Improving protein stabilization by spray drying

Formulation and process development

Proefschrift

ter verkrijging van de graad van doctor aan de
 Rijksuniversiteit Groningen
 op gezag van de
 rector magnificus prof. dr. E. Sterken
 en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

maandag 11 januari 2016 om 11:00 uur

door

Niels Grasmeijer

geboren op 22 juni 1984
 te Groningen

Promotor

Prof. dr. H.W. Frijlink

Copromotor

Dr. W.L.J. Hinrichs

Beoordelingscommissie

Prof. dr. F. Picchioni

Prof. dr. ir. W.E. Hennink

Prof. dr. G. van den Mooter

Table of contents

Chapter 1	Introduction	3
Chapter 2	Unraveling protein stabilization mechanisms: vitrification and water replacement in a glass transition temperature controlled system	13
Chapter 3	Identifying critical process steps to protein stability during spray drying using an ultrasonic or a two-fluid nozzle	35
Chapter 4	A user-friendly model for spray drying to aid pharmaceutical product development	57
Chapter 5	An adaptable model for growth and/or shrinkage of droplets in the respiratory tract during inhalation of aqueous particles	83
Chapter 6	Model to predict inhomogeneous protein-sugar distribution in powders prepared by spray drying	113
Chapter 7	General discussion and perspectives	135
Appendix A	Summary	141
Appendix B	Samenvatting	147
Appendix C	Model discussed in chapter 5	153
Appendix D	Model discussed in chapter 6	163
Appendix E	Biography and list of publications	179
Appendix F	Dankwoord	183
