaker*, Associate Department Head for Secondary Education; foundations

### Clinical Associate Professor

*Steven Laing*, Coordinator of Administrative/Supervisory Certificate Program

### Assistant Professors

*Steve Camicia*, social studies  
*Cindy Jones*, literacy  
*Sylvia Read*, language arts education  
*Cinthya Saavedra*, Coordinator of English-as-a-second-language Education

## **Elementary Education Program, School of Teacher Education and Leadership**

---

### **Clinical Assistant Professors**

*Barbara DeBoer*, early childhood education  
*Richard Rhees*, Coordinator of Teacher Education Accreditation  
Council (TEAC)

### **Senior Lecturer**

*Eric Packenham*, science education

### **Lecturers**

*Dorothy Dobson*, social studies  
*Judy Greene*, language arts/foundations

### **Temporary Lecturers**

*Janet Adams*  
*Chad Downs*, advisor; generalist  
*Kristen Whoolery*

### **RCDE Faculty**

*James J. Barta*, Associate Department Head for RCDE;  
associate professor; mathematics, early childhood education  
*Amy Brown*, assistant professor—Tooele  
*Laura Foley*, assistant professor—Uintah Basin/Vernal  
*Amy Morris*, assistant professor—Price  
*Gary Ockey*, assistant professor—Ephraim  
*Jennifer Peterson*, assistant professor—Brigham City  
*Janey Stoddard*, RCDE Advising Coordinator

### **Elementary Education Student Teaching Director**

*Vesna Jenkins*

Edward M. Reeve, Industrial Science 108, (435) 797-3642,  
ed.reeve@usu.edu

**Undergraduate Advising:**  
Engineering Advising Center, Engineering 314A, (435) 797-2705,  
kathy@engineering.usu.edu, isobel roskelley@usu.edu

**Degrees offered:** Bachelor of Science (BS) and Master of Science (MS) in Engineering and Technology Education, BS in Aviation Technology—Maintenance Management, BS in Aviation Technology—Professional Pilot, A&P Certificate in Aircraft Maintenance Technician—Airframe & Powerplant, Doctor of Philosophy (PhD) in Engineering Education

**Undergraduate emphases:** *BS in Engineering and Technology Education—Technology Education and Trade and Technical Education*

## Undergraduate Programs

### Objectives

The Department of Engineering and Technology Education offers degrees in two fields: **engineering and technology education** and **aviation technology**. The department values the integration of academic knowledge with hands-on technical skills. This is achieved by emphasizing the application of scientific and technological principles in extensive laboratory activities. The department strives to ensure that all graduates will obtain employment to match their interests and preparation.

The **Engineering and Technology Education** programs prepare graduates to teach in public schools, applied technology colleges, and community colleges. **Aviation Technology—Maintenance Management** graduates fill aviation maintenance management positions in government and industry. The **Aviation Technology—Professional Pilot** program prepares graduates to be professional pilots. The **A&P Certificate in Aircraft Maintenance Technician—Airframe & Powerplant** provides training and FAA licensing for graduates to perform maintenance and repairs on aircraft.

### Admission Requirements

Admission requirements for incoming freshmen are commensurate with those outlined for the University. See pages 30-35 in this catalog.

For the **Aviation Technology—Maintenance Management** and **Aviation Technology—Professional Pilot** majors, transfer students from other institutions need a 2.5 total GPA for admission in good standing. Students transferring from other USU majors need a total GPA of 2.4 in major courses for admission to these majors in good standing. A cumulative GPA of 2.5 must be maintained.

For the **Engineering and Technology Education** major, transfer students from other institutions need a 2.75 total GPA for admission in good standing. Students transferring from other USU majors need a total GPA of 2.75 for admission to this major in good standing.

## Graduation Requirements for Aviation Technology Majors (Professional Pilot and Maintenance Management)

A student can repeat no more than six of the required courses in order to satisfy the graduation requirements. Multiple repeats of the same course are included in the total of six repeats. Audits count as a time taking a class unless prior written approval is obtained from a college academic advisor.

Although transfer credit accepted by the department and the college may be applied toward graduation requirements, the grades received will not be used in the USU GPA calculation.

For all aviation technology majors, the following academic regulations apply in addition to University regulations:

1. A minimum GPA of 2.4 must be maintained in technology/math/science/business courses required for, or used as technical electives in, the chosen major. University Studies courses are not included in this GPA calculation.
2. No more than 6 credits of *D* or *D+* credit may be applied toward meeting graduation requirements in technology/math/science/business classes.
3. College of Engineering courses may be repeated only once. Audits count as a time taking a class unless prior written approval is obtained from the department head. A maximum of six required or elective courses can be repeated in order to meet graduation requirements.
4. The *P-D-F* grading option may not be used in required or elective courses. (The *P-D-F* grading option is approved for University Studies courses.)
5. The academic regulations listed above (1-4) apply to required coursework and any technology/math/science/business course which could be used to satisfy graduation requirements for the chosen degree. That is, once a student completes a particular technical elective, it becomes a required course for that student.
6. Students in violation of departmental or college academic regulations, no longer eligible for graduation, or not making satisfactory progress toward a degree will have a registration hold placed on their record.
  - a. Students will be placed on probation (registration hold) if they (i) have more than 6 credits of *D* credit (see item 2 above); or (ii) have a GPA of less than 2.4 (see item 1 above).
  - b. The hold remains until they improve their standing by repeating classes to reduce the number of *D* credits to 6 or less, and/or by raising their GPA above 2.4. Students must meet with their advisor to have the hold removed.

The student must meet with a college academic advisor at least once each semester to work out a schedule having the primary goal of correcting the existing academic problems.

# Department of Engineering and Technology Education

## Bachelor of Science in Engineering and Technology Education (124-125 credits)

### Technology Education Emphasis

The Technology Education emphasis is designed to prepare students for teaching in junior and senior high schools. Students should follow the suggested semester schedule presented below, completing all courses listed. Consult with an advisor when choosing elective courses. All students in this program must maintain a cumulative GPA of 2.75 and gain admission to teacher education, in order to student teach and to receive secondary education licensure (Emma Eccles Jones College of Education and Human Services).

The Department of Engineering and Technology Education is partnered with Project Lead the Way (PLTW) and provides pre-service training for students to become qualified to teach selected PLTW courses. PLTW is a national program that has developed a curriculum introducing students to the scope, rigor, and discipline of engineering prior to entering college. Students opting to become qualified to teach selected PLTW courses must include MATH 1100 in their program of study, as well as an additional science course with a laboratory experience.

The suggested semester schedule is as follows:

#### Freshman Year (32 credits)

##### Fall Semester (17 credits)

ETE 1000	Orientation to Engineering and Technology Education.....	1
ETE 1010	Communications Technology.....	3
ETE 1030	Material Processing Systems.....	3
ETE 1200	Computer-Aided Drafting and Design.....	3
ENGL 1010 (CL1)	Introduction to Writing: Academic Prose.....	3
MATH 1050 (QL) <sup>4</sup>	College Algebra.....	4

##### Spring Semester (15 credits)

ETE 1040	Construction and Estimating.....	3
ETE 2300 (QI) <sup>6</sup>	Electronic Fundamentals.....	4
MATH 1060	Trigonometry.....	2
USU 1350 (BLS)	Integrated Life Science.....	3
	University Studies Breadth American Institutions (BAI) course.....	3

#### Sophomore Year (31-32 credits)

##### Fall Semester (15-16 credits)

**Note:** Students should apply to the Secondary Teacher Education Program (STEP) *early* (see advisor).

ETE 2030	Wood-Based Manufacturing Systems.....	3
ETE 2220	Civil Engineering and Architecture.....	3
	University Studies Breadth Humanities (BHU) course.....	3
	Elective course(s).....	3
	Exploration Requirement course.....	3-4

##### Spring Semester (16 credits)

ETE 1020	Energy, Power, Transportation Systems Control Technology.....	3
ENGL 2010 (CL2)	Intermediate Writing: Research Writing in a Persuasive Mode.....	3
PHYS 1800 (BPS) <sup>5,7</sup>	Physics of Technology.....	4
SPED 4000 <sup>2,3</sup>	Education of Exceptional Individuals.....	2
	Elective course(s).....	4

#### Junior Year (33 credits)

##### Fall Semester (16 credits)

ETE 3200 <sup>2,3</sup>	Methods of Teaching Engineering and Technology Education I.....	3
ETE 3300 <sup>2,3</sup>	Clinical Experience I.....	1
SCED 3100 <sup>2,3</sup>	Motivation and Classroom Management.....	3
SCED 3210 (CI/DSS) <sup>2,3,5</sup>	Educational and Multicultural Foundations.....	3
	University Studies Breadth Creative Arts (BCA) and Breadth Social Sciences (BSS) courses.....	6

##### Spring Semester (17 credits)

ETE 2020	Computer-Integrated Manufacturing Systems.....	3
ETE 3440 (DSC)	Science, Technology, and Modern Society.....	3
ETE 4300 <sup>2,3</sup>	Clinical Experience II.....	1
ETE 4400 <sup>2,3</sup>	Methods of Teaching Engineering and Technology Education II.....	3
SCED 4200 (CI) <sup>2,3</sup>	Reading, Writing and Technology.....	3
SCED 4210 <sup>2</sup>	Cognition and Evaluation of Student Learning.....	3
INST 3500 <sup>1</sup>	Technology Tools for Secondary Teachers.....	1

**Note:** Prior to Student Teaching, the Praxis Content Exam must be passed.

#### Senior Year (28 credits)

##### Fall Semester (12 credits)

ETE 5500 <sup>2,3</sup>	Student Teaching Seminar.....	2
ETE 5630 <sup>2,3</sup>	Student Teaching in Secondary Schools.....	10

##### Spring Semester (16 credits)

ETE 2660	Principles of Engineering Education.....	3
ETE 3050	Computer Systems and Networking.....	3
ETE 5220 (CI)	Program and Course Development.....	3
	University Studies Depth Humanities and Creative Arts (DHA) course.....	3
	Elective course(s).....	4

#### Project Lead The Way (PLTW) Option (7-8 credits)

##### Required Course (3 credits)

MATH 1100 (QL) <sup>6</sup>	Calculus Techniques (F,Sp,Su).....	3
-----------------------------	------------------------------------	---

#### Additional Science Course(s) with Laboratory Experience (4-5 credits)

In addition to completing MATH 1100, students must also complete one of the following three science options, as shown below.

CHEM 1110 (BPS) <sup>6</sup>	General Chemistry I (F,Sp) (4 cr) and	
CHEM 1115	General Chemistry Laboratory (F,Sp) (1 cr).....	5
Or		
BIOL 1010 (BLS)	Biology and the Citizen (F,Sp,Su) (3 cr) and	
BIOL 1020	Biological Discovery: A Lab Course (F,Sp) (1 cr).....	4
Or		
PHYS 2110	The Physics of Living Systems I.....	4

#### Trade and Technical Education Emphasis

The Trade and Technical Education emphasis is designed to prepare students to teach vocational courses at the high school or post-high school level. Students should complete all courses listed below. All students in this emphasis must maintain a GPA of 2.75 in order to student teach.

INST 3500 <sup>1</sup>	Technology Tools for Secondary Teachers (F,Sp,Su).....	1
ETE 3200	Methods of Teaching Engineering and Technology Education I (F).....	3
ETE 3300	Clinical Experience I (F).....	1

State licensure requires a minimum of two years of approved vocational experience. Successful completion of a trade competency examination is accepted in lieu of vocational experience.

<sup>1</sup>The INST 3500 requirement has been waived. However, INST 4500 is recommended.  
<sup>2</sup>This course is included in the Secondary Education Licensure Requirements. Prior to enrolling in this course, students must be admitted to the STEP.  
<sup>3</sup>Students must maintain a cumulative 2.75 GPA for admission to the Emma Eccles Jones College of Education and Human Services, for student teaching, and to receive secondary education licensure.  
<sup>4</sup>A Math ACT score of 23 or higher is required for enrolment in MATH 1050. If Math ACT score is between 18 and 22, student should enroll in MATH 1010 first.  
<sup>5</sup>PHYS 1800 fulfills the University Studies Breadth Physical Sciences (BPS) requirement. SCED 3210 fulfills the University Studies Depth Social Sciences (DSS) requirement.  
<sup>6</sup>MATH 1050 is a prerequisite for these courses.  
<sup>7</sup>PHYS 1800 needs to be completed during the sophomore year.

## Bachelor of Science in Aviation Technology—Maintenance Management (126 credits)

Aviation Technology—Maintenance Management graduates are qualified to enter the work force in many rewarding career fields in aviation. Employment opportunities exist in target industries such as major airline carrier maintenance management, commuter airline maintenance management, fixed-base operator (FBO) maintenance, and Federal Aviation Administration (FAA) aircraft inspection after some field experience. This major has a great deal of depth in general maintenance, which applies to most industrial maintenance operations. Although the major's focus is aviation, the knowledge and skills gained can be used in other fields.

The suggested semester schedule for **Aviation Technology—Maintenance Management** is as follows:

### Freshman Year (32 credits)

#### Fall Semester (17 credits)

AV 1130 Flight Principles.....	2
AV 1140 Aircraft Components and Principles.....	2
AV 1170 Aircraft Structures .....	3
AV 2180 Aircraft Hydraulic and Pneumatic Systems.....	2
AV 2200 Aircraft Hydraulics and Pneumatic Systems Lab .....	1
MATH 1050 (QL) <sup>9</sup> College Algebra .....	4
University Studies Breadth American Institutions (BAI) course <sup>11,12</sup> .....	3

#### Spring Semester (15 credits)

AV 1240 Aircraft Maintenance .....	3
AV 2170 Aircraft Systems .....	2
AV 2190 Aircraft Systems Lab .....	1
ETE 1030 <sup>11</sup> Material Processing Systems .....	3
ETE 2300 (QI) <sup>9</sup> Electronic Fundamentals .....	4
MATH 1060 Trigonometry .....	2

### Sophomore Year (32 credits)<sup>8</sup>

#### Fall Semester (15 credits)

AV 2100 Aircraft Reciprocating Powerplants and Accessories.....	3
AV 2110 Aircraft Reciprocating Powerplants and Accessories Lab .....	3
ETE 1200 <sup>11</sup> Computer-Aided Drafting and Design .....	3
ENGL 1010 (CL1) <sup>11,12</sup> Introduction to Writing: Academic Prose .....	3
MATH 1100 (QL) <sup>11,12,14</sup> Calculus Techniques.....	3

#### Spring Semester (17 credits)

AV 1100 <sup>11</sup> The Aviation Profession .....	1
AV 2140 Aircraft Turbine Powerplants and Maintenance Operations....	3
AV 2150 Aircraft Turbine Powerplant Maintenance Operations Lab .....	3
AV 2430 Aircraft Electrical Systems and Components .....	2
AV 2440 Aircraft Electrical Systems Laboratory .....	2
ENGL 2010 (CL2) <sup>11,12</sup> Intermediate Writing: Research Writing in a Persuasive Mode.....	3
University Studies Breadth Life Sciences (BLS) course <sup>11,12</sup> .....	3

### Junior Year (31 credits)

#### Fall Semester (15 credits)

AV 3280 Advanced Turbine Engines .....	2
AV 4280 <sup>11</sup> Airline Management.....	3
STAT 2300 (QL) <sup>9,12</sup> Business Statistics .....	4
Elective course(s) .....	3
Technical Elective course <sup>13</sup> .....	3

#### Spring Semester (16 credits)

AV 2420 FAA Regulations, Records, and Certification .....	2
AV 3610 AeroTechnology Design I .....	1
AV 4490 Human Factors in Aviation Safety.....	3
MGT 3110 (DSS) <sup>10,11,12,14</sup> Managing Organizations and People .....	3
PHYS 1800 (BPS) <sup>14</sup> Physics of Technology .....	4
University Studies Breadth Humanities (BHU) course <sup>11,12</sup> .....	3

### Senior Year (31 credits)

#### Fall Semester (15 credits)

AV 3120 Aviation Law.....	3
AV 4610 (CI) AeroTechnology Design II .....	3
MGT 3710 <sup>10,11,12</sup> Developing Team and Interpersonal Skills .....	3
University Studies Breadth Creative Arts (BCA) and Breadth Social Sciences (BSS) courses <sup>11,12</sup> .....	6

#### Spring Semester (16 credits)

AV 4200 Composite Manufacturing Processes and Repair .....	3
AV 4620 (CI) AeroTechnology Design III .....	3
University Studies Depth Humanities and Creative Arts (DHA) course <sup>11,12</sup> .....	3
Technical Elective courses <sup>13</sup> .....	7

Students must complete a total of 40 credits of stipulated upper-division coursework.

<sup>8</sup>Completion of the Computer and Information Literacy (CIL) exams with passing grades is required by the end of the sophomore year.  
<sup>9</sup>A Math ACT score of 23 or higher is required to enroll in MATH 1050. If Math ACT score is between 18 and 22, student should enroll in MATH 1010 first. MATH 1050 is a prerequisite for STAT 2300 and ETE 2300.  
<sup>10</sup>Students must have a cumulative GPA of at least 2.67 and have professional status to be admitted to these Huntsman School of Business courses.  
<sup>11</sup>Due to teaching load constraints, these courses may be offered during semesters other than those listed here. Check with the department regularly for possible changes. Most of these classes are offered only once each year.  
<sup>12</sup>These courses may be taken during summer semester to allow for more reasonable course loads during the academic year.  
<sup>13</sup>Students must take 10 credits of related technical electives which must be in upper-division courses (3000-level and above).  
<sup>14</sup>PHYS 1800 fulfills the University Studies Breadth Physical Sciences (BPS) requirement. MGT 3110 fulfills the University Studies Depth Social Sciences (DSS) requirement. MATH 1100 fulfills the University Studies Exploration requirement.

# Department of Engineering and Technology Education

## Bachelor of Science in Aviation Technology— Professional Pilot (126 credits)

Aviation Technology—Professional Pilot graduates are trained to be commercial pilots. The degree requirements include completion of the following FAA licenses: private, instrument, commercial, CFI, CFII, and Multi-Engine. The suggested semester schedule for this degree is as follows:

### Freshman Year (30 credits)

#### Fall Semester (15 credits)

AV 1100 The Aviation Profession .....	1
AV 1130 Flight Principles .....	2
AV 2330 Private Pilot Ground School .....	4
AV 2350 <sup>18</sup> Private Pilot Certification .....	1
MATH 1050 (QL) <sup>20</sup> College Algebra .....	4
University Studies Breadth American Institutions (BAI) course .....	3

#### Spring Semester (15 credits)

AV 2170 Aircraft Systems .....	2
AV 2510 <sup>18</sup> Intermediate Flight .....	1
CLIM 2000 (BPS) <sup>17</sup> The Atmosphere and Weather .....	3
ETE 2300 (QI) <sup>19</sup> Electronic Fundamentals .....	4
MATH 1060 Trigonometry .....	2
Elective courses .....	3

### Sophomore Year (31 credits)<sup>15</sup>

#### Fall Semester (16 credits)

AV 2180 Aircraft Hydraulic and Pneumatic Systems .....	2
AV 2520 <sup>21</sup> Instrument Pilot Ground School .....	4
AV 2540 <sup>18</sup> Instrument Pilot Certification I .....	1
ENGL 1010 (CL1) Introduction to Writing: Academic Prose .....	3
MATH 1100 (QL) <sup>19</sup> Calculus Techniques .....	3
University Studies Breadth Life Sciences (BLS) course .....	3

#### Spring Semester (15 credits)

AV 2430 Aircraft Electrical Systems and Components .....	2
AV 2550 <sup>18</sup> Instrument Pilot Certification II .....	1
CLIM 3250 <sup>21</sup> Aviation Weather .....	3
ENGL 2010 (CL2) Intermediate Writing: Research Writing in a Persuasive Mode .....	3
Any Communications Intensive (CI) approved course .....	3
University Studies Breadth Humanities (BHU) course .....	3

### Junior Year (31 credits)

#### Fall Semester (15 credits)

AV 2620 Commercial Pilot Ground School .....	2
AV 2660 <sup>18</sup> Commercial Pilot Certification .....	1
AV 3010 National Airspace, Air Traffic Control, and Airport Administration .....	3
AV 3120 Aviation Law .....	3
AV 3140 Advanced Avionics Systems and Flight Simulation .....	3
AV 4280 Airline Management .....	3

#### Spring Semester (16 credits)

AV 2720 CFI and CFII Ground School .....	3
AV 2880 <sup>18</sup> Multi-Engine Certification .....	1
AV 4490 Human Factors in Aviation Safety .....	3
AV 5400 Regional Jet Ground School I .....	4
MGT 3110 (DSS) <sup>16,17,22</sup> Managing Operations and People .....	3
Elective course(s) .....	2

### Senior Year (34 credits)

#### Fall Semester (17 credits)

AV 2740 <sup>18</sup> CFI Certification .....	1
AV 4660 (CI) Flight Senior Project .....	3
AV 5410 Regional Jet Ground School II .....	4
Elective course(s) .....	3
University Studies Breadth Creative Arts (BCA) course .....	3
University Studies Breadth Social Sciences (BSS) course .....	3

#### Spring Semester (17 credits)

AV 2860 <sup>18</sup> CFII Certification .....	1
AV 5420 Advanced Regional Jet Simulation .....	3
PHYS 1800 (BPS) <sup>17</sup> Physics of Technology .....	4
Upper-division elective courses <sup>16</sup> .....	6
University Studies Depth Humanities and Creative Arts (DHA) course .....	3

<sup>15</sup>Completion of the Computer and Information Literacy (CIL) exams with passing grades is required by the end of the sophomore year.

<sup>16</sup>Students should contact their advisor for a list of approved upper-division electives.

<sup>17</sup>MGT 3110 fulfills the University Studies Depth Social Sciences (DSS) requirement. PHYS 1800 fulfills the University Studies Breadth Physical Sciences (BPS) requirement. CLIM 2000 fulfills the University Studies Exploration requirement.

<sup>18</sup>Depending on weather and other factors, flying courses may be taken during semesters other than those indicated. It is imperative that students work with their advisors and flight instructor to determine the best arrangement for these courses.

<sup>19</sup>MATH 1050 is a prerequisite for ETE 2300 and MATH 1100.

<sup>20</sup>A Math ACT score of 23 or higher is required to enroll in MATH 1050. If Math ACT score is between 18 and 22, student should enroll in MATH 1010 first.

<sup>21</sup>Students should take CLIM 2000 prior to taking AV 2520 and CLIM 3250.

<sup>22</sup>All students must have a cumulative GPA of at least 2.67 and have professional status in order to be admitted to Huntsman School of Business classes.

Students must complete a total of 40 credits of stipulated upper-division coursework.

## A&P Certificate in Aircraft Maintenance Technician— Airframe & Powerplant

This two-year technical program emphasizes aircraft repair and maintenance. Required courses are:

AV 1130 Flight Principles (F) .....	2
AV 1140 Aircraft Components and Principles (F) .....	2
AV 1170 Aircraft Structures (F) .....	3
AV 1240 Aircraft Maintenance (Sp) .....	3
AV 2100 Aircraft Reciprocating Powerplants and Accessories (F) .....	3
AV 2110 Aircraft Reciprocating Powerplants and Accessories Lab (F) .....	3
AV 2140 Aircraft Turbine Powerplants and Maintenance Operations (Sp) .....	3
AV 2150 Aircraft Turbine Powerplant Maintenance Operations Lab (Sp) .....	3
AV 2170 Aircraft Systems (Sp) .....	2
AV 2180 Aircraft Hydraulic and Pneumatic Systems (F) .....	2
AV 2190 Aircraft Systems Lab (Sp) .....	1
AV 2200 Aircraft Hydraulics and Pneumatics Systems Lab (F) .....	1
AV 2420 FAA Regulations, Records, and Certification (Sp) .....	2
AV 2430 Aircraft Electrical Systems and Components (Sp) .....	2
AV 2440 Aircraft Electrical Systems Laboratory (Sp) .....	2
AV 3280 Advanced Turbine Engines (F) .....	2
AV 4200 Composite Manufacturing Processes and Repair (Sp) .....	3
ETE 1030 Material Processing Systems (F,Sp) .....	3
ETE 1200 Computer-Aided Drafting and Design (F,Sp) .....	3
ETE 2300 (QI) Electronic Fundamentals (Sp) .....	4
MATH 1050 (QL) College Algebra (F,Sp,Su) .....	4
MATH 1060 Trigonometry (F,Sp,Su) .....	2
PHYS 1800 (BPS) Physics of Technology (Sp) .....	4
ENGL 1010 (CL1) Introduction to Writing: Academic Prose (F,Sp,Su) .....	3

FAA regulations require students to earn a 70 percent or higher score to pass each course.

# Department of Engineering and Technology Education

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school. Minimum GPA requirements for participation in departmental honors vary by department, but usually fall within the range of 3.30-3.50. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level. The campus-wide Honors Program, which is open to all qualified students regardless of major, offers a rich array of cultural and social activities, special classes, and the benefit of Honors early registration. Interested students should contact the Honors Program, Main 15, (435) 797-2715, [honors@usu.edu](mailto:honors@usu.edu). Additional information can be found online at: <http://www.usu.edu/honors/>

## Additional Information

For more information about Bachelor of Science requirements and the sequence in which courses should be taken, see major requirement sheets, available from the Engineering and Technology Education Department, or online at: <http://www.usu.edu/majorsheets/>

## Graduate Programs

The Master of Science (MS) degree in Engineering and Technology Education is offered by the department. Candidates may choose the Plan A thesis option, the Plan B nonthesis program, or the Plan C coursework option. The department also offers the PhD/EdD degree in Education (Curriculum and Instruction) and the PhD degree in Engineering Education. Further details about these degrees are shown below.

## Admission Requirements

See the general admission requirements for graduate study in this catalog (pages 36-37). Students applying for admission to the MS program must complete the GRE with a minimum quantitative and verbal score of 1,000 and a 40th percentile minimum score on the verbal and quantitative tests or must complete the MAT with a minimum score of 43. Admission committees also consider experience, undergraduate record, and formal recommendations.

## MS Degree

The degree is designed for technology educators who want to strengthen their background in current educational theory and practice. Students are required to complete a professional core of courses relating to technology education or applied technology education and to select additional courses from a list of related courses. Plan A requires a minimum of 30 semester credits, including a thesis. Plan B is a nonthesis option that requires 33 semester credits, including a creative project. The core courses for this specialization are as follows: ETE 6090, 6100, 6150, 6450, and 6750. The Plan C option consists entirely of coursework. Students should contact the Engineering and Technology Education Department for information about the availability of this option.

## PhD Degree in Engineering Education

This degree is the culmination of a multi-year initiative to refocus the department and develop a new emphasis in engineering education. This new focus was supported by a ten million dollar grant from the National Science Foundation to establish the National Center for Engineering and Technology Education at Utah State. Because the new emphasis in engineering education within the department is sufficiently different than the technology education program, a new doctoral degree with a very different set of requirements is warranted.

This program will produce graduates who:

1. Are familiar with the theory and practice of engineering education and are adept at these aspects within their specific area of engineering specialization.
2. Have the ability to conduct research in engineering education in areas such as engineering epistemologies, engineering learning mechanisms, engineering learning systems, engineering diversity and inclusiveness, and engineering assessment.
3. Have the ability to develop/implement/assess engineering curricula at both the high school and university levels.

## PhD/EdD Degree in Education (Curriculum and Instruction)

This degree is a doctoral specialization in Curriculum and Instruction (C&I) and is offered through the School of Teacher Education and Leadership (TEAL). (See *Education, Interdepartmental Doctoral Program in Curriculum and Instruction* on pages 234-235.) Students who complete the C&I specialization program receive a degree with an area of emphasis in engineering and technology education. This is a research degree and is primarily chosen by people seeking teaching/research positions in colleges and universities. Depending on students' professional goals and their ability or inability to attend graduate school full time during the academic year, students will *either* be accepted into the Doctorate of Education (EdD) program *or* the Doctorate of Philosophy (PhD) program.

## Financial Assistance

The department offers a limited number of graduate research and teaching assistantships. For further information, contact the Engineering and Technology Education Department.

## Engineering and Technology Education Faculty

### Professors

*Kurt Becker*, technology education, construction technology, computer aided drafting

*Edward M. Reeve*, technology education, communication technology

### Professors Emeritus

*Jay C. Hicken*, technology education, wood technology, power/energy/transportation

*Maurice G. Thomas*, technology education

# Department of Engineering and Technology Education

---

## Associate Professors

*Ward P. Belliston*, electronics technology  
*Ning Fang*, dynamics, manufacturing engineering  
*Gary A. Stewardson*, technology education, manufacturing technology

## Assistant Professors

*Oenardi Lawanto*, engineering education  
*Paul D. Schreuders*, engineering education

## Principal Lecturers

*Nolan D. Clifford*, director of Aviation Program, aviation technology, professional pilot  
*Lawrence Hemingway*, aviation technology, professional pilot

## Lecturer

*Randall W. Chesley*, aviation maintenance

## Chief Flight Instructor

*Sean E. Heiner*

## Assistant Chief Flight Instructors

*Aaron C. Dyches*  
*Gregory P. Walton*

brock.dethier@usu.edu

**Director, USU Writing Center:**

Star Coulbrooke, Ray B. West 104B, (435) 797-3853,  
star.coulbrooke@usu.edu

**Director, Departmental Honors Program:**

Christine Cooper-Rompato, Ray B. West 204E, (435) 797-3856,  
christine.rompato@usu.edu

**Chair, British and Commonwealth Studies Minor:**

Shane Graham, Ray B. West 301B, (435) 797-2719,  
sgraham@english.usu.edu

**Chair, Creative Writing Emphasis:**

Michael Sowder, Ray B. West 301A, (435) 797-7100,  
msowder@english.usu.edu

**Chair, English Teaching Emphasis:**

Patricia Gantt, Ray B. West 305, (435) 797-2718,  
pgantt@english.usu.edu

**Chair, Literary Studies Emphasis:**

Brian W. McCuskey, Ray B. West 302D, (435) 797-0262,  
brian.mccuskey@usu.edu

**Chair, Literature and Writing Master's Specialization:**

Jennifer Sinor, Ray B. West 302D, (435) 797-3440,  
jennifer.sinor@usu.edu

**Chair, Technical and Professional Writing Emphasis:**

Ryan M. Moeller, Ray B. West 312B, (435) 797-8637,  
rylish.moeller@usu.edu

**Chair, Technical Writing Master's Program (online):**

David E. Hailey, Ray B. West 313, (435) 797-2741,  
dhailey@english.usu.edu

**Chair, Theory and Practice of Professional  
Communication Doctoral Program:**

Keith Gibson, Ray B. West 204A, (435) 797-8412,  
keith.gibson@usu.edu

**Degrees offered:** Bachelor of Science (BS), Bachelor of Arts (BA),  
Master of Science (MS), and Master of Arts (MA) in English; BS,  
BA, MS, and MA in American Studies; Doctor of Philosophy (PhD) in  
Theory and Practice of Professional Communication

**Undergraduate emphases:** *BS, BA in English*—Literary Studies,  
Professional and Technical Writing, English Teaching, and Creative  
Writing

**Graduate specializations:** *MS, MA in English*—Literature and Writing,  
Technical Writing; *MS, MA in American Studies*—Folklore, Public  
Sector Folklore

## Undergraduate Programs

### General Objectives

The undergraduate programs in English and American Studies encourage students to gain an appreciation of language and literature through reading, analysis, and writing as a means of enriching their lives as individuals, citizens and professionals. Through a variety of courses in literature, writing, and linguistics, students develop an awareness of these subjects in their personal and cultural contexts, a heightened sensitivity to human experience, and a capacity to adapt to a world of continually changing values and centers of conflict. Students majoring in English or American Studies thus acquire communicative, analytical, and interpretive skills that help prepare them for a wide range of careers.

After completing a set of core requirements, students in English fulfill the requirements in one of four emphases: (1) the **Literary Studies** emphasis, which gives students a knowledge of the texts and writers of American, British, and world literature and their cultural contexts; (2) the **Professional and Technical Writing** emphasis, which prepares students for various writing careers in professional organizations; (3) the **English Teaching** emphasis, which prepares students for teaching secondary-level English in the public school system; and (4) the **Creative Writing** emphasis, which trains students in the art of literary writing and prepares them for graduate study in creative writing programs. The English Department also offers a major in American Studies.

The English Department offers a Folklore minor and an interdisciplinary American Studies major and minor. The American Studies Program, situated within the English Department, offers students the opportunity to explore American life and cultures from interdisciplinary perspectives, while preparing them for careers in academic or professional fields. Students may pursue *either* an American Studies major or minor *or* a folklore minor. The English Department also offers an English Teaching Minor, an English Minor (Standard Nonteaching), and a minor in British and Commonwealth Studies.

# Department of English

The English Department also offers specific courses supporting other fields of specialization, courses fulfilling University Studies requirements, and enriching educational experiences through opportunities for creativity and expression enhancing lifetime activities.

## Admission and Graduation Requirements

The requirements for admission and graduation are commensurate with those described on pages 30-35 and 76-79 of this catalog. To remain in good standing and to obtain approval for graduation as English majors or minors, students must earn a grade of C or better in all English classes and maintain a minimum grade point average of 2.75 in their major and minor courses. All courses listed as major or minor subject courses must be taken on an A-B-C-D-F basis, and major or minor subject courses passed with less than a C grade must be repeated. Transfer students are required to complete at least 15 semester credits of major subject courses and 10 semester credits of minor subject courses in residence at USU.

Students in the English Teaching major and minor may also apply to the Secondary Teacher Education Program (STEP). See pages 442-443 for procedures and requirements pertaining to teacher licensure and admission requirements, or go online to:  
<http://www.cehs.usu.edu>

## Course Requirements

### Core and Survey Requirements

Upon entering the major, all English majors must complete ENGL 1110 (English Orientation) as soon as possible. In addition, all English majors, except for students in the Professional and Technical Writing emphasis, are required to complete three of the 2000-level literature survey courses and ENGL 2600 (Literary Analysis) as soon as possible before enrolling in upper-division courses. Differing requirements for the Professional and Technical Writing Emphasis are shown below.

### Literary Studies Emphasis

**Minimum GPA for Admission:** 2.75, major; 2.75, USU; 2.75, Career

**Minimum GPA for Graduation:** 2.75, major courses; 2.0, USU; 2.0, Career

**Minimum Grade Accepted:** C in major courses

This 46-credit emphasis is devoted to the study of literature. Its fundamental premise is that literature is a field of diverse representations that gives shape and meaning to human experience.

Students first complete three of the 2000-level survey courses, which provide a traditional overview of the major periods, authors, and genres of American and British literature. At the same time, students take an introductory course on literary analysis which introduces them to the methodologies of literary criticism.

At the 3000 and 4000 levels, students closely examine the conventions and principles forming the more traditional survey courses. Focusing on specific literary periods, authors, and genres, these courses invite students to think critically about how literature is constructed and organized as a field of knowledge. They also take a course focusing on literary theory.

At the 5000 level, students pursue advanced study of literature in relation to issues of gender and sexuality, regional and national boundaries, and cultural differences. These courses provide the advanced theoretical tools necessary to analyze the relationship between literature and culture. These courses insist that literary texts both exist within and depend upon a complex network of other cultural representations.

### A. Core Requirements (4 credits)

ENGL 1110 English Orientation (F,Sp)	1
ENGL 2600 <sup>1</sup> Literary Analysis (F,Sp)	3

### B. Literary History (9 credits)

Select three courses from the following:

ENGL 2140 British Literary History: Anglo-Saxon to 18th Century (F,Sp)	3
ENGL 2150 British Literary History: Romanticism to Present (F,Sp)	3
ENGL 2160 American Literary History: Colonialism to 1865 (F,Sp)	3
ENGL 2170 American Literary History: 1865 to Present (F,Sp)	3

### C. American, British, and World Literature (9 credits)

Select ENGL 3330, plus two of the following three period courses:

ENGL 3300 <sup>2</sup> Period Studies in American Literature (F,Sp)	3
ENGL 3310 <sup>2</sup> Period Studies in British Literature (F,Sp)	3
ENGL 3320 <sup>2</sup> Period Studies in World Literature (F,Sp)	3
ENGL 3330 Literary Theory (F,Sp)	3

### D. Authors (6 credits)

Complete ENGL 4300 and one other course.

ENGL 4300 <sup>2</sup> Shakespeare (F,Sp)	3
ENGL 4310 <sup>2</sup> American Writers (F,Sp)	3
ENGL 4320 <sup>2</sup> British Writers (F,Sp)	3
ENGL 4330 <sup>2</sup> World Writers (F)	3

### E. Genre (6 credits)

Select two courses from the following:

ENGL 4340 <sup>2</sup> Studies in Prose (Sp)	3
ENGL 4350 <sup>2</sup> Studies in Poetry (F)	3
ENGL 4360 <sup>2</sup> Studies in Drama/Film (Sp)	3
ENGL 4370 <sup>2</sup> Studies in Nonfiction Prose (F)	3

### F. Literature and Culture (6 credits)

Select two courses from the following:

ENGL 5300 (CI) <sup>2</sup> Literature and Gender (F,Sp)	3
ENGL 5320 (CI) <sup>2</sup> Literature and Cultural Difference (Sp)	3
ENGL 5340 (CI) <sup>2</sup> Studies in Literary and Cultural Theory (F)	3

### G. Electives (6 credits)

Select two additional courses from categories C, D, E, or F. One linguistics course (ENGL 4200 or 4210) may also count as an elective.

**Note:** The Period Studies; Authors; Genre; and Literature and Culture courses vary according to the specialty of the faculty member teaching the course.

## Professional and Technical Writing Emphasis

**Minimum GPA for Admission:** 2.75, major; 2.75, USU; 2.75, Career  
**Minimum GPA for Graduation:** 2.75, major courses; 2.0, USU;  
 2.0, Career

**Minimum Grade Accepted:** C in major courses; B- in ENGL 1120, 3400, and 3410

This 48-credit emphasis prepares students for career opportunities in various writing-related careers in professional organizations. The emphasis consists of: (1) a theoretical foundation in rhetoric and linguistics, enabling students to assess any writing situation and adapt their writing to the context as audience-aware writers; and (2) writing practice in a variety of contexts using the most up-to-date tools of technology, so that students know how to write and why they are writing, thus preparing them for the ever-changing job markets of the twenty-first century.

Students begin their studies by completing one literature survey course and two introductory professional writing courses introducing students to the profession of writing and the current technologies used in all levels of text production. ENGL 3400 (Professional Writing) and ENGL 3410 (Professional Writing Technology), which are prerequisites for applications courses, must be passed with a grade of B- or better, in order for the student to continue in the program. At the same time, students also take two courses addressing rhetorical issues and strategies in the perception, reading, and writing of texts, and two courses in linguistics acquainting students with the structure and diversity of the English language.

In addition, all Professional and Technical Writing students must pass ENGL 1120 (Elements of Grammar) with a grade of B- or better, or pass the challenge exam offered by the Writing Center.

Students then take courses in professional editing, document design and graphics, interactive media, and publication production and management. Along with these, students may also take courses in creative writing, as well as those with more specific forms of writing, such as proposals, newsletters, and computer documentation. Internships provide students with an opportunity to learn through hands-on experiences in a variety of organizations. Students complete the program by taking a capstone course, in which they prepare portfolios, explore professional opportunities, and prepare to begin their careers.

### A. Core Requirement (3 credits)

**ENGL 1120<sup>4</sup>** Elements of Grammar (F,Sp).....3

### B. Literary History (3 credits)

Select one course from the following:

**ENGL 2140** British Literary History: Anglo-Saxon to 18th Century (F,Sp).....3

**ENGL 2150** British Literary History: Romanticism to Present (F,Sp).....3

**ENGL 2160** American Literary History: Colonialism to 1865 (F,Sp).....3

**ENGL 2170** American Literary History: 1865 to Present (F,Sp).....3

### C. Introductory Professional Writing Courses (6 credits)

**ENGL 3400 (CI)** Professional Writing (F,Sp).....3

**ENGL 3410** Professional Writing Technology (F,Sp).....3

### D. Theoretical Foundation Courses (6 credits)

**ENGL 3450** Methods and Research in Professional and Technical Communication (Sp).....3

**ENGL 3460** Modern Rhetorical Theory (F).....3

### E. Linguistics Courses (6 credits)

Select two courses from the following:

**ENGL 4200** Linguistic Structures (F,Sp,Su).....3

**ENGL 4210** History of the English Language (Sp).....3

**ENGL 4230** Language and Society (F).....3

**ENGL 5210** Topics in Linguistics (F).....3

### F. Applied and Creative Writing Courses (3 credits)

Complete 3 credits from the following:

**ENGL 3040** Perspectives in Writing and Rhetoric (F or Sp).....3

**ENGL 3420** Fiction Writing (F,Sp).....3

**ENGL 3430** Poetry Writing (F,Sp).....3

**ENGL 3440** Creative Nonfiction Writing (F,Sp).....3

**ENGL/THEA 4250<sup>9</sup>** Playwriting (F).....3

**ENGL 4420 (CI)<sup>2</sup>** Advanced Fiction Writing (Sp).....3

**ENGL 4430 (CI)<sup>2</sup>** Advanced Poetry Writing (Sp).....3

**ENGL 4900** Internship/Cooperative Work Experience (F,Sp,Su).....1-12

### G. Major Courses (18 credits)

**ENGL 4400 (CI)<sup>6</sup>** Professional Editing (Sp).....3

**ENGL 4410<sup>2,6</sup>** Document Design and Graphics (F,Sp).....3

**ENGL 5400<sup>2,5,6</sup>** Specialized Documents (F,Sp).....3

**ENGL 5410<sup>2,6,8</sup>** Studies in Writing for Digital Media Production (F).....3

**ENGL 5420<sup>6</sup>** Publications Production (F).....3

**ENGL 5490<sup>2,7</sup>** Topics in Professional and Technical Writing (Sp).....3

### H. Capstone Seminar (3 credits)

**ENGL 5430 (CI)<sup>3</sup>** Professional Writing Capstone (Workplace Culture and Communication) (F,Sp).....3

## English Teaching Emphasis

**Minimum GPA for Admission:** 2.75, major; 2.75, USU; 2.75, Career

**Additional Minimum GPA for Matriculation to STEP Program:**  
 2.75, USU

**Minimum GPA for Graduation:** 2.75, major courses; 2.0, USU;  
 2.75, Career (for certification)

**Minimum Grade Accepted:** C in major courses; C- in STEP courses

This 52-credit emphasis, leading to professional licensure in the teaching of secondary-level English, prepares prospective English teachers to participate actively in the many communities related to the profession. Students become well-versed in their academic subject matter (language, writing, literature, and multimedia); skilled in the methods of teaching the various components of the English curriculum and in classroom management techniques; and committed to the achievement of all students regardless of gender, race, ethnicity, religion, sexuality, or socioeconomic standing.

Students first complete 9 credits of literature survey courses and 3 credits of literary theory to acquire a broad understanding of the traditional literary canon and the current theoretical foundations of English Studies. They must also take ENGL 1120 (Elements of Grammar), or pass the challenge exam offered by the Writing Center. They then take 12 credits in upper-division literature and then courses which address the current understandings of the diversity of American language and culture as they impact the English classroom. Students take courses in young adult literature, Shakespeare, and 15 more credits of upper-division literature and writing courses to become

# Department of English

familiar with the spectrum of theoretical, ideological, and scholarly issues at stake in English studies today. To become familiar with the art of teaching the many components of the English curriculum, students take two pedagogical courses, which approach reading and writing as interdependent aspects of communication. If students wish to obtain professional licensure at graduation, they must also fulfill the requirements of the 35-credit Secondary Teacher Education Program (STEP) prescribed by the Secondary Education Program of the School of Teacher Education and Leadership (TEAL).

## A. Core Requirements (4 credits)

ENGL 1110 English Orientation (F,Sp)	1
ENGL 2600 Literary Analysis (F,Sp)	3

## B. Literary History (9 credits)

Select three courses from the following:

ENGL 2140 British Literary History: Anglo-Saxon to 18th Century (F,Sp)	3
ENGL 2150 British Literary History: Romanticism to Present (F,Sp)	3
ENGL 2160 American Literary History: Colonialism to 1865 (F,Sp)	3
ENGL 2170 American Literary History: 1865 to Present (F,Sp)	3

## C. Linguistics (3 credits)

ENGL 4200 Linguistic Structures (F,Sp,Su)	3
---	---

## D. Upper-division Writing Courses (3 credits)

Select one course from the following:

ENGL 3080 (CI) Introduction to Technical Communication (F,Sp)	3
ENGL 3420 Fiction Writing (F,Sp)	3
ENGL 3430 Poetry Writing (F,Sp)	3
ENGL 3440 Creative Nonfiction Writing (F,Sp)	3

## E. Upper-division Literature Courses (15 credits)

### 1. Required Course (3 credits)

ENGL 4300 Shakespeare (F,Sp)	3
------------------------------	---

### 2. Select one course from each of the following groups:

#### a. Group 1 (3 credits)

ENGL 3300 Period Studies in American Literature (F,Sp)	3
ENGL 4310 American Writers (F,Sp)	3
ENGL 4610 Western American Literature (F,Sp)	3
ENGL 4630 American Nature Writers (F,Sp)	3

#### b. Group 2 (3 credits)

ENGL 3310 Period Studies in British Literature (F,Sp)	3
ENGL 4320 British Writers (F,Sp)	3

#### c. Group 3 (3 credits)

ENGL 3320 Period Studies in World Literature (F,Sp)	3
ENGL 4330 World Writers (F)	3
CLAS/ARTH 3210 Classical Mythology (Honors only) (F,Sp)	3

#### d. Group 4 (3 credits)

ENGL 4340 Studies in Prose (Sp)	3
ENGL 4350 Studies in Poetry (F)	3
ENGL 4360 Studies in Drama/Film (Sp)	3
ENGL 4370 Studies in Nonfiction Prose (F)	3
Folklore Courses: ENGL 3700 (Regional Folklore), 3710 (Folklore Colloquium), 4700 (Folk Material Culture), 4750 (Folklore Summer Workshop, Fife Conference), 5700 (Folk Narrative)	3

## F. English Education Courses (15 credits)

ENGL 3510 Young Adult Literature (F,Sp)	3
ENGL 3520 Multicultural American Literature (F,Sp)	3
ENGL 4220 Ethnic Literacy (F,Sp)	3
ENGL 4500 (CI) Teaching Writing (F,Sp)	3
ENGL 4510 (CI) Teaching Literature (F,Sp)	3

## Grammar Competency Requirement:

In addition to fulfilling the above requirements, students in the English teaching emphasis must fulfill a grammar competency requirement. This may be accomplished either by enrolling in ENGL 1120, Elements of Grammar, (also offered through Independent Study or online) or by passing a challenge exam in the English Department Writing Center (Ray B. West 104) with a score of 80 percent or better. See the English undergraduate advisor for further information.

## G. Teaching Minor

Students in the English Teaching emphasis are also required to complete a teaching minor selected from among the following: Chemistry, Geography, History, Mathematics, Modern Languages (French, German, Spanish), Physical Education Coaching, Physics, Political Science, Psychology, School Health, School Library Media, Sociology, Speech Communication, English as a Second Language, and Theatre Arts.

## H. Secondary Teacher Education Program (STEP) (35 credits)

To receive a license to teach in the public school system, students in the English Teaching emphasis must also complete the 35-credit STEP administered through the Secondary Education Program of the School of TEAL. The student enrolls in this three-semester sequence of courses after having completed nearly all teaching major and minor requirements and after having been granted full admission to the program, which entails meeting various admission criteria. See the Secondary Education Program of the School of TEAL for further information regarding this program.

## Creative Writing Emphasis

**Minimum GPA for Admission:** 2.75, major; 2.75, USU; 2.75, Career  
**Minimum GPA for Graduation:** 2.75, major courses; 2.0, USU; 2.0, Career

**Minimum Grade Accepted:** C in major courses

This 46-credit emphasis is devoted to the art of literary writing: fiction, poetry, creative nonfiction, and drama. Through practice in a chosen genre and a comprehensive study of literature, students learn the craft of literary writing as discovered and practiced over the last three thousand years of written human culture. The emphasis prepares undergraduates for graduate work in creative writing and develops critical, cognitive, and writing skills applicable in numerous professional fields.

Since creative writers must have a broad knowledge of literature, students first complete three of the 2000-level survey courses which provide an overview of major periods, authors, and genres in American and British literature. They also take an introductory course in literary theory which introduces methodologies of literary criticism.

At the 3000-level, students begin their work as creative writers, taking three introductory writing courses in three genres: fiction, poetry, and creative nonfiction. To continue their immersion in the study of literature, students take one course in Period Studies.

At the 4000-level, students concentrate their training as creative writers, taking two courses in advanced creative writing, courses which can be repeated. Also at the 4000-level, students take a course focused on the study of a single author and a course in the study of one's chosen genre. Students also select three courses (for 9 credits) from courses outside their emphasis, ideally from outside the English Department, to further broaden their knowledge of human culture and the natural world.

The emphasis culminates in a creative writing capstone, which encourages students to reflect upon and assess their experience in the creative writing program, and which also has students complete a portfolio of their best work.

## A. Core Requirements (4 credits)

ENGL 1110 English Orientation (F,Sp)	1
ENGL 2600 Literary Analysis (F,Sp)	3

## B. Literary History (6 credits)

Select two courses from the following:

ENGL 2140 British Literary History: Anglo-Saxon to 18th Century (F,Sp)	3
ENGL 2150 British Literary History: Romanticism to Present (F,Sp)	3
ENGL 2160 American Literary History: Colonialism to 1865 (F,Sp)	3
ENGL 2170 American Literary History: 1865 to Present (F,Sp)	3

## C. Creative Writing Courses (18 credits)

Select all three of the following courses:

ENGL 3420 Fiction Writing (F,Sp)	3
ENGL 3430 Poetry Writing (F,Sp)	3
ENGL 3440 Creative Nonfiction Writing (F,Sp)	3

Select three of the following courses:

ENGL/THEA 4250 <sup>9</sup> Playwriting (F)	3
ENGL 4420 (CI) <sup>2</sup> Advanced Fiction Writing (prereq. ENGL 3420) (Sp)	3
ENGL 4430 (CI) <sup>2</sup> Advanced Poetry Writing (prereq. ENGL 3430) (Sp)	3
ENGL 4440 (CI) <sup>2</sup> Advanced Nonfiction Writing (prereq. ENGL 3440) (Sp)	3

## D. American, British, and World Literature (3 credits)

Select one of the following courses:

ENGL 3300 <sup>2</sup> Period Studies in American Literature (F,Sp)	3
ENGL 3310 <sup>2</sup> Period Studies in British Literature (F,Sp)	3
ENGL 3320 <sup>2</sup> Period Studies in World Literature (F,Sp)	3

## E. Authors (3 credits)

Select one of the following courses:

ENGL 4300 <sup>2</sup> Shakespeare (F,Sp)	3
ENGL 4310 <sup>2</sup> American Writers (F,Sp)	3
ENGL 4320 <sup>2</sup> British Writers (F,Sp)	3
ENGL 4330 <sup>2</sup> World Writers (F)	3

**Note:** The Writers courses vary according to the specialty of the faculty member teaching the course.

## F. Genres (3 credits)

Select one of the following courses:

ENGL 4340 <sup>2</sup> Studies in Prose (Sp)	3
ENGL 4350 <sup>2</sup> Studies in Poetry (F)	3
ENGL 4360 <sup>2</sup> Studies in Drama/Film (Sp)	3
ENGL 4370 <sup>2</sup> Studies in Nonfiction Prose (F)	3

**Note:** The Genre courses vary according to the specialty of the faculty member teaching the course.

## G. Electives (9 credits)

Students should select electives with the guidance and approval of the English undergraduate advisor.

**Note:** The Period Studies, Authors, and Genre courses vary according to the specialty of the faculty member teaching the course.

<sup>1</sup>ENGL 2600 should be taken before registering for 3000 or above literature courses.

<sup>2</sup>These courses are repeatable for credit.

<sup>3</sup>This capstone course should be completed during the senior year.

<sup>4</sup>ENGL1120 is waived if students pass the grammar challenge exam. For further information, contact the undergraduate advisor.

<sup>5</sup>ENGL 5400 includes proposals, brochures, environmental impact statements, newsletters, computer documentation, etc. This course is repeatable for credit.

<sup>6</sup>Prerequisite: Admittance to program and completion of ENGL 3400 and 3410 with grades of B- or better.

<sup>7</sup>Prior to enrolling in ENGL 5490, students must have completed both ENGL 3400 and 3410 with grades of B- or better.

<sup>8</sup>ENGL 5410 includes multimedia, interactive and electronic texts, etc. This course is repeatable for credit.

<sup>9</sup>ENGL/THEA 4250 requires a prerequisite of THEA 1713.

## American Studies Major and Minor

Many key issues tied to the roots, development, and expression of American culture transcend the boundaries of traditional subject areas and are best explored from a variety of perspectives or disciplines.

The American Studies major and minor provide students with the opportunity to integrate studies in various fields into a broader understanding of American culture and its antecedents. Although housed in the Department of English, the American Studies Program permits students to choose relevant courses for their cognate areas from a variety of participating departments throughout the University.

For admission and graduation, students must have and maintain a minimum grade point average of 2.75. All courses used to fulfill either the major or minor requirements must be taken on an *A-B-C-D-F* basis, and major or minor courses passed with less than a *C* grade must be repeated. However, up to 3 credits of internship credit, which is recorded as *P/F*, may be used to partially fulfill the major requirements. Transfer students are required to take at least 15 credits of major subject courses and 10 credits of minor subject courses in residence at USU.

## Major

**Minimum GPA for Admission:** 2.75, major; 2.75, USU; 2.75, Career

**Minimum GPA for Graduation:** 2.75, major courses; 2.0, USU; 2.0, Career

**Minimum Grade Accepted:** C in major courses

To obtain a degree in American Studies, students must complete a total of 51 credits, including 9 credits of core requirements that introduce foundations of American literature, region, and culture; 6 credits chosen from the 3000 or 4000 level that expose students to the diversity of American culture; and 12 credits of upper-division work (3000 or 4000 level) that allow students to approach American literature, history, and culture through various genres and historical periods.

In addition to completing the required English and history classes, students must complete 21 credits from two of the following seven cognate areas: creative writing, folklore, literature, history, nature

# Department of English

and environment, political science, and sociology and anthropology. Students will be required to meet with either the director or the undergraduate advisor (contact HASS Advising, Taggart Student Center 302) to determine appropriate courses for the cognate areas.

The final course, a senior capstone, encourages graduating students to reflect on their overall coursework, synthesizing the perspectives they have gained about American culture in an extended research project reflecting their interdisciplinary academic experience.

## Course Requirements

### A. Core Requirements (9 credits)

Choose *three* of the following courses:

<b>ENGL 2160</b> American Literary History: Colonialism to 1865 (F,Sp).....	3
<b>ENGL 2170</b> American Literary History: 1865 to Present (F,Sp) .....	3
<b>HIST 2700 (BAI)</b> United States to 1877 (F,Sp,Su) .....	3
<b>HIST 2710 (BAI)</b> United States 1877-Present (F,Sp,Su).....	3

### B. Choose two of the following courses (6 credits)

One selection must be from the ENGL course listings, and one selection must be from the HIST course listings.

<b>ENGL 2630 (BHU)</b> Survey of American Culture (F,Sp).....	3
<b>ENGL 3070 (DHA)</b> Perspectives in Folklore (F,Su).....	3
<b>ENGL 3300</b> Period Studies in American Literature (F,Sp).....	3
<b>ENGL 3520</b> Multicultural American Literature (F,Sp).....	3
<b>ENGL 3620</b> Native American Studies (F,Sp).....	3
<b>ENGL 4610</b> Western American Literature (F,Sp) .....	3

<b>HIST 3670</b> Slavery in the Atlantic World.....	3
<b>HIST 4550 (DHA/CI)</b> Women and Gender in America (F).....	3
<b>HIST 4600 (DHA/CI)</b> The History of the American West .....	3
<b>HIST 4630</b> The History of Mexican Americans .....	3
<b>HIST 4710</b> American Indian History (F).....	3
<b>HIST 4720 (DHA/CI)</b> The Civil Rights Movement (F,Sp).....	3
<b>HIST 4730 (CI)</b> History of Black America (Sp).....	3

### C. Choose four of the following courses (12 credits)

At least one selection must be from the ENGL course listings, and at least one selection must be from the HIST course listings.

<b>ENGL 4310</b> American Writers (F,Sp).....	3
<b>ENGL 4340</b> Studies in Prose (Sp).....	3
<b>ENGL 4350</b> Studies in Poetry (F).....	3
<b>ENGL 4360</b> Studies in Drama/Film (Sp) .....	3
<b>ENGL 4370</b> Studies in Nonfiction Prose (F).....	3
<b>ENGL/HIST 4620 (CI)</b> Advanced Seminar in American Studies (F,Sp).....	3
<b>ENGL 4630</b> American Nature Writers (F,Sp).....	3
<b>ENGL/HIST 4640 (CI)</b> Studies in the American West (F,Sp).....	3
<b>ENGL 4900</b> Internship/Cooperative Work Experience (F,Sp,Su) .....	1-3
<b>HIST 3720</b> Colonial America (F).....	3
<b>HIST 3730</b> The New American Nation (Sp).....	3
<b>HIST 3740</b> United States in the Age of Jefferson and Jackson (F) .....	3
<b>HIST 3750</b> Civil War and Reconstruction (Sp) .....	3
<b>HIST 3760 (DHA/CI)</b> The United States 1900-1945 (Sp).....	3
<b>HIST 3770</b> Contemporary America, 1945-Present (F) .....	3
<b>HIST 3840</b> Twentieth Century American West (Sp) .....	3
<b>HIST 3850 (DHA/CI)</b> History of Utah (Sp).....	3
<b>HIST 3950 (DHA/CI)</b> Environmental History .....	3
<b>HIST 4400 (DHA)</b> History of Aviation and Aeronautics.....	3
<b>HIST/ENGL 4640 (CI)</b> Studies in the American West (F,Sp).....	3
<b>HIST 4790</b> American Religious History .....	3
<b>HIST 4810</b> American Military History.....	3

### D. Cognate Areas (further information shown below) (21 credits)

Select two cognate areas and choose 9 credits from one and 12 credits from the other (21 credits total). Possible cognate course options are listed below.

1. Creative Writing
2. Folklore
3. History
4. American Literature
5. Nature and Environment
6. Political Science
7. Sociology and Anthropology

### E. Capstone Course (3 credits)

**ENGL/HIST 5690 (CI)** American Studies Capstone Seminar (Sp)..... 3

### Cognate Course Options

Students are required to select **two** cognate areas and choose 9 credits from one and 12 credits from the other (21 credits total). Cognate courses *cannot* be used to fill University Studies requirements. **A maximum of 3 credits can be completed in lower-division courses.** The following are partial lists of appropriate courses. The Director of American Studies or the American Studies Advisor (contact HASS Advising, Taggart Student Center 302) must approve substitutions.

#### 1. Creative Writing

Select *three* or *four* courses from the following:

<b>ENGL 3420</b> Fiction Writing (F,Sp) .....	3
<b>ENGL 3430</b> Poetry Writing (F,Sp) .....	3
<b>ENGL 3440</b> Creative Nonfiction Writing (F,Sp) .....	3
<b>ENGL 4420 (CI)</b> Advanced Fiction Writing (Sp) .....	3
<b>ENGL 4430 (CI)</b> Advanced Poetry Writing (Sp) .....	3
<b>ENGL 4440 (CI)</b> Advanced Nonfiction Writing (F,Sp) .....	3

#### 2. Folklore

Select *three* or *four* courses from the following:

<b>ENGL/HIST/ANTH 2210 (BHU)</b> Introduction to Folklore (F,Sp).....	3
<b>ENGL/HIST/ANTH 2720</b> Survey of American Folklore (F,Sp).....	3
<b>ENGL/HIST 3070</b> Perspectives in Folklore (F,Su).....	3
<b>ENGL/HIST 3700 (CI)</b> Regional Folklore (F,Sp).....	3
<b>ENGL/HIST/RELS 3710 (CI)</b> Folklore Colloquium (Sp) .....	3
<b>ENGL/HIST 4700</b> Folk Material Culture (Sp) .....	3
<b>ENGL/HIST 4750</b> Advanced Folklore Workshop: Fife Conference (Su).....	3
<b>ENGL/HIST/ANTH 5700</b> Folk Narrative (Sp) .....	3

#### 3. History

Select *three* or *four* courses from the following. Courses may *not* be "double-counted" to satisfy requirements in sections A, B, or C.

<b>HIST/ENGL 1600</b> American Cultures in Film (F,Sp).....	3
<b>HIST 2700 (BAI)</b> United States to 1877 (F,Sp,Su).....	3
<b>HIST 2710 (BAI)</b> United States 1877-Present (F,Sp,Su).....	3
<b>HIST 3720</b> Colonial America (F).....	3
<b>HIST 3730</b> The New American Nation (Sp).....	3
<b>HIST 3740</b> United States in the Age of Jefferson and Jackson (F) .....	3
<b>HIST 3750</b> Civil War and Reconstruction (Sp) .....	3
<b>HIST 3760 (CI)</b> The United States, 1900-1945 (Sp).....	3
<b>HIST 3850 (CI)</b> History of Utah (Sp).....	3
<b>HIST/WGS 4550 (CI)</b> Women and Gender in America (F).....	3
<b>HIST 4600 (CI)</b> The History of the American West .....	3
<b>HIST/ENGL 4640 (CI)</b> Studies in the American West (F,Sp).....	3
<b>HIST 4710</b> American Indian History (F).....	3
<b>HIST 4730 (CI)</b> History of Black America (Sp).....	3
<b>HIST 4790</b> American Religious History .....	3
<b>HIST 4810</b> American Military History.....	3

## 4. American Literature

Select *three* or *four* courses from the following. Courses may *not* be "double-counted" to satisfy requirements in sections A, B, or C.

<b>ENGL 3300</b> Period Studies in American Literature (F,Sp)	3
<b>ENGL 3520</b> Multicultural American Literature (F,Sp)	3
<b>ENGL 3620</b> Native American Studies (F,Sp)	3
<b>ENGL 4310</b> American Writers (F,Sp)	3
<b>ENGL 4340</b> Studies in Prose (Sp)	3
<b>ENGL 4350</b> Studies in Poetry (F)	3
<b>ENGL 4360</b> Studies in Drama/Film (Sp)	3
<b>ENGL 4370</b> Studies in Nonfiction Prose (F)	3
<b>ENGL 4610</b> Western American Literature (F,Sp)	3
<b>ENGL/HIST 4620 (CI)</b> Advanced Seminar in American Studies (F,Sp)	3
<b>ENGL 4630</b> American Nature Writers (F,Sp)	3
<b>ENGL/HIST 4640 (CI)</b> Studies in the American West (F,Sp)	3

## 5. Nature and Environment

Select *three* or *four* courses from the following:

<b>ENGL 4630</b> American Nature Writers (F,Sp)	3
<b>ENVS 2340 (BSS)</b> Natural Resources and Society (F,Sp)	3
<b>ENVS 5110</b> Environmental Education (Sp)	3
<b>HIST 3950 (CI)</b> Environmental History	3
<b>NR 1010 (BSS)</b> Humans and the Changing Global Environment	3
<b>NR 2220</b> General Ecology (F,Sp)	3
<b>PHIL 3510</b> Environmental Ethics (Sp)	3
<b>POLS 4820 (DSS)</b> Natural Resources and Environmental Policy (Sp)	3
<b>SOC 3600</b> Sociology of Urban Places (F)	3
<b>SOC 3610 (DSS)</b> Rural Sociology (F)	3
<b>SOC 4620 (DSS)</b> Sociology of the Environment and Natural Resources (Sp)	3
<b>SPCH 5250</b> Environmental Rhetoric (Sp)	3
<b>WILD 2200 (BLS)</b> Ecology of Our Changing World (F,Sp)	3

## 6. Political Science

Select *three* or *four* courses from the following:

<b>POLS 1100 (BAI)</b> United States Government and Politics (F,Sp)	3
<b>POLS 2200 (BSS)</b> Comparative Politics (F,Sp)	3
<b>POLS 3140 (DSS)</b> The Presidency (F)	3
<b>POLS/ECN 3170</b> Law and Economics (Sp)	3
<b>POLS 3310 (DSS)</b> American Political Thought (F)	3
<b>POLS 3320</b> The Foundations of American Constitutionalism	3
<b>POLS 3400 (DSS)</b> United States Foreign Policy (F,Sp)	3
<b>POLS 4130</b> Constitutional Theory (Sp)	3
<b>POLS 4140</b> Political Organizations	3

## 7. Sociology and Anthropology

Select *three* or *four* courses from the following:

<b>ANTH 1010 (BSS)</b> Cultural Anthropology (F,Sp)	3
<b>ANTH 3110</b> North American Indian Cultures (F)	3
<b>ANTH 3130 (CI)</b> Peoples of Latin America	3
<b>ANTH 3200 (DSS/CI)</b> Perspectives on Race (Sp)	3
<b>ANTH 3300 (DSS)</b> Archaeology in North America (F,Sp)	3
<b>ANTH 4110 (DSS)</b> Southwest Indian Cultures, Past and Present (F)	3
<b>ANTH 5800</b> Museum Development (F,Sp,Su)	1-3
<b>SOC 1010 (BSS)</b> Introductory Sociology (F,Sp)	3
<b>SOC 3010</b> Social Inequality (F,Sp)	3
<b>SOC 4370</b> Sociology of Gender (F)	3

## American Studies Minor (21 credits)

American Studies minors must meet and maintain a 2.75 GPA admissions and graduation standard. Students are required to complete the following: (1) one introductory ENGL course (ENGL

2160, American Literary History: Colonialism to 1865; or ENGL 2170, American Literary History: 1865 to Present); (2) one introductory HIST course (HIST 2700, United States to 1877; or HIST 2710, United States 1877-Present); and (3) one 3000- or 4000-level ENGL or HIST course (listed on page 264 in sections B and C). In addition, students must also complete 12 credits of upper-division coursework drawn from two cognate areas (listed on page 264 in section D). These courses of study must be approved by the Director of American Studies or by the American Studies advisor (contact HASS Advising, Taggart Student Center 302) at least one year in advance of graduation. Courses used to fulfill requirements for the English and History majors may *not* be used for the American Studies minor.

## Folklore Minor (18 credits)

The 18-credit minor in folklore is an interdisciplinary program sponsored by the English Department and the History Department. The Director of the Folklore Program or the Folklore Advisor (contact HASS Advising, Taggart Student Center 302) must approve the coursework at least one year prior to graduation. Folklore minor students must maintain a 2.75 GPA admissions and graduation standard.

### A. Required Courses (6 credits)

<b>ENGL/HIST/ANTH 2210 (BHU)</b> Introduction to Folklore (F,Sp)	3
<b>ENGL/HIST/ANTH 5700</b> Folk Narrative (Sp)	3

### B. Survey of Folklore in Culture and Place (3 credits)

Select *one* of the following courses:

<b>ENGL/HIST/ANTH 2720</b> Survey of American Folklore (F,Sp)	3
<b>ENGL/HIST 3700 (CI)</b> Regional Folklore (F,Sp)	3

### C. Folklore Genres (3 credits)

Select *one* of the following courses:

<b>ENGL/HIST 3070 (DHA)</b> Perspectives in Folklore (F,Su)	3
<b>ENGL/HIST 4700</b> Folk Material Culture (Sp)	3

### D. Focused Approaches to the Study of Folklore (3 credits)

Select *one* of the following courses:

<b>ENGL/HIST/RELS 3710 (CI)</b> Folklore Colloquium (Sp)	3
<b>ENGL/HIST 4750</b> Advanced Folklore Workshop: Fife Conference (Su)	3

### E. Electives (3 credits)

Select *one* of the following courses:

<b>ANTH 1010 (BSS)</b> Cultural Anthropology (F,Sp)	3
<b>ANTH 2010 (BSS)</b> Peoples of the Contemporary World (Sp)	3
<b>ANTH 3110</b> North American Indian Cultures (F)	3
<b>ANTH 3130 (CI)</b> Peoples of Latin America	3
<b>ANTH 3160 (DSS)</b> Anthropology of Religion (F)	3
<b>ANTH 4110 (DSS)</b> Southwest Indian Cultures, Past and Present (F)	3
<b>ANTH 4120 (CI/DSS)</b> Anthropology of Childhood (Sp)	3
<b>ANTH 4230 (DSS)</b> Medical Anthropology: Matter, Culture, Spirit, and Health (Sp)	3
<b>ANTH 5190</b> Applied Anthropology Practicum	3
<b>ENGL/HIST 1600</b> American Cultures in Film (F)	3
<b>ENGL/HIST 3070 (DHA)</b> Perspectives in Folklore (F,Su)	3
<b>ENGL 3520</b> Multicultural American Literature (F,Sp)	3
<b>ENGL 3620</b> Native American Studies (F,Sp)	3
<b>ENGL/HIST/RELS 3710 (CI)</b> Folklore Colloquium (Sp)	3
<b>ENGL/HIST 4750</b> Advanced Folklore Workshop: Fife Conference (Su)	3
<b>HIST 4850</b> Interpreting the Past for Teachers (F,Sp)	3

# Department of English

## English Teaching Minor (27 credits)

English Teaching minor students must meet and maintain a 2.75 GPA for admission and graduation. This minor is available *only* to students completing a teaching major. Students may not use the *P/D/F* option, and grades *C* and below must be repeated. Students must complete the following courses:

<b>ENGL 2140</b> British Literary History: Anglo-Saxon to 18th Century (F,Sp) (3 cr) <b>or</b>	
<b>ENGL 2150</b> British Literary History: Romanticism to Present (F,Sp) (3 cr) .....	3
<b>ENGL 2160</b> American Literary History: Colonialism to 1865 (F,Sp) (3 cr) <b>or</b>	
<b>ENGL 2170</b> American Literary History: 1865 to Present (F,Sp) (3 cr) .....	3
<b>ENGL 3510</b> Young Adult Literature (F,Sp) .....	3
<b>ENGL 3520</b> Multicultural American Literature (F,Sp) .....	3
<b>ENGL 4200</b> Linguistic Structures (F,Sp,Su) .....	3
<b>ENGL 4220</b> Ethnic Literacy (F,Sp) .....	3
<b>ENGL 4300</b> Shakespeare (F,Sp) .....	3
<b>ENGL 4500 (CI)</b> Teaching Writing (F,Sp) .....	3
<b>ENGL 4510 (CI)</b> Teaching Literature (F,Sp) .....	3

### Grammar Competency Requirement:

In addition to fulfilling the above requirements, students in the English teaching minor must fulfill a grammar competency requirement. They may meet this requirement by *either* enrolling in ENGL 1120, Elements of Grammar (also offered through Independent Study), *or* by passing a challenge exam in the English Department Writing Center (Ray B. West 104) with a score of 80 percent or better. For further information, contact the English undergraduate advisor (HASS Advising, Taggart Student Center 302).

## English Minor (Standard Nonteaching) (18 credits)

The standard nonteaching minor consists of 18 credits of various courses, 12 of which must be in upper-division coursework. Ten of the 18 credits must be earned in residence at USU. Advanced Placement credit, CLEP credit, and credit from ENGL 1010 and 2010 may **not** be counted toward this minor. The program must be approved by the Academic Advisor for the English Department at least one year prior to graduation.

## British and Commonwealth Studies Minor (18 credits)

The minor in British and Commonwealth Studies, sponsored jointly by the English and History departments, allows undergraduates to experience interdisciplinary study and broaden their international perspectives. Students engage in interdisciplinary study by doing extended work outside their home departments, while at the same time integrating their study around a single area. They enhance their international experience by deepening their knowledge of the British Isles and of the British Empire's contact with world cultures in the Commonwealth and other postcolonial nations. This minor requires a minimum of 18 credits. Up to three of these courses (9 credits) from the list in *Section A* below may also be used to fulfill requirements for the English or History majors. The program selected must be approved by the coordinator of the British and Commonwealth Studies Minor *at least one year prior to graduation*. Alternatives to this program are possible, but any alternative must be approved by the coordinator.

## A. Select five courses relevant to British and Commonwealth Studies (15 credits)

Each semester, applicable courses will be listed on the program's website (click on link at <http://english.usu.edu/>). Several courses which may fulfill the requirements are listed below. Other courses may also be applicable, depending on the topic. At least one course must be chosen from the English Department offerings, and at least one course must be chosen from the History Department. Furthermore, at least one course must focus on some aspect of the Commonwealth (each of these courses is designated by an asterisk on the website). Students engaged in a formal program of study in Britain or any Commonwealth country may apply this experience toward the British and Commonwealth Studies minor, at the program coordinator's discretion.

<b>ENGL 2140</b> British Literary History: Anglo-Saxon to 18th Century (F,Sp) .....	3
<b>ENGL 2150</b> British Literary History: Romanticism to Present (F,Sp) .....	3
<b>ENGL 3060 (DHA)</b> British and Commonwealth Cultures .....	3
<b>ENGL 3310</b> Period Studies in British Literature (F,Sp) .....	3
<b>ENGL 3320</b> Period Studies in World Literature (F,Sp) .....	3
<b>ENGL/HIST 3700 (CI)</b> Regional Folklore (F,Sp) .....	3
<b>ENGL 4300</b> Shakespeare (F,Sp) .....	3
<b>ENGL 4320</b> British Writers (F,Sp) .....	3
<b>ENGL 4330</b> World Writers (F) .....	3
<b>HIST 3240</b> Modern Europe from 1789 to the Present .....	3
<b>HIST 3510</b> Africa and the World .....	3
<b>HIST 3720</b> Colonial America (F) .....	3
<b>HIST/ARTH 4210</b> Celtic Europe (F) .....	3
<b>HIST 4250</b> The Reformation in Britain: 1450-1688 .....	3
<b>HIST 4390</b> British Imperialism from 1688 to the Present .....	3

## B. Complete one of the following two courses (3 credits)

These courses will culminate in the student producing a research paper of approximately 20 pages, which should be on some topic relevant to Britain and/or the Commonwealth.

<b>ENGL 5920</b> Directed Study (F,Sp,Su) .....	3
<b>HIST 4930</b> Directed Readings .....	3

For further information about the British and Commonwealth Studies Minor, contact the program coordinator (Shane Graham, Ray B. West 301B, (435) 797-2719, [sgraham@english.usu.edu](mailto:sgraham@english.usu.edu)).

## Sample Four-year Plans

Sample semester-by-semester four-year plans for students working toward a bachelor's degree within the English Department can be found at:

<http://www.usu.edu/degreeplans/>

Students should consult with their advisor to develop a plan of study tailored to their individual needs and interests.

## Program Assessment

For information about how the English Department assesses its programs, click on the **Assessment** link on the departmental home page at: <http://english.usu.edu/>

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school.

Students are eligible for admission to the English departmental honors program if they: (1) are majoring in English or in American Studies, (2) have a cumulative GPA of at least 3.3, and (3) have a GPA in English courses (excluding ENGL 1010 and 2010) of at least 3.5. In order to earn a departmental honors degree, students must maintain these GPA levels, take 15 credits of approved upper-division English coursework for Honors credit, and complete and orally defend a Senior Honors Thesis. Typically, students take four 3-credit courses with honors contracts and one 3-credit independent study course (ENGL 5910, Senior Honors Thesis) in order to complete the 15 required credits for the program. For more information, follow the Honors Program link at: <http://english.usu.edu/>

## Additional Information and Updates

English programs are constantly being updated. Students should therefore confer with the English advisor (contact HASS Advising, Taggart Student Center 302). Current requirement sheets are available online at: <http://www.usu.edu/majorsheets/>

## Financial Support and Scholarships

Scholarships, assistantships, grants-in-aid, and work-study programs are available through the University. In addition, the English Department employs a few students as tutors in The Writing Center and oversees various cooperative education and internship opportunities for students. Departmental scholarships are available on a competitive basis to juniors and seniors, as well as to some sophomores. Applications are accepted in January and February and are available in the college dean's office, Main 338. For further information, click on the scholarships link at: <http://english.usu.edu>

## Graduate Programs

### PhD in Theory and Practice of Professional Communication

The Theory and Practice of Professional Communication (TPPC) program is designed to meet the interests and needs of students who aspire to conduct advanced study of and research into the communicative practices of organizations and the professions. The program offers the opportunity to study professional communication, technology, and culture in a department with a long history of expertise and achievement in writing and technology. The defining features of this program include opportunities to study and work with advanced communication technologies, to engage in extended fieldwork research experiences, and to pursue a program of study that can largely be tailored to work with different research interests within the field of professional communication. The program prepares students to become academic instructors/researchers in English departments

or to move into administrative or research positions in nonacademic workplaces.

The TPPC program has a website providing details about the application process, financial assistance, and graduation requirements. This website may be accessed at: <http://tppc.usu.edu/>

## Research

PhD students have opportunities to participate in unique research activities available at facilities associated with the Department of English, such as computer classrooms and labs directed by faculty members. These research activities complement faculty expertise and curriculum strengths in the department, including workplace-focused graduate research, theory and practice of online education, and training in writing and professional communication.

The TPPC program makes extensive use of Web-based communications systems. The English Department at Utah State has a national reputation for its achievements in online education and continues to develop innovative ways to deliver state-of-the-art, Web-based instruction to students in Utah, across the U.S., and around the world. Depending on their research and teaching interests, TPPC students may be actively involved in these efforts.

## Coursework

As part of the work on their degree, students in the program complete a minimum of 60 approved semester credits beyond their master's degree. The required courses include ENGL 7000 (Advanced Research Methods in Professional Communication), ENGL 7410 (Theory and Research in Professional Communication), ENGL 7900 (Research Internship), and ENGL 7970 (Dissertation Research). Additional coursework is completed through a rotating series of seminars focused on the ongoing research projects and interests of faculty. In addition, to support the breadth of perspective required to understand professional communication as it operates in society at large, students are required to take at least 6 credits (and a maximum of 18 credits) of graduate-level coursework outside of the Department of English. Students are encouraged to select courses that will help them develop expertise in an area (either disciplinary or interdisciplinary) that will complement their research and/or pedagogical goals.

## Admission Procedure

Applicants for admission to the program must have a master's degree in a subject area that complements their professional reason(s) for earning a PhD in Theory and Practice of Professional Communication. They must also have earned scores *no lower than the 40th percentile* in the Verbal section and in *either* the Quantitative *or* the Analytical section of the Graduate Record Examination (GRE) General Test.

Applicants to the program should send materials to two offices at Utah State University, as described below.

To the **School of Graduate Studies**, applicants should send four items:

1. A completed application form, along with the application fee.
2. Two copies of all official undergraduate and graduate transcripts, showing GPA. The minimum requirement is 3.00 on a 4.00 scale for the last 60 credits of undergraduate courses taken and for all graduate credits taken.

# Department of English

3. Three letters of recommendation (at least two of which must be from former professors if the applicant has been enrolled in school during the last five years).
4. GRE scores no older than five years.

To the **Director of Graduate Studies in the Department of English**, applicants should send four items:

1. A letter of intent providing background information about the applicant's training, interests, and experiences, as well as an overview of the applicant's career goals and specific reasons why graduate training in professional communication is important to the applicant.
2. A completed *Graduate Instructorship Application for PhD Students* form (indicating whether or not the applicant wishes to be considered for a graduate instructorship).
3. A current vita.
4. Two writing samples (a total of 20-40 pages). The samples may include academic or nonacademic writing, but should demonstrate *both* the applicant's critical *and* research skills. Each sample must be accompanied by a 1-page introductory preface. For additional details, including current application deadline, see the TPPC website at: <http://tppc.usu.edu/>

## Financial Assistance

Both departmental support and formal research grant support are available to graduate students on a competitive basis. Highly qualified graduate students may also be nominated to compete for University fellowships. Students who wish to be considered for financial aid must meet the application deadlines described above.

Graduate instructorships are available through the Department of English. The assignment will be 50 percent time—approximately 20 hours of work per week. The normal teaching load is two sections of writing classes (e.g., composition or introduction to technical communication) for fall and spring semesters.

In addition, students are normally responsible for paying resident (instate) tuition and fees if they are residents of Utah, and *both* resident and nonresident (out-of-state) tuition and fees if they are *not* Utah residents. However, PhD students who are employed as graduate instructors (or who are recipients of certain fellowships) are eligible for tuition waivers. If they are Utah residents, their resident tuition costs will be waived. If they are *not* Utah residents, *both* the resident and nonresident tuition costs will be waived. Recipients of these tuition waivers will *still* be responsible for paying fees each semester.

## Master's Degree Programs

The Department of English offers courses of study leading to the MS and MA degrees in English and in American Studies. Applicants seeking the English degree may be admitted into the Literature and Writing specialization or the Technical Writing specialization. Applicants seeking the interdisciplinary American Studies degree may draw from a combination of courses dealing with American culture: literature, history, art, government, etc. Folklore is one of the specializations in American Studies, with courses in all aspects of folklore study, including public sector folklore.

For a more complete description of the Department of English graduate programs, see the department's website: <http://english.usu.edu/>

## Admission Requirements

In addition to the requirements specified on pages 36-37 (Admission Procedures), applicants for admission to the English Department master's degree programs should have a BS or BA degree with an undergraduate major in a subject area relevant to the master's program they desire to enter. The English Department accepts the Miller Analogies Test in place of the GRE general test, but encourages applicants to take the GRE. The department also requires a 5-10 page writing sample appropriate to the program the applicant desires to enter. The Technical Writing specialization has additional requirements; see the following website: <http://techcomm.usu.edu/grad/>

International applicants from non-English-speaking countries who desire an MS or MA degree in English should have a BS or BA degree in English from an accredited, English-speaking university. Students whose command of written English is not adequate to the demands of writing a graduate thesis in English may be required to take courses in Intensive English or may be counseled to obtain a second bachelor's degree at USU (30 credits minimum).

The annual application deadline is **January 15** for those who wish to be considered for a graduate instructor position. The final annual deadline is **April 20** for all other applicants who wish to begin their course of study fall semester.

Anyone who has not been accepted into a graduate program in the English Department must have permission from the department's Director of Graduate Studies to enroll in English graduate courses.

## MA/MS in English Requirements

Applicants will be admitted to the English degree for one of two specializations: Literature and Writing (30-33 credits) or Technical Writing (33 credits).

### Literature and Writing

The graduate specialization in Literature and Writing offers an MA or MS in English to students who wish to do advanced work in the fields of literary criticism, composition, rhetoric, and creative writing. The aim is to professionalize students, helping them to become scholars and teachers of English. While any student having a strong undergraduate education in English, along with a desire to pursue that education further, is welcome to pursue the Literature and Writing specialization, the specialization does cater most directly to future PhD students in English, future two-year college instructors, and secondary educators. Under the guidance of a faculty committee, students are encouraged to write a thesis as the culmination of their studies. With approval, this thesis may consist of a creative writing work with a critical reflective essay. Students not wishing to write a thesis may complete the Plan C option by taking 33 credits of coursework.

In both seminars and independent study with faculty, Literature and Writing students consider literary and nonliterary texts, learning not only how to interpret such texts, but also how to produce them. The course of study thus includes both theory and practice: students take part in the reading and the writing of literature, criticism, essays, and arguments. The curriculum is divided into three groups of courses: (1) Literature, (2) Writing, and (3) Teaching Literature and Writing. Students who are particularly interested in one of these three areas may take as many courses in that group as are available. However, they should *not* expect to be able to take *all* their courses from any

one group; rather, they are encouraged to take courses from *all three* groups before they graduate.

Although most of their courses will be completed within the Literature and Writing curriculum, students may also pursue their interests by taking some courses in the department's other master's programs (American Studies, Folklore, and Technical Writing), as well as doctoral courses in the Theory and Practice of Professional Communication PhD program. Permission of the Director of Graduate Studies in English is required. Coursework may include some online courses; however, Literature and Writing is an on-campus specialization and *may not* be completed by taking *only* online classes.

## Technical Writing (online)

The graduate specialization in Technical Writing is designed for students who already have some training and/or experience as practitioners of technical writing. It is taught entirely online, via the Internet, and aims to prepare students to enter or reenter nonacademic workplaces, not just as practitioners, but also as developers and managers of technical documents. When they graduate, students will be qualified to determine and defend writing policy and practices in their workplaces.

To prepare students for these leadership roles, the Technical Writing specialization provides them with a strong theoretical understanding of their profession. In their online graduate seminars, students will read widely in research and theory relating to workplace writing practices. They will critically examine both the theories and the practices, and they will explore ways in which each can enhance the other. They will also learn how to manage teams of writers, and they will explore ethical issues in the profession. The specialization balances the theoretical training with opportunities for students to improve their own practical skills as technical writers, learning how to apply theory and current technology to the production of a variety of technical documents. This practical training will include multimedia presentations and graphic design.

The Technical Writing specialization is designed primarily for nontraditional students—working professional writers who want to enhance their credentials and build a strong theoretical understanding of their profession. However, it may also accept some traditional students who have just finished their undergraduate studies, provided they have some practical experience.

Students in Technical Writing must complete 33 credits under the Plan C option. Courses may be taken in any sequence. Students in this specialization pursue the MS degree.

## MA/MS in American Studies Requirements

Those applicants who have been admitted to the American Studies degree program will work out a program of study with either the American Studies Director or the Folklore Director. Generally, students develop their programs with a focus in American literature, folklore, or history. Interdisciplinary connections with many other departments at USU are possible. Students may choose the American Studies Standard specialization, with or without an emphasis in creative nonfiction writing on the cultures and landscapes of the American West; or the Folklore specialization, with or without an emphasis in public sector folklore. The American Studies degree requires 30 credits, with a preference for the MA and the Plan A (thesis) options, although the MS and the Plan B options are also accepted.

Students in the American Studies Standard specialization must take ENGL/HIST 6600 (American Studies Theory and Method) early in their course of study. Students must also take *at least one course* in a department *other than English*. Students selecting the Creative Nonfiction emphasis will follow the same requirements as the students in the American Studies Standard specialization, with the following exception: all students in the Creative Nonfiction emphasis are required to take two courses in which a major part of their coursework focuses on some form of creative nonfiction. If approved, it is possible for one course in *either* fiction *or* poetry writing to be applied toward this emphasis.

Students in the Folklore specialization must take ENGL/HIST 6700 (Folklore Theory and Method) early in their course of study. Students selecting the Public Sector Folklore emphasis will follow the same requirements as the students in the Folklore specialization, with the following exception: all students in the Public Sector Folklore emphasis are required to take ENGL/HIST 6720 (Folklore Fieldwork), ENGL/HIST 6730 (Public Folklore), and ENGL 6900 (Graduate Internship).

Of special interest to students in American Studies are the *Western Historical Quarterly* and the *Western American Literature* journals published at USU, which often provide editorial and clerical positions for graduate students. Also, The Mountain West Center for Regional Studies sponsors lectures and programs and provides research assistance for students working in the field of regional studies. The Merrill-Cazier Library is a regional depository for federal publications and receives 60,000 to 70,000 government titles each year. The library's Special Collections division contains thousands of historical photographs, an immense store of pioneer diaries and papers, and a strong collection of books and manuscripts relating to the West, the pioneers, the Mormons, cowboys, and cowboy poetry. The Fife Folklore Archives, one of the best folklore archives in the country, contains over 3,400 books on folklore and folklore-related topics. The Special Collections division also serves as the national depository for the American Folklore Society's Papers, more than 50 linear feet of records and documents accumulated during the 114-year history of the organization.

## General Requirements

All candidates for the MS and MA degrees must meet the School of Graduate Studies requirements (see pages 116-119 of this catalog). Only grades of *B-* or better will be accepted for credits in support of the degree programs, and students must maintain an overall GPA of 3.0 to remain in the program.

All candidates must complete a comprehensive examination covering the material of their graduate program; however, the nature of this examination varies according to the particular specialization and the advice of the candidate's supervisory committee.

All candidates are required to defend their Plan A thesis or Plan B papers. After successfully defending their Plan A thesis, students must submit a department-approved final draft to the School of Graduate Studies assistant dean (Main 164). After successfully defending their Plan B papers, students must submit a department-approved copy to University Library Special Collections.

All candidates who are first-year graduate instructors are required to take ENGL 6820 (Practicum in Teaching English) during their first semester. The candidate's supervisory committee will determine whether ENGL 6820 will be accepted as part of the candidate's graduate program.

# Department of English

---

## Financial Assistance

The Department of English has a limited number of graduate instructor positions and Moyle Q. Rice Scholarships available on a competitive basis for both English and American Studies graduate students. Additional financial aid is available through the journal of *Western American Literature*. All applicants who wish to be considered for a graduate instructorship should contact the Director of Graduate Studies in the English Department. The application deadline for instructorships is January 15.

## English Faculty

### Professors

*Melody Graulich*, American Literature, American Studies, Western American literature, feminist studies; editor, *Western American Literature*  
*Patricia Gantt*, teacher education, young adult literature, American studies, women and gender studies, southern literature  
*Christine Hult*, composition and rhetoric, teacher education (Associate Dean, College of Humanities, Arts and Social Sciences)  
*Joyce A. Kinkead*, composition and rhetoric (Vice Provost for Undergraduate Studies and Research)  
*Stephen C. Siporin*, folklore, folk narrative, material culture, folk ethnicity  
*Jeffrey Smitten*, eighteenth century British literature, Scottish literature, literary theory and criticism  
*Jeannie B. Thomas*, folklore, legend, oral narrative, humor and gender

### Professors Emeritus

*Jan Bakker*, nineteenth- and early twentieth-century American literature  
*Barre Toelken*, folklore, Native American studies, medieval literature

### Associate Professors

*Kelli Cargile Cook*, technical communication  
*Paul J. Crumbley*, American poetry, nineteenth century American women writers, American identity, the wilderness experience  
*Brock Dethier*, composition, creative writing  
*Evelyn I. Funda*, American literature, Western American literature  
*Keith A. Grant-Davie*, composition and rhetoric, reading theory, technical communication  
*David E. Hailey, Jr.*, technical communication, online information, CBT technology  
*Phebe Jensen*, sixteenth- and seventeenth-century British literature, Shakespeare  
*Sonia Manuel-Dupont*, linguistics, technical communication, teacher education  
*Brian W. McCuskey*, nineteenth-century British literature  
*John E. McLaughlin*, linguistics, technical communication, Native American languages  
*Kristine A. Miller*, twentieth-century British literature

*Jan E. Roush*, American Studies, folklore  
*Anne Shifrer*, twentieth-century literature, women writers, poetry, literary theory and criticism  
*Ronald R. Shook*, technical communication, linguistics  
*Jennifer Sinor*, rhetoric and composition, teacher education  
*Michael Sowder*, creative writing (poetry), American literature

### Associate Professors Emeritus

*Theodore Andra*, British literature, technical writing  
*Kate M. Begnal*, twentieth-century literature, postmodernism, literary theory and criticism  
*Patricia Gardner*, world literature, children's and young adult literature, folklore

### Assistant Professors

*Christopher Cokinos*, creative nonfiction, poetry writing, science and nature writing; editor, *Isotope*  
*Christine Cooper-Rampato*, medieval literature, commonwealth  
*Lisa Ann Gabbert*, folklore, American studies  
*Keith Gibson*, rhetoric and technical communication  
*Shane Graham*, postcolonial literature and theory, contemporary fiction and drama, multicultural literature  
*Ryan M. Moeller*, professional writing, rhetorical theory, rhetorics of technology  
*Roberta S. Stearman*, American literature, fiction writing  
*Charles Waugh*, fiction writing, literature and globalization

### Adjunct Assistant Professor

*Christie L. Fox*, folklore; Program Coordinator of Honors Program

### Lecturers

*Susan Andersen*, literature and writing  
*Shanan L. Ballam*, writing, creative writing  
*Star Coulbrooke*, Associate Director of Writing Center  
*John Engler*, literature and writing  
*Nikole Eyre*, literature and writing, professional and technical writing  
*Julie R. Foust*, writing; Director of Rhetoric Associates  
*Marina L. Hall*, Coordinator of Public Relations and Educational Outreach  
*Maria Melendez*, literature and writing  
*Susan Nyikos*, literature and writing  
*Robin Parent*, American studies, folklore, distance education  
*Rachel Rich*, literature and writing  
*Paige Smitten*, literature and writing  
*Anne H. Stark*, literature and writing  
*Michael Ward*, literature and writing

[maureen.wagner@usu.edu](mailto:maureen.wagner@usu.edu)

**Degrees offered:** Bachelor of Science (BS) in Environmental Studies; BS, Master of Science (MS), and Doctor of Philosophy (PhD) in Recreation Resource Management; BS, Bachelor of Arts (BA), MS, and Master of Arts (MA) in Geography; MS in Bioregional Planning (offered jointly with Department of Landscape Architecture and Environmental Planning); MS and PhD in Human Dimensions of Ecosystem Science and Management; MS and PhD in Ecology

**Undergraduate emphases:** *Environmental Studies BS*—Human Impacts on the Environment, Communications, Business and Economics, Environmental Policy, International, Planning and Analysis, Environmental Stewardship; *Geography BS, BA*—Human Impacts on the Environment, Cultural/Social Geography, Planning and Analysis, Geographic Perspectives

**Vision/Mission:** The vision of the Department of Environment and Society is one of bringing people and science together for healthy communities and enduring ecosystems. The mission of the department is based on three goals: (1) to promote scholarship and creativity in the discovery, synthesis, and transfer of knowledge relating to the human dimensions of natural resource and environmental management; (2) to apply social science concepts and approaches to better understand human-environment interactions at a range of spatial scales; and (3) to enhance the effectiveness of policies, planning, and administrative processes that affect sustainable use of the natural world.

To this end, the department's academic programs provide undergraduate and graduate students with a balanced exposure to the social, physical, and biological sciences within an interdisciplinary framework. This combination has great relevance for students aspiring to careers in natural resource and environmental policy, planning, management, education, and science, as well as careers in geography. The program is designed to provide students with a working knowledge of the human aspects of ecosystems and a speaking knowledge of the biophysical aspects, as well as experience using "state of the art" tools and techniques for integrating this knowledge.

## Undergraduate Programs

### Objectives

The department offers the following undergraduate degree programs: Environmental Studies, Geography, and Recreation Resource Management. Each of these programs offers a balanced exposure to key ideas and principles of the social, biological, and physical sciences, placing special emphasis on the human dimensions of natural resources and environmental management. The department's goal is to train professionals who can lead the way toward finding and keeping a sustainable balance between protecting the environment and enhancing human societies.

Departmental programs offer learning experiences in the classroom and in the field, frequent individual contacts with faculty as teachers and advisors, and opportunities to take part in student and professional organizations. Seasonal employment, internships, and other activities promoting hands-on experience in natural resource and geographic professions are strongly encouraged.

The **Environmental Studies** curriculum is designed for students who wish to acquire a broad understanding of natural resources and human-environment relationships, together with the technical background needed to understand environmental issues. In many ways, the curriculum provides a traditional "liberal arts education" with a strong natural resources emphasis. Moreover, it provides an opportunity for students to select from several areas of emphasis, depending upon their career goals.

The **Geography** curriculum provides a broad background in the basic themes of geography—human (cultural), physical, and regional geography. In addition, students acquire technical geographic analysis skills. As with the Environmental Studies major, students also have the opportunity to select from several areas of emphasis, depending upon their career goals.

The **Geography Teaching** curriculum offers students an opportunity to prepare for a career in secondary education with a geography emphasis.

The **Recreation Resource Management** curriculum prepares students for careers in planning and management of visitor use in wildland recreation settings, such as state and national parks, forests, monuments, and wilderness areas. Because such jobs require an understanding of the landscape, its natural resources, and the people who visit, the major offers courses in both the bio-physical and social sciences, along with an emphasis on communication and collaboration skills.

### Environment and Society Minors

The department offers minors in Environmental Studies, Geography, Geography Teaching, and Recreation Resources.

## Requirements

### Admission Requirements

Admission requirements for the Department of Environment and Society are the same as those described for the College of Natural Resources (see pages 138-139).

### Graduation Requirements

All courses listed as major subject courses must be taken on an *A-B-C-D-F* basis. Students must achieve a grade of *C-* or better in all ENVS and GEOG courses used to satisfy the requirements for a major in the Department of Environment and Society. The grade point average for all courses taught by the College of Natural Resources must be 2.5 or higher.

All students in the Environmental Studies and Recreation Resource Management majors must complete a series of basic lower-division courses providing the disciplinary foundation for natural resource professions before moving on to professional coursework. Equivalents of these foundation courses may be taken at many two- and four-year colleges. Some foundation and core courses may also be used toward the University Studies requirements, as shown by the University Studies designations listed in parentheses following the course numbers. Students should consult their academic advisor if they have questions about University graduation requirements.

# Department of Environment and Society

## Environmental Studies Major

The Environmental Studies major consists of 84-87 credits. This total includes the disciplinary foundation, professional courses, and an emphasis area of 15 or more credits.

### A. Disciplinary Foundation (18 credits)

BIOL 1010 (BLS) Biology and the Citizen (F,Sp,Su)	3
BIOL 1020 Biological Discovery: A Lab Course (F,Sp)	1
CHEM 1110 (BPS) General Chemistry I (F,Sp)	4
HIST 3950 (DHA/CI) Environmental History (3 cr) <b>or</b>	
PHIL 3510 (DHA) Environmental Ethics (Sp) (3 cr)	3
MATH 1050 (QL) College Algebra (F,Sp,Su)	4
STAT 2000 (QI) Statistical Methods (F,Sp)	3

### B. Professional Coursework (43-44 credits)

ENVS 1990 Professional Orientation for Environment and Society (F)	2
ENVS 2340 (BSS) Natural Resources and Society (F,Sp)	3
ENVS 3000 Natural Resources Policy and Economics (F)	4
ENVS 3330 Environment and Society (Sp)	3
ENVS 3500 (QI) Quantitative Assessment of Environmental and Natural Resource Problems (F)	3
ENVS 4000 Human Dimensions of Natural Resource Management (F)	3
ENVS 4400 Economic Applications in Natural Resource Management (Sp)	4
ENVS 4990 Environmental and Natural Resource Professionalism Seminar (F)	2
ENVS 5000 Collaborative Problem-Solving for Environment and Natural Resources (Sp)	3
GEOG 1000 (BPS) Physical Geography (F,Sp,Su) (3 cr) <b>or</b>	
GEO 1110 (BPS) The Dynamic Earth: Physical Geology (F,Sp) (4 cr)	3 or 4
GEOG 3850 Map, Air Photo, and GIS Interpretation (F)	4
WATS 3700 (CI) Fundamentals of Watershed Science (Sp)	3
WILD 2200 (BLS) Ecology of Our Changing World (F,Sp)	3
WILD 4900 Managing Dynamic Ecological Systems (Sp)	3

### C. Animal Course (select 3 credits)

ENVS 3600 (DSC) Living With Wildlife (Sp)	3
WATS 3100 (CI/DSC) Fish Diversity and Conservation (F)	3

### D. Plant Course (select 3-4 credits)

BIOL 3040 (DSC) Plants and Civilization (F)	3
PLSC 3500 The Structure and Function of Economic Crop Plants (Sp)	3
WILD 3600 Wildland Plant Ecology and Identification (F)	4

### E. Policy Course (select 2-3 credits)

The course chosen from this section *cannot* also be applied toward the emphasis area.

ENVS 4130 Recreation Policy and Planning (Sp)	3
ENVS 5300 Natural Resources Law and Policy (Sp)	2
ENVS 5320 Water Law and Policy in the United States (Sp)	3
ENVS 5570 Sustainable Living (Sp)	3
ENVS/SOC 5640 Conflict Management in Natural Resources (Sp)	3
Another course related to natural resource or environmental policy, numbered 3000 or higher	3

### F. Area of Emphasis (15 credits)

Students majoring in Environmental Studies are required to select an emphasis of at least 15 credits to complement their general professional foundation. Students must file an approved emphasis plan prior to applying for graduation, but it is recommended that they meet with their advisor to develop and gain approval for the emphasis *no later* than midway through the first semester of their junior year.

Complete 15 credits chosen from one of the following seven emphasis areas:

#### Business and Economics

APEC 5560 Natural Resource and Environmental Economics (Sp)	3
ECN 3170 Law and Economics (Sp)	3
ENVS 5550 Sustainable Development (Sp)	3
MGT 2050 Legal and Ethical Environment of Business (F,Sp,Su)	3
MGT 3110 (DSS) Managing Organizations and People (F,Sp,Su)	3
MGT 3500 Fundamentals of Marketing (F,Sp,Su)	3
Other business or economics course approved by faculty advisor	3-4

#### Communications

ENGL 3440 Creative Nonfiction Writing (F,Sp)	3
ENGL 4630 American Nature Writers (F,Sp)	3
ENVS 4600 Natural Resource Interpretation (F)	3
ENVS 5110 Environmental Education (Sp)	3
JCOM 1130 Beginning Newswriting for the Mass Media (F,Sp,Su)	3
SPCH 5250 Environmental Rhetoric (Sp)	3
Other communications course approved by faculty advisor	3-4

#### Environmental Policy

ENVS 4130 Recreation Policy and Planning (Sp)	3
ENVS 5300 Natural Resources Law and Policy (Sp)	3
ENVS 5320 Water Law and Policy in the United States (Sp)	3
ENVS 5570 Sustainable Living (Sp)	3
ENVS/SOC 5640 Conflict Management in Natural Resources (Sp)	3
POLS 5180 Natural Resource Policy (Sp)	3
Other policy course approved by faculty advisor	3-4

#### Human Impacts on the Environment

ENVS 5570 Sustainable Living (Sp)	3
GEO 3100 (DSC) Natural Disasters (Sp)	3
HIST 3950 (DHA/CI) Environmental History (cannot be applied toward this option if already used to fulfill requirements in <i>Section A</i> )	3
SOC 4620 (DSS) Sociology of the Environment and Natural Resources (Sp)	3
WATS/CLIM 3820 (DSC/QI) Climate Change (Sp)	3
WILD 4600 Conservation Biology (Sp)	3
Other appropriate course approved by faculty advisor	3-4

#### International

ANTH 2010 (BSS) Peoples of the Contemporary World (Sp)	3
ECN 5400 International Trade Theory (F)	3
ENVS 5550 Sustainable Development (Sp)	3
GEOG 1300 (BSS) World Regional Geography (F)	3
GEOG 4200 (CI) Regional Geography (F,Sp,Su)	3
GEOG/ANTH/SOC 5650 Developing Societies (F)	3
SOC 4730 Women in International Development (Sp)	3
Other course with international focus approved by faculty advisor	3-4

#### Planning and Analysis

BIOL 5010 Biogeography (Sp)	3
ENVS/SOC 5640 Conflict Management in Natural Resources (Sp)	3
GEO 3100 (DSC) Natural Disasters (Sp)	3
GEOG 3610 Geography of Rural/Urban Planning (F)	3
LAEP 3700 City and Regional Planning (Sp)	3
WATS 4930 Geographic Information Systems (F)	4
WATS 5330 Large River Management (Sp)	3
Other planning course approved by faculty advisor	3-4

#### Environmental Stewardship

In consultation with his or her advisor, a student may develop a custom emphasis of at least 15 credits. Students pursuing this option must fill out an emphasis form describing educational goals and specific

# Department of Environment and Society

courses to be taken. A University-approved minor may be used to meet this requirement, subject to approval by the student's advisor and department head.

## G. Electives

Students may take the remainder of the 120 credits from any department. The guidelines described under "Breadth Requirements" (see pages 67-69) and "Depth Education Requirements" (see pages 70-75) should be consulted to ensure meeting University Studies Requirements.

## Environmental Studies Minor (15-17 credits)

The Environmental Studies minor is open to all majors, *except* those in the College of Natural Resources. However, this minor *is available* to students enrolled in the Geography major. Students wishing to minor in Environmental Studies should contact the Department of Environment and Society to meet with the department's designated minor advisor. All courses required for the minor must be taken on an *A-B-C-D-F* basis. A grade of C- or better is required for all ENVS courses taken to meet requirements for the minor. A minimum GPA of 2.5 is required for courses taken to complete the minor.

### A. Required Courses (10 credits)

ENVS 2340 (BSS) Natural Resources and Society (F,Sp)	3
ENVS 3000 Natural Resources Policy and Economics (F)	4
WILD 2200 (BLS) Ecology of Our Changing World (F,Sp)	3

### B. Policy or Economics Course (2-4 credits)

Select one of the following courses in natural resources policy or economics:

ENVS 4130 Recreation Policy and Planning (Sp)	3
ENVS 4400 Economic Applications in Natural Resource Management (Sp)	4
ENVS 5300 Natural Resources Law and Policy (Sp)	2
ENVS 5320 Water Law and Policy in the United States (Sp)	3
ENVS 5570 Sustainable Living (Sp)	3

### C. Electives (3 credits)

Select one additional upper-division (3000-level or higher) course of 3 credits or more, which provides greater depth in an area of natural or social sciences that can be applied to the management of natural resources and the environment, to be selected in consultation with the Environmental Studies minor advisor.

## Geography Major

The Geography major consists of 48 credits. After meeting the University Studies, USU upper-division, and geography major requirements, students may take the remainder of their 120 required credits in any discipline from any department. Students interested in using their elective credits to develop a field of specialization should consult with their advisor to select appropriate courses.

### A. Disciplinary Foundation Courses (29 credits)

ENVS 1990 Professional Orientation for Environment and Society (F)	2
ENVS 3330 Environment and Society (Sp)	3
GEOG 1000 (BPS) Physical Geography (F,Sp,Su)	3
GEOG 1005 Physical Geography Lab (F,Sp)	1
GEOG 1300 (BSS) World Regional Geography (F)	3
GEOG 1400 (BSS) Human Geography (Sp)	3
GEOG 3850 Map, Air Photo, and GIS Interpretation (F)	4
GEOG 4200 (CI) Regional Geography (F,Sp,Su)	3
GEOG 4850 Cartographic Design (Sp)	3
WATS 4930 Geographic Information Systems (F)	4

### B. Quantitative Foundation (7 credits)

MATH 1050 (QL) College Algebra (F,Sp,Su)	4
STAT 2000 (QI) Statistical Methods (F,Sp)	3

### C. Emphasis Area (12 credits)

Students majoring in Geography are required to select an emphasis of at least 12 credits to complement their disciplinary foundation. Students must file an approved emphasis plan prior to applying for graduation, but it is recommended they meet with their faculty advisor to develop and gain approval for the emphasis no later than midway through the first semester of the junior year. Some courses may require prerequisites; for additional information, see course descriptions.

Complete 12 credits chosen from one of the following four emphasis areas.

#### Cultural/Social Geography

ANTH 3160 (DSS) Anthropology of Religion (F)	3
ENVS 5550 Sustainable Development (Sp)	3
FREN 3550 (DHA) French Civilization (3 cr) or JAPN 3100 Readings in Contemporary Japanese Culture (F) (3 cr) or Any other culture course offered as part of a foreign language program (3 cr)	3
GEOG 4200 (CI) Regional Geography (F,Sp,Su) (Must be the <i>second</i> geographic area of study <i>beyond</i> the area chosen in the <i>Disciplinary Foundation Courses</i> .)	3
GEOG 5650 (DSS) Developing Societies (F)	3
SOC 4710 Asian Societies (Sp)	3
Other course related to cultural/social geography approved by faculty advisor	3-4

#### Human Impacts on the Environment

ENVS 3600 (DSC) Living with Wildlife (Sp)	3
ENVS 5000 Collaborative Problem-Solving for Environment and Natural Resources (Sp)	3
ENVS 5550 Sustainable Development (Sp)	3
ENVS 5570 Sustainable Living (Sp)	3
HIST 3950 (DHA/CI) Environmental History	3
WILD 2200 (BLS) Ecology of Our Changing World (F,Sp) (3 cr) or NR 2220 General Ecology (F,Sp) (3 cr) (Students can count <i>either</i> WILD 2200 <i>or</i> NR 2220 toward the emphasis area, but <i>cannot</i> count both.)	3
WILD 4600 Conservation Biology (Sp)	3
Other appropriate course approved by faculty advisor	3-4

#### Planning and Analysis

ENVS 3000 Natural Resource Policy and Economics (F)	4
ENVS 5000 Collaborative Problem-Solving for Environment and Natural Resources (Sp)	3
ENVS 5300 Natural Resources Law and Policy (Sp)	2
GEOG 3610 Geography of Rural/Urban Planning (F)	3
LAEP 3700 City and Regional Planning (Sp)	3
Other planning course approved by faculty advisor	3-4

#### Geographic Perspectives

In consultation with his or her advisor, a student may develop a customized emphasis that meets specific career goals not addressed in the other three emphases. Students pursuing this option must complete an emphasis form describing educational goals and specific courses to be taken. A University-approved minor may be used to meet this requirement, subject to approval by the student's advisor and department head.

# Department of Environment and Society

## Geography Minor (24 credits minimum)

All courses required for the Geography minor *must* be taken on an A-B-C-D-F basis. A grade of C- or better is required for all GEOG courses taken to meet requirements for the minor. In order to graduate, students must maintain a 2.5 or higher grade point average in all courses taken from offerings within the College of Natural Resources.

<b>GEOG 1000 (BPS)</b> Physical Geography (F,Sp,Su).....	3
<b>GEOG 1005</b> Physical Geography Lab (F,Sp).....	1
<b>GEOG 1300 (BSS)</b> World Regional Geography (F).....	3
<b>GEOG 1400 (BSS)</b> Human Geography (Sp).....	3
<b>GEOG 3850</b> Map, Air Photo, and GIS Interpretation (F).....	4
<b>GEOG 4200 (CI)</b> Regional Geography (F,Sp,Su).....	3
<b>GEOG 4850</b> Cartographic Design (Sp).....	3
<b>WATS 4930</b> Geographic Information Systems (F).....	4

## Geography Teaching Major (90-106 credits)

The teaching major in Geography consists of the geography courses (38 credits minimum, shown in sections A, B, and C below), a teaching minor (17-33 credits), and the Secondary Teacher Education Program (STEP) (35 credits). **A 2.75 or higher overall cumulative GPA in 90 credits is required for admission to the STEP. The 2.75 minimum overall cumulative GPA must be maintained for graduation.**

### A. Geography Teaching Major Foundation Courses (24-25 credits)

<b>ENVS 1990</b> Professional Orientation for Environment and Society (F).....	2
<b>GEOG 1000 (BPS)</b> Physical Geography (F,Sp,Su).....	3
<b>GEOG 1300 (BSS)</b> World Regional Geography (F).....	3
<b>GEOG 1400 (BSS)</b> Human Geography (Sp).....	3
<b>GEOG 3850</b> Map, Air Photo, and GIS Interpretation (F).....	4
<b>GEOG 4200 (CI)</b> Regional Geography (Utah).....	3
<b>GEOG 4200 (CI)</b> Regional Geography (International Course) (F,Sp,Su).....	3
<b>GEOG 4850</b> Cartographic Design (Sp) (3 cr) or	
<b>WATS 4930</b> Geographic Information Systems (F) (4 cr).....	3 or 4

### B. Geography Education Pedagogical Methods Courses (4 credits)

<b>SCED 3300</b> Clinical Experience I (F,Sp).....	1
<b>SCED 3500</b> Teaching Social Studies (F,Sp).....	3

### C. Geography Education Elective Courses (9-10 credits)

Students may select the remaining 9-10 credits in Geography from courses numbered 2000 and above. It is recommended that students take additional coursework in the following areas: regional, physical, and human geography; human-environment interaction techniques; technology in geography education; and classroom technology. All electives must be coordinated with a geography education advisor.

### D. Teaching Minor (17-33 credits)

A teaching major in Geography also requires an approved teaching minor from another field of study acceptable to the Secondary Education Program of the School of Teacher Education and Leadership (TEAL).

### E. Secondary Teacher Education Program (STEP) (35 credits)

Students must complete three levels in the STEP. All three levels of the STEP will be offered during fall and spring semesters, *not* during summers. Levels of the STEP are taken as a package, not piecemeal. Each level must be satisfactorily completed before a student is

advanced to the next level. All courses must be completed with a minimum grade of C-. **Prior to admission to the STEP, students in the Geography Teaching Major must complete MATH 1050, unless their Math ACT score is 25 or higher.**

Students should consult with advisors in major and minor departments for scheduling of special methods classes at Levels 1 and 2. Although certain combinations of majors and minors require three special methods classes, only *two* clinical experiences (total) should be scheduled at Levels 1 and 2. These in-school experiences are coordinated by methods instructors.

#### 1. Level 1 (15-week courses) (11 credits minimum)

<b>INST 3500</b> Technology Tools for Secondary Teachers (F,Sp,Su).....	1
<b>SCED 3100</b> Motivation and Classroom Management (F,Sp).....	3
<b>SCED 3210 (CI/DSS)</b> Educational and Multicultural Foundations (F,Sp).....	3
Clinical Experience I (30 hrs. minimum) (3300 in various departments).....	1
One or more methods courses in major (3-6 credits in minor—Social Studies Education).....	3

#### 2. Level 2 (15-week courses) (12 credits minimum)

<b>SPED 4000</b> Education of Exceptional Individuals (may be taken anytime) (F,Sp,Su).....	2
<b>SCED 4200 (CI)</b> Reading, Writing, and Technology (F,Sp).....	3
<b>SCED 4210</b> Cognition and Evaluation of Student Learning (F,Sp).....	3
Clinical Experience II (30 hrs. minimum) (4300 in various departments).....	1
Special Methods II (major or minor) (taught in various departments).....	3

#### 3. Level 3 (includes 13 weeks of student teaching and 2 weeks of Student Teaching Seminar) (12 credits)

<b>SCED 5500</b> Student Teaching Seminar (2 weeks) (F,Sp).....	2
<b>SCED 5630</b> Student Teaching in Secondary Schools (13 weeks, full-time) (F,Sp).....	10

### F. Electives

After meeting the University Studies, USU upper-division, and geography teaching major requirements, students may take the remainder of their 120 required credits in any discipline and from any department. ENVS 4990 (2 cr.) and ENVS 5000 (3 cr.) are recommended.

## Teaching Minor in Geography (24 credits minimum)

**Note:** A teaching minor in Geography **requires** an approved teaching major in another subject. All courses required for the Geography Teaching minor *must* be taken on an A-B-C-D-F basis. A grade of C- or better is required for all GEOG courses taken to meet requirements for the minor. A minimum GPA of 2.5 is required for courses taken to complete the minor.

### A. Geography Teaching Minor Foundation Courses (18-19 credits)

<b>GEOG 1000 (BPS)</b> Physical Geography (F,Sp,Su).....	3
<b>GEOG 1300 (BSS)</b> World Regional Geography (F).....	3
<b>GEOG 1400 (BSS)</b> Human Geography (Sp).....	3
<b>GEOG 4200 (CI)</b> Regional Geography (Utah).....	3
<b>GEOG 4200 (CI)</b> Regional Geography (International Course) (F,Sp,Su).....	3
<b>GEOG 3850</b> Map, Air Photo, and GIS Interpretation (F) (4 cr) or	
<b>GEOG 4850</b> Cartographic Design (Sp) (3 cr) or	
<b>WATS 4930</b> Geographic Information Systems (F) (4 cr).....	3 or 4

# Department of Environment and Society

## B. Geography Education Courses (4 credits)

SCED 3300 Clinical Experience I (F,Sp)	1
SCED 3500 Teaching Social Studies (F,Sp)	3

## C. Geography Electives (1-2 credits)

### Recreation Resource Management Major

The Recreation Resource Management major consists of 76-78 credits.

#### A. Disciplinary Foundation (15 credits)

BIOL 1010 (BLS) Biology and the Citizen (F,Sp,Su)	3
BIOL 1020 Biological Discovery: A Lab Course (F,Sp)	1
CHEM 1110 (BPS) General Chemistry I (F,Sp)	4
MATH 1050 (QL) College Algebra (F,Sp,Su)	4
STAT 2000 (QI) Statistical Methods (F,Sp)	3

#### B. Professional Coursework (52-53 credits)

ENVS 1990 Professional Orientation for Environment and Society (F)	2
ENVS 2340 (BSS) Natural Resources and Society (F,Sp)	3
ENVS 3000 Natural Resources Policy and Economics (F)	4
ENVS 3300 Fundamentals of Recreation Resources Management (F)	3
ENVS 3500 (QI) Quantitative Assessment of Environmental and Natural Resource Problems (F)	3
ENVS 4000 Human Dimensions of Natural Resource Management (F)	3
ENVS 4130 Recreation Policy and Planning (Sp)	3
ENVS 4400 Economic Applications in Natural Resource Management (Sp)	4
ENVS 4500 (CI) Wildland Recreation Behavior (F)	3
ENVS 4920 Special Projects in Recreation Management (F,Sp,Su)	3
ENVS 4990 Environmental and Natural Resource Professionalism Seminar (F)	2
ENVS 5000 Collaborative Problem-Solving for Environment and Natural Resources (Sp)	3
GEOG 1000 (BPS) Physical Geography (F,Sp,Su) (3 cr) or GEO 1110 (BPS) The Dynamic Earth: Physical Geology (F,Sp) (4 cr)	3 or 4
GEOG 3850 Map, Air Photo, and GIS Interpretation (F)	4
WATS 3700 (CI) Fundamentals of Watershed Science (Sp)	3
WILD 2200 (BLS) Ecology of Our Changing World (F,Sp)	3
WILD 4900 Managing Dynamic Ecological Systems (Sp)	3

#### C. Animal Course (select 3 credits)

ENVS 3600 (DSC) Living With Wildlife (Sp)	3
WATS 3100 (CI/DSC) Fish Diversity and Conservation (F)	3

#### D. Education/Interpretation Course (select 3 credits)

ENVS 4600 Natural Resource Interpretation (F)	3
ENVS 5110 Environmental Education (Sp)	3

#### E. Plant Course (select 3-4 credits)

BIOL 3040 (DSC) Plants and Civilization (F)	3
PLSC 3500 The Structure and Function of Economic Crop Plants (Sp)	3
WILD 3600 Wildland Plant Ecology and Identification (F)	4

#### F. Electives

Students may take the remainder of the 120 credits from any department. The guidelines described under "Breadth Requirements" (see pages 67-69) and "Depth Education Requirements" (see pages 70-75) should be consulted to ensure meeting University Studies Requirements.

## Recreation Resources Minor (15 credits minimum)

Students wishing to minor in Recreation Resources should contact the Department of Environment and Society to meet with the department's designated minor advisor. All courses required for the minor must be taken on an A-B-C-D-F basis. A grade of C- or better is required for all ENVS courses taken to meet requirements for the minor. A minimum GPA of 2.5 is required for courses taken to complete the minor.

#### A. Required Courses (12 credits)

ENVS 3300 Fundamentals of Recreation Resources Management (F)	3
ENVS 4130 Recreation Policy and Planning (Sp)	3
ENVS 4500 (CI) Wildland Recreation Behavior (F)	3
ENVS 4600 Natural Resource Interpretation (F)	3

#### B. Elective Course (3-4 credits)

Select one of the following courses:

ENVS 3330 Environment and Society (Sp)	3
ENVS 4000 (DSS) Human Dimensions of Natural Resource Management (F)	3
ENVS 4400 Economic Applications in Natural Resource Management (Sp)	4
ENVS 5110 Environmental Education (Sp)	3

## Recommended Four-year Plans

Recommended semester-by-semester four-year plans for students working toward a bachelor's degree within the Environment and Society Department can be found at:

<http://www.usu.edu/degreeplans/>

Students should consult with their advisor to develop a plan of study tailored to their individual needs and interests.

## Financial Assistance

The main opportunities for undergraduates to find financial support through grants, work-study, and loans are listed on pages 46-47 in the *Financial Aid and Scholarship Information* section. Some students may be able to find paid internships with private or governmental organizations, or work for a faculty member on a research project. Interested persons should contact the College of Natural Resources Academic Service Center for more information on scholarships for undergraduate students.

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school. The minimum GPA requirement for admission into departmental honors in any department within the College of Natural Resources is 3.30. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level.

For information about the campus-wide Honors Program, see page 310.

# Department of Environment and Society

---

## Additional Information

For additional information about the Bachelor of Science requirements, course sequencing, and departmental emphasis areas and their related coursework, as well as updated information describing current programs and courses offered by the Department of Environment and Society, visit the Environment and Society main office, Natural Resources 201, or visit: <http://www.cnr.usu.edu/envs>

Major requirement sheets, which outline career opportunities and required courses for departmental majors, can be obtained from the department, or online at: <http://www.usu.edu/majorsheets/>

## Graduate Programs

### Admission Requirements

See general admission requirements on pages 36-37. Applicants for graduate study in the Department of Environment and Society should have a bachelor's degree from an accredited college or university, a cumulative GPA of at least 3.0 (out of 4.0), and GRE scores (quantitative and verbal) above the 40th percentile. Foreign students should submit a TOEFL score of at least 550. Exceptions to these standards will be considered on a case-by-case basis. Written statements of interest help match applicants with faculty advisors. A faculty member must agree to serve as the major professor in order for an applicant to be accepted. Prospective students are encouraged to contact faculty members early in the application process to investigate mutual interests, projects, and prospects for financial support.

The department's graduate programs focus on providing students with a broad foundation in the social and natural sciences as they relate to the study, planning, and management of ecosystems. The curriculum is designed to enhance interdisciplinary integration by emphasizing current and future environmental issues facing humanity. Coursework and research are focused on problem-solving through application of social research methods, case studies, computer mapping, and other analytical techniques.

The department values intellectual, academic, and social diversity in the applicants for graduate study. Mature professionals seeking education to augment life experiences, or practical training to pursue new career paths, are also encouraged to apply. Knowledge gaps will be identified early in a student's program and addressed on a case-by-case basis through agreements between students and their graduate advisory committees.

### Degree Programs

The department offers opportunities for graduate study through the MS, MA, PhD, and graduate certificate programs listed below.

The MS degree requires a minimum of 30 credits, of which 24 must be in residence. Candidates for the MA must complete the requirements for the MS, with the addition of at least two years (approximately 16 credits) of an approved foreign language or some other demonstration of foreign language proficiency. There are two options available in both the MS and MA programs. The **Plan A** requires students to complete coursework, as well as a research thesis. The **Plan B** is a nonthesis, terminal degree, based largely on coursework and a professional paper or project.

For the PhD degree, there is a more variable amount of required coursework, as well as a research dissertation. Compared to the MS degree, the PhD degree has a greater emphasis on theory, research

methods, writing research proposals, and publishing research in peer-reviewed outlets.

### Bioregional Planning

Bioregional Planning is aimed at students focused on how the biophysical attributes of a region influence the human dimensions of culture and settlement and the reciprocal of this. Offered jointly with the Department of Landscape Architecture and Environmental Planning, the program has an interdisciplinary core of courses that provides the background for addressing complex issues in the areas of environmental analysis, planning, and policy. Employment is available in both the private and public sectors, wherever there is emphasis on large-scale planning and management.

### Ecology

The Environment and Society Department offers MS and PhD degrees in Ecology through the ecology program at Utah State University. This program is administered by the interdepartmental Ecology Center. For further information, see the *Interdepartmental Program in Ecology* section of this catalog on pages 228-229.

### Geography

Geography is geared for students interested in exploring the availability and location of the earth's natural resources, the physical and cultural processes that occur at the earth's surface, and the spatial interactions among components of human society and the biophysical environment. Career opportunities are available in both the private and public sectors in such areas as business, planning, resource and economic development, environmental assessment, and education.

### Recreation Resource Management

Recreation Resource Management is for graduate students interested in planning and management of visitor use in wildland recreation settings, such as state and national parks, forests, monuments, and wilderness areas, requiring an understanding of the landscape, its natural resources, and the people who visit. Degree programs offer courses in both the bio-physical and social sciences, along with an emphasis on communication and collaboration skills. Upon completion of a degree program, opportunities are available to work as recreation planners and managers; park, forest, monument, or wilderness rangers; environmental interpreters; visitor center directors; and other similar occupations. Graduate study provides additional opportunities for research and teaching in higher education, as well as work in the government, nongovernment, and private sectors.

### Human Dimensions of Ecosystem Science and Management

These degrees are the first of their kind in the country. They are aimed at students who desire to be problem-solvers with an ability to integrate the human and biophysical aspects of ecosystems, and to analyze policies and decisions that encourage sustainability of human communities and ecosystems. The MS degree prepares students for professional practice in natural resources and environmental planning and management, policy and program analysis, public affairs, environmental education, community assessment and collaboration, conflict management, and extension/outreach. The PhD program places a greater emphasis on basic theory and research methods in one or more social science disciplines, and thus prepares students for university teaching, research, and extension; for conducting agency and private organizational research; and for positions in formal policy and program evaluation.

# Department of Environment and Society

## Natural Resources (MNR)

The MNR is a nonthesis master's degree program designed for students and practicing professionals seeking advanced training in natural resource management, with an emphasis on collaboration and interdisciplinary teamwork. Employment is available in both the private and public sectors, in positions where management skills are of paramount importance.

## Graduate Certificates

The **National Environmental Policy Act (NEPA)** program offers training at the graduate level related to the National Environmental Policy Act, including how to manage the NEPA process and write effective NEPA documents, reviewing NEPA documents, environmental risk communication, environmental compliance, interdisciplinary team-building, environmental contracting, cumulative impact analysis and documentation, conflict management, and socio-economic impact analysis. The certificate leads to careers in federal natural resource agencies, typically as a member of planning teams, where NEPA expertise is critical to decision-making regarding alternative uses of the land.

The **Natural Resource and Environmental Education (NREE)** program provides graduate students with a comprehensive education for understanding and communicating natural resources and environmental information, and for developing the analytical skills needed to effectively implement appropriate environmental education and communication techniques for varying audiences. Careers are available with land management agencies; in the education sector—both formal (K-12 school-based) and nonformal (youth, community, and outdoor); in nonprofit organizations; and in the for-profit commercial sector.

## Internships

Students are encouraged to undertake one or more internships with various agencies and organizations, as a means of exploring various career possibilities.

## Research

The generation of new knowledge through research is one of the key contributions that an academic department makes to professions and society at large. Research is also a major venue for the interaction of graduate students and faculty in the Department of Environment and Society. Although faculty and students work on many different issues, the research strives to be interdisciplinary and focuses on merging the relevant social and natural sciences. Work is undertaken in Utah and beyond, including several projects elsewhere in the United States and in developing nations. Funding comes from a variety of public and private sources. The department houses one institute and three programs that also collaborate on research. These include the Institute for Outdoor Recreation and Tourism, the Natural Resource and Environmental Policy Program, the Geographic Education Program, and the Environmental Education Program.

## Financial Assistance

General aspects of financial support for graduate students at Utah State University are listed on pages 111-112 in the *Graduate Financial Assistance* section. This includes important information on the University-wide policies and terms of reference for research and teaching assistantships, graduate tuition obligations and benefits, Western Regional Graduate Programs, and competitive University-wide fellowships and scholarships.

The Department of Environment and Society intends that all graduate students be financially supported. Graduate research assistantships are available through major professors having contracts, grants, or other awards. Internships may also be created on a case-by-case basis. A student may want to author or co-author a proposal with a faculty member to fund a new initiative. There are also open competitions for graduate scholarships and fellowships through the College of Natural Resources. The department also has a few graduate teaching assistantships where graduate students typically help instructors with teaching, grading, or recitation in large courses. Interested persons should contact the department early in the application process for more information on financial assistance for graduate students. Prospective students may also visit: <http://www.cnr.usu.edu/envs>

## Environment and Society Faculty

### Professors

*Mark W. Brunson*, environmental knowledge, attitudes and behavior, outdoor recreation

*Steven E. Daniels*, natural resource policy and sociology

*James J. Kennedy*, organizational behavior, forest economics

*Richard S. Krannich*, natural resource sociology and policy

*H. Charles Romesburg*, environmental decision making, natural resource research methods and survey sampling, bioethics

*Joseph A. Tainter*, sustainability, social conflict in environmental issues, human responses to climate change and environmental degradation, human use of energy and resources

*Richard E. Toth*, bioregional planning and water resources management

### Adjunct Professors

*Thomas C. Edwards, Jr.*, Utah Cooperative Fish and Wildlife Research Unit, spatial

*Terry L. Sharik*, academic administration and leadership, teaching and learning pedagogy, forest ecology

### Professors Emeritus

*Clifford B. Craig*, human geography, geographic education, rural/urban planning and development, geography of Utah, GIS education

*Leona K. Hawks*, green consumerism, resource conservation and efficiency, human impacts on the environment

*Derrick J. Thom*, cultural geography, international rural development, land use planning, Africa

### Research Professor Emeritus

*Leila McReynolds Shultz*, plant taxonomy and geography

### Associate Professors

*Ted J. Alsop*, physical geography, university pedagogy, photogrammetry

*Steven W. Burr*, outdoor recreation, nature-based tourism

*Christopher A. Conte*, African, environmental history

*D. Layne Coppock*, range ecology and management, international development, systems analysis

*Joanna L. Endter-Wada*, natural resource and environmental policy, interdisciplinary social sciences, water management and planning

*Robert H. Schmidt*, wildlife policy and human dimensions, wildlife damage management

# Department of Environment and Society

---

## Adjunct Associate Professors

*Christopher Call*, vegetation manipulation/management  
*Arthur J. Caplan*, environmental economics, public policy, quantitative analysis  
*Nancy O. Mesner*, water quality extension specialist, water policy and modeling  
*Peggy Petrzalka*, environmental sociology, rural sociology, social change and development  
*R. Douglas Ramsey*, remote sensing, geographic information systems, landscapes

## Assistant Professors

*Michael Dietz*, sustainable living, water resource management  
*Ann Laudati*, human-environmental interactions, community conservation and development, political ecology, natural resources and violent conflict, Sub-Saharan Africa  
*Christopher Manz*, recreation ecology, outdoor recreation, wilderness management  
*Claudia A. Radel*, human-environment geography, cultural/political ecology, feminist geography

## Adjunct Assistant Professors

*David T. Anderson*, Project Director Utah Botanical Center  
*Benny Bobowski*, wildlife biology, rangeland ecology, ecosystem management  
*Paul W. Box*, geographic information systems, spatial analysis and modeling  
*Christopher Cokinos*, literary nature and science writing  
*Michael F. Harper*, Latin America, educational technology, geography education  
*John Haskin*, novice teacher development and qualitative research methodologies  
*Tamsin C. McCormick*, physical geology, land management, environmental education, habitat restoration  
*Nicole L. McCoy*, natural resource economics and policy

*Paul Rogers*, aspen ecology, lichenology, large-scale monitoring, Forest Service policy  
*Douglas G. Wachob*, development effects on wildlife, environmental education

## Senior Lecturer

*Michael F. Butkus*, recreation resources management and planning, interpretive planning

## Lecturers

*Benjamin D. Baldwin*, Tehabi Project Leader, internship development, leadership and teamwork  
*Judith A. Kurtzman*, natural resource policy  
*Barbara Middleton*, environmental education

## Adjunct Lecturer

*Catherine A. "Kate" Stephens*, Program Coordinator of Utah Conservation Corps, environmental education

## Adjunct Instructors

*Dana E. Dolsen*, Wildlife Planning Manager, State of Utah, Department of Natural Resources  
*Larry H. Freeman*, environmental writing, NEPA specialist  
*Richard C. Moore*, NEPA and CEQ compliance, training, and consulting  
*Michael Smith*, NEPA consulting and workshop training  
*Rhey M. Solomon*, environmental analyst, NEPA trainer/instructor/facilitator

## Course Descriptions

Environment and Society (ENVS), pages 554-557

Geography (GEOG), pages 571-572

National Environmental Policy Act (NEPA), pages 618-619

# Department of Family, Consumer, and Human Development

**Department Head:** Thomas R. Lee

**Location:** Family Life 203B

**E-mail:** tom.lee@usu.edu

**Phone:** (435) 797-1551

**FAX:** (435) 797-3845

**E-mail (undergraduate):** misty.balls@usu.edu

**E-mail (graduate):** r.jones@usu.edu

**WWW:** <http://www.usu.edu/fchd/>

**Senior Associate Department Head and Adele and Dale Young Child Development Laboratory Director:**

Shelley L. Knudsen Lindauer, Family Life 106A,  
(435) 797-1532, shelley.lindauer@usu.edu

**Associate Department Head and Graduate Coordinator:**

Randall M. Jones, Family Life 221, (435) 797-1553,  
r.jones@usu.edu

**Assistant Department Head:**

Deborah B. Ascione, Family Life 222, (435) 797-2527,  
deb.ascione@usu.edu

**MFHD Program Coordinator:**

Kathleen W. Piercy, Family Life 219, (435) 797-2387,  
kathy.piercy@usu.edu

**Gerontology Certificate Program Coordinator:**

Elizabeth B. Fauth, Family Life 215, (435) 797-1989,  
beth.fauth@usu.edu

**Marriage and Family Therapy Program Director:**

Scot M. Allgood, Family Life Center 207, (435) 797-7433,  
scot.allgood@usu.edu

**Undergraduate Academic Advisor:**

Marilyn B. Kruse, Family Life 205A, (435) 797-1530,  
marilyn.b.kruse@usu.edu

**Degrees offered:** Bachelor of Science (BS), Bachelor of Arts (BA), Master of Science (MS), and Doctor of Philosophy (PhD) in Family, Consumer, and Human Development; BS and BA in Early Childhood Education; BS and BA in Family and Consumer Sciences; BS in Family Life Studies (offered online *only*); Master of Family and Human Development (MFHD)

**Undergraduate emphases:** *BS, BA in Family, Consumer, and Human Development*—Deaf Education, Family and Community Services, Family Finance, Child Development; *BS, BA in Early Childhood Education*—licensure, K-3rd grades

**Graduate specializations:** *MS*—Adolescence and Youth, Adult Development and Aging, Consumer Sciences, Infancy and Childhood, Marriage and Family Relationships, Marriage and Family Therapy

**Gerontology Certificate Program:** The Gerontology Certificate Program at Utah State University is administered through the Department of Family, Consumer, and Human Development, and is open to all majors. Students preparing for careers in the field of aging complete selected aging-related coursework, including a supervised field practicum in a gerontological setting. A minimum GPA of 3.0 is required for the Gerontology Certificate.

## Undergraduate Programs

### Objectives

The Family, Consumer, and Human Development Department offers undergraduate programs in Family, Consumer, and Human Development; Family and Consumer Sciences; Early Childhood Education; and Family Life Studies (online *only*). All programs

are designed to prepare students for successful careers serving individuals and families across the lifespan. Through coursework and applied experiences, majors study how human development, family relationships, family economics, and consumer issues affect the individual and family.

Faculty members provide instruction and practicum supervision to prepare students to meet the needs of the people they will serve in their future careers. Students are then qualified to work in agencies and organizations serving individuals from infancy through later life, as well as families and consumers in many settings.

Student majors in Family, Consumer, and Human Development and in Family and Consumer Sciences are required to complete a practicum experience, which is arranged with the department practicum coordinator. Types of practicum sites include state agencies, hospitals, preschools and child care centers, nursing homes, senior citizen centers, parenting programs, detention centers, crisis intervention programs, public schools, Head Start programs, and after-school programs, as well as financial institutions, credit counseling services, and housing services. Practicum experience in the Deaf Education and Child Development emphases includes the Adele and Dale Young Child Development Laboratory setting. Students majoring in Early Childhood Education complete a formal internship in the Adele and Dale Young Child Development Laboratory and in primary school grades.

Majors in Family, Consumer, and Human Development (FCHD), Family and Consumer Sciences (FCS), Early Childhood Education (ECE), and Family Life Studies (FLS) receive the necessary preparation for graduate study in a family, consumer, and human development related field or employment. Early Childhood Education majors acquire a teaching license so they can teach in grades K-3 in the Utah public schools.

In addition to preparation for advanced study or job opportunities, FCHD majors receive increased knowledge and skills in topics which will enhance their personal and family lives.

### Certified Family Life Educator (CFLE)

The Family and Community Services emphasis fulfills the academic requirements for the Certified Family Life Educator (CFLE) credential offered through the National Council on Family Relations. Information about how to become a CFLE may be accessed at:  
<http://www.ncfr.org/>

### Gerontology Certificate

Students pursuing the Gerontology Certificate must take additional courses and complete a gerontology practicum as required to receive the certificate. A complete list of requirements may be obtained in Family Life 215, by calling (435) 797-1989, or accessed online at:  
<http://www.usu.edu/fchd/html/gerontology/>

## Departmental Requirements for Family, Consumer, and Human Development Major

### Admission Requirements

Students with less than 24 semester credits can declare a premajor in FCHD (PFHD). Completion of at least 24 semester credits (including FCHD 1010, 1500, and 2400) with a cumulative GPA of 3.0 is required for admission into the FCHD major. Family Finance premajor courses include FCHD 1010, 1500, 2400, and 2450. A cumulative GPA of 3.0 is required.

# Department of Family, Consumer, and Human Development

## Departmental Program Requirements

The department has established the following regulations, which govern students' academic progress:

1. The *P/D+*, *D*, and *F* option cannot be used for courses required in the FCHD major or minor.
2. An overall cumulative GPA of 3.0 is required to enter the major, and a cumulative 3.0 GPA is required for graduation. A GPA of 3.0 in FCHD major courses is also required for graduation.
3. **Ten-year Policy.** Courses which are required for the major will be accepted if they have been completed within the last 10 years.

## Background Check

All students will be required to pass a background check prior to participation in a practicum experience (FCHD 4950, 4970, 4980, or 5950).

## Emphasis Requirements

After admission to the FCHD major, students must complete the requirements for one of the following four emphases: Family and Community Services, Child Development, Deaf Education, or Family Finance. These requirements are shown below.

### Family and Community Services and Child Development Emphases

Majors choosing one of these two emphases prepare for employment in a variety of occupational settings. Previous graduates have found employment in such settings as child care, Head Start programs, social services agencies, drug treatment centers, youth and adult residential care centers, foster care, youth centers, crisis centers, parent education programs, senior citizen centers, long-term care facilities, adult day care centers, and a host of related federal, state, and local agencies serving families and children. Students are prepared to work in their communities to develop and guide policies for families and children. In addition, FCHD majors receive increased knowledge and skills in topics which will enhance their personal and family lives.

#### Core Courses (57 credits)

FCHD 1010 (BSS) Balancing Work and Family (F,Sp)	3
FCHD 1500 (BSS) Human Development Across the Lifespan (F,Sp)	3
FCHD 2400 (BSS) Marriage and Family Relationships (F,Sp)	3
FCHD 2610 Child Guidance (F,Sp)	3
FCHD 3100 Abuse and Neglect in Family Context (Prereq: Sophomore standing, FCHD 1500, 2400) (F,Sp)	3
FCHD 3110 Human Sexuality (Prereq: FCHD 1500, 2400) (F)	3
FCHD 3130 (QI) Research Methods (Prereq: STAT 1040) (majors only) (F,Sp)	3
FCHD 3210 (CI) Families and Cultural Diversity (Prereq: FCHD 1500, 2400, CL2 fulfillment) (F,Sp) (majors only)	3
FCHD 3510* Infancy and Early Childhood (Prereq: Junior standing, FCHD 1500, 2610) (F,Sp)	3
FCHD 3520* Children in the Middle Years (Prereq: Junior standing, FCHD 1500, 2610) (F)	3
FCHD 3530 Adolescence (Prereq: Junior standing, FCHD 1500) (F,Sp)	3
FCHD 3540 Adult Development and Aging (Prereq: Junior standing and FCHD 1500) (Sp)	3
FCHD 4220 Family Crises and Interventions (Prereq: Junior standing, FCHD 2400) (F,Su)	3
FCHD 4230 Families and Social Policy (Prereq: Junior standing, FCHD 2400) (Sp)	3
FCHD 4240 Social and Family Gerontology (Prereq: Junior standing, FCHD 2400, 3540) (F)	3

FCHD 4900 (CI) Pre-Practicum Skills (Prereq: Junior standing, FCHD 2610, 3100, CL2 fulfillment) (majors only) (F,Sp)	3
FCHD 4980 <sup>1</sup> Practicum (F,Sp,Su)	6
PSY 2800 (QI) Psychological Statistics (Prereq: STAT 1040) (F,Sp) (3 cr) or	
SOC 3120 (QI) Social Statistics I (Prereq: Completion of 6 credits in Sociology, Social Work and Anthropology departmental courses and grade of C- or better in STAT 1040 or equivalent) (F,Sp,Su) (3 cr)	3

\*FCHD majors with a Family and Community Services emphasis must take one lab concurrently with *either* FCHD 3510 or 3520. FCHD majors with a Child Development emphasis must take FCHD 3550 concurrently with FCHD 3510 and FCHD 3560 concurrently with FCHD 3520. The online sections of FCHD 3510 and 3520 *do not offer a lab experience*. Therefore, students must take these courses through campus-based sections. For students attending classes at the Uintah Basin, Brigham City, and Snow College regional campuses, the FCHD 3550 and 3560 labs *must* be taken concurrently with FCHD 3510 and 3520, *regardless of emphasis*.

In addition to completing these core courses, all students must complete all courses listed below for *either* the Family and Community Services Emphasis *or* the Child Development Emphasis.

#### Family and Community Services Emphasis (10 credits)

FCHD 2100 Family Resource Management (F,Sp)	3
FCHD 3350 Family Finance (F,Sp,Su)	3
FCHD 3550 Infant Lab (take concurrently with FCHD 3510) (F,Sp) (1 cr) or	
FCHD 3560 Middle Childhood Lab (take concurrently with FCHD 3520) (F,Sp) (1 cr)	1
FCHD 5540 Family Life Education Methods (Prereq: Junior Standing, FCHD 1500, 2400) (F,Sp) (majors only)	3

#### Child Development Emphasis (8 credits)

FCHD 3550 Infant Lab (take concurrently with FCHD 3510) (F,Sp)	1
FCHD 3560 Middle Childhood Lab (take concurrently with FCHD 3520) (F,Sp)	1
FCHD 4550 Preschool Methods and Curriculum (Prereq: Junior standing, FCHD 1500) (F,Sp)	3
FCHD 4960 <sup>2</sup> Practice Teaching in Child Development Laboratories (Prereq: Junior standing, FCHD 4550) (F,Sp,Su)	3

#### Suggested Electives

PSY 3210 Abnormal Psychology (F,Sp)	3
PSY 4210 Personality Theory (Sp)	3

#### Deaf Education Emphasis

Majors choosing this emphasis are prepared to work with infants and young children who are hearing impaired and their families. Once students have completed their undergraduate degree, they can apply to the graduate program in the Department of Communicative Disorders and Deaf Education and work toward a master's degree with a specialization in Early Childhood Communicative Disorders. This master's program can be completed in two semesters plus a summer session. Students completing the master's program will have the skills necessary to work in early intervention programs called Parent-Infant Programs (or PIP). These programs may be found in every state of the country. Upon completion of the undergraduate FCHD major with the Deaf Education emphasis and the graduate Early Childhood Communicative Disorders specialization, students will have the coursework necessary to cover the competencies for the 0-3 Hearing Endorsement and the EI-2 credential which are necessary to be a parent advisor in Utah.

<b>PSY 2800 (QI)</b> Psychological Statistics (Prereq: STAT 1040) (F,Sp) (3 cr) or	
<b>SOC 3120 (QI)</b> Social Statistics I (Prereq: Completion of 6 credits in Sociology, Social Work and Anthropology departmental courses and grade of C- or better in STAT 1040 or equivalent) (F,Sp,Su) (3 cr) .....	3
<b>SPED 4000</b> Education of Exceptional Individuals (F,Sp,Su).....	2

In addition to these courses, students must complete the following courses during their senior year:

<b>COMD 3910</b> Sign Language II (F,Sp,Su) .....	4
<b>COMD 4770</b> Audiology and Teachers of Children who are Deaf and Hard of Hearing (F) .....	3
<b>COMD 5610</b> Introduction to Education of the Deaf and Hard of Hearing (F) .....	3
<b>SPED 5710</b> Young Children with Disabilities: Characteristics and Services (Sp).....	3
<b>SPED 5810</b> Seminar and Field Experiences with Infants and Families (Sp) .....	4

Students in this emphasis must meet with their advisor each semester.

<sup>1</sup>Prerequisite: Junior standing, FCHD 4900, a total of at least 30 FCHD credits, and prior application approval by the Practicum Coordinator. Practicum application deadlines are February 15 for fall, June 15 for spring, and October 15 for summer.

<sup>2</sup>Students must sign up three full semesters in advance in Family Life 205.

<sup>3</sup>For COMD and SPED course offerings, contact the Department of Communicative Disorders and Deaf Education and the Department of Special Education and Rehabilitation.

## Family Finance Emphasis

Majors choosing this emphasis will be prepared for careers in financial counseling, advising, and education. Coursework focuses on the financial decisions that individuals and families face relating to insurance, investing, credit, budgeting, and home ownership. Students will complete an off-campus practicum and a Financial Counseling practicum at the Family Life Center on campus. At the Family Life Center, students will encounter various types of financial experiences, including new home buyer counseling sessions and workshops, as well as financial problems related to credit and budgeting. The Family Life Center's housing and financial counseling services are approved by

the U.S. Department of Housing and Urban Development (HUD) and provide counseling and education to the community.

Employment opportunities include consumer credit counseling services, credit unions, the armed forces, corporate employee assistance programs, employee benefits counseling firms, college financial aid offices, bank loan offices, hospitals, corporate credit offices, bankruptcy courts, community housing programs, Federal Home Administration, Housing and Urban Development, personal banker, mortgage loan officer, credit counselor, financial counselor or educator, consumer relations coordinator, military financial educator, debt collections coordinator, credit investigator, fraud detective, insurance broker, stockbroker, and financial planner.

## Major Courses (61 credits)

<b>FCHD 1010 (BSS)</b> Balancing Work and Family (F,Sp) .....	3

<b>FCHD 4330</b> Family Finance Career Seminar (Prereq: FCHD 3350) (F).....	1
<b>FCHD 4350</b> Advanced Family Finance (Prereq: FCHD 3350) (Sp) .....	3
<b>FCHD 4460</b> Financial Counseling (Prereq: FCHD 3350, 3450) (majors only) (Sp).....	3
<b>FCHD 4950</b> Practicum: Consumer Science (majors only) (F,Sp,Su) ....	6
<b>FCHD 5340</b> Housing Finance and Regulations (Prereq: FCHD 3340, 3350) (majors only) (Sp).....	3
<b>FCHD 5950</b> Financial Counseling Practicum (Prereq: FCHD 4220, 4460, 5340) (majors only) (F,Sp,Su) .....	3

## Required General Education Courses

<b>ECN 1500 (BAI)</b> Introduction to Economic Institutions, History, and Principles (F,Sp,Su).....	3
<b>STAT 1040 (QL)</b> Introduction to Statistics (Prereq: C or better in MATH 1010, or Math ACT score of at least 23, or Math SAT score of at least 540) (F,Sp,Su) .....	3
<b>SPCH 1020 (CI)</b> Public Speaking (F,Sp) .....	3

## Suggested Support Courses

<b>ECN 2010 (BSS)</b> Introduction to Microeconomics (Prereq: ECN 1500) (F,Sp,Su).....	3
<b>FCHD 3540</b> Adult Development and Aging (Prereq: Junior Standing, FCHD 1500) (Sp) .....	3
<b>FCHD 4240</b> Social and Family Gerontology (Prereq: Junior standing, FCHD 2400, 3540) (F) .....	3
<b>OSS 2450</b> Spreadsheets and Databases (Prereq: OSS 1400 or CIL Exam).....	3
<b>PFP 3460</b> Fundamentals of Personal Investing (Sp) .....	3
<b>PFP 5060</b> Personal Financial Planning and Advising (F) .....	3
<b>PFP 5070</b> Retirement Planning (Sp) .....	3
<b>PFP 5080</b> Estate Planning (Sp).....	3

# Department of Family, Consumer, and Human Development

## Prerequisites for FCHD 4950 and 5950 Family Finance Practica

FCHD 4950 and 5950 may be taken *only* by FCHD majors who have completed the application process. Prior to enrolling in FCHD 4950 or 5950, students must have completed a minimum of 70 semester credits. The following courses are also prerequisites for FCHD 4950 and 5950:

FCHD 1010 (BSS) Balancing Work and Family (F,Sp)	3
FCHD 1500 (BSS) Human Development Across the Lifespan (F,Sp)	3
FCHD 2400 (BSS) Marriage and Family Relationships (F,Sp)	3
FCHD 2450 (BSS) The Consumer and the Market (F,Sp)	3
FCHD 3340 Housing: Societal and Environmental Issues (F)	3
FCHD 3350 Family Finance (F,Sp,Su)	3
FCHD 3450 Consumer Credit Problems (Prereq: FCHD 3350) (F)	3
SPCH 1020 (CI) Public Speaking (F,Sp)	3

## Additional Prerequisites for FCHD 5950, Financial Counseling Practicum

FCHD 4220 Family Crises and Interventions (Prereq: Junior standing, FCHD 2400) (F,Su)	3
FCHD 4460 Financial Counseling (Prereq: FCHD 3350, 3450) (majors only) (Sp)	3
FCHD 5340 Housing Finance and Regulations (Prereq: FCHD 3340, 3350) (majors only) (Sp)	3

## Family and Human Development Minor

The minor in Family and Human Development (FHD) is designed to provide a knowledge base for understanding families and human development in order to enhance the training of majors in other academic disciplines. A 3.0 GPA is required for this minor. No more than 6 transfer credits may be used toward the FHD minor. Students applying for an FHD minor at USU, but transferring courses from other universities, must complete a minimum of three USU FCHD courses in order to earn an FHD minor. Courses counted toward the minor *may not* be taken *pass-fail*.

### Required Courses (6 credits)

FCHD 1500 (BSS) Human Development Across the Lifespan (F,Sp)	3
FCHD 2400 (BSS) Marriage and Family Relationships (F,Sp)	3

### Elective Courses (9 credits)

Students must complete *three* of the following courses:

FCHD 2610 Child Guidance (F,Sp)	3
FCHD 3100 <sup>4</sup> Abuse and Neglect in Family Context (F,Sp)	3
FCHD 3110 <sup>5</sup> Human Sexuality (F)	3
FCHD 3510 <sup>6</sup> Infancy and Early Childhood (F,Sp)	3
FCHD 3520 <sup>6</sup> Children in the Middle Years (F)	3
FCHD 3530 <sup>7</sup> Adolescence (F,Sp)	3
FCHD 3540 <sup>7</sup> Adult Development and Aging (Sp)	3
FCHD 4220 <sup>8</sup> Family Crises and Interventions (F,Su)	3
FCHD 4230 <sup>8</sup> Families and Social Policy (Sp)	3
FCHD 4240 <sup>9</sup> Social and Family Gerontology (F)	3

Students should be aware that the following courses *cannot* be used to fulfill requirements for the FHD minor: FCHD 2500, 2600, 2630, 3130, 3210, 3350, 4550, 4800, 4940, 5550; practica (FCHD 4900, 4950, 4960, 4970, 4980); and Readings and Conference (FCHD 4990).

<sup>4</sup>Prerequisites: Sophomore standing, FCHD 1500, 2400.

<sup>5</sup>Prerequisites: FCHD 1500, 2400.

<sup>6</sup>Prerequisites: Junior standing, FCHD 1500, 2610.

<sup>7</sup>Prerequisites: Junior standing, FCHD 1500.

<sup>8</sup>Prerequisites: Junior standing, FCHD 2400.

<sup>9</sup>Prerequisites: Junior standing, FCHD 2400, 3540.

## Family Finance Minor (3.0 GPA required)

### Required Courses (6 credits)

FCHD 2450 (BSS) The Consumer and the Market (F,Sp)	3
FCHD 3350 Family Finance (F,Sp,Su)	3

### Elective Courses (9 credits)

Students must complete *at least 9 credits* in courses selected from the following. Courses counted toward the minor may *not* be taken *pass/fail*.

FCHD 2100 Family Resource Management (F,Sp)	3
FCHD 3280 Economic Issues for Individuals and Families (Sp)	3
FCHD 3310 Consumer Policy (Sp)	3
FCHD 3340 Housing: Societal and Environmental Issues (F)	3
FCHD 3450 Consumer Credit Problems (Prereq: FCHD 3350) (F)	3
FCHD 4350 Advanced Family Finance (Prereq: FCHD 3350) (Sp)	3

## Early Childhood Education Major

Majors in early childhood education are licensed to teach in preschool, kindergarten, and grades 1-3. Several practica and field experiences with children are provided, and a subject matter emphasis is selected. This major is a cooperative effort between the Department of Family, Consumer, and Human Development and the Elementary Education Program in the School of Teacher Education and Leadership (TEAL). Students are required to complete a student teaching practicum in a preschool program, a kindergarten, and in the public schools grades 1, 2, or 3. Additional materials describing the ECE major in the Department of Family, Consumer, and Human Development are available from the advisors in FL 205.

### University Studies Requirements

Early Childhood Education Majors are required to take certain classes to fulfill the University Studies requirements. The following sections list the specific courses to choose from:

#### Quantitative Literacy (QL) (3 credits)

(A grade lower than a C- will not be accepted in these courses.)

STAT 1040 (QL) Introduction to Statistics (F,Sp,Su)	3
---	---

(MATH 1050 or Math ACT score of 25 or higher is required to apply to the Teacher Education Program.)

#### Breadth Requirements (21 credits)

Choose *one* course from the following to meet BAI requirement:

ECN 1500, HIST 1700, POLS 1100, USU 1300	3
--	---

Choose *one* course from the following to meet BCA requirement:

MUSC 1010, USU 1330, ID 1750	3
------------------------------	---

Choose *one* course from the following to meet BHU requirement:

ANTH 2210, HIST 1110, HIST 1510, PHIL 1000, PHIL 1120, PHIL 1200, PHIL 2400, USU 1320	3
---	---

Choose *one* course from the following to meet BSS requirement:

ANTH 1010, ANTH 2010, ASTE 2900, ENVS 2340, GEOG 1300, GEOG 1400, JCOM 1500, NR 1010, POLS 2200, SOC 1010, USU 1340	3
---	---

Choose *one* course from the following to meet BLS requirement:

BIOL 1010, NFS 1020, PLSC 2100, USU 1350, WATS 1200, WILD 2200	3
--	---

Complete PHYS 1200 and choose *one* course from the following to meet BPS requirement:

CLIM 2000, GEOG 1000, GEO 1010, GEO 1110, CHEM 1010, PHYS 1040, SOIL 2000, USU 1360	6
---	---

# Department of Family, Consumer, and Human Development

## Depth Education Requirements

### Communications Intensive (CI) (2 courses)

<b>ELED 3000 (CI)</b> Foundation Studies and Practicum in Teaching and Classroom Management Level II.....	6
<b>ELED 4030 (CI)</b> Teaching Language Arts and Practicum Level III.....	3

(ELED 3000 and 4030 are included in major requirements.)

### Quantitative Intensive (QI) (1 course)

(A grade lower than a C- will not be accepted in this course.)

<b>MATH 2020 (QI)</b> Introduction to Logic and Geometry (F,Sp,Su).....	3
---	---

(Prereq: C- or better in MATH 1050, Math ACT score of 25 or higher, or Math SAT score of 580 or higher; also required to apply to the Teacher Education Program)

### Depth Course Requirements (4 credits minimum)

Complete at least 4 credits in approved University Studies depth courses designated DSC, DHA, or DSS (outside of area of emphasis).

## Early Childhood Education Major (80 credits) (minimum 2.75 GPA)

Offered in Conjunction with School of TEAL.

**Note:** Grades lower than a C will not be accepted in the major.

Admission criteria for the **Teacher Education Program** include: completion of 30 credits with a cumulative GPA of at least 2.75, successful performance on the ACT exam, successfully passing the Teacher Education Writing Exam, a speech and hearing test, and high potential as a teacher as judged by performance in a small-group interview. Admission is limited to ensure a quality program and by the availability of space.

Students majoring in Early Childhood Education must complete all of the following courses as indicated.

### FCHD Required Course (3 credits)

<b>FCHD 1010 (BSS)</b> Balancing Work and Family (F,Sp).....	3
--	---

### Level I (6 credits)<sup>10</sup>

<b>ELED 1010</b> Orientation to Elementary Education.....	3
<b>FCHD 1500 (BSS)</b> Human Development Across the Lifespan.....	3

### Level II (14 credits)<sup>11</sup>

Students must be officially admitted to the Teacher Education Program prior to Level II.

<b>ELED 3000 (CI)</b> Foundation Studies and Practicum in Teaching and Classroom Management Level II.....	4
<b>ELED 3005</b> Beginning Classroom Management.....	1
<b>FCHD 2600</b> Seminar in Early Childhood Education (F,Sp).....	2
<b>FCHD 2630</b> Practicum in Early Childhood Education (F,Sp).....	2
<b>PSY 3660</b> Educational Psychology for Teachers.....	2

(Level II courses must be taken concurrently.)

<b>ELED 3100<sup>13</sup></b> Classroom Reading Instruction.....	3
--	---

(ELED 3100 may be taken during transition semester, if desired.)

### Transition (11 credits)

<b>SPED 4000<sup>11</sup></b> Education of Exceptional Individuals.....	2
<b>INST 4010<sup>11</sup></b> Principles and Practices of Technology for Elementary Teachers.....	3
<b>FCHD 4550<sup>12,13</sup></b> Preschool Methods and Curriculum.....	3
<b>ELED 4480<sup>12</sup></b> Early Childhood Education Kindergarten through Grade 3.....	3

### Level III (16 credits; must follow Level II)

<b>ELED 4000</b> Teaching Science and Practicum Level III.....	3
<b>ELED 4005</b> Intermediate Classroom Management.....	1
<b>ELED 4030 (CI)</b> Teaching Language Arts and Practicum Level III.....	3

<b>ELED 4040 (CI)</b> Assessment and Instruction for Struggling Readers.....	3
<b>ELED 4050</b> Teaching Social Studies and Practicum Level III.....	3
<b>ELED 4060</b> Teaching Mathematics and Practicum Level III.....	3

(Level III courses must be taken concurrently.)

### Level IV (21 credits)

<b>ELED 5050</b> Student Teaching—Kindergarten.....	6
<b>ELED 5100</b> Student Teaching—Primary Grades (1-3).....	6
<b>ELED 5250</b> Student Teaching—Seminar.....	3
<b>FCHD 4960<sup>13,14</sup></b> Practice Teaching in Child Development Laboratories 6.....	6

(Level IV courses must be taken during two semesters.)

### Emphasis (12 credits)

Descriptions of available emphasis areas are shown below.

### Electives (if needed to complete 120 credits)

Choose Breadth Electives from the following courses:

<b>ART 3700</b> Elementary Art Methods.....	3
<b>THEA 4030 (DHA)</b> Storytelling.....	3
<b>THEA 4330</b> Drama and Theatre for Youth: Grades K-6.....	3
<b>THEA 5360</b> Drama in the Secondary Education Classroom: Grades 7-12.....	3
<b>HEP 3500</b> Elementary School Health Education.....	2
<b>PEP 3050</b> Physical Education in the Elementary School.....	3
<b>PEP 3650</b> Movement Exploration for Elementary Teachers.....	2
<b>ETE 3070</b> K-8 Engineering and Technology Education.....	3
<b>ENVS 5110</b> Environmental Education.....	3
<b>ELED 4410</b> Gifted Education in the Regular Classroom.....	3
<b>ELED 4420</b> Multiple Talent Approach to Thinking.....	2
<b>FCHD 2610</b> Child Guidance.....	3
<b>ENGL 3530<sup>15</sup></b> Children's Literature.....	3
<b>MUSC 3260</b> Elementary School Music.....	2

<sup>10</sup>These courses are prerequisites to Level II.

<sup>11</sup>SPED 4000, ELED 3100, or INST 4010 may be taken concurrently with Level II courses, allowing students to earn 14-15 credits during their Level II semester. Log into Access for information about when these courses will be taught.

<sup>12</sup>ELED 4480 and FCHD 4550 must be taken *after* completion of Level II.

<sup>13</sup>FCHD 4550 is a prerequisite for FCHD 4960.

<sup>14</sup>Students must apply for FCHD 4960 three full semesters in advance of taking the class. Apply in Family Life Building, room 205.

<sup>15</sup>ENGL 3530 is highly recommended.

### Early Childhood Areas of Emphasis

Students majoring in Early Childhood Education are required to complete 12 credits in an area of emphasis. The area of emphasis must be chosen from the following fields: Language Arts, Social Studies, Mathematics/General Science, General Science, Fine Arts, Art, Music, Physical Education, Health/Wellness/ Nutrition, Foreign Language, School Library Media, or English as a Second Language. **Students must choose two upper-division courses numbered 3000 or above.**

Requirements for the areas of emphasis are listed below and on the following pages. Grades lower than C- will not be accepted in the areas of emphasis.

### Language Arts Emphasis (12 credits)

Select two courses from each group. Remaining courses (if any) may be selected from any of the courses listed.

#### Listening and Speaking

<b>SPCH 1020 (CI)</b> Public Speaking.....	3
<b>SPCH 2110 (CI)</b> Interpersonal Communication.....	3
<b>SPCH 3330 (DSS)</b> Intercultural Communication.....	3
<b>THEA 1030 (BHU)</b> Exploring Performance Through Aesthetic Texts.....	3
<b>THEA 4030 (DHA)</b> Storytelling.....	3
<b>THEA 4330</b> Drama and Theatre for Youth: Grades K-6.....	3
<b>THEA 5360</b> Drama in the Secondary Education Classroom: Grades 7-12.....	3

# Department of Family, Consumer, and Human Development

## Reading and Writing

ENGL 1120 Elements of Grammar.....	3
ENGL 2200 (BHU) Understanding Literature.....	3
ENGL 2210 (BHU) Introduction to Folklore.....	3
ENGL 2720 Survey of American Folklore.....	3
ENGL 3030 (DHA) Perspectives in Literature.....	3
ENGL 3040 (DHA) Perspectives in Writing and Rhetoric.....	3
ENGL 3420 Fiction Writing.....	3
ENGL 3530 Children's Literature.....	3
ENGL/HIST 3700 (CI) Regional Folklore.....	3

## Electives

ENGL 2140 British Literary History: Anglo-Saxon to 18th Century.....	3
ENGL 2600 Literary Analysis.....	3
ENGL 3050 (DHA) Masterpieces of World Literature.....	3
ENGL/HIST 3070 (DHA) Perspectives in Folklore.....	3
ENGL 3430 Poetry Writing.....	3
ENGL 3510 Young Adult Literature.....	3
ENGL 3520 Multicultural American Literature.....	3
ENGL 4300 Shakespeare.....	3
COMD 2500 Language, Speech, and Hearing Development.....	3

## Social Studies Emphasis (12 credits)

The purpose of this area is to offer students the opportunity to broaden their understanding of social studies. Students should select courses from at least three areas to constitute the 12 credits required.

### Anthropology

ANTH 1010 (BSS) Cultural Anthropology.....	3
ANTH 1030 (BSS) World Archaeology.....	3
ANTH 2010 (BSS) Peoples of the Contemporary World.....	3
ANTH 3130 (CI) Peoples of Latin America.....	3
ANTH 3160 (DSS) Anthropology of Religion.....	3
ANTH 3200 (CI/DSS) Perspectives on Race.....	3
ANTH 4110 (DSS) Southwest Indian Cultures, Past and Present.....	3

### Economics

ECN 1500 (BAI) Introduction to Economic Institutions, History, and Principles.....	3
ECN 2010 (BSS) Introduction to Microeconomics.....	3

### Political Science

POLS 1100 (BAI) United States Government and Politics.....	3
POLS 2100 Introduction to International Politics.....	3
POLS 2200 (BSS) Comparative Politics.....	3
POLS 3120 (DSS) Law and Politics.....	3
POLS 3140 (DSS) The Presidency.....	3
POLS 3190 (DSS) Gender, Power, and Politics.....	3
POLS 3310 (DSS) American Political Thought.....	3

### Sociology

SOC 1010 (BSS) Introductory Sociology.....	3
SOC 1020 Social Problems.....	3
SOC 3010 Social Inequality.....	3
SOC 3110 (CI) Methods of Social Research.....	3
SOC 3120 (QI) Social Statistics I.....	3
SOC 3200 (DSS) Population and Society.....	3
SOC 3410 Juvenile Delinquency.....	3
SOC 3500 Social Psychology.....	3

HEP 3000 Drugs and Human Behavior.....	3
WATS 3000 (DSC) Oceanography.....	3
WILD 2200 (BLS) Ecology of Our Changing World.....	3

## General Science Emphasis (12 credits)

Choose science courses from the preceding lists. One course must be from the Physical Science category and one must be from the Biological (Life) Science category. Remaining credits may be chosen from either category.

## Fine Arts Emphasis (12 credits)

Early Childhood Education Majors should choose MUSC 3260 as a general elective.

### Required:

ART 1020 Drawing I (3 cr) or	
ART 3700 Elementary Art Methods (3 cr).....	3
MUSC 1010 (BCA) Introduction to Music (3 cr) or	
MUSC 3010 (DHA) Masterpieces of Music (3 cr).....	3
THEA 4330 Drama and Theatre for Youth: Grades K-6.....	3

### Choose remaining credits from the following:

ART 2110 Drawing II.....	3
ART 2810 Photography I.....	3
PEP 2500 Rhythms and Movement.....	1
THEA 1030 (BHU) Exploring Performance Through Aesthetic Texts.....	3

## Art Emphasis (12 credits)

Early Childhood Education majors should consult with their advisor before choosing this emphasis.

ART 1010 (BCA) Exploring Art (3 cr) or	
ARTH 2710 (BHU) Survey of Western Art: Prehistoric to Medieval (3 cr) or	
ARTH 2720 (BHU) Survey of Western Art: Renaissance to Post-Modern (3 cr).....	3
ART 1020 Drawing I (3 cr) or	
ART 1120 Two-dimensional Design (3 cr).....	3
ART 2650 Introduction to Ceramics.....	3
ART 3700 Elementary Art Methods.....	3

## Music Emphasis (12 credits)

### Required:

MUSC 1010 (BCA) Introduction to Music.....	3
MUSC 1110 Music Theory I.....	3
MUSC 1600 Voice Techniques.....	1
MUSC 3260 Elementary School Music.....	2

### Choose remaining 3 credits from the following:

Appropriate piano course(s) (3 cr) or	
Guitar course(s) (3 cr) or	
Acceptable substitute courses, approved by advisor (3 cr).....	3

## Physical Education Emphasis (12 credits)

### Required:

PE 3000 Dynamic Fitness.....	3
PEP 3200 (CI) Motor Learning and Technology in Skill Analysis.....	3
HEP 2000 First Aid and Emergency Care.....	2

### Choose remaining credits from the following:

PEP 2200 Skills 2 (Lifetime Activities).....	1
PEP 2300 Skills 3 (Softball, Basketball, Soccer).....	1
PEP 2400 Skills 4 (Tennis, Badminton, Track and Field).....	1
PEP 2500 Rhythms and Movement.....	1
PRP 1500 Social Recreation Leadership.....	3

## Health/Wellness/Nutrition Emphasis (12 credits)

### Choose one of the following two courses:

NFS 1020 (BLS) Science and Application of Human Nutrition.....	3
NFS 2020 Nutrition Throughout the Life Cycle.....	3

### Choose remaining credits from the following:

NFS 1000 Food Science from Farm to Fork.....	3
NFS 3110 (DSC) Food, Technology, and Health.....	3
BIOL 2420 Human Physiology.....	4
HEP 2000 First Aid and Emergency Care.....	2
HEP 2500 Health and Wellness.....	2
HEP 3000 Drugs and Human Behavior.....	3
HEP 3500 Elementary School Health Education.....	2
PUBH 3120 Family and Community Health.....	3
PE 3000 Dynamic Fitness.....	3

## Foreign Language Emphasis (12 credits)

A foreign language area of emphasis may be designed by a student, provided it is limited to one language.

## School Library Media Certification

This certification will fulfill the emphasis requirement for Early Childhood Education majors. For a list of required courses, contact the Instructional Technology and Learning Sciences Department.

## English as a Second Language (ESL) Endorsement

This endorsement will fulfill the emphasis requirement for Early Childhood Education majors. For a list of required courses, students should contact their advisor. (Completing 12 credits toward the ESL Endorsement will fulfill an ESL Emphasis.)

## Optional Supporting Area in Parenting for Early Childhood Education Majors (17 credits)

The Early Childhood Education requirements can be met and then additional credits taken to complete a supporting area in parenting. This may enhance employment opportunities in school districts, child care, and preschools where there is a strong commitment to a parent involvement program, or as an instructor for community adult education programs.

<b>NFS 1020 (BLS)</b> Science and Application of Human Nutrition .....	3

<sup>16</sup>Prerequisites: Junior standing and FCHD 1500, 2610.

<sup>17</sup>Prerequisites: FCHD 1500, 2400.

## Family and Consumer Sciences Major

The Family and Consumer Sciences (FCS) major is an integrative major that links the various fields within the family and consumer sciences profession and prepares the student for positions requiring interdisciplinary problem-solving skills. The Family and Consumer Sciences major prepares graduates for positions in business, local/state/federal agencies, child care centers, youth programs, job training centers, and other related agencies.

**Note:** The requirements shown below for the FCS major are effective for students beginning the degree Summer 2008 or thereafter.

### Admission Requirements

Students with less than 24 semester credits may declare a premajor in FCS (PFCS). Completion of at least 24 semester credits (including FCHD 1010, 1500, 2400, and 2450) with a cumulative GPA of at least 3.0 is required for admission into the FCS major.

### Departmental Program Requirements

The department has several regulations governing students' academic progress:

1. The *P/D+*, *D*, *F* option cannot be used for courses required in the FCS major
2. An overall cumulative GPA of 3.0 is required for entrance to the major. An overall GPA of 3.0 is required for graduation. A GPA of 3.0 in FCS major courses is also required for graduation.
3. **Ten-year Policy.** Courses which are required for the major will be accepted *only* if they have been completed within the last 10 years.

<b>FCHD 1010 (BSS)</b> Balancing Work and Family (F,Sp) .....	3
<b>FCHD 1500 (BSS)</b> Human Development Across the Lifespan (F,Sp) ...	3
<b>FCHD 2400 (BSS)</b> Marriage and Family Relationships (F,Sp) .....	3
<b>FCHD 2450 (BSS)</b> The Consumer and the Market (F,Sp) .....	3

### Major Courses (30 credits)

Select at least 6 credits from each of the following five areas:

#### Clothing and Textiles (6 credits)

<b>FCSE 1140</b> Introductory Sewing (F,Sp) .....	2
<b>FCSE 2040</b> Clothing Production Principles (F,Sp) .....	3
<b>FCSE 3030 (DSC/QI)</b> Textile Science (Sp) .....	4
<b>FCSE 3040</b> Advanced Clothing Production Principles (F) .....	3
<b>FCSE 3060 (DSS/CI)</b> Human Behavior Related to Dress (Su) .....	3
<b>FCSE 3080 (DHA)</b> Dress and Humanity (F,Sp) .....	3

#### Consumer and Family Finance (6 credits)

<b>FCHD 2100</b> Family Resource Management (F,Sp) .....	3
<b>FCHD 3280</b> Economic Issues for Individuals and Families (Sp) .....	3
<b>FCHD 3310</b> Consumer Policy (Sp) .....	3
<b>FCHD 3340</b> Housing: Societal and Environmental Issues (F) .....	3
<b>FCHD 3350</b> Family Finance (F,Sp,Su) .....	3

<b>FCHD 3450</b> Consumer Credit Problems (Prereq: FCHD 3350) (F) .....	3
<b>FCHD 4330</b> Family Finance Career Seminar (Prereq: FCHD 3350) (F) .....	1
<b>FCHD 4350</b> Advanced Family Finance (Prereq: FCHD 3350) (Sp) .....	3
<b>FCHD 5340</b> Housing Finance and Regulations (Prereq: FCHD 3340, 3350) (majors only) (Sp) .....	3

#### Foods and Nutrition (6 credits)

<b>NFS 1000</b> Food Science from Farm to Fork .....	3
<b>NFS 1020 (BLS)</b> Science and Application of Human Nutrition (F,Sp,Su) .....	3
<b>NFS 1240</b> Culinary Basics (F) .....	3
<b>NFS 1250</b> Sanitation and Safety (Sp) .....	3
<b>NFS 2020</b> Nutrition Throughout the Life Cycle (Prereq: NFS 1020) (Sp) .....	3
<b>NFS 3020</b> Nutrition and Physical Performance (Prereq: NFS 1020) (F) .....	2
<b>NFS 3070</b> Science of Food Preparation (Prereq: CHEM 1120 or 2300 or 2310) (Sp) .....	4
<b>NFS 3110 (DSC)</b> Food, Technology, and Health (Prereq: University Studies Breadth Life Sciences Course) (F) .....	3
<b>NFS 4480</b> Community Nutrition (Prereq: NFS 1020) (F) .....	3

#### Human Development and Family Studies (6 credits)

<b>FCHD 2610</b> Child Guidance (F,Sp) .....	3
<b>FCHD 3100</b> Abuse and Neglect in Family Context (Prereq: Sophomore standing, FCHD 1500, 2400) (F,Sp) .....	3
<b>FCHD 3110</b> Human Sexuality (Prereq: FCHD 1500, 2400) (F) .....	3
<b>FCHD 3510</b> Infancy and Early Childhood (Prereq: Junior standing, FCHD 1500, 2610) (F,Sp) .....	3
<b>FCHD 3550</b> <sup>18</sup> Infant Lab (F,Sp) .....	1
<b>FCHD 3520</b> Children in the Middle Years (Prereq: Junior standing, FCHD 1500, 2610) (F) .....	3
<b>FCHD 3560</b> <sup>18</sup> Middle Childhood Lab (F,Sp) .....	1
<b>FCHD 3530</b> Adolescence (Prereq: Junior standing, FCHD 1500) (F,Sp) .....	3
<b>FCHD 3540</b> Adult Development and Aging (Prereq: Junior standing and FCHD 1500) (Sp) .....	3
<b>FCHD 4220</b> Family Crises and Interventions (Prereq: Junior standing, FCHD 2400) (F,Su) .....	3
<b>FCHD 4230</b> Families and Social Policy (Prereq: Junior standing, FCHD 2400) (Sp) .....	3
<b>FCHD 4240</b> Social and Family Gerontology (Prereq: Junior standing, FCHD 2400, 3540) (F) .....	3
<b>FCHD 4550</b> Preschool Methods and Curriculum (Prereq: Junior standing, FCHD 1500) (F,Sp) .....	3

#### Interior Design (6 credits)

<b>ID 1750 (BCA)</b> Design in Everyday Living (F,Sp) .....	3
<b>ID 1770</b> History of Interior Furnishings and Architecture I (F) .....	3
<b>ID 1780</b> History of Interior Furnishings and Architecture II (Sp) .....	3

#### Research Methods and Professional Development Courses (12 credits)

The following courses are required:

<b>FCHD 3130 (QI)</b> Research Methods (Prereq: STAT 1040) (F,Sp) (majors only) .....	3
<b>FCHD 3210 (CI)</b> Families and Cultural Diversity (Prereq: FCHD 1500, 2400, CL2 fulfillment) (F,Sp) (majors only) .....	3

Choose one of the following:

<b>OSS 1550 (CI)</b> Business Correspondence .....	3
<b>FCHD 4900 (CI)</b> Pre-Practicum Skills (Prereq: Junior Standing, FCHD 2610, 3100, CL2 fulfillment) (F,Sp) .....	3
<b>SPCH 1020 (CI)</b> Public Speaking (F,Sp) .....	3
<b>SPCH 2110 (CI)</b> Interpersonal Communication (F,Sp) .....	3

# Department of Family, Consumer, and Human Development

Choose one of the following:

<b>FCHD 4900 (CI) Pre-Practicum Skills (Prereq: Junior Standing, FCHD 2610, 3100, CL2 fulfillment) (F,Sp)</b> .....	3
<b>PHIL 1120 (BHU) Social Ethics (F)</b> .....	3
<b>PHIL 2400 (BHU) Ethics (Sp)</b> .....	3

## Practicum (6 credits)

Complete a total of 6 credits from one or both of the following:

<b>FCHD 4950<sup>19</sup> Practicum: Consumer Science (F,Sp,Su)</b> .....	3-6
<b>FCHD 4960<sup>20</sup> Practice Teaching in Child Development Laboratories (Prereq: Junior Standing, FCHD 4550) (F,Sp,Su)</b> .....	3

<sup>18</sup>FCHD 3550 must be taken concurrently with FCHD 3510. FCHD 3560 must be taken concurrently with FCHD 3520.

<sup>19</sup>Enrollment in FCHD 4950 is limited to *only* FCS majors who have received prior approval from the Practicum Coordinator. Prior to enrollment, students must have achieved junior standing, and must have completed a total of at least 30 FCHD credits, a Communications Intensive (CI) course, and an ethics course. Practicum application deadlines are as follows: February 15 for fall semester, June 15 for spring semester, and October 15 for summer semester.

<sup>20</sup>Students must sign up at *least* three full semesters in advance in Family Life 205.

## Suggested Four-year Plans

Suggested semester-by-semester four-year plans for students working toward a bachelor's degree within the Family, Consumer, and Human Development Department can be found at:

<http://www.usu.edu/degreplans/>

These plans are intended to guide students in the selection of their courses. However, students should meet with their advisor each semester to plan an individualized schedule tailored to their specific interests and needs.

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in selected upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school. The minimum GPA for participation in departmental honors in FCHD is 3.30, with 3.5 in the FCHD major. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level. The campus-wide Honors Program offers a rich array of cultural and social activities, special classes, and the benefit of Honors early registration. Interested students should contact the Honors Program, Main 15, (435) 797-2715. Additional information can be found online at: <http://www.usu.edu/honors/>, or by contacting Kaelin Olsen (FCHD honors advisor) at [kaelin.olsen@usu.edu](mailto:kaelin.olsen@usu.edu) or at (435) 797-8242.

## Additional Information

For more detailed information about the Family, Consumer, and Human Development; Early Childhood Education; Family and Consumer Sciences; and Family Life Studies majors, see the current major requirement sheets or an advisor in the FCHD Advising Center (Family Life 205). Major requirement sheets are also available online at: <http://www.usu.edu/majorsheets/>

## Financial Support

In addition to the scholarships, assistantships, grants-in-aid, and work-study programs available through the University, the Emma Eccles Jones College of Education and Human Services and the Department of Family, Consumer, and Human Development also give scholarships and other types of support each year. Students should inquire at the Dean's Office in Education 109, the departmental advising office in Family Life 205, or the Financial Aid Office in Student Center 106.

## Graduate Programs

### Admission Requirements

See general admission requirements on pages 36-37. Students may use either the GRE or MAT for application for all specializations in the MS degree, but the GRE is required for the PhD program. Additional assessment is required for admission to the MS marriage and family therapy specialization. An applicant's MAT score, or the GRE verbal and quantitative scores, must be at or above the 40th percentile. Applications are expected to be completed by January 15, but may be considered throughout the year, with the *exception* of applications for the Marriage and Family Therapy (MFT) Specialization. MFT applications *must* be received by January 15.

### Degree Programs

Graduate students receive a strong research and theoretical base in family relationships, consumer sciences, and human development. In addition to the core courses required for each of the specializations, students have the opportunity to achieve their program goals with a wide range of other graduate courses in the department, as well as designated courses in related programs at USU. Graduate students also engage in independent study, practica, and other specialized professional experiences that help them to acquire specific skills.

The department provides advanced graduate education and training for students to (1) establish the professional competency necessary for employment in research, teaching, marriage and family therapy, extension, and administration; (2) develop skills necessary for agency administration in the field of family and child care services; (3) receive clinical training in marriage and family therapy; (4) develop the skills for supervisory responsibilities in child development laboratories, child-care facilities, and adolescent programs; and (5) develop the skills and expertise to work in financial and consumer services agencies and organizations.

### MS in Family, Consumer, and Human Development

Students in the MS program complete a research thesis that makes a contribution to knowledge in family studies, human development, or consumer sciences.

All students in the MS Marriage and Family Therapy specialization also complete required clinical experiences. The MS Marriage and Family Therapy specialization satisfies basic educational requirements for Utah State licensure in marriage and family therapy and clinical membership in AAMFT. The Marriage and Family Therapy specialization is accredited by the Commission on Accreditation for Marriage and Family Therapy Education.

# Department of Family, Consumer, and Human Development

## Master of Family and Human Development (MFHD)

The MFHD is a practice-oriented, but nonclinical, master's degree especially suitable for individuals already working or planning to work in the family or social service sectors, education, corrections, or related fields. The MFHD does not require a thesis. A new group of students is enrolled every two years in the distance-delivered program, and the group takes a prescribed set of courses.

## PhD in Family, Consumer, and Human Development

Students in the PhD program complete a major research dissertation that makes a significant contribution to the theoretical and empirical knowledge in family studies or human development.

## Background Check

Students are required to pass a background check prior to participation in a practicum experience (FCHD 6980 or 7980).

## Specializations

The MS degree has specializations in Adolescence and Youth, Adult Development and Aging, Consumer Sciences, Infancy and Childhood, Marriage and Family Relationships, and Marriage and Family Therapy. Further information may be obtained from the department and by accessing the department's home page at: <http://www.usu.edu/fchd/>

## Course Requirements

The core substantive courses for the master's degree are FCHD 6030, 6050, 6060, and 6070. Master's students also complete course requirements under their chosen specialization in Marriage and Family Relationships, Marriage and Family Therapy, Consumer Sciences, Infancy and Childhood, Adolescence and Youth, or Adult Development and Aging. Elective courses and thesis topics are individualized with each student by faculty supervisory committees.

Doctoral core courses are FCHD 7060 and 7070. Doctoral students also complete topical seminars, methods and statistics courses, research and teaching internships, comprehensive exams, and dissertation research. For more specific information, see the department's *Graduate Student Handbook* online at: <http://www.usu.edu/fchd>

## Research

The department has three major child development laboratories, other research labs, marriage and family therapy facilities, and housing and financial counseling facilities that are available for research and training in the graduate program. The department enjoys a long history of research activities with preschools, public schools, extension programs, financial institutions, and other agencies throughout the state, and has a program of gerontology research.

Recent faculty and graduate student research projects have been funded by the state Office of Child Care and the Office of Juvenile Justice, and by the national Office of Head Start, the Office of Adolescent Pregnancy Programs, Child Trends Inc., the National Institute of Child Health and Human Development, the National Institute of Health, the U.S. Department of Agriculture, the U.S. Department of Justice, the National Institutes on Aging, and the Kellogg Foundation, among others.

## Financial Assistance

Extensive teaching, research, and extension graduate assistantships are available for applicants for both the MS and PhD degrees. Attractive fellowships are available for strong PhD students with high GPA and high GRE scores. When an applicant's folder is complete, it is reviewed by the Graduate Admissions and Finance Committee, which makes specific recommendations regarding admission and financial support. Assistantships and fellowships include waivers for out-of-state tuition. Doctoral students can also receive waivers for in-state tuition with a half-time teaching or research assistantship.

## Career Opportunities

Recent recipients of advanced degrees have found employment in public schools, academic departments at colleges and universities, research centers, hospitals, Head Start, child care programs, social services agencies, mental health agencies, private and clinical practice settings, extension services, financial institutions and agencies, and related agencies that teach about, study, or serve individuals, families, and consumers.

## Additional Information and Updates

The department publishes a *Graduate Student Handbook* providing more details about graduate program admission and requirements. This handbook is available online at: <http://www.usu.edu/fchd/>

## Family, Consumer, and Human Development Faculty

### Professors

*Ann M. Berghout Austin*, alternative child care and family life, development from birth to 12 years of age  
(Vice Provost for Faculty Development and Diversity)

*Raymond T. Coward*, aging, elder care, rural health care  
(USU Provost)

*Randall M. Jones*, adolescent development, identity, problem behavior, prevention, research methods

*Thomas R. Lee*, parenting, family life education, family resiliency, at-risk youth, marriage education

*Shelley L. Knudsen Lindauer*, alternative child care, early childhood education and curriculum, child care administration, socialization, development in infancy and early childhood (Associate Dean, School of Graduate Studies)

*Jean M. Lown*, consumer and family economics, bankruptcy

*Brent C. Miller*, marriage and family relationships, adolescent pregnancy, adoption, research methods (Vice President for Research)

*Thorana S. Nelson*, marriage and family therapy, gender, family therapy training and supervision

*Lori A. Roggman*, infant social development, attachment, parenting stress, play across the life span, physical attractiveness, early intervention

### Professor Emeritus

*Jay D. Schvaneveldt*, marriage and family studies, family life education, international families, theory and methods

# Department of Family, Consumer, and Human Development

---

## Associate Professors

*Scot M. Allgood*, family therapy process, assessment, and marital studies

*Kay P. Bradford*, interparental conflict, couple dynamics, parenting, adolescent well-being

*Lucy Delgadillo*, family and consumer sciences, housing

*David D. Law*, parent education, marriage and family therapy, health care utilization

*Yoon G. Lee*, family and consumer sciences, family finance

*Maria C. Norton*, geriatric mental health, psychosocial and biological factors, research methodology and epidemiology

*D. Kim Openshaw*, marriage and family therapy, research and application, typological and intervention strategy advancement of youthful sexual offending, theoretical conceptualization of self-esteem, martial arts and mental health related syndromes

*Kathleen W. Piercy*, midlife, older adults and family caregiving, family policy, qualitative research methodology

*Linda M. Skogrand*, families from diverse populations, transcending traumatic childhoods, marriage and family education

*Susan D. Talley*, prosocial behavior, attachment, early adolescence, school-age children, self efficacy, cross-cultural research

## Assistant Professors

*Troy E. Beckert*, life span human development, adolescence, research methods, parenting

*Brian J. Higginbotham*, remarriage and step families, marriage education, program evaluation

## Research Assistant Professors

*Lisa K. Boyce*, infancy and early childhood, language development, parent-child interaction

*Elizabeth B. Fauth*, gerontology, ability and disability in the oldest-old, factors affecting caregiver burden

## Adjunct Clinical Assistant Professor

*Carol M. Baumann*, child welfare, foster care, adoption

## Principal Lecturer

*Deborah B. Ascione*, marriage, human development, child abuse and neglect

## Lecturers

*Susan L. Ericksen*, undergraduate practicum coordinator, marriage and family therapy, professional development

*Kelly J. Esparza*, early childhood education, human development, infancy and early childhood

*Victor W. Harris*, close relationships (i.e., relationship quality, process, education)

*Alena Johnson*, family financial management, financial counseling, students and debt

*Kaelin Olsen*, infant and toddler development, developmentally appropriate practice in early childhood education, preschool curriculum, child guidance

## Adjunct Lecturer

*Kevin Barlow*, marriage and family therapy supervision

## Course Descriptions

Family, Consumer, and Human Development (FCHD), pages 560-564

# Department of Geology

**Department Head:** John W. Shervais

**Location:** Geology 205

**Phone:** (435) 797-1273

**FAX:** (435) 797-1588

**E-mail:** geology@usu.edu

**WWW:** <http://www.usu.edu/geo/>

**Undergraduate Advisor:**

Joel L. Pederson, Geology 112, (435) 797-7097,  
joel.pederson@usu.edu

**Graduate Program Director:**

W. David Liddell, Geology 212, (435) 797-1261,  
dave.liddell@usu.edu

**Degrees offered:** Bachelor of Science (BS), Bachelor of Arts (BA), Master of Science (MS), and Doctor of Philosophy (PhD) in Geology; BS and MS in Applied Environmental Geoscience; BS in Earth Science Composite Teaching

**Undergraduate emphases:** *BS in Geology*—Hydrogeology-Engineering Geology and Geoarchaeology

**Graduate Specializations:** *MS in Geology*—Geochemistry, Hydrogeology, Igneous Petrology, Paleogeology, Sedimentary Petrology, Structural Geology, and Surficial Geology

## Undergraduate Programs

### Objectives

Geology is the study of the planet Earth, the materials of which it is made, the processes that act on these materials, the products formed, and the history of the planet and its life forms since its origin. Geology considers the physical forces that act within and on the Earth, the chemistry of its constituent materials, and the biology of its past inhabitants as revealed by fossil evidence. Geologists integrate biology, chemistry, engineering, mathematics, and physics in the study of our natural surroundings. The knowledge thus obtained is used by geologists to explore for energy, mineral, and water resources; to identify geologically stable sites for major structures; and to provide foreknowledge of some of the dangers associated with the mobile forces of a dynamic Earth. Geologists provide fundamental information required by modern society to plan for cultural and industrial development, reduce geological hazards, identify potential resources, and assist in the design of waste-disposal facilities.

The Department of Geology prepares students for professional careers in the geosciences and provides the background required for advanced studies. The department offers three options of study to meet the growing demand for geoscientists with training in general geology (BS in geology without an emphasis), hydrogeology-engineering geology emphasis, or geoarchaeology emphasis. All options provide exposure to the sciences and an appreciation of our physical surroundings. The BS program in Geology meets the curriculum standards established by the American Institute of Professional Geologists.

The BS in Applied Environmental Geoscience is an interdisciplinary program that combines parts of the traditional geology curriculum with a variety of courses in related subject areas, such as watershed sciences, soils, biology, statistics, and GIS/remote sensing. This degree prepares graduates for careers with the environmental industry, government regulatory agencies, and policy organizations. Environmental geoscience is applied in a range of diverse situations, such as urban development, waste disposal, resource management, engineering, soils and agriculture, and assessment of natural and artificial hazards.

The department also offers the Earth Science Composite Teaching Major to prepare teachers of earth science at the secondary school level. Requirements for this major meet or exceed the standards of the National Science Teachers Association. Those students who major in earth science should be aware that state licensure is required of secondary education teachers. The Earth Science Composite Teaching Major fulfills the requirements that provide eligibility for licensure. Licensure requirements vary from state to state, and students should investigate the requirements for the states in which they intend to seek employment. Advising for the Secondary Teacher Education Program (STEP) and State of Utah secondary education licensure is provided by the USU School of Teacher Education and Leadership (TEAL).

The Department of Geology is housed within the Geology Building, which is located at the northeast corner of the Old Main Quad. The Geology Building provides spacious, well-equipped teaching labs, classrooms, and facilities, including a display and study area for students, computer access, document room, map room, preparation facilities, and research labs.

## General College of Science Requirements

All general College of Science requirements are embedded within the various major requirements listed below. No extra coursework is required to fulfill the general college requirements.

### Requirements

#### Departmental Admission Requirements

New freshmen admitted to USU in good standing qualify for admission to this major. Transfer students from other institutions need a 2.2 GPA, and students transferring from other USU majors need a 2.0 GPA for admission to this major in good standing. Students seeking admission to the Earth Science Composite Teaching Major should be aware that a 2.75 minimum GPA is required for admission to the Secondary Teacher Education Program (STEP) in the School of TEAL. Students in the Hydrogeology-Engineering Geology emphasis must meet all College of Engineering GPA standards appropriate for the courses to be taken having either the ENGR or CEE prefix.

#### Field Trips and Labs

Most Geology courses have required laboratories and/or field trips. Those enrolled are expected to dress properly for the conditions and observe safety precautions issued by the instructors. Most courses require modest lab fees.

#### Bachelor of Arts Degree

For a BA in Geology, the foreign-language requirement must be satisfied in addition to the Bachelor of Science in Geology requirements.

#### Geology Major—General Geology Option

### Two courses selected from:

<b>BIOL 2220</b> General Ecology (F,Sp) (3 cr) <b>and/or</b>	
<b>BIOL 3030 (DSC)</b> Genetics and Society (Sp) (3 cr) <b>and/or</b>	
<b>BIOL 3040 (DSC)</b> Plants and Civilization (F) (3 cr) <b>and/or</b>	
<b>BIOL 3220 (QI)</b> Field Ecology (F) (2 cr).....	5 or 6

<b>MATH 1210 (QL)<sup>1</sup></b> Calculus I (F,Sp,Su).....	4
<b>STAT 3000 (QI)</b> Statistics for Scientists (F,Sp,Su).....	3
<b>WATS 4930</b> Geographic Information Systems (F).....	4
<b>SOIL 3000</b> Fundamentals of Soil Science (F) (4 cr) <b>or</b>	
<b>SOIL 5130</b> Soil Genesis, Morphology, and Classification (F) (4 cr) .....	4

## Applied Environmental Geoscience Major

<b>GEO 1060 (BPS)</b> Introduction to Environmental Geoscience (Sp) (3 cr) <b>or</b>	
<b>GEO 1110 (BPS)</b> The Dynamic Earth: Physical Geology (F,Sp) (4 cr).....	3 or 4
<b>GEO 3500</b> Mineralogy and Crystallography (F).....	4
<b>GEO 3550 (CI)</b> Sedimentation and Stratigraphy (F).....	4
<b>GEO 3600</b> Geomorphology (F).....	4
<b>GEO 3700</b> Structural Geology (Sp).....	4
<b>GEO 4700 (CI)</b> Geologic Field Methods (F).....	3
<b>GEO 5200</b> Geology Field Camp (Su).....	5
<b>GEO 5600</b> Geochemistry (F).....	3

### Geology Electives (12 credits required)

Students must complete at least 12 credits, selected from the following:

<b>GEO 5150</b> Fluvial Geomorphology (F).....	3
<b>GEO 5410</b> Introduction to Clay Mineralogy (Sp).....	2
<b>GEO 5510 (QI)</b> Groundwater Geology (F).....	3
<b>GEO 5520 (CI)</b> Techniques of Groundwater Investigations (Sp).....	3
<b>GEO 5530 (QI)</b> Petroleum Systems: Principles of Exploration and Development (Sp).....	3
<b>GEO 5540 (QI)</b> Quantitative Methods in Geology (F).....	3
<b>GEO 5550</b> Geochemical Application of Electron Microprobe and X-Ray Fluorescence Analysis (Sp).....	4
<b>GEO 5630</b> Photogeology (Sp).....	3
<b>GEO 5650</b> Senior Thesis (F,Sp).....	3-4
<b>GEO 5680</b> Paleoclimatology (Sp).....	3

### Required Support Courses (39-40 credits)

#### Chemistry Group (10 credits)

<b>CHEM 1210</b> Principles of Chemistry I (F,Sp).....	4
<b>CHEM 1215</b> Chemical Principles Laboratory I (F,Sp).....	1
<b>CHEM 1220 (BPS)</b> Principles of Chemistry II (F,Sp,Su).....	4
<b>CHEM 1225</b> Chemical Principles Laboratory II (F,Sp).....	1

#### Mathematics and Statistics Group (7 credits)

<b>MATH 1210 (QL)<sup>1</sup></b> Calculus I (F,Sp,Su).....	4
<b>STAT 3000 (QI)</b> Statistics for Scientists (F,Sp,Su).....	3

# Department of Geology

## Physics Group (4 credits)

**PHYS 2110** The Physics of Living Systems I (4 cr) **or**  
**PHYS 2210 (QI)** General Physics—Science and Engineering I (4 cr) ... 4

## Environmental Group (18-19 credits)

**BIOL 1610** Biology I (F)..... 4  
**BIOL 1620 (BLS)** Biology II (Sp)..... 4  
**WATS 3700 (CI)** Fundamentals of Watershed Science (Sp)..... 3  
**SOIL 3000** Fundamentals of Soil Science (F)..... 4  
**CEE 5190** Geographic Information Systems for  
 Civil Engineers (Sp) (3 cr) **or**  
**WATS 4930** Geographic Information Systems (F) (4 cr)..... 3 or 4

## Support Electives (12 credits required)

No more than 8 credits may be chosen from any one group.

### Group A: Hydrologic Science

**ENVS 5320** Water Law and Policy in the United States (Sp)..... 3  
**WATS 4490 (d5490)** Small Watershed Hydrology (F)..... 4  
**WATS 5660** Watershed and Stream Restoration (Su) ..... 2  
**WATS 5670** Watersheds and Stream Restoration Practicum (Su)..... 2

### Group B: Ecology, Soils, and Environmental Chemistry

**BIOL 2220** General Ecology (F,Sp)..... 3  
**BIOL 3220 (QI)** Field Ecology (F)..... 2  
**CHEM 3650 (DSC)** Environmental Chemistry (Sp)..... 3  
**SOIL 5050 (d6050)** Principles of Environmental Soil  
 Chemistry (Sp odd) ..... 3  
**SOIL 5130 (d6130)** Soil Genesis, Morphology,  
 and Classification (F)..... 4  
**SOIL 5560 (d6560)** Analytical Techniques for the  
 Soil Environment (Sp) ..... 2  
**SOIL 5620** Aquatic Chemistry (F)..... 3

### Group C: GIS/Remote Sensing

**WATS 4750** Fundamentals of Remote Sensing Science (F)..... 3  
**WATS 4930 (d6920)** Geographic Information Systems (F)..... 4  
**WATS 5250 (d6250)** Remote Sensing of Land Surfaces (Sp) ..... 4  
**WATS 5760 (d6760)** Remote Sensing: Modeling and Analysis (Sp)..... 3  
**WILD 5750** Applied Remote Sensing (F) ..... 3

## Earth Science Composite Teaching Major

**GEO 1110 (BPS)** The Dynamic Earth: Physical Geology (F,Sp) ..... 4  
**GEO 2500<sup>2</sup>** Geology Field Excursions (F,Sp)..... 2  
**GEO 3200 (DSC)** The Earth Through Time (Sp)..... 4  
**GEO 3500** Mineralogy and Crystallography (F) ..... 4  
**GEO 3550 (CI)** Sedimentation and Stratigraphy (F)..... 4  
**GEO 3600** Geomorphology (F) ..... 4  
**GEO 3700** Structural Geology (Sp)..... 4  
**GEO 4700 (CI)** Geologic Field Methods (F) ..... 3  
**PHYS 1040 (BPS)** Introductory Astronomy ..... 3  
**PHYS 2210 (QI)** General Physics—Science and Engineering I..... 4  
**PHYS 2220 (BPS/QI)** General Physics—Science and Engineering II .. 4  
**CHEM 1210** Principles of Chemistry I (F,Sp)..... 4  
**CHEM 1215** Chemical Principles Laboratory I (F,Sp)..... 1  
**CHEM 1220 (BPS)** Principles of Chemistry II (F,Sp,Su) ..... 4  
**CHEM 1225** Chemical Principles Laboratory II (F,Sp)..... 1  
**ENVS 5110** Environmental Education (Sp) (3 cr) **or**  
**WILD 2200 (BLS)** Ecology of Our Changing World (F,Sp) (3 cr) ..... 3  
**CLIM 2000 (BPS)** The Atmosphere and Weather (F,Sp) ..... 3  
**WATS 3000 (DSC)** Oceanography (Sp) (3 cr) **or**  
**GEO 3300 (DSC)** Geology of the World's Oceans (Sp) (3 cr)..... 3  
**SCI 4300** Science in Society (F,Sp)..... 2  
**MATH 1210 (QL)<sup>1</sup>** Calculus I (F,Sp,Su)..... 4  
**STAT 3000 (QI)** Statistics for Scientists (F,Sp,Su) ..... 3  
**CS 1050** Problem Solving with Computers (Sp) (3 cr) **or**  
**CS 1400** Introduction to Computer Science—CS 1 (F,Sp,Su) (3 cr)..... 3

Students must also complete the Secondary Teacher Education Program (STEP) as follows:

### Level 1

**SCED 3100** Motivation and Classroom Management (F,Sp) ..... 3  
**SCED 3210 (CI/DSS)** Educational and Multicultural Foundations  
 (F,Sp)..... 3  
**SCED 3300** Clinical Experience I (F,Sp) ..... 1  
**SCED 3400** Teaching Science I (Sp)..... 3  
**INST 3500** Technology Tools for Secondary Teachers (F,Sp,Su)..... 1

### Level 2

**SPED 4000** Education of Exceptional Individuals  
 (may be taken anytime) (F,Sp,Su)..... 2  
**SCED 4200 (CI)** Reading, Writing, and Technology (F,Sp) ..... 3  
**SCED 4210** Cognition and Evaluation of Student Learning (F,Sp) ..... 3  
**SCED 4300** Clinical Experience II (F,Sp) ..... 1  
**SCED 4400** Teaching Science II (F)..... 3

### Level 3 (12 credits)

**SCED 5500** Student Teaching Seminar (F,Sp)..... 2  
**SCED 5630** Student Teaching in Secondary Schools (F,Sp) ..... 10

### Notes

The Teaching Science I and II courses (SCED 3400 and 4400) are *only* taught once per year. Therefore, it is important for students to consult with their advisor to fit these courses in the correct sequence into their plan of study.

This curriculum meets the standards of the Utah Core Curriculum—Science 7-12.

All USU teacher education candidates will be required to take and pass the content exam approved by the Utah State Office of Education in their major content area prior to student teaching.

A 2.75 minimum GPA is required for *both* admission to *and* graduation from the Secondary Teacher Education Program (STEP).

## Geology Minor

**GEO 1010 (BPS)** Introduction to Geology:  
 Geology of National Parks (F,Su) (3 cr) **or**  
**GEO 1110 (BPS)<sup>4</sup>** The Dynamic Earth: Physical Geology  
 (F,Sp) (4 cr) ..... 3 or 4  
**GEO 3200 (DSC)** The Earth Through Time (Sp)..... 4

Students must also select 10 elective credits from Geology courses at the 3500 level or above.

<sup>1</sup>Students may need to complete prerequisite courses prior to enrolling in MATH 1210.

<sup>2</sup>GEO 2500 (a 1-credit course) is repeatable for credit, and must be taken *twice* for the student to earn the required 2 credits.

<sup>3</sup>PHYS 1020 may also be listed as USU 1360, IPS: Energy.

<sup>4</sup>GEO 1110 is preferred.

## Senior Thesis

Geology majors in good academic standing may elect to complete a senior thesis. This is an endeavor which normally spans a year in its preparation and presentation. Senior thesis credits may be applied toward the elective requirements in the General Geology option. For further information, students should contact their geology advisor or the geology department head.

## Suggested Four-year Plans

Suggested semester-by-semester four-year plans for students working toward a bachelor's degree within the Geology Department can be found at: <http://www.usu.edu/degreeplans/>

Students should consult with their advisor to develop a plan of study tailored to their individual needs and interests.

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. This is a departmental recognition which is separate from the University Honors program. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school.

Geology majors with a minimum GPA of 3.30 may elect to complete the requirements for the Geology Honors degree option. For further information, students should contact their geology advisor or the geology department head.

## Undergraduate Research Opportunities

The Department of Geology offers a range of opportunities for undergraduate students to participate in research activities under the guidance of a faculty mentor. All departmental undergraduate research activities are coordinated by the departmental undergraduate advisor, Joel Pederson, (435) 797-7097, joel.pederson@usu.edu.

## Learning Objectives

Upon graduation, geology majors are expected to be able to: (1) identify common minerals; (2) identify common fossils, as well as their ages and the conditions under which they lived; (3) describe sedimentary rocks and measure a stratigraphic section in the field; (4) create a surficial geologic map; (5) define and distinguish between, and determine the type of stress responsible for forming various structural features; (6) use a Brunton compass; (7) read topographic maps, as well as construct profiles from them; (8) read and make geologic maps, as well as construct cross sections from them; (9) know the ages of important geologic features and events in the Earth's history, as well as explain how and why the Earth has changed over time; (10) know the Earth's internal processes and the features produced by them; (11) collect and evaluate geologic data; (12) interpret and create graphs of quantitative data; and (13) communicate observations and interpretations, both orally and in writing.

## Assessment

The Department of Geology relies on a variety of tools to periodically assess its undergraduate program, including: (1) student input in assessment; (2) value-added assessment; (3) college-level assessment; (4) alumni participation in assessment; and (5) faculty program assessment. For more information, please refer to the Geology Department assessment website at:

<http://www.usu.edu/geo/assessment/assessment.htm>

## Additional Information

For more information about bachelor's degree requirements for Geology programs, see the Geology Major Requirement Sheet, available from the department, or online at:

<http://www.usu.edu/majorsheets/>

## Graduate Programs

### Admission Requirements

See general admission requirements on pages 36-37. In addition, applicants must have acceptable GRE scores and an acceptable GPA. For the Master of Science program, minimum scores of 40th percentile on the Verbal and Quantitative sections, a combined minimum of 1,000, and a GPA of 3.0 are required. For the PhD program, minimum scores of 50th percentile on the Verbal and Quantitative sections, a combined minimum of 1,200, and a GPA of 3.4 are required. For both programs, a member of the Geology faculty must agree to serve as the major professor for the applicant prior to acceptance.

Applications will be considered throughout the year, but program entry in fall semester is preferred. Students who wish to be considered for assistantships or other financial aid must have complete applications on file no later than February 15 for entry into the program the following fall semester.

### Prerequisites for Matriculation

Completion of a BS or BA in geology, biology, physics, chemistry, or engineering is required for matriculation status. Suggested prerequisite courses include: CHEM 1210, 1215, 1220, 1225; PHYS 2210, 2220; MATH 1210; STAT 3000; and CS 1050 or CS 1400 or CEE 5190 or WATS 4930. Deficiencies in geology are determined based on current USU undergraduate degree requirements for either the Geology or Hydrogeology-Engineering Geology option, as appropriate. The following geology courses or their equivalents are expected: GEO 1110, 3200, 3500, 3550, 3600, 3700, 4700, and 5200. It is expected that any deficiencies will be made up before the end of the first year of graduate study.

## Degree Programs

### Master of Science Degree—Geology

The department offers advanced study and research opportunities leading to the MS degree in Geology. Although many research specialties require advanced courses selected primarily from Geology offerings, additional courses may be selected from other departments on campus, such as Biology; Civil and Environmental Engineering; Environment and Society; Mathematics and Statistics; Plants, Soils, and Climate; Watershed Sciences; and Wildland Resources.

### Master of Science Degree—Applied Environmental Geoscience

The department offers advanced study leading to the MS degree in Applied Environmental Geoscience. This terminal degree program requires a combination of advanced courses selected from Geology offerings, as well as additional courses from other units on campus, such as Civil and Environmental Engineering; Plants, Soils, and Climate; Biology; Chemistry and Biochemistry; Mathematics and Statistics; and the College of Natural Resources.

### Doctor of Philosophy Degree

The Doctor of Philosophy degree in Geology requires original research in a specific area of geology, demonstration of broad knowledge in the field of geology, and demonstration of depth of knowledge in at least two areas of geology. The successful candidate must demonstrate a breadth of understanding in geology, as well as a depth of understanding in his or her chosen area(s) of emphasis. Potential students must show an ability to do creative research. This

# Department of Geology

research should be carried out during a significant period of time (i.e., during at least one year or three semesters in residence). Thus, each successful PhD candidate will produce a significant piece of original research, presented in a written dissertation and defended in an oral examination. This work should be of such scope and quality that more than one journal or conference article can be derived from it.

## Research Areas

Fields of graduate research include the following: geophysics, hydrogeology, igneous petrology, paleobiology (including invertebrate paleontology and paleoecology), sedimentology (including petrology, basin analysis, sedimentation, stratigraphy, and petroleum geology), process geomorphology, Quaternary geology, structural geology, and regional tectonics.

## Degree Requirements

### Master of Science Degree—Geology

Only the Plan A thesis option is allowed for the MS degree in Geology. The recommended distribution is 20 credits of coursework and 10 credits of thesis to obtain the required 30 credits for the MS degree. A minimum of five 6000-level geology courses (other than GEO 6800) is recommended for the degree program. Only two grades of less than *B* (*C* to *B*-) will be accepted as part of the required degree program as listed on the "Program of Study for Master's Degree." A 3.0 grade point average must be obtained in required coursework as listed on the Program of Study. Thesis credits will be graded *P-F* only (i.e., no letter grade will be given). Geology graduate students using department or University facilities and/or under geology faculty supervision must register for a minimum of 3 credits every semester, up to and including the semester in which the thesis is cleared by the School of Graduate Studies. Registration may not be required during the summer.

### Master of Science Degree—Applied Environmental Geoscience

Only the Plan B nonthesis option is allowed for the MS degree in Applied Environmental Geoscience, which requires 32 credits. The Plan B option requires the production of a paper. At least 2 credits of thesis research are required, but no more than 3 credits of thesis credit can be included on the Program of Study. The Plan B paper is usually a review of literature, with conclusions drawn after conceptualizing an area of inquiry, planning a systematic search, and analyzing and critiquing the acquired information. The summary and conclusions developed should enhance knowledge in the discipline. Plan B papers and reports should follow the same format specifications as theses and dissertations and are expected to reflect equivalent scholarship standards, even though they may be less intensive and not demand the originality of a Plan A thesis. Plan B papers are defended, but are not reviewed by the School of Graduate Studies assistant dean or signed by the graduate dean. Plan B papers must be submitted to the Merrill-Cazier Library to be microfiched, and the binding receipt must be returned to the School of Graduate Studies.

### Doctor of Philosophy Degree

There are two program tracks for this degree: academic and professional. The **academic track** is designed to prepare graduates for a career in academia or other teaching-related settings. It includes both coursework in education and classroom teaching experience under the supervision of a faculty teaching mentor. The **professional track** is designed to prepare graduates for work in professional careers with the petroleum industry, with other extractive industries, or in environmental and hydrologic consulting. It includes coursework in statistics, information systems, remote sensing, and GIS. Completion of a professional internship is encouraged.

Students completing a PhD in Geology must fulfill the following requirements:

1. Complete at least 90 credits of graduate coursework (including at least 21 credits of GEO 7970, Dissertation Research) beyond a BS degree *or* at least 60 credits (including at least 15 credits of GEO 7970, Dissertation Research) beyond an MS degree, with a minimum class grade of *B* and a minimum cumulative GPA of 3.3.
2. If an MS degree is completed first, then *no more than* 12 credits of the 60 credits required for the PhD degree may be taken in coursework numbered below the 6000 level. If an MS degree is *not* completed first, then *no more than* 21 credits of the 90 credits required for the PhD degree may be taken in coursework numbered below the 6000 level.
3. Complete at least 30 credits of advanced coursework (6000 level and above) beyond the BS degree *or* 21 credits of advanced coursework beyond the MS degree, including at least 15 credits of 7000-level geology coursework, and excluding GEO 6900, 7970, and 7990.
4. Complete 3 credits of GEO 7800 (Graduate Seminar Series).
5. **Academic Track:** Complete 9-12 credits of department-approved education or instructional technology courses, and successfully teach one geology course under the supervision of a faculty mentor. ELED/SCED 6190 and GEO 6900 (teaching internship) are required.  
  
**Professional Track:** Complete 9-12 credits of department-approved courses in statistics, remote sensing, and/or geographic information systems. Completion of a professional internship program is encouraged. Approved courses include BIE/CLIM/WATS 6250, ENV5 6550, WATS 4930, 6760, WILD 6740, 6750.
6. Pass a written comprehensive examination showing depth and breadth of knowledge in geology and in the student's area(s) of emphasis. The student may be required to take additional classes to satisfy any deficiencies.
7. Successfully complete a written dissertation research proposal, present that proposal orally to the department, and defend it during an oral examination. The oral examination will include questions of a deep and probing nature, and may range beyond the dissertation proposal into areas unrelated to the student's specialization.
8. Complete at least 15 credits in GEO 7970 (Dissertation Research) if admitted with a prior master's degree, *or* 21 credits in GEO 7970 (Dissertation Research) without an earned master's degree.
9. Successfully complete and defend a dissertation. The dissertation will be a written document and may consist of several papers submitted or accepted for publication. The defense will be oral, including a presentation of the work and successful defense of the work to the faculty.

## Research

There are six broad areas of research emphasis for graduate students and faculty within the department: (1) geomorphology, (2) geophysics, (3) hydrology, (4) petrology, (5) sedimentology, and (6) structural geology and regional tectonics. Summaries of these activities follow.

**Geomorphology** research has included the study of climate, tectonic, and anthropogenic controls on landscape change, erosion, and sedimentation. This includes studies on hillslope processes, landscape evolution of the Colorado Plateau and Grand Canyon, the downstream effect of dams, and river restoration.

**Geophysics** examines the earth through quantitative methods, such as seismology, magnetics, GPS, geodesy, and gravity. Current geophysics research in the Department of Geology examines rates and magnitudes of crustal deformation through GPS techniques.

Recent research in **hydrogeology** includes determining the feasibility of constructing an artificial salmon spawning channel; characterizing, modeling, and monitoring groundwater flow systems; and investigating the hydraulic properties of faults in sandstones as they relate to carbon dioxide sequestration.

Research in **petrology** focuses on the origin and evolution of magmatic systems, hotspots, oceanic lithosphere, collisional orogens, and convergent margin systems. These efforts use field relations, phase chemistry, and whole rock geochemistry to decipher these systems, as well as determine their relationship to the tectonic and geochemical evolution of the Earth.

Research in **sedimentology** currently includes sequence stratigraphy of Paleozoic mixed carbonate-siliciclastic systems in the Great Basin; ecology, paleoecology, and sedimentology of coral reefs; tectonics of sedimentary basins at plate margins; and basin analysis, isotope geochemistry, and paleobiology of Proterozoic rocks in the western United States.

Research in **structural geology** and **regional tectonics** has included the examination of the mechanical and chemical evolution of fault zones; the structural and tectonic development of extensional structures in the Great Basin; the development of fold-and-thrust structures in Idaho, Montana, Wyoming, and Utah; and the characterization of fluid-flow properties in fractured crystalline rocks.

Geology faculty members commonly interact with the faculty and staff of the Utah Water Research Laboratory, the Department of Watershed Sciences, the Department of Plants, Soils, and Climate, and the Department of Civil and Environmental Engineering.

## Financial Assistance

Departmental financial support for incoming graduate students consists primarily of graduate teaching assistantships, which are awarded on a competitive basis. There is often other financial support available, such as research assistantships, resulting from grants or other external funding. Students requesting financial support should apply directly to the department no later than February 15. Admission to the MS or PhD program does not guarantee financial assistance.

## Additional Information

Additional information on the research activities of faculty and graduate students may be obtained directly from the Department of Geology's website at <http://www.usu.edu/geo/>

## Geology Faculty

### Professors

*James P. Evans*, structural geology, structural petrology

*Mary S. Hubbard*, tectonics, structural geology,

Dean of College of Science

*Susanne U. Janecke*, tectonics, structural geology

*W. David Liddell*, marine ecology, paleoecology, sedimentology

*John W. Shervais*, igneous petrology, geochemistry, tectonics

### Professor Emeritus

*Robert Q. Oaks, Jr.*, sedimentary petrology, stratigraphy

### Associate Professors

*Donald W. Fiesinger*, igneous petrology

*Thomas E. Lachmar*, hydrogeology

*Joel L. Pederson*, process geomorphology, Quaternary geology

### Associate Professor Emeritus

*Peter T. Kolesar*, carbonate petrology, geochemistry

### Assistant Professors

*Carol M. Dehler*, sedimentation, geochemical cycles

*Anthony R. Lowry*, geophysics

*Tammy M. Rittenour*, geomorphology, geochronology

### Lecturer

*Susan K. Morgan*, science education, carbonate petrology

### Adjunct Faculty

*Reese Barrick*, vertebrate paleontology

*Janis L. Boettinger*, soil mineralogy

*Craig B. Forster*, hydrogeology

*James P. McCalpin*, neotectonics

*John C. Schmidt*, fluvial geomorphology

*David G. Tarboton*, water resources and hydrology

## Course Descriptions

Geology (GEO), pages 567-571

# Department of Health, Physical Education and Recreation

**Department Head:** Dennis G. Dolny  
**Location:** Health, Physical Education and Recreation 122A  
**Phone:** (435) 797-1498  
**FAX:** (435) 797-3759  
**E-mail:** hper@cc.usu.edu  
**WWW:** http://cehs.usu.edu/hper/

**Graduate Program Coordinator:**  
Julie A. Gast, HPER 138, (435) 797-1490,  
julie.gast@usu.edu

**Undergraduate Academic Advisors:**  
Mary Lou Reynolds, HPER 157, (435) 797-1278,  
marylou.reynolds@usu.edu

Dayna Barrett, HPER 156, (435) 797-8519, dayna.barrett@usu.edu

For student appointments, call (435) 797-1495.

**Degrees offered:** Bachelor of Science (BS) in Health Education Specialist; BS in Parks and Recreation; BS in Physical Education; Master of Science (MS) and Master of Education (MEd) in Health, Physical Education and Recreation

**Undergraduate emphases:** *BS in Health Education Specialist*—School Health and Community Health; *BS in Physical Education*—Exercise Science, Pre-Physical Therapy, and Teaching

**Graduate specializations:** MS—Corporate Wellness, Exercise Science, Sports Medicine, and Health Education

## Undergraduate Programs

### Objectives

#### Undergraduate Programs of Study

The Health, Physical Education and Recreation (HPER) Department offers undergraduate programs of study designed to prepare USU students for successful careers in one of three areas: Health Education Specialist, Physical Education, or Parks and Recreation. Preparation is accomplished through well-rounded, rigorous course requirements.

#### Activity Courses

USU students are served by an extensive elective lifetime-skill activity course program. The number and diversity of courses encourages students to increase their lifetime participation skills and enjoy opportunities, creativity, and expression. Students may also achieve and maintain a high level of personal fitness and adopt a proactive lifestyle conducive to health and well-being.

#### Undergraduate Research Opportunities

Undergraduate students interested in health, physical education and recreation research are encouraged to assist faculty members with grant writing, data collection, data analysis, and report writing. Additionally, students can assist faculty members with submissions of scholarly presentations and articles, as needed.

## Departmental Admission Requirements

### Health Education Specialist Major and Minor

New freshmen, transfer students, and students from other USU majors who have at least a 2.75 total GPA qualify to enter the Health Education Specialist major. Students must formally apply to the School Health minor. Pre-minor coursework must be completed before application to the school health minor.

Pre-minor coursework for the School Health minor includes:

<b>BIOL 2320</b> Human Anatomy (Sp,Su) (4 cr) <b>or</b>	
<b>BIOL 2420</b> Human Physiology (F,Sp,Su) (4 cr).....	4
<b>ENGL 1010 (CL1)</b> Introduction to Writing: Academic Prose (F,Sp,Su) .	3
<b>HEP 2500</b> Health and Wellness (F,Sp,Su) .....	2
<b>MATH 1050 (QL)</b> College Algebra (F,Sp,Su) (4 cr) <b>or</b>	
<b>STAT 1040 (QL)</b> Introduction to Statistics (F,Sp,Su)	
(or higher) (3 cr) .....	3 or 4
<b>NFS 1020 (BLS)</b> Science and Application of Human Nutrition	
(F,Sp,Su) .....	3

For application materials and deadlines, contact the HPER Department Main Office (PE 122).

### Physical Education Major and Minor

New freshmen, transfer students, and other USU majors who have at least a 2.75 total GPA qualify to enter the Physical Education major with a teaching or exercise science emphasis. The pre-physical therapy emphasis requires a 3.0 GPA. A 2.75 total GPA is required for the Physical Education Coaching minor.

### Parks and Recreation Major and Minor

New freshmen, transfer students, and students from other USU majors who have at least a 2.5 total GPA qualify to enter the Parks and Recreation major or minor.

## Course Requirements

### Health Education Specialist Major

The HPER Department offers a program of study leading to a Bachelor of Science degree in Health Education. The program offers two emphasis areas. The **community health** emphasis prepares students to work in state and local health departments, clinical settings, nonprofit health organizations, wellness centers, and private industry. Students in the **school health** emphasis earn a teaching license upon graduation and will primarily teach health courses in middle and high schools. All Health Education Specialist majors will be well-prepared to sit for the nationally recognized Certified Health Education Specialist exam.

#### A. Core Requirements (30 credits)

The following courses are required for all students in **both** the School Health Emphasis *and* the Community Health Emphasis. A grade of C- or higher is required in all HEP courses.

<b>HEP 2000</b> First Aid and Emergency Care (F,Sp,Su) .....	2
<b>HEP 2500</b> Health and Wellness (F,Sp,Su) .....	2
<b>HEP 3000</b> Drugs and Human Behavior (F,Su) .....	3

# Department of Health, Physical Education and Recreation

<b>BIOL 2320</b> Human Anatomy (Sp,Su) .....	4
<b>BIOL 2420</b> Human Physiology (F,Sp,Su) .....	4
<b>NFS 1020 (BLS)</b> Science and Application of Human Nutrition (F,Sp,Su) .....	3

In addition, students must complete requirements for either the Community Health Emphasis or the School Health Emphasis, and must achieve a C- or better grade in all HEP courses. A 2.75 total GPA is required for graduation.

## Community Health Emphasis (72 credits)

The Community Health emphasis offers a program of study leading to a Bachelor of Science degree as a Health Education Specialist. The emphasis requires a total of 72 credits. Students must complete the Health Education Specialist 30-credit core and the Community Health Education 36-credit core, as well as 6 credits selected from the list of elective courses.

### A. Required Professional Core (36 credits)

<b>HEP 3900</b> <sup>27</sup> Social Marketing in Health Education (Sp) .....	3
<b>HEP 4100</b> <sup>9</sup> Foundations of Community Health (Sp) .....	3
<b>HEP 4400</b> <sup>22</sup> Creative Methods in Teaching Health Education (F,Sp) .....	3
<b>HEP 4600</b> <sup>10</sup> Field Work in Health Education (F,Sp,Su) .....	9
<b>HEP 5300</b> <sup>26</sup> Grant Proposal Writing (Sp) .....	3
<b>INST 5205</b> Computer Applications for Instruction and Training (F,Sp,Su) .....	3
<b>NFS 4480</b> Community Nutrition (F) .....	3
<b>PSY 2800 (QI)</b> <sup>12</sup> Psychological Statistics (F,Sp) .....	3
<b>PUBH 4030</b> <sup>13</sup> Communicable Disease Control (F) .....	3
<b>PUBH 4040</b> <sup>14</sup> Fundamentals of Epidemiology (Sp) .....	3

### B. Elective Courses (select 6 credits)

Students must complete 6 credits of elective courses, taking at least one course from two of the following three areas:

#### Human Nature

<b>ANTH 3110</b> North American Indian Cultures (F) .....	3
<b>ANTH 4230 (DSS)</b> <sup>8</sup> Medical Anthropology: Matter, Culture, Spirit, and Health (Sp) .....	3
<b>FCHD 1500 (BSS)</b> <sup>8</sup> Human Development Across the Lifespan (F,Sp) ..	3
<b>FCHD 3110</b> <sup>16</sup> Human Sexuality (F,Su) .....	3
<b>FCHD 3530</b> <sup>1</sup> Adolescence (F,Sp) .....	3
<b>PSY 1010 (BSS)</b> <sup>8</sup> General Psychology (F,Sp,Su) .....	3
<b>PSY 1100</b> <sup>15</sup> Developmental Psychology: Infancy and Childhood (F,Sp) .....	3
<b>PSY 1210</b> <sup>15</sup> Psychology of Human Adjustment (F,Sp) .....	3
<b>PSY 4240 (DSS)</b> <sup>8,15</sup> Multicultural Psychology (F) .....	3
<b>SOC 3010</b> Social Inequality (F,Sp) .....	3
<b>SOC 3330</b> Medical Sociology (F) .....	3
<b>SOC 4370</b> Sociology of Gender (F) .....	3
<b>SW 2100</b> <sup>17</sup> Human Behavior in the Social Environment (Sp) .....	3

#### Content and Methods in Education

<b>OSS 1400</b> <sup>19</sup> Microcomputer Applications .....	3
<b>OSS 1550 (CI)</b> <sup>8</sup> Business Correspondence .....	3
<b>HEP 3100</b> <sup>22</sup> School Health Programs (F) .....	3
<b>HEP 3400</b> Stress Management (F,Sp) .....	3
<b>HEP 3500</b> Elementary School Health Education (F,Sp) .....	2
<b>HEP 4500</b> <sup>22</sup> Sexuality Education Within the Schools (Sp) .....	3
<b>HEP 5700</b> Special Topics in Health (Arr) .....	1-3
<b>JCOM 1130</b> <sup>20</sup> Beginning Newswriting for the Mass Media (F,Sp,Su) ..	3
<b>JCOM 2220</b> <sup>21</sup> Introduction to Video Media (F,Sp) .....	3
<b>NFS 2020</b> <sup>23</sup> Nutrition Throughout the Life Cycle (Sp) .....	3

<b>PEP 4100 (CI)</b> <sup>24</sup> Exercise Physiology (F,Sp,Su) .....	4
<b>SOC 3750</b> Sociology of Aging (F) .....	3
<b>SPCH 1020 (CI)</b> <sup>8</sup> Public Speaking (F,Sp) .....	3

### Organizational Dynamics in the Family and Community

<b>FCHD 3100</b> <sup>16</sup> Abuse and Neglect in Family Context (F,Sp) .....	3
<b>JCOM 2300</b> Introduction to Public Relations (F,Sp) .....	3
<b>MGT 3110 (DSS)</b> Managing Organizations and People (F,Sp,Su) .....	3
<b>MGT 3820 (DSS)</b> <sup>8</sup> International Management (F,Sp) .....	3
<b>POLS 3810 (DSS)</b> <sup>8</sup> Introduction to Public Policy (F) .....	3
<b>PUBH 3120</b> Family and Community Health (Sp) .....	3
<b>PUBH 3310</b> <sup>25</sup> Occupational Health and Safety (F) .....	3
<b>SPCH 2110 (CI)</b> <sup>8</sup> Interpersonal Communication (F,Sp) .....	3
<b>SPCH 3250 (CI)</b> <sup>8</sup> Organizational Communication (F) .....	3
<b>SW 2400</b> <sup>17</sup> Social Work with Diverse Populations (Sp) .....	3
<b>SW 3750</b> <sup>18</sup> Medical Social Services .....	3

## School Health Emphasis (74 credits)

(only for students desiring teacher licensure)

The School Health emphasis offers a program of study leading to a Bachelor of Science degree as a Health Education Specialist, and is an approved teaching major through the Secondary Education Program of the School of Teacher Education and Leadership (TEAL). It is also necessary for students to complete an approved teaching minor (credits will vary). Students must complete the Health Education Specialist 30-credit core, the School Health Education 9-credit core, and the Secondary Education 35-credit core.

**Note:** Students must be formally accepted into the School Health Emphasis before enrolling for School Health Core Courses.

### A. Required School Health Core (9 credits)

<b>FCHD 1500 (BSS)</b> <sup>8</sup> Human Development Across the Lifespan (F,Sp) ..	3
<b>HEP 3100</b> <sup>5</sup> School Health Programs (F) .....	3
<b>HEP 4500</b> <sup>5</sup> Sexuality Education Within the Schools (Sp) .....	3

### B. Secondary Teacher Education Program (STEP) (35 credits)

#### Level 1 (15-week courses)<sup>3</sup>

<b>INST 3500</b> Technology Tools for Secondary Teachers (F,Sp,Su) .....	1
<b>SCED 3100</b> Motivation and Classroom Management (F,Sp) .....	3
<b>SCED 3210 (CI/DSS)</b> Educational and Multicultural Foundations (F,Sp) .....	3
<b>HEP 3300</b> <sup>5</sup> Clinical Experience I (or minor Clinical Experience I) (F,Sp) .....	1
<b>HEP 4400</b> <sup>7</sup> Creative Methods in Teaching Health Education (F,Sp) (3 cr) <b>or</b> Minor Special Methods Course (3 cr) .....	3

#### Level 2 (15-week courses)<sup>4</sup>

<b>SPED 4000</b> Education of Exceptional Individuals (may be taken anytime) (F,Sp,Su) .....	2
<b>SCED 4200 (CI)</b> Reading, Writing, and Technology (F,Sp) .....	3
<b>SCED 4210</b> Cognition and Evaluation of Student Learning (F,Sp) ..	3
<b>HEP 4300</b> <sup>5</sup> Clinical Experience II (or minor Clinical Experience II) (F,Sp) .....	1
<b>HEP 4400</b> <sup>7</sup> Creative Methods in Teaching Health Education (F,Sp) (3 cr) <b>or</b> Minor Special Methods Course (3 cr) .....	3

#### Level 3 (includes 13 weeks of student teaching and 2 weeks of Student Teaching Seminar)<sup>6</sup>

<b>HEP 5500</b> <sup>5</sup> Student Teaching Seminar (2 weeks) (F,Sp) .....	2
<b>HEP 5630</b> <sup>5</sup> Student Teaching (13 weeks) (F,Sp) .....	10

# Department of Health, Physical Education and Recreation

## School Health Minor (33 credits)

**Note:** This is an approved teaching minor through the Secondary Education Program of the School of TEAL. Students must be formally accepted into the School Health minor before enrolling for the School Health Education Core Courses. Students completing this minor *must* have a teaching major. Applications for the minor are available from the HPER Department. Prior to admission to the minor, the following courses must be completed: ENGL 1010, BIOL 2320 or 2420, HEP 2500, MATH 1050 or STAT 1040 (or higher), and NFS 1020. A grade of C- or higher is required in all HEP courses.

<b>FCHD 1500 (BSS)</b> <sup>8</sup> Human Development Across the Lifespan (F,Sp).....	3
<b>HEP 2000</b> First Aid and Emergency Care (F,Sp,Su) .....	2
<b>HEP 2500</b> Health and Wellness (F,Sp,Su) .....	2
<b>HEP 3000</b> Drugs and Human Behavior (F,Su) .....	3
<b>HEP 3100</b> <sup>5</sup> School Health Programs (F) .....	3
<b>HEP 3200</b> Consumer Health (F,Su).....	3
<b>HEP 3300</b> <sup>5</sup> Clinical Experience I (F,Sp) (1 cr) <b>or</b>	
<b>HEP 4300</b> <sup>5</sup> Clinical Experience II (F,Sp) (1 cr) .....	1
<b>HEP 4400</b> <sup>5</sup> Creative Methods in Teaching Health Education (F,Sp).....	3
<b>HEP 4500</b> <sup>5</sup> Sexuality Education within the Schools (Sp).....	3
<b>HEP 5000 (CI)</b> <sup>8,11</sup> Race, Culture, Class, and Gender Issues in Health (Sp) .....	3
<b>BIOL 2320</b> Human Anatomy (Sp,Su) (4 cr) <b>or</b>	
<b>BIOL 2420</b> Human Physiology (F,Sp,Su) (4 cr).....	4
<b>NFS 1020 (BLS)</b> Science and Application of Human Nutrition (F,Sp,Su) .....	3

<sup>1</sup>Prerequisites: Junior standing and FCHD 1500.

<sup>2</sup>Prerequisites: HEP 3600; and STAT 1040 or MATH 1030 (or higher). HEP 3100 or 4100 is recommended prior to taking this course. Senior standing is also recommended.

<sup>3</sup>Prerequisite: Admittance to teacher education program.

<sup>4</sup>Prerequisite: Admission to teacher education program and completion of level 1.

<sup>5</sup>Prerequisite: Formal acceptance into the School Health emphasis or School Health minor.

<sup>6</sup>Prerequisite: Completion of Levels 1 and 2: Student Teaching Placement.

<sup>7</sup>Students in the School Health emphasis must receive formal acceptance into the emphasis prior to taking HEP 4400. During the level in which HEP 4400 is not taken (either Level 1 or Level 2), students should complete a minor special methods course.

<sup>8</sup>Course approved for University Studies credit.

<sup>9</sup>Prerequisite: HEP 2500.

<sup>10</sup>Prerequisites: HEP 3600, 4100, and consent of instructor.

<sup>11</sup>Prerequisite: Junior standing (or higher).

<sup>12</sup>Prerequisite: STAT 1040 (or higher).

<sup>13</sup>It is recommended that BIOL 2060 or 3300; or BIOL 2320 and 2420 be completed prior to taking PUBH 4030.

<sup>14</sup>It is recommended that a course in statistics, such as STAT 3000 or PSY 2800, and PUBH 4030 be completed prior to taking PUBH 4040.

<sup>15</sup>Prerequisite: PSY 1010.

<sup>16</sup>Prerequisites: FCHD 1500, 2400.

<sup>17</sup>Prerequisite: SW 1010.

<sup>18</sup>Prerequisites: SW 1010, 2100, 2400.

<sup>19</sup>Prerequisite: Ability to keyboard at 25 wpm minimum.

<sup>20</sup>Prerequisites: CL1 fulfillment, English Proficiency Test, typing test, passing scores on CIL exams, and permission of Department of Journalism and Communication.

<sup>21</sup>Prerequisites: Minimum grades of C+ in JCOM 1130, 1500, and 2010.

<sup>22</sup>Prerequisite: Consent of instructor for students not in the School Health emphasis or the School Health minor.

<sup>23</sup>Prerequisite: NFS 1020.

<sup>24</sup>Prerequisites: BIOL 2320, 2420; and MATH 1050 or ACT score of 25 or higher.

<sup>25</sup>Prerequisite: CHEM 1220.

<sup>26</sup>Prerequisites: HEP 2500, CL2 fulfillment, and passing score on Computer and Information Literacy (CIL) exam.

<sup>27</sup>Prerequisites: HEP 2500 and passing score on Computer and Information Literacy (CIL) exam.

## Parks and Recreation Major (51 credits)

The HPER Department offers a program of study leading to a Bachelor of Science Degree in Parks and Recreation. This program prepares students to become professionals in the areas of public, private, commercial, voluntary, and special service settings of parks and recreation. Graduates of the program will be capable of directing, planning, designing, managing, and administering parks and recreation programs. A 2.5 total GPA is required for graduation.

## A. Parks and Recreation Core Courses (42 credits)

<b>PRP 1000</b> Introduction to Recreation Services (F,Sp).....	3
<b>PRP 3000</b> Designing Recreation Experiences (F,Sp) .....	3
<b>PRP 3025</b> <sup>28</sup> Techniques of Experiential Recreation (F).....	3
<b>PRP 3050</b> <sup>29</sup> Evaluation of Recreation Services (F) .....	3
<b>PRP 3075</b> <sup>30</sup> Applications of Experiential Recreation (Sp).....	3
<b>PRP 3900</b> <sup>31</sup> Diverse Populations (F) .....	3
<b>PRP 4100 (CI)</b> <sup>32</sup> History of Leisure (Sp).....	3
<b>PRP 4500</b> <sup>33</sup> Management of Recreation Services I (F).....	3
<b>PRP 4550</b> <sup>34</sup> Management of Recreation Services II (Sp).....	3
<b>PRP 4700</b> <sup>35</sup> Pre-Internship Seminar (F) .....	3
<b>PRP 4725 (CI)</b> <sup>36</sup> Senior Seminar (Sp) .....	3
<b>PRP 4750</b> <sup>37</sup> Internship in Recreation Services (F,Sp,Su).....	6
<b>INST 5205</b> Computer Applications for Instruction and Training (F,Sp,Su) .....	3

## B. Electives (9 credits)

Select at least 9 credits from the following courses:

<b>PRP 4250</b> Cooperative Work Experience (F,Sp,Su) .....	1-12
<b>FCHD 1500 (BSS)</b> Human Development Across the Lifespan (F,Sp) .....	3
<b>HEP 2000</b> First Aid and Emergency Care (F,Sp,Su) .....	2
<b>HEP 3400</b> Stress Management (F,Sp) .....	3
<b>LAEP 1030 (BCA)</b> Introduction to Landscape Architecture (F,Sp,Su) .....	3
<b>SOC 3010</b> Social Inequality (F,Sp).....	3
<b>ENVS 3300</b> Fundamentals of Recreation Resources Management (F).....	3
<b>ENVS 4130</b> Recreation Policy and Planning (Sp).....	3
<b>ENVS 4500 (CI)</b> Wildland Recreation Behavior (F).....	3
<b>ENVS 4600</b> Natural Resource Interpretation (F).....	3
<b>Activity Courses</b> in Physical Education (numbered PE 1000-2000).....	1-3

## C. Additional Requirements

In addition to the above requirements for the major, students must complete a designated minor and 200 hours of documented work experience prior to enrolling in PRP 4750.

## Parks and Recreation Minor

(for students not majoring in Parks and Recreation)

### A. Required Courses (12 credits)

<b>PRP 1000</b> Introduction to Recreation Services (F,Sp).....	3
<b>PRP 3000</b> Designing Recreation Experiences (F,Sp) .....	3
<b>PRP 3025</b> <sup>28</sup> Techniques of Experiential Recreation (F).....	3
<b>PRP 3050</b> <sup>29</sup> Evaluation of Recreation Services (F) .....	3

### B. Elective Courses (9 credits)

Select at least 9 credits from the following courses.

<b>PRP 3075</b> <sup>30</sup> Applications of Experiential Recreation (Sp).....	3
<b>PRP 3900</b> <sup>31</sup> Diverse Populations (F) .....	3
<b>PRP 4100 (CI)</b> <sup>32</sup> History of Leisure (Sp).....	3
<b>PRP 4250</b> Cooperative Work Experience (F,Sp,Su) .....	1-12
<b>PRP 4500</b> <sup>33</sup> Management of Recreation Services I (F).....	3
<b>PRP 4550</b> <sup>34</sup> Management of Recreation Services II (Sp).....	3
<b>FCHD 1500 (BSS)</b> Human Development Across the Lifespan (F,Sp) .....	3
<b>HEP 2000</b> First Aid and Emergency Care (F,Sp,Su) .....	2
<b>HEP 3400</b> Stress Management (F,Sp) .....	3
<b>LAEP 1030 (BCA)</b> Introduction to Landscape Architecture (F,Sp,Su) .....	3
<b>SOC 3010</b> Social Inequality (F,Sp).....	3
<b>ENVS 3300</b> Fundamentals of Recreation Resources Management (F).....	3

# Department of Health, Physical Education and Recreation

<b>ENVS 4130</b> Recreation Policy and Planning (Sp).....	3
<b>ENVS 4500 (CI)</b> Wildland Recreation Behavior (F).....	3
<b>ENVS 4600</b> Natural Resource Interpretation (F).....	3
Activity Courses in Physical Education (numbered PE 1000-2000).....	1-3

<sup>28</sup>Prerequisites: PRP 1000 and 3000.

<sup>29</sup>Prerequisites: PRP 1000, 3000; and MATH 1030 or STAT 1040 or a higher MATH or STAT course. Can be taken concurrently with PRP 3025. (PRP 3050 is pending approval for a Quantitative Intensive [QI] University Studies designation.)

<sup>30</sup>Prerequisites: PRP 1000, 3000, 3025, 3050, 4500, 4550. Can be taken concurrently with PRP 4550.

<sup>31</sup>Prerequisite: PRP 1000 (can be taken concurrently).

<sup>32</sup>Prerequisite: PRP 1000 and fulfillment of Communications Literacy CL2 requirement.

<sup>33</sup>Prerequisites: PRP 1000 and 3000.

<sup>34</sup>Prerequisites: PRP 1000, 3000, and 4500.

<sup>35</sup>Prerequisites: PRP1000, 3000, 3025, 3050, 3075, 3900, 4500. Can be taken concurrently with PRP 4500.

<sup>36</sup>Prerequisites: PRP 1000, 3000, 3025, 3050, 3075, 3900, 4500, 4550. Can be taken concurrently with PRP 3075 and 4550. PRP 4725 is approved for a Communications Intensive (CI) University Studies designation.

<sup>37</sup>Prerequisites: PRP 1000, 3000, 3025, 3050, 3075, 3900; 4100, 4500, 4550, 4700, 4725; INST 5205.

## Physical Education Major: Exercise Science Emphasis (58 credits)

A 2.75 total GPA is required for graduation.

### A. Prerequisites (12 credits)

<b>BIOL 2320</b> Human Anatomy (Sp,Su).....	4
<b>BIOL 2420</b> Human Physiology (F,Sp,Su).....	4
<b>MATH 1050 (QL)</b> <sup>38</sup> College Algebra (F,Sp,Su).....	4

### B. Professional Foundation (26 credits)

<b>PEP 2000</b> Introduction and History of Physical Education (F,Sp).....	2
<b>PEP 3000</b> Dynamic Fitness (F,Sp,Su).....	3
<b>PEP 3100</b> Athletic Injuries (F,Sp).....	3
<b>PEP 3250</b> Anatomical Kinesiology (Sp).....	3
<b>PEP 4100 (CI)</b> <sup>39, 55</sup> Exercise Physiology (F,Sp,Su).....	4
<b>PEP 4200 (QI)</b> <sup>39, 54, 55</sup> Biomechanics (F,Sp,Su).....	4
<b>PEP 4400 (QI)</b> <sup>54, 55</sup> Evaluation in Physical Education (F,Sp).....	3
<b>PEP 5100</b> <sup>58</sup> Fitness Assessment and Exercise Programs.....	4

### C. Professional Development (17 credits)

#### HPER (7 credits minimum)

<b>HEP 2000</b> First Aid and Emergency Care (F,Sp,Su).....	2
<b>HEP 2500</b> Health and Wellness (F,Sp,Su).....	2
<b>HEP 3200</b> Consumer Health (F,Su).....	3
<b>HEP 3400</b> Stress Management (F,Sp).....	3
<b>PEP 4000</b> Mental Aspects of Sports Performance (F,Sp,Su).....	3
<b>PEP 5070</b> Sport Sociology (Sp).....	3
<b>PEP 5430 (CI)</b> <sup>53</sup> The History and Philosophy of Physical Education (F).....	3

#### Biology (4 credits minimum, including lab)

<b>BIOL 1010 (BLS)</b> Biology and the Citizen (F,Sp,Su).....	3
<b>BIOL 1020</b> Biological Discovery: A Lab Course (F,Sp).....	1
<b>BIOL 1610</b> Biology I (F).....	4
<b>BIOL 1620 (BLS)</b> <sup>40</sup> Biology II (Sp).....	4
<b>BIOL 2060</b> Elementary Microbiology (F).....	4
<b>BIOL 3060 (QI)</b> <sup>41, 54</sup> Principles of Genetics (F,Sp,Su).....	4
<b>BIOL 3300</b> <sup>42</sup> General Microbiology (F,Sp).....	4

#### Chemistry (3 credits minimum)

<b>CHEM 1010 (BPS)</b> Introduction to Chemistry (F,Sp).....	3
<b>CHEM 1110 (BPS)</b> <sup>57</sup> General Chemistry I (F,Sp).....	4
<b>CHEM 1115</b> <sup>44</sup> General Chemistry Laboratory (F,Sp).....	1
<b>CHEM 1120 (BPS)</b> <sup>44</sup> General Chemistry II (Sp).....	4

<b>CHEM 1210</b> <sup>45</sup> Principles of Chemistry I (F,Sp).....	4
<b>CHEM 1215</b> <sup>46</sup> Chemical Principles Laboratory I (F,Sp).....	1
<b>CHEM 1220 (BPS)</b> <sup>47</sup> Principles of Chemistry II (F,Sp,Su).....	4
<b>CHEM 1225</b> <sup>48</sup> Chemical Principles Laboratory II (F,Sp).....	1

### Integrated (3 credits minimum)

<b>NFS 1020 (BLS)</b> Science and Application of Human Nutrition (F,Sp,Su).....	3
<b>NFS 3020</b> <sup>43</sup> Nutrition and Physical Performance (F).....	2
<b>PHYS 1100 (BPS)</b> Great Ideas in Physics.....	3
<b>PHYS 1200 (BPS)</b> Introduction to Physics by Hands-on Exploration.....	4
<b>PHYS 2110</b> <sup>49</sup> The Physics of Living Systems I.....	4
<b>PHYS 2120 (BPS)</b> <sup>50</sup> The Physics of Living Systems II.....	4
<b>PSY 1010 (BSS)</b> General Psychology (F,Sp,Su).....	3
<b>PSY 2100</b> <sup>51</sup> Developmental Psychology: Adolescence (Sp).....	3
<b>PSY 2800 (QI)</b> <sup>52</sup> Psychological Statistics (F,Sp).....	3
<b>PSY 3210 (DSS)</b> Abnormal Psychology (F,Sp).....	3
<b>STAT 1040 (QL)</b> <sup>56</sup> Introduction to Statistics (F,Sp,Su).....	3

### D. Skill Development (3 credits)

Three different physical education activity courses, numbered from PE 1000 to PE 2120 (F,Sp,Su).....	3
--	---

<sup>38</sup>Math ACT score of at least 23, C or better in MATH 1010, or satisfactory AP calculus or Math Placement Test score is a prerequisite for this course.

<sup>39</sup>BIOL 2320, 2420; and MATH 1050 or ACT score of 25 or higher are prerequisites for this course.

<sup>40</sup>BIOL 1610 is a prerequisite for this course.

<sup>41</sup>BIOL 1610; and CHEM 1110 or 1210 are prerequisites for this course.

<sup>42</sup>BIOL 1610 (with a grade of C- or better); and CHEM 1120 or 2300 or 2310 (may be taken concurrently) are prerequisites for this course.

<sup>43</sup>NFS 1020 is a prerequisite for this course.

<sup>44</sup>CHEM 1110 is a prerequisite for this course.

<sup>45</sup>MATH 1050 or higher (may be taken concurrently), or Math ACT score of at least 25, is a prerequisite for this course.

<sup>46</sup>CHEM 1210 must be taken previously or concurrently.

<sup>47</sup>CHEM 1210 is a prerequisite for this course.

<sup>48</sup>CHEM 1215 is a prerequisite for this course.

<sup>49</sup>MATH 1100 or 1210 is a prerequisite for this course.

<sup>50</sup>MATH 1100 or 1210, and PHYS 2110 are prerequisites for this course.

<sup>51</sup>PSY 1010 is a prerequisite for this course.

<sup>52</sup>STAT 1040 is a prerequisite for this course.

<sup>53</sup>This course is approved for Communications Intensive (CI) University Studies credit.

<sup>54</sup>This course is approved for Quantitative Intensive (QI) University Studies credit.

<sup>55</sup>Admission to the Physical Education Major is required prior to enrolling in this course.

<sup>56</sup>Math ACT score of 23 or greater, or C or better in MATH 1010, or satisfactory score on Math Placement Test is a prerequisite for this course.

<sup>57</sup>Math ACT score of at least 23, or MATH 1050 or higher (may be taken concurrently), is a prerequisite for this course.

<sup>58</sup>PEP 4100 is a prerequisite for this course.

## Physical Education Major: Pre-Physical Therapy Emphasis (76 credits)

Please note that it is the student's responsibility to check with the individual physical therapy schools concerning courses required for admission. Completion of Utah State University's Department of HPER Pre-Physical Therapy emphasis will *not guarantee* admission into physical therapy school. A 3.0 total GPA is required to graduate.

### A. Prerequisites (15 credits)

<b>BIOL 2320</b> Human Anatomy (Sp,Su).....	4
<b>BIOL 2420</b> Human Physiology (F,Sp,Su).....	4
<b>MATH 1050 (QL)</b> <sup>59</sup> College Algebra (F,Sp,Su).....	4
<b>PSY 1010 (BSS)</b> General Psychology (F,Sp,Su).....	3

### B. Professional Foundations (30 credits)

<b>PEP 2020</b> Introduction to Physical Therapy (F).....	2
<b>PEP 3000</b> Dynamic Fitness (F,Sp,Su).....	3
<b>PEP 3100</b> Athletic Injuries (F,Sp).....	3
<b>PEP 3250</b> Anatomical Kinesiology (Sp).....	3
<b>PEP 4100 (CI)</b> <sup>60, 75</sup> Exercise Physiology (F,Sp,Su).....	4
<b>PEP 4200 (QI)</b> <sup>60, 74, 75</sup> Biomechanics (F,Sp,Su).....	4
<b>PEP 4250</b> Advanced Cooperative Work Experience (F,Sp,Su).....	4

# Department of Health, Physical Education and Recreation

PEP 4400 (QI) <sup>74, 79</sup> Evaluation in Physical Education (F,Sp) .....	3
PEP 5100 Fitness Assessment and Exercise Programs (prerequisite: PEP 4100) (F).....	4

## C. Professional Development (30-31 credits)

### Biology (4 credits minimum, including lab)

BIOL 1010 (BLS) Biology and the Citizen (F,Sp,Su).....	3
BIOL 1020 Biological Discovery: A Lab Course (F,Sp).....	1
BIOL 1610 Biology I (F).....	4
BIOL 1620 (BLS) <sup>61</sup> Biology II (Sp) .....	4
BIOL 3060 (QI) <sup>62, 74</sup> Principles of Genetics (F,Sp,Su).....	4
BIOL 3300 <sup>63</sup> General Microbiology (F,Sp).....	4

### Chemistry (9 credits minimum)

CHEM 1110 (BPS) <sup>76</sup> General Chemistry I (F,Sp) .....	4
CHEM 1115 <sup>77</sup> General Chemistry Laboratory (F,Sp).....	1
CHEM 1120 (BPS) <sup>78</sup> General Chemistry II (Sp).....	4
Or	
CHEM 1210 <sup>64</sup> Principles of Chemistry I (F,Sp) .....	4
CHEM 1215 <sup>65</sup> Chemical Principles Laboratory I (F,Sp).....	1
CHEM 1220 (BPS) <sup>66</sup> Principles of Chemistry II (F,Sp,Su).....	4
CHEM 1225 <sup>67</sup> Chemical Principles Laboratory II (F,Sp).....	1

### Mathematics and Statistics (6 credits minimum)

Choose one course from the following:

MATH 1100 (QL) <sup>68</sup> Calculus Techniques (higher-numbered course may be substituted) (F,Sp,Su).....	3
MATH 1210 (QL) <sup>68</sup> Calculus I (F,Sp,Su).....	4

Choose one course from the following:

STAT 2000 (QI) <sup>69</sup> Statistical Methods (F,Sp) .....	3
STAT 2300 (QL) <sup>69</sup> Business Statistics (F,Sp,Su).....	4
STAT 3000 (QI) <sup>70</sup> Statistics for Scientists (F,Sp,Su).....	3

### Physics (8 credits minimum)

PHYS 2110 <sup>71</sup> The Physics of Living Systems I.....	4
PHYS 2120 (BPS) <sup>72</sup> The Physics of Living Systems II.....	4

### Psychology (3 credits minimum)

PSY 1210 <sup>73</sup> Psychology of Human Adjustment (F,Sp) .....	3
PSY 2100 <sup>73</sup> Developmental Psychology: Adolescence (Sp) .....	3
PSY 3210 <sup>73</sup> (DSS) Abnormal Psychology (F,Sp).....	3

<sup>59</sup>Math ACT score of at least 23, C or better in MATH 1010, or satisfactory AP calculus or Math Placement Test score is a prerequisite for this course.

<sup>60</sup>BIOL 2320, 2420; and MATH 1050 or ACT score of 25 or higher are prerequisites for this course.

<sup>61</sup>BIOL 1610 is a prerequisite for this course.

<sup>62</sup>BIOL 1610; and CHEM 1110 or 1210 are prerequisites for this course.

<sup>63</sup>BIOL 1610 (with a grade of C- or better); and CHEM 1120 or 2300 or 2310 (may be taken concurrently) are prerequisites for this course.

<sup>64</sup>MATH 1050 (may be taken concurrently), or Math ACT score of at least 25, is a prerequisite for this course.

<sup>65</sup>CHEM 1210 must be taken previously or concurrently.

<sup>66</sup>CHEM 1210 is a prerequisite for this course.

<sup>67</sup>CHEM 1215 is a prerequisite for this course.

<sup>68</sup>C- or better in MATH 1050, or a Math ACT score of at least 25, is a prerequisite for MATH 1100; C- or better in MATH 1050 and 1060, or an AP Calculus score of at least 3 on the AB test or a Math ACT score of at least 27, are prerequisites for MATH 1210.

<sup>69</sup>C- or better in MATH 1050 is a prerequisite for this course.

<sup>70</sup>MATH 1100 or 1210 is a prerequisite for this course.

<sup>71</sup>MATH 1100 or 1210 is a prerequisite for this course.

<sup>72</sup>MATH 1100 or 1210, and PHYS 2110 are prerequisites for this course.

<sup>73</sup>PSY 1010 is a prerequisite for this course.

<sup>74</sup>This course is approved for Quantitative Intensive (QI) University Studies credit.

<sup>75</sup>Admission to the Physical Education Major is required prior to enrolling in this course.

<sup>76</sup>Math ACT score of at least 23, or MATH 1050 or higher (may be taken concurrently), is a prerequisite for this course.

<sup>77</sup>CHEM 1110 must be taken previously.

<sup>78</sup>CHEM 1110 is a prerequisite for this course.

<sup>79</sup>Enrollment in PEP 4400 is available *only* to students who have been accepted into the Physical Education major

## Physical Education Major: Teaching Emphasis (K-12) (90 credits)

Students also need to complete a teaching minor. A 2.75 total GPA is required for graduation.

**Note:** This is an approved teaching major through the Secondary Education Program of the School of TEAL.

### A. Prerequisites (17 credits)

BIOL 2320 Human Anatomy (Sp,Su) .....	4
BIOL 2420 Human Physiology (F,Sp,Su) .....	4
MATH 1050 (QL) <sup>60</sup> College Algebra (F,Sp,Su) .....	4
HEP 2000 First Aid and Emergency Care (F,Sp,Su) .....	2
PEP 3000 Dynamic Fitness (F,Sp,Su).....	3

### B. Skill Development (5 credits)

PEP 2100 Skills 1 (Swimming, Volleyball, Football) (F,Sp) .....	1
PEP 2200 Skills 2 (Noncompetitive Lifetime Activities) (F,Sp,Su) .....	1
PEP 2300 Skills 3 (Softball, Basketball, Soccer) (F,Sp) .....	1
PEP 2400 Skills 4 (Tennis, Badminton, Track and Field) (F,Sp).....	1
PEP 2500 Rhythms and Movement (F,Sp).....	1

### C. Professional Development (11 credits)

PEP 2000 Introduction and History of Physical Education (F,Sp) .....	2
PEP 3050 Physical Education in the Elementary School (F,Sp,Su).....	3
PEP 3100 Athletic Injuries (F,Sp).....	3
PEP 3200 (CI) <sup>87, 91</sup> Motor Learning and Technology in Skill Analysis (F,Sp,Su).....	3

### D. Methods of Teaching (3 credits)

PEP 3550 Strategies for Teaching Physical Education (F,Sp).....	3
---	---

### E. Professional Foundations (16 credits)

PEP 4000 Mental Aspects of Sports Performance (F,Sp,Su).....	3
PEP 4100 (CI) <sup>81, 91</sup> Exercise Physiology (F,Sp,Su).....	4
PEP 4200 (QI) <sup>84, 90, 91</sup> Biomechanics (F,Sp,Su).....	4
PEP 4350 Administration and Classroom Management of Physical Education (F,Sp) .....	2
PEP 4400 (QI) <sup>90</sup> Evaluation in Physical Education (F,Sp).....	3

### F. Methods of Coaching (3 credits)

PEP 4500 <sup>82</sup> Motivational Strategies for Physical Education and Coaching (Sp) .....	3
--	---

## G. Secondary Teacher Education Program (STEP) (35 credits)

**Note:** Acceptance into the STEP is required prior to enrolling in the courses listed below. Students must take a minor Special Methods Course and Clinical Experience, which may be completed during Level 1 or Level 2.

### Level 1 (15-week courses)

INST 3500 Technology Tools for Secondary Teachers (F,Sp,Su).....	1
SCED 3100 Motivation and Classroom Management (F,Sp) .....	3
SCED 3210 (CI/DSS) Educational and Multicultural Foundations (F,Sp).....	3
Clinical Experience I (in minor) <sup>83</sup> .....	1
Methods of Teaching (in minor) <sup>84</sup> .....	3

### Level 2 (15-week courses)

SPED 4000 Education of Exceptional Individuals (may be taken anytime) (F,Sp,Su).....	2
SCED 4200 (CI) Reading, Writing, and Technology (F,Sp) .....	3
SCED 4210 Cognition and Evaluation of Student Learning (F,Sp) .....	3
PEP 4300 <sup>85</sup> Clinical Experience II (F,Sp).....	1
PEP 4900 (CI) <sup>86, 87</sup> Methods of Physical Education (F,Sp,Su).....	3

# Department of Health, Physical Education and Recreation

## Level 3 (includes 13 weeks of student teaching and 2 weeks of Student Teaching Seminar)

PEP 5500 <sup>88</sup> Student Teaching Seminar (2 weeks) (F,Sp).....	2
PEP 5630 <sup>89</sup> Student Teaching in Secondary Schools (13 weeks) (F,Sp) .....	10

<sup>80</sup>Math ACT score of at least 23, C or better in MATH 1010, or satisfactory AP calculus or Math Placement Test score is a prerequisite for this course.

<sup>81</sup>BIOL 2320, 2420; and MATH 1050 or ACT score of 25 or higher are prerequisites for this course.

<sup>82</sup>HEP 2000 (which may be taken concurrently) should be completed prior to taking this course.

<sup>83</sup>Clinical Experience I is taught under course number 3300 in various departments. Must be taken concurrently with Methods of Teaching in minor.

<sup>84</sup>Methods of Teaching courses are taught under various course numbers in various departments. Must be taken concurrently with Clinical Experience I in minor.

<sup>85</sup>Must be taken concurrently with PEP 4900.

<sup>86</sup>PEP 3550 is a prerequisite for this course.

<sup>87</sup>This course is approved for Communications Intensive (CI) University Studies credit.

<sup>88</sup>Must be taken concurrently with PEP 5630.

<sup>89</sup>Must be taken concurrently with PEP 5500. Application for student teaching must be completed. Applications are available in EDUC 330.

<sup>90</sup>This course is approved for Quantitative Intensive (QI) University Studies credit.

<sup>91</sup>Admission to the Physical Education Major is required prior to enrolling in this course.

## Physical Education Coaching Minor

This minor requires 28 credits, plus 17 credits of prerequisites and the 35-credit Secondary Teacher Education Program (STEP).

### A. Required Prerequisites (17 credits)

BIOL 2320 Human Anatomy (Sp,Su) .....	4
BIOL 2420 Human Physiology (F,Sp,Su) .....	4
MATH 1050 (QL) <sup>92</sup> College Algebra (F,Sp,Su) .....	4
HEP 2000 First Aid and Emergency Care (F,Sp,Su) .....	2
PEP 3000 Dynamic Fitness (F,Sp,Su) .....	3

### B. Skill Development (select 3 credits)

PEP 2100 Skills 1 (Swimming, Volleyball, Football) (F,Sp) .....	1
PEP 2200 Skills 2 (Noncompetitive Lifetime Activities) (F,Sp,Su) .....	1
PEP 2300 Skills 3 (Softball, Basketball, Soccer) (F,Sp) .....	1
PEP 2400 Skills 4 (Tennis, Badminton, Track and Field) (F,Sp) .....	1
PEP 2500 Rhythms and Movement (F,Sp) .....	1

### C. Professional Foundation (18 credits)

PEP 3100 Athletic Injuries (F,Sp) .....	3
PEP 3200 (CI) <sup>95, 97</sup> Motor Learning and Technology in Skill Analysis (F,Sp,Su) .....	3
PEP 4000 Mental Aspects of Sports Performance (F,Sp,Su) .....	3
PEP 4100 (CI) <sup>93, 97</sup> Exercise Physiology (F,Sp,Su) .....	4
PEP 4350 Administration and Classroom Management of Physical Education (F,Sp) .....	2
PEP 4400 (QI) <sup>96, 97</sup> Evaluation in Physical Education (F,Sp) .....	3

### D. Methods of Teaching (3 credits)

PEP 3550 Strategies for Teaching Physical Education (F,Sp) .....	3
--	---

### E. Methods of Coaching (4 credits)

PEP 2050 Sport Rules and Regulations of the Utah High School Athletic Association (Sp) .....	1
PEP 4500 <sup>94</sup> Motivational Strategies for Physical Education and Coaching (Sp) .....	3

### F. Secondary Teacher Education Program (STEP) (35 credits)

PEP 4900, Methods of Physical Education, and PEP 3300, Clinical Experience I, should be taken as part of the STEP.

<sup>92</sup>Math ACT score of at least 23, C or better in MATH 1010, or satisfactory AP calculus or Math Placement Test score is a prerequisite for this course.

<sup>93</sup>BIOL 2320, 2420; and MATH 1050 or ACT score of 25 or higher are prerequisites for this course.

<sup>94</sup>HEP 2000 (which may be taken concurrently) should be completed prior to taking this course.

<sup>95</sup>This course is approved for Communications Intensive (CI) University Studies credit.

<sup>96</sup>This course is approved for Quantitative Intensive (QI) University Studies credit.

<sup>97</sup>Admission to the Physical Education Coaching Minor is required prior to enrolling in this course.

## Suggested Four-year Plans

Suggested semester-by-semester four-year plans for students working toward a bachelor's degree within the Health, Physical Education and Recreation Department can be found at:

<http://www.usu.edu/degreeplans/>

Students should consult with their advisor to develop a plan of study tailored to their individual needs and interests.

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school. Minimum GPA requirements for participation in departmental honors vary by department, but usually fall within the range of 3.30-3.50. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level. The campus-wide Honors Program, which is open to all qualified students regardless of major, offers a rich array of cultural and social activities, special classes, and the benefit of Honors early registration. Interested students should contact the Honors Program, Main 15, (435) 797-2715, [honors@usu.edu](mailto:honors@usu.edu). Additional information can be found online at: <http://www.usu.edu/honors/>

## Additional Information

Updated information concerning undergraduate courses and major or minor requirements can be obtained from the HPER Department, or check the departmental home page at: <http://cehs.usu.edu/hper/>

Major requirement sheets, which provide detailed information about requirements for departmental majors, can be obtained from the department, or accessed online at:

<http://www.usu.edu/majorsheets/>

## Financial Support

The Emma Eccles Jones College of Education and Human Services distributes scholarship applications beginning in January of each academic year. For information on those scholarships awarded by the HPER Department, visit the departmental office in HPER 122, or check the departmental home page at: <http://cehs.usu.edu/hper/>

## Assessment

### Health Education Specialist Major Assessment

The Health Education Specialist major curriculum is based on the National Commission of Health Education Credentialing (NCHEC) seven responsibility areas for entry-level health educators. As such, each course is evaluated on a yearly basis to determine if it is meeting student needs, based on NCHEC guidelines. Coursework prepares graduating students to successfully sit for the Certified Health Education Specialist exam. Additionally, exit surveys and interviews are given to students to better assess the curriculum and the learning needs of the students. To further assess curriculum needs, follow-up surveys are sent to students one year after they graduate.

# Department of Health, Physical Education and Recreation

## Physical Education Major Assessment

The Physical Education major curriculum is based on the standards and benchmarks of the National Association for Sport and Physical Education (NASPE). Each course is matrixed against the standards to assure quality in curriculum content. A number of assessments are available for exiting students, including Praxis 2 and a number of certifications of the American College of Sports Medicine (ACSM). Exit surveys and interviews are conducted annually, as well as post-graduation surveys.

## Parks and Recreation Major Assessment

The Parks and Recreation major curriculum is accredited by the National Council on Accreditation of the National Recreation and Park Association (NRPA). To assure compliance with the national standards, the curriculum is evaluated annually. Students are eligible to sit for the National Certification Examination. Exit surveys and interviews are conducted yearly, as well as post-graduation surveys.

Additional assessment information can be found at:  
<http://cehs.usu.edu/hper/>

## Graduate Programs

Please refer to the general admission requirements on pages 36-37 of this catalog. In addition, the letters of recommendation must be written by professionals in health or physical education who know the applicant and his/her work well. Students with fewer than 12 credits of undergraduate health or physical education coursework must make up any deficiencies before being granted matriculated status. Basic competencies that have not been acquired through courses or experience may be obtained by completing prerequisite undergraduate courses without credit. Other nongraduate credit courses may be required by the admissions committee. Students with weak oral or written English skills will be required to take remedial work or complete undergraduate or intensive English classes.

## Degree Programs

### Master of Science

The MS is available for students who plan to teach, provide community leadership, or do further graduate or research study.

### Master of Education in Health, Physical Education and Recreation

The MEd is designed for students desiring to improve teaching competencies.

## Specializations

MS students may select an area of emphasis for research and study from the following specializations: Corporate Wellness, Exercise Science, Sports Medicine, and Health Education.

## Course Requirements

### Corporate Wellness Specialization (40 credits)

MS candidates specializing in **Corporate Wellness** must complete the following courses. (This specialization is a Plan C nonthesis option.)

#### Required Core Courses (13 credits)

PEP 6400 Exercise in Health, Fitness, and Sport (F)	4
PEP 6800 Biomechanics and Ergonomics of Health, Industry, and Sport (Sp)	3
PEP 6810 Research Methods in Health Sciences (F)	3
EDUC/PSY 6600 Research Design and Analysis I (F,Sp,Su)	3

### Corporate Wellness Specialization Requirements (15 credits)

PEP 6450 Fitness Assessment and Exercise Testing (Sp)	3
PEP 6500 Practicum in Corporate Wellness (on campus, complete 1 credit per semester) (F,Sp,Su)	2
PEP 6500 Practicum in Corporate Wellness (remote site) (F,Sp,Su)	4
PEP 6540 Wellness Programming (Sp)	3
PSY 6470 Health Psychology (F)	3

### Corporate Wellness Specialization Electives (select 12 credits)

HEP 6000 Evaluating Health-Promotion Programs (Sp)	3
HEP 6100 Current Trends in Health Promotion (F)	3
PEP 5100 Fitness Assessment and Exercise Programs (F)	4
NFS 3020 Nutrition and Physical Performance (F)	2
NFS 6200 Nutritional Epidemiology (F)	2
NFS 6210 Advanced Public Health Nutrition (Sp)	2
SOC 6400 Sociology of Health (F)	3

### Exercise Science Specialization (30 credits)

MS candidates specializing in **Exercise Science** must complete the following courses. (This specialization is a Plan A thesis option.)

#### Required Core Courses (13 credits)

PEP 6400 Exercise in Health, Fitness, and Sport (F)	4
PEP 6800 Biomechanics and Ergonomics of Health, Industry, and Sport (Sp)	3
PEP 6810 Research Methods in Health Sciences (F)	3
EDUC/PSY 6600 Research Design and Analysis I (F,Sp,Su)	3

### Exercise Science Specialization Requirements (9 credits)

PEP 6540 Wellness Programming (Sp)	3
PEP 6970 Thesis (F,Sp,Su)	6

### Exercise Science Specialization Electives (select 8 credits)

BIOL 4000 Human Dissection (F)	1
EDUC/PSY 7610 Research Design and Analysis II (F,Sp,Su)	3
HEP 6100 Current Trends in Health Promotion (F)	3
NFS 3020 Nutrition and Physical Performance (F)	2
NFS 6200 Nutritional Epidemiology (F)	2
NFS 6210 Advanced Public Health Nutrition (Sp)	2
PEP 5100 Fitness Assessment and Exercise Programs (F)	4
PEP 6450 Fitness Assessment and Exercise Testing (Sp)	3
PSY 6470 Health Psychology (F)	3

### Sports Medicine Specialization

#### (thesis track: 31 credits; nonthesis track: 33 credits)

MS candidates specializing in **Sports Medicine** must complete the following courses.

EDUC/PSY 6600 Research Design and Analysis I (F,Sp,Su)	3
PEP 6400 Exercise in Health, Fitness, and Sport (F)	4
PEP 6550 Athletic Training Clinical Orthopedics I (F)	3
PEP 6560 Athletic Training Clinical Orthopedics II (Sp)	3
PEP 6570 Athletic Training Clinical Orthopedics III (F)	3
PEP 6580 Athletic Training Clinical Orthopedics IV (Sp)	3
PEP 6800 Biomechanics and Ergonomics of Health, Industry, and Sport (Sp)	3
PEP 6810 Research Methods in Health Sciences (F)	3
PEP 6970 Thesis (for thesis track <i>only</i> ) (F,Sp,Su)	(6)

For nonthesis track, select at least 8 credits from the following electives (*instead of* taking PEP 6970).

NFS 3020 Nutrition and Physical Performance (F)	2
PEP 5100 Fitness Assessment and Exercise Programs (F)	4
PEP 6450 Fitness Assessment and Exercise Testing (Sp)	3
PEP 6540 Wellness Programming (Sp)	3

# Department of Health, Physical Education and Recreation

## Health Education Specialization (24-32 credits)

MS candidates specializing in *Health Education* must complete the following courses.

### Required Core Courses (23 credits)

<b>EDUC 6570</b> Introduction to Educational and Psychological Research (F,Sp,Su) .....	3
<b>EDUC 6600</b> Measurement, Design, and Analysis I (F,Sp,Su) .....	3
<b>HEP 6000</b> Evaluating Health-Promotion Programs (Sp) .....	3
<b>HEP 6100</b> Current Trends in Health Promotion (F) .....	3
<b>HEP 6600</b> Field Work in Health Education (F,Sp,Su) .....	2
<b>HEP 6800</b> Seminar in Health Behavior (F) .....	3
<b>HEP 6970</b> Thesis (F,Sp,Su) .....	6

### Health Education Specialization Electives (select 7 credits)

<b>FCHD 6020</b> Survey of Human Development Research (Sp) .....	3
<b>FCHD 6060</b> Human Development Theories (F) .....	3
<b>HEP 6300</b> Stress Management (Arr) .....	3
<b>HEP 6700</b> Special Topics in Health (Arr) .....	1-6
<b>HEP 6900</b> Independent Study (F,Sp,Su) .....	1-3
<b>HEP 6950</b> Independent Research (F,Sp,Su) .....	1-3
<b>INST 5230</b> Instructional Graphic Production (F,Su) .....	3
<b>INST 6350</b> Instructional Design Process (F) .....	3
<b>MGT 6370</b> Project Management .....	3
<b>NFS 6200</b> Nutritional Epidemiology (F) .....	2
<b>NFS 6210</b> Advanced Public Health Nutrition (Sp) .....	2
<b>PEP 6290</b> Corporate Wellness Marketing (Sp) .....	3
<b>PEP 6400</b> Exercise in Health, Fitness, and Sport (Arr) .....	4
<b>PEP 6540</b> Wellness Programming (Sp) .....	3
<b>PSY 6470</b> Health Psychology (F) .....	3
<b>PSY 7700</b> Grant Writing (Sp) .....	3
<b>PUBH 4030</b> Communicable Disease Control (F) .....	3
<b>PUBH 4040</b> Fundamentals of Epidemiology (Sp) .....	3
<b>PUBH 4310</b> Industrial Hygiene Recognition of Hazards (F) .....	4
<b>PUBH 4330</b> Industrial Hygiene Physical Hazards (Sp) .....	3
<b>SOC 6460</b> Sociology of Health (F) .....	3

Other courses may be selected on the basis of a student's need and interests, subject to the approval of the student's committee.

MEd candidates must complete the following courses:

<b>TEAL 6710</b> Diversity in Education (Sp,Su) .....	3
<b>PEP 6000</b> Administration of Athletics (Arr) .....	3
<b>PEP 6010</b> Leadership in Health, Physical Education, and Recreation (Sp) .....	3
<b>PEP 6050</b> Psychological Aspects of Sports Performance (Arr) .....	3
<b>PEP 6070</b> Sport in Society (Sp) .....	3
<b>PEP 6420</b> Curriculum in Physical Education (F) .....	3
<b>PEP 6430</b> History and Philosophy of Physical Education and Sport (F) .....	3
<b>PEP 6700</b> Special Topics in Physical Education (F,Sp,Su) .....	3
<b>PEP 6810</b> Research Methods in Health Sciences (F) .....	3
<b>PEP 6830</b> Motor Learning (Sp) .....	3
<b>PEP 6960</b> Master's Project (F,Sp,Su) .....	3
<b>PEP 7550</b> Practicum in the Evaluation of Instruction (F,Sp,Su) .....	3

## Research

Research areas include health promotion, health education, exercise science, corporate wellness, sport psychology, sport in society, biomechanics, and pedagogy. Research laboratories include the Motion Analysis Lab, the Biomechanics Lab, the Exercise Physiology Lab, the Body Composition Lab, and the Sport Medicine Lab.

## Financial Assistance

Teaching and research assistantships are available through the HPER Department and are awarded on a competitive basis. Application for the assistantships must be made by March 15 to the department head. A formal application for admission must be submitted to the School of Graduate Studies at the same time as the application for an assistantship. A recipient of a graduate assistantship is usually eligible for a waiver for the out-of-state portion of his or her tuition for the first fiscal year. For additional financial assistance information, check the departmental home page at: <http://cehs.usu.edu/hper/>

## Additional Information

Additional and/or updated information about graduate courses and programs may be obtained from the HPER Department, or check the departmental home page at: <http://cehs.usu.edu/hper/>

## Health, Physical Education and Recreation Faculty

### Professors

*Dennis G. Dolny*, Head, Health, Physical Education and Recreation Department

*Richard D. Gordin, Jr.*, sport psychology

*Edward M. Heath*, exercise physiology

*Gerald A. Smith*, biomechanics

### Associate Professors

*Eadric Bressel*, biomechanics

*Hilda Fronske*, motor learning

*Julie A. Gast*, community health

*Donna L. Gordon*, community health

*John M. Kras*, administration of physical education

*Dennis A. Nelson*, parks and recreation

*Phillip Waite*, community health

*Rolayne Wilson*, elementary physical education

### Nontenure Assistant Professors

*Ginni Dilworth*, parks and recreation

*Mark Roark*, parks and recreation

*Dale Wagner*, exercise physiology

### Principal Lecturer

*Peter J. Mathesius*, physical education

### Senior Lecturer

*Matthew Flint*, health education

## Course Descriptions

Health Education Professional (HEP), pages 574-576

Physical Education Professional (PEP), pages 628-630

Parks and Recreation Professional (PRP), page 641

Physical Education Activity (PE), pages 624-628

Dance West Summer, Dance Education Classes (DE), pages 540-541

# Department of History

**Department Head:** Norman L. Jones

**Location:** Main 323

**Phone:** (435) 797-1290

**FAX:** (435) 797-3899

**E-mail:** monica.ingold@usu.edu

**WWW:** <http://www.usu.edu/history>

**Graduate Program Coordinator:** Christopher A. Conte,  
Main 323G, (435) 797-1303, [chris.conte@usu.edu](mailto:chris.conte@usu.edu)

**Degrees offered:** Bachelor of Science (BS), Bachelor of Arts (BA), Master of Science (MS), Master of Arts (MA) in History; participates in Master of Social Sciences (MSS)

## Undergraduate Programs

### Objectives

The Department of History offers a flexible program to accomplish the following objectives:

1. To train undergraduates to research, analyze, synthesize, and communicate reasonable conclusions about the past by using the historical method.
2. To teach cultural literacy and provide the knowledge necessary for informed decision-making by citizens of Utah, the United States, and the world.
3. To provide students with crucial work skills in research, analysis, communication, and collaboration, while enriching their lives.
4. To contribute to the liberal arts curriculum of the University through general education, general interest courses, the history major, the history teaching emphasis, minors in history and classics, and the interdisciplinary programs of folklore, religious studies, American studies, and British and commonwealth studies.

History is a reading- and writing-intensive program.

### Requirements

#### Transfer Students

The History Department accepts all history courses taught by institutions within the Utah System of Higher Education. Students who are transferring may wish to consult the online *Advisor Handbook* for articulation information for the institution from which they are transferring. This information can be found at:

[http://www.usu.edu/advising/for\\_advisors/handbook/2007-2008](http://www.usu.edu/advising/for_advisors/handbook/2007-2008)

#### AP Credit

The History Department *does not* accept AP credit for use toward its degrees. However, if a student has passed an AP exam with a score of 3 or better, the equivalent lower-division course will be waived, and the student can complete the equivalent number of credits in an upper-division course. This waiver *does not* apply to students enrolled in the History Teaching Emphasis.

### Departmental Requirements

New freshmen accepted in good standing by the University may apply for admission to the History Department. Students transferring from another institution or another major will be admitted if they have a minimum 2.5 GPA in history courses and an overall minimum GPA of 2.5. A minimum 2.75 GPA is required for entry into the teacher education program.

Since history can be classified in *both* the humanities *and* the social sciences, majors may receive either a Bachelor of Arts (BA) or a Bachelor of Science (BS) degree. However, because history primarily involves the study of written documents, the department encourages students to choose the BA, which requires proficiency in a foreign language.

Candidates for a degree must earn a grade of C or better in all history courses used to meet the requirements for a history major or minor, a history teaching emphasis or teaching minor, or a classics minor.

#### Bachelor of Arts Language Track

The BA degree requires a minimum proficiency in a foreign language. This proficiency may be established in one of the following ways:

1. 16 credits in a single language.
2. Documentation of a proficiency level of "intermediate low" or better through an examination administered by the USU Department of Languages, Philosophy, and Speech Communication.
3. Completion of any upper-division foreign language course constituting a third-year course of study with a grade of C or better.

**Note:** Demonstration of proficiency in American Sign Language will *not* meet the foreign language requirement for the BA degree in history.

#### Bachelor of Science Mathematics and Science Track

For those interested in a BS degree, a significant amount of coursework in the College of Science is required. These courses must contribute significantly to an understanding of science and the scientific method. Therefore, students must complete 8 credits in one of the following course pairs: BIOL 1610/1620, CHEM 1210/1220, PHYS 2110/2120, or PHYS 2210/2220. Students *cannot* receive a BS in history unless they successfully complete one of these course pairs with grades of C- or better. Students must also complete at least 6 additional credits in math or science, 3 of which are required to be in *either* statistics (e.g. STAT 2000, 2300, or 3000) or social science statistics (e.g., PSY 2800, POLS 3000, or SOC 3120). The other 3 science credits may be chosen from any 2000-, 3000-, or 4000-level math or science course having one of the following prefixes: BIOL, CHEM, CS, GEO, MATH, STAT, or PHYS. For these 3 science credits only, students may petition the department head of the History Department to substitute a course from outside the College of Science, if it has a demonstrable scientific or technical focus (e.g., ADVS 3020, ETE 3200, PEP 4200, WATS 3000). In all instances, a grade of C- or better is required for any math or science course to be applied toward a BS degree.

Students who minor in a science field will fulfill the BS requirement through their minor.

## History Major

**Minimum GPA for Admission:** 2.5, major; 2.5, Career  
**Minimum GPA for Graduation:** 2.5, major courses; 2.0, USU  
**Minimum Grade Accepted:** C in major courses

Thirty-six credits of history coursework are required. A grade of C or better must be earned in all history courses used for the major. Each major must complete *one* of the following three courses in the area of premodern civilization:

<b>HIST 1060 (BHU)</b> Introduction to Islamic Civilization .....	3
<b>HIST 1100 (BHU)</b> Foundations of Western Civilization: Ancient and Medieval (F,Sp,Su) .....	3
<b>HIST 1500 (BHU)</b> Cultural and Economic Exchange in the Pre-Nineteenth Century World (F,Sp).....	3

Each major must complete *one* of the following two courses in the area of modern civilization:

<b>HIST 1110 (BHU)</b> Foundations of Western Civilization: Modern (F,Sp,Su) .....	3
<b>HIST 1510 (BHU)</b> The Modern World (F,Sp,Su) .....	3

Each major must complete *one* of the following two courses in the area of American history:

<b>HIST 2700 (BAI)</b> United States to 1877 (F,Sp,Su) .....	3
<b>HIST 2710 (BAI)</b> United States 1877-Present (F,Sp,Su).....	3

(Note: HIST 1700 does *not* count toward this requirement.)

No student, including transfer students, may count more than 12 credits of lower-division coursework toward the history major.

Every senior must take HIST 4990 (Special Topics in History), the capstone course for the major. Students should complete their remaining 21-24 credits by taking 3000- and 4000-level history courses. Since new courses may be approved from time to time, any upper-division course listed in the current *Schedule of Classes* under *History* is acceptable.

No more than 3 credits of HIST 4930 (Directed Readings) may be applied toward the major.

Since the study of history requires an understanding of many fields of human endeavor, **students majoring in history must select a minor.** Historians are encouraged to take electives in fields that will broaden their knowledge of the world and are closely allied to history, such as religious studies, literature, economics, geography, anthropology, political science, sociology, classics, philosophy, or foreign language.

Students wishing to undertake graduate work should pursue the BA degree. During their senior year, they should take the graduate record exam (GRE).

## History Teaching Emphasis

**Minimum GPA for Admission:** 2.5, major; 2.75, Career  
**Minimum GPA for Graduation:** 2.75, major courses; 2.75, Career  
**Minimum Grade Accepted:** C in major courses

Thirty-nine credits, earned in history courses, are required. A grade of C or better must be earned for all history courses used for the emphasis. Each student in the History Teaching Emphasis must complete *one* of the following three courses in the area of premodern civilization:

<b>HIST 1060 (BHU)</b> Introduction to Islamic Civilization .....	3
<b>HIST 1100 (BHU)</b> Foundations of Western Civilization: Ancient and Medieval (F,Sp,Su) .....	3
<b>HIST 1500 (BHU)</b> Cultural and Economic Exchange in the Pre-Nineteenth Century World (F,Sp).....	3

Each student must complete *one* of the following two courses in the area of modern civilization:

<b>HIST 1110 (BHU)</b> Foundations of Western Civilization: Modern (F,Sp,Su) .....	3
<b>HIST 1510 (BHU)</b> The Modern World (F,Sp,Su) .....	3

Each student must complete *both* of the following two courses in the area of American history:

<b>HIST 2700 (BAI)</b> United States to 1877 (F,Sp,Su) .....	3
<b>HIST 2710 (BAI)</b> United States 1877-Present (F,Sp,Su).....	3

(Note: HIST 1700 does *not* count toward this requirement.)

Each student must complete the following government and politics course:

<b>POLS 1100 (BAI)</b> United States Government and Politics (F,Sp).....	3
--	---

No student, including transfer students, may count more than 12 credits of lower-division coursework toward the history teaching emphasis.

Every student in the History Teaching Emphasis must take *one* of the following three courses as a senior capstone course:

<b>HIST 4850</b> Interpreting the Past for Teachers (F,Sp).....	3
<b>HIST 4860</b> Teaching History (F) .....	3
<b>HIST 4870</b> Teaching World History: Themes, Approaches, and Materials (Sp) .....	3

Students should complete their remaining 21 credits by taking 3000- and 4000-level history courses. A minimum of two courses must be taken from each of the following areas: U.S. history, European history, and world history. Since new courses may be approved from time to time, any upper-division course listed in the current *Schedule of Classes* under *History* is acceptable. To become licensed to teach history, students must be admitted to the Secondary Teacher Education Program (STEP). A 2.75 GPA is required for admission, as well as a writing test, a speech and hearing test, and a background check. Application should be made as soon as practical after the history teaching emphasis has begun. Applications for admission are available in the History Department Office. The STEP requires 35 credits of coursework, in addition to the 39 credits of history courses. For additional information about the STEP, contact Shelly Wiegand, secondary education undergraduate advisor, (435) 797-0383.

**All teaching majors must also have a teaching minor in an area for which teaching licensure can be granted.**

No more than 3 credits of HIST 4930 (Directed Readings) may be applied toward the emphasis.

# Department of History

## Minor in History

Twenty-one credits are required. A grade of C must be earned in all history courses used for the minor. Every student must complete *one* of the following three courses in the area of premodern civilizations:

<b>HIST 1060 (BHU)</b> Introduction to Islamic Civilization .....	3
<b>HIST 1100 (BHU)</b> Foundations of Western Civilization: Ancient and Medieval (F,Sp,Su) .....	3
<b>HIST 1500 (BHU)</b> Cultural and Economic Exchange in the Pre-Nineteenth Century World (F,Sp).....	3

Every student must complete *one* of the following two courses in modern civilization:

<b>HIST 1110 (BHU)</b> Foundations of Western Civilization: Modern (F,Sp,Su) .....	3
<b>HIST 1510 (BHU)</b> The Modern World (F,Sp,Su) .....	3

Every student must complete *one* of the following courses in the area of American history:

<b>HIST 2700 (BAI)</b> United States to 1877 (F,Sp,Su) .....	3
<b>HIST 2710 (BAI)</b> United States 1877-Present (F,Sp,Su).....	3

(Note: HIST 1700 does *not* count toward this requirement.)

No student, including transfer students, may count more than 12 credits of lower-division coursework toward the history minor. Students should complete their remaining 9-12 credits by taking 3000- and 4000-level history courses.

No more than 3 credits of HIST 4930 (Directed Readings) may be applied toward the minor.

## History Teaching Minor

Thirty credits are required. A grade of C or better must be earned in all history courses used for the minor. Every student must complete *two* of the following three courses in premodern civilization:

<b>HIST 1060 (BHU)</b> Introduction to Islamic Civilization .....	3
<b>HIST 1100 (BHU)</b> Foundations of Western Civilization: Ancient and Medieval (F,Sp,Su) .....	3
<b>HIST 1500 (BHU)</b> Cultural and Economic Exchange in the Pre-Nineteenth Century World (F,Sp).....	3

Every student must complete *both* of the following two courses in modern civilization:

<b>HIST 1110 (BHU)</b> Foundations of Western Civilization: Modern (F,Sp,Su) .....	3
<b>HIST 1510 (BHU)</b> The Modern World (F,Sp,Su) .....	3

Every student must complete *both* of the following courses in the area of American history:

<b>HIST 2700 (BAI)</b> United States to 1877 (F,Sp,Su) .....	3
<b>HIST 2710 (BAI)</b> United States 1877-Present (F,Sp,Su).....	3

(Note: HIST 1700 does *not* count toward this requirement.)

No student, including transfer students, may count more than 12 credits of lower-division coursework toward the history minor. All teaching minors in history must take one of the following:

<b>HIST 4850</b> Interpreting the Past for Teachers (F,Sp).....	3
<b>HIST 4860</b> Teaching History (F) .....	3
<b>HIST 4870</b> Teaching World History: Themes, Approaches, and Materials (Sp) .....	3

Students should complete their remaining 9 credits by taking 3000- and 4000-level history courses.

No more than 3 credits of HIST 4930 (Directed Readings) can be applied toward the minor.

## Classics Minor

For information about the Classics Minor, which is administered through the Department of History, see page 211 of this catalog.

## Sample Four-year Plans

Sample semester-by-semester four-year plans for students working toward a bachelor's degree within the History Department can be found at: <http://www.usu.edu/degreplans/>

Students should consult with their advisors to develop a plan of study tailored to their individual needs and interests.

## Academic Opportunities

### Departmental Honors in History

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school. Students in the department with a minimum GPA of 3.5 may apply to pursue an honors degree in history. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level. Those interested should consult the department honors coordinator. Additional information can be found online at: <http://www.usu.edu/honors/>

### Phi Alpha Theta

History students with a minimum GPA of 3.1 in history classes and an overall minimum GPA of 3.0 are eligible for membership in the national history honor society, Phi Alpha Theta. Those interested should consult the faculty advisor for Phi Alpha Theta.

### Undergraduate Teaching Fellows

The UTF program is designed to provide students, particularly potential teachers, with the opportunity to assist professors and, thereby, learn first-hand about the nature of the profession. UTFs must maintain a minimum GPA of 3.0 and be sponsored by a professor. Application forms are available in the History Department office and on the History Department website: <http://www.usu.edu/history>

## Additional Information

For updated information concerning programs and courses offered by the Department of History, visit the departmental web page at: <http://www.usu.edu/history>

Major requirement sheets, which provide detailed information about requirements for the History major, can be obtained from the department, or can be accessed online at: <http://www.usu.edu/majorsheets/>

## Financial Support

Scholarships, grants-in-aid, and work-study programs are available through the University. The History Department offers scholarships to outstanding students. In addition, undergraduates may be employed as research assistants and clerical assistants within the department. For current information on scholarships and employment opportunities, consult the department head.

## Graduate Programs

### Admission Requirements

Graduate applicants may be admitted to the program for either the master of arts or master of science in history if they meet the following qualifications: (1) hold a baccalaureate degree; (2) have at least a 3.0 cumulative GPA over the last 60 credits of undergraduate work, with a 3.5 GPA in history courses recommended; (3) submit Graduate Record Examination (GRE) general test scores, with a **required** minimum score at the 40th percentile on the verbal section, and a **recommended** minimum score at the 40th percentile on *both* the quantitative and written portions of the exam; (4) submit three letters of recommendation from persons acquainted with the applicant's academic performance and potential; and (5) submit a brief statement of proposed fields of interest and career goals.

The Department of History also strongly recommends that applicants have either an undergraduate major or minor in history or a closely related field. Familiarity with one or more foreign languages is highly desirable and is required for the master of arts degree and for master's level research in many fields of history. Applications will be strengthened by the submission of an example of the student's historical writing, such as a paper (about 15 pages in length) written for a seminar or upper-division course.

The final recommendation for admission will be made upon consideration of all the above factors by the department to the School of Graduate Studies.

### Degree Programs and Additional Requirements

#### Master's Degree, Plan A (Thesis)

The thesis option should be taken by anyone intending to do research or enter another program for the doctoral degree. A master of arts or master of science degree can be completed with this option.

The program consists of 30 semester credits beyond the bachelor's degree, 6 credits of which must be in thesis research. Students must take HIST 6000, as well as either HIST 6010 or 6020, or another theory-intensive course approved by the director of graduate studies. Students may apply a maximum of 4 internship credits earned while working in an archive, for a museum, on the staff of a scholarly journal, or as a teaching intern in an upper-division undergraduate course.

The remainder of the 30 credits may be taken as electives in history or related courses relevant to the student's program.

Upon arrival at USU, students are urged to meet with the departmental graduate advisor, who will direct them to one or more faculty members with similar interests. Through consultations with the graduate and faculty advisor, the first-year student will form a thesis committee and formulate a course of study. By the end of the first year, most students

will have submitted to their committees a proposal for the thesis, which they will write under the close supervision of the committee members. The oral defense usually takes place in the spring semester of the second year.

#### Master's Degree, Plan B (Nonthesis)

A nonthesis master's program can help a student attain employment in many areas, but is not recommended for students planning to secure a doctorate. A master of arts, master of science, or master of social sciences degree can be completed with this option.

The Plan B program consists of 30 credits beyond the bachelor's degree. The course requirements are identical to those of the Plan A program, except that only 3 thesis credits are permitted.

Students completing the Plan B program do not write a full-length thesis. Instead, Plan B students write a research paper of approximately 30 pages in length and submit a portfolio of their graduate writing, which includes two additional and distinct pieces of writing. Students defend their Plan B research papers and writing portfolios before their major professor and the members of the supervisory committee. Final approval of the Plan B rests with the department, rather than with the School of Graduate Studies.

#### Master of Arts

To receive a master of arts (MA) degree, students must successfully complete two years of foreign language at the undergraduate level. If two years of undergraduate language study already appear on the student's transcript, he or she must demonstrate current competence through successful completion of a language exam or by taking a 3000- or 4000-level language course for which a grade of *B* or higher proves competency. In all cases, an individual assessment must be made of a student's language status. For further information, see page 117.

Students planning to continue on for a doctorate should be aware that many doctoral programs in history require that students pass written proficiency exams in two or more languages.

#### Master of Science

To receive a master of science (MS) degree in history, students may be required to demonstrate, to the satisfaction of their supervisory committee, the ability to incorporate scientific methodologies in their research as appropriate.

#### Master of Social Sciences (MSS)

Like the MA and MS in history, the MSS degree requires a minimum of 30 credits, including 15 credits in the major discipline of history, plus a minimum of 15 credits from two approved minor areas, with at least two courses in each minor area. Accepted minor disciplines include instructional technology, environment and society, political science, psychology, and sociology/anthropology. This degree is designed for secondary school teachers who need more training to obtain licensure in additional teaching fields or who simply wish to deepen their understanding of a related field.

Students in the MSS program are required to take HIST 6000 and 3 credits of HIST 6970 for their Plan B. A supervisory committee consists of a major professor in history and two committee members, each representing one of the student's minor fields. MSS students, like other Plan B students in history, must write a research paper of approximately 30 pages and submit a portfolio of their graduate writing that consists of two separate and distinct pieces of work, one from each of their two minor fields. An oral defense of the student's Plan B paper and portfolio is held before the student's supervisory committee.

# Department of History

Additionally, the master of social sciences (MSS) in history requires students to demonstrate an understanding of statistical applications in the social sciences.

## Financial Assistance

The primary financial assistance offered by the Department of History is through graduate assistantships. Each year, the History Department offers to qualified students, on a competitive basis, a total of seven graduate assistantships. These assistantships entail approximately 20 hours of work per week, assisting faculty members with departmental introductory survey courses. The award carries a stipend and an out-of-state tuition waiver. To keep their assistantships, graduate assistants must maintain a GPA of 3.0 (or a *B* average) and be a full-time student (see page 111). While enrolled in the MA or MS program, graduate assistants may hold graduate assistantships for a maximum of two years. Applications for graduate assistantships should be postmarked *no later than February 1*, for the upcoming academic year.

Graduate students may be eligible for Carr Scholarships to supplement their graduate assistantships. Competitive grants to support travel and research are also available to history graduate students.

In addition, financial assistance is available through the *Western Historical Quarterly*, a journal published at USU. The editors of the journal offer, during alternate years, the S. George Ellsworth Editorial Fellowship and the Robert M. Uteley Editorial Fellowship. These fellowships are awarded to highly qualified students working as editorial assistants in that office. These fellowships are nationally competitive and allow graduate students to learn all aspects of journal production. They carry a stipend (with additional funding possible during the summer) and a waiver of the out-of-state portion of the tuition. Materials should be postmarked no later than February 1, for the upcoming academic year. Applicants will be notified in early April.

Funding for the S. George Ellsworth Fellowship is provided by the *Western Historical Quarterly*; the School of Graduate Studies; and the College of Humanities, Arts, and Social Sciences. The S. George Ellsworth Fellowship is being offered for the 2009-2010 academic year.

Funding for the Robert M. Uteley Fellowship is provided by the *Western Historical Quarterly* and the School of Graduate Studies. The Robert M. Uteley Fellowship is being offered for the 2010-2011 academic year. For further information about *Western Historical Quarterly* fellowships, write to: *Western Historical Quarterly*, Utah State University, 0740 Old Main Hill, Logan UT 84322-0740; or send e-mail to: [carolyn.doyle@usu.edu](mailto:carolyn.doyle@usu.edu).

The application deadline for both fellowships is February 1, for the upcoming academic year.

## Additional Funding

In addition to graduate assistantships and the *Western Historical Quarterly* editorial assistantships, the School of Graduate Studies awards a limited number of scholarships. To be eligible for these awards, all students should complete the application for admission and send it, along with GRE scores and letters of recommendation, to the School of Graduate Studies by February 1. A financial aid application form (which may be obtained from the History Department) should be returned to the History Department by February 1.

Students interested in establishing eligibility for federal loans and work-study will need to complete the Free Application for Federal Student Aid (FAFSA) and submit it to: Financial Aid Office, Utah State

University, 1800 Old Main Hill, Logan UT 84322-1800. Questions about eligibility should be directed to the Financial Aid Office, tel. (435) 797-0173.

## Career Opportunities

Some graduates of USU's master's program continue their formal education in PhD programs or law schools. Others find employment in the two-year college or secondary school systems, as teachers or administrators. Still others work for historical societies, museums, publishing firms, and a variety of enterprises in the private sector.

## Additional Information

Current announcements and other information are posted to the History Department website: <http://www.usu.edu/history>

## History Faculty

### Professors

*Jay Anderson*, folklore, folklife, film studies

*Philip L. Barlow*, Leonard J. Arrington Chair of Mormon History and Culture, religious studies, American religion, Mormon history

*C. Robert Cole*, England, modern European history

*Mark L. Damen*, ancient world, theatre history, Latin, Greek

*Norman L. Jones*, medieval, early modern Europe, Britain, Christianity

*David R. Lewis*, American Indian, environmental, Utah, editor of *Western Historical Quarterly*

*Daniel J. McInerney*, American intellectual history, Nineteenth Century, reform

*Charles S. Prebish*, Charles Redd Endowed Chair in Religious Studies, Buddhist studies and religion

*Leonard N. Rosenband*, France, European economic and labor history

*Stephen C. Siporin*, folklore, oral narrative folklore, folk art

*Frances B. Titchener*, ancient Greece and Rome, Latin, Greek, editor of *Ploutarchos*

### Associate Professors

*Christopher A. Conte*, Africa, world, and environmental history

*R. Edward Glatfelter*, Russia and East Asia, associate dean of College of Humanities, Arts and Social Sciences

*Colleen O'Neill*, West, Native American, labor, associate editor of *Western Historical Quarterly*

*Jennifer Ritterhouse*, U.S. history, African-American history, U.S. South, women's history

*James Sanders*, Latin America, Atlantic world

*Susan O. Shapiro*, Greek intellectual history, ancient Greek and Latin language

### Assistant Professors

*M. Lawrence Culver*, U.S. Southwest Borderlands; U.S. West, cultural, environmental, and urban history

*Victoria M. Grieve*, modern American cultural and intellectual history, art and culture of the West

*Timothy S. Wolters*, science and technology, American history

### Adjunct Professors

*Doran J. Baker*, Electrical and Computer Engineering Department, history of science

*Richard W. Clement*, Dean of Libraries

*Barry M. Franklin*, Secondary Education Program, history of education

*Christopher B. R. Pelling*, Regius Professor of Greek, Oxford University: Classics

**Senior Lecturer**

*Denise O. Conover*, American diplomatic history, U.S. military, American civilization

**Lecturer**

*Eric Kimball*, early American history, slavery and abolition, Atlantic history

**Adjunct Assistant Professors**

*Daniel M. Davis*, photograph curator, U.S. West

*H. Bert Jenson*, associate librarian

*Stephen C. Sturgeon*, manuscript curator, Twentieth Century U.S. West, political, environmental history

**Adjunct Instructor**

*Robert E. Parson*, University Archivist, Special Collections and Archives

**Trustee Professor Emeritus**

*Anne M. Butler*, U.S. West, U.S. Women

**Professors Emeritus**

*William F. Lye*, Africa, India, Canada

*Michael L. Nicholls*, early American history

*F. Ross Peterson*, U.S. modern political history, Black history

## Undergraduate Program

### Overview

Utah State University's Honors Program, established in 1964, provides an enhanced academic environment for highly motivated undergraduates. The Honors Program cultivates a community of scholars whose curiosity, creativity, and enthusiasm for learning foster educational achievement and personal growth.

Honors offers students intensive seminars, experimental classes, interdisciplinary courses, writing projects, leadership opportunities, and special activities. Participants may define independent study programs and design special research projects. Honors students work in close contact with professors in smaller classes; they pursue studies in greater depth than regular classes would allow. Participants also enjoy the company of other committed students who encourage and support one another's intellectual growth and productivity. Honors students participate actively in their own education.

Honors serves students who work hard, raise questions, and seek answers. It is designed for students who want to go beyond minimum requirements and narrow specialties. The program benefits those who want to make the most of their university experience.

The Honors program maintains strict standards for both entering and completing its program. However, there are no extra fees to pay, and there are Honors options suitable for entering freshmen, continuing students, and transfer students. The most important criterion for success is a student's motivation and dedication to learning.

### Entrance to the Honors Program

The Utah State University Honors Program admits students based on application. Students are asked to complete an application that includes an essay, a questionnaire on academic achievement, and a resume. The application is available on the Honors Program website: <http://honors.usu.edu/>

Students will be selected on the basis of: (1) overall academic achievement and promise, (2) extra-curricular and leadership activities, and (3) an essay.

Current and transfer students are also invited to apply. There are Honors options appropriate for students with three to four semesters remaining in their degree programs. For an application, contact the Honors Program or visit the website at: <http://honors.usu.edu/>

### Participation in Honors

To be eligible for entrance into Honors, a student must have a GPA of at least 3.50 and must complete an application. For most majors, to maintain eligibility and to graduate in Honors, a student must not allow her or his GPA to drop below 3.30. The Honors Office places students with a GPA of less than 3.30 on probation. A student with a GPA of less than 2.50 will be dropped from the program. Reinstatement may be requested if the GPA is raised to 3.30 or higher. Honors students must also register for one Honors class per semester in order to remain active in the program.

### Honors Degrees

Utah State University offers Honors degrees designed to fill a variety of student needs. Students may work toward one of three degree options:

1. **Departmental Honors.** Requires 15 semester credits as specified in a Departmental Honors plan, including a senior thesis/project.
2. **Departmental Honors with Honors in University Studies.** Requires 27 semester credits including 12 credits from the *Honors Course List* and at least 15 credits, including Honors senior thesis/project credits, in an approved Departmental Honors Plan.
3. **University Honors.** Requires 27 semester credits including at least 12 credits from the *Honors Course List* and as many as 15 credits, including Honors senior thesis/project credits, in an upper-division plan of study that has been approved by the Honors Director.

### Listing of Honors Courses

Class offerings change frequently. For the most complete list, see the *Honors Course List* available on the Honors Program website: <http://honors.usu.edu/>

### Course Descriptions

Honors (HONR), page 581

# Department of Instructional Technology and Learning Sciences

**Department Head:** Mimi Recker  
**Location:** Emma Eccles Jones Education 215A  
**Phone:** (435) 797-2692  
**FAX:** (435) 797-2693  
**E-mail:** mimi.recker@usu.edu  
**WWW:** <http://itls.usu.edu/>

**Degrees offered:** Master of Education (MEd), Master of Science (MS), Educational Specialist (EdS), Doctor of Philosophy (PhD) in Instructional Technology

**Graduate specializations:** *MEd*—Educational Technology, Information Technology and School Library Media Administration; *MS* and *EdS*—Instructional Development for Training and Education

## Undergraduate Programs

### Objectives and Requirements

There is no major in instructional technology at the undergraduate level because of the need for those preparing in the field to have especially strong general education knowledge as well as depth in a specialized field of study. The minors include **School Library Media** and **Multimedia Development**. The objectives and requirements of these minors are as follows:

#### School Library Media Minor Objectives

1. Provides students with library media skills.
2. Prepares students to receive a Utah Library Media Endorsement.
3. Prepares students for employment as a School Library Media Specialist.

#### School Library Media Minor Requirements

This minor is delivered through distance education. Those persons wanting endorsement for positions in the public schools must have or be working toward a valid Utah teaching license and the prescribed School Library Media minor. A 2.7 grade point average is required for admission and endorsement as a school library media specialist at the bachelor's level. For detailed requirements, contact the department.

#### Multimedia Development Minor Objectives

1. Provides students with design skills.
2. Develops students' multimedia production skills.
3. Prepares students for employment in the multimedia field.

#### Multimedia Development Minor Requirements

Persons not seeking a public school position may elect the minor in Multimedia Development, in conjunction with a major in other fields. The Multimedia Development minor is especially appropriate for fields which require computer-based instruction, such as business, computer science, engineering, communications, and others. For detailed requirements, contact the department.

## Graduate Programs

Instructional technology is a systematic way of analyzing, designing, developing, implementing, and evaluating the processes of learning and teaching with specific objectives based on research in human

learning and communication. It employs a combination of human and nonhuman resources to bring about more effective instruction. Instructional technology includes aspects of instructional design, product development, interactive learning technologies, multimedia, distance education, and library and information literacy. Each aspect of the field has unique contributions to make to the teaching-learning process.

The department offers specializations in Educational Technology, Information Technology and School Library Media Administration, and Instructional Development for Training and Education. A program emphasis in online learning communities in education and training is also offered.

Graduates are in demand in business and industrial settings, as well as in education, because of their preparation in training and instructional design. Admission to the graduate program is open to all students regardless of their undergraduate preparation.

### Admission Requirements

See general admission requirements, pages 36-37. The MS and MEd admission requirements include a 3.0 GPA for the last 60 semester credits (90 quarter credits) and an MAT score or GRE verbal and quantitative scores at or above the 40th percentile. In addition, the department requires that those applying for the EdS program have a master's degree, and a score at or above the 40th percentile on the verbal/quantitative tests of the GRE or 46 percent or above on the MAT. Those applying for the PhD program must have GRE verbal and quantitative test scores at or above the 40th percentile. Demonstrated writing and computer proficiency is required of all applicants. A minimum score of 213 computerized or 550 paper/pencil on the TOEFL is required for all prospective international students.

Applications for MS, EdS, and PhD degree programs must be submitted to the School of Graduate Studies by January 31. Applications for MEd programs must be submitted to the School of Graduate Studies by May 15. Space permitting, additional qualified candidates will be considered until the beginning of summer semester. Students who wish to be considered for financial aid must submit applications by January 31 for the coming academic year. All graduate students are expected to begin their programs in the fall semester.

Applicants for the EdS and PhD programs who do not hold a master's degree in Instructional Technology must complete additional course requirements.

**No applications will be considered until all required information is received by the School of Graduate Studies.**

### Degree Programs

#### Master of Science (MS)

This degree emphasizes instructional design and development, and prepares the graduate with skills to apply principles of instructional systems design to education and training. The program prepares instructional developers to take positions in corporate training programs in business and industry. It also leads to careers in public and higher education, development of interactive learning technologies, telecommunications, distance education, and adult education.

The MS degree is available to qualified students with bachelor's degrees from any field. Undergraduate students planning in advance for an MS in Instructional Technology should consider the department's Multimedia Development minor as part of their bachelor's program.

# Department of Instructional Technology and Learning Sciences

## Master of Education (MEd)

This master's program is only available through distance education via distance delivery methods. The MEd degree is a two-year cohort rotation (i.e., students proceed as a group through the two-year program). To be successful in this master's degree program, students should own or have access to a personal computer. They will also need a USU e-mail address and internet access in order to communicate with faculty members and other students in the program. Persons choosing the MEd have two specializations available:

**Educational Technology and Information Technology and School Library Media Administration.** A **Distance Learning Endorsement** is also available within the MEd. Students accepted to the MEd may also choose certain electives from the Administrative Supervisory Certificate (ASC) program. They may then apply for acceptance to the ASC.

The **Educational Technology** specialization is directed at public school educators and administrators who are interested in applying the principles of educational technology to the teaching/learning process. This specialization may lead to a position as a district-level or building-level educational technology specialist responsible for technology integration and in-service training related to computers and other technologies.

The **Information Technology and School Library Media Administration** specialization is directed at persons seeking employment in a school library media center. Students seeking this specialization must complete the School Library Media minor (delivered through distance education) and apply for a Utah State Library Media Endorsement. This specialization may lead to a position as a district-level or building-level school library media specialist (K-12). The library media specialist is prepared to apply principles of library and information technology to help students and teachers. The library media specialist also understands the effective use of learning resources in the teaching/learning process.

The goal of the **Distance Learning Endorsement Program** is to provide public school educators with the knowledge and skills they need in order to be effective teachers of students who are participating in distance education programs. To prepare them for meeting the challenges of teaching and learning at a distance in the K-12 setting, the program aids master teachers in becoming (1) effective communicators with distant learners across the barriers of time and distance, and (2) proficient users of telecommunications technologies in instruction. Students can apply for the State Distance Learning Endorsement.

## Educational Specialist Degree (EdS)

The Educational Specialist degree is intended for students interested in acquiring advanced skills in instructional technology beyond those of the master's degree. This program involves coursework, independent study, practicum experiences, and a culminating experience. The degree requires a minimum of 30 credits beyond the master's degree, providing the master's degree was received in the instructional technology field. For students with a master's degree in a field other than instructional technology, a minimum of 40 credits is required.

## Doctoral Degree (PhD)

The doctor of philosophy degree emphasizes research and theory building in instructional design and development. The degree offers advanced preparation for graduates seeking a career in higher education, research centers, or corporate training and development.

## Course Requirements

Course requirements for all degrees are dependent upon the area of emphasis and are individually planned by the student and the supervisory committee. For planning materials and program details, contact the department.

## Financial Assistance

Fellowships, assistantships, and other financial support are available and awarded on a competitive basis. Apply through the department.

## Instructional Technology and Learning Sciences Faculty

### Professors

*Byron R. Burnham*, Dean, School of Graduate Studies; adult learning  
*J. Nicholls Eastmond, Jr.*, theory and evaluation  
*Mimi Recker*, cognitive modeling, interactive learning

### Adjunct Associate Professor

*Michael K. Freeman*, educational leadership

### Assistant Professors

*Brian R. Belland*, scaffolding, problem-based learning, psychometrics, STEM education, service learning, technology integration  
*Joanne P. Bentley*, learning theory and evaluation  
*Anne R. Diekema*, information retrieval, digital libraries, metadata, evaluation  
*Yanghee Kim*, human/computer interaction in learning systems with an emphasis on pedagogical agents, intelligent tutoring systems, instructional design, learning theory, teacher education with an emphasis on technology integration  
*Victor R. Lee*, visual representations, curriculum design, cognitive science, everyday and intuitive reasoning, conceptual change  
*Brett E. Shelton*, immersive technologies, cognitive studies  
*Andrew E. Walker*, collaborative information filtering and problem-based learning, situated cognition  
*David A. Wiley*, learning objects, instructional design theory

### Adjunct Instructors

*JaDene M. Denniston*, school library media  
*Kevin L. Reeve*, distance education

### Lecturer

*Sheri Haderlie*, Instructional Technology and Learning Sciences  
Department Outreach Program Manager

### Professors Emeritus

*Alan M. Hofmeister*, research  
*M. David Merrill*, instructional design  
*Don C. Smellie*, foundations  
*Ron J. Thorkildsen*, research and interactive learning  
*R. Kent Wood*, theory, foundations

### Associate Professors Emeritus

*J. Steven Soulier*, message design, computer applications  
*Linda L. Wolcott*, distance education, library media, and foundations

# Intensive English Language Institute

**Director:** Ann E. Roemer  
**Location:** Main 071  
**Phone:** (435) 797-2051  
**FAX:** (435) 797-4050  
**E-mail:** ann.roemer@usu.edu  
**WWW:** <http://www.usu.edu/ieli/>

**Assistant Director:**  
James E. Bame, Main 077, (435) 797-3908, jim.bame@usu.edu

**IELI Undergraduate and Graduate Advisor:**  
Margaret Garr, Main 069A, (435) 797-2081, m.garr@usu.edu

## Objectives

The Intensive English Language Institute (IELI) is an academic program in the College of Humanities, Arts and Social Sciences. IELI teaches international students, residents, and refugees the English skills and cultural knowledge they need to be successful university students. IELI also trains international teaching assistants (ITAs) for USU. Information about the ITA training is available through the School of Graduate Studies.

The IELI program accepts students seeking a degree at Utah State University, as well as students who want to study English for personal or professional reasons. Students may enroll to study *only* English.

Undergraduate students who apply to USU without a TOEFL score of at least 500 paper/pencil or 61 on the iBT (Internet-based test); and graduate students applying without a minimum TOEFL score of 550 paper/pencil or 79-80 on the iBT must take the IELI Placement Examination, given the first day of each semester, including the first day of the IELI summer session. Based on the examination results, students will be required to study in the IELI or be exempted from further study and permitted to take classes in their major fields. In lieu of the TOEFL, students can submit a minimum IELTS score of 5 (undergraduate students) or 6 (graduate students).

**Note:** The minimum TOEFL and IELTS scores acceptable for undergraduate students entering USU during the 2010-2011 academic year will be raised to 525 paper/pencil, iBT 71, and IELTS 6.0 (with a minimum of 5.0 on each sub-scale).

## Curriculum

Four levels of study are offered each semester. The ability levels of classes range from high-beginning through advanced. Several of the level 1 and 2 classes are combined into multilevel classes. Classes focus on listening, speaking, reading, writing, and cultural skills. In addition, there are topics courses, covering topics ranging from current events and the environment to academic literacy and the cultures of the U.S. Students must complete one topics course for every level they study in the IELI program.

Students advance from one level of a class to the next higher level by obtaining a grade of C- or higher in the lower-level class. Students who do not obtain a C- or higher in a class must repeat the class. Students who complete all level 4 classes with a C- or higher may begin taking courses outside of IELI. Students at level 4, who have less than a full course load remaining in IELI, must take other University credits sufficient to stay in status with visa requirements. Exceptions to this policy must be approved by the director of IELI in consultation with students' major field advisors and the Office of International Students and Scholars.

## Credit for Intensive English Study

Classes in IELI carry academic credit. Full-time students at each level take 18 credits per semester. A student who begins IELI at level 1 and progresses to level 4 may earn a total of 72 undergraduate elective credits. While all the credits will appear on a student's transcript, a maximum of 18 can be counted toward graduation. Application of the 18 credits will be determined by the student's college and major department. Students must, therefore, meet with their departmental advisors to determine the role of IELI credits in their graduation requirements.

## Services

New students in IELI take the Placement Examination and attend an orientation meeting prior to the beginning of each semester. All students are assigned an advisor in IELI who helps them with various difficulties they may encounter. In addition, all the services and privileges offered to students on campus are available to IELI students. These services include health care clubs, recreational opportunities, and numerous special programs for international students.

## Intensive English Language Institute Faculty

### Associate Professors

*Franklin I. Bacheller*  
*James E. Bame*  
*Glenda R. Cole*  
*Ann E. Roemer*

### Emma Eccles Jones College of Education and Human Services

Terri Gass, (435) 797-1443, terri.gass@usu.edu

### College of Humanities, Arts, and Social Sciences

Mary Leavitt, (435) 797-3883, mary.leavitt@usu.edu

### College of Natural Resources

Maureen Wagner, (435) 797-2448, maureen.wagner@usu.edu

### College of Science

Richard Mueller, (435) 797-2479, rmueller@biology.usu.edu

**Degrees offered:** Bachelor of Science (BS) and Bachelor of Arts (BA)

## Objectives

The organization of academic departments and their associated degree programs reflects the history and traditions of study in those fields. The Interdisciplinary Studies major is intended to serve the needs of students who want to design a unique individualized academic program, obtain a broadly-based education, and diversify their professional potential. The degree is not intended to replace existing majors or curricula. Rather, it is designed to provide the *small number* of students whose degree needs cannot be met with other majors with a program which is less restrictive and more responsive to their individual plans and interests. Students who complete their programs will receive the Bachelor of Science or (if they meet the language requirement) the Bachelor of Arts degree. **The degree cannot be used as part of a dual major.**

The Interdisciplinary Studies major is available through the following five colleges: Agriculture; Education and Human Services; Humanities, Arts, and Social Sciences; Natural Resources; and Science. However, the major is *not* available to students enrolled in the Huntsman School of Business, the College of Engineering, or the Department of Computer Science. The Interdisciplinary Studies degree is also available through the University's Regional Campuses and Distance Education centers.

Students who think the Interdisciplinary Studies major may be right for them, but are not sure, should ask themselves the following questions:

1. Students must have a minimum of 45 semester credits completed before the major may be declared. Do I have 45 or more semester credits on my transcript? If not, how close am I?
2. Interdisciplinary Studies **cannot** duplicate existing majors. Have I explored the educational opportunities at USU? Have I reviewed the *General Catalog* to see what is already available at USU? Have I visited Career Services (University Inn 102) to explore career development programs? Why don't any of the existing majors meet my needs?
3. Which areas of study am I proposing to combine? Do they logically go together? Does USU offer the areas of study I am proposing to combine? What would the program I am proposing lead me to? Are there job opportunities out there?
4. If my degree crosses two or more colleges, which college would I propose to serve as the lead college?

If, after reviewing the above, students feel that they have a unique interest in a subject matter and USU can help, this may be the right major for them. Interested students should make an appointment with the advising center in the college from which the degree will be awarded.

## Admission Requirements

Students may apply for admission to the Interdisciplinary Studies major after completing 45 credits with a minimum GPA of 2.0, submitting an Application for Interdisciplinary Studies, and receiving approval for the Application.

Transfer students from other institutions or from other USU majors need to complete a minimum of 45 credits, achieve the required GPA, and have an approved Application for Interdisciplinary Studies for admission to this major in good standing.

Students who wish to pursue the degree must submit a letter of application containing the following information:

1. A clear statement of the student's educational objectives.
2. A proposed program of study including specific courses and listing the faculty member the student proposes to work with on the final thesis or project.
3. A brief statement explaining why the student feels the proposed program is worthy of a college degree.

A current unofficial transcript must be attached to the application. The application should be discussed with and reviewed by the student's major advisor.

## Requirements

Students will work with a faculty member or members who will assist in course selection and will oversee the successful completion of the 45 credits in the program. Courses selected must provide coherent, carefully planned programs of study in the area of interest, which must involve two or more disciplines. Courses used for University Studies Breadth Requirements and courses used for Depth Humanities and Creative Arts (DHA), Depth Life and Physical Sciences (DSC), and Depth Social Sciences (DSS) may be counted toward the degree *only with the permission of the college advisor*. However, courses meeting the Communications Intensive (CI) and Quantitative Intensive (QI) requirements may be applied toward requirements for the Interdisciplinary Studies degree.

Courses used to meet the 45-credit minimum requirement may come from any department, with the following restrictions:

1. At least 21 of the 45 credits **must** be numbered 3000 or above.
2. Courses used for the major must include **at least 15 credits each** from two different disciplines. A maximum of 3 internship credits may be counted toward the major. **Note:** Some colleges may require that *more than 15 credits* counted toward the major be taught by departments within their college; check with the college advisor for further information.
3. The coursework must focus on an overarching theme and must be consistent with the student's educational and career goals.

# Interdisciplinary Studies Major

---

4. As part of the 45 credits, students must complete a 3-credit senior project, thesis, or capstone course supervised by their faculty advisor.
5. Students must pass every course approved for the program of study and must earn a composite GPA of at least 2.0 in the 45 credits of coursework used for the major. **Note:** Some colleges may have a higher GPA requirement; check with the college advisor for further information.
6. Courses used for the major may be used for a minor or to fill University Studies Breadth requirements *only with the permission of the college advisor.*

## Additional Information

Students interested in the Interdisciplinary Studies degree should contact the advising center in the college from which the degree will

be awarded. Students who would like to explore the degree, but are unsure which college they should enroll in, may discuss their interests with an advisor in the Office of University Advising, (435) 797-3373.

Students exploring whether or not the Interdisciplinary Studies major is right for them should review the major requirement sheet, which can be found online at: <http://www.usu.edu/majorsheets/>

For students pursuing the Interdisciplinary Studies major, the requirement sheet provides details of major requirements, as well as a worksheet for students to record their progress toward fulfilling major requirements.

## Course Description

Interdisciplinary Studies (ITDS), page 589

# Interior Design Program

**Program Director:** JoAnn Wilson  
**Location:** Family Life 320A  
**Phone:** (435) 797-1557  
**FAX:** (435) 797-8245  
**E-mail:** interiors@cc.usu.edu  
**WWW:** <http://interiordesign.usu.edu/>

**Academic Advisor:** Mary E. Leavitt, Taggart Student Center 302/  
Family Life 320H, (435) 797-3883, [mary.leavitt@usu.edu](mailto:mary.leavitt@usu.edu)

**Degrees Offered:** Bachelor of Interior Design (BID);  
Bachelor of Science (BS) and Bachelor of Arts (BA) in Interior Design,  
Sales and Marketing; Master of Science (MS) in Human Environments,  
with a specialization in Interior Design

## Overview

The program in interior design includes a Bachelor of Interior Design (BID); a BS and BA in Interior Design, Sales and Marketing; and an MS in Human Environments with a specialization in Interior Design. These degrees have been developed to prepare students for entry into the varied professions of interior design. Students identify, research, and creatively solve problems pertaining to the function and quality of the interior environment. Students also gain an understanding of the legal and ethical issues that guide and direct the profession.

An interior designer renders professional services with respect to both commercial and residential spaces. These services include programming, design analysis, space planning, aesthetics, interior construction, drafting, building codes, equipment, materials, and furnishings, in order to protect the health, safety, and welfare of the public.

## Undergraduate Programs

The Interior Design Program provides foundation training and technical skill building during the freshman and sophomore years. This is followed by a review process which determines the degree the student will pursue. The two available degrees are (1) **Bachelor of Interior Design (BID)** and (2) **BS or BA in Interior Design, Sales and Marketing**.

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school. Minimum GPA requirements for participation in departmental honors vary by department, but usually fall within the range of 3.30-3.50. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level. The campus-wide Honors Program, which is open to all qualified students regardless of major, offers a rich array of cultural and social activities, special classes, and the benefit of Honors early registration. Interested students should contact the Honors Program, Main 15, (435) 797-2715, [honors@usu.edu](mailto:honors@usu.edu). Additional information can be found online at: <http://www.usu.edu/honors/>

## Course Requirements

**Minimum GPA for Admission:** Any student admitted to USU may take lower-division Interior Design classes.

**Additional Matriculation Requirements:** Each student must submit an application packet during April of his or her freshman/first year, which will be used to determine which students may matriculate into the program. **Transfer students who desire to enter the program are also required to submit an application packet for review during April of the year they would like to matriculate.** All students desiring to continue into the sophomore/second year classes in the Interior Design Program are required to submit a portfolio for review to determine placement into either the BID degree or the BS or BA in Interior Design, Sales and Marketing.

**Minimum GPA for Graduation:** 2.5, major; 2.0, Career

**Minimum Grade Accepted:** C in major requirements:  
*BID Degree*—MGT 2050, PHIL 3810, ID courses;  
*BS or BA in Interior Design, Sales and Marketing*—  
OSS 2800, MGT 2050, 3110, 3500, 3510, 3710, PHIL 3810,  
ID courses

These are sample plans. They outline University and major requirements in very general terms. While there are requirements that are sequential, many are flexible and do not need to be completed exactly in the order listed. Students should always check with their faculty and professional advisors to be sure they are meeting the requirements appropriately. To make an appointment with a professional advisor, call (435) 797-3883.

### All Majors

#### Freshman Year (32 credits)

##### Fall Semester (16 credits)

ID 1700 Interior Design Professional Seminar .....	1
ID 1750 (BCA) Design in Everyday Living .....	3
ID 1770 History of Interior Furnishings and Architecture I .....	3
ENGL 1010 (CL1) Introduction to Writing: Academic Prose .....	3
ART 1120 Two-dimensional Design (or Interior Design substitute course approved by advisor).....	3
University Studies Breadth course .....	3

##### Spring Semester (16 credits)

ID 1700 Interior Design Professional Seminar .....	1
ID 1780 History of Interior Furnishings and Architecture II .....	3
ID 1790 (BCA) Interior Design Theory .....	3
ART 1020 Drawing I (or Interior Design substitute course approved by advisor).....	3
University Studies Breadth course .....	3
University Studies Quantitative Literacy (QL) course .....	3

Submit first-year application packet.

Complete the CIL exams by the end of the freshman year.

#### Sophomore Year (26 credits)

##### Fall Semester (13 credits)

ID 1700 Interior Design Professional Seminar .....	1
ID 2710 Architectural Graphics I .....	3
ID 2750 Computer Aided Drafting and Design I .....	3
ENGL 2010 (CL2) Intermediate Writing: Research Writing in a Persuasive Mode .....	3
Creative Elective course(s) (see advisor for list of approved courses).....	3

# Interior Design Program

## Spring Semester (13 credits)

ID 1700 Interior Design Professional Seminar .....	1
ID 2730 Interior Space Planning and Human Dimensions .....	3
ID 2760 Computer Aided Drafting and Design II .....	3
ARTH 2720 (BHU) Survey of Western Art: Renaissance to Post-Modern .....	3
University Studies Breadth course .....	3

## Bachelor of Interior Design (BID)

### Junior Year (32 credits)

#### Fall Semester (14 credits)

ID 1700 Interior Design Professional Seminar .....	1
ID 3730 (QI) Interior Materials and Construction .....	3
ID 3760 Commercial Design Studio .....	4
ID 3790 Architectural Systems .....	3
University Studies Breadth course .....	3

#### Spring Semester (14 credits)

ID 1700 Interior Design Professional Seminar .....	1
ID 3770 Residential Design Studio .....	4
ID 3780 Design Detailing .....	3
PHIL 3810 Aesthetics .....	3
University Studies Breadth course .....	3

#### Summer Semester (4 credits)

ID 4710 Interior Design Advanced Internship I .....	4
---	---

### Senior Year (31 credits)

#### Fall Semester (16 credits)

ID 1700 Interior Design Professional Seminar .....	1
ID 4750 Senior Design Studio I .....	3
MGT 2050 Legal and Ethical Environment of Business .....	3
Depth Communications Intensive (CI) course .....	3
Depth Life and Physical Sciences (DSC) course .....	3
Creative Elective course (see advisor for list of approved courses) .....	3

#### Spring Semester (15 credits)

ID 1700 Interior Design Professional Seminar .....	1
ID 4740 (CI) Business and Professional Practices in Interior Design .....	3
ID 4760 Senior Design Studio II .....	3
ID 4770 Senior Exhibit .....	1
Depth Social Sciences (DSS) course .....	3
Upper-division elective course(s) .....	4

## BS or BA in Interior Design, Sales and Marketing

### Junior Year (33 credits)

#### Fall Semester (16 credits)

ID 1700 Interior Design Professional Seminar .....	1
ID 3730 (QI) Interior Materials and Construction .....	3
ID 3790 Architectural Systems .....	3
MGT 2050 Legal and Ethical Environment of Business .....	3
MGT 3110 (DSS) Managing Organizations and People .....	3
University Studies Breadth course .....	3

#### Spring Semester (13 credits)

ID 1700 Interior Design Professional Seminar .....	1
MGT 3510 Fundamentals of Entrepreneurship .....	3
MGT 3710 Developing Team and Interpersonal Skills .....	3
PHIL 3810 Aesthetics .....	3
University Studies Breadth course .....	3

#### Summer Semester (4 credits)

ID 4710 Interior Design Advanced Internship I .....	4
---	---

### Senior Year (29 credits)

#### Fall Semester (14 credits)

ID 1700 Interior Design Professional Seminar .....	1
ID 4700 Topics in Interior Design .....	3
OSS 1550 (CI) Business Correspondence .....	3
Depth Life and Physical Sciences (DSC) course .....	3
Creative Elective course(s) (see advisor for list of approved courses) .....	3
Upper-division elective course .....	1

#### Spring Semester (15 credits)

ID 1700 Interior Design Professional Seminar .....	1
MGT 3500 Fundamentals of Marketing .....	3
OSS 2800 Principles of Selling .....	2
Upper-division elective courses .....	9

## Freshman/First-Year Application Packet

All Interior Design students (i.e., freshmen and transfer students) must submit an application packet. The application packet assesses basic skills and creativity. Acceptance of students into the Interior Design Program will allow them to register for Architectural Graphics I (ID 2710) and Computer Aided Drafting and Design I (ID 2750). The application packet, detailed instructions, and submission information can be found online at: <http://interiordesign.usu.edu/>

## Laptop Computer Requirement

It is *strongly recommended* that freshmen have a laptop computer. Students entering sophomore-level interior design courses must have their own laptop computer. Specifications for the laptop will be provided by the Interior Design Program. Computer specifications can be found at: <http://interiordesign.usu.edu/>. Required software will be made available through a special leasing program.

## Sophomore Review/Second-Year Review

In addition to basic undergraduate and graduate requirements set forth in this catalog, students in Interior Design must participate in a Sophomore Review in order to matriculate to junior class standing. The review takes place during the spring semester of a student's sophomore year in the program. Students wishing to enroll in junior-level courses must submit projects from as many of the following courses as possible: ID 1740, 1760, 1790, 2710, 2720, 2730, 2750, 2760; ART 1020, 1120; and one elective art skills class.

Selection is based on a letter of intent; a portfolio demonstrating creative potential, problem solving skills, and graphic fluency; and cumulative GPA from ID required courses.

Students accepted into the advanced courses will be placed into *either* the Studio Interior Design (BID) degree *or* the Interior Design, Sales and Marketing (BS or BA) degree. The final selection of students to matriculate to the upper division is a decision of the ID faculty.

If a student who has been approved to take classes stops out of the program, he or she will be readmitted if space is available. Students may also be asked to resubmit their portfolio. Due to space limitations, first preference will be given to students with continuous registration in the program.

# Interior Design Program

---

## Tours

Students need to be more aware of their historical and contemporary surroundings. When students are exposed to design and culture outside of the state, their world views expand. Directly applying these influences will improve their design skills.

The Interior Design Program sponsors a national or international design tour every other year. These tours include a variety of learning and teaching opportunities, which include individual and group tutorials, projects, seminars, lectures, and visits to museums, galleries, and studios. Students receive credit for these tours through the Interior Design Travel Course (ID 4780). Students should participate in at least one travel event while enrolled in the program.

## Interior Design Programmatic Learning Objectives

1. Students will research and apply elements and principles of interior design.
2. Students will interact and apply design skills in collaborative and professional environments.
3. Students will be given a base from which to specify appropriate materials and products for interior environments.
4. The program will prepare students for activities involving laws, codes, and best sustainability and environmental practices.
5. The program will provide educational and technical curriculum that addresses Council for Interior Design Accreditation (CIDA) standards.

## Assessment

Every six years, the Interior Design Program undergoes a rigorous accreditation assessment by the program's national accreditation board, the Council for Interior Design Accreditation (CIDA). CIDA learning objectives are incorporated into course content, and are also explained and mapped in the accreditation section of the Interior Design website. See **Learning Objectives** link and **Mapping** link at: <http://interiordesign.usu.edu/assessment.htm>

The Interior Design Program's learning objectives are in accordance with national CIDA standards. Assessing whether or not objectives have been met involves analysis of curriculum, syllabi, project demonstrations or briefs, handouts, and blank exams, as well as reviews of student work.

## Additional Information

Major requirement sheets, which provide detailed information about requirements for the Interior Design major, can be obtained from the Interior Design Program, or online at: <http://www.usu.edu/majorsheets/>

## Graduate Program

The Master of Science in Human Environments with a specialization in Interior Design allows students to pursue a variety of personal research interests, such as sustainability, LEED (Leadership in Energy and Environmental Design) certification, historic preservation, residential design, marketing and analysis of interior design products and services, etc.

Human Environments is the study of the circumstances, objects, or conditions by which one is surrounded. The MS program prepares students for the challenges of the human environmental needs of the future.

## Interior Design Faculty

### Associate Professor

*JoAnn Wilson*, Director of Interior Design Program

### Assistant Professor

*Darrin S. Brooks*, residential design and interior history

### Lecturers

*Steven R. Mansfield*, architecture and computer aided design

*Susan Tibbitts*, architectural graphics, sales and marketing

**E-mail:** veronica.ward@usu.edu  
**WWW:** <http://politicalscience.usu.edu/>

**Advising:** Political Science Department, Main 320, (435) 797-1306

**Degree offered:** Bachelor of Arts (BA)

**Area Options:** World Economy and Development, Peace and Security, Global Environment and Natural Resources, and Peoples and Nations

## Admission Requirements for this Major

1. New freshmen admitted to USU in good standing qualify for admission to this major.
2. Transfer students from other institutions or from other USU majors need a 2.5 total GPA for admission to this major in good standing.

## Overview

Problems of security, development, ethnic conflict, and human rights, as well as problems relating to the environment and natural resources, are increasingly confronted at a global rather than a national level. With its theoretical models and real-world application, the study of international studies is an exciting and highly relevant interdisciplinary major. This program cultivates the development of language and intercultural skills, develops understanding of global problems and circumstances, and expands the student's capacity to make informed judgments regarding complex international and global issues.

## Requirements

In addition to completing the necessary core courses listed below, students must also choose **one area option** from one of the four available options. Through these options, students gain a level of expertise in their chosen area.

Each student must also complete a senior research project (3 credits). This project must fit within the area option chosen by the student. Under the direction of a faculty member, this project may be completed within the context of an existing course, or may be completed independently under the guidance of the chosen faculty member.

In addition to the senior research project and the choice of one area option, students must also complete an international experience component. Students may choose a traditional study abroad experience in an accredited program, which must be approved by the international studies advisor. Students may also choose an internship. The internship must have a clear international focus and must be supervised by the international studies advisor, who must approve proposals for internships. Students may count a total of 3 credits earned during an internship toward completion of the major.

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of

close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school. Minimum GPA requirements for participation in departmental honors vary by department, but usually fall within the range of 3.30-3.50. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level. The campus-wide Honors Program, which is open to all qualified students regardless of major, offers a rich array of cultural and social activities, special classes, and the benefit of Honors early registration. Interested students should contact the Honors Program, Main 15, (435) 797-2715, [honors@usu.edu](mailto:honors@usu.edu). Additional information can be found online at: <http://www.usu.edu/honors/>

## Graduation Requirements

### International Studies Major (39 credits minimum) (3.0 GPA)

**Minimum GPA for Admission:** 2.5, Career  
**Minimum GPA for Graduation:** 3.0, major courses; 2.0, Career  
**Minimum Grade Accepted:** C- in major requirements

#### A. Core Courses (15 credits)

**ANTH 1010 (BSS)** Cultural Anthropology (F,Sp) (3 cr) **or**  
**ANTH 2010 (BSS)** Peoples of the Contemporary World (Sp) (3 cr) ..... 3  
**ECN 1500 (BAI)** Introduction to Economic Institutions, History, and Principles (F,Sp,Su) (3 cr) **or**  
**ECN 3400 (DSS)** International Economics for Business (F,Sp,Su) (prereq: APEC/ECN 2010) (3 cr) ..... 3  
**GEOG 1300 (BSS)** World Regional Geography (F) ..... 3  
**HIST 1500 (BHU)** Cultural and Economic Exchange in the Pre-Nineteenth Century World (F,Sp) (3 cr) **or**  
**HIST 1510 (BHU)** The Modern World (F,Sp,Su) (3 cr) ..... 3  
**POLS 2100** Introduction to International Politics (F,Sp) ..... 3

#### B. Electives (6 credits)

Students may earn these credits by taking any of the courses listed in the four area options: (1) World Economy and Development, (2) Peace and Security, (3) Global Environment and Natural Resources, and (4) Peoples and Nations.

#### C. Language Requirement

Students must acquire at least a basic knowledge of one foreign language. Students must successfully complete one course at the 3000 level *or* (if this is not possible) receive a waiver from the international studies advisor.

#### D. Area Option Requirement (15 credits)

Students must choose *one* option from the four listed below. Students must complete courses from *at least two* different departments within their chosen option, for a total of 15 credits.

#### E. Senior Research Project (3 credits)

Each student must complete a senior research project which must fit within the area option chosen by the student.

# International Studies Major and Minor

## Area Options

### World Economy and Development

<b>ANTH/GEOG/SOC 5650 (DSS)</b> Developing Societies (F)	3
<b>ECN 5100</b> History of Economic Thought (Sp) (prereq: APEC/ECN 2010)	3
<b>ECN 5150 (DSS)</b> Comparative Economic Systems (F,Sp) (prereq: APEC/ECN 2010)	3
<b>ECN 5400</b> International Trade Theory (F) (prereq: ECN 4020; ECN 3010 or 4010)	3
<b>FIN 4300</b> International Finance (F,Sp)	3
<b>HIST 4610</b> Themes and Methods in Economic History	3
<b>MGT 3820 (DSS)</b> International Management (F,Sp)	3
<b>MGT 4590</b> Global Marketing Strategy (F,Sp) (prereq: MGT 3500, 4540, 4550)	3
<b>MGT 4890 (CI)</b> Business Strategy in a Global Context (F,Sp,Su) (prereq: senior standing; FIN 3400; MGT 3110, 3500, 3700)	3
<b>MIS 4550 (CI)</b> Principles of International Business Communications (Sp)	3
<b>PHIL 3520 (DHA)</b> Business Ethics	3
<b>PLSC 4300</b> World Food Crops and Cropping Systems: The Plants That Feed Us (F even)	3
<b>POLS 3100</b> Global Issues (F)	3
<b>POLS 5120</b> Economics of Russia and Eastern Europe, 9th Century to 21st Century (F)	3
<b>POLS 5210</b> Comparative Political Change/Development (F)	3
<b>POLS 5480</b> International Trade Policy (Sp)	3
<b>SOC 3600</b> Sociology of Urban Places (F)	3
<b>SOC 3610 (DSS)</b> Rural Sociology (F)	3
<b>SOC 4730</b> Women in International Development (Sp)	3

### Peace and Security

<b>GEOG/POLS 3430</b> Political Geography (Sp)	3
<b>HIST 3230</b> Early Modern Europe	3
<b>HIST 3240</b> Modern Europe from 1789 to the Present	3
<b>HIST 3310</b> Balkans Since 1389	3
<b>HIST 3410</b> The Modern Middle East	3
<b>HIST 3460</b> Comparative Asian History	3
<b>HIST 4290</b> Europe and the French Revolution, 1700-1815	3
<b>HIST 4310</b> History of Nationalism	3
<b>HIST 4390</b> British Imperialism from 1688 to the Present	3
<b>HIST 4810</b> American Military History	3
<b>HIST 4820</b> World War II in Europe (Sp)	3
<b>HIST 4821 (DHA)</b> World War II in Asia (Sp)	3

# International Studies Major and Minor

## Sample Four-year Plan for International Studies Major

A sample semester-by-semester four-year plan for students working toward a Bachelor of Arts degree in International Studies can be found at: <http://www.usu.edu/degreeplans/>

Students should consult with their advisor to develop a plan of study tailored to their individual needs and interests.

## International Studies Minor (18 credits) (3.0 minimum overall GPA)

### A. Core Courses (15 credits)

- ANTH 1010 (BSS)** Cultural Anthropology (F,Sp) (3 cr) **or**
- ANTH 2010 (BSS)** Peoples of the Contemporary World (Sp) (3 cr) ..... 3
- ECN 1500 (BAI)** Introduction to Economic Institutions, History, and Principles (F,Sp,Su) (3 cr) **or**
- ECN 3400 (DSS)** International Economics for Business (F,Sp,Su) (prereq: APEC/ECN 2010) (3 cr) ..... 3

- GEOG 1300 (BSS)** World Regional Geography (F) ..... 3
- HIST 1500 (BHU)** Cultural and Economic Exchange in the Pre-Nineteenth Century World (F,Sp) (3 cr) **or**
- HIST 1510 (BHU)** The Modern World (F,Sp,Su) (3 cr) ..... 3
- POLS 2100** Introduction to International Politics (F,Sp) ..... 3

### B. Electives (3 credits)

Any course listed in any of the four area options is acceptable.

## Additional Information

For detailed information about requirements for the International Studies major and minor, see the major requirement sheet, which can be obtained from the Political Science Department, or online at: <http://www.usu.edu/majorsheets/>

# Department of Journalism and Communication

**Interim Department Head:** Bradford "J" Hall

**Location:** Animal Science 310

**Phone:** (435) 797-3292

**FAX:** (435) 797-3973

**E-mail:** jcom@aggiemail.usu.edu

**WWW:** <http://www.usu.edu/journalism>

**Assistant Department Head:**

Penny M. Byrne, Animal Science 108A, (435) 797-3289,  
penny.byrne@usu.edu

**Degrees offered:** Bachelor of Science (BS) and Bachelor of Arts (BA) in Journalism; BS in Agricultural Communication and Journalism (offered jointly with Agricultural Systems Technology and Education Department, see pages 151-152); Master of Science (MS) and Master of Arts (MA) in Communication

**Note:** Applications for admission to the MS and MA degrees in Communication are not currently being accepted. For information about when they may be accepted, contact the Department of Journalism and Communication.

**Undergraduate emphases:** Broadcast/Electronic Media, Print Journalism, Public Relations/Corporate Communications

## Undergraduate Programs

### Objectives

The undergraduate major in the Journalism and Communication Department, leading to the Bachelor of Arts or the Bachelor of Science degree in Journalism, is designed to prepare students for careers in a wide range of communication fields, through instruction in the philosophical groundings, theoretical perspectives, and hands-on applications of communications skills and practice. The curriculum integrates practical mass communications skills training with critical thinking skills, while helping students to understand the processes and effects of communication, as well as the relationships, roles, and interactions of mass communication with other social institutions.

Attainment of the goals articulated in the Journalism and Communication Mission Statement requires that Journalism majors exhibit proficiency in the following areas:

1. **Journalism and Communication Skills:** Writing and verbal skills, information-gathering, fact-checking, the synthesis of ideas, and deductive logic.
2. **Technological Skills:** Both the ability to use effectively, as well as the knowledge of, current delivery systems for information and their impacts.
3. **Philosophical Grounding:** Understanding of the philosophical, historical, and ethical antecedents of modern mass journalism and communication practice in the context of the First Amendment and a free and open society, and how these lessons apply in day-to-day mass media practice for media producers and consumers.
4. **Critical Thinking:** The ability to evaluate mass media messages and campaigns, to understand how media and society interact, and the implications of that interaction.
5. **Professional and Personal Responsibility:** Affirmation of the individual's responsibilities as either a producer or consumer of information in a democratic mass media age.
6. **Market Savvy:** Exposure to real-world situations that instruct and demonstrate application of classroom lessons.

The Department of Journalism and Communication maintains professional studios and labs, designed to train students in various communications and journalism skills. These include the multimedia computer newsroom, a digital nonlinear video editing lab, a full TV studio, and a digital (Mac) photography lab. Students receive instruction in traditional journalistic basics, such as writing, information-gathering, reporting, and video production; in new technologies of online information gathering; and in critical-thinking skills of media literacy.

### Requirements

#### Course Requirements

Journalism majors must complete a minimum of 30 credits and a maximum of 36 credits (38 for Broadcast/Electronic Media emphasis) in Journalism and Communication courses, while pursuing one of the three course sequences outlined below. Of the 120 semester credits required for graduation from Utah State University, Journalism majors must complete at least 65 credits in other departments within the College of Humanities, Arts, and Social Sciences. In addition, majors must complete a minor/cognate area outside of the Journalism and Communication Department, selected with the approval of an advisor.

Therefore, the basic Journalism course of study is as follows: Journalism and Communication courses, 30-36 credits; General Education requirements, 27-31 credits; Depth Education requirements, 15 credits; courses in the minor/cognate area, 12-21 credits; electives from outside the Journalism and Communication Department, 17-33 credits; **Total Credits, 120.**

#### Major Status

Students may apply for major status upon completion of a minimum of 60 semester credits, including the Journalism Premajor Core requirements, while maintaining a 2.5 cumulative GPA. Students may declare themselves as Journalism Premajors at any time after their admission to the University. Majors must maintain a minimum 2.5 GPA, both overall and in the major. Students whose GPA drops below 2.5 will be placed on probation and may be dropped from the major if grades do not improve within one semester. All courses in the major must be taken for a grade (not *Pass-Fail*). Courses must be taken in sequence.

Students transferring from other institutions may be accepted into the major if they fulfill these requirements. Up to 9 transferred semester credits may count toward the major, if approved by an advisor.

The Department of Journalism and Communication, as well as Utah State University, allows students to take a class a *maximum* of three times. Failure to achieve the Journalism and Communication Department's minimum grade of C+ in three attempts in any of the three premajor core classes, or a minimum grade of C in any other JCOM course required for the major, will result in the student being dropped from the Journalism major.

Students attempting to register for any JCOM class for the third time will be required to meet with the department head, who will remind them of the three-and-out rule. Students will be asked to sign a form attesting to their understanding of this rule.

Students must complete the premajor core (JCOM 1130, 1500, and 2010) with a C+ or better before continuing in the Journalism major. Students lacking the minimum grades in the premajor core will be blocked from taking courses in the Broadcast/Electronic Media, Print Journalism, and Public Relations/Corporate Communications emphases.

# Department of Journalism and Communication

## Premajor Core Requirement (9 credits)

The following courses are required for all majors, and must be completed prior to application for major status:

<b>JCOM 1500 (BSS)</b> Introduction to Mass Communication (F,Sp) .....	3
<b>JCOM 1130</b> Beginning Newswriting for Mass Media (F,Sp,Su) .....	3
<b>JCOM 2010 (BSS)</b> Media Smarts: Making Sense of the Information Age (F,Sp).....	3

Prior to taking JCOM 1130, students must complete ENGL 1010, Introduction to Writing (or equivalent) and an English proficiency test. Passing scores on the Computer and Information Literacy (CIL) exams are also required prior to enrollment in JCOM 1130. Majors must complete each of the premajor requirements with a C+ or better.

## Major Requirements (6 credits)

The following courses are required for all majors after acceptance into the department:

<b>JCOM 2160 (CI)</b> Introduction to Online Journalism (F,Sp).....	3
(prereq: min of C+ in JCOM 1130, 1500, and 2010)	
<b>JCOM 4030</b> Mass Media Law (F,Sp).....	3
(prereq: junior standing or instructor's permission)	

## Emphasis Areas

Each student must select one of the following emphasis areas:

### Broadcast/Electronic Media Emphasis (30-38 credits)

**Minimum GPA for Admission:** 2.5, Career  
**Minimum GPA for Graduation:** 2.5, major courses; 2.5 USU; 2.5, Career  
**Minimum Grade Accepted:** C in major courses; C+ in JCOM 1130, 1500, and 2010

#### A. Premajor Core Requirements (9 credits)

Journalism majors must complete the Premajor Core Requirements *before* taking courses in section B below.

#### B. Broadcast/Electronic Media Requirements (12 credits)

<b>JCOM 2220</b> Introduction to Video Media (F,Sp).....	3
<b>JCOM 2230</b> Writing for Electronic Media (F).....	3
Additional major requirements (JCOM 2160, 4030) .....	6

#### C. Newscast or Corporate Video/Multimedia (6-8 credits)

Students should complete *one* of the two options of courses listed below.

<b>JCOM 4210 (CI)</b> Newscast I (F,Sp) (4 cr) <b>and</b> <b>JCOM 4220 (CI)</b> Newscast II (F,Sp) (4 cr).....	8
<b>Or</b> <b>JCOM 4230</b> Corporate Video (F,Sp) (3 cr) <b>and</b> <b>JCOM 5210</b> Website Design and Production (F,Sp) (3 cr).....	6

#### D. Communication Electives (3-9 credits)

Students should consult with their advisor to choose appropriate electives.

## Print Journalism Emphasis (30-36 credits)

**Minimum GPA for Admission:** 2.5, Career  
**Minimum GPA for Graduation:** 2.5, major courses; 2.0 USU; 2.0, Career  
**Minimum Grade Accepted:** C in major courses; C+ in JCOM 1130, 1500, and 2010

#### A. Premajor Core Requirements (9 credits)

Journalism majors must complete the Premajor Core Requirements *before* taking courses in section B below.

#### B. Print Journalism Requirements (15 credits)

<b>JCOM 2170 (CI)</b> Reporting Public Affairs (F,Sp) .....	3
<b>JCOM 3110 (CI)</b> Beyond the Inverted Pyramid (F,Sp) .....	3
<b>JCOM 3120 (CI)</b> Copy Editing and Publication Design (F,Sp) .....	3
Additional major requirements (JCOM 2160, 4030) .....	6

#### C. Communication Electives (6-12 credits)

Students should consult with their advisor to choose appropriate electives.

### Public Relations/Corporate Communications Emphasis (30-36 credits)

**Minimum GPA for Admission:** 2.5, Career  
**Minimum GPA for Graduation:** 2.5, major courses; 2.5 USU; 2.5, Career  
**Minimum Grade Accepted:** C in major courses; C+ in JCOM 1130, 1500, and 2010

#### A. Premajor Core Requirements (9 credits)

Journalism majors must complete the Premajor Core Requirements *before* taking courses in section B below.

#### B. Required Courses (12 credits, may be taken concurrently)

<b>JCOM 2300</b> Introduction to Public Relations (F,Sp) .....	3
<b>JCOM 2310 (CI)</b> Writing for Public Relations (F,Sp) .....	3
Additional major requirements (JCOM 2160, 4030) .....	6

#### C. Upper-division Required Courses (6 credits; must be taken in sequence after completion of JCOM 2300, 2310)

<b>JCOM 3300</b> Strategic Research Methods in Public Relations (F,Sp) ...	3
<b>JCOM 5300 (CI)</b> Case Studies in Public Relations (F,Sp) (3 cr) <b>or</b> <b>JCOM 5320</b> Public Relations Agency (F,Sp) (3 cr).....	3

**D. Electives (3-9 credits; at least 3 credits in skills course and 3 credits upper division. A 3-credit upper-division skills course meets all elective requirements.)**

## Other Communications Electives

In addition to the Pre-major, major, and emphasis area courses listed above, students must select additional electives from courses in the Department of Journalism and Communication, to ensure a total of 30-36 credits completed in the Journalism and Communication Department.

## Sample Four-year Plans

Sample semester-by-semester four-year plans for students working toward a bachelor's degree within the Journalism and Communication Department can be found at: <http://www.usu.edu/degreeplans/>

Students should consult with their advisor to develop a plan of study tailored to their individual needs and interests.

# Department of Journalism and Communication

## Journalism Minor

Students may earn a minor in Journalism by completing a minimum of 18 JCOM credits. The minimum GPA requirements for Journalism minors are the same as those required for Journalism majors.

These credits must include:

<b>JCOM 1130</b> Beginning Newswriting for the Mass Media (F,Sp,Su) .....	3
<b>JCOM 1500 (BSS)</b> Introduction to Mass Communication (F,Sp) .....	3

For the remaining 12 JCOM credits, students must select one of the following options:

(a)	
<b>JCOM 2170 (CI)</b> Reporting Public Affairs (F,Sp) .....	3
JCOM faculty advisor-approved upper-division JCOM credits .....	9
(b)	
<b>JCOM 2220</b> Introduction to Video Media (F,Sp) .....	3
<b>JCOM 2230</b> Writing for Electronic Media (F,Sp) .....	3
JCOM faculty advisor-approved upper-division JCOM credits .....	6
(c)	
<b>JCOM 2300</b> Introduction to Public Relations (F,Sp) .....	3
<b>JCOM 2310 (CI)</b> Writing for Public Relations (F,Sp) .....	3
JCOM faculty advisor-approved upper-division JCOM credits .....	6

## Financial Support

In addition to general scholarships and other financial support opportunities available through the University and the College of Humanities, Arts, and Social Sciences, the Department of Journalism and Communication awards various scholarships to majors. For a listing of scholarships, deadlines, and application requirements, contact the Department of Journalism and Communication. In addition, many professional paid and unpaid internships are available through the department.

## Careers in Journalism and Communication

Journalism majors often begin their careers in various media professions, such as newspapers, radio and TV broadcasting, and public relations, many serving as interns while still attending school. Upon graduation, they land jobs in a variety of capacities for both journalism businesses and other industries requiring workers with excellent communication and problem-solving skills. In recent years, USU journalism students have routinely won state, regional, and national awards in print and video journalism, multimedia and new technologies, and, increasingly, public relations.

This success translates into an excellent reputation for USU students among businesses hiring USU students as interns and hiring USU graduates for professional positions. Jobs held by recent graduates include newspaper and magazine reporter, photographer, graphic artist, and editor; radio and television reporter, anchor, and producer; public relations director and account executive; multimedia software designer for HTML, web pages, CD-ROMs, etc.; and public information officer for politicians, legislative and lobbying groups, sports teams, and colleges, as well as for environmental organizations and other groups in the business and public sectors. Training and expertise

in communication, including writing and reporting, visual literacy, publication layout and design, computer graphics, and online applications, prove to be valuable add-on skills for graduates entering a variety of occupations or going on to graduate school and law school.

In addition to these kinds of opportunities enjoyed by undergraduates, master's degree graduates often return to communication careers in new capacities, or teach at the community college level in journalism and communication departments.

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school. Minimum GPA requirements for participation in departmental honors vary by department, but usually fall within the range of 3.30-3.50. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level. The campus-wide Honors Program, which is open to all qualified students regardless of major, offers a rich array of cultural and social activities, special classes, and the benefit of Honors early registration. Interested students should contact the Honors Program, Main 15, (435) 797-2715, [honors@usu.edu](mailto:honors@usu.edu); or contact the Journalism and Communication departmental advisor, Penny Byrne, at [penny.byrne@usu.edu](mailto:penny.byrne@usu.edu). Additional information can be found online at: <http://www.usu.edu/honors/>

## Additional Information

For further information about publications, curriculum, scholarships, faculty, and other program offerings, including USU's TV studio facilities; weekly newscasts and TV programs; the award-winning student news website, the Hard News Café; and the Media and Society Lecture Series; check out the Journalism and Communication Department's website: <http://www.usu.edu/journalism>

For detailed information about requirements for the Journalism major and minor, see the major requirement sheet, which can be obtained from the department, or accessed online at: <http://www.usu.edu/majorsheets/>

## Graduate Programs

The Master of Science (MS) and the Master of Arts (MA) degrees in Communication combine professional practice and theoretical training, and are designed to fit individual student needs. Students may specialize in print, photo, or broadcast journalism. Application to the graduate program is made through the USU School of Graduate Studies.

**Note:** Applications for admission to the MS and MA degrees in Communication are not currently being accepted. For information about when they may be accepted, contact the Department of Journalism and Communication.

# Department of Journalism and Communication

## Objectives

The master's program in Communication at Utah State University offers a three-track approach to graduate study, designed for the maximum individual flexibility in pursuit of the student's goals.

The **Plan A**, also known as the "Thesis Option" or "Media Research," is a course of study designed for students considering or planning to go on to a doctoral program. The Plan A option requires more coursework in theory and methodology, as well as in research tools, in order to provide grounding for advanced study at the PhD level, whether in communication or another discipline. This option also requires completion of a master's thesis, consisting of original research.

The **Plan B**, also known as the "Professional Option" or "Media Practice," is designed for students seeking the master's degree as a terminal degree, and planning to go from USU into the mass media professions, or into a teaching position at the junior college level. Typically, Plan B students are mid-career media professionals seeking retooling, refreshers, or credentials for community college teaching. The Plan B option requires a professional project, approved by a major professor, in place of the research thesis.

The **Plan C**, another "Professional Option," is the same as the Plan B *except*, instead of a professional project, the student enrolls in additional coursework.

All three options—A, B, and C—require the student to pass comprehensive exit exams.

Graduate students in Communication work closely with advisors throughout their programs to design coursework and a research or professional activity agenda, along with appropriate study in a cognate area outside of Communication, that will permit them to achieve their individual goals, within the core framework of Communication coursework, whether they include professional training or additional doctoral work.

## Admission Requirements

For admission to the graduate program in Communication, all students must complete the department's English Language Proficiency Examination, and must complete or demonstrate competency in the following Communication foundation courses:

<b>JCOM 1130</b> Beginning Newswriting for the Mass Media (F,Sp,Su) .....	3
<b>JCOM 2010 (BSS)</b> Media Smarts: Making Sense of the Information Age (F,Sp).....	3
<b>JCOM 3110 (CI)</b> Beyond the Inverted Pyramid (F,Sp) .....	3
<b>JCOM 4030 (DSS)</b> Mass Media Law (F,Sp).....	3

Competency may be demonstrated through previous coursework or experience, and one or more of these requirements may be waived with permission of the graduate program coordinator. These credits do not count toward the graduate degree. In addition, other undergraduate courses may be required.

## Degree Requirements

Students may enroll in the Plan A (thesis), Plan B (Professional Option, with professional project), or Plan C (Professional Option with additional coursework in lieu of project) as outlined below. Plans A and B require 30 semester credits, while Plan C requires 33 semester credits. Plan A is intended for students planning to continue graduate study, teach, or enter professions requiring research skills. Plans B and

C are intended for students seeking a terminal professional degree. Selection of the A, B or C option must be made in consultation with the student's advisor and filed with the graduate coordinator by the end of the first semester of study.

All students must complete core requirements. Students must, in consultation with their advisor, select an appropriate research tools class in research methods; the course need not be taught by the Journalism and Communication Department. To remain in good standing, all students must fulfill Graduate School requirements.

### Plan A: Media Research

**Core Requirements (21 credits).** All students must complete the following courses: JCOM 6000 (3 cr.), 6020 (3 cr.), 6040 (3 cr.), 6400 (3 cr.), and 6970 (6 cr.). In addition, students must select an appropriate 3-credit Research Tools course (from any department), providing methodological training most appropriate for the student, in consultation with the advisor.

**Cognate/Electives (9 credits).** With advisor permission, students may include additional Journalism and Communication electives.

### Plan B: Professional Option (Project)

**Core Requirements (18 credits).** All students must complete the following courses: JCOM 6000 (3 cr.), 6020 (3 cr.), 6040 (3 cr.), 6400 (3 cr.), and 6970 (3 cr.). In addition, students must select an appropriate 3-credit Research Tools course (from any department), providing methodological training most appropriate for the student, in consultation with the advisor.

**Cognate/Electives (12 credits).** With advisor permission, students may include additional Journalism and Communication electives.

### Plan C: Professional Option (Additional Coursework)

**Core Requirements (15 credits).** All students must complete the following courses: JCOM 6000 (3 cr.), 6020 (3 cr.), 6040 (3 cr.), and 6400 (3 cr.). In addition, students must select a 3-credit Research Tools course (from any department), in consultation with the advisor.

**Cognate/Electives (18 credits).** With advisor permission, students may include additional Journalism and Communication electives.

## Additional Information

For more information about graduate studies in the Department of Journalism and Communication, contact the School of Graduate Studies or the Department of Journalism and Communication. Also, check out the departmental website at:  
<http://www.usu.edu/journalism>

## Journalism and Communication Faculty

### Professor

*Edward C. Pease*, journalism, media criticism

### Professor Emeritus

*Nelson B. Wadsworth*, print journalism

# Department of Journalism and Communication

---

## Associate Professors

*Cathy Ferrand Bullock*, mass communication theory and research methods

*Penny M. Byrne*, broadcasting, media law

*Brenda Cooper*, media criticism, gender and mass communication

## Associate Professor Emeritus

*James O. Derry*, international mass communication development

## Assistant Professor

*Nancy M. Williams*, print journalism, Internet

## Lecturers

*R. Troy Oldham*, public relations, corporate communications

*Preston Parker*, public relations, corporate communications

## Video Lab Supervisor

*S. Dean Byrne*, broadcast and electronic media

## Adjunct Instructors

*Cami Boehme*, Internet, corporate communications

*Tim Vitale*, public relations

*Jay C. Wamsley*, print journalism

## Course Descriptions

Journalism and Communication (JCOM), pages 590-593

# Department of Landscape Architecture and Environmental Planning

**Interim Department Head:** Sean E. Michael

**Location:** Fine Arts Visual 230

**Phone:** (435) 797-0500

**FAX:** (435) 797-0503

**E-mail:** laepinfo@usu.edu

(faculty e-mail addresses available on departmental website)

**WWW:** <http://www.laep.usu.edu/>

## **Undergraduate Program Director:**

Michael L. Timmons, Fine Arts Visual 260, (435) 797-1510,

michael.timmons@usu.edu

## **Undergraduate Advisement:**

HASS Advising Center, Taggart Student Center 302,

(435) 797-3883, mary.leavitt@usu.edu

## **Graduate Program Questions:**

Kathy Allen, Fine Arts Visual 230, (435) 797-0500,

laepinfo@usu.edu

**Degrees offered:** Bachelor of Landscape Architecture (BLA) and Master of Landscape Architecture (MLA); Master of Science (MS) in Bioregional Planning. BLA and first professional MLA programs are fully accredited by the American Society of Landscape Architects.

## **Department Objectives**

The objectives of the department are to (1) provide an educational and technical program responsive to current societal needs related to environmental planning, landscape architecture, and urban design; (2) give students the opportunity to participate in collaborative learning experiences with other disciplines on campus; (3) prepare students for professional careers in the private or public sector; and (4) conduct original research to advance the body of knowledge in landscape architecture, environmental planning, and design.

## **Undergraduate Programs**

### **Admission and Graduation Requirements**

The Bachelor of Landscape Architecture (BLA) degree program is an intensive four-year studio-based course of study, fully accredited by the American Society of Landscape Architects. Accreditation standards require the department to maintain a reasonable faculty/student ratio. Space in the program is restricted by facility availability and faculty size. Admission to the upper division is competitive, and is limited to students who are determined by the faculty to have the best potential for academic success. Matriculation into the upper division will normally be limited to 25 students, although additional students may be matriculated in special circumstances at the discretion of the LAEP faculty.

Any student admitted to USU is eligible for enrollment in lower-division LAEP courses. At the end of the sophomore year, a selection process will determine which students will matriculate into the upper division of the program.

Students applying for matriculation must have a minimum USU GPA of 2.5. Eligibility for matriculation requires the completion of the following prerequisite courses:

<b>LAEP 1200</b> Basic Graphics in Landscape Architecture (F).....	4
<b>LAEP 1300</b> Computer Applications in Landscape Architecture (Sp).....	3
<b>LAEP 1350</b> Theory of Design (Sp).....	4
<b>LAEP 2300</b> History of Landscape Architecture (F).....	3
<b>LAEP 2600 (QI)</b> Landscape Construction I (F) .....	4
<b>LAEP 2650</b> Architecture and the Built Environment (Sp).....	4
<b>LAEP 2700 (CI)</b> Site Analysis: Social, Behavioral, and Biophysical Dimensions (F).....	5
<b>LAEP 2720</b> Site Planning and Design (Sp).....	5
<b>PLSC 2620</b> Woody Plant Materials: Trees and Shrubs for the Landscape (F) .....	3

Selection of students to be matriculated to the upper division is based on a letter of intent; a portfolio demonstrating creative potential, problem solving skills, and graphic fluency; and cumulative GPA earned in the eight LAEP prefix courses listed above. Portfolios and letters of intent are to be submitted by the last Monday in March. Detailed information regarding the letter of intent and portfolio requirements may be obtained from the LAEP Department website: <http://www.laep.usu.edu/>. The final selection of students to matriculate to the upper division is a decision of the LAEP faculty. The review of students for matriculation will take place during the week following spring semester final exams, and students will be notified as soon as possible thereafter.

Students who have had LAEP courses waived or covered by articulation from another institution will have their GPA calculated only on the basis of LAEP grades actually earned at USU.

Transfer students from other programs of landscape architecture who have completed the equivalent of the lower-division USU LAEP coursework may apply for admission to the upper division of the program through submission of a portfolio, letter of intent, transcript of grades, and description of landscape architecture courses taken. Students who have previously been enrolled and matriculated into the upper division at USU, and must interrupt their education for up to three academic years, may resume their studies at the same level of the program which they departed upon returning to USU. Students who have stopped-out longer than three years must reapply, following the guidelines specified for transfer students. The decision on applications from transfer students and for readmission rests with the LAEP faculty and will be considered on a case-by-case basis.

### **Computer Requirement**

Computer competency is essential in the contemporary professional environment. Appropriate computer skills are required for most entry-level opportunities in landscape architecture and environmental planning.

Course content increasingly relies on computer skills and personal access to computers with the appropriate software.

All students in the BLA program (beginning with LAEP 1300) must purchase, lease, or otherwise obtain continuing and uninterrupted access to a personal computer, preferably a laptop, which meets the configuration requirements specified by the LAEP Department. Contact the department for current specifications.

### **Recommended High School Courses**

High school students planning to major in landscape architecture may enhance their preparation with courses in art, natural sciences, social sciences, computer applications, and math through college algebra.

# Department of Landscape Architecture and Environmental Planning

## BLA Degree

**Minimum GPA for Admission:** 2.5, USU

**Additional Matriculation Requirements:** completion of prerequisite courses, portfolio review, and submission of letter of intent (usually at end of the sophomore year)

**Minimum GPA for Graduation:** 2.0, USU

**Minimum Grade Accepted:** C- in LAEP prefix courses

The Bachelor of Landscape Architecture (BLA) degree is a four-year program consisting of courses relating to theory, design, history, and the various technical areas of the profession. The degree provides a substantial basis for a professional career, as well as an excellent foundation for advanced graduate studies. In addition to the courses required for upper-division status, the following LAEP courses are required for graduation:

LAEP 3100 Recreation/Open Space (F)	5
LAEP 3120 Residential Planning and Design (Sp)	5
LAEP 3500 Planting Design (F)	4
LAEP 3610 Landscape Construction II (Sp)	4
LAEP 3700 City and Regional Planning (Sp)	3
LAEP 4100 Urban Theory, Systems, and Design (F)	5
LAEP 4110 Construction Document Preparation (F)	4
LAEP 4120 Emerging Areas in Landscape Architecture I (F,Sp,Su)	2
LAEP 4130 Emerging Areas in Landscape Architecture II (F,Sp,Su)	2
LAEP 4910 Professional Practice I (Sp)	1
LAEP 4920 (CI) Professional Practice II (Sp)	1

### Non-LAEP Courses Required for BLA majors:

The following courses taught outside the LAEP Department are required for all BLA majors. Note that several of these courses will also assist in fulfillment of University Studies Requirements.

ENGL 3080 (CI) Introduction to Technical Communication (F,Sp)	3
GEO 3100 (DSC) Natural Disasters (Sp)	3
MATH 1010 Intermediate Algebra (F,Sp,Su)	4
PLSC 2620 Woody Plant Materials: Trees and Shrubs for the Landscape (F)	3
PLSC 3420 Landscape Irrigation Design (Sp)	2
SOC 3610 (DSS) Rural Sociology (F) (3 cr) <b>or</b>	
SOC 4620 (DSS) Sociology of the Environment and Natural Resources (Sp) (3 cr)	3
WATS 1200 (BLS) Biodiversity and Sustainability (F,Sp) (3 cr) <b>or</b>	
WILD 2200 (BLS) Ecology of Our Changing World (F,Sp) (3 cr)	3

All required courses with an LAEP prefix must be passed with a grade of C- or better. Students must also complete the University Studies requirements. For more detailed information, see major requirement sheet available from the department, or online at: <http://www.usu.edu/majorsheets/>

## Sample Four-year Plan for Landscape Architecture Major

A sample semester-by-semester four-year plan for students working toward a Bachelor of Landscape Architecture (BLA) degree can be found at: <http://www.usu.edu/degreepans/>

Students should consult with their advisor to develop a plan of study tailored to their individual needs and interests.

## Undergraduate Travel Requirement

The undergraduate curriculum includes a requirement for a minimum of 1 credit of travel and study outside of the bioregion. This travel requirement can be satisfied by one or both of the following courses, depending upon the specific content of the course at the time of offering. (Check with the department for specific information.)

LAEP 4350 Travel Course (F,Sp,Su)	1-3
LAEP 4900 Special Problems (F,Sp,Su)	1-5

### Study Abroad

The department currently has a cooperative agreement with the University of Ljubljana, Slovenia where students can study for a semester. Approved courses of study in design and planning programs offered by other institutions may count toward the travel requirement; however, course substitutions are subject to faculty approval.

### Faculty-Sponsored Field Study Travel

The department has a long tradition of a professionally oriented "Spring Break" trip, which is offered for undergraduate students under LAEP 4350. Recent trips have included San Francisco, Los Angeles, Portland, Seattle, Vancouver, Boston, and Washington DC.

The department also offers an international (2-week) field study experience, the destination of which changes from year to year. For example:

*May 2005 and 2007*—The Italian Renaissance Villa and Town Planning: Looks at Greek (Paestum) and Roman (Pompeii, Roman Forum) antecedents, as well as Renaissance Villas from the region surrounding Rome to Florence and the Tuscan landscape.

*March 2006 and 2008*—Paris and Berlin: Looks at the development of the urban fabric with a concentration on contemporary urban development issues, as well as public places and architecture of historical significance.

### Individual Travel

Undergraduate students desiring to count individual travel toward their degree will need to enroll for LAEP 4900 (Special Problems). Prior to enrollment, students must have a sponsoring faculty member and must submit a proposal for individual travel/study to the faculty for review. The content, objectives, and outcomes of the proposal will be evaluated for consistency with the educational objectives of the travel program.

### Specialized Service Courses

The following courses are available for majors in other fields who may wish to gain an exposure to the different aspects of landscape architecture and environmental planning. A minor is not given in LAEP; however, these service courses are available, without prerequisites, for those requesting them.

LAEP 1030 (BCA) Introduction to Landscape Architecture (F,Sp,Su)	3
LAEP 1200 Basic Graphics in Landscape Architecture (F)	3
LAEP 2300 History of Landscape Architecture (F)	3
LAEP 3700 City and Regional Planning (Sp)	3

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also

# Department of Landscape Architecture and Environmental Planning

complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school.

The LAEP Department offers a departmental honors program for BLA students. To qualify, students must be matriculated in the upper division of the LAEP program and must have a cumulative GPA of at least 3.50. The 15-credit honors course requirement for LAEP honors recognition is met by completion of the following: (1) a 3-credit honors thesis during the senior year, (2) two readings seminars (LAEP 6910 and 6930), and (3) an additional 10 credits of upper-division honors coursework.

Interested students should contact the Honors Program, Main 15, (435) 797-2715, [honors@usu.edu](mailto:honors@usu.edu). Additional information can be found online at: <http://www.usu.edu/honors/>

## Additional Information

For detailed information about requirements for the Bachelor of Landscape Architecture, see the major requirement sheet, which can be obtained from the department, or accessed online at: <http://www.usu.edu/majorsheets/>

## Graduate Programs

The department offers three master's degrees, including two in Landscape Architecture and one in Bioregional Planning.

### MLA First Professional Degree in Landscape Architecture

The department offers a three-year, first professional degree for students with a bachelor's degree in any area of study. This option allows students having a wide range of undergraduate experience to obtain an accredited degree in landscape architecture that fulfills the educational requirement for professional registration and allows entrance into the field of landscape architecture.

### MLA Advanced Professional Degree

Students with a bachelor's degree in landscape architecture can obtain a master's degree within two years. This advanced professional degree affords landscape architects the opportunity to expand their knowledge in areas of special interest.

### Master of Science in Bioregional Planning

This joint interdisciplinary program is offered by the department in conjunction with the Department of Environment and Society, College of Natural Resources.

For more information about required and recommended coursework, as well as other requirements for these degrees, visit the departmental website: <http://www.laep.usu.edu/>

## Graduate Travel Requirement

All graduate students are required to complete a 1 or 2 credit travel course (LAEP 6550, Travel Course; or LAEP 6900, Special Problems) within the three years of their degree. The travel requirement may be fulfilled as part of the faculty-led international or national field trip experience (which changes venue from year to year), or it may be arranged through independent study outside of the bioregion with permission of the faculty.

## Master of Landscape Architecture

The program for the Master of Landscape Architecture (MLA) emphasizes both traditional site planning and design, as well as broader areas of the profession, such as large-scale regional landscape analysis and planning, open space conservation, historic landscape preservation, and sustainable design. The MLA first professional degree is fully accredited by the Landscape Architectural Accreditation Board of the American Society of Landscape Architects.

The Master of Landscape Architecture program is designed to prepare the student for the landscape architect's challenging role of providing a holistic approach to environmental planning and design. In order for landscape architects to contribute effectively to an interdisciplinary effort, they must be competent in the fundamentals of landscape architecture and also have an understanding of the subject matter of other professions. Landscape architects must master the communication skills necessary to achieve meaningful collaboration. In support of this philosophy, the following are the major objectives of the MLA program.

1. To provide a well-structured curriculum in fundamental professional knowledge and skills.
2. To research, analyze, and resolve land use and design issues related specifically to the Intermountain West. The scope of the program examines national, regional, and local issues; and their impact on the visual, physical, and cultural setting of the Intermountain West.
3. To integrate field experience and research into major graduate studio courses structured around real-world projects.
4. To provide opportunities for each student for exploration and development of an area of concentration as noted elsewhere.
5. To draw upon the regional, national, and international relationships of Utah State University to facilitate a program of academic and professional excellence which will allow the student to achieve eminence in practice, research, or education.

## Areas of Faculty Expertise

The Master of Landscape Architecture program provides opportunities for each student to study and conduct research in areas which take advantage of the strengths of Utah State University and the landscape context of the Intermountain West centered around the expertise of the LAEP Department faculty, including: *Community Planning*—Bell, Lavoie, Licon, Nicholson, Timmons; *Cultural and Historic Landscapes and Preservation*—Borecki, Timmons; *Design/Theory and Representation*—Lavoie; *Land Rehabilitation/Revegetation*—Ellsworth; *Open Space Conservation*—Bell, Licon; *Public Lands/ Recreation*—Borecki, Christensen, Ellsworth, Michael, Timmons; *Site Planning*—Bell, Christensen, Lavoie, Timmons; *Socially Equitable Design*—Christensen; *Sustainable Landscapes*—Bell, Licon; *Urban Regional Landscape Planning*—Licon, Nicholson; *Visual Resource Management*—Ellsworth; *Watershed Sustainability*—Borecki.

These areas of faculty expertise include an assessment of the relevant environmental, design, social, economic, and public policy issues utilizing a wide range of computer-compatible techniques and models.

## Admission Requirements

The application deadline for consideration in the first round of reviews is March 15. Applications received later than March 15 will be considered as space availability allows. February 1 is the application deadline for consideration for some scholarships, fellowships, and other financial aid. For general admissions requirements, see the appropriate sections of this catalog.

# Department of Landscape Architecture and Environmental Planning

## Computer Requirement

Computer competency is essential in the contemporary professional environment. Appropriate computer skills are required for most entry-level opportunities in landscape architecture and environmental planning. Therefore, course content increasingly relies on computer skills and personal access to computers with the appropriate software.

All students entering the MLA program must purchase, lease, or otherwise obtain continuing and uninterrupted access to a personal computer, preferably a laptop, which meets the configuration requirements specified by the LAEP Department. Contact the department for current specifications.

## Course of Study

The graduate program director oversees academic advising of all incoming students until they have selected a thesis topic. A major professor whose interests are closely aligned to those of the student (see *Areas of Faculty Expertise* on page 329 and *Areas of Concentration* on pages 330-332) then supervises thesis work. A minimum of 30 graduate-level credits, including thesis work, is required. Students supplement requirements with courses negotiated with the major professor and supervisory committee. An area of concentration may be pursued by selecting a relevant course of study, as outlined on pages 330-332.

### First Year (33 credits)

During the first year, coursework concentrates on basic professional competency.

#### Fall Semester (17 credits)

LAEP 1200 Basic Graphics in Landscape Architecture .....	4
LAEP 2600 (QI) Landscape Construction I .....	4
LAEP 6270 Site Analysis: Social, Behavioral, and Biophysical Dimensions .....	5
LAEP 6860 Faculty/Interdisciplinary Seminar I (taught <i>both</i> fall and spring semesters) .....	1
PLSC 2620 Woody Plant Materials: Trees and Shrubs for the Landscape .....	3

#### Spring Semester (16 credits)

LAEP 1300 Computer Applications in Landscape Architecture .....	3
LAEP 1350 Theory of Design .....	4
LAEP 2720 Site Planning and Design .....	5
LAEP 6230 History of Landscape Architecture .....	3
LAEP 6890 Seminar on Thesis Proposals and Procedures .....	1

### Second Year (32-33 credits)

During the second year, students can begin to specialize in one or more areas of concentration.

#### Fall Semester (18 credits)

LAEP 3600 Landscape Materials .....	2
LAEP 6310 Recreation and Open Space Planning and Design (5 cr) <b>or</b> LAEP 6410 Redefining the Urban Landscape (5 cr) .....	5
LAEP 6350 Planting Design for Sustainability .....	4
LAEP 6740 Planning Theory and Implementation Issues .....	3
LAEP 6910 Reading Seminar I .....	1
BIOL 6960 Graduate General Ecology (or equivalent elective) .....	3

Additional credits should be added as electives from the student's chosen area of concentration.

### Spring Semester (14-15 credits)

LAEP 3610 Landscape Construction II .....	2
LAEP 6320 Residential Planning and Design .....	5
<b>Or</b> (LAEP 6320; <b>or</b> LAEP 4120 and 4130)	
LAEP 4120 Emerging Areas in Landscape Architecture I (2 cr) <b>and</b> LAEP 4130 Emerging Areas in Landscape Architecture II (2 cr) .....	4
(With faculty approval, students may complete LAEP 4120 and 4130 <i>instead of</i> LAEP 6320.)	
LAEP 6750 Implementation and Regulatory Techniques in Planning ...	3
LAEP 6160 Professional Practice I .....	1
LAEP 6170 Professional Practice II .....	1
LAEP 6930 Reading Seminar II .....	1
PLSC 3420 Landscape Irrigation Design .....	2

Additional credits should be added as electives from the student's chosen area of concentration.

### Third Year (18 credits)

#### Fall Semester (11 credits)

LAEP 4110 Construction Document Preparation .....	4
LAEP 6100 Regional Landscape Analysis and Planning .....	5
LAEP 6970 Thesis Research (Plan A, Thesis) (2 cr) <b>or</b> LAEP 6960 Master's Project (Plan B, Terminal Project) (2 cr) .....	2

Additional credits should be added as electives from the student's chosen area of concentration.

#### Spring Semester (7 credits)

LAEP 6110 Landscape Planning for Wildlife .....	3
LAEP 6970 Thesis Research (Plan A, Thesis) (4 cr) <b>or</b> LAEP 6960 Master's Project (Plan B, Terminal Project) (4 cr) .....	4

Additional credits should be added as electives from the student's chosen area of concentration.

**Note:** Recommended electives are listed on area of concentration sheets, which are available from the department. Selection of electives should be related to thesis or terminal project content and should be selected in consultation with the student's mentor and/or thesis/project committee. Specific elective coursework may be required by the thesis/project committee in order to properly prepare the student for thesis or project work (Plan A or B).

## Areas of Concentration

The program possesses an enviable reputation for graduating students with strong core professional skills. In addition to these skills, the department has the following four areas of concentration which reflect the strengths of the faculty, along with elective course offerings in other units of the University: (1) Open Space Conservation Planning and Green Space Design, (2) Cultural and Historic Landscapes, (3) Community Planning and Urban Design, and (4) Sustainable Landscapes. These four areas of concentration have recommended courses of study as outlined below, reflecting a depth of study in a particular area of landscape architectural theory and practice. Students may choose one of these areas, or they may create their own course of study to reflect their particular interests. Note that *all* students *must* complete the core MLA curriculum, in addition to courses noted in the various areas of concentration. For current requirements, contact the LAEP graduate program director. **Since these areas of concentration are not approved as graduate specializations, they will not appear on student transcripts or diplomas.**

# Department of Landscape Architecture and Environmental Planning

## Open Space Conservation Planning and Green Space Design

This area of concentration focuses on the conservation, planning, and design of open space. This focus will appeal to individuals who are interested in working for land trusts or for state and local governments in planning or land conservation roles, as well as to landscape architects in public or private practice who are interested in the design and planning of open space. With a strong basis in the Landscape Architecture program in the design and planning of open space (along with the theory, policy, and legal issues), supporting courses can be found in other units in the University. Elective courses can be found in Sociology, focusing on conflict management and the social implications of resource policy; Economics, focusing on valuation and impact analysis; and Natural Resources, focusing on ecology, spatial systems, collaborative problem-solving, and conservation biology.

### Supporting Coursework

**LAEP 2700 (CI)** Site Analysis: Social, Behavioral, and Biophysical Dimensions (F).....5

### Electives

**APEC 5560** Natural Resource and Environmental Economics (Sp).....3  
**APEC 6710** Community Planning and Impact Analysis (F).....3  
**ENVS 4000 (DSS)** Human Dimensions of Natural Resource Management (F).....3  
**ENVS 5000** Collaborative Problem-Solving for Environment and Natural Resources (Sp).....3  
**NR 6510** Biophysical and Human Dimensions of Ecosystems (F,Sp,Su).....3  
**SOC 6630** Natural Resources and Social Development (Sp).....3  
**SOC 6640** Conflict Management in Natural Resources (Sp).....3  
**WILD 4600** Conservation Biology (Sp).....3  
**WILD 7220** Community-based Conservation Partnerships (Sp).....3

## Cultural and Historic Landscapes

The graduate concentration in Cultural and Historic Landscapes prepares students for work in the research, documentation, analysis, understanding, planning, and management of human-influenced landscapes. Cultural landscapes have been defined by the World Heritage Convention of UNESCO as representing the "combined works of nature and of man. They are illustrative of the evolution of human society and settlement over time, under the influence of the physical constraints and/or opportunities presented by their natural environment and of successive social, economic, and cultural forces, both external and internal." They are grouped into three broad categories, which include: (1) the historic designed landscape or site, (2) the organically evolved or vernacular landscape, and (3) the associative cultural (ethnographic) landscape. (UNESCO. World Heritage Convention. Operational Guidelines for the Implementation of the World Heritage Convention. Paris: UNESCO, 1996.) The National Park Service notes that, "Historic landscapes vary in size from small gardens to several thousand-acre national parks. In character they range from designed to vernacular, rural to urban, and agricultural to industrial spaces. Vegetable patches, estate gardens, cemeteries, farms, quarries, nuclear test sites, suburbs, and abandoned settlements all may be considered historic landscapes." (Historic American Landscapes Survey website: <http://www.nps.gov/history/hdp/>)

Ever-expanding populations are exerting increased development pressure on historic resources, leading to a growing domestic and international demand for landscape architects trained in this area of concentration. Career application of skills can range from topics as wide-ranging as preservation planning and heritage tourism to regional land-use planning and urban design, in both the public and private sectors.

### Supporting Coursework

**LAEP 6410** Redefining the Urban Landscape (F).....5

### Electives

**ANTH 6110** Southwest Indian Cultures, Past and Present (F).....3  
**ANTH 6130** Ethnographic Field School (Su).....3-6  
**ANTH 6650** Developing Societies (F).....3  
**HIST 6000** Historical Methods and Research (F).....3  
**HIST 6030** Research Seminar.....3  
**HIST 6460** Seminar in Environmental History.....3

**HIST 6770** Seminar in Folklore and Folklife (F,Sp,Su).....3  
**SOC 5640** Conflict Management in Natural Resources (Sp).....3

## Community Planning and Urban Design

This area of concentration focuses on both large and small communities, with particular application to the Western United States. This curriculum path will appeal to students who want to apply their landscape architecture skills to community focused projects, which could range in scale from an ethnic neighborhood in a city of two million to a downtown redevelopment project for a small town in the rural West. Opportunities upon graduation would include private firms offering planning and design services, as well as public agencies at the local, state or federal level.

### Supporting Coursework

**LAEP 2700 (CI)** Site Analysis: Social, Behavioral, and Biophysical Dimensions (F).....5  
**LAEP 6410** Redefining the Urban Landscape (F).....5

### Electives

**APEC 5560** Natural Resource and Environmental Economics (Sp).....3  
**APEC 5850** Regional and Community Economic Development (F).....3  
**GEOG 3610** Geography of Rural/Urban Planning (F).....3  
**SOC 3600** Sociology of Urban Places (F).....3  
**SOC 3610 (DSS)** Rural Sociology (F).....3  
**SOC 6200** Social Demography (F).....3  
**SOC 6230** Techniques of Demographic Analysis (Sp).....3  
**SOC 6700** Advanced Rural Sociology (Sp).....3

## Sustainable Landscapes

Sustainability is a broad concept. It can be integrated into virtually every aspect of landscape architecture and environmental planning. The sustainable landscapes area of concentration in the LAEP department is focused on sustainability issues associated with the built landscape and the interface between built landscapes and open space. Coursework includes such subjects as low water use landscaping, planting design, planning for urban wildlife, storm water management, community economic development, and green business. In addition to coursework and thesis writing, students in the sustainable landscapes area of concentration organize and implement the department's annual Sustainability Conference, which is now in its eighth year.

## Graduate Travel Requirement

The graduate curriculum includes a requirement for a minimum of 1 credit of travel and study outside of the bioregion. This travel requirement can be satisfied by one or both of the following courses:

<b>LAEP 6550</b> Travel Course (F,Sp,Su).....	1-3
<b>LAEP 6900</b> Special Problems (F,Sp,Su).....	1-5

## Study Abroad

The department currently has a cooperative agreement with the University of Ljubljana, Slovenia where students can study for a semester and complete research projects as appropriate. Approved courses of study in design and planning programs offered by other institutions may count toward the travel requirement; however, course substitutions are subject to faculty approval.

## Faculty-Sponsored Field Study Travel

The department has a long tradition of a professionally oriented "Spring Break" trip, which is offered for graduate students under LAEP 6550. Recent trips have included San Francisco, Los Angeles, Portland, Seattle, Vancouver, Boston, and Washington D.C.

The department also offers the opportunity to join faculty on research trips under an international (2-week) field study experience, the destination of which changes from year to year. For example:

*May 2005 and 2007*—The Italian Renaissance Villa and Town Planning: Looks at Greek (Paestum) and Roman (Pompeii, Roman Forum) antecedents, as well as Renaissance Villas from the region surrounding Rome to Florence and the Tuscan landscape.

*March 2006 and 2008*—Paris and Berlin: Looks at the development of the urban fabric with an concentration on contemporary urban development issues, as well as public places and architecture of historical significance.

## Individual Travel

Graduate students desiring to count individual travel toward their degree will need to enroll for LAEP 6900 (Special Problems). Prior to enrollment, students must have a sponsoring faculty member and must submit a proposal for individual travel/study to the faculty for review. The content, objectives, and outcomes of the proposal will be evaluated for consistency with the educational objectives of the travel program.

## Additional Information

For more detailed information about currently required and recommended coursework, as well as other requirements for this degree, visit the departmental website: <http://www.laep.usu.edu/>

## Master of Science in Bioregional Planning (joint degree program with Environment and Society)

Informed planning and management of natural resources and systems supersedes individual disciplines, requiring an interdisciplinary approach for the successful resolution of environmental issues. The intent of this program's curriculum is to integrate the biophysical disciplines more closely while also addressing the social and political sciences. This degree program is offered jointly by the Department of Landscape Architecture and Environmental Planning in the College of Humanities, Arts, and Social Sciences, and by the Department of Environment and Society in the College of Natural Resources.

## Course of Study

This two-year MS program is comprised of an interdisciplinary core of courses and faculty for addressing complex issues in the areas of bioregional planning and management. Emphasis is placed on four problematic content areas: biophysical, social/demographic, economic, and public policy. The spatial focus is on the planning for large landscape areas with dispersed populations with a primary economic base in agriculture, energy development, tourism/recreation, retirement communities, and natural resources.

The program requires a minimum of 36 graduate-level credits, including 3-6 credits of work on a thesis or paper/project. Nine of the required credits may be in an area of concentration. These nine credits are to be negotiated with the candidate's major professor and supervisory committee. A capstone course is required for all LAEP students. Requirements for the MS in Bioregional Planning are as follows:

### Required

Environment Systems Research Institute (ESRI) certification course or ENVS 6900 (Geographic Information Systems), LAEP 6740, and ENVS 6900 (Shibley Seminar/ NEPA/EIS).

### Research Methods/Case Studies (3-4 credits)

One of the following courses is required: SOC 6100, 6150, WILD 6500.

### Biophysical (3-4 credits)

One of the following courses is required: WATS 6330, WILD 6710. For those students without a background in ecology, WILD 4600 is also required. Credits earned for WILD 4600 or equivalent *do not apply* to the graduate program.

### Social/Economic Policy (3-4 credits)

One of the following courses is required: ENVS 6000, POLS 5180, or SOC 6630.

### Capstone Course (5 credits)

LAEP 6100 is required for all LAEP students.

### Area of Concentration (9 credits)

Nine credits should be available to the candidate for an area of concentration.

# Department of Landscape Architecture and Environmental Planning

## Thesis or Project (3 or 6 credits)

A thesis or Plan B paper/project option is required and is to be negotiated with the candidate, major professor, and supervisory committee.

**Total Credits: 36-39**

## Environmental Field Service

### Practical Education and Community Service

The department sponsors a program of planning and design services in which MS, MLA, and BLA students participate. The Environmental Field Service program engages students with community leaders and citizens and tests concepts and skills acquired in the classroom while working on real projects.

## Internships and Cooperative Education

Many students take advantage of the practical learning opportunities available through internships and cooperative education programs. The student, in cooperation with the department and government agency or private firm, makes the necessary arrangements. Internships and cooperative education experiences are not required for degree completion. In some cases, these experiences may be used as the basis for waiver of selected courses, subject to approval in advance by the major professor, graduate program director, and department head. Students completing these experiences are required to make a summary presentation to department faculty and students.

## Financial Assistance

The application deadlines for scholarships and financial assistance vary. For current application deadline information, contact the LAEP Department, the USU Financial Aid Office, and the School of Graduate Studies. Acceptance to pursue graduate study does not guarantee the student financial assistance.

## Career Opportunities

The Department of Landscape Architecture and Environmental Planning provides education for careers in landscape architectural site planning, design, environmental planning, and management, with special consideration for conditions in the Intermountain West. Graduates are employed by local, state, and federal agencies, as well as by private sector professional firms. LAEP graduates also find employment in academia at both the undergraduate and graduate levels.

## Landscape Architecture and Environmental Planning Faculty

### Swaner Professor

*Carlos V. Licon*, sustainable landscapes, open space, community, urban and regional landscape planning

### Professors

*John C. Ellsworth*, visual resources management, land rehabilitation/ revegetation, public lands and recreation

*Sean E. Michael*, human-environment relationships, crime prevention through environmental design (CPTED), bioregional and recreation design

### Professor Emeritus

*Craig W. Johnson*, wildlife habitat planning and design, riparian buffers, site planning, planting design

### Associate Professors

*David L. Bell*, community planning and design, construction document preparation

*Caroline Lavoie*, urban design and cultural landscapes, design theory, landscape and planning theory

*John K. Nicholson*, urban and regional planning, computer applications, transportation, green building

*Michael L. Timmons*, site planning and design, recreation and open space planning, landscape history, historic preservation

### Associate Professor Emeritus

*Vern J. Budge*, landscape construction, recreation planning

### Assistant Professors

*Malgorzata (Margie) Ryzewicz-Borecki*, graphics, design implementation, sustainable stormwater practices

*Keith Christensen*, socially equitable design, site analysis, site planning, public lands/recreation

## Course Descriptions

**Speech:**

John S. Seiter, Main 308, (435) 797-0138, [john.seiter@usu.edu](mailto:john.seiter@usu.edu)

**Degrees offered:** Bachelor of Arts (BA) in French, German, and Spanish; BA and Bachelor of Science (BS) in Philosophy; BA and BS in Speech; Master of Second Language Teaching (MSLT)

## Undergraduate Programs

### Mission Statement

The Department of Languages, Philosophy, and Speech Communication offers programs in modern languages and literature, philosophy, and speech communication. While these programs differ widely in their curricula, they are bound together by two considerations: (1) an emphasis on humanistic content and method of inquiry; and (2) a recognition on the part of the departmental faculty that a critical part of becoming an educated person lies in achieving a greater

understanding of one's self and of others, an understanding opened up through insight into the spoken and written word.

Courses offered by the department provide majors and minors with opportunities to achieve this understanding by increasing their communicative, logical, interpretive, linguistic and research skills; their ability to function within an increasingly globalized society; and their awareness of ethical, aesthetic, and other values. Courses offered by the department also give students in the teaching emphasis and teaching minors the opportunity to serve the needs of the education professions.

Through its participation in the University Studies program, the department provides all students with an opportunity to gain knowledge of how people come to understand themselves through their cultural, literary, and philosophical achievements. The department also furthers the education of both traditional and nontraditional students through faculty participation in interdisciplinary programs such as Honors, Latin American Studies, Medieval and Early Modern Studies, Liberal Arts, Asian Studies, and Women and Gender Studies; and in cooperative education, distance learning, extension, and study-abroad programs.

### Admission Requirements

Admission requirements for freshmen desiring entrance to major programs offered by the Department of Languages, Philosophy, and Speech Communication are the same as those for Utah State University (see pages 30-35). Transfer students from other institutions and from other majors within Utah State University must have an overall minimum GPA of 2.5 (2.75 for Spanish) to be admitted to the department's major programs.

For admission to the speech major, students must submit an application and meet the following prerequisites:

1. Students must have earned at least 25 semester credits at USU or at another college or university.
2. A cumulative GPA of 2.5 or higher must have been attained.
3. Either SPCH 1020 or 2110 (or an equivalent course) must have been completed with a grade of C+ or better.

Admission is limited to 25 students each year. Decisions will be based on: (1) academic record, (2) realistic career or professional study objective, (3) ability of this program to prepare the student for his or her intended career, (4) satisfactory speaking and writing competencies, and (5) motivation and creativity demonstrated by class performance, work experience, volunteer activities, and other means provided by the student during the application process.

All students majoring in programs offered by this department must maintain a minimum GPA of 2.5 in their major (3.0 in Spanish) to be in good standing in the department and to obtain official approval for graduation.

### Career Information

For career and graduate school information, students should contact undergraduate advisors in the department.

### Scholarship Information

Four scholarships are offered through the Department of Languages, Philosophy, and Speech Communication. The **Brett Blanch Memorial Scholarship** is awarded to an outstanding philosophy major. The **Carl T. Degener Memorial Scholarship** is awarded to an outstanding language major at the junior level. Outstanding upper-division students

# Department of Languages, Philosophy, and Speech Communication

in French (and under some circumstances Spanish) are eligible for the **Jean Inness Scholarship**. The **Thain Scholarship** is awarded to an outstanding high school senior enrolling in a language or philosophy course at USU. The **Harold J. Kinzer Scholarship** is awarded to a speech major who has earned a minimum of 9 upper-division USU credits toward the major or who is currently enrolled at USU. To qualify for the Kinzer Scholarship, the student must have at least one more semester remaining at USU and must have a 3.7 or higher GPA in the major courses. The **Jaime Cantarovici Memorial Scholarship** is awarded to an outstanding undergraduate senior majoring in Spanish. For further details about available scholarships, contact the departmental office.

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school. Minimum GPA requirements for participation in departmental honors vary by department, but usually fall within the range of 3.30-3.50. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level. The campus-wide Honors Program, which is open to all qualified students regardless of major, offers a rich array of cultural and social activities, special classes, and the benefit of Honors early registration. Interested students should contact the Honors Program, Main 15, (435) 797-2715, [honors@usu.edu](mailto:honors@usu.edu). Additional information can be found online at: <http://www.usu.edu/honors/>

## Additional Information

For detailed information about requirements for majors and minors within the Languages, Philosophy, and Speech Communication Department, see the major requirement sheets, which are available from the department, or which can be accessed online at: <http://www.usu.edu/majorsheets/>

## Graduate Program

### Master of Second Language Teaching (MSLT)

The Master of Second Language Teaching (MSLT) degree program is designed for students desiring additional training at the graduate level in an integrative, interdisciplinary program combining coursework in the field of Foreign Language Education, Bilingual Education, and ESL/EFL Education. Attainment of the degree requires the completion of a minimum of 30 credits of coursework in the MSLT program. The program leading to the MSLT consists of a core curriculum of 18 credits and a professional curriculum of 12 credits. Courses in the core curriculum are designed to respond to the program's emphasis areas in language, literacy, and culture. Courses in the professional curriculum address teaching methodology, curriculum preparation, materials development, and testing. A Master's Project in the form of a substantial, cumulative Master's Portfolio is also required. The Master's Portfolio will include a comprehensive statement of the candidate's philosophy of second language teaching and learning and how this philosophy will be applied in a professional environment. This project will be defended at the end of the degree program. All candidates must take a series of research courses in the professional curriculum designed to aid in preparing the Portfolio Project.

This master's degree program does not lead to licensure by the Utah State Board of Education. Individuals who do not have Utah State Board of Education licensure and wish to obtain that credential must take the three-semester Secondary Teacher Education Program (STEP) in the Secondary Education Program of the School of Teacher Education and Leadership (TEAL) in the Emma Eccles Jones College of Education and Human Services.

For program information, including admission requirements, degree requirements, courses, and financial assistance, contact the departmental office or see the program's website at: <http://lpsc.usu.edu>

## Languages

Language faculty members in the Department of Languages, Philosophy, and Speech Communication teach courses leading to undergraduate degrees in French, German, and Spanish, as well as to undergraduate minors in Chinese, French, German, Japanese, Portuguese, Russian, and Spanish. Teaching emphases and minors are also offered in French, German, and Spanish. The department also offers a minor program in Linguistics.

### French, German, and Spanish Major Programs

The goal of the French, German, and Spanish BA degree programs is to prepare students to be able to take advanced studies in these languages, literatures, and cultures; to be quality teachers of these languages, literatures, and cultures in the public schools; and to provide those who may enter other professions a solid grounding in these languages, literatures, and cultures, in order that they may function as members of the international community. The curricula supporting these goals includes courses in language, literature, civilization, culture, and linguistics. See the course requirements which follow.

## Course Requirements

### Language Major Requirements

#### French Major and Minor Requirements

##### Minimum Departmental Requirements

<b>Total Credits:</b>	
French Major .....	33
French Major, Teaching Emphasis .....	31 FREN & 31 SCED
French Minor .....	12
French Minor, Teaching Emphasis .....	15 FREN & 31 SCED
French Major, Teaching Emphasis without licensure .....	35
French Minor, Teaching Emphasis without licensure .....	19

Grade Point Average to Declare a Major or Minor.....	2.5 Career GPA
Grade Point Average to Graduate with Major or Minor.....	2.5 GPA within Major/Minor Classes

##### Notes:

Courses for French Majors and Minors require a minimum of C- or better.

Courses for French Majors and Minors *may not* be taken on a *Pass/Fail* Basis (except for FREN 30307).

### French Major (33 credits) (2.5 GPA)

#### A. Required Course (3 credits)

LING 4100 <sup>s,DE</sup> The Study of Language (F,Sp).....	3
---	---

<sup>DE</sup>Available as a regular on-campus class or online through Regional Campuses and Distance Education (RCDE).

# Department of Languages, Philosophy, and Speech Communication

## B. Elective Courses (30 credits minimum)

Students must complete at least 30 credits of upper-division coursework selected from the following list.

FREN 3030 <sup>7</sup> Advanced French for Everyday Communication (graded pass/fail only) (Su)	3
FREN 3060 (CI) <sup>2</sup> French Conversation	3
FREN 3070 <sup>7</sup> Advanced French Language Study Abroad I (Su)	4
FREN 3080 <sup>7</sup> Advanced French Language Study Abroad II (Su)	4
FREN 3090 (CI) <sup>3</sup> French Intermediate Written Communication	3
FREN 3500 (DHA) Topics in French Literature in Translation (repeatable for credit)	3
FREN 3510 (CI) Business French (F)	3
FREN 3550 (DHA) French Civilization	3
FREN 3570 France Today	3
FREN 3600 <sup>6</sup> Textual Analysis	3
FREN 3820 <sup>7</sup> Advanced Independent Study: Experiencing Paris (Su)	2
FREN 3880 Individual Readings (F,Su)	1-4
FREN 3900 <sup>1</sup> Topics in French and Francophone Studies	3
FREN 4060 (CI) <sup>2</sup> Advanced French Conversation	3
FREN 4090 (CI) <sup>3</sup> Advanced Written Communication	3
FREN 4200 <sup>5</sup> Applied French Linguistics and Phonetics	3
FREN 4610 (DHA) <sup>1</sup> Period Studies in French Literature	3
FREN 4620 (DHA) <sup>1</sup> Genre Studies in French Literature	3
FREN 4880 Individual Readings (F,Sp)	1-4
FREN 4900 <sup>1</sup> Seminar in French and Francophone Studies	3
FREN 4920 <sup>1,4</sup> French Language Tutoring (F,Sp)	1-2
LING 4900 Analysis of Cross-Cultural Difference (Sp) (3 cr) or SPCH 3330 (DSS) Intercultural Communication (F,Sp) (3 cr)	3

Students should note that *no more than two* upper-division French courses taught in English can be applied toward the French majors.

## French Major—Teaching Emphasis with Secondary School Licensure (31 FREN credits & 31 SCED credits) (2.5 GPA)

**Note:** The following requirements *only* specify courses offered by the Department of Languages, Philosophy, and Speech Communication. To be licensed to teach in the Utah public secondary school system, students with a teaching emphasis must also complete additional courses (approximately 31 credits) required by the Secondary Education Program. For more information, please contact the Secondary Education Program, Education Building 330, or review the supplementary section, entitled *Secondary Teacher Education Program (STEP) Level Outline* on page 341. Information is also provided on the Web at: [http://secondaryeducation.usu.edu/cs\\_admission.php](http://secondaryeducation.usu.edu/cs_admission.php)

### I. French and Linguistics Courses (31 credits)

#### A. Required Courses (25 credits)

LING 4100 <sup>5,DE</sup> The Study of Language (F,Sp)	3
FREN 4200 <sup>5,9</sup> Applied French Linguistics and Phonetics	3
FREN 3060 (CI) <sup>2</sup> French Conversation (3 cr) or FREN 4060 (CI) <sup>2</sup> Advanced French Conversation (3 cr)	3
FREN 3090 (CI) French Intermediate Written Communication (3 cr) or FREN 4090 (CI) <sup>3</sup> Advanced Written Communication (3 cr)	3
FREN 3550 (DHA) French Civilization (3 cr) or FREN 3570 France Today (3 cr)	3
FREN 3600 <sup>6</sup> Textual Analysis	3
FREN 4610 (DHA) <sup>1</sup> Period Studies in French Literature	3
FREN 4620 (DHA) <sup>1</sup> Genre Studies in French Literature	3
FREN 4920 <sup>1,4</sup> French Language Tutoring (F,Sp)	1-2

<sup>DE</sup>Available as a regular on-campus class or online through Regional Campuses and Distance Education (RCDE).

## B. Elective Courses (6 credits)

Students must complete 6 additional upper-division credits in coursework either not taken above or from the following list:

FREN 3500 (DHA) Topics in French Literature in Translation (repeatable for credit)	3
FREN 3510 (CI) Business French (F)	3
FREN 3900 <sup>1</sup> Topics in French and Francophone Studies	3
FREN 4900 <sup>1</sup> Seminar in French and Francophone Studies	3
LING 4900 Analysis of Cross-Cultural Difference (Sp) (3 cr) or SPCH 3330 (DSS) Intercultural Communication (F,Sp) (3 cr)	3
FREN 3030 <sup>7</sup> Advanced French for Everyday Communication (Su)	3
FREN 3070 <sup>7</sup> Advanced French Language Study Abroad I (Su)	4
FREN 3080 <sup>7</sup> Advanced French Language Study Abroad II (Su)	4
FREN 3820 <sup>7</sup> Advanced Independent Study: Experiencing Paris (Su)	2
FREN 3880 Individual Readings (F,Sp,Su)	1-4
FREN 4880 Individual Readings (F,Sp,Su)	1-4

## II. Secondary Teacher Education Program (STEP) Courses (31 credits; 35 credits including courses for teaching minor)

For further information, review the *Secondary Teacher Education Program (STEP) Level Outline* on page 341.

### French Minor (12 credits) (2.5 GPA)

To receive a French minor, students must complete 12 upper-division credits in French. Students should note that *only one credit of FREN 4920* may count toward the French minor. In addition, courses taken for the French minor programs may not be taken on a *pass/fail* basis, with the exception of FREN 3030. Students should also note that *no more than one* upper-division French course taught in English can be applied toward the French minor.

### French Minor—Teaching Emphasis with Secondary School Licensure (46 credits) (2.5 GPA)

**Note:** The following requirements *only* specify courses offered by the Department of Languages, Philosophy, and Speech Communication. To be licensed to teach in Utah public secondary school system, students with a teaching emphasis must also complete additional courses (approximately 31 credits) required by the Secondary Education Program. For more information, please contact the Secondary Education Program, Education Building 330, or review the supplementary section, entitled *Secondary Teacher Education Program (STEP) Level Outline* on page 341. Information is also provided on the Web at: [http://secondaryeducation.usu.edu/cs\\_admission.php](http://secondaryeducation.usu.edu/cs_admission.php)

Students should note that *only one credit of FREN 4920* may count toward the French Minor—Teaching Emphasis. In addition, courses taken for the French minor programs may not be taken on a *pass/fail* basis, with the exception of FREN 3030.

### I. French and Linguistics Courses (19 credits)

#### A. Required Courses (16 credits)

FREN 3090 (CI) <sup>3</sup> French Intermediate Written Communication (3 cr) or FREN 4090 (CI) <sup>3</sup> Advanced Written Communication (3 cr)	3
FREN 3550 (DHA) French Civilization (3 cr) or FREN 3570 France Today (3 cr)	3
FREN 3600 <sup>6</sup> Textual Analysis	3
FREN 4200 <sup>9</sup> Applied French Linguistics and Phonetics	3
LING 3300 <sup>10</sup> Clinical Experience I (F) (1 cr) or LING 4300 <sup>10</sup> Clinical Experience II (F) (1 cr)	1
LING 4400 <sup>10</sup> Teaching Modern Languages (F)	3

# Department of Languages, Philosophy, and Speech Communication

## B. Elective Courses (3 credits)

Students must complete an additional three credits in coursework selected from the following list:

<b>FREN 4610 (DHA)</b> <sup>1</sup> Period Studies in French Literature.....	3
<b>FREN 4620 (DHA)</b> <sup>1</sup> Genre Studies in French Literature.....	3
<b>LING 4900</b> Analysis of Cross-Cultural Difference (Sp) (3 cr) <b>or</b>	
<b>SPCH 3330 (DSS)</b> Intercultural Communication (F,Sp).....	3
<b>FREN 3030</b> <sup>7</sup> Advanced French for Everyday Communication (Su).....	3
<b>FREN 3070</b> <sup>7</sup> Advanced French Language Study Abroad I (Su).....	4
<b>FREN 3080</b> <sup>7</sup> Advanced French Language Study Abroad II (Su).....	4
<b>FREN 3500 (DHA)</b> Topics in French Literature in Translation (repeatable for credit).....	3
<b>FREN 3510 (CI)</b> Business French (F).....	3
<b>FREN 3820</b> <sup>7</sup> Advanced Independent Study: Experiencing Paris (Su)...	2
<b>FREN 3880</b> Individual Readings (F,Su).....	1-4
<b>FREN 4900</b> <sup>1</sup> Seminar in French and Francophone Studies.....	3
<b>FREN 4920</b> <sup>1,8</sup> French Language Tutoring (F,Sp).....	1-2

## II. Secondary Teacher Education Program (STEP)

### Courses (31 credits; 35 credits including courses for teaching emphasis)

For further information, review the *Secondary Teacher Education Program (STEP) Level Outline* on page 341.

## French Major and/or Minor—Teaching Emphasis without Secondary School Licensure (major 35 credits, minor 19 credits) (2.5 GPA)

It is possible to have a teaching emphasis within a major or minor in French without receiving Secondary School teaching licensure. However, unless the student is an elementary education major, he or she *would not* be able to teach in Utah public schools (nor at many private ones). Graduating without licensure may allow employment at some community colleges and universities.

In order to complete the French Major—Teaching Emphasis *without* Secondary School Licensure, students must fulfill all of the requirements listed under Section I (French and Linguistics Courses) of the French Major—Teaching Emphasis *with* Secondary School Licensure (31 credits), plus either LING 3300<sup>10</sup> or 4300<sup>10</sup> (1 credit) and LING 4400<sup>10</sup> (3 credits), for a total of 35 credits.

Similarly, to complete a French Minor—Teaching Emphasis *without* Secondary School Licensure, students must fulfill all of the requirements listed under Section I (French and Linguistics Courses) of the French Minor—Teaching Emphasis *with* Secondary School Licensure (15 credits), plus either LING 3300<sup>10</sup> or 4300<sup>10</sup> (1 credit) and LING 4400<sup>10</sup> (3 credits), for a total of 19 credits.

<sup>1</sup>This course requires FREN 3600 or instructor's permission. FREN 3900, 4900, and 4920 may be repeated for credit with different content.

<sup>2</sup>Students with foreign experience may be advised to enroll in FREN 3060 or 4060, depending upon results of a placement test and/or instructor's determination.

<sup>3</sup>Students with foreign experience may be advised to enroll in FREN 3090 or 4090, depending upon results of a placement test and/or instructor's determination.

<sup>4</sup>Only two credits of FREN 4920 may count toward the French Major or French Major—Teaching Emphasis.

<sup>5</sup>It is recommended that LING 4100 be taken before FREN 4200.

<sup>6</sup>This course may be repeated one time for credit with different content.

<sup>7</sup>Offered only through USU's Summer Study Abroad program in France.

<sup>8</sup>Only one credit of FREN 4920 may count toward the French Minor or French Minor—Teaching Emphasis.

<sup>9</sup>Students should take FREN 4200 near the end of their coursework. Please note that FREN 4200 is offered every other year.

<sup>10</sup>LING 3300 or 4300 and LING 4400 must be taken *during the same semester*, and should be the *last* courses taken for the major or minor.

## German Major and Minor Requirements

### Minimum Departmental Requirements

#### Total Credits:

German Major .....	33
German Major, Teaching Emphasis .....	31 GERM & 31 SCED
German Minor .....	12
German Minor, Teaching Emphasis .....	15 GERM & 31 SCED
German Major, Teaching Emphasis without licensure.....	35
German Minor, Teaching Emphasis without licensure.....	19

Grade Point Average to Declare a Major or Minor.....2.5 Career GPA

Grade Point Average to Graduate

with Major or Minor.....2.5 GPA within Major/Minor Classes

#### Notes:

Courses for German Majors and Minors require a minimum of C- or better.

Courses for German Majors and Minors *may not* be taken on a *Pass/Fail* Basis.

## German Major (33 credits) (2.5 GPA)

### A. Required Courses (9 credits)

<b>GERM 3000 (DHA)</b> Introduction to German Studies (F).....	3
<b>GERM 3040 (CI)</b> Advanced German Grammar and Composition (F)...	3
<b>LING 4100</b> <sup>DE</sup> The Study of Language (F,Sp).....	3

<sup>DE</sup>Available as a regular on-campus class or online through Regional Campuses and Distance Education (RCDE).

### B. Elective Courses (24 credits)

Students must complete at least 24 credits of upper-division coursework from the following list.

<b>GERM 3050 (CI)</b> Advanced German Grammar and Composition (Sp).....	3
<b>GERM 3300 (DHA)</b> Contemporary German Speaking Cultures (Sp)....	3
<b>GERM 3510 (CI)</b> Business German (Sp) .....	3
<b>GERM 3540 (CI)</b> Techniques in Translating German Texts (F) .....	3
<b>GERM 3550 (DHA)</b> Cultural History of German Speaking Peoples (F).....	3
<b>GERM 3600 (DHA)</b> Survey of German Literature I (F).....	3
<b>GERM 3610 (DHA)</b> Survey of German Literature II (Sp) .....	3
<b>GERM 3800</b> <sup>11</sup> German III Study Abroad (Su).....	3
<b>GERM 3880</b> <sup>11</sup> Individual Readings (F,Sp) .....	1-4
<b>GERM 4200</b> Applied German Linguistics and Phonetics (Sp).....	3
<b>GERM 4610</b> German Narratives (Sp).....	3
<b>GERM 4650 (DHA)</b> Trends in Modern German Literature (F).....	3
<b>GERM 4800</b> <sup>11</sup> German IV Study Abroad (Su).....	1-4
<b>GERM 4880</b> <sup>11</sup> Individual Readings (F,Sp) .....	1-4
<b>GERM 4900</b> <sup>11</sup> Special Topics (Sp).....	3
<b>GERM 4910</b> German for Special Purposes (Sp).....	3
<b>GERM 4920</b> <sup>11,12</sup> German Language Tutoring (F,Sp,Su) .....	1
<b>LING 4900</b> Analysis of Cross-Cultural Difference (Sp) (3 cr) <b>or</b>	
<b>SPCH 3330 (DSS)</b> Intercultural Communication (F,Sp) (3 cr).....	3

**Note:** Credits obtained in lower-division German courses *cannot* be applied toward the German major programs.

# Department of Languages, Philosophy, and Speech Communication

## German Major—Teaching Emphasis with Secondary School Licensure (31 GERM credits & 31 SCED credits) (2.5 GPA)

**Note:** The following requirements *only* specify courses offered by the Department of Languages, Philosophy, and Speech Communication. To be licensed to teach in the Utah public secondary school system, students with a teaching emphasis must also complete additional courses (approximately 31 credits) required by the Secondary Education Program. For more information, please contact the Secondary Education Program, Education Building 330, or review the supplementary section, entitled *Secondary Teacher Education Program (STEP) Level Outline* on page 341. Information is also provided on the Web at: [http://secondaryeducation.usu.edu/cs\\_admission.php](http://secondaryeducation.usu.edu/cs_admission.php)

### I. German and Linguistics Courses (31 credits)

#### A. Required Courses (18 credits)

LING 4100 <sup>13,DE</sup> The Study of Language (F,Sp).....	3
LING 4900 Analysis of Cross-Cultural Difference (Sp) (3 cr) or SPCH 3330 (DSS) Intercultural Communication (F,Sp) (3 cr).....	3
GERM 3000 (DHA) Introduction to German Studies (F).....	3
GERM 3040 (CI) Advanced German Grammar and Composition (F)....	3
GERM 3050 (CI) Advanced German Grammar and Composition (Sp).....	3
GERM 4200 <sup>14</sup> Applied German Linguistics and Phonetics (Sp).....	3

#### B. Elective Courses (13 credits)

GERM 3300 (DHA) Contemporary German Speaking Cultures (Sp)....	3
GERM 3510 (CI) Business German (Sp).....	3
GERM 3540 (CI) Techniques in Translating German Texts (F).....	3
GERM 3550 (DHA) Cultural History of German Speaking Peoples (F).....	3
GERM 3600 (DHA) Survey of German Literature I (F).....	3
GERM 3610 (DHA) Survey of German Literature II (Sp).....	3
GERM 3800 <sup>11</sup> German III Study Abroad (Su).....	1-4
GERM 3880 <sup>11</sup> Individual Readings (F,Sp).....	1-4
GERM 4610 German Narratives (Sp).....	3
GERM 4650 (DHA) Trends in Modern German Literature (F).....	3
GERM 4800 <sup>11</sup> German IV Study Abroad (Su).....	1-4
GERM 4880 <sup>11</sup> Individual Readings (F,Sp).....	1-4
GERM 4900 <sup>11</sup> Special Topics (Sp).....	3
GERM 4910 German for Special Purposes (Sp).....	3
GERM 4920 <sup>11,12</sup> German Language Tutoring (F,Sp,Su).....	1

### II. Secondary Teacher Education Program (STEP) Courses (31 credits; 35 credits including courses for teaching minor)

For further information, review the *Secondary Teacher Education Program (STEP) Level Outline* on page 341.

## German Minor (12 credits) (2.5 GPA)

To receive a German minor, students must complete 12 upper-division credits in German. Students should note that *only one credit* of GERM 4920 may count toward the German minor. In addition, courses taken for the German minor programs *may not* be taken on a *pass/fail* basis.

## German Minor—Teaching Emphasis with Licensure (50 credits) (2.5 GPA)

**Note:** The following requirements *only* specify courses offered by the Department of Languages, Philosophy, and Speech Communication. To be licensed to teach in the Utah public secondary school system, students with a teaching emphasis must also complete additional courses (approximately 31 credits) required by the Secondary Education Program. For more information, please contact the Secondary Education Program, Education Building 330, or review the supplementary section, entitled *Secondary Teacher Education Program (STEP) Level Outline* on page 341. Information is also provided on the Web at: [http://secondaryeducation.usu.edu/cs\\_admission.php](http://secondaryeducation.usu.edu/cs_admission.php)

Students should note that *only 1 credit* from GERM 4920 may count toward the German Minor—Teaching Emphasis. In addition, courses taken for the German minor programs *may not* be taken on a *pass/fail* basis.

### I. German and Linguistics Courses (19 credits)

#### A. Required Courses (16 credits)

LING 4900 Analysis of Cross-Cultural Difference (Sp) (3 cr) or SPCH 3330 (DSS) Intercultural Communication (F,Sp) (3 cr).....	3
GERM 3040 (CI) Advanced German Grammar and Composition (F).....	3
GERM 3050 (CI) Advanced German Grammar and Composition (Sp).....	3
GERM 4200 <sup>14</sup> Applied German Linguistics and Phonetics (Sp).....	3
LING 3300 <sup>15</sup> Clinical Experience I (F) (1 cr) or LING 4300 <sup>15</sup> Clinical Experience II (F) (1 cr).....	1
LING 4400 <sup>15</sup> Teaching Modern Languages (F).....	3

#### B. Elective Courses (3 credits)

GERM 3300 (DHA) Contemporary German Speaking Cultures (Sp)....	3
GERM 3510 (CI) Business German (Sp).....	3
GERM 3540 (CI) Techniques in Translating German Texts (F).....	3
GERM 3550 (DHA) Cultural History of German Speaking Peoples (F).....	3
GERM 3600 (DHA) Survey of German Literature I (F).....	3
GERM 3610 (DHA) Survey of German Literature II (Sp).....	3
GERM 3800 <sup>11</sup> German III Study Abroad (Su).....	1-4
GERM 3880 <sup>11</sup> Individual Readings (F,Sp).....	1-4
GERM 4610 German Narratives (Sp).....	3
GERM 4650 (DHA) Trends in Modern German Literature (F).....	3
GERM 4800 <sup>11</sup> German IV Study Abroad (Su).....	1-4
GERM 4880 <sup>11</sup> Individual Readings (F,Sp).....	1-4
GERM 4900 <sup>11</sup> Special Topics (Sp).....	3
GERM 4910 German for Special Purposes (Sp).....	3
GERM 4920 <sup>11,12</sup> German Language Tutoring (F,Sp,Su).....	1

### II. Secondary Teacher Education Program (STEP) Courses (31 credits; 35 credits including courses for teaching emphasis)

For further information, review the *Secondary Teacher Education Program (STEP) Level Outline* on page 341.

## German Teaching Emphasis and/or Minor—Teaching Emphasis without Secondary School Licensure (major 35 credits) (minor 19 credits) (2.5 GPA)

It is possible to have a teaching emphasis within a major or minor in German without receiving Secondary School teaching licensure. However, unless the student is an elementary education major, he or she *would not* be able to teach in Utah public schools (nor at many private ones). Graduating without licensure may allow employment at some community colleges and universities.

# Department of Languages, Philosophy, and Speech Communication

In order to complete the German Major—Teaching Emphasis *without* Secondary School Licensure, students must fulfill all of the requirements listed under Section I (German and Linguistics Courses) of the German Major—Teaching Emphasis *with* Secondary School Licensure (31 credits), plus either LING 3300<sup>15</sup> or LING 4300<sup>15</sup> (1 credit) and LING 4400<sup>15</sup> (3 credits), for a total of 35 credits.

Similarly, to complete a German Minor—Teaching Emphasis *without* Secondary School Licensure, students must fulfill all of the requirements listed under Section I (German and Linguistics Courses) of the German Minor—Teaching Emphasis *with* Secondary School Licensure (15 credits), plus either LING 3300<sup>15</sup> or 4300<sup>15</sup> (1 credit) and LING 4400<sup>15</sup> (3 credits) for a total of 19 credits.

<sup>11</sup>This course may be repeated for credit.

<sup>12</sup>Only 2 credits of GERM 4920 may count toward the German major.

<sup>13</sup>LING 4100 should be taken at the beginning of the student's coursework.

<sup>14</sup>GERM 4200 should be taken near the end of the student's coursework. However, GERM 4200 is not offered every year. Therefore, students should check to see when the course will be offered.

<sup>15</sup>LING 3300 or 4300 and LING 4400 must be taken *during the same semester*, and should be the last courses taken for the major or minor.

<sup>DE</sup>Available as a regular on-campus class or online through Regional Campuses and Distance Education (RCDE).

## Spanish Major and Minor Requirements

### Minimum Departmental Requirements

#### Total Credits:

Spanish Major .....	33
Spanish Major, Teaching Emphasis .....	34 SPAN & 31 SCED
Spanish Minor .....	15
Spanish Minor, Teaching Emphasis .....	19 SPAN & 31 SCED
Spanish Major, Teaching Emphasis without licensure.....	38
Spanish Minor, Teaching Emphasis without licensure.....	19
Grade Point Average to Declare a Major or Minor.....	2.75 Career GPA
Grade Point Average to Graduate	
with Major or Minor.....	3.00 GPA within Major/Minor Classes

#### Notes:

Courses for Spanish Majors and Minors require a minimum of C- or better.

Courses for Spanish Majors and Minors *may not* be taken on a *Pass/Fail* Basis (except for courses designated as *Pass/Fail*, such as LING 3300<sup>23</sup>, 4300<sup>23</sup>, SPAN 3010, 3520, 4920).

At least half (50 percent) of the credits earned for these degrees must be completed in upper-division USU courses offered by the Department of Languages, Philosophy, and Speech Communication, and having prefixes of SPAN or LING. All other credits (including transfer and study abroad credits) must be approved by the Spanish faculty in order to be counted toward these degrees.<sup>16</sup>

Students with prior language credit or language experience should take the department placement test before admission to the Spanish Major or Minor. Credits obtained in lower-division Spanish courses cannot be applied toward the Spanish major or minor programs.

### Spanish Major (33 credits) (3.00 GPA)

#### A. Required Courses (24 credits)

LING 4100<sup>DE</sup> The Study of Language (F,Sp)..... 3

#### Select at least *one* of the following two courses:

SPAN 3040<sup>DE</sup> Advanced Spanish Grammar (F,Sp)..... 3

SPAN 3800<sup>17</sup> Spanish III Study Abroad (Su)..... 1-4

#### Select at least *one* of the following three courses:

SPAN 3550 (DHA)<sup>DE</sup> Spanish Culture and Civilization (F,Sp)..... 3

SPAN 3570 (DHA)<sup>DE</sup> Latin American Culture and Civilization (F,Sp).... 3

SPAN 4800<sup>17</sup> Hispanic Culture and Civilization—  
Study Abroad (Su)..... 1-4

#### Select at least *three* of the following six courses:

Select *one or two* courses from this group:

SPAN 3600 (DHA) Survey of Spanish Literature I (F,Sp)..... 3

SPAN 3610 (DHA) Survey of Spanish Literature II (F,Sp)..... 3

SPAN 3650<sup>17</sup> Spanish Literature—Study Abroad (F,Sp)..... 1-4

Select *one or two* courses from this group:

SPAN 3620 (DHA) Survey of Latin American Literature I (F,Sp)..... 3

SPAN 3630 (DHA) Survey of Latin American Literature II (F,Sp)..... 3

SPAN 3660<sup>17</sup> Latin American Literature—Study Abroad (F,Sp)..... 1-4

#### Complete *both* of the following two courses:

SPAN 4900<sup>17</sup> Topics of Spanish Literature (F,Sp)..... 3

SPAN 4910<sup>17</sup> Topics of Latin American Literature (F,Sp)..... 3

### B. Elective Courses (9 credits)

Students must complete 9 additional credits in courses either *not taken above* or *selected from the following list*:

SPAN 3010<sup>17,18,19</sup> Hispanic Outreach Practicum (P/F only)  
(F,Sp,Su)..... 1-4

SPAN 3060 (CI) Advanced Spanish Conversation  
and Composition (F,Sp)..... 3

SPAN 3100 Spanish for Healthcare Professionals (Sp)..... 3

SPAN 3510 Business Spanish (F,Sp)..... 3

SPAN 3520<sup>17,18,19</sup> Business Spanish Practicum (P/F only)  
(F,Sp,Su)..... 1-4

SPAN 4200<sup>20</sup> Applied Spanish Linguistics and Phonetics (Sp)..... 3

SPAN 4880<sup>17,18,21</sup> Individual Readings (F,Sp)..... 1-4

SPAN 4920<sup>17,18,19,22</sup> Spanish Language Tutoring (P/F only) (F,Sp)..... 1

LING 4900 Analysis of Cross-Cultural Difference (Sp) (3 cr) **or**

SPCH 3330 (DSS) Intercultural Communication (F,Sp) (3 cr)..... 3

## Spanish Major—Teaching Emphasis (65 credits) (3.00 GPA)

**Note:** The following requirements *only* specify courses offered by the Department of Languages, Philosophy, and Speech Communication. To be licensed to teach in the Utah public secondary school system, students with a teaching emphasis must also complete additional courses (approximately 31 credits) required by the Secondary Education Program. ## Teaching Emphasis for Spanish Major and Minor

### Spanish Major and/or Minor—Teaching Emphasis with Secondary School Licensure

To receive secondary school licensure, students must complete the Secondary Teacher Education Program (STEP). For further information, review the *Secondary Teacher Education Program (STEP) Level Outline* shown on page 341.

### Spanish Major and/or Minor—Teaching Emphasis without Secondary School Licensure

It is possible to have a teaching emphasis within a major or minor in Spanish without receiving Secondary School teaching licensure. However, unless the student is an elementary education major, he or she *would not* be able to teach in Utah public schools (nor at many private ones). Graduating without licensure may allow employment at some community college and universities.

In order to complete the Spanish Major—Teaching Emphasis *without* Secondary School Licensure, students must fulfill all of the requirements listed under Section I (Spanish and Linguistics Courses) of the Spanish Major—Teaching Emphasis (34 credits), plus either LING 3300<sup>23</sup> or LING 4300<sup>23</sup> (1 credit) and LING 4400<sup>23</sup> (3 credits), for a total of 38 credits.

# Department of Languages, Philosophy, and Speech Communication

Similarly, to complete a Spanish Minor—Teaching Emphasis *without* Secondary School Licensure, students must fulfill all of the requirements listed under the Spanish Minor—Teaching Emphasis (15 credits), plus either LING 3300<sup>23</sup> or 4300<sup>23</sup> (1 credit) and LING 4400<sup>23</sup> (3 credits) for a total of 19 credits.

<sup>16</sup>Students desiring to apply study abroad credits toward these degrees must obtain approval from the Spanish faculty prior to participating.  
<sup>17</sup>This course may be repeated for additional credit.  
<sup>18</sup>Enrollment in this course is by permission of instructor only.  
<sup>19</sup>Only 3 credits maximum in practicum courses may count toward a Spanish major or minor.  
<sup>20</sup>This course is required for a teaching emphasis in the Spanish major or minor.  
<sup>21</sup>Permission of instructor is required. Instructor will give permission *only* to students who have completed *both* SPAN 4900 and 4910.  
<sup>22</sup>This practicum is required for a teaching emphasis in the Spanish major.  
<sup>23</sup>LING 3300 or 4300, and LING 4400 must be taken *during the same semester*, and should be the *last* courses taken for the major or minor.  
<sup>24</sup>To obtain the packet to register for this 1-credit course, students should visit the departmental office in Main 204.  
<sup>DE</sup>Available as a regular on-campus class or online through Regional Campuses and Distance Education (RCDE).

## Secondary Teacher Education Program (STEP) Level Outline (31 credits; 35 credits including courses for teaching emphasis/minor)

Most of the courses listed below count for *both* the teaching emphasis and the teaching minor.

### A. Level 1 (first semester in program)

SCED 3100 Motivation and Classroom Management (F,Sp)	3
SCED 3210 (C/DSS) Educational and Multicultural Foundations (F,Sp)	3
LING 3300/4300 <sup>25,27</sup> Clinical Experience I and II (F) (P/F <i>only</i> )	1
LING 4400 <sup>26,27</sup> Teaching Modern Languages (F)	3
(LING 3300/4300 and 4400 may be taken in <i>either</i> Level 1 or Level 2.)	
INST 3500 Technology Tools for Secondary Teachers (F, Sp, Su)	1

### B. Level 2

SPED 4000 Education of Exceptional Individuals (may be taken earlier) (F,Sp,Su)	2
SCED 4200 (CI) Reading, Writing, and Technology (F,Sp)	3
SCED 4210 Cognition and Evaluation of Student Learning (F,Sp)	3

### C. Level 3

Because student teaching requires a major commitment of time and energy, students should take *only* the courses listed below during this semester. Students are also urged to forgo outside employment, if possible, during the student teaching experience.

LING 5500 Student Teaching Seminar (F,Sp)	2
LING 5630 Student Teaching in Secondary Schools (F,Sp)	10

<sup>25</sup>The Clinical Experience II course is taught under course number 4300 in various departments. Course title varies among departments.

<sup>26</sup>The Special Methods II course is taught under course number 4400.

<sup>27</sup>LING 3300 or 4300 and LING 4400 must be taken *during the same semester*, and should be the *last* courses taken for the major or minor.

## Additional Language Minor Requirements

### Minimum Departmental Requirements

#### Total Credits:

Chinese Minor	12
Japanese Minor	12
Portuguese Minor	12
Russian Minor	12
Linguistics Minor	12

Grade Point Average to Declare Minor	2.5 Career GPA
Grade Point Average to Graduate with Minor	2.0 Career GPA and 2.5 GPA within Minor Classes

### Notes:

Courses for Minors *may not* be taken on a *Pass/Fail* basis. Courses for Minors require a minimum grade of C- or better. At least half (50 percent) of credits for Minors must be completed through USU, and approved by the department head. Any 4920 course is repeatable; however, *only 1 credit* may be applied toward the minor.

### Chinese Minor

Select 12 upper-division credits in Chinese from the following courses:

CHIN 3010 Chinese Third Year I (F)	4
CHIN 3020 Chinese Third Year II (Sp)	4
CHIN 3100 (DHA) Readings in Contemporary Chinese Culture (Sp)	3
CHIN 3510 Chinese Business Language (F)	3
CHIN 3880 Individual Readings in Chinese (F,Sp)	1-2
CHIN 4920 <sup>28</sup> Chinese Language Tutoring (F,Sp,Su)	1

### Japanese Minor

Select 12 credits from the following courses:

JAPN 3010 Japanese Third Year I (F)	4
JAPN 3020 Japanese Third Year II (Sp)	4
JAPN 3050 <sup>28</sup> Japanese Calligraphy (Sp)	1
JAPN 3100 Readings in Contemporary Japanese Culture (F)	3
JAPN 3510 Japanese for the Business Environment (Sp)	3
JAPN 4920 <sup>28</sup> Japanese Language Tutoring (F,Sp)	1

### Portuguese Minor

Complete the following courses (13 credits):

PORT 2020 Portuguese Second Year II (Sp)	4
PORT 3040 (CI) Advanced Portuguese Grammar and Composition (must be completed at USU) (F,Sp)	3
PORT 3570 (DHA) Brazilian Culture and Civilization (must be completed at USU) (F)	3
PORT 3630 (DHA) Survey of Brazilian Literature (must be completed at USU) (Sp)	3

### Russian Minor

Select 12 credits from the following courses:

RUSS 3040 Advanced Russian Grammar and Composition (F)	3
RUSS 3050 Advanced Russian Grammar and Composition (Sp)	3
RUSS 3300 (DHA) Contemporary Russian Language and Culture (Sp 2007, F 2008)	3
RUSS 3510 (CI) Business Russian (F 2007)	3
RUSS 3540 Russian Translation for Science, Business, and Culture (Sp 2008)	3
RUSS 4880 <sup>28</sup> Individual Readings (F,Sp)	1-4
RUSS 4920 <sup>28</sup> Russian Language Tutoring (F,Sp)	1

<sup>28</sup>This course is repeatable for credit, and may be taken a *maximum* of three times.

### Linguistics Minor

Select 3 credits from the following courses:

LING 4100 <sup>DE</sup> The Study of Language (F,Sp)	3
ENGL 3020 (DHA) Perspectives in Linguistics (Sp)	3
ENGL 4200 Linguistic Structures (F,Sp,Su)	3

<sup>DE</sup>Available as a regular on-campus class or online through Regional Campuses and Distance Education (RCDE).

Select 9 credits from the following courses:

LING 4400 Teaching Modern Languages (F,Sp)	3
LING 4520 Technology for Language Teaching (Su)	3
LING 4900 Analysis of Cross-Cultural Difference (Sp)	3
ENGL 4210 History of the English Language (Sp)	3
ENGL 4220 Ethnic Literacy (F,Sp)	3
ENGL 4230 Language and Society (F)	3
ENGL 5210 Topics in Linguistics (F)	3

# Department of Languages, Philosophy, and Speech Communication

## Four-year Plan for Linguistics Minor

It is suggested that students completing the Linguistics Minor take the courses listed above in the following sequence:

### Freshman Year

ENGL 3020 (DHA) or LING 4100 or ENGL 4200

### Sophomore Year

LING 4900 or ENGL 4230

### Junior Year

ENGL 4210 or ENGL 4230

### Senior Year

LING 4400 or LING 4520 or ENGL 5210

For additional information on language major and minor programs offered by the Department of Languages, Philosophy, and Speech Communication, contact the department office.

## Sample Four-year Plans

Sample semester-by-semester four-year plans for students working toward a Bachelor of Arts degree in French, German, or Spanish can be found at: <http://www.usu.edu/degreeplans/>

Students should consult with their advisor to develop a plan of study tailored to their individual needs and interests.

## Proficiency Tests, Placement in Language Courses, and Obtaining Credit by Special Examination

Students who have completed one or more years of language study may take proficiency tests to determine their proper placement in language courses.

When basic skills in a department-taught language (other than French, German, Spanish, and Russian) have been acquired by means other than college courses, students can receive 4-20 lower-division credits with a letter grade by completing a course in that language at a higher level than the credits to be acquired. This course needs to be completed with a grade of *B* or better.

These credits will count as transfer credits. They will not count toward a certain semester or the USU GPA, but will be counted into the cumulative GPA. Please contact the department for further details.

## Technology Assisted Language Center

The department operates a technology assisted language center, located in Main 004, for instructional use associated with language classes, and for students desiring additional language practice outside of the classroom. The center includes computer workstations capable of running multimedia applications, as well as audio equipment.

## Exchange Programs, Semester Abroad Programs, and Summer Study Abroad Programs

The Department of Languages, Philosophy, and Speech Communication assists students with academic advising for study abroad exchange programs, semester abroad programs, and summer study abroad programs. Students must be in good standing at the University, and it is recommended that the students have some language preparation in order to participate in these programs.

Students desiring to count study abroad credits toward a major or minor in this department must obtain approval for these courses prior to their participation in the study abroad program. For information about Spanish study abroad programs, contact the department office at (435) 797-1209 or visit the Spanish website at: <http://lpsc.usu.edu/Default.asp?id=27>

For other study abroad program information, contact the USU Study Abroad Office, Taggart Student Center 313, or visit their website at: <http://www.usu.edu/studyabroad/>

## National Honor Societies

**Lambda Pi Eta (LPH)** is the National Communication Honor Society of the National Communication Association for undergraduate junior and senior communication students. Among the goals of LPH are to recognize, foster, and reward outstanding scholastic achievement; and to provide an opportunity for faculty and students to discuss and exchange ideas about their field of interest.

**Sigma Delta Pi (SDP)** is the National Collegiate Hispanic Honor Society of the American Association of Teachers of Spanish and Portuguese for students studying Spanish. Among the goals of SDP are to honor those who attain excellence in the study of the Spanish language and of the literature and culture of the Spanish-speaking peoples, and to encourage college and university students to acquire a greater interest in and a deeper understanding of Hispanic culture.

**Phi Sigma Iota (PSI)** is an international language honor society for juniors, seniors, and graduate students who excel in foreign language. PSI promotes international communication and understanding, as well as a sentiment of unity among nations. Phi Sigma Iota helps members further their training through scholarship and graduation honors. The society also promotes trips abroad.

## Languages Course Descriptions

Chinese (CHIN), pages 529-530

French (FREN), pages 566-567

German (GERM), pages 572-574

Italian (ITAL), page 589

Japanese (JAPN), pages 589-590

Korean (KOR), page 593

Language (LANG), page 595

Linguistics (LING), pages 596-597

Navajo (NAV), page 618

Portuguese (PORT), pages 640-641

Russian (RUSS), pages 650-651

Spanish (SPAN), pages 656-657

## Philosophy

Philosophy at USU reflects the ideals of the liberal arts in encouraging the respect for truth without promoting dogmatism, and in offering the opportunity for students to increase their self-understanding at the same time as they increase their knowledge of the world around them.

Philosophy faculty in the Department of Languages, Philosophy, and Speech Communication teach courses leading to an undergraduate major and a minor in philosophy. The mission of the Philosophy program at Utah State University is to provide a high-quality education

# Department of Languages, Philosophy, and Speech Communication

leading to an understanding of the major areas of inquiry represented within the discipline of philosophy. Coursework emphasizes the areas of the history of philosophy, logic, ethical theory and applied ethics, and metaphysics and epistemology. The curriculum is designed to meet a wide variety of student interests in pursuing a major in philosophy. It provides a rigorous foundation for students intending to further their education in law school or graduate school in philosophy, and it also provides an exciting and challenging education for those students who enjoy thinking about ideas for their own sake. Coursework is also designed to enrich the education of students majoring in other subjects, by providing them with opportunities to gain an understanding of philosophical perspectives on and philosophical foundations of their chosen fields.

## Minimum Departmental Requirements

### Total Credits:

Philosophy Major .....	30
Philosophy Minor .....	18

Grade Point Average to Declare a Major or Minor .....	2.5 Career GPA
Grade Point Average to Graduate with Major or Minor .....	2.5 Career GPA and 2.5 GPA within Major/Minor Classes

### Notes:

Courses for Philosophy Majors and Minors require a minimum grade of C- or better.

Bachelor of Arts (BA) degree additional requirements include two years of language, or same as University Requirement. The Bachelor of Science (BS) degree in philosophy can be awarded to philosophy majors who have taken 12 credits in math or science beyond the University Studies Requirements, as approved by an advisor.

## Course Requirements

### Bachelor of Arts in Philosophy (30 credits) (2.5 GPA)

All philosophy majors must complete 30 credits of philosophy. Up to 6 *pass/fail* credits in philosophy courses may be applied toward the philosophy major. The requirements are distributed as follows:

#### A. Required Courses (15 credits)

PHIL 1120 (BHU) Social Ethics (F) (3 cr) or	
PHIL 2400 (BHU) Ethics (Sp) (3 cr) .....	3
PHIL 1200 (BHU) Practical Logic (Sp) (3 cr) or	
PHIL 2200 (QI) Deductive Logic (F,Sp) (3 cr) .....	3
PHIL 3100 (CI) Ancient Philosophy (3 cr) or	
PHIL 3110 Medieval Philosophy (3 cr) .....	3
PHIL 3120 (CI) Early Modern Philosophy (3 cr) or	
PHIL 3150 (CI) Kant and His Successors (3 cr) .....	3
PHIL 4300 Epistemology (3 cr) or	
PHIL 4400 Metaphysics (F) (3 cr) .....	3

#### B. Elective Courses (15 credits)

Choose five other philosophy courses not already taken above, four of which must be at the upper-division level (3000 or higher).

PHIL 3160 (CI) Contemporary Philosophy .....	3
PHIL 3180 (CI) Contemporary European Philosophy .....	3
PHIL 3500 Medical Ethics (F) .....	3
PHIL 3510 Environmental Ethics (Sp) .....	3
PHIL 3520 <sup>DE</sup> Business Ethics .....	3
PHIL 3700 Philosophy of Religion (F) .....	3
PHIL 3710 Philosophies of East Asia (F) .....	3
PHIL 3720 Philosophical Theology after Kant (F) .....	3
PHIL 3730 (CI) Philosophy of the New Testament .....	3
PHIL 3800 Philosophy in Literature .....	3
PHIL 3810 Aesthetics (Sp) .....	3

PHIL 4310 Philosophy of Science .....	3
PHIL/HIST 4320 History of Scientific Thought .....	3
PHIL 4410 Philosophy of Mind .....	3
PHIL 4420 Philosophy of Language .....	3
PHIL 4500 Contemporary Ethical Theory .....	3
PHIL 4530 (DSC) Ethics and Biotechnology .....	3
PHIL 4540 Human Values and Information Technology .....	3
PHIL 4600 Philosophy of Law .....	3
PHIL 4610 Social and Political Philosophy .....	3
PHIL 4900 Special Topics (F,Sp) .....	3
PHIL 4910 Readings and Research (F,Sp) .....	1-4
PHIL 4920 Senior Honors Seminar (Sp) .....	3
PHIL 4930 Senior Honors Thesis (F,Sp,Su) .....	1-4
PHIL 4990 Philosophy Seminar .....	3
PHIL 5200 Symbolic Logic .....	3
PHIL 5510 Ethics and the Environment .....	3
PHIL 5600 Legal Ethics .....	3

<sup>DE</sup>Available as a regular on-campus class or as a Face-to-Face or Interactive Broadcast course through Regional Campuses and Distance Education (RCDE).

### C. Language Requirement

To receive a Bachelor of Arts (BA) degree, students must also complete the foreign language requirement.

### Bachelor of Science in Philosophy (30 credits) (2.5 GPA)

All philosophy majors must complete 30 credits of philosophy. Up to 6 *pass/fail* credits in philosophy courses may be applied toward the philosophy major. The requirements are distributed as follows:

#### A. Required Courses (15 credits)

PHIL 1120 (BHU) Social Ethics (F) (3 cr) or	
PHIL 2400 (BHU) Ethics (Sp) (3 cr) .....	3
PHIL 1200 (BHU) Practical Logic (Sp) (3 cr) or	
PHIL 2200 (QI) Deductive Logic (F,Sp) (3 cr) .....	3
PHIL 3100 (CI) Ancient Philosophy (3 cr) or	
PHIL 3110 Medieval Philosophy (3 cr) .....	3
PHIL 3120 (CI) Early Modern Philosophy (3 cr) or	
PHIL 3150 (CI) Kant and His Successors (3 cr) .....	3
PHIL 4300 Epistemology (3 cr) or	
PHIL 4400 Metaphysics (F) (3 cr) .....	3

#### B. Elective Courses (15 credits)

Choose five other philosophy courses not already taken above, four of which must be at the upper-division level (3000 or higher). (See list of elective courses for Bachelor of Arts in Philosophy, shown in previous elective courses listing.)

#### C. Science Requirement

To receive a Bachelor of Science (BS) degree, students must take 12 credits in math or science beyond the University Studies Requirements, as approved by an advisor.

### Bachelor of Arts in Philosophy with Concentration in Ethics (30 credits) (2.5 GPA)

All philosophy majors must complete 30 credits of philosophy. Up to 6 *pass/fail* credits in philosophy courses may be applied toward the philosophy major. The requirements are distributed as follows:

# Department of Languages, Philosophy, and Speech Communication

## A. Required Courses (21 credits)

PHIL 1200 (BHU) Practical Logic (Sp) (3 cr) or	
PHIL 2200 (QI) Deductive Logic (F,Sp) (3 cr).....	3
PHIL 2400 (BHU) Ethics (Sp).....	3
PHIL 3100 (CI) Ancient Philosophy (3 cr) or	
PHIL 3110 Medieval Philosophy (3 cr) .....	3
PHIL 3120 (CI) Early Modern Philosophy (3 cr) or	
PHIL 3150 (CI) Kant and His Successors (3 cr).....	3
PHIL 4300 Epistemology (3 cr) or	
PHIL 4400 Metaphysics (F) (3 cr) .....	3

### Select one of the following three courses:

PHIL 1120 (BHU) Social Ethics (F) .....	3
PHIL 4500 Contemporary Ethical Theory.....	3
PHIL 4610 (DHA) Social and Political Philosophy .....	3

### Select one of the following four courses:

PHIL 3500 Medical Ethics (F).....	3
PHIL 3510 (DHA) Environmental Ethics (Sp).....	3
PHIL 3520 (DHA) Business Ethics.....	3
PHIL 4530 (DSC) Ethics and Biotechnology .....	3

## B. Elective Courses (9 credits)

Choose three other philosophy courses not already taken above, at least two of which must be at the upper-division level (3000 or higher). (See list of elective courses for Bachelor of Arts in Philosophy, shown in previous elective courses listing.)

## C. Language Requirement

To receive a Bachelor of Arts (BA) degree, students must also complete the foreign language requirement.

## Bachelor of Science in Philosophy with Concentration in Ethics (30 credits) (2.5 GPA)

All philosophy majors must complete 30 credits of philosophy. Up to 6 *pass/fail* credits in philosophy courses may be applied toward the philosophy major. The requirements are distributed as follows:

### A. Required Courses (21 credits)

PHIL 1200 (BHU) Practical Logic (Sp) (3 cr) or	
PHIL 2200 (QI) Deductive Logic (F,Sp) (3 cr).....	3
PHIL 2400 (BHU) Ethics (Sp).....	3
PHIL 3100 (CI) Ancient Philosophy (3 cr) or	
PHIL 3110 Medieval Philosophy (3 cr) .....	3
PHIL 3120 (CI) Early Modern Philosophy (3 cr) or	
PHIL 3150 (CI) Kant and His Successors (3 cr).....	3
PHIL 4300 Epistemology (3 cr) or	
PHIL 4400 Metaphysics (F) (3 cr) .....	3

### Select one of the following three courses:

PHIL 1120 (BHU) Social Ethics (F) .....	3
PHIL 4500 Contemporary Ethical Theory.....	3
PHIL 4610 (DHA) Social and Political Philosophy .....	3

### Select one of the following four courses:

PHIL 3500 Medical Ethics (F).....	3
PHIL 3510 (DHA) Environmental Ethics (Sp).....	3
PHIL 3520 (DHA) <sup>DE</sup> Business Ethics.....	3
PHIL 4530 (DSC) Ethics and Biotechnology .....	3

<sup>DE</sup>Available as a regular on-campus class or as a Face-to-Face or Interactive Broadcast course through Regional Campuses and Distance Education (RCDE).

## B. Elective Courses (9 credits)

Choose three other philosophy courses not already taken above, two of which must be at the upper-division level (3000 or higher). (See list of elective courses for Bachelor of Arts in Philosophy, shown in previous elective courses listing.)

## C. Science Requirement

To receive a Bachelor of Science (BS) degree, students must take 12 credits in math or science beyond the University Studies Requirements, as approved by an advisor.

## Philosophy Minor (18 credits) (2.5 GPA)

A minor in philosophy may be obtained by completing six philosophy courses, at least four of which must be at the upper-division level. Up to 3 *pass/fail* credits in philosophy courses may be applied toward the philosophy minor.

## Sample Four-year Plans for Philosophy Major

Sample semester-by-semester four-year plans for students working toward a Bachelor of Arts or Bachelor of Science degree in Philosophy or Philosophy with a Concentration in Ethics can be found at: <http://www.usu.edu/degreeplans/>

Students should consult with their advisor to develop a plan of study tailored to their individual needs and interests.

## Philosophy Course Descriptions

Philosophy (PHIL), pages 631-632

## Speech Communication

Speech Communication has been taught continuously at USU almost from the University's founding in 1888. Speech Communication faculty in the Department of Languages, Philosophy, and Speech Communication teach courses leading to a Bachelor of Arts or Bachelor of Science degree in Speech, as well as to minors in Organizational Communication and Speech Communication Teaching.

This major focuses on how people communicate to create meanings across a wide range of contexts, including interactions that occur in personal relationships and public interactions, with those from other cultures, and with those in business and other applied settings. Students learn to think critically about the messages they receive and to develop skills promoting the understanding and practice of effective and ethical communication behaviors.

Students majoring in speech are encouraged to earn a BA degree by completing two years of study in a foreign language. This broadens cultural and social awareness and can increase one's understanding of the nature of language in general.

Admission to the speech major will be limited to 25 students each year. Admission decisions will be based on (1) academic record, (2) realistic career or professional study objective, (3) ability of this program to prepare the student for intended career, (4) satisfactory speaking and writing competencies, and (5) motivation and creativity demonstrated by class performance, work experience, volunteer activities, and other means offered by the student during the application process.

# Department of Languages, Philosophy, and Speech Communication

Students not admitted may apply the following year. If not admitted on the second application, the student will be permitted to complete a minor, but will not be considered again for the major.

To obtain guidelines for applying to the speech major, contact the Department of Languages, Philosophy, and Speech Communication.

The minor program in **Organizational Communication** is designed for students who seek communication and human relations competencies, an understanding of human communication behavior, and the critical thinking skills required for success in a variety of careers.

The course of study leading to a minor in **Speech Communication Teaching** is designed to develop the communication competencies and the understanding of communication processes and theory necessary for effective high school speech communication instruction. Prior to student teaching, the program features practicum experience in which students learn how to critique and coach speech communication students.

**Pre-Speech Major.** Since admission to the speech major is limited to 25 students per year, students not yet admitted to the speech major will be allowed to enter a pre-speech major. While a student in the pre-speech major is waiting to be admitted into the speech major, he or she should complete SPCH 1020 (Public Speaking) and SPCH 2110 (Interpersonal Communication). For more information about the application process for the speech major, contact the Department of Languages, Philosophy, and Speech Communication. Each semester new applicants will be considered for admission to the speech major.

## Minimum Departmental Requirements

### Total Credits:

Speech Major .....	30
Organizational Communication Minor .....	15
Speech Communication Teaching Minor .....	19

Grade Point Average to Declare a Major or Minor.....2.5 Career GPA  
Grade Point Average to Graduate with Major or Minor...2.0 Career GPA  
and 2.5 GPA within Major/Minor Classes

## Course Requirements

### Speech Major (30 credits) (2.5 GPA) (C- or better required for all major classes)

As many as 15 credits completed at other colleges or universities may be used to partially satisfy these requirements. For more information, students should contact their advisor. Students must earn an overall GPA of at least 2.5 in all classes applied toward the major.

#### A. Communication Core (6 credits)

SPCH 1020 (CI) Public Speaking (F,Sp) .....	3
SPCH 2110 (CI) Interpersonal Communication (F,Sp) .....	3

#### B. Senior Year Capstone Course (3 credits)

This course, which is offered spring semester *only*, must be taken during the student's senior year.

SPCH 5100 (CI) Theories of Speech Communication (Sp).....	3
---	---

#### C. Thematic Area Courses (18 credits)

Two courses are required from each of the following three thematic areas:

#### 1. Organization (6 credits)

SPCH 3050 (DSS) Technical and Professional Communication (Sp) ...	3
SPCH 3250 (CI) Organizational Communication (F) .....	3
SPCH 3600 Communication and Conflict (F) .....	3
SPCH 5090 Small Group Theory (Sp) .....	3
MGT 3710 Developing Team and Interpersonal Skills (F,Sp) .....	3

#### 2. Society (6 credits)

SPCH 3330 (DSS) Intercultural Communication (F) .....	3
SPCH 4200 Language, Thought, and Action (Sp) .....	3
SPCH 5000 Studies in Speech Communication:	
Visual Communication .....	3
SPCH 5250 Environmental Rhetoric (Sp) .....	3
MGT 3820 (DSS) International Management (F,Sp) .....	3
LING 4900 Analysis of Cross-Cultural Difference (Sp) .....	3

#### 3. Influence (6 credits)

SPCH 2270 Argumentation and Debate (F) .....	3
SPCH 3400 (CI) Persuasion (F) .....	3
SPCH 4460 Communication Criticism (F) .....	3
SPCH 5000 Studies in Speech Communication:	
Advanced Persuasion (Sp) .....	3
MIS 4350 Introduction to Performance Improvement Projects (Sp) .....	3

#### D. Elective courses (3 credits)

Any course listed above in section C, *Thematic Area Courses* (or those listed below) may serve as an elective.

SPCH 2250 <sup>29</sup> Introductory Internship/Co-op (F,Sp,Su) .....	1-6
SPCH 2280 Listening (Sp) .....	2
SPCH 3000 Speech Communication Teaching	
Practicum (repeatable) (Sp) .....	1
SPCH 4250 <sup>29</sup> Advanced Internship/Co-op (F,Sp,Su) .....	1-6
SPCH 5000 Studies in Speech Communication (repeatable) (F,Sp) .....	3
SPCH 5280 Communication Education Theory (Sp) .....	3
LING 4100 The Study of Language (F,Sp) .....	3

<sup>29</sup>Internship project and number of credits must be approved by advisor.

## Sample Four-year Plan for Speech Major

A sample semester-by-semester four-year plan for students working toward a Bachelor of Arts or Bachelor of Science degree in Speech can be found at: <http://www.usu.edu/degreeplans/>

Students should consult with their advisor to develop a plan of study tailored to their individual needs and interests.

## Speech Communication Minor Programs

### Organizational Communication Minor (15 credits) (2.5 GPA)

As many as 6 credits completed at other colleges or universities may be used to partially satisfy these requirements. For more information, students should contact their advisor. Students must earn an overall GPA of at least 2.5 in all classes applied toward the minor.

#### A. Required Courses (6 credits)

SPCH 1020 (CI) Public Speaking (F,Sp) (3 cr) or	
SPCH 2110 (CI) Interpersonal Communication (F,Sp) (3 cr) .....	3
SPCH 3250 (CI) Organizational Communication (F) .....	3

#### B. Elective Courses (9 credits)

In consultation with a program advisor, select 9 credits from courses having the SPCH prefix. Of these 9 credits, at least 3 credits must be completed in a course offered at the 4000 or 5000 level.

# Department of Languages, Philosophy, and Speech Communication

## Speech Communication Minor—Teaching Emphasis (19 credits) (2.5 GPA)

**Note:** The following requirements *only* specify courses offered by the Department of Languages, Philosophy, and Speech Communication. To be licensed to teach in the Utah public secondary school system, students with a teaching emphasis must also complete an approved teaching major and STEP courses required by the Secondary Education Program. SPCH 5370 and *either* SPCH 3300 or 4300 are part of the STEP requirements. For more information, please contact the Secondary Education Program, Education Building 330, or review the supplementary section, entitled *Secondary Teacher Education Program (STEP) Level Outline* on page 341. Information is also provided on the Web at:

[http://secondaryeducation.usu.edu/cs\\_admission.php](http://secondaryeducation.usu.edu/cs_admission.php)

**Also Note:** SPCH 1020, 2110, and 3000 should be completed prior to enrollment in the 4000- and 5000-level courses. A minimum grade of C- is required in each of these classes.

### Speech Communication Courses (19 credits)

SPCH 1020 (CI) Public Speaking (F,Sp) .....	3
SPCH 2110 (CI) Interpersonal Communication (F,Sp) .....	3
SPCH 2270 Argumentation and Debate (F) .....	3
SPCH 3000 Speech Communication Teaching Practicum (Sp) .....	1
SPCH 5100 (CI) Theories of Speech Communication (Sp).....	3
SPCH 5280 Communication Education Theory (Sp).....	3
SPCH 3330 (DSS) Intercultural Communication (F) (3 cr) or	
SPCH 5090 Small Group Theory (Sp) (3 cr) .....	3

To fulfill the Secondary Teacher Education Program (STEP) requirements, students should complete SPCH 3300, 4300, and 5370.

## Speech Communication Course Descriptions

Speech Communication (SPCH), page 658

## Languages, Philosophy, and Speech Communication Faculty

### Professors

*Bradford "J" Hall*, speech communication  
*Charles W. Johnson*, philosophy of mind, Wittgenstein, logic, philosophical methods  
*John E. Lackstrom*, linguistics, Spanish applied linguistics, TESL  
*Mark D. Larsen*, Latin American literature, computer applications in languages  
*Kent E. Robson*, ethics, philosophy of language, history of philosophy, philosophy of science, philosophy of religion  
*John S. Seiter*, interpersonal communication, intercultural relations, social influence  
*Richard Sherlock*, medical and environmental ethics, ethical theory, ethical issues in genetics, political philosophy, philosophy of religion

### Professors Emeritus

*Lynn R. Eliason*, 19th century Russian and German novels, Russian culture  
*Hans K. Mussler*, German literature, Lessing, enlightenment, translation, teaching methodology  
*Alfred N. Smith, Jr.*, French, foreign language education, cross-cultural studies

### Associate Professors

*María-de Jesús Cordero*, colonial Spanish-American literature  
*Sarah Gordon*, medieval French  
*Charlie Huenemann*, history of modern philosophy, Kant, metaphysics  
*Taira Koybaeva*, Russian, Linguistics, intercultural relationships in business and politics  
*Jennifer A. Peeples*, environmental rhetoric  
*J. P. Spicer-Escalante*, 19th century Latin American literature  
*Maria Luisa Spicer-Escalante*, Hispanic applied linguistics  
*Gordon Steinhoff*, philosophy of science, logic, metaphysics  
*Felix W. Tweraser*, 20th century Austrian literature

### Associate Professors Emeritus

*Jerry L. Benbow*, Peninsular Spanish literature and grammar  
*Lynne H. Goodhart*, 20th century French poetry, women in literature  
*Ilona Jappinen*, German language, literature and culture, Nietzsche expressionism  
*Harold J. Kinzer*, organizational communication  
*Gordon E. Porter*, Spanish, Spanish literature, Portuguese  
*Norman R. Savoie*, contemporary French culture, contemporary French detective fiction  
*Janet C. Stock*, French, business French, 20th century French literature, Proust

### Assistant Professors

*Javier Domínguez-García*, Spanish medieval and golden age  
*Christa Jones*, French, contemporary francophone studies  
*Cacilda Rego*, Portuguese  
*Matthew Sanders*, organizational communication  
*Xenia Srebranski Harwell*, German and Russian literature

### Visiting Assistant Professors

*Harrison Kleiner*, European philosophy  
*Kristi Krumnow*, French

### Assistant Professor Emeritus

*Valentine Suprunowicz*, Russian literature

### Principal Lecturer Emeritus

*Viva L. Lynn*, Spanish literature

### Lecturers

*Gayle Houser*, public speaking and speech communication  
*Karin de Jonge-Kannan*, second language acquisition  
*Annie Kim*, Korean, second language acquisition, Asian culture  
*Kevin L. Krogh*, Spanish  
*Atsuko O. Neely*, Japanese, second language acquisition  
*Jilda Yap*, second language teaching

# Latin American Studies Minor

## Coordination:

**William L. Furlong**, Professor, Department of Political Science,  
bill.furlong@usu.edu

**Bonnie Glass-Coffin**, Professor, Department of Sociology,  
Social Work and Anthropology, bonnie.glasscoffin@usu.edu

**Cacilda Rego**, Assistant Professor of Portuguese, Department of  
Languages, Philosophy, and Speech Communication,  
cacilda.rego@usu.edu

**James Sanders**, Assistant Professor, Department of History,  
james.sanders@usu.edu

The Latin American Studies minor, an interdepartmental program within the College of Humanities, Arts, and Social Sciences, provides students with an interdisciplinary and rigorous introduction to Latin America. The minor complements existing majors through the expansion and development of regional knowledge and expertise. After completing the minor, students will have demonstrated language competence and enhanced political, economic, cultural, and sociological understanding of the countries and peoples of Latin America.

## Admission Requirements

1. USU students in good standing who are enrolled in any major or department and who have a 2.75 minimum GPA qualify for admission to this minor.
2. Transfer students from other institutions need a 2.75 minimum total GPA for admission to this minor.

## Latin American Studies Minor Requirements (18 credits, plus language competency)

### A. Language Requirement

A minimum of *two years* (16 credits or four semesters) of Introductory Spanish (SPAN 1010, 1020, 2010, and 2020) or Introductory Portuguese (PORT 1010, 1020, 2010, and 2020), or the completion of an equivalent competency exam, is required.

### B. Required Course (3 credits)

**LATS 2200** Introduction to Latin America (F) ..... 3

### C. Electives (15 credits)

Students must choose a *minimum of five courses* from the following list. The courses must be chosen from *at least two different disciplines*.<sup>3</sup>

**ANTH 3130 (CI)** Peoples of Latin America ..... 3

**ANTH/SOC 5130/6130** Ethnographic Field School (Su) ..... 6

**GEOG 4200 (CI)** Regional Geography: Latin America (F,Sp,Su) ..... 3

**HIST 3620** History of Colonial Latin America ..... 3

**HIST 3630** History of Modern Latin America ..... 3  
**HIST 3640** History of Social Movements in Latin America ..... 3  
**HIST 3650** Caribbean History ..... 3  
**HIST 3660** History of Mexico ..... 3

**POLS 3270 (DSS)** Latin American Government and Politics (F) ..... 3  
**POLS 4450 (CI)** United States and Latin America (Sp) ..... 3

**PORT 3570 (DHA)**<sup>1</sup> Brazilian Culture and Civilization (F) ..... 3  
**PORT 3630 (DHA)**<sup>1</sup> Survey of Brazilian Literature (Sp) ..... 3  
**PORT 3800**<sup>1</sup> Portuguese III Study Abroad (Su) ..... 3

**SPAN 3510** Business Spanish (F,Sp) ..... 3  
**SPAN 3570 (DHA)** Latin American Culture and Civilization (F,Sp) ..... 3  
**SPAN 3620 (DHA)**<sup>1</sup> Survey of Latin American Literature I (F,Sp) ..... 3  
**SPAN 3630 (DHA)**<sup>1</sup> Survey of Latin American Literature II (F,Sp) ..... 3  
**SPAN 3660**<sup>4</sup> Latin American Literature—Study Abroad (Su) ..... 1-4  
**SPAN 3800**<sup>1</sup> Spanish III Study Abroad (Su) ..... 1-4  
**SPAN 4800**<sup>2,4</sup> Hispanic Culture and Civilization—Study Abroad (Su) 1-4  
**SPAN 4910**<sup>1</sup> Topics of Latin American Literature (F,Sp) ..... 3

### D. Major Courses Limitation

Only *two* courses completed as part of the student's major may be applied toward the Latin American Studies minor.

### E. Restricted Electives (3 credits)

Students may choose one course from the following list to count toward their total elective credits.

**ENGL 3300** Period Studies in American Literature: The Mexican Revolution and its Aftermath in the United States (F,Sp) ..... 3  
**ENGL 5300 (CI)** Literature and Gender: Chicana Literature (F,Sp) ..... 3

**HIST 3670** Slavery in the Atlantic World ..... 3  
**HIST 4630** The History of Mexican Americans ..... 3

**SOC 4730** Women in International Development (Sp) ..... 3

<sup>1</sup>Requires a proficiency in Spanish or Portuguese at the 3000 level or above.

<sup>2</sup>Requires a proficiency in Spanish at the 2000 level or above.

<sup>3</sup>A limit of 6 credits of overlapping courses from a pre-existing major or alternative minor may be counted toward this elective requirement.

<sup>4</sup>SPAN 3660 and 4800 can be counted as electives for the Latin American Studies Minor *only* when they are taken in a Latin American country.

## Additional Information

For additional information about the Latin American Studies minor, see the minor requirement sheet, which can be accessed online at:  
<http://www.usu.edu/majorsheets/>

## Course Description

Latin American Studies (LATS), page 596

# Liberal Arts Major

**Contact and Advising:** College of HASS Advising Center

**Location:** Student Center 302

**Phone:** (435) 797-3883

**FAX:** (435) 797-2096

**E-mail:** susie.parkinson@usu.edu

**Degree Offered:** Bachelor of Arts (BA) in Liberal Arts

The Liberal Arts Major offers a broad and challenging course of study in the humanities, sciences, arts, and social sciences. Through a multi-disciplinary but coherent approach to learning, the program meets the needs of students majoring in professional fields, as well as those desiring a general background for adaptability and mobility in employment. The Liberal Arts Major offers USU students the training required to be competitive and to contribute effectively in the organizations, professions, and communities of the twenty-first century.

This major allows the student to develop an individualized curriculum in consultation with the program advisor (Student Center 302). This major requires a 2.3 overall GPA for admission and a 2.0 USU Cumulative GPA for graduation.

Although the emphasis of this major is in the humanities, arts, and social sciences, the student is encouraged to seek out other educational interests as part of an academic program. The following credit distribution will be typical of most students:

## University Studies (30 credits)

The University Studies Program (which is required for all students seeking a bachelor's degree) consists of two sets of requirements: General Education Requirements and Depth Education Requirements. Included in the General Education Requirements are Competency Requirements, including Communications Literacy, Quantitative Literacy, and Computer and Information Literacy. General Education also includes Breadth Requirements in the areas of American Institutions, Creative Arts, Humanities, Life Sciences, Physical Sciences, and Social Sciences. To complete the Depth Education Requirements, students must complete two Communications Intensive courses, one Quantitative Intensive course, and two Depth courses. For more information about the University Studies Program, as well as lists of courses approved for meeting University Studies Requirements, see pages 67-75 in this catalog. Students should consult with the program advisor to determine which University Studies courses will best meet their learning goals.

## Foreign Language Requirement

A Bachelor of Arts (BA) degree signifies proficiency in one or more foreign languages or American Sign Language. Specifically, the BA requirement may be completed in one of the following ways:

1. Demonstration of proficiency in *one* foreign language by successful completion of one course at the 2020-level or higher (or its equivalent).  
**Or**
2. Demonstration of proficiency in American Sign Language by successful completion of American Sign Language IV (COMD 4920) and Socio-Cultural Aspects of Deafness (COMD 4780), and by passing an exit interview.  
**Or**

3. Demonstration of proficiency in *two* foreign languages by successful completion of the 1020 course level in one language **and** the 2010 course level in the second language (or its equivalent).  
**Or**
4. Completion of an upper-division (3000-level or higher) foreign language grammar or literature course requiring the 2020 course level (or its equivalent) as a prerequisite. Conversation courses *cannot* be considered for satisfying this requirement.

For nonnative English-speaking students *only*, the following options are available:

1. Successful completion of the Intensive English Language Institute (IELI) program for international students.  
**Or**
2. TOEFL, Michigan, or IELI placement scores high enough to meet the University admission criteria.

## Focus of Study

The focus of study for the Liberal Arts major is to help students gain a basic understanding of the development of civilization, including historical and cultural traditions, political institutions and processes, an appreciation of arts and literature, and expanded capacities for critical thought. Four learning goals are identified, each requiring a minimum of 9 credits, for a total of 36 credits.

Students plan a multi-disciplinary academic program providing a focus for study, with emphasis in primarily social sciences, humanities, and arts.

## Pre-professional and Elective Credits

Depending on a student's career objectives, a student may take courses leading to further study in medicine, law, business, or other graduate programs, or continue to study in a number of different disciplines.

## Sample Four-year Plan for Liberal Arts Major

A sample semester-by-semester four-year plan for students working toward a Bachelor of Arts degree in Liberal Arts can be found at: <http://www.usu.edu/degreeplans/>

Students should consult with their advisor to develop a plan of study tailored to their individual needs and interests.

## Additional Information

Details of requirements for the Liberal Arts major, as well as a worksheet for students to record their progress, can be found on the major requirement sheet, available from the College of HASS Advising Center, or online at: <http://www.usu.edu/majorsheets/>

# Department of Management

**Interim Department Head:** Alan P. Warnick

**Location:** Business 415

**Phone:** (435) 797-1789

**FAX:** (435) 797-1091

**E-mail:** [suzette.alder@usu.edu](mailto:suzette.alder@usu.edu)

**Undergraduate Advisors:**

Lindsey Thurgood, Business 309, (435) 797-2272,  
[lindsey.thurgood@usu.edu](mailto:lindsey.thurgood@usu.edu)

Peggy Buttars, Business 309, (435) 797-2272,  
[peggy.buttars@usu.edu](mailto:peggy.buttars@usu.edu)

**Graduate Program Director:**

Steven H. Hanks, Business 414, (435) 797-2373,  
[steven.hanks@usu.edu](mailto:steven.hanks@usu.edu)

**Graduate Program Advisor:**

Megen Ralphs, Business 419, (435) 797-9159,  
[megen.ralphs@usu.edu](mailto:megen.ralphs@usu.edu)

**Degrees offered:** Bachelor of Science (BS) and Bachelor of Arts (BA) in Marketing, Operations Management, International Business, Business Administration, Entrepreneurship, and Human Resource Management; Master of Science (MS) in Human Resources

The department also participates in the Huntsman School of Business Master of Business Administration (MBA) Degree. A description of the MBA degree and program requirements can be found on pages 194-195. Graduate-level courses offered by the department are included in the plans of study of graduate students in a wide variety of disciplines. Students can specialize in Entrepreneurship or Human Resource Management in the on-campus MBA program.

## Undergraduate Programs

### Objectives

The Department of Management offers programs to prepare students for administrative positions in business, government, and other institutions. Specialized training is provided within specific functional fields of business, as well as training directed at understanding the broader aspect of business as it functions within our economy. Training is specifically provided in six areas: (1) **Marketing**, involving positions in sales, advertising, retailing, distribution, and other similar activities; (2) **Operations Management**, leading to careers related to supply chain management, operations planning and scheduling, project management, quality management, and consulting; (3) **International Business**, preparing leaders versed in business, social science, and cultural dimensions of a global marketplace; (4) **Business Administration**, providing broad cross-disciplinary experience in the core business areas of operations, finance, and marketing; (5) **Entrepreneurship**, focusing on the development of entrepreneurial and leadership capabilities; and (6) **Human Resource Management**, dealing with those processes which provide, develop, and maintain a productive workforce.

### Departmental Honors

See *Honors in Business* description in the Huntsman School of Business section of this catalog (page 124).

## Learning Objectives and Assessment

Assessment information for the Management Department can be found online at:

<http://www.huntsman.usu.edu/management/htm/assessment/>

## Huntsman School of Business Admission Requirements

All students having majors within the Management Department must satisfy the Huntsman School of Business admission requirements, provided on pages 124-125. Academic advising about these requirements is available in the Huntsman School of Business Programs and Advising Center, Business 309.

All students enrolled at USU are required to satisfy the General Education requirements and the University Studies Depth Education requirements of the University, as described on pages 67-75 of this catalog.

## Matriculation Requirement and Transfer Limitation

No more than 15 USU Huntsman School of Business credits (ACCT, BUS, FIN, MGT, MIS), numbered 2000 and above, earned as a nonbusiness major (before acceptance into the Huntsman School) can be applied to a Huntsman School degree. More than 15 business credits can be transferred from other accredited institutions. However, additional USU Huntsman School credits added to previously earned transfer business credits may not exceed a combined total of 15. Furthermore, to earn a bachelor's degree in a Huntsman School major, at least 50 percent of the required Huntsman School credits must be earned from coursework taken from the Utah State University Huntsman School.

## USU Credits and Business Credits

At least 30 of the last 60 semester credits must be taken from Utah State University, at least 20 of which must be completed in upper-division courses, of which at least 10 credits must be completed in courses required by the student's major. At least 50 percent of the Huntsman School of Business credits required for a Huntsman School degree must be taken from the Utah State University Huntsman School or its departments, which include: School of Accountancy, Economics and Finance, Management, and Management Information Systems.

## Huntsman School of Business Core

All majors in the Department of Management must complete the following prerequisite courses and business core courses, in addition to the specific courses listed for the major.

Business majors must take these courses as prerequisite to 3000-, 4000-, and 5000-level courses in the Huntsman School of Business.

### Pre-Business Course Requirements (13 credits)

<b>ECN 1500 (BAI)</b> Introduction to Economic Institutions, History, and Principles (F,Sp,Su) .....	3
<b>MATH 1100 (QL)</b> Calculus Techniques (F,Sp,Su) .....	3
<b>STAT 2300 (QL)</b> Business Statistics (F,Sp,Su) .....	4
<b>PSY 1010 (BSS)</b> General Psychology (F,Sp,Su) (3 cr) <b>or</b>	
<b>SOC 1010 (BSS)</b> Introductory Sociology (F,Sp) (3 cr) .....	3

# Department of Management

All 3000-, 4000-, and 5000-level courses in the Huntsman School of Business are restricted to students admitted to the Huntsman School or another USU major with an overall GPA of at least 2.67 and completion of at least 40 credits.

## Huntsman School of Business Core (37 credits)

ACCT 2010 Survey of Accounting I (F,Sp,Su)	3
ACCT 2020 Survey of Accounting II (F,Sp,Su)	3
BUS 3250 Discussions With Business Leaders (F,Sp)	1
ECN 2010 (BSS) Introduction to Microeconomics (F,Sp,Su)	3
ECN 3400 International Economics for Business (F,Sp,Su)	3
FIN 3400 (QI) Corporate Finance (F,Sp,Su)	3
MGT 2050 Legal and Ethical Environment of Business (F,Sp,Su)	3
MGT 3110 (DSS) Managing Organizations and People (F,Sp,Su)	3
MGT 3500 Fundamentals of Marketing (F,Sp,Su)	3
MGT 3700 Operations Management (F,Sp,Su)	3
MGT 4880 (CI) Business Strategy in an Entrepreneurial Context (F,Sp,Su) (3 cr) or	
MGT 4890 (CI) Business Strategy in a Global Context (F,Sp,Su) (3 cr)	3
MIS 2100 Principles of Management Information Systems (F,Sp,Su)	3
MIS 2200 (CI) Business Communication (F,Sp,Su)	3

## Requirements for Majors

### Marketing (21-22 credits)

Modern marketing consists of a system of activities designed to help the marketer understand and influence buyer and seller behavior. Within the socio-economic and political environment, the marketer must plan, price, promote, and distribute want-satisfying goods and services to society. As prerequisites to MGT 4590, students must complete the following courses: MGT 3500, 4540, and 4550. Before continuing with the following courses, students must receive a grade of B- or better in MGT 3500.

#### Required Courses (15 credits)

MGT 4510 Buyer Behavior (F,Sp)	3
MGT 4530 Marketing Research (F,Sp)	3
MGT 4540 Marketing Institutions (F) (3 cr) or	
MGT 4070 (CI) Retail Management (Sp) (3 cr)	3
MGT 4550 Promotion Management (F,Sp)	3
MGT 4590 Global Marketing Strategy (F,Sp)	3

#### Elective Courses (6-7 credits)

Select one of the following marketing tracks:

##### Track 1: Analysis of Culture (Choose 2 courses)

LING 4100 The Study of Language (F,Sp)	3
LING 4900 Analysis of Cross-Cultural Difference (Sp)	3
PSY 4210 Personality Theory (Sp)	3
PSY 4240 Multicultural Psychology (F)	3
MGT 4630 Human Resource Management (F,Sp)	3
ENVS 3000 Natural Resources Policy and Economics (F)	4
ENVS 3330 Environment and Society (Sp)	3
ENVS 4000 Human Dimensions of Natural Resource Management (F)	3
MIS 4550 (CI) Principles of International Business Communications (Sp)	3

##### Track 2: Research (Choose 2 courses)

ECN 3010 Managerial Economics (F,Sp)	3
ECN 4310 (QI) Mathematical Methods in Economics and Finance I (F)	3
STAT 3000 (QI) Statistics for Scientists (F,Sp,Su)	3
MGT 4790 Supply Chain Management (F)	3

### Track 3: Recreation/Tourism (Choose 2 courses)

ENVS 3300 Fundamentals of Recreation Resources Management (F)	3
ENVS 4130 Recreation Policy and Planning (Sp)	3
ENVS 4500 (CI) Wildland Recreation Behavior (F)	3
PRP 3000 Recreation Programming (F,Sp)	3
PRP 3200 Recreation Event Planning and Management (F,Sp)	3
PRP 3750 Commercial Recreation and Tourism (Sp)	3
PRP 4400 Recreation Facility Design and Management (F)	3

### Operations Management (21 credits)

Operations management involves planning, directing, controlling, and improving the activities related to providing goods and services.

The operations manager is responsible for assuring that customer expectations are met, and even exceeded, with regard to quality, delivery, and price. To execute their responsibilities, operations managers must understand how to convert customer demand into specific material, equipment, and labor resources. In addition, they must work with and develop good suppliers, customer relationships, and internal work activities. Before continuing with the following courses, students must receive a grade of B- or better in MGT 3700.

#### Required Courses (18 credits)

MGT 3080 (QI) Operations Research (F,Sp)	3
MGT 4720 Production Planning and Control (Sp)	3
MGT 4750 Production Simulation (Sp)	3
MGT 4790 Supply Chain Management (F,Sp)	3
MGT 4800 Independent Research and Readings (F,Sp,Su)	3
MGT 5730 Continuous Improvement (F)	3

#### Elective Course (3 credits)

Select one of the following two courses:

ACCT 3310 Strategic Cost Management (F,Sp,Su)	3
MGT 4630 Human Resource Management (F,Sp)	3

### International Business (24 credits)

The international business major develops the skills and knowledge needed to provide leadership in the global marketplace. This requires not only being able to manage customers, products, and processes in global supply chains, but also understanding the social, political, and cultural dimensions of business in an international environment. Before continuing with the required courses, students must receive a grade of B- or better in FIN 3400, and MGT 3500, 3700. For the BA degree in International Business, students must complete 15 credits of required courses, 6 credits of supporting coursework, and one 3-credit nonbusiness elective course (as shown below). In addition to coursework requirements, students are required to demonstrate competence in a second language, and complete an international experience. Competence in a second language can be demonstrated by one of the following: (1) successful completion of a minor or major in a second language; (2) passing 16 semester credits of a second language at an accredited college or university; (3) passing a language challenge competency exam and successfully completing the next higher class; (4) successful completion of the BYU Language Test (minimum of 16 credits); or (5) completion of 16 credits from the Intensive English Language Institute or attainment of a TOEFL score of at least 173 computerized, 500 paper/pencil, or 61 on the iBT.

The international experience can be fulfilled by meeting one of the following requirements:

1. Demonstration of international work experience or completion of an internship. The work experience/internship is either to be completed overseas or to provide substantial and approved international experience. It is to be of no less than nine weeks in duration.

# Department of Management

Or

- Completion of a minimum of one semester of study at an approved overseas institute of higher education or participation in an approved overseas study tour.

## Required Courses (15 credits)

ECN 5150 Comparative Economic Systems (F)	3
FIN 4300 International Finance (F,Sp)	3
MGT 3820 International Management (F,Sp)	3
MGT 4590 Global Marketing Strategy (F,Sp)	3
MGT 4790 Supply Chain Management (F,Sp)	3

## Supporting Coursework (6 credits)

Students must complete 6 credits of coursework from one of the following five supporting areas:

### Eastern Europe<sup>1</sup>

POLS 5120 Economics of Russia and Eastern Europe, 9th Century to 21st Century (F) (3 cr) or	
HIST 3280 East Central Europe Since 1520 (3 cr) or	
HIST 3310 Balkans Since 1389 (3 cr) or	
HIST 3330 The Soviet Union and its Heirs (3 cr)	3
POLS 3220 Russian and East European Government and Politics (F)	3

### Western Europe<sup>1</sup>

HIST 3240 Modern Europe from 1789 to the Present	3
POLS 3210 Western European Government and Politics (F) (3 cr) or	
POLS 4210 European Union Politics (Sp) (3 cr)	3

### Latin America<sup>1</sup>

HIST 3630 History of Modern Latin America	3
POLS 3270 Latin American Government and Politics (F)	3

### Asia<sup>1</sup>

HIST 3460 Comparative Asian History	3
POLS 3250 Chinese Government and Politics (F) (3 cr) or	
POLS 4260 Southeast Asian Government and Politics (Sp) (3 cr)	3

### International Trade<sup>1</sup>

ECN 5400 International Trade Theory (F)	3
POLS 5480 International Trade Policy (Sp)	3

### Electives (select 3 credits)

Students must complete *one* elective, selected from the following:

BUS 4250 Advanced Internship (F,Sp,Su)	1-9
CHIN 3100 (DHA) Readings in Contemporary Chinese Culture (Sp)	3
CHIN 3510 Chinese Business Language (F)	3
FREN 3510 (CI) Business French (F)	3
FREN 3550 (DHA) French Civilization (F)	3
FREN 3570 France Today	3
GERM 3300 (DHA) Contemporary German Speaking Cultures (Sp)	3
GERM 3510 (CI) Business German (Sp)	3
GERM 3550 (DHA) Cultural History of German Speaking Peoples (F)	3
HIST 3410 The Modern Middle East	3
HIST 3510 Africa and the World	3
JAPN 3100 Readings in Contemporary Japanese Culture (F)	3
JAPN 3510 Japanese for the Business Environment (Sp)	3
MIS 4550 (CI) Principles of International Business Communications (Sp)	3
MIS 5700 Internet Management and Electronic Commerce (F,Sp)	3
POLS 3100 Global Issues (F)	3
PORT 3570 (DHA) Brazilian Culture and Civilization (F)	3

RUSS 3300 (DHA) Contemporary Russian Language and Culture	3
RUSS 3510 (CI) Business Russian	3
RUSS 3540 Russian Translation for Science, Business, and Culture	3
SPAN 3510 Business Spanish (F,Sp)	3
SPAN 3550 (DHA) Spanish Culture and Civilization (F,Sp)	3
SPAN 3570 (DHA) Latin American Culture and Civilization (F,Sp)	3
Any class from one of the supporting areas (if not already taken)	3

<sup>1</sup>In the event that a course required for a supporting area is not offered or available, an approved alternative course may be substituted.

## Business Administration (21 credits)

The Business Administration major is a general degree that recognizes that most business students will have multiple business responsibilities throughout their career. This degree provides broad cross-discipline experience in the core business areas of operations, finance, and marketing. Before continuing with the following courses, students must receive a grade of *B-* or better in FIN 3400, and MGT 3500, 3700.

### Required Courses (18 credits)

FIN 4410 Financial Institutions (F,Sp)	3
FIN 4450 Fundamentals of Valuation (F,Sp)	3
MGT 4530 Marketing Research (F,Sp)	3
MGT 4590 Global Marketing Strategy (F,Sp)	3
MGT 4790 Supply Chain Management (F,Sp)	3
MGT 5730 Continuous Improvement (F)	3
Additional approved elective course (4000- or 5000-level)	3

### Entrepreneurship (15 credits)

Entrepreneurship focuses on the development of entrepreneurial and leadership capabilities. These include recognizing viable business opportunities and developing business concepts that allow firms to take advantage of unique competencies and capabilities. In addition, there is substantial emphasis on the acquisition and allocation of resources, as well as on organizing, leading, and empowering people.

MGT 3510 Fundamentals of Entrepreneurship (F,Sp)	3
MGT 3520 Relationship and Organizational Competencies for Entrepreneurs (F,Sp)	3
MGT 3710 Developing Team and Interpersonal Skills (F,Sp)	3
MGT 3820 International Management (F,Sp)	3
MGT 4510 Senior Seminar in Entrepreneurship (F)	3

Students completing the Entrepreneurship major requirements must take **MGT 4880** as their senior capstone course in the Business Core requirements. Students should also note that **MGT 3510 and 3520** must be taken prior to **MGT 4510**.

### Human Resource Management (15 credits)

Human Resource Management deals with those processes which provide, develop, and maintain a productive workforce. Subject areas include recruiting employees, determining what tasks need to be performed, placing the right person in the right position, determining fair benefits and compensation, evaluating performance, determining current and future employment needs, training and development, labor-management relations, and following legal/ethical practices in employment.

### Required Courses (9 credits)

MGT 3710 Developing Team and Interpersonal Skills (F,Sp)	3
MGT 3820 International Management (F,Sp)	3
MGT 4630 Human Resource Management (F,Sp)	3

# Department of Management

## Elective Courses (select 6 credits)

Students must complete at least **two** of the following:

<b>ANTH 3200 (DSS/CI)</b> Perspectives on Race (Sp) .....	3
<b>MGT 3810 (DSS)</b> Employment Law and Policy Development (F,Sp) .....	3
<b>MIS 4350</b> Introduction to Performance Improvement Projects (Sp) .....	3
<b>PHIL 3520 (DHA)</b> Business Ethics .....	3
<b>PUBH 3310</b> Occupational Health and Safety (F) .....	3
<b>SOC 3500</b> Social Psychology (F,Sp) .....	3
<b>SPCH 3250 (CI)</b> Organizational Communication (F) (3 cr) <b>or</b>	
<b>SPCH 3330 (DSS)</b> Intercultural Communication (F) (3 cr) <b>or</b>	
<b>SPCH 3600</b> Communication and Conflict (F) (3 cr) .....	3

## Elective Course Requirements

Because the University requires a minimum of 120 credits for a bachelor's degree, students will need to take some elective credits. These credits may be chosen from any course (1000-level or above) offered by the University. If a student wants to complete a minor or a dual major in another department, the use of elective credits should be planned carefully with an advisor in the other department.

If a Huntsman School of Business student elects to take a minor, he or she is encouraged to select one from outside the Huntsman School.

## Business (General)

A general business major is administered by the Huntsman School of Business (see pages 125-126). For further information, contact the Huntsman School of Business Programs and Advising Center, Business 309, (435) 797-2272.

## Four-Year Degree Plans (8 Semesters)

Four-year degree plans for majors in the Management Department can be found at: <http://www.usu.edu/degreplans/>

## Requirements for Minors

Minors in Marketing, Operations Management, International Business, Management, and Human Resource Management are available, as outlined below. Any deviation from the programs as outlined must be submitted in writing, with justification for the changes, to the department head for approval. A minimum 2.50 GPA in the minor courses is required. Students having majors within the Huntsman School of Business are eligible to earn a minor in Marketing, Operations Management, International Business, Management, or Human Resource Management. Students would be expected to satisfy all course prerequisites as well, with a GPA of at least 2.50.

## Minor in Marketing

### Required Courses (10 credits)

<b>MGT 3110 (DSS)</b> Managing Organizations and People (F,Sp,Su) .....	3
<b>MGT 3500</b> Fundamentals of Marketing (F,Sp,Su) (B- or better grade required) .....	3
<b>STAT 2300 (QL)</b> Business Statistics (F,Sp,Su) .....	4

### Electives (6 credits)

Select two of the following courses:

<b>MGT 4510</b> Buyer Behavior (F,Sp) .....	3
<b>MGT 4530</b> Marketing Research (F,Sp) .....	3
<b>MGT 4540</b> Marketing Institutions (F) .....	3
<b>MGT 4550</b> Promotion Management (F,Sp) .....	3

## Minor in Operations Management

### Required Courses (9 credits)

<b>MGT 3500</b> Fundamentals of Marketing (F,Sp,Su) .....	3
<b>MGT 3700</b> Operations Management (F,Sp,Su) (B- or better grade required) .....	3
<b>MGT 4720</b> Production Planning and Control (Sp) .....	3

### Electives (6 credits)

Select two of the following courses:

<b>MGT 3080 (QI)</b> Operations Research (F,Sp) .....	3
<b>MGT 4750</b> Production Simulation (Sp) .....	3
<b>MGT 4790</b> Supply Chain Management (F,Sp) .....	3
<b>MGT 5730</b> Continuous Improvement (F) .....	3

A grade point average of at least 2.50 over the minor courses is required.

## Minor in International Business

### Required Courses (12 credits)

Select four of the following courses:

<b>ECN 5150 (DSS)<sup>5</sup></b> Comparative Economic Systems (F) .....	3
<b>FIN 4300<sup>2</sup></b> International Finance (F,Sp) .....	3
<b>MGT 3820 (DSS)</b> International Management (F,Sp) .....	3
<b>MGT 4590<sup>3</sup></b> Global Marketing Strategy (F,Sp) .....	3
<b>MGT 4790<sup>4</sup></b> Supply Chain Management (F,Sp) .....	3

Students must also complete *one* of sections A, B, C, or D below:

### A. Electives (6 credits)

Students who choose this option must complete 6 credits from *one* of the following supporting areas:

#### Eastern Europe<sup>6</sup>

<b>POLS 5120</b> Economics of Russia and Eastern Europe, 9th Century to 21st Century (F) (3 cr) <b>or</b>	
<b>HIST 3280</b> East Central Europe Since 1520 (3 cr) <b>or</b>	
<b>HIST 3310</b> Balkans Since 1389 (3 cr) <b>or</b>	
<b>HIST 3330</b> The Soviet Union and its Heirs (3 cr) .....	3
<b>POLS 3220 (DSS)</b> Russian and East European Government and Politics (F) .....	3
<b>RUSS 3300 (DHA)</b> Contemporary Russian Language and Culture .....	3

#### Western Europe<sup>6</sup>

<b>HIST 3240</b> Modern Europe from 1789 to the Present .....	3
<b>POLS 3210 (DSS)</b> Western European Government and Politics (F) (3 cr) <b>or</b>	
<b>POLS 4210</b> European Union Politics (Sp) (3 cr) .....	3
<b>FREN 3570</b> France Today (3 cr) <b>or</b>	
<b>GERM 3300 (DHA)</b> Contemporary German Speaking Cultures (Sp) (3 cr) <b>or</b>	
<b>SPAN 3550 (DHA)</b> Spanish Culture and Civilization (F,Sp) (3 cr) .....	3

#### Latin America<sup>6</sup>

<b>HIST 3630</b> History of Modern Latin America .....	3
<b>POLS 3270 (DSS)</b> Latin American Government and Politics (F) .....	3
<b>SPAN 3570 (DHA)</b> Latin American Culture and Civilization (F,Sp) .....	3

#### Asia<sup>6</sup>

<b>HIST 3460</b> Comparative Asian History .....	3
<b>POLS 3250 (DSS)</b> Chinese Government and Politics (F) (3 cr) <b>or</b>	
<b>POLS 4260</b> Southeast Asian Government and Politics (Sp) (3 cr) .....	3
<b>CHIN 3100 (DHA)</b> Readings in Contemporary Chinese Culture (Sp) (3 cr) <b>or</b>	
<b>JAPN 3100</b> Readings in Contemporary Japanese Culture (F) (3 cr) .....	3

# Department of Management

## International Trade<sup>6</sup>

<b>ECN 5400</b> International Trade Theory (F) .....	3
<b>POLS 3100</b> Global Issues (F) .....	3
<b>POLS 5480</b> International Trade Policy (Sp) .....	3

## B. Second Language Competence

Students selecting this option must demonstrate competence in a second language by one of the following five methods:

1. A minor or major in a second language
2. Completion of 16 semester credits of a second language, earned at an accredited institution
3. Passing a language challenge competency exam and successful completion of the next higher class
4. Successful completion of the BYU Language Test (minimum of 16 credits)
5. Completion of 16 credits from the Intensive English Language Institute *or* a TOEFL score of at least 173 computerized, 500 paper/pencil, or 61 on the iBT

## C. International Work Experience or Internship

For this option, work experience or an internship must *either* be completed overseas *or* must provide substantial and approved international experience. This work experience or internship must be at *least nine weeks* in duration.

## D. Study Overseas

Students selecting this option must *either* spend a minimum of one semester studying at an approved overseas institution of higher education *or* must participate in an approved overseas study tour.

<sup>6</sup>Prerequisite: Grade of B- or better in FIN 3400.

<sup>6</sup>Prerequisites: Grade of B- or better in MGT 3500; MGT 4540, 4550.

<sup>6</sup>Prerequisite: Grade of B- or better in MGT 3700.

<sup>6</sup>Prerequisite: ECN 2010.

<sup>6</sup>In the event a course required for a supporting area is not offered or available, an approved alternative class may be substituted.

## Minor in Management

This minor is for students who expect to work in an organization where they will assume supervisory or management responsibilities. The Management minor consists of a minimum of 12 credits.

### Required:

<b>MGT 3110 (DSS)</b> Managing Organizations and People (F,Sp,Su).....	3
--	---

### Select three courses from the following:

<b>MGT 2050</b> Legal and Ethical Environment of Business (F,Sp,Su) .....	3
<b>MGT 3510</b> Fundamentals of Entrepreneurship (F,Sp).....	3
<b>MGT 3520</b> Relationship and Organizational Competencies for Entrepreneurs (F,Sp) .....	3
<b>MGT 3710</b> Developing Team and Interpersonal Skills (F,Sp).....	3
<b>MGT 3810 (DSS)</b> Employment Law and Policy Development (Prerequisite: MGT 2050) (F,Sp) .....	3
<b>MGT 3820 (DSS)</b> International Management (F,Sp) .....	3
<b>MGT 4520</b> New Venture Planning (Prerequisites: MGT 3510, 3520) (F).....	3
<b>MGT 4630</b> Human Resource Management (F,Sp).....	3
<b>MIS 4350</b> Introduction to Performance Improvement Projects (Sp).....	3
<b>PHIL 3520 (DHA)</b> Business Ethics.....	3

## Minor in Human Resource Management

This minor is for students who want to work in any of the human resource functions of an organization. The Human Resource Management minor consists of a minimum of 12 credits.

### Required:

<b>MGT 3110 (DSS)</b> Managing Organizations and People (F,Sp,Su).....	3
<b>MGT 4630</b> Human Resource Management (F,Sp).....	3

### Select two courses from the following:

<b>ANTH 3200 (DSS/CI)</b> Perspectives on Race (Sp) .....	3
<b>MGT 2050</b> Legal and Ethical Environment of Business (F,Sp,Su) .....	3
<b>MGT 3710</b> Developing Team and Interpersonal Skills (F,Sp).....	3
<b>MGT 3810 (DSS)</b> Employment Law and Policy Development (Prerequisite: MGT 2050) (F,Sp) .....	3
<b>MGT 3820 (DSS)</b> International Management (F,Sp) .....	3
<b>MIS 4350</b> Introduction to Performance Improvement Projects (Sp).....	3
<b>PHIL 3520 (DHA)</b> Business Ethics.....	3
<b>PUBH 3310</b> Occupational Health and Safety (F) .....	3
<b>SOC 3500</b> Social Psychology (F,Sp).....	3
<b>SPCH 3250 (CI)</b> Organizational Communication (F) (3 cr) <b>or</b> <b>SPCH 3330 (DSS)</b> Intercultural Communication (F) (3 cr) <b>or</b> <b>SPCH 3600</b> Communication and Conflict (F) (3 cr).....	3

**Note:** An overall GPA of 2.67 and admission into a degree-seeking major are required for enrollment in 3000- or 4000-level courses in the Department of Management and Human Resources.

## Minor in Business

A Business Minor is administered by the Huntsman School of Business. For further information, students should contact the Huntsman School of Business Programs and Advising Center, Business 309, (435) 797-2272.

## Graduation Requirements

To be recommended by the department for graduation, majors in the Department of Management must have a grade point average of at least 2.50 in their upper-division Huntsman School of Business core and major requirement courses, as well as an overall GPA of 2.50. This includes transfer credits. At least fifty percent of the business credits required for a business degree must be taken on the Utah State University campus or at a designated residence center.

## Financial Assistance

The Department of Management and the Huntsman School of Business award scholarships in addition to those available through the University Financial Aid Office. Information and application forms are available from the Huntsman School of Business Programs and Advising Center, Business 309.

## Student Organizations

The department sponsors two student organizations. Membership in the organizations is open to all students, both undergraduate and graduate, who meet the membership requirements.

**Collegiate Entrepreneurs' Association (CEO)** is the premier global entrepreneurship network serving more than 500 colleges and universities.

# Department of Management

**Society for Human Resource Management (SHRM)** is the professional Human Resource Management organization co-sponsored by the Bridgerland Chapter of SHRM.

## Additional Information

A major requirement sheet, which includes further information about career opportunities and course requirements for the majors and minors within the Management Department, can be found online at: <http://www.usu.edu/majorsheets/>

Further information about undergraduate programs in the Huntsman School of Business can be obtained from the Programs and Advising Center, Business 309, or found on the Web at: <http://www.huntsman.usu.edu/advising/>

## Graduate Programs

### Master of Science in Human Resources (MS HR)

#### Objectives

The MS in Human Resources degree prepares students for professional careers in the field of Human Resource Management. The program is competency based and prepares students to take a strategic role, assisting organizations in attracting, retaining, and developing human talent at all levels. Required subject areas include team and interpersonal effectiveness, talent acquisition and retention, total rewards and employee performance, training and organization development, employee relations and the labor movement, employment law, career and professional development, human capital management, human resource policy and strategy, and applied human resource research. Students are also required to demonstrate business acumen and complete an internship as part of the program.

#### Admission Requirements

See Admission Procedures on pages 36-37. Students from any accredited undergraduate major are invited to apply. Students are required to submit scores on the Graduate Management Admissions Test (GMAT) or the Graduate Record Examination (GRE). Applicants are expected to have strong written and oral communication skills.

Students are expected to be admitted to the program as matriculated students before taking coursework leading to the degree.

#### Degree Requirements

Students are held responsible for meeting requirements as outlined below. It is the student's responsibility to be aware of all requirements and initiate the resolution of apparent inconsistencies.

The typical degree option is Plan C, which includes coursework to meet the degree requirements.

The MS in Human Resources degree requires a minimum of 36 to 46.5 credits, depending upon the undergraduate preparation of the student. Students entering the program without an undergraduate business degree will be required to complete a 10.5 credit sequence of courses to develop their foundation in business acumen as part of their program of study. This regimen is comprised of the following courses: ECN 6050, ACCT 6010, MGT 6075, 6410, 6510. Coursework beyond the Business Core includes MGT 6310, 6330, 6550, 6620, 6630, 6650, 6670, 6680, 6690, 6760; BUS 6250; and one 3-credit elective approved by the steering committee. Students may substitute

MGT 6900 for BUS 6250 (Graduate Internship) on approval of the MS in Human Resources steering committee. Students with an undergraduate degree from an AACSB-International accredited business school will not be required to take the business core. Students completing the program are strongly encouraged to take the Human Resource Certification Institute (HRCI) exam, leading to certification upon completion of the HRCI experience requirement.

Additional information about the MS in Human Resources degree may be obtained by contacting the Department of Management.

## Financial Assistance and Assistantships

A limited number of graduate assistantships, scholarships, and other departmental awards are provided to outstanding students on a competitive basis. Acceptance to the program does not guarantee financial assistance. Application forms are available online through the School of Graduate Studies. More information can be found at: <http://www.usu.edu/graduateschool/financial/assistantships.cfm> The deadline for financial aid assistance is March 15.

## Master of Business Administration (MBA)

The department also participates with other departments in the Huntsman School of Business in offering the Master of Business Administration (MBA) Degree. A description of the MBA degree and program requirements can be found on pages 194-195 of this catalog.

## Management Faculty

#### Professors

*Douglas D. Anderson*, strategy, leadership, and change

*Kenneth R. Bartkus*, promotion management

*Ronda R. Callister*, management, organizational behavior, international management

*Peter M. Ellis*, production and operations research

*Cathy L. Hartman*, consumer behavior and environmental sustainability

*Vijay R. Kannan*, supply chain and quality management, cellular manufacturing

*Glenn M. McEvoy*, human resources, organizational behavior, management

*C. R. Michael Parent*, marketing research and strategy

*David B. Stephens*, business strategy and labor relations

#### Professors Emeritus

*Vernon M. Buehler*

*Howard M. Carlisle*

*John R. Cragun*

*Gary B. Hansen*

*Allen D. Kartchner*

*Eugene C. Kartchner*

*Leon R. McCarrey*

*Paul A. Randle*

*Y. Krishna Shetty*

#### Associate Professors

*J. Brian Atwater*, "theory of constraints," quality management, lean manufacturing

*Steven H. Hanks*, business strategy, management, and entrepreneurship

# Department of Management

---

*Edwin R. Stafford*, marketing management, strategy, environmental sustainability

## **Adjunct Associate Professor**

*Bradley A. Winn*, organizational leadership

## **Associate Professors Emeritus**

*David R. Daines*

*Ross E. Robson*

## **Assistant Professors**

*Carrie A. Belsito*, strategic human resource management and ethics

*Alison Cook*, organizational behavior, human resource management

*Daniel V. Holland*, entrepreneurship

*Haiyan Hu*, retailing and consumer behavior, international retailing, visual merchandising and promotion

*Konrad S. Lee*, employment law, business law

*Christopher R. Reutzel*, strategic management

*Brenda C. Sun*, strategic and international management

## **Clinical Assistant Professors**

*Randall L. Cook*, operations management and finance

*Stacey B. Hills*, marketing research, strategy, and product management

## **Senior Lecturers**

*David G. Herrmann*, management and entrepreneurship

*Janet P. Lyons*, operations and marketing

## **Principal Lecturer**

*Alan P. Warnick*, human resource management

## **Lecturers**

*Daniel D. Allen*, entrepreneurship

*Chester F. Brough*, business law

*David R. Woolstenhulme*, entrepreneurship

## **Course Descriptions**

Management (MGT), pages 603-607

# Department of Management Information Systems

**Department Head:** John D. Johnson

**Undergraduate Advisor:**  
Peggy Buttars, Business 309, (435) 797-2272,  
peggy.buttars@usu.edu

**Degrees offered:** Bachelor of Science (BS), Bachelor of Arts (BA), and Master of Science (MS) in Management Information Systems

**Graduate specializations:** *Management Information Systems*  
*MS—Management Information Systems, Training and Development*

## Undergraduate Programs

### Objectives

The Management Information Systems major is designed to prepare individuals for positions as managers in business information systems, including database administrators, worldwide web designers, electronic commerce developers, systems analysts, applications programmers, IS security managers, and systems trainers.

### Departmental Honors

See *Honors in Business* description in the Huntsman School of Business section of this catalog (page 124).

### Learning Objectives and Assessment

Assessment information for the Management Information Systems Department can be found online.

### Requirements

#### Jon M. Huntsman School of Business Requirements

All bachelor's degree students majoring in Management Information Systems must satisfy the Huntsman School of Business entrance requirements provided on pages 124-125. Academic advising about these requirements is provided by the Huntsman School of Business Programs and Advising Center, Business 309. Management Information Systems majors must also follow Huntsman School prebusiness course requirements for admission to a major, detailed on page 125.

#### Matriculation Requirement and Transfer Limitation

No more than 15 USU Huntsman School of Business credits (ACCT, BUS, FIN, MGT, MIS), numbered 2000 and above, earned as a nonbusiness major (before acceptance into the Huntsman School) can be applied to a Huntsman School degree. No more than 15 business credits can be transferred from other accredited institutions. However, additional USU Huntsman School credits added to previously earned transfer business credits may not exceed a combined total of 15. Furthermore, to earn a bachelor's degree in a Huntsman School major, at least 50 percent of the required Huntsman School credits must be earned from coursework taken from the Utah State University Huntsman School.

### USU Credits and Business Credits

At least 30 of the last 60 semester credits must be taken from Utah State University, at least 20 of which must be completed in upper-division courses, of which at least 10 credits must be completed in courses required by the student's major. At least 50 percent of the Huntsman School of Business credits required for a Huntsman School degree must be taken from the Utah State University Huntsman School or its departments, which include: School of Accountancy, Economics and Finance, Management, and Management Information Systems.

### Requirements for Bachelor's Degree in Management Information Systems

To earn a bachelor's degree in Management Information Systems, a student must complete the USU requirements for a bachelor's degree and the following categories of coursework in the Huntsman School of Business: Pre-Business, Huntsman School of Business Core, MIS Department Core, and four MIS elective courses (12 credits).

#### Pre-Business Course Requirements (13 credits)

<b>ECN 1500 (BAI)</b> Introduction to Economic Institutions, History, and Principles (F,Sp,Su).....	3
<b>MATH 1100 (QL)</b> Calculus Techniques (F,Sp,Su).....	3
<b>STAT 2300 (QL)</b> Business Statistics (F,Sp,Su).....	4
<b>PSY 1010 (BSS)</b> General Psychology (F,Sp,Su) (3 cr) or	
<b>SOC 1010 (BSS)</b> Introductory Sociology (F,Sp) (3 cr).....	3

#### Huntsman School of Business Core (37 credits)

<b>ACCT 2010</b> Survey of Accounting I (F,Sp,Su).....	3
<b>ACCT 2020</b> Survey of Accounting II (F,Sp,Su).....	3
<b>BUS 3250</b> Discussions With Business Leaders (F,Sp).....	1
<b>ECN 2010 (BSS)</b> Introduction to Microeconomics (F,Sp,Su).....	3
<b>ECN 3400</b> International Economics for Business (F,Sp,Su).....	3
<b>FIN 3400 (QI)</b> Corporate Finance (F,Sp,Su).....	3
<b>MGT 2050</b> Legal and Ethical Environment of Business (F,Sp,Su).....	3
<b>MGT 3110</b> Managing Organizations and People (F,Sp,Su).....	3
<b>MGT 3500</b> Fundamentals of Marketing (F,Sp,Su).....	3
<b>MGT 3700</b> Operations Management (F,Sp,Su).....	3
<b>MGT 4880 (CI)</b> Business Strategy in an Entrepreneurial Context (F,Sp,Su) (3 cr) or	
<b>MGT 4890 (CI)</b> Business Strategy in a Global Context (F,Sp,Su) (3 cr).....	3
<b>MIS 2100</b> Principles of Management Information Systems (F,Sp,Su).....	3
<b>MIS 2200 (CI)</b> Business Communication (F,Sp,Su).....	3

#### MIS Department Core Requirements (10 credits)

<b>MIS 3330<sup>1</sup></b> Database Management (F,Sp).....	3
<b>MIS 3800<sup>1</sup></b> Information Technology Hardware and System Software (F,Sp).....	3
<b>MIS 5900<sup>2</sup></b> Systems Design and Implementation (F,Sp).....	3
<b>MIS 5910<sup>2</sup></b> Systems Design Laboratory (must be taken concurrently with MIS 5900) (F,Sp).....	1

#### Programming Requirement (3-4 credits)

Students must complete <i>either</i> MIS 3500 <i>or</i> both CS 1400 and 1405.	
<b>MIS 3500</b> Introduction to Business Applications Programming (F,Sp).....	3

Or

<b>CS 1400</b> Introduction to Computer Science—CS1 (F,Sp,Su) (3 cr) and	
<b>CS 1405</b> Introduction to Computer Science—CS1 Lab (take concurrently with CS 1400) (F,Sp,Su) (1 cr).....	4

# Department of Management Information Systems

## Elective Courses (12 credits)

Students must select four elective courses from the following list:

<b>MIS 3450</b> Designing Graphical User Interfaces for Electronic Commerce (F) .....	3
<b>MIS 4330</b> <sup>2</sup> Database Implementation (F,Sp) .....	3
<b>MIS 4350</b> Introduction to Performance Improvement Projects (Sp).....	3
<b>MIS 4800</b> <sup>1</sup> Security of Business Information Systems (Sp).....	3
<b>MIS 5050</b> <sup>3</sup> Advanced Web-Based Management Information Systems Development (F) .....	3
<b>MIS 5150</b> Special Topics: Emerging Technologies in Management Information Systems (F) .....	3
<b>MIS 5300</b> Advanced Data Communications (F) .....	3
<b>MIS 5350</b> Quantitative Financial Modeling and Applications (Sp).....	3
<b>MIS 5650</b> <sup>3</sup> Advanced Website Development (Sp) .....	3
<b>MIS 5700 (DSS)</b> <sup>4</sup> Internet Management and Electronic Commerce (Sp) .....	3

## Additional Electives

Students may complete *no more than one* of the following courses:

<b>BUS 4250</b> Advanced Internship (F,Sp,Su) .....	1-9
<b>MIS 5950</b> Independent Readings (F,Sp,Su).....	1-5

## Four-Year Degree Plan (8 Semesters)

A four-year degree plan for the Management Information Systems major can be found at: <http://www.usu.edu/degreplans/>

## Management Information Systems Minor (15-16 credits)

A minimum 2.50 GPA is required in all courses counted toward the minor.

## Required Courses (6-7 credits)

<b>MIS 3330</b> <sup>1</sup> Database Management (F,Sp).....	3
--	---

## Complete either MIS 3500 or CS 1400 and 1405 (3-4 credits)

<b>MIS 3500</b> Introduction to Business Applications Programming (F,Sp) .....	3
--	---

Or

<b>CS 1400</b> Introduction to Computer Science—CS1 (F,Sp,Su) (3 cr) and	
<b>CS 1405</b> Introduction to Computer Science—CS1 Lab (take concurrently with CS 1400) (F,Sp,Su) (1 cr).....	4

## Elective Courses (9-10 credits)

Choose three of the following courses:

<b>ACCT 4500</b> Accounting Information Systems (F,Sp).....	3
<b>MIS 3450</b> Designing Graphical User Interfaces for Electronic Commerce (F) .....	3
<b>MIS 3800</b> <sup>1</sup> Information Technology Hardware and System Software (F,Sp).....	3
<b>MIS 4330</b> <sup>2</sup> Database Implementation (F,Sp) .....	3
<b>MIS 4350</b> Introduction to Performance Improvement Projects (Sp).....	3
<b>MIS 4800</b> <sup>1</sup> Security of Business Information Systems (Sp).....	3
<b>MIS 5050</b> <sup>3</sup> Advanced Web-Based Management Information Systems Development (F).....	3
<b>MIS 5150</b> Special Topics: Emerging Technologies in Management Information Systems (F) .....	3
<b>MIS 5300</b> Advanced Data Communications (F) .....	3
<b>MIS 5350</b> Quantitative Financial Modeling and Applications (Sp).....	3
<b>MIS 5650</b> <sup>3</sup> Advanced Website Development (Sp) .....	3
<b>MIS 5700 (DSS)</b> <sup>4</sup> Internet Management and Electronic Commerce (Sp) .....	3
<b>MIS 5900</b> <sup>2</sup> Systems Design and Implementation (F,Sp) (3 cr) and	
<b>MIS 5910</b> <sup>2</sup> Systems Design Laboratory (F,Sp) (1 cr).....	4

<sup>1</sup>MIS 2100 is a prerequisite for these courses.

<sup>2</sup>MIS 3330 is a prerequisite for these courses.

<sup>3</sup>MIS 3330 and 3500 are prerequisites for these courses.

<sup>4</sup>Passing scores on the Computer and Information Literacy (CIL) exams are prerequisites for this course.

## Student Organizations

The Department of Management Information Systems sponsors a student organization that provides unique experiences to complement and enrich formal coursework. Leadership development and human relations skills are among the personal attributes enhanced by involvement in the various organization's various activities.

## Association for Computing Machinery (ACM)

ACM, a professional society for the information systems industry, sponsors a student chapter at USU. The goals of ACM are to: (1) provide leadership experiences for undergraduate and graduate management information systems majors; (2) help student members plan their careers and find employment by introducing them to practicing systems professionals; and (3) foster a professional attitude among management information systems majors so that they will contribute to their field. More information is available at: <http://huntsman.usu.edu/acm/>

## Additional Information

For more information about requirements for the majors and minors within the Management Information Systems Department, see the major requirement sheets, available from the department, or online at: <http://www.usu.edu/majorsheets/>

## Graduate Programs

### Master of Science

Students applying for admission to the Master of Science program in Management Information Systems must take the GMAT or GRE test. A score at the 40th percentile or better on the GMAT or GRE is required for admission. Undergraduate GPA should be 3.2 or above. Meeting minimum requirements does not guarantee admission.

The MS requires a minimum of 33 credits. A minimum of 24 credits of academic work must be in classes numbered 6000 and above. Twelve or more credits should be in the area of specialization. Students with bachelor's degrees outside of business may be required to complete additional coursework.

Students in the master's program pursue the *Plan C* option, where a research paper is completed in a special research class. Those who wish to pursue the *Plan A* thesis option must have permission from their committee to do so.

All MS degrees in the MIS Department require the following core: MIS 6440 and 6810.

The specialization in **Management Information Systems (MIS)** is for students who wish to work as systems analysts, application programmers, network managers, information managers, information center managers, and trainers in management information systems.

# Department of Management Information Systems

Students are expected to have a background in management information systems. Required courses are MIS 6120, 6200, 6330, and 6700, in addition to the departmental core. Students who choose the *Plan A* option must complete 6 credits of MIS 6970. Students may take credits in Accounting, Computer Science, Economics and Finance, Instructional Technology and Learning Sciences, Management Information Systems, or other approved electives to complete the 12 credits of electives required.

The specialization in **Training and Development** is designed for those who wish to work in training and development in business and industry. Required courses for the Training and Development specialization are MIS 6250, 6350, and 6450, in addition to the departmental core. Students must complete 15 credits of electives chosen from the following list: MIS 6120, 6200, 6330, 6510, 6700, 6800, or others with committee approval.

For a current checklist of requirements, students should contact the departmental graduate advisor.

The USU MS in Management Information Systems is the only master's program in Management Information Systems in the State of Utah. Graduates are placed in the West and throughout the nation.

## Additional Information

Specific details about each of the foregoing degree programs are outlined in policy and procedure documents available through the department. All requirements are subject to change; check with the department for current requirements.

## Research

Faculty in the Department of Management Information Systems are active in research and scholarly endeavors. Current and published research topics include business communication, international communication, neural networks, genetic algorithms, data mining, and management information systems as related to business and industry, curriculum for business schools, business reengineering, electronic commerce, group decision support systems, microcomputer applications, use of microcomputers in various subjects including accounting and business communications, cooperative education, and other areas related to management information systems.

## Financial Assistance and Assistantships

Funds for scholarships are provided through the School of Graduate Studies and administered in the department. Those interested in scholarships should contact the graduate director or the department head.

Each year several high-quality graduate teaching assistants are needed. Those who are interested in teaching assistantships must apply through the department head. They must have had teaching experience or be willing to take teaching methods classes, as well as the School of Graduate Studies-sponsored teaching assistant workshop, prior to receiving an assistantship.

## Career Opportunities

Management Information Systems is one of the fastest-growing fields in business and industry. Follow-up studies show that information systems positions pay excellent salaries, and the placement rate of students is almost 100 percent.

## Management Information Systems Faculty

### Professors

*John D. Johnson*, management information systems, electronic commerce, neural networks, genetic algorithms communication, data management, computer security  
*David H. Olsen*, management information systems  
*David J. Paper*, management information systems

### Professors Emeritus

*Dennis J. LaBonty*  
*H. Robert Stocker*  
*William A. Stull*  
*John F. Vinsonhaler*

### Associate Professors

*Katherine M. Chudoba*, management information systems  
*Jeffrey J. Johnson*, management information systems  
*Yong Seog Kim*, management information systems and data mining  
*Robert J. Mills*, management information systems

### Assistant Professors

*Kelly Fadel*, management information systems  
*Karina Hauser*, lean manufacturing, artificial intelligence, and systems analysis and design  
*Zsolt Ugray*, management information systems, electrical commerce, and optimization

### Principal Lecturers

*Susan M. Jones*, management information systems, business communication, and security management  
*Marianna P. Larsen*, business communication and international business communication  
*Craig J. Peterson*, management information systems, electronic commerce management, information technology, and web design  
*Dana H. Swensen*, business communication

### Senior Lecturer and Executive in Residence

*Ralph B. "Bernie" Lantz*, computer technology, network security, management information systems, computer literacy, software development, and programming languages

### Lecturer

*Janet Bringham*, microcomputer applications and business communication

## Course Descriptions

Management Information Systems (MIS), pages 607-609

# Department of Mathematics and Statistics

**Department Head:** D. Richard Cutler

**Location:** Lund Hall 211

**Phone:** (435) 797-0244

**FAX:** (435) 797-1822

**E-mail:** mathstat@cc.usu.edu

**WWW:** <http://www.math.usu.edu/>

**Assistant Department Head:**

Eric R. Rowley, Lund Hall 211B, (435) 797-2808,  
eric.rowley@usu.edu

**Undergraduate Program Director:**

Daniel C. Coster, Lund Hall 310, (435) 797-2815,  
dan.coster@usu.edu

**Graduate Program Director:**

James A. Powell, Lund Hall 304, (435) 797-1953,  
jim.powell@usu.edu

**Mathematics Education Program Director:**

James S. Cangelosi, Lund Hall 325C, (435) 797-1415,  
jim.cangelosi@usu.edu

**Actuarial Science Program Coordinator:**

Daniel C. Coster, Lund Hall 310, (435) 797-2815,  
dan.coster@usu.edu

**Undergraduate Advising:**

Linda Skabelund, Lund Hall 201, (435) 797-0268,  
linda.skabelund@usu.edu

**Degrees offered:** Bachelor of Science (BS), Bachelor of Arts (BA), and Master of Science (MS) in Mathematics; BS and BA in Mathematics Education; BS in Composite Mathematics-Statistics Education; BS in Composite Mathematics/Statistics; Master of Mathematics (MMath); BS, BA, and MS in Statistics; MS in Industrial Mathematics; Doctor of Philosophy (PhD) in Mathematical Sciences

**Graduate specializations:** *PhD in Mathematical Sciences*—College Teaching, Interdisciplinary Studies, Pure and Applied Mathematics, and Statistics

## Undergraduate Programs

### Objectives

The Department of Mathematics and Statistics offers a variety of programs and courses designed to prepare students for careers in teaching and for positions as mathematicians and statisticians in industry and government. The department also provides service courses for students in many other disciplines and contributes to the University Studies program by providing Quantitative Literacy and Quantitative Intensive classes.

### Placement of New Students

Current mathematics ACT/SAT scores, Math Placement Test scores, and Advanced Placement (AP) calculus and statistics scores are used for placement in 1000-level and 2000-level mathematics and statistics courses. *A current score is defined as a score from an exam taken within the Math Prerequisite Acceptability Time Limit (MPATL).*

Prerequisites for MATH 1030, 1050, 1060, 1100, 1210, 2020, and STAT 1040, 2300 *must* be completed **on or after** (not before) the following dates, in order to fall within the MPATL for the listed semester: **fall semester**—August 15 of the previous year; **spring semester**—January 1 of the previous year; **summer semester**—June 1 of the previous year.

Students who are registering for a math class at USU for the first time who have a math ACT score of less than 23 or a math SAT score of less than 540 (whether current or not) are required to take the Math Placement Test administered by the Department of Mathematics and Statistics. A student's score on the Math Placement Test will be used to determine his or her placement in appropriate mathematics or statistics course.

Students who are registering for a math class for the first time who have a current math ACT score of at least 23 or a current math SAT score of at least 540 do not need to take the Math Placement Test. However, for each of the courses listed below, **one of the following prerequisites, achieved within the MPATL**, is required for enrollment.

**MATH 1010**

Math ACT test score of 23 or higher  
Math SAT test score of 540 or higher  
Grade of C- or better in MATH 0900  
Satisfactory score on Math Placement Exam

**MATH 1030**

Math ACT test score of 23 or higher  
Math SAT test score of 540 or higher  
Grade of C or better in MATH 1010  
Satisfactory score on Math Placement Exam

**MATH 1050**

Math ACT test score of 23 or higher  
Math SAT test score of 540 or higher  
AP Calculus AB test score of 3 or higher  
Grade of C or better in MATH 1010  
Satisfactory score on Math Placement Exam

**MATH 1060**

Math ACT test score of 23 or higher  
Math SAT test score of 540 or higher  
AP Calculus AB test score of 3 or higher  
Grade of C or better in MATH 1010 or 1050  
Satisfactory score on Math Placement Exam

**MATH 1100**

Math ACT test score of 25 or higher  
Math SAT test score of 580 or higher  
Grade of C- or better in MATH 1050  
Satisfactory score on Math Placement Exam

**MATH 1210**

Math ACT test score of 27 or higher  
Math SAT test score of 620 or higher  
AP Calculus AB test score of 3 or higher  
Grade of C- or better in MATH 1050 and 1060  
Satisfactory score on Math Placement Exam

# Department of Mathematics and Statistics

## MATH 2020

Math ACT test score of 25 or higher  
 Math SAT test score of 580 or higher  
 Grade of C- or better in MATH 1050  
 Satisfactory score on Math Placement Exam

## STAT 1040

Math ACT test score of 23 or higher  
 Math SAT test score of 540 or higher  
 Grade of C or better in MATH 1010  
 Satisfactory score on Math Placement Exam

Entering students with current passing scores on AP calculus or statistics exams will be awarded credits as shown below:

AP Test	Score	Credits	USU Credit Awarded
Calculus AB	3	6	3 (QL) credits + 3 elective credits
	4-5	6	MATH 1210 (QL) (4) + 2 elective credits
Calculus BC	3-4	6	MATH 1210 (QL) (4) + 2 elective credits
	5	8	MATH 1210 (QL) (4) + MATH 1220 (QL) (4)
Statistics	3-5	3	STAT 2000 (QI) (3)

Even if not required, students may opt to take the Math Placement Test through the Department of Mathematics and Statistics, strictly for advising purposes.

The calculus courses MATH 1210, 1220, and 2210 are designed for students majoring in mathematics, the sciences, and engineering. MATH 1100 (Calculus Techniques) is designed primarily for students majoring in business. All students in calculus classes need strong backgrounds in the material covered in MATH 1010 and MATH 1050. In addition, the MATH 1210, 1220, 2210 sequence requires a sound understanding of trigonometry (MATH 1060).

Students with outstanding mathematics records in high school and transfer students with some experience in calculus may wish to consult with a departmental advisor prior to registration.

## Departmental Admission Requirements

1. New freshmen admitted to USU in good standing qualify for admission to the major.
2. Transfer students from other institutions need a 2.2 transfer GPA, and students transferring from other USU majors need a 2.0 total GPA for admission to this major in good standing.
3. Students may be admitted to the Mathematics Education major by satisfying either of the above conditions. However, in order to be admitted to the Secondary Teacher Education Program (STEP), and to graduate from the Mathematics Education major (and minor), students must have a cumulative GPA of at least 3.0 in the equivalent of MATH 1210, 1220, and 2210, and an overall GPA of at least 2.75.

## University Requirements

All students in the Department of Mathematics and Statistics must satisfy the requirements of USU's University Studies program, described on pages 67-75 of this catalog.

## College of Science Requirements

Every bachelor's degree candidate in the College of Science must complete the following coursework or its equivalent:

### 1. One year of calculus:

**MATH 1210 (QL)** Calculus I (F,Sp,Su) (4 cr) **and**  
**MATH 1220 (QL)** Calculus II (F,Sp,Su) (4 cr) ..... 8  
 In some degrees or emphases within degrees, the second semester of calculus may be replaced by STAT 3000. The substitution will be for specific degree programs, not by student choice.

2. One of the following year-long sequences. The chosen sequence must be *outside the student's major department*.

**BIOL 1610** Biology I (F) (4 cr) **and**  
**BIOL 1620 (BLS)** Biology II (Sp) (4 cr) ..... 8  
**Or**  
**CHEM 1210** Principles of Chemistry I (F,Sp) (4 cr) **and**  
**CHEM 1220 (BPS)** Principles of Chemistry II (F,Sp,Su) (4 cr) ..... 8  
**Or**  
**GEO 1110 (BPS)** The Dynamic Earth: Physical Geology (F,Sp) (4 cr) **and**  
**GEO 3200 (DSC)** The Earth Through Time (Sp) (4 cr) ..... 8  
**Or**  
**PHYS 2110** The Physics of Living Systems I (4 cr) **and**  
**PHYS 2120 (BPS)** The Physics of Living Systems II (4 cr) ..... 8  
**Or**  
**PHYS 2210 (QI)** General Physics—Science and Engineering I (4 cr)  
**PHYS 2220 (BPS/QI)** General Physics—Science and Engineering II (4 cr) ..... 8

## Bachelor of Arts (BA) Degree

For this degree, students must complete the major requirements for the corresponding BS degree, plus the equivalent of two years of training in a foreign language. The Languages, Philosophy, and Speech Communication Department is responsible for approving the foreign language coursework for this degree.

## Major Requirements

Major and minor requirements in the Department of Mathematics and Statistics vary from time to time. Exact requirements in effect at any given time may be found in the USU online *General Catalog*. All grades for MATH and STAT courses applied toward a departmental major or minor must be C- or better. Major and minor requirements in effect at the beginning of Fall Semester 2009 are given below.

### Mathematics Major (53 credits)

#### A. Required Courses (44 credits)

**MATH 1210 (QL)** Calculus I (F,Sp,Su) ..... 4  
**MATH 1220 (QL)** Calculus II (F,Sp,Su) ..... 4  
**MATH 2210 (QI)** Multivariable Calculus (F,Sp,Su) ..... 3  
**MATH 2270 (QI)** Linear Algebra (F) ..... 3  
**MATH 2280 (QI)** Ordinary Differential Equations (Sp) ..... 3  
**MATH 3310** Discrete Mathematics (F,Sp,Su) ..... 3  
**MATH 4200 (CI)** Foundations of Analysis (F,Sp) ..... 3  
**MATH 4310 (CI)** Introduction to Algebraic Structures (F,Sp) ..... 3  
**MATH 5210** Introduction to Analysis I (F) ..... 3  
**MATH 5220** Introduction to Analysis II (Sp) ..... 3  
**MATH 5270** Complex Variables (Sp) ..... 3  
**MATH 5310** Introduction to Modern Algebra (Sp) ..... 3  
**MATH 5340** Theory of Linear Algebra (Sp) ..... 3  
**MATH 5710** Introduction to Probability (F,Sp) ..... 3

# Department of Mathematics and Statistics

## B. Elective Courses (9 credits)

Select at least three courses (9 credits) from the following:

<b>MATH 5110</b> Differential Geometry (Alt F).....	3
<b>MATH 5410</b> Methods of Applied Mathematics (F).....	3
<b>MATH 5420</b> Partial Differential Equations (Sp).....	3
<b>MATH 5460</b> Introduction to the Theory and Application of Nonlinear Dynamical Systems (Sp).....	3
<b>MATH 5510</b> Introduction to Topology (Alt F).....	3
<b>MATH 5610</b> Computational Linear Algebra and Solution of Systems of Equations (F).....	3
<b>MATH 5620</b> Numerical Solution of Differential Equations (Sp).....	3
<b>MATH 5720</b> Introduction to Mathematical Statistics (Sp).....	3

## Mathematics Education Major with a Teaching Minor

(73 credits, plus the number of credits required  
by the teaching minor)

### A. Mathematics and Statistics Courses (39 credits)

<b>STAT 1040 (QL)</b> Introduction to Statistics (F,Sp,Su).....	3
<b>MATH 1210 (QL)</b> Calculus I (F,Sp,Su).....	4
<b>MATH 1220 (QL)</b> Calculus II (F,Sp,Su).....	4
<b>MATH 2210 (QI)</b> Multivariable Calculus (F,Sp,Su).....	3
<b>MATH 2250 (QI)</b> Linear Algebra and Differential Equations (F,Sp,Su).....	4
<b>MATH 3110</b> Modern Geometry (Sp).....	3
<b>MATH 3310</b> Discrete Mathematics (F,Sp,Su).....	3
<b>MATH 4200 (CI)</b> Foundations of Analysis (F,Sp).....	3
<b>MATH 4310 (CI)</b> Introduction to Algebraic Structures (F,Sp).....	3
<b>MATH 4400</b> History of Mathematics and Number Theory (Sp).....	3
<b>MATH 5010</b> Capstone Mathematics, Statistics, and Technology for Teachers (F,Sp).....	3
<b>MATH 5710</b> Introduction to Probability (F,Sp).....	3

### B. Teaching Minor Content Courses (number of credits vary by minor)

#### C. Pedagogy Courses (22 credits<sup>1</sup>)

<b>SCED 3100</b> Motivation and Classroom Management (F,Sp).....	3
<b>SCED 3210 (CI/DSS)</b> Educational and Multicultural Foundations (F,Sp).....	3
<b>SPED 4000</b> Education of Exceptional Individuals (F,Sp,Su).....	2
<b>SCED 4200 (CI)</b> Reading, Writing, and Technology (F,Sp).....	3
<b>SCED 4210</b> Cognition and Evaluation of Student Learning (F,Sp).....	3
<b>MATH 4300</b> School Laboratory for Mathematics Teachers Level II (F,Sp).....	1
<b>MATH 4500</b> Methods of Secondary School Mathematics Teaching (F,Sp).....	3
Teaching Methods in Minor course <sup>1</sup> .....	3
Clinical Experience course <sup>2</sup> .....	1

#### D. Student Teaching Semester (12 credits)

<b>SCED 5500</b> Student Teaching Seminar (F,Sp).....	2
<b>SCED 5630</b> Student Teaching in Secondary Schools (F,Sp).....	10

**Note:** Acceptance to teacher education is required prior to enrolling in SCED 3100, 3210, 4200, or 4210. This acceptance requires an overall GPA of at least 2.75, successful completion of a writing competency test, and passing a criminal background check.

**Note:** All USU teacher education candidates will be required to take and pass the content exam approved by the Utah State Office of Education in their major content area prior to student teaching.

<sup>1</sup>Students with a science teaching minor are required to take two science teaching methods courses (i.e., SCED 3400 and 4400), thus raising the total for pedagogy courses to 25 credits.

<sup>2</sup>The prefix for this course, numbered 3300, depends on the teaching minor.

## Composite Mathematics-Statistics Education Major (79-81 credits)

### A. Mathematics and Statistics Courses (45-47 credits)

<b>MATH 1210 (QL)</b> Calculus I (F,Sp,Su).....	4
<b>MATH 1220 (QL)</b> Calculus II (F,Sp,Su).....	4
<b>STAT 3000 (QI)</b> Statistics for Scientists (F,Sp,Su) (3 cr) <b>or</b> <b>STAT 2000 (QI)</b> Statistical Methods (F,Sp) (3 cr).....	3
<b>MATH 2210 (QI)</b> Multivariable Calculus (F,Sp,Su).....	3
<b>MATH 2250 (QI)</b> Linear Algebra and Differential Equations (F,Sp,Su).....	4
<b>OR</b> (MATH 2250; <b>or</b> MATH 2270 and 2280)	
<b>MATH 2270 (QI)</b> Linear Algebra (F) (3 cr) <b>and</b> <b>MATH 2280 (QI)</b> Ordinary Differential Equations (Sp) (3 cr).....	6
<b>STAT 5100 (QI/CI)</b> Linear Regression and Time Series (F).....	3
<b>MATH 3110</b> Modern Geometry (Sp).....	3
<b>MATH 3310</b> Discrete Mathematics (F,Sp,Su).....	3
<b>MATH 4200 (CI)</b> Foundations of Analysis (F,Sp).....	3
<b>MATH 4310 (CI)</b> Introduction to Algebraic Structures (F,Sp).....	3
<b>MATH 4400</b> History of Mathematics and Number Theory (Sp).....	3
<b>MATH 5010</b> Capstone Mathematics, Statistics, and Technology for Teachers (F,Sp).....	3
<b>MATH 5710</b> Introduction to Probability (F,Sp).....	3
<b>MATH 5720</b> Introduction to Mathematical Statistics (Sp) (3 cr) <b>or</b> 5000-level course with STAT prefix (other than STAT 5100) (3 cr).....	3

### B. Pedagogy Courses (22 credits)

<b>SCED 3100</b> Motivation and Classroom Management (F,Sp).....	3
<b>SCED 3210 (CI/DSS)</b> Educational and Multicultural Foundations (F,Sp).....	3
<b>SPED 4000</b> Education of Exceptional Individuals (F,Sp,Su).....	2
<b>SCED 4200 (CI)</b> Reading, Writing, and Technology (F,Sp).....	3
<b>SCED 4210</b> Cognition and Evaluation of Student Learning (F,Sp).....	3
<b>MATH 3300</b> School Laboratory for Mathematics Teachers Level I (F,Sp).....	1
<b>MATH 4300</b> School Laboratory for Mathematics Teachers Level II (F,Sp).....	1
<b>MATH 4500</b> Methods of Secondary School Mathematics Teaching (F,Sp).....	3
<b>STAT 4500</b> Methods of Teaching Statistics in Secondary and Middle School (F,Sp).....	3

### C. Student Teaching Semester (12 credits)

<b>SCED 5500</b> Student Teaching Seminar (F,Sp).....	2
<b>SCED 5630</b> Student Teaching in Secondary Schools (F,Sp).....	10

**Note:** Acceptance to teacher education is required prior to enrolling in SCED 3100, 3210, 4200, or 4210. This acceptance requires an overall GPA of at least 2.75, successful completion of a writing competency test, and passing a criminal background check.

**Note:** All USU teacher education candidates will be required to take and pass the content exam approved by the Utah State Office of Education in their major content area prior to student teaching.

# Department of Mathematics and Statistics

## Applied Mathematics Option (68 credits)

The Applied Mathematics Option is available in the Mathematics Major.

### A. Required Mathematics Courses (41 credits)

MATH 1210 (QL) Calculus I (F,Sp,Su)	4
MATH 1220 (QL) Calculus II (F,Sp,Su)	4
MATH 2210 (QI) Multivariable Calculus (F,Sp,Su)	3
MATH 2270 (QI) Linear Algebra (F)	3
MATH 2280 (QI) Ordinary Differential Equations (Sp)	3
MATH 4200 (CI) Foundations of Analysis (F,Sp)	3
MATH 5210 Introduction to Analysis I (F)	3
MATH 5220 Introduction to Analysis II (Sp)	3
MATH 5270 Complex Variables (Sp)	3
MATH 5410 Methods of Applied Mathematics (F)	3
MATH 5420 Partial Differential Equations (Sp)	3
MATH 5710 Introduction to Probability (F,Sp)	3
STAT 3000 (QI) Statistics for Scientists (F,Sp,Su)	3

### B. Required Physics and Computer Science Courses (12 credits)

CS 1400 Introduction to Computer Science—CS 1 (F,Sp,Su)	3
CS 1405 Introduction to Computer Science—CS 1 Lab (F,Sp,Su)	1
PHYS 2110 The Physics of Living Systems I	4
PHYS 2120 (BPS) The Physics of Living Systems II	4

### C. Elective Courses (6 credits)

Select two courses (6 credits) from the following:

MATH 5610 Computational Linear Algebra and Solution of Systems of Equations (F)	3
MATH 5620 Numerical Solution of Differential Equations (Sp)	3
MATH 5640 Optimization (Sp)	3

### D. Additional Elective Courses (9 credits)

Select three courses (9 credits) from STAT courses numbered 5000 and above; or from MATH courses numbered 5000 and above, excluding courses listed above and excluding MATH 5570 and 5580 (Actuarial Math I and II) and MATH 5010.

## Statistics Major (47 credits)

### A. Required Courses (35 credits)

MATH 1210 (QL) Calculus I (F,Sp,Su)	4
MATH 1220 (QL) Calculus II (F,Sp,Su)	4
MATH 2210 (QI) Multivariable Calculus (F,Sp,Su)	3
MATH 2270 (QI) Linear Algebra (F)	3
MATH 4200 (CI) Foundations of Analysis (F,Sp)	3
MATH 5710 Introduction to Probability (F,Sp)	3
MATH 5720 Introduction to Mathematical Statistics (Sp)	3
CS 1400 Introduction to Computer Science—CS 1 (F,Sp,Su)	3
STAT 3000 (QI) Statistics for Scientists (F,Sp,Su) (3 cr) or	3
STAT 2000 (QI) Statistical Methods (F,Sp) (3 cr)	3
STAT 5100 (QI/CI) Linear Regression and Time Series (F)	3
STAT 5200 Design of Experiments (Sp)	3

### B. Elective Courses (12 credits)

Select four courses (12 credits) in statistics numbered above 5000.

One of the three elective classes may be selected from:

MATH 5570 Actuarial Math I (F)	3
MATH 5610 Computational Linear Algebra and Solution of Systems of Equations (F)	3
MATH 5760 Stochastic Processes (F)	3

## Emphasis Requirements

### Computational Mathematics Emphasis (60 credits)

The Computational Mathematics Emphasis is available in the Mathematics Major.

#### A. Required Mathematics Courses (35 credits)

MATH 1210 (QL) Calculus I (F,Sp,Su)	4
MATH 1220 (QL) Calculus II (F,Sp,Su)	4
MATH 2210 (QI) Multivariable Calculus (F,Sp,Su)	3
MATH 2270 (QI) Linear Algebra (F)	3
MATH 2280 (QI) Ordinary Differential Equations (Sp)	3
MATH 3310 Discrete Mathematics (F,Sp,Su)	3
MATH 4200 (CI) Foundations of Analysis (F,Sp)	3
MATH 5210 Introduction to Analysis I (F)	3
MATH 5610 Computational Linear Algebra and Solution of Systems of Equations (F)	3
MATH 5620 Numerical Solution of Differential Equations (Sp)	3
MATH 5710 Introduction to Probability (F,Sp)	3

#### B. Required Computer Science Courses (13 credits)

CS 1400 Introduction to Computer Science—CS 1 (F,Sp,Su)	3
CS 1405 Introduction to Computer Science—CS 1 Lab (F,Sp,Su)	1
CS 1410 (QI) Introduction to Computer Science—CS 2 (F,Sp,Su)	3
CS 2420 (QI) Algorithms and Data Structures—CS 3 (F,Sp,Su)	3
CS 2450 (CI) Introduction to Software Engineering I (F,Sp)	3

#### C. Mathematics Elective Courses (6 credits)

Select two courses (6 credits) in mathematics numbered above 5010, excluding MATH 5570 (Actuarial Math I) and 5580 (Actuarial Math II).

#### D. Computer Science Elective Courses (6 credits)

Select at least two courses (6 credits) in computer science numbered above 4000.

**Note:** Students who complete the Computer Science coursework with a GPA of at least 2.5 automatically earn a minor in Computer Science.

### Actuarial Science Emphasis (59 credits)

The Actuarial Science Emphasis is available in *either* the Mathematics Major or the Statistics Major.

#### A. Mathematics and Statistics Courses (for Mathematics Majors) (44 credits)

MATH 1210 (QL) Calculus I (F,Sp,Su)	4
MATH 1220 (QL) Calculus II (F,Sp,Su)	4
MATH 2210 (QI) Multivariable Calculus (F,Sp,Su)	3
MATH 2270 (QI) Linear Algebra (F)	3
MATH 2280 (QI) Ordinary Differential Equations (Sp)	3
MATH 4200 (CI) Foundations of Analysis (F,Sp)	3
MATH 4310 (CI) Introduction to Algebraic Structures (F,Sp)	3
MATH 5210 Introduction to Analysis I (F)	3
MATH 5570 Actuarial Math I (F)	3
MATH 5580 (CI) Actuarial Math II (Sp)	3
MATH 5710 Introduction to Probability (F,Sp)	3
MATH 5720 Introduction to Mathematical Statistics (Sp)	3
STAT 3000 (QI) Statistics for Scientists (F,Sp,Su) (3 cr) or	3
STAT 2000 (QI) Statistical Methods (F,Sp) (3 cr)	3
STAT 5100 (QI/CI) Linear Regression and Time Series (F)	3

# Department of Mathematics and Statistics

## B. Mathematics and Statistics Courses (for Statistics Majors) (44 credits)

Statistics Majors must complete all of the courses listed above in **Section A**, except for the following two courses:

<b>MATH 4310 (CI)</b> Introduction to Algebraic Structures (F,Sp).....	3
<b>MATH 5210</b> Introduction to Analysis I (F).....	3

In addition, students must complete the following:

<b>STAT 5200</b> Design of Experiments (Sp).....	3
Elective STAT course numbered above 5000.....	3

## C. Required Accounting, Economics, Finance, and Management Courses (15 credits)

<b>ACCT 2010</b> Survey of Accounting I (F,Sp,Su).....	3
<b>ECN 1500 (BAI)</b> Introduction to Economic Institutions, History, and Principles (F,Sp,Su).....	3
<b>ECN/APEC 2010 (BSS)</b> Introduction to Microeconomics (F,Sp,Su).....	3
<b>FIN 3400 (QI)</b> Corporate Finance (F,Sp,Su).....	3
<b>MGT 2050</b> Legal and Ethical Environment of Business (F,Sp,Su).....	3

**Note:** Admission to the Actuarial Science Emphasis requires explicit departmental approval.

## Composite Major in Mathematics/Statistics (59 credits)

### A. Required Courses (44 credits)

<b>MATH 1210 (QL)</b> Calculus I (F,Sp,Su).....	4
<b>MATH 1220 (QL)</b> Calculus II (F,Sp,Su).....	4
<b>MATH 2210 (QI)</b> Multivariable Calculus (F,Sp,Su).....	3
<b>MATH 2270 (QI)</b> Linear Algebra (F).....	3
<b>MATH 2280 (QI)</b> Ordinary Differential Equations (Sp).....	3
<b>MATH 4200 (CI)</b> Foundations of Analysis (F,Sp).....	3
<b>MATH 4310 (CI)</b> Introduction to Algebraic Structures (F,Sp).....	3
<b>MATH 5210</b> Introduction to Analysis I (F).....	3
<b>MATH 5710</b> Introduction to Probability (F,Sp).....	3
<b>MATH 5720</b> Introduction to Mathematical Statistics (Sp).....	3
<b>CS 1400</b> Introduction to Computer Science—CS 1 (F,Sp,Su).....	3
<b>STAT 3000 (QI)</b> Statistics for Scientists (F,Sp,Su) (3 cr) or <b>STAT 2000 (QI)</b> Statistical Methods (F,Sp) (3 cr).....	3
<b>STAT 5100 (QI/CI)</b> Linear Regression and Time Series (F).....	3
<b>STAT 5200</b> Design of Experiments (Sp).....	3

### B. Elective Mathematics Courses (6 credits)

Select at least two courses (6 credits) in mathematics numbered above 5000.

### C. Elective Statistics Courses (9 credits)

Select at least three courses (9 credits) in statistics numbered above 5000. Either MATH 5760 (Stochastic Processes) or MATH 5570 (Actuarial Math I) may substitute for one of the statistics elective courses.

## Suggested Four-year Plans

Suggested semester-by-semester four-year plans for students working toward a Bachelor of Science or Bachelor of Arts degree within the Department of Mathematics and Statistics can be found at:

<http://www.usu.edu/degreepans/>

Students should consult with their advisor to develop a plan of study tailored to their individual needs and interests.

## Minor Requirements

### Mathematics Minor (23 credits)

#### A. Required Courses (17 credits)

<b>MATH 1210 (QL)</b> Calculus I (F,Sp,Su).....	4
<b>MATH 1220 (QL)</b> Calculus II (F,Sp,Su).....	4
<b>MATH 2210 (QI)</b> Multivariable Calculus (F,Sp,Su).....	3
<b>MATH 2270 (QI)</b> Linear Algebra (F).....	3
<b>MATH 2280 (QI)</b> Ordinary Differential Equations (Sp).....	3

#### B. Elective Courses (6 credits)

Select at least two additional courses (6 credits) in mathematics numbered above 4000, **excluding** the following courses: MATH 4300, 4400, 4500, 5570, and 5580.

### Statistics Minor (15 credits)

#### A. Required Courses (9 credits)

<b>STAT 3000 (QI)</b> Statistics for Scientists (F,Sp,Su) (3 cr) or <b>STAT 2000 (QI)</b> Statistical Methods (F,Sp) (3 cr).....	3
<b>STAT 5100 (QI/CI)</b> Linear Regression and Time Series (F).....	3
<b>STAT 5200</b> Design of Experiments (Sp).....	3

#### B. Elective Courses (6 credits)

Select two additional courses (6 credits) from statistics courses numbered above 5000, or from the following courses:

<b>MATH 5710</b> Introduction to Probability (F,Sp).....	3
<b>MATH 5720</b> Introduction to Mathematical Statistics (Sp).....	3
<b>MATH 5760</b> Stochastic Processes (F).....	3

### Mathematics Education Minor (42 credits)

<b>STAT 1040 (QL)</b> Introduction to Statistics (F,Sp,Su).....	3
<b>MATH 1210 (QL)</b> Calculus I (F,Sp,Su).....	4
<b>MATH 1220 (QL)</b> Calculus II (F,Sp,Su).....	4
<b>MATH 2210 (QI)</b> Multivariable Calculus (F,Sp,Su).....	3
<b>MATH 2250 (QI)</b> Linear Algebra and Differential Equations (F,Sp,Su).....	4
<b>MATH 3110</b> Modern Geometry (Sp).....	3
<b>MATH 3310</b> Discrete Mathematics (F,Sp,Su).....	3
<b>MATH 4200 (CI)</b> Foundations of Analysis (F,Sp).....	3
<b>MATH 4310 (CI)</b> Introduction to Algebraic Structures (F,Sp).....	3
<b>MATH 4400</b> History of Mathematics and Number Theory (Sp).....	3
<b>MATH 4500</b> Methods of Secondary School Mathematics Teaching (F,Sp).....	3
<b>MATH 5010</b> Capstone Mathematics, Statistics, and Technology for Teachers (F,Sp).....	3
<b>MATH 5710</b> Introduction to Probability (F,Sp).....	3

Completion of the Secondary Teacher Education Program (STEP) for the student's Secondary Education major is also required, as well as MATH 4500, and **either** MATH 3300 or 4300. Admission to the STEP requires a GPA of at least 3.00 in the equivalent of MATH 1210, 1220, and 2210, and an overall GPA of at least 2.75. Graduation from this minor also requires an overall GPA of at least 2.75. No more than three repeats in all required courses may be used in GPA computations. The STEP is normally completed during the last three semesters of study, and consequently nearly all the mathematics classes in the Mathematics Education Minor must be completed before beginning the STEP.

**Note:** Acceptance to teacher education is required prior to enrolling in SCED 3100, 3210, 4200, or 4210. This acceptance requires an overall GPA of at least 2.75, successful completion of a writing competency test, and passing a criminal background check.

# Department of Mathematics and Statistics

## Biomathematics Minor (36-40 credits)

### A. Required Courses (28 credits)

BIOL 1610 Biology I (F).....	4
BIOL 1620 (BLS) Biology II (Sp).....	4
MATH 1210 (QL) Calculus I (F,Sp,Su).....	4
MATH 1220 (QL) Calculus II (F,Sp,Su).....	4
MATH 2270 (QI) Linear Algebra (F).....	3
MATH 2280 (QI) Ordinary Differential Equations (Sp).....	3
STAT 3000 (QI) Statistics for Scientists (F,Sp,Su).....	3
MATH/BIOL 4230 (QI) Applied Mathematics in Biology (Sp).....	3

### B. Elective Courses (8-12 credits)

Biology majors must take one course from the biology electives (listed below), and two courses from the mathematics and statistics electives (listed below). Mathematics and Statistics majors must take two courses from the biology electives, and one course from the mathematics and statistics electives. All other majors must take two courses from each set of electives.

#### Biology Electives

BIOL 3220 (QI) Field Ecology (F).....	2
BIOL 5020 (QI) Modeling Biological Systems (F).....	3
BIOL 5380 Evolutionary Genetics (F).....	4
BIOL 5600 Comparative Animal Physiology (Sp).....	3
BIOL 5620 Medical Physiology (F).....	3
CLIM 5500 Land-Atmosphere Interactions (Sp odd).....	3
PUBH 5330 (QI) Industrial Hygiene Chemical Hazard Control (F).....	3
WILD 3810 Plant and Animal Populations (Sp).....	3

#### Mathematics and Statistics Electives

MATH 5410 Methods of Applied Mathematics (F).....	3
MATH 5420 Partial Differential Equations (Sp).....	3
MATH 5460 Introduction to the Theory and Application of Nonlinear Dynamical Systems (Sp).....	3
MATH 5610 Computational Linear Algebra and Solution of Systems of Equations (F).....	3
MATH 5620 Numerical Solution of Differential Equations (Sp).....	3
MATH 5710 Introduction to Probability (F,Sp).....	3
STAT 5100 (CI/QI) Linear Regression and Time Series (F).....	3
STAT 5120 Categorical Data Analysis (F).....	3
STAT 5200 Design of Experiments (Sp).....	3
STAT 5600 (CI) Applied Multivariable Statistics (Sp).....	3

## Departmental Honors

Students who would like to experience greater academic depth within their major are encouraged to enroll in departmental honors. Through original, independent work, Honors students enjoy the benefits of close supervision and mentoring, as they work one-on-one with faculty in select upper-division departmental courses. Honors students also complete a senior project, which provides another opportunity to collaborate with faculty on a problem that is significant, both personally and in the student's discipline. Participating in departmental honors enhances students' chances for obtaining fellowships and admission to graduate school. Minimum GPA requirements for participation in departmental honors vary by department, but usually fall within the range of 3.30-3.50. Students may enter the Honors Program at almost any stage in their academic career, including at the junior (and sometimes senior) level. The campus-wide Honors Program, which is open to all qualified students regardless of major, offers a rich array of cultural and social activities, special classes, and the benefit of Honors early registration. Interested students should contact the Honors Program, Main 15, (435) 797-2715, [honors@usu.edu](mailto:honors@usu.edu). Additional information can be found online at: <http://www.usu.edu/honors/>

## Additional Information

Students who enter the University with AP credit in Mathematics and/or Statistics, and about 30 additional AP or CLEP credits, may be able to complete both a BS and an MS degree within five years or less. Interested students should consult with a departmental undergraduate advisor.

For detailed information about requirements for majors and minors within the Mathematics and Statistics Department, see the major requirement sheet, which is available from the department, or online at: <http://www.usu.edu/majorsheets/>

## Financial Support

The department offers several one-, two-, and four-year scholarships to qualified students who enroll as full-time Mathematics, Mathematics Education, or Statistics majors. The winner of the Hunsaker Scholarship receives a cash award each semester for two years. This award is given in addition to any four-year scholarship or tuition waiver for which the student is eligible. During the final two years, the recipient is expected to work as a grader for the department. The department also offers other scholarships (Elich, Ellis, van Vliet, and departmental). The amount of these scholarships varies from year to year. The Ellis Scholarship is awarded to a junior or senior Mathematics Education major, and the recipient is selected by the department. To apply for any of these scholarships (except for the Ellis Scholarship, for which there is no application) fill out the scholarship application form located at <http://www.math.usu.edu/PDF/scholarshipappl.pdf>, and send a statement of qualifications, including high school transcripts and SAT or ACT scores, and three letters of recommendation to:

Scholarship Committee  
Department of Mathematics and Statistics  
Utah State University  
3900 Old Main Hill  
Logan UT 84322-3900

Applications must be received by April 1.

## Learning Objectives

All students having majors within the Department of Mathematics and Statistics are expected to achieve competency in: (1) pre-calculus algebra; (2) calculus of one and several variables; (3) ordinary differential equations; (4) linear algebra/matrices, eigenvalues/eigenvectors, determinant, rank; and (5) analysis (introduction to formal proofs/analysis theory).

Students enrolled in specific departmental majors should also have competence in additional areas pertaining to their major. These areas are listed in the following paragraphs.

### Mathematics Major

(1) algebraic structures; (2) analysis/advanced calculus; (3) complex variables; (4) topology; (5) algebraic theory; and (6) partial differential equations.

### Statistics Major

(1) theory of probability and statistics; (2) linear regression/time series; (3) experiment design; and (4) one or more of sampling, categorical analysis, multivariate analysis, quality control.

# Department of Mathematics and Statistics

## Mathematics Education Major (including Composite Mathematics-Statistics Education)

(1) algebraic structures; (2) probability; (3) history of mathematics; (4) methods for secondary school teaching of mathematics and/or statistics; and (5) in-service teaching experiences.

## Other Majors and Emphases (e.g., Computational Mathematics Emphasis, Actuarial Science Emphasis, etc.)

Replace general competencies in traditional areas (i.e., algebra, topology, analysis) with specific topics related to the specialized emphasis. For example, students in the **Computational Mathematics Emphasis** need the ability to write computer code to solve linear, nonlinear, stochastic, and (partial and ordinary) differential equations; and students in the **Actuarial Science Emphasis** need two semesters of actuarial mathematics.

## Assessment

### Assessment of General Education Courses (MATH 1050 and STAT 1040)

Beginning with Spring Semester 2004, the department has conducted an annual assessment of student performance in primary General Education courses (including MATH 1050 and STAT 1040). The performance of approximately 100 randomly selected students from each of MATH 1050 and STAT 1040 was evaluated by topic area on the common finals of these courses. Summary results will be available soon. The process was repeated for Spring Semester 2005. Together, these two years of data provide a baseline against which future groups of students will be compared. Weaknesses in topic learning will then be identified, and the Undergraduate Committee and course supervisors will provide feedback to instructors in an effort to bring overall student performance to target levels.

### Assessment of Core Courses (MATH 1210, 1220, 2210, 2250, and STAT 1040, 2000, 3000)

Core content of these courses changes infrequently and is primarily addressed through the selection of textbooks at three-year to five-year intervals. Primary assessment of these courses is through semester evaluations and final examination scores and course grade profiles. Competency in these areas is essential for any student majoring in mathematics or statistics.

### Assessment of Upper-division Major Courses

These courses are re-evaluated by subcommittees of the Undergraduate Committee in terms of: level and appropriateness of content relative to learning objectives, textbook selection, final examinations, course grades, and student evaluations. At two-year to five-year intervals, courses are redesigned if the subject matter develops beyond traditional norms, or if market demand indicates that an under-utilized course should be replaced by a course having greater demand (e.g., development of a new cryptography course).

## Undergraduate Research Opportunities

Students interested in undergraduate research opportunities in the Department of Mathematics and Statistics at Utah State University should begin by contacting the department head and undergraduate research liaison, D. Richard Cutler, (435) 797-0244, richard.cutler@usu.edu.

Several departmental faculty members have engaged in successful undergraduate research projects. These faculty members, along with their research areas, include: James Powell (mathematical modeling of pine beetle infestations), Ian Anderson (differential geometry applications to theoretical and applied physics), and Richard Cutler (analysis of epidemiological and environmental data). In general, undergraduate research offers students an excellent opportunity to explore mathematical and statistical theory and practice under the guidance of an experienced researcher, to focus their own course selection on particular career paths and research areas (including graduate school), to co-author professional publications, and to actively make presentations at conferences or local seminars.

## Graduate Programs

### Admission Requirements

See the general admission requirements for graduate programs at Utah State University on pages 36-37 of this catalog. In general, students wishing to pursue graduate studies in mathematics or statistics should have a bachelor's degree in mathematics, statistics, or a closely related field, with extensive coursework in one of the departmental disciplines.

Students entering the Master of Mathematics (MMath) program must either possess a valid secondary school teaching license or be concurrently enrolled in a secondary school teacher licensure program.

### Degree Programs

#### Master of Science (MS) in Mathematics

This program prepares students to work as mathematicians in government, business, and industry. This degree may also be a "stepping stone" for students who ultimately wish to pursue a doctorate in mathematics or a closely related subject.

#### Master of Science (MS) in Statistics

This program is primarily designed to prepare students for careers in business, industry, and federal, state, and local government. Students pursuing graduate degrees in other disciplines, such as biology, natural resources, engineering, business, economics, epidemiology, and the social sciences, may elect to earn an MS in statistics concurrent with their other degree programs. For most students, the MS in statistics will prove sufficient for career preparation. However, some graduates may ultimately pursue a doctorate in statistics, biostatistics, or a closely related discipline.

#### Master of Science (MS) in Industrial Mathematics

The Industrial Mathematics master's degree is designed to broaden the learning experiences and job opportunities for master's students in mathematics. The program of study incorporates fundamental applied mathematics and interdisciplinary coursework in support of an industrial internship experience.

#### Master of Mathematics (MMath)

This program is designed specifically for secondary school teachers of mathematics. The purpose of this degree is to provide students with a broad background in mathematics.

# Department of Mathematics and Statistics

## Doctor of Philosophy (PhD) in Mathematical Sciences

This is a terminal degree for mathematics and statistics researchers in academe, government, and industry, and for prospective college teachers.

## Specializations for PhD in Mathematical Sciences

The **College Teaching Specialization** is designed to prepare students to teach undergraduate mathematics in two- and four-year colleges and in universities. This program is less specialized than the other two options. Students in the College Teaching specialization receive broad training in pure and applied mathematics. The dissertation for this specialization includes exposition of important mathematical theories and their historical relationships in an area of mathematics of the student's choosing.

The **Interdisciplinary Studies Specialization** offers students the opportunity to receive advanced training in mathematics and/or statistics in the context of another field of inquiry, such as biology, ecology, business, economics, engineering, or education. Students in this specialization will usually take about two thirds of their coursework in the Department of Mathematics and Statistics, and the remaining third in the other discipline. The student's dissertation committee will choose two members from outside the Department of Mathematics and Statistics. The dissertation itself will generally entail the development of advanced mathematical or statistical methods to solve problems in the other subject area.

The **Pure and Applied Mathematics Specialization** is a traditional doctoral program in mathematics, offering broad training in the foundations of modern mathematics together with specialized training in an area of mathematical research. The dissertation represents a significant contribution to mathematics research in the chosen area of specialization.

The **Statistics Specialization** offers broad training in theoretical and applied statistics for students seeking careers in academia, industry, or government. The dissertation represents a significant contribution to statistical research.

## Course Requirements

Departmental requirements change from time to time. Check with the Department of Mathematics and Statistics for the list of requirements currently in effect. The requirements listed below are in effect for Fall Semester 2005.

### Master of Science in Mathematics

This degree requires 30 credits of approved coursework at or above the 5000 level. At least 18 of these credits must be at the 6000 level or above, excluding MATH 6990 and 7990 (Continuing Graduate Advisement) and MATH 7910 (College Teaching Internship). Generally, most of the coursework will be in mathematics, but the student's supervisory committee may approve courses in statistics, physics, engineering, or any other discipline, if it seems such coursework is appropriate for the student's program of study.

The MS in mathematics has three options. The Plan A or the thesis option requires taking 6 credits of MATH 6970 (Thesis and Research) and working with a faculty member on a substantial research project. The research must be presented in a thesis, which must be approved

by the student's supervisory committee and the dean of the School of Graduate Studies. An oral defense of the thesis must be arranged through the School of Graduate Studies.

The Plan B or project option requires taking 3 credits of MATH 6970 and working with a faculty member on a smaller research project. A written report of the research must be approved by the student's supervisory committee. An oral defense of the report must be scheduled through the School of Graduate Studies.

The third option of the MS in Mathematics requires only coursework, and is called the Plan C option. This option is *only* for students simultaneously working on degrees in other departments.

All students in the MS program in Mathematics must pass a written qualifying examination covering the introductory analysis and advanced calculus material presented in MATH 4200, 5210, and 5220. Students may take this exam before beginning formal coursework in the MS program, and must take the exam at the end of the first full year of matriculation. The exam is typically given twice a year, in May and September. Matriculated students who fail on their first try must pass the exam at the next scheduled opportunity. A detailed exam syllabus is contained in the *Graduate Handbook*, available from the department.

### Master of Science in Statistics

This degree requires 30 credits of approved coursework at or above the 5000 level. At least 18 credits must be at the 6000 level or above, excluding STAT 6990 and STAT 7990 (Continuing Graduate Advisement). All students must take STAT 6710 and 6720 (Mathematical Statistics I and II). Generally, most of the coursework will be in statistics, but the student's supervisory committee may approve courses in mathematics, biology, economics, or any other discipline if it deems such coursework to be appropriate for the student's program of study.

The MS in Statistics has Plan A (thesis), Plan B (report), and Plan C (coursework only) options. The Plan A and Plan B options require students to work with a faculty member on a research project, taking 6 or 3 credits of MATH 6970, respectively, and presenting the results of the research in a written report. For both the Plan A and Plan B options, the report must be approved by the student's supervisory committee. A Plan A report (thesis) must also be approved by the dean of the School of Graduate Studies. Both Plan A and Plan B reports require an oral defense that must be scheduled through the School of Graduate Studies.

The Plan C option of the MS program in Statistics is *only* for students simultaneously working on a degree in another department. Students in this option must pass both MATH 5710 and 5720, or both STAT 6710 and 6720 with a grade of B+ or better.

### Master of Science in Industrial Mathematics

This degree requires 36 credits of coursework at or above the 5000 level. At least 15 of these credits must be completed in MATH courses at the 6000 level or above. Additionally, students must complete a total of 9 credits outside of Mathematics which complement their internship and final project. A maximum of 3 of these credits may be taken at the 5000-level (i.e., one 3-credit course in another department). See the departmental website or the *Graduate Handbook* for more detailed information about coursework requirements.

Students in the MS program in Industrial Mathematics are required to pass the Advanced Calculus examination (see the Master of Science in Mathematics examination requirements), or the Statistics qualifying

# Department of Mathematics and Statistics

examination (see the Master of Science in Statistics examination requirements), or an examination based on material presented in four core courses chosen by the student during the first year. The exam, which can be taken before or at the beginning of the student's second year in the program, is usually given in May or September. Students are also required to complete a final project based on work done during an internship, either with a company or possibly with another department on campus. The project will include a technical write-up suitable to the industry/field, and presentation to the involved faculty and students in the program. This follows the Plan B option listed for the Master of Science in Mathematics degree.

The Departmental Graduate Committee supervises all MS and MMath students until a supervisory committee for the student is established and approved. Prior to advancement to candidacy, students in Plan A and Plan B options for the MS degree in mathematics and statistics must pass an examination in English writing. This exam is administered by the Department of Mathematics and Statistics.

## Master of Mathematics

This program requires at least 36 credits approved by the Graduate Committee within the Department of Mathematics and Statistics. At least 21 of these credits must come from mathematics classes numbered above 5000, and the remaining credits must be chosen from approved courses offered within the Emma Eccles Jones College of Education and Human Services. The GPA for the 36 credits and for the 21 math credits must be at least 3.0.

All students in the Master of Mathematics program must pass a qualifying exam. Students have the choice of taking their exam in Advanced Calculus, Applied Mathematics, or a synthesis of Mathematical Content and Pedagogy.

## PhD in Mathematical Sciences

All four specializations require a course of study of 60 credits beyond a master's degree or 90 credits beyond a bachelor's degree. In almost all cases, a student who applies to the PhD program who does not already have a master's degree will first be directed to the MS programs in mathematics and statistics. Satisfactory performance in one of these programs can lead to admission to the PhD program in mathematical sciences.

The core requirements for the PhD degree in Mathematical Sciences that are common to all four specializations include the following:

1. Passing a standard written qualifying examination appropriate for the specialization.
2. Passing a comprehensive examination that is constructed specifically for the student by his or her supervisory committee. The form of the examination may be written or oral, or may include a combination of written and oral components. The length and content of the exam are determined by the student's supervisory committee.
3. Successfully complete a test of technical English writing skills. Usually the student's dissertation proposal will serve this purpose.
4. Complete a dissertation.
5. Successfully defend the dissertation in a final oral examination.

After completing items 1-3, a PhD student may be advanced to candidacy.

Requirements that are specific to the specialization of the PhD in Mathematical Sciences are listed below. In all cases, it is assumed that the student already has a master's degree in mathematics or statistics.

The **College Teaching Specialization** requires at least 60 credits in mathematics courses numbered 6000 or higher, excluding MATH 7990 and MATH 6990, of which *no more than 20* can be completed in MATH 7970 (Dissertation Research). At least 6 credits should be selected from classes and seminars at the 7000 level, and 6 credits of MATH 7910 (College Teaching Internship) are also required. Students in this specialization take a qualifying examination in Real Analysis. The student's dissertation in this specialization may take several forms, including a traditional, publishable contribution to some area of mathematics; a significant contribution in the area of mathematics education; or an exposition of important mathematical theories and their historic relationships in an area of the student's choosing.

The **Interdisciplinary Studies Specialization** requires at least 60 credits numbered 6000 or higher, excluding MATH 7990, STAT 7990, MATH 6990, and STAT 6990. *No more than 30* of the credits may be completed in MATH 7970 or STAT 7970 (Dissertation Research). At least 20 of the credits should be in mathematics and/or statistics, of which at least 6 should be in seminars and classes at the 7000 level. An additional 10 credits in the student's chosen interdisciplinary area are also required. Students in this specialization may take a qualifying examination in Real Analysis or in Probability and Mathematical Statistics, depending on whether the majority of their coursework is in mathematics or in statistics. The student's PhD supervisory committee should include two persons in the student's selected interdisciplinary area, and the comprehensive examination should have a significant interdisciplinary component. The dissertation for a student in this specialization should involve the development and application of intermathematical or statistical methods to solve problems in the chosen interdisciplinary area, and should be publishable in journals in that area.

The **Pure and Applied Mathematics Specialization** requires at least 60 credits in mathematics numbered 6000 or higher, excluding MATH 6990 and 7990. At least 6 credits must be selected from seminars or classes numbered 7000 or higher, and *no more than 30* of the credits can be completed in MATH 7970 (Dissertation Research). The qualifying examination for this option is in Real Analysis. The dissertation should be a publishable, significant contribution to research in an area of mathematics.

The **Statistics Specialization** requires at least 60 credits in statistics at the 6000 and 7000 level, excluding STAT 6990 and 7990. With the permission of the student's supervisory committee, some of these credits may be in mathematics or in another discipline. At least 6 credits must be selected from seminars and classes numbered 7000 and higher, and a *maximum* of 30 credits may be completed in STAT 7970 (Dissertation Research). Students in this specialization take a qualifying examination in Probability and Mathematical Statistics. The dissertation constitutes a publishable, significant contribution to research in statistics.

## Research

Mathematics research opportunities within the department are many and varied, and students are urged to contact faculty about mutual interests at as early a stage as feasible. The interdisciplinary option permits and encourages study with a broad spectrum of outstanding nationally recognized University research programs.

# Department of Mathematics and Statistics

---

## Financial Assistance

Graduate students in the PhD program, the MMath program, and the Plan A and B options of the MS programs are eligible for teaching assistantships in the department. Duties of graduate teaching assistants may include full responsibility as instructors for introductory mathematics or statistics courses, leading recitations, and (in rare situations) tutoring and paper grading. Stipends are competitive and may include health insurance benefits. All graduate student stipends described here carry with them a waiver of all nonresident tuition. PhD students with stipends also receive a waiver of resident tuition. The department is also allocated a small number of resident tuition waivers for MS students each year. The department is able to support most PhD students and some MS students with summer teaching assignments. Mathematics and Statistics faculty members who have research grants may choose to partially or fully support students they are advising.

## Mathematics and Statistics Faculty

### Professors

*Ian M. Anderson*, differential geometry, global analysis  
*LeRoy B. Beasley*, matrix theory, linear algebra, combinatorics  
*James S. Cangelosi*, mathematics education, psychometrics  
*Lawrence O. Cannon*, topology, mathematics education  
*Adele Cutler*, statistical computing  
*D. Richard Cutler*, environmental statistics, epidemiology  
*E. Robert Heal*, analysis, statistics, mathematics education  
*Piotr Kokoszka*, probability and time series analysis  
*James A. Powell*, applied mathematics, mathematical biology  
*Russell C. Thompson*, differential equations  
*Zhi-Qiang Wang*, nonlinear differential equations, nonlinear analysis  
*Stanley C. Williams*, measure theory, modern analysis

### Professors Emeritus

*Ronald V. Canfield*, multivariate and industrial statistics  
*Chris S. Coray*, numerical analysis  
*Duane Loveland*, geometric topology, continuum theory  
*Jerry Ridenhour*, differential equations
