Table G. 5

Table G. 6

Key:
Distractors
ind - Indefinite
def - Definite
Experimental
ind - Indefinite
one - Definite/ refer to one individual
two - Definite/ refer to both individuals
mix - mixed indefinite and definite
DIS - Discriminate on basis of physical characteristics
EPI - Discriminate by mentioning episodic information
REL - Discriminate by using relative clause to mention episodic information
SPA.- Discriminate by using spatio-temporal features

DISC - Any form of discriminative expression
Table G.7-G. 10 Picture choices, judgements, blame and listener intervention in 'physical' and 'episodic' conditions.

Table G.11
Picture choices, judgements, blame and listener intervention in 'physical' and 'episodic' conditions in all four age groups.

Key:
DISTRACTORS

```
cor - Correct (single)
do - Double referents
dx - Double referents and wrong objects
EXPERIMENTALS
cor - Correct (double)
opp - Opposite
sin - Single referent
```

There were two boys carrying a desk.
One of the boys held on with both hands.
The other boy tripped up a step.
Who dropped the desk do you think?

There were two dogs in a field.
One of the dogs was frightened.
The other dog was friendly.
Who ran away do you think?

There were two men in a car.
One of the men was reading a book.
The other man was driving.
Who put the brakes on do you think?

There were two boys at a party.
One of the boys sat on his own.
The other boy started to dance.
Who went home first do you think?

There were two ladies in a shop.
One of the ladies was buying a coat.
The other lady. was buying a cake.
Who was hungry do you think?

There were two girls at school.
One of the girls was working very hard.
The other girl went to sleep.
Who finished the sums first do you think?

Two boys were playing tennis.
One of the boys hit the ball over the net.
The other boy missed the ball.
Who had to pick the ball up do you think?

Two teachers were in the gym.
One of the teachers stretched his weak arms.
The other teacher showed off his muscles.
Who dropped the heavy weights do you think?

Two girls were buying ice-creams.
One of the girls asked for a small lolly-pop.
The other girl asked for a large cone.
Who was greedy do you think?

There were two girls eating their dinner. One of the girls started to play with her plate. The other girl cut her food with a knife and a fork. Who threw the dinner on the floor do you think?

There were two dancers in a ballroom. One of the dancers put on some ballet shoes. The other dancer was wearing some tap shoes. Who made the most noise do you think?

There were two boys swimming in the sea. One of the boys did the breast stroke.
The other boy put on a rubber ring.
Who was a good swimmer do you think?

Different/different-gender referents.
There was a boy and a girl carrying a desk.
The girl held on with both hands.
The boy tripped up a step.
Who dropped the desk do you think?

Table I. 20 Pearson correlations between discriminative and correct choice scores for the $3-5$ year old group.

Table I. 21 Pearson correlations between discriminative and correct choice scores for the 6-8 year old group.

## APPENDLX J

EXPERIMENT 10:
anaphoric reference.
DATA

Key:
Tp - situations where 'physical' discrimination required
Tq- situations where 'quantity' discrimination required
Ts - situations where 'spatio-temporal' discrimination
required

| Key: | P $\quad$ - Pronoun |
| ---: | :--- |
|  | N Full noun phrase |
|  | - No reference |

Tables J.9-J. 12 Indefinite scores as a function of the referential array.

Key:
IND - Indefinite (a/one of the...)
DEF - Definite (the / he,she,it)
Tables J.13-J. 16 Display errors and listener intervention in total and as a function of ambiguity.

Key:
C - General Comments
Q - General Questions
P - Process Questions
S - Perceptual remarks

Pronominal scores in all tour age groups.

Indefinite scores in all tour age groups.

Display errors in all four age groups.
Listener intervention in all four age groups.

Analysis-of-variance summary table showing the effects of age group on discriminative reference.
Studentised Newman-Keuls multiple range test showing the effects of age group on discriminative scores.

Analysis-of-variance looking at discriminative scores comparing age group and physical/quantity/spatial references.

Analysis-of-variance summary table showing the effects of age group on redundant references.
Studentised Newman-Keuls multiple range test showing the effects of age group on redundant scores.

Analysis-of-variance summary table looking at redundant scores comparing age group and physical/quantity/ spatial references.
Wilcoxen tests comparing
discriminative and redundant scores
for spatio-temporal' references.

Analysis-of-variance sumary table showing the effects of age group on appropriate pronoun references.
Studentised Newman-Keuls multiple range test showing the effects of age group on appropriate pronoun scores.

Analysis-of-variance summary table looking at referents in high focus comparing age group and definite article verses pronoun scores.

Analysis-of-variance summary table looking at indefinite expressions comparing age group and predicted/unpredicted indefinites.

| Table J. 34 | Kruskal-wallis test looking at the effects of age group on display errors. |
| :---: | :---: |
| Table J. 35 | Kruskal-Wallis test looking at the effects of age group on display errors that are due to ambigulty. |

Analysis-of-variance summary table showing the effects of age group on pragmatic justifications in the $-R+P$ condition.

Analysis-of-variance summary table comparing age group and message/pragmatic/none justifications in the $-R-P$ condition.

Analysis-of-variance summary table showing the effects of referential verses pragmatic justifications in the $R$ or $P$ condition.

DATA
Tables M.1-M.4 Choice of dollin all ifve conditions (varying as a function of lexical marking and plausibility).

Key:
PL - choose plausible and lexically marked referent
$P$ - choose plausible referent
L - choose lexically marked referent
0 - choose neither plausible nor lexically marked
S - choose 'somebody box'
Tables M.5-M.B Choice of doll for each trial in all five conditions.

Key:
1 - 1 st mentioned doll
2 - 2nd mentioned doll
3 - unmentioned doll
$N$ - neither
Tables M.9-M. 12 Choice totals for each subject
Key:
1 - 1st mentioned doll
2 - 2nd mentioned doll
0 - neither doll
S - someone box

Table M. 13

Table M. 14

ANALYSES
Table M. 15

Table M. 16

Table M. 17

Choice scores in all five conditions and in all four age groups.

Yes and no scores in all five conditions and in all four age groups.

Analysis-of-variance summary table comparing age group, the five experimental conditions (lexical marking and plausibility) and choice of first verses second named doll.

Analysis-of-variance summary table comparing age group, $+/-\quad$ lexical and +/- pragmatic conditions in correct choices of a doll.

Analysis-of-variance summary table comparing age group and pragmatic/ lexical/someone choices in the $L$ or $P$ condition.

Table M. 1 Choices in the $3-5$ year old group

1. Susan was watching T.V. She didn't know why Jane felt so
sad.
Was it }X\mathrm{ that didn't know?
Was }X\mathrm{ watching TV?
Was X feeling sad?
2. John was reading \(a\) book. He was happy that Peter had passed the exam.
Was it \(X\) that was happy?
Was \(X\) reading a book?
Was it \(X\) who passed the exam?
3.James was washing his face. He felt worried when Mike dried his hands.
Was it \(X\) who was feeling worried?
Was it \(X\) who was washing his face?
Was \(X\) drying his hands?
```

4.Carol was clapping her hands. She wanted to smile as

Mandy watched the clown.
Was it $X$ that wanted to smile?
Was $X$ clapping her hands?
Was $X$ watching the clown?

Unrestricted Backward Anaphora
5. Sally was at home. Before she lit the candle Lisa locked the door.
Did $X$ light the candle?
Was $X$ at home?
Did $X$ lock the door?
6.Geoff was getting into a car. As he sat down Norman looked at the picture.
Was $X$ sitting down?
Was $X$ getting into a car?
Did $X$ look at the picture?
OR
5.Janet held up a bat. After she picked up the ball. Laura stood by the net.
Did $X$ pick up the ball?
Did $X$ hold up a bat?
Did $X$ stand by the net?
6.Gordon was opening the cupboard.

While he counted the tins. Ken scratched his head.
Did $X$ count the tins?
Did $X$ open the cupboard?
Did $X$ scratch his head?
Unrestricted Forward Anaphora
7.Janet held up a bat. After Laura picked up the ball, she stood by the net.
Did $X$ stand by the net?
Did $X$ hold up a bat?
Did $x$ pick up a ball?
8. Gordon was opening the cupboard. While Ken counted the tins, he scratched his head.
Did $x$ scratch his head?
Did $X$ open the cupboard?
Did $X$ count the tins?
OR
7. Sally was at home. Before Lisa lit the candle, she locked the door.
Did $X$ lock the door?
Was $X$ riding a bike?
Did $X$ light the candle?
8.Geoff was getting into a car. As Norman looked at the picture he sat down.
Did $x$ sit down?
Was $X$ getting into a car?
Did $X$ look at the: picture?

9. She found a chair when Jane had finished her tea. Mary
was }10\mathrm{ years old.
Did X find a chair?
Did X finish her tea?
Was X }10\mathrm{ years old?
10. He felt tired as Simon fed the cat. David was drawing
a picture.
Did X feel tired?
Did X feed the cat?
Was X drawing a picture?
11. He tidied the room after Timmy drank some coffee. Fred
had a younger sister.
Did X tidy the room?
Did X drink some coffee?
Did X have a younger sister?
```

12.She swam slowly before Cindy went to the shops. Polly was going oue at 6 o'clock.
Was $x$ swimming slowly?
Did $X$ go to the shops?
Was $X$ going out at 6 o'clock?
Unrestricted Backward Anaphora
13. When she got home Susan watched the film. Linda made a cake.
Did $X$ get home?
Did X watch the film?.
Did $X$ make a cake?
14.As he cut the paper, Don looked at the door. Sammy could hear the music.
Did $X$ cut the paper?
Did $X$ look at the door?
Did $X$ hear the music?
OR
13.After she got up, Jessica opened the drawer. Sharon looked at the clock. Did $x$ get up?
Was $x$ opening the drawer?
Did $X$ look at the clock?
14.Before he stood up, Billy tapped the table. Andy mended a clock.
Did $X$ stand up?
Was $X$ tapping the table?
Was $X$ mending a clock?
Unrestricted Forward Anaphora
15.After Jessica got up, she opened the drawer. sharon looked at the clock.
Did $X$ open the drawer?
Was $X$ getting up?
Did $X$ look at the clock?
16.Before Billy stood up, he tapped the table. Andy mended a clock.
Did $x$ tap the table?
Was $X$ standing up?
Was $X$ mending a clock?
OR
15. When Susan watched the film, she got home. Linda made a cake.
Did X get home?
Did $X$ watch the film?.
Did $X$ make a cake?
16.As Don cut the paper, he looked at the door. Sammy could hear the music.
Did $X$ look at the door?
Did $x$ cut the paper?
Did $X$ hear the music?

Tables P.10-P.11 Analysis-of-variance summary tables comparing presentation form (questionnaire, verbal) and type of relative (that, who, which, none) for 'with' stories.

Tables P.12-P.13 Analysis-of-variance summary tables
comparing semantic context (two,one). pragmatic context (P,N), presentation form (questionnaire, verbal) and relative/non-relative completions for 'that' stories.
A. RELATIVE SUPPORTING CONTEXT (2 AVAILABLE REFERENTS). NEUTRAL PRAGMATICS
That stories
Jane had lost her mummy at the fair.
By the gate, a man was selling sandwiches and another man was selling balloons.
Jane said to the man that......

David kept the football in his room.
One brother was looking for it in the garage and his other brother was looking for it in the shed.
David showed the brother that..........
A headmaster was praising somebody for getting ten out of ten.
One of the pupils was sitting by the window and another pupil was sitting by the door.
The headmaster told the pupil that..............
Mary found a gold ring.
Over the road a lady was wearing a hat and another lady was wearing a scarf.
Mary told the lady that...........
Mr Smith knew that the cinema was next to the town hall. A man was on his way to see a pantomime and another man was on his way to see a show.
Mr. Smith showed the man that....................
Paul scored a goal.
One of his brothers liked T.V and another of his brothers liked reading.
Paul told the brother that...........
Peter was excited that he had passed the exam.
One friend was walking the dog and another friend was playing with a ball.
Peter told the friend that..........
Linda was lonely.
One of her friends was playing outside and another friend was playing indoors.
Linda told the friend that........
With stories
WHO CONTEXT RELATIVE
The hairdresser was holding a hairdryer and a brush.
She saw a lady who had curlers in her hair and a
lady who had colour in her hair.
The hairdresser dryed the hair of the lady with.......
A doctor held some scissors and some plasters.
He saw a lady who had a cut leg a lady who had a cut arm. The doctor covered over the cut for the lady with.

```
WHICH CONTEXT RELATIVE
Lisa had some drumsticks and a flute.
She found a tin which had a black lid on it and she
found another tin which had a red lid on it.
She banged hard on the tin with............
```

Jack picked up a cloth and vase.
He had a table which had crumbs on it and another table
which had chocolate on it.
Jack cleaned the table with.
THAT CONTEXT RELATIVE
A fireman was holding a hose and a bucket.
There was one house that had a garage and another house
that had two chimneys.
The fireman put out the fire coming from the house with....
Mr Bigfoot was very clumsy.
He saw a bird that had a red tail and a bird that had a
brown tail.
The man accidently trod on the bird with.

NO CONTEXT RELATIVE
A lady picked up a pen and a ruler.
She had a stripy pad and a spotty pad.
She wrote on the pad with..............

A boy was just given his pocket money and a comic. He saw a big-earred dog and a floppy-eared dog.
The boy bought the dog with..............

## PLAUSIBLE INFERENCE

## That stories

Peter won a prize.
He saw one of his grumpy cousins and also his friendly cousin.
Peter told the cousin that..............
A policeman wanted all drivers to stop.
A car was whizzing along the road and another car was parking.
The policeman shouted to the car that..................
Susan knew that the party was at 7 pm .
A friend was ill in bed and another friend asked Susan the time of the party.
Susan told the friend that.............
A farmer had just planted some vegetables.
One of his pigs was tredding on his carrots and another pig was asleep.
The farmer shouted to the pig that

A nurse was telling patients that she wanted to make the beds.
One of the patients was in the bathroom and another paitient was asleep.
The nurse told the patient that
A teacher wanted somebody in the class to be quiet. In the class, a girl was writing and a girl was messing about.
The teacher warned the girl that..................
A lady had just made the tea.
One of her sons was at home and her other son was in Australia.
The lady told her son that..............
Betty wanted somebody to partner her in a game of tennis. She saw a boy at the tennis club and another boy at the swimming club.
Betty told the boy that $\qquad$
With stories
WHO RELATIVE
Katy held a sponge and a towel.
She had a son who had a wet face and another son who had a dry face.

Judy held a blanket and a book.
She had a child who slept soundly and another child who had the flu.
Judy covered over the child with.
WHICH RELATIVE
Daniel held a pen and some scissors.
He had a book which had stories in it and a book which had cut-outs in it.
Daniel cut pieces out of the book with...............
A man had a spoon and a knife.
He saw a dish which had ice-cream in it and a dish which had nothing in it.
He ate from the dish with
THAT RELATIVE
A girl carried some scissors and some glue.
She had a box that had a broken lid and box that had a good lid.
She mended the box with

Tom was holding a comb and some shampoo.
He had a dog that had dirty hair and a dog that had clean hair.
Tom washed the dog with

NO RELATIVE
A man was carrying a football.
He saw a field covered in grass and a field full of hay.
He played on the field with
A barber was holding a comb and some scissors.
A bald man and a curly headed man came into the shop.
The barber cut the hair of the man with.........
