Flexible filter feeders

The gelatinous zooplankton community in the
Netherlands after the invasion of the ctenophore

Mnemiopsis leidyi

Lodewijk van Walraven

This research was carried out at the Marine Ecology/Coastal Systems department of the Royal Netherlands Institute for Sea Research (NIOZ) in collaboration with Deltares.

The study was funded by Stichting Deltares and Royal NIOZ (GELMESOZOO-PLANKTON project) and the EU Interreg IVa 2seas project “MEMO: *Mnemiopsis* Ecology and Modeling: Observation of an invasive comb jelly in the North Sea”
