COSTS OF AVIAN INCUBATION

HOW FITNESS, ENERGETICS AND BEHAVIOUR IMPINGE
ON THE EVOLUTION OF CLUTCH SIZE

The research reported in this thesis was carried out at the Animal Ecology Group, which is part of the Centre for Ecological and Evolutionary Studies of the University of Groningen. The research was supported by a grant from the Netherlands Organisation for Scientific Research – Earth and Life Sciences (NWO-ALW 810.43.009) to J.M. Tinbergen. Production of this thesis was partly funded by the University of Groningen and the Centre for Ecological and Evolutionary Studies.

Cover design: Maaïke de Heij
Cover layout: Marc Kamsteeg & Dick Visser
Pictures: Cover pictures made during the breeding season in 2002 & 2003, picture on page 20 made by P. Korsten, picture on page 92 & 110 made by J.M. Tinbergen, picture on page 124 made by Thijs van Overveld
Thesis layout: Dick Visser
Printed by: Ponsen & Looijen bv., Wageningen, The Netherlands

RIJKSUNIVERSITEIT GRONINGEN

COSTS OF AVIAN INCUBATION
HOW FITNESS, ENERGETICS AND BEHAVIOUR IMPINGE
ON THE EVOLUTION OF CLUTCH SIZE

PROEFSCHRIFT

ter verkrijging van het doctoraat in de
Wiskunde en Natuurwetenschappen
aan de Rijksuniversiteit Groningen
op gezag van de
Rector Magnificus, dr. F. Zwarts,
in het openbaar te verdedigen op
vrijdag 10 november 2006
om 14.45 uur

door

Maaïke Elisabeth de Heij

geboren op 25 juli 1977
te Harderwijk

Promotores: Prof. Dr. J.M. Tinbergen
Prof. Dr. R.H. Drent

Beoordelingscommissie: Prof. Dr. M.E. Visser
Prof. Dr. D.M. Bryant
Prof. Dr. P. Monaghan

Voor de wetenschap

Contents

Chapter 1	General introduction	9
Part I Fitness consequences		
Chapter 2	Fitness costs of incubation in great tits (<i>Parus major</i>) is related to clutch size	21
Chapter 3	Offspring performance is negatively affected by clutch enlargement during incubation	37
Chapter 4	Selection on clutch size and laying date in a great tit population: Fitness effects of natural versus experimental variation	55
Part II Energetic and behavioural costs		
Chapter 5	Great tits with thin nests delay the onset of full incubation	81
Chapter 6	Metabolic rate of nocturnal incubation in female great tits <i>Parus major</i> in relation to clutch size measured in the natural environment	93
Chapter 7	No indication for clutch size related daily energy expenditure during incubation in female great tits: do parents compensate?	111
Chapter 8	The energetic cost of foraging versus incubation in female great tits <i>Parus major</i>	125
Chapter 9	General discussion	139
