Kinetics and inhibition of enzymes in early stage drug discovery

A MOF and MIF symphony

Hannah Wapenaar
2017

The research described in this thesis was carried out at the Department of Chemical and Pharmaceutical Biology at the University of Groningen and was financially supported by the European Research Council (ERC starting grant 309782 awarded to FJ Dekker).

The research was carried out according to the requirements of the Graduate School of Science, Faculty of Science and Engineering, University of Groningen, The Netherlands

Printing of this thesis was financially supported by the University Library and the Graduate School of Science, University of Groningen, The Netherlands.

ISBN (ebook): 978-94-034-0285-7

ISBN (printed version): 978-94-034-0286-4

Layout and cover: Hannah Wapenaar

Printing: Ipskamp printing

Kinetics and inhibition of enzymes in early stage drug discovery

A MOF and MIF symphony

Proefschrift

ter verkrijging van de graad van doctor aan de
 Rijksuniversiteit Groningen
 op gezag van de
 rector magnificus prof. dr. E. Sterken
 en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

vrijdag 19 januari 2018 om 11.00 uur

door

Hannah Wapenaar

geboren op 4 februari 1990
 te Tilburg

Promotores

Prof. dr. F.J. Dekker

Prof. dr. H.J. Haisma

Beoordelingscommissie

Prof. dr. M. Schmidt

Prof. dr. F. Hansen

Prof. dr. G. Sbardella

Paranimphen

Hilde van der Leeden

Nikolaos Eleftheriadis

Wie heeft wijsheid?

*Wie kent de verklaring van de dingen?
De wijsheid straalt de mens van het gezicht
en verandert strenge ogen in een milde blik*

Prediker 8, 1

Who is like the wise?

*Who knows the explanation of things?
A person's wisdom brightens their face
and changes its hard appearance.*

Ecclesiastes 8, 1

Table of Contents

Chapter 1	Introduction and scope of the thesis	9
PART 1		21
Chapter 2	Experimental approaches toward histone acetyltransferase inhibitors as therapeutics	23
Chapter 3	Enzyme kinetics and inhibition of histone acetyltransferase KAT8	57
Chapter 4	The relevance of K_i calculation for bi-substrate enzymes illustrated by kinetic evaluation of a novel lysine (K) acetyltransferase 8 inhibitor	91
Chapter 5	KAT8 inhibition in a different manner	133
Chapter 6	Histone acetyltransferases: challenges in targeting bi-substrate enzymes	149
PART 2		173
Chapter 7	Discovery of inhibitors of macrophage migration inhibitory factor	175
PART 3		205
Chapter 8	Summary and future perspectives	207
	Nederlandse samenvatting	221
Appendices		229
	Acknowledgements	231
	List of publications	235
	About the author	237
