20,000 NAZI PRISONERS TAKEN; 75,000 ITALIANS STRANGLED

CAIRO, Nov. 7 (UP)-The United Nation's hopes for a complete victory on the African front remained on the ascendancy as the Imperial 8th Army continued to drive Marshal Erwin Rommel's battered main forces back to the western edge of Egypt and is piling them up at the Egyptian-Libyan frontier, according to reports from the westward driving allies today.

The bulk of the survivors of Rommel's Nazi

units have been trapped at Buqbuq, 210 miles west of El Alamein, the original battle lines, at Sollum, 20 miles further west, and at the junction of the coast road and Halfaya (Hellfire) pass on the frontier.

Already 20,000 prisoners have been counted in British hands and upward of 75,000 Italian troops are gradually being cut off of food, water and ammunition, and are about to surrender, reports from the battle zone said.

U.S. TROOPS REPULSE PINCER

ON VITAL HENDERSON AIRFIELD

WASHINGTON, Nov. 7 (UP)-American forces defending vital Henderson Airfield on Guadalcanal Island have advanced several miles to the east, while other American units have repulsed enemy attacks to the west of the Field, a communique issued today by the Nayy revealed. The successful eastward advance carried out by the U.S. Army troops occurred Friday, Solomon time.

Light enemy resistance was encountered during the eastward march, the communique stated. It took the American troops 'several miles beyond the lines,' and held back the Japanese' recently landed ground forces east of the Airfield. The movement was apparently to prevent the enemy from getting those forces into shape for a pincer drive across the field with columns advencing from both each and went mns advancing from both east and west.

ARMY SHOULD REALIZE NISEIS ARE AMERICANS

The Army is committing a serious psychological error in asking for volunteers to its Military Intelligence School on the basis as reported in a recent issue of the Bulletin.

Maj. Karl T. Gould is quoted as announcing that "the response to this plan for Nisei to enlist in the army will be looked upon as the acid test of whether the requests ... to enlist... are made in real sincerity."

This is definitely putting the loyal American citizens of Japanese extraction "on the spot". For the simple reason that the Army, like many misguided super-patriotic civilians, is forgetting the simple fact that such citizens of Japanese ancestry are, first of all AMERICANS in every sense of the word. And that as, such, their knowledge of the Japanese languese is limited. It · must be realized that a .very limited number of Japanese Americans would be able to meet the standards imposed by the Army in gaining entrance to the school. Few, indeed, are there who can speak the language fluently, much less read and write "kata-kana" with facility, not to mention the more difficult "kanji."

It is to be hoped, if the army is at all desirous in gaining the true perspective

"MASTER OF MY FATE"

Some residents, imbued with the notion that the present far-flung sanguinary warfare will come to an early demise, have, unconsciously or knowingly, hampered the efforts of the sincere ones to adjust themselves to their present circumstances and pave the way for their future welfare. While an early end of the conflict would undoubtedly be a momentously happy event, it would be the height of folly to base all our aspirations on such wishful cogitation.

The Japanese as a whole have been pictured as a proud and prideful race. The Tolan Congressional committee, among others, have recognized the diligence and industriousness of the Japanese in the USA. That the Japanese have contributed to the welfare of the USA, especially in agriculture, is a recognized fact.

ally in agriculture, is a recognized fact.

Are we to allow an insignificant minority to destroy that record? Our first generation folks have not much more to go, as the life span of a human is measured. But their conduct to date and during their residence here will be a "noble, logical diagram that will be a living thing, long after we are gone," in the words of Daniel Burnham, the architect. To their youthful citizen offsprings, whose future is still before them, it will be a challenge, in the consecrated name and memory of their parents.

Whether the war will end soon or not should not be our lot to discuss at this time. The Japanese Americans must plan now and activate themselves to assure their own future prosperity. The Isseis must lend a helping hand to fulfill their purpose on this earth.

It would not be untimely to record in our memory this verse from Henley's "Invictus":

"In the fell clutch of circumstance
 I have not winced nor cried aloud,
Under the bludgeonings of chance
 My head is bloody but unbowed...
It matters not how strait the gate,
 How charged with punishments the scroll
I am the Master of my Fate,
 I am the Captain of my soul."

regarding the sincerity of the Japanese American citizens; protestations of loyalty, that those in authority will recognize the lack of such citizens; command of the Japanese language... which is what might and/or should be expected of any AMERICAN, regardless of race.

"DEAR PRESIDENT"

His prother and sister were sitting under the neighbor's cooler. His coaxing did not move their indifference to buying something "that was n't aseful". Yash wasn't on speaking terms for a while, mourning over the tragic fact that he was not sixteen. Everyone treats you like a baby at fourteen,

thought.

He was lying on his stomach down on the floor looking through the various magazines when something in his head clicked. In the July 27th issue of the Life magazine, there was an article headed, "Life Reports issue of the Life magazine, there was an article headed, 'Dear I'. President'", relating the variety of letters that pour into the White House since the President's invitation to "Write to me personally in the White House". It was a dream on a silver platter; a real chance to write to his hero! He rushed to the grude desk that his brother had recently made, and searched excitedly for a pen and paper. He wrote, "Dear Mr. President: It looked fine. Unending drops of perspiration rolled down his brow.

It may take a Little time to get this all worked out. I hope you are able to get your model airplane soon. Sincerely yours, Merrill B. Conover, Consultant in Group work, Social Service Division.

A little later on September 21, at the office of W. Wade Head, Project Director at Poston a letter was received from the W.R.A. office in Washington. It contained a copy of Yosh's letter and a letter stating that Lr. Myers, National Director of the W.R.A. suggests that some kind of work be given to the lad. On being informed, Yosh was exultant. "Gosh, as soon as I get my pay, I can buy me the model plane; and something else too! He exclaimed.

The copy of his letter to the President ran thus: Dear Mr. President: I live in a Relocation Center in Arizona, the W.R.A. People over sixteen can only work and get paid. I am 14 years old and want to buy a model airplane but don't get paid or work so I can't buy any airplane or bonds. Can you please send me a dollar to buy a model airplane? I have nothing else to do. "Considering the short time since the school has been organized in Poston, I think that it is running rather smoothly. sincerely hope that the students will use the time here in poston profitably so that they will be able to take their place in the Post-war America."

Azusa Tsuneyoshi, hailing from San Diego, who teaches 8th grade Social Studies, attended San Diego State, majoring in Economics and History.

comments: enjoy teaching here in Foston and I think the children are cooperative and willing to learn. main desire is to МУ do my part in helping to educate the children here in Poston so that they will keep up with the students on the outside.
