Balai Bahasa Jawa Tengah

Editors' Note

This international seminar on Language Maintenance and Shift II is a continuation of the previous international seminar with the same theme conducted by the Master Program in Linguistics, Diponegoro University in July 2011. We do hope that the seminar with this theme can become a yearly program of the Master Program in Linguistics, Diponegoro University, as we see that this topic still needs our serious attention due to the inevitable impact of globalization on the life of indigenous languages.

We would like to thank the seminar committee for putting together the seminar that gave rise to this collection of papers. Thanks also go to the head and secretary of the Master Program in Linguistics Diponegoro University, without whom the seminar would not have been possible.

The table of contents lists all the papers presented at the seminar. The first five papers are those presented by invited keynote speakers. They are Prof. Dr. Hanna (Balai Bahasa Provinsi Sulawesi Tenggara, Indonesia), Prof. Dr. Bambang Kaswanti Purwo (Atma Jaya Catholic University, Indonesia), Dr. Sugiyono (Language Center, Indonesia), Peter Suwarno, Ph.D (Arizona State University), and Herudjati Purwoko, Ph.D (Diponegoro University).

In terms of the topic areas, there are 33 papers on language maintenance, 24 papers on language learning, 19 paper on sociolinguistics, 15 paper on pragmatics, 8 papers on discourse analysis, 8 paper on morphology, 2 papers on syntax, 2 papers on translation, 1 papers on psycholinguistics, 1 papers on phonology, and 1 papers on semantics.

CONTENTS

Editor's note	
BAHASA DAERAH PADA ERA GLOBALISASI PELUANG DAN TANTANGANNYA <i>Hanna</i>	1
PENANGANAN BAHASA DAERAH: SEBUAH TANTANGAN <i>Sugiyono</i>	9

DESIGNING SPEAKING TEST BETWEEN RESPONSIVE TEST AND IMITATIVE TEST FOR DEVELOPING VOCABULARY COMPETENCE

Setiawan Bayu Nugroho

regaspesoli@gmail.com

Abstract

Speaking and vocabulary are basic concept in teaching learning process, a teacher should be know how to construct and designing of speaking test related to vocabulary. By imitating and responsive we can see student competence. The main point of test are to know the student competence speak up related to vocabulary item. In behavioristic theory speaking tends to age, between 0-15 divided into four item.

Key word :speaking test , vocabulary, behavioristics, comptence

Performance based involves oral production of separate items, performancebased assesment . A characteristic of many (but not all) performance-based language assessments is the presence of interactive tasks. In such cases, the assessments involve learners in actually performing the behavior that we want to measure. Brown (140) says : "speaking is a productive skill that can be directly and empirically observed, those observations are invariably colored by the accuracy and effectiveness , which necessarily compromises "rellability and validity of an oral production test.

Responsive speaking test gives involves breaif interaction with an interculator in the increased creativity given to the test takers and interaction between test takers and interviewer. Imitative speaking test gives response to the student after repeating some word. A variation on such a task prompts test-takers with a brief written, stimulus which they are to read aloud or repeat after the teacher gives some word for question and student must be response what the teacher said. Relate to the vocabulary building , speaking is practice test for measure student competence. By responsive a teacher can improve student mastery vocabulary.

RESPONSIVE SPEAKING TEST

Responsive speaking test has many kinds of form including : question and answer, giving instruction and direction, paraphrasing, and Test Of Spoken English (TSE). Its student actively in real world situation. For example about this type are in the below:

1. Question and anwer

It's helps the teacher to know student mastery ability to engage in discussion with one or mre interculators. More student creativty to answer the question is required

Ex : teacher : " where are you living
Student : "semarang"
An : "What is your favorite day of week ? (Response : My favorite because it is start of the week end)

2. Eliciting Question from Instructor

This type of test entails a student asking the teacher question.

Example : Student : " What is next chapter will discuss, sir?
Teacher : " Respond"
Student : " Really, sir, oh its wonderfull experience."

3. Giving Instruction and Direction.

This type gives instruction or direction to student in learning activity. Topic should be relevant and immediate interest to the student.

Example : " Student : " Could you please tell me sir how to put correct answer in this question ?"
Teacher : " Which one more tall a lion or giraffe ?"

4. Pharaphrasing

Pharaphrasing sentence requires student activity to listen a 4 until 6 pharagraph and next the teacher ask the student summarize 1 or 2 summary of what they just heard.

Example :

My weekend in the mountains was fabulous. The first day we backpacked into the mountains and - climbed about 2.000 feet. The hike was strenuous but exhilarating. By sunset we found these beautiful alpine lakes and made camp there.

The sunset was amazingly beautiful. The next two days we just kicked back and did little day hikes some rock climbing, bird watching, swimming, and fishing.

5. Summarize

My weekend in the mountains was fabulous. The first day we backpacked into the mountains and - climbed about 2.000 feet. The hike was strenuous but exhilarating. By sunset we found these beautiful alpine lakes and made camp there. The sunset was amazingly beautiful. The next two days we just kicked back and did little day hikes. some rock climbing, bird watching, swimming, and fishing. The hike out on the next day was really " easy-all downhill-and the scenery was incredible.

My weekend was fabulous. We climbed mountain about 2.000 feet. We saw a beautiful alpine lakes and made camp there. The sunset was beautiful.

B. Imitatives Speaking Test

Imitative speaking Test simply repeating what is being said. The only core focus in this task is pronunciation. It's to assess student pronunciation capabilities.

Brown says (144) : "An occasional phonologically focused repetition task is warranted as long as repetition tasks are not allowed to occupy a dominant role in an overall oral production assessment, and as long as you artfully avoid a negative washback effect. Such tasks range from word level to sentence level, usually with each item focusing on a specific phonological criterion. In a simple repetition task, test-takers repeat the stimulus, whether it is a pair.

Example : **1. Word repetition task**

Test-takers hear:

Repeat after me:

beat [pause] bit [pause]

bat [pause] vat [pause]

I bought a boat yesterday.

etc.

etc.

(Brown : 144)

2. Phone Pass Test

PhonePass, a widely used, commercially available speaking test in many countries. Among a number of speaking tasks on the test, repetition of sentences (of 8 to 12 words) occupies a prominent role. It is remarkable that research on the PhonePass test has supported the construct validity of its repetition tasks not just for a test-taker's phonological ability but also for discourse and overall oral production ability. The PhonePass test elicits computer-assisted oral production over a telephone test-takers read aloud, repeat sentences, say words, and answer questions (Brown : 145).
