1 RINGKASAN PROPOSAL

Kebutuhan akan sistem informasi pengelolaan air tanah di Kota Bandung sudah sangat mendesak. Pemompaan air tanah yang terus-menerus tanpa batasan yang jelas memperburuk kondisi tersebut. Saat ini aplikasi pengelolaan air tanah di Badan Pengelola Lingkungan Hidup Kota Bandung masih sangat terbatas. Aplikasi pemantauan muka air tanah dan perhitungan pajak air tanah telah dijalankan, tetapi belum terintegrasi dalam satu sistem informasi pengelolaan air tanah. Untuk itu tim mengusulkan program penelitian skema ipteks ini untuk membantu lembaga tersebut serta lembaga lain yang terkait agar dapat memiliki dan mengoperasikan sistem informasi agar dapat mengelola air tanah secara lebih berkelanjutan.

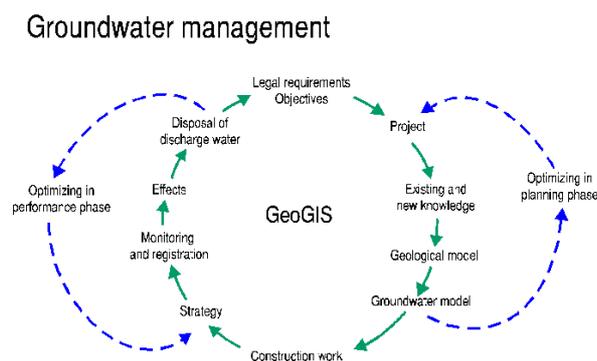

Saat ini kab/kota di Indonesia masih belum memiliki standar baku sisfo pengelolaan air tanah yang sesuai dengan prinsip pengelolaan lingkungan keberlanjutan. Untuk itu prototip hasil penelitian ini dapat memiliki dampak yang sangat luas.

2 PENDAHULUAN

2.1 Latar belakang masalah

Saat ini pengelolaan air tanah dilaksanakan umumnya secara manual. Pendataan para pemilik ijin sumur, pengukuran muka air tanah, perhitungan potensi air tanah, serta perhitungan pajak air tanah, seringkali dilakukan secara manual. Para lembaga pengelola mengandalkan spreadsheet dan database sederhana dalam memantau jumlah pengambilan air tanah.

Badan Pengelola Lingkungan Hidup Kota Bandung, selangkah lebih maju dengan telah membangun sistem informasi pemantauan pajak air tanah, dan pemantauan muka air tanah. Namun dua modul aplikasi tersebut belum terkoneksi, sehingga masing-masing memerlukan entry data sendiri, yang rawan kesalahan. Salah satu benchmark adalah situs pengelolaan air tanah pemerintah Victoria di Australia, via tautan berikut http://www.vvg.org.au/cb_pages/disclaimer.php. Dalam website tersebut tersedia aplikasi yang secara online memvisualkan sistem akuifer, posisi dan spesifikasi pemboran, posisi muka air tanah, serta secara offline (karena berkaitan dengan privacy) pengambilan air tanah. Aplikasi yang dihasilkan berformat spasial dengan memanfaatkan teknologi *Geographical Information System* (GIS). Menurut Moller dan Markussen (1997), siklus pengelolaan air tanah dapat dilihat pada Gambar 1.

Gambar 1 Groundwater management cycle (Moller and Markussen, 1997)

2.2 Tujuan riset

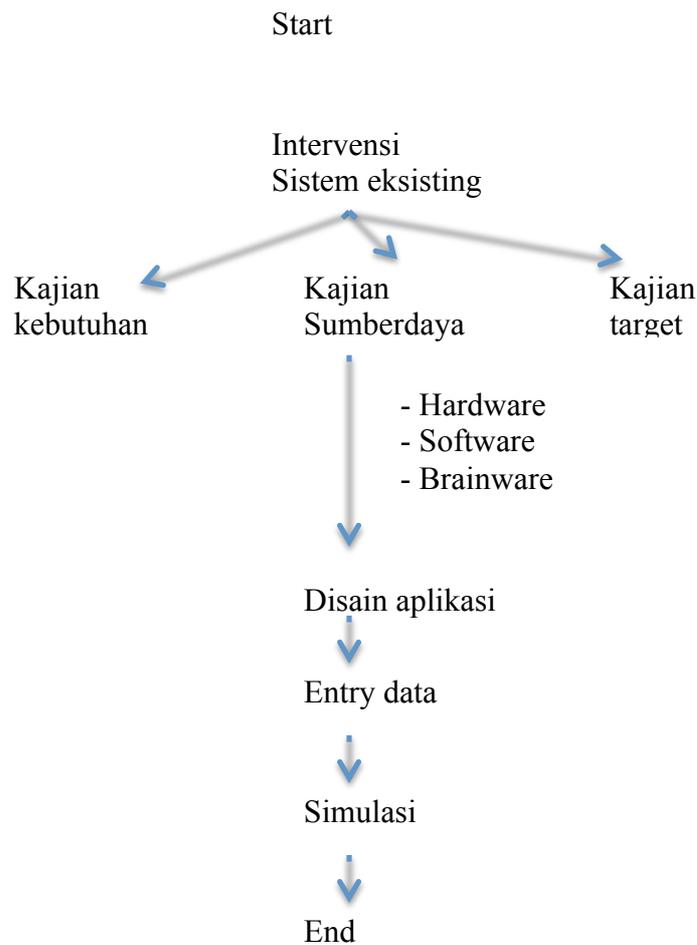

Tujuan riset ini adalah:

1. Menyusun sistem pengelolaan air tanah
2. Mendisain aplikasi sistem informasi pengelolaan air tanah

3 METODOLOGI

Metode penelitian diawali dengan kegiatan analisis kondisi sistem eksisting. Ini terdiri dari kajian kebutuhan BPLH Kota Bandung, kajian sumberdaya yang tersedia (meliputi hardware, software, brainware). Selain itu tim juga akan mempelajari target kerja untuk BPLH, sesuai dengan amanat dari Walikota dan DPRD, misalnya target PAD dari pajak air tanah, dll.

Berdasarkan hasil kajian tersebut, tim mulai mendisain aplikasi. Disain ini akan selalu dikonsultasikan dengan pimpinan dan counterpart dari BPLH. Setelah disain dinilai cukup, maka tahap berikutnya adalah ujicoba entry data dan simulasi aplikasi. Proses ini bersifat iteratif. Seluruh aplikasi pada akhirnya akan di-*hosting* secara *online*. Skema selengkapnya dapat dilihat pada Gambar 2.

EMPLOYMENT HISTORY

Work Experience

Academic-Teaching

- 2007–now Full Time Lecturer/Researcher, Research Division on Applied Geology, Faculty of Earth Sciences and Technology, ITB>
Undergraduate courses: General Hydrogeology
Master courses: Groundwater Geology, Groundwater Investigation Method, Research Methodology
- 2005–2007 Academic Assistant, Research Division on Applied Geology, Faculty of Earth Sciences and Mineral Technology, ITB
- 2001–2008 Lecturer, Department of Geology, Institut Teknologi dan Sains Bandung (ITSB)
- 1998–2005 Research assistant, Laboratory of Hydrogeology, Department of Geology, Faculty of Earth Sciences and Mineral Technology, ITB

Academic-Managerial Experience

- Mar 2015-now Secretary of ITB Management Board for Business Units and Endowment Fund
- Mar-Dec 2015 Member of ITB otonomy preparation team
- 2014-Dec 2014 Member of accreditation team for Geology undergrad program
- 2014-Dec 2014 Member of accreditation team for Groundwater Engineering master program
- 2013 Member of Independent Reviewer Team for Regional Planning Program Competition, Employer: West Java Province Board of Regional Planning and Development (Prof.Dr. Deny Juanda Puradimaja)
- 2012-now Member of Action Research on Human Resources Development, Employer: West Java Province Board of Regional Planning and Development (Prof.Dr. Deny Juanda Puradimaja)
- 2012-Feb '14 Secretary of Board of Commercial Unit ITB
- 2012 Manager of Collaboration Affairs, Faculty of Earth Sciences and Technology, ITB.
- 2012 Member of Curriculum Evaluation Team, Department of Geologi (Undergraduate Program), ITB.
- 2012 Member of Curriculum Evaluation Team, Department of Groundwater Engineering (Master Program), ITB.
- 2012 Member of Matriculation Team for 1st Year Students, Faculty of Earth Sciences and Technology, Department of Geologi (Undergraduate Program).
- 2010-now Coordinator for undergraduate thesis seminar, Department of Geology, Faculty of Earth Sciences and Technology, ITB.
- 2007-2010 General affairs coordinator, Faculty of Earth Sciences and Technology, ITB.
- 2010 Member of Accreditation Team, Department of Groundwater Engineering, Faculty of Earth Sciences and Technology, ITB.
- 2009 Member of Accreditation Team, Department of Geology (Undergraduate Program), Faculty of Earth Sciences and Technology, ITB.
- 2009 Member of Accreditation Team, Department of Geology (Master Program), Faculty of Earth Sciences and Technology, ITB.
- 2008-now Member of West Java Province Regional Planning Committee, Employer: West Java Province Board of Regional Planning and Development (Prof.Dr. Deny Juanda Puradimaja)
- 2007 Member of Curriculum Team, Department of Groundwater Engineering, Faculty of Earth Sciences and Mineral Technology, ITB.
- 2006 Member of Initiator Team, Department of Groundwater Engineering, Faculty of Earth Sciences and Mineral Technology, ITB.
- 2005-now Students Recruitment Committee, Faculty of Earth Sciences and Technology, ITB.
- 2005-now Member of Board of Reviewers for Competitive Grant, organized by the Government of West Java Province, Team leader: Dr. Ichary Sukirno
- 2003-2005 Project coordinator, Vice Rector Office for Resources, ITB.
- 2002-2003 Project coordinator, The Foundation for Research and Industry Affiliation, ITB.
- 2000-2004 Project coordinator, Board of Reviewers, Directorate General of Higher Education, Ministry of National Education.
