2014SGR27
Why?

Need for a central, well-structured repository in order to promote a fruitful management of the knowledge produced in/on media accessibility

Give visibility to media accessibility
Timeline

• March 2016: MAP design
• April 2016-October 2016: technical development of MAP platform (Drupal 8.2 as CMS, relational database based on MySQL 5.6)
• November 2016: presentation in L&M and NEM. Call for testing contributors
• Since December: testing the platform and filling it with information
Welcome to MAP, the Media Accessibility Platform, a unified atlas charting the worldwide landscape of research, policies, training, and practices in this field. MAP aims to make media accessible to all, regardless of sensory or linguistic barriers.

---

**News**  First official presentation of the Media Accessibility Platform

The first official presentation of the beta version of the Media Accessibility Platform will be at the 11th Languages and the Media Conference.
The Accessometer provides an actual map of all the legislation, standards and guidelines on MA at both international and national levels, organised by countries.
MAP: The Accessometer

Specific maps

Blue = at least one legislation or standard or guideline.

Pink = no legislation or no standards or no guidelines.

Grey = no information.
MAP: the future

• Inputting more data (thanks Fátima Parejo, Jara Duro, Mercedes Martínez, Irene de Higes, Marimar Rufino, Sofía Sánchez): now we have about 300 entries (plus 500 to be validated).

• Version in five languages: English, Spanish, Italian, Polish, German.
