Table of Contents

Chapter 1	General introduction	8
PART I Genetic testing in limited resources settings		
Chapter 2	Association of family risk and lifestyle/comorbidities in ovarian cancer patients.	28
Chapter 3	Germ-line mutations in <i>BRCA1</i> and <i>BRCA2</i> in epithelial ovarian cancer patients in Brazil.	40
Chapter 4	Predictability of <i>BRCA1/2</i> mutation status in patients with ovarian cancer: how to select women for genetic testing in middle-income countries.	86
PART II Optimizing ovarian cancer risk estimates		
Chapter 5	Ovarian cancer in <i>BRCA1/2</i> mutation carriers: The impact of mutation position and family history on the cancer risk.	104
Chapter 6	The association between family history of cancer and ovarian cancer risk in <i>BRCA1/2</i> mutation carriers: can it be explained completely by the mutation position on the gene?	120
PART III The consequences of RRSO		
Chapter 7	Cholesterol profile in women with premature menopause after risk reducing salpingo/oophorectomy.	144
Chapter 8	Bone mineral density and fractures after surgical menopause: a systematic review and meta-analysis.	160
Chapter 9	Summarizing discussion	210
Appendices	English summary	228
	Nederlandse samenvatting	232
	Acknowledgements	236
	About the author	241
