Proposal for a
COUNCIL REGULATION (EEC)

amending Regulation (EEC) N° 3950/88, allocating, for 1989, Community catch quotas in Greenland waters

(presented by the Commission)
EXPLANATORY MEMORANDUM

In the framework of the Agreement on fisheries between the European Economic Community, on the one hand, and the Government of Denmark and the local Government of Greenland, on the other, the Parties have laid down in a Protocol on the conditions relating to fishing, certain catch quantities for the Community for each year, until 31 December 1989, in Greenland waters. By regulation (EEC) N° 3950/88 the Council has allocated among Member States the shares available to the Community in 1989.

The Greenland Home Rule Authorities have for 1989 offered the Community an additional 4 000 t of the western cod stock of Greenland. During the Council meeting on 23 February 1989 the Commission was authorised to accept this offer against compensation as provided for in Article 3(2) of the Protocol on the conditions relating to fishing.

The supplementary quota available to the Community has been allocated among the Member States on the basis of the principles which were applied to the allocation of quotas in 1983.
