Contents

Chapter 1	General introduction	9
Chapter 2	Acute and chronic inflammatory responses induced by smoking in individuals susceptible and non-susceptible to development of COPD: from specific disease phenotyping towards novel therapy. Protocol of a cross-sectional study	21
Chapter 3	Increased activation of blood neutrophils after cigarette smoking in young individuals susceptible to COPD	39
Chapter 4	Advanced glycation end products in the skin are enhanced in COPD	69
Chapter 5	Advanced glycation endproducts and their receptor in different body compartments in COPD	93
Chapter 6	Lower corticosteroid skin blanching response is associated with severe COPD	121
Chapter 7	Steroid resistance in COPD? Overlap and differential anti-inflammatory effects in smokers and ex-smokers	141
Chapter 8	Summary and General Discussion	159
Chapter 9	Nederlands samenvatting	175
	Dankwoord	183
