HÁVA, J.: *Two Meloe Linnaeus, 1758 species new to Lebanon (Coleoptera: Meloidae: Meloini)*.

Abstract: Two species *Meloe (Eurymeloe) mediterraneus* J. Müller, 1925 and *Meloe (Treiodous) autumnalis autumnalis* A. G. Olivier, 1797 are newly recorded from Lebanon. A list of species is presented.

Keywords: Coleoptera, Meloidae, Meloini, *Meloe*, Lebanon, Faunistics, Palaearctic Region

Introduction

The genus *Meloe* Linnaeus, 1758 currently includes 38 species and subspecies known from Europe and Middle Asia (BOLOGNA 2008); from Lebanon known only three species (CHIKATUNOV 2000, BOLOGNA 2008). The second genus *Trichomeloe* Reitter, 1911 comprises 6 species distributed in the Mediterranean subregion, one species is known from Lebanon (BOLOGNA 2008, BOLOGNA & DI GIULIO 2008).

In the present note, two species are reported from Lebanon for the first time.

Results

Meloe (Eurymeloe) mediterraneus J. Müller, 1925 (Figs. 1)

Material examined: Lebanon, Bekaa El Gharbi, Machghara, 33°37'N 35°46'E, 14. xi.2017, 1 male. collected on the street near the house, E. Nassir-Eddin leg., J. Háva det. et. coll., M. Bologna revid.

Distribution: Species known from Europe, North Africa, And in Asia: Iran, Israel, Turkey (BOLOGNA 2008), new to Lebanon.

Figs 1-2: Habitus of the Species from Lebanon, Fig. 1: *Meloe (Eurymeloe) mediterraneus* J. Müller, 1925; Fig. 2: *Meloe (Treiodous) autumnalis autumnalis* A. G. Olivier, 1797.

***Meloe (Treiodous) autumnalis autumnalis* A. G. Olivier, 1797
(Figs. 2)**

Material examined: Lebanon, Bekaa El Gharbi, Machghara, 33°37'N 35°46'E, 10. xi.2017, 1 male. collected on the street near the house, E. Nassir-Eddin leg., J. Háva det. et. coll., S. Krejčík revid.

Distribution: Species known from Europe, in Africa: Algeria, Morocco, Tunisia, In Asia: Cyprus, Iran, Israel, Jordania, Syria and Turkey (BOLOGNA 2008), new to Lebanon.

List of species recorded from Lebanon

- Genus *Meloe* Linnaeus, 1758
Subgenus *Eurymeloe* Reitter, 1911
Species: *M. (E.) mediterraneus* J. Müller, 1925*
Subgenus *Lampromeloe* Reitter, 1911
Species: *M. (L.) cavensis* L. Petagna, 1819
Species: *M. (L.) variegatus variegatus* Donovan, 1793
Subgenus: *Meloe* s. str.
Species: *M. (M.) proscarabeus* Linnaeus, 1758
Subgenus: *Treiodous* Dugès, 1869
Species: *M. (T.) autumnalis autumnalis* A. G. Olivier, 1797*
Genus *Trichomeloe* Reitter, 1911
Species: *T. sericellus* Reiche, 1857
*new record

Acknowledgements

I am obliged very much to Eva Nassir-Eddin (Machghara, Lebanon) for providing me with the interesting material. The research was supported by the Internal Grant Agency (B0118/004), Faculty of Forestry and Wood Sciences, Czech University of Life Sciences Prague.
