

## Title:

Data Serving Climate Simulation Science at the NASA Center for Climate Simulation

## Author:

Ellen M. Salmon, NASA GSFC Code 606.2 Ellen.M.Salmon@nasa.gov

## Abstract:

The NASA Center for Climate Simulation (NCCS) provides high performance computational resources, a multi-petabyte archive, and data services in support of climate simulation research and other NASA-sponsored science. This talk describes the NCCS's data-centric architecture and processing, which are evolving in anticipation of researchers' growing requirements for higher resolution simulations and increased data sharing among NCCS users and the external science community.

## Conference:

MSSTC 2011: the 27<sup>th</sup> Symposium on Massive Storage Systems and Technologies May 23-27, 2011 Denver, Colorado

Conference Sponsor: IEEE Computer Society
