

Effectiveness of guideline-based care of workers with mental health problems

David Rebergen

The study presented in this thesis was conducted at the EMGO+ Institute for Health and Care Research, Department of Public and Occupational Health of the VU University Medical Center. The EMGO+ Institute participates in the Netherlands School of Primary Care Research (CaRe) which was re-acknowledged in 2005 by the Royal Netherlands Academy of Arts and Sciences (KNAW).

This study was financially supported by the Dutch Ministry of Internal Affairs and Royal Relations (BZK), the Health Insurance Agency of the Dutch Police (PolitieZorgPolis, formerly known as DGVP), the occupational health service Achmea Vitale (formerly known as Commit), and the EMGO+ Institute, VU University Medical Center.

Financial support for the printing of this thesis has been kindly provided by the EMGO+ Institute, the VU University, VTS Politie Nederland, the Netherlands Institute of Mental Health and Addiction (Trimbos Institute), Achmea Vitale, Lifeguard BV, and Ausems en Kerkvliet, arbeidsmedische adviseurs.
