

NASA TECH BRIEF

Marshall Space Flight Center

NASA Tech Briefs announce new technology derived from the U.S. space program. They are issued to encourage commercial application. Tech Briefs are available on a subscription basis from the National Technical Information Service, Springfield, Virginia 22151. Requests for individual copies or questions relating to the Tech Brief program may be directed to the Technology Utilization Office, NASA, Code KT, Washington, D.C. 20546.

Instruction Manuals for Radiographic Nondestructive Testing

Six new handbooks on the fundamentals of non-destructive test techniques supply recent information for instructing inspectors and technicians, and can be used effectively in shops or laboratories, technical schools, or home study programs. The six handbooks are as follows:

NASA-CR-61212: Nondestructive Testing Radiography, Origin and Nature of Radiation

NASA-CR-61213: Nondestructive Testing Radiography, Radiation Safety

NASA-CR-61214: Nondestructive Testing Radiography, Radiographic Equipment

NASA-CR-61215: Nondestructive Testing Radiography, Making a Radiograph

NASA-CR-61216: Nondestructive Testing Radiography, Film Handling and Processing

NASA-CR-61231: Radiographic Testing.

Notes:

1. The documents listed are available at:
National Technical Information Service
Springfield, Virginia 22151
Single document price \$3.00
(or microfiche \$0.95)
2. Handbooks concerning other types of nondestructive testing are described in the following NASA Tech Briefs: B67-10374 (Eddy Currents); B68-10391 (Magnetic Particles); B69-10108 (Ultrasonics); and B69-10278 (Liquid Penetrants).

Patent status:

No patent action is contemplated by NASA.
