Brief 68-10392

NASA TECH BRIEF

NASA Tech Briefs are issued to summarize specific innovations derived from the U.S. space program, to encourage their commercial application. Copies are available to the public at 15 cents each from the Clearinghouse for Federal Scientific and Technical Information, Springfield, Virginia 22151.

Contamination Control Handbook

A *Contamination Control Handbook* assembles in one source technical information which may be useful to persons faced with the responsibility of avoiding the introduction of contaminants (any undesirable materials, organisms, or radiation) into physical, chemical, or biological systems or products. The handbook includes the following sections:

1. Introduction to Contamination Control
2. Contamination Control in Product Design
3. Control of Surface Contamination
4. Contamination Control in Gases and Liquids
5. Control of Airborne Contamination
6. Microbial Contamination and Its Control
7. Radiation
8. Packaging
9. Handling and Storage
10. Personnel (Selection, Training, Hygiene, Regulations)
11. Glossary

Note:

Copies of the Handbook may be obtained from:
Technology Utilization Officer
Marshall Space Flight Center
Huntsville, Alabama 35812
Reference: B68-10392

Patent status:

No patent action is contemplated by NASA.
