# TABLE OF CONTENTS

## Volume 1

### CHAPTER 1 - INTERNAL FRP REINFORCED CONCRETE STRUCTURES

**SP-275-01:** On the History and Reliability of the Flexural Strength of FRP Reinforced Concrete Members in ACI 440.1R

C. K. Shield, T. V. Galambos, P. Gulbrandsen .......................... 1

**SP-275-02:** Shear Capacity of Concrete Beams with FRP Reinforcement

J. Hegger, M. Kurth .......................................................... 19

**SP-275-03:** Designing FRP Reinforced Concrete for Deflection Control

S. Veysey, P. H. Bischoff .................................................. 33

**SP-275-04:** Flexural Strength and Deflection Characteristics of High-Strength Concrete Beams with Having Hybrid FRP and Steel Bar Reinforcement

Y. Yoon, J. Yang, K. Min, H. Shin ................................. 57

**SP-275-05:** Static Testing of Full-Scale Concrete Bridge Barriers Reinforced with GFRP Bars

E. A. Ahmed, B. Bennmokrane ...................................... 79

**SP-275-06:** Development Length of Carbon Fiber Reinforced Polymer Bars in Concrete

S. Krem, K. Soudki .......................................................... 99

### CHAPTER 2 - STRENGTHENING OF REINFORCED CONCRETE COLUMNS

**SP-275-07:** Investigation of Bar Buckling in Columns Confined with Composite Material Jackets

D. A. Bournas, T. C. Triantafillou ........................................ 117

**SP-275-08:** Confinement Model for Capsule-Shaped Concrete Columns

K. H. Tan, T. Bhowmik .................................................. 135

**SP-275-09:** Strain Development and Hoop Strain Efficiency in FRP Confined Square Columns

J. Barrington, D. Dickson, L. Bisby, T. Stratford ............................. 147

**SP-275-10:** Volumetric Response of FRP-Confined Full-Scale RC Columns

A. De Luca, F. Nardone, F. Matta, G. P. Lignola, A. Prota, A. Nanni .......................... 167

**SP-275-11:** Behavior of Concrete Piles Confined with CFRP Grid

**SP-275-12:** An Ultimate Drift Based Design Method for FRP Retrofitted RC Columns

O. Özcanc, B. Binici, G. Özccebe ........................................... 207

### CHAPTER 3 - CHARACTERIZATION OF FRP MATERIALS AND SYSTEMS

**SP-275-13:** Experimental Investigation of HFRP Composite Beams

H. Matsuyoshi, N. D. Hai, K. Shiroki, T. Aravinthan, A. Manalo .......................... 219

**SP-275-14:** Non-Contact Measuring Techniques To Characterize Deformation on FRP Uwrap Anchors

J. Lee, M. M. Lopez .................................................. 245

**SP-275-15:** Preliminary Evaluation of Slurry Waterproofing Materials on FRP Durability

K. J. Von Feldt, C. W. Dolan ........................................... 259

**SP-275-16:** Discrete Fiber Reinforced Polymer Systems for Repair of Concrete Structures: Polyurea-Fiber Characterization Results

N. L. Carey, J. J. Myers .................................................. 275

**SP-275-17:** Grancrete for Flexural Strengthening of Concrete Structures

A. J. Obregon-Salinas, S. H. Rizkalla, P. Zia .......................... 289

**SP-275-18:** Characterization of FRP as an Oxygen Barrier

C. Khoe, R. Sen, V. Bhethanabotla ........................................... 301
Committees

SCIENTIFIC STEERING COMMITTEE

- J. Barros, Portugal
- C. Burgoyne, UK
- J. Chen, UK
- M. El-Badry, Canada
- P. Hamelin, France
- G. Manfredi, Italy
- G. Melo, Brazil
- J. Mieres, Spain
- G. Monti, Italy
- A. Nanni, USA
- K. Neale, Canada
- D. Oehlers, Australia
- S. Pantazopoulou, Greece
- S. Rizkalla, USA
- R. Sen, USA
- R. Seracino, USA
- C. Shield, USA
- J. Sim, Korea
- L. Taerwe, Belgium
- K. Hwee Tan, Singapore
- J. Teng, China
- T. Triantafillou, Greece
- T. Ueda, Japan
- Z. Wu, Japan

LETTERS OF INTENT

- Submit the paper title, a ONE sentence description, and authors’ names, affiliations, address, phone, email by Mar 5, 2010 to:
  
  frprcs10@eng.usf.edu

  Titles and descriptions will be reviewed to ensure the material is consistent with the conference. Authors are notified via email if their topic is appropriate for inclusion in FRPRCS-10. Acceptance of the letter of intent does not constitute acceptance of the paper. Presentations are limited to one per presenter.

PAPER SUBMISSION

- Upon acceptance of the topic, authors are provided paper preparation instructions. Submission of a paper implies a commitment by the author to present the paper at
the conference, if accepted. All papers will be peer reviewed per ACI guidelines for inclusion in the conference proceedings (ACI-SP), available at the conference. Presentation of the paper at the conference is contingent on publication of the paper in the proceedings.
