microfluidics to study drug metabolism and
toxicity using liver and intestinal tissue**

Paul van Midwoud

RIJKSUNIVERSITEIT GRONINGEN

**An Alternative Approach Based on Microfluidics to Study Drug
Metabolism and Toxicity Using Liver and Intestinal Tissue**

Proefschrift

ter verkrijging van het doctoraat in de
Wiskunde en Natuurwetenschappen
aan de Rijksuniversiteit Groningen
op gezag van de
Rector Magnificus, dr. F. Zwarts,
in het openbaar te verdedigen op
vrijdag 26 november 2010
om 14.45 uur

door

Paul Marcel van Midwoud
geboren op 18 juli 1983
te Hoogeveen

Promotores:

Prof. dr. G.M.M. Groothuis
Prof. dr. E.M.J. Verpoorte

Beoordelingscommissie:

Prof. dr. R.P.H. Bischoff
Prof. dr. B.J. Blaauboer
Prof. dr. S. Takayama

Table of contents

| | | |
|------------------|--|------------|
| Chapter 1 | Introduction: Scope of the thesis | 7 |
| Chapter 2 | Microfluidic devices for <i>in vitro</i> studies on liver drug metabolism and toxicity | 17 |
| Chapter 3 | Microfluidic biochip for the perfusion of precision-cut rat liver slices for metabolism and toxicology studies | 45 |
| Chapter 4 | On-line HPLC analysis system for metabolism and inhibition studies in precision-cut liver slices | 65 |
| Chapter 5 | Hydrogel embedding of precision-cut liver slices in a microfluidic device improves drug metabolic activity | 85 |
| Chapter 6 | Perfusion of human precision-cut tissue slices in a microfluidic device for metabolism and toxicology studies | 101 |
| Chapter 7 | A microfluidic approach for <i>in vitro</i> assessment of interorgan interactions in drug metabolism using intestinal and liver slices | 115 |
| Chapter 8 | Biocompatibility and adsorption properties of plastics to fabricate microfluidic devices for cell experiments | 137 |
| Chapter 9 | Summary, discussion and perspectives | 155 |
| Appendix | Samenvatting List of non-standard abbreviations Dankwoord Curriculum Vitae List of publications | 163 |
