Hum Reprod. 2012;**27**:1292–1299

The authors would like to apologise for a typing error in the discussion of this article. The total annual societal burden of endometriosis-associated

symptoms can be extrapolated to €0.8 billion in Denmark (and not €0.8 million as erroneously stated in the manuscript).

The authors would like to assure readers that this does not affect the other content or the conclusions of the article.
