Lisette van der Meer

Zo is de taal een kromme stok, maar ook een stok
die slaat, een net met veel te grove mazen, maar
een net dat vangt, het niezen van een blonde zangeres.

En wat het mooiste is: de taal laat ons
steeds weten dat het einde in ons meeleeft.
Meer moet dat eigenlijk toch ook niet zijn.

Uit 'Meer moet dat niet zijn' van Anton Korteweg, in *Voortgangsverslag*, Amsterdam,
Meulenhoff 2005

The studies described in this thesis were performed at the NeuroImaging Center of the University Medical Center Groningen and University of Groningen; section Cognitive Neuropsychiatry within the Graduate School of Behavioral and Cognitive Neurosciences.

The research reported in this thesis was supported by a grant (no 400-04-333) from the Dutch Organization for Scientific Research (NWO).

Financial support for the publication of this thesis was provided by:

- Danica Nederland
- The Jurriaanse Stichting
- The Graduate School of Behavioral and Cognitive Neurosciences (BCN)
- The University of Groningen (RuG) and the medical faculty of the RuG
