

The image features a stylized, layered illustration of biological tissue. The top layer consists of wavy, fibrous structures in shades of pink and purple. Below this is a layer of cells, with the left side showing larger, more rounded cells and the right side showing smaller, more uniform cells. A white, semi-transparent rectangular box is overlaid on the top layer, containing the main title. A second, smaller white box is overlaid on the cell layer, containing a subtitle. The bottom portion of the image is a solid dark red color.
