ADMINISTRATIVE REPORT -- UNIVERSITY PRESIDENT RICHARD E. PECK

University Richard E. Peck presented his administrative report as follows:

Survey -- UNM Faculty and Staff Perceptions of the University

Partly in response to the findings reported in the Mercer Report, President Peck asked the UNM Institute for Public Policy to conduct a random and confidential survey of UNM employees to assess faculty and staff perceptions about UNM. Institute Director and Associate Professor of Political Science Hank Jenkins-Smith summarized the findings of the survey.

Professor Jenkins-Smith said the survey had four objectives: (1) to assess job satisfaction among UNM employees; (2) to evaluate satisfaction with major UNM departments and divisions; (3) to assess employee perception of campus climate; and (4) to explain variations in employee satisfaction with UNM. The Institute interviewed a total of 849 UNM employees, including 442 staff and 407 faculty--of which 71% provided interviews, 9% refused and 20% were unavailable or unreachable. Given these sample sizes, the results of the survey have a margin of error of plus or minus 5%. The sample very closely tracks the characteristics of the entire population of employees at the University in terms of ethnicity and gender. Professor Jenkins-Smith presented some of his findings as follows:

- Job Satisfaction -- A substantial majority of staff and faculty reported that they like working at UNM and find their jobs satisfying. A majority of faculty reported that they perceived adequate opportunities for professional advancement at the University, but a plurality of staff disagreed, seeing insufficient opportunities for advancement. When asked to judge the morale of their fellow employees, faculty and staff were less sanguine, with pluralities of both groups perceiving morale at UNM as lower than that of other large organizations.
- Customer Friendliness Ratings for UNM Support Organizations -- Roughly one-half of staff and faculty respondents, on average, had interacted with any given UNM support organization, but there was considerable variation in levels of interaction with the different service organizations. With few exceptions, respondents who had at least some interaction with these organizations generally saw them as customer friendly. The UNM Libraries were especially perceived as providing a friendly service. Parking Services was seen as the least customer-friendly organization; however, Professor Jenkins-Smith cautioned that the enforcement aspect of that department may fuel that perception.
- Fear of Retaliation at UNM -- This section showed that a plurality of staff and faculty believed that the likelihood of retaliation for presenting grievances was the same at UNM as in other large organizations. Large majorities reported no direct experience of such retaliation, but a majority of staff said they had second-hand knowledge of such retaliation. Those respondents who reported that they had experienced retaliation were far more likely to report second-hand knowledge of such retaliation than were their counterparts; these respondents were also more likely to perceive UNM disciplinary policies as biased against employees.
- Perceptions of Discrimination at UNM -- Many staff and faculty respondents believed that there is ethnic, racial, and/or sex-based discrimination at UNM. Roughly a third

of faculty and staff perceived admissions discrimination, and a majority perceived employment discrimination. As a group, staff saw White, non-Hispanics and Hispanics as both benefiting and suffering from discrimination, whereas faculty more unambiguously saw White, non-Hispanics as victims and Hispanics as beneficiaries of discrimination. Large majorities of both male and female staff and female faculty who perceived sex-based discrimination reported that it hurt women, but a majority of male faculty saw this discrimination as hurting men. Respondents who perceived discrimination in the employment process tended to view it as primarily the result of social forces, rather than the unique characteristics of UNM.

A copy of the report is available at the Zimmerman Library Reserve Desk.

### Leadership/Mentorship Program

In order to provide mid-level managers with some exposure to top-level university administration, the Leadership/Mentorship Program was created last year at the suggestion of Paul Nathanson, director of Community Relations, and director of the Institute of Public Law. The three individuals selected to participate were Ricardo Maestas, Director of Minority Engineering Programs, Dr. Steven Padilla, Professor of Dermatology, and Fred Perez, Director of Leisure Services. These individuals were released from their other duties quarter-time and have spent the last year working with several vice presidents on broad University-wide issues. Some of the projects they worked on were fundraising activities, searches, town hall meetings, legislative initiatives and the University customer-service initiative. The interns also worked on the University for the Americas concept and began the process of establishing a broad mission statement with goals and objectives. They also developed a catalog of the University for the Americas projects at the University and hope to make it available on-line so that it is accessible to everyone. President Peck said the internship program will benefit these three individuals if there is somewhere in the future a promotion caused at least in part by the experience that they have now gained.

The three interns expressed their appreciation to President Peck for the opportunity to participate in this program and to work on some broad University-wide issues. They acknowledged and thanked Mr. Nathanson for being an excellent mentor throughout the year.

Responding to an inquiry by Regent Gallegos, the interns said they have gained a lot of upper-administration experience that they will be able to use as they return fulltime to their jobs. They all indicated that they would like to continue to be utilized by the faculty, staff and central administration on various projects.

Response to Nick Alarid's Administrative Review of Police Reports 94-1992 and 94-772

A committee of four officers was formed to respond to the recommendations made in the Alarid Report. President Peck said most of Mr. Alarid's recommendations are valuable and have been implemented or will be very shortly. He summarized the written response of the committee and said there are a few instances in which the committee disagrees with Mr. Alarid's recommendations. One involved a rape case which Mr. Alarid proposed should have been treated as a current rape and that a rape kit should have been performed on the victim. After 78 hours there is no hope of any medical evidence being useful and it would only resurrect for the victim that whole experience and she did not want it done. Three weeks had elapsed by the time the officers learned of it, and while they did investigate it, they did not proceed through medical stages that they might otherwise have done.

Another item about which the committee disagrees with Mr. Alarid pertains to personnel training. After talking to members of the Police Department, Mr. Alarid concluded that there is little or no training being held after graduation. The committee does not believe his perceptions about training are accurate and want to point out that he did not consult the training officer to get the accurate information. Police certification requires each sworn officer to have at least 80 hours of advanced training every two years following graduation. The committee believes the University meets this standard, and will continue to meet it.

A third item with which the committee disagrees with Mr. Alarid is his recommendation that a list of all student athletes and their coaching staffs be placed in a confidential file that the Police Department make available only to authorized personnel. The committee agrees that it is necessary for UNM to identify situations in which athletes are involved in either criminal activity or inappropriate conduct. However, they feel it is not the place of the Police Department to separate athletes or other groups of students from the student body as a whole. The committee is concerned that such a separation could lead to different treatment rather than avoid it and believe this separation is best done by the Dean of Students office. President Peck said he supports the committee's answers regarding these instances.

President Peck said the Police Department needs a number of policies. A draft policy for clarification of duties and responsibilities of police officers and another outlining criminal investigation procedures will be available on May 15, 1995.

In response to a recommendation by Regent Gallegos, the response to the Alarid Report and the policies that are being developed were referred to the Academic/Student Affairs Committee.

### Regents' Scholars

The University is graduating its first class of Regents' Scholars and most of them have been accepted into their first choice of Law, Medical or Graduate School. President Peck said he believes this may have had an impact on the current years class--it reassures them of the undergraduate education they can get at UNM. This year, the University made 18 offers and 15 accepted.

Regent President Melendres requested that President Peck and Mary Sue Coleman, Provost/Vice President for Academic Affairs, work through the Academic/Student Affairs Committee and the Finance and Facilities Committee regarding the possibility of expanding the Regents' Scholars Program.

President Peck said that there were queries from some high schools because their valedictorian did not get a Regents' Scholarship, but another student in the class did. He said it is often true that the difference between the first few students is so minuscule that in the interview process, the number three student, for example, will be selected. President Peck said that in order to recognize student achievement, beginning next year the University of New Mexico will guarantee a Presidential Scholarship to the valedictorian of each New Mexico high school.

### Semester Transfers

UNM has more transfers than first-time freshmen each year. The last two years, UNM has had roughly 2,600 transfer students and 1,600 first-time freshmen each year. Many of them are from within state, but from out-of-state, most of them are from California at 343, followed by Texas at 230 and Arizona at 190. Most in-state transfers are from T-VI at 327, followed by New Mexico State University at 188, followed by the UNM Branches at 70. UNM has become a place where students, who take a year or two elsewhere, begin to consider when they select their major.

### NCAA

President Peck said the NCAA has proposed going to a federated organization so each Division will meet and vote on items that are of specific concern to them. He said this will be voted on at the next convention, and he believes it will pass. He said university presidents have taken greater control of the financial as well as the academic issues in the NCAA.

President Peck said he has been appointed to the NCAA Budget Committee. He said the NCAA had all of its reserve funds in fixed income assets, and the committee has gone to 40% equities and 60% fixed income to try to get a little growth in an endowment that hopefully, in the long run, can start to pay some of the bills for the NCAA.

#### Catastrophic Leave Program Annual Report

The Catastrophic Leave Program is a voluntary program which allows employees to donate a portion of their annual leave to assist other employees who are experiencing an unusual or catastrophic illness and/or injury. Employees suffering from a catastrophic illness or injury often find themselves without wage support because they have exhausted their annual and sick leave accruals and do not yet qualify for the University's Long Term Disability Insurance. The first request for this program was made in November, 1993 and 29 individuals were served in the first month of the program. Three hundred thirty-two (332) employees contributed annual leave amounting to 5,400 hours. The contributions came from 47 different departments throughout the University, including UNM Gallup. The value of the contributed annual leave hours was \$56,381.

President Peck concluded his report.

#### Comments from Regents' Advisors

Regent President Melendres acknowledged and welcomed the newly elected President of the Faculty Senate, Harry Llull, and the new President for the Graduate and Professional Students Association, Ray Sharbutt.

Professor Llull said that the Faculty Senate has instructed the Faculty Senate Operations Committee to appoint a special task force to make recommendations on issues related to periodic review and evaluation of tenured faculty. The task force should bring its recommendations to the Faculty Senate by the Fall of 1995.

Ms. Marty Wilson, President of the Alumni Association, said the Alumni Association will have its annual Board meeting on June 8-9, at which time new officers will be elected. She thanked the Board for allowing her the opportunity to serve as an advisor.

\*\*\*\*\*

Regent President Melendres said that one of the items developed at the Regents' Retreat was for the Regents to try to streamline some of the issues that are subject of consent agenda consideration, and beginning this month, the format of the Regents' agenda will change to include the Consent Agenda, Discussion Items for Action and Information Items.

\*\*\*\*\*

### CONSENT AGENDA

Regent Gallegos moved that the items under the Consent Agenda be adopted by way of adoption of the recommendation of those Committees. Regent Brazil seconded the motion.

The consent agenda items are as follows:

- **APPROVAL OF RESOLUTION FOR DEFENSE INDUSTRIAL SECURITY PROGRAM**

A copy of the Resolution is hereby made a part of these minutes as Exhibit A.

- **APPROVAL OF CANDIDATES FOR DEGREES -- SPRING, 1995**

A copy of the Candidates for Degrees is hereby made a part of these minutes as Exhibit B.

- **APPROVAL OF DISPOSAL OF SURPLUS PROPERTY**

Copies of the transfer equipment list and surplus property disposal list are hereby made a part of these minutes as Exhibit C.

- **DENIAL OF REQUEST FOR DISCRETIONARY APPEAL BY CATHERINE MILLER TO BOARD OF REGENTS**

Voice vote was taken and Board members unanimously approved.

Motion carried.

## SANCTION ENHANCEMENT POLICY

Regent Brazil said the Academic/Student Affairs Committee is recommending approval of the Sanction Enhancement Policy as part of the Student Code of Conduct. The Policy will enable the Dean of Students disciplinary officer to impose enhanced sanctions when the infraction of the Student Code of Conduct has a discriminatory basis. This specifically refers to the Student Code of Conduct, Section 4.3 and the Visitor Code of Conduct, Section 4.4, which basically state the University will take into consideration any disciplinary action if some event has occurred that might have a discriminatory basis to it. Vice President Orcilia Zúñiga Forbes said the policy is a result of a series of incidents that have occurred at the University over the past few years, including racist material and graffiti.

Regent Gallegos said he was concerned because there was nothing in the Code that would put someone on notice as to what penalties can be expected for a given offense. Dean of Students' Karen Glaser explained that there is a wide range of possibilities for punishment. She said the University does not use prescribed sanctions, but could show historically what has been done in individual cases. University attorney Robert Bienstock said the courts have generally upheld policies that are not as specific as the proposed policy before the UNM Regents.

Regent Mary A. Tang said she was concerned that the language in the policy is too subjective and open to interpretation. She said it is important that the Regents approve policies that can be enforced and does not believe this policy is enforceable. Vice President Forbes explained that under the policy the disciplinary officer must show evidence that the crime was motivated by factors such as sexism or racism to substantiate the recommendation of imposing harsher penalties. University President Peck said that it is commonplace to increase penalties for hate crimes that can be so defined. Mr. Bienstock added that motive has historically been a key element in sentencing in the criminal justice system.

Regent Brazil moved approval of the Sanction Enhancement Policy with the stipulation that the Academic/Student Affairs Committee will continue to work with the Vice President for Student Affairs and the UNM Legal Counsel's Office to develop a description of how the behaviors will be categorized and the procedure that will be used to enforce the enhancement policy. Regent Rembe seconded the motion.

Voice vote was taken. Vote was 6-1 in favor of the motion with Regent Tang dissenting.

Motion carried.

\*\*\*\*\*

**REQUEST FOR DISCRETIONARY APPEAL TO BOARD OF REGENTS (FACULTY MEMBER)**

Regent Brazil moved to go into closed session for the purpose of discussing limited personnel matters on the faculty member, pursuant to Section 10-15-1-H.(2), NMSA, 1978. Regent Eric A. Thomas seconded the motion.

Voice vote was taken and Board members unanimously approved.

Motion carried.

The Board went into closed session at 12:15 p.m.

\*\*\*\*\*

Regent President Melendres called the meeting back into session at 12:40 p.m. Regent President Melendres said the individual discussed in the closed session was Professor Debra Haley.

Regent Brazil said the Academic/Student Affairs Committee met earlier in the morning with Professor Haley and her attorney regarding her appeal of the University's decision to deny tenure to her. The Committee also reviewed the information presented by Dr. Haley and met with Provost Coleman. The Committee found no basis to change the decision of the Provost denying tenure to Dr. Haley.

In accordance with the Open Meetings Act, each Regent individually acknowledged that the only item that was discussed in the closed session was the personnel item related to Debra Haley. Regent President Melendres said that during the closed session the Regents reviewed documents and discussed Dr. Haley's appeal.

Regent Brazil moved that the Board accept the recommendation of the Committee and to make no changes to the Provost's final decision in the matter of tenure for Dr. Haley. Regent Thomas seconded the motion.

Voice vote was taken and Board members unanimously approved.

Motion carried.

**REVISIONS TO 1994-95 OPERATING BUDGET PLANS**

The Finance and Facilities Committee recommended approval of the revisions to the 1994-95 operating budget plan for submission to the Commission on Higher Education. Budget Director Julie Weeks summarized the revisions as follows:

- *Realignment of budget in conjunction with creation of Health Sciences Center organization effective July 1, 1994:* When initial budgets were submitted in May 1994, the exact details of how budgets would have to be changed in order to reflect the reorganization of the administrative structure were not finalized. Thus, Nursing, Pharmacy and Dental Program expenditures were reflected in the Main Campus budget as they had always been in the past, with the understanding that realignment of appropriate revenues, transfers and expenditures would have to be initiated when the details of the organizational structure had been finalized and implications of those changes on the higher education I&G formula analyzed. All of that has now been accomplished, and UNM and the CHE have reached agreement concerning formula issues so that formula funding will not be adversely affected by this budgetary realignment.
- *Use of balances for one-time expenditures:* At the time initial budgets are submitted in May, fund balances of the previous year are not known. Once the fiscal year has been closed, fund balances can be allocated for expenditures. Expenditures against fund balances are reflected as budget revisions since the University does not allow departments to build these one-time expenditures into their recurring base budgets.
- *Increase in indirect cost revenue associated with increases in restricted grant and contract expenditures:* Per CHE guidelines, indirect cost revenue must initially be reflected as revenue in the I&G section of the University budget and can then be transferred to research or public service areas for expenditure.
- *Increases in restricted grant and contract expenditure:* The increase in Main Campus Restricted Research is necessary largely because of equipment expenses associated with the Maui Project. New projects have also been funded in the research and public service areas of the Main Campus, Health Sciences Center and Branch Campuses.
- *Transfer of the Popejoy Center operating budget from the Student Social Cultural Exhibit of the Main Campus budget to the Auxiliary Exhibit of that budget:* This is

a revision requested by the University auditor and controller.

- *Transfer of \$2,000,000 from the Renewal and Replacement fund established under UNM bond covenants to the University capital budget:* These funds had been held in reserve for future debt service but were freed up when the Board of Regents extended the student facility fee for debt service. The fee assessment had initially extended only through the year 2006.
- *Miscellaneous revisions of revenues, transfers and expenditures.*

Ms. Weaks said that of the overall increase in the budget of approximately \$50 million, nearly \$35 million or 70% is attributable to growth in restricted research funding, primarily the Maui Super Computer Project. Another \$3.5 million is an increase in Plant Fund expenditures for one-time projects.

Regent Gallegos noted that the University has already submitted one budget revision for the Athletic Department and another for the Valencia Campus. One additional budget revision in the Athletics area may be necessary in order to reflect revised revenues and expenditures associated with Athletic Department activity. If necessary, that additional revision will be brought to the Board of Regents in June. A budget revision for the University Hospital may also be presented in June.

Regent Gallegos moved approval of the revisions to the 1994-95 operating budget plans. Regent Rembe seconded the motion.

Voice vote was taken and Board members unanimously approved.

Motion carried.

\*\*\*\*\*

Regent President Melendres requested the Chair of the Finance and Facilities Committee and President Peck to begin a longer-term look at the requirements of gender equity in the athletic program and the ability to sustain all of the sports currently at the institution. President Peck said that Vice President for Business and Finance David L. Mc Kinney and Athletic Director Rudy Davalos has commenced developing a 5-year plan for the Athletic Department.

In answer to a question by Regent Gallegos, President Peck said that the NCAA membership requirement is to maintain 8 women's and 6 men's sports. He said there are three conditions for determining gender equity which an institution has to meet: one is proportionality, which almost no one meets; the second is what has been done recently to add or eliminate women's sports, and UNM fares well in that area; the third test is what the institution's plans are to achieve economic parity between men's and women's sports, and UNM has increased the proportion of funding to women's sports in order to achieve parity.

President Peck said that UNM will be checked for gender equity and fiscal responsibility in the athletic program in 1997.

#### RESOLUTION ON LABOR MANAGEMENT RELATIONS

The Finance and Facilities Committee recommended approval of the Resolution as follows:

Except as restricted by Regents' policy, all permanent staff employees are free to join and assist any labor organization of their choosing, or to participate in the formation of a new labor organization, or to refrain from any such activities, provided that such activities are not incompatible with the official duties of such University employees. The Board of Regents has adopted, and hereby affirms, policies on labor management relations for the University and UNM Hospital. (Complete copies of said policies are maintained by the University Counsel and the Human Resources Department.) Certain employees, as specified in the two referenced policies, including but not limited to administrative and supervisory personnel and faculty, may not be represented by any labor organization for the purposes of bargaining collectively with the University on wages, hours, or other working conditions.

The President of the University may adopt rules and regulations subject to approval by the Board of Regents to implement University Policy on Labor Management Relations and the UNM Hospital Labor Relations Policy, both as revised February 18, 1981.

Regent Gallegos moved adoption of the Resolution. Regent Thomas seconded the motion.

Voice vote was taken and Board members unanimously approved.

Motion carried.

\*\*\*\*\*

**CARRIE TINGLEY HOSPITAL ADVISORY GROUP MEMBER APPOINTMENT**

Regent Rembe moved approval of the appointment of Jo Day Cope to the Carrie Tingley Hospital Advisory Group. The term of appointment is from March 1995 through August 1998. Regent Gallegos seconded the motion.

Voice vote was taken and Board members unanimously approved.

Motion carried.

\*\*\*\*\*

On behalf of the Board, Regent President Melendres acknowledged Regent Thomas, who will be graduating from UNM on Saturday, May 13. Regent Thomas is a Biology major and has been accepted to the school of his first choice and will be attending the UNM School of Medicine.

\*\*\*\*\*

President Peck said of the 368 graduates at UNM Gallup, 48 students received a Bachelor of Arts or Bachelor of Science in Education and 10 received a Bachelor of Science in Nursing.

\*\*\*\*\*

**FACULTY CONTRACTS, RESIGNATIONS, RETIREMENTS AND LEAVES**

No action required by Board. Information only.

A copy of the Faculty Contracts, Resignations, Retirements and Leaves is hereby made a part of these minutes as Exhibit D.

# Commencement Notes

*The University hopes that these brief notes may be of interest to commencement guests while waiting for the ceremony to begin.*

The University of New Mexico's first commencement in 1894 took place in Grant's Opera House in downtown Albuquerque. Over the past century, the ceremonies have occurred in a number of locales, including the original Rodey Hall, Tight Grove, the Art Building Quadrangle, Zimmerman Stadium, Carlisle Gym, University Arena and Johnson Arena. One hundred and one years after that very first observance, UNM's Spring Commencement moves to University Stadium.

At that first commencement, six graduates of the Normal Department received the degree of bachelor of pedagogy. (The Territory of New Mexico had no public high schools when it created its university in 1889, so UNM's first students were teenagers in high school-equivalent courses and young people, mostly women, studying to become teachers. The first graduation of the College Department was not until several years later.)

In its first century, the University of New Mexico has grown from 108 students to nearly 25,000 on the main campus. That number swells to 31,000 with the addition of the student populations from the branch campuses in Los Alamos, Gallup and Valencia County; graduate centers in Santa Fe and Los Alamos; and the Taos Education Center. UNM has the state's only schools of law, medicine, pharmacy and architecture. Its twelve units offer 140 degrees and award 80 percent of the state's doctoral and professional degrees.

In 1892 there were seven faculty members; in 1995 there are some 1,507 full-time and 1,092 part-time faculty. They received more than \$166 million in contracts and grants for research, public service and sponsored instruction in FY '94. Faculty also published more than 2,425 books, chapters and scholarly articles (1993), and they continue to bring UNM more Fulbright grants than all but a handful of top American universities.

The first Board of Regents was appointed on September 2, 1889, and consisted of five members. Regents of the University are appointed by the Governor for terms of six years; the Governor and the State Superintendent of Public Instruction are ex-officio members of the Board. The present Board members are: Arthur Melendres, president; Penny Rembe, vice president; Barbara Brazil, secretary-treasurer; J. E. Gallegos, Mary A. Tang, Larry D. Willard and Eric Thomas.

The colorful academic procession is formed under the direction of eight faculty marshals, who wear da Vinci caps which display the colors of the University of New Mexico. Academic dress has its beginnings in the Middle Ages. When the English universities were taking form in the twelfth and thirteenth centuries, the scholars were also clerics and adopted robes similar to those of their monastic orders. Caps were a necessity in the drafty buildings, and copes or capes with hoods attached were needed for warmth. The hood was selected by these early scholars as the article to be made distinctive for

the various degrees by its color, trimming, and binding. As the universities gradually passed from the control of the ecclesiastics, costumes took on brighter hues, and even today the robes of Oxford and Cambridge remain among the most colorful of all.

The use of academic costume in the United States has been continuous since Colonial times. The idea of a well-defined system, however, did not arise until about 1893 when an intercollegiate commission was formed which prepared a uniform code for caps, gowns and hoods designed to show not only the various degrees but the sources of the degrees as well. The commission offered its code to all institutions of higher learning and it was soon adopted.

The cap, originally round, is now a square mortarboard and is the same for all degrees. Gowns and hoods, however, are markedly different for the respective degrees. The hood not only varies in length and design for the various degrees, but the color and width of the velvet binding or edging of the hood indicate the degree it represents: apricot—nursing; blue—philosophy; light blue—education; brown—fine arts; blue violet—architecture; drab—business administration; lilac—dentistry; green—medicine; sage green—physical education; olive—pharmacy; orange—engineering; pink—music; purple—law; white—arts, letters, humanities; golden yellow—science; peacock blue—public administration.

The hood not only indicates the type of degree but is lined with the official color or colors of the university conferring the degree, this to be charged with a chevron or chevrons when the institution uses more than one color. For example, the official University of New Mexico colors are cherry and silver, so the hood is lined with silver gray with a chevron of cherry red.

In the case of today's candidates for Bachelor's degrees, hoods are not worn, but the color of the cap tassel serves the same purpose in identifying the wearer's degree. Candidates for Master's degrees are hooded and have black cap tassels. Doctors are hooded and have gold cap tassels. General Honors students are identified by a silver tasseled cord worn over the academic robe.

The procession is led by the President of the Faculty Senate who carries the University Mace. The mace, originally a medieval weapon and later carried by sergeants at arms guarding kings and high church officials, gradually assumed a purely ceremonial character symbolizing authority. When used in academic processions, the mace usually precedes the entire procession.

The University of New Mexico Mace was designed and crafted for presentation at the Centennial Convocation in 1989 by Ralph Lewis, professor emeritus of art. The cherry wood staff is crowned by a silver stylized yucca blossom connected by bronze casting to a silver replica of the University seal. Views of six campus sites are etched in a silver band at the top of the wooden shaft. The foot of the mace is silver with a turquoise accent.

## TOM L. POPEJOY DISSERTATION PRIZE

*The Tom L. Popejoy Dissertation Prize of \$1,000 is awarded annually for the most distinguished doctoral dissertation written at the University of New Mexico in a given area within a three-year period. It was designed as a permanent memorial emphasizing excellence at the highest academic level, a fitting tribute to the man who did so much to further graduate education at the University of New Mexico.*

## PRESIDENTIAL SCHOLARS in Their 4th Year Who Will Graduate for the Academic Year 94-95

*For the past seventeen years Presidential Scholarships have been awarded to graduates of New Mexico high schools who come directly to the University of New Mexico to commence undergraduate education. Presidential Scholarships are funded by contributions of individuals, corporations, alumni, faculty, staff, and the University's Hugh Woodward Trust Fund. The Scholars receive their award for four consecutive years if academic standards and full-time progress toward a degree are maintained. The University is pleased that the Presidential Scholarship Program has attracted some of New Mexico's finest students to the campus. The Presidential Scholars this year are:*

## REGENTS' SCHOLARS 1995 Graduating Seniors

*In 1989 the UNM Board of Regents established the University of New Mexico Regents' Scholars Scholarship Program which provides tuition and fees, room and board, and books to fifteen freshman students selected from among the following groups: National Merit Finalists/National Achievement/National Hispanic; valedictorians; ACT composite score of 31 or higher (or SAT equivalents); students with the strongest college preparatory course work, including advanced, enriched and advanced placement courses; and a minimum sixth semester grade point average of 3.9 or higher. The award is renewable for three years if the student meets specific renewal criteria each year.*

*Regents' Scholars are each assigned one of UNM's outstanding faculty to serve as a mentor. They are admitted to the General Honors Program, receive specialized advisement and course registration privileges and represent the University at various community and University functions.*

*Congratulations to this first graduating class of UNM Regents' Scholars.*

SUBJ: Surplus Property List *BC*  
DATE: April 21, 1995

Attached please find "exhibit A", which is a list of equipment items that UNM has agreed to relinquish to NM MESA as part of a recently signed Memorandum of Understanding dated and signed by President Peck on February 23, 1995. All of the listed items were bought with NM Commission on Higher Education Special Project funds designated for NM MESA, as per Plant Fund Accounting's records. We would like to formalize this transfer of equipment with the Board of Regents approval.

Also attached, please find two copies of our most recent list of surplus property items, which require approval by the Board of Regents for disposal.

I appreciate your assistance in placing this on the agenda for approval. Thank you.
