UPM bags four awards at National Academic Awards

By Khairul Anuar Muhammad Noh

PUTRAJAYA, Sept 2 – Universiti Putra Malaysia (UPM) bagged four out of eight awards at the National Academic Awards (GLAN) 2013.

The recipients were, the first Universiti Putra Malaysia Vice Chancellor, Prof. Emeritus Tan Sri Datuk Dr. Mohd Rashdan Baba for the National Academic Personality Award and Prof. Dr. Sujakumar Mukundan from Faculty of Educational Studies for the Teaching Award (Applied Arts and Applied Social Sciences category). Other UPM recipients were Prof. Dr. Najibah Baharin from Faculty of Design and Architecture for the Arts and Creativity Award (Visual Arts/Architectural/Craft category) and Prof. Dr. Asni Idri from Faculty of Engineering for the Innovation and Product Commercialisation Award.

Prime Minister, Datuk Sri Mohd. Najib Tun Razak presented the awards to the recipients of the AAN 2013 at Putrajaya International Convention Centre here. Also present were Deputy Prime Minister Tan Sri Dato’ Sri Haji Muhyiddin bin Haji Mohd. Ariff and Minister of Education II, Dato’ Sri Siti Hasmah Mohd. Ali. UPM Vice Chancellor, Prof. Dr. Dato’ Sri Dr. Mohd. Fauzi Ramli, said AAN is dubbed as the highest government recognition to academic excellence performance.

UPM Chancellor presents PALAPES Cadet Officers Awards

By Nor Ezwan Rasidi

The innovation is a teaching tool that contains interactive games that have been devised and programmed for children between two years old. It contains contents of basic financial management elements so that the children are able to understand the concept of money more easily.

According to Fred, this kit is able to help parents and teachers in providing a preliminary understanding to children through the model of financial education activities which is compatible to their respective age as well as their development stages.
UPM establishes Integrity Unit to strengthen university governance

By Nor Ezwan Aziz

SERDANG, May 11 – Universiti Putra Malaysia (UPM) has established an Integrity Unit to strengthen the integrity and governance of UPM’s services and ensure transparency among its staff.

Vice-Chancellor, Prof. Dato’ Dr. Mohd Fauzi Ramli, said the establishment of the unit is an effort to control its internal affairs, manage integrity and curb disciplinary and ethical problems among the university’s personnel.

‘With the existence of this unit, it will be able to change the perception of the university stakeholders and ensure efficiency of service delivery by the university. In addition, the unit will operate in implementing governance strengthening and managing complaints of misconduct among the staff’, he said at the Gergasi Putra Cronusnas & Labour Day Celebration 2017 at the Great Hall, Sultan Salahuddin Abdul Aziz Shah Culture and Arts Centre, UPM.

He added, UPM has done some transformation in its talent development programmes, among others, Universiti Putra Malaysia Talent Appreciation and Culture Transformation (UMIFACT) and Talent Development Programmes for UPM Replacement Plan (UPM TOP), which are platforms to expose to the work culture of the world’s top universities.

‘This is to increase the exposure of UPM staff about the work culture practiced at international universities and learn the system to increase the quality of services at UPM’, he said.

UPM Registrar, Dato’ Wan Azram Wan Omar, said the ceremony was significantly important as it coincided with the Labour Day celebration at the university and aimed to pay tribute to the interns who have demonstrated quality achievements for the university.

‘This is the pinnacle of recognition given by the university in performing tasks and although some may not be listed as recipients of the awards, their excellence is also greatly appreciated’, he said.

At the event, Prof. Dato’ Dr. Mohd Fauzi Ramli also launched Occupasional Health and Safety Month, spearheaded by the Office of Occupational Health and Safety Management for the campus community to implement safe work practices and health care aspects in their daily activities.

Meanwhile, Prof. Dato’ Dr. Mohd Fauzi presented the Outstanding Employees Awards to the recipients in three categories: Academic Management and Professional, Prof. Dr. Wkah Haris, Non-Academic Management and Professional, Roslan Muhammad and Enforcement Officer, Yap Jong Chee, each took home RM1000 and a plaque.

He also presented awards to two students at a ceremony held in conjunction with the Sports Day and UPM Games 2017, and National Sports Games 2017 (Sukan Malaysia 2017) at the UPM Sports Centre. The recipients received RM10,000 each.

The UPM Integrity Unit was inaugurated in conjunction with the UPM Sports Day and National Games 2017 (Sukan Malaysia 2017) at the UPM Sports Centre. The recipients received RM10,000 each.

UPM bags Grand Prize at i-DeA

‘A study found that children who are exposed to the knowledge and skills in financial management since their early age would stimulate a positive impact on their financial management practices when they reach adulthood.

‘The kit is seen as an effective way to build a child’s ability to be a prudent financial manager and raise integrity’, he said.

The product also won an award in the Best Professional Kiosks category at the i-DeA 2017, a 46-metal collection (including the P460, a silver and bronze medals in various categories, both at the national and international levels. i-DeA 2017 is an international competition that empowers product innovation and creative ideas among designers, researchers and industry players.

With a theme ‘Empowering Research, Innovation, and Entrepreneurship Towards Sustainable Economy’, this competition also attracted participants from other countries.

This year’s event was held at the Deauville Putra, UTM Permaisuri.

UPM lecturer receives Merdeka Award Gran

By Nor Ezwan Aziz

KUALA LUMPUR, Sept 6 – A Senior Lecturer from Faculty of Science, Universiti Putra Malaysia (UPM), Dr. Lim Hong Ngie, received the 2014 Merdeka Award (Gran) for her achievement in inventing a kit to detect breast cancer using nano technology.

The grant recipients were announced by the Sultan of Perak, Sultan Nazrin Muizuddin Shah who is the Royal Patron of the Merdeka Award Trust here today.

In a statement issued by the 2014 Merdeka Awards Committee, said the grant creates opportunities for recipients to establish contact and working relationships with other experts in their field.

Dr. Lim was awarded by the Merdeka Award Board of Trustees to receive a short-term grant for the innovation and also qualify her to engage in any collaborative projects or programmes at a selected, internationally-recognized host institutions.

The Merdeka Award Trust, founded by PETRONAS, ExxonMobil, confers on individuals and organisations whose excellent work and achievements make an outstanding impact on the nation and its people.

In the meantime, Dr. Lim Hong Ngie Hooi, said the research that she conducted was the on-site lab strategy to detect cancer in its early stage, which is still immature.

‘The research has realized the actual application of the on-site lab strategy so that people can benefit from this technology. In addition, this can also provide immediate solution in detecting and confirming breast cancer among women in rural areas’, she said.

She also added that the strength in her research is to synthesize the components based on graphene for electrode modification to increase the electrochemical signal in detecting the presence of biomarker in the breast.

UPM Chancellor presents PALAPES Cadet Officer Awards

> From page 1

SPHAGE, Aug 29 – A Chancellor of Universiti Putra Malaysia (UPM), Prof. Dato’ Dr. Khairuddin bin Abdul Malek, presented the 2014 PALAPES Cadet Officer Awards to nine PALAPES Cadet Officers at the Registrar’s Receptacle.

Second from the left, Datin Prof. Dr. Meriam Mohd Zaidi, the overall Head of Cadet Affairs, who is also the Deputy Vice-Chancellor for Student Affairs and Advancement, and Datin Prof. Dr. Mohd Fauzi Ramli, the Deputy Vice-Chancellor for Academic Affairs and Vice-Registrar (Academic Affairs), in the centre, with the Palapes Cadet Officers.

The programme was also attended by other top UPM officials. A total of 144 PALAPES Cadet Officers were awarded out of 245 who took part in the programme.

Meanwhile, the Best Male Cadet Officer Award was won by Second Lieutenant Mohd Anuar bin Zainal Abidin while the Best Female Cadet Officer Award was won by Second Lieutenant Nurul Ayu Binti Mohd Safie, and the Best Public Relations Cadet Officer Award was won by Second Lieutenant Rizkyul Anuar bin Suhaimi.

UPM-AGROBANK sign MoU to produce more agropreneurs

By Mohammad Nukman Mastan

SERDANG, June 27 - Universiti Putra Malaysia (UPM) and Agrobank have signed a Memorandum of Understanding (MoU) to collaborate in creating entrepreneur among graduates of higher education institutions (HEIs) in agriculture.

UPM Vice-Chancellor Prof Datuk Dr Mohd Faizal Ramli said the MoU with Agrobank is important in strengthening UPM efforts in encouraging students to venture into entrepreneurship.

"With the direct assistance from the financial institution, it will help these young graduates to shape the future of the country's agricultural sector," he said in a signing ceremony of Agropreneur Incubation Programme 2014 and UPM Agrobank MoU signing here.

Agrobank President/Chief Executive Officer, Dato' Zain Mohd Fadzil Zain Usman said, it is an important joint partnership in order to achieve common goals.

"The pact that has been forged with UPM is an important initiative to create a better synergy between academia and industry, particularly for the efforts of both sides to strengthen the country's agricultural industry and provide more opportunities for young people to pursue excellent career opportunities in agro-based business," he said.

Meanwhile, Agropreneur Incubation Programme has been initiated since 2010. The programme aims to generate entrepreneurs among graduates, especially in agriculture.

Among the modules offered are crops, aquaculture, Breeding, food service management and codiscussion, and the programme is carried out for six (6) months.

Thus for the programmes have generated 8 incubation graduates between 2012 until 2013.

UPM launches first textbook on Tropical Rain Forest in Malaysia

By Mohammad Nukman Mastan

SERDANG, May 21 - Universiti Putra Malaysia (UPM) has launched the first textbook on tropical rain forest that is published in the country focusing on the tropical rain forest.

The team of authors, Prof. Dr. Jegathesan Narasingham, said the textbook was launched by Deputy Minister of Natural Resources and Environment Dato' Dr. James Dawan Mustaffa on 20th April 2014 and is sold by all readers.

"This textbook covers all aspects of the forest, including forest types, physiology, soil types, diseases, plants and animals diversity, tree identification, water resources, forest management, climatic issues, wood products, as well as minor forest products such as bamboo and rattan," he said.

The textbook of the book are experts with vast academic and industrial experiences which ensured the highest quality possible with regards to the facts in the book. For target audiences are the students in forestry at Universiti Putra Malaysia, Universiti Malaysia Sabah (UMS) and Universiti Malaya Sarawak (UNIMAS).

"UPM is currently making it a compulsory textbook for the 1st and 2nd year forestry students. The book also serves as a reference book for the research of the topic, keywords that is related to topic, main photos and graphs, learning outcomes and reference list of future reading which makes it an excellent standard textbook for the forestry curriculum," he added.

He said, with its wide coverage of topics, the textbook should be of interest to non-forestry undergraduates and the general public. The book was also reviewed by world experts in forestry sciences in Australia and New Zealand, and it has received engaging comments.

"So far, the response to the textbook is exceeded international, especially from forestry organizations in the region, Thailand, Vietnam, Philippines and Indonesia," he said. Prof. Dr. Jegathesan who has 15 years' experience in the timber industry, expressed the hope that the book would educate not only students in the field of forestry but also allow the public to get a better understanding about the tropical forest in Malaysia.

The textbook can be purchased at UPM Press for RM35.

UPM's lecturers' research paper on corporate image basks in Emerald limelight

By Kesh Gnaw De

SERDANG, May 19 - A joint research paper on corporate image by two lecturers of Universiti Putra Malaysia and their co-researcher from University of Technology Petronas has been selected by the Emerald Group Publishing as its 2013 Highly Commended Paper winner.

The research on "Building a unique online corporate identity" was led by Assoc. Prof Dr. Selim Aktay Abdulkadir, who is the director of the Centre of Entrepreneur Development at Graduate Management Education at UPM.

His co-researchers are Assoc Prof Dr Yusla Idris, who is the Departmental Director of Management and Marketing at UPM's Faculty of Economics and Management and Assoc Prof Dr Shobana MD Norlin, of the Department of Management and Humanities at University of Technology Petronas.

Their paper was chosen for the Marketing Intelligence & Planning category by the jury of the Emerald Conference, whose stated mission is to link research and practice to the benefit of society.

According to the website, the company manages a portfolio of more than 200 journals and over 5,300 books and book series. It is recognized as having extensive range of online products and additional online research resources and services.

Dr. Zulkhairi and Dr. Yusla were elated over the Emerald selection, saying that it took them about two years to complete their research and content analysis on the current state of online and offline corporate image for multinational companies in Malaysia and 24 Singaporean corporations, based on Alderson brand personality criteria.

Combining their respective fields of expertise - Dr. Zulkhairi in communication and corporate branding, Dr. Yusla in service management and Dr. Yusla in corporate communication - the trio had painstakingly analysed the online mission and vision statements of the companies and examined how the Alderson's criteria were effectively used to develop a unique corporate identity.

Dr. David A. Asher is a marketing guru and professor of marketing at the University of California at Berkeley. He said, with its wide coverage of topics, the textbook should be of interest to non-forestry undergraduates and the general public. The book was also reviewed by world experts in forestry sciences in Australia and New Zealand, and it has received engaging comments.

"So far, the response to the textbook is exceeded international, especially from forestry organizations in the region, Thailand, Vietnam, Philippines and Indonesia," he said. Prof. Dr. Jegathesan who has 15 years' experience in the timber industry, expressed the hope that the book would educate not only students in the field of forestry but also allow the public to get a better understanding about the tropical forest in Malaysia.

The textbook can be purchased at UPM Press for RM35.

UPM's international collaborative programme expands to Kazakhstan

MIETAYER, Sept 15 - UPM's international collaborative programme has expanded further abroad to include Kazakhstan. An MoU to offer the dual degree with the South Kazakhstan State University (SKSU) was signed there today.

UPM was represented by its Vice chancellor, Prof. Datuk Dr Mohd Faizal Ramli, while SKSU was represented by its Rector, Professor Zhanmorzhan Mythakybaliev. Professor Datuk Dr Faizal Faizal explained that, "UPM is committed to its internationalization as an institution, and this is good that we are serious about this." "We have been looking to add our international collaborative programme. With this MoU, we are spreading our wings to the Central Asia," he elaborated.

The MoU marks the collaboration between UPM and SKSU which had been initiated in 2010. Professor Mythakybaliev asserted that "this is an historic occasion. This is the first MoU between a Malaysian university and a Kazakhstan university."

"We believe this collaboration is most beneficial to both countries, not only in terms of international relations, but also in the implementation of joint educational programmes which will enhance our students' competitiveness in the world labour market," he added.

Beginning January 2015, both universities will be offering dual Master's and PhD degrees in the fields of Computer Science and Mathematics. Students who enrol in the programme will be able to spread a minimum of one year training and study in the partner institutions, and will receive degree certificates upon graduation.

SKSU is one of the three top universities in Kazakhstan, and is the largest regional university of South Kazakhstan. With a student population of more than 20,000, it currently offers 92 undergraduate, 95 Masters and 14 PhD programmes.

The MoU, which is between UPM, SKSU and the Kazakhstan National Technical University in Almaty (Kazakhstan's former capital), and with the I.N. Gumilev Eurasian National University in Astana, the capital city of Kazakhstan.
A Widening Stage for Pertanika JSSH
Pertanika Journal of Social Sciences & Humanities is to gain in visibility and presence in the very near future with its decision to publish papers from diverse regions. The expansion of the journal’s author pool to include writers from different regions of the world allows the journal to capitalise on the growing body of relevant and timely research coming from newer institutions around the world, thanks to the speedy delivery of information as a result of advances in technology.

Pertanika JSSH’s growth and increased visibility is a result of discussions between Chief Executive Editor, Dr Nayan Kanwal, who attended the Quality in Postgraduate Research Conference 2014 (QPR Conference 2014), and the conference secretariat. The conference was held in Adelaide, Australia from 9-14 April.

This development records the growing strength of Pertanika JSSH as a noteworthy international scholarly journal and signals a good future for the journal as a publication of academic credibility.

Pertanika JSSH Shines at MAPIM Awards
Pertanika Journal of Social Sciences & Humanities has grabbed the MAPIM-KPM Award 2013 for an article featuring the 1970 people’s movement of non-resistance to deforestation known as the ‘Chipko Movement’, which advocated the Gandhian style of peaceful protest to stop the denuding of ancient trees in the Garwhal Himalayas of Uttar Pradesh.

The winning article, “Hugging the Trees for Life: Non-violent Rhetoric of the Chipko”, was written by Shareen Mat Nayan of Universiti Sains Malaysia (USM) and bagged the prize in the category of best journal article for the Social Sciences and Humanities.

UPM Journals Eye BioMed
UPM Journals might soon have a listing under BioMed Central, a leading Springer open-access publisher, says Dr Nayan Kanwal, Chief Executive Editor. Brought into the fold of Springer in 2008, BioMed is an STM publisher that is among the first publishers to have ventured into OA publishing.

BioMed has more than 260 biology and medicine open-access listings that include journals as well as various other products and services such as Open Repository, a hosted digital repository. As a growing repository of quality scholarly articles, BioMed continues to be an asset to Springer in terms of its vast expertise and wide infrastructure.

The novel idea to link up with BioMed is the brainwave of Deputy Vice Chancellor (R&D), UPM, Prof. Mohd. Azmi Lila, after his meeting with Leo Cheung, BioMed’s Regional Publishing Manager, recently.

ASM Fellowship for JTIAS Board Members
Congratulations to Pertanika JTIAS Editor-in-Chief, Prof Tan Soon Guan, and Pertanika Editorial Board member, Prof Shamsuddin Jusop, on being awarded honorary fellowships by the Academy of Science Malaysia (ASM).

A statement from the Academy credited the recipients, who were elected together with several others, for their "outstanding contribution in the field of biological, agricultural and environmental sciences" in Malaysia.

A total of 21 new fellows were elected to the academy in its 19th general meeting in May, including Prime Minister Datuk Seri Najib Razak for his support of science and technology, which the academy asserted is the “epicentre” of the nation’s economic transformation programme.

Don’t Miss It!
Submit your paper today! Pertanika journals are indexed in SCOPUS, EBSCO, DOAJ and ISC. In addition, JST is now indexed in ERA.

Paper Submission Instructions
For the forthcoming issues in 2014-15, papers must be submitted only via the Chief Executive Editor’s office. Please feel free to contact the chief executive director at main@pertanika.edu.my for guidance on the Online submission process. Please check the journal’s profile at http://www.pertanika.edu.my/
