

# **THE PILOCYTIC ASTROCYTOMA**

IMMUNOHISTOCHEMICAL AND GENETIC STUDIES  
IN RELATION TO TUMOR BEHAVIOR

Promotiecommissie: Prof. Dr. H.A.M. van Alphen  
Prof. Dr. W.A. Kamps  
Prof. Dr. P. Van der Valk

Paranimfen: Rob Groen  
Eelco Hoving

Dirven, C.M.F.

The pilocytic astrocytoma, immunohistochemical and genetic studies in relation to tumor behavior.  
Thesis Rijksuniversiteit Groningen - With a summary in Dutch.

ISBN 90 367 0915 6

NUGI 743

Printed by Thesis Publishers, Amsterdam, The Netherlands.

This investigation was performed at the following institutions:

Department of pathology and department of neurosurgery of the Groningen Academical Hospital;  
department of medical genetics of the University of Groningen and the Molecular Neuro-Oncology  
Laboratory, Harvard Medical School, Boston, U.S.A.

Financial support was given by: J. de Cock Stichting, Promedics Medical Systems.

## CONTENTS

Chapter 1	1
Introduction and purpose of this thesis.	
Chapter 2	12
The cerebellar pilocytic astrocytoma: A treatment protocol based upon analysis of 73 cases and a review of the literature. <i>Child's Nerv Syst 13: 17-23, 1997.</i>	
Chapter 3	26
Introduction to the methods used for studying the biological behavior of pilocytic astrocytomas.	
- AgNOR staining	27
- Ki-67 and MIB-1 labeling	39
- The <i>TP53</i> gene and p53 protein	44
- The <i>NF1</i> gene	52
Chapter 4	68
AgNOR staining may reflect the growth potential of pilocytic astrocytomas. <i>Submitted for publication.</i>	
Chapter 5	78
The proliferative potential of the pilocytic astrocytoma: the relation between MIB-1 labeling and clinical and neuro-radiological follow-up. <i>J Neuro-Oncol 37: 9-16, 1998.</i>	
Chapter 6	90
<i>TP53</i> is involved in pilocytic astrocytomas but has no relation to tumor behavior. <i>In progress for publication.</i>	
Chapter 7	104
Up-regulation of specific <i>NF1</i> gene transcripts in sporadic pilocytic astrocytomas. <i>Am J Pathol 149: 621-627, 1996.</i>	
Chapter 8	114
General discussion and conclusions.	
Chapter 9	125
Summary.	
Samenvatting
