Editors' Note

This international seminar on Language Maintenance and Shift II is a continuation of the previous international seminar with the same theme conducted by the Master Program in Linguistics, Diponegoro University in July 2011. We do hope that the seminar with this theme can become a yearly program of the Master Program in Linguistics, Diponegoro University, as we see that this topic still needs our serious attention due to the inevitable impact of globalization on the life of indigenous languages.

We would like to thank the seminar committee for putting together the seminar that gave rise to this collection of papers. Thanks also go to the head and secretary of the Master Program in Linguistics Diponegoro University, without whom the seminar would not have been possible.

The table of contents lists all the papers presented at the seminar. The first five papers are those presented by invited keynote speakers. They are Prof. Dr. Hanna (Balai Bahasa Provinsi Sulawesi Tenggara, Indonesia), Prof. Dr. Bambang Kaswanti Purwo (Atma Jaya Catholic University, Indonesia), Dr. Sugiyono (Language Center, Indonesia), Peter Suwarno, Ph.D (Arizona State University), and Herudjati Purwoko, Ph.D (Diponegoro University).

In terms of the topic areas, there are 33 papers on language maintenance, 24 papers on language learning, 19 paper on sociolinguistics, 15 paper on pragmatics, 8 papers on discourse analysis, 8 paper on morphology, 2 papers on syntax, 2 papers on translation, 1 papers on psycholinguistics, 1 papers on phonology, and 1 papers on semantics.

Abstrak

Language in human's using as the study has generally two scope of study; macrolinguistics, microlinguistics. Macrolinguistics as the study of language that occurs problematics of language relate to cognitive development, social interaction, and function of language. Beside microlinguistics is study of language that occurs anything rules about language structuralistically. The examples of application of macrolinguistics are pragmatics, semantics, sociolinguistics, and discourse while the applications of microlinguistics are morphology, syntax, phonology, and phonotactics. From previous explanation, language as macrolinguistics study also regard with certain domains like participants, setting, and culture. Based on the notion, the paper would concern in language use practically in a certain setting which fully considering in culture, that is like Islamic ancient boarding house or "pondok pesantren Islam salafi". In that case, there are so many style, context, and conversational structures of Islamic ancient boarding school. Specifically, there are some style which are very unique, spesific, special among people in the boarding school. The paper would investigate among conversational style used by people from boarding school by using pragmatic approach. The approach would analyze any references and deixis from the conversation. Besides, there is speech level among language users in pesantren. The level is considered by social status of language users like guardian (sesepuh/pengasuh), committee (pengurus/ santri senior), and general students (santri biasa). The reason of this classification is based on social strata which is social strata is the most important beyond the culture of pondok pesantren.

I. INTRODUCTION

Language and community are closely related and simultaneously. Community as one of domain of language also has contribution on language variety. Every situation and every language user as language domain has own characteristics that is unique. Based on Joshua Fishman (1972), language variation relates to the setting or context (who using language to whom, how, why, when, and where). The reason in about language user which consists of speaker and addressee. Different setting or situation and different user may occur different language variety such as like register and speech level. The phenomena is identically happened at multibackground society like an Islamic boarding house (*Pondok Pesantren*) (Abdurrahman Ma'ud 2004: 77). Actually, the setting or community like *Pondok Pesantren* has multibackground members come from different region. The situation may occur unique style and variety in language which is there must be common language in using especially Javanese language. The facts and phenomena reveals from the most language using in teaching learning in *Pondok Pesantren* is Javanese language (Abdurrahman Mas'ud 2004: 78).

Based on any notion above, the paper would investigate the pattern of language using in a unique setting like *Pondok Pesantren*. Because of the study language is too large, there would be limitation in investigation of the paper. The paper would investigate only for speech level and deixis/reference person obtaining in *Pondok Pesantren*. The reason is both of the elements are closely related. The existence of speech level comes from social strata or level of people in the community. Furthermore, the social strata can be investigated from the stakeholders exist by exploring the reference using in daily communication (Hadi Budiono Sutrisno 2007: 123). So, the paper would investigate phenomena above by extracting the study entitled "*Speech Level Pattern and Reference/ Deixis Based on Social Status Classification on Javanese Language Using (A Study about Tradition as Influence in Islamic Ancient Boarding School/ Pondok Pesantren Language Style)*".

II. PONDOK PESANTREN LANGUAGE USING

The paper would choose *Pondok Pesantren* because it consists of multibackground members which are integrated in monolingual language (Javanese language). The study investigated little part of daily conversation happened in the community (*Pondok Pesantren*) in Semarang. The setting is belongs to ancient boarding school because the most language in teaching and daily conversation is Javanese language although sometimes there is a code mixing in Indonesian language.

The relate stakeholders in *Pondok Pesantren* is divided into some category based on social role and social strata/level. The term "teacher" is palced as highest level while the term "students" as lowest level so that the This classification and distinguishability are consistently and distinctly applying in the students must obey the teacher in all sides of my life (Suwendi 2004: 154). Consequences, there would be spesicfic style in the conversation reveals in speech level based on social classification and social strata. The tradition of social strata in *Pondok Pesantren* is distincly applied. In depth, the figure of "yai" or "kyai" as guardian is temporarily regarded in a culture of *Pondok Pesantren*. However, it is a unique phenomena in how language level among the highest figure with the other stakeholders in the *Pondok Pesantren*.

III. DIALOGUES AS ILLUSTRATION OF SPEECH LEVEL IN THE PONDOK PESANTREN

Based on the facts and some phenomena in the *Pondok Pesantren*, with a lot of the culture and language using. The writer investigated some conversation from any stakeholders from a *Pondok Pesantren* in Semarang. According to the style and word choice used, there are some classifications generally such as follows:

a. Lowest Level (*Santri* and *Santri*) or Intimate Style

Dialogue 1

Luthfi: "*Kang Shoim ketaman asmoro karo Tika.hehehe*"

Abdul: "*sampeyan ketaman asmoro nang dapur karo Tika...siik asyik...bancaanee...*"

Shodiq: "*ayo kang..tak dukung*"

Agus: "*waduh...mas guru loving down ik...hehehe*"

Analysis: The style is included in lowest level because of some reasons. First, there are some words use in *Ngoko Lugu*, whether in Javanese it is included in lowest level at *unggah-ungguhing basa* like "sampeyan". Second, the conversation is occured between students so that the situation is very nonformal. The evidences of the notion is the existence of some unique terms like "bancaane", "hehehe", "loving down".

b. Middle Level (*Santri* and Committee/*Pengurus*)/ Casual Style

Dialogue 2

Afif : "*mugo-mugo cah sing kaya ngono diparingi pahala sing melimpah ruah.*"

Fuad : "*santri junior betahaken wejangan santri senior dan pengurus kang agar pondok ayem tentrem*"

Analysis: The style is included in casual style but the level is middle because the conversation is occured between students and committee in the *Pondok Pesantren* community. Besides, there are some words is included in *Ngoko Alus* like "diparingi", "betahaken", "wejangan".

Dialogue 3

Shoim : "*kapan lamaran nang?*"

Qodir : "*dereng kang..monggo jenengan rumiyin*"

Shoim : "*aku siap ndherekake nang lamaranmu*"

Qodir : "*nek aku ndisiki mengo mejujuk karo sesepuh to...tawadhu..monggo jenengan riyen kang...*"

Analysis: The conversation is included in middle level because there are some words is included in *Ngoko Alus/Andhap* like "dereng", "jenengan" and "ndherekake". The other reason is the actor "Shoim" utters "nang" as deixis for the younger person "Qodir" as junior is strata level.

Dialogue 4

Munir : "*Gus, nyuwun digladi...*"

Shoim : "*Saiki komplek utara wes tak gladi semua, mendingan dari yang dulu..*"

Munir : "*suwun..gus*"

Analysis: As the dialogue 3 attached, the dialogue attaches some words in *Ngoko Andhap* which shows the style is middle between the senior or the family of *Pondok Pesantren*' founder (committee and the junior)

(Some Conversations between a student and a committee at certain setting
At *Pondok Pesantren Semarang*)

c. High Level (Committee/ Pengurus and Guardian)

Dialogue 5

Yai : "bocah2 dikandhani...,saiki pinter2 rif, tapi kepekaan terhadap kondisi pesantren sangat kurang. Chief of Committee: "nggeh Yai.sendiko dhawuh"

Analysis: the conversation is highest style because there is highest level stakeholder in the conversation "Yai" which is placed as "teacher" and the highest level in the *Pondok Pesantren* community.

IV. DEIXIS PERSON IN THE *PONDOK PESANTREN*

According to the some conversation attached, there are some deixis person which used to occurred in daily conversation in the *Pondok Pesantren*. The phenomena is exist because the setting is very closely and friendly like great family (Kareal A. Steen Brink 1994: 110). The situation reveals some deixis or reference for persons in the daily conversation of *Pondok Pesantren* like such as follows:

a. Yai

The deixis "yai" is used in daily conversation as deixis or reference and placed at the highest level of reference because he is placed as *Pondok Pesantren*'s founder.

b. Gus

The deixis "gus" is used in daily conversation as deixis or reference. The position of "gus" is still high so that it regards as high level in person of deixis because it belongs to *Yai*'son.

c. Ning

Like as we know "gus"; "ning" also has high level in reference of language using in the *Pondok Pesantren* community. The reason is "ning" also is included in family of *Pondok Pesantren*'s founder as *Yai*'s daughter.

d. Kang

The term "kang" is common deixis of language using in the *Pondok Pesantren* community. It could be the lowest level of reference because the status of reference as a male common student or the community usually named as *santri*. However, there is another reference of a female common student in the *Pondok Pesantren* community as usual named as "yu".
