ABSTRACT

The objective of this thesis is to develop BiNus International Operation Support System’s Portal and Profiling System. This system tries to solve the problems the staffs currently have regarding the scheduling and preparing of the next commencing semesters for the students of International Undergraduate Program (IUP) of Bina Nusantara University. The development of the system is undertaken by two teams. Our team is dealing with the User Interface and the profiling system, one subsystem of the entire system. Fundamentally, our job is to create a portal that acts as a single interface to the system, accommodating different types of staffs to access and perform their tasks regarding scheduling and semester preparation. The other team deals with the Business Logic part of the system. The overall result of the system implementation is good. The system meets all of the users’ requirements and to some extent, even over the users’ expectations, although some additional fixing and enhancement need to be done. From the results we have, we are confident that the system can be implemented in the Joseph Wibowo Center (JWC) of Bina Nusantara University and can really replace the current system of scheduling and semester preparation.

Keywords

Preface

This thesis is the final academic requirement of students of International Undergraduate Program to graduate and obtain the bachelor degree. We are very proud of the hard work we have put in into the development of the system and the writing of the thesis as well.

Nevertheless, there are a lot of parties, individuals and groups, who have supported and contributed so much for the thesis to be completed successfully. To those parties we mentioned below, we thank you.

1) The late Mrs. Dr. Ir. Theresia Widia Soerjaningsih, M.M., as the Rector of Bina Nusantara University;
2) Mr. Firdaus Alamsjah, Ph.D., as the Executive Director of Joseph Wibowo Center of Bina Nusantara University;
3) Mr. Abi Jabar, M.B.A, as the Program Director of International Undergraduate Program of Bina Nusantara University;
4) Mr. Ir. Tri A. Budiono, M.I.T., as the Program Manager of Computer Science International Undergraduate Program;
5) Mr. Andreas Utomo Kuswara, S.T., S.Kom., M.M., M.Comm., as our thesis supervisor;
6) Mr. Baharuddin Suryadi, S.Kom., M.M., as the Manager of Information Technology Support at Joseph Wibowo Center;
7) All the operational staffs of Bina Nusantara University at Joseph Wibowo Center who have been the interviewees and testers for the thesis;
8) Our colleagues in the other team who have developed the system together with our team;
9) All the lecturers who have taught us the knowledge;
10) Our families and friends who have supported us in completing the thesis; and
11) All parties, whose names we have not mentioned here, who have been a great help throughout the development of the thesis.

We are very aware that this thesis is not perfect. Thus, we generously accept every critics and suggestions given to us.
