

How? Invite the researcher in!

- Early career researchers (PhD/postdoc)
- KB Data
 - 1 million newspapers, books and journals
 - Parliamentary papers
 - Radio bulletins
 - Dutch Web archive

The Researcher-in-Residence at the KB

- KB Research Lab
- Short projects (3-6 months) funded by KB
- Support from Digital Humanities team
 - Data experts
 - Content experts
 - Programmers

Evaluation / lessons learned

Make the selection process transparent

- Call for proposals!
- Selection committee?
- Guide the proposals?
- Decide on a topic or data set?

Planning and support

- Overlap between researchers is good, but not too much!
- Welcome programmers with more expertise & learn from them

Promotion

- Publish call for proposals with a lot of noise
- Organise a public event per researcher

Dr. Samuël Kruizinga
Dr. Jiyin He
University of Amsterdam

Public memory of World War I in the Netherlands

How do you research the use and change of public memories over time in digitised newspapers?

Result:

Experimental search interface for newspapers

Dr. Pim Huijnen
Utrecht University

The language of Taylorism in public discourse

How do you take the step from searching for words to searching for concepts?

Result:

Tool for diachronic analysis of ambiguous concepts

Dr. Martijn Kleppe
Dr. Desmond Elliott
Erasmus University & CWI

Photos in and out of context (PhoCon)

What is the best way to search for reuse of photos in digitised material?

Result:

Demonstrator for image searching
