Preface

Catalytic Science and Technology in Sustainable Energy II

This special issue of Catalysis Today results from four sessions, under the collective theme "Catalysis in Sustainable Energy", of the 2nd International Symposium on Catalytic Science and Technology in Sustainable Energy and Environment, held in Tianjin, China during October 12-14, 2016. This biennial symposium offers an international forum for discussing and sharing the cutting-edge researches and the most recent breakthroughs in energy and environmental technologies based on catalysis principles.

Included in this special issue are 36 invited contributions, which is a noticeable expansion as compared with the 29 contributions published two years ago in the previous special issue of Catalysis Today under the same title "Catalytic Science and Technology in Sustainable Energy".

We gratefully acknowledge all the authors and reviewers of the manuscripts and the editorial team of Elsevier, without whom the special issue would not have been possible. As the organizer of the EECAT 2016, Y Li expresses his special gratitude to the sponsors, especially Haldor Topsoe and Synfuels China, the participants and the co-organizers for their great contribution to the success of EECAT 2016.

Guest editors

Yuxin Wang, Professor

Chemical Engineering Research Center, Tianjin University, Tianjin 300072, China

Feng-Shou Xiao, Professor

Department of Chemistry, Zhejiang University, Tianmushan Road 148, Hangzhou 310028, China

Kulathu K. Seshan, Professor

Catalytic Processes & Materials, Faculty of Science & Technology, University of Twente, ME-361, 7500AE, Enschede, The Netherlands

Anker Degn Jensen, Professor

Technical University of Denmark, Department of Chemical and Biochemical Engineering, Søltofts Plads, Bygning 229, 2800 Kgs. Lyngby, Denmark

Yongdan Li, Professor

C 407, Tianjin – Nankai Collaboration Building, 92 Weijing Road, School of Chemical Engineering, Tianjin University, Tianjin 300072, China

Department of Chemical and Metallurgical Engineering, School of Chemical Engineering, Aalto University, Kemistintie 1 Espoo P.O. Box 16100, FI-00076

Aalto, Finland
