

Part 3

EOSC - Use Case Austria

**Towards the European Open Science Cloud
Good Practice**

The Use Case Austria

The Austrian use case for the implementation of the EOSC

There is strong Austrian presence and active participation in national, European and international policy development initiatives.

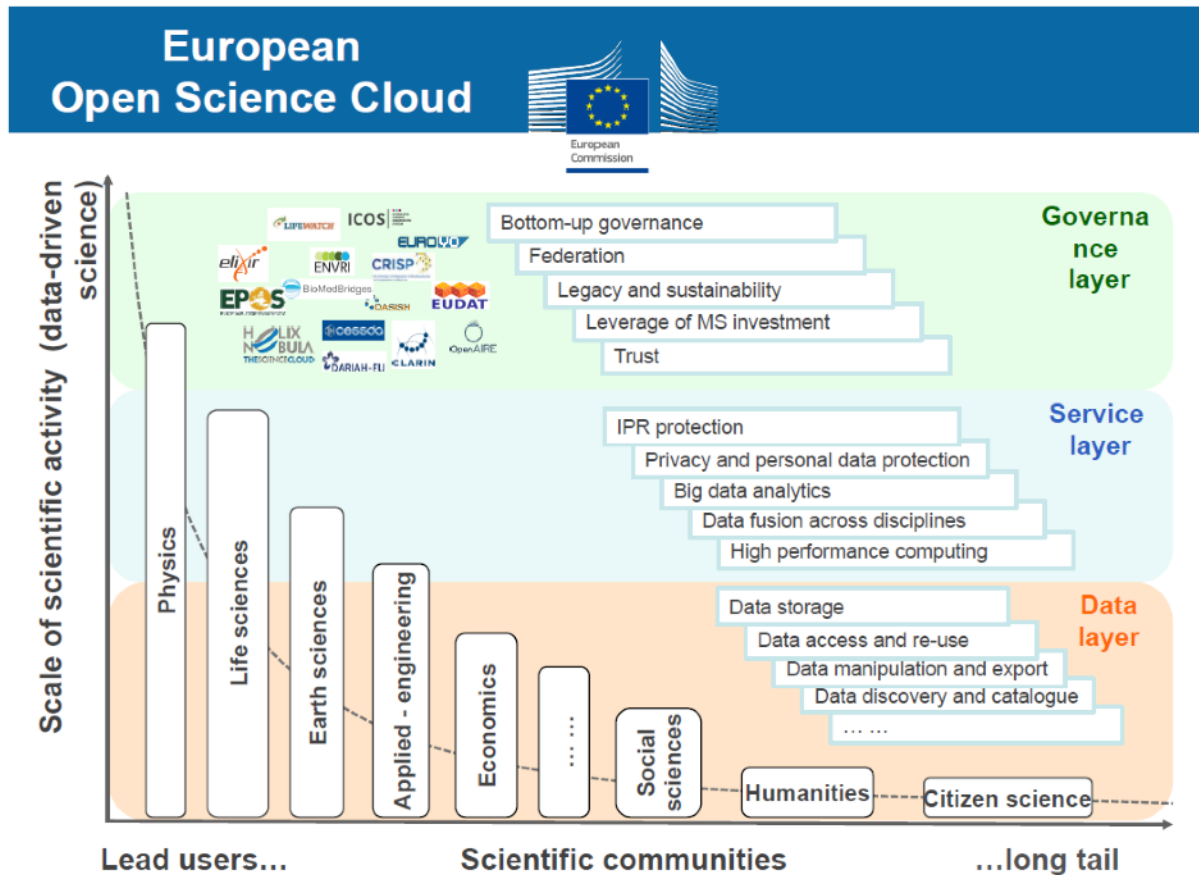

Currently there are **6 national**, publicly funded cooperation projects in place, supporting the Amsterdam Call for Action on Open Science covering governance, service, data and infrastructure.

They could serve as a basis for the further development in the context of existing e- infrastructure and research data policies and strategies.

The Austrian use case for the implementation of the EOSC

These are six transversal projects **covering governance, service, data and infrastructure**, and all comply with the requirements of the EOSC. Four of these six projects were initiated by Austrian research libraries, and five of which provide the core facilities for the development of these projects.

Use Case Austria 2017

CREDITS EOSC Use Case Austria is a „living document“, and will be updated according to projects' progress - This version is dated January 2017

The content of these slides was developed partly by the cooperation of the following persons representing their institution or project:

EOSC-Informelle interministerielle Treffen (EOSC-IIMT)

Participants (alphabetical order):

ACONET: Christian Panigl

AIT: Michela Vignoli

AWSG: Claudia Leuchtgeb

BMVIT: Margit Harjung; Hermann Kaltenbrunner, Lisbeth Mosnik, Rupert Pichler, Natalie Plewa, Judith Rabfogel-Scheer, Brigitte Weiss, Kerstin Zimmermann

BMWFW: Stefan Hanslik, Daniela Kopriva-Urbas, Thomas Lichtenwöhrer, Sabine Matzinger, Johannes Schumich, Peter Seitz, Daniel Weselka

FFG: Michalis Tzatzanis

FWF: Falk Reckling

OFI: Georg Buchtela

Universität Wien: Paolo Budroni, Raman Ganguly, Barbara Sánchez Solís,

EOSC Use Case Austria

Responsible for the content of this version (4 April 2017):

Paolo Budroni, Vienna University, Library and Archive Services
in cooperation with

Raman Ganguly, Vienna University, Computer Centre
and

Barbara Sánchez Solís, Library and Archive Services (AuSSDA)

Paolo Budroni, paolo.budroni@univie.ac.at

Raman Ganguly, raman.ganguly@univie.ac.at

Barbara Sánchez Solís, barbara.sanchez.solis@univie.ac.at
